MESSAGE FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS

Dear shareholders,

The situation of the COVID-19 epidemic since the beginning of 2020 has caused the world economy to face severe crisis Causing impacts both on life The economy and society are enormous. This resulted in the economic slowdown and halt. Various locations including cinemas around the world must be closed accordance with the epidemic control measures. As a result, many films had to be postponed or had to take a break shooting. Although the overall of Thailand is able to cope with the first outbreak very well but at the end of the year, it had to face a new wave of outbreaks. As a result, even if the cinema was opened, it still could not run the business at full capacity.

Regarding the M Pictures Group has been greatly affected as well but this year we still have the highest grossing Thai movies such as “Riam Fighting Angle” and the animated movie “Demon Slayer” that the company bought the film rights to distribute. This makes the group of companies foresaw an opportunity to produce both Thai films by themselves and find a venture capitalist also push more the Asian anima- tion films into the film industry in Thailand. In addition, the M Pictures Group has developed and improved the efficiency of Thai films production go together expanding and adding more income channels such as VOD Platform, cable TV, digital online channels to keep up with the changes in consumer technology be- havior. It also focuses on the management of cost control and expenses to be more efficient.

On this occasion, I, on behalf of the Board of Directors, would like to express our highest appreciation to shareholders, investors, clients, business partners and associates for any kind supports. In addition, I would like to thank all the executives and also the employees for their hard work, dedication, and responsibility on various important assignments which firmly and increasingly strengthen the company as well as subsequently lead the organization to the goal-oriented achievement. I believe that the company still has prosperous potentials to grow further and I wish for your unfaltering support and cooperation.

Sincerely Yours,

Mr Tirachai Vutithum

Marketing Strategies

- *Strategy on movie quality*

The Group is looking to acquire copyrights of international and Thai films, as well as production and distribution of movies on Free TV, Pay TV, and digital media such as video on demand, with a focus on a vast variety of quality movies. The Company will acquire movies from widely accepted sources such as international film festivals worldwide, movie studio that could win popularity in Asian Region, independent producers of groundbreaking films, as well as movie studio in Thailand. In the Thai film production, the Company gives priority to viewers' preference, gender and age, including their income, while trying to promote the production of quality Thai films to gain popularity among viewers.

- *Strategy on intra-group support services*

The Group is currently an operator of a full fledged movie business, ranging from providing of Thai and international movie rights, Thai film production of movies on VCD, DVD and blue Ray discs. Its copyright films could be distributed and/or released extensively via different channels due to a strong relationship of the Company with Major Cineplex Group Pte., its parent company and Thailand's leading Cinema operator with a network of movie theaters in all parts of the

country. Moreover, the Company always finds new business partnership. This somewhat fully integrated business partnership gives the Company an edge over other players operating a similar type of business.

- *Strategy on consumers' preference*

Since consumers have become more selective about the type of movies they prefer watching, the Company needs to adjust itself to address the said changing consumer behavior. Realizing that moviegoers' personal taste is a crucial factor that could affect its performance, the Company must find movies that match the taste of all consumer segments and age groups and must also acquire films and produce Thai movies in alignment with the festive seasons in order to stimulate the movie consumption in Thailand.

Target Group,

- All kinds and ages of customers.
- Cinema.
- Free TV, Cable TV, Pay TV, Pay digital TV, IPTV, VOD
- International entertainment media entrepreneurs.

Competitive Potential

M Picture Entertainment PLC

The Group is operating a comprehensive range of movie business, consisting of a foreign film rights importing and distribution business and Thai film production business. It also is a subsidiary of Major Cineplex Group Plc., Thailand's leading cinema operator with theater locations all over the country. This strength enables the Company to grow strongly and in pace with other players and gives it an opportunity to efficiently manage group businesses and internal resources for an optimum benefit. With intra-group support services such as advertising media, theater network, etc., the Company is capable of better responding to consumers' demand, as well as continuously expanding its customer base, while the Group's movie media could increasingly draw consumer interest.

The Group has additionally developed and introduced the digital media, which could attract new consumer segments. In the past year, the Group focused on exploit films rights via digital platforms to match life style of consumers such as Netflix also distributes films' rights to international market such as Cambodia, Laos, Vietnam and Hong Kong and also in worldwide films' festival such as Cannes festival.

M Pictures Co.,Ltd

In the past year, the economic slowdown due to the situation of the COVID-19 epidemic which affected bringing movies to show in theaters was interrupted between the first quarter of the second quarter but the Company has tried to compensate by bringing more Thai and foreign films in the third and fourth quarter that drive business of the company. Besides, competition in this business is not tough because there are a small number of players and each of them have owned target. In view of these factors, together with the fact that the Company has several and definite marketing channels, there is no concern about competition with other peers.

MVD Co.,Ltd.

The overall of the home entertainment business is no longer popular. The company has change position from manufacturing to licensing films' rights to our partners to manufacture and sell VCDs and DVDS for reducing risk of inventory and also reducing management fee.

M Thirty Nine Co.,Ltd. / M Talent Co.,Ltd. / Transformation Films Co.,Ltd.

There are a growing number of Thai films productions with high competition. Moreover, the strength of its group members which engage in movie theater business and home entertainment business will also help to enhance the Company's competitive potential in this industry.

RISK FACTORS

- Risk Regarding Operation Results Depending on the Film Market Industry

The Company carries on the business of Thai films production and acquisition both Thai and foreign film rights, especially film rights from major studio and from independent studio, so as to manage them for revenues to be generated for the Company, the production of Thai films and the acquisition of copyrights in foreign films are deemed to serve as a main source of revenues of the Company. Consequently, there may be a risk in the event the film producers are not able to produce films that keep pace with and/or are of quality and/or correspond to the consumers' needs. However, the Company has mitigated the impact by procuring award winning films and/or films from independent studio. In addition, the Group has now produced and distributed Thai films, with a plan for all year shows, and prepared more Thai movies for supporting the theatrical.

The risk regarding operation results depending on the film market industry is, therefore, at low level.

- Risk Regarding Consumers' Tastes

The Company carries on the business of producing Thai films and acquiring both Thai and foreign film right so as to manage them for revenues to be generated for the Company. Therefore, the Company may have a risk in the event the film producers are not able to produce films that keep pace with and/or are of quality and correspond entirely to the consumers' needs and tastes. This depends on the selection of film categories by the Company, which must have regard mainly to popularity, suitability to sex and age of consumers as well as their economic status. In the previous year, the Company had many titles of both Thai and foreign films that had become

successful such as E Kiam Angie Fighting, Muu Rak Dok Puk Bung and Demon Slayer .

The Company's risk regarding consumers' tastes is, therefore, at low level.

- Risk Regarding Exchange Rates

The Company encounters interest rate risk that is crucially associated with the overdrafts and loans from financial institutions with floating interest rates. It therefore is vulnerable to interest rate fluctuations, which might affect the Group's operating results and cash flow.

Realizing the importance of cushioning against impacts from such risk, the Company has adopted a policy on strict control and planning for its income and budget spending to ensure a low finance cost. The Group has not utilized derivatives for hedging against the said interest rate risk.

- Risk from Interest Rate

The Company encounters interest rate risk that is crucially associated with the overdrafts and loans from financial institutions with floating interest rates. It therefore is vulnerable to interest rate fluctuations, which might affect the Group's operating results and cash flow.

Realizing the importance of cushioning against impacts from such risk, the Company has adopted a policy on strict control and planning for its income and budget spending to ensure a low finance cost. The Group has not utilized derivatives for hedging against the said interest rate risk.

- **RISK FROM BUSINESS COMPETITION**

In an overall picture, the competition in the business of acquiring and distributing films of the Company in the year of 2020 had not much effect on the Company though, there are a small number of operators of business in the same category and of the same size as those of the Company. However, a significant factor that affects this business results from a change in the behavior of consumers who become more selective about movies to be viewed and there are more channels to view. This problem therefore requires that the Company adjust itself to accommodate this change in the consumers' behavior by acquiring films and producing Thai films that respond more to the consumers' needs so as to keep the continuous growth of its revenues. In addition, since the Company has strong connections with a large company that is the biggest owner of theaters in Thailand, it has a channel to exploit the films produced by the Group and those in which the copyrights have been purchased. This advantage is deemed a significant strong point of the Company when compared to its business competitors.

In the previous year, regarding the acquisition of film rights and the production of Thai films by the company, the films distributed by the company became successful because they could respond well to the consumers' needs. Moreover, the Company planned its marketing strategies carefully and planned to expand its customer base by selecting films of greater quality and with more variety. In addition, for adding value of our Thai film rights, the Company has distributed to international channel.

- **RISK FROM COPYRIGHT INFRINGEMENTS**

The spread of pirated goods and internet infringement are important problems that impair the growth of the motion picture business in Thailand a lot. Manufacturers and distributors of proper copyrights in Thailand have suffered impacts from these problems continuously. The Group, which conducts the business of distributing licenses and producing films for theater shows as well as manufacturing and distributing film media will also suffer this impact, which results in a risk in terms of revenues or operation results that the Company ought to receive as a result of its investment in those film rights.

