Message from REIT Manager

The Year 2022 was one of the years with high uncertainty. Geo-political tensions, and economic situations, and high inflation globally had caused high turbulence to economic and investment environment. However, with all these negative factors, the Year 2022 was one of very successful years for the WHART Trust in many aspects ranging from operational performance, new asset acquisition, financial and debt management, distribution payment and etc.

Average occupancy rate of WHART Trust for the Year 2022 was 92.30 percent (excluding undertaking). This was an increase from 90 percent in Year 2021, and the Trust has been able to maintain average occupancy at not less than 90 percent since its establishment. Factors contributing to performance increase was the more relaxation policy of the government which led to the more economic activities domestically and that investment assets of the Trust locate in prime locations with high demand.

In term of tenant management, tenant diversification was one of key success factor of the WHART Trust. Tenant profiles of the Trust are very strong and are from various industries. Key tenant industries are from Third Party Logistics, Fast Moving Consumer Good, and E-Commerce which are all considered as stable and growing even during the severe outbreak of COVID-19 in previous years. These tenants performed very well and had expansion in 2022.

WHART Trust successfully completed the 7th Capital Increase by investing on new assets with total leasable area of 159,965 square meters and total asset value of Baht 4,050 Million. All projects are on strategic locations for logistics such as Bangna-Trad Road, EEC, and Wangnoi Area with high average occupancy rate. In addition, tenants are also of quality and well-known such as CRC Thai Watsadu, Kerry Logistics, and Signode, and average contract of these tenants are more than 6 years. All of these strong points of the new assets will be beneficial to WHART Trust in the long-run.

The new Trust units issued for this Capital Increase also received overwhelming feedbacks from investors and were 100-percent subscribed. After completion of the acquisition, the building leasable area under management of the Trust will reach 1.74 million square meters on 39 projects invested. The total asset value of the Trust has reached Baht 51,815.30 million which makes the WHART Trust the biggest in industrial REIT on total asset value in Thailand.

WHART Trust has always had strong financial and debt management. As of 2022, the Trust has the interest-bearing debt of Baht 13,595 Million. Debenture accounted for 67 percent, while remaining 33 percent was loans from financial institutions. The Loan-to-Value (LTV) Ratio of the Trust was 26.24 percent, the level which enabled more flexibility in management especially during downturn.

In 2022, WHART Trust completed the refinancing of expiring debenture and existing loan, having taken the fact that it was the year which interest rate and bond yield significantly increased to counter high inflation worldwide. Since 2019, the REIT Manager had managed to reduce overall cost of debt of the Trust over the years, and the 2022 was another year that the Trust was able to maintain the average cost of debt at satisfactory level. The Trust itself has one of the lowest cost of debts in industry.

Given the improved operational performance, revenue increase, and efficient financial and debt management, WHART Trust had announced to pay benefit distribution in term of dividend to unitholders on the amount of Baht 0.7635 per unit, one percent increase from the previous year. Such amount is considered the highest amount paid since the establishment of WHART Trust.

Lastly, on behalf Board of Management of the REIT Manager, we would like to sincerely extend our gratitude all unitholders for the kind support to WHART Trust as always, we promise to manage the Trust with our best efforts to ensure the highest benefits to all of our unitholders.

Analysis of Performance

1. Overview of the Trust's Performance

The overall performance of WHART Trust in 2022 well-improved from the previous year. The average occupancy rate of the WHART Trust in 2022 was 92.30 percent increasing from 90.00 percent of the previous year. Such performance improvement was due to the increase on economic activities from government's re-opening policy after the outbreak of COVID-19 is proven to be more controlled.

In Quarter 4 of year 2022, WHART Trust completed the additional asset investment for 5 projects with total leasable area of 159,965 square meters and total asset value of Baht 4,050.86 Million. These additional assets are of high-quality and located in strategic logistic area such as Bangna-Trad Area, Wangnoi Area, and EEC area. The REIT Manager has confidence that these assets will be beneficial to the Trust performance in the long-run.

