General Information

The Company Name:	G J Steel Public Company Limited
Trading Symbol on the Stock Exchange of Thailand:	GJS for ordinary shares
Company Registration Number:	0107538000401
Type of Business:	Production and Distribution of Hot Rolled Coil
Headquarter Location:	88 PASO Tower, 24th Floor, Silom Road, Suriyawong, Bangrak, Bangkok 10500 Tel: (02) 267-8222 Fax: (02) 267-9048
Factory Location:	Hemaraj Chonburi Industrial Estate, 358 Moo 6, Highway 331, Bowin, Sriracha, Chonburi 20230 Tel: (038) 345-950 Fax: (038) 345-693
Website:	www.gjsteel.co.th
Date of Establishment:	5 January 1994
Date of Registration as A Public Company Limited:	9 August 1995
First Trade Date:	2 July 1996
Production Capacity:	1,500,000 tons per annum
Number of Employees:	728 persons
Registered Capital:	Baht 129,298,350,418.50
Paid-up Capital:	Baht 96,104,091,707.70
Paid-up Common Stock:	13,928,129,233 Ordinary shares, with per value of Baht 6.90 per shares
Fiscal Year:	1 January – 31 December

Message from the Chairman

The Global Economy for the year 2017 has ended on a positive note recording a growth of 3.6% and is projected to continue its upward march to record a growth of around 3.7% in 2018. However, it remains susceptible to Geo-political and other Macro Economic risks. Meanwhile, Thailand is estimated to also speed up its economic reforms with a projected GDP growth of over 4% during 2018 on the back of investment pick up and stronger exports, creating favorable environment for Steel Industry. This augers well for the businesses that are focused on domestic growth in the country.

The Global Steel Industry continues to witness challenging times, though the performance of the Industry has been better during 2017, recording a growth of 5.3% with a new peak production of 1,691.2 million ton of crude steel. World Steel Association (WSA) forecasts the global demand for finished steel at 1,649.5 million ton with a likely growth of 1.6% during 2018. Given the current stage of development of the Thailand economy and the likely growth path for the Country's economy in the next decade, the Steel Demand in Thailand projected to witness significant growth in future. However, the steel sector in Thailand continues to be under stress, even though the Government has issued and renewed Anti-Dumping and Safeguard measures to provide level playing field to this strategic industry to revive investment cycle & create employment opportunities and improve its competitiveness through improving efficiencies, reducing costs and other several initiatives.

Year 2017 has been an eventful year for the Company with completion of Financial and Business restructuring. This has improved the financial health of the Company by way of conversion of large part of long term debt into equity, waiving off the interest along with infusion of additional Working Capital by the New Investor. With the enhanced level of liquidity and prudent financial management, the Company has now undertaken implementation of Capital expenditure projects for improving health of equipment, upgrading technology and preparing for production of much needed Value added Steel for the Country, in a phased manner.

The Company has undertaken several strategic initiatives to prepare the organization for comprehensive and sustainable growth both on short term and long term. After a long gap, in the later half of 2017, plant operations has been extended beyond off peak period successfully and has been continuing successfully, pushing the production upward by 7% over previous year . The target for sales volume has been planned to grow by 18% in 2018. Performance of the recent months has built the confidence level of GJ team to take higher challenges by stepping up production in 2018, including development of new grades, improvement in quality, reducing conversion cost, improvement in environment & safety and overall improvement in health of entire plant & machinery. The Company endeavors to maximize the production for meeting growing demand of the country thereby reducing imports.

On behalf of the Board of Directors, I would like to express my sincere appreciation to all Shareholders, Customers, Trade Partners, Employees and Government of Thailand for their support. I look forward to your continued and valuable support in taking the Company to newer heights in the future.

Chainarong Monthienvichienchai
Chairman of the Board of Directors

Report of Chief of Corporate Social Responsibility

G J Steel Public Company Limited has the policy to promote Good Corporate Governance, emphasizing business principles of social responsibility. GJ Steel Public Company Limited is a producer and distributor of Hot Rolled Coil having an integrated production process from steel melting, slab casting to hot rolling processes focus on the quality of production ensuring not to pollute nearby community and environment. The Company utilizes resources efficiently, with energy and water saving scheme, produces quality product to customers, takes care and fulfills the overall community and society. Not only the external cares, the company also concerns employees' working condition and security together with training programs to maximize their skills and ability to work. All activities mentioned above are always the main corporate governance policy of the company.

In 2017, the company has been working with various Corporate Social Responsibility (CSR) projects focusing on activities that can develop society, supporting Thai culture and preserve cultural heritage of Thailand, for example, blood donation, making merit on Songkarn day. The company also promotes activities with communities focusing on educational development and cultural activities, for example, Children's day, The Buddhist Lent Day, Kathin Ceremony, Mother's day, setting up an Almshouse, making charcoal and wood vinegar with Baan Khao Hin School. In addition, the Company also takes care of environment with high concern under restricted law to prevent the pollution in the community.

GJ Steel Public Company Limited, aim to make the organization being responsible to employees, society, community and environment with cooperation from the board of director, management team and employees who are determined and dedicative to support and sacrifice for social responsibility.

Khunying Patama Leeswadtrakul

Chief of Corporate Social Responsibility Officer

Policy and Business Overview

Vision Mission Business Objectives

Vision

“Being the leading company in Thailand and the ASEAN region as a manufacturer of hot-rolled coils with high quality and efficient manufacturing processes”

Mission

- Towards the global market with a wide range of steel products
- Aim for growth by expanding its production capacity and costs reduction
- Improve and develop products to meet the needs of customers
- Continuous development of human resources
- Environmental conservation and return to society
- Enhance value for stakeholders
- Anti-Corruption and Corruption

Business Objectives:

2017 has been a better year for world steel Industry in terms of production growth. World steel production grew by 5.3% at 1691.1 mt, led by China at 831.7% representing a 49% in world steel production. Global steel market was showed a robust demand pick-up, whilst manufacturers benefited from higher steel price especially in the second half of 2017. While most of the regions in the world showed uptick in steel demand, Thailand showed a decline of 13.69% in steel consumption during 2017. Long Products consumption declined by 25.7% and Flat products declined by 5.9%. During 2017, Steel production in Thailand is estimated at 6.86 million tons, a decline of 3.72%, capacity utilization is estimated to be in the range of 30-40%. Per capita consumption of steel in Thailand is estimated at 251kg, as against China at 493 kg and world average at 208 kg. Issues with surplus capacity and excess supply through imports in the industry persist. Major producers in China, Japan, Korea, Taiwan, Australia, and Egypt continue to export steel to Thailand resulting in intensifying competition in the steel industry in Thailand in 2017. However, the steel demand in Thailand is forecast to increase to 18.6 million ton (2017-16.64 million ton) based on Government spending on various infrastructure projects during the year. It is expected that in 2018, Thailand steel industry will get support from construction industry (account for 57% steel demand) especially investing on economic area of Thailand, totally logistic system and investment on target industry. Most of target industry use steel as raw material for production. This year, the company will improve the quality of production as business objective for support customer's need.

In addition, the company has good business relation with steel production company from other country for exchange knowledge and technology to improve, reduce cost of production and increase quality of product. In Thailand industrial, the strength is cost reduction and speed of supply to customer.

Key Event in 2017

Parallel on restructuring from finance department to be taken

- Plant operations commenced beyond off peak period after long gap thereby enhancing production level by 14% in second half of the year 2017.
- Road map for investment to improve health of plant/equipment and to improve process efficiency including for product development drawn and actions for implementations initiated.
- Enhanced level of working capital made available through financial arrangements with new investor
- Customers and suppliers base broadened to cater higher volume of business.

August 2017

The meeting of the Extraordinary General Meeting of Shareholders No. 1/2017 on 30 August 2017 at 9.30 a.m. at Arnoma Grand Room, 3rd Floor, Arnoma Hotel, has passed the following key resolutions:

- Approved the Debt to Equity Conversion Scheme through the allocation and offering of not more than 3,343,000,000 newly issued ordinary shares, at the par value of THB 6.90 per share, to Asia Credit Opportunities I (Mauritius) Limited (“ACO I”) as repayment of the net trade debt of USD 32,934,250, or equivalent to THB 1,136,535,345.40 where the conversion price will be fixed at THB 0.34 per share, aggregating not more than THB 1,136,620,000.00
- Approved the increase of the Company’s registered capital in the amount of not more than THB 26,160,481,980 from the existing registered capital of THB 103,137,868,438.50 to THB 129,298,350,418.50, by issuing not more than 3,791,374,200 newly issued ordinary shares, at the par value of THB 6.90 per share, and approved the amendment to Clause 4. of the Memorandum of Association of the Company to be in line with the increase of the Company’s registered capital
- Approved the allocation and offering of not over 3,791,374,200 newly issued ordinary shares, at the par value of THB 6.90 per share, in order to accommodate (1) the allocation of not more than 3,343,000,000 newly issued ordinary shares of the Company, at the par value of THB 6.90 per share, to ACO I, where the conversion price will be fixed at THB 0.34 per share, aggregating not more than THB 1,136,620,000 for repayment of the net trade debt of USD 32,934,250 or equivalent to THB 1,136,535,345.40, under the Debt to Equity Conversion Scheme and (2) the adjustment of right under the Company’s warrants GJS-W2, GJS-W3, and GJS-W4
- Approved the offering of the newly issued ordinary shares of the Company to a specific person (Private Placement) at the offering price with a discount of more than 10 percent of the market price through the allocation and offering of the newly issued ordinary shares of the Company under the Debt to Equity Conversion Scheme to ACO I where the offering price shall be fixed at THB 0.34 per share, aggregating not more than THB 1,136,620,000.00, for

repayment of the net trade debt of USD 32,934,250, or equivalent to THB 1,136,535,345.40 pursuant to the Debt to Equity Conversion Scheme, in this regard, this offering was considered an offering of securities to a specific person (Private Placement) having the fixed offering price with the discount of more than 10 percent of the market price pursuant to Notification of the Capital Market Supervisory Board the No. TorChor. 72/2558

- Approved the amendment to the number of directors of the Company and the appointment of new directors where the number of the directors of the Company was amended from 9 to 11 directors and (1) Mr. Andreas Rizal Vourloumis and (2) Mr. Sudhir Maheshwari were appointed as new directors of the Company

Shareholding Structure

As of 31 January 2018, top ten shareholders and stock holding proportion based on paid-up capital are as follows:

No.	Name of shareholders	Number Shares	%
1.	Asia Credit Opportunities I (Mauritius) Limited	3,342,751,016	24.00
2.	G Steel Public Company Limited	2,122,427,209	15.24

Product Characteristics

The Company has operated the business as the manufacturer of hot-rolled steel plate and related products, which can be divided into the product line as follows:

- 1) Hot Rolled Coil
- 2) Tempered Hot Rolled coil
- 3) Hot Rolled Pickled & Oiled Product

These products are used in the related industries as follows:

Type	Utilization
Hot Rolled Coil	Mechanical tube, electrical conduits, water pipe, construction, C-section, construction scaffold, electrical pole, gas cylinder, black steam pipe, product used in anti-corrosion from atmosphere and cold-rolled steel sheet.
Tempered Hot Rolled Coil	Agricultural tools, general construction and profile sheets.
Hot Rolled Pickled & Oiled Product	Chassis, wheel, compressor, refrigerator frame, microwave frame.

Marketing and Competitions

Expanding Products Range

The Company is continuously looking at opportunities to develop and improve its products range to have more diverse range in terms of thickness of steel such as expanding from maximum normal thickness at 12.70 mm upto thickness of 25 mm in form of coil. Also developing special quality grades that the market still has to depend on import, such as steel quality for Cold-Rolling, gas cylinder, welding and high-tensile steel.

The Company has a plan to improve the strategy on product development as follows:

1. To focus on products on demand of the market and of regular use.
2. To develop products to support the market not only for the general construction industry and Tube sector, but also for automobile and large construction industry, including the industries of household and electrical appliances.
3. To supply Hot-rolled steel Coils for production of cold-rolling and Galvanising steel.
4. To develop product with special thickness in the form of coil which is in the niche and the upscale market.

Pricing Strategies

1. The Company sets the price that is suitable for the general steel grades to be able to compete with the competitors and still can maintain the market share.
2. The Company improves the existing technology to help support low production cost to have the opportunity to enter new domestic and foreign markets.
3. The Company can produce goods with difference from the competitors on the quality and grade, so it can set the sales price that is higher.
4. The Company gives more information and confidence on the consumption of steel to the customer, including building good relations with the customers continuously.

Target Customer Groups

The customer target groups of the Company can be divided into three groups as follows:

1. Steel Service Centre is the buyers of hot-rolled and cold-rolled steel to cut to sizes and in turn for sales to the users.
2. Pipe Makers such as the steel pipe manufacturers for use in the pipe work, including production for export.
3. Direct Users such as the manufacturers of cold-rolled steel in the country, the manufacturers of auto parts and electrical appliances.

Channels of Distribution

For domestic sales the Company shall distribute its goods via the two channels as follows:

1. Direct Sales

The Company has a plan to distribute directly for the customer group of the steel service center is the manufacturers of steel pipe, Cold-Rolled Steel producers, auto parts and electrical appliances, which expected to have the ratio of 60 percent of the total domestic turnover.

2. Sales Through the Wholesalers

For other groups of the customers, which are the small customers and have numerous numbers, the Company shall distribute through the wholesalers, which can make the Company to reduce the expense on hiring the salesmen and the expense on marketing activities. Moreover, it is to shift the risk on credit in this group of customers to the wholesalers to be responsible for it. The Company expects to sell through this channel at the approximate ratio of 40 percent of the domestic turnover.

Company proposes to export its products in the international market to maintain domestic price and supply balance, bench mark its quality with best producers in the world, help build Company's profile globally.

Marketing Strategies

- 1) The Company's customers are in various industries such as the pipe manufacturing, the domestic and foreign cold-rolled manufacturers, the steel service center, the auto industry, the large construction projects with the demand to use special quality steel.
- 2) The Company has developed and improved the quality of its products all the time by investing in the tools for modernization to increase potential and quality improvement and reduce cost of the production.
- 3) The Company has sent the working team with capability and expertise on using steel in the various applications and give support on the knowledge on the steel with the customers in the various industries for safety and optimization on the use of steel suitably.
- 4) The Company has succeeded very much in building confidence in the delivery of the goods to the customers punctually, so the customers can plan and manage the inventory suitably.
- 5) The Company has given prioritization on the improvement and development of the goods and service of the Company regularly with a survey and listening to the opinion of the customers periodically, so the Company knows of the correct and suitable demand of the customers clearly.

Planning on the Production in the Business Operations

Since the hot-rolled product of the Company seems to have similarity with the product of the major shareholders is G Steel PCL, but in reality the product of hot-rolled steel Coils has great diversity in terms of grade (quality class) and size. If consider on similarity or overlap of the products being manufactured by both Companies, it is necessary to consider the details in the three aspects as follows:

1. Grade (quality class) according to the international standard and the tailor-made, which the plant of the Company and G Steel can produce hundreds of grade.
2. The widths produced by the plant of the Company and of G Steel ranging from 900 mm to 1,571 mm every 1 mm of different widths is the product that is the different altogether the total of 672 sizes.
3. The thicknesses or gauges produced by the Company and G Steel ranging from 1.00 mm to 25.00 mm, with each thickness of 0.05 mm is the unique product of the total thicknesses of 480 sizes.

When the thickness and width of the product are multiplied shall derive of the product with altogether 268,800 different sizes. However, it does not consider the number of grades produced by hundreds of grades and not included the classification of the products as the basic or value-added products such as the skin-passed, pickled & oiled, etc. Thus, the actual production line has the different products that are not overlapped numerous numbers.

Nevertheless, both companies have planned joint marketing to avoid and reduce the overlap of the products by the Company focuses on production of hot-rolled steel with thin and wide and the thicknesses between 1.20-1.95 mm (it is the product range with the specially thin size) and between 13.00 – 25.00 mm (which is the special thickness range). Due to suitability of the production and technology of the Company that can produce the thin sheet better, while the production of G Steel mostly puts emphasis on the goods with the thickness more than 2 mm, which is the benefit from the joint marketing planning. So both companies have better production efficiency and benefit from the economies of scale, including reducing the loss from the non-continuous production process that requires producing diverse goods.

In the future, the Company has planned on the development of the products for the galvanized and cold-rolled steel applications, which are value-added and the segment that has high growth and large import. The production line of the Company has been designed to produce such products. Thus, the overlap of the products may be reduced in future.

Steel Industry Situation

Thailand's 2017 steel industry situation

Iron and Steel Institute of Thailand (ISIT) report indicates that the volume of finished steel production in Thailand from January to December 2017 totaled 6.87 million tons is down by 13.72% compared to the previous year (2016). In fact, the year 2017 recorded a growth of 9.28% in production of flat steel at 2.92 million tons. However, the long product production went down sharply by 25.38% with a total volume of 3.94 million tons. Such decline was mainly attributed by decline in production of rebar and hot-rolled section by 32.86% compared to the prior year's 3.19 million tons. The most produced product belongs to hot rolled sheet where, in 2017, it totaled 2.72 million tons, up 8.68%, followed by cold rolled sheet at 1.96 million tons, up 6.19% year on year and coated steel, at 1.47 million tons, a growth of 3.07% year on year. Our company added in growth of flat products in the country by producing 7.3% higher volume than 2016.

Finished steel (unit: tons)	2016	2017	% change
Production	7,957,351	6,865,628	-13.72%
Import	12,614,629	11,326,134	-10.21%
Export	1,294,821	1,553,247	19.96%
Consumption	19,277,158	16,638,515	-13.69%

Long steel products (unit: tons)	2016	2017	% change
Production	5,281,006	3,940,866	-25.38%
Import	3,125,418	2,614,416	-16.35%
Export	816,505	917,682	12.39%
Consumption	7,589,920	5,637,600	-25.72%

Flat steel products (unit: tons)	2016	2017	% change
Production	2,676,344	2,924,761	9.28%
Import	9,489,211	8,711,718	-8.19%
Export	478,317	635,565	32.88%
Consumption	11,687,239	11,000,914	-5.87%

Source: Iron and Steel Intelligence Unit, the Iron and Steel Institute of Thailand

The finished steel consumption in Thailand in 2017 stood at 16.64 million tons, dropped by 13.69% year on year. Long steel products decreased by 25.72% to 5.64 million tons whereas the consumption of flat steel products fell by 5.87% compared to the prior year, to 11 million tons. The most consumed steel category is hot rolled sheet, at 7.08 million tons followed by steel bar and hot rolled steel, at 5.39 million tons and coated steel at 3.81 million tons respectively.

Import of finished steel into Thailand in 2017 stood at 11.33 million tons, down 10.21% over the prior year. The highest imported product is hot rolled sheets at 4.16 million tons followed by coated steel at 2.56 million tons and wire rods at 1.30 million tons respectively. The ratio of imported steel consumption versus local steel consumption is at 68.07% against 31.93%, reflecting that Thailand still heavily relies on imported steel.

