Chairman's Message

During 2019, the company faced challenges from fluctuating economic and global financial conditions, international trade tensions from the trade war between the USA and China, the US's increasingly restrictive trade policies, China's decelerating economic growth and the disruptive technology trend causing changes to consumers' consumption behavior which gave rise to emerging new product or service business. Such factors had led to Thailand experiencing a general decline in her exports. The strengthening baht relative to other Asean countries contributed to the lower prices of Thailand's competitors in the region and effectively reducing the company's competitiveness thus its decreasing revenues.

Thailand's pineapple business in 2019 continuously slow down attributed to the declining pineapple situation starting from the middle of 2017 until the middle of 2018. This had led to continuing shrinking pineapple prices received by farmers who switched to planting other crops such as cassava, sugar cane, maize etc. The reduced pineapple output was insufficient to meet the factory's requirements resulting in higher pineapple prices at the factory gate in 2019 although the selling prices could not be adjusted in line with rising raw material cost as overseas customers switched to buying from Thailand's competitors such as the Philippines and Indonesia which experienced rising pineapple supply since 2016. This year, Indonesia was able to increase its production capacity thanks to normal weather conditions while the EU has granted it GSP status resulting in the country enjoying 3.5% lower import tariff than Thailand. Philippines was also granted GSP+ status by the EU resulting in the country enjoying lower import tariff by up to 18.5% compared to Thailand. Effectively, both countries enjoy a significantly lower production cost/selling price. Further compounding the situation, Thailand faced a rising cost of tin cans, labor and stronger baht resulting in higher selling prices relative to overseas competitors. As a result, the company experienced difficulty in selling its products. But thanks to product quality, good reputation, good customer service, the close cooperation between the directors and management in monitoring and assessing business risks and the emphasis on quality, services and good customer relationship, the company will be able to ride out these obstacles this year.

As for 2020, the trade war between USA and China is anticipated to deteriorate, the foreign exchange issue will remain, the continuing pineapple shortage in 2019 and Thailand's competitors' robust pineapple stock shall lead to the inability to adjust selling price by much, which shall continue to hamper Thailand's export ambition. 2020 will be another challenging year for the company's management. The company shall cautiously plan to maintain inventory to match the market demand, expand market to Eastern Europe, conduct research to expand product lines, promote the use of innovation to add value to the production process going forward.

For the operating result for the year ended September 30, 2019, the company had total income of baht 1,972.01 million and a net operating loss of baht 537.07 million. Profit from associated companies was baht 70.01 million and total net loss earned was baht 467.06 million. For comparison in the nine months ended September 30, 2018, the company had total income of baht 2,430.76 million and a net operating loss of baht 36.57 million. Profit from associated companies was baht 205.55 million and total net profit earned was baht 168.98 million.

The associated company is Eastern Seaboard Industrial Estate (Rayong) Co., Ltd. The share of profits in the financial statements of baht 70.01 million, increased from the previous year by baht 135.54 million or equal to 65.94% due to decrease revenue from the sale of real estate.

The company continues to support project activities that are useful for the society, i.e. natural and environmental conservation, improvement of life quality, health, education, sport, religion for the employees and community.

On behalf of the Board of Directors, I would like to thank all shareholders, customers, both local and international, farmers and growers of the company, financial institutions, and all our employees and related parties who have supported our operation so well. The Board of Directors, Executives and all employees shall pay high attention to develop, to progress and to make our company prosperous.

(Mr. Thien Mekanontchai)
Chairman of the Board

Audit Committee Report

Dear Valued Shareholders, Siam Food Products Public Co., Ltd.

Pursuant to the notification of the Securities and Exchange Commission of Thailand, the Audit Committee of Siam Food Public Co., Ltd. comprises three fully qualified independent directors, namely Mr. Prasit Kovilaikool, as the Chairman of the Audit Committee, Mr. Chai Jroongtanapibarn and Police General Krisna Polananta.

The Audit Committee carries out its role based on the scope of duties provided in the Audit Committee Charter. During the year 2019, the audit committee held one joint meeting between the audit committee and the external auditors without the attendance of executives and four meetings of the audit committee were held between October 2018 and September 2019. The meetings were convened together with the executives, external auditor, internal auditor and related parties in order to exchange opinions and share knowledge. The Audit Committee has reported to the Board of Directors quarterly with the following significant actions:

- Review of the quarterly financial statements, the statement of financial position and income statement for the year ended September 30, 2019 of the Company and its Subsidiary. Attend meetings with the executives and auditors to consider the financial report and to use the accounting policies to ensure that the financial statements are correctly prepared based on the financial reporting standards and the data is disclosed correctly, completely and reliably.
- Review and consider any related party transactions and transactions that may give rise to a conflict of interests, to ensure that such transactions are in the normal course of business, at arm's length, suitable to the business operations and have been disclosed correctly and completely.
- Supervision of internal control system and internal audit. Committee of this section supervised to implement a good internal control system, considered a yearly internal audit plan, provided the best practice and followed up to adjust deficiencies in order to ensure system work effectively and efficiently.
- Joint review with executive management to ensure that the company complies with the law of the Securities and Exchange Commission of Thailand, requirements of the Stock Exchange and to company law.
- Selection and appointment of the external auditors and review of the auditor's fee to be recommended to the Board of Directors for approval by the shareholders. The audit committee considers the work result, independence, knowledge and experiences of the auditors to set proper compensation.

The audit committee fulfilled the duties assigned by the Board of Directors as based on the guidelines for the audit committee provided by the Stock Exchange of Thailand. The audit committee gave the opinion that the financial statements have been properly prepared based on financial reporting standards with full disclosure and that the internal control and risk management systems are adequate and sufficient to the operations of the business. Related party transactions are disclosed correctly and the company operates according to the law, rules and related requirements.

(Mr. Prasit Kovilaikool)

Chairman of the Audit Committee

26 November 2019

Business Operation

1. Policy and overall business operations.

The company is a manufacturer and exporter of canned pineapple, pineapple juice and juice concentrate and other processed tropical fruits. It operates a multi-fruit processing factory in Chonburi Province and exports its produce under the brand of the company's customers.

Eastern Seaboard Industrial Estate (Rayong) Co., Ltd, is a joint venture company between Siam Food Products PCL. and Hemaraj Land and Development PCL. Eastern Seaboard Industrial Estate (Rayong) Co., Ltd. was set up on 3 November 1994. The company has a registered and paid up capital of Baht 358 million, 40% of which is owned by Siam Food Products PCL. Its business is to develop an industrial estate in Rayong, and to build and sell public utilities to both Thai and foreign investors.

On 27 October 2010, the company established a subsidiary company under the name of Quality Pineapple Products Co., Ltd., or QPP, whose office is located at 1 Empire Tower, 43rd Floor, South Sathorn Road, Yannawa Sub-district, Sathorn District, Bangkok 10120. QPP was established in order to support the expansion of the company's business which purchased a canned pineapple and concentrated pineapple juice factory in Hua Hin District, Prachuab Kirikhan Province.

In December 2013 the company invested in 6.88 percent of the paid-up registered capital of 4,700 million Baht of the Real Estate Investment Trust and lease rights in Ratcha Industrial "HPF" which invested in some assets of Hemaraj Industrial Estate Public Company Limited and Eastern Seaboard Industrial Estate (Rayong) Co., Ltd.

On 26 August 2015, a subsidiary company was established under the name of Siam Food (2513) Co., Ltd. with a registered capital of 1 million Baht and using the company abbreviation "SF (2513)" with its head office located at No. 1, Empire Tower, 43rd Floor, South Sathorn Road, Yannawa Sub-District, Sathon District, Bangkok 10120. The affiliate was set up to accommodate the business expansion of the company and to operate commercial and investment business such as manufacturing, supplying raw materials and expanding the investment in AEC.

The Annual General Meeting of the Shareholders No. Bor Mor Jor 24 for the year 2016 held on 22 April 2016 had considered and unanimously resolved to change ending date of Annual Accounting Period of the Company from 31st December to be 30th September of each year, starting fiscal year 2016 which will be the first year nine-month period from January to September 2016, after that a period of 12 months starting October - September for each year.

On 27 May 2019, the BOI granted promotional privilege no. 62-0535-0-00-1-0 involving industrial business type 7.8 for industrializing local area to Siam Food PCL covering 5,113 rais of land at Chonburi Province.

1.1 Vision, Mission and Common Definitions

The Board of Directors' Meeting No. 1/2020 held on November 26, 2019 has reviewed and approved the vision, mission, shared core values and short-term and long-term strategies. To guide and establish clear goals for the business of the company as follows:

The company has the following vision, mission and shared core values.

Vision

Our overriding goal is to be a modern, innovative food processing company with at least five main product groups and branded, added-value retail products that sell directly to consumers in Thailand and around the world.

We will be a leader in the pineapple industry and will grow a significant proportion of our fruit on our own plantations. Canned pineapple remains our core business, and will contribute no more than 50% of our revenue.

Mission

Siam Foods processes packaged fruit and has a high reputation for its long history as a founder of the pineapple industry in Thailand with consistently good service and quality. We are principled, ethical and loyal, following the way of our owners. We want to make the Thai pineapple industry sustainable for farmers in the long run where we can both make reasonable profits in every year.

We don't stand still and are always looking for new ways to innovate, grow and improve. We are socially responsible and provide an environment that is fair, fun and challenging with long term rewards for those that grow with us.

Our customers are from export markets all over the world. They always see Siam Foods as a reliable partner. They trust us for our quality and we develop loyalty over years so that product price alone is not always the most important factor.

Shared Core Values

Deliver Results

Get the right things done. Make things happen. Establish a track record of results and accomplishments. Be on time and be correct the first time. Quality is our priority.

Get Better

Continuously Improve. Have a "can do" attitude and find creative ways to do new things. Be innovative. Take responsibility. Never accept that what we do today is just enough.

Give Trust

Demonstrate trust to others. Care for others is to treat them with respect. Be open and genuine. Make things right when you are wrong. Give credit to others.

Have Integrity

Be honest. Keep to ethical principals. Be loyal. Act with the best intentions.