At present, both large and small operators of film media business, including the public sector, being aware of copyright infringements, cooperate in many ways to prevent and suppress such illegal acts by setting up a joint agency performing the duty to detect sources of pirated film media production and illegal movie link. As a result, the film piracy rate remains constant or does not increase, and it is expected that it will decrease to one that cannot produce impacts or produces minimum effect on the operators of lawful film media business.

- **RISK FROM A MAJOR SHAREHOLDER HOLDING MORE THAN 15%**

The Company has a major shareholder holding 92.46% of the paid up shares of MPIC which is Major Cineplex Group Plc. having the controls and influencing on the decision of the Company in the matters which have to be approved by the shareholders' meeting therefore, the other shareholders of the Company lose the power to check and balance on the issue brought up by the said major shareholder.

- **RISK FROM HAVING MINOR SHAREHOLDER LESS THAN 15%**

As of 31 December 2020, paid up ordinary shares of the Company in amount of 92.46% was held by a major shareholder and 7.54 was held by other shareholders which affecting the volume of trade in the stock exchange hence the shareholders and investors could not trade in the time persons desire. Moreover, the Company has minor shareholder less than 15% affecting the status of company listing in SET which the Company have been concerned and try to resolve the regard as soon as possible.

- **RISK FROM UNFORESEEN CIRCUMSTANCES**

Due to Covid 19 outbreak in 2020, all cinemas in Thailand were ceased for a while that affected Company's revenue. The Company has managed and planned cautiously films right distribution in other channel to compensate Company's revenue. Fortunately, the Company has effective business partner exploited our contents in Free TV, Cable TV and VOD channel. Moreover, the Company could exploit our contents immediately when the Covid 19 circumstance was unfolding which generate revenue for working fund of the Company.

CORPORATE GOVERNANCE

The Board of Directors recognizes the importance of good corporate governance as an important and essential element in the sustainable growth and prosperity of its business operation, to improve transparency, and to increase shareholders and other related parties' confidence, The Board has, therefore, devised a policy for the Company which incorporates the principles of corporate governance under the operational regulations of the Stock Exchange of Thailand as follows:

1. Setting the Corporate Governance Policy

1. The Company will treat every shareholder and stakeholder on equal and fair basis.
2. The Company will conduct its business activity with transparency, accountability, and disclose sufficient and comprehensive information to all parties concerned.
3. The Company will conduct its business activity with constant consideration of risks through appropriate control and management of risk procedures.
4. The Company's Board of Directors comprises at least 3 independent directors.
5. The Company's Board of Directors will hold a regular meeting, and may hold other additional meetings if required. The date of the meeting will be scheduled in advance, together with the clear outline of the meeting agendas. This will be submitted prior to the meeting, together with supporting documents in line with the Company's articles of association so that Company's Board of Directors has sufficient time to study the information prior to attending the meeting.
6. The Company's Board of Directors values the establishment of an internal control system, both financial and performance control, as well as the supervision of its operation. In this regard, the Board has set up an independent internal audit work unit as part of the Company's business operation.
7. The Board of the Company will ensure the application of ethical guidelines to the Company's business performance, the desired good work ethics of directors and staffs, and will communicate these ethics to all related departments for information

2. Rights and Equality of Shareholders

The Company recognizes the significance of shareholder's rights in accessing information on the Company, through its policy of providing clear information that is transparent, accurate, and fair. In this connection, the Company submits news and information on its performance results, investment in various projects, as well as company and groups transactions on a regular and timely basis. Shareholders are entitled to receive such Company information on fair and equal basis, and are entitled to attend the meetings, vote, and express their opinions during the shareholders' meeting. Each and every shareholder has equal rights as follows:

- The right to receive information on the Company's operation on a regular and timely basis.
- The right to participate in the shareholders' meetings, express opinions and
- The right to be informed of Company and groups related transactions
- Other legal rights

3. Stakeholders' Rights

The Company values the rights of every group of stakeholders including staff, executives, trade partners, executives, client, and shareholders and related parties, in accordance with their roles, functions, and responsibilities to comply with the relevant rules and regulations for the purpose of the Company's healthy performance and stable growth.

- Shareholders: the Company discloses information with transparency and reliability in order to create understanding and highest satisfaction amongst its shareholders.
- Staff: the Company has consistently treated its staff with fairness, and has assumed responsibility for the maintenance of work environment that is considered safe for the lives and assets of staff, and in strict compliance with the labor law, providing welfare, and paying proper compensation.
- Clients: the Company treats all its clients on fair and equal basis, and does not sign direct contracts with any exclusive advertising agency/ product owner client. Neither does it disclose client information to outside parties without receiving prior permission from the client or from authorized personnel within the Group;
- Business Partners: the business activities of trade partner must not in any way damage the Company's business reputation, or contradict with the regulations. Consideration is given to fairness in terms of business operation and mutual interests with clients.
- Society The Company has partnered with Major Care Foundation in activities for the benefit of society.

4. The Shareholders' Meeting

The Company schedules a General Shareholders' Meeting once a year, not longer than 4 months after the Company's fiscal year end date in order to consider various important agendas. It has dispatched the appointment/invitation letters together with supporting documents providing sufficient and comprehensive information to the Company's share registrar for onward delivery to the shareholders to study the afore-mentioned information in detail. Furthermore, the Company facilitated the shareholders' participation in the shareholders' meeting by having the meeting room easily accessible, and in the event the shareholder cannot attend the meeting in person, he may authorize other individuals to attend in his place or authorize one of the independent to vote on his behalf.

The Company's Board of Directors gives importance to meeting attendance, and at least half of the total number of directors must attend the meeting, including the Audit Committee which also comprises the independent directors. At every meeting, the Chairman of the meeting will explain to the shareholders the meeting procedures, the exercise of voting rights, and the right to express opinions. Opportunity will be given for shareholders to make queries and recommendations on various issues, and the Company's management team, including the financial auditor attending the meeting will answer any questions raised on the agendas.

5. Role, Leadership, and Vision

MANAGEMENT DISCUSSION & ANALYSIS

Operation results of the Company and subsidiaries

In early 2020, the coronavirus outbreak ("COVID-19"), which had a negative impact on the company's performance for the year 2020, especially the performance of the film production and films rights distribution businesses.

Due to measures to prevent the outbreak of COVID-19 occurring in many areas. This resulted in the control and limitation of filming and screenings. Thus resulting in the postponement of production and selling movies during the 1st to 2nd quarter of 2020. However, theaters will return to full opening in the third quarter of 2020 but Moviegoers are also concerned about seeing movies in theaters therefore, the revenue from the production and films rights distribution decreased compared to the previous year. Fortunately, the Company still earns revenue from films that received good reviews, including Thai films "Riam Angle Fighting" and Asian animated films "The Demon Slayer". In addition, the Company pays special attention to the COVID-19 outbreak and assesses closely the impact on its operations and the operating results of the Group in 2020 are as follows:

The Group's total revenues in 2020 decreased from 2019 about Baht 167.82 million or 36.56% which could be broken down by line of business in the below:

(Unit: Million Baht)

Business Line	Amount		Increase/(Decrease)		Ratio : Total Revenue	
	2020	2019	Amount	%	2020	2019
Film production	172.57	231.23	(58.66)	(25.37)	59.49	50.49
Film rights	107.15	152.84	(45.69)	(29.89)	36.94	33.38
Advertising	5.72	62.25	(56.53)	(90.81)	1.97	13.60
Management fee	1.54	1.30	0.24	18.46	0.53	0.28
Goods	0.07	7.68	(7.61)	(99.09)	0.02	1.68
Main revenue	287.05	455.30	(168.25)	(36.95)	98.95	99.43
Other revenue	3.05	2.62	0.43	16.41	1.05	0.57
Total Revenue	290.10	457.92	(167.82)	(36.65)	100.00	100.00

Film production business the revenues decreased by Baht 58.66 million or 25.37% from 2019. Main revenue generated from Riam Angle Fighting which was the highest box office movie in 2020.

Film rights Distribution has decreased in revenues by Baht 45.69 million or 29.89%. Main revenue generated from Demon Slayer the Movie which made Baht 49 million and the revenue from Free TV in sum of Baht 12 million.

Advertising revenues in 2020 recorded decrease of Baht 56.63 million or 90.81% because theatre was ceased temporarily that also affect the numbers of movie exploited in theatre.

Sales goods has decreased in revenue by Baht 7.61 million or 99.09% because in 2020 the Company has never sold goods through online channels anymore.

Costs of Production and Services and Gross Profit Margin

The Group's costs of production and services decreased Baht 84.45 million or 33.41% because cost of films' rights distribution has decreased which affected less revenue in its sector.