Thailand exported steel products 1.55 million tons in 2017, up 19.96% year on year. The most exported steel products are structural steel, at 353,539 tons followed by coated steel, at 219,798 tons.

Hot rolled steel sheet situation in Thailand in 2017

There is no upstream Iron & Steel industry in Thailand which starts with the melting of iron ore using technology of blast furnace, Korex etc. which is cheaper route for production of steel. As such Thailand's iron and steel industry begins steel making at the middle stream by melting steel scraps using electrical arc furnace (EAF) by local manufacturers which is comparatively costlier and more sensitive to prices of metallic. From there, the output are sent to the downstream production facilities, consisting of long steel products, for example, bar, HR section, wire rod, cold-drawn bar, steel wire, seamless pipes etc. and flat steel products, for example, hot rolled coils, hot rolled sheet, cold rolled sheet, coated, cold-formed section, welded pipe etc. Final output is distributed to connected industry comprising users of steel products. On production of hot rolled steel industry in Thailand, ISIT report reveal the followings relating to import, export and consumption volume during the year 2017:

- **Domestic production volume** of hot rolled steel & coil in 2017 touched 2.92 million tons, rising by 9.28% over the previous year. It consists of hot rolled sheet at 2.72 million tons, an increase of 8.68% whereas the production of hot rolled plate rose by 17.82% year on year, to 206,205 tons.

Hot rolled steel (unit: tons) (excluding hot rolled stainless steel)	2016	2017	% change
Production	2,676,344	2,924,761	9.28%
Import	4,684,252	3,865,120	-17.49%
Export	16,195	10,322	-36.27%
Consumption	7,344,401	6,779,559	-7.69%

Hot rolled plate (unit: tons) (excluding hot rolled stainless steel steel sheet)	2016	2017	% change
Production	175,016	206,205	17.82%
Import	486,363	424,603	-12.70%
Export	3,296	1,654	-49.83%
Consumption	658,082	629,154	-4.40%

Hot rolled sheet(unit: tons) (excluding hot rolled stainless steel sheet)	2016	2017	% change
Production	2,501,328	2,718,556	8.68%
Import	4,197,890	3,440,517	-18.04%
Export	12,899	8,668	-32.80%
Consumption	6,686,319	6,150,405	-8.02%

Source: Iron and Steel Intelligence Unit, the Iron and Steel Institute of Thailand

- **Domestic consumption** of hot rolled steel, both coil and sheet in 2017, however declined to 6.78 million tons, down 7.69% consisting of HR sheet of 6.15 million tons, down 8.02% and HR plate 629,154 tons, down 4.40%.
- **Import** of hot rolled steel in 2017, both coil and sheet, fell 17.49%, to 3.87 million tons divided into hot rolled sheet of 3.44 million tons, down 18.04% and hot rolled plate of 424,603 tons, down 12.70% mainly due to higher production in the country.
- **Export** of hot rolled steel in 2017 stood at 10,322 tons, down 36.27% compared to the prior year, divided into hot rolled sheet of 8,668 tons, down 32.80% from the same period last year and hot rolled plate of 1,654 tons, contracted by 49.83% from last year.

Outlook of steel industry in Thailand in 2018

In 2017, world steel prices rebounded to the same level as in 2012 but still far below 2008 level. Steel manufacturers were boosted by rising steel prices. Global steel production expanded by 5.3 percent, while global steel demand grew by only 2.9 percent, reflecting the continuing excess capacity of the steel industry. Major steel manufacturers continued to export steel products to the global market, causing the countries pay attention to use the “Trade Measures” As a result, the competition in the steel industry got further intensified. The steel industry in Thailand in 2017 was also affected by the steel over supply. This situation has put a lot of pressure on the steel makers in many countries, causing the anti-dumping (AD) measures were increased from many countries. Considering the above Thailand Govt has also issued and renewed anti-dumping and safeguard measures to help the local industry and to have time to adapt to compete with the cheaper imported goods. Additionally, China's steel capacity reduction policy is not expected to reduce the excess capacity in the short term and at the same time steel demand in China is unlikely to recover. So, it is foresee that the steelmakers in various countries, also Thailand, will continue facing the competition from steel import in 2018.

Global Outlook

On outlook of steel industry, World Steel Association (WSA) forecasts the global demand for finished steel in 2018 will expand by 1.6% to 1,648 million tons, with the global steel industry recovering from the lowest level in 2015 and steel demand is expected to grow moderately in 2018. The risk factor is that the Chinese economy is expanding at a declining rate. The World Steel Association expects China's steel demand in 2018 to remain sluggish and unlikely to grow over 2017, mainly due to the Chinese government's efforts to balance the economy and support environmental protection measures. Developing countries such as Egypt, Brazil, Argentina, Mexico and India have benefited from the global economic recovery and economic reform of the country. Although the Indian economy has slowed down over the past year, the economic reforms of the

Indian government have helped accelerate investment, resulting in an overall economic growth in the years to come. The ASEAN region remains a region of high economic growth especially Vietnam and the Philippines while Thailand and Malaysia are growing at a slower pace.

According to the National Economic and Social Development Board (NESDB), GDP growth for the year 2018 is estimated at 3.6 - 4.6 %, supported by

- The favorable growth of the world economy is still supporting the export sector.
- Driven by accelerated public investment.
- Improved private sector investment.
- Major economic sectors are likely to continue to grow well over the previous year.
- Improved employment and income base of the people in the economic system.

However, there are still important external factors that may affect the growth of the world economy and the direction of monetary policy of major countries such as :

- The progress of the tax and budget law reform plans in US, there is also a risk of delays.
- Direction of US Trade Policy and the outcome of the NAFTA could affect confidence and hinder the expansion of world trade.
- Brexit negotiation, which are still vulnerable to prolonged and adversely affect the growth of the UK and EU economies,
- Political conditions in the Member States of the European Union especially in Spanish politics, which led to local elections in the late 2017 and the general election results of Italy in May 2018, as well as international political conflicts on the Korean Peninsula and conflicts between Saudi Arabia, Iran and Lebanon.

THAILAND STEEL OUTLOOK 2018-2020

Assumption

Construction growth 9-12%, supported by Public Construction growth 13-17% and Private Construction growth 2-5%.

Automotive growth 4-6%, Production will be 1.89 – 2.10 million units in the next three years.

Appliance growth 0-5%, compressor production will be stable, meanwhile air conditioner, refrigerator and washing machine production have positive growth trend supported by export market. However, let's concern about the safeguards measure on U.S. washing machine.

Machinery & Industrial growth 0-3%

Packaging growth 3-5%, supported by the expansion in export market especially canned coffee products.

Source: Krungsri Research, NESDB, Electrical and Electronics Institute (EEI), Nation Food Institute (NFI), Machinery Intelligence Unit and forecasted by Iron and Steel Institute of Thailand (ISIT), February 2018

As for Thai steel industry, ISIT has estimated the demand for steel in 2018 will be from between 18.6-19.1 million tons, an expansion of 11.72% to 14.72%. The growth rate was up from 13.69% in the prior year, and will continue to grow until 2020, supported by the expansion of downstream industries using steel as the raw material such as construction industry, automotive industry, electrical appliances industry and packaging industry.

Aligning GJ business with outlook of Thailand and global : Concluding based on above outlook of both optimism and pessimism for steel industry globally and also in Thailand, GJ Steel has strengthened its fundamentals and have drawn a strategy to neutralize the impact of negative factors, reduce the cost of production and step up its sales volume by over 18% in 2018 over 2017 . GJ's strategic priorities will be to focus on the Thailand market, achieving operational excellence and deliver value added and differentiated products to its customers. The higher volume of production will help in reducing imports of flat products in the country. GJ is all set to take full advantage of Thailand's projected GDP of over 4% for 2018.

11.	Mr. Sudhir ⁽²⁾ Maheshwari	Director / Non-Executive Director

Remarks:

- (1) The Meeting of Board of Directors No. 8/2017 held on 30 August 2017 has considered and acknowledged the directors' resignation of Mr. Michael Wyer, Asst. Prof. Komol Wong-Apai, Mr. Ryuzo Ogino, Mrs. Churairat Panyarachun, and Assoc. Prof. Sukanya Tantanawat as directors of the Company, with effect from 30 August 2017 onwards, and resolved to appoint Mr. Chainarong Monthienvichienchai as the Chairman of the Board of Directors, Dr. Narumon Saardchom, Mr. Stephen Karl Stewart, Mr. Richard Jim Yee, and Mr. Tobias Ernst Chun Damek as directors in replacement of resigning directors, with effect from 30 August 2017 onwards.

- (2) The Extraordinary General Meeting of Shareholders No. 1/2017 held on 30 August 2017 has resolved to appoint Mr. Andreas Rizal Vourloumis and Mr. Sudhir Maheshwari as new directors of the Company with effect from 30 August 2017 onwards.

Authorized Directors are as follow;

“Mr. Yanyong Kurovat or Ms. Soontareeya Wongsirikul or Mr. Somchai Leeswadtrakul, any two of these three directors to co-sign and affix the Company seal”

The Roles and Responsibilities of the Board of Directors

The Company’s Board of Directors has the power and duties in accordance with the law and resolutions of the shareholders’ meeting. However, the board cannot approve or consider anything except by approval of the majority vote of the attending directors of the board meeting on the following matters:

1. Investment on the equity or purchasing of the property of other business not in the case of buying or transferring the business of other companies or a private company to the Company.
2. Signing a joint investment with a partnership or other matters with other people with the objective to share the profit and loss.
3. Acquisition, disposal and transfer or permission to exercise the right or transferred right in the process, trademark, trade name, trade secret or other intellectual property in the same format of other people, not the normal trade.
4. Approval of the annual budget and expenditures of the Company.
5. Approval of construction of a new steel plant.
6. Lending/borrowing for other benefits, not the working capital with the amount not exceeding one hundred million US dollars (USD 100,000,000) or the equivalent in the baht currency.
7. Signing the contract with the term of one (1) year and up, or not the normal trade.
8. Execution of the right on the persons involved under the management agreement or the management advisory and technical assistance agreement.

However, in the case of any implementation on any matter that any directors or possible vested interests according to the notification of the Security and Exchange Commission (“SEC”) and/or the Stock Exchange of Thailand (“SET”) as stakeholders or conflict of interests, and the Company has designated it, so that director has no power to approve that matter. However, it is only for the overall benefit of the Company or the shareholders as priority.

(A) Independent Director

Definition

Independent director means director that have specifications as follows;

1. Hold not exceeding 0.5% of the total voting shares of the Company, its subsidiaries, nor being a major shareholder, affiliates or other juristic persons with possible conflict of interest, including the shares held by their related persons (under Section 258 of Securities and Exchange Act)

2. Neither involving in management, non-controlling, nor being the Company's executive/employees, salaried consultant, competent authorized person to control the Company, its subsidiaries, affiliates or other juristic person with possible conflict of interest at present and in the last 3 year before appointment.
3. Not being a person related by blood or legal registration such as father, mother, spouse, sibling, and child, including spouse of the child, to executives, major shareholders, controlling persons, or persons to be nominated as executive or controlling person of the Company or its subsidiary, and be independent from major shareholders, executives and controlling persons.
4. Not being person who has, or used to have, business relationship with the Company, subsidiaries, affiliate companies, major shareholder, or authorized controller, by offering professional and trade service, according to the SET's requirement on connected transaction, except that he has no longer had such relation for at least 3 years.
5. Not be or used to be auditor of the Company, subsidiaries, affiliate companies, major shareholder, or authorized controller, and not being shareholder.
6. Not being a person who has been appointed as a representative of the Company's Director, major shareholders or shareholders who are related to the major shareholders.
7. Not having any characteristics which make him/her incapable in expressing independent opinions.
8. Be capable in protecting all shareholders' benefits equally and supervising in order to prohibit any conflict of interest between the Company and related persons, and able to attend the meetings of the Board of Directors in order to make a decision on significant issues.

Furthermore, this definition of independent directors has been revised so as to be stricter than that defined by the SEC.

Criteria in selecting independent director

The Company selects independent directors taking into account the knowledge, experience good understanding in related businesses, vision, as well as sufficient time to perform duty, also with the qualities as stated in the concerned government agencies' announcements, regulations and rules. The Company would invite qualified persons to be its independent directors. The Company considers that the aforementioned independent directors are able to exercise their knowledge and capability as well as provide opinions that are useful and appropriate to support the Company's business operation.

The Board of Directors comprises of the Chairman, 3 independent directors, 3 executive directors, and 5 non-executive directors, totaling 11 members. The Executive Directors are knowledgeable and able to provide in-depth comment regarding to steel industry as well as formulate strategic business plan, while non-executive and independent directors have good knowledge and understanding of the overall industrial sector, finance and banking, asset management, auditing, law, and others, so as to encourage creative opinion expression in the Board of Directors' meetings. The Board of Directors shall make decision for the best benefits of the Company.

(B) Audit Committee

Definition

Audit Committee Member mean persons appointed by The Board of Directors or the Company's Shareholders. The Audit Committee members must be independent directors and not to be directors assigned by the Board of Directors to make decision on business operations of the Company, parent companies, subsidiaries, joint venture, similar subsidiaries, or any juristic persons that may have conflict of interest. They must be neither the director of parent companies, subsidiaries, joint venture, or similar subsidiaries. They must have qualifications and responsibilities as announced by SEC and as per the SET's Regulations on the qualifications and work scope of audit committee. They must also have sufficient knowledge and experience to review the reliability of the financial statements and perform other duties in the capacity as Audit Committee members.

The Board of Directors considered that all the Audit Committee members are qualified according to the Company's definition and comply with the SEC and the SET regulations. The Audit Committee Meeting also considered that Prof. Niputh Jitprasonk has good knowledge and expertise in accounting and finance, as well as long experience in auditing which is adequate to review the reliability of the financial statements. Therefore, the committee resolved to appoint Assoc. Prof. Niputh Jitprasonk as the Chairman of the Audit Committee, the biographies of who has been disclosed in the Audit Committee Member's Certificate of Biography submitted to the SET in 2008 according to the new regulation.

As at 31 January 2018, the Audit Committee comprises of the following 3 members, with 3 years term:

	Name	Position
1.	Assoc. Prof. Niputh Jitprasonk	Chairman of the Audit Committee
2.	Dr. Narumon ⁽¹⁾ Saardchom	Audit Committee Member
3.	Mr. Stephen ⁽¹⁾ Karl Stewart	Audit Committee Member

Remarks:

- (1) The Meeting of Board of Directors No. 8/2017 held on 30 August 2017 has considered and acknowledged the directors' resignation of Mr. Michael Wyer, and Assoc. Prof. Sukanya Tantanawat from the Independent Directors and Audit Committee Members of the Company, with effect from 30 August 2017 onwards, and resolved to appoint Dr. Narumon Saardchom and Mr. Stephen Karl Stewart, as Independent Directors and Audit Committee Members in replacement of resigning directors, with effect from 30 August 2017 onwards.

Responsibilities of the Audit Committee

5.	Ms. Soontareeya Wongsirikul	Chief Financial Officer
6.	Mr. Somchai Leeswadtrakul	Chief Government Liaison Officer
7.	Ms. Methikan Chutipongsiri	Chief Administration Officer

Responsibilities of the Chief Executive Officer

1. To formulate business plan, investment plan, and annual budget plan for approval by the Executive Committee and/or the Board of Directors.
2. To be responsible for the overall management and to deliberate all the Company's policies to achieve the preset objectives and within the policy, business plan and budget plan approved by the Board of Directors.

3. To approve an execution or payment according to the Company's authorization regulations or annual budget approved by the Board of Directors.
4. To recruit, hire, transfer, reshuffle, suspend or terminate employment of any executives or employees and to stipulate scope of roles and responsibilities as well as appropriate remuneration. For the positions equivalent to Senior Vice President or higher to report to the Board of Directors, while for the positions equivalent to the Internal Audit Department executives, the proceeding shall be made with the Audit Committee's consideration.
5. To appoint respective authorized persons to sign the Company's document in the areas of accounting, finance, purchase, production, sales and general management, as well as other important document.
6. To set, change, revise or cancel any rules, regulations, order, announcement, punishment measures and internal control systems for use as guideline for all employees and to enable the internal management to be executed as per the Company's policies.
7. To appoint advisors in various aspects significant to the operations for the best benefits of the Company. The CEO is empowered to appoint attorney(s) to file lawsuit or defend case related to the Company.
8. To assign person(s) to perform task on his/her behalf as deemed appropriate. Such authorization can be terminated, changed or modified.
9. To report the Company's performance, progress of any projects and financial status to the Board of Directors.
10. To perform other works assigned by the Board of Directors.

In case that the CEO or other persons with possible conflict of interest, the CEO shall have no right to approve such matter.

The Selection of Directors, Chief Executive Officer and Executives

1) The Selection of Directors and Chief Executive Officer

When the position of Company's directors or Chief Executive Officer is vacant, the Nomination and Remuneration Committee are responsible for selecting and nominating the persons to take these positions. The Nomination and Remuneration Committee shall consider person with knowledge, capability, and experience with specialization that are crucial and essential to the Company's operation. The Nomination and Remuneration Committee shall consider the following qualifications:

1. Qualification as per Clause 68 of the Public Limited Company Act B.E. 2535, and announcement or rules and regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC) and the Company's regulations.
2. The candidates' knowledge, capability, experience and specializations that would contribute to the Company's operational efficiency.
3. The candidates' qualifications shall support good corporate governance practices, such as ethics, independence, assertiveness, creativity, carefulness and integrity as well as ability to dedicate their time for the Company.

2) The nomination of directors (at the end of terms as required by law)

The selection of a Board of Directors member to replace director who must retire at the end of his/her term shall be approved by the Annual General Shareholder's Meeting and by majority vote of the shareholders present at the meeting. Criteria and selection method are as follows:

1. A shareholder shall have one vote per one share.
2. Each shareholder shall exercise all his/her voting right as mentioned above in selecting one or many person as directors but cannot separate votes for any person(s).
3. The persons receiving the highest votes will be selected as directors. The number of persons selected shall be equal to the number of directors to be selected. In case there are persons with the highest votes more than the number of directors required, the meeting chairman shall have the right to make decision.

In addition, in selecting new directors to replace vacant positions due to other reasons than end of term according to the law shall be approved by the Board of Directors' meeting and thus with no less than two-thirds of the votes of the remaining directors. The new directors who replace the vacant position shall be in the position for the remaining term of the vacant position.

In case directors resign, the Company's regulations allow the Board of Directors to appoint new directors as replacement.

3) The selection of the Management

The Chief Executive Officer is authorized to nomination and appoints persons with appropriate qualifications in terms of education, knowledge, capability and business experience. The selection shall follow the Company's rules related to human resources management. For position equivalent to Senior Vice President or higher, the appointment of the person shall be reported to the Board of Directors for acknowledgement, while an appointment of positions equivalent to the Internal Audit Department executives shall be made with the Audit Committee's discretion.

