MESSAGE FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS

In 2017, Thailand's economic growth rate was around 3.6 - 3.9 percent which quite overestimated because Tourism Industry had higher growth due to approximate 35 million tourists to Thailand. Also, Exporting Section was able to clearly recover due to the recovery of world's economic situation. However, domestic investment of government section, particularly Basic Infrastructure Investment was still delayed. As a result, total steel domestic consumption was decreased almost 14%, compared with the year 2016, particularly consumption of Long Product Steel was declined around 25%.

Considering financial statements in the year 2017 of CSP Steel Center Public Company Limited, Our total revenue was approximate THB 2,850 million which had been increased by THB 122.90 million or approximate 4.51%. However, the company gained net loss of THB 63.61 million, increased by THB 179.16 million or approximate 155.05%. The major reason was Import duty and Customs fines for Baht 188.49 Million due to the Customs Department considered that the company had imported hot rolled coil steel products to be used in the automotive industry in the other condition which do not meet the conditions which qualifies for exemption from temporary import duty/protection duty. Even the company attempted to declare about unclear definition of "Automotive" in exemption's condition and attempted to confirm the correct right's exercise of the company, the Board of the Directors considered and agreed that the company shall proceed with the payment of the mentioned duty, the Value Added Taxes, and the Surcharged Penalty to the Customs Department in order to restrict any losses and damages from the large amount payment of the Surcharge that may occur in the future. However, Excluding, the Import Duty and Customs fines, for the year 2017, the Company would have net profit amount Baht 124.88 Million increasing by Baht 9.33 Million and the net profit margin would be 4.38% of total revenues, increasing by 3.3% compared to the same period of last year, which had 4.24% of total revenues. It showed that the company would have the better profitability in the year 2017 instead.

As a Chairman of CSP Steel Center Public Company Limited, despite the financial performance of the company in 2017 was less satisfactory in term of profit, the real normal operation's result of the company was still good. Also, in the year 2018 the company still plans to increase production capacity to support the near future growth. Moreover, I am confident that the current management team still has the ability to lead our company to grow up with sustainable achievement along with the good corporate governance practices for contributing the maximum benefit to the company and shareholders. Finally, I would like to thank all dear customers and business partners who continuously support our business, the management team and all staffs for contributing their efforts to the growth of the company: to "Keep Growing Together".

Mr. Supachai Chaisupat
Chairman

QUALITY STEEL
SERVICE CENTER

THE MANAGEMENT TEAM

(Ordered from left to right)

- | | |
|-----------------------------|--|
| 1) Ms. Wunthakarn Junthacot | Executive Vice President in Human Resources |
| 2) Mr. Kritsada Chaisupat | Director / Director and Executive Vice President in General Management |
| 3) Mr. Weerasak Chaisupat | Director / Managing Director |
| 4) Mr. Supachai Chaisupat | Chairman / CEO |
| 5) Mrs. Suwimon Chaisupat | Executive Vice President in Finance and Accounting |
| 6) Mrs. Piyarat Sawatdee | Executive Vice President in Sales and Marketing |
| 7) Mr. Bundit Assavacheep | Accounting Manager / Corporate Secretary |

Remark : For more information of each executive's resume, please consider in the part : "Resume of Directors and Management" which located at the end of the Annual Report.

REPORT OF THE INDEPENDENT DIRECTOR / AUDIT COMMITTEE

The Audit Committee of CSP Steel Center Public Company Limited is comprised of 3 independent directors who have performed their duties by pursuing the regulations which set by the Stock Exchange of Thailand.

For the fiscal year 2017, the audit committee held 4 meetings to review the company's financial statement for every quarter-end 2017, including evaluate accounting policies and procedures relative to the accounting policies, perform the internal control assessment, conform to the Code of Business Conduct and The Principles of Good Corporate Governance of the company, and finally, provide all assessments and recommendations to the board of directors. Regarding, the related parties' transactions between companies and person in management team during the year 2017, the value of most transactions had been decreased when comparing with the year 2016 because the company couldn't provide enough some specification or sizes of steel to customers in some periods of the year. Moreover, those all transactions show normal practices of business transaction which could be compared with other non-related parties. Moreover, the independent internal auditing company has audited all working papers and systems. All the internal auditing report must usually be presented to the Audit Committee. Considering the report showed that the company has the proper internal control system and it's up to date to the real business world. Last but not least, after the board of directors kept overseeing all practices of everyone in the company according to the Code of Business Conduct and The Principles of Good Corporate Governance of the company, the board found that they can precisely conform to the both of them in general.

As the audit committee's comment, the company has an intention to reach a business success along with performing the good governance. Also, both independent internal auditor and the approval auditor have audited the internal system and the financial statement by pursuing the laws and regulations of public company. Besides, all disclosed information has been presented to the shareholders and the public within the right time. With overall mentions, the internal system, the fiscal reports and good governance of the company have been accepted and accurate by laws and regulations of the Stock Exchange of Thailand.

(Mr. Charus Khanchanakhajit)

**Chairman of the Independent
Director / Audit Committee**

CORPORATE PROFILE

History and Background

CSP Steel Center Plc was established on February 17, 1992 with initial capital of 5 million baht under the name of CSP Trading Co. Ltd. At the beginning state, CSP was just a trading company for buying and selling steel coils, after we have started to invest in one cutting machine that was the first step of development. Every step with confidence, we have developed to be quality steel service center by investing a sufficiency machine. We are not only providing a cold rolled steel sheet in coil, hot rolled steel sheet in coil and coated steel sheet in coil, but also cutting all types of steel coil into a various size according to customers' order which are used as raw materials of their production in automotive industry, electric appliance industry, steel furniture industry, general industry etc.

In 2005, CSP has developed into other step by starting to invest steel piping machine for automotive industry and other industries. Due to the growth of automotive industry in Thailand, we see a great opportunity to expand our business line for producing steel pipe. Therefore CSP has imported a sufficiency piping machine for producing cold rolled steel pipe. In October 2005, CSP has operated a steel piping machine and sold a new cold rolled steel pipes into market. And in 2014, CSP expanded its pipe product line which was the hot rolled steel pipes in order to serve more demand of automotive industry.

History and major developing state of CSP as the following:

- | | |
|------------------------|--|
| February, 1992 | - Established CSP Trading co., ltd. With initial capital of Baht 5 million. |
| July ,1995 | - Increased register capital to Baht 50 million for buying land and expanding factory. |
| June, 2000 | - Increased register from Baht 50 million to Baht 200 million for purchasing new machines and expanding factory. |
| December, 2000 | - Received TIS 528-2540 license for import and cutting hot rolled steel by Thai Industrial Standard Institution. |
| September, 2002 | - Received ISO 9001:2000 certificate by Bureau Veritas Quality International. |

December, 2004	- Increased register capital from Baht 200 million to Baht 400 million by issuing common stock 2 million stock at par value Baht 100 per share to Chaisupat Company for payment of purchasing inventories and machines. Due to Chaisupat Company stopped for doing steel business and sold all machines to CSP at appraised price (59.58 million baht) of Thai property appraisal lynn Phillips co., ltd. Our production capacity have increased from 99,600 to 163,800 mt per year.
July, 2005	- Changed par value of common stock from Baht 100 to Baht 1 per share and increased register capital from Baht 400 million to Baht 500 million, therefore our common stock have increased 400 million share to 500 million share in August, 2005. CSP Trading Co., Ltd. has been changed to CSP Steel Center Public Co., Ltd.
August, 2005	- Installing the first cold rolled steel piping machine with a capacity of 10,000 mt./year.
December 22, 2005	- Listed in Stock Exchange of Thailand.
May, 2006	- Installing a square shear machine, the total cutting capacity would be increased which are 167,400 mt./year.
July, 2006	- Completing any three cold rolled steel piping machines which the total capacity of piping machines are 30,000 mt./year.
September, 2006	- Issuing 125 units of warrants which could be changed to be the 125 new common shares in the future and the new register capital are Baht 625 million.
July, 2008	- Completing Leveler Shearing Line No. 3 for cutting Hot Rolled Steel Sheet with total capacity of 20,000 mt./year.
August, 2009	- Completing 1 Cutting Machine (STC3) with total capacity of 15,000 Mt./year. and 1 Shearing Cutting Machine (HS8) with total capacity of 3,600 Mt./year. - Completing 1 Auto piping machine which the total capacity of 1,440 Mt./year. Purchasing land 7,500 m2 for expand and development the 4 factories.
2010	- Installing 1 Slitting Machine with capacity of 14,400 Mt./year and 5 Shearing Machines with total capacity of 6,000 Mt./year
2011	- Installing 1 Cutting Machine with capacity of 1,800 Mt./year and 3 Shearing

Machine with total capacity of 3,200 Mt./year

- Expanding the factory's area around 7,500 sq.m. to support increasing capacity and sale.

2012

- Installing 1 End-Facing Machine for improving the quality of pipes.
- Complete installing machines and equipments into the new factory's area around 7,500 sq.m.
- Installing 1 Cutting Machine with capacity of 30,000 Mt./year
- Purchasing 1 steel piping machine and currently, in process of installing such machine which expected to be complete during year 2014

2013

- The Company has decreased its registered and paid-up capital from THB 500,000,000.00 to THB 496,166,300.00 by writing off the outstanding 3,833,700 shares of the treasury stocks of THB 1 par value each, totaling THB 3,833,700 which is 0.7667 percentage of paid-up capital before writing off. Relevant registration was made at the Ministry of Commerce on February 6, 2013.
- Installing 1 Shearing Machine with capacity of 3,600 Mt./year, in process of installing such machine which expected to complete around March 2014.
- Purchasing 10,668 sq.m. of new land near existing factory to support future growth of the company.
- Expanding about 8,000 sq.m. of the factory's building which expected to be complete at the end of 2015.
- The Company has increased its registered and paid-up capital from THB 496,166,300.00 to THB 496,168,826.00 by increasing paid-up shares capital 2,526 shares of THB 1 par value each, totaling THB 2,526 as the numbers of exercised warrants: 2,526 units on the final exercise date of warrant : CSP-W1, 29 November 2013. Relevant registration was made at the Ministry of Commerce on December 12, 2013.

2014

- The Company imported the piping machine for producing hot rolled steel pipes with capacity of 6,000 Mt./year and successfully installed within the end of 2014
- Installing 1 Shearing Machine with capacity of 3,600 Mt./year as the plan.

- Installing 1 CNC Plasma Cutting Machine for thickness of 3.0 – 25.0 mm. with capacity of 90 Mt./month, in process of installing such machine which expected to be completed around the beginning of 2015.
- Improving the heating system of piping machine to save the energy and reduce waste.
- Expanding about 8,000 sq.m. of the factory's building which expected to be complete at the end of 2015.
- Planning to buy approximate 9 new trucks to replace the old ones within 2014.

2015

- The Company imported the piping machine for producing hot rolled steel pipes with capacity of 6,000 Mt./year and successfully installed.
- Successful Installing 1 CNC Plasma Cutting Machine for thickness of 3.0 – 25.0 mm. with capacity of 90 Mt./month.
- Expanding about 8,000 sq.m. of the factory's building in order to support growing capacity and reserving stocks.

2016

- In process of installing more Shearing Machines.
- In process of installing 1 processing machine.
- Purchasing more trucks to support delivery service.
- Opening a building of physical testing room by QC department.

2017

- Successful installing 2 Shearing Machines.
- In process of installing 1 Cutting Machine.
- In process of installing 1 Slitting Machine.
- In process of installing 1 more Shearing Machine.
- Expanding certificated scope of ISO 9001:2015 certificate by Bureau Veritas Quality International to cover overall processes of the organization.

Strategic Policy of the Company

Vision:

“We aim to be the one-stop service of high quality steel service center that satisfies the customer’s needs of various industries and to be a significant source who provides high quality steel material to such customers in order to enhance their competitive advantages regarding competition as domestic level, ASEAN level and global level. All these contributions are conducted to achieve the main purpose of sustainable growth together among the company, customers, trading partners and the nation.”

Mission:

“We concentrate on operating as a professional steel service center that satisfies our customers with high quality steel products and services, punctual delivery and always keep improving and developing such quality with strategically focusing on Value-Added Products and Services to meet the customer’s needs of various industries.”

The Business Objective of the Company within 5 years is

“A Leader of the One-Stop Service of High Quality Cold Rolled Steel Service Center with yearly sales revenue at least Baht 5 thousand millions and profit margin at 5% through a strategy of focusing on engineering ability to process the quality steel for achieving the customer’s needs of various industries. So, it can

Build the Long-Term Profitability to the Organization”

BUSINESS OPERATIONS OF THE COMPANY

Type of Business

CSP Steel Center ., Pcl. has “Chaisupat Co., Ltd.” as a major shareholder with approximate 35% of all shareholders. CSP Steel Center ., Pcl. is the high quality steel service center, providing steel coil and processing steel coil into customers’ size which are used as raw materials by many industrials. CSP has been approved TIS 528-2548, TIS 1479-2541, TIS 1735-2542, TIS 2012-2543, TIS 1999-2543 and TIS 2223-2558 licenses for import and cutting hot rolled steel by Thai Industrial Standard Institution and has also been certified ISO 9001 by Bureau Veritas Quality International. In 2006, CSP expanded business line by producing cold rolled steel pipes and in 2014, expanded line to hot rolled steel pipes for supporting booming of automotive industry.

The company has a head quarter at 475 Rama3 Road, Bangklo, Bangkolaem, Bangkok 10120 and has own factory at No. 227 Soi Suksawad 78, Suksawad Road, Nai KlongBangprakod, Phra Samut Jedi, Samut Prakarn 10290. In year 2017, the factory has total steel sheets processing capacity of 227,400 Mt./year and total capacity of cold/hot rolled steel pipes is 24,000 Mt./year which the utilization of such capacity is around 78 percent.

Structure of Revenue

The revenue of the company for latest 5 years at the end of December 31, 2013-2017 are as follows:

Revenue	2013		2014		2015		2016		2017	
	Mill. Bht	%	Mill. Bht	%	Mill. Bht	%	Mill. Bht	%	Mill. Bht	%

Types of Product

The company's product and service types are classified into two categories

1) Steel Service Center

CSP provide all types of steel sheet with various sizes for customers by selling steel sheet as master coil, cutting sheet, slitting coil and tolling for processing steel, can be divided into 3 categories as the following:

- 1.1 Processing steel sheet for sales steel sheet cutting service by using computerize shearing machines, to provide customers with a reliable and efficient steel cutting service. Currently, the company has 3 categories of steel cutting machine: slitting machines, cutting machines from coil and shearing machines with total production capacity of 227,400 tons per year. The company divided the product into two groups as follows:-

Slitting to order

Steel coil cutting using slitting machine which enabling to cut steel coil vertically to customer's specification (Width) and recoil it back again.

Cutting to order

Steel coil cutting using cutting machine which enabling to cut steel coil for customer's order and specification before passing it on to steel shearing machine (If small size is required)

1.2 Trading of steel coil

Trading of all types of steel coil both local and imported provide to Thai manufacturers' need, by keeping in stock and delivery on customer schedule.

1.3 Providing cutting services

Cutting steel sheet, slitting steel coil and shearing steel sheet follow customer's specifications for tolling services. Customer is responsible for providing steel coil.

The steel sheet in coils is raw materials which are used for processing and selling, can be divided into 3 types as following:

1. Cold rolled steel sheet in coil

By using a hot rolled steel coil, is pickled for cleaning a surface and passed to cold rolled mill for reducing a thickness. Annealing furnace is used to make a soft cold rolled steel which are suitable for forming and drawing. The company is able to cut a cold rolled steel processing with thickness 0.2-3.2 mm.

2. Hot rolled steel sheet in coil

From the steelmaking process come out a slab which is reheated and rolled to reduce a thickness, that are the hot rolling process to be a hot rolled steel. The normal hot rolled steel and hot rolled pickled and oiled steel can be processed with a thickness of 1.0-12 mm. by our machines.

3. Coated steel sheet in coil

The cold rolled steel is used for coating into 2 difference types of coating system which become the Electro galvanized steel and the Hot dipped galvanized steel with a thickness of 0.3-2.3 mm.