Selling and Administrative Expenses

Selling and administrative expenses became higher by Baht 2.94 million or 2.01% from credit recognition of M Talent Co.,Ltd. in sum of Baht 37.15 million according to TFRS 9 and impairment of investment in associated company in sum of Baht 7.30 million. However, the selling expense of the Company was less than 2019 in sum of Baht 18.02 million because of less movies and management expense was less than 2019 in sum of Baht 23.48 million because of effective cost management in Covid-19 outbreak period.

Financial Result of the Company and Group

Asset

As of December 31, 2020, the Group had total assets of Baht 750.43 million increasing from December 31, 2019 of Baht 4.36 million or about 0.58%. The assets were composed of the following items:

Assets	As of December 31		Increase (decrease)		% of total asset	
	2020	2019	Amount	%	2020	2019
Cash and cash equivalent	94.72	97.76	(3.04)	(3.11)	12.62	13.10
Accounts receivable / other receivables- net	203.01	190.84	12.17	6.38	27.05	25.58

(Mr. Tirachai Vutithum)
Chairman of the Board of Directors

(Mr. Thanakorn Puriwekin)
Chief Executive Officer

M PICTURES ENTERTAINMENT PUBLIC COMPANY LIMITED

CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS

31 DECEMBER 2020

Independent Auditor's Report

To the Shareholders and the Board of Directors of M Pictures Entertainment Public Company Limited

My opinion

In my opinion, the consolidated financial statements and the separate financial statements present fairly, in all material respects, the consolidated financial position of M Pictures Entertainment Public Company Limited (the Company) and its subsidiaries (the Group) and the separate financial position of the Company as at 31 December 2020, and its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRS).

What I have audited

The consolidated financial statements and the separate financial statements comprise:

- the consolidated and separate statements of financial position as at 31 December 2020;
- the consolidated and separate statements of income for the year then ended;
- the consolidated and separate statements of comprehensive income for the year then ended;
- the consolidated and separate statements of changes in equity for the year then ended;
- the consolidated and separate statements of cash flows for the year then ended; and
- the notes to the consolidated and separate financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated and separate financial statements section of my report. I am independent of the Group and the Company in accordance with the Code of Ethics for Professional Accountants issued by Federation of Accounting Professions that are relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key audit matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the consolidated and separate financial statements of the current period. I determine one key audit matter: Goodwill impairment assessment. The matter was addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on the matter.

Key audit matter	How my audit addressed the key audit matter
<p>Goodwill impairment assessment</p> <p>Refer to note 9 (Critical accounting estimates, assumptions and judgements) and note 21 (Intangible assets, net), the Group's goodwill is recognised based on Cash Generating Units (CGUs) in respect of investment in M Pictures Co., Ltd. net of Baht 139.14 million or 19% of total assets.</p> <p>Management tests the impairment of goodwill annually by engaging an independent specialist to perform the assessment and calculating its recoverable amount by applying value in use.</p> <p>Management has chosen to use the temporary measures to relieve the impact from COVID-19 announced by The Federation of Accounting Professions by excluding information related to COVID-19 that potentially affect financial projections used for the goodwill's impairment testing. Therefore, the cash flow forecasts are based on the normal business operation. Management has concluded that there is no additional impairment of goodwill in respect of investment in M Pictures Co., Ltd. as at 31 December 2020.</p> <p>I focused this area due to the size of the goodwill balance which was material to the financial statement and because of the fact that management's assessment of the recoverable amount involves significant judgements about the future results of the businesses, the growth rates and the discount rates applied to future cash flow forecasts. Small changes can have a material impact on the assessed recoverable amount and the impairment charge.</p>	<p>I evaluated management's cash flow forecasts of CGUs and the process by which they were computed, including verifying the mathematical accuracy of the underlying calculations. I compared the cash flow forecasts to the latest budgets plan which are in line with the plans for movie production and distribution, and also compared to the average past performance.</p> <p>I found that the information in those reports used in the recoverable amount calculations were consistent with latest budgets plan based on the plans for movie production and distribution, and consistent with the average past performance. Management reviewed the key assumptions, which are the growth rate and discount rate.</p> <p>I reviewed and challenged the forecast prepared with management's independent specialist whether it was optimistic considering the market situation and trends of movie business. I also compared the recoverable amount from the valuation report as recently prepared by management's independent specialist, as at year end whose report dated 1 February 2021 with the goodwill's carrying value.</p> <p>I also tested these significant assumptions:</p> <ol style="list-style-type: none"> 1. the growth rates used in the cash flow forecasts by comparing them to historical results and economic and industry forecasts, and 2. the discount rate used in the model by assessing the weighted average cost of capital of the Group by comparing it to recent market data. <p>I found, based on my audit work, the key assumptions used in relation to the recoverable amount calculations appeared reasonable and appropriate.</p>

Emphasis of matter

I draw attention to note 4.3 of the financial information, which describes the accounting policies in relation to adopting the temporary exemptions announced by the Federation of Accounting Professions to relieve the impact from COVID-19 for the reporting periods ending between 1 January 2020 and 31 December 2020. My opinion is not modified in respect to this matter.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to the audit committee.

Responsibilities of the directors for the consolidated and separate financial statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRS, and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

The audit committee assists the directors in discharging their responsibilities for overseeing the Group's and the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated and separate financial statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the audit committee with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Closing balance of cash and cash equivalents		94,723,327	97,765,360	16,413,391	5,221,646

Non-cash transactions

Significant non-cash transactions for the years ended 31 December 2020 and 2019:

Outstanding payable arising from purchase of equipment	54,313	-	-	-
Outstanding payables arising from acquisition of film rights	535,000	324,984	-	-

The notes are an integral part of these consolidated and separate financial statements.

1 General information

M Pictures Entertainment Public Company Limited ("the Company") is a public limited company incorporated and resident in Thailand.

On 1 January 2021, the Company changes registered office address to 234, 234/1-3 Building Ratchayothin Avenue 3rd Floor, Room No. B301-B306, Ratchadapisek Road, Ladyao, Jatuchak, Bangkok 10900 (Old address : 234 Suzuki Avenue Building (Ratchayothin), 13th floor, Ratchadapisek Road, Ladyao, Jatuchak, Bangkok 10900).

The Company is listed on the Stock Exchange of Thailand. For reporting purposes, the Company and its subsidiaries are referred to as "the Group".

The Company is a subsidiary of Major Cineplex Group Public Company Limited ("Major").

The Company and its subsidiaries ("the Group") are principally engaged in the business of providing medias, marketing services and distribution of film rights, and film production.

These Group consolidated and separate financial statements were authorised for issue by the Board of Directors on 12 February 2021.

2 Significant events during the current year

The outbreak of Coronavirus Disease 2019 ("COVID-19 outbreak") in early 2020, has adverse effects on operating results for the period ended 31 December 2020 especially on film rights distribution and film production businesses.

The series of precautionary measures that continued to be implemented across regions including restrictions and controls over production and line-up of movies, which effected to the delay of production and movie releasing during Q1 to Q2 2020. Although all cinema theaters are fully reopened in Q3 2020, customers are still worry to watch the movie in the theater. Consequently, the revenues from films production and film rights distribution dropped comparing to prior year. The Group is now paying close attention to the development of the COVID-19 situation and evaluating its impacts on the operation while strategizing effect solutions.

3 Basis for preparation

The consolidated and separate financial statements have been prepared in accordance with Thai Financial Reporting Standards ("TFRS") and the financial reporting requirements issued under the Securities and Exchange Act.

The consolidated and separate financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with TFRS requires management to use certain critical accounting estimates and to exercise its judgement in applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas that are more likely to be materially adjusted due to changes in estimates and assumptions are disclosed in Note 9.

An English version of the consolidated and separate financial statements have been prepared from the statutory financial statements that are in the Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language statutory financial statements shall prevail.

4 New and amended financial reporting standards

4.1 New and amended financial reporting standards that are effective for accounting period beginning on or after 1 January 2020 and have significant impacts to the Group

a) Financial Instruments

The new financial standards related to financial instruments are as follows:

TAS 32	Financial instruments: Presentation
TFRS 7	Financial instruments: Disclosures
TFRS 9	Financial instruments
TFRIC 16	Hedges of a net investment in a foreign operation
TFRIC 19	Extinguishing financial liabilities with equity instruments

The new financial reporting standards related to financial instruments introduce new classification and measurement requirements for financial instruments as well as provide derecognition guidance on financial assets and financial liabilities. The new guidance also provides an option for the Group to apply hedge accounting to reduce accounting mismatch between hedged item and hedging instrument. In addition, the new rule provides detailed guidance on financial instruments issued by the Group whether it is a liability or an equity. Among other things, they require extensive disclosure on financial instruments and related risks.

The new classification requirements of financial assets require the Group to assess both i) business model for holding the financial assets; and ii) cash flow characteristics of the asset whether the contractual cash flows represent solely payments of principal and interest (SPPI). The classification affects the financial assets' measurement. The new guidance requires assessment of impairment of financial assets as well as contract assets and recognition of expected credit loss from initial recognition.