The main tenants of these new assets are from stable business industries such as Fast Moving Consumer Goods (FMCG), E-Commerce, and Home Appliance with average long-term lease. After the acquisition, the WHART Trust will have better distribution of the tenant mix in term of business industry. Tenants from Third Party Logistics (3PLs) and Fast Moving Consumer Goods (FMCG) are the main tenant industries, and there will also be significant growth from tenants from Home Appliance whose proportion in leasable area increases from 7.00 percent to 12.90 percent.

After the completion of asset acquisition, the WHART Trust has Total Asset Value of Baht 51,815.28 Million which is considered to be the biggest industrial REIT in term of Total Asset Value and also have long weighted average lease expiry (WALE) at 4.21 years.

For financial management, the Loan-to-Value Ratio (LTV Ratio) of the WHART Trust as of 31 December 2022 is at 26.24 percent. During the year 2023, the REIT Manager managed the interest expense by borrowing the loan with financial institution and issuing the debentures to refinance existing loans and expiring debentures and negotiated with financial institution for the loan for the additional asset investment. Because of these, the WHART Trust was able to maintain the average interest rate in the same level as last year although the interest policy rate has constantly increased.

In addition, In 2022, the WHART Trust allocated an amount of investment on improving efficiency in some of warehouse and factory projects as requested by tenants. With this asset improvement, the WHART trust had to reverse the value of properties in amount of Baht 153.80 Million to offset with the gain from annual asset revaluation in amount of Baht 72.30 Million. This is resulted the loss from change in fair value of investments in amount of Baht 81.50 Million as indicated in Financial Statement. However, the loss from change in fair value does not impact to dividend payment.

For the benefit distribution to unit holders, with the performance improvement mentioned above, the WHART Trust had paid the dividend for amount of Baht 0.7653 per unit for the Fiscal Year of 2022 (1 January 2022 to 31 December 2022) which was 1.00 percent increase from the previous year.

Financial Performance

Additional information

Discount Rate

Assumption of the discount rate for both appraisers depend on the following factors :

- Return from no-risk investment in government bonds
- Risk from investment in assets, operating warehouses businesses
- Risk from type of business, management, marketing, and economic conditions

Capitalization Rate

The difference of assumption between the capitalization rate of both appraisers depends on the following factors :

- Expectation of returns of investor(s)
- Distribution of returns from the real estate investment trust
- Consideration of location and asset conditions and analysis of transfer of assets
- Consideration of growth of income, operating risk including current and future trend of market situations

The financial advisor and the REIT Manager are of the opinion that the discount rate and capitalization rate of both appraisers reflect the return and risk; however, due to differences in their perspectives and the value of all relevant factors the variables differ slightly but are still considered acceptable.

7. Investment Policy of the Trust

Investment Policy

In future, the Trust may additionally invest in other immovable properties apart from the aforesaid main investment assets whereby the future investment of the Trust shall comply with the following guidelines;

7.1 Investment in immovable properties

- (1) The Trust will focus on the investment in warehouse, distribution centres, and factory or other immovable properties in which the Trust may invest. To additionally invest in the assets, the Trust may consider exercising its right of first refusal in order to invest in assets owned by WHA Corporation or its subsidiaries.

Nonetheless, the Company has been notified by WHA Corporation Public Company Limited (“WHA”) to amend the investment policy of the Trust in the Trust Deed and the right of first refusal of the Trust in the Undertaking Agreement in order to be in accordance with the policy of business operation of WHA. The Company deems this matter important and should be considered by the holders of trust units. Therefore, the Company proposes the matter to the Annual General Meeting for the year 2016 of the trust unitholders for consideration.