2) Cold rolled steel pipe and Hot rolled steel pipe

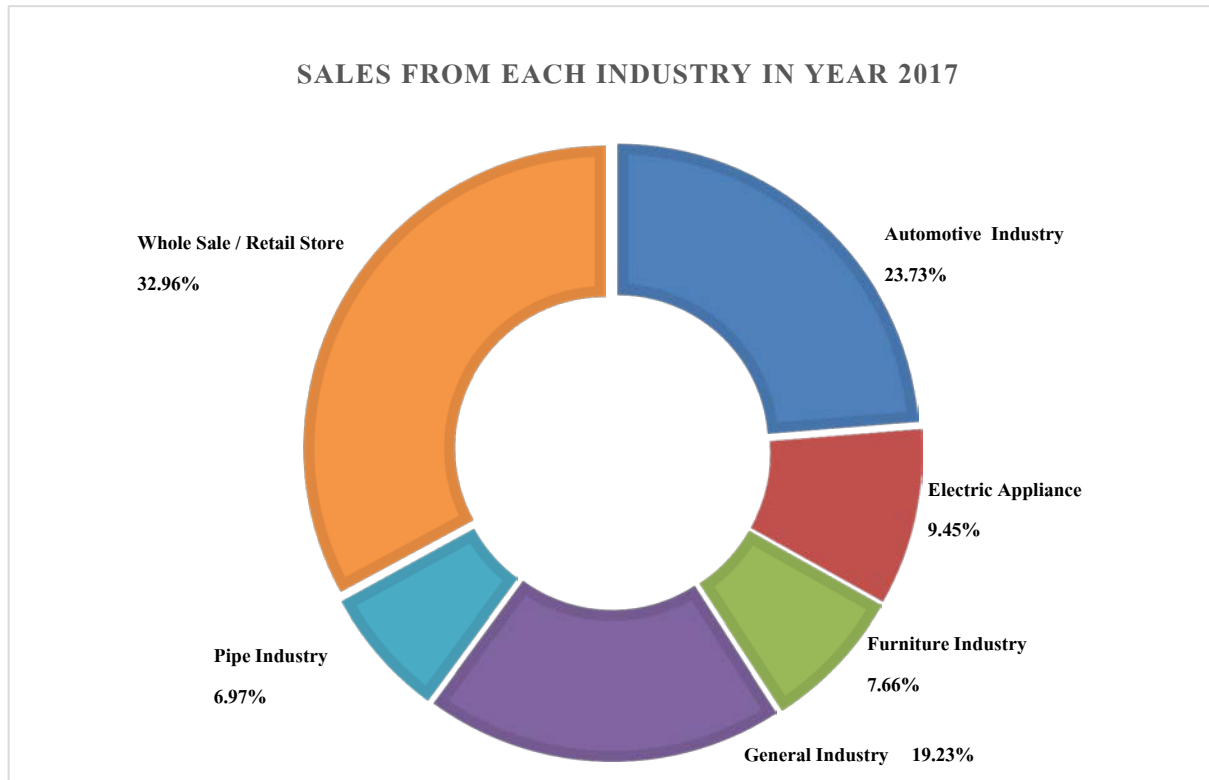

CSP began the production of cold rolled steel pipe in 2005 and hot rolled steel pipe in 2014, main customers are manufacturers in wide arrays of industry including automobile, furniture and other related industries. The cold / hot steel pipe has a diameter of 0.375 – 3.50 inches with a thickness of 0.5 - 4.0 mm and the standardized length is 6 meters - maximum length is 8 meters. The total current capacity is 24,000 Mt./year with focusing on made-to-order steel pipes to various customers.

In 2017, all sales revenue derived from domestic customers and all of the steel coils, steel sheets and steel pipes are not only sold to a steel wholesale and retail store, but also used as a raw material in many industries. The company's revenue from each customer is not more than 10% of total revenue, so the company would not be too much depending on any industry.

Those industries who use the company's steel as their raw material for production line are as follows:

- Automotive Industry: our Hot/Cold-Rolled Steel Pipes are materials as automobile parts; for example, Automobile Body Structure, pickup's trunk, Outside Body of Automobiles, Doors of Automobiles, and other Auto-Parts of cars and motorcycles, etc.
- Steel Furniture Industry: our Cold-Rolled Steel Pipes are materials as Steel Furniture's parts; for example, legs of table, legs of chairs, partition. Also, our steel sheets are materials of surface of furniture; for example, cabinet, locker, closet, rack, and vault, etc.
- Home and Electric Appliance Industry: our Steel Sheets are materials as Home and Electric Appliances' parts; for example, Washing Machine, Air-Conditioner, Refrigerator, Oven and Control Panel, etc.
- General Usage Industries: our Cold Steel Sheets are materials as a part of large containers; for example, boilers, cistern, and tanks, etc. Also, other Industries use our steel sheets as a part of an engineering structure and surface of various products, etc.

- Structure and Construction Industry: our various types of Construction Steel are materials as steel structure for every kind of construction projects.

RISK FACTORS AND RISKS MANAGEMENT

1. Risk Factors and Business Risks Management

1.1 Risk of Steel Price

Approximate 96.40% of cost of sales is the steel's prices, which is changed by supply and demand of domestic and import steel, following the international's steel prices. The demand of using steel is depended on the growth of Thai economy and world economy, because a hot rolled steel and cold rolled steel are used as raw material for production in automotive industry, steel furniture industry, electric appliance industry, construction industry etc. The supply of steel is depended on a domestic production and import steel. Out of demand and supply factors, the government's laws and regulations are an import duty and extra duty (anti- dumping price) for some countries, which effect to steel's prices in the market. The company might have risk for getting loss, if the selling prices could not be increased to cover the buying prices.

However, the company is using a steel cost adding margin and expense for controlling a profit margin. Using source of information such as a domestic's demand and supply, international's steel prices are very important to be used for making buying and selling decisions.

1.2 Risk of Limited Suppliers

Cold Rolled Steel Sheet

There are three major cold rolled steel producers in Thailand, Thai Cold Rolled Steel Sheet Plc.(TCRSS), NS-Siam United Steel Co., Ltd. (NS-SUS) and Starcore Co., Ltd. It might have some chance of shortage the cold rolled steel if those three mills could not deliver on time. Therefore the company has the policy for stocking at least two months safety and also imports the cold rolled steel from other countries such as South Korea, Taiwan etc. In 2017, the company has imported 10.78% of total steel purchasing value.

Hot Rolled Steel Sheet

The company mostly purchases the hot rolled steel from three domestic producers which are Sahaviriya Steel Industries Plc.(SSI), G J Steel Plc.(GJS) and G Steel Plc. (GSTEEL). Currently, some of them is facing with financial problem which would impact on decreasing production capacity. As a result, it would increase a risk of material shortage for the company in case of those 3 factories cannot deliver adequate hot rolled steel to the company. However, the company still realizes such risk and relieve it by

importing materials from various countries and having more stocking. In 2017, the company has imported 2.13% of total steel purchasing value.

Coated Steel Sheet

The coated steel sheet is only 6.41% of the total steel purchasing value in 2017. The company purchases the electro galvanized steel from Thai Coated Steel Sheet Co., Ltd. which is the only one electro galvanized steel producer in Thailand. Therefore it might be a shortage chance which could be imported to protect shortage risk.

However, the company has realized that the shortage steel's risk could be a major effect to the cost of goods sold. Therefore, the two months sales contract in advance and considering import steel with similar quality are used to minimize the shortage risk. All domestic and international steel information have been brought for making a purchasing decision.

1.3 Risk of Law and Regulation

- In year 1999, The Department of Commerce has set up an extra import duty (Anti-Dumping) for hot rolled and non-rolled steel which has been imported from 16 countries: Japan, South Africa, Russia, Kazakhstan, India, South Korea, Taiwan, Venezuela, Argentina, Ukraine, Algeria, Indonesia, Slovak, Romania, Malaysia and China. This regulation was announced to add up import duty 0 – 128.11 percentage of CIF and was renewed for 5 years since May 23, 2015. As a result, the imported steel price has been much higher than the domestic steel price.

- The Department of Commerce has set up an extra import duty (Anti-Dumping) for a hot rolled and non-rolled steel with added-Boron from China. This regulation was announced to add up import duty 14.28 – 19.47 percentage of CIF.

- The Department of Commerce has set up an extra import duty (Anti-Dumping) for a cold rolled and non-rolled steel from China, Vietnam and Taiwan. This regulation was announced to add up import duty 0 – 20.11 percentage of CIF.

- The Department of Commerce has set up an extra import duty (Safeguard) for hot rolled and non-rolled steel. This regulation was announced to add up import duty 41.67, 40.42, 39.21 percentage of CIF in the year 2016, 2017 and 2018 consecutively and will be expired on February 26, 2019, excepting for 4 industries: (1) Imported for cold rolled manufacturer industry, (2) imported for automotive industry, (3) imported for hardened steel industry, (4) special specified steel.

However, because the company has a big group of automotive customers, this could relieve about Safeguard for hot rolled and non-rolled steel due to exception of imported for automotive industry and for

special specified steel. Besides, during a fluctuating of steel's prices or a shortage of steel within Thailand. The company consider importing steel from other countries outside the anti-dumping countries and could be maintain a competitive in the market.

Moreover, all import steel has to be examined and approved by Thai Industrial Standards Institute (TISI) before selling to the customers. Its complicate processes and documentation could be an obstacle to the company to comfortably import both hot rolled and cold rolled steel from other countries. However, the company has set up the specific officer to take charge of this related duty to work with the company's QC department and TISI officer. Since this TISI's regulation was issued, the company has been worked well in documentation and communication with TISI without any significant problems.

1.4 Risk of Foreign Currency Exchange Rate

The company will import steel from other countries if we could not purchase in domestic. On the other hand, the imported steel prices add with import duty and other expenses that are cheaper than domestic steel, the company will consider importing steel. U.S. dollar currency is used to conclude in imported contract and is mostly fixed by forward contract for minimizing exchange loss.

1.5 Risk of Natural Disasters

Natural disaster is a new important risk of the business world. In the year 2017, every industry of Thailand faced with a risk of flood due to high level of raining. Many areas, especially agricultural areas had a risk of flood. Some of them were destroyed by flood. Flood would impact on the economy in terms of declining purchasing power because the main income of consumers in Thailand is related to the agricultural sector. As a result, purchasing power of consumer products sector was declined.

In the meantime, the directors of the company has always kept concerning about the risk of natural disasters in order to adjust the strategies of raw materials purchasing, inventory management and any other investment, to be appropriate with purchasing power and market conditions at that time. The aim is to cut costs and reduce the burden in a timely purchasing power/demand in a recession. Certainly, this practice could lead the company to be able to gain a better profitability.

1.6 Risk of economic crisis and economic recession in many countries

In 2017, the recession of economy in the United States and EU were improved and its interest rate was raised carefully. In the meantime, the situations in the Asian: Japan's economy is recovering due to

developing construction sector for Olympic year 2020 and the growing rate of China from better domestic consumption. Consequently, all price of commodity materials have slightly increase such as oil price, ores price, coal price and agriculture crops price.

However, the management team of the company has kept track of the changing scenario of global economic crisis closely, especially, situations in the countries who have a great impact on world steel price; for example, the United States, EU, China and Japan. Updating strategic planning, purchasing time planning and material stocks management are activities that the management concerns to achieve the lowest cost of goods sold because as a profit structure of the company, cost of material is the most influential factor.

1.7 Risk of political crisis in Thailand

In the year 2017, under military government of Thailand can enhance stability of Thai politics. The economic cabinet has attempted to solve the economy's problems by motivating purchasing power of low earning people and investing in mega-projects which would benefits the company's customers group.

The management team of the company believes that mega – projects will more gradually start construction; for example, the project of High Speed Trains and expanding BTS SkyTrain routes. As a result, to be ready for the upcoming huge investment of such projects, the company has started to develop production capacity and prepare adequate materials stocks.

2. Risks of Management and Operation

2.1 The major shareholders hold more than 50% of total common stock.

On February 8, 2018, Chaisupat group have held approximate 82.89% of Baht 496,168,826 register capital that could control a major vote to pass all subject in the shareholder meeting; therefore, minority shareholder could be difficult for balancing power with major shareholder's vote.

However, the board of director structure is comprised of 3 types of committee: Board of Directors, Independent Director /Audit Committee and Nomination and Remuneration Committee which have definite authorities and responsibilities. Importantly, there is Independent Director /Audit Committee who are qualified and professional in analysis of financial statements, accounting and business laws / regulations. Due to such qualifications, the Independent Directors / Audit Committees are able to efficiently inspect the operations and performance of the company with accuracy and transparency. Including, they determine, control and evaluate the company to comply with the good corporate governance as well. Additionally, all related parties transactions will be inspected by them before present to the board of directors of the company

with no voting of such related parties. Meanwhile, the Chaisupat Group always made decisions and run the business with responsibilities to overall shareholders and best results for the company. There are not any situation of Conflict of Interest because they have never managed or operated in any other business relating to the steel industry and never personally influenced in destructive way to the company's benefits.

2.2 Risk of Allowing Credit Term for Customers

Giving a credit term for selling to customer is an important risk which has been carefully controlled. In case of customer could not make payment or postpones, that might affect with the company's cash flow.

The company has seriously considered for giving a credit line, by checking financial statements, background, customer visit reports of sales department, payment record and limitation of credit line for mitigating risk of debt default. Besides, selling to many customers is an efficiency strategy to minimize the risk.

CAPITAL STRUCTURE

Registered Capital 621,166,300 ordinary shares of par THB 1 each

Mr. Bundit Assavacheep	Corporate Secretary	bundit@cspsteel.com

Authorities and responsibilities of Corporate Secretary

The Board of Directors assigns a Corporate Secretary to take responsibilities of learning and gathering all relevant legal information, regulations, rules that the company has to notified and conform as The Stock Exchange of Thailand, The Securities and Exchange Commission or other relevant organization has announced. In addition, the Corporate Secretary is a person who record minutes of Board of Directors' meeting, the Annual General Meeting and the Annual Report. Gathering recommendation, opinions or complaints of stakeholders for reporting to the Board of Directors with reasonable comments, managing all activities of the Board of Directors, communicating and overseeing all departments of the company to conform the Board of Directors' approval, rules, regulations and policies of The Stock Exchange of Thailand and The Securities and Exchange Commission are the duties of Corporate Secretary as well.

Selection of Committees and the Management

For accuracy, transparency and fairness of selection of committees and management team, shareholders approved to set 4 Nomination and Remuneration Committees during the Annual General Meeting of the year 2014. (March 28, 2014). Their authorities and responsibilities are recruiting, considering and presenting qualified persons to replace the expired committees/sub-committees or any other vacant relevant positions or as determination by new law with reasonable consideration and conforming the determining policies and regulations of remuneration of the company. Then, they will present the list of qualified persons to the Board of Directors and/or shareholders in the Annual General Meeting. However, Nomination Committee still allow directors and shareholders to nominate the

candidates of vacant positions of committee by informing to the corporate secretary to present to the Nomination and Remuneration Committees later.

The Nomination and Remuneration Committees would set at least 2 meetings per year. Ones of necessary agenda are recruiting new qualified directors/ committees and members of top management team to enhance the team or replace the expire members. They would consider qualified persons from both within organization and outside organization. For example, as the 1st Nomination and Remuneration Committees meeting of the year 2017, there was an agenda of appointing a new Executive Vice President in Human resources. The resolution of the meeting approved that Ms. Wunthakarn Junthacot who are the company's current Human Resources Manager, was qualified for being a new new Executive Vice President in Human resources of the company, etc.

Additionally, in every year before the Annual General Meeting, the company allows shareholders to be capable of nominating the candidates of committees in a period of 30 days before closing of proposing Annual General Meeting's agenda if such shareholders hold at least 5% of Issued and Paid-Up Capital Common Stocks of the company or at least 25,000,000 shares with one shareholder / gathering many shareholders and must have held those shares for at least 1 year and still hold those shares at the day of such allowance. The shareholders can follow up via the company's website: www.cspsteel.com and SET website: www.set.or.th

Assigning the Board of Directors

To assign the Board of Directors, all the candidates will be approved in the shareholder's meeting. Assigning the Board of Directors comes from the shareholder's vote in the following ways:

1. One shareholder has the vote equal to how many shares they have in hand.
2. One shareholder can split their votes for selection of many candidates.
3. The one who got the highest vote will be the Board of Director respectively. If there is an equal vote, the President will be the one who assign.

Directors from the Major Shareholders

In current, 4 directors of the company are from the major shareholders: "Chaisupat Group" and 3 of them are executives in the management team. However, there are 5 directors who are not from such major shareholders and are able to balance of the Board of Directors. Meanwhile, the Chaisupat Group always made decisions and run the business with responsibilities to overall shareholders and best results for the company. There are not any situation of Conflict of Interest because they have never managed or operated

in any other business relating to the steel industry and never personally influenced in destructive way to the company's benefits.

Selection of the Management

For accuracy, transparency and fairness of selection of committees and management team, shareholders approved to set 4 Nomination and Remuneration Committees during the Annual General Meeting of the year 2014. (March 28, 2014). Their authorities and responsibilities are recruiting, considering and presenting qualified persons to replace vacant executive positions and reviewing the performance of existing executives in the management team in points of capability, knowledge, experiences and business ethics to maximize the benefits of the company and all shareholders. Then, they will present the list of qualified persons to the Board of Directors and/or shareholders in the Annual General Meeting. However, Nomination Committee still allow directors and shareholders to nominate the candidates of vacant executive positions by informing to the corporate secretary to present to the Nomination and Remuneration Committees later.