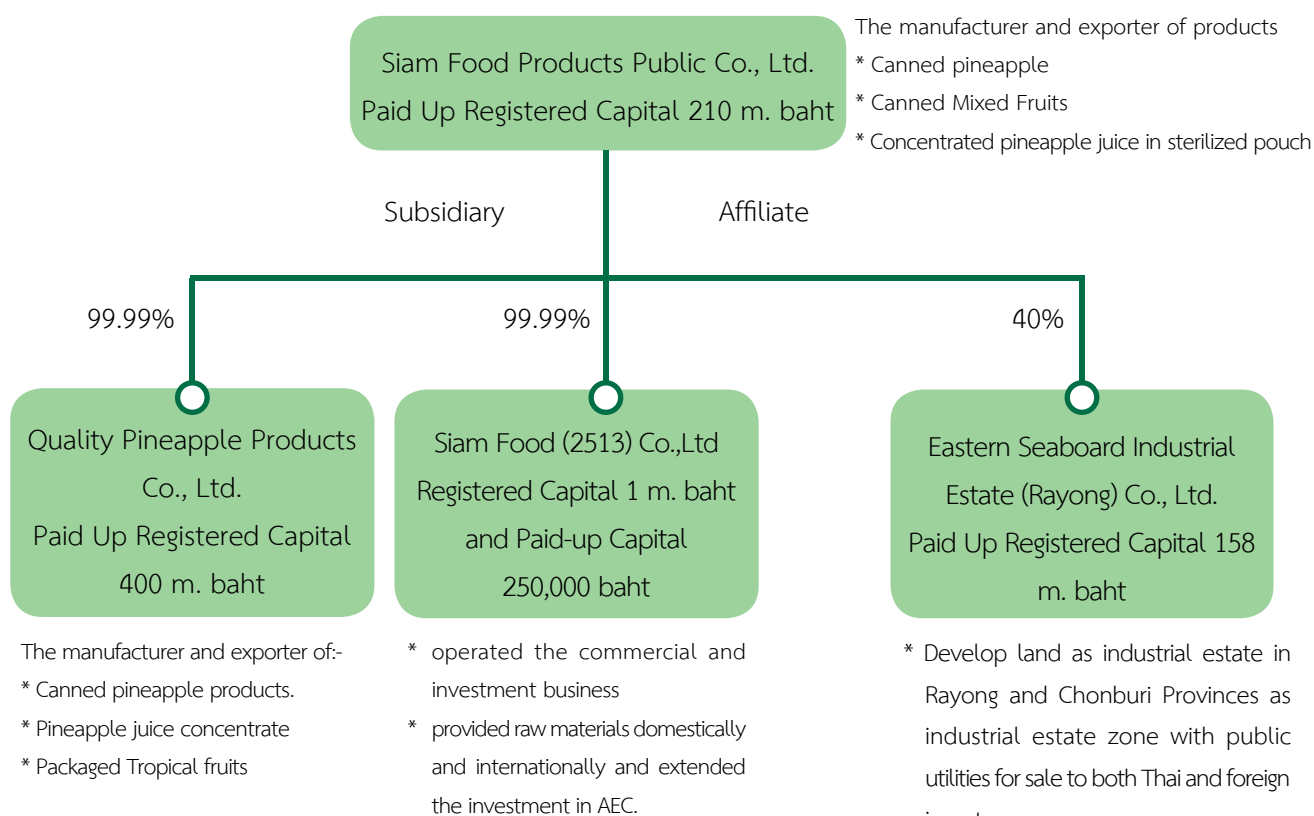

1.2 Significant developments in the preceding year

The company is committed to developing new products as per the vision of company. In the year 2019, the company commercialized production of young jackfruit products. This targets the growing trend for vegetarian foods in expert markets around the world.

The company is proud to announce that it was selected to be in the list of “Thailand Sustainability Investment” or “Sustainable stock” for 2019 by the SET. It will motivate the company to continue to develop this sustainability momentum going forward.

1.3 Shareholding structures of Siam Food Products Public Co., Ltd.

2. Nature of Business

The Company produces and exports such products as canned pineapple, pineapple juice and juice concentrate and other processed tropical fruits under our customers' own brand and under the Company's trade mark "SIAM FOOD" that has been known and recognized for over 48 years. The Company owns a pineapple plantation and cannery in Chonburi.

The company has revised its long-term business plan by investment in an industrial estate since 1995 and the establishment of Eastern Seaboard Industrial Estate (Rayong), which is a 60:40 joint venture between Hemaraj and Siam Food Products Plc. This has become a fully integrated industrial center and one of the largest automotive clusters.

Two subsidiaries were established; Quality Pineapple Products Co., Ltd. and Siam Food (2513) Co., Ltd. In order to supply raw materials and enhance long-term sustainable growth.

Business operation goal

The Company has a goal to continuously grow the pineapple business. In the year 2019, the Company planned to process more pineapple than the previous year by expanding the manufacturing base and increasing the production of the affiliate company as well as expanding the cultivation area for farmers and farms of the company both at our country and abroad and supporting contract farmers through the Siam Food Project Model in order to encourage farmers to cultivate high quality pineapple with a higher productivity per rai.

In the year 2019, the Company together with its subsidiary had market share of raw materials for production of 13.6% of the whole country.

On marketing, the company continued to apply a strategy to focus on the maintenance of the existing customer base and increase for customer in the new market by offering the products in good quality and good service as well as delivery of the products as being required to cause maximum satisfaction of the customer as well as trying to buy new products to increase the revenue base of the company.

Export Sales in the year 2019 (Oct'18 - Sep'19) to each territory as below:

- Europe: 40%
- USA: 35%
- Asia: 15%
- Oceania: 6%
- Middle East, Africa: 4%

Industrial trend and circumstance of competition in the future

In 2020, it is anticipated that the raw material output (pineapple) by the nation in general will have increased from the previous year slightly. Owing to the rise in raw material prices in the second-half of 2019, the local producers will have to scramble and compete to source raw materials to sufficiently meet the requirements of each factory.

Product selling prices shall depend on market demand and the competitors' production volume, both domestic and overseas.

As far as competition in the markets against main competitors such as Indonesia and the Philippines is concerned, Thailand is disadvantaged in terms of import tariff as the EU canceled GSP privilege for Thailand making importers in Europe which import from Thailand pay higher duty by 3.5% whereas Indonesia is exempted as well as Philippines which is also granted GSP+.

In addition, the strengthening baht relative to competitors' currencies remain the key adverse factor for Thailand export going forward.

Income Structure (Consolidated Financial Statement)

Unit : 1,000 Baht

Product	Consolidated financial statements					
	2019		2018		2017	
	Amount	%	Amount	%	Amount	%
Pineapple and other fruits	1,913,813	97.05	2,367,600	97.40	3,481,605	97.08
Other	3,996	0.20	8,465	0.35	28,923	0.81
Total sales	1,917,809	97.25	2,376,065	97.75	3,510,528	97.89
Investment income	19,059	0.97	24,879	1.02	22,729	0.63
Other income	35,143	1.78	29,818	1.23	52,925	1.48
Total Revenue	1,972,011	100.00	2,430,762	100.00	3,586,182	100.00

2.1 Business Operation of each product line

Siam Food Products Public Co., Ltd., is engaged in the business of fruit processing using agricultural products, such as, pineapple and other tropical fruits. Most products are export for sale abroad. The products of the company are as follows: -

- (1) Pineapple packed in cans, pouches and cups.
- (2) Concentrated pineapple juice in aseptic bag
- (3) Canned tropical fruits

2.2 Marketing and competitiveness

a) Marketing

All of the company's product were exported to global countries where the main important markets are Europe, North America, Asia, Middle East and others respectively, by selling directly to the end user, through importers or local agents. Most product were manufactured under the customers' trademark while some was manufactured and sold under SIAM FOOD brand.

All products of the company were manufactured under international standards, with high quality and accepted by global customers as the company has manufactured and exported for more than 48 years. All products of the company were accredited by several standards, such as, GMP, HACCP, BRC, ISO 9001, ISO 14001, Amfori BSCI, SMETA Sedex

b) Competition

(1) In 2019, the competitive situation became very severe due to overseas competitors such Indonesia and Philippines, which enjoy lower production costs relative to Thailand, increased production capacity and tried to grab market share. Nevertheless, Thailand continued to attain the highest market share and better selling prices thanks to good fruit quality, consistent volume and superior production technology/skill.

(2) Production cost and export is likely to increase. Cost of cultivation (fertilizer), minimum wage for personnel at the plant and farm coupled with transportation cost, all are forecast to go up, will be challenges facing export growth in the future. In addition, the strengthening baht vis-à-vis USD will also have a direct impact on export.

(3) The company focuses on the importance of increasing production efficiency, improving product quality and effective management including applying latest innovations to the production process to maintain its leadership in manufacturing and attainment of maximum customer satisfaction.

(4) The operating success of pineapple business in Thailand largely depends on the volume and price of pineapple cultivated each year and weather conditions. If the price is good, farmers will switch to cultivating pineapple and there will be oversupply. When the price is unattractive less land area will be devoted to pineapple plantation. As a result, canned pineapple price varies greatly depending on the demand and supply situation. Note that in 2019 Thailand has less raw materials than in 2018 while competing countries have lower cost enabling them to offer attractive prices that led to customers delaying purchases from Thailand. Consequently, the company could only succeed in minimally adjust selling prices.

2.3 Product procurement

a) Total manufacturing capacity

Manufacturing capacity and manufacturing quantity of canned pineapple

	2019	2018	2017	2016	2015	2014
	(Oct 18 - Sep 19)	(Oct 17 - Sep 18)	(Oct 16 - Sep 17)	(Jan - Sep)		
Manufacturing capacity (one thousand standard cases)	5,500	5,500	5,500	3,850	5,500	5,500

Raw material and the seller

The company procures raw material and other materials used in manufacturing both from within the country and from abroad whereby approx. 98% are raw materials in Thailand, such as, pineapple, fruits, can, paper box and label and other 2% are imported, such as, retortable pouch.

b) Environmental impact

The industry of manufacturing of pineapple in sealed containers generates waste water from the manufacturing processes which the operator is required to comply with the requirements of Factory Department, Ministry of Industry to determine Biochemical Oxygen Demand value (BOD) or oxygen value. Microorganisms are required to digest organic substances in the water so that organic substances do not exceed 20 mg./litre and the Chemical Oxygen Demand (COD) does not exceed 120 mg./Litre.

The company has a treatment capacity of 4,000 m.³/day to treat waste water with stabilization ponds on approximately 180 rai of land separated into nine treatment ponds for five processes, i.e., pump sump, three anaerobic ponds, four facultative ponds, water hyacinth pond and a

polishing pond. Wastewater shall pass along the nine ponds to adjust its pH value to achieve the standard of the Department of Industrial Factory before draining to natural source. The company has installed devices to measure the BOD outside the system on line. In addition, since November 2013 the company covered the 1st Anaerobic pond to keep the biogas to use as fuel instead of using fossil fuels. This saves about 12 million Baht per year in fuel costs, and also controls unpleasant odors.