On 1 January 2020, the Group has adopted the financial reporting standards related to financial instruments in its financial statements. The impact from the first-time adoption has been disclosed in Note 5.

b) TFRS 16, Leases

Where the Group is a lessee, TFRS 16, Leases will result in almost all leases being recognised on the balance sheet as the distinction between operating and finance leases is removed. A right-of-use asset and a lease liability will be recognised, with exception on short-term and low-value leases.

On 1 January 2020, the Group has adopted the new lease standard in its financial statements. The first-time adoption has no material impact to the group.

- c) **Amendment to TAS 12, Income tax** clarified that the income tax consequences of dividends of financial instruments classified as equity should be recognised according to where the past transactions or events that generated distributable profits were recognised.
- d) **Amendment to TAS 19, Employee benefits (plan amendment, curtailment or settlement)** - clarified accounting for defined benefit plan amendments, curtailments and settlements that the updated assumptions on the date of change are applied to determine current service cost and net interest for the remainder of the reporting period after the plan amendment, curtailment or settlement.
- e) **Amendment to TAS 23, Borrowing costs** clarified that if a specific borrowing remains outstanding after the related qualifying asset is ready for its intended use or sale, it becomes part of general borrowings.
- f) **Amendment to TAS 28, Investments in associates and joint ventures (long-term interests in associates and joint ventures)** clarified the accounting for long-term interests in an associate or joint venture, which is in substance form part of the net investment in the associate or joint venture, but to which equity accounting is not applied. The Group must account for such interests under TFRS 9, Financial instruments before applying the loss allocation and impairment requirements in TAS 28, Investments in associates and joint ventures.
- g) **Amendment to TFRS 3, Business combinations** clarified that obtaining control of a business that is a joint operation is a business combination achieved in stages. The previously held interest is therefore re-measured.

4 New and amended financial reporting standards (Cont'd)

4.1 New and amended financial reporting standards that are effective for accounting period beginning on or after 1 January 2020 and have significant impacts to the Group (Cont'd)

- h) **Amendment to TFRS 11, Joint arrangements** clarified that the party obtaining joint control of a business that is a joint operation should not remeasure its previously held interest in the joint operation.
- i) **TFRIC 23, Uncertainty over income tax treatments** explained how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment. In particular, it discusses:
 - that the Group should assume a tax authority will examine the uncertain tax treatments and have full knowledge of all related information, i.e. that detection risk should be ignored.
 - that the Group should reflect the effect of the uncertainty in its income tax accounting when it is not probable that the tax authorities will accept the treatment.
 - that the judgements and estimates made must be reassessed whenever circumstances have changed or there is new information that affects the judgements.

The adoption of c) - i) has no material impact on the group.

4.2 New and amended financial reporting standards that are effective for accounting period beginning or after 1 January 2021 and have significant impacts to the Group

Certain amended financial reporting standards have been issued that are not mandatory for current reporting period and have not been early adopted by the Group.

- a) **Revised Conceptual Framework for Financial Reporting** added the following key principals and guidance
 - Measurement basis, including factors in considering difference measurement basis
 - Presentation and disclosure, including classification of income and expenses in other comprehensive income
 - Definition of a reporting entity, which maybe a legal entity, or a portion of an entity
 - Derecognition of assets and liabilities

The amendment also includes the revision to the definition of an asset and liability in the financial statements, and clarification to the prominence of stewardship in the objective of financial reporting.

- b) **Amendment to TFRS 3, Business combinations** amended the definition of a business which requires an acquisition to include an input and a substantive process that together significantly contribute to the ability to create outputs. The definition of the term 'outputs' is amended to focus on goods and services provided to customers and to exclude returns in the form of lower costs and other economic benefits.
- c) **Amendment to TFRS 9, Financial instruments and TFRS 7, Financial instruments: disclosures** amended to provide relief from applying specific hedge accounting requirements to the uncertainty arising from interest rate benchmark reform such as IBOR. The amendment also requires disclosure of hedging relationships directly affected by the uncertainty.
- d) **Amendment to TAS 1, Presentation of financial statements and TAS 8, Accounting policies, changes in accounting estimates and errors** amended to definition of materiality. The amendment allows for a consistent definition of materiality throughout the Thai Financial Reporting Standards and the Conceptual Framework for Financial Reporting. It also clarified when information is material and incorporates some of the guidance in TAS 1 about immaterial information.

The Group is currently assessing the impact from initial application of these new financial reporting standards.

4 New and amended financial reporting standards (Cont'd)

4.3 Exemption from the temporary measures to relieve the impact from COVID-19

The Federation of Accounting Professions announced on 22 April 2020 related to the temporary exemption guidance to relieve the impact from COVID-19 (temporary measures to relieve the impact from COVID-19) for the reporting periods ending between 1 January 2020 and 31 December 2020. The Group applied the exemption on the following matters.

Determining expected credit loss with the simplified approach according to Thai Financial Reporting Standard no.9, Financial Instruments.

The Group has chosen to apply the temporary measures to relieve the impact from COVID-19 announced by TFAC by excluding forward-looking information in assessing the expected credit loss under the simplified approach of trade receivables. The expected credit loss was assessed based on historical credit loss together with the management's judgement in estimating the expected credit loss.

Impairment of assets

The Group has chosen to exclude information related to COVID-19 as an indication of the impairment of assets.

In addition, for goodwill, intangible assets with indefinite useful life and intangible assets that are not ready for intended use that the Group has to test for impairment annually, the Group has chosen not to include information related to COVID-19 that potentially affect financial projections to consider for the assets' impairment testing.

Deferred Tax assets

The Group chose to excluded information related to COVID-19 which causes uncertainty when considering the sufficiency of future taxable profit for the purpose of assessing the utilisation of deductible temporary differences. Instead, the Group writes down the carrying amount of the deferred tax assets when it's not probable that the future taxable profit will be available for utilising the deductible temporary differences.

5 Impacts from initial application of the new and revised financial reporting standards

This note explains the impact of the adoption of TAS 32 Financial Instruments: Presentation, TFRS 7 Financial Instruments: Disclosure, TFRS 9 Financial Instruments and TFRS 16 Leases on the Group's consolidated financial statements and the Company's separate financial statements. The new accounting policies applied from 1 January 2020 were disclosed in Note 6.14.

The Group and the Company have adopted those new accounting policies from 1 January 2020 by applying the modified retrospective approach. The comparative figures have not been restated. The reclassifications and the adjustments arising from the changes in accounting policies were therefore recognised in the statement of financial position as of 1 January 2020.

Financial Reporting Standards relating to leases standard which effective for the accounting periods beginning on or after 1 January 2020 do not have material impact on the Group since majority of leasing contract is short-term leases or leases for which the underlying asset is of low value.

5 Impacts from initial application of the new and revised financial reporting standards (Cont'd)

The impact of first-time adoption of new financial reporting standards on the consolidated and separate statements of financial position are as follows:

	Unit: Baht		
	Separate financial information		
	As at 31 December 2019 Previously reported	TAS 32 and TFRS 9 Reclassifications and adjustments	As at 1 January 2020 Restated
Assets			
Current assets			
Short-term loans to related parties	201,600,000	(54,000,000)	147,600,000
Total current asset	201,600,000	(54,000,000)	147,600,000
Total assets	201,600,000	(54,000,000)	147,600,000
Equity			
Unappropriated deficits	(662,572,031)	(54,000,000)	(716,572,031)
Total equity	(662,572,031)	(54,000,000)	(716,572,031)

Financial instruments

The total impact on the Group's and the Company's unappropriated retained earnings as of 1 January 2020 are as follows:

	Note	Unit: Baht Separate financial statements
Unappropriated deficits as of 31 December 2019 (as previously reported)		(662,572,031)
Increase in provision for loans to related parties	A	(54,000,000)
Total adjustments to opening unappropriated retained earnings from adoption of TFRS 9		(54,000,000)
Unappropriated deficits as of 1 January 2020 after reflecting TFRS 9 adoption		(716,572,031)

5 Impacts from initial application of the new and revised financial reporting standards (Cont'd)

Financial instruments (Cont'd)

On 1 January 2020 (the date of initial application), the management has assessed which business models apply to the financial assets and financial liabilities, and has classified its financial instruments into the appropriate TFRS 9 categories below.

	Unit: Baht	
	Consolidated financial statements	Separate financial statements
	Amortised cost	Amortised cost
Financial assets		
Cash on hand and cash equivalents	97,765,360	5,221,646
Trade and other receivables, net	177,253,471	1,888,676
Short-term loans to related parties, net	-	147,600,000
Other non-current assets, net	1,957,842	1,263,815
Financial liabilities		
Bank overdrafts and short-term borrowings from financial institutions	22,000,000	-
Trade and other payables	145,964,431	4,406,898

A) Impairment of financial assets

The Group and the Company have following financial assets that are subject to the expected credit loss model:

- cash and cash equivalents
- trade and other receivables
- loans to related parties

The Company was required to revise its impairment methodology under TFRS 9. The impact of the change in impairment methodology on the retained earnings at 1 January 2020 was Baht 54 million in the separate financial statements.