Directors / Committees and Management Remuneration

For accuracy, transparency and fairness of remuneration of committees and management team, shareholders approved to set 4 Nomination and Remuneration Committees during the Annual General Meeting of the year 2014. (March 28, 2014). Their authorities and responsibilities are to fairly determine and review remuneration of committees and Top management/Executives in both financial compensation and non-financial compensation, then, present overall such remuneration in total numbers as a budget to the Board of Directors to consider and present to ask for approval of shareholders in the Annual General Meeting of the company. Regarding resolution of AGM 2017 at March 31, 2017, total numbers as a budget for Directors / Committees and Management Remuneration must not exceed Baht 2,000,000 (excluding salary and bonus of Executive Directors) which was the same rate as that of 2016. The details of their definition and remuneration limits are as follows:

1) Salary

Salary was monthly paid for Executive Directors which considered by comparing the company's remuneration with average remuneration cost of other companies in the same section of industry, including considering points of authorities, responsibilities, duties, abilities, experiences and each personal performance. Non- Executive Directors still shall not gain this category of remuneration.

2) Remuneration from operating results/ Bonus

Bonus was annually paid for both Executives and Non-Executive Directors. This kind of compensation depends on average remuneration cost of other companies in the same section of industry, annual financial performance or annual operating results of the company, duties, responsibilities, knowledge, abilities and experiences of each director. The Executive Directors shall gain Bonus according to Bonus consideration system of the company as other employees which depending on the company's operation results and each Executive Director's performance. Likewise, Non-Executive Directors shall gain Bonus according to the company's operation results, each Non-Executive Director's performance and each responsibility. Bonus shall not exceed Baht 500,000 per year (excluding Executive Directors) and directors can allocate by themselves.

3) Remuneration for directors for the Board of Directors Meeting /Attendance Fee

This kind of compensation was paid for only directors who attend any Board of Directors' Meeting and shall not exceed Baht 1,500,000 per year.

4) Incentive Fee and Other Welfare

It is a special compensation which paid by concerning value-added to shareholders; for example, sales commission, net profit of the company, dividend of shareholders or any other welfare such as social security expense, medical expense, etc. The Board of Directors agreed that this kind of remuneration is still not necessary.

5) Remuneration for Board Committees: Audit Committee and Executive Directors are considered by the Board of Directors which shall be commensurate with the duties and responsibilities of directors, or allow the Nomination and Remuneration Committee to take that responsibility. At the present, Nomination and Remuneration Committee of the company consider that committees are also take a position of directors in the Board of Directors of the company and the current remunerations are appropriate; therefore, there's no need to allocate remuneration for this type of remuneration.

Remuneration of directors / committees and Top management/Executives in both financial compensation and non-financial compensation in year 2017 are as follows:

Management Remuneration is the set of salary, remuneration, bonus and other revenues, excepting for salary and bonus of directors with management team. According to the shareholder's meeting on March 31, 2017 the total remuneration of director / committee must not exceed Baht 2,000,000 (excluding salary and bonus of Executive Directors). In the year 2017, the company paid such Management Remuneration in amount of Baht 1,288,969.20.

Moreover, other remuneration of the company is Provident Fund which established on July 28, 2005 in the rate of 2% or 3% of their salary, beginning on July 2005. One December 31, 2017 the company has paid Baht 426,372.00 to the Management/Executives for this Provident Fund.

Remuneration of Directors / Committees and Top Management/Executives (Non- Financial Compensation)

- None -

GOOD CORPORATE GOVERNANCE REPORT

CSP Steel Center realizes not only the significance of good management to achieve business goals but also the significance of good corporate governance principle in order to conduct the business with transparency, loyalty and responsibilities to society and all stakeholders. CSP Steel Center believes these will bring trustworthy and sustainable growth to the company. Regard to the good governance principle, the company sets our own principle by referring to The Principles of Good Corporate Governance for Listed Companies 2012 which the details are as follows;

Policy of Good Corporate Governance

- 1.1 The principle of operating business must regard to benefits of stockholders and stakeholders.
- 1.2 Directors and management team must efficiently, carefully and thoroughly manage the company for the maximum benefit of the company and shareholders.
- 1.3 All operations can be clearly reported with transparency and on time.
- 1.4 Risk management must be controlled and minimize loss.
- 1.5 Business ethics are strictly conducted in every department.

The Principles of Good Corporate Governance of the company could be presented in 5 categories, namely:

- 1) Rights of shareholders
- 2) Equitable treatment of shareholders
- 3) Role of stakeholders
- 4) Disclosure and transparency
- 5) Responsibilities of the Board

For the details of each category are as follows:

1. Rights of Shareholders

- Shareholders' meeting

- 1.1 In every shareholder meeting, the company conforms to the rule and regulations of Thai listed companies by delivering the notice of shareholders meeting along with meeting agenda and other supporting documents to every shareholder. Also, published such notice of the meeting in the public daily newspaper according to regulations of the company's Articles of Association and online in the company's website to let all shareholders to consider information prior to the meeting date.

- 1.2 The board of directors should publicly disclose policies to encourage all shareholders, including institutional ones, attending the company's shareholders meeting.

As the company conforms to this point, not only the company mails the notice of the Annual General Meeting to all shareholders, but also our IR staffs randomly invites in both personal and institutional shareholders by telephone call.

- 1.3 The board has the duty to ensure that the company provided shareholders, in advance of meetings, with the date, time, comfortable venue (with map attachment), copy of previous Annual General Meeting report, CD of annual report, summary of annual financial performance, resume of directors whose expiration of the term are on due and are nominated to serve a position again, related documents of financial statement auditor and its remuneration, resume of independent directors who are assigned to be proxies of unable-attended shareholders in Annual General Meeting, a proxy document (attachment), conditions rules and procedures of the meeting proxy and voting method, Articles of Association in sections of meeting and voting method, submitting questions of shareholders to the company prior to the meeting date, and all agenda items with the rationale or explanation for each agenda item or resolution in the notice of the Annual General Meeting or extraordinary general meeting or circulars and/or the accompanying statement.

The company always conforms to this regulation in every year.

- 1.4 All meeting agenda comprise of important details that need to be casted the vote during the meeting, are clearly informed with the rationale or explanation for each agenda item to every shareholder before the meeting date.
- 1.5 The board allows shareholders to send their questions to the company prior to the meeting date. Investors should be clearly informed in advance of the determined criteria for accepting advance questions and the process for submitting them, including on the firm's website.

The company's already provided all determined criteria, process of submitting and channel of submitting for shareholders' question in both notice of shareholders meeting and website of the company.

- 1.6 To facilitate shareholders who are both able and unable to attend the meeting, the proxy form is provided along with notice of the meeting. Therefore, shareholders may authorize other person to attend the meeting and cast the vote on their behalf or appoint an independent director who is appointed by the company as their proxy. The company provided at least 2 qualified independent directors to be a proxy.

- Procedures on the shareholders' meeting date

1.7 The company provides the best effort to accommodate the most convenience for shareholders in points of the meeting place, registration desk, receptionists or company staffs who facilitate all attendants with documents and other compliments that secure fast precise and accurate technology for registration and presentation, such as presentation of each agenda displaying in big screen, wireless microphone for providing shareholders opportunities to question, recommend and express their opinion as deem appropriate. Those lead to the convenient and successful shareholders' meeting.

1.8 All directors are determined to attend shareholders meetings. Shareholders will be able to ask questions directly to the chairpersons of the committee responsible for any specific issue. However, if anyone of them has a serious reason that can't attend, they have to inform to the board of director at least 3 days prior to the meeting date.

1.9 The board encourages the company appointing an independent party of scrutinizers/inspectors to count and/or validate votes at the Annual General Meeting at least 2 persons. These scrutinizers shall be disclosed at the meeting and recorded in the minute.

In every year, 2 inspectors from financial statement audit company always attend in the Annual General Meeting and were recorded in the minute every year.

1.10 In the meetings, there should be no bundling of several items into the same vote; for example, election of directors, and consideration of various types of remuneration.

1.11 For the sake of transparency and the future reference, the board should encourage the use of voting cards for important agenda items such as related party transactions or acquisitions or disposal of significant assets.

The staffs of the company will distribute a voting cards' set of every meeting agenda when shareholders register at the front of meeting room.

1.12 Equal opportunities provided to shareholders to express their opinions and ask questions to the Board of Directors in each agenda through whole duration of the meeting

In every Annual General Meeting, after voting of all agenda is finished, the board of directors will always share the rest of time to answer all questions of shareholders in detail with available presentation of well-prepared information. Moreover, the chairman of directors always informs the trend and update situations of the company and steel industry to the shareholders, even there is no such point in the agenda because the company truly respects rights of shareholders and conforms the principles of good corporate governance of the company.

1.13 Board of Directors' remuneration is one of the agenda of shareholder's meeting.

- Writing and releasing of the minutes of shareholders' meetings

1.14 The minute of shareholders' meeting would be completed and published on the SET's information system and company's website within 14 days since the meeting date. The minutes of shareholders meetings are determined to include a description of the voting and vote tabulation procedures used, declaring both before the meetings proceeds by the host, voting results of each agenda item containing approving, dissenting, and abstaining votes, list of the board members who attended or missed the meetings, questions or raise issues of shareholders, and answers or resolutions of directors.

1.15 The company would make publicly available the result of voting during the Annual General Meetings or extraordinary general meetings for all resolutions by the next working day on the company's website.

1.16 The company's dividend payment policy is considered as the important right of shareholders which determined no less than 50 percent of net profit after tax. However, the dividend policy still has to depend on operating results of each year and other necessary development plans in the near future.

2. Equitable treatment of shareholders

- Release of information prior to the shareholders' meeting

2.1 Every shareholder has the same right to receive the information of the company without any conditions such as the number of shares, types of shareholder or nationality.

2.2 The board of directors determines the company to release its Annual General Meeting notice, with detailed agenda and explanatory circulars, at least 28 days prior to the meeting date.

2.3 The board of directors determines the company to inform shareholders of meeting procedures and voting criteria, including the voting rights attached to each class of shares.

The company's already informed those criteria in the notice of AGM according to Articles of Association of the company in topic number 4: shareholders' meeting; for instance, in clause 39: in Annual General Meeting, both common stock shareholders and preferred stock shareholders have the same right for 1 vote and this content can found in notice of shareholders meeting which publicly announced in website of the company as well.

2.4 The company has a policy to fully translate notice of shareholders meeting into English and published at the same time as Thai version.

- Protection of minor shareholders

2.5 The company allows shareholders to propose the agenda of shareholder's meeting and directors' nomination 30 days in advance prior to the closing date agenda. The detailed criteria and conditions of such proposal have been posted at the company website along with proposal form for shareholder's convenience.

2.6 The process used in election of directors should allow shareholders to vote on individual nominees.

The company publishes "criteria and procedures for shareholders to propose agenda of shareholder's meeting and directors' nomination" which shown details of qualification, procedures, method of consideration, documents attachment, channels of submission and duration of proposal, including attached standard forms of the company in website of the company for 30 days in advance prior to the closing date agenda

2.7 The company has never added up the new agenda of the meeting without notification to shareholders.

- Protection against abuse of inside information

2.8 The Board of Directors has to recognize the importance of inside information control and protects for internal use of restricted person only, so the Board established the policy and conduct to keep it confidential until discloses to the public.

- Educate all directors and executives to acknowledge their responsibility to report their shareholding and related persons' shareholding included their spouse and minor children to SEC and SET in accordance with Section 59 and the penal provision of Section 275 in the Securities and Exchange Acts B.E. 2535

- The company determines that all directors and executives have responsibility to report the changes in their own shareholding and securities holding to SEC and SET in accordance with Section 59 and the penal provision of Section 275 in the Securities and Exchange Acts B.E. 2535 and have to submit the copy of report to the company in the same day as report to SEC and SET. The purpose is to precisely report to the board of directors and disclose in the annual report.

- The company sends the notification letters to warn all management if they receive the inside information which is significant and can impact on changes of securities' price, all management is forbidden to buy, sell or transfer the company's securities, also forbidden to

disclosed such inside information to the public or other persons within 1 month before the financial statements or such inside information would be disclosed to the public.

However, if any directors, executives and the company's staffs are taking advantage for their own from using inside information and such action has caused any disgrace or damage to the company, the company will consider taking an appropriate legal action against such person.

- Conflicts of interest by directors

2.9 The Board of Directors has set that directors and executive directors are supposed to disclose their own interest or other related person's interest which related to the management of the company in accordance with Section 89/14 under the Securities and Exchange Act (No.4) B.E. 2551, In order that the Board of Directors can monitor such transactions that may create a conflict of interest and can determine for all benefits of the company and recorded this fact into the minute. As this consideration, directors and executive directors who may have conflict of interest with the company should not present and vote at the meeting to discuss or decide on any connected transaction as said.

2.10 In addition, the Board of Directors would consider and monitor such point in every quarter.

2.11 The Board of Directors of the company has never held more than 25% of issued and paid-up capital of the company.

Currently, the company determines that the decisions that may cause a conflict of interest or advantage/disadvantage of some benefits, directors or the management team who are shareholders are determined to not have the right to vote on issued that they are involved for independence in decision-making and then disclosures to the public suddenly due to concerning transparency. Besides, the necessary information required to be disclosed in the annual report (Form 56-2) and annual registration statements (Form 56-1) on regular basis. Currently, the Board of Directors of the company doesn't hold more than 25% of issued and paid-up capital of the company.

3. Role of stakeholders

The company and the Board of Directors realize the rights and importance of overall stakeholders, including customers, employees, trading partners, shareholders or investors, creditors, competitors, community, environment and government sector. The company and the Board of Directors believe that a good relationship between the company and those stakeholders

is significant factors of the company's earning and financial stability. Also, it creates sustainable growth to both the company and those stakeholders. All details of this policy are as follows;

3.1 Customers: Regard to the company's mission, "We concentrate on operating as a professional steel service center that satisfies our customers with high quality steel products and services, punctual delivery and always keep improving and developing such quality with strategically focusing on Value-Added Products and Services to meet the customer's needs of various industries.", the company has kept conforming the mission through whole process of operation. Those are the phase of finding and purchasing international quality raw materials, Providing and selling high quality products with fair price regarding to market price in such period, Providing a professional consulting for customers about specification and adaptation of each product, Production of cutting shearing slitting or pipe milling to deliver high quality finished products as customers request, and finally delivering the finished products on time. In addition, the company has a policy to improve the quality of products, claim the products or paying compensation of unqualified products to ensure every transaction is fair to customers. The company has a specific team of staffs who manage and operate such policy.

3.2 Employees: The company realizes the importance of both machine/equipment power and human power as factors leading the company to reach business goals. The key point is machines and equipments cannot work well without controlling and maintenance of mechanic experts. Including, professional management team who creates the business strategies and overall operational workers of every department who work to support those strategies, all are important to the company since was founded. As a result, the company not only remunerates fair salary, wage, or bonus, but good welfare and security as well. The examples are as follows;

- The company has established the provident fund for employees, so they can save the money for life after leave, disability or retirement. The company's current policy is contribution in the same amount that employees pay into the fund each month.
- Safety in the workplace, workers are given a set of wearing apparel and safety equipment for working in a factory to protect them from accidents that may occur during operation. Also, there are training activities to prevent or mitigate accidents that may occur; for instance, fire elimination coaching, training on how to work safely and correctly for positions that are vulnerable to insecurity, first aid and transporting injured people and so on. If the accident happens, employees will be received a medical care payment from the Social Security Fund. Moreover, according to the company's policy, employees will be received more assistance in

special cases. If they have to take leave due to such accidents, the company would continue to pay wage / salary as usual.

The company has a policy about Safety in Workplace as follows:

บริษัท ซีเอสที สตีลเซ็นเตอร์ จำกัด (มหาชน)

CSP STEEL CENTER PUBLIC COMPANY LIMITED

The Policy of Safety

Safety First

8 Principles of Safety in Workplace

1. Safety in Workplace is the first work responsibility of every employee and every position.
2. The company shall support to improve safety in working conditions and environment.
3. The company shall support to create all related activities about safety to motivate all employees to concern about safety; for example, training, PR and campaign about Safety competition, etc.
4. Every supervisor must be a good leader and example of Safety by being a leader, trainer and attract employees to follow the work operation with Safety.
5. Every employee must concern own Safety, colleagues and the company's properties all through the working time.
6. Every employee must concern about cleanness and tidiness of the working areas.
7. Every employee must be willing to participate in the project of Occupational Safety, Health and Environment of the company. Also, influence in sharing the ideas to improve working condition, working implementation with Safety.
8. The company shall always evaluate the results of implementation whether conforming the above policy.