Company Secretary

The Board of Directors Meeting No. 2/2015 held on 20 March 2015 appointed Ms. Pannee Tanaprateepkul to perform the duties of Company Secretary on giving the advices regarding laws and regulations which the Board of Directors shall be aware, to monitor the Board of Directors' conduct as well as to coordinate and follow up the execution to be according to the Board of Directors' resolution.

Responsibilities of the Company Secretary

1. To give basic advice to the Board of Directors on related laws, regulations and provisions of the Company in accordance with the good corporate governance practices, as well as follow up and monitor the compliance to be accurate and consistent.
2. To arrange meetings of the Board of Directors, committees and shareholders in accordance with the applicable laws, the Company's regulations and practices, as well as complying with the good corporate governance policy of the Company and SET.

3. To monitor the disclosing of data and information to the responsible government agencies according to the regulations and requirements of related organizations, including communicating with shareholders and take care of them appropriately.

Good Corporate Governance

Through the year 2017, the Board of Directors has perpetuated the intentions to enhance the Good Corporate Governance (“CG”) in accordance with the international standards. The Board of Directors therefore applied the CG Self-Assessment for developing the Company’s governance system under the CG established by The Stock Exchange of Thailand (SET). The purposes of this are for the most efficiency of management system including priority given to the shareholders’ rights, equal treatment to shareholders, stakeholders’ roles, data disclosure and transparency, and responsibilities of the Board of Directors. All those are for protecting the shareholders’ interest.

In 2017, the Company’s CG practices were divided into 5 parts, as follows:

Part 1 Shareholders’ Rights

1.1. CG on Shareholders’ Right Protection Policy

The Company’s Board of Directors formulates the shareholders’ right protection policy in writing in 2006. The policy emphasizes on allowing shareholders to have equal rights to have access to the Company’s operational performance; and to participate in important decisions making, as well as protecting, promoting, encouraging but not to infringe shareholders’ rights. The policies are as follows:

Policy on shareholders’ right protection

1. The Board of Directors is responsible for protecting and respecting basic rights of the Company’s shareholders, such as right to purchase, sell or transfer shares, right to the Company’s profit sharing; right to obtain sufficient information about the Company’s operation, right to attend the shareholders’ meeting to appoint or terminate directors and independent auditors, allocate dividend payment, formulate or amend the provisions or Memorandum of Association, approve capital increase or decrease, and special items, etc.
2. The Board of Directors has duty to promote and support shareholders to exercise their rights in various areas at the Annual General Shareholders’ Meeting, i.e. the right to propose meeting agenda in advance, the right to nominate persons as directors, the right to submit questions to the Company prior to the annual shareholders’ meeting and the right to openly express opinions and ask questions at the shareholders’ meeting, etc.
3. The Board of Directors shall not take any action which may violate or limit, or infringe the shareholders’ right to study the Company’s information that shall be disclosed according to the related requirements, and the right to attend shareholders’ meeting; for example, not to distribute significant information document unexpectedly added, not to add agenda or amend the important data without advance notice to shareholders.
4. The Board of Directors has responsibility to facilitate the applying of the shareholders’ rights such as giving the significant information updated via website, inviting the shareholders to visit factory, etc.

1.2. Allowing shareholders to study information prior to the shareholders' meeting

The Board of Directors and the Management have implemented the policy relating to shareholders' right that covers more the rights than those required by law, especially the right to general and significant information. At the Annual General Meeting of the Shareholders for the year 2017, the Company provided the shareholders with sufficient opportunity to study the information to the meeting date via the Company's website. Such information was also published in both Thai and English similar to the hard copy the Company submitted to shareholders.

1.3. Practice for shareholders before the shareholders' meeting, at the shareholders' meeting, and after the shareholders' meeting

To deliver to the documents of the Annual General Meeting of Shareholders ("Meeting"), the Company assigned the Thailand Securities Depository Company Limited (TSD), which is the Company's share registrar, to distribute the invitation to the Meeting to all shareholders 14 days prior to the Meeting date in order to provide shareholders with sufficient time to study the information. Such delivery period of meeting documents was more than that specified by the applicable laws.

At the Meeting, the Company facilitated shareholders to exercise their rights to attend the meeting by implementing a barcode system for registration and vote counting, as well as providing the revenue stamps for proxy authorization. The label of registered shareholder was provided for access convenience while meeting, without time loss to recheck their documents.

In addition, at the Meeting, for the purpose of transparency and good corporate governance imposed by Securities and Exchange Commission Thailand (SEC), the Company has invited shareholders to witness the vote-counting. There were no shareholders volunteered, but there was Mr. Supamong Tun-ngern, independent Legal Advisor to witness the vote-counting.

Furthermore, the Company has informed the Meeting the number and ratio of attending shareholders either by themselves or by appointment of proxies, the procedures of vote-casting, vote-counting, including notification of voting result.

After the Meeting of the Shareholders for the year, the Company compiled the document, including agenda, meeting resolutions, voting results, questions and shareholders' opinion expressed at the meeting, so as to provide "The minutes of Annual General Meeting of the Shareholders for the year 2017" for publishing on the Company's website in compliance with the regulations of SEC and SET.

The Company provided upon requested the video of meeting atmosphere in soft file for publishing on the Company's website for shareholders who could not attend the meeting, apart from the minutes publicized in the channel of SET and the Company's website.

1.4. Preventing limitation of shareholders' rights to general information and information technology

Through publishing all information on the Company's website prior to the Annual General Meeting of the Shareholders, the Company's Board of Directors supported and not to infringe the shareholders' rights exercise while the Company did not distribute additional document containing significant information during the meeting, or add or change meeting agenda or amend significant information without advance notice. There has been no complaint from shareholders on this case.

1.5. Facilitating shareholders to exercise rights

The Company facilitated the shareholders and shareholders' proxy to register attending the meeting by implementing a barcode system for registration and vote counting as well as distributing voting ballots to the shareholders before meeting.

The Company clearly stated shareholders' meeting rules and process in the meeting invitation. The moderator of the meeting also informed the attending shareholders of the rule and voting process at the meeting. The shareholders' meeting minutes also included a record that the meeting was informed of the rules and voting process.

Moreover, the Company invited its shareholders to exercise their right to visit its factory. Regularly, the Company updates current information and data published on its website.

1.6. Providing time and opportunity for shareholders to express their opinions

The Chairman of the Board of Directors asked the meeting at the end of each agenda whether the shareholders ask questions related to the meeting agenda or related to the Company, whereby they could openly express their opinion. Any questions related to the meeting agenda or the Company together with shareholders' opinion as well as the answers or clarification made by the Board of Directors or the Company's management, were entirely recorded in the minutes.

The Company provided recording sound of the shareholders' meeting, and disclosed the significant matters arising during the meeting in the meeting minutes for reference in the future and enables shareholders who could not attend the meeting to follow up the meeting particulars.

1.7. Directors to attend the shareholders' meeting

With fully respect of shareholders' right, the attendance of 9 Directors, including Chief Executive Officer, and Chief Financial Officer, comprised 9 members attended the Annual General Meeting of the Shareholders for the year 2017.

Part 2 Equitable treatment towards shareholders**2.1 Policy on facilitating the minor shareholders**

The Board of Directors respected the equitable treatment to shareholders, and therefore the facilitation policy for minor shareholders was set as follows:

Policy on facilitating the minor shareholders

1. The Board of Directors has the duties to respect the shareholders' rights and treat them equally.
2. The Board of Directors has the duties to encourage and support the shareholders to exercise their rights in any respects for the annual general meeting of shareholders such as proposing an issue in the agenda in advance, nominating a person to be selectively director in advance, and submitting questions prior to the meeting, etc.
3. The Board of Directors has the duties to assist the shareholders in any respects such as supporting the shareholders to study information before making decision. For the voting, the Company supports the shareholders to authorize proxies by offering alternatives at least 1 independent director for the shareholders to authorize as their proxies.

2.2 Criteria to provide the minor shareholders the opportunity to propose in advance an issue in the agenda of the shareholders' meeting

The Company allowed and assisted any shareholders to propose in advance an issue in the meeting agenda by providing the consideration criteria published via the data system of SET and the Company's website 3 months prior to the Annual General Meeting of Shareholders for the year 2017. The Board of Directors' Secretary was assigned to compile the meeting agenda and submitted to the independent directors for consideration. Basically, if the independent directors viewed such issue as proper, they shall propose to the Board of Directors. In 2017, none of shareholders proposed in advance any issue in the agenda. The criteria of proposing the agenda of the Annual General Meeting of Shareholders for the year 2017 were the followings:

1. The qualifications of shareholders entitled to propose issue for the annual general meeting of shareholders agenda shall be the shareholder holding not exceeding 0.5% of the total voting shares of the Company, maybe a sole shareholder or combined shareholders, holding continuingly such shares not less than 12 months from the holding date to the proposal date.
2. An issue shall be proposed through the "Agenda Proposal Form for the Annual General Meeting of Shareholders for the year 2017" with related complete and entire documents, to be submitted to the Company.
3. For an efficient AGM, the Company reserves its right not to include the following matters as the meeting agenda:
 - 1) Matters proposed by shareholders who are not qualified, as specified in criteria No. 1 or do not follow the procedures set forth by the Company in the criteria for shareholders to propose the Agenda of AGM.
 - 2) Matters as stipulated by laws for consideration at AGM, which have been pursued regularly by the Company.
 - 3) Matters relating to a normal course of business of the Company and matters already undertaken by the Company.
 - 4) Matters under the Company's management authority except ones causing material impacts on shareholders in general.
 - 5) Matters that shareholders already proposed in AGM within the past 12 months, and those under support by less than 10% of total voting shares, given that the factual events have not changed significantly.
 - 6) Matters unlikely to benefit the Company and matters previously submitted for consideration by other shareholders.
 - 7) Matters that violate applicable laws, rules, regulations of the government agencies or regulatory or involved agencies, or actions not in compliance with the objectives, Articles of Association and Statement of Business Conducts of the Company.
 - 8) Matters that are beyond the authority of the Company.
4. The Company's independent directors considered and screened the issues proposed by shareholders prior to submit to the Board of Directors. The Company would notify the consideration result after the meeting of the Board of Directors. The approved issues would be included in the agenda attached to the invitation to the Annual General Meeting of Shareholders for the year 2017

2.3 Consider not to add an issue in the shareholders' meeting agenda

The Board of Directors complied with the policy on monitoring the shareholders' rights. In shareholder meeting, the Board of Directors strictly conducted the meeting in line with the agenda and did not distribute any additional documents suddenly, or add any issue in the agenda or change any significant information without advance notice.

2.4 Criteria to provide the minor shareholders to nominate person for director position

The Company allowed and assisted any shareholders to nominate in advance qualified person for director position by providing the consideration criteria published via the data system of SET and the Company's website 3 months prior to the Annual General Meeting of Shareholders for the year 2017. The Board of Directors' Secretary was assigned to compile the accompanied information of the nominee's qualifications as well as his/her consent, and then submitted to the Nomination Committee to consider the qualifications of person nominated by the minor shareholders in accordance with the Company's nomination procedure. Generally, if the Nomination Committee viewed such person nominated as proper, it shall propose to the Board of Directors to consider and propose to the Annual General Meeting of Shareholders. In 2017, none of shareholders made nomination. The Criteria for the Nomination of Candidate for Directorship in the Annual General Meeting (AGM) Agenda are as follows:

1. Qualification of shareholder who has the right to nominate a qualified person as a candidate for the Company's directorship election must be the Company's shareholder holding continuously minimum of five percent of the total shares issued by the Company by one shareholder or several shareholders combined and shareholders must have held those shares continuously for at least 12 months by the date the shareholder nominates a qualified candidate.
2. Nomination of a qualified person as candidate for directorship, Shareholder fully qualified as in criteria No.1 can fill out the following forms:
 - 1) Form Nominated Qualified Candidate for Directorship in AGM
 - 2) Form Personal Data on Qualified Candidate for Directorship in AGM
 - 3) Letter of Consent from the Nominated Candidate for Directorship in AGMTogether with other completed supplementary documents as required.
3. Candidate must have the qualifications in compliance with related laws and regulations as follows: Securities and Stock Exchange Commission, Thailand, The Stock Exchange of Thailand, The Public Company Limited Act B.E. 2535 and the Company's Memorandum of Association.
4. The above nominated candidate, together with complete supplementary documents, as required shall be scrutinized by the Nomination Committee according to the Nomination Process of the Company, before further submission to the Board of Directors for consideration. The Company will notify the Board of Director's (BOD) resolution after the BOD Meeting.

2.5 Encouraging the shareholders to use the Proxy Form

The Board of Directors encouraged the shareholders to use the Proxy Form in voting APPROVE, DISAPPROVE, ABSTAIN by providing the Proxy Form B. Besides, the Company provided the shareholders with the Proxy Form A (general Proxy Form) and the Proxy Form C (only for custodian) published on the website 14 days prior to the meeting date for download.

2.6 Encouraging the shareholders to vote

The Board of Directors provided convenience for shareholders who could not attend the meeting but wish to exercise their voting rights by allowing them to assign proxy. The Company arranged 2 independent directors to attend the meeting and vote on behalf of the shareholders. An independent director is Assoc. Prof. Niputh Jitprasonk (Chairman of the Audit Committee and independent director) and Assoc. Prof. Sukanya Tantanawat (Independent Director / Audit Committee Member) Shareholders can appoint one of the two independent directors as their proxy.

2.7 Giving the shareholders opportunity to exercise right to appoint individual director

The Board of Directors encouraged the shareholders to use their voting rights by providing and distributing voting ballots at the registration before meeting. Voting ballots were provided for each issue of the agenda, such as dividend payment approval, independent auditor remuneration, and individual director appointment. The vote counting was recorded in the minutes of each meeting for transparency and reference in case of objection later.

2.8 Measures to prevent directors, executives, and employees from using the internal information for own benefits

The Board of Directors stipulated the measures to prevent the directors, executives, and employees from using the internal information for their or others' benefits in the Code of Conduct covering the use of internal information for stock trading, the conflict of interest, and the confidentiality of information. The measures were notified through the business ethics, training, and the Company's website. Besides, the secretary of the Board of Directors was assigned to notify the rules in data disclosure and monitor that the Board of Directors and executives report their asset possession including the disclosure of the conflict of interest and connected transaction between directors and executives.

Part 3 Roles of stakeholders**3.1 Good Corporate Governance policy related to stakeholders**

The Company respected and gave priority to all groups stakeholders' rights, not only particular to the applicable laws. In the past year, the Company newly considered indicating the stakeholders and established the additional policy and measure on monitoring the stakeholders in accordance with the Good Corporate Governance (CG) and CSR policy simultaneously adhered to conduct. The stakeholders of the Company shall be divided in 10 groups, as follows:

1. Employees and families
2. Customers and creditors
3. Shareholders
4. Community around factory
5. Government agencies
6. Suppliers and contractors
7. Financial institutes, analysts, and investors
8. Scholars
9. Educational institutions
10. Mass media

Part 4 Information disclosure and transparency

4.1 Results of the execution of good corporate governance policy

Last year, the Company accurately, adequately, timely and transparently disclosed the financial and non-financial information required by the SEC and SET through SET's online system and the Company's website. The Company has never been punished by the SEC or SET for not disclosing the information as required. Also, the Company regularly appraises the efficiency of information disclosure process and strictly follows the regulations.

Moreover, the Company published and regularly updated all significant information submitted to the SET and other current information on its website as well as provided all shareholders and stakeholders with such information both in Thai and English so as for equal access to the information.

4.2 Remuneration for the directors and the management

The Nomination and Remuneration Committee formulated the policy on remuneration for directors, Chief Executive Officer and top executives as follows;

Policy on remuneration for directors, Chief Executive Officer and top executives

1. Remuneration of the Company's directors, Chief Executive Officer and top executives shall be set in accordance with their duty, scope of responsibility, fairness and attractiveness, which should be compared to those for directors in other listed companies in the same industry and similar size, including the Company's performance, business surroundings, and overall economic conditions.
2. The Nomination and Remuneration Committee shall be responsible for initial consideration and propose for the approval of the Board of Directors and the Annual General Meeting of the Shareholders the maximum remuneration of the year, position remuneration and meeting allowance.
3. The Nomination and Remuneration Committee shall comply with the resolution of the Annual General Meeting of the Shareholders on the remuneration budget and details which are also disclosed in the annual report. The remuneration that the directors received from positions in other companies, such as consultancy fee, and directorship in the Company's subsidiaries shall also be disclosed.
4. Any director who currently holds management position in the Company and receives the remuneration in the forms of monthly salary will not be entitled to receive the remuneration.

The Nomination and Remuneration Committee proposed to the Board of Directors and the Annual General Meeting of the Shareholders for the year 2016 to approve the remunerations for the non-executive and non-employee directors as shown in Remuneration for Directors and the Management Chapter. Any director being the subsidiary's director shall not be entitled to take any remuneration from such subsidiary.

4.3 Board of Directors' Report

The Company provided the Board of Directors' responsibility report on financial statements together with the independent auditor's report, as published in the annual report under the Board of Directors' Responsibility towards financial statements.

4.4 Roles and duties of the Board of Directors and Committees

In 2017, the Board of Directors managed the Company in compliance with legal framework, the Company's objectives, rules and regulations, as well as the resolution of the shareholders' meeting with honesty and discretion and for the best benefits of the shareholders. Besides, the Board of Directors appointed committees to assist the Board of Directors in studying details, in monitoring and supervising the Company's operations, as well as screening assigned tasks.

In the Annual General Meeting of shareholders 2017, there were directors, Chief Financial Officer, the Company's auditor, and legal advisor. Details of meeting attendance of Directors for year 2017 are as follows:

No.	Name	Board of Directors Meeting/ Attendance	Audit Committee Meeting/ Attendance	Nomination and Remuneration Committee Meeting/ Attendance	The 2017 Annual General Meeting of shareholders / Attendance

11.	Mr. Sudhir ⁽²⁾ Maheshwari	4 / 4	-	-	-

Remarks:

- (1) The Meeting of Board of Directors No. 8/2017 held on 30 August 2017 has considered and acknowledged the directors' resignation of Mr. Michael Wyer, Asst. Prof. Komol Wong-Apai, Mr. Ryuzo Ogino, Mrs. Churairat Panyarachun, and Assoc. Prof. Sukanya Tantanawat from the directorship of the Board of Director of the Company, with effect from 30 August 2017 onwards, and unanimously resolved to appoint Mr. Chainarong Monthienvichienchai as the Chairman of the Board of Directors, Dr. Narumon Saardchom, Mr. Stephen Karl Stewart, Mr. Richard Jim Yee, and Mr. Tobias Ernst Chun Damek as directors in replacement of resigning directors, with effect from 30 August 2017 onwards.
- (2) The Extraordinary General Meeting of Shareholders No. 1/2017 held on 30 August 2017 has resolved to appoint Mr. Andreas Rizal Vourloumis and Mr. Sudhir Maheshwari as new directors of the Company with effect from 30 August 2017 onwards.