While cash and cash equivalents and trade and other receivables are subject to the new impairment requirement, the identified impact was immaterial.

Trade and other receivables

The Group applies the simplified approach in measuring expected credit losses, which uses a lifetime expected loss allowance for all trade and other receivables.

To measure the expected credit losses, trade and other receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the historical payment profiles of sales, the corresponding historical credit losses experienced as well as forward-looking information that may affect the ability of the customers to settle the receivables.

As of 1 January 2020, the identified impact of expected credit losses was immaterial.

Loans to related parties

The Company has loans to related parties measured at amortised cost. The 12-month expected credit loss allowance was recognised for those loans without any significant increase in credit risk. The lifetime expected credit loss was recognised for those loans with significant increase in credit risk.

As of 1 January 2020, the Company recognised additional loss allowance of Baht 54 million for loans to related parties in the separate financial statement.

6 Accounting policies

6.1 Principles of consolidation and equity accounting

a) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group until the date that control ceases.

In the separate financial statements, investments in subsidiaries are accounted for using cost method.

b) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting.

In the separate financial statements, investments in associates are accounted for using cost method.

c) Joint arrangements

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangements.

Joint operations

A joint operation is a joint arrangement whereby the Group has rights to the assets, and obligations for the liabilities relating to the arrangement. The Group recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the Group's financial statement line items.

Joint ventures

A joint venture is a joint arrangement whereby the Group has rights to the net assets of the arrangement. Investment in joint ventures are accounted for using the equity method.

In the separate financial statements, investments in joint ventures are accounted for using cost method.

d) Equity method

The investment is initially recognised at cost which is consideration paid and directly attributable costs.

The Group's subsequently recognises shares of its associates and joint ventures' profits or losses and other comprehensive income in the profit or loss and other comprehensive income, respectively. The subsequent cumulative movements are adjusted against the carrying amount of the investment.

When the Group's share of losses in associates and joint ventures equals or exceeds its interest in the associates and joint ventures, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associates and joint ventures.

6 Accounting policies (Cont'd)

6.1 Principles of consolidation and equity accounting (Cont'd)

e) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A difference between the amount of the adjustment to non-controlling interests to reflect their relative interest in the subsidiary and any consideration paid or received is recognised within equity.

If the ownership interest in associates and joint ventures is reduced but significant influence and joint control is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate. Profit or loss from reduce of the ownership interest in associates and joint ventures is recognise in profit or loss.

When the Group losses control, joint control or significant influence over investments, any retained interest in the investment is remeasured to its fair value, with the change in carrying amount recognised in profit or loss. The fair value becomes the initial carrying amount of the retained interest which is reclassified to investment in an associate, or a joint venture or a financial asset accordingly.

f) Intercompany transactions on consolidation

Intra-group transactions, balances and unrealised gains on transactions are eliminated. Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in the associates and joint ventures. Unrealised losses are also eliminated in the same manner unless the transaction provides evidence of an impairment of the asset transferred.

6.2 Business combination

The Group applies the acquisition method to account for business combinations with an exception on business combination under common control. The consideration transferred for the acquisition of a subsidiary comprises:

- fair value of the assets transferred,
- liabilities incurred to the former owners of the acquiree
- equity interests issued by the Group

Identifiable assets and liabilities acquired and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group initially recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest recognised and the acquisition-date fair value of any previous equity interest in the acquiree (for business combination achieved in stages) over the fair value of the identifiable net assets acquired is recorded as goodwill. In the case of a bargain purchase, the difference is recognised directly in profit or loss.

Acquisition-related cost

Acquisition-related cost are recognised as expenses in consolidated financial statements

Step-up acquisition

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measured are recognised in profit or loss.

Changes in fair value of contingent consideration paid/received

Subsequent changes to the fair value of the contingent consideration that is an asset or liability is recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured.

6 Accounting policies (Cont'd)

6.3 Foreign currency translation

a) Functional and presentation currency

The financial statements are presented in Thai Baht, which is the Company's and the Group's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

Any exchange component of gains and losses on a non-monetary item that recognised in profit or loss, or other comprehensive income is recognised following the recognition of a gain or loss on the non-monetary item.

c) Group companies

The operational results and financial position of the Group's entities (none of which has the currency of a hyper-inflationary economy) that have a different functional currency from the Group's presentation currency are translated into the presentation currency as follows.

- Assets and liabilities are translated at the closing rate at the date of respective statement of financial position;
- Income and expenses for statement of comprehensive income are translated at average exchange rates; and
- All resulting exchange differences are recognised in other comprehensive income.

6.4 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with other short-term highly liquid investments with maturities of three months or less from acquisition date and overdrafts.

In the consolidated and separate statement of financial position, bank overdrafts are shown in current liabilities.

6.5 Trade accounts receivable

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. They are generally due for settlement within 30-60 days and therefore are all classified as current.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost.

The impairment of trade receivables is disclosed in Note 6.7(f).

6.6 Inventories

Inventories are stated at the lower of cost or net realisable value.

Cost is determined by the weighted average method. The cost of the purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory less all attributable discounts.

6 Accounting policies (Cont'd)

6.7 Financial asset

a) Classification

From 1 January 2020, the Group classifies its debt instrument financial assets in the following measurement categories depending on i) business model for managing the asset and ii) the cash flow characteristics of the asset whether they represent solely payments of principal and interest (SPPI).

- those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- those to be measured at amortised cost.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

For investments in equity instruments, the Group has an irrevocable election at the time of initial recognition to account for the equity investment at fair value through profit or loss (FVPL) or at fair value through other comprehensive income (FVOCI) except those that are held for trading, they are measured at FVPL.

b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether the cash flows are solely payment of principal and interest.

d) Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the financial assets. There are three measurement categories into which the Group classifies its debt instruments:

- **Amortised cost:** Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as a separate line item in the statement of profit or loss.

6 Accounting policies (Cont'd)

6.7 Financial asset (Cont'd)

d) Debt instruments (Cont'd)

- FVOCI: Financial assets that are held for i) collection of contractual cash flows; and ii) for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income (OCI), except for the recognition of impairment gains or losses, interest income using the effective interest method, and foreign exchange gains and losses which are recognised in profit or loss. When the financial assets is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income is included in other income. Impairment expenses are presented separately in the statement of profit or loss.
- FVPL: Financial assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises.

e) Equity instruments

The Group measures all equity investments at fair value. Where the Group has elected to present fair value gains and losses on equity instruments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the statement of profit.

Impairment losses (and reversal of impairment losses) on equity investments are reported together with changes in fair value.

f) Impairment

From 1 January 2020, the Group applies the TFRS 9 simplified approach in measuring the impairment of trade and other receivables, which applies lifetime expected credit loss, from initial recognition, for all trade and other receivables.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets. The expected credit loss rates are based on payment profiles, historical credit losses as well as forward-looking information and factors that may affect the ability of the customers to settle the outstanding balances.

The Group chose to apply the temporary measures to relieve the impact from COVID-19 announced by TFAC for the reporting periods ended between 1 January 2020 and 31 December 2020 by excluding forward-looking information in assessing the expected credit loss under the simplified approach of trade receivables, and other receivables. The Group applied historical credit loss adjusted with the management's judgement in estimating the expected credit loss as disclosed in note 12.

For other financial assets carried at amortised cost and FVOCI, the Group applies TFRS 9 general approach in measuring the impairment of those financial assets. Under the general approach, the 12-month or the lifetime expected credit loss is applied depending on whether there has been a significant increase in credit risk since the initial recognition.

6 Accounting policies (Cont'd)

6.7 Financial asset (Cont'd)

f) Impairment (Cont'd)

The Group assesses expected credit loss by taking into consideration forward-looking information and past experiences. The expected credit loss is a probability-weighted estimate of credit losses (probability-weighted present value of estimated cash shortfall). The cash shortfall is the difference between all contractual cash flows that are due to the Group and all cash flows expected to receive, discounted at the original effective interest rate.

When measuring expected credit losses, the Group reflects the following:

- probability-weighted estimated uncollectible amounts
- time value of money; and
- supportable and reasonable information as of the reporting date about past experience, current conditions and forecasts of future situations.

Impairment (and reversal of impairment) losses are recognised in profit or loss as a separate line item.

6.8 Films under production

Films under production are costs to produce film which will be recognised as cost of films upon the sale or release of the films, basing on the consumption used in various channels. Costs of films comprise costs directly attributable to films production and are stated at cost.

6.9 Buildings and equipment

Buildings and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the item will flow to the Group, capitalised where there is future economic benefits. The carrying amount of the replaced part is derecognised.

All other repairs and maintenance are charged to profit or loss when incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their to their residual values over their estimated useful lives, as follows:

Buildings	20 years
Building improvements	3, 5 years
Office equipment	3, 5 years
Motor vehicles (including vehicles under lease liabilities)	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

6.10 Goodwill

Goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes.