SAFETY BEGINS WITH YOU

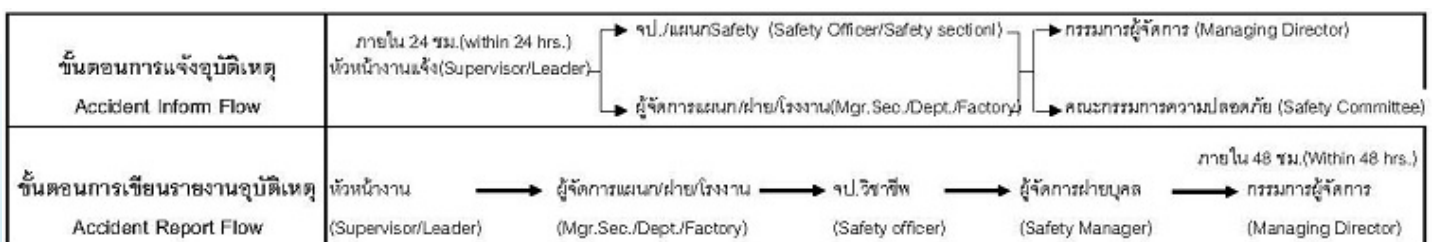

Mr. Kritsada Chaisupat
Chairman of Occupational Safety, Health and Environment Committee

Additionally, the company set the Occupational Safety, Health and Environment Committee of the Company according to Ministerial Regulation on the Prescribing of Standard for Administration and Management of Occupational Safety, Health and Environment in Workplace B.E. 2549 (A.D.2006). Their responsibilities are:

1. Consider the policy and plan of safety inside/outside the workplace in order to protect and mitigate the risk of accidents, sicknesses, disturbance from working, unsafety situations and propose such policy and plan to the management for approval.
2. Report and share ideas about regulations or improvement methods, conforming to the law of Standard for Administration and Management of Occupational Safety, Health and Environment in Workplace; in order to enhance the working safety of employees, sub-contractors and outsiders who work or service in the company's areas.
3. Enhance and support all activities, relating to safety in the workplace.
4. Consider regulations and tools for safety in the workplace, including standard of safety in the workplace, then propose them to the management.
5. Monitor implementation of safety in the workplace and do the statistic of accidents occurred in the workplace at least 1 time in a month.
6. Consider projects or plans about training of safety in the workplace, including projects or plans about training of responsibilities of employees, supervisors, management, employers and every level of Human Resources of the company, then propose them to the management.
7. Set the system of reporting unsafety situations which is the responsibility of every level of employees in the company must conform.
8. Follow up the results and feedback of all assignments that proposed to the management.
9. Report annual results of implementation and identifying problems, obstacles and practical suggestions to the management whenever the committee completes duties for 1 year.
10. Evaluate the results of implementation of safety in the workplace.
11. Implement other relating assignments as the management assigned.

Moreover, whenever the accidents in the workplace occur, the company will check and do “Accident Incident Investigation Report” which has the following details: Personal Detail, Accident Detail, Accident/Incident Evaluation, Description of Accident /Incident and Pictures (if any), Accident Analysis, Corrective and Preventive action, Suggestion/comment from Safety Manager/Safety officer and Follow up Corrective and Preventive action by Safety officer. The Accident Inform Flow and Accident Report Flow are as follows:

In 2017, the Statistic of Accidents in the Workplace and Actual Lost-Work Day from the Accidents are as follows:

Accident Date	Department	Accident Evaluation	Actual Lost-Work Day
17/2/2017	Maintenance	Level3: Lost-Work Day >= 3 days	19 days
17/3/2017	Transportation	Level3: Lost-Work Day >= 3 days	10 days
28/3/2017	Production	Level2: Lost-Work Day <= 3 days	2 days
11/8/2017	Maintenance	Level2: Lost-Work Day <= 3 days	1 day
29/10/2017	Transportation	Level3: Lost-Work Day >= 3 days	74 days
25/11/2017	Maintenance	Level3: Lost-Work Day >= 3 days	30 days
6/12/2017	Production	Level3: Lost-Work Day >= 3 days	21 days
7 Accidents			157 days

According to the above the Statistic in the year 2017, the ratio of Actual Lost-Work Day is around 44.85% of all numbers of working day in 2017. It shows very higher number than the previous years which showed only around 5%. However, there were only 7 accidents occurred during a year, but most of them were severe accidents. That's why employees had to take leave for a long period and actual lost-work day therefore had very high number. However, the company still has a strong commitment to conform to the policy of safety in the workplace by arranging 100% of safety training syllabus and the company still has a commitment to achieve the target 0% of accidents in the next year.

- There's an annual health check activity. The company has a policy to contribute all employees to receive an annual health check every year in order that the company would aware of the physical health of workers to prevent accidents, including to show concern for the health of all employees and to encourage employees concerning about their own health care.
- There is a policy to have annual travelling and annual banquet if the company's performance is satisfied in each year. The main purpose is to strengthen the relationship between all employees in the company also, to encourage all employees being committed to work effectively for the company's achievement.
- Development of the company's employees.

Policy of Human Resources Development

As the company realizes that Human Resources is one of the most important resources of the company, not less important than the machines in the production lines. Developing Human Resources to have abilities

according with the policy and current situations of the company is very significant because the good quality employees can lead the company to have the sustainable efficient work operations. As a result, the company designed the HR Development Model and conform it. The model called “3 Dimensions of Knowledge”:

- 1. Operational Knowledge:** The company intends to train and educate all employees about working processes or working operations, working techniques, how to apply working tools/hardware/software which facilitate the employees to work correctly, safe, healthy and good for environment. Also, The company intends to train about enhancing conforming rules and regulations of working in the workplace and great attitude to the organization. The purposes are effective performance, good quality of products and services, and they can achieve the working objectives. Besides, the company allows all employees to participate developing the company’s operations by suggesting to improve their own working processes in order to increase the efficiency of their working system, including conforming the working standard of ISO 9001.
- 2. Managerial / Strategic Knowledge:** The company intends to enhance all employees about efficient Managerial / Strategic Knowledge in order to lead them to innovate about improving their own working operations for better efficiency and facilitation of systems until can achieve the business objective of the organization together.
- 3. Developmental News / Knowledge:** Not only Operational Knowledge and Strategic Knowledge, but also other Developmental Knowledge that the company intends to support and motivate the employees. The company intends to support employees to learn about outside news / developmental knowledge in economic, related industrial, social, cultural, technological, and other developmental knowledge/news that can enhance the full dimensions of employees’ knowledge because the company believes that those knowledge/news can motivate creativity or innovation skill of employees to improve the current system to be up to date with the fast moving world by applying them with the knowledge of operation and strategy. Due to such applying, the innovation/creativity results will be easily practical in the real working life as well.

Moreover, employees of the company could be divided into 4 levels in order to facilitate designing training programs/activities for each level. Those are:

- 1. Director Level:** directors and committees of the company. They are appropriate to be focus training on Managerial / Strategic Knowledge and Developmental News / Knowledge. The company intends to motivate this level to attend training of Thai Institute of Directors (IOD), Stock Exchange of Thailand (SET), Securities and Exchange Commission of Thailand (SEC) and any other relating training programs

in order to enhance their knowledge and understanding about roles, responsibilities and skills of being a director, including acknowledging a new relating rules or regulations of those institutions.

2. **Management/Supervisor Level:** Executive Management, President, Managing Director, Executive Vice President, Manager and Supervisor in many departments. They are appropriate to be focus training on all 3 dimensions of knowledge almost in the equal proportion because they need to understand and have an ability to check the operation results of the subordinate whether their results are correct or efficient. Meanwhile, they need to have managerial knowledge to manage subordinate to work systematically and effectively. Also, they should be able to improve the working process/operation to benefit the organization. Regarding the executive management, they should focus training on Managerial / Strategic Knowledge and Developmental News / Knowledge such as various academic seminars: business strategies, global economic and financial outlooks which those concepts and data used to support decision making in management because they are the top leaders of the organization and have to determine the business policy and strategy to lead the organization to achieve the business objective together, even the organization have to face with the fluctuated economic situation. Also, the executive management who are the director as well should be trained by the same training program as director level.
3. **Office Operator Level:** the employees who work in the office are appropriate to focus training on how to maximize correction and effectiveness of work operations. The suitable training programs should focus on working techniques or methods for each duty in different departments.
4. **Factory Operator Level:** the employees who work in the factory are appropriate to be trained similar to the Office Operator Level which is how to maximize correction and effectiveness of work operations. However, the company intends to train both of them about Managerial / Strategic Knowledge as well in order to develop their developing skill, so they can suggest or share their ideas with the commanders about improving their working systems/operations. Also, they will have an opportunity to develop themselves to grow up in own career path.

The Core Policy of Human Resources Development:

1. The company realizes the importance of human resources and intends to develop their knowledge in order to achieve the business policy and objective of the company together.
2. The company shall conform the model called “3 Dimensions of Knowledge”: Operational Knowledge, Managerial / Strategic Knowledge, and Developmental News / Knowledge by both of in- house training and outside training.

3. The company shall support and motivate employees of all departments to be trained as determined plan/target which according with “3 Dimensions of Knowledge” and the business policy.
4. The company shall support every relating activity (as appropriate) even they derive from the employees’ ideas.
5. The commanders shall be a leader and support subordinates to increase their learning attempt in accordance with “3 Dimensions of Knowledge”.
6. Every employee shall participate in every related training activity as the commanders assigned.
7. The target of the company’s training shall be divided into 4 levels: 1. Director Level, 2. Management/Supervisor Level, 3. Office Operator Level, and 4. Factory Operator Level which proportion of “3 Dimensions of Knowledge” in each level shall be suitably applied for each year.
8. The company has the major target ratio that the employees of the company shall be trained at least 50% of total numbers of employees in each year, according to the determination of Department of Skill Development of Thailand.
9. The HR Department of the company shall process all documents about in-house training approval and outside training approval, including preparing related documents for submitting to the determination of Department of Skill Development of Thailand.
10. The company shall monitor/evaluate the results or feedback after training for both in-house training and outside training.
11. All new employees of factory must be trained about the Occupational Safety, Health and Environment Program in order to work and operate in the workplace with safety. Regarding all new office employees, they must be attend orientation program as well.
12. The company shall support the employees who are trained to teach or share their knowledge to relating colleagues in order that the employees can maximize their benefit of knowledge to improve or develop the efficiency of working systems/processes of the company.
13. The company realizes the importance of knowledgeable employees by annual considering their position promoting for their growing up in own career path.
14. The company encourages employees studying at a higher level which they may request a waiver of working time to match with their study schedule.

5. Responsibilities of the Board

5.1 Board Structure

- The board comprises of directors who have diversified skills, experiences, knowledge and those skills are valuable to the business of company.
- The board of the company has an appropriate number of its members and composed of 5 and no more than 12 directors.

Currently, the Board of the company comprises of:

- 3 Executive Directors
- 3 Non-Executive Directors
- 3 Independent / Audit Committees
- The board of the company has independent directors who comment on the performance of the management independently. The number of independent directors should meet or exceed SEC requirements. However, if the chairman of the board and the managing director /CEO of the company is the same person, or is not an independent director, or is a member of managing director/ CEO, or is a member of management, the independent directors shall make up more than 50% of the board.

Currently, the independent/audit directors of the company comprise of 3 directors who are qualified in knowledge, skills, experiences and have abilities to rigorous review financial performance and non-financial performance. Although, there are only 3 independent directors represent 37.50% of total directors, the company plans to increase the numbers of independent directors in the future for showing good balance of power (more than 50% of the board). During the Annual General Meeting of the year 2014. (March 28, 2014) shareholders approved to set 4 Nomination and Remuneration Committees. The Nomination and Remuneration Committee is responsible to consider/review the remuneration of directors and management, select and present the list of qualified persons to the Board of Directors and/or shareholders in the Annual General Meeting.

- The independent/audit committees have served on the board not beyond 3 years and at least one of them has to be adequate specialized in accounting and finance in order to accurately and reliably review the company's financial statements. However, when the duration of holding the position of independent/audit committees is expired, they could be appointed to hold the position again as approval of the Annual General Meeting.

- According to the Articles of Association in topic number 3: Directors and Authorities of Directors, clause 18: in the Annual General Meeting, one-third of the Board of Directors shall retire by rotation, and if the number of directors cannot be divided exactly into three parts, closest to one-third of them shall be vacated and the first priority to retire is the director who has the longest period of holding the position. However, after they retire or vacated, they could be appointed to serve the position again as approval of the Annual General Meeting.

The period of holding the position of each director is shown in the annual report in topic of “Resume of Directors and Management”. Every Annual General Meeting would have an agenda of considering to voting for new directors to replace the expired directors as the above mentioned Articles of Association

- The board states the policies regarding board positions in other firms according to the Articles of Association in topic number 3, clause 29: “the company prohibits any directors to be a partner or director of private companies, public companies, or any other organizations who operate business in the same industry as the company’s and/or is a competitor of the company, except for acknowledging an approval from the board.
- The company has a Corporate Secretary who works as a recommender and informer the board about the points of law and regulations of SET, SEC, and any other related institutes, including oversee, follow up and coordinate all activities of the board.

Currently, the company has 1 Corporate Secretary. Her name, responsibilities and authorities in details can be considered in the annual report, in topic of “board of directors structure” and subtopic: “Corporate Secretary”. Her resume and experiences are disclosed in “Resume of Directors and Management” in the annual report

- The board not only has abilities to monitor and review the accuracy and reliability of financial statement and other information of the company as well as is responsible for good corporate governance by preparing and monitoring the performance of all sections of the company to adhere to the policy. Also, they often keep on meeting to update and enhance the policy of good corporate governance to be appropriate with the current situation.

The Board will always receive the approval of the Annual General Meeting of Shareholders to remain such a position. For more details such as the scope of authorities, qualifications of directors and committees can be considered as a topic: “Board of Directors Structure”

5.2 Committees

- During the Annual General Meeting of the year 2014. (March 28, 2014) shareholders approved to set 4 Nomination and Remuneration Committees.
- The majority of Nomination and Remuneration Committee of the company is independent directors at least 2/3 of all committees. The rest of them should be non-executives director and the chairman of the Nomination and Remuneration Committee of the company must be an independent director.
- The chairman of the board of directors is not either a chairman or a member of any committee, to ensure independence of the committees.
- The Nomination and Remuneration Committee will set its meetings at least 2 meetings in each year.
- The Nomination and Remuneration Committee has served on the board not beyond 3 years. However, when the duration of holding the position of independent/audit committees is expired, they could be appointed to serve the position again as approval of the Annual General Meeting.

For the responsibilities, authorities and other details can be considered in the annual report, in topic of “board of directors structure” and subtopic: “The Nomination and Remuneration Committee”.

5.3 Roles and Responsibilities of the board

- The board’s duties and responsibilities should include reviewing and approving key business matters, such as the vision and mission of the company, strategy, financial targets, risks, major plans of action and budget, etc. Also, Monitoring and follow-up the compliance of management on approval policies and plans, internal control and risk management, governing long-term business operations, including employee development and succession plan.
- One of the board’s duties and responsibilities is participating in determination of the company’s vision and mission and reviewing approval of vision and mission in every year by collaboration with other executives in the meeting for the financial statements approval at the beginning of the year. In the meeting, the board will discuss with management executives to review and determine vision, mission and improve the business strategy to be appropriate with the current situation. The strategy planning is systematically set up. That is after the board has already considered and approved the latest operational results, the board will discuss with management team about reasons and methods to develop strategies for the upcoming year.

They will concern many factors such as the current economic situation, steel world price, the customers' market situation, competitors' status and steel industry's situation, etc. Moreover, they need to analyze all related risks to determine vision, mission, business policy and strategies in order to achieve the short/long – term objectives of the company. Then, the management team will apply the determined vision, mission, objectives and strategies to set the action plans, budgets and annual key performance indicator (KPI). Finally, the management team will propose those plans to the board to be reviewed and approved for the real practices in the next step.

The board of the company reviews and approves vision, mission, and business objective every year. At the board meeting 1/2017 on February 26, 2017, the board and the management team collaborated to review about vision, mission, objective and strategies, according with the current situations of steel and economic world.

- The board has a duty to determine the policy of positioning in other companies of CEO. Currently, the board of the company determined that CEO of the company cannot be a director in other organizations, excepting for subsidiary company, holding company, affiliate company or any other company which the board approved.
- The board should set and approve a written corporate governance policy for the company and review the policy and compliance to the policy regularly, at least annually. Including, the board would follow up the results of conformity within organization about such corporate governance policy.
- The board encourages setting a written Code of Business Conduct for directors, management and all employees and it must be informed and communicated through overall sections of the company and everyone must conduct with transparency, honesty and morality. Also, compliance to the Code of Business Conduct should be closely monitored by the board.