3. Risk factors

The company engages in the food business whereby our main products are canned pineapple, pineapple in retort pouch, concentrated pineapple juice in aseptic bags, mixed tropical fruits and seasonal fruits (mangos, jackfruit).

Thailand is the worlds' largest source of pineapple for processing. The volume of pineapple produced each year will depend upon the growing area of farmers and the climate. When the pineapple price is high, the farmers will grow more pineapple, hence gradually leading to an oversupply. On the other hand, when the price goes down, the growing of pineapple will eventually decrease. The price of pineapple is, therefore, cyclical, thus affecting the price of canned pineapple under the demand and supply principle. The projection on volume and the fresh pineapple price is the key factor for the company's performance.

In 2019 we did some operational analyses and assessments to ensure achieving the Company's action plan goals, by following the COSO standard on risk management, with 4 risk types - 1. Strategy, 2. Production, 3. Marketing, and 4. Operation - defined by the Risk Management Committee, and four major risk factors as follows:

1. Risk about the raw material and strategy: As pineapple is an agricultural produce, the risk on raw material involves the volume of pineapple available which relies on weather conditions each year and this has an impact on the buying price and the company's cost of production. Even though the company has its own plantation area, serving about 18% of its overall requirements, it relies on more than 1,000 contract farmers who must achieve similar yield per rai as the company's own farms with the help of the company's strong support. The relationship between the farmers and the company goes back more than 48 years enabling the company to oversee the crop management right from the beginning at planting stage until delivery of the produce to the factory. This reduces the raw material supply risk. Moreover, the company has plans to increase plantation areas by leasing land with good potential and source more contract farmers to cultivate the land. On strategic risks, the company plans to add new products by capitalizing on the existing resources to bring about the economy of scope with the aim to increase revenues from other products.

2. Production risk: As a result of shortage of pineapple raw material in the past year causing pineapple price to rise continuously, farmers have been increasing land area devoted to pineapple plantation. In 2019, raw material prices steadily increased and it is anticipated that pineapple output will increase in the 2nd half of 2020. Nevertheless, pineapple volume for the year is expected to be lower than

normal which shall put upward pressure on the factory's buying price, in turn, delaying customers' buying decision. To reduce the risk of aged inventory, the company plans to careful control production against orders.

3. Market risk: As revenues are predominantly from export sales and the buyers import from different countries, sales are negotiated based on future delivery i.e. in 1-3 month timeframe and in certain case up to 1 year whilst raw material prices during such period may increase at the time of production, consideration on factors covering future demand/supply, output of other domestic factories and that of other competing countries such as Indonesia and Philippines are crucial to decision making on forward sales.

In addition to the above, the marketing needs to contemplate the global economy as to projecting the sales volume in each region and the risk of customers' payment. Nevertheless, most of the customers are in the long-term business relationship, thus having proven records. To reduce market risk, the company plans to:

- Manage sales and sales target by taking into account the quantity and quality of raw materials and the production plan for the whole year.
- Analyze and evaluate the value of Thai baht continuously.
- Set credit limit for each customer to prevent risk in case of default.
- Visiting Exhibitions both domestic and international to follow the global market situation and find new customers.
- Visiting foreign customers to tighten the relationship and a long-term partner.
- The currencies of rivals such as in Indonesia and Philippines have weakened vis-à-vis USD making their products cheaper than Thailand. Given this, the company must maintain its high standards and add value to the products to be able to compete.

4. Financial risk: The product sales of the company are mostly for the export, accounting for 95% of the total sales, and mainly traded in the U.S. currency, with some in Euro and Pound sterling currency. In 2019, Thai baht has strengthened considerably against the U.S. Dollar. This adversely affected the company's revenues and profits. In order to reduce exchange rate risk, the company has wisely made forward contracts with the bank.

This year we focus on strategy to reduce risk by

- Reduce production cost and focus on increasing efficiency.
- Selling price should higher than market price.
- Sale more product such as Mango, Rambutan, Jackfruit, Tropical fruit cocktail, pineapple peel.
- Understand market dynamic in order to manage sales to best advantage. Analysis market status to determine if buyers or sales market.

The activity to control risk meets the target.

4. Operating Assets

(1) Major operating assets of the Company.

As At 30 September 2019, the company had major operating assets used in the business as follows:

Description of assets	Type of Rights	Book value (in million Baht)	Obligation
1. Land Location	Owned assets	177.12	
<u>Land's Factory</u>			
- Banbung, Chonburi 1,324-1-78 Rai		23.94	No

Description of assets	Type of Rights	Book value (in million Baht)	Obligation
5. Plantation Office			
- 160/1 Moo 6 Chachoeng sao-Sattahip (Km 72 Nong Prue) Khlong Kio, Banbung, Chonburi	Owned assets	2.15	No
- 15 Moo 7 Nikhom Lam Narai,Chai Badan, Lopburi	Owned assets	1.15	No
6. Machine and equipment	Owned assets	333.06	No

(2) Investment Policy in subsidiary and holding company

Since the company had a large number of plots of land in Chon Buri and Rayong Province, some parts located in the Eastern Industrial Estate development zone which Government invested in public facilities, therefore the company sold part of its land to Land Development Company and holding in Eastern Seaboard Industrial Estate (Rayong) Co.,Ltd. in proportion of 40% at first of 158 million baht registered capital and having company director join as director in holding company as following position:1 President, 2 directors, total 3 person from 7 directors.

The previous company performance was good even during the depression in the general real estate business, but Automobile industrial still grow and also worldwide automobile company such as GM, Ford-Mazda, has invested in project of holding company,leading to other industries such as food, packaging also invested in the industrial estate

Previous business performance of Eastern Seaboard Industrial Estate (Rayong) Co.,Ltd. is as follows:

2019 Net Profit (Oct 18-Sep 19)	175.03	million Baht
2018 Net Profit (Oct 17-Sep 18)	513.87	million Baht
2017 Net Profit (Oct 16-Sep 17)	438.70	million Baht
2016 Net Profit (Jan-Sep)	178.51	million Baht
2015 Net Profit	88.50	million Baht
2014 Net Profit	659.79	million Baht
2013 Net Profit	1,869.39	million Baht
2012 Net Profit	213.59	million Baht
2011 Net Profit	150.61	million Baht
2010 Net Profit	150.66	million Baht
2009 Net Profit	59.11	million Baht
2008 Net Profit	304.09	million Baht
2007 Net Profit	215.19	million Baht
2006 Net Profit	148.38	million Baht
2005 Net Profit	203.16	million Baht

Occupational Health Policy And safety

Siam Food Public Company Limited is a leading global food manufacturer. We comit to produce and develop food products that are always safe for consumption and meet the quality of customer specifications and comply with applicable standards.

The Company sets this policy so that employees at all levels are guided by the following principles:

1. Prevent injuries and work-related diseases, including events that could cause loss of life, property and hazards at medium risk to people involved.
2. Develop a proper occupational health and safety management system and comply with legal requirements and other requirements which the company has made an agreement.
3. To prepare and review the objectives and purposes consistently with the environmental problems and risks in the intermediate level and higher.
4. To promote and encourage the trade partners and contractual parties to provide the raw materials and service to show the responsibility for compliance with the environmental, hygienic and safety standard.
5. To provide training and create the environmental, hygienic and safety awareness among the employees of all levels as well as encourage and stimulate everyone for the participation and suggest the company's activities and serious actions.

6. Improvement of the environmental, hygienic and safety management system to be continuously efficient.

To achieve the above policies, the executives shall communicate to all employees for good understanding and serious actions as well as communicate to the public, concerned parties, sub-contractor and working staff on behalf of the company.

In addition, the company has appointed the work safety, hygiene and environment committee for the thorough supervision of all employees according to the ministerial decree regarding the standard on administration and management of work safety, hygiene and environment B.E. 2549 and acts as the representative of the employer to do activities relating to the safety, budget allocation, instruction for changes, improvement of the unsafe condition and punishment upon investigation, which is found that the offensive employee does not comply with the safety rules, as well as consider the policies and plans of work safety and safety outside the work facility to prevent and reduce the accidents, dangers, sickness or troubles from working or non-safety of work, report and suggestion of the measures or guidelines for improvement being submitted to the employer etc.

The work safety, hygiene and environment committee determines the targets to reduce the accidents, work leave rate and rate of sickness from working of the company's employees formally by gathering the statistics, causes of accident and solutions, so that the employees work safely and could achieve the provided targets.

Statistics of accidents in comparison with the working hours for retrospective 3 years

	2019 (Oct18 - Sep19)	2018 (Oct17 - Sep18)	2017 (Oct16 - Sep17)
CASE	24	15	17
Day leave	130	67	105
Man hour	5,526,362	5,731,235	5,891,297
IFR (Injury Frequency Rate)	4.34	2.62	2.89
ISR (Injury Severity Rate)	23.52	11.69	17.74

Remarks: Injury Frequency Rate : IFR = Frequency rate of injury

Injury Severity Rate : ISR = Severity rate of injury

Policies and practices relating to the employee's compensation and welfares

The company manages the wage and compensation under the principles of fairness, which corresponds with the suitability for the duties, responsibilities and abilities of the individual employee as well as the fairness in comparison with the external industry for the competition in the leader's level with the external company in the same industry and comply with the company's performance in the short and long term, the Company will set clear targets for employees with a KPI to calculate annual remuneration. The employee shall receive the work assessment and explanation regularly and sincerely for the development and self improvement.

In addition, the company has the policies to support the good health of its employees for the efficient work by providing the sport center for the employees, savings cooperatives and provident reserve for savings by the employees to be used upon retirement.

Employees Development Policy

Siam Food Public Co., Ltd. has well realized that personal resource is important management factor to build the competitive advantage and to bring our organization to meet international standards. To correspond with the vision and mission of the company, the company thus rapidly develop and build management and personnel resource development system and continuous employee development as summarized as personnel resource development of the company as follows:-

1. Promote organizational culture and environment that facilitates personnel resource development to have good moral, ethic, diligent, patient and active to develop oneself to lead the company as efficient organization and encourage all employees to fully commit to perform work under their responsibilities.
2. Develop personnel resource, arrange training according to the prescribed plan by training basic course of employee at each level.
3. Quality System according to the International Standard; on the job training (OJT); Specific Vocational Course to support growth of each occupation. Management Potentiality Course for each level of superior in order to develop the potentiality of employee at each level to correspond with growth of position and to build substitute personnel. We train and develop our staff an average of 6 hours / year. However, in the year 2019 the company's employees have been trained on average 8 hours / year.
4. In addition, the Total Productive Maintenance (TPM) to continuously develop personnel resource and working efficiency by providing opportunity to all employees at all levels to participate in development and improvement of working to reduce loss and manufacturing cost. Achievement-based project operation by determining KPI across the organization with objective to develop potentiality of employees and to maintain performance of all organization to correspond with the required goals of the company for efficient team work and measurable including to adapt result of such action to improve and develop personnel and better working system development.
5. Recommend employees to save money. When employees pass probation, the company will inform and encourage them to become a member of the savings cooperative and the provident fund for the security of future employees.

