Report of the Board of Directors

In the past couple of years, EASON has been exposing itself into non-paints related business of which is not a core operation of the company by investing in Advance Power Conversion Co., Ltd. (APCON) and All S Holding Co., Ltd. (All S).

APCON's businesses are related to power plant facilities which cover engineering process, procurement, and construction (integrated EPC), due to; the government had delayed issuing construction license during the past few years until the end of 2019 resulted in the postponement of its projects. While ALL S is engaging in public transportation services as being a licensee of GEELY Auto Group from China, with the assembly line of VIP London taxi has already operated and expected a launch by mid of 2020.

2020 would be a very challenging year for Thai economy, since there are so many uncertainties in terms of economic and political issues, not to mention an outbreak of COVID-19 globally. The company does thoughtfully realise how importance an investment policy is to shareholders, as the Chairman of the Board of Directors; I do believe in the strategy the company is undertaking also ready to put myself up to the task.

Lastly, I would like to express my sincere appreciation to every single shareholder, directors, managements, and all staff for their dedication towards common objective of the corporation.

Risk Factor

Due to the recognition by the Board of Directors of the various risk factors posing possible threats to the company's business operations, the Board of Directors, therefore, assigned the Risk Management Committee to be responsible for supervising the organization's risk management practices and procedures in a systematic manner. The Risk Management Committee has determined the following risk management policies as follows;

1. To promote all levels of employee to stimulate understanding, conscience, and collective responsibility of risk, that could occur in the process of management and operations.
2. To promote and set up risk management standard process, including managing, controlling, monitoring, reporting, and communicating the information of risks continuously.
3. To measure the risk by considering both in terms of quality such as the company's reputation and image, and quantity such as revenue, expense or business operation.
4. To determine the risk limit at the acceptable level, and identify circumstances and risk degrees that are noted as warning signs for the operators to manage risk and control it under the risk limit.
5. To provide operational regulations in writing for the management team and all employees to abide by in order to control the operational risk.

The Risk Management Committee has undertaken an evaluation and analysis of those risks that could possibly affect the organization, through covering both internal and external risk factors, setting priorities for the risk management plans, as well as undertaking regular follow-up on the implementation of associated established plans. At the same time, the Committee has provided the progress and ongoing development of these plans on each quarterly, which the risks are as follows;

[Risk from the operation under Toll Manufacturing Agreement](#)

The Company operates Motorcycle coating business under the Toll Manufacturing Agreement by manufacture according to purchase order from BASF (Thailand) Ltd. ("BTL") and BTL will distribute to OEM manufacturing in motorcycle industry both local and other countries in ASEAN

Under the Toll Manufacturing Agreement, the company will earn in form of Toll fee that fluctuate based on production quantities for this reason the company may have risk from BTL whose marketing planner may be unable to expand customer base in this regional also company may have risk if BTL hire other manufacturers instead

The company realize that branding may get revenue better than toll manufacturing but motorcycle coating business has a relatively high competitive therefore manufacturing, distributing and branding as their own must have publicity and promotion which requires an investment as well as a risk of the sales opportunity to compete with other manufacturers. While toll manufacturing can help company to reduce purchasing and management of raw material which may have risk related in price of raw materials which are varied by economic. In addition, BASF is a famous brand and is recognized internationally and aims to Thailand as a manufacturing hub for the expansion of the coatings business (Coatings) in the motorcycle industry and other industries in the region. Making sure that BTL is committed to the marketing plan and expands its customer base to achieve this goal as well.

Moreover the company assumes that generally product has price and quality as importance key as well as the company has very long experience as an industrial paint manufacturer and has been trusted from customer over long, the company focus on quality of products along with appropriate toll fee therefore ensures that the company is trusted and been hired by the customers afterward.

[Risk related to a growth of automotive industry](#)

The company's revenue is from tolling fee of automotive paint, and food & beverage industry which as the same direction of economic situation. In 2019, Thailand economic still continually recovery same as the past several years, brought the household sector spending to careful.

However, automotive industry has been promoted by the government ongoing, and almost parts manufacturing base in Thailand. The motorcycle consumption was increased due to consumer reduce their daily cost by using motorcycle rather than higher cost of car which are supported factors to company's business. At the same time, customers are reluctant to change brand of paints, they currently use due to high cost of switching brand. Cost of paints is very low if compared with cost of a car. Thus, despite of the lower price of a new brand, the customers are willing to stick with BASF brand

Besides the Company has focus more on manufacture and distribute other industrial paint apart from automotive industry such packaging coating and printing ink, also develop own brand and know-how which R&D department has studied and developed for many years to enlarge company's customer base.