The said two amendments are significant issues materially affecting the right of trust unitholders as follows:

1. The amendment to the investment policy of the Trust as proposed by WHA will cause the investment policy of the Trust to not include the investment in ready-built warehouses, distribution centers or factories located in the following areas:
 - (1) Built-to-Suit warehouse, distribution center, and factory in all areas including but not limited to Industrial estates, industrial zones or industrial parks established, invested and/or developed by WHA Industrial Development Public Company Limited and/or its subsidiaries (such areas collectively called “WHA Industrial Development Areas”);
 - (2) Ready-Built warehouse, distribution center and factory which are not located in the following areas;
 - (a) industrial estates, industrial zones or industrial parks established, invested and/or developed by WHA Industrial Development (such areas collectively called “Industrial Areas”);
 - (b) areas developed by WHA Industrial Development and/or its subsidiaries located next to the Industrial Areas, or, if not next to the Industrial Areas i.e. the areas which are close to or in the vicinity of Industrial Areas, to accommodate or support the business or expansion of ready-built business in the Industrial Areas of WHA Industrial Development; and
 - (c) the areas other than (a) and (b) which WHA Industrial Development
 - (d) and/or its subsidiaries has sole ownership or possession rights or joint ownership or possession rights between WHA Industrial Development and subsidiaries of WHA Industrial Development before 13 October 2015 and still holds the ownership or possession at all times. The said areas can be operated for industrial business under the zoning laws. In this regard, the said areas shall be in the documents disclosed to the trustee and REIT Manager.

(The areas in (a), (b) and (c), collectively called “Industrial Areas and Surrounding Areas”)

8.2 Social Responsibility

WHART Trust foresaw the impact of the severe outbreak of Coronavirus Disease 2019 (COVID-19). As part of its efforts to alleviate the situation, WHART Trust supported Chularat Hospital Public Company Limited and Charoen Pokphand Foundation by converting space in the area of WHA Mega Logistics Center Chonlaharnpichit Km. 4, Samut Prakan Province, into a field hospital to help ease congestions at general hospitals due to COVID-19. The field hospital was used to store donated medical supplies and to accommodate medical staff (nursing accommodation) without charge from September 1, 2021 to August 31, 2022.

In addition, having expressed concerns towards the environment, WHART Trust has collaborated with WHA Group by providing space on the warehouse roof for tenants to install solar panels or solar cells in order to generate power using solar energy, which is clean energy. This type of energy produces zero-emission electricity, helps to reduce global warming, cuts emission peaks during the day, and minimizes economic waste. It also helps to promote energy and environmental conservation, hence resolving Thailand's energy challenges. Examples of warehouses that have installed solar cells include WHA Mega Logistics Center Lum Lukka / WHA Mega Logistics Center Chonlaharnpichit km.3 (Project 1) and WHA Mega Logistics Center Saraburi, etc.

Summary of the Long term Loan Agreement(s), Details of the Loan Securities and Issuance of the Debentures

Lender	One or many of financial Institutions of Thailand which can provide loan to Real Estate Investment Trust such as life Insurance or non-life insurance which might be related person with Trustee.
Borrower	Kasikorn Asset Management Company Limited as the Trustee of WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust ("WHART")
Interest Rate and Fees relating to loan procurement	Total interest rate per year is not excess of Minimum Loan Rate (MLR) - 1.50% except in the case of default whereby the default interest rate will be equal to the highest interest rate as declared by the Lender, change of laws, market conditions, or financial situations or any rules and regulations Fees will be relied on the Facility Agreement
Key Financial Covenants	<ul style="list-style-type: none"> - The trust will control the Loan to Value (LTV) which not more than the rate determined in the Facility Agreement. - The trust will control funded interest bearing debt to EBITDA ratio (Funded Interest-Bearing Debt to EBITDA Ratio) which not more than the rate determined in the loan agreement. The calculation detail is informed in the Facility Agreement.
Collateral	Depending on the Lender requirement.

WHART might reserve the cash for the loan repayment in case the lender ask the trust to repay. The reserved cash will be deducted from the adjusted net income before distribute the distribution to unitholders.