9. Good Corporate Governance

9.1 Good governance policy

The Board of Directors has greatly emphasized on the compliance with good governance and good practice for the Board of Directors of the listed company according to the direction of SET and SEC, and the company has complied with the same of which in 2019, the Board of Directors had approved to improve the good governance policy of the company comply with the requirements for Listed Companies To be consistent with the criteria ASEAN Corporate Governance Scorecard (ASEAN CG Scorecard) and Corporate Governance Code (CG Code) of the SEC to be modern and consistent with the changes in the capital market society and upgrade the standard of business supervision to be higher and announced for acknowledgement and compliance of all executives and employees

The Board of Directors provides the business supervision policies of the company in writing and grants approval for the policies and compliance with the policies regularly at least 1 time per year as the content thereof was classified into five sections, as follows:-

1) Rights of the shareholders

The Board of Directors realizes and focuses on the shareholders' rights, protection of shareholders' rights and encourages all shareholders to exercise their rights by covering the basic rights according to the law and not to do acts as the violation or derogation of the shareholders' rights.

The Board of Directors encouraged and focused on the shareholders' meeting. The Board of Directors as well as the audit committee and independent directors attended the meeting and invited the concerned person to attend the meeting i.e. auditor of the company in order to provide the information for the shareholders and consider the reports adequately, including promoting and supporting all groups of shareholders, including institutional investors, attending the shareholders' meeting to exercise the right to make decisions on important matters affecting or relating to rights and benefits.

The company recorded the data, date, time, place and agenda of the meeting by giving explanations and reasons in each agenda or support the resolution as being provided in the invitation for the shareholders' meeting in advance adequately and the Board of Directors gives opportunities to the shareholders to send questions in advance before the date of meeting by providing the criteria of sending questions in advance obviously and notified the shareholders as well as sent the invitation letter for the shareholders' meeting. The company propagated the criteria of sending questions in advance on the website of the company.

The Board of Directors encouraged the shareholders, who are inconvenient to attend the meeting themselves, to exercise rights of voting by authorizing other person to attend the meeting and vote instead. The company nominated at least one independent director as the option of authorization for attending the meeting and voting instead of the shareholder. The company encouraged the shareholders to use the power of attorney in form, which the shareholders could determine the direction of voting.

The company president or chairman of the meeting notified the shareholders about the criteria used on the meeting, procedures of voting for resolution, allotting the proper time and giving opportunities to the shareholders to exercise rights equally on inquiry, expressing the opinions or suggestions to the meeting according to the agenda of the meeting and submitted manner.

The Board of Directors encouraged the use of the voting card in every agenda and provided the resolution individually for the appointment of director as well as designated the independent person to count or examine the votes on the shareholders' meeting and clearly disclosed all votes including agree, disagree and abstain to the meeting and the shareholder's meeting.

The minutes of the shareholders' meeting, which recorded the data accurately and completely, has been sent the Securities and Exchange Commission, SET, Ministry of commerce the minutes of the shareholders' meeting has been propagated within 14 days since the date of shareholders' meeting. The resolution of the meeting and the voting result in each agenda have been disclosed on SET Link of The Securities Exchange of Thailand and the company's website within 9 o' clock in the next working day.

In 2019, the company held the Ordinary Shareholders' Meeting for 2019, No. BorMorJor. 27, on 24 January 2019 and the company assigned Thailand Securities Depository Co., Ltd. who is the share registrar of the company to deliver the invitation letter to all shareholders 21 days before the Meeting date. In this regard, the name list of shareholders is available according to good corporate governance principles, item No. 9.9 compliance with good corporate governance principles in other matters section the board meeting.

2) Equal treatment of shareholders

Shareholder's meeting

The Board of Directors promoted the shareholder who is inconvenient to personally attend the Meeting to exercise its right to vote by its proxy. The company proposed at least the name of one independent director as alternative for attend the Meeting and entitled to vote on behalf of the shareholder. In this regard, the company encouraged the shareholder to use Power of Attorney in the form where the shareholder could determine voting direction. However, should the shareholder may use other form of Power of Attorney as prescribed by Department of Business Development.

The invitation letter for the shareholders' meeting is done both in Thai and English language in order to give notice of the meeting schedule together with the agenda and opinions of the Board of Directors by mean of propagation through the company's website at least thirty days before the appointed date for the shareholders' meeting.

The Board of Directors gives opportunity to the minority shareholders to add the agenda and nominate the individual to assume the position of Director as well as gives opportunity to the shareholders to send questions in advance before the date of shareholders' meeting by propagating the criteria and giving prior notice to the shareholders through the website of the company at least three months before the date of shareholders' meeting.

The Board of Directors held the shareholders' meeting based on the sequence of agenda being given in the invitation letter for the meeting and had the policies not to add the agenda in the meeting without prior notice to the shareholders, so that the shareholders have the opportunities to study the supporting data of agenda before making decision. For voting, the company provides the shareholder to vote by the number of shares held (one share: one vote) and the Scorecard in all agendas and could examine it in case of conflicts at later time.

Insider Trading policy

The Board of Directors provides the policies about the prevention of internal data use and provides the measures to ensure that the policies are acknowledged, observed and regularly follow up such as The Board of Directors has formulated Insider Trading Policy that affects the price of securities as follow: -

- The Company's Directors, executives, and employees related to insider information (including their spouses or de facto partners) shall not trade in the securities of SFP's listed companies or other listed companies related to the insider information for a period of one month prior to the publication of quarterly and annual financial statements and within a period of 24 hours following the publication.
- In addition, if the Company's Directors, executives, and employees are aware of undisclosed information that may affect the price of any securities of SFP's listed companies or other listed companies related to the insider information, they must not trade in such securities until after a period of 24 hours following the public disclosure has elapsed.
- Any person engaging in insider trading, regardless of whether it takes place during a blackout period, shall be liable to penalties in accordance with the Securities and Exchange Act B.E. 2535 by the Office of the Securities Exchange Commission (SEC).

policy of holding securities report

The Board of Directors provides the policies that the directors and executives have the duties to prepare and disclose the report to securities holding in the owns company, the spouse or de facto partners, minor children, director and executive have to report to executive board about their stock of spouse, minor children at least one day in advance before the trade is reported to publication by application letter to the company president in order to report the securities trade to the meeting of the Board of Directors on the next meeting and annual report.

Policy of Disclosure

The Board of Directors determined policy stipulating the directors and executives to prepare and disclose report of benefit of themselves including the persons related to the directors and executives to the company's secretary in order to further submit copy of such report to the President within seven days commencing from such report is received by the secretary.

In case any director or executive has a vested interest in any agenda item under consideration, such a person must not attend the meeting or must abstain from voting on such an agenda item. This is to ensure that the Board and executives make decisions in a fair manner of shareholders, in accordance with the procedures or measures for approving inter-company transactions.

The Executive Board is responsible for monitoring the results and giving advice on how execute the objectives.

Owing to the company's focus on sustainability, it was selected to be in the list of "Thailand Sustainability Investment" or "Sustainable stocks" for 2019 from the SET. The company is very proud of this award and it will motivate the company to continue to develop this sustainability momentum going forward.

The company explains the details about the policies, operation and activities with the interested parties in Clause 10: Company's Social Responsibility (CSR).

4) Disclosure of data and transparency

The Board of Directors had policy to disclose data and information both the monetary and non-monetary information related to business operation and result of operation of the company which was true, complete, sufficient, regular, in time and indicate the operating status and actual financial status of the company including the future of company's business.

The Board of Directors had duties to supervise the disclosure of company's data to be strictly in accordance with law, rules, regulation related to disclosure of date and transparency and Regular amendment takes place to ensure the company is up-to-date in its adherence to laws, regulations and obligations are correct and also assigned the company secretary to equally communicate with the shareholders, investors and general security analyst as contactable at the company office, e-mail address: pornpun.p@siamfood.co.th or Tel. 0-2287-7009 and at www.siamfood.co.th. So that the investors and the concerned persons as the shareholders and prospective shareholders could use the data to support the investment decision i.e. preparation of the Management Discussion and analysis or MD&A) to support the disclosure of the financial statements of all quarters. The investors could acknowledge the data and understand the changes occurring to the financial status and operation result of the company in each quarter better in addition to the figures data in the financial statement only.

The Board of Directors had assigned the Audit Committee which was consisted of independent director as the caretaker who is responsible for the quality of financial report and internal control system. The comment of Audit Committee about this matter was shown in report of the Audit Committee as shown in annual report.

The Board of Directors had duties and responsibilities to report their responsibilities toward financial report as shown with the auditor report in annual report.

The company has disclosed the roles and duties of the Board of Directors and sub-committee, frequency of the meeting and number of times to attend the meeting in the past year and opinions from performing the duties as well as training and continuous development of professional knowledge of the committee in the Form 56-1 and in the annual report of the company as well as propagated the certificate and company's rules in addition to the policy of good business supervision in the website of the company.

5) Responsibilities of the Board of Directors

The roles, duties and responsibilities of the Board of Directors shall be as being provided by law, Memorandum of Association, Articles of Association and resolution of the shareholders' meeting. The Board of Directors must perform the duties faithfully (Fiduciary Duties), supervise the business management of the company carefully (Duty of Care) with skills by adhering to the reasons, ethical principles, focusing on the benefits and value addition for the company. Therefore, it is necessary to supervise the management efficiently to cause the effectiveness for the company.

The Board of Directors plays important roles to provide the policies of the company jointly with the top executives, plan the short-term and long-term working as well as provides the financial policies, risk management and perspective of the organization with important roles of supervision, examination and assessment, operation of the company and performance result of the top executives to correspond with the plan systematically.

In addition, the Board of Directors appoints the sub-committee, so that the shareholders ensure that the company operated the business and did review carefully i.e. Audit Committee, Compensation & Recruitment Committee, Risk Management Committee and Good Business Supervision Committee to perform the specific duties and submit to the Board of Directors for consideration or acknowledgment.