At present, the company has the Code of Business Conduct for everyone in the company to conform and the board keeps monitoring the compliance to the Code of Business Conduct of everyone.

- The board should consider any conflict of interests thoroughly. Persons who have vested interests in a given transaction should not participate in decision-making process. The board should also monitor disclosure of transactions with conflict of interests to ensure accuracy and transparency.

- The board encourages the company setting a risks management policy to cover all risky activities/factors of the company, requests a report from management regularly to review and assess the effectiveness of risks management at least annually with the disclosure of risks management in the annual report.

At present, the company sets the policy of risk management. The risk management assesses the situation of the economic world and country outlook at least three months in advance for analyzing the risks that may arise and creating the prevention policies. Then, these policies will be communicated through all involving departments and the company should submit monthly reports to the Board for follow up and controlling the implementation of such policies. For more information, shareholders and investors could consider the topic: “Risk Factors and Risks Management” and “Internal Audit System”.

- The board should ensure that internal control system and risks management is adequate efficiency and disclose in the annual report.

Currently, the company decided to use the outsource to do the evaluation, analysis, giving suggestion about internal system of the organization, financial audit, compliance audit, review the related transaction, doing the report and propose to the Audit committee and the Board of Director. The Internal Audit system has been audited by I.N.J. Audit, which is an independent party for observing and commenting the Internal Audit system to be an efficiency system.

The evaluation of the adequacy in Internal Audit System and risks management in details are shown in “Report of Independent / Audit Committee” and “Internal Audit System” in the annual report.

- The board is responsible to clearly show the way of contact to Independent / Audit Committee via E-mail and telephone in case stakeholders need to criticize or complain to the company.

The detail of Whistle Blowing is mentioned as the above part: “Roles of Stakeholders”.

5.4 Board meetings

- The company set the quarterly meeting to monitor the accuracy of financial statements and performance of the company. However, the company will attempt to set the board of directors meeting at least 6 meetings within a year and for Audit committee, the company will convene the meeting regularly at least every 3 months.
- The company set the policy that the minimum attending quorum to approve the resolutions of the Board’s meeting shall be at least two-third of all directors.

- Before starting a new year, the company will set the schedule of the board meeting for all through the new year. This schedule will cover in both the board of directors and committee, including date, time, month and venue, then deliver it to all directors and committees for preparing themselves to be available for every meeting that will occur within upcoming year.
- The Board of Directors and the Audit Committee will be informed with all necessary documents at least 5 days in advance before the meeting day for allowing them to consider all information thoroughly.

4. Mr. Bunjerd Somsem	Nomination and Remuneration committee	2 / 2

- There is a Corporate Secretary who has duties to oversee the activities of the Board, record minute, arrange all files for monitoring and coordinate the implementation of the resolution by the Board.

5.5 Board and executives' self-assessment

- The Board of Directors assesses their own performance annually to consider the consequences and problems for further improvement which members of the board assess the performance of the board as a whole and on an individual basis. Criteria method and result of assessment are as follows:

1. Self-assessment of directors by the board

Criteria: regarding self-assessment form for the board of directors, the company implemented by adaption of SET's principles which can be divided into 2 parts:

Part 1: the board of director shall assess 6 issues as their comments to operation results. The 6 issues are as follows.

- 1) Structure and qualifications of the board of directors.
- 2) Roles, duties and responsibilities of the board of directors.
- 3) The board of directors' meetings.
- 4) The board of directors' working performance.
- 5) The board of directors' relationship and collaboration with the management team.
- 6) The board of directors' self-development and management team's development.

Part 2: The board of directors can comment or suggest any additional cases about operational performance of the board or any other operational performance of the company.

Assessment Method: the corporate secretary will submit the self-assessment form as the above criteria to all directors of the board at the end of every operation year. Then, the corporate secretary will gather and conclude the results to present at the first board of directors' meeting of the next year. The board of directors will review the results of assessment of the previous year and discuss to find the improvement ways together in every year.

2. Self-assessment of directors by individuals

Criteria: self-assessment form of directors for individuals can help each director to review and realize about responsibilities, principles and conducts that directors are supposed to do. Also, it can help the directors to develop themselves to work more efficiently. The assessment issues will accord with legal regulations, conducts and principles of SEC and SET. The issues are as follows:

- 1) Conducts and principles of implementation for directors.
- 2) Strategies determination, corporate governance and monitoring operations of the company.
- 3) Responsibilities to all stakeholders.

Assessment Method: the corporate secretary will submit the self-assessment form as the above criteria to all directors of the board at the end of every operation year. Then, the corporate secretary will gather and conclude the results to present at the first board of directors' meeting of the next year. The board of directors will review the results of assessment of the previous year and discuss to find the improvement ways together in every year.

3. The results of self-assessment of the board of directors and committees in the year 2017 are as follows:

Types of Committees	Result of Average Scores in 2017	Satisfaction Level
1. Board of directors	95.64 %	Excellent
2. Executive Committee	95.83 %	Excellent
3. Independent/Audit Committee	100.00 %	Excellent
4. Nomination and Remuneration Committee	100.00 %	Excellent
5. Individual	95.38 %	Excellent

- Regarding assessment of executives or management team of the company, not only the above assessment every year, but the board of directors and shareholders also consider the financial performance of the year as a main factor, then consider in terms of good corporate governance

whether executives can follow the policies and controls to ensure all employees follow policies that are defined or not.

5.6 Remuneration

- Remuneration of Executive and Non-Executive Director should be in accordance with performance of the company, roles, responsibilities, skills, experiences and the board policy.
- Annual remuneration of the board and top management should not higher than average remuneration cost of other companies in SET and average remuneration cost of other companies in the same section of industry. The remuneration should be considered to the maximum benefit of shareholders.
- The annual remuneration of the board and top management must be approved by the Annual General Meeting.
- The annual remuneration of managing director and top management must be complied with the approval of by the Annual General Meeting.

- The Nomination and Remuneration Committee has responsibilities to fairly determine and review remuneration of committees and Top management/Executives in both financial compensation and non-financial compensation, then, present overall such remuneration in total numbers as a budget to the Board of Directors to consider, present to ask for approval of shareholders in the Annual General Meeting of the company, and communicate the approval of remuneration to managing director to improve performance.
- Audit Fee
All fees of audit in 2017 are comprised of THB 440,000 of audit fee, THB 130,000 of inspection of financial statements in each quarter and non-audit fees: THB 60,000 of

transportation fee. All auditors, staffs and business of SP Audit Co., Ltd. are not related to the company at all.

In Addition, there are not any agreement of prepaid fees from pending audit services in 2017.

5.7 Board and management training

- The company encourages and facilitates training for all internal parties related to corporate governance such as directors, members of audit committee, executives, corporate secretary, etc. Training will enable them to continuously improve their performance. Training will conform to **“Policy of Human Resources Development”** which levels of Directors and Management shall be trained according to “3 Dimensions of Knowledge”: Operational Knowledge, Strategic/Managerial Knowledge, and Developmental News/Knowledge as follows:

- **Directors Level:** Both the board of directors and committee shall be focus training on Strategic/Managerial Knowledge, and Developmental News/Knowledge. The company intends to encourage them to attend trainings of Thai Institute of Directors (IOD), Stock Exchange of Thailand (SET), Securities and Exchange Commission of Thailand (SEC) and any other relating training programs in order to enhance their knowledge and understanding about roles, responsibilities and skills of being a director, including acknowledging a new relating rules or regulations of those institutions.

- **Executives / Management Level** are categorized in the same level as Management / Supervisor Level in the organization’s training model. This level are appropriate to be focus training on all 3 dimensions of knowledge almost in the equal proportion but the executive management, they should focus training on Managerial / Strategic Knowledge and Developmental News / Knowledge more than general supervisors level such as various academic seminars: business strategies, global economic and financial outlooks which those concepts and data used to support decision making in management because they are the top leaders of the organization and have to determine the business policy and strategy to lead the organization to achieve the business objective together, even the organization have to face with the fluctuated economic situation. Also, the executive management who are the director as well should be trained by the same training program as director level.

In 2017, the company encouraged the board of directors, committees and executives to attend the suitable training as follows:

- Every new directors will be provided with all documents and information that are useful to perform their duties, including an introduction to the nature of the business and the operations of the company by the chairman of the board.
- The board shall establish a succession plan for executives. The managing director shall report to the board about the plan in every year.

Currently, the top management of the company is members of Chaisupat family who are eligible, knowledgeable and have experiences in working with the company and in the steel business for long. In addition, the current president always transfers his knowledge and experiences to other top management who are members of the family till most of them can perform instead of each others. Also, managing director annually reports the succession plan to the board and encourages successors training both in-house and in other professional institutions. However, the Board still considers and searches for eligible executives who have knowledge and experiences in the steel business to become a part of top management team for further developing growth of the company.

Except for 5 categories of this Principles of Good Corporate Governance of the company, there are another 2 points that the board also concerns:

- The clear separation of responsibilities between the Board and management

The company has set the responsibilities between the Board and the management of the company clearly. The management team, including Chief Executive Officer and President has the primary responsibility to manage the operations of the company according to policy, Plan and budget that approved by the Board, also work as assignee of the Company to manage all business affairs of the company to comply with the rules, regulations and reaching the mission of the organization. On the other hand, the board has a main duty to determine the policy of the Company, approve the investment projects, assign the Board of Executive Directors and Audit Committee, inspect the adequacy of internal control and management in other sections, etc. For more information could consider the topic: "Board of Directors".

- The Aggregation or Segregation

The Board of Directors, the Executive Committee and Management have the freedom of choice and clear separation of power and authority. The Managing Director and CEO shall not the same person. But both of them may represent a group of major shareholders in the same group, so that important decisions need to be approved by committee of every group. In particular, the independent committee will need to play a big role in recommendation as a result of the balance of administration scrutinizing.

CORPORATE SOCIAL RESPONSIBILITY

More than 20 years that CSP Steel Center., Pcl. realizes not only the significance of good management to achieve business goals but also the significance of business ethics and good corporate governance as the vision: “We aim to be the one-stop service of high quality steel service center that satisfies the customer’s needs of various industries and to be a significant source who provides high quality steel material to such customers in order to enhance their competitive advantages regarding competition as domestic level, ASEAN level and global level. All these contributions are conducted to achieve the main purpose of sustainable growth together among the company, customers, trading partners and the nation.”

Policy of Corporate Social Responsibility

The company realizes to take responsibilities to overall stakeholders and care of society, community and environment along with the company’s business operation: Corporate Social Responsibilities: CSR. Significantly, the company determines “**Role of Stakeholders Policy**”, customers, employees, suppliers, trading partners, shareholders, accounts payable, competitors, governmental sections, communities and environment, then communicates and encourages everyone to conform. Last but not least, there are an inspection of feedback of conformation and often review the policy to improve it for implementation in the next year. The purpose is that the company would grow up and receive benefits along with all stakeholders’ benefits as defined in the company’s vision: “Keep Growing Together”

However, the company’s Policy of CSR could be divided into 2 parts:

- CSR In Process
- CSR After Process

The company follows CSR guidelines of SET which are can be defined into 8 principles as follows:

1. Business Ethics
2. Anti - Corruption
3. Respect for Human Rights
4. Fair Treat to Employees
5. Responsibility to Consumers
6. Environment Policy
7. Community Development
8. Innovation and Distribution of Innovation to Community

1) Business Ethics

The company and the Board of Directors realize the rights and importance of overall stakeholders, including customers, employees, trading partners, suppliers, shareholders or investors, creditors, competitors, community, environment and government sector. The company and the Board of Directors believe that a good relationship between the company and those stakeholders is significant factors of the company's earning and financial stability. Also, it creates sustainable growth to both the company and those stakeholders. (For more details, please consider as title: "Good Corporate Governance Report", sub-title: "Role of Stakeholders" in the Annual Report)

Additionally, the company has a good relationship policy with every sectors; for example, attending a member of "Metal Tube and Cold-Forming Steel Association" which shows that the company well cooperate with trading partners and even competitors to share business information and commerce for sustainable growth of the domestic steel industry.

2) Anti – Corruption

The company not only seriously conform the rules and regulations of the government sectors, but also anti – corruption that might occur within organization or between government sectors. The punishment could be highest to discharge and properly take legal action for motivating all employees to respect and conform the rules of the company and government sectors. Also, there is "Code of Business Conduct" of the company for employees to learn and implement.

Internal operations of the company were designed to ensure about power balance among employees and departments in almost every step which could prevent corruption within the company or among other organizations. Also, the company hires I.N.J. Audit to be internal audit, inspect, review operation systems, and report to Independent/Audit Committee. However, the Board of Directors and Independent/Audit Committee allow all insiders and outsiders of the company to complain, inform, or sending clues to them via the following channel:

Whistle Blowing

According to the policy of good corporate governance, the company allows all employees and every group of stakeholders can be a whistle blower about illegal behaviors, unethical behaviors, breaking rules regulations or policy of the company, corruption, violating rights or giving advices, comments about operations management of the company or improving about good corporate governance of the company. The company provides the channel for Whistle Blowing as follows:

Corporate Secretary

CSP Steel Center Public Company Limited

Address: 475 Rama3 Road, Bangklo, Bangkolaem, Bangkok 10120

Telephone: (66)2-2916314 Ext. 212

E-mail: bundit@cspsteel.com

Corporate Secretary will gather information and directly coordinate to the Board of Directors

Or direct call to **Independent / Audit Committee** Telephone: (66)2-689-0801

Process of Whistle Blowing

The whistle blowing, complaint, comments, and any advices will be deliver to suitable director/committee consider depending on each different case. The Corporate Secretary may ask for more information or additional evidences to investigate and make a decision about penalty or pass the cases to other local legal officers. The Corporate Secretary will continuously report the feedback and resolution or decision of the cases to the whistle blower within 1-2 weeks (depending different cases).

Measure of Protecting Whistle Blower

The company will confidentially keep all information about whistle blowing. All processes and investigation will concern about safety of whistle blower, including all collaborative persons / witnesses to prove the truth, As a result, all related persons can ensure that they will not be negatively impacted by the whistle blowing to the company.

3) Respect for Human Rights

The company respects about Human Rights by fair conduct and opportunity from every lower – position employees to executives or even new job applicators. The company does not support all types of discrimination: religion, races, genders, and ages if applicators are qualified for a job position as job description defined. The board of Directors also inspect all process and employees' behavior, regarding Human Rights.

The company always encourages all employees to concern about Human rights by communication of Human Resources department. However, if there is any confliction of Human rights, employees can inform to the Human Resources department or to Corporate Secretary, or channel of Whistle Blowing as shown in the previous part.

4) Fair Treat to Employees

The company treat to domestic and international labors equally. There are no any discrimination (refer to “Respect for Human Rights”), no labor force, respect to rights and freedom as Labors Law, fair hiring conditions, providing adequate / safe equipment, motivating welfare, developing quality of labors' life, professional training and fair job promotion. Besides, the company supports hiring in the fragile employees group such as disable labor (for some appropriate positions), elderly labor (the company allows retired employees who still want to work, continue working with the company by signing annual hiring agreement), etc.

Because of continuous conforming the above policy, the company has never faced to severe confliction about labors. The company always concerns that not only efficient power of machine to develop the company, but also professional labors, proficient employees and strategic executives to maintain and grow up the company sustainably.

However, the company allows employees can inform complaint to the Human Resources department or to Corporate Secretary, or direct phone number: (66)2-689-0801 to Independent/Audit Committees, or submitting case to Department of Labor.

(For more details, please consider as title: “Good Corporate Governance Report”, sub-title: “Role of Stakeholders-3.2 Employees” in the Annual Report and Part 2 number 9: “Good Corporate Governance” title: “Rights and Role of Stakeholders Policy” - 3.2 “Employees” in Disclosure report: Form 56-1)

5) Responsibility to Consumers

Although the products of the company are not consumer product, the company still concerns about responsibility to consumers due to industrial customers use the company's products as their materials. The company has a strong commitment to provide safe and high quality products and services to customers for producing the best finished goods to end-users. Consequently, the company's responsibility to consumers is related to policy of responsibility to customers which could be described as follows:

- Fair and proper Pricing. It is not only fair to customers, but also help to maintain balance of market price mechanism. Because steel is a commodity product, over-below fair price could impact on total steel price market and it will affect to business of trading partners, competitors, customers and finally consumers.
- Truly, fairly and accurately information to customers. Because if customers misunderstand about specification of steel material, they might produce the under - standard products which would harm consumers or end-users.
- Materials of the company in both hot rolled steel and cold rolled steel products are approved by TISI related to compulsory for steel product. Also, the company always has a good relationship with TISI.
- The company concerns about private information of customers. The company keeps customers' information as confidential information; for example, pricing, specification of steel by order. Those information will not be exposed except for allowance form customers.
- Guarantee and After Sale Service. If the company's product is not qualified as ordered, the company's QC staffs will go to inspect and fix the problems or the products would be claimed by paying fair money back or changing a new proper ones.
- Policy of continuous development of products and services. The company concerns about developing products and services to achieve higher and safer standard. Including, keep providing more various types of materials to satisfy all customers and consumers' needs in the future.
- To fairly maximize benefits to consumers, the company usually cooperate with customers in many both business activity and general activities.