[Risk concurring from dependency toward know-how of the business partners](#)

The company produces motorcycle coatings by purchase order from BASF (Thailand) limited ("BTL") with know-how of BASF. Furthermore, raw materials for production based on such know-how can only be obtained through particular chemicals suppliers accepted by know-how owner. Thus,

BASF is interested to invest in paint industrial, the company's operation and business performance will be significantly affected.

However, even the company produces paint with know-how of world famous companies and deliver to distributors for local end users, but some adjustment with regard to formula or application of the know-how is needed due to environmental differences of the countries. As a result, the company has to further invest in research, development and staff to come up with the exact formula suitable for Thailand. Thai personnel are needed for technical support, after-sale service and marketing activities since they have a better understanding of clients' demand and equip with years of experience in paint industry such the Company is able to recommend for paint application under higher humidity than Japan besides, The company expand its customer base in can coatings and printing ink business which will make the same revenue proportion between motorcycle paints and other industrial paint.

[Risk related to the limited numbers of raw material supplier](#)

To produce motorcycle coating, packaging coating and printing ink, the Company is supplied the related raw materials by 20 Thailand-based distributors. As mentioned earlier, these raw materials are specifically and strongly recommended by know-how owners which this license is important to industrial paint business. As a result, it makes the Company vulnerable to the suppliers' decision if they stop to delivery raw material or unable to deliver as schedule.

However, the Company has made the agreement with the supplier of chemicals used for a production of motorcycle coatings and established business relationship with this supplier for a long period of time. This can ensure consistency of raw material supplied at some degree. In the worse case of their inability to supply at all or to supply on time, the Company can order and import the chemicals from business partner or know-how owner to manufacture and punctually distribute to the customer which unfortunately, will drive up the cost of production.

[Risk related to price fluctuation of raw materials and exchanged rate](#)

Chemicals are the major raw materials of paint production, such as pigments, resin, and solvent. Most raw materials, particularly pigments and resin, have to be imported or purchased through the chemicals distributors. Consequently, the Company's purchase of raw materials involves foreign currency. In the year 2019, the Company's percentage of raw material purchases through importer or distributors are 76% of the total raw material purchases respectively and the percentage of raw materials imported by the Company are 24% of the total purchases respectively. This practice makes the Company vulnerable to the foreign currency exchange fluctuation

However, financial institution has approved credit line for the Company to apply with Forward Contract which is sufficient to the value of raw material for each order. Besides the Company also has production plan which consistence with customer's production plan for ordering the major raw material from supplier to ensure that raw material will be efficient to manufacture for each purchase order by place raw material order in advance 1 – 3 months and reserved for 3 month. The Company has policy to adjust selling price upon the fluctuation of the cost even the Company is unable to adjust price immediately but most of products have life-cycle in short period therefore the Company is able to adjust or decide new price base on actual cost to maintain profit also monitoring global market price situation to manage overhead cost and reduce risk from the fluctuation of raw material cost, so that the Company can manage gross margin.

[Risk from ASEAN Economic Community \(AEC\)](#)

Business operation under ASEAN Economic Community (AEC) is another big challenging task for all Thai industries as it would encourage more competition among member countries; in the pursuit of drawing fund and investment. The country with competitive edge in terms of cost and production efficiency would be fascinated by various manufacturers; as a result the production of automotive, food and beverage cans might relocate their plants to the place where they could enjoy such benefits which directly effects the consumption of paints and coatings.

In order to cope up with this foreseeing risk, the company has already expanded its production facility in Vietnam as well as setting up a new plant in Indonesia and services centre and distribution office in Malaysia in the year to come. Such moves would enable Eason to lower the exposure towards aforementioned risk since the company together with its partners will be able to response to customers' requirements in each area specifically with continuity of supports as expected by both automotive manufacturers and can maker counterparts.

[Risk related to a change of technology](#)

Majority of the Company's customers are manufacturers and engage in an on-going industry. The Company always keeps product quality to match with the standards or requirements set by the customers. For instance, if a customer gives importance to providing environmental-friendly product, the Company's product sold to that customer has to be environmentally safe as well, thus if customer changes production lines or technology in a large scale ie. changing from metal to paper, reduction of thinner content, changing to water-based formula, the Company has to either adjust its technology to go with the customer's or loses business.

However, the customers' nature of business cannot allow frequent changes of production line or technology in a large scale due to high cost. In addition, the Company usually joins in production planning with most customers in order to best meet their demand. The advantage of joint planning is that the Company is able to monitor and evaluate if there will be any major change at the customers' production line, in particular the technology in the future. This can lower the risk of technology that the Company bears for a certain extent.