6 Accounting policies (Cont'd)

6.11 Intangible assets

Film rights

Film rights are capitalised at the purchase price which includes costs directly attributable to the acquisition of rights. Film rights are amortised and charged to direct costs of exhibition, VCD and DVD, Cable TV and TV broadcasting at the ratio relating to the expected consumption used in various channels over the lifetime of rights this is normally from 2 to 10 years. In the event that a loss is anticipated for each right, an amount equivalent to this loss will be written-off in the statement of income immediately.

Computer software

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and these costs are amortised over their estimated useful lives of 3 years.

Cost associated with developing or maintaining computer software programmes are recognised as an expense as incurred.

6.12 Impairment of assets

Assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired. Assets that are subject to amortisation are reviewed for impairment whenever there is an indication of impairment. An impairment loss is recognised for the amount by which the carrying amount of the assets exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

Where the reasons for previously recognised impairments no longer exist, the impairment losses on the assets concerned other than goodwill is reversed.

The Group chose to apply the temporary measures to relieve the impact from COVID-19 announced by TFAC for the reporting periods ended between 1 January 2020 and 31 December 2020 by excluding information related to COVID-19 as an indication of the impairment of assets.

6.13 Leases

Leases - where a Group Company is the lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

6 Accounting policies (Cont'd)

6.13 Leases (Cont'd)

Leases - where a Group Company is the lessee (Cont'd)

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise small items of office furniture.

6.14 Financial liabilities

a) Classification

Financial instruments issued by the Group are classified as either financial liabilities or equity securities by considering contractual obligations.

- Where the Group has an unconditional contractual obligation to deliver cash or another financial asset to another entity, it is considered a financial liability unless there is a predetermined or possible settlement for a fixed amount of cash in exchange of a fixed number of the Group's own equity instruments.
- Where the Group has no contractual obligation or has an unconditional right to avoid delivering cash or another financial asset in settlement of the obligation, it is considered an equity instrument.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

b) Measurement

Financial liabilities are initially recognised at fair value and are subsequently measured at amortised cost.

6 Accounting policies (Cont'd)

6.14 Financial liabilities (Cont'd)

c) Derecognition and modification

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled, or expired.

Where the terms of a financial liability are renegotiated/modified, the Group assesses whether the renegotiation / modification results in the derecognition of that financial liability. Where the modification results in an extinguishment, the new financial liability is recognised based on fair value of its obligation. The remaining carrying amount of financial liability is derecognised. The difference as well as proceed paid is recognised as other gains/(losses) in profit or loss.

Where the modification does not result in the derecognition of the financial liability, the carrying amount of the financial liability is recalculated as the present value of the renegotiated / modified contractual cash flows discounted at its original effective interest rate. The difference is recognised in other gains/(losses) in profit or loss.

6.15 Current and deferred income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current tax

The current income tax is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax

Deferred income tax is recognised on temporary differences arising from differences between the tax base of assets and liabilities and their carrying amounts in the financial statements. However, deferred income tax is not recognised for temporary differences arise from:

- initial recognition of an asset or liability in a transaction other than a business combination that affects neither accounting nor taxable profit or loss is not recognised
- investments in subsidiaries, associates and joint arrangements where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax is measured using tax rates of the period in which temporary difference is expected to be reversed, based on tax rates and laws that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Group chose to apply the temporary measures to relieve the impact from COVID-19 announced by TFAC for the reporting periods ended between 1 January 2020 and 31 December 2020 by excluding information related to COVID-19 which causes uncertainty when considering the sufficiency of future taxable profit for the purpose of assessing the utilisation of deductible temporary differences. Instead, the Group writes down the carrying amount of the deferred tax assets when it's not probable that the future taxable profit will be available for utilising the deductible temporary differences.

6 Accounting policies (Cont'd)

6.16 Employee benefits

Short-term employee benefits

Liabilities for short-term employee benefits such as wages, salaries, paid annual leave and paid sick leave, and bonuses, that are expected to be settled wholly within 12 months after the end of the period are recognised in respect of employees' service up to the end of the reporting period. They are measured at the amount expected to be paid.

Defined contribution plan

The Group pays contributions to a separate fund on a contractual basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

Defined benefit plans

Amount of retirement benefits is defined by the agreed benefits the employees will receive after the completion of employment. It usually depends on factors such as age, years of service and an employee's latest compensation at retirement.

The defined benefit obligation is calculated annually by an independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using market yield of government bonds that matches the terms and currency of the expected cash outflows.

Remeasurement gains and losses are recognised directly to other comprehensive income in the period in which they arise. They are included in retained earnings in the statements of changes in equity.

Past-service costs are recognised immediately in profit or loss.

Other long-term benefits

The Group gives gold rewards to employees when they have worked for the Group for 10 years.

These obligations are measured similar to defined benefit plans except remeasurement gains and losses that are charged to profit or loss.

6.17 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation. The increase in the provision due to passage of time is recognised as interest expense.

6.18 Provision for goods returns

Provision for goods returns in relation to VCDs and DVDs is estimated based on historical experience and other relevant market factors. Provision for goods returns is computed from sales profit margin and presented as a deduction from sales and cost concerned.

6 Accounting policies (Cont'd)

6.19 Revenue recognition

Revenue include all revenues from ordinary business activities. All ancillary income in connection with the delivery of goods and rendering of services in the course of the Group's ordinary activities.

Revenue are recorded net of value added tax. They are recognised in accordance with the provision of goods or services, provided that collectibility of the consideration is probable.

Multiple element arrangements involving delivery or provision of multiple products or services are separated into distinct performance obligations. Total transaction price of the bundled contract is allocated to each performance obligation based on their relative standalone selling prices or estimated standalone selling prices. Each performance obligation is recognised as revenue on fulfillment of the obligation to the customer.

Management fee revenue and service revenue

The Group recognised service contracts with a continuous service provision as revenue on a straight line basis over the contract term, regardless of the payment pattern.

Revenue from film production and sales of film rights distribution

- Revenue from box-office sharing between the theatre owner and licensor is sales-based royalties which is recognised when the right is delivered to the theatre and the movie ticket is sold to customers.
- License fees on film rights and film production is the revenue from providing a right to use its intellectual property, which being charged at fixed amounts in which they cannot be refunded and the licensor has no further obligations subsequent to granting the rights, are recognised as revenue in full when the licensee is entitled to exercise the rights under the terms of the agreement.

Revenue from sales of goods

- Sales of VCD and DVD and pocket books are based on invoiced netted of output tax, rebates and discounts. Revenue from sales of goods and rights is recognised when control of the products has transferred, being when the products are delivered, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

Revenue from advertising

- Revenue from advertising such as tied-in on movies and movies' media is recognised when the media is appeared first time.
- Revenue from producing all kinds of media is recognised when services are rendered as agreed with customers.

Contract assets and contract liabilities

A contract asset is recognised where the Group recorded revenue for fulfillment of a contractual performance obligation before the customer paid consideration or before the requirements for billing.

A contract liability is recognised when the customer paid consideration or a receivable from the customer that is due before the Group fulfilled a contractual performance obligation.

For each customer contract, contract liabilities is set off against contract assets.

7 Financial risk management

7.1 Financial risk factors

The Group expose to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

7.1.1 Foreign exchange risk

The Group operates internationally and is exposed to foreign currency risk arises from trading transactions purchase of film rights in various currency. The Group does not use any derivative financial instruments to hedge foreign currency exposure.

The Group's exposure to foreign currency risk at the end of the reporting period, expressed in Baht are as follows:

	Unit : Baht	
	Consolidated financial statements	
	As at 31 December 2020	As at 31 December 2019
	US Dollar	US Dollar
Trade and other receivables - Net	20,676,248	8,188,646

Sensitivity

As shown in the table above, the Group is primarily exposed to changes in Baht and US Dollar exchange rates. The sensitivity of profit or loss to changes in the exchange rates arises mainly from financial assets and financial liabilities denominated in US Dollar.

	Unit : Baht	
	Consolidated financial statements	
	Impact to net profit	
	Year 2020	Year 2019
US Dollar to Baht exchange rate		
- increase 9% (2019: 9%) *	1,860,862	736,978
US Dollar to Baht exchange rate		
- decrease 9% (2019: 9%)*	(1,860,862)	(736,978)

* Holding all other variables constant

7.1.2 Interest rate risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group is exposed to interest rate risk relates primarily to its deposits at financial institutions, loans to related parties and short-term borrowings. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

7 Financial risk management (Cont'd)

7.1 Financial risk factors (Cont'd)

7.1.3 Credit risk

Credit risk arises from cash and cash equivalents as well as credit exposures to customers, including outstanding receivables.

Risk management

Credit risk is managed on a group basis. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted. The Group has policies in place to ensure that sales of products and services are made to customers with appropriate credit history. Risk control assesses the credit quality of the customer by taking into account its financial position, past experience and other factors.