(For more details, please consider as title: "Good Corporate Governance Report", sub-title: "Role of Stakeholders-3.1 Customers" in the Annual Report and Part 2 number 9: "Good Corporate Governance" title: "Rights and Role of Stakeholders Policy" - 3.1 "Customers" in Disclosure report: Form 56-1)

6) Environment Policy

Environment policy of the company related to the regulations of district office which defined principals as follows:

6.1 Prevention of Pollution

- Steel Service Center could create loud noise from cutting machine. However, the production of the company attempts to control the degree of such noise within safety limit as Department of Labor Protection and Welfare defined.
- The company set the rules for all employees who work in the factory to wear safety equipment for preventing from pollution and accident that could occur from a job. Also, supervisors has to usually inspect and follow up their conduct.
- Policy of reducing pollution from production process. The company encourage employees concern about cleanness and environment such as 5S campaign for maintaining cleanness of job area. Also, factory supervisors and QCM Supervisors have to usually inspect and follow up their conduct.
- The company has a policy to cooperate with community about environment by donating in labor, equipment or fund, depending on different situation.

6.2 Sustainable Resource Use

- The company's factory supports recycling of waste, leftover from production; for example, steel scrap from production would be gathered for selling to steel scrap traders to recycle system, engine oil from machine would be kept in proper closed containers for selling to entrepreneur relating waste treatment, steel straps or wood crates, that used for banding or planking steel, would be gathering for proper selling as well.
- To be organization culture, the company always educates and supports employees about knowledge of environmental management by creating many relating activities.

6.3 Climate Change Mitigation and Adaptation

- The company is only Steel Service Center, not upstream steel producer or milling, and the company' production is only about cutting and piping which having cooling system; therefore, there is no any hot pollution from production which is one factor of Climate Change. However, the

company still usually inspects about status of production and risks that might impact on Climate Change. Also, the company keeps maintaining and improving all machines such as improving cooling system of piping machine to reduce waste and enhance safer the energy, etc.

- Executives of the company support to planting big trees all around factory area to reduce, mitigate Climate Change and create better environment for job area.

6.4 Protection of the Environment, Biodiversity, and Restoration of Natural Habitats

- Before expanding production plan, the company would evaluate location, surrounding and environment whether it will harm or impact on a negative way more than Ministry of Industry determined.

- More than 20 years that the company always realizes the environment concern along with development of production because environment seems like one of stakeholders which can help the company to sustainably grow up.

- Related staffs of the company are allowed to train about Protection of the Environment, Biodiversity and Restoration of Natural Habitats to develop and improve factory's environment.

- The company motivates Protection of the Environment to be an organization culture by rewarding and punishment as different situation.

As the above conducts and principles, the company usually inspected by Department of Industrial Works, Ministry of Industry and all results are in limit as determined and never have problems about pollutions of noise, climate, poison or polluted water, also never faced to any other environmental confliction with community.

7) Communities Development

The company always realizes to develop organization along with good relationship with society and community. The important policy about it is growth of the company must not harm or irritate society and community and cordially cooperate with them to develop our community. Moreover, the company has a policy to grant assistance, receive complaint and exchange attitude to develop near society and community together. The examples of such activities are donating scholarships to students and schools, attending local cultural and traditional activities, supporting religious activities, donating and helping victims of natural

disasters, supporting hiring local labors to distribute revenue within near community, attending “White Factory” (Anti – Narcotic in factory) Campaign to support non-harm society and community, supporting providing or availability of foods and other significant products for low-revenue people in community, including alliance with government sectors and other private associations to develop society and community with the company’s knowledge, resource, and skill.

(For more details, please consider as title: “Good Corporate Governance Report”, sub-title: “Role of Stakeholders-3.7 Community and Society” and Pictures in Part 2: “CSR after Process Activities” in the Annual Report)

8) Innovation and Distribution of Innovation to Community

The company motivates all employees to create new innovation that could improve efficiency of production process, work-flow of operation, information management, documentation, or even management system. Those innovation not only enhances value to the business, but also should benefit to environment, society, community and other stakeholders. Lastly, the company have a policy to protect confidential knowledge or patent of other people or organization, same as own assets as well.

Reporting Process

The process of reporting started with thorough consideration of the Board of Directors about 9 stakeholders: customers, employees, trading partners, shareholders, accounts payable, competitors, society and community, environment and government sectors. The related policy and principals of the company are adapted from CSR Principles and guidelines of SET which currently determine 8 principles as describe above. However, the company would attempt to drill down into more details and cover other important aspects in the near future by applying “CSR Compass” of Securities and Exchange Commission and then, develop to “Global Reporting Initiative: GRI”.

For implementing those policy of CSR in Process, the company has already communicate principles and guidelines to all employees and assigned supervisors of each department to inspect and report to Executive Vice President in Human Resource and / or Corporate Secretary who will gather all information and report to the Board of Directors for improving better principles for the next level. Importantly, every

part of business process: production, other supporting department and management team have to concern and conform to such principles strictly and fairly in order to confirm that the company fairly operate business, concern environment, anti – corruption and respect rights and roles of stakeholders. However, in the near future, the Board of Directors has a plan to assign “CG & CSR Committee” to directly take responsible of CSR principles and guidelines, improve such principles, inspection, controlling, evaluating and developing KPI to evaluate all over connecting parts of the company.

Impact about CSR from Business Operation

In current, the company’s business operation and process have never breached the regulation about CSR as determined by SET (above 8 principles) and all implementation is still along with such 8 principles with no any negative impact on society, community, environment or other stakeholders.

CSR after Process Activities

The company always encourages business development along with CSR. The board of directors realizes that sustainable business existence and achievement are comprised of strong internal structure and society. Consequently, the board of directors impels to create many CSR after Process Activities; for instance, working environment, physical and mental health care of employees, working safety, environmental concern, community and social responsibilities. In year 2017, the company’s CSR after Process Activities were as follows:

1. On January 7, On January 9, 2017, as closed to the Lunar New Year, Mr. Weerasak Chaisupat, Managing Director of CSP Steel Center., PCL was invited to attend CSR Activity: “Lunar New Year UOB Commercial Banking” with UOB Bank, at Dhammasirisuksa Nonthaburi School. He attended by building flowerpots from recycle materials, planting young trees, and distributing foods and necessary equipment to students.

6. On July 17, 2017, Mr. Kritsada Chaisupat, Director and Executive Vice President in General Management, was a deputy of CSP Steel Center., PCL to donate scholarships and lunch funds to low revenue students of Wat Ratchabophit School, Bangkok.

Anti – Corruption Policy

The company not only seriously conform the rules and regulations of the government sectors, but also anti – corruption that might occur within organization or between government sectors. The punishment could be highest to discharge and properly take legal action for motivating all employees to respect and conform the rules of the company and government sectors. Also, there is “Code of Business Conduct” of the company for employees to learn and implement.

Moreover, the Board of Directors and Independent/Audit Committees take responsibilities to control everyone in the company to conform “Bribing or Corruption Laws”, also annually inspect and review every risky process. Internal operations of the company were designed to ensure about power balance among employees and departments in almost every step which could prevent corruption within the company or among other organizations. Also, the company hires I.N.J. Audit to be internal audit, inspect, review operation systems, and report to Independent/Audit Committee. However, the Board of Directors and Independent/Audit Committee allow all insiders and outsiders of the company to complain, inform, or sending clues to them via Corporate Secretary, or via the following channel:

Whistle Blowing

According to the policy of good corporate governance, the company allows all employees and every group of stakeholders can be a whistle blower about illegal behaviors, unethical behaviors, breaking rules regulations or policy of the company, corruption, violating rights or giving advices, comments about operations management of the company or improving about good corporate governance of the company. The company provides the channel for Whistle Blowing as follows:

Process of Whistle Blowing

The whistle blowing, complaint, comments, and any advices will be deliver to suitable director/committee consider depending on each different case. The Corporate Secretary may ask for more information or additional evidences to investigate and make a decision about penalty or pass the cases to other local legal officers. The Corporate Secretary will continuously report the feedback and resolution or decision of the cases to the whistle blower within 1-2 weeks (depending different cases).

Measure of Protecting Whistle Blower

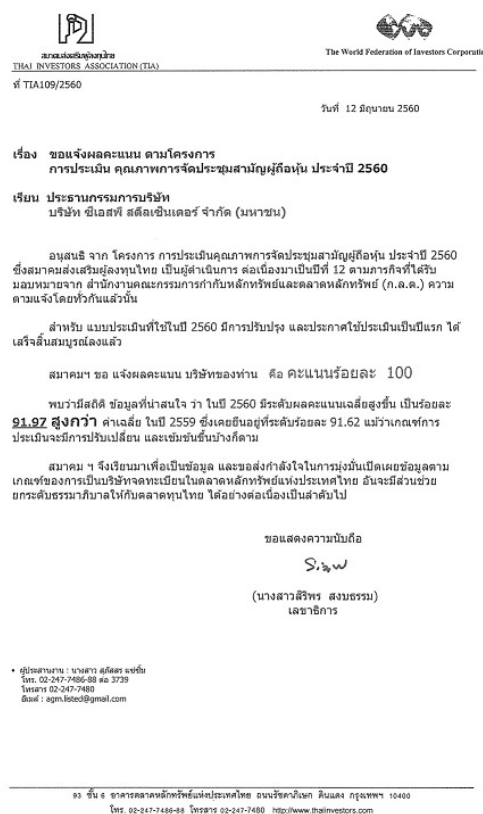

The company will confidentially keep all information about whistle blowing. All processes and investigation will concern about safety of whistle blower, including all collaborative persons / witnesses to prove the truth, As a result, all related persons can ensure that they will not be negatively impacted by the whistle blowing to the company.

Currently, there is no any signed agreement of Anti-Corruption with any association and the company currently does not sign to be one of “companies of Thailand's Private Sector Collective Action Coalition Against Corruption's Declaration of Intent” by Thailand’s Private Sector Collective Action against Corruption (CAC), because the company tried to learn and self-assessed about 71 principles and realized that the company is not be ready yet. The company has both office and factory levels of employees. Some departments still need more time to be educated and improved. As the regulation, if the company signs to this campaign, the company must strictly conform within 18 months. As a result, the company still needs more time for well preparation and improvement of the organization to ensure conformation ability to all those principles.

However, as the above policy and strong concerns of the Board of Directors, it proves that the company still intends and realizes about importance of this point and keep controlling all employees to conduct Anti – Corruption in both internal operation system and with other outside sectors, including government sectors.

Investor Relations Activities

The company encourages practices of CGR, including transparency and disclosure of operation and information to the public as the practices of Corporate Governance Report of Thai Listed Companies (year 2012). QUALITY STEEL
SERVICE CENTER

3. Moreover, all the year 2017, Mr. Weerasak Chaisupat, MD who is a representative of CSP Steel Center Co., Ltd. often gave an interviews with the presses in both printing media and online media. That information was all about the company's performance, opinions about outlook of economy and steel industry, upcoming new projects, new investment of the company and so on. The investors can follow up all those related news via the company's website: www.cspsteel.com in a section of "IR News Room" -> "IR News" or the following link: <http://www.cspsteel.com/news/group/13/3>

INTERNAL AUDIT SYSTEM

3rd Annual Board of Director's Meeting on August 10, 2017 which 3 of Audit Committees were in the meeting. They evaluated the adequacy in Internal Audit System evaluation of CSP Steel Center PLC. Also suggested that at present time the company has the appropriate Internal Audit System Evaluation according to SEC. Especially in related parties transaction with major shareholder and committee, management or involving people, the company already has the best way to control it. For the Internal Audit system for other department, the committee suggested that at present time, the company has sufficient Internal Audit system. The company decided to use the outsource to do the evaluation, analysis, giving suggestion about internal system of the organization, financial audit, compliance audit, review the related transaction, doing the report and propose to the Audit committee and the Board of Director. The Internal Audit system has been audited by I.N.J. Audit, which is an independent party for observing and commenting the Internal Audit system to be an efficiency system. Regarding their comments on July 14, 2017, about the importance of the aging report of trade receivables, the management shall closely monitor to manage the appropriate level of the trade receivables value. The executives agreed to have a commitment to keep monitoring such matter further. Now, all comments are in process of adjusting. Besides, other I.N.J.'s comments were also adjusted, as follows:

1. Organization and Environment

The company has a clear statement of the organization chart and all rules and responsibilities of the management. Setting the meeting for all employees to acknowledge about the company's objective. The company has set the annual objective by using the updated data for improving for the next year. Moreover, the company set the Code of Business Conduct as practices for all directors, executives and employees comfortably conform. After the board of directors oversaw how they conformed, the result was in the well satisfactory level, even there were some employees breached the Code of Business Conduct, such employees had already been punished as suitable method.

2. Risk Management

The management will evaluate the country risk assessment 3 months in advance for analyzing the risk that might occurs and find the way to reduce or destroy it. Moreover, the Board of Director shall receive the monthly report for analyze and control all the risks.

3. Controlling the Management Performance

The company assigned the clear statement of rules and responsibilities of all level of management. In addition, the company has the reviewing between each department. Present, the company has the effective rules of doing the related parties transaction of the major shareholder, committee, management and other involving person. All past related parties transactions were approved by the Board of Committee. However, after the becoming the public company, the company has assigned the committee to look after all related parties transactions. In the future, the committee who can approve the transaction must not be the beneficent one and must approve from the committee of the Security and Exchange market of Thailand.

4. Information System

In the past, the company has only an ineffective Board of Director's meeting system. However, after becoming the public company, the company follows the law by launching the meeting invitation letter with other important document to the committee 7 days in advance. For financial auditor, the company hires S.P. Audit Co., Ltd would be an officially financial auditor.

Nowadays, there are many IS and IT project development; for instance, installing Firewall system for preventing information hacker and controlling in-out of information in the company's network, Tracking and logging information of every users that communicate within organization, developing efficient Back-up system to sub-system of many departments., etc. Additionally, the company still keeps improving and updating policy of IT, IS and networking of the company for communicating and controlling users within organization.

5. Follow Up System

The company has the comparison of the business performance and the company target by inform about the different. If there is the different or mistake, it must be reported to the management for improving. There is no mistake for the company.

The selection of Internal Auditor, the company had considered the wide range of performance and report, so they use the Outsource and propose their name to the Board of Director to assign annually. Beginning in 2006, for the evaluation, the Board of Director secretary will be the middleman between the auditor and the Audit committee.

REPORT OF INDEPENDENT DIRECTOR / AUDIT COMMITTEE

(For the details, please consider as the following titles of the Annual Report)

AUDITOR OF INTERNAL SYSTEM

The company hires Outsource as auditor of internal system. They have to take responsibilities to analyze, evaluate and comment about internal system management, including Financial Audit, Operational Audit, Compliance Audit, audit of Related Parties Transactions and Report such auditing to Independent/Audit Committees.

Currently, the company's auditor of internal system is I.N.J. Audit by Mr. Nivet Jintanawichai as a manager who has duties on auditing, commenting about plan for the company development and reporting to Independent/Audit Committees.

Independent/Audit Committees agree that Mr. Nivet Jintanawichai of I.N.J. Audit has enough academic knowledge, experiences, training and qualified to take responsibilities of internal system audit of the company. I.N.J. Audit has become the company's auditor of internal system since September in 2005. However, Independent/Audit Committees always consider about qualifications of outsource who works as the company's auditor of internal system and determine that every change, assignation or demote of the company's auditor of internal system have to been approved by them.

SUMMARY OF FINANCIAL PERFORMANCE

CSP Steel Center Public Company Limited, the steel center provides all types steel sheet in coil and processing service by cutting a steel coil into steel sheet according to customer's size. Turnover of the Company's inventory is approximately 2-3 months for supporting demand from the customers. The company also sets the trading credit term for customers in a range of 30 – 120 days; therefore, the company needs a lot of working capital from both internal cash flow and short – term loans from financial institutes to support stocking and trading credits for customers. In addition, the increasing of sales volume, capacity of production lines and new piping line impact on much more working capital to support stocking and trading credits for customers.

Summary of Revenue from sales and percentage's sales amount in business unit.

