Significant Change and Development in the Period of 2015 – 2017

The Company has not significantly changed the shareholding, management or business engagement structure in the past three years.

➤ 2017

- On 21st December 2017, the company wrote a letter to notify Premier Fission Capital, Co., LTD. (“PFC”) regarding deferral of Premier Inter Leasing, Co., LTD. (“PIL”) stock trade until its financial advisor provides complete advice on this.
- On 20th December 2017, the committee issued a resolution for the company to write a letter to notify PFC regarding deferral of PIL until its financial consultant provides complete advice on this. However, as the deferral means that the company cannot trade PIL stocks to PFC within the agreed time period, PFC can cancel the trade under condition that both parties will not make a claim for reimbursement. UOB Kay Hian Securities Company (Thailand) LTD. (Public) (“Independent Financial Advisor”) commented in the recent advisor’s report draft to shareholders regarding the trade of ordinary shares of its affiliates, PIL, to PFC that the stock price is inappropriate as, from value assesment, the value of ordinary shares of PIL is higher than the offered price by PFC and shareholders should disapprove the transaction.
- On 14th December 2017, the central bankruptcy court ordered the company to pay 478,774,424.90 baht to Nawarat Patanakarn Co., LTD. (Public) (“NWR”) with 7.5 interest rate per year from 23rd July 2003 onwards until the last installment on 4th July 2017.
- The company committee issued a resolution for the shareholders to consider approving the trade of ordinary shares of PIL at a price of not less than 4.49 baht per stock, which amounts to approximately 260,000,000 baht (“PIL stock”), to those with highest offer.
- On 13th June 2017, the company received a letter from the legal execution department of office of the attorney general, which ordered the company to pay debt to the revenue department in the amount of 251,699,348.81 baht. On 14th June 2017, the company received a letter from the revenue department notifying rejection of installment payment as proposed by the company on 20th January 2017. The revenue department ordered the company to pay the said debt within 15 days from the day of receiving the letter, and if the company fails to comply, the revenue department will seize the company’s assets.

(1) Characteristics of the Service

This is the provision of vehicles to operators who are juristic persons, government agencies and state enterprises in the form of leasing that is characterized as an operating lease, such as cars for executives, transport vehicles, private coaches for passengers, shuttle buses for students and other commercial vehicles, with lease terms of 3-5 years. The service includes the provision of services according to the long-term lease agreement and the provision of vehicle rental with chauffeur services. The Company has a variety of vehicles for lease, for instance passenger cars with an engine capacity of 1500cc or more, multi-purpose passenger vehicles, pick-up trucks, vans and buses.

The Company provides comprehensive services starting from analysis and proposal of lease terms that accommodates the customers' needs and their purpose of use to arrangement for fully comprehensive vehicle insurance, vehicle registration and payment of vehicle tax, provision of scheduled maintenance and repair services at specified distances and provision of replacement vehicle in the event of a breakdown or accident. The Company offers after sale services through a call center in the form of a one stop service customer care, including arranging vehicle maintenance, coordination, provision of advice on various matters, a team of professional mechanics and mobile repair trucks for convenience, speed and safety 24 hours a day.

(2) Marketing and Competition

Leasing Business in Thailand is divided by entrepreneur characteristic into 2 main groups which are the group focusing on Financial Lease and Instalment Contract, and another group focusing on Operating Lease, Premier Inter Leasing Co., Ltd. is classified into Operating Lease Business Group and considered as one of leading leasing companies.

From the overview of contractual car rental business in 2017, the business remains highly competitive in all type of vehicles from vehicles for executives to officers, from cars to vans, to truck for commercial use. This corresponds to the policy to switch from car as organization assets to rental, as well as expansion in many business sectors such as transportation business, agriculture, and construction. This also shows in the statistics of new registered cars in 2017 from the department of land transport which is as high as 2.99 million, 4.1% more than the previous year. For this reason, the demand for operating lease will become an important mechanism in decreasing management costs, simplifying management operations and increasing efficiency of the organization.

The operation of Premiere Inter Leasing, Co., LTD. in 2017 focused on services that correspond to the demand of partners, increasing service value and development of technology and innovation, as well as the ability to manage and analyze usage information to form an efficient development plan for users. Moreover, the company also promoted activities related to road safety by using the currently operating business as a safety model such as, the monitor system with report of driving behavior initiated by a group of car rental organizations which statistically helped reduce traffic tickets by 50% in 2017, and for non-regular route buses such as school bus and shuttle bus, the rate of accident was only 0.06% which was close to that in year 2016. Apart from the above, the company started employing personal accelerator model which helped to set a new standard for drivers and increase customer satisfaction, as shown by zero complaints since the start of the service in June 2017.

The company continuously develops marketing strategy by developing standard quality service and improving technologies such as mobile application for accident notification management, school bus application which informs of the vehicle status to the parents, as well as development in maintenance with appointed car dealers to reach the standard across the country. The company positions itself as advisor and consultant who helps find solutions for management and usage issues for different business types of each customer, with 24 hours service for accident and vehicle malfunction. With partnered companies, the company has organized road safety workshops for customers regularly for the benefit of the customers and to create outstanding business.

(3) Competitive Strategy

The main strategy is to make the company stand out across multi-sectors, creating a one-stop integrated service that lets customers participate in the process from the beginning of generating ideas, giving advices, planning, operation from the development process until completion. Moreover, we aim to make the company stand out with its advance innovation via collaboration between experts across different business fields, within Premiere Group and its partnered organizations, to develop management and analytic technologies such as analysis of driving behavior in order to prevent road accidents, initiation of new innovation such as personal accelerator in driver management sectors, and integrated services such as efficient car registration and renewal services, car insurance that includes minimum law coverage or wider coverage, expansion of service center across the country with daily 24 hours service through Customer Service Center, exceeding capacity by providing service that covers all types of vehicles from four wheel cars, pick up cars, vans, trucks and shuttle bus to commercial trucks. All of these are important factors that build up capacity for the company to compete in the market and maintain its position as business leader.

- 5) Environmental Risk

Car Rental Service Business

- 1) **Strategic Risk**
 - **Higher Market Competition**

In 2017 car rental business was highly competitive. At the same time, the increase of the number of rental cars and the demand for car rental within large scale organizations increased in both public and private sector such as, major business groups, business infrastructure groups, industrial factories across Thailand, as well as for universities and international schools for operating lease of school bus, non-regular route transport and employee shuttle bus. As a result, the car rental business, which contains over 20 organizations, has become highly competitive, especially the competition in rental fees which is considered to be the most important mechanism in the business. As the company focuses on the quality of service, it is at risk of losing sales opportunity for customers that are looking for lower rental fees.

Risk Management Measures

The company plans to manage the risks by maintaining the existing customer base as well as expanding its customer base through market analysis and assessment, to attract potential customers who give importance to service quality over price. This can be done by generating value and making our services standout across multi-sectors, creating a one-stop integrated service that lets customers participate in the process from the beginning of generating ideas, giving suggestions, planning, operation from the development process until completion. Moreover, we aim to make the company standout with its advance innovation via collaboration between experts across different business fields, within Premiere Group and its partnered organizations, to develop management and analytic technologies such as analysis of driving behavior in order to prevent road accidents, initiation of new innovation such as personal accelerator in driver management sectors, and integrated services such as efficient car registration and renewal services, car insurance that includes minimum law coverage or wider coverage, expansion of service center across the country with daily 24 hours service through Customer Service Center, exceeding capacity by providing service that covers all types of vehicles from four wheel cars, pick up cars, vans, trucks and shuttle bus to commercial trucks. All of these are important factors that build up capacity for the company to compete in the market and maintain its position as business leader.

2) Legal Risk

- Risk from Debt Payment According to Adjudication

The lawsuit related to the revenue department from the adjudication of supreme court which requires partnered companies, who allow their name to be used as part of the joint venture, to compensate 251.7 million baht tax together with PE-Petlane joint venture company.

The company has paid the debt amount for 10 million baht to the revenue department on behalf of PE-Petlane joint venture company, and thus 241.7 million baht remains to be paid. The company will sell part of its assets to pay off the debt to the revenue department, however, as most of the company's assets are subsidiary stocks which have high value, the trading of asset takes a longer time to process – this may be later than the process of the revenue department to trade subsidiary stocks via process of the legal execution department.

The company has proceeded with legal action on individuals who neglected the obligation to pay tax for PE-Petlane joint venture company, which has led to damage to the company.

- Risk from adjudication from the central bankruptcy court which orders the company to pay 479 million baht, with interest of 7.5 per year, amounts to 1,123 million baht in total to the accuser in civil case related to business recovery.

The company is in the process of appealing to the supreme court regarding the adjudication from the central bankruptcy court based on assesment of the management sector and advice from lawyers of the company. The company is confident about its arguement and believes that the supreme court will recall the adjudication from the central bankruptcy court.

3) Risk from Value Assesment of Second Hand Vehicles

In 2014-2015 the company had assed the cost for impairment of cars. Presently, the value of second hand cars is increasing, and during the year, the subsidiaries gained profit from selling second hand cars, especially for small cars. Although the company assesed the cost for impairment of bigger vehicles, the value of bigger bus as well, no increase has been found here. Moreover there is not much information about the market price of these types of vehicles. For this reason, the company is carrying an increasing risk for bigger vehicle impairment of 24.6 million baht in 2017.

4) Risk Related to Financial Cost

As the subsidiaries reserved impairment costs for bigger vehicles, the ratio of debt to shareholders had changed to 1 to 6, which may cause the financial cost to increase.

Risk Management Measures

The subsidiaries have explained to financial institutions the structure that caused an increase of the ratio between debt and cost, which does not affect the company's ability to pay off the debt as most of the bigger vehicles are debt-free. The main financial institution continues to give support by providing credit line for the company to continue its business with competitive rate of interest.

5) Risk Related to Managment/Operation

- Personnel Risk (Replacement Plan)

The subsidiaries habe many senior employees and thus, have a high ratio of retirement. This means the subsidiaries may face scarcity of employess in many levels, including positions that are in demand in the workforce market or positions with specialty.