9.2. Relationship and Necessity of the Loan from Related Persons and Opinion on Conditions of the Loan Agreement

9.2.1 Relationship between the Trustee and the Lender

Except where the Trust is prohibited to loan from the Trustee's related persons by the notifications of the SEC or other authorities, the Trust may partially or wholly loan from the Trustee's related persons who hold 99.99% of voting shares of the Trust. In doing so, the Trust shall operate in accordance with the relevant notifications.

9.2.2 Reason and Necessity of the Loan from the Trustee's Related Persons

The Company is of the opinion that the loan from related persons of the Trustee must be reasonable and must not affect the benefit of the Trust. It shall be carried out by considering the conditions under the loan agreement which are normal business conditions and benefit the Trust. Moreover, the Lender must have a good understanding in businesses and assets in which the Trust will invest.

9.2.3 Opinion on Conditions under the Loan Agreement

The loan transaction is a transaction with specific characteristics provided to the Trust. For examples, terms and conditions under the loan agreement are in conformity with the specific characteristics of the Trust, reasonable and have no effect to the benefits of the Trust. The conditions under the loan agreement are specified at arm's length basis whereby comparing such a loan agreement to general conditions of other loan agreements which the Trust entered with other lenders who are not related persons of the Trustee, essence of the agreements are similar. Moreover, the agreements share similar types of securities for debt repayment. This indicates that the conditions of the loan agreement as well as the loan transaction are consistent with normal business practice and do not affect the benefits of the Trust. In this regard, the Trustee is not allowed to interfere or manipulate the approval process and stipulation of the loan agreement.

Moreover, the fact that the lender who is not a related person of the Trustee accepts the conditions under the loan agreement indicates that such conditions are consistent with normal business practice and do not affect the benefits of the Trust.

10. Market Overview of Thailand Industrial Property Market

10.1 Economic

The world economy in the fourth quarter of 2022 demonstrated a decelerated growth, following the slowdown in major economies, particularly in the US and the Eurozone. This was mainly due to a sluggish domestic demand following the policy rates' hike to mitigate the inflationary pressures. In addition, most major and developing economies experienced a downturn in manufacturing production, reflected by the manufacturing Purchasing Managers' Index (PMI) dropping to below 50 for the first time in several quarters. At the same time, the Chinese economy grew at the lowest level in 46 years due to the resurgence of COVID-19 after the easing of containment measures. The softened growth of advanced and Chinese economies has caused a decrease in export activities of many countries in Asia for the first time in several quarters, especially the Newly Industrialized Countries (NIEs) and ASEAN countries. Amid above-target inflation, most central banks decided to continue raising their policy rates in the fourth quarter. Nonetheless, the inflation rates in many countries, namely the Eurozone, the UK, and Australia, continued to accelerate in line with rising energy and food prices. On the contrary, the inflation rate in the US has passed the peak and started to decelerate to reach the lowest level in four quarters. As a result, the US Federal Reserve began to slow down the pace of interest rate hike.

The Thai economy in the fourth quarter of 2022 expanded by 1.4 percent (%YoY), decelerating from a growth of 4.6 percent in the previous quarter. On expenditure side, export of services accelerated while private consumption and public investment showed favorable expansions. Public investment returned to a positive growth; nonetheless, export of goods and government expenditure contracted. On the production side, Agricultural sector and construction sector returned to expansion. Accommodation and food service activities sector, wholesale and retail trade; repair of motor vehicles and motorcycles sector, transportation and storage sector continued to grow in line with a recovery of tourism sector. Nevertheless, the manufacturing sector declined. After seasonal adjustment, the Thai economy in the fourth quarter of 2022 contracted by 1.5 percent (%QoQ SAAR) compared to the third quarter of 2022. Overall, in 2022, the Thai economy expanded by 2.6 percent, a significant improvement from the 1.5 percent growth in 2021.

10.2.4 Outlook

Overview of ready-built warehouse business for rent, warehouse business between 2021 and 2022 has a tendency to recover. There is a growing demand for rental space due to the fact that many countries worldwide now open their borders particularly the United States and Europe. Since both countries drive demand for various products and supply chains including foreign direct investment in the industrial, agricultural and domestic trade/service sectors especially e-commerce, petrochemical, food and medical and health businesses which has increased investment during the past 2-3 years.