[Risk related to being compliant with regulatory requirements and applicable laws](#)

Both business operations in country as well as overseas are always subject to regulatory requirements and laws related to chemical rules such as raw materials purchasing, production and transportation. The company always aware all related rules whereby if not strictly adhered to, it could have serious adverse affects for the operations and reputation of the company.

The company places much importance to operate in full compliance with all regulatory requirements and applicable laws for the company's business operations as well as monitoring announcements of any new laws that are applicable for and could impact the company. Together with informing and disseminating all staffs for full understanding of these laws by the same direction.

[Risk related to natural disasters](#)

The company has formulated plans to prevent and lessen risks stemming from fire and flood disasters. To cope with fire-related risks, the company has set the Emergency Working Group to response when emergency situation occur. Together with, undertaken fire drills and evacuation training activities every year, and installed emergency fire alarms, also regularly carries out the checking and testing of its fire-fighting equipments so as to ensure their proper functioning and good condition. Moreover, the company has taken out insurance to cover its assets against disasters related risks in order to minimize any damages resulting from such risks.

Regard to the threats of flooding, the Safety, Hygiene and Environment in Working Team will be in charge of preventing and implementing solutions planning for flooding with such measures to be undertaken before, during and after a flood crisis situation, together with plans for regular updates during the flood crisis so as to keep abreast of the developing situation.

Risk related to corruption

The company recognizes that corruption is major obstacle to the ongoing operation development. Throughout the past, the company has adhered to operate businesses in an honest and transparent manner within the principles of good corporate governance, together with a channel of communications to receive information related to corruption and associated procedures to protect the whistle blowers.

Throughout the past, no issue found about corruption and unlawful operation or related requirements as well as no violation about business operation ethics.

Anti-corruption and Internal Control

Resistance to corruption is an important policy of the company besides implanting attitude and ethics as basic for performance for management and all level of employees. The company has drawn up audit process and internal control system to check and balance appropriately.

Moreover, the company has made implementation to create confidence in accordance to Resistance to Corruption Policy as follow;

1. Review rules and regulations about purchase, employment, determine requirement for authorized signatures for expense and purchase document to control and prevent corruption within the company
2. Board of Directors, management and employees are forbidden to engage in any action to claim or accept or offer to give assets, other benefits to induce to carry out or refrain from performing duty which is wrongful.

Mr. Sanan Eksangkul
Chairman of The Board of Directors

The Board of Directors Responsibility Report Towards Financial Statement

The Board of Directors duly recognized their obligations and responsibilities in their status as the directors of SET listed company, with regard to the compilation of financial statements for Eason Paint Public Company Limited and its subsidiaries. The given financial statements were prepared in accordance with Thai Financial Reporting Standards, based on the adoption of appropriate accounting policies on a consistent basis, accompanied by careful consideration and justifiable accounting estimation.

At the same time, The Board of Directors have exercised efforts to promote good governance practice, and to establish risk management system and internal control system in an efficient and effective manner. These practices were intended to ensure that the recording of accounting information was carried out in an accurate, complete, and sufficient way, in order to safeguard the assets of the company and its subsidiaries, while also safeguarding against any significant fraud or abuse.

The company's Audit Committee whose members comprising independent directors have duly carried out audit work on the quality of the financial statements and the efficiency of internal control system. The opinions of The Audit Committee were displayed per the Audit Committee's report contained in the annual report publication, as well as the annual registration statement (form 56-1).

Accordingly, The Board of Directors concluded that, the good corporate governance practice, the risk management system, as well as the internal control system already in place at the company, were well adequate, reasonably providing sufficient confidence to all the concerned parties that, the financial statements of the company and its subsidiaries ending December 31, 2019, were prepared and presented in substantial context, in an accurate and reliable manner.

EASON PAINT PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES

CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2019

Report of Auditor

To The Shareholders and Board of Directors of
 EASON PAINT PUBLIC COMPANY LIMITED

Opinion

I have audited the consolidated financial statements of Eason Paint Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2019, the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and I have audited the separate financial statements of Eason Paint Public Company Limited (the Company), which comprise the statement of financial position as at December 31, 2019, the statement of income, statement of comprehensive income, statement of changes in shareholders' equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the consolidated financial position of Eason Paint Public Company Limited and its subsidiaries as at December 31, 2019, its consolidated financial performance and its consolidated cash flows for the year then ended and the separate financial position of Eason Paint Public Company Limited as at December 31, 2019, its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group and the Company in accordance with the Federation of Accounting Profession's Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in my audit of the consolidated financial statements and separate financial statements of the current period. These matters were addressed in the context of my audit of the consolidated financial statements

and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Impairment of Investment subsidiary and loan to subsidiary