- **Conflict of benefits**

The Board of Directors focuses on the management about the conflict of benefits which the shareholder structure shall be clear, transparent and shall not have cross-holding among major shareholders, thereby preventing any conflict of interests with any party. Also, the shareholder structure of the company and its subsidiaries shall be disclosed in the Annual report.

- **Internal Control and Internal Audit**

The company's Board of Directors places great importance on the setting of internal control systems at all levels, from the management level to the operational level. The Board of Directors set the duties and operational authority of each employee and had them put in writing. The working group and evaluation group were completely separate to ensure fairness and balance, and allow for the appropriate cross investigation between the two groups.

The audit committee was set up by the Board to consider the appropriateness of the company's internal control system and to review the results of any actions performed by both the internal auditors and the company's certified public accountant. In addition, the internal auditors met every quarter to exchange ideas and present the results of their audit. Such reports considered the relevance and effectiveness of the company's systems and operational plan as well as any limitation of responsibility. The results were later presented to the company's Board of Directors for review and approval.

The Board of Directors jointly with the audit committee did assessment of the adequacy of the internal control based on the Assessment Form provided by the Securities and Exchange Commission (SEC) by disclosing in the annual report of the company.

- **Risk management system**

The Board of Directors focuses on the risk management of the organization by providing the policy of risk management covering the work performance of the whole organization by assigning the Management to comply with the policy and report to the Board of Directors regularly as well as do the system review or assessment of the efficiency of the risk management 1 time per year. If the risk level is found to be in higher level, the Operational Section must analyze the causes and provide the guidelines for solution as well as do close and continuous follow-up. The company discloses it in the annual report and Form 56-1 of the company.

- **Connected transaction**

Board of Directors are aware of the importance of conducting business with transparency and consider all stakeholders. Therefore, the Company has set the policy and procedures for conducting connected transactions to be clear. Transparency No conflict of interest and the most benefit to the company. The Code of Conduct the Company's policy on connected transactions is the Board of Directors. The Audit Committee is responsible for considering the appropriateness of the transaction. Considering the benefits of the company as well as compliance with the law. The rules of the SEC and the SET are determined by the price and conditions as they enter into transactions with third parties under the arm's length basis, where the stakeholders are not involved in the decision. The Board of Directors is responsible for overseeing compliance with the regulations on the procedures and disclosure of transactions that may cause conflict of interests to be accurate and complete. The details of the transaction, the parties, the reasons and the necessity. Please refer to the policy on inter-company transactions, annual report and Form 56-1.

- **Mechanism to oversee the affiliate company and associated company**

The Board of Directors oversee the management of subsidiaries and associates in order to protect the interests of the company's investments in various ways as follows:

1. To assign the directors or executives of the company that have appropriate qualifications to be directors in the subsidiaries and associates at least according to the company's shareholding proportion in order to be a company representative in policy making and monitoring the business operations of subsidiaries and associates by controlling the management in accordance with the main policies of the company comply with the laws, notifications and rules of the Stock Exchange of Thailand.
2. The directors or executives representing the company are able to perform their duties in accordance with the scope of duties and responsibilities in order to protect the best interests of the company, including reporting business results or

significant changes in various areas of the subsidiaries and associates to the Board of Directors meeting every quarter. In addition, when a subsidiary or associated company will request approval for important matters such as acquisition or disposition of important assets, joint venture, capital increase and capital reduction, etc., must also be submitted to the Board of Directors for approval.

3. The company will ensure that the subsidiaries comply with the rules, regulations and notifications of the Stock Exchange of Thailand and the Office of the SEC, such as transactions between connected persons acquisition and disposition of assets or making other important transactions. Disclosure and transaction must be made in a similar manner to the rules of the company.
4. The company will ensure that the subsidiary and the company have an accurate accounting and financial reporting in accordance with relevant laws and generally accepted accounting standards and able to compile consolidated financial statements on time.
5. The company encourages its subsidiaries to strictly apply the principles of good corporate governance and business ethics, such as anti-corruption practices and Corporate Social Responsibility (CSR).
6. The company requires the internal audit department of the company to assess the effectiveness of the risk management oversight and internal control of subsidiaries and present the assessment results to the Audit Committee meeting and the Board of Directors annually.

In addition, the Board of Directors has appointed various subcommittees so that the shareholders can be confident that the company has implemented and carefully screened, namely the audit committee, Compensation and Nomination Committee, Risk Management Committee and the Corporate Governance Committee to perform specific duties and propose matters to the Board of Directors for consideration or acknowledgment.

5.1 Board of Directors' Structure

The company consists of the Board of Directors by selecting from the persons, who have the knowledge, abilities, multiple qualifications, skills and experiences of business operation such as industry knowledge, agriculture, financial accounting, management, international marketing, strategy, legal management, and other areas are people with visionary leadership and independence in decision-making. For the maximum benefit of the company and shareholders.

The Board of Directors authorized the compensation and recruitment committee to select the suitable person to assume the position of director from the persons, who have knowledge, abilities, professionalism, specific expertise and necessary skills in the committee.

by requiring the qualifications to be consistent with the business strategies of the company without restriction of sex and with qualification as being provided in the criteria of the Stock Exchange of Thailand based on the varied policy in the structure of the Board of Directors (Board Diversity).

The directors are elected from the shareholders' meeting, who determines the number of Board of Directors, 12 persons, consisting of:

- Independent Directors 4 persons
- Executive Directors 8 persons (with at least one of them female directors)

The independent Directors are the Audit Committee, and some of them are the Remuneration and Nominating Committee which is also in compliance with the requirements of The Stock Exchange of Thailand.

The Board of Directors has the agenda for assuming the position of 3 years each with the possibility for re-election. The company has not limited the position or number of the independent directors to hold the position not over 9 years because the company believes that the business-related abilities and skills of the Board of Directors do not depend on the number of positions in other companies nor length of service of the independent directors, but depend on the ability to provide the policies of business operation, consultations and solutions based on the standard expected by the company and as far as the directors could devote time for the company completely. The power of decision to elect the person to assume the position of director belongs to the rights of direct shareholders, who shall select them to perform the duties instead to provide the policies and control the company owned by them. However, the company specified the number of years to assume the position of director of each director in the annual report and on the website of the company.

5.2 Independence of the Board of Directors

The directors must have independence to express the opinions, voting and have power to make decision. In case of decision on any matter, if any director is involved, the company shall notify such director to omit voting and leave the meeting room, so that the Board of Directors could grant consideration and give opinions independently.

The independent director has the qualifications according to the announcement of the Securities and Exchange Commission of Thailand (SEC) and Stock Exchange of Thailand, so that the independent directors could be in charge of the benefits of the shareholders and the involved persons independently in proportion as 1 of 3 of the number of all directors. Most independent directors assume the positions of audit director. It results in counterbalance, and the management could be reviewed independently.

- **Gathering or separation of the position**

The President and Managing Director of the company are not the same person, and could divide the duties between the supervision of policies and duties of regular management obviously, and the Board of Directors determines the scope of power and responsibility of the President and Managing Director

differently and obviously, so that they have no unlimited power by determining the scope of power of the director as follows:

Scope of power and duties of the Chairman

1. Being responsible as the leader of the committee on the supervision monitoring and ensuring that the performance of the Board is effective and achieve the objectives and goals of the organization.
2. To ensure that all directors participate in the promotion of an ethical corporate culture and good corporate governance.
3. To set the agenda of the Board of Directors' meeting by discussing with the President and taking measures to ensure that matters are included in the agenda.
4. To allocate sufficient time to the management to provide and enough information for the directors to discuss the issues carefully, encourage directors to exercise their discretion and comment freely.
5. Strengthening good relationships between executive directors and non-executive directors, and between the board of directors and the management.
6. Acting as the chairman of meeting of the Board of Directors and shareholders of the company.
7. Acting as the final voter if the meeting of the Board of Directors does voting and the votes of 2 parties are same.

With the scope of power and duties of the President in the management structure.

5.3 Independent Committee

The Board of Directors' emphasis on Good Corporate Governance is in line with the standards and policies of The Stock Exchange of Thailand. Made up of the company's board members and management personnel, the Independent Committee was given ample opportunity to study the details and refine the works in order to come up with a highly suitable solution. Independent Committee comprises.

5.4 Roles, Duties and Responsibilities

5.9 Remuneration to Directors and Management

The company provides the policy of the director's compensation obviously and transparently by considering the operation result, responsibility of the director, financial status of the company or as being suitable and comparing the compensation of the similar industry to be good enough to attract and maintain the qualified director at that time and obtain approval from the shareholders about the paid compensation and disclose it.

• Director Remuneration

The company's remuneration policy is clear, with remuneration for the Board of Directors being based on performance and responsibilities as well as the financial well-being of the company. Also considered is the appropriateness of the remuneration package as compared to those given to directors in similar industries, so as to attract well-qualified directors to serve on the Board. The company also seeks the approval of the shareholders on this matter, before revealing the sum to the public.

• Management Remuneration

The management's remuneration is based on the policies set by the Board of Directors, taking into account both the company's performance and that of each executive, in addition to the achievement of any goals set beforehand. Also taken into consideration was the performance of other companies in the same field.

Remuneration details for the year 2019 can be found in the Remuneration Section in this document, under the sub-heading, Organization Structure. This is followed by the announcement of The Securities and Exchange Commission.

5.10 Directors' and Management knowledge

- **Directors' and Management knowledge and ability development**

The company supported the directors and high executives to attend the seminar in the course benefiting their performance both the course arranged by the training unit of the company and arranged by government or independent organization, such as, the course of Thai Institute of Directors which SEC had prescribed that the directors of listed company must successfully passed at least one course, such as, Director Certification Program (DCP); Director Accreditation Program (DAP) and Audit Committee Program (ACP) in order to apply knowledge and experience to further develop the company onwards.

- **Orientation of new directors**

The Board of Director provides the orientation of all new company directors, so that the new company directors being appointed have the opportunities to cause the knowledge and understanding of the company's business, company's policies as well as the roles, duties and responsibilities of the Board of Directors in details by providing the orientation of new directors as the explanatory document of the training, seminar and visit of the place of operation of the projects of the company, so that the company directors could experience the actual business condition of the company.

5.11 Succession Plan

The Company plans to recruit personnel in charge of senior management positions for all key positions properly and transparently to ensure that the Company has a professional management that administers independently from major shareholder or any shareholder. Then the nomination has been proposed to the Board of Directors for appointment. The recruitment process for senior executives of The Company is to consider selecting those with the right qualified candidates with good education, experience and seniority to join the team with the emphasis on getting young people who are competent to make way for everyone to be promoted to the executive level in the future. Through the evaluation process with high potential, everyone will be developed as planned individually with challenging assignments and job rotation to develop leadership skills and knowledge in all aspects. The preparation of personnel of the company is conducted with employees at all levels to be ready to replace in case of vacancies in a timely manner and for the purpose of continuous working as well.