Impairment of financial assets

The Group and the Company has financial assets that are subject to the expected credit loss model:

- Cash and cash equivalent
- Trade and other receivables
- Loan to related parties

While cash and cash equivalents are also subject to the impairment requirements of TFRS 9, the identified impairment loss was immaterial.

The Group applies the TFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade and other receivables. To measure the expected credit losses, trade and other receivables have been grouped based on shared credit risk characteristics and the days past due. Detail of expected credit losses as shown in Note 12.

The Group and the Company write-off trade receivables and contract assets when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the group, and a failure to make contractual payments or cannot be contacted.

Impairment losses on trade receivables and contract assets are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

In the year 2019, the Group recognised impairment of trade receivables based on the incurred loss model such as uncollectible, which was not taken into account future losses. Therefore, loss allowance and allowance for doubtful accounts are not comparable.

The Company has measured loans to related parties by prepared the cash flow projection which based on related party's business plan for considering the ability to repay and calculating the expected credit loss. The Company regularly reassessed the incremental of related party's credit risk.

7.1.4 Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Management monitors i) rolling forecasts of the Group's liquidity reserve (comprising the undrawn borrowing facilities below); and ii) cash and cash equivalents on the basis of expected cash flows.

7 Financial risk management (Cont'd)

7.1 Financial risk factors (Cont'd)

7.1.4 Liquidity risk (Cont'd)

a) Financing arrangements

The Group has access to the following undrawn credit facilities as at 31 December as follows:

	Unit : Baht			
	Consolidated financial statements		Separate financial statements	
	2020	2019	2020	2019
Floating rate				
Expiring within one year				
- Bank overdraft	10,000,000	10,000,000	-	-
Expiring beyond one year				
- Bank loans	206,500,000	219,500,000	-	-
	<u>216,500,000</u>	<u>229,500,000</u>	<u>-</u>	<u>-</u>

b) Maturity of financial liabilities

The tables below analyse the maturity of financial liabilities grouping based on their contractual maturities. The amounts disclosed are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

	Unit: Baht			
	Consolidated financial statements			
	Within 1 year	1 - 5 years	Over 5 years	Carrying value of liabilities
Due date of financial liabilities				
As at 31 December 2020				
Bank overdrafts and short-term loans from financial institutions	35,000,000	-	-	35,000,000
Trade and other payables	202,451,798	-	-	202,451,798
Lease liabilities	2,136,942	9,007,765	1,374,051	11,195,368
Total financial liabilities	<u>239,588,740</u>	<u>9,007,765</u>	<u>1,374,051</u>	<u>248,647,166</u>

7 Financial risk management (Cont'd)

7.1 Financial risk factors (Cont'd)

7.1.4 Liquidity risk (Cont'd)

b) Maturity of financial liabilities (Cont'd)

	Consolidated financial statements				Unit: Baht
	Within 1 year	1 - 5 years	Over 5 years	Total	Carrying value of liabilities
Due date of financial liabilities As at 31 December 2019					
Bank overdrafts and short-term loans from financial institutions	22,000,000	-	-	22,000,000	22,000,000
Trade and other payables	175,404,431	-	-	175,404,431	175,404,431
Total financial liabilities	197,404,431	-	-	197,404,431	197,404,431
Unit: Baht					
	Separate financial statements				Unit: Baht
	Within 1 year	1 - 5 years	Over 5 years	Total	Carrying value of liabilities

Total financial liabilities	4,406,898	-	-	4,406,898	4,406,898

7 Financial risk management (Cont'd)

7.2 Capital management

The objectives when managing capital are to:

- safeguard their ability to continue as a going concern, to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital

In order to maintain or adjust the capital structure, the Group may consider to transfer the surplus from share reduction to offset with the residual deficit.

Consistent with others in the industry, the Group monitors capital based on gearing ratio which is determined by dividing net debt with equity. The ratios at 31 December are as follows:

	2020 Baht	2019 Baht
Total debt	296,837,565	228,150,989
Equity	453,590,144	517,922,103
Debt to equity ratio	65.44%	44.05%

8 Fair value

The fair values of financial assets and liabilities with a maturity of less than one year are approximate their book values. Loans made with related parties carried an interest approximately at the market interest rate. Management believes that their net book values of such loans are assumed to be approximate to their fair value.

9 Critical accounting estimates, assumptions and judgements

Estimates, assumptions and judgements are continually evaluated by the management and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

a) Impairment of Goodwill

The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. The calculations use cash flow projections based on financial budget approved by management covering a two-year period.

Cash flows beyond the two-year period are extrapolated using the estimated growth rates stated in note 21. These growth rates are consistent with forecasts included in industry reports specific to the industry in which each CGU operates.

b) Valuation of movies under production

The Group has recognised the cost of movies under production when incurred. When there is an indicator, the Group tests impairment on a title by title basis, and if the estimated remaining net cash flows are not sufficient to recover each title cost, the impairment will be recognised. The estimation of net cash flow is calculated and estimated by management.

c) Building and equipment and intangible assets

Management determines the estimated useful lives and residual values for the Group's plant and equipment and intangible assets. Management will revise the depreciation charge when useful lives and residual values are different to previous estimation, or will write off or write down technically obsolete or assets that have been abandoned or sold.

9 Critical accounting estimates, assumptions and judgements (Cont'd)

d) Amortisation of film rights

Film rights are amortised and recognised to cost of sales of film rights at the ratio relating to the expected consumption used in each of the various channels over the estimated period to utilise the rights. The expected consumption in each channel used for computing the amortisation ratio is estimated by the management, based on historical information and experience.

e) Defined retirement benefit obligations

The present value of the retirement benefit obligations depends on a number of assumptions. Key assumptions used and impacts from possible changes in key assumptions are disclosed in note 27.

f) Deferred tax asset for carried forward tax losses

The company has incurred the losses the dissolution of subsidiary, which was set impairment on investment, finish in 2016. The deferred tax assets related to carried-forward tax losses of the Group. The Group has concluded that the deferred tax assets arising from the carried-forward tax losses will be recoverable using the estimated future taxable income based on the approved business plans and budgets. It is expected that the losses carried forward will be utilised within 5 years.

g) Determination of lease terms

Critical judgement in determining the lease term, the Group considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

For leases of properties, the most relevant factors are historical lease durations, the costs and conditions of leased assets.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstance affecting this assessment occur, and that it is within the control of the Group.

h) Determination of discount rate applied to leases

The Group determines the incremental borrowing rate as follows:

- Where possible, use recent third-party financing received by the individual lessee as a starting point, adjusting to reflect changes in its financing conditions.
- Make adjustments specific to the lease, e.g. term, country, currency and security.

i) Impairment of financial assets

The loss allowances for financial assets are based on assumptions about default risk and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs used in the impairment calculation, based on the Group's past history and existing market conditions, as well as forward-looking estimates at the end of each reporting period.

10 Segment information

The Group's strategic steering committee, consisting of the board of directors, examines the Group's performance from group of product and has identified 3 reportable segments.

The steering committee primarily uses a measure of segments' revenue to assess the performance of the operating segments.

M Pictures Entertainment Public Company Limited
Notes to the Consolidated and Separate Financial Statements

12 Trade and other receivables, net (Cont'd)

12.2 Impairments of trade and other receivables

Expected credit loss was assessed based on historical payment received from sales in period 24 month before 1 January 2020 and historical credit loss occur in that period.

The Group chose to apply the temporary measures to relieve the impact from COVID-19 announced by TFAC for the reporting periods ended between 1 January 2020 and 31 December 2020 by excluding forward-looking information in assessing the expected credit loss under the simplified approach of trade and other receivables. As of 31 December 2020, the expected credit loss of Baht 37.15 million for trade receivables was assessed based on historical credit loss together with the management's judgement in estimating the expected credit loss.

The loss allowance for trade receivables and contract assets was determined as follows:

21 Goodwill (Cont'd)

Goodwill

The carrying amount of the segment has been reduced to its recoverable amount through recognition of an impairment loss against goodwill. This loss has been included in statement of income in the year that incur.

Goodwill is allocated to the Group's cash-generating units (CGUs) identified according to business segment.

A segment-level summary of the goodwill allocation is presented below.

	Consolidated financial statements							
	31 December 2020				31 December 2019

Goodwill, net	139,142,506	-	-	139,142,506	139,142,506	-	-	139,142,506

The recoverable amount of a CGU is determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a 2-year period. Cash flows beyond the 2-year period are extrapolated using the estimated growth rates stated below. The growth rate does not exceed the long-term average growth rate for the business in which the CGU operates.

The key assumptions used for value-in-use calculations are as follows:

M Pictures Company Limited

Gross margin of M Pictures Company Limited ¹	59.00 and 69.00%
Growth rate ²	0.35%
Discount rate ³	11.58%

¹ Budgeted gross margin.

² Weighted average growth rate used to extrapolate cash flows beyond the budget period.

³ Pre-tax discount rate applied to the cash flow projections.

These assumptions have been used for the analysis of each CGU within the business segment.