Risk Management Measures

The subsidiaries have considered prolonging retirement age from 55 to 60, and have created a Replacement Plan for important positions in all departments (for employees that are retiring in 1-3 years, according to type of work and risk). Moreover the subsidiaries continuously provide support and promote development of personnel, as well as internally circulate assignments, assessing tasks and categorize assignment level for each individual, all of which are connected to the annual performance assesment, promotion, reward, personnel development, and maintainance plan. The subsidiaries also promote employee engaement and using Happy Workplace tool.

6) Risk Related to Society

- Road Accident

From statistics of road accidents of the company in year 2017, there was 2,724 accidents occurred, which divide into 891 accidents from customers, 5 serious accidents and 1,828 mid to non-serious accidents. 37 accidents came from non-regular route transport under management of the company, all of which are non-serious accidents. The mentioned statistic has raised awareness for the company about safety and the company has continually creates measures to manage risk and prevent accidents.

The subsidiaries take road safety seriously and have prepared plans for relevant employees to receive safety training for drivers, as well as employing technology to control and monitor their driving. Moreover, management for road safety has been prepared, such as the use of GPS to limit driving speed for school buses and non-regular route buses, daily alcohol test and regular blood pressure test for drivers. The company defines clear disciplinary action and collaborates with customers, public sectors and relevant organizations to promote campaigns for road safety. The technology is employed to manage vehicles, analyze usage and control driving behavior to prevent accident and ensure that the service of the company is safe and demonstrates the company's responsibility for society.

Non-Life Insurance Business

(1) Strategic Risk

- Maintaining Existing Customer Base

In 2017, there was competition in expanding channels of insurance offerings. The competitors have expanded their methods of offering insurance, such as online sales, which makes it more accessible for insurers to purchase their products. As a result, the new competitors can reduce their insurance premium fee by 10-20% compared to their old premiums. This may lead to the company losing its existing customer base if the company cannot reduce its premium fee for existing customers.

Risk Management Measures

The company has offered new channels that are more accessible to insurers, more advertising and offering of related products. Overall, the premium fee is not too high compared to separate purchases. By this way, the subsidiaries can maintain 80% of their income base from premium renewal of existing customers. The company also plans to expand business to new customer groups within the partnered companies of Premier Group by offering products and services that are different from those of its competitors to increase competitiveness and reduce risk from business expansion.

(2) Risk Related to Management/Operation

- Risk Related to Replacement Plan and Human Resource

The company has many senior employees who have almost reached their retirement. As a result, the company is facing scarcity of sale representatives, a position which requires license from Office of Insurance Commission (OIC).

Risk Management Measures

The company has extended the retirement age from 55 to 60. This will give more time for the company to search for replacements and increase efficiency of human resource management. The company encourages its employees to obtain a sale representative license which will help reduce the risk of shortage of human resources in the future.

Corporate Governance

Corporate Governance Policy

The Company's Board of Directors emphasizes good corporate governance. It believes that good corporate governance and management under the framework of good ethics, transparency, accountability and fairness to all relevant parties will help to promote the Company's stable and sustained growth and help to increase the confidence of the shareholders, investors and all related parties. Therefore, the Board of Directors has established in writing the principles of good corporate governance as guidance for the management and employees as follows:

1. Conduct business with integrity, fairness, transparency and accountability, and disclose adequate information to all relevant parties.
2. Provide appropriate and effective internal control, risk management and internal audit systems.
3. Emphasize on the rights of shareholders and treat shareholders equally with fairness to all parties.
4. Comply with the requirements of all relevant laws and regulations and business ethics in order to protect the rights of all groups of stakeholders.
5. Organize the structure, duties and responsibilities of each group of directors clearly.

The Company's good corporate governance policy adheres to the Principles of Good Corporate Governance for Listed Companies B.E.2555 (2012) promulgated by the Stock Exchange of Thailand, which covers 5 categories of principles as follows:

Chapter 1: The Rights of Shareholders

The Company recognizes and places importance on the various basic rights of the shareholders, both as investors in securities and as owners of the Company, by defining the guidelines to encourage the exercise of shareholders' rights as follows:

1. Shareholders' Meeting

1.1 The Board of Directors has a policy to facilitate and encourage all groups of shareholders, including institutional investors, to attend the shareholders' meetings and exercise their rights, which covers the basic legal rights, i.e. obtain a share in the profit of the Company; buy, sell or transfer shares; obtain adequate news and information on the Company; and participate and vote in the shareholders' meetings to elect or remove directors, approve the remuneration of directors, determination of the remuneration such as meeting allowances, annual remuneration or other benefits, appoint the external auditor and determine the audit fee, and make decisions on any matter that affects the Company, such as dividend payment, determination or amendment of the Articles of Association and Memorandum of Association, capital decreases or increases, and the approval of extraordinary transactions.

1.2 The Company has provided information on the date, time, venue and agenda, with rationale and explanation for each agenda item or resolution requested, in the notice of the Annual General Meeting or Extraordinary General Meeting of Shareholders or attachments to the agenda. The Company has refrained from any action that limits the opportunity of the shareholders to study the information on the Company. The details of which are as follows:

1.2.1 The Company does not undermine the rights of the shareholders to study the Company's information that must be disclosed according to various requirements and to attend the shareholders' meeting. For instance, the Company does not abruptly distribute documents containing additional important information in the meetings, add new agenda items or alter sensitive information without prior notice to the shareholders, not provide shareholders with the right to pose questions to the Board of Directors in the meeting, restrict the right to attend of shareholders who come late for the meeting etc.

1.2.2 The Company has provided information as to the date, time, venue and agenda of the meetings. Each agenda item of the shareholders' meeting is set as individual subjects and the objective and rationale of each agenda item is clearly defined. Adequate information is provided for decision-making as follows:

The criteria that the Company was not able to put into practices according to the 2017 CGR in Chapter 4: Disclosure and Transparency are as follows:

1. Meet with analysts

The Company provided information directly through the Stock Exchange of Thailand which should be sufficient and complete.

2. The Company does not represent the indicator of non-financial performance such as market share, the level of customer satisfaction etc. Since the information should not be disclosed because it is inside information. For measuring the level of customer satisfaction, the company will follow later.

3. There are no press conference/preparation newsletter presents the financial position of the Company because the Company has to disclose important information and financial information in its Annual Statement (Form 56-1), Annual Report, Sustainability Development Report, the report of Annual General Meeting of the Shareholders and on the Company's website correctly. And the Company is ready to provide the information to the press

Chapter 5: Responsibilities of the Board of Directors

The Board of Directors is responsible for overseeing the work of the management to ensure compliance with policies, strategies, plans and budgets, as well as its responsibilities toward the Company and its shareholders.

The Company has set the guidelines regarding the responsibilities of the Board of Directors as follows:

1. Structure of the Board of Directors

1.1 The Board of Directors has prescribed that the structure of Board should consist of directors with various qualifications in terms of sex, age, education, professional experience, skills and knowledge, specific capabilities that benefit the Company. There should be at least one non-executive director who has experience in the core business or industry of the Company.

1.2 The Board of Directors ensures that the Board's diversity policy and the number of years each director has served as a director of the Company are disclosed in the annual report and on the Company's website.

1.2.1 Disclose the procedures for selection of directors that is formal and transparent and the number of years each director has served as a director of the Company are disclosed in the annual report and on the Company's website.

1.2.2 Disclose the name, history, qualifications, experience and shareholding in the Company of the directors in order to show that the Board has the knowledge, skills, characteristics and experience that are useful to the Company in the annual report and on the Company's website.

1.2.3 Disclose clearly in the annual report the directors representing the shareholders / non-executive directors / independent directors / executive directors.

1.3 The Board of Directors is appropriately sized and is composed of persons with sufficient knowledge, experience and skills to perform their duties efficiently. The Board is composed of at least 5 but not more than 12 directors.

1.4 The Board of Directors consists of independent directors who can independently comment on the performance of the management in the number prescribed in the notification of the Securities and Exchange Commission (SEC).

1.5 The proportion of directors is in accordance with the director nomination process, which is mainly based on the criteria of knowledge, competency and suitability of the person to be appointed as a director rather than on the criteria on proportion of investments.

1.6 The Company takes into account the benefits to corporate management according to the director nomination process set by the Company rather than the number or proportion of independent directors.

1.7 The Board of Directors has determined the tenure of each term of office but has not set the limit on the number of consecutive terms in office.

1.8 The Board of Directors considers the qualifications of the person to be appointed as an "independent director" to ensure that the independent directors of the Company are truly independent and are appropriate for the specific nature of the Company. Their independence must at least be in accordance with the criteria set by the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET).

1.9 The continuous tenure of the independent director will be beneficial to the corporate management and business operations of the Company. In addition, the search for a competent person to serve as independent directors cannot be implemented immediately.

1.10 The Chairman of the Board and the Managing Director have different roles and responsibilities. The Board has clearly defined the roles and responsibilities of the Chairman and the Managing

Director and has recruited different persons to hold the positions of Chairman and Managing Director so that neither person has unlimited power.

1.11 The Board of Directors respects the judgment of the Managing Director and senior executives of the Company not to serve as a director of other companies with the same business as or in competition with the business of the Company or are contrary to the interests of the Company.

1.12 The Company has appointed a Corporate Secretary to be responsible for advising on laws and regulations of relevance to the Board of Directors and for overseeing the activities of the Board, including coordinating the compliance with the Board's resolutions.

The Board of Directors has determined the qualifications and experience of the appropriate Corporate Secretary who will perform the duty as the secretary of the Company. The qualifications and experience of the Corporate Secretary are disclosed in the annual report and on the website of the Company.

1.13 The Corporate Secretary has received training and continuous development in legal, accountancy, or company secretarial practices. The Company determines the qualifications and appoints a person as the Corporate Secretary by taking into consideration of mainly his knowledge, capability and work experience, disregarding whether such person is a permanent employee of the Company or not.

2. Committees

2.1 The Board of Directors have appointed an Audit Committee in accordance with the requirement of the Stock Exchange of Thailand with a term of office of 3 year to perform specific duties and to propose matters for consideration or acknowledgement by the Board. The Audit Committee has rights and duties as set out in the Scope of Responsibilities of the Audit Committee and has qualifications according to the criteria prescribed by the SEC.