Future warehouse demand is anticipated to rise continuously as a result of China's border becoming fully reopened, which will stimulate demand for goods and supply chain. Regarding the current supply of ready-built warehouses, it was found that investments in the expansion of warehouse space were still rising, specifically in the Eastern Economic Corridor (EEC), such as the Map Ta Phut area, etc. However, in some areas, there is still an oversupply situation, it is expected that most operators will maintain their current rental rates or slightly increase them

The opinion of prices and conditions by REIT Manager and Financial advisor

- For the rental rate of the aforesaid building is the rate that approximate to the market rental rate of the warehouse space rental in the vicinity of the assets which used by the appraiser in the appraisal, or the aforesaid rental rate is not inferior to the rental rate of the area and the service which is similar appraised rate to the other tenants.
- Three (3) years lease term of the building considered as a normal condition for the warehouse buildings and factories.
- The bail bond deposit of the rental as a collateral for WHART is a general condition for warehouse building rental business

4) Right to lease roof area under the Undertaking Agreement

Characteristics of the Related Party Transaction (RPT)

WHA Corporation and/or any connected person with WHA Corporation has the right to lease roof space under a Undertaking Agreement prior other persons by having the lease period not less than 15 years from the investment date (for the WHA Mega Logistics Center project (Ladkrabang) and not less than twenty-five (25) years from the date of investment for other projects from the day that WHART invested with the rental rate not less than the rental rate at WHA Corporation accepts to pay for the roof rental to WHART at that time and is equal to or not less than the rental rate offered by other tenants to WHART (if any).

Necessity and reasonable of the Transaction

In the case where the roof area of the warehouse building of aforesaid project has no tenants in which if on the date that the trust making an additional invested and there is no tenant of such roof from WHART, WHA Corporation agrees to be a person who instead pay the roof rental to the Trust for the aforesaid specified time and at the rates stipulated in WHA Corporation's standard rental agreement with the rental rate at 3 baht per square meter per month and the rental rate will increase by 10% in every 5 years.

The opinion of prices and conditions by REIT Manager and Financial advisor

- The roof area's rental rate of the aforesaid building is the same rate as the standard rental contract of WHA Corporation, which is considered as appropriate as such rate covers the cost of the roof structure's readiness preparation for laying the Solar panels includes the desired profits. For the timing conditions are appropriate due to it is the creating of certainty for the Trust to recognize rental income for roof space throughout such period
- The replacement of duties under the Undertaking Agreement to be the right of renting the roof can be done under the conditions agreed upon in the Undertaking Agreement which uses the same price as the price agreed to pay for the rental at that time, which is considered appropriate

5) The additional amendment of the Undertaking Agreement (some agreements) to be in accordance with the Undertaking Agreement for the Third additional main Assets Investment in 2017

Characteristics of the Related Party Transaction (RPT)	The additional amendments of the Undertaking Agreement between WHART and WHA Corporation dated on December 12, 2014, December 29, 2015, and December 7, 2016 in relation to the duties of the promisor regarding the roof renting area to provide the rights to WHA Corporation or person which related to WHA Corporation to rent the roof.
Necessity and reasonable of the Transaction	The additional amendments of the Undertaking Agreement between WHART and WHA Corporation dated on December 12, 2014, December 29, 2015 and December 7, 2016 in relation to the duties of the promisor regarding the roof renting area to provide the rights to WHA Corporation or person which related to WHA Corporation to rent the roof prior other persons by having the lease period not less than 25 years from the investment date of WHART with the rental rate not less than the rental rate that the promisor accepts to pay to WHART at that time and is equal to or not less than the rental rate offered by other tenants to WHART (if any) depend on which number is higher, its purpose is for agility and speed up the operations to expedite the roof leasing to WHA Corporation or related persons with WHA Corporation. Since the rental of the roof is a connected transaction between the REIT Manager and the WHART, it must be approved by resolution of the WHART Unitholders' Meeting. The aforesaid process is the procedure that needs to take time and documents preparation.
The opinion of prices and conditions by REIT Manager and Financial advisor	Adding the roof leasehold rights in advance is reasonable, since it is the benefit of the REIT manager to be flexible and assist WHART in saving costs and unreasonable time due to the lease of the roof which is a connected transaction between the REIT Manager and the WHART that requires approved resolution from the WHART unitholders meeting, it is a process that needs to take time and prepare documents to be submitted to WHART unitholders.