4.5 Relationship with investors

The Company has a policy on significant information, including general information, to be disclosed properly, completely, reliably, sufficiently, timely, and transparently, including general information that may affect the Company's share price, assigning the Company's representative to communicate with the institute and individual investors as well as analysts and concerned government agencies. The Company's website (www.gsteel.com) is used as a channel to distribute all information, such as the information regarding the Company, business, financial information, news that may affect investment decision, reports submitted to the SET, the Company's activities, and shareholders' meeting details, in order to enable shareholders to keep updated of the Company's movement and information.

Part 5 The Board of Directors' Responsibilities

5.1 Policy on Good Corporate Governance

The Company's Board of Directors is committed to directing the business in compliance with the good corporate governance which is beneficial and important to promote efficiency and transparency of the Company's operation, helping increase competitive advantages, and add long-term value to the shareholders. The Board of Directors and the Management have formulated good corporate governance practice and made them the Company's policy in writing. The Board of Directors approved the policy the essences of which are as follows:

1. Respecting shareholders' right including allowing them to propose agenda in advance for the shareholders' meeting, and nominating in advance persons to be elected as directors, etc., the Company shall not take any action which may infringe or limit the rights of shareholders.
2. Equitably and fairly treating all shareholders, investors, stakeholders and related parties.
3. Accurately, adequately, equitably, and timely disclosing information to shareholders, investors, stakeholders and related parties through appropriate channels, including website, to enable shareholders and related parties to have easy access to the information.
4. Performing its duties and responsibility in supervising and directing the operations of the Company with integrity, ethics and prudence to achieve the Company's goal and for the best benefits of the Company and its shareholders, as well as preventing conflict of interest.
5. Managing the Company with transparency under sufficient internal control and audit system.
6. Controlling and managing risks at the appropriate level.
7. Operating the Company with integrity and in compliance with laws and business ethics.

5.2 Structure of the Board of Directors

The Company managed the Board of Directors through the system "Check and Balance" and the policy of "Board Diversity". The Board of Directors comprises 11 members that have different qualifications, skills, experience and specialization being benefit to the Company, and ability to contribute their time and efforts to perform a duty to reinforce the Board of Directors. The Board of Directors shall select and appoint the committees in order to share its works for specific issues, as specified in the annual report under Management Structure.

The Board of Directors gives priority to transparency and therefore stipulated that the Board of Directors Chairman is an independent director and shall not be the same person as the Chief Executive Officer or President. The Board of Directors approved the definition of independent directors which is stricter than that required by SEC, for example, an independent director shall hold the shares not exceeding 0.5% in the Company.

The Board of Directors stipulated a formal and transparent process of director nomination which is free from influence from shareholders who have controlling authority. The Nomination Committee shall nominate directors by considering education, capability, experience, etc. in accordance with the scope of responsibilities of the Board of Directors or committees. The list of nominees will be proposed to the Board of Directors for consideration and appointment.

The Board of Directors disclosed the list of the directors and committee members in terms of names, positions, age, education, shareholdings, work experience and relationship with the Company's executives in various channels, including the annual report and the Company's website. There is no director holding directorships more than 5 listed companies. At a meeting of the Board of Directors, there must not be less than one half of the total number of directors present to form a quorum. In addition, the meeting schedule for year was provided to directors in advance annually in order for the directors' attendance availability.

5.3 Leadership and vision

The Board of Directors has strong leadership, vision and independence in making decision for the best benefit of the Company and its shareholders. Roles and responsibilities of the Board of Directors and the Management are clearly separated, i.e. the Management is responsible for compiling necessary information for the Board of Directors' consideration.

With a goal to ensure stable business with long-term sustainability and success, the Board of Director, in cooperation with the Management in reviewing and ensuring that vision and mission best address the changing environment, the business goals, business plan and budget are prepared by taking into consideration the maximum added value and long-term stability of the Company and its shareholders. The Board of Directors also directs the business and ensures that the business operation is efficiently executed by the Management.

The Board of Directors encourages good corporate governance within the organization and formulates good corporate governance practice, code of ethics, measures and approval procedure of connected transactions between the Company and related parties or persons who may have conflict of interest, as well as clearly separates the authority of shareholders from that of the Board of Directors, also that between the Board of Directors and the executives and other committees, in order to balance the power, and each other shall be independently examined.

5.4 Conflict of interest

The Board of Directors shall consider connected transactions that may cause conflict of interest between shareholders, directors and the Management, with best prudence, integrity, reasonableness and independence within good business ethic framework. It also discloses complete information for the best benefit of the Company. The Board of Directors shall strictly conform to the criteria and procedures or regulations set by SET whereby the Audit Committee shall provide information about the necessity and appropriateness of such transaction.

The Board of Directors has formulated measures and approval procedure of connected transactions between the Company and its subsidiaries or persons who may have conflict of interest. The persons who may have direct or indirect conflict of interest shall not be allowed to make decision on the matter. The Audit Committee is required to participate in the consideration and provide opinions on the necessity and reasonableness of the items proposed for the best benefits of the Company. The connected transactions are also required to be disclosed in the Notes to the Financial Statements prepared by using the generally accepted accounting principles published in the Annual Report.

5.5 Business ethics

The Board of Directors has prepared the Management and Employees' Code of Conduct for the Company's Management and employees to use as guideline in performing their duties and to strictly and consistently implement in terms of business operations, equitably with fair treatment towards stakeholders, including the matters related to conflict of interest, information confidentiality and possible fraudulent use of information, bribes, and gifts, including the anti-corruption. In this regard of the Code of Conduct, the Board of Directors assigned the Internal Audit Department to monitor and audit the implementation.

The Board of Directors itself shall monitor and ensure that the Company's business operation, directors' ability to perform their duties, the Management's operation, and employees' work are within ethical framework in addition to the Company's regulations and related laws.

The Board of Directors has also formulated a policy requiring directors, executives and employees who are involved with inside information to avoid or not trade the Company's shares 1 month before the significant information, such as financial information which may affect the Company's share prices, is disclosed to the public.

5.6 Power balance of non-executive directors

The structure of the Company's Board of Directors comprises the Chairman who is a non-executive director, 3 independent directors, 5 non-executive directors and 3 executive directors, totaling 11 persons. The balance of power by non-executive directors is 75% which is over half the Board of Directors.

5.7 Integration or segregation of positions for managerial balance of power

The Board of Directors clearly divides scopes of roles and responsibilities among the Board of Directors, Executive Committee, Audit Committee, Nomination Committee, Remuneration Committee and Risk Management Committee, as well as the Chief Executive Officer with a clear stipulation that the Chairman of the Board of Directors shall not be the same person as the Chairman of the Executive Committee or Chief Executive Officer and shall not have any relations with the Management, in order to prevent any executive to have unlimited power, and the managerial balance can be checked.

5.8 Committees

The Board of Directors appointed committees to assist it in monitoring and controlling the operations, as well as screening the assigned tasks. Roles, authorities, duties and responsibilities are clearly set. At present, there are 4 committees, each with different roles and scopes of responsibility, as specified in the Annual Report under Management Structure.

5.9 Roles and responsibilities of the Board of Directors

In the past year, the Board of Directors reviewed and approved significant operational matters and directed the Management to efficiently implement the policies and plans, including to effectively managing the budget.

Further to the Board of Directors having stipulated and approved the written good corporate governance policy, a review is to be made at least once a year.

The Board of Directors provided and distributed the Code of Conduct in writing to the new directors, executives and employees; and reviewed other ethics for the existing directors, executives and employees to understand ethical standards applied to its business operation. The Board of Directors assigned the Internal Audit Department to closely monitor the execution of such Code of Conduct.

The Board of Directors, having carefully studied and considered conflict of interest and connected transactions which may cause conflict of interest to the Company taking into account the shareholders' best benefits, found none of such items.

The Board of Directors provided a financial statement control and regulations implementation. The Internal Audit Department independently performed its duty in monitoring the implementation of these regulations as well as the control measures. It is at least once a year to review such control.

5.10 The Board of Directors' meeting

The Board of Directors convened at least 4 times a year and arranged the meeting in accordance with the Company's rules, the Public Limited Company Act B.E. 2535, and SET's regulations. The Chairman of the Board of Directors, in the capacity of the meeting chairman, would promote prudence in any consideration; provide sufficient time for the Management to present significant information and for directors to discuss the matter. Meeting minutes for every meeting was made for future reference and checking. It is the duty of the Board members to attend every meeting, except for a certain unavoidable case.

At the meeting of the Board of Directors of the beginning of the year 2017, the Company Secretary prepared meeting agenda and schedule for whole year for the Board of Directors to be able to schedule their time for the meetings.

In considering the number of meetings, the Board of Directors considered the duty and responsibility of the Board of Directors. The Company Secretary shall prepare the whole year meeting agenda and matters to be considered in each meeting in order to provide sufficient detailed information for the Board of Directors. For example, in the March meeting, the Board of Directors shall approve the annual financial statements, and schedule the annual general shareholders' meeting as well as set the date of the closing of the Company's registration book to suspend the share transfer, while the meetings in May, August and December are scheduled for reviewing and approving financial statements for the first, second and third quarters, then the December meeting is organized to consider budget for the following year.

In each meeting, the Company Secretary provided the agenda and related information and distributed them to the directors for average 7 days prior to the meeting.

The meetings were strictly held in compliance with the Company's rules and regulations, and the Public Limited Company Act B.E. 2535. The directors were given opportunity to discuss carefully the important problems. The Company Secretary and legal advisors attended the meeting and prepared the recording, so as for the minutes of the meeting, which included also the directors' questions and recommendation in the meeting for future reference and cross-checking.

In each meeting, the Chairman of the Board of Directors would conduct the meeting to last for 1-2 hours, which was sufficient for the Management to present the matters for consideration and for the directors to carefully and equally discuss the important issues. The Chairman of the Board of Directors encouraged the attending directors to use their best consideration. The Chairman also asked whether there was any question or other opinion on each issue of the agenda in every meeting.

5.11 Self-Assessment of the Board of Directors

For year 2017, the Company Secretary has prepared the "CG Self-Assessment for year 2017", and submitted to individual directors for considering his/her achievement and for resolving problems individually, as well as for the work efficiency improvement.

5.12 Remuneration for directors and executives

In 2017, The Nomination and Remuneration Committee resolved, in accordance with the scope of duty and responsibility assigned and at the same range as that offered to directors in listed companies of similar size and in the same industry, and also the Company's performance, business environment and economy as a whole, to propose to the Board of Directors and to the Shareholders in the Annual General Shareholders' Meeting to approve the total amount of the Directors' remuneration 2017 same as rates 2016 year.

5.13 Directors and executives development

The Board of Directors encouraged and provided the training courses to develop and educate the Company's directors and members of committees so as for the continuous improvement in performing their tasks.

The Company Secretary prepared Directors' guidebook with criteria on information disclosure, profile, shareholdings, changes in shareholding of directors, etc. and distributed to new directors. The secretary shall also invite new directors to visit the Company's plant to introduce to them the hot rolled coil business as well as the Company's business operations.

The Board of Directors has stipulated that the Chief Executive Officer and Presidents prepare a regular report for the Board of Directors to update on the development and succession plans in case they could not perform their duties.

The Board of Directors, in parallel to the succession plan, implemented the executive development plan by assigning the Chief Executive Officer to report progress of executive development plan undertaken during the year.

In 2017, details of Directors' attendance of training are as follows:

No.	Name and Position	Course	By Organization
1	Mr. Yanyong Kurovat, Director	Role of the Chairman Program (RCP 41/2017)	Thai Institute of Directors (IOD)
2	Ms. Soontareeya Wongsirikul, Director and Chief Financial Officer	- Ethical Leadership Program (ELP 2017) - Strategic CFO in Capital Markets Program (5/2017)	Thai Institute of Directors (IOD) The Stock Exchange of Thailand

Risk Factors

Risk factors to the Company's business that may materially affect its rates of return while its risk prevention guidelines can be summarized as follows:

Production Risk

Risk of Local Scrap Procurement

The scrap is the major raw materials for production and local scrap was consumed at around 25 to 35% of total RM consumption depending upon process requirement and its availability. The company has a plan to buy a good quality of local scrap by having the representatives acting as a middle man to participate in the auction or to find the local scrap for the company of which the company has a selling/buying agreement with representatives for supplying the local scrap continuously in all local scrap market situations. This process will make the representatives be confident in supplying scrap including having the scrap inventory for continuous consumed by the company.

Risk of logistics management

The fuel price is one of the major factor affecting transportation cost for delivery of the products to the customers. Therefore, the company uses the transportation agencies by signing the long term contracts with more than one transportation companies and has a clear agreement in term of fuel price fluctuation for any period including agreement on number of tracks/trailer with clean the compensation of accident during transportation.

Import Scrap and Pig Iron

Risk

- Price and quantity depend on the world market situations affecting cost of production at times.
- The order must be placed 2-3 months in advance to maintain consistency in availability so there are risks on price fluctuation at the time of cargo arrival at the mill.
- The transportation sometimes takes 30 days due to long voyage.
- Late delivery can be occurred.
- There are possibilities of quality issues, weight loss, variance in specifications, etc. which gets found at the time of cargo arrival which leads to the claims/compensation

Protective and Corrective the Risk

- Follows up closely on the world scrap market movements.
- Having optimum inventory for production.
- Sourcing new reliable suppliers continuously.

- Coordination with concerned agencies maintained in case of delayed delivery so that the readjustment of RM usage can be done in order to avoid stop production.
- Sourcing from new suppliers in nearby counties to leverage the transportation duration and can have less safety stock.
- Setting the safety stock level in order to avoid delay delivery or over stock.
- Specifying the claim conditions and compensation clearly in the sales/buying contracts.

Risk from product price volatility during the business downturn

Since the Company's products are used by related industries such as pipes and other infrastructure construction, the characteristics of which include upturn and downturn cycles, therefore, demands and prices of the Company's products will vary accordingly. Since this may affect the Company's future profit especially during the downturn, pricing volatility may affect its revenues in different periods and this could negatively affect its business, financial conditions, operation results, etc.

Besides, the Company's hot rolled coil can be used in several other industries. For example, cold rolled steel can be used in an automobile industry while galvanized steel and plates are widely used in various industries. However, with the Company's production efficiency and competitiveness, it expects that during the downturn where demands are less, it will be able to produce wider range of value added steel and also part quantity for exports. Company has already developed its export markets and would be expanding further..

In addition, the governmental supportive policies to enhance the domestic steel industry also is a welcome steps to mitigate part of the risks. These measure helps in reducing import of hot rolled coils and the gradual improvement on the domestic prices at optimum level.

All efforts are made by the company to neutralize the impact of lowering in price due to volatility in the market by optimizing purchase cost of RM, reducing cost of production, etc.

Financial Risk

Risk on foreign exchange fluctuation

The fluctuation of foreign exchange can directly affect the Company's cost and profit and loss as most of main raw materials, which are scraps and pig irons, were imported from overseas and paid in US Dollar, while the income is in Thai Baht. Even though the Company does not enter into hedging, forwards contracts, this risk is moderate as the selling price is referred to the world market price quoted in US Dollar. In addition, the Company started to do some export to other countries in US Dollar, this can also lowering the exposure of foreign exchange risk to the Company.

The Company has successfully finished the debt restructuring by converting short term debts in US Dollar, partly to equity and partly received haircut, the remaining were converted to long term debts. The mentioned debts was a result of the world economic crisis in 2008, thus, the effect of foreign exchange fluctuation only affects in term of accounting basis, it does not affect the actual cash flow of the company.

Risks Concerning Environment and Personal**Risks from possible polluting production**

The Company runs an industrial business of hot-rolled steel production, consisting of melting, casting and hot-rolling processes, which may cause pollutions in forms of air contamination, water contamination with metals, and the temperature of water outflows from the production line, high noise level etc. The Company has the protection systems for air pollution with dust collection system before discharging to the environment, water treatment for the cooling towers to treat the metals contaminated into the water outflows from the cooling towers. However, the said water outflows have not been disposed outside the plant, but reused in showering the hot metal slag and all evaporated into the air. Trees have been grown in a zigzag pattern round the plant area as barriers to dust and noise. The said protection measures have currently complied with the environmental laws and requirements. Anyhow, the Company is exposed to the risk of missing detection of some pollution that may damage the environment, thus may lead to the Company's increase in expense of improving the damaged environment, or the Company's increase in the pollution detection and control to be compliant with the possibly more strict laws or requirements in the future, thus may incur The Company higher expenses. These also include any possible expenses from prosecution(s) on the discharged pollutions that the Company cannot reduce.

Moreover, the Company has appointed an environmental-specialized firm to inspect the plant's environment quality every 6 months, and continuously presented the inspection reports to Office of Natural Resources and Environmental Policy and Planning, Department of Industrial Works, and Department of Primary Industries and Mining; the Company is thus certain that no troubles would arise from the said environmental matters.

Risks from business operations that may cause harms to the employees

The Company has run a heavy industry business that may cause harms to its employees from the melting, casting and hot-rolling processes, and transportation of heavy materials, so these may incur the Company higher expenses in prosecutions on claims for the injured, including fines, which may impact the Company's business, financial position and performance in the future.

The Company, however, has had Emergency Plan and Measures for Workplace Safety up to standard as accepted by the government agencies and private organizations concerned, as well as the certificates for TIS/OHSAS 18001 standard on the prevention or mitigation from the risks to accidents at work. Based on the past records, the Company's accident rates have been low since establishment, and there has been no claim on infringement to its employees.

Risks related to public policy and the relevant regulations.**Risks from Free Trade Agreement (FTA), which covers hot rolled steel products**

Thailand is obliged to comply with the following steel trade agreements:

- The Japan-Thailand Economic Partnership Agreement (JTEPA) ended at the end of 2016, allowing Japan to export hot rolled steel products to Thailand without further quota restriction and import tariff has been reduced to zero since January 1, 2017 which affected the market opportunities and sell volume of the company.

- In addition, the Free Trade Agreement “ASEAN and China”, “ASEAN and Hong Kong”, “ASEAN and South Korea” and other free trade agreements. Currently, there is a requirement to exempt import tariff (zero) for other alloy steel products, stainless steel, high-speed steel and silicon steel for electrical works in coil, sheet and plate (which are not sufficiently produced for domestic demand) from the partner countries since the end of 2009 resulted in the exemption of import tariffs favoring producers and exporters from the partner countries intend to export to Thailand increasingly. The importation of other alloy steel products such as boron or chromium or other additives have increased steadily to compete with hot-rolled steel (Carbon steel) that can be produced domestically.
- The risk of free trade agreements (FTAs) covering hot rolled steel products and the risk from Unfair trade can be managed, controlled and mitigated by requesting the government to apply trade protections and remedies measures. Currently, Thailand has two applicable laws which are

1. Risk management by using Anti-dumping and Countervailing measures under the Anti-Dumping and Countervailing Act, 1999

Hot Rolled Steel Industry is a basic commodity for the development of the country and there are many large manufacturers around the world. So, under intense competition in the free trade world especially during the ongoing economic downturn for many years, the producers are struggling to survive by export the excess products to other countries in forms of price-dumping (ie, export selling price is cheaper than local selling price). As a result, the market price mechanism in importing countries has been distorted. It can be said that it destroys the market of domestic industry and leads to unfair competition. Therefore, anti-dumping policy is an important measure to alleviate the damage of the domestic steel industry and make fair trade to all parties.