2.2 The Board of Directors appointed a Remuneration Committee and a Nomination Committee. The entire Board, except for directors with conflicts of interest, will consider the criteria for and form of remuneration to the directors and present its opinion to the Board, which the Board must propose to the Shareholders' Meeting for approval. The Board will also consider the criteria and process for nomination of persons with appropriate qualifications to serve as directors, as well as select persons according to the determined nomination process and present its recommendation to the Board, which will propose to the shareholders' meeting to appoint as directors.

3. Roles and Responsibilities of the Board of Directors

3.1 The Board of Directors' duties and responsibilities should include the following matters:

1) The Board of Directors have authorized to approve about the Company according to the duties imposed by law, articles of association, charter of the board and the resolution of the shareholders' meeting, including the consideration and approval of the key matters on the Company's operations such as the vision, mission, strategy, financial targets, risks management, budget plan, corporate governance policy, anti-corruption policy including review and approval in the line with the Company's situation.

2) Monitor and ensure efficient and effective implementation by the management of approved policies, strategies and plans.

3) Internal control and risk management, including the process for receiving and handling complaints.

4) Ensure long-term business continuity, including employee development plan and succession plan.

3.2 The Board of Directors has determined in writing a corporate governance policy for the Company as follows:

1) The Board of Directors has determined and approved a written corporate governance policy.
2) Communicate to everyone in the organization for their understanding.
3) Have method to encourage everyone in the organization to comply with the corporate governance policy.

4) Assess compliance to the corporate governance policy and review the policy at least annually.

3.3 The Board of Director promotes the preparation of a written code of conduct so all directors, executives and employees will understand the ethical standards the Company uses in its business operations and seriously monitors compliance with the code.

3.4 The Board of Directors considers any conflict of interests thoroughly. There should be clear guidelines on the approval of transactions with possible conflicts of interest, which is chiefly for the best interests of the Company and all its shareholders. Persons with vested interests should not participate in the decision-

making process. The Board should also monitor compliance with regulations regarding the procedures for and disclosure of information on transactions that may have conflicts of interest to ensure accuracy and completeness.

3.5 The Board of Directors ensures that internal control systems for financial reporting and compliance with regulations and policies are in place. The Board has assigned a person or a department that is independent to audit such systems and to review the main systems at least annually, as well as disclose the review results in the annual report.

3.6 The Board of Directors has established a risk management policy covering the whole Company and has assigned the management to implement the policy and regularly report to the Board. The risk management system is review or the effectiveness of risk management is assessed at least once a year with the results disclosed in the annual report, and whenever, there is a change in risk level, which includes focusing on early warning signs and unusual transactions.

3.7 The Board of Directors or Audit Committee should provide its opinion on the adequacy of the Company's internal controls and risk management systems in the annual report.

3.8 The Board of Directors has set clear procedures for whistle-blowers or stakeholders through its website or directly to the Company or report directly to the Company. The Board of Directors has assigned the Corporate Secretary as the recipient and handler of complaints from the stakeholders. The procedures and channels for filing complaints are disclosed on the Company's website and annual report. The Company has mechanisms for whistle-blower protection and compensation measures in the case stakeholders receive damages from the Company's violation of their legal rights.

3.9 The Board of Directors has mechanisms for governing its subsidiary in order to protect the benefits from its investment. The Board of Directors is responsible for determining the suitability of persons to be appointed as directors of the subsidiary companies in order to ensure that its management complies with the policies of the Company and that various transactions are executed correctly according to securities and exchange laws and notifications of the SET.

4. Board of Directors' Meetings

4.1 The Company has scheduled the meeting and agenda of the Board of Directors in advance and informs each director of such schedule so that the directors can arrange the time and attend the meeting.

In 2017, the Company has set the schedule of the Board of Directors' meeting for the year 2018 in advance (The meeting schedule is subject to change without notice), excluding special meetings, to consider the financial statements, the policy and follow-up the operation as follows:

| | Audit Committee Meeting | Board meeting | Annual General Meeting of Shareholders |
|--------|--------------------------------|----------------------|---|
| 1/2018 | 15 February 2018 | 15 February 2018 | 25 April 2018 |
| 2/2018 | 10 May 2018 | 10 May 2018 | |
| 3/2018 | 2 August 2018 | 2 August 2018 | |
| 4/2018 | 8 November 2017 | 8 November 2017 | |

4.2 The number of Board of Directors' meetings should correspond with the duties and responsibilities of the Board and the nature of business of the Company. In the case the meetings are not held monthly, the Company will report operating results to the Board for the months in which there was no meeting so that they can control and direct the management operations continuously and timely.

4.3 The Chairman of the Board and the Managing Director jointly selects matters for inclusion in the agenda of the Board of Directors' meeting and ensures that all important matters are included. Opportunity is provided for each director to independently propose any matter that is beneficial to the Company as an agenda item.

4.4 The meeting documents are sent to the directors at least 5 working days in advance of the meeting date.

4.5 All directors attended at least 75 percent of all Board of Directors' meetings held during the year.

4.6 Minimum quorum of the directors at the meeting is required to appoint at least 2 out of 3 of total directors. In case of emergency / urgent case / circumstances which may cause damage to the Company's business or operations and may not be carried out 2 out of the 3 of total directors attend the meeting, the directors not less than one-half in accordance with articles of association have authority to consider and resolve that agenda.

4.7 The Chairman allocated adequate time for the management to propose matters and enough time for all directors to discuss important problems carefully. The Chairman promotes the prudent use of discretion. All directors paid attention to all matters raised at the meeting, including those concerning corporate governance.

4.8 The Board of Directors encourages the Managing Director to invite the senior executives to attend the Board of Directors' meetings to provide additional information on the problems to which they are directly related and to provide an opportunity for the Board to learn more about the senior executives for use in supporting the consideration of the succession plan.

4.9 The Board of Directors has access to additional necessary information from the Managing Director, Corporate Secretary or other executives assigned under the scope of the policy set. If necessary, the Board may obtain independent opinions from external consultants or practitioners at the Company's expense.

4.10 The Board of Directors considers that it is a policy to provide opportunities for non-executive directors to meet among themselves as necessary to discuss various management issues of interest without participation of the management and to inform the Managing Director of the outcome of such meetings

4.11 The minutes of the meeting should consist of at least the following information and there should be a good storage system with easy data search but cannot be amended without approval of a Board of Directors' meeting.

- Date, start time and end time;
- Names of the directors present and absent;
- Summary of important information on the matters proposed to the Board of Directors;
- Summary of the matters discussed and observations of the directors;
- Resolutions of the Board of Directors and opinions of the dissenting directors (if any);
- Recorder of the minutes - Secretary of the Board of Directors;
- Certifier of the minutes - Chairman.

5. Board Self-Assessment

5.1 The Board of Director and the committees conduct self-assessment of its performance at least once a year so that the directors can collectively consider its performance and problems for further improvement by setting a benchmark for systematic comparison with its performance.

5.2 The Board self-assessment is an assessment of the Board of Directors and the Committee as a whole and individual including disclosed the criteria and process in the Company's annual report.

5.3 The Board of Directors annually evaluates President or Chief Executive Officer to be used in determining their remuneration. At which the Company evaluates in accordance with the principle that the Stock Exchange of Thailand has set.

For the Board self-assessment process, the Corporate Secretary will send the evaluation form mentioned above to all directors in November and respond within 15 December of every year. After that, the Corporate Secretary will collect and report the results of the evaluation in comparison with the previous year to the next Board of Directors' Meeting to acknowledge and improve the work to be more effective.

For the Board self-assessment criteria, the Company has evaluate the performance of the entire committee and evaluate the performance of individual by using the method of 5 level scoring for each topic, which are: 0= Strongly disagree or there has been no implementation of the matter, 1= Disagree or there has been little implementation of the matter, 2 = Agree to a limited extent or there has been initial implementation of the matter, 3 = Mostly agree or there has been progressive implementation of the matter, 4= Strongly agree or there has been complete implementation of the matter. The evaluation topics consisted of 6 main topics, which are:

1. Structure and qualification of the Board
2. Roles, duties and responsibility of the Board
3. Board Meeting
4. Duties of Directors
5. Relationship with the management division
6. Directors' Self Development and Executive Development.

Moreover, the Company has evaluated the President's success by considering from the Company's business operation performance and operating performance that was in accordance with the policy assigned by the Board of Directors for the improvement. Scoring method used is the same as operation performance of the entire board evaluation and the performance of individual. The evaluation topic consisted of 3 main sections, which are:

- Section 1: Progress of work plan
- Section 2: Performance Measurement
 - 2.1 Leadership
 - 2.2 Strategy Formulation
 - 2.3 Strategy Implementation
 - 2.4 Financial planning and financial performance
 - 2.5 Relationship with the Board
 - 2.6 External Relations
 - 2.7 Administration and Personnel relations
 - 2.8 Succession
 - 2.9 Knowledge of products and services
 - 2.10 Personal Characteristics
- Section 3 Development of the Chairman of the Executive Committee

6. Remuneration

The remuneration of directors is comparable with the industry level and reflects the experience, duties, accountability and responsibilities, as well as expected contributions of each director. Directors who are assigned to more tasks and has more duties and responsibilities, such as being a member of a committee, should receive additional remuneration as appropriate.

7. Board and Management Training

7.1 The Board of Directors encourages and facilitates training and educating for those involved in corporate governance of the Company, such as directors, members of the audit committee, executives, Corporate Secretary, etc., to assist them to continuously improve their performance. Training and educating can be done internally or through the use of the services of external institutions.

7.2 The Board of Directors determines the orientation for all new directors to build the understanding in the Company's business and the implementation of various aspects in order to prepare for the performance of the Directors. The Corporate Secretary is the coordinator of the various business structures, board structure, responsibilities, business introduction, operation guidelines etc.

7.3 The Board of Directors has established a personnel development policy for directors and executives and disclose in the Company's annual report.

7.4 The Board of Directors requires the Managing Director to present them with the Company's succession plan at least once a year. The Managing Director and senior executives have prepared continuous succession plans in case they cannot perform their duties.