The Board of Directors required the Managing Director to develop the personnel of the organization to be prepared to take over the position if they could not perform the duties.

Business Ethics

The company recruited the Board of Directors and executives, who have knowledge, abilities and experiences on the business with the policy of faithful management, ethics, fairness and morality. The company plans to operate the business continuously, has the relationship with all concerned parties, good understanding and responsibility for the public.

The Board of Directors state the business ethics in writing, so that the directors, executives and all employees understand the ethical standard used by the company on the business operations and strictly and continually adhere with the ethics policy.

Regarding the ethics and practices of the employee, the company announced the guideline to be observed by Directors Management team and the employee. 10. Corporate Social Responsibility

CSR-DIW Continuous Report 2019

Message from President

Siam Food Products Public Co., Ltd. believes it should be an outstanding member of the community. We commit to run our business operation by good governance, give value to all stakeholders; customers, shareholders, employees, farmers, suppliers, contractors, community, society and government.

We commit to produce high quality and safe food products. We act with integrity to improve the quality of life of our employees and farmers and we participate widely in the local community. We always comply with national laws and regulations and we always strive to comply with the standards demanded by our customers.

At Siam Food Products, we achieve prosperity in an ethical way in harmony with the land and in mindful partnership with the farmers and people that touch upon our business. This is the mindset throughout our organization.

Siam Food's bases its business on the Corporate Social Responsibility (CSR) concept of a sustainable balance of economics, society, and environment. Our CSR program has been in operation since 2011 and our Code of Conduct requires all our employees to practice and follow. Following these principles we are confident our business is sustainable and will grow in the long term.

(Mr. Graeme Cox)

President

Siam Food Products Public Co., Ltd.

CSR practice follow CSR-DIW Standard

Siam Food Products Public Co., Ltd. adheres to the principles of good corporate governance, recognizes the importance of running a business with true social responsibility, community in mind and environment concern in order to give maximum satisfaction to stakeholders of the organization and create lasting happiness in every dimension. Our Corporate Social Responsibility standards are equivalent to ISO 26000 that are consistent with the business. We have followed the main contents of the standard continuously since 2011.

CSR Practice in 2019

- Practices following CSR-DIW Standard

Siam Food Products evaluates and reviews our practices following the CSR-DIW Standard every year. In this year 2019, we fully comply 100% in five out of seven principles. The other two principles for which we do not comply 100% is because the sub-clauses do not concern our business.

— % Practice compliance to the standard in 2019

As we have followed CSR Standard for consecutive years so we received the CSR-DIW Continuous Award from the Department of Industrial Works, Ministry of Industrial on September 23rd 2019.

- CSR for Sustainable Organization

Economic Sustainability:

Siam Food Products does business on the concept of good governance and economic sustainability. We develop new products with high quality and in compliance with customer specifications using the entirety of the fruit for satisfaction of customers, consumers, business partners, shareholders and employees.

- Produce new product for export, Young jack fruit in can.

- Teaching employees to make soap.

Independent Auditor's Report

To the Shareholders of Siam Food Products Public Company Limited

Opinion

I have audited the consolidated and separate financial statements of Siam Food Products Public Company Limited and its subsidiaries (the "Group") and of Siam Food Products Public Company Limited (the "Company"), respectively, which comprise the consolidated and separate statements of financial position as at 30 September 2019, the consolidated and separate statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 30 September 2019 and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements* section of my report. I am independent of the Group and the Company in accordance with the Code of Ethics for Professional Accountants issued by the Federation of Accounting Professions that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the consolidated and separate financial statement of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Recognition of deferred tax assets	
Refer to notes 3 (v) and 25 to the financial statements	
The key audit matter	How the matter was addressed in the audit
<p>The Company have recognised deferred tax assets arising from unutilised tax losses carried forward. The recoverability of the deferred tax asset is dependent on future taxable profits and the ability to utilise those losses in the future prior to the expiry of tax losses. Because the consideration of the forecast of future taxable profits and assessing the ability to utilise those tax losses involved a significant level of judgment in determining the key assumptions of management. This area was focused on my audit accordingly.</p>	<p>My audit procedures included:</p> <ul style="list-style-type: none"> • understanding the basis of forecasting future taxable profit; • assessing the reasonableness of the key assumptions use by management in the forecast of future taxable profit by considering with the internal and external sources of information, and considering the operation plan approved by management by comparing to the actual and the historical operating results and assessed the sensitivity of the outcomes to reasonably possible changes in assumptions, including of calculation testing the future taxable profits; • evaluating the adequacy of the disclosure in accordance with Thai Financial Reporting Standards.

Valuation of investments in subsidiaries and property, plant and equipment of the Group	
Refer to notes 3 (h), 3 (j), 11 and 13 to the financial statements	
The key audit matter	How the matter was addressed in the audit
<p>The Group and the Company have the operating loss and the subsidiaries incurred cumulative losses for many years. This indicate that investments in subsidiaries and the Group's property, plant and equipment may be impair. The management considers the impairment at the reporting period by the estimated recoverable amount was based on its value in use, determined by discounting future cash flows from its operations.</p> <p>Because the projection of cash flows involved a significant level of judgment in determining the key assumptions of management. This area was focused on my audit accordingly.</p>	<p>My audit procedures included:</p> <ul style="list-style-type: none"> • understanding the process of identifying and considering the assessment of impairment on investments in subsidiaries and property, plant and equipment; • assessing the reasonableness of the key assumptions use by management in the forecast of future profit and cash flows projection by considering with the internal and external sources of information and considering the operation plan approved by management by comparing to the actual and the historical operating results, also consulted with valuation specialist relating to financial methodologies used in the calculating the estimates and discount rate; • Understanding the process and valuation methods of land and buildings, assessing the independence, competency, professional qualifications and experience of the external expert, including using the work of expert engaged by KPMG in evaluation methodologies and key assumptions of the valuation;

	<ul style="list-style-type: none"> • evaluating the sensitivity of key assumptions used in future cash flows projection which affect to the recoverable amount of cash-generating unit; • evaluating the adequacy of the disclosure in accordance with Thai Financial Reporting Standards.
--	--

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the correction be made.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the Board of Directors on 26 November 2019.

1 General information

Siam Food Products Public Company Limited, the “Company”, is incorporated in Thailand and was listed on the Stock Exchange of Thailand. The Company’s registered office at 1 Empire Tower, 43rd Floor, South Sathorn Road, Yannawa, Sathorn, Bangkok. The cannery office of the Company is located at 218 Moo 8, Super Highway Road (Sattaheep-Chachoengsao), Nong-Irun, Banbung, Chonburi.

The Company’s major shareholder during the financial year was Plantheon Company Limited, (70.85% shareholding), which is incorporated in Thailand.

The principal activities of the Group are the growing, manufacturing and distribution of processed food from agricultural products for export that consists of pineapple and other fruits segment. The main products are pineapples in can, aseptic bag and plastic bag, pineapple juice concentrate, other fruits in can and plastic cups and canned pineapple juice. Details of the Company’s subsidiaries as at 30 September 2019 and 2018 are given in note 11.

2 Basis of preparation of the financial statements

(a) Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (“TFRS”) guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission.

New and revised TFRS are effective for annual accounting periods beginning on or after 1 January 2018. The initial application of these new and revised TFRS has resulted in changes in certain of the Group’s accounting policies. These changes have no material effect on the financial statements.

In addition, the Group has not early adopted a number of new and revised TFRS, which are not yet effective for the current period in preparing these financial statements. Those new and revised TFRS that may have an impact on the Group’s operations are disclosed in note 30.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items.

<i>Items</i>	<i>Measurement bases</i>
Derivatives	Fair value
Available-for-sale investments	Fair value
Biological assets	Fair value less costs to sell
Defined benefit liability	Present value of the defined benefit obligation

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

(c) *Functional and presentation currency*

The financial statements are prepared and presented in Thai Baht, which is the Company's functional currency. All financial information presented in Thai Baht has been rounded in the notes to the financial statements to the nearest thousand unless otherwise stated.

(d) *Use of judgements and estimates*

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of the Group's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about assumption and estimation uncertainties at 30 September 2019 that have a significant risk of resulting in a material adjustments to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

Note 16	Measurement of defined benefit obligations: key actuarial assumptions; and
Note 25	Recognition of deferred tax assets: availability of future taxable profit against which deductible temporary differences and tax losses carried forward can be utilised.

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Finance Officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of TFRS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Group's Audit Committee.

When measuring the fair value of an asset or a liability (see note 2(b)), the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 9 Biological assets
- Note 12 Investment property
- Note 28 Financial instruments

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interests in an associate.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interests

Changes in the Group’s interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Interests in equity-accounted investees

The Group's interests in equity-accounted investees comprise interests in associates.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(b) Foreign currencies

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency at the exchange rates at the dates of the transactions.

Foreign currency differences are generally recognised in profit or loss.

(c) Derivatives

Derivatives are used to manage exposure to foreign exchange arising from operational activities. Derivatives are not used for trading purposes.

Derivatives are recognised initially at fair value; attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, they are remeasured at fair value. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

The fair value of forward exchange contracts is based on their listed market price, if available. If a listed market price is not available, then fair value is estimated by discounting the difference between the contractual forward price and the current forward price at the reporting date for the residual maturity of the contract using a risk-free interest rate (based on government bonds).

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

(d) *Cash and cash equivalents*

Cash and cash equivalents in the statements of cash flows comprise cash balances, call deposits and highly liquid short-term investments. Bank overdrafts that are repayable on demand are a component of cash and cash equivalents for the purpose of the statement of cash flows.

(e) *Trade and other accounts receivable*

Trade and other accounts receivable are stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(f) *Inventories*

Inventories are measured at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost principle, and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

(g) *Biological assets*

Biological assets comprise of matured pineapple fruit is separately presented under current assets in the statement of financial position, and immature pineapple plant and pineapple fruit, are separately presented under non-current assets in the statement of financial position.

Biological assets are measured at fair value less costs to sell, unless the fair value cannot be measured reliably, then biological assets shall be measured at cost less accumulated impairment losses. Gains or losses arising from changes in fair value less costs to sell of biological assets are recognised in profit or loss.