WHA PREMIUM GROWTH
FREEHOLD AND LEASEHOLD REAL ESTATE INVESTMENT TRUST

FINANCIAL STATEMENTS

31 December 2022

Independent Auditor's Report

To the Unitholders of WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust

My opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust (the Trust) as at 31 December 2022, and its financial performance and its cash flows for the year then ended in accordance with the accounting guideline for the Property Fund, Real Estate Investment Trust, Infrastructure Fund and Infrastructure Trust established by the Association of Investment Management Companies and endorsed by the Securities and Exchange Commission, Thailand.

What I have audited

The Trust's financial statements comprise:

- the statement of financial position as at 31 December 2022;
- the statement of details of investments as at 31 December 2022;
- the statement of comprehensive income for the year then ended;
- the statement of changes in net assets for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of my report. I am independent of the Fund in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (TFAC Code) that are relevant to my audit of the financial statements and I have fulfilled my other ethical responsibilities in accordance with the TFAC Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key audit matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current year. I determine one key audit matter which is the valuation of investments in properties. The matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on the matter.

Key audit matter	How my audit addressed the key audit matter
<p>Valuation of investments in properties</p> <p>Refer to Note 4.3 to the financial statements for 'Accounting policy on investments in properties', Note 9 'Critical accounting estimates and judgements' and Note 10 'Investments in properties at fair value'.</p> <p>As at 31 December 2022, investments in properties were presented at the fair value of Baht 49,474 million, contributing to 95.48% of the Trust's total assets. The REIT Manager assessed the fair value of investments in properties using an income approach method by independent appraisers, according to the accounting policy stated in Note 4.3.</p> <p>I focused on this area because the valuation of investments in properties made by REIT Manager involved significant judgement and assumptions. The REIT Manager applied estimated future net cash flows which involved significant assumptions, such as growth rate, occupancy rate, capitalised rate, estimated future income and expense, and discounted rate.</p>	<p>I discussed with the REIT Manager and independent appraisers to understand the basis used to measure the investments in properties' valuation.</p> <p>I assessed the independent appraisers' competence, capabilities and objectivity and verified their qualifications.</p> <p>I assessed the valuation method applied and checked validity of data used in the estimation of the expected future cash flows received from the properties:</p> <ul style="list-style-type: none"> Evaluated the appropriateness of the future cash flow estimates from independent appraisers by reviewing the data inputs with these supporting documentations: <ul style="list-style-type: none"> the growth rate of revenue by comparing with the historical information and supported documents which includes recent renewals rate on lease contracts. the occupancy rate by comparing with the historical average occupancy rate. the estimated future net cash flows received from these investment properties by agreeing with the estimated revenue, expenses and net investment gain. the discount rate by considering the basis of the discounted rate and benchmarking it against the rate used by companies within the same industries. Recomputed the calculation of the investments in properties' valuation based on the expected future cash flows received from these investment properties and the discounted rate which reflected current market assessments and checked the accuracy of the accounting transactions. Tested the sensitivity analysis and the possible impact if there are changes in key assumptions. <p>Based on the work performed above, I found that the key factors in applying accounting estimates and judgements used by the REIT Manager related to the valuation of investments in properties were in the acceptable range of reasonable estimates.</p>

Other information

The REIT Manager is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to the REIT Manager.