In 2017, the Directors have attended seminars and training courses of the Thai Institute of Director (IOD) as follows:

| No. | Name | Position | 2017 Training Courses | Duration (Day) |
|-----|-------------------------|--------------------|--|----------------|
| 1 | Mr.Kittisak Bencharit | Chairman | - BMD Board that Make a Difference | 2 |
| 2 | Mrs.Nangnoi Bunyasanand | Director | -BFI - Boardroom Success through Financing and Investment | 2 |
| 3 | Mrs.Walairat Pongjitt | Executive Director | - BFI - Boardroom Success through Financing and Investment | 2 |
| 4 | Mr.Vorthep Rangchaikul | Executive Director | -BFI - Boardroom Success through Financing and Investment | 2 |

The criteria that the Company was not complete and was not able to put into practices according to the 2017 CGR in Chapter 5: Responsibilities of the Board of Directors are as follow:

Criteria that has not complete / clearly

1. In previous year, the Board of Directors had arranged less than 6 board of directors meeting, due to the number of the Board of director meeting that had been scheduled 4 times a year was appropriate and in line with the Company operation performance consideration agenda and the approval of financial budget agenda. Moreover, the Company is prepared to call an additional meeting in the case where it is necessary or any agenda that need to be consider in urgent.

Criteria that has not practiced

1. The Board of Directors has not set any policy on the limitation of each director not more than 5 companies and not more than 3 listed companies in the Company's corporate governance policy as the Board of Directors has practices its duties effectively. Unlimited number of companies in the position does not affect the operation and the number of people with limited knowledge, skills and experience to serve as directors is limited. Therefore, the determination of such conditions will make it difficult for the Company to find a director.

2. The Board of Directors does not have any policy for Managing Director on the holding of director position at other companies; as the Company has stipulated the Managing Director's prohibition/ limitations on conducting transaction or holding position in a Company or organization that have conflict of interest or affect the performance of the Managing Director position that such person hold with the Company. Moreover, from the aforementioned prohibitions/ limitations, the Company is firmly believed and respected the judgment of the managing director in holding the director position or other position at a Company or organization other than the Company itself.

3. The Board of Directors has no policy to limit the number of years / term of office of an independent director for not more than 9 years as the continued succession of Directors can be beneficial to the Company's business and operations. In addition, to recruit personnel with knowledge and competence to hold the director position is not easily performed.

4. In the Board of Directors, there are some executive directors who hold the director position in other listed company as the executive directors have performed their duties effectively, therefore, no limiting the number of company in holding the position had no impact on the performance; and that number of persons with sufficient knowledge and experience to hold the company's director position is limited. Thus, in stipulating such condition, the Company will face with difficulty to recruit such persons to hold the director position.

5. The Board of Directors did not disclosed the CEO's remuneration policy both in short term and long term, including the monitoring of the CEO's performance as it is internal information that should not be disclosed, though the overall number of executives was disclosed.

6. Shareholders/ Board of Directors did not approved the executive director/ Chief Executives as the executive board has informed to waive the rights to receive compensation and according to the power of authorities handbook, the authority in setting remuneration of chief executive is in the authority of Managing Director which is already appropriate and the Board of Directors has verified through the annual budget.

7. Chairman of the Board of Directors is not independent director, as the appointment of Chairman of the Board of Directors has been considered from directors with qualification, knowledge and competence, have understanding and adhere to the good governance principle, without having to regard whether the director is independent or not.

8. The Company has not appointed any remuneration and nomination committee, as the Company has already assigned the entire Board, except for directors with conflicts of interest to act as the remuneration and nomination committee.

9. The Board of Directors has not established CG Committee as the entire committee has already acted as the CG Committee.

10. The Board has not established Risk Management Committee. However, the Company has appointed a Risk Management Subcommittee. It consists of executives and employees of the Company and its subsidiary to carry out risk assessments of the Company and its subsidiary and report to the Audit Committee.

11. The Board of Directors consisted of less than 50% independent directors due to the elements of independent directors is not the significant essence in the Board of Directors' role of duties.

12. The Company did not provide project grants to managements to purchase the Company' shares for a period of more than 3 years and pricing higher than the price at the time of allocation, including the concentration not more than 5%, since The Company provides oversight and incentive to managements and other employees to work happily and organizations already bound without the need for project grants to management or other employees in purchasing the Company' shares. However, if the Company has such a project, the Company also will give both managements and other employees on the principles of equality.

In 2017, the CGR Steering Committee of the Institute of Directors of Thailand (IOD) has decided to develop the survey policy used to evaluate for the year 2016 and 2017 according to the guidelines of ASEAN CG Scorecard to reduce duplication of policy and easy to follow.

Committees

The Board of Director has appointed the Sub-Committee as follows:

Policy or Trend of Future Inter-Transaction

The Company and/or its subsidiaries have expected that in the future, inter-transactions will still occur in line with the nature of normal business engagement or normal business support such as revenue from sales and services, rent of office space, lease of office space, employment for management based on Agreement of Hire of Management and Business Consulting, rent of car used for business engagement, rental fee and other service charges, etc. All inter-transactions will occur based on necessity and for business operation efficiency within the Group. The inter-pricing policy has been clearly determined according to proper and fair market price and condition under main consideration on the Company's benefit. However, the Audit Committee of the Company will quarterly review inter-transaction. For newly occurred significant inter-transaction, the Company will propose the Audit Committee for consideration and suggestion to the Board of Directors for consideration and approval.

However, according to inter-transaction possibly causing contingent conflict of interests in the future, the Board of Directors shall comply with Securities and Exchange Law, and regulation, announcement, directive or requirement of Office of the Securities and Exchange Commission as well as compliance with the requirement of information disclosure of connected transaction doing and asset acquisition or disposal of the Company and its subsidiaries, including compliance with accounting standard stipulated by Federation of Accounting Professions.

Analysis and Explanation of the Management

(1) Business Operation Overview

From the analysis, it is shown that the rate of expansion of overall car rental business is *0.06% (considering the top 20 car rentals of all types in car rental companies), with continued growth of competition in price, services and additional value. The result corresponds to the business operation outcome in 2017, in which the rate of expansion was 0.001%.

The above mentioned growth is a result of the demand for car rentals within large scale organizations in both public and private sector, such as major business groups, business infrastructure groups, industrial factories across Thailand, as well as department stores, universities and international schools. Considered to be one of the crucial mechanisms for management cost saving, the car rental service is used as non-regular route transport, shuttle bus for employees, and school bus. These services help increase the work efficiency within the organizations and simplify management processes.

Liabilities from litigation losses

During the year 2010, the Company was sued as a co-defendant by the Revenue Department, which claimed corporate income tax and value added tax of the years 2001 and 2002 amounting to Baht 251.7 million, together with surcharges, from Premier Enterprise Public Company Limited, PATE Engineers, Inc. and Lockwood, Andrews & Newnam, Inc. (PE-PATE/LAN Joint Venture) in which the Company was previously one of the investors, set up to construct the Bangkok Metropolitan Administration waste water treatment project. The Company terminated its investment in 2000. On 30 November 2011, the Central Tax Court dismissed the case and the Company was thus not jointly liable for these taxes on behalf of the joint venture. However, in 2012 the Revenue Department appealed the order of the Central Tax Court to the Supreme Court, and the Supreme Court's judgement, issued on 30 November 2016, overturned the order of the Central Tax Court. As a result, the Company has to make joint payment of the taxes to the Revenue Department. Since Premier Infrastructure Development Company Limited, a co-defendant as a shareholder of the joint venture following a transfer of shares from the Company in 2000, has been declared bankrupt, the Company is responsible for making payment in accordance with the judgement. The Company has already made tax payment amounting to Baht 10 million to the Revenue Department, leaving the remaining tax due amounting to Baht 241.7 million.

The meeting of the Company's Board of Directors on 4 July 2017 passed the resolution to propose the sale of the Company's investment in a subsidiary, Premier Inter Leasing Company Limited, at the price not lower than Baht 4.49 per share, to any person interested in acquiring the investment who offer the highest bid price, which can be a related or non-related person, for approval by the Company's meeting of shareholders. The total payment to be received from the sale of such investment should be equal to Baht 260 million, or an approximate amount. The proceeds will be used to make payment of the tax due according to the ruling of the Supreme Court to the Revenue Department. Subsequently, on 18 September 2017, the meeting No. 6/2017 of the Company's Board of Directors passed a resolution amending the resolution passed by the meeting No. 4/2017, changing the procedure for the sale of the investment in Premier Inter Leasing Company Limited. The substance of this amendment is that "the Company is to find persons interested in acquiring the investment by appoint PJK Capital Company Limited to find such interested

persons and the Company is to stipulate the number of shares for which bids are to be invited, such that the Company receives payment equal or as close as possible to Baht 260 million. The interested persons are to submit unsealed bids to the Chairman of the Audit Committee at the Company's offices, no later than 12:00 on 24 October 2017. Following the bidding period, the bids are to be presented to a meeting of the Board of Directors to be held on 31 October 2017, for further consideration."

On 31 October 2017, the meeting No. 7/2017 of the Board of Directors of the Company passed a resolution to propose for consideration and approval by a meeting of the Company's shareholders the sale of the 57,777,777 ordinary shares that the Company holds in Premier Inter Leasing Company Limited, which is a subsidiary of the Company, to Premier Fission Capital Company Limited, at a price of Baht 4.50 per share, or a total price of Baht 259,999,996.50. Premier Fission Capital Company Limited was the only party to submit an offer to purchase Premier Inter Leasing Company Limited's shares within the timeframe and in accordance with the conditions specified by the Company and must enter into a share purchase agreement with the Company in the format and with the terms and conditions stipulated by the Company and pay a deposit of Baht 26,000,000 to the Company within 7 days after the date on which a meeting of the Company's Board of Directors passes a resolution to accept the offer to purchase Premier Inter Leasing Company Limited's shares. The meeting also passed a resolution to call the Extraordinary General Meeting of Shareholders No. 1/2018 on Thursday 11 January 2018 to consider and approve the Company's proposed sale of the ordinary shares it holds in Premier Inter Leasing Company Limited to Premier Fission Capital Company Limited.