Cost of biological assets includes all costs incurred from the acquisition of biological assets and throughout the growth cycle e.g. cost of pineapple sprout, fertilizer costs, labour costs, overhead costs and other cropping costs. Biological assets mainly used as raw materials to produce goods for sale that will be transferred to raw materials costs when they are harvested or cost of sale when they are sold at fair value at the point of harvest.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

(h) Investments

Investments in an associate and subsidiaries

Investments in an associate and subsidiaries in the separate financial statements of the Company are accounted for using the cost method. Investment in an associate in the consolidated financial statements is accounted for using the equity method.

Investments in other debt and equity securities

Debt securities and marketable equity securities held for trading are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in profit or loss.

Debt securities that the Group has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are stated at amortised cost, less any impairment losses. The difference between the acquisition cost and redemption value of such debt securities is amortised using the effective interest rate method over the period to maturity.

Debt securities and marketable equity securities, other than those securities held for trading or intended to be held to maturity, are classified as available-for-sale investments. Available-for-sale investments are, subsequent to initial recognition, stated at fair value, and changes therein, other than impairment losses and foreign currency differences on available-for-sale monetary items, are recognised directly in equity. Impairment losses and foreign exchange differences are recognised in profit or loss. When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is recognised in profit or loss. Where these investments are interest-bearing, interest calculated using the effective interest method is recognised in profit or loss.

Equity securities which are not marketable are stated at cost less any impairment losses.

The fair value of financial instruments classified as held-for-trading and available-for-sale is determined as the quoted bid price at the reporting date.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognised in profit or loss.

If the Group disposes of part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

(i) Investment properties

Investment properties are properties which are held to earn rental income, for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Investment properties are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the investment property and other costs directly attributable to bringing the investment property to a working condition for its intended use and capitalised borrowing costs.

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each property. The estimated useful lives are as follows:

Land improvement	5 years
Buildings, other constructions and equipment	5 - 20 years

The Group does not depreciate the investment property - land

(j) *Property, plant and equipment*

Recognition and measurement

Owned assets

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gains and losses on disposal of item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised in profit or loss.

Leased assets

Leases in terms of which the Group substantially assumes all the risk and rewards of ownership are classified as finance leases. Equipment acquired by way of finance leases is capitalised at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the profit or loss.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. The estimated useful lives are as follows:

Land improvements	5 years
Buildings, other constructions and building improvements	5 - 20 years
Machinery and equipment	5 - 20 years
Machinery and equipment for rent	15 years
Furniture, fixtures and office equipment	5 years
Vehicles	5 years

No depreciation is provided on freehold land or assets under construction and installation.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

As at 30 September 2018, the Company has reviewed the useful lives of machinery and equipment for rent which presented under "Property, plant and equipment". The Company's management believes that the extend useful lives of the assets for another 15 years from 1 October 2018, are more appropriate since they are consistent with their revised expected utility to the Company.

The Company applied the changes on estimates prospectively. This change have no material effect on the statement of financial position as at 30 September 2018 and statement of comprehensive income for the year ended 30 September 2018.

(k) Intangible assets

Intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Amortisation

Amortisation is based on the cost of the asset, or other amount substituted for cost, less its residual value.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for the current and comparative periods are as follows:

Software license	5 years
------------------	---------

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(1) Impairment

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For intangible assets that has indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss. The impairment loss is recognised in profit or loss unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the value of the asset is impaired, the cumulative loss that had been recognised directly in equity is recognised in profit or loss even though the financial asset has not been derecognised. The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss.

Calculation of recoverable amount

The recoverable amount of held-to-maturity securities carried at amortised cost is calculated as the present value of the estimated future cash flows discounted at the original effective interest rate.

The recoverable amount of available-for-sale financial assets is calculated by reference to the fair value.

The recoverable amount of a non-financial asset is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss. For financial assets carried at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognised in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognised in other comprehensive income.

Impairment losses recognised in prior periods in respect of other non-financial assets are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(m) Interest-bearing liabilities

Interest-bearing liabilities are recognised as stated in the agreement.

(n) Trade and other accounts payable

Trade and other accounts payable are stated at cost.

(o) Employee benefits

Contribution plans

Obligations for contributions to contribution plans are expensed as the related service is provided.

Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount.

The calculation of defined benefit obligations is performed by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any application minimum funding requirements.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in other comprehensive income. The Group determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(p) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(q) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts and volume rebates.

Sale of goods and services rendered

Revenue is recognised in profit or loss when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods. Service income is recognised as services are provided.

Freight income

When the Group acts in the capacity of an agent rather than as the principal in a transaction, the revenue recognised is the net amount of freight made by the Group.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

(r) *Rental income*

Rental income from investment property is recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income. Contingent rentals are recognised as income in the accounting period in which they are earned.

(s) *Investment income*

Investment income comprises dividend and interest income from investments and bank deposits. Dividend income is recognised in profit or loss on the date the Group right to receive payments is established. Interest income is recognised in profit or loss as it accrues.

(t) *Finance costs*

Interest expenses and similar costs are charged to profit or loss for the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to be prepared for its intended use or sale.

(u) *Lease payments*

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Group the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Group's incremental borrowing rate.

(v) *Income tax*

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that items recognised directly in equity or in other comprehensive income.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(w) *Basic earnings (loss) per share*

The Group presents basic earnings (loss) per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

(x) *Related parties*

Related parties are a person or entity that has direct or indirect control or joint control, or has significant influence over the financial and managerial decision-making of the Group; a person or entity that are under common control or under the same significant influence as the Group; or the Group has direct or indirect control or joint control or has significant influence over the financial and managerial decision-making of a person or entity.

(y) *Segment reporting*

Segment results that are reported to the Group's CEO (the chief operating decision maker) include items directly attributable to a segment.

4 Related parties

Relationships with an associate and subsidiaries are described in notes 10 and 11. Other related parties that the Group had significant transactions with during the year were as follows:

Name of entities	Country of incorporation/ nationality	Nature of relationships
Planteon Co., Ltd.	Thailand	Major shareholder and common directors
Indara Insurance Public Company Limited	Thailand	Common group of major shareholder
Horeca Management Co., Ltd.	Thailand	Major shareholder have common directors
United Products Co., Ltd.	Thailand	Major shareholder have common directors
Havi Logistics (Thailand) Co., Ltd.	Thailand	Major shareholder have common directors
Southeast Capital Co., Ltd.	Thailand	Common directors with major shareholder of the Company
Southeast Insurance Public Company Limited	Thailand	Common directors with major shareholder of the Company
Concept Land 2 Co., Ltd.	Thailand	Director's relative is indirectly principal shareholder
T.C.C. Commercial Property Management Co., Ltd.	Thailand	Director is relatives with director of major shareholder of the Company
Top Asset Security and Service Co., Ltd.	Thailand	Common directors
Lake View Golf and Yacht Club Co., Ltd.	Thailand	Common directors
T.C.C. Technology Co., Ltd.	Thailand	Common directors
Deesermkit Co., Ltd.	Thailand	Common directors
Terragro Fertilizer Co., Ltd.	Thailand	Common directors
Thip Sugar Kamphaengphet Co., Ltd.	Thailand	Common directors

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

9 Biological assets

Biological assets as at 30 September were as follow:

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	<i>(in thousand Baht)</i>			
Current biological assets				
Biological assets-matured pineapple fruit	10,923	12,585	10,923	12,585
Non-current biological assets				
Biological assets-immature pineapple plant and pineapple fruit	134,410	102,488	92,065	78,245
Total	145,333	115,073	102,988	90,830

Movements in biological assets during the years ended 30 September were as follow:

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	<i>(in thousand Baht)</i>			
At 1 October 2018/2017	115,073	136,691	90,830	115,770
Increase from cropping	145,553	137,378	127,141	123,990
Depreciation of plant and equipment	3,736	3,827	2,377	2,469
Decrease from harvest/sale at fair value	(133,945)	(99,542)	(132,288)	(94,111)
Gains (losses) on remeasuring biological assets	14,916	(63,281)	14,928	(57,288)
At 30 September	145,333	115,073	102,988	90,830

Biological assets-matured pineapple fruit are measured at fair value less costs to sell. Biological assets-immature pineapple plant and pineapple fruit, are measured at cost less accumulated impairment losses because these biological assets do not have quoted market prices. In particular, the market prices or fair values at present condition of the biological assets are unavailable; and valuation based on a discounted cash flow method is considered unreliable given the uncertainty with respect to external factors such as climate, which has changed dramatically, affects the output, future selling price, etc.

An analysis of the estimates of physical quantities of the group's biological assets as at 30 September are as follows:

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	<i>(unit)</i>			
Immature pineapple plant (in thousand plants)	20,869	20,529	19,333	19,500
Immature pineapple fruit (tons)	8,322	5,793	7,772	5,543
Matured pineapple fruit (tons)	1,828	3,907	1,828	3,907

The estimates of physical quantities of the group's biological assets were based on experience and historical data. The Group estimates the physical quantities of biological assets-matured pineapple fruit using actual weight that can be harvested during the one-month from reporting date, and quantities of biological assets-immature pineapple fruit using expected weight that can be harvested during the five-month from reporting date.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Measurement of fair value

Fair value hierarchy

The fair value of biological assets-matured pineapple fruit was estimated by the Group's relevant finance department and operations team, based on purchase prices of pineapple fruit at the front of the Group's factory less estimated transportation cost from each region.

The fair value measurement for biological assets has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Valuation technique and significant unobservable inputs

The following table shows the valuation technique used in measuring the fair value of biological assets, as well as the significant unobservable inputs used.

Valuation technique	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Market comparison approach	Reference purchase prices of pineapple fruit at the front of the Group's factory. <ul style="list-style-type: none"> Matured pineapple fruit Baht 5.98 per kilogram 	The estimated fair value increase (decrease) Baht 1.09 million if the price at harvest on the reporting date are higher (lower) 10%

The fair value of investment properties as at 30 September 2019 of Baht 132.76 million (2018: Baht 132.76 million) was determined by independent professional valuers, by considering the market values on an existing use basis.

Investment properties comprised of a plot of land and land improvement, buildings, other constructions and building improvements for rent which is in considering the new lessee.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Measurement of fair value

Fair value hierarchy

The fair value of investment property was determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued.

The fair value measurement for investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Valuation technique and significant unobservable inputs

The following table shows the valuation technique used in measuring the fair value of investment property, as well as the significant unobservable inputs used.

<u>Valuation technique</u>	<u>Significant unobservable inputs</u>	<u>Inter-relationship between key unobservable inputs and fair value measurement</u>
Cost approach	Current replacement cost	The estimated fair value increase (decrease) if the replacement cost is higher (lower)

Defined benefit plan

The Group and the Company operate a defined benefit plans based on the requirement of Thai Labour Protection Act B.E 2541 (1998) to provide retirement benefits to employees based on pensionable remuneration and length of service.