Responsibilities of the REIT Manager for the financial statements

The REIT Manager is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting guideline for the Property Fund, Real Estate Investment Trust, Infrastructure Fund and Infrastructure Trust established by the Association of Investment Management Companies and endorsed by the Securities and Exchange Commission, Thailand, and for such internal control as the REIT Manager determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the REIT Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the REIT Manager either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the REIT Manager.

- Conclude on the appropriateness of the REIT Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the REIT Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the REIT Manager with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with the REIT Manager, I determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust
Notes to the Financial Statements
For the year ended 31 December 2022

1 General information

WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust (the Trust) is a real estate investment trust established under the Trust for Transaction in Capital Market Act, B.E.2550 (the Act) in accordance with the Trust Deed signed on 8 December 2014 between WHA Real Estate Management Company Limited as the Trust Settlor and Kasikorn Asset Management Company Limited as the Trustee, with its stated objective being to seek funds from investors, investing mostly in property or property leasehold rights and generating benefit from such properties including to improve, alter, develop or dispose other assets in which the Trust invest or possess whatsoever lease, sub-lease or sale or other process for the benefit of the property and create the revenue and return to the Trust and the unitholders. This includes the investment in other asset or other securities or seek other interest by other means as stipulated in the securities laws or other relevant laws.

On 18 December 2014, the Stock Exchange of Thailand approved the listing of the Trust's investment trusts and permitted their trading on the same date.

The Trust is managed by WHA Real Estate Management Company Limited (the REIT Manager), Kasikorn Asset Management Company Limited acts as the Trustee and WHA Corporation Public Company Limited acts as the Property Manager.

2 Basis of preparation

The financial statements have been prepared in accordance with accounting guidelines for the Property Fund, Real Estate Investment Trust, Infrastructure Fund and Infrastructure Trust established by the Association of Investment Management Companies and endorsed by the Securities and Exchange Commission, Thailand (accounting guidelines). For the areas not covered by the accounting guidelines, the Trust applies the requirements in accordance with Thai Financial Reporting Standards issued by the Federation of Accounting Professions which effective on financial reporting period of the financial statements.

The financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with accounting guidelines requires REIT Manager to use certain critical accounting estimates and to exercise its judgement in applying the Trust's accounting policies. The areas involving a higher degree of judgement or complexity, or areas that are more likely to be materially adjusted are disclosed in Note 9.

An English version of the financial statements have been prepared from the statutory financial statements that are in the Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language statutory financial statements shall prevail.

3 New and amended financial reporting standards

1 January 2022, the Trust has applied the new and amended TFRS which are effective for accounting period on or after 1 January 2022 and relevant to the Trust. The application of these financial reporting standards does not have significant impact to the financial statements of the Trust.

Certain new and amended financial reporting standards which are effective for accounting period on or after 1 January 2023 have not been early adopted by the Trust. The REIT Manager is currently assessing the impact of adoption of these standards.

4 Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below:

4.1 Financial assets

Classification and measurement

All financial assets are classified as financial assets at fair value through profit or loss and subsequently measured at fair value through profit or loss except for cash and cash equivalents and trade receivables presented as other assets which are subsequently measured at amortised cost.

Impairment

The Trust considers and recognises the expected credit losses at the initial recognition and subsequent periods. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected credit loss rates are based on the historical payment profiles of sales, the corresponding historical credit losses experienced as well as other information that may affect the ability of the customers to settle the receivables.

Impairment and reversal of impairment losses are recognised in profit or loss included in other expenses.

4.2 Leases

Leases - where the Trust is the lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which leases are effective.

Right-of-use assets are recognised at cost comprising the initial amount of liabilities under lease agreements including the rental payment which paid before or on the date of the contract, net of incentives received under the lease initial direct cost and asset pretreatment costs.

Right-of-use assets are subsequently measured at fair value. A gain or loss is recognised in profit or loss and presented net within gain or loss from change in fair value in the period in which it arises.