On 20 December 2017, the meeting No. 8/2017 of the Board of Directors of the Company passed a resolution to have the Company notify Premier Fission Capital Company Limited that it wished to request a postponement of the purchase of the shares of Premier Inter Leasing Company Limited, because UOB Kay Hian Securities (Thailand) Public Company Limited, who is the independent financial advisor of the Company, had expressed the opinion in the independent financial advisor's report to the Company's shareholders that the transaction price was not appropriate because the share price of Premier Inter Leasing Company Limited determined by the independent financial advisor's valuation was higher than the offering price of Premier Fission Capital Company Limited. The Company's shareholders should therefore vote not to approve the deal at this time. As a result of the request for postponement, the Company was not able to sell the shares of Premier Inter Leasing Company Limited to Premier Fission Capital Company Limited within the timeframe stipulated. Therefore, if Premier Fission Capital Company Limited wishes to terminate the offer to purchase shares, the Company shall agree to the termination, with neither party seeking damages from the other. The Company notified Premier Fission Capital Company Limited on 21 December 2017.

On 26 December 2017, Premier Fission Capital Company Limited sent a reply to the Company, stating that it wished to terminate its offer to acquire shares of Premier Inter Leasing Company Limited without demanding any damages or compensation.

Civil case in connection with business restructuring

According to the Company's report to the Securities Exchange of Thailand on 5 July 2017 with respect to the Black Case No. Por Kor 6/2558, which was filed against the Company by Nawarat Patanakarn Public Company Limited with the Central Bankruptcy Court, as the joint venture partner of Premier Enterprise Public Company Limited, PATE Engineers, Inc. and Lockwood, Andrews & Newnam, Inc. (PE-PATE/LAN Joint Venture), was a co-defendant in the case, demanding the Company to be jointly liable for the consideration accrued by the PE-PATE/LAN Joint Venture under the sub-contract agreement for construction of waste water treatment system for the Bangkok Metropolitan Administration for a period from 2001 - 2003. The claim was for the amount due of Baht 650.79 million, together with interest amounting to Baht 653.01 million.

The PE-PATE/LAN Joint Venture was incorporated in 1996 to enter into an agreement for construction of waste water treatment system for the Bangkok Metropolitan Administration, with Nawarat Patanakarn Public Company Limited as the sub-contractor. Nawarat Patanakarn Public Company Limited applied for credit with a bank to fund the construction and the PE-PATE/LAN Joint Venture transferred the rights to receive payment for the work from the Bangkok Metropolitan Administration to Nawarat Patanakarn Public Company Limited, who in turn transferred the rights to receive payment from PE-PATE/LAN Joint Venture to the bank as collateral for the credit facility.

During the economic crisis in 2000, the Company restructured its business by transferring its investments in non-core business and interest in PE-PATE/LAN Joint Venture to third parties.

On 14 December 2017 the Central Bankruptcy Court ordered the Company to pay Baht 478,774,424.90 to Nawarat Patanakarn Public Company Limited, together with interest at a rate of 7.5 percent per annum from 23 July 2003 until payment is completed. Altogether is approximately Baht 1,123 million.

The Company is currently in the process of filing an appeal with the Supreme Court, disputing the judgment of the Central Bankruptcy Court, and the filing deadline is 15 March 2018.

The Company's management have assessed the judgment and, based on a legal opinion, is confident in the grounds for opposition and believes that the Supreme Court will overturn the judgement of the Central Bankruptcy Court. The Company has not recognised any provision for the liability resulting from the judgement in the financial statements for the year ended 31 December 2017.

(2) Operation Outcome

The annual loss of the company and its subsidiaries was 24.7 million baht, which was 237.7 million baht less compared to the previous year in which the company was sued for 251.7 million Thai Baht. On the otherhand, revenue from service and rental fees increased by 50.5 million baht, which resulted from the increase in revenue of the subsidiaries from vehicle rental by 51.5 million baht, an increase in the number of vehicles for rent, and increase of gross profit by 1.4 %.

The increases by 5.2 million baht of other revenue came from selling 6.0 million baht of capital in securities available for sale, and the decrease of other revenue by 0.8 million baht.

The cost of rentals and services increased by 27.3 million baht which is in line with the increased revenue. Moreover, the subsidiaries increased depreciation cost of rental buses by 24.6 million baht, with a 5.3 million baht increase in financial expense due to the increase of financial lease and income tax by 12.5 million baht. The mentioned income tax is a result of the decreased depreciation cost of rental vehicle due to the increase in vehical sales and financial lease.

(3) Financial Status

(a) The decrease of total assets by 88.4 million baht is a result of the following important changes:

Trade receivables and other receivables increased from the previous year by 24.5 million baht in the vehicle rental business. As the number of rental vehicles increased, the collection period was 39 days compared to 37 days in the previous year.

Income tax asset of the current period, which is withholding tax during the year, increased from the former year by 12.4 million baht as a result of increased number of vehicle rentals. Moreover, according to the order from the Revenue Department, the lessee must include withholding tax in the rental paid on 1 June 2016 onwards.

Rental vehicles and equipment decreased by 95.3 million baht compared to the previous year as during the year there was an increase of vehicle purchases which amounted to 432.2 million baht, the purchase of other equipment amounting to 11.6 million baht, as well as sales for due rental vehicles and equipment amounting to 254.4 million baht in net account, depreciation cost amounting to 320.7 million baht, reverse entries for impairment from vehicle sales amounting to 36.0 million baht net.

Capital for securities available for sale decreased by 41.5 million baht from last year due to sale of the said capital by subsidiaries in order to support management costs.

Non-current assets increased by 10.5 million baht from the previous year as a result of categorization of withholding income tax return amounting to 18.2 million baht into non-current assets, and the decrease of withholding income tax return in two subsidiaries amounting to 6.8 million baht and amortization of the non return tax amounting to 0.6 million baht.

(b) Total debt decreased by 65.8 million baht as a result of the following important changes:

Debt from installment contract and financial lease decreased by 64.7 million baht, the debt occurred in the period was less than debt payment.

Debt and loss from legal issue decreased by 10 million baht as the company paid partial debt to the revenue department in the second trimester of the current year.

Debt from deferred revenue increased by 7.4 million baht as a result of increase in financial lease in retail vehicle business amounting to 4.4 million baht. Unrealized gain from capital securities available for sale increased by 1.4 million baht. The sale of rental vehicle decreased impairment cost by 1.6 million baht.

(4) Source of Investment Funds and Liquidity

Cash from operation activities mainly came from revenue from the vehicle rental business, insurance brokerage and computer rental business. Cash flow from operation activities during the year amounted to 246.4 million baht which decreased by 16.9 million baht compared to the previous year due to the increase of income tax.

Cash from investment activities mainly came from sale of due rental vehicle. Net cash flow from investing activities was Baht 247.5 million, and in the period, the proceeds from the sale of vehicles decreased from the decrease in the number of vehicles sold by Baht 61.64 million.

| Liquidity | 2017 | 2016 | 2015 |

(5) Impact Factor or Sequence in the Future Operation

From the analysis, the car rental business industry has continuously expanded in the past 5 years by 40.77% (considering the top 20 car rentals of all types in car rental companies *from 101,343 cars in year 2013 to 142,670 cars in 2017). The information reassures that the industry is still expanding, which is in line with the government's economic stimulus package policy in agriculture, medium to midsize industry, Eastern Economic Corridor project

(EEC), Southern Thailand 4.0 strategy developed from economic development plan, all of which are significant factors for expansion in the car rental business.

Moreover, ** EIC has evaluated that Thai economy will expand by 3.5% in 2018, with support from both private and public sectors, as a result of expanding export, recovering global economy and investment from the public sector which is expected to increase during the second half of the year, the expansion in the consumer digital market which has rapidly increased both in Thailand, ASEAN countries, India and China – consumer base will expand to 3,000 million when all the countries connect – which shows potential for opportunity and increasing value of operating the business.

From the analysis, the long-term car rental business may expand to support business in all sectors. This might increase competitiveness in price and service, and the focus may point to business target groups that have high expansion rate such as agriculture and related business, and large infrastructure business. For this reason, it is necessary for the company to increase service value both in car rental business and insurance brokerage, as well as to offer new services to the target group who are looking for quality service. This way of doing business, which benefits both client, partners and factor companies, will help the company to sustainably grow in its field.

Independent Auditor's report

To the Shareholders of Premier Enterprise Public Company Limited

Disclaimer of Opinion

I have audited the accompanying consolidated financial statements of Premier Enterprise Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2017, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Premier Enterprise Public Company Limited for the same period.

I do not express an opinion on the financial statements referred to above because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of my report to the consolidated financial statements of Premier Enterprise Public Company Limited and its subsidiaries and the separate financial statements of Premier Enterprise Public Company Limited for the year ended 31 December 2017.

Basis for Disclaimer of Opinion

As described in Note 4.4 to the financial statements, in December 2017 the Central Bankruptcy Court ordered the Company to pay Baht 479 million and interest at a rate of 7.5% per annum, or a total of Baht 1,123 million, to the plaintiff in a civil case related to the business rehabilitation process. The Company is currently in the process of filing an appeal against the judgement of the Central Bankruptcy Court with the Supreme Court. The Company's management have assessed the judgment and, based on a legal opinion, is confident in the grounds for opposition and believes that the Supreme Court will overturn the judgement of the Central Bankruptcy Court. As a result, the Company has not recognised any provision for the liability resulting from the judgement in its accounts. Because the case is in the appeal process and its outcome is therefore not final and depends on future judicial proceedings. In addition, as described in Note 21 to the financial statements, the Company has tax liabilities of Baht 242 million that are in the process of being paid to the Revenue Department. These matters involve significant uncertainties which raise substantial doubt about the ability of the Group to continue as going concerns.

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of my report involves significant uncertainty, notwithstanding having obtained sufficient appropriate audit evidence regarding of the uncertainty, it is not possible to form an opinion on the financial statements due to its possible effect on the financial statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my report.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

I am responsible for the audit resulting in this independent auditor's report.

Premier Enterprise Public Company Limited and its subsidiaries
Notes to consolidated financial statements
For the year ended 31 December 2017

1. General information

Premier Enterprise Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in investing in various businesses. The registered office of the Company is at One Premier Corporate Park, Soi Premier 2, Srinakarin Road, Kweang Nongbon, Khet Prawet, Bangkok.