In addition, the importers have been trying to evade anti-dumping measures to avoid paying additional anti-dumping duties on regular import tariffs. Make the measures ineffective and inefficient. Moreover, the countervailing measure is still lacking the sub-law so that cannot apply the measure at the moment.

The Department of Foreign Trade has proposed the amendment of this law to be effective enforcement by:

- Expand the scope to cover and prevent evasion of anti-dumping and countervailing measures.
- Increased the measures to control and collect anti-dumping and countervailing duty to be more effective.
- Legislation of sub-law for countervailing measures.

For Thailand, The Ministry of Commerce has implemented anti-dumping measures for hot rolled steel flat products as follows:

1. Extension of anti-dumping measures for hot rolled steel flat products originating in the People's Republic of China and Malaysia for further 5 years, effective from June 23, 2017 to June 22, 2022.

2. Anti-dumping measures for hot rolled steel flat products - *boron added* originating in the People's Republic of China for a period of 5 years, effective from December 26, 2012 to December 25, 2017 (On December 14, 2017, The Department of Foreign Trade announces to extend the measure for one-year effective from December 26, 2017 to December 25, 2018. During this period, DFT will consider the necessary to renew the measures for another 5 years.)
3. Extension of the anti-dumping duty for hot rolled steel flat products imports from 14 countries for a further 5 years, effective from May 23, 2015 to May 22, 2020.
4. Anti-dumping measures for hot rolled steel flat products originating in the Federal Republic of Brazil, Islamic Republic of Iran and the Republic of Turkey for a period of 5 years, effective from May 16, 2017 to May 15, 2022.

The use of anti-dumping measures by the government has resulted in a significant reduction of trade problems caused by dumping. Therefore, it can also support and protect local hot rolled steel industry from unfair trade.

In addition, in the year 2017, the company cooperated with other local manufacturers file an application with the Department of Foreign Trade to consider the investigation of Anti-dumping measures for hot rolled steel flat products originating in Australia and Arab Republic of Egypt, the DFT launched its anti-dumping investigation in the Royal Gazette on November 29, 2017. The DFT has sent a questionnaire to stakeholders or related parties to clarify the information then DFT will gather all the information to consider the final results and announce to impose officially. Meanwhile, the company continues to monitor the dumping situation or in other ways that may arise from other countries to prevent the unfair trade that may occur to the hot rolled steel market in Thailand.

2. Risk management by using Safeguard Measures

Over the years, after the government has imposed anti-dumping measures, the imports price of hot rolled steel flat products have increased overall and are more difficult to import. Importers and exporters have changed their import patterns by trying to find a way out of enforcing anti-dumping measures by imported other alloy steel instead by adding only a small portion of alloy on the surface that is possible to change the Harmonized Code for imported or imported hot rolled steel flat products with a width of more than 1,550 mm. This would result in the avoidance of current anti-dumping measures and also benefits from the reduction of import duties under the FTA as mentioned above. Imports of such products have increased steadily in recent years. This is a major cause of the impact on the domestic hot rolled steel manufacturers as well as the company. Therefore, the company has cooperated with other hot rolled steel manufacturers in the country filling a request to The Ministry of Commerce, consider of such effect and consider introducing safeguard measures to protect against increased imports to address the problem. At the moment, Ministry of Commerce has imposed safeguard measures for hot rolled steel flat products as follows;

- Safeguard measure for hot rolled steel flat products with alloy (Coil, Sheet, and Plate). Effective since February 2013 for a period of 3 years and has expired at the end of the February 2019 and renew the measure for another 3 years, it will continue to impose from February 27, 2016 - February 26, 2019.

- Safeguard measure for hot rolled steel flat products with non-alloy (Coil, Sheet, and Plate - Width > 1,550 mm.). Effective from June 2014 onwards for a period of 3 years, and extended the measure by end of June 2016 for another 3 years, it will continue to impose from June 7, 2017 - June 6, 2020.

The safeguard measures have contributed to help hot rolled steel industry in Thailand. It also alleviates the problem and help domestic manufacturers to adjust to compete with imported products.

Risks from price control by the government

Throughout the year 2560, hot rolled steel product is one of many items controlled by the Ministry of Commerce. In practice, it tracks the volume and price movements of domestic products. The company also cooperated with the Department of Internal Trade to provide information on products and prices. In case of each hot rolled steel manufacturer including the company would like to adjust the price of the product, must informing the Department of Internal Trade and provide all the details as requested or in case of Ministry of Commerce applies price fixation measure for consumer goods or commodities. This may affect the ability to generate revenue and profit slightly some time in the future. It can be said that the company has low risk in price control by the government.

However, when the company needs to raise prices to the required level, the details of raw material cost and production cost can be clarified in line with the actual sales price, which is reasonable and can be further increased.

Risks from government policies that affect business operations and revenues of the company

The company is in heavy industry so that government policies may impact on the company's revenue and profit.

Source: Ministry of Industry

In October 2016, the Government announced the Strategic Plan for Thai Industrial Development 4.0 for a period of 20 years (2017 - 2036), targeting the future development of Thailand's industry by focus on Group 1, First S-Curve and Group 2, New S-Curve. However, the steel industry is in the third group (industries that should be reformed) which are high investment and difficult to change technology in production.

Therefore, the company and other steel manufacturers are necessary to reduce the risk by joining with building materials cluster, Machine cluster and the automotive cluster because steel is the raw material of these target industries. In order to reduce the risk of business operations that may be affected by the policy and to allow the steel industry for further development.

However, the Company is promoted by the Board of Investment and protected under the anti-dumping measures and safeguard measures. Therefore, the company may have a risk from business operations that may be affected if the government changes its policy. The company expects that changes in the policy regarding the Board of Investment will not affect the business operations because the company has already received the promotional certificates and is currently effective.

For anti-dumping measures, it is a policy that the government may consider canceling if there is justifiable reason but Ministry of Commerce is focusing on the steel industry, which is the basic industry of the country and providing assistance when the industry is facing problems. Therefore, the company believes that there is no risk in cancellation of anti-dumping measures in the future. However, the company has the potential to produce standardized products which able to compete with competitors in the market in case of fair trade competitive.

General Risks

Risks caused by disruption in operations due to uncontrollable factors

The Company might face the business risks caused by several uncontrollable factors, such as sabotage, natural disasters, industrial accidents, terrorism, technical problems and faults.

Though the said factors were uncontrollable, the Company was confident in protection and solution to restrain the problems from leveling up so much as to result in significant loss of revenue by, for instances, regular trainings for the employees to be skilful and specialized, continuous training for them with knowledge to safely operate the equipment and machines, as well as the security serviced by both the Company's employees and a hired professional security firm in charge and strictly monitor the entrances and exits 24 hours a day. And the Company has been insured for the losses of or damages to the properties in case of actions with bad will and all natural disasters. In the Labor Relations Committee, the Company has involved committee members from the employees' side and the employer's side, as well as the Corporate and Social Responsibilities Committee, as representatives who have taken care of the employees' proper and fair working conditions and welfares.

Internal Control and Audit System

Internal Control

The Company have to provide the assessment of adequacy of internal control system, comprising the 5 sections: 1. Control Environment, 2. Risk Management, 3. Control Activities, 4. Information and Communication, and 5. Monitoring Activities. The Company's Board of Directors deems that the Company provides an adequacy of Internal Control. There is also has the Risk management Committee to review the system and evaluate the effectiveness of risk management throughout the year.

The Company not only has had sufficient internal control on its transactions related to the major shareholders, directors, executives or their related parties, but also its Board of Directors have encouraged the management to continuously improve the quality of the internal control to strengthen Good Corporate Governance.

The Risk Management Committee prepared an Assessment of Adequacy of Internal Control Questionnaire for the year 2017 to be responded by the Company's management, and was already reviewed by The Audit Committee.

Assessment of Adequacy of Internal Control System

The Board of Directors considered the assessment of the Company's adequacy of internal control for 2017, as described under of the following 5 sections:

Section 1 Control Environment

The Company's Board of Directors were responsible for directing the Company's business operations, setting business targets for short term (1 year), medium term (5 years) and long term (10 years), along with annual budgeting process, with periodical follow-ups, and also reviews or revisions on the business plan during the implementation in accordance with the situations over time, meanwhile brought to the Board of Directors for consideration and approval.

The Board of Directors has considered setting the target on the operations with circumspection and review that it can comply with the actual targets by analyzing the incentive and remuneration for its employees to be justified.

The Company has clearly defined its organizational structure, separating the administration into two parts, which are the production and maintenance functions, and the support functions, for the management's convenience and optimal efficiency in operations.

In 2018, the Company revised the Company' Business Code of Conduct, which laid out the ethical policy and business code of conduct and with regard to ethics for the management and employees to be prohibited from actions that would cause any conflicts of interest with the Company and its business partners, and also emphasized cooperation in anti-corruption policy, and have the provision on penalties in case of violation.

The Company has made out the concise written policy and work procedures concerning financial transactions, procurement and general administration that have prevented frauds, also with authorization limits clearly stated.

The Company has continuously developed the information systems as a tool to control possible frauds as well.

To lay out the policy and action plans, the Company has taken fair treatment to the business partners into consideration, by stating the policy and practical principles in the Company's Business Code of Conduct for the management and employees to keep good relationship with all business partners, as well as a measure on treating the business partners honestly, equally, keep confidentiality, and prohibited to receive gifts from the business partners.

Section 2 Risk Management

The Company stipulated that the Management to have a meeting every week. Management of each area will present operation performance together with problem and risk facing in order to find solution and prevention

The Risk Management Committee will analyze and report progress of characteristics of risk and direction of risk management to maximize benefit to the Company.

The Risk Management Committee stipulated measures to appraise the efficiency of risk control in various areas and to reduce possible risks that may affect the Company's operation.

The Risk Management Committee has defined the Annual Risk Management Plan and assigned the Management to proceed with the actions in accordance with the Plan and then report back to the Risk Management Committee.

Section 3 Control Activities

The Company clearly reviewed the regulation on approval authorization in financial and operational matters for the Management to manage the operations with most efficiency.

The Company clearly separated the responsibilities of each function with work flow provided.

The Company has determined the measure and procedure for related transactions, and the policy for conflicts of interest altogether in the codes of conduct for the management and employees, with assigning the internal audit department to continuously perform audits and report direct to Audit Committee. Moreover, the Company prohibits any interested parties from approving transactions that would lead to conflicts of interest. In decision making to approve any transactions, the Company mainly viewed the most benefits in a long run. If any transactions were likely to cause conflicts of interest, they had to be reported to Audit Committee or brought to Audit Committee for opinions, as the case may be.

The Company followed up the actions to be taken under the bound contracts and agreements continuously. The Company has had the measures to keep its operations in conformity to the laws to minimize its business risks by employing an external specialized legal counsel to help review documents and give consultation on several proceedings. The Company also has internal audit department to perform audits based on the rules, regulations and laws concerned.

Section 4 Information and Communication

The Company gives importance to the quality of information and communication systems that are crucial support to efficient internal control performance, with the following administrative guideline for information system :

In the Board of Directors' Meetings, Secretary to the Board and the management prepared documents and details of the important agenda for Board of Directors' consideration in advance as information for decision making. And if there were additional details afterwards, the Company provided them as supplemental meeting materials sent to the Board of Directors before or on the day of meeting.

The Company sent the Board of Directors' Meeting invitation letters and the minutes of the previous meetings together with the meeting materials to the Company's Directors for their information each meeting in advance, on average 7 days prior to the day of meeting.

The Company made out minutes of the Board of Directors' Meetings, recording the significant information as well as suggestions, comments and objections (if any), and brought the minutes to the Board of Directors for acceptance in the following meetings. Chairman of the Board gave chances to the Directors to independently rectify or add contents to the minutes.

The Company arranged storing places for accounting entries documents and important documents by category

The Company has applied the accounting policy of Generally Accepted Accounting Principles, under the control and audit by external certified auditors.

The Company has had proper internal communication systems and channels. In addition, the Company has provided the external interested parties with communication channels via its website and e-mail.

Section 5 Monitoring Activities

The management reported the performance results to Executive Committee and the Company's Board of Directors every quarter. In addition, the Company prepared the annual budget for the following year, and would use it as benchmark for the performance appraisal and make systematic comparative analysis report to the Board of Directors.

The Company arranged management meetings weekly to follow up operation results and comparison with the targets and discuss the ways for corrective actions in case the targets were not achieved. Moreover, the Project Committee was appointed to support the Company's targets aiming at development of the operational systems to control the operations as targeted.

The Company arranged for audits on conformity to the established internal control system regularly by the internal audit department making a yearly audit plan that covered finance, operations and the actions taken under the regulations and laws concerned to evaluate efficiency and effectiveness, and also to audit the conformity to the existing internal control system.

The audit result report and progress report. The internal audit department was assigned to report direct to the Audit Committee, follow up and evaluate the significant corrective actions in order to present to Audit Committee and the Board of Directors.

The Company has a policy that its management to have duty and responsibility to report to the Board of Directors regarding the decisions made that significantly affected or might affect the Company's reputation and financial position, including the problems found, such as frauds or illegal actions.

Related Transactions

The Company has transactions with person who may have conflict of interest for related transactions are transactions with the shareholders and/or the management of the Company that can summarize the relations as follows:

Name of Company and Person who may have Conflict of Interest	Nature of Relationships
G Steel PCL (“G Steel”)	Parent company
GJS Notes Holdings Co., Ltd.	Subsidiary of the Company (registered the dissolution of the company on 18 April 2016)
Oriental Access Co., Ltd.	Subsidiary of G Steel
Siam Professional Holdings Co., Ltd.	Subsidiary of G Steel
GS Securities Holdings Co., Ltd.	Subsidiary of G Steel
GS Notes Holdings 2 Co.,Ltd.	Subsidiary of G Steel (registered the dissolution of the company on 22 September 2017)
Asia Credit Opportunities I (Mauritius) Limited	Since 21 September 2017, major shareholders which is a wholly-owned subsidiary of SSG Capital Partners III, L.P.
Link Capital I (Mauritius) Limited	Since 21 September 2017, major shareholders which is a wholly-owned subsidiary of SSG Capital Partners III, L.P.
SSP Place Co., Ltd.	Common director
Asia Metal PCL	Common director
Panichsawad Co., Ltd.	Directors related to major shareholders of G Steel
Arnoma Hotel Bangkok Co., Ltd.	Common executive
Thailand Iron Works PCL	Common director
Great Siam Steel Works Ltd.	Common director
Intelligent System Network Ltd.	Common director (registered the dissolution of the company on 21 July 2017)
Felix River Kwai Resort (Kanchanaburi) Co., Ltd.	Common director
Mahachai Steel Center Co., Ltd.	Related party of the shareholder of G Steel
Mahachai Steel Inter Co., Ltd.	Related party of the shareholder of G Steel (registered the dissolution of the company on 13 January 2016)
Metal Inter Co., Ltd.	Related party of the shareholder of G Steel
M & L Steel Co., Ltd.	Related party of the shareholder of G Steel
The Steel PLC.	Related party of the shareholder of G Steel
Liberty Steel Siam Co., Ltd.	Related party of the shareholder of G Steel

Related transactions in 2017 and 2016 as detail below:

1. Transaction with G Steel PCL

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Sales of raw materials	-	1.83	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Purchase of raw materials	937.38	0.63	
- Tolling service	536.23	-	
- Short-term loan	94.00	-	
- Interest receivable	5.54	-	
- Trade accounts payable	122.89	-	
- Advance payment for raw material	166.96	-	

2. Transaction with Oriental Access Co., Ltd

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Financial costs	1.01	1.01	The management is of the opinion that the transactions are necessary and justified, including approved by the creditors committee. The occurred expenses complied with the agreement on the management of the revolving credit facility for use in the operations; the consultancy in establishing the Company's strategy to enhance the management of business operation; this includes the purchase of the raw materials, the process of production, sales, marketing, sales promotion, distribution of the goods in domestic and foreign and others, according to agreed period.
- Others payable	13.45	13.45	
- Accrued interest expenses	2.60	1.59	

3. Transaction with GS Security Holding Co., Ltd.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Financial advisory services	1.59	1.59	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Financial costs	0.22	6.41	
- Accrued interest expenses	-	0.03	
- Debentures	-	62.61	

4. Transaction with Link Capital I (Mauritius) Limited

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Financial costs	89.60	-	The management is of the opinion that such transactions are necessary and justified, including approved by the Company board of director's meeting under the approval of the Company board of audit committee and announcement through SET on 13 November 2017 whereby its purpose is for repayment its debts and for the Company's working capital, purchase of raw materials and increasing the capacity.
- Commitment fee	0.84	-	
- Short-term loan	1,476.20	-	
- Long-term loan	1,479.36	-	
- Interest payable	106.77	-	

5. Transaction with SSP Place Co., Ltd.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Rental and service expenses	3.74	3.74	The management is of the opinion that the Company leases the office space for use in its operations in which the rate of office rental charged by SSP Place Ltd. is the same rental rate to the other lessees.
- Other payable	0.33	0.32	

6. Transaction with Asia Metal PCL

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Sales of finished goods	-	51.39	The management is of the opinion that such transactions is under a normal business conditions in its operations.

7. Transaction with Panichsawad Co., Ltd.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Sales of finished goods	69.56	38.85	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Purchases of raw materials	103.03	160.16	
- Trade accounts payable	-	8.65	
- Advance received from customers	-	2.88	

8. Transaction with Arnoma Hotel Bangkok Co., Ltd.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Other expenses	0.83	1.06	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Other payable	0.15	4.49	

9. Transaction with Mahachai Steel Center Co., Ltd.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Sales of finished goods	-	4.94	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Purchase of raw materials	1,224.45	1,119.89	
- Trade accounts payable	66.30	47.68	
- Advance payment for purchase of raw materials	19.94	36.82	

10. Transaction with the Steel PLC.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Sales of finished goods	513.25	9.08	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Trade accounts receivable	0.41	-	
- Advance received from customers	4.29	-	

11. Transaction with Liberty Steel Siam Co., Ltd.

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item
	As of 31 Dec 2017	As of 31 Dec 2016	
- Sales of finished goods	-	64.77	The management is of the opinion that such transactions is under a normal business conditions in its operations.
- Purchase of raw materials	105.78	411.27	

Measures or Procedures for Approval of the Related Transactions

The related transactions have to comply with the securities and exchange law and rules, notifications, orders or requirements of the SET and SEC. Those who may have a conflict of interest or have an interest of that related transactions, cannot vote in such transactions. The Board of Directors and the Audit Committee have to review and monitor the related transactions, while the management and/or the non-vested director shall proceed and make a decision on the related transactions. This does not include the transaction that is the normal course of business operations.