As at December 31, 2019, the Company has investment in P.T. Eason Indonesia (an overseas subsidiary) in the amount of Baht 117.70 million and loan to amount of Baht 92.16 million (16 percent of total assets in the separate financial statements) from high business competition abroad. Purchase orders from key customers reduced and affected the subsidiary to suffer continuous losses which may indicate an impairment of investment in such subsidiary including the fact that loan may not be repaid. The management has assessed the impairment of investment in the subsidiary and loan to subsidiary by taking into consideration of the book value of assets or asset unit that generates cash whether higher than the recovery amount or not. Such estimate requires using judgment from the management. Assumptions are prepared for impairment review. Therefore, I considered this matter to be area of focus in my audit.

I enquired the management on the operation plan in the future of such subsidiary, assessed the preparation of future operating result estimates, assessed the reasonableness of the estimated recovery value and assessed the reasonableness of various assumptions, future cash flow forecast of the subsidiary prepared by the management, tested the calculation of the recovery value of investment and loan of such subsidiary. The assessment required setting an asset unit that generates cash flow and whether the reasonableness of the indication and form of estimation used in considering the allowance for impairment of investment and loan is reliable and appropriate to current situation or not.

Impairment of investment in associate

As at December 31, 2019, the Company has investment in Advance Power Conversion Co., Ltd. (local associate) in the amount of Baht 459.99 million (35 percent of total assets in the separate financial statements) with shareholding 20.95 percent as such associate operates system installation business with a private company that involves with public sector agencies. Current results of operation are at loss which may indicate that investment in such associate may be impaired. The management has to use considerable judgment in considering the record of an allowance for impairment of such investment. Therefore, I considered this matter to be area of focus in the audit.

I understood the process in considering impairment of investment by the management, reviewed assumptions and methods used by the management in calculating the recovery value of investment in such associate including assessing past and current operating results, and future plans of the associate group. Also, I considered if any factor indicates impairment of investment in the associate and compared future cash flow estimate and assumptions on economic growth rate with the associate group's operation and past operating results to consider the reasonableness of such estimate.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance in order for those charged with governance to correct the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements and separate financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated financial statements and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and separate financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated financial statements and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements and separate financial statements, including the disclosures, and whether the consolidated financial statements and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated financial statements and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner responsible for the audit resulting in this independent auditor's report is Miss Sulalit Ardsawang.

2.3 Financial reporting standards that became effective in the current year

During the year, the Company and its subsidiaries have adopted the revised (revised 2018) and new financial reporting standards and interpretations, which are effective for fiscal years beginning on or after January 1, 2019. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes and clarifications directed towards disclosures in the notes to financial statements. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements.

EASON PAINT PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2019

2.4 Financial reporting standards that will become effective in the future

During the year, the Federation of Accounting Professions issued a number of the revised and new financial reporting standards, interpretations and the accounting guidance, which are effective for fiscal years beginning on or after January 1, 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. Except, the new standard involves changes to key principles, as summarized below.

Financial reporting standards related to financial instruments:

A set of TFRSs related to financial instruments, which consists of five accounting standards and interpretations, as follows:

Financial Reporting Standards:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard:

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

Financial Reporting Standard Interpretations:

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortized cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

EASON PAINT PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2019

TFRS 16 Leases

These TFRSs supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

The management of the Company and its subsidiaries are currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Recognition of revenues and expenses

3.3 Allowance for doubtful accounts

The Company and its subsidiaries provide allowance for doubtful account equal to the estimated collection losses that may be incurred in the collection of all receivables. The estimated losses are based on historical collection experience and a review of the current status of the existing receivables.

3.4 Inventories

Inventories are stated at the lower of cost or net realizable value.

The Company and its subsidiaries determine the cost by the calculation from standard cost which is adjusted approximately to the actual cost based on moving average cost method.

The cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and goods in progress, cost includes and appropriate share of overheads based on normal production capacity.

The net realizable value of inventory is estimated from selling price in the ordinary course of business, less the estimated costs to complete the sale.

3.5 Investments

Investments in marketable equity securities

Investments in securities held for trading are stated at fair value. Changes in the fair value of these securities are recorded as gains or losses in the statements of income.

Investments in available-for-sale securities are stated at fair value. Changes in the fair value of these securities are recorded as a separate item in other components of shareholder's equity, and will be recorded as gains or losses in the statement of income when the securities are sold.

The fair value of marketable securities is based on the latest bid price of the last working day of the year.