2. Basis of preparation

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 11 October 2016, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of Premier Enterprise Public Company Limited ("the Company") and the following subsidiary companies ("the subsidiaries"):

| Company's name | Nature of business | Country of incorporation | Percentage of shareholding | |
|--|---|-----------------------------|-------------------------------|------------------------|
| | | | <u>2017</u> Percent | <u>2016</u> Percent |
| <u>Subsidiaries directly owned by the Company</u> | | | | |
| 1. Premier Capital (2000) Company Limited | Provision of commercial credit to various businesses and provision of rental service of computer hardware and accessories | Thailand | 100 | 100 |
| 2. Premier Inter Leasing Company Limited | Vehicles rental service | Thailand | 100 | 100 |
| 3. Premier Brokerage Company Limited | Insurance brokerage | Thailand | 99.99 | 99.99 |
| <u>Subsidiary indirectly owned by the Company</u> | | | | |
| 1. Premier LMS Company Limited | Dissolution | Thailand | - | 99.94 |

During the first quarter of the current year, Premier LMS Company Limited which is a subsidiary of the Company had completed the liquidation process. Therefore, the Company excluded the financial statements of this subsidiary in the consolidated financial statements.

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
 - c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
 - d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
 - e) Material balances and transactions between the Company and its subsidiary companies have been eliminated from the consolidated financial statements.
 - f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.
- 2.3 The separate financial statements present investments in subsidiaries under the cost method.

3. New financial reporting standards

(a) Financial reporting standards that became effective in the current year

During the year, the Company and its subsidiaries have adopted the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which are effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements. However, one standard involves changes to key principles, which are summarised below.

TAS 27 (revised 2016) Separate Financial Statements

This revised standard stipulates an additional option to account for investments in subsidiaries, joint ventures and associates in separate financial statements under the equity method, as described in TAS 28 (revised 2016) Investments in Associates and Joint Ventures. However, the entity is to apply the same accounting treatment for each category of investment. If an entity elects to account for such investments using the equity method in the separate financial statements, it has to adjust the transaction retrospectively.

This standard does not have any significant impact on the Company and its subsidiaries' financial statements because the management has decided to continue accounting for such investments under the cost method in the separate financial statements.

(b) Financial reporting standards that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations (revised 2017) which are effective for fiscal years beginning on or after 1 January 2018. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes and clarifications directed towards disclosures in the notes to financial statements.

The management of the Company and its subsidiaries believe that the revised financial reporting standards will not have any significant impact on the financial statements when they are initially applied.

4. Debt restructuring/rehabilitation plan

From 2002, the Company operated its business under a business rehabilitation plan approved by the Supreme Court. In 2005 the rehabilitation plan administrator filed petitions with the Central Bankruptcy Court seeking to amend the rehabilitation plan in respect of business and financial restructuring and the Central Bankruptcy Court approved amended plans on 13 October 2005 and 15 December 2005. The salient aspects of these amendments are as follows.

4.1 Business restructuring

The Company was to transfer the following non-core business assets to a newly established company, Premier Fission Capital Company Limited.

- All investments in subsidiaries except the investments in 4 subsidiaries operating in financial business, which consist of Premier Capital (2000) Company Limited, Premier Inter Leasing Company Limited, Premier Brokerage Company Limited and Premier LMS Company Limited.

- All investments in associated companies, long-term investments and short-term investments.
- All movable properties except those described above which are nonessential to the Company's business.

The plan designated a transfer price for the above assets equal to their net book value under the equity method per the financial statements as at 30 June 2005 reviewed by the auditor. Payment for the assets transferred is to be completed within 10 years, commencing from the date on which the Court granted final approval for the plan amendment, with a grace period of one year, Baht 10 million per annum to be paid in the 2nd and 3rd years, and the remainder to be paid in equal annual amounts from the 4th to the 10th years.

In the event that Premier Fission Capital Company Limited defaults on payment, the Company shall be deemed in default under the rehabilitation plan.

The Company transferred these assets to Premier Fission Capital Company Limited on 31 October 2005.

4.2 Financial restructuring

a) Debt repayment

Under the plan, the Company retained indebtedness totaling Baht 636,207,750 following the conversion of debt to equity discussed below. This retained indebtedness comprised amounting to Baht 486,207,750 which was equal to 80 percent of the appraised values of the land and land and structures placed as collateral with creditors, together with the amount that the plan administrator projected that the Company has the ability to pay, amounting to Baht 150 million.

The Company was to sell the above land and buildings to interested parties within 6 months of the date on which the Court approved the amended plan, in order to settle indebtedness to the preferred creditors, or to transfer the land and buildings in settlement of debt.

In 2006 and 2007, the Company transferred assets to financial institution creditors to settle debt.

b) Conversion of debt to equity

The plan stipulated that the Company was to increase its registered share capital of Baht 4,121,527,090 through the issue of 412,152,709 ordinary shares with par value of Baht 10 each, to allocate to creditors in settlement of indebtedness of the Company in excess of that retained.

The Company registered the increase in its registered share capital from Baht 4,000,000,000 to Baht 8,121,527,090 on 20 December 2005.

The Company converted debt of Baht 1,069,936,022 to equity through the issue of 412,152,709 ordinary shares with par value at Baht 10 each. This conversion incurred discount on share capital amounting to Baht 3,051,591,068. The Company registered the increase in its paid-up share capital from Baht 3,878,472,910 to Baht 8,000,000,000 on 28 December 2005.

For debts arising as a result of the Company's provision of guarantees of the debt of other companies, but which are not yet due for payment, the debt was to be converted to equity, with the plan administrator to hold the shares on behalf of the creditors until the debts come due per the conditions. Shares issued for guarantees under which the creditors are not yet to made claims, which the plan administrator holds on behalf of these creditors, are presented as a deduction in shareholders' equity.

The Company will record expenses under its guarantee obligations when the official receiver has identified them as creditors entitled to payment and creditors lodge claims with the Company. If any shares are still held by the plan administrator after the expiration of the guarantee commitments, the Company will then arrange for the cancellation of such shares by mean of a reduction in its registered share capital.

4.3 Extension of debt payment term

Under the petition to amend the plan, debt payments were rescheduled such that payment previously to be completed within 2012 is now to be completed within 2015. The adjustments to the payment schedule were made in line with cash flow projections and the Company's ability to make debt payment.

On 2 August 2007 the plan administrator petitioned the Central Bankruptcy Court to terminate the Company's rehabilitation, since the rehabilitation plan had covered its term of 5 years. However, the plan administrator took into account that the transfer of land and buildings in settlement of debt to two creditors was still in progress, and that if matters were processed under the period of the rehabilitation plan, it would be beneficial to the Company. On 14 August 2007 the plan administrator therefore petitioned the Court to extend the term of the rehabilitation plan by 6 months, in order to enable completion of the transfer of assets in settlement of debt (as at 31 December 2007 the Company had already transferred assets to settle debt). On 8 October 2007 the Central Bankruptcy Court granted the order to extend the term of the plan until 2 February 2008.

The rehabilitation plan administrator submitted a proposal to amend the rehabilitation plan in November 2007 and on 21 December 2007 the Creditors' Meeting passed a resolution to accept the proposal to amend the rehabilitation plan. The significant content of the proposed amendment is as follows:

- a) The Company was to decrease its paid-up capital from Baht 8,121,527,090 to Baht 812,152,709 by reducing the par value of the shares from Baht 10 to Baht 1 per share. All of the decrease in paid-up capital was to be used to offset the retained loss of the Company.
- b) Thereafter, the Company is to increase its paid-up capital by Baht 800 million through the issue of 800 million ordinary shares of Baht 1 per share. The additional paid-up capital is to be used in the Company's business. The new ordinary shares are to be allocated as follows:
 - 1) 400 million shares are to be offered via a rights issue to the existing shareholders, pro-rated to their shareholding, with shareholders entitled to purchase 1 new share of Baht 1 per share for every 2 existing shares. Fractions of shares left over are to be offered to investors or individuals as the plan administrator or the board deem appropriate.
 - 2) 400 million shares are to be offered to investors or individuals as the plan administrator or the board deem appropriate, at a price of at least Baht 1 per share.
- c) The implementation period for the rehabilitation plan of the Company was extended to 30 June 2008.

On 18 February 2008, the Central Bankruptcy Court granted the order approving such proposal.

On 9 April 2008, the Company registered a reduction in its registered share capital from Baht 8,121,527,090 to Baht 812,152,709, by reducing the par value of the shares from Baht 10 to Baht 1, with the Ministry of Commerce. On 10 April 2008, the Company registered an increase in its registered share capital of Baht 800,000,000 (800 million shares at par value of Baht 1), to Baht 1,612,152,709, with the Ministry of Commerce. The reduction in paid-up capital was recorded in accordance with the Public Limited Companies Act B.E. 2535 and the Federation of Accounting Professions Notification No. 8/2550 "Recording Offsets of Deficits by Public Limited Companies".

On 20 June 2008, the rehabilitation plan administrator filed a petition with the Central Bankruptcy Court reporting on the completion of the rehabilitation plan and requesting a court order to exit the rehabilitation plan. The Central Bankruptcy Court scheduled a hearing of the Company's petition on 31 July 2008.

On 31 July 2008, the Central Bankruptcy Court ordered postponement of the hearing of the Company's petition requesting a court order to exit the rehabilitation plan until the Supreme Court has handed down its decision on the appeals of two creditors. Such appeals, which were accepted by the Supreme Court on 30 July 2008, were filed to contest the Central Bankruptcy Court's order dated 18 February 2008 approving the Company's petition to amend the rehabilitation plan. Thereafter, the plan administrator resubmitted the petition with the Court to extend the term of the rehabilitation plan and on 6 August 2008 the Court ordered an extension of the term of the plan until 20 June 2009.

On 9 December 2008 the rehabilitation plan administrator submitted a proposal to amend the rehabilitation plan with respect to the offering price of the additional share capital, as follows:

- 1) 400 million shares are to be offered via a rights issue to the existing shareholders, pro-rated to their shareholding, with shareholders entitled to purchase 1 new share for every 2 existing shares, at the average closing price of the Company's shares on the Stock Exchange of Thailand over the 30 days before the date on which the creditors approve the plan. Fractions of shares left over are to be offered to investors or individuals as the plan administrator or the board deem appropriate.
- 2) 400 million shares are to be offered to investors or individuals that the plan administrator or the board deem appropriate, at a price of at least at the average closing price of the Company's shares on the Stock Exchange of Thailand over the 30 days before the date on which the creditors approve the plan.