However, the procedure on approval of a related transaction shall comply with the Company's regulations by seeking an opinion from the audit committee to consider the necessity and justification and notify to or request an approval from the Board of Directors and/or the Company's shareholders. By means of it is required to consistent with the guidelines of the SET and the SEC for any making related transactions as a listed company. Moreover, the Company has a policy for the related transaction in the future which related to the normal business operation and lending as follows:

1. Normal business operation and supportive transaction in the normal course of business which is the general commercial conditions.

Management's Discussion and Analysis

The company's net profit for the years 2017 amounted to THB 990 and net loss for the year 2016 amounted to THB 7 million, and its earnings before interest, taxes, depreciation and amortization (EBITDA) for the years 2017 and 2016 amounting to THB 1,062 million and THB 1,189 million in respectively, due to:

- Increasing of HRC price: the average selling price of HRC in year 2017 was THB 18,690/ton, increased by 15.6% as compared with last year (THB 16,163/ton) according to HRC market price worldwide trend.
- HRC cash margin (excluding depreciation) in year 2017 was achieved at THB 1,700/ton, higher by 7.2% from last year.
- Sale volumes (Coil tons) and production volumes in year 2017 were higher than last year by which in year 2017 there were the sale volumes and production volumes at 812,113 tons and 875,874 tons in accordingly (for year 2016: sale volumes and production volumes at 721,972 tons and 733,327 tons in accordingly), increasing by 12.5% for sale volumes and increasing by 19.4% for production volumes. This mainly due to the Tolling agreement with G Steel for producing of HRC to increase the normal capacity during off peak power usage in 4th Quarter of 2017.
- Gain from debt restructuring was achieved of THB 734 million some portion resulting from debt-to-equity conversion scheme in according to the resolution approval from the Extra Ordinary Shareholders' meeting no. 1/2017 on 30th August 2017 by newly issuing ordinary shares of the Company to pay the net trade debts of THB 1,136 million and some portion from the trade creditors agreed to reduce the accrued interests payable during the negotiation period before the completed debt-to-equity conversion scheme.
- Gain on exchange rate was achieved of THB 311 million in year 2017, which higher than last year of THB 257 million due to the strengthen in THB as compared to US dollar.

Operating results

Revenue from sales and cost of sale of goods

The Company had total sales volumes and total production volumes were higher than last year mainly due to increased capacity according to Tolling agreement with G Steel during off peak power usage in 4th Quarter of 2017.

The Company had revenue from sale of goods for year 2017 and 2016 of THB 15,178 million and THB 11,669 million in respectively and had profit margin of THB 859 million and THB 803 million for year 2017 and 2016, in accordingly. The increase in profit margin was caused from the selling price increasing according to HRC market price worldwide trend increased.

Selling Expenses

Selling expenses for year 2017 and 2016 amounting to THB 185 million and THB 160 million in respectively, with the amount was recorded at the same level.

Administrative expenses

Administrative expenses for year 2017 and 2016 amounted to THB 496 million and THB 529 million in respectively, whereby the decreased in administrative expenses of THB 33 million mainly came from in last year there was import tax and VAT surcharge from Custom Department of THB 72 million which partial offset with an increased in employee benefit expenses in this year of THB 36 million.

Financial costs

The Company had the financial costs for the year 2017 and 2016 amounted to THB 271 million and THB 203 million in respectively. The increased of financial costs of THB 68 million resulted from the restructuring of short-term loan to Long-term loan 5 years in order to preserve cash for the operation and also to improve the liquidity of the company.

Net foreign exchange gain

The Company had a net gain on foreign exchange for year 2017 amounted to THB 311 million which higher than last year by THB 257 million, derived from the strengthen of the Thai Baht against the US dollar.

Commitments and off-balance sheet liabilities management

The Company has disclosed as per details in the note No. 41 to the financial statement for the year 2017.

Factor effect to the future operation

As due to the Company has major imported raw materials for both scrap and pig iron from oversea, therefore there are major expenses in US dollar currency in which the exchange rate is uncontrollable factor. As a result, the exchange rate is the major factor effect to the future operation of the Company. In case of Thai Baht is devalued as compared to US dollar, then the production cost will be increased. However, the Company manages the risk of exchange rate by benchmark the selling price with the world market selling price, which primary refers to US dollar. It likewise purchase and sell in the same currency which could reduce risk from exchange rate fluctuation in a certain level. Besides, the Company has the adaptation plan in respect of various projects aiming to reduce production cost in order to be able to competitive with the competitors and the importers. These projects are in the form of energy cost saving, increase efficiency as well as minimize loss in the production process, etc.

INDEPENDENT AUDITOR'S REPORT

**To The Shareholders and Board of Directors of
 G J Steel Public Company Limited**

Opinion

I have audited the statements of financial position of G J Steel Public Company Limited as of December 31, 2017, the related statements of changes in equity, income, comprehensive income and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of G J Steel Public Company Limited as of December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards ("TFRSs").

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing ("TSAs"). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Federation of Accounting Professions's Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

I drew attention to the Note 1.2 to the financial statements, that as of December 31, 2017 the Company had current assets exceeding current liabilities of Baht 672 million. Due to the Company has accomplished its plan by negotiating debt restructuring with major creditors by which of conversion debts-to-equity in successfully as described to the financial statement in Note 1.3 and Note 28 combination with the providing credit facility for additional working capital as described to the financial statement in Note 44. Therefore, as of December 31, 2017, there was no factors may cause the significant doubt on going concern.

However, my opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters. I have determined the matters described below to be the key audit matters to be communicated in my report.

Key Audit Matters included Audited Procedures are as follows:

Impairment of property, plant and equipment

As describe in Notes 4(g), 4(j) and 12 to the financial statement, the Company's property, plant and equipment which are stated at cost less accumulated depreciation and impairment losses are significant amount. The management exercise judgment in determining the impairment loss due to the recoverable amount of the property, plant and equipment is determined on value in use by estimate future cash flows that the entity expects to derive from the assets which related to the projection of future operating performance, future plan and determination of an appropriate discount rate and key assumptions. Therefore, I have identified that considering the impairment loss of property, plant and equipment is the significant matter that requires special attention in the audit.

My audit procedure on such matter

I verified the impairment of property, plant and equipment by consider and assess the reasonable and supportable assumptions and approaches in preparation of the estimate of future cash inflows or outflows which the Company expected to derive from the continuing use of the property, plant and equipment. Including assess the Company's reasonable discount rate which used for calculation of the recoverable amount of the property, plant and equipment and considered the adequacy of the information disclosure related to impairment of property, plant and equipment.

Other Matter

The financial statements of G J Steel Public Company Limited for the year ended December 31, 2016, presented herein for comparison, which audited by another auditor in my office and reported in accordance with Standards on Auditing and expressed an unqualified opinion with a paragraph regrading the material uncertainty related to going concern in his report dated February 24, 2017. I have not performed any other audit procedures subsequent to such report date.

Other Information

Management is responsible for the other information. The other information comprise the information included in the annual report of the Company, but does not include the financial statements and my auditor's report thereon, which is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and the management of the Company.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

G J Steel Public Company Limited**Notes to the financial statements****For the year ended 31 December 2017**

The accompanying notes to financial statements an integral part of these financial statements.

The financial statements were approved and authorized for issue by the Board of Directors on 22 February 2018.

1 General information, going concern and the Company's debt restructuring**1.1 General information**

G J Steel Public Company Limited (the "Company"), is incorporated in Thailand and has its registered office as follows:

Head office : 88 Paso Tower, 24th Floor, Silom Road, Suriyawong, Bangrak, Bangkok

Factory : 358 Moo 6, Hemaraj Industrial Estate (Bowin) Highway 331, Tambol Bowin, Amphur Sriracha, Chonburi.

The Company was listed on the Stock Exchange of Thailand (the "SET") on 2 July 1996.

As at 31 December 2017, the Company's major shareholders were Asia Credit Opportunities I (Mauritius) Limited ("ACO I") (24% shareholding) was incorporated in overseas. G Steel Public Company Limited ("G Steel") (15.08% shareholding), Superior Overseas (Thailand) Company Limited (2.96% shareholding) and GS Securities Holdings Co., Ltd. ("GS Securities") (3.64% shareholding). Those companies were incorporated in Thailand. And GS Securities are 99.99% owned by G Steel.

The principal business of the Company is the manufacturing of various flat - rolled steel products.

1.2 Going concern

As at 31 December 2017 and 2016 part of financial position of the Company are as follows;

Risk effected to the going concern	Million Baht	
	As at 31 December	
	2017	2016
(1) Profit (loss) for the years	990	(7)
(2) Deficit	20,621	21,596
(3) Current assets exceed current liabilities (Current liabilities exceed current assets)	672	(3,545)

Risk effected to the going concern as at December 31, 2016, these were affected by various factors including the fluctuation of global economics, the default payment on the debt restructuring plan and the dumping of goods from foreign steel manufacturers. These factors may cause the significant doubt on going concern of the Company. However as at 31 December 2017 there was no factors may cause significant doubt on going concern due to the Company has accomplished its plan by negotiating debt restructuring with major creditors by which of conversion debts-to-equity in successfully as described to

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

the financial statement in Note 1.3 and Note 28 combination with the providing credit facility for additional working capital as described to the financial statement in Note 44 resulting to enhancing the financial position as at 31 December 2017 the Company had current assets exceeding current liabilities of Baht 672 million. Besides, the Company still has various plans to increase the profitability in future as followings:

a) The production

The Company has the production utilized the off-peak period (which has lower demand for electricity and hence lower tariff rate). In 2017, the Company increases the production to nearly full capacity for off-peak and in the second half of year 2018 the Company has a plan to extend the number of production hour for another 5 hours due to the Company expects to utilize the remaining facility loan in 2018 as described to the financial statement in Note 44.3 and the Company expects that the local demand of hot-rolled coil will increase, in order to reduce the production unit cost. The Company has adjustment plan in respect of various projects aiming to reduce production cost in order to be competitive with the competitors and the importer. Projects are in the form of energy reduction, increase efficiency as well as minimize loss in the production process, etc.

b) The Governmental support

The Company has cooperated with the other hot-rolled flat steel producers (collectively called “the domestic industry”), filed the petitions for trade remedies to the Thai government, led by Ministry of Commerce, as consequences to serious injuries caused by unfair trade practice in the forms of dumping import hot - rolled steel flat products and import surge to Thailand that also have impacted the stability of Thailand’s economy. Up to the present, Ministry of Commerce had made several determinations and notifications of antidumping measures and safeguard measures in order to help the domestic industry to stand and compete with the import goods on a fair trade basis and to adjust themselves to further stand for increasing competition with the import goods in the domestic market as follows:

Antidumping Measures (5-year term)

	Import Goods	Origin	AD Duty Rate	Effective
1	Hot-rolled steel flat products in coil and not in coil	14 countries	Various rate up to 128.11% of C.I.F. value	23 May 2015 to 22 May 2020
2	Hot-rolled steel flat products in coil and not in coil	China and Malaysia	China 30.91% of C.I.F. value Malaysia 23.57 - 42.51% of C.I.F. value	23 Jun 2017 to 22 Jun 2022 *
3	Hot-rolled steel flat products in coil and not in coil	Brazil, Iran and Turkey	Brazil 34.40% of C.I.F. value Iran 7.25 - 38.27% of C.I.F. value Turkey 6.88 - 38.23% of C.I.F. value	16 May 2017 to 15 May 2022 **
4	Boron-added steel hot rolled flat products in coil and not in coil	China	14.28 - 19.47% of C.I.F. value	26 Dec 2017 to 25 Dec 2018***

G J Steel Public Company Limited**Notes to the financial statements****For the year ended 31 December 2017**

- * The domestic industry filed petition to Department of Foreign Trade along with the evident information concerned requesting for continuation review of the imposition of antidumping measure for the next 5 years. The Department later issued on 14 June 2016 (published on the royal gazette on 23 June 2016) the “Notification for Initiation of Necessity Review for Continuation of the Antidumping Measure on Hot-Rolled Steel Flat Products Originated from the People’s Republic of China and Malaysia”, as the start of the antidumping measure continuation review procedure, in which several interested parties were participating and the existing antidumping duties have been imposed continuously for within another one year. And then the antidumping continuation review procedure was finished when Thailand’s Antidumping and Countervailing Committee issued the “Notification of Determination for the Necessity of Continuation of the Antidumping Measure”, dated 19 June 2017, as published on the royal gazette on 22 June 2017 that determine to impose the antidumping duties, at the rate unchanged, on the Hot-Rolled Steel Flat Products Originated from the People’s Republic of China and Malaysia for the next 5 years, with effect from 23 June 2017 through 22 June 2022.
- ** The domestic industry filed petition to Department of Foreign Trade along with the evident information concerned requesting for determination of the imposition of antidumping measure for the next 5 years. The Department later issued on 14 January 2016 (published on the royal gazette on 18 January 2016) the “Notification for Initiation of the investigation of the Antidumping Proceedings on imports of Hot-Rolled Steel Flat Products in coils and not in coils Originating in Federal Republic of Brazil, Islamic Republic of Iran and the Turkish Republic”, as the start of the investing of the antidumping procedure, in which several interested parties were participating. And during the investing process, the Department later issued on 11 November 2016 (published on the royal gazette on 15 November 2016) the “Notification for the Determination of the Antidumping Measure on imports of Hot-Rolled Steel Flat Products in coils and not in coils Originating in Federal Republic of Brazil, Islamic Republic of Iran and the Turkish Republic”, by determine temporary measure to impose the provisional anti-dumping duties by collecting temporary duties or collateral for payment of temporary duties (a letter of commercial bank guarantee) for four-month since 16 November 2016. And then the Department later issued on 13 March 2017 (published on the royal gazette on 14 March 2017) to extend the provisional measures for two more months from the end of 15 March 2017 to the end of 15 May 2017. And the latest, the investigation of the antidumping procedure was finished when Thailand’s Antidumping and Countervailing Committee issued the “Notification for the Determination of the Antidumping Measure”, dated 11 May 2017, as published on the royal gazette on 15 May 2017 that determine to impose the antidumping duties on the Hot-Rolled Steel Flat Products in coils and not in coils Originated from Federal Republic of Brazil, Islamic Republic of Iran and the Turkish Republic for the next 5 years, with effect from 16 May 2017 through 15 May 2022.
- *** The domestic industry filed petition to Department of Foreign Trade along with the evident information concerned requesting for continuation review of the imposition of antidumping measure for the next 5 years. The Department later issued on 30 November 2017 (published on the royal gazette on 13 December 2017) the “Notification for Initiation of Necessity Review for Continuation of the Antidumping Measure on Boron-added Steel Hot Rolled Flat Products Originated from the People’s Republic of China”, as the start of the antidumping measure continuation review procedure, in which several interested parties were participating. And the existing antidumping duties have been imposed continuously for within another one year after the previous expiry date 25 December 2017.

Notes to the financial statements

For the year ended 31 December 2017

Safeguard Measures (3-year term)

	Import Goods	Origin	SG Duty Rate	Effective
1	Other-alloy steel hot-rolled flat products in coil and not in coil	any countries (except the developing countries that account for less than 3% of share in total import volume to Thailand)	- Imported 27 Feb 2016 - 26 Feb 2017 41.67% of C.I.F. value - Imported 27 Feb 2017 - 26 Feb 2018 40.42% of C.I.F. value - Imported 27 Feb 2018 - 26 Feb 2019 39.21% of C.I.F. value	27 Feb 2016 to 26 Feb 2019
2	Non-alloy steel hot-rolled flat products in coil and not in coil	any countries (except the developing countries that account for less than 3% of share in total import volume to Thailand)	- Imported 7 Jun 2017 - 6 Jun 2018 21.00% of C.I.F. value - Imported 7 Jun 2018 - 6 Jun 2019 20.87% of C.I.F. value - Imported 7 Jun 2019 - 6 Jun 2020 20.74% of C.I.F. value	7 Jun 2017 to 6 Jun 2020 (Extend the duration from 7 Jun 2014 to 6 Jun 2017) ****

****The domestic industry filed petition to Department of Foreign Trade along with the evident information concerned requesting for continuation of the imposition of safeguard duties for the next 3 years. The Department later issued on 3 October 2016 (published on the royal gazette on 3 October 2016) the “Notification for Initiation of Necessity Review for Continuation of the Safeguard Measure on Hot-Rolled Steel Flat Products”, as the start of the safeguard measure review procedure, in which several interested parties have participated. And then the safeguard review procedure was finished when Thailand’s Safeguard Committee issued the notification for safeguard review determination, dated 2 June 2017, as published on the royal gazette on 6 June 2017. The said safeguard measure, therefore, has been continued to be effective through the next 3 years, so will expire on 6 June 2020.

c) Local demand of Hot-Rolled Steel Flat Products

Hot Rolled Steel (million metric tonnes)	Year 2017	Year 2016	Increase / (decrease)
Production	2.92	2.68	0.24
Import	3.87	4.68	(0.81)
Export	0.010	0.016	(0.006)
Consumption	6.78	7.34	(0.56)

For the trend of the steel industry, World Steel Association forecasts that the demand of ASEAN steel consumption in the year 2018 will increase by 6.8% per annum. For Thailand, local demand for steel consumption is expected to increase around 0 - 3% per annum following the demand from local downstream industry.

G J Steel Public Company Limited**Notes to the financial statements****For the year ended 31 December 2017****1.3 The Company's debt restructuring****Major Trade Creditors Restructuring**

Previously, the Company has three Major Trade Creditors with aggregated claims of USD 83 million (Baht 3,004 million) as at 31 December 2016 which the Company has defaulted on the compromise agreement.

On 31 January 2017, the Company received the notice of assignment to debtor from such three Major Trade Creditors and another trade creditor including all amount payable under the contracts up until 31 January 2017 in amount of USD 91 million to new foreign company (hereinafter referred to as "new creditor"). On 3 February 2017, the Company has repayment for some portion of principal and interest payable to new creditor in amount of USD 40 million from the drawn down of loan facility as described to the interim statement in Note 18.

Later on 10 February 2017, new creditor has agreed to reduce interest payable to the Company in amount of USD 15 million, the outstanding debt is remaining to USD 36 million (principal was amounting to USD 33 million and interest payable was amounting to USD 3 million). The Company agrees to restructure the debt which shall be completed by 31 March 2017, the new creditor has agreed on interest chargeable on such principal in the rate of 4% p.a. and if the debt restructuring has not yet completed within 31 March 2017 then the interest rate shall be adjusted to 7.5% p.a. from the date of 31 March 2017 until the debt restructuring completed or has already repayment in full amount.