Management determined budgeted gross margin based on past performance and its expectations of market development. The weighted average growth rates used are consistent with the forecasts included in industry reports. The discount rates used are pre-tax and reflect specific risks relating to the relevant segments.

Recoverable amount calculated based on value in use. If the discount rate is increased by 1% from the rate estimated by the Group, the recoverable amount is still higher than carrying amount of goodwill.

23 Deferred income taxes (Cont'd)

- c) The movement in deferred tax assets and deferred tax liabilities during the year is as follows: (Cont'd)

Deferred income tax assets are recognised for tax loss and carried forwards only to the extent that realisation of the related tax benefit through the future taxable profits is probable.

The Group did not recognise deferred income tax assets of some of its subsidiaries since the Group's management evaluates by applying the concept of conservatism that the subsidiaries may not generate enough taxable profit to utilise those differences. The temporary differences arise from allowance for doubtful accounts, allowance for obsolescence, allowance for diminution in value of inventories, allowance for impairment of film rights, employee benefits obligation, share-based payment and tax losses carried forward. As at 31 December 2020, the Group did not recognise deferred income tax assets of Baht 96.82 million in respect of tax losses carried forward approximately Baht 484.12 million. A summary of the tax losses carried forward and the expiry dates are set out below.

	Consolidated financial statements Baht Million	Separate financial statements Baht Million
Expiry year		
2021	147.82	66.30
2022	158.92	-
2023	33.48	-
2024	129.38	9.04
2025	14.52	-
	<u>484.12</u>	<u>75.34</u>

Such the tax losses carried forward are mainly from M V D Company Limited, M Thirty Nine Company Limited and M Talent Company Limited in which the Group's management do not expect to have sufficient taxable profit to utilise these tax losses in the near future.

Retirement benefits

The plans are final salary retirement plans, which provide benefits to members in the form of a guaranteed level of pension payable. The level of benefits provided depends on members' length of service and their salary in the final years leading up to retirement.

For the year ended 31 December 2018, the Group has new retirement benefits which is Post-employment Benefit Plan (PEB) that provide 3 Baht of gold for all employees of the Group who render service till the retirement age.

Other long term benefit

For the year ended 31 December 2018, the Group has new other long term benefit which is Long Service Award Plan (LSA) that provide gold equivalent to 15,000 Baht for any employees of the Group who have their year of service equals to 10 years.

27 Employee benefit obligations (Cont'd)

The movement in the defined benefit obligation over the year is as follows:

27 Employee benefit obligations (Cont'd)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method has been applied as when calculating the retirement benefit liabilities recognised within the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

Expected maturity analysis of undiscounted retirement benefit by law and post-employment.

28 Share capital and premium on share capital (Cont'd)

On 9 January 2019, the Extraordinary General Meeting of Shareholders 1/2019 approved the transfer of legal reserves of Baht 3,813,156 and share premium of Baht 321,368,974 to offset the Company's deficits and also approved par value adjustment of ordinary shares from Baht 1.00 each to Baht 0.50 each. These will affect a decreasing in registered share capital from Baht 1,313,117,176 to Baht 656,558,588 and a decreasing in paid-up share capital from Baht 1,300,119,176 to Baht 650,059,588. The Company then transferred surplus from share reduction of Baht 262,223,893 to offset with the residual deficit.

The total numbers of authorised ordinary shares are 1,313.11 million shares (2019: 1,313.11 million shares) with a par value of Baht 0.50 per share (2019: Baht 0.50 per share).

29 Share-based payment

Share option schemes

The Company has introduced one share option which is an equity-settled scheme.

The exercise ratio and price are detailed below:

	Issued date	Issued units Million	Exercise ratio Unit/share	Exercise price Baht/unit	Exercise period	
					Start	End
MPIC-ESOP#2	24 April 2015	13.00	1 : 1.00	1.84	30 June 2017	23 April 2020

The Company issued and offered warrants (ESOP#2) to directors and to selected employees of the Company and its subsidiaries, which are in registered form and are non-transferable. The warrants have no offered price and their terms do not exceed 5 years from the issued date (the issued date is 24 April 2015) at a maximum of 12,998,000 units. The exercise price is at Baht 1.84 per share. The exercise ratio is one warrant to one ordinary share. The warrants can be exercised after 2 years from the date of issuance. The Company has no legal obligation to repurchase or settle the options in cash.

Movements in the number of share options outstanding and their related weighted average exercise prices are as follows:

	Consolidated financial statements		Separate financial statements	
	Average exercise price Baht per share	Option	Average exercise price Baht per share	Option
At 1 January 2019	1.84	5,329,180	1.84	5,329,180
Forfeited	-	(1,039,840)	-	(1,039,840)
At 31 December 2019	1.84	4,289,340	1.84	4,289,340
At 1 January 2020	1.84	4,289,340	1.84	4,289,340
Forfeited	-	(4,289,340)	-	(4,289,340)
At 31 December 2020	-	-	-	-

During 2020, no options of warrants (ESOP#2) has been exercised and 4,289,340 options have been forfeited (2019: no options of warrants (ESOP#2) has been exercised and 1,039,840 options have been forfeited).

As at 31 December 2020, the Company had no outstanding options (2019: 4,289,340 options).

30 Legal reserve

	Unit: Baht			
	Consolidated financial statements		Separate financial statements	
	2020	2019	2020	2019
At 1 January	-	3,813,156	-	3,813,156
Distributions to deficits	-	(3,813,156)	-	(3,813,156)
At 31 December	-	-	-	-

Under the Public Limited Company Act B.E. 2535, the Company is required to set aside as a legal reserve at least 5% of its net profit after accumulated deficit brought forward (if any) until the reserve is not less than 10% of the registered capital of the Company. The reserve is non-distributable.

31 Contract liabilities

Origination and reversal of temporary differences	7,851,692	(4,632,812)	1,091,325	184,333
Income tax	13,135,219	12,149,574	1,091,325	184,333

M Pictures Entertainment Public Company Limited
Notes to the Consolidated and Separate Financial Statements
For the year ended 31 December 2020

34 Income tax (Cont'd)

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the basic tax rate of the home country of the Company as follows:

	Unit: Baht			
	Consolidated financial statements		Separate financial statements	
	2020	2019	2020	2019
Profit (Loss) before income tax	(51,245,739)	27,971,672	(27,324,676)	4,461,674
Tax calculated at a tax rate of 20% (2019: 20%)	(10,249,148)	5,594,334	(5,464,935)	892,335
Tax effect of:				
Associate and joint ventures' results reported net of tax	4,898,299	5,094,560	-	-
Income not subject to tax	(3,417)	(4,400,000)	-	(4,400,000)
Expenses not deductible for tax purpose	697,542	175,315	53,908	22,134
Temporary differences in which no deferred income tax asset was recognised	15,301,783	4,835,221	8,202,354	1,760,941
Utilisation of previously unrecognised tax losses	1,139,292	101,081	1,139,292	101,081
Tax losses for which no deferred income tax asset was recognised	1,370,868	837,563	(2,839,294)	1,807,842
Unrealised gain (losses) from intercompany transaction	(20,000)	(88,500)	-	-
Tax charge	13,135,219	12,149,574	1,091,325	184,333

35 (Loss) earnings per share

Basic (loss) profit earnings per share are calculated by dividing the net (loss) profit attributable to ordinary shareholders by the weighted average number of paid-up ordinary shares in issue during the year.

The basic (loss) earnings per share are calculated as follows:

	Consolidated financial statements		Separate financial statements	
	2020	2019	2020	2019
(Loss) profit (Baht)				
Net (loss) profit attributable to ordinary shareholders of the company	(64,380,958)	17,545,450	(28,416,001)	4,277,341
Weighted average number of ordinary shares outstanding (Shares)	1,300,119,176	1,300,119,176	1,300,119,176	1,300,119,176
Basic (loss) earnings per share (Baht per share)	(0.05)	0.01	(0.02)	0.00

The diluted (loss) earnings per share is calculated adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has one category of dilutive potential ordinary shares: share options. The share options calculation is made to determine the number of shares that could have been acquired at fair value (determined as the average annual market price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated is compared with the number of shares that would have been issued assuming the exercise of the share options. The difference is added to the denominator as an issue of ordinary shares for no consideration. No adjustment is made to earnings.

M Pictures Entertainment Public Company Limited
Notes to the Consolidated and Separate Financial Statements
For the year ended 31 December 2020

35 (Loss) earnings per share (Cont'd)

The diluted (loss) earnings per share are calculated as follows:

	Consolidated financial statements		Separate financial statements	
	2020	2019	2020	2019
(Loss) profit (Baht)				
Net (loss) profit attributable to shareholders of the company	(64,380,958)	17,545,450	(28,416,001)	4,277,341
Weighted average number of ordinary shares outstanding (Shares)	1,300,119,176	1,300,119,176	1,300,119,176	1,300,119,176
Adjustments for:				
The effect of dilutive potential shares	-	-	-	-