On 15 January 2009 the Creditors' Meeting passed a resolution to accept the proposal to amend the rehabilitation plan. On 26 May 2009, the Central Bankruptcy Court issued an order granting an extension of the implementation period of the rehabilitation plan by another period of 1 year, to 20 June 2010.

On 6 May 2010, the Central Bankruptcy Court granted a further extension of the implementation period of the rehabilitation plan until 30 June 2011.

On 4 April 2011, the Central Bankruptcy Court dealt with the petition of the rehabilitation plan administrator dated 20 June 2008 requesting the Court order to exit the rehabilitation plan, without waiting for the final decision of the Supreme Court on the appeals filed by two creditors to contest the Central Bankruptcy Court's order dated 18 February 2008, approving the Company's petition to amend the rehabilitation plan. The Central Bankruptcy Court issued an order approving the Company's exit from its rehabilitation plan since the Company had already implemented conditions in the plan, and ordered the Company to continue paying debts to the creditors in accordance with the rehabilitation plan. Debt repayment was completed in 2015.

However, two creditors lodged appeals against the order of the Central Bankruptcy Court with the Supreme Court, with respect to approval of the proposed amendments to the plan on 18 February 2008. The Supreme Court's judgement, issued on 5 August 2015, overturned the order of the Central Bankruptcy Court and rejected the proposed amendments to the Company's rehabilitation plan. Therefore, in order to comply with the Supreme Court's judgement, the Company has registered the decrease and increase in its capital to the Public Companies Registrar of the Department of Business Development at the Ministry of Commerce on 12 April 2016.

The accounting adjustment of the Company's accounts was to accord with the Supreme Court's order, with the impact to paid up share capital and retained losses of shareholders' equity of the Company as follows:

(Unit: Baht)

| Shareholders' equity | Before adjustments | After adjustments | Changes |
|--|-----------------------|----------------------|---------------|
| Registered share capital | | | |
| 1,612,152,709 ordinary shares of Baht 1 each | | | |
| (After adjustment: 812,152,709 ordinary shares of | | | |
| Baht 10 each) | 1,612,152,709 | 8,121,527,090 | 6,509,374,381 |
| Issued and fully paid up share capital | | | |
| 800,000,000 ordinary shares of Baht 1 each | | | |
| (After adjustment: 800,000,000 ordinary shares of | | | |
| Baht 10 each) | 800,000,000 | 8,000,000,000 | 7,200,000,000 |
| Shares issued for unclaimed guarantees issued by the | | | |
| Company | (20,383,918) | (203,839,180) | (183,455,262) |
| Net changes | | | 7,016,544,738 |

The net changes of Baht 7,016,544,738 had the effect of increasing retained losses by the same amount, with no effect to the overall amounts of shareholders' equity of the Company.

In addition, on 23 September 2016, the Extraordinary General Meeting of the Company's shareholders No. 1/2016 approved a change in the par value of the ordinary shares from Baht 10 each to Baht 0.5 each by write off retained losses. As a result, the Company's registered share capital of Baht 406,076,355 comprises 812,152,709 ordinary shares of Baht 0.5 each. The Company has registered the change in the par value of its shares with the Department of Business Development at the Ministry of Commerce on 7 December 2016.

4.4 Civil case in connection with business restructuring

According to the Company's report to the Securities Exchange of Thailand on 5 July 2017 with respect to the Black Case No. Por Kor 6/2558, which was filed against the Company by Nawarat Patanakarn Public Company Limited with the Central Bankruptcy Court, as the joint venture partner of Premier Enterprise Public Company Limited, PATE Engineers, Inc. and Lockwood, Andrews & Newnam, Inc. (PE-PATE/LAN Joint Venture), was a co-defendant in the case, demanding the Company to be jointly liable for the consideration accrued by the PE-PATE/LAN Joint Venture under the sub-contract agreement for construction of waste water treatment system for the Bangkok Metropolitan Administration for a period from 2001 - 2003. The claim was for the amount due of Baht 650.79 million, together with interest amounting to Baht 653.01 million.

The PE-PATE/LAN Joint Venture was incorporated in 1996 to enter into an agreement for construction of waste water treatment system for the Bangkok Metropolitan Administration, with Nawarat Patanakarn Public Company Limited as the sub-contractor. Nawarat Patanakarn Public Company Limited applied for credit with a bank to fund the construction and the PE-PATE/LAN Joint Venture transferred the rights to receive payment for the work from the Bangkok Metropolitan Administration to Nawarat Patanakarn Public Company Limited, who in turn transferred the rights to receive payment from PE-PATE/LAN Joint Venture to the bank as collateral for the credit facility.

During the economic crisis in 2000, the Company restructured its business by transferring its investments in non-core business and interest in PE-PATE/LAN Joint Venture to third parties.

On 14 December 2017 the Central Bankruptcy Court ordered the Company to pay Baht 478,774,424.90 to Nawarat Patanakarn Public Company Limited, together with interest at a rate of 7.5 percent per annum from 23 July 2003 until payment is completed. Altogether is approximately Baht 1,123 million.

The Company is currently in the process of filing an appeal with the Supreme Court, disputing the judgment of the Central Bankruptcy Court, and the filing deadline is 15 March 2018.

The Company's management have assessed the judgment and, based on a legal opinion, is confident in the grounds for opposition and believes that the Supreme Court will overturn the judgement of the Central Bankruptcy Court. The Company has not recognised any provision for the liability resulting from the judgement in the financial statements for the year ended 31 December 2017.

5. Significant accounting policies

5.1 Revenue recognition

Rental income

Rentals are recognised as income evenly over the term of the lease, excluding related value added tax, and after deducting discounts.

Rendering of services

Service revenue is recognised when services have been rendered taking into account the stage of completion.

Insurance commission income, excluding value added tax, is taken up as income when the insurance policy is received from the insurance company and invoice is issued.

Interest income

Interest income is recognised on an accrual basis based on the effective interest rate.

5.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, cash at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

5.3 Trade and other receivables

Trade and other receivables are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experiences and analysis of debt aging.

5.4 Investments

- a) Investments in securities held for trading are stated at fair value. Changes in the fair value of these securities are recorded in profit or loss.
- b) Investments in available-for-sale securities are stated at fair value. Changes in the fair value of these securities are recorded in other comprehensive income, and will be recorded in profit or loss when the securities are sold.
- c) Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

The fair value of unit trusts is determined from their net asset value.

The weighted average method is used for computation of the cost of investments.

In the event the Company and subsidiaries reclassify investments from one type to another, such investments will be readjusted to their fair value as at the reclassification date. The difference between the carrying amount of the investments and the fair value on the date of reclassification is recorded in profit or loss or recorded as other components of shareholders' equity, depending on the type of investment that is reclassified.

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognised in profit or loss.

5.5 Investments in accounts receivable

Purchases of receivables, which are classified as other investments, are valued at acquisition cost net of allowance for impairment (if any). Losses on impairment of investment are recognised as expenses in profit or loss.

5.6 Vehicles for rent and equipment and Depreciation

Vehicles for rent and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

| | | | |
|--------------------------------|---|---------|-------|
| Leasehold improvements | - | 5 | years |
| Furniture and office equipment | - | 5 | years |
| Equipment and tools | - | 5 | years |
| Public buses for rent | - | 5 and 7 | years |

Depreciation of vehicles for rent is calculated using the sum-of-the-years' digits method over estimated useful lives of 5 years.

Depreciation is included in determining income.

No depreciation is provided on assets under construction.

An item of vehicles for rent and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

5.7 Amortisation

Deferred interest expenses under hire-purchase and finance lease agreements are amortised using the effective interest rate method.

The amortisation is included in determining income.

5.8 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel and directors and officers with authority in the planning and direction of the Company's operations.

5.9 Long-term lease agreements

Leases of assets which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are recorded as long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases are depreciated over the useful life of the assets.

Leases of assets which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight line basis over the lease term.

5.10 Impairment of assets

At the end of each reporting period, the Company and its subsidiaries perform impairment reviews in respect of the land, vehicles for rent and equipment whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss.

5.11 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The subsidiaries and their employees have jointly established a provident fund. The fund is monthly contributed by employees and the subsidiaries. The fund's assets are held in a separate trust fund and the subsidiaries' contributions are recognised as expenses when incurred.

Defined benefit plans

The subsidiaries have obligations in respect of the severance payments and they must make to employees upon retirement under labor law. The subsidiaries treat these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Company recognises restructuring-related costs.

5.12 Provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

5.13 Income Tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiaries record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5.14 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation technique that are appropriate in the circumstances and maximise the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

6. Significant accounting judgments and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgments and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgements regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management needs to make judgements and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Land, vehicles for rent and equipment/Depreciation

In determining depreciation of vehicles for rent and equipment, the management is required to make estimates of the useful lives and residual values of vehicles for rent and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review land, vehicles for rent and equipment for impairment on a periodical basis and record impairment losses in the period when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Litigation

The Company has contingent liabilities as a result of litigation. The Company's management has used judgement to assess of the results of the litigation and believes that no loss will result. Therefore no contingent liabilities are recorded as at the end of reporting period.

On 11 August 2016, the Meeting of the Company's Board of Directors No.3/2016 passed the resolution approving the Company's purchases of two previously indirectly-held investments, Premier Inter Leasing Company Limited and Premier Brokerage Company Limited, from Premier Capital (2000) Company Limited at prices of Baht 288.6 million and Baht 10.9 million, respectively. Premier Capital (2000) Company Limited had a loss from the sale of these investments amounting to Baht 33.5 million. However, because the purchase and sale were made for the purpose of organisational restructuring within the group of companies, the Company has presented the original investment costs of these subsidiaries as the investment costs, since the two subsidiaries have always been subsidiaries of the Company, and presented the differences between the purchase prices and original investment costs under the caption "Difference on reorganisation of business of group companies" in other components of shareholders' equity in the separate statement of financial position.

As at 31 December 2017, the Company has outstanding balance of debt from this transaction amounting to Baht 32.4 million which is presented under the caption "Trade and other payables" in the separate statement of financial position (31 December 2016: Baht 32.4 million).