On 24 March 2017 and later on 14 June 2017, the Company and new creditor has agreed to extend the period of debt restructuring until to 30 September 2017, whereby the interest chargeable on principal still at the rate of 4% p.a. and if the debt restricting has not yet completed within 30 September 2017 then the interest rate shall be adjusted to 7.5% p.a. from the date of 30 September 2017 until the debt restructuring completed or has already repayment in full amount.

On 26 May 2017, the Company had entered the Memorandum of Understanding ("MOU") with the foreign company in which who is the shareholder of the new creditor. Under the said MOU, the plans for the debt restructuring of the Company are as follow:

- a) The Company had a total debt of USD 36.70 million including debts of USD 32.35 million and interest payable of USD 4.35 million which calculation until 30 August 2017.
- b) The new creditor agreed to waive the partial of interest payable of USD 3.77 million as a result the Company's net outstanding debt before the debt-to-equity conversion shall be USD 32.93 million. By mean of under the its condition that the allocation and offering of the newly issued ordinary shares of the Company under to the debt-to-equity conversion scheme must get the approval from the Extraordinary Shareholders' meeting no.1/2017 on 30 August 2017 before.

On 30 August 2017, the Extraordinary Shareholders' meeting no.1/2017 had approved the allocation and offering of the newly issued ordinary shares of the Company under to the debt-to-equity conversion scheme as described to the financial statement in Note 28.1.

On 11 September 2017, the Company entered to Share Subscription Agreement with Asia Credit Opportunities I (Mauritius) Limited which is the new creditor whereby the agreement stipulated debt conversion conditions and the requirements to be complied before the capital increase, and the deadline for completion is 30 September 2017. On 21 September 2017, the Company has already converted its debt to equity under the agreement as described to the financial statement in Note 28.2.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

The movement of liabilities under debt restructuring for year ended 31 December 2017 was as below:

	Note	(in million Baht)
At 31 December 2016		-
Transfer from Trade accounts payable	21	1,454
Transfer from Other payables and accrued expenses	22	613
Transfer from Accrued interest	23	1,173
Total liabilities at 31 January 2017		3,240
<u>Deduct</u> Repayment during the 1 st Quarter		(1,438)
<u>Deduct</u> Gain from the Creditor waived the debt during the 1 st Quarter		(531)
<u>Additional</u> Accrued interest from 1 February 2017 to 30 August 2017		31
<u>Deduct</u> Gain from the Creditor waived the debt during the 3rd Quarter		(125)
<u>Deduct</u> Debt-to-equity conversion during the 3rd Quarter		(1,096)
Effect of exchange rate during the year		(81)
Ending balance of liabilities under debt restructuring		-
At 31 December 2017		-

Other Creditors Restructuring

The Company has negotiated repayment schedules for overdue debt owed to Other Creditors for the year ended 31 December 2017 as details below;

	(in million Baht)
As at 31 December 2016	91
<u>Deduct</u> Repayment during the year	(25)
Effect of exchange rate	(1)
Balance of other creditors restructuring	65
As at 31 December 2017	65

2 Basis of preparation of the financial statements

(a) Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (TFRS); guidelines promulgated by the Federation of Accounting Professions (“FAP”); and applicable rules and regulations of the Thai Securities and Exchange Commission.

During the year, the Company have adopted accounting standards, financial reporting standards, accounting standard interpretations and financial reporting standard interpretations which issued and revised by the FAP which are effective for financial statement year beginning on or after 1 January 2017. However, the adoptions of said financial reporting standards in the current year does not have material effect on the financial statements.

G J Steel Public Company Limited**Notes to the financial statements****For the year ended 31 December 2017**

In addition to the above new and revised TFRS, during the year, the FAP has issued a number of other new and revised TFRS which are effective for financial statements beginning on or after 1 January 2018 and have not been adopted in the preparation of these financial statements. Those new and revised TFRS that are relevant to the Company's operations are disclosed to the financial statement in Note 3.

An English language version of the financial statements has been prepared from the statutory financial statements that were issued in Thai language. In case of conflict of difference in understanding, the interim financial statements in Thai language shall prevail.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except as stated in the accounting policies.

(c) Functional and presentation currency

The financial statements are presented in Thai Baht. Which is the Company's functional currency. All financial information presented in Thai Baht has been rounded in the notes to the financial statements to the nearest million unless otherwise stated.

(d) Use of estimates and judgments

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from estimates.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which estimates are revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements is included in the following notes:

Note 7	Allowance for doubtful accounts
Note 8	Allowance for devaluation of inventories
Note 11	Appraisal valuations and allowance for impairment of advance payment for purchase of property, plant and equipment
Note 12	Appraisal valuations and allowance for impairment of property, plant and equipment
Note 13	Appraisal valuations and allowance for impairment of intangible asset
Note 15	Appraisal valuations and allowance for impairment of suspended construction in progress
Note 26	Provision
Note 27	Measurement of defined benefit obligations
Note 40	Appraisal valuations of financial instruments
Note 42 and 43	Litigation and Contingent liabilities

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

3 Financial reporting standards which are not effective for the current year

During the year, the Federation of Accounting Professions has issued the revised and new accounting standards, financial reporting standards, accounting standard interpretations and financial reporting standard interpretations, which are effective for financial statements period beginning on or after January 1, 2018 as follows.

Accounting Standards

TAS	1	Presentation of Financial Statements (revised 2017)
TAS	2	Inventories (revised 2017)
TAS	7	Statement of Cash Flows (revised 2017)
TAS	8	Accounting Policies, Changes in Accounting Estimates and Errors (revised 2017)

TFRIC 18 Transfers of Assets from Customers (revised 2017)

TFRIC 20 Stripping Costs in the Production Phase of a Surface Mine (revised 2017)

TFRIC 21 Levies (revised 2017)

The management of the Company has assessed that TAS 1, TAS 2, TAS 7, TAS 8, TAS 10, TAS 12, TAS 16, TAS 17, TAS 18, TAS 19, TAS 21, TAS 24, TAS 33, TAS 34, TAS 36, TAS 37, TAS 38, TFRS 2, TFRS 8, TFRS 13 and TFRIC 10 will not have material impact on the financial statements when it is applied. For the other TAS, TFRS, TSIC and TFRIC are not relevant to the Company's business, therefore they do not have impact on the financial statement when they are applied.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2017

4 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognised in profit or loss.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency using the foreign exchange rates ruling at the dates of the transactions.

Foreign currency differences arising on retranslation are generally recognized in profit or loss.

(b) Cash and cash equivalents

Cash and cash equivalents in the statements of cash flows comprise cash balances, call deposits and high liquidity short-term investments. Bank overdrafts that are repayable on demand are a component of financing activities for the purpose of the statement of cash flows.

(c) Trade and other accounts receivable

Trade and other accounts receivable are stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(d) Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost is calculated using the weighted average method cost principle, and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2017

An allowance is made for all deteriorated, damaged, obsolete and slow-moving inventories.

The Company recognises an asset and corresponding liability in respect of consignment inventories once the Company obtains the rights and responsibilities of legal and economic ownership.

(e) Investments

Investments subsidiary

Investments in subsidiary in the separate financial statements of the Company are accounted for using the cost method.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognised in profit or loss.

If the Company disposes of part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

(f) Property, plant and equipment

Recognition and measurement

Owned assets

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Cost also may include transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within other income in profit or loss.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2017**Subsequent costs**

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on the straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. The estimated useful lives are as follows:

Land improvements	20 years
Buildings	20 - 50 years
Machinery and equipment	15 - 30 years
Furniture and fixtures	5 years
Office equipment	5 years
Vehicles	5 years

No depreciation is provided on freehold land or assets under construction.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(g) Intangible assets

Intangible assets represent the cost of computer software and a production license. These intangible assets that are acquired by the Company and have finite useful live are measured at cost less accumulated amortisation and impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative periods are as follows:

Computer software licences	10 years
Production licences	25 years

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(h) Deferred costs of rolls

Deferred costs of rolls are stated at cost less accumulated amortisation. Amortisation is based on consumption.

(i) Impairment

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

Calculation of recoverable amount

The recoverable amount of non-financial assets is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss.

Impairment losses recognised in prior periods in respect of non-financial assets are assessed at each reporting date for any indications that the losses have decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(j) Interest-bearing liabilities

Interest-bearing liabilities are recognised initially at fair value less attributable transaction charges. Subsequent to initial recognition, interest-bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in profit or loss over the period of the borrowings on an effective interest basis.

(k) Trade and other accounts payable

Trade and other accounts payable are stated at cost.

(l) Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which services are rendered by employees.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service costs and the fair value of any plan assets are deducted. The discount rate is the yield at the reporting date on AA credit-rated bonds that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognised asset is limited to the total of any unrecognised past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in the Company. An economic benefit is available to the Company if it is realisable during the life of the plan, or on settlement of the plan liabilities.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognised in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in profit or loss.

The Company recognises all actuarial gains and losses arising from defined benefit plans in other comprehensive income and all expenses related to defined benefit plans in profit or loss.

(m) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting the Company's obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

(n) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Sale of goods

Revenue is recognised in profit and loss when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

Interest income

Interest income is recognised in profit or loss as it accrues.

(o) Finance costs

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions and contingent consideration, losses on disposal of available-for-sale financial assets, dividends on preference shares classified as liabilities, fair value losses on financial assets at fair value through profit or loss, impairment losses recognised on financial assets (other than trade receivables), and losses on hedging instruments that are recognised in profit or loss.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

(p) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Company determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Company the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Company concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Company's incremental borrowing rate.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

(q) Income tax

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries and jointly-controlled entities to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

(r) Earnings (loss) per share

The Company presents basic and diluted earnings (loss) per share data for its ordinary shares. Basic earnings (loss) per share is calculated by dividing the profit (loss) attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted earnings (loss) per share is determined by adjusting the profit (loss) attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

(s) Segment reporting

Segment results that are reported to the Group's CEO (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

5 Connected persons or related parties

For the purposes of these financial statements, connected persons or related parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control or joint control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Connected persons or related parties may be individuals or other entities.

Significant agreement with related parties

Tolling Agreement

On 14 November 2017 the Company entered into Tolling Agreement with G Steel whereby the Company (the metallic owner) shall supply the primary metallic and delivery to the plant and G Steel (the operator) shall process and convert metallic to Hot Roll Coils (HRC) extend to deliver such HRC to the Company's customers in according to the Company's sale order. Tolling agreement is valid one year from the contract date and automatically renew for another year if there is no notice of termination prior to expiration of 90 days. Its service fee shall be charged based on contractual prices.

Other contracts

In year 2013, the Company entered into a memorandum with OAC to accept the liabilities arising from the compromise debt agreement with Master Steel Co., Ltd. amounting to Baht 17.91 million by exchange with the transfer G Steel's shares of 35.82 million shares which held by OAC at the agreed price of Baht 0.50 per share to Master Steel Co., Ltd.

In addition, the Company settled a labour case with a former employee at the Central Labour Court. Under this agreement, the Company agreed to transfer G Steel's shares of 33 million shares which held by OAC to the former employee at an agreed price of Baht 0.45 per share, amounting to Baht 14.85 million and OAC agreed to guarantee the share price at Baht 0.45 per share in 90 days from the transferred share date ("guarantee period").

Therefore, the Company entered into a memorandum with OAC to accept the liabilities arising from the compromised debt agreement in amounting of Baht 32.76 million. The such debt shall be mature on 30 June 2014. On 5 June 2015, the Company paid to OAC for the amount of Baht 29.54 million which the outstanding debts remained at Baht 3.22 million.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

On 13 January 2014, OAC deposited the G Steel's shares of 102.3 million shares to Legal Execution Department as a guarantor under the compromise debt agreement to transfer additional G Steel's shares of 102.3 million shares at market price of Baht 0.10 per share to the former employee (the market price based on at the end of guarantee period date).

In addition, on the same date (13 January 2014), the Company entered into a memorandum with OAC to accept additional liabilities of Baht 10.23 million. This obligation will be due on the date of 30 June 2014. Currently, the Company is on the process of extension period of the memorandum with OAC.

Significant matter with related parties.

On 7 May 2014, OAC enters into a transfer of assets for debt repayment contract with Shareholder of G Steel to agree for partial debt repayment against with the transferring ownership of the Company's shares of 4,125 million shares and the Company's warrants of 687 million units which were held by OAC. In September 2014, G Steel had transferred ownership of the Company's shares of 1,500 million shares to other non related company, resulting to G Steel held 20.79% shareholding in the Company.

Later in June and July 2017, G Steel sold the shares held in the Company of 100 million shares as a result G Steel shareholding in the Company reduced to 20.05% before the share capital increase as described to the financial statement in Note 28.

After the share capital increase as described to the financial statement in Note 28, as at 31 December 2017 the percentage of shareholding in the Company of G Steel and GS Securities is 18.72%.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2017

The normal credit terms granted by the Company are cash and not over 7 working days for domestic sales, and cash and letter of credit at sight for export sales.

In year 2013, an account receivable due from related party subrogated the amounts, the receivable owed to a creditor of Baht 172 million in exchange with another receivable in the same amount. The account receivable subrogated also is the creditor of the Company in the greater amount than the receivable amount owe to the Company. On 20 November 2017, the Company entered into a debt settlement agreement with such debtor ("Party"). The Party agreed to pay the debt of Baht 172 million, which the Party was debtor, to settlement from debt of Baht 181 million, which the party was creditor and the Company agreed to pay the remaining amount of Baht 9 million within 7 March 2018.

The gross and net balance due from the Non-performing Domestic Customer as at 31 December 2017 and 2016 are shown in the table below:

	As at 31 December	
	2017	2016
	(in million Baht)	
Account receivables		
- Customer 1	352	352
- Customer 2	65	65
	417	417
<u>Less</u> allowance for doubtful accounts	(417)	(417)
Net	-	-

The Company had no sales transactions for the years ended 31 December 2017 and 2016 with the Non-Performing Domestic Customers.

In July 2013, the Company filed complaints against the Non-performing domestic Customers with Civil Court for breach of sale and purchase agreements. On 21 October 2013 the Civil Court ordered the Customer 1 to pay the amount of Baht 423 million and interest at 7.5% p.a. of the principal of Baht 352 million since filing date until the settlement date. However the Customer 1 could not paid as per the judgment debt. On 17 November 2016, the Customer 1 had a registration for dissolution. Currently the Company is under the settlement filed for liquidation. On 3 March 2014, the Company had made the compromise agreement with Customer 2 to pay the amount of Baht 78 million (principal amount of Baht 65 million and interest amount of Baht 13 million) by installation payment commencing on 25 March 2014 to 25 August 2016. However, the Customer 2 was defaulted the payments. However from year 2015 to the present the Company traced the land of the Customer 2 with Land Department, and not found their property. On 27 October 2017, the Company filed a lawsuit to Customer 2 against the Bankruptcy Court to ask Customer 2 to pay the debts to the Company in the amount of Baht 78 million and interest at 7.5% p.a. of the principal from the date of 25 March 2014. On 18 December 2017, the Court has ordered to seize the Customer 2's asset. On 24 January 2018, the Company has filed a request for payment with the Official Receiver and makes an appointment date for auditing payment request on 8 May 2018.

9 Short-term loan to related party

On March 30, 2017, the Company has entered to short-term loan agreement to G Steel in the credit facilities of Baht 94 million by which the principal and interest are to be repaid within the period of 6 months with interest rate at 12.5% p.a. On 22 September 2017, the Company agreed to extend repayment period for principal and interest within 15 November 2017.

On 14 November 2017, G Steel has filed a petition for business rehabilitation with the Central Bankruptcy Court to prevent G Steel from falling into bankruptcy due to G Steel has been in default since the economic crisis in 2008 and there is a risk of being sued or bankrupt by judgment of the creditor. The Central Bankruptcy Court accepted the petition for business rehabilitation on 15 November 2017. Currently G Steel is in the process of interrogation on 26 February 2018. However, G Steel will have to go through the rehabilitation process, but it will not affect G Steel's normal business. Due to G Steel will also be able to produce and deliver to customers. Hence, the management believes that G Steel will be able to repay the loan back to the Company. Therefore, the Company does not consider the allowance for doubtful accounts.

However, such loan is over due date, the Company ceased recognizing interest income from the date of 15 November 2017.

Impairment evaluation

In determination of assets impairment, the management of the Company has verified various factors and concluded that there is no factor indicated the value of property, plant and equipment as at 31 December 2017 and 2016 may be impaired. And in December 2016, the management of the Company has retained an independent appraiser to evaluate the value of the land, buildings and equipment as at 31 December 2016 together with the assessing value in use of the assets by the Company's management. It concluded that as at 31 December 2017 and 2016 there is no factor indicated that the book value of the land, buildings and equipment may be impaired.

The discounted rate (before tax) for determination is 12.92% per annum in year 2017 and 11.95% per annum in year 2016.

Mortgaged property, plant and equipment

Under the rehabilitation plan and long-term loan from a foreign company

As at 31 December 2017 the Company's property, plant and equipment, with a net book value of Baht 9,215 million, were mortgaged under the rehabilitation plan (2016: Baht 10,028 million).

G J Steel Public Company Limited and its Subsidiary**Notes to the financial statements****For the year ended 31 December 2017**

The Company filed a lawsuit to Southern Bangkok Civil Court against three defendants, in their capacities of bondholder trustee and security agent, to release the lien and security interests on the Company's property, plant and equipment which were held by them to secure payment of the bond issued by the Company in the past, which had been fully paid. On 28 October 2013, the Southern Bangkok Civil Court ruled in favour of the Company ordering the defendants to release the mortgaged assets. One of the defendants negotiated for make compromise agreement with the Company to release of the mortgaged assets and appealed to Southern Bangkok Civil Court to compromise the case.

On 6 May 2014, the Appeals Court has ruled the compromise agreement between the Company and one defendant that the defendant shall release the mortgaged collateral to the Company. At present the Company is in the process of redemption the collateral.

Currently, two defendants of them have released the mortgaged assets.

As described to the financial statements in Note 44.3 on 6 January 2017, the Company's Board of Directors meeting had approved the mortgaged most of land, plant and machinery for second ranking secure from facility of long-term loan from a foreign company for facility amount of USD 71 million in mortgage amount of Baht 4,022 million. Later on 13 November 2017, the Company's Board of Directors meeting has approved to increase the total mortgage amount to Baht 6,619 million.

Mortgaged as security for tax liabilities

On 14 May 2013, the Company's Board of Directors approved to mortgage its machinery (Pickle and oil line), with a net book value of Baht 730 million as at 31 December 2017 (2016: Baht 766 million), as security in the facilities amount of Baht 1,043 million with the Revenue Department for its tax liabilities and the Company registered this mortgage transaction with the Central Office for Machinery Registration, Department of Industrial Works on 10 October 2013.

Later on 9 July 2015, the Company's Board of Directors had approved to place 5 pieces of land title deed to be additional security to Revenue Department. On 29 September 2015, the land had been mortgaged (as described in Note 11 to the financial statements).