The defined benefit plans expose the Group to actuarial risks, such as longevity risk and interest rate risk.

Actuarial losses recognised in other comprehensive income arising from:

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	<i>(in thousand Baht)</i>			
Demographic assumptions	(6,747)	-	(6,747)	-
Financial assumptions	1,124	-	1,124	-
Experience adjustment	15,945	91	16,438	91
Total	10,322	91	10,815	91

On 5 April 2019, the Labor Protection Act was amended to include a requirement that an employee, who is terminated after having been employed by the same employer for an uninterrupted period of twenty years or more, receives severance payment of 400 days of wages at the most recent rate. The Group has therefore amended its retirement plan in accordance with the changes in the Labor Protection Act in 2019. As a result of this change, the provision for retirement benefits as at 30 September 2019 well as past service cost recognised during the year then ended in the consolidated and separate financial statements increased by an amount of Baht 13.87 million.

Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	<i>(%)</i>			
Discount rate	2.53 - 3.34	2.71 - 3.21	2.53	2.71
Future salary growth	4.00 - 5.00	4.00 - 5.00	4.00	4.00
Employee turnover	0.00 - 20.00	0.00 - 20.00	0.00 - 20.00	0.00 - 17.00

Assumptions regarding future mortality have been based on published statistics and mortality tables.

At 30 September 2019, the weighted-average duration of the defined benefit obligation was 10 years to 14 years (2018 : 11 years to 16 years).

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Consolidated financial statements		Separate financial statements	
	Increase	Decrease	Increase	Decrease
	<i>(in thousand Baht)</i>			
At 30 September 2019				
Discount rate (1% movement)	(10,245)	3,565	(9,935)	3,194
Future salary growth (1% movement)	3,423	(10,254)	3,020	(9,910)
Employee turnover rate (1% movement)	(7,931)	823	(7,774)	643
	Consolidated financial statements		Separate financial statements	
	Increase	Decrease	Increase	Decrease
	<i>(in thousand Baht)</i>			
At 30 September 2018				
Discount rate (1% movement)	(7,274)	4,612	(6,946)	4,219
Future salary growth (1% movement)	6,005	(8,553)	5,501	(8,218)
Employee turnover rate (1% movement)	(6,142)	3,263	(6,085)	3,200

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Share premium

Section 51 of the Public Companies Act B.E. 2535 requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). Share premium is not available for dividends distribution.

18 Reserves

Reserves comprise:

Appropriations of profit and/or retained earnings

Legal reserve

Section 116 of the Public Companies Act B.E. 2535 requires that a company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividends distribution.

Other components of equity

Fair value changes in available-for-sale investments

The fair value changes in available-for-sale investments account within equity comprises the cumulative net change in the fair value of available-for-sale investments until the investments are derecognised or impaired.

Movements in reserves

Movements in reserves are shown in the statements of changes in equity.

19 Segment information

Management considers that the Group operates in a single line of business, namely pineapple business, and has, therefore, only one reportable segment.

Geographical segments

Operating units of the Group are located in Thailand. Most of the product produced from these units are directly exported to external customers.

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers. Segment assets are based on the geographical location of the assets.

The tax losses will expire during 2020 and 2023. The Group has recognised tax losses as deferred tax assets because the management considers that it is probable that future taxable profit will be available against which such losses can be used. The management has business plan to decrease tax losses and increase the operating efficiency. These were following the Group's business plan to increase the Group's profit from operating activities in the future.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Deferred tax assets have not been recognised in respect of the following items:

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	<i>(in thousand Baht)</i>			
Inventories	17,399	-	17,233	-
Investment in a subsidiary	-	-	40,579	40,579
Loss carry forward	124,798	36,368	74,584	-
Total	142,197	36,368	132,396	40,479

The above tax losses of a subsidiary will expire during 2020 to 2024. The Group have not been recognised deferred tax assets in respect of these items because it is not possible future taxable profit will be utilised against this deferred tax assets.

At the Annual General Meeting of Shareholders' Meeting held on 24 January 2019, the shareholders' meeting approved the appropriation of dividend of Baht 8.00 per share, amounting to Baht 168.00 million. The dividend was paid to shareholders on 15 February 2019.

At the Annual General Meeting of Shareholders' Meeting held on 24 January 2018, the shareholders' meeting approved the appropriation of dividend of Baht 16.50 per share, amounting to Baht 346.50 million. In June 2017, the Company paid an interim dividend of Baht 6.50 per share, amounting to Baht 136.50 million. The remaining dividend payment shall be Baht 10.00 per share, amounting to Baht 210.00 million. The dividend was paid to shareholders on 16 February 2018.

28 Financial instruments

Financial risk management policies

The Group is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties. The Group does not hold or issue derivatives for speculative or trading purposes.

Risk management is integral to the whole business of the Group. The Group has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. The management continually monitors the Group's risk management process to ensure that an appropriate balance between risk and control is achieved.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Capital management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board monitors the return on capital, which the Group defines as result from operating activities divided by total shareholders' equity, excluding non-controlling interests and also monitors the level of dividends to ordinary shareholders.

Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's operations and their cash flows because debt securities and loan interest rate are mainly fixed. The Group is primarily exposed to the interest rate risk is included in note 14. The Group mitigates this risk by ensuring that the majority of its debt securities and borrowings are at fixed interest rates.

The interest rates of debt securities and loans receivable as at 30 September and the periods in which the loans receivable and debt securities mature or re-price were as follows:

	Interest rate (% per annum)	Within 1 year	Consolidated financial statements		Total
			After 1 year but within 5 years (in thousand Baht)	After 5 years	
2018					
Current					
Debt securities	4.41 - 4.92	177,472	-	-	177,472
			Separate financial statements		
			After 1 year but within 5 years (in thousand Baht)	After 5 years	Total
2019

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Foreign currency risk

The Group is exposed to foreign currency risk relating to sales which are denominated in foreign currencies. The Group primarily utilises sale forward exchange contracts with maturities of less than one year to hedge such financial assets denominated in foreign currencies. The sale forward exchange contracts entered into at the reporting date also relate to anticipated sales, denominated in foreign currencies, for the subsequent period. The Group is also exposed to foreign currency risk relating to purchases which are denominated in foreign currencies and at the reporting date there were no significant concentrations of foreign currencies risk.

At 30 September, the Group and the Company were exposed to foreign currency risk in respect of financial assets and liabilities denominated in the following currencies:

	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
	(in thousand Baht)			
<i>United States Dollars</i>				
Cash and cash equivalents	124	133	124	133

Estimated forecast sales	546,945	740,098	546,945	740,098
Gross exposure	661,502	863,326	661,502	863,326
Currency forwards sales	(74,677)	(179,786)	(74,677)	(179,786)
Net exposure	586,825	683,540	586,825	683,540
<i>Euro</i>				
Trade accounts receivable	3,491	3,110	3,491	3,110
Gross balance sheet exposure	3,491	3,110	3,491	3,110

Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or a counterparty to settle its financial and contractual obligations to the Group as and when they fall due.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position. However, due to the large number of parties comprising the Group's customer base and long term business with most customers. Management does not anticipate material losses from its debt collection.

Liquidity risk

The Group's monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Carrying amount and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Other agreement

Sale of finished goods forward contracts

As at 30 September 2019, the Company had entered into several sale of finished goods forward contracts with overseas companies totaling Baht 546.95 million (2018: Baht 740.10 million).

30 Thai Financial Reporting Standards (TFRS) not yet adopted

New and revised TFRS, which are expected to have a material impact on the consolidated and separate financial statements when initially adopted, and which will become effective in annual reporting periods beginning on or after 1 January in the year indicated in the following table:

TFRS	Topic	Year effective
TFRS 7*	Financial Instruments: Disclosures	2020
TFRS 9*	Financial Instruments	2020
TFRS 15	Revenue from Contracts with Customers	2019
TFRS 16	Leases	2020
TAS 32*	Financial Instruments: Presentation	2020
TFRIC 16*	Hedges of a Net Investment in a Foreign Operation	2020
TFRIC 19*	Extinguishing Financial Liabilities with Equity Instruments	2020

* TFRS - Financial instruments standards

(a) TFRS 15 Revenue from Contracts with Customers

Under TFRS 15, the Group recognises revenue when a customer obtains control of the goods or services in an amount that reflects the consideration to which the Group expects to be entitled, excluding those amounts collected on behalf of third parties, value added tax and after deduction of any trade discounts and volume rebates. Judgement is required in determining the timing of the transfer of control for revenue recognition - at a point in time or over time. When this TFRS becomes effective, some accounting standards and interpretations which are currently effective will be cancelled.

Payment to a customer

The Group makes commission payments to its some customers in accordance with sale conditions agreed upon in the sale order. Under TAS 18, the Group recognised such amounts as distribution costs. Under TFRS 15, it is required that the Group will consider whether the Group receives distinct goods or services from the customer. If so, then the Group recognises such payments as an expense when the distinct goods or services are consumed. In contrast, if not, such payments are recognised as a reduction of revenue. If the payment exceeds the fair value of the goods or services received, then the excess is recognised as a reduction of revenue. As a result, this results in decreases in revenue and distribution costs.

Siam Food Products Public Company Limited and its Subsidiaries

Notes to the financial statements For the year ended 30 September 2019

Transition

The Group plans to apply TFRS 15 initially on 1 October 2019, using the cumulative effect method taking into account the effect of initially applying this standard only to contracts that were not completed before 1 October 2019 as an adjustment to the retained earnings at 1 October 2019. Therefore, the Group has not restated the information presented for comparative financial statements, as previously reported under TAS 18 and related interpretations.

The preliminary impact assessment of initially applying TFRS 15 on the financial statements is as follows:

	Consolidated financial statements 2019	Separate financial statements 2019
<i>Statement of comprehensive income</i>		
<i>For the year ended 30 September</i>		
	(in thousand Baht)	
Decrease in revenue from sale of goods	(3,773)	(3,773)
Decrease in distribution costs	3,773	3,773
Profit (loss) for the year	-	-

(b) TFRS - Financial instruments standards

These TFRS establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting. When these TFRSs are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

(c) TFRS 16 Leases

TFRS 16 introduces a single lessee accounting model for lessees. A lessee recognises a right-of-use asset and a lease liability. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard, i.e. lessors continue to classify leases as finance or operating leases. When this TFRS is effective, some accounting standards and interpretations which are currently effective will be cancelled.

Management is currently considering the potential impact from these TFRS on the financial statements in the period of initial adoption.