Investments in associates

Associates are all entities over which the Company has significant influence but not control generally accompanying a shareholding of between 20% to 50% of the voting rights. In the consolidated financial statement, investments in associates are initially recognized at cost and are accounted for using the equity method.

Investments in associates are stated at cost net from allowance on impairment in the separate financial statements (if any).

3.12 Foreign currency conversions

Foreign currency assets and liabilities are converted into Thai Baht at rates of exchange ruling at the end of reporting period. Transactions during the year are translated at rates prevailing on the transaction date. Gains or losses on exchange are credited or charged to current operations.

3.13 Use of accounting estimation

The preparation of financial statements in accordance with the financial reporting standards requires management to make estimates and assumptions that effect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3.14 Employee benefits

Short-term employment benefits

The Company and its subsidiaries recognize salary, overtime, bonus and social securities as expenses when incurred.

Post-employment benefits (defined contribution plans)

The Company and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognized as expenses when incurred.

Post-employment benefits (defined benefit plans)

The Company and its subsidiaries have obligations in respect of the severance payments it must pay to the employees upon retirement under the labor law and other employee benefit plans. The Company treats these severance payment obligations as a defined benefit plan. The obligation under the defined benefit plan is calculated based on the actuarial principles by a qualified independent actuary using the projected unit credit method. Such estimates are made based on various assumptions, including discount rate, future salary increase rate, staff turnover rate, mortality rate, and inflation rate. Actuarial gains and losses for post-employment benefits of the employees are recognized immediately in other comprehensive income.

Other long-term employment benefits (defined benefit plans)

The Company and its subsidiaries have obligations in respect of the severance payments that pay to the employees work for a long time. The obligation under of other long-term employment benefits is calculated based on the actuarial principles by a qualified independent actuary using the projected unit credit method, in order to determine present value of the obligation at the end of reporting period. Actuarial gains and losses arising from other long-term employment benefits are recognized immediately in the profit or loss.

3.15 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the company that gives them significant influence over the enterprise, key management personnel, including directors and officers of the company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

3.16 Impairment of assets

As at the statement of financial position date, the Company and its subsidiaries assessed whether there is an indication of asset impairment. If any such indication exists, the Company and its subsidiaries will make an estimate of the asset's recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the statement of income. In addition, impairment loss is reversed if there is a subsequent increase in the recoverable amount. The reversal shall not exceed the carrying value that would have been determined net of accumulated depreciation or amortization. The recoverable amount of the asset is the asset's value in use or fair value less costs to sell.

3.17 Income tax expense

Income tax comprises current income tax and deferred tax.

Current tax

The Company and its subsidiaries record income tax expense, if any, based on the amount currently payable under the Revenue Code at the income tax rates 20% of profit before income tax, after adding back certain expenses which are non-deductible for income tax computation purposes, and less certain transactions which are exemption or allowable from income tax.

Overseas subsidiary calculated corporate income tax in accordance with tax rates mandated under the tax law of that country.

Deferred tax

Deferred tax assets and liabilities are provided on the temporary differences between the carrying amount and the tax bases of assets and liabilities at the end of the reporting period. Changes in deferred tax assets and liabilities are recognized as deferred tax income or deferred tax expense which are recognized in the profit or loss except to the extent that it relates to items recognized directly in shareholders' equity or in other comprehensive income.

The deductible temporary differences are recognized as deferred tax assets when it is probable that the Company and its subsidiaries will have future taxable profit to be available against which the deferred tax assets can be utilized. The taxable temporary differences on all taxable items are recognized as deferred tax liabilities.

Deferred tax assets and liabilities are measured at the tax rates that the Company and its subsidiaries expect to apply to the period when the deferred tax assets are realized or the deferred tax liabilities are settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

At the end of each reporting period, the carrying amount of deferred tax assets are reviewed and reduced the value when it is probable that the Company and its subsidiaries will have no longer the future taxable profit that is sufficient to be available against which all or some parts of deferred tax assets are utilized.

Deferred tax assets and deferred tax liabilities are offset when there is the legal right to settle on a net basis and they relate to income taxes levied by the same tax authority on the same taxable entity.

3.18 Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect amounts reported in the financial statements and disclosures and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Property, plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review the estimated useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record the impairment loss when it is determined that the recoverable amount is lower than the carrying amount. This requires judgement regarding forecast of future revenues and expenses relating to the assets subject to the review.

Impairment of investments

In determining reviews the impairment of investments which requires management to prepare projections of the cash flows expected to be generated by the investment in the future, and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Deferred tax assets

Deferred tax assets are recognized for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of estimated future taxable profits.