Mortgaged as security for facilities agreement of a local bank

On 13 November 2014, the Company's Board of Directors approved to mortgage its machinery (the Recoil Temper Mill (RTM) and the Acid Regeneration Plant (ARP)), with a net book value of Baht 694 million as at 31 December 2017 (2016: Baht 739 million), as joint security with G Steel in the facilities amount of Baht 602 million with a local bank and the Company registered this mortgage transaction with the Central Office for Machinery Registration, Department of Industrial Works on 3 March 2015 for the mortgaged amount of Baht 480 million.

Suspended construction in progress

Suspended construction in progress represented the Direct Reduced Iron plant (“DRI Facility”). The management of the Company decided to suspend this project in 1999. The carrying value of this investment was written down to its independently appraised forced sale value based on the market price of steel scrap of Baht 44 million. On 29 July 2014, the Board of investment (“BOI”) had ordered the revocation of privilege in the production of Direct Reduced Iron. However there is no burden of import duty on machinery and raw materials.

As at 31 December 2015, the management has reconsidered the estimated recoverable amount of assets that the recoverable amount is lower than the net book value in the amount of Baht 11 million which was recorded as loss on impairment in the statement of income.

Performance guarantee payable

The Company provided a performance guarantee for an Intermediary to two End Use Customers. These two End Use Customers are also Major Trade Creditors of the Company. Under the performance guarantee, the Company has recognised liabilities as other payables and accrued expenses amounting to USD 17 million equivalent to Baht 624 million as at 31 December 2016.

The Company used to enter into a compromise agreement with these Major Trade Creditors, in order to extend the repayment schedule, and had defaulted on certain negotiated repayment schedules. As a consequence of such default, the Company has burden on interest chargeable on the interest rate of 7.5% p.a. from the date of default.

Later on 31 January 2017, the Company received the notice of assignment to debtor from such creditor in amount of USD 17 million including all amount payable under the contracts to new foreign company as described to the financial statement in Notes 1.3, consequently on 31 January 2017 the Company reclassified the such creditors to liabilities under debt restructuring.

For the year ended 31 December 2017

Tax instalment payable

As at 31 December 2017, the Company has outstanding balance of tax installment payable amounting to Baht 406 million (included additional full amount of surcharge, according to the Revenue code amounting to Baht 216 million) which presented as current liabilities of Baht 174 million and non-current liabilities of Baht 232 million.

Under this repayment schedule, the Company mortgaged its 1 plot of land and construction, pickle and oil line as collateral together with the guaranteed by an other company.

As at 31 December 2017, the Company shall pay the above outstanding balance with the total 28 installments at Baht 14.52 million in each installment.

Customs Department

As at 31 December 2017, the Company has fully paid tax liabilities with the Customs Department of Baht 132 million (as described to financial statements in Notes 26 and 43)

Other liabilities

On 17 July 2015, the Company entered into compromising agreement with the above supporting customer, in which the Company had to pay amount of Baht 101.67 million as follow;

- Monthly repayment of Baht 1.5 million commencing 28 August 2015 to 28 July 2016.
- Monthly repayment of Baht 2.0 million commencing 28 August 2016 to 28 December 2017.
- Repayment of remaining on 28 January 2018.

Any default of the installment payment is deemed to default and has to repayment of remaining immediately and the Company has to pay interest at 7.5% p.a. until completion of repayment loan balance.

On 25 January 2018, the Company has fully paid the remaining debts of Baht 49.7 million.

25 Liabilities under rehabilitation plan

	As at 31 December	
	2017	2016
	(in million Baht)	
Balance - beginning of the year	226	242
Paid during the year	(13)	(15)
Exchange rate adjustments during the year	(9)	(2)
Transfer to gain on debt restructuring	-	1
Balance - end of the year	204	226

Liabilities under rehabilitation plan as at 31 December 2017 and 2016 were included in the financial statements as follows:

			As at 31 December	
			2017	2016
			(in million Baht)	
Creditors	Due date			
Class 4 Employee	July 2015		4	4
Class 5 Equipment Claims	October 2011		10	10
Class 11 Operating Fund Creditors	October 2003			
	Provided in the Form of Overdraft		16	16
Class 13 Other Creditors	October 2011		174	196
Total			204	226

The repayment schedules of each creditor under Class 5 and Class 13 are not entirely consistent in terms of date, as they depend on the date of the conclusion of the debt. However, the first due date of creditors under Class 5 and Class 13 is 31 October 2011.

Although a repayment of creditors under Class 11 was due in October 2003, the repayment schedule of these creditors was conditional upon those creditors continuing to provide overdraft facilities to the Company equal to the total debt under Class 11. However, the Company has not received any such overdraft facility from the creditors under Class 11, and therefore, the repayment condition imposed on these creditors has not been satisfied.

The Company's rehabilitation plan liabilities were duly on 31 October 2011 but fell into default. The Company entered into negotiations with the creditors to extend the payment period. Accordingly, the Company presented the outstanding liabilities under rehabilitation plan as at 31 December 2017 and 2016 as current liabilities in the Company's statement of financial position. As a consequence of this default, the outstanding balances are payable on demand and accrue interest at a rate of 7.5% per annum from the date of default.

G J Steel Public Company Limited and its Subsidiary

Notes to the financial statements

For the year ended 31 December 2017

Since year 2012 to the date of the report, 4 suppliers filed a complaint against the Company for breach of the rehabilitation plan. Three suppliers with the litigation amount of Baht 5 million together with interest at the rate of 7.5% per annum from the date of filing the complaint until the date of full repayment is on the Court process and 1 supplier with the litigation amount of Baht 2 million have been compromised and settled.

The currency denomination of liabilities under rehabilitation plan as at 31 December 2017 and 2016 was as follows:

	As at 31 December	
	2017	2016
	(in million Baht)

Sensitivity analysis of significant actuarial assumptions

Significant actuarial assumptions for sensitivity analysis are discount rate, salary increase rate and employee turnover rate, while holding all other assumptions constant. The sensitivity analysis of change in the relevant actuarial assumption that were reasonably possible as of 31 December 2017 as follows:

- If the discount rate increases (decreases) by 1.0%, the employee benefit obligation decrease Baht 7.74 million (increase Baht 9.13 million).
- If the salary increase rate increases (decreases) by 1.0%, the employee benefit obligation increase Baht 8.83 million (decrease Baht 7.65 million).
- If the employee turnover rate increases (decreases) by 1.0%, the employee benefit obligation decrease Baht 4.37 million (increase Baht 4.73 million).

In presenting the above sensitivity analysis, the present value of the employee benefit obligation has been calculated by using the same method that applied in calculating the employee benefit obligation recognized in the statement of financial position.

1. Approved the debt-to-equity conversion scheme through the allocation and offering of not more than 3,343,000,000 newly issued ordinary shares, at the par value of Baht 6.90 per share to new creditor as repayment of the net trade debts to who is the new creditor as described to interim financial statement in Note 1.3 in amount of USD 32.34 million and interest payable which shall be converted to equity in amount of USD 0.59 million, the total debts be converted to equity shall be USD 32.93 million, or equivalent to Baht 1,136.54 million where the conversion price will be fixed at Baht 0.34 per share, and the aggregation shall be not greater than Baht 1,136.62 million.

G J Steel Public Company Limited and its Subsidiary**Notes to the financial statements****For the year ended 31 December 2017**

2. Approved the capital increase of the Company's registered capital by not more than Baht 26,160,481,980, from the existing registered capital of Baht 103,137,868,438.50, to the new registered capital of Baht 129,298,350,418.50 by issuing not more than 3,791,374,200 newly issued ordinary shares, at the par value of Baht 6.90 per share for (1) to accommodate the allocation and offering of the newly issued ordinary shares of the Company under to the debt-to-equity conversion scheme, (2) to accommodate the rights adjustment pursuant to the Terms and Conditions, and Rights of the Issuers and Holders of the Warrants to Purchase Ordinary Shares No.2, (the "GJS-W2 Warrants"), the Warrants to Purchase Ordinary Shares No.3, (the "GJS-W3 Warrants") and the Warrants to Purchase Ordinary Shares No.4, (the "GJS-W4 Warrants") and approve the correction of additional in the Company's affidavit in clause no.4 in order to accommodate the Company's share register increased.

On 21 September 2017, the Company was registered the increase of the Company's registered capital with the Ministry of Commerce.

3. Approved the allocation and offering of the newly issued ordinary shares of the Company by issuing not more than 3,791,374,200 newly issued ordinary shares, at the par value of Baht 6.90 per share and assign to the board of the Company's directors and/or Chief Executive Officer and/or the person who the board of the Company's directors and/or Chief Executive Officer has been assigned, has the authority to consider the details of related the said allocation and offering of the newly issued ordinary shares by which the details of:

- 3.1 The allocation not more than 3,343,000,000 newly issued ordinary shares, at the par value of Baht 6.90 per share to new creditor where the conversion price will be fixed at Baht 0.34 per share, and the aggregation shall be not greater than Baht 1,136.62 million for paying net trade debt of USD 32.93 million or Baht 1,136.54 million under to the debt-to-equity conversion scheme. As a result, new creditor will become a majority shareholder of the Company with a shareholding of 24% of the total issued shares and indirect shareholding through G Steel of 18.97% of the total issued shares of the Company (after finish to increase the Company's issued and paid up share register). The said allocation and offering of the Company's newly issued ordinary shares under to the debt-to-equity conversion scheme, it is a transaction with the person who will have control over the company which is a connected transaction with the listed company in according to the notification of Securities and Exchange Commission Thailand (SEC) no. Tor Jor 21/2008, Re: The Criteria For Connected Transaction and the Notification of SEC, Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions in 2003 (as amended) ("the Notification of Connected Transaction"), whereby the transaction size is 8.81% of the Company's Net Tangible Assets (NTA) as of 31 March 2017 which is greater than Baht 20 million or 3% of the Company's NTA. The Company is required to disclose its information to the SET and take various actions include the following actions:

- Disclose information on the connected transactions of the Company to the SET pursuant to the Connected Transaction Notifications;

G J Steel Public Company Limited and its Subsidiary
Notes to the financial statements
For the year ended 31 December 2017

- Obtain approval by the Company's shareholders meeting with a vote of not less than three-fourths of the total votes of the shareholders attending the meeting and having the right to vote;
- Appointment of independent financial advisor to perform relevant duties including the commentary as stated in the Notification of Connected Transaction, the Company will appoint JWS Financial Advisory Co., Ltd. as an independent financial advisor to perform various duties under the Notification of Connected Transaction.

In addition, the allocation and offering of new ordinary shares of the Company under to the Debt-to-Equity Conversion Scheme at Baht 0.34, the offering price is 35.50% discount of the market price which is over than 10% of market price in according to the Notification of SEC no. Tor Jor 72/2015, Re: Allowing Listed Companies to Offer Newly Issued Shares to a Limited Person (as amended) (the "Tor Jor 72/2015 Notification"). In this regards, the said allocation and offering of new ordinary shares of the Company under to the Debt-to-Equity Conversion Scheme has to get the resolution from the company's shareholders meeting with a vote of not less than three-fourths of the total votes of the shareholders attending the meeting and having the right to vote and there must not be a total number of shareholders from 10% of the total number of shareholders attending the meeting and having the right to vote against the offering of share at those price. Furthermore, although the Company get the approval from the Extraordinary Shareholders' Meeting no. 1/2017 for the allocation and offering of new ordinary shares of the Company to new creditor, the Company have to get the approval from Securities and Exchange Commission Thailand (SEC) in according to the Tor Jor 72/2015 Notification before offering the newly issued ordinary shares to new creditor.

By the way, the offering price above is lower than the Company's par value, the Company shall require to comply with the conditions and is approved by the meeting of shareholders of the company as prescribed in section 52 of the Public Company Limited Act B.E. 2535 (as amended) (the "PLC Act"). In this regard, the Company is able to sell the shares with the price lower than the Company's par value because the Company has loss in the Company's operation more than 1 year and has accumulate loss appeared in the Company's financial statement as at 31 March 2017.

G J Steel Public Company Limited and its Subsidiary

Notes to the financial statements

For the year ended 31 December 2017

37 Finance costs

	<i>Note</i>	2017 (in million Baht)	2016
Finance costs			
- Related party	5	91	7
- Other parties		180	196
Total		271	203

38 Income tax expense

The Company did not record income tax expense in the statement of income because the Company has significant losses brought forward from prior years. Deferred tax assets have not been recognised in respect of these losses as disclosed to the financial statement in Note 14.

The Company used the income tax rate of 20% in the value measurement of deferred tax assets and liabilities as at 31 December 2017 and 2016.

39 Earnings (loss) per share

Basic earnings (loss) per share

The calculations of basic earnings (loss) per share for the years ended 31 December 2017 and 2016 were based on the profit (loss) for the years attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding during the years as follows:

	<i>Note</i>	2017 (in million Baht / million shares)	2016
Profit (loss) for the year attributable to ordinary shareholders of the Company		990	(7)
Number of ordinary shares outstanding at 1 January		10,585	10,585
Effect from debt-to-equity conversion	28	934	-
Weighted average number of ordinary shares outstanding		11,519	10,585
Basic (earnings) loss per share (in Baht)		0.086	(0.001)

Diluted earnings (loss) per share for the years ended 31 December 2017 and 2016 are not presented because the exercise price of the Company's warrants was higher than the market price of the Company's ordinary shares and these potential shares would decrease the earnings (loss) per share.

G J Steel Public Company Limited and its Subsidiary

Notes to the financial statements

For the year ended 31 December 2017

40 Financial instruments

As at 31 December 2017 and 2016, the Company had not entered into any derivative contracts to hedge its exposure to foreign currency exchange risk.

Financial risk management policies

The Company is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties. The Company does not hold or issue derivative financial instruments for speculative or trading purposes.

Capital management

The Board's intention is to return to a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board is presently seeking additional capital investment in order to secure the ongoing viability of the Company.

Interest rate risk

Interest rate risk is the uncertainty in value of financial assets and liabilities or net interest income as a result of the fluctuation of the market interest rate. Most of the interest rates of financial assets and liabilities of the Company are fixed rates, which are based on contract rates.

G J Steel Public Company Limited and its Subsidiary

Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Company as and when they fall due.

At the reporting date there were no significant concentrations of credit risk because the Company has seized to give credit terms to customers (Refer to the financial statement in Note 7). The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

Liquidity risk

Liquidity risk arises from the difficulty in mobilizing funds for timely and adequately meeting commitments under financial obligations. Liquidity risk may arise from failure to sell financial assets at a price close to the fair value.

The Company has liquidity risk as the Company needs to generate sufficient operating cash flows to meet both its working capital requirements and its operating obligations.

Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. The fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's-length transaction. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The fair value of trade and other short-term receivables is taken to approximate the carrying value.

Maturities of financial assets and liabilities

Details of the maturities of financial assets and liabilities have been provided in the relevant notes to the financial statements.

6 suppliers filed a complaint against the Company for breach of several agreements related to sales and purchases and rehabilitation plan. Presently 5 supplier with the litigation amount of Baht 7 million together with interest at the rate of 7.5% per annum from the date of filing the complaint until the date of full repayment are on the Court process and 1 suppliers with the litigation amount of Baht 2 million have been compromised and settled.

42.2 The Second Section of Labour Court

A former employee filed a complaint to the Second Section of the Labour Court against the Company for the lay-off and demands the Company to pay him together with interest at the rate 7.5% per annum from the date of filing. On 12 July 2017, the Company received the Court's order that the Supreme Court has the judgment to dismiss the claim and the Company do not pay compensation.

G J Steel Public Company Limited and its Subsidiary**Notes to the financial statements****For the year ended 31 December 2017****43 Contingent liabilities**

On 9 October 2015, the Board of Investment (“BOI”) has been resolved to the Company pay the custom duties on the imported raw materials date in year 1998. On November 2016 the Company had made a request to join the tax audit assessment program for entrepreneurs. In order to terminate the liability issue which may arise in such circumstances on 16 January 2017, the Company had made a proposal letter to Customs Department for custom duties, VAT and penalties in amount of Baht 132 million. As at 31 December 2016, the Company had recorded the provision for such liabilities of duties and penalties in financial statements in amount of Baht 72 million.

After that on 27 February 2017, Customs Department issued an order for the collection of import duty, special duty and VAT totaling Baht 133 million. The Company has therefore transferred such provision to others payable and accrued expenses.

44 Credit facilities for operation

44.1 At 31 December 2017 the Company get collaboration from various raw material suppliers both local and overseas with Supplier Credit in term of Collateral Management Agreement (“CMA”), the Company gets CMA from 1 overseas raw material suppliers amounting to USD 10 - 15 million (2016: 1 overseas raw material suppliers amounting to USD 10 - 15 million) and CMA from 1 local raw material suppliers in term of supporting production tonnage by 240,000 tons per year (2016: 4 local raw material suppliers in term of supporting production tonnage by 660,000 tons per year). The Company also gets jointly CMA credit facilities with G Steel from another 1 overseas raw material suppliers amounting to USD 150 - 200 million (2016: 2 overseas raw material suppliers amounting to USD 159 - 210 million).

The Company has used the supplier credit facilities as working capital for many years to purchase of scrap which is the main raw material of the production.

44.2 On 9 February 2015, a local bank has provided the Facilities Agreement to the Company together with G Steel as following details:

- 1 Letter of Credit (L/C) in the amount of Baht 350 million which is the joint credit facilities between the Company and G Steel in which both can draw down such credit facility.
- 2 Bank guarantee (BG) in the amount of Baht 252 million for the Company.

In respect this agreement, the Company and G Steel have to provide securities under the aforementioned credit facilities to a local bank as below:

- G Steel will increase the mortgaged amount of the existing mortgaged machine from formerly Baht of 475.6 million to the new mortgage of Baht 510 million.
- The Company will mortgage the machinery in 2 items; the Recoil Temper Mill (RTM) and the Acid Regeneration Plant (ARP), for the mortgaged amount of Baht 480 million, together with cash Baht 70 million for additional collateral to be provided.

G J Steel Public Company Limited and its Subsidiary**Notes to the financial statements****For the year ended 31 December 2017**

As at 31 December 2017, Company has utilized the bank guarantee in amounting of Baht 156 million (2016: Baht 156 million).

The Revenue Department ordered the local bank to remit the Company pledged cash deposit amount of Baht 70 million, which the cash deposit was remitted on 4 August 2015. On 17 July 2015 the local bank has informed that the Company and G Steel have violated the conditions under the Facilities Agreement due to none of cash collateral as condition. Thus, the total remaining debts of the Company and G Steel with the local bank become a default status. The Company and G Steel has been entered into negotiations with the bank in order to obtain a waiver of default and revise the terms of facilities agreement as follow;

1. Cancel the Letter of Credit Facility (L/C as sight) which unutilized.
2. Request for an approval of a waiver of default status and a consent to allow the Company to be able to mortgage some of its assets.

On 20 October 2015, the Company and G Steel has received a waiver letter from the local bank and on 25 February 2016, the Company and G Steel have executed the amendment and restatement agreement with the local bank.