In 2017, Revenue from Sale increasing from 2016, due to the sale price per kilogram was increased by 15.13% according to change of steel market price. However, some customers' domestic industries and Construction Industry have still been slowly recovered; as a result, sales volume decreased 9.54%. The main proportions of selling in the year 2017 were Whole sale/ Retail stores and Automotive Industry which were same as the previous years. The proportion of selling in Whole sale/ Retail stores and Automotive Industry in 2017 were 32.96% and 23.73%, respectively. The Company's operating results had net loss margin by 2.24%; however, for the results of operations within recent 4 years, the company is able to maintain the gross margin rate of profit (loss) by (1.03%) – 10.07%, and the rate of net profit (loss) by (6.68%) – 4.24%, which can be analyzed as follows:

ANALYSIS OF OPERATING RESULTS

The result of operation for the year 2017.

The revenue from sales was Baht 2,834.38 million and the cost of goods sold was Baht 2,573.40 million which was in ratio of 90.79% of revenue from sales. Gross profit margin ratio decreased, comparing to the last year's. The main reasons were high fluctuation of the price of raw materials, high domestic competition and some customers' domestic industries and Construction Industry have still been slowly recovered. As a result, sales volume decreased by 9.54%. Additionally, in year 2017, Import duty and Customs fines was accounted for Baht 188.49 Million Due to the Customs Department discovered that the Company had imported hot rolled coil steel products to be used in the automotive industry in the other condition which do not meet the conditions which qualifies for exemption from temporary import duty/protection duty. Considered that the Company lose the right of the exemption. (The Company had communicated the opinion to the Custom Officer that the Company had interpreted that the automotive industry as that it includes all vehicles including all types of vehicles with engines, and should be considered as motor vehicles according to general engineering. Therefore, it can be considered that the Company imported impure hot rolled steel products by using the right to exempt temporary import duty/protection duty to import impure hot rolled steel products for using in the automotive industry correctly) However, the Custom Officer has rejected the definition of "Automotive" as defined by the Department of Foreign Trade, Ministry of Commerce that the meaning covered only 4-wheels drive cars, pickups and 2-wheels motorcycles, excluding agricultural vehicles. (The Company has communicated the opinion to the Customs Department that the definition of "Automotive" as defined by the Department of Foreign Trade, The Ministry of Commerce is not specified in the Notification of Terms of Temporary Import Duty/Protection Duty on import of impure hot rolled coil product from the beginning and it was not announced to the entrepreneurs.) Therefore, the Customs Department has determined that the Company has breached the terms and conditions of exemption of temporary import duty/protection duty of imports of impure hot rolled steel products for using in the automotive industry. Therefore, the Board of the Directors considered and opined that the company shall proceed with the payment of the mentioned duty, the Value Added Taxes, and the Surcharged Penalty to the Customs Department in order to settle any possible disputes with the Customs Department and restricted any losses and damages the Company may suffer from the large amount payment of the Surcharge.

Excluding, the Import Duty and Customs fines, for the year end of December 31, 2017 the Company would have net profit amount Baht 124.88 Million increasing by Baht 9.33 Million compared to the same period of last year. Also, the net profit margin would be 4.38% of total revenues, increasing by 3.3% compared to the same period of last year, which had 4.24% of total revenues. It showed that the company would have the better profitability in the year 2017 instead.

The result of operation for the year 2016.

The revenue from sales was Baht 2,712.97 million and the cost of goods sold was Baht 2,439.68 million which was in a ratio of 89.93% of revenue from sales. Gross profit margin ratio increased, comparing to the last year's. The main reasons from the sale volume were increasing and more efficient management in production costs. There was a revenue from construction service was Baht 14.02 million and the cost of construction service was Baht 12.97 million which was 92.46% of revenue from construction service. This revenue came from construction service to some department of government. In 2016, the gross profit margin ratio was increased by 11.09%. The selling expenses were increasing from sale commission and transportation expense from increasing the sale volume. The administrative expenses were increased from the employee's base salary and welfare that were adjusted, according with the higher cost of living.

The result of operation for the year 2015.

The revenue from sales was Baht 2,645.84 million and cost of goods sold was Baht 2,673.08 million which was in a ratio of 101.03% of revenue from sales. The Company has gross loss due to the decreasing of sale's pricing around 15.28%, while the cost of goods sold was still high in early year. Moreover, financial cost of the company was increased from the last year due to increasing of short-loans from financial institutions for running business operation.

The result of operation for the year 2014.

In Year 2014, the revenue from sales was Baht 3,852.41 million and the cost of goods sold was Baht 3,545.56 million which was in a ratio of 92.03% of revenue from sales. Gross profit margin ratio increased, comparing to the last year's. The main reasons were decreasing of quantity of sales from the market competition, but increasing in average selling price 2.29%. However, the Company had

affected gain from fluctuated from exchange rate in amount of Baht 13.57 million or 129.26%, comparing to the year 2013's.

The result of operation for the year 2013.

The revenue from sales was Baht 3,979.89 million and the cost of goods sold was Baht 3,694.42 million which was in a ratio of 92.83% of revenue from sales, comparing with the last year's. The main reasons of this increasing gross profit margin came from more efficient management of material costs. However, The selling and administration expenses for the year 2013 increased by 13.08%, comparing to the same period of last year because the company was impacted on loss from exchange rate fluctuation in amount of Baht 46.38 million which was a new whole amount from the year 2012's. Moreover, the company had increasing in the employee's base salary and welfare that adjusting conform to the higher cost of living.

FINANCIAL STATEMENTS SUMMARY

The company's financial status summary for the year 2017, comparing with 2016 can be shown as follows:

1. Total Assets

As of December 31, 2017, the total assets were accounted for Baht 2,047.26 Million, increasing by Baht 6.83 Million or 0.33 %, compared to the same period of last year. The main reasons were as follows:

Accounts and Others Receivable was decreased by Baht 48.80 Million or 7.82%, compared to the same period of last year, because of the higher efficiency of debt management and debt collection.

Property, plant and equipment were increased by Baht 50.18 Million or 9.08%, compared to the same period of last year, due to transferring the work-in-process of Factory's Building to Building, investing in new machines and investing in new vehicles for transportation.

2. Total Liabilities

As of December 31, 2017, the total liabilities was accounted for Baht 1,431.46 Million, increased by Baht 118.12 Million or 9.00%, compared to the same period of last year, the main reasons were as follows :

Bank overdrafts and short-term loans from financial institutions were increased by Baht 192.09 Million or 16.99% compared to the same period of last year; in order to buy raw materials and finished goods for sale.

Trade and others payable were decreased by Baht 75.97 Million or 48.69%, compared to the same period of last year, due to less the balance of payable at the end of the year.

3. Shareholder's Equity

As of December 31, 2017, the shareholder's equity was accounted for Baht 615.80 Million, decreasing by Baht 111.29 Million or 15.31%, compared to the same period of last year. The decreased value derived from net loss for the period.

AUDIT FEE

SP AUDIT COMPANY LIMITED is an independent auditor whom doesn't have any relationship with the company. The annual audit fee was Baht 0.44 million per year, the financial review was Baht 130,000 per quarter and transportation fee did not exceed 60,000 Baht in 2017.

Non-Financial Performance

Market Share

Because the steel industry has many various types of products; therefore, there are a lot of levels and numbers of different domestic steel entrepreneurs in Thailand to serve the different customers' needs. As a result, it is very difficult to define the exact rank or marketing statistics of this industry.

However, if there is a consideration about the steel service centers which only owned by Thai major shareholders and their products/services serve to Automotive Industry to use as materials for auto-parts manufacturing, CSP Steel Center Public Company Limited could be one - fifth of the Market Share Leader in this market segment.

(Source: considering from the privileged entrepreneurs list of the free trade agreement between Thailand and Japan: "Japan–Thailand Economic Partnership Agreement (JTEPA)" in the year 2016).

Customers Satisfaction Evaluation

Due to the policy of Satisfactory Level of company's customers, the company determines to do the Customers Satisfaction Evaluation in every half year. The company will make a random survey from many various customers, then record and manage the information with the efficient system. All those survey topics will accord with the company's policy and mission about achieving the customer's needs of various industries. The results of Customers Satisfaction Evaluation will be discussed and analyzed to find the solutions or improvement in a meeting of Management Review with attending of management team and every related supervisors. Moreover, the management team and supervisors will monitor about the performance of meeting's resolutions. For the year 2017, the results of Customers Satisfaction Evaluation are as follows:

Satisfaction Criteria:

Level AA: 91-100 %	Level B: 70-79 %	Level D: 50-59 %
Level A: 80-90 %	Level C: 60-69 %	Level E: Lower than 50 %

Remark: If the total score of evaluation is 50-59%, only low - score topics will have to be seriously improved.

If the total score of evaluation is lower than 50%, all processes of the system will have to be seriously improved.

The results of Customers Satisfaction Evaluation:

Month of Evaluation	Average Score (%)	Score Level
May 2017	80.47	A
November 2017	83.35	A
Total Average score for the year	81.91	A

According to the above results of Customers Satisfaction Evaluation in 2017, the company had Total Average score for the year: 81.91%, which was 'A' Score Level. It means that the performance of the company about Customer Satisfaction was good. Also, it was more than the last year's which was 80.77%, but it's still not excellent (Level AA) due to gaining some 'C' and 'D' score from several customers. Consequently, the company admitted for all comments and recommendations to improve all related business operations with a strong commitment to develop products and services to serve the next level of all customers' satisfaction in every year.

REPORT OF DIRECTORS

RELATING TO RESPONSIBILITY FOR FINANCIAL STATEMENTS

The Board of Director is responsible for CSP Steel Center Public Company Limited (“The Company”)’s financial statements including financial information presented in the annual report. The financial statements have been prepared by management in conformity with generally accepted accounting principles, with appropriated accounting policies applying consistently; and based on management’s best estimates and judgments, with adequate disclosure of material issues for the best interest of shareholders and investors.

The Board of Directors has set up and maintains effective internal control system designed to provide management with reasonable assurance that transactions are recorded properly, the assets are safeguarded and that material frauds and malpractices are precluded.

The Board of Directors also appointed the Audit Committee to review the accounting policies, the accuracy and sufficiency of the company’s financial reports and to ensure the adequacy and the efficiency of the internal control systems as well as the risk management system of the Company. Opinion of the Audit Committee is shown in Audit Committee’s Report published in this annual report.

The Company’s financial statements also were audited by an independent certified public accountant from SP Audit Company Limited. The Board of Directors also provides document and information support so that the auditor can perform audits of the financial statements in accordance with generally accepted auditing standards to express his independent opinion on the true and fair of the financial positions and the results of the company’s operations as stated in the financial statements. Audit’s Report is also shown in this annual report.

The Board of Directors is of an opinion that the internal control system of the Company is satisfactory and can ensure the credibility of CSP Steel Center Public Company Limited’s financial report for the fiscal year ended 31st December 2017 in accordance with generally accepted auditing standards and its compliance with the laws and related legislation.

Mr. Charus Khanchanakhajit

Chairman of Independent Director /

Audit committee

February 28, 2018

REPORT OF NOMINATION AND REMUNERATION COMMITTEE

The Nomination and Remuneration Committee of the company comprises of 4 committees from Audit/Independent Committee and Non-Executive Director as follows:

Mr. Charus	Khanchanakhajit	Chairman of Nomination and Remuneration committee
Mr. Janram	Atthakrisna	Nomination and Remuneration committee
Mr. Surachat	Pongpattarrine	Nomination and Remuneration committee
Mr. Bunjerd	Somsem	Nomination and Remuneration committee

The Nomination and Remuneration Committee of the company had conducted assignments from the Board of Directors of the company to recruit, consider and present qualified persons to replace the expired directors/committees or executive positions or any other vacant relevant positions or as determination by new law with reasonable consideration and conforming the determining policies and regulations of remuneration of the company. Moreover, they had presented remuneration of directors, committees and Top Management/Executives of the company in both financial compensation and non-financial compensation, including presented overall such remuneration in total numbers as a budget to the Board of Directors to consider and present to ask for approval of shareholders in the Annual General Meeting of the company.

According to meeting record of the company in 2017, there are 2 Nomination and Remuneration Committee's meetings which can show the numbers of attending the meeting as follows:

Name	Position	Attending Meeting/ Total Meeting (times per year)
1. Mr. Charus Khanchanakhajit	Chairman of Nomination and Remuneration committee	2 / 2
2. Mr. Janram Atthakrisna	Nomination and Remuneration committee	2 / 2
3. Mr. Surachat Pongpattarrine	Nomination and Remuneration committee	2 / 2
4. Mr. Bunjerd Somsem	Nomination and Remuneration committee	2 / 2

Conclusively, in the meetings of Nomination and Remuneration Committee of the company, they had already considered the important relevant matters and reported resolutions with significant comments and suggestions to the Board of Directors of the company for consideration as follows:

1. The Nomination and Remuneration Committee recruited, considered and presented qualified persons, conforming to the regulations of SEC, SET and non-related to forbidden criteria according to the laws, including qualification of knowledge, capabilities and work experiences that are beneficial to the company's growth; in order to replace the expired directors/committees or executive positions or any other vacant relevant positions. Then, presenting the list of qualified persons to the Board of Directors and/or shareholders in the Annual General Meeting. The directors/committees/persons who have special interests would not attend and vote for this agenda item.
2. The Nomination and Remuneration Committee presented a new Executive Vice President in Human Resources to replace Mrs. Suwimon Chaisupat, a deputy of this position. In the Nomination and Remuneration Committee's meeting no. 1/2017, on February 25, 2017, the committee approved Miss Wunthakarn Junthacot who had been a Human Resources Manager of the company since the year 2015 to take a position of Executive Vice President in Human Resources of the company because for all through 2 years of her working as HR Manager, her performance was very good, excellent responsibility, able to achieve all assignments, loyal to the organization and able to adapt her HR knowledge to recommend the management team to make decisions about HR management. Consequently, the committee approved Miss Wunthakarn Junthacot to take a position of Executive Vice President in Human Resources to replace Mrs. Suwimon Chaisupat, a deputy of this position.
3. The Nomination and Remuneration Committee considered and suggested about performance of the Board of Directors and Management Team for every half year by considering not only the financial statements, but also operation's results and other managerial performances.
4. The Nomination and Remuneration Committee considered and determined policies and regulations of remuneration of the company. Also, reviewing existing remuneration structure of the Board of Directors and Committees, including determining overall such remuneration in total numbers as a budget to the Board of Directors to consider and presenting to ask for approval of shareholders in the Annual General Meeting of the company. All criteria that the committee concerned for reviewing remuneration were the company's operation results, duties and responsibilities, average

remuneration cost of other companies in the same section of industry, also motivation to qualified persons. For the year 2017, the Board of Directors and The Annual General Meeting of Shareholders approved it appropriate that total remuneration of directors/committees must not exceed Baht 2,000,000 (excluding salary and bonus of Executive Directors) which was the same rate as that of 2016.

In conclusion, the Nomination and Remuneration Committee had already completed all assignments with carefulness, fairness, honesty, transparency and independency according to the good corporate governance, and concerning about maximizing the benefits of the organization and all stakeholders.

Mr. Charus Khanchanakhajit

Chairman of Nomination and Remuneration committee

(TRANSLATION)

REPORT OF THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANT

To the Shareholders of CSP Steel Center Public Company Limited.

Opinion

I have audited the financial statements of CSP Steel Center Public Company Limited (the Company), which comprise the statement of financial position as at December 31, 2017, and the statement of comprehensive income, statement of changes in shareholders' equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the CSP Steel Center Public Company Limited as at December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Federation of Accounting Professions under the Royal Patronage of his Majesty the King's Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to our audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Valuation of inventories

As at December 31, 2017, the Company had inventories of Baht 851.11 million which the company's inventories are valued in the statement of financial position at cost or net realizable value whichever were lower (Note no. 3.3 and 8) I focus on this area because that estimated net realizable value involve management's judgments and the amount of inventories are significant to the financial statements.

Key Audit Procedures

I reviewed the Company's policy to measure the net realizable value of inventories was appropriate and accordance with the requirement of Thai Financial Reporting Standards and reviewed the appropriateness consistency of the methods for making the estimated net realizable value.

I understood the method for making, reviewing and authorization of estimated net realizable value and

I audited evidences sufficiently and appropriately about to reliability of selling price of inventories that occurred after the reporting period and estimated costs necessary to make sale that they were used to make the estimated net realizable value. Apart from this, I recalculated the mathematical accuracy estimated net realizable value.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charge with governance to correct the materially misstatement.

Responsibilities of Management and Those Charge with Governance for the Financial Statements

Managements is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I have required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

SP Audit Company Limited

Cash and cash equivalent at the end of the year	23.1	6,838,827.65	9,290,618.79

Notes to the financial statements are an integral part of these statements.