During the year 2017, the Company set up the allowance for impairment of investments in subsidiary totaling Baht 10.5 million (2016: Baht 38.6 million).

As at 31 December 2017, Premier Inter Leasing Company Limited, the Company's subsidiary, has reviewed the recoverable amounts of vehicles for rent from its value in use or from sales of vehicles for rent. The subsidiary found that the recoverable amounts of certain vehicles for rent were a total of Baht 120.3 million higher than the net book values, and the recoverable amounts of other vehicles for rent were a total of Baht 24.6 million lower than their net book values. The subsidiary therefore decided to set aside allowance for impairment of vehicles totaling Baht 24.6 million, and this is presented in profit or loss for the year ended 31 December 2017.

As at 31 December 2017, certain equipment items have been fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation of those assets amounted to approximately Baht 14 million (2016: Baht 25 million) (The Company only: Nil (2016: Baht 13 million)).

As at 31 December 2017, a subsidiary has vehicles for rent acquired under hire-purchase and finance lease agreements, with net book value amounting to approximately Baht 1,490 million and Baht 136 million, respectively (2016: Baht 1,577 million and Baht 81 million, respectively).

A subsidiary is engaged in the vehicles rental business. The terms of the agreements are generally between 3 and 5 years. As at 31 December 2017 and 2016, future minimum lease income receipts under these operating lease contracts were as follows.

21. Liabilities from litigation losses

During the year 2010, the Company was sued as a co-defendant by the Revenue Department, which claimed corporate income tax and value added tax of the years 2001 and 2002 amounting to Baht 251.7 million, together with surcharges, from Premier Enterprise Public Company Limited, PATE Engineers, Inc. and Lockwood, Andrews & Newnam, Inc. (PE-PATE/LAN Joint Venture) in which the Company was previously one of the investors, set up to construct the Bangkok Metropolitan Administration waste water treatment project. The Company terminated its investment in 2000. On 30 November 2011, the Central Tax Court dismissed the case and the Company was thus not jointly liable for these taxes on behalf of the joint venture. However, in 2012 the Revenue Department appealed the order of the Central Tax Court to the Supreme Court, and the Supreme Court's judgement, issued on 30 November 2016, overturned the order of the Central Tax Court. As a result, the Company has to make joint payment of the taxes to the Revenue Department. Since Premier Infrastructure Development Company Limited, a co-defendant as a shareholder of the joint venture following a transfer of shares from the Company in 2000, has been declared bankrupt, the Company is responsible for making payment in accordance with the judgement. The Company has already made tax payment amounting to Baht 10 million to the Revenue Department, leaving the remaining tax due amounting to Baht 241.7 million.

The meeting of the Company's Board of Directors on 4 July 2017 passed the resolution to propose the sale of the Company's investment in a subsidiary, Premier Inter Leasing Company Limited, at the price not lower than Baht 4.49 per share, to any person interested in acquiring the investment who offer the highest bid price, which can be a related or non-related person, for approval by the Company's meeting of shareholders. The total payment to be received from the sale of such investment should be equal to Baht 260 million, or an approximate amount. The proceeds will be used to make payment of the tax due according to the ruling of the Supreme Court to the Revenue Department. Subsequently, on 18 September 2017, the meeting No. 6/2017 of the Company's Board of Directors passed a resolution amending the resolution passed by the meeting No. 4/2017, changing the procedure for the sale of the investment in Premier Inter Leasing Company Limited. The substance of this amendment is that "the Company is to find persons interested in acquiring the investment by appoint PJK Capital Company Limited to find such interested persons and the Company is to stipulate the number of shares for which bids are to be invited, such that the Company receives payment equal or as close as possible to Baht 260 million. The interested persons are to submit unsealed bids to the Chairman of the Audit Committee at the Company's offices, no later than 12:00 on 24 October 2017. Following the bidding period, the bids are to be presented to a meeting of the Board of Directors to be held on 31 October 2017, for further consideration."

On 31 October 2017, the meeting No. 7/2017 of the Board of Directors of the Company passed a resolution to propose for consideration and approval by a meeting of the Company's shareholders the sale of the 57,777,777 ordinary shares that the Company holds in Premier Inter Leasing Company Limited, which is a subsidiary of the Company, to Premier Fission Capital Company Limited, at a price of Baht 4.50 per share, or a total price of Baht 259,999,996.50. Premier Fission Capital Company Limited was the only party to submit an offer to purchase Premier Inter Leasing Company Limited's shares within the timeframe and in accordance with the conditions specified by the Company and must enter into a share purchase agreement with the Company in the format and with the terms and conditions stipulated by the Company and pay a deposit of Baht 26,000,000 to the Company within 7 days after the date on which a meeting of the Company's Board of Directors passes a resolution to accept the offer to purchase Premier Inter Leasing Company Limited's shares. The meeting also passed a resolution to call the Extraordinary General Meeting of Shareholders No. 1/2018 on Thursday 11 January 2018 to consider and approve the Company's proposed sale of the ordinary shares it holds in Premier Inter Leasing Company Limited to Premier Fission Capital Company Limited.

On 20 December 2017, the meeting No. 8/2017 of the Board of Directors of the Company passed a resolution to have the Company notify Premier Fission Capital Company Limited that it wished to request a postponement of the purchase of the shares of Premier Inter Leasing Company Limited, because UOB Kay Hian Securities (Thailand) Public Company Limited, who is the independent financial advisor of the Company, had expressed the opinion in the independent financial advisor's report to the Company's shareholders that the transaction price was not appropriate because the share price of Premier Inter Leasing Company Limited determined by the independent financial advisor's valuation was higher than the offering price of Premier Fission Capital Company Limited. The Company's shareholders should therefore vote not to approve the deal at this time. As a result of the request for postponement, the Company was not able to sell the shares of Premier Inter Leasing Company Limited to Premier Fission Capital Company Limited within the timeframe stipulated. Therefore, if Premier Fission Capital Company Limited wishes to terminate the offer to purchase shares, the Company shall agree to the termination, with neither party seeking damages from the other. The Company notified Premier Fission Capital Company Limited on 21 December 2017.

On 26 December 2017, Premier Fission Capital Company Limited sent a reply to the Company, stating that it wished to terminate its offer to acquire shares of Premier Inter Leasing Company Limited without demanding any damages or compensation.

26. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the Company's Board of Directors.

For management purposes, the Company and its subsidiaries are organised into business units based on its products and services and have 2 reportable segments as follows:

- (1) Vehicle rental segment
- (2) Insurance brokerage segment

No other operating segments have been aggregated to form above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following table presents revenue, profit or loss and total assets information regarding the Company's and its subsidiaries' operating segments for the years ended 31 December 2017 and 2016.

Geographic information

The Company and its subsidiaries are operated in Thailand only. As a result, all of the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

Major customers

For the years 2017 and 2016, the Company and its subsidiaries have no major customer with revenue of 10 percent or more of an entity's revenues.

27. Provident fund

The subsidiaries and their employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. Both employees and the subsidiaries contributed to the fund monthly at the rates of 3 to 15 percent of basic salary. The fund, which is managed by Kasikorn Asset Management Company Limited, will be paid to the employees upon termination in accordance with the fund rules. The contributions for the year 2017 amounting to approximately Baht 3.3 million (2016: Baht 3.9 million) were recognised as expenses.

28. Commitments and contingent liabilities

28.1 Guarantees

- (1) As at 31 December 2017, the Company has obligations under its guarantee and aval of loan facilities and promissory notes of related company amounting to Baht 10.8 million (2016: Baht 10.8 million). However, the Company has already issued shares to cover all of its guarantee obligations, as discussed in Note 4 to the financial statements.
- (2) As at 31 December 2017, there were outstanding bank guarantees of approximately Baht 12.1 million (2016: Baht 13.5 million) issued by banks on behalf of the subsidiary in respect of certain performance bonds as required in the normal course of its business. These included letters of guarantee to guarantee contractual performance.

28.2 Operating lease and services commitments

The subsidiaries have entered into several lease agreements in respect of the lease of office building space and equipment and service agreements. The terms of the agreements are generally between 1 and 4 years.

Future minimum lease payments required under these non-cancellable operating leases and service contracts were as follows.

28.3 Long-term service commitments

The Company and its subsidiaries have entered into management service agreements with a related company, whereby management fees totaling Baht 2.2 million per month (2016: Baht 0.8 million per month) (The Company only: Baht 0.5 million per month (2016: Baht 0.2 million per month)) are payable in the future. The agreements end in December 2018 but they automatically renew for periods of one year each time until terminated.

29. Financial instruments

29.1 Financial risk management

The Company and its subsidiaries' financial instruments, as defined under Thai Accounting Standard No. 107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, current investments, receivables, short-term loans to, restricted bank deposits, investments in available-for-sale securities, payables, short-term loans from, liabilities under hire-purchase agreements and liabilities under finance lease agreements. The financial risks associated with these financial instruments and how they are managed are described below:

Credit risk

Subsidiary companies are exposed to credit risk primarily with respect to trade and other receivables and loans to related company. The subsidiaries manage the risk by adopting appropriate credit control policies and procedures and therefore do not expect to incur material financial losses. In addition, the subsidiaries do not have high concentrations of credit risk since they have large customer bases. The maximum exposure to credit risk is limited to the carrying amounts of trade and other receivables and loans to related company as stated in the statement of financial position.

Interest rate risk

The Company and its subsidiaries are exposed to interest rate risk relates primarily to their cash at banks, loans, liabilities under hire-purchase agreements and liabilities under finance lease agreements. Most of the Company and its subsidiaries' financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

Significant financial assets and liabilities classified by type of interest rates are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

29.2 Fair values of financial instruments

Since the interest rates of the majority of financial assets and financial liabilities vary in line with market rates or fixed interest rates which are close to market rate, while other financial instruments are short-term, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

A fair value is the amount for which an asset can be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction. The fair value is determined by reference to the market price of the financial instrument or by using an appropriate valuation technique, depending on the nature of the instrument.

30. Capital management

The primary objective of the Company's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2017, the Group's debt-to-equity ratio was 30.62:1 (2016: 23.30:1) and the Company's was 5.53:1 (2016: 3.60:1).

31. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 15 February 2018.