NOTES TO FINANCIAL STATEMENTS

CSP STEEL CENTER PUBLIC COMPANY LIMITED

December 31, 2017 and 2016

1. [General information](#)

CSP Steel Center Public Company Limited (“the Company”) is a public limited company and incorporated in Thailand. The Company is listed on the Stock Exchange of Thailand. The address of the Company’s registered office is 475 Rama 3 Road, Bangklo, Bangkolaem, Bangkok.

The principal activities of the Company involve the manufacture and sheet steel finished goods and rolled steel pipe.

2. [Basis of preparation of financial statements](#)

The financial statements are presented in Thai language and Thai Baht, and in conformity with Thai generally accepted accounting principles under the Accounting Act B.E. 2543, being those Thai Accounting Standards issued under the Accounting Profession Act B.E. 2547, and the financial reporting requirements of the Capital Market Supervisory Board under the Securities and Exchange Act B.E. 2535 (or 1992).

The financial statements have been prepared under the historical cost convention except some type of transaction using the basis as per explained in the related accounting policy.

The preparation of financial statements in conformity with Thai Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses in the reported periods. Actual results may differ from those estimates.

For the convenience of readers, an English language translation of the financial statements has been prepared from the Thai language interim financial statements which are issued for domestic reporting purposes.

The Federation of Accounting Profession (FAP) has notified to apply the following financial reporting standards to the financial statements having an accounting period beginning on or after January 1, 2017.

TFRS No. 2 Share-based Payment (revised 2016)
 TFRS No. 3 Business Combinations (revised 2016)

TSIC No. 32 Intangible Assets - Web Site Costs (revised 2017)	January 1, 2018

The Company has not early adopted such financial reporting standards having the effective date to the financial statements on the future periods before the effective dates. The management is currently assessing the first-year impact on the Company's financial statements.

3. [Accounting policies](#)

3.1 Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits with banks and other short-term highly liquid investments with original maturities of three months or less and free from restrictions.

3.2 Trade receivable

Trade receivable are carried in the statement of financial position at the amount expected to be collectible. For the allowance for doubtful debt considers from those receivable which are likely to be uncollectible. The amount of the allowance is the difference between the carrying amount of the receivable and the amount expected to be collectible. Bad debts are written off during the year in which they are identified.

3.3 Inventory

Raw material and finish goods are valued at cost under moving average method or net realizable value whichever is lower. The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties and transportation charge, less all attributable discounts, allowances or rebates. The cost of finished goods comprises raw materials, direct labour, other direct costs and related production overheads, the latter being allocated on the basis of normal operating activities.

3.4 Investment property

Investment property, which is property held to earn rentals or for capital appreciation is measured initially at its costs, including transaction cost. Subsequent to initial recognition, investment property is measured at the cost method net from the allowance for impairment (if any).

3.5 Property, plant and equipment

The Land and assets under construction held for use in the production or supply of goods or services, or for administrative purposes, are stated in the statement of financial position at their historical cost less accumulated impairment losses (if any).

Buildings and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the statement of financial position at their historical cost less accumulated depreciation and accumulated impairment losses (if any).

The cost of an item of asset comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, and the borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset.

The Company's depreciation is calculated on the straight-line method to write off the cost of each asset, except for land and assets under construction, to their residual values over their estimated useful life as follows:

Building and building improvement	35 years
Machinery	6 - 25 years
Tool and equipment	5 years
Office equipment	5 years
Motor vehicles	5 - 20 years

The residual value, the useful life and the depreciation method of an asset will be reviewed at least at each financial year-end

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

3.6 Intangible assets

Intangible assets that are acquired by the Company, which have finite useful lives, are stated at cost less accumulated amortization and impairment losses (if any). Amortization is calculated using the straight-line method to allocate the cost over their estimated useful lives 10 years.

3.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying assets, which are assets that necessarily takes a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

3.8 Accounting for leases

Where the Company is the lessee

Long term leases which substantially transferred all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased property or the present value of the minimum lease payments. Each lease payment is allocated to the principal and to the finance charges so as to achieve a constant rate on the finance balance outstanding. The outstanding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged in profit or loss over the lease period so as to achieve a constant periodic rate of interest on the remaining balance of the liability for each period. The assets acquired under finance leases while depreciation is carried throughout the useful life of leased asset. However, if there is uncertainty in the right of ownership when the contract is terminated, depreciation is carried according to useful life of leased assets or life of leased contract whichever the period is lower.

Long term leases not transferring a significant portion of the risks and rewards of ownership to the lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged in profit or loss on a straight-line basis over the period of the lease.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognized as an expense in the period in which termination takes place.

3.9 Impairment of assets

The carrying amounts of the Company's assets and also intangible assets are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the assets exceeds its recoverable amount which is the higher of an asset's net selling price and value in use. For the purposes of assessing impairment, assets are grouped at the lowest level for which there is separately identifiable cash flows.

The Company will recognize impairment losses in profit or loss, or reduce the revaluation increment in assets in case that those assets are previously revalued. The reversal of impairment losses will be recognized in profit or loss or as a revaluation increment in assets when there is an indication that the impairment losses are no longer exist or decreased.

3.10 Provisions

Provisions are recognized when the Company have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Company expects a provision to be reimbursed; the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

3.11 Revenue recognition

Sales are recognized on the delivery of goods or on customer acceptance. Sales are shown net of sales taxes and discounts.

Revenues from construction shall comprise the initial amount of revenue agreed in the contract and a claim collect from third parties are recognized on a percentage of completion basis. The percentage of completion is measured based on comparison of the completion of a physical proportion of the contract work at the end of the reporting period and the total contract work surveyed by the engineer project manager. In case, it is probable that the total construction costs will exceed the total construction income, the expected foreseeable loss is immediately recognized

as an expense in profit or loss. The recognized revenue which is not yet due per the contracts has been presented under the caption of “Unbilled receivables” in the statement of financial position. The unrecognized revenue which is due per the contracts has been presented under the caption of “Advances received from employers and construction revenue received in advance - third parties” in the statement of financial position.

Interest revenue is recognized on an accrual basis.

3.12 Employee benefits

Defined contribution plan

The Company operates a provident fund which is funded by payments from employees and by the Company. The assets for which are held in a separate trust fund. Contributions to the provident fund are recognized in profit or loss in the period in which they are incurred.

Defined benefit plan

The Company has the employee benefit obligation in case of retirement or termination under the labor law. The Company hires an actuary to calculate on an actuarial technique the said employee benefit obligation. The said employee benefit obligation is discounted using the projected unit credit method by reference to an interest rate of a government bond to determine the present value of the employee benefit obligation, current service cost and related interest expense. The current service cost and interest expense are recognized in profit or loss. Actuarial gains and losses arising from re-measurement of the employee benefit obligation are recognized in other comprehensive income and transferred in retained earnings, respectively without reclassification of those amounts to profit or loss in a subsequent period.

Other long-term employee benefit

The other long-term employee benefit obligation is calculated same as the calculation of the defined benefit plan. However, the current service cost, interest expense and actuarial gains and losses arising from re-measurement of the other long-term employee benefit obligation are recognized in profit or loss.

3.13 Foreign currency transactions

The Company translates foreign currency transactions into Baht using the exchange rate prevailing at the date of the transaction. Monetary assets and liabilities at the end of the reporting period denominated in foreign currencies are translated into Baht at the exchange rate prevailing at that date. Gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

3.14 Income tax

The Company recognizes the unpaid current tax for current period as a liability in the statement of financial position. In a case where the amount already paid in respect of current period exceeds the amount due for such period, the excess will be recognized as an asset in the statement of financial position.

The Company recognizes a deferred tax liability for all taxable temporary difference, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which affects neither accounting profit nor taxable profit at the time of the transaction. The Company recognizes a deferred tax asset for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that affects neither accounting profit nor taxable profit.

The Company measures the current tax liabilities and assets for the current period using the tax rate that have been enacted by the end of the reporting period. And the deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on tax rate that have been enacted or substantively enacted by the end of the reporting period.

The Company recognizes the current and deferred tax as an income or an expense and includes it in profit or loss for the period, except the current and deferred tax for items that are recognized in the other comprehensive income or directly in the equity will be recognized in the other comprehensive income or directly in the equity.

3.15 Financial instruments

Financial assets and liabilities carried on the statement of financial position include cash and cash equivalents, trade and other receivables, trade and other payables, and loan receivables and payables. The accounting policies on recognition and measurement of these items are disclosed in the respective accounting policies found in this Note.

Forward contracts are carried at fair value and presented in other current assets or other current liabilities. Unrealized gains or losses on changes in fair value are recognized in profit or loss.

3.16 The important accounting estimation, supposition and judgment application

The estimation, supposition and judgment application have been continuously reviewed and assessed and they are on the background of the history experience and other factors that include the expectation of the event in the future which believe that there are reasons in that situation.

Property, plant and equipment and intangible assets

Management determines the estimated useful lives and residual values for the Company's property, plant and equipment and intangible assets. Management will revise the depreciation charge where useful lives and residual values are different to previously estimated, or its will write off or write down technically obsolete or assets that have been sold or abandoned.

Financial lease/ Operation lease

The Company has entered into lease agreements for rental vehicle. The Company has determined, based on an evaluation on terms and conditions of the arrangements, that the lease transfers ownership of these assets to the lessee, and so accounts for the contracts as financial leases.

Employment benefits

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Estimated Service costs

The Group estimate costs of service projects based on details of the service work, taking into account the volume and value of materials to be used in the project, labour costs and other miscellaneous costs to be incurred to completion of service, taking into account the direction of the movement in these costs. Estimates are reviewed regularly or whenever actual costs differ significantly from the figures used in the original estimates.

4. [Related party transactions](#)

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprise, key management personnel, including directors and officers of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Chaisupat family is a major shareholder, holding 81.18% (2016: 83.80%) of the share capital of the Company. Transactions related to companies in which the Chaisupat family is the principal shareholders or directors are recognized as related parties to the Company.

The transactions with related parties for the years ended December 31, 2017 and 2016 and as follows:

Land not used for operation with total area of 81 square wah, derived from the transfer of property to pay off debt from the debtor in the past.

In November 2017, the independent appraiser (Golden Land Appraisal Co., Ltd.) appraises the value of land by applying the market price comparison approach (based on the highest and best use principle) by using the bid price of other land having similar characteristic with the land of Company, and it appears that the fair value of land is equal to Baht 1.05 million (2016 : Baht 1.05 million).

The independent appraiser did not change the valuation technique from the last year.

TFRS No.13 “Fair Value Measurement” establishes a fair value hierarchy that categories into three levels the inputs to valuation techniques used to measure fair value, as follows:

Level 1 : The inputs are quoted prices in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 : The inputs are observable inputs for the asset or liability, either directly or indirectly.

Level 3 : The inputs are unobservable inputs for the asset or liability.

Information on the level of the fair value hierarchy within the fair value measurements as at December 31, 2017 and 2016, is as follows:

As at January 1, 2016	496,168,826	496,168,826.00
Increment of capital during the year	-	-
As at December 31, 2016	496,168,826	496,168,826.00
Increment of capital during the year	-	-
As at December 31, 2017	496,168,826	496,168,826.00

As at 31 December 2017 and 2016, the total number of registered ordinary shares is in number of 621,166,300 shares. There is par value of Baht 1.00 per share. Shares capital issued and called for paid-up from in number of millions 496.17 shares.

The capital management

The Company constitutes purpose with respect to capital management in order to remain for ability in the continued operation and ability to appropriately provide remuneration to various group of participating interest while the Company will maintain capital in the level with the least risk.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt obligations.

18. [Legal reserve](#)

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its net income, after deducting accumulated deficit brought forward (if any), until the reserve reaches 10 percent of its registered share capital. The statutory reserve is not available for dividend distribution.

For the year ended December 31, 2017, the Company has appropriated net income in amount of Baht 6.00 million to the legal reserve.

19. [Import duties and customs fine](#)

On September 8, 2017, the Customs Department sent a letter to the Company to inform the results of the investigation that the Company had imported 45.66 million kilograms of hot rolled coil steel products between April 2013 and October 2013, under the exception of the temporary import duty /protection duty on imports of impure hot rolled steel products to be used in the automotive industry. The Customs officer discovered after importing such steel products that the Company has sold some products to customers in the automotive industry that do not meet the conditions which qualifies for exemption from temporary import duty / protection duty. (The Company had communicated its opinion to the Custom Officer that the Company had interpreted that the automotive industry as that it includes all vehicles including all types of vehicles with engines, and should be considered as motor vehicles according to general engineering.) Therefore, it can be considered that the Company imported impure hot rolled steel products by using the right to exempt temporary import duty / protection duty to import impure hot rolled steel products for using in the automotive industry correctly). However, the Custom Officer has rejected the definition of "Automotive" as defined by the Department of Foreign Trade, Ministry of Commerce that the meaning covered only 4-wheel drive cars, pickups and 2 wheel motorcycles, excluding agricultural vehicles. (The Company has communicated its opinion to the Customs Department that the definition of "Automotive" as defined by the Department of Foreign Trade, The Ministry of Commerce is not specified in the Notification of Terms of Temporary Import Duty /Protection Duty on import of impure hot rolled coil products from the beginning but was not announced to the entrepreneurs.) Therefore, the Customs Department has determined that the Company has breached the terms and conditions of exemption of temporary import duty / protection duty on imports of impure hot rolled steel products for using in the automotive industry.

Subsequently, on September 28, 2017, the Customs Department sent the letter to the Company, informing the Company to pay the duty in the total amount of Baht 199.65 million (consisting of the outstanding duty in the amount of Baht 159.44 million, the Value Added Taxed and its surcharge and penalty in the amount of Baht 31.21 million, and the penalty on the mis-submission of the import duty declaration in the amount of Baht 9 million). Should the Company refuses to pay as such the Custom Department shall send the Notice of the Duty's Assessment, and proceed the matter to the responsible officer for investigation and taking further legal actions accordingly.

In accordance with the minute of the board of directors' meeting No.5/2560 held on November 5, 2017, the Board of Directors considered the legal consultant's legal opinions that there is a possibility of less that the Company will win the case. If the Company appeal and results with a dismissal of the appeal, the Company would be subjected to the surcharge at the rate of 1% per month payable to the Customs Department (as referred in Article 22 of the Customs Act 2017 (B.E. 2560) calculated on the outstanding Duty in the amount of Baht 159.44 million calculated from the imported date until the full payment of such surcharge, having the total amount of Baht 19.13 million per year. Currently, four years have passed and the Company speculates that the litigation case might take at least another 5 years until the case is resolved. Therefore, the Board of the Directors considered and opined that the Company shall proceed with the payment of the mentioned duty, the Value Added Taxes, and the Surcharged Penalty to the Customs Department in order to settle any possible disputes with the Customs Department and restricted any losses and damages the Company may suffer from the large amount payment of the Surcharge.

For the year ended December 31, 2017, the Company has recorded; the duty obligation payable to the Custom Department as the liability in the amount of Baht 199.65 million, the Value Added Taxes, which may be deemed as the input tax, as the asset in the amount of Baht 11.16 million, and the duty and surcharged penalty as the expenses in the amount of Baht 188.49 million. The Company has already paid such duty and surcharge penalty on November 8, 2017.

20. [Income tax \(income\) expense](#)

27.5 Fair value

The carrying amounts of cash and cash equivalent, trade receivable and payable, other receivable and payable to related parties and short-term loan from financial institutions close to their fair value due to these financial assets and liabilities are short term. Obligations under finance lease carry interest at rate close to current market rate so that the carrying value of such obligations under finance lease close to their fair value.

28. [Financial instruments](#)

TFRS No.13 “Fair Value Measurement (revised 2016)” defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

The TFRS requires the Group shall disclose about fair value measurement for financial asset and liability in which the other related TFRSs requires or permits fair value measurement or disclosure about fair value.

The TFRS establishes a fair value hierarchy that categorizes into three levels the inputs to valuation techniques used to measure fair value, as follows

Level 1 : The inputs are quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 : The inputs are observable inputs for the asset or liability, either directly or indirectly.

Level 3 : The inputs are unobservable inputs for the asset or liability.

Information on certain assets and liabilities of the Company which are not measured at fair value in the statement of financial position as at December 31, 2017 and 2016 are described in notes to financial statement no.9 and no.27.5

Information on assets and liabilities of the Company which are measured at fair value in the statement of financial position as at December 31, 2017 and 2016, are as follows:

(Unit: Million Baht)

Assets and liabilities	Fair value		Fair value hierarchy	Valuations techniques
	2017	2016		
Foreign currency forward contract	0.09	0.39	Level 2	Calculated by the value declared by the financial institution.
(Assets) (Note 30.3)				

For the year ended on December 31, 2017, there is no the transfer of any amount between level 1 and level 2 of the fair value hierarchy.