Lease liabilities arising from a lease are initially measured on a net present value of the following lease payments at the date at which leases are effective. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used.

Lease liabilities are subsequently measured by

- increasing the carrying amount to reflect interest on the lease liability;
- reducing the carrying amount to reflect the lease payments made.

Leases - where the Trust is the lessor

The Trust classifies each of its leases as an operating lease.

The Trust recognises lease payments from operating leases as income on either a straight-line basis or another systematic basis. The Trust shall apply another systematic basis if that basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished.

WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust
Notes to the Financial Statements
For the year ended 31 December 2022

4.3 Investments in properties

Properties held for long-term rental yields or for capital appreciation or both and are not occupied by the Trust are recognised as investments in properties.

The Trust chooses to account for land held under leases as investments in properties when they meet definition of an investment property.

Investments in properties, including directly attributable costs and borrowing costs are measured initially at cost.

Subsequently, they are carried at fair value. Changes in fair values will be recognised in the statement of income as an unrealised gain or loss as of measurement date.

The fair value is based on the appraisal value determined by the independent professional appraisers licensed by the Securities and Exchange Commission Thailand. The REIT Manager will conduct an appraisal of the properties every two years from the date of the appraisal for the purchase or lease of the properties or when there are significant changes that materially affect the value of such investment properties and will update appraisals with a review every year after the date of the latest appraisal. The REIT Manager will not appoint any appraiser to appraise the property or leased property for more than two consecutive times.

4.4 Cash and cash equivalents

In the statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call, short-term highly liquid investments with maturities of three months or less from acquisition date and are not restricted.

4.5 Deferred expenses

Deferred expenses comprise the actual Trust's unit issuance costs paid and other directly related expenses. Deferred expenses which incurred before 1 January 2020 are amortised as an expense over a period of 5 years on a straight-line basis.

The Trust's unit issuance costs and other expenses incurred after 1 January 2020 shall be deducted from the capital received from unitholders to the extent that transaction costs are incremental costs that are directly attributable to the equity transaction that otherwise would have been avoided if the equity instruments had not been issued. The other costs of an equity transaction outside what mentioned previously are recognised as an expense.

4.6 Financial liabilities

Classification and measurement

All financial liabilities are financial liabilities subsequently measured at amortised cost except for financial liabilities at fair value through profit or loss. For financial liabilities subsequently measured at amortised cost, the Trust recognises financial cost by effective interest rate.

Derecognition

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled, or expired.

4.7 Deposit received from customer

Customers agree to deposit with the Trust in cash. The security deposit shall be held as security for securing the performance by customers under rental and service agreements. Within 30 days after customers have duly surrendered vacant possession of leased property in clean and good condition to the Trust, the Trust shall return the security deposits to customer without interest, less any unpaid amount and damages occurred to leased property.

At initial recognition, the deposit is measured at fair value. The difference between the fair value and the cash received is recognised as a part of unearned income and recognised as rental income over the lease period. Deposit is subsequently measured at amortised cost.

4.8 Revenue recognition

Rental and service income

The Trust's main revenue derives from rental income from ordinary business activities and also include relevant service income.

The Trust recognised rental and service contracts with a continuous service provision as revenue on a straight-line basis over the contract term, regardless of the payment pattern. Rental and service income which is recognised by straight-line method, but is not due for collection is presented under "Deferred income from operating lease agreement" in the statement of financial position.

Revenue are recorded net of value added tax. The Trust recognises revenue when collectability of the consideration is probable.

Multiple element arrangements involving provision of multiple services are separated into distinct performance obligations. The Trust allocates total transaction price of the bundled contract to each performance obligation based on their relative standalone selling prices or estimated standalone selling prices. Each performance obligation is recognised as revenue on fulfillment of the obligation to the customer.

Undertaking income

The Trust entered into agreements to guarantee the minimum rental and service income with no lessees for a period of 1 to 25 years. Revenue will be recognised over the agreements term, regardless of the payment pattern.

Interest income

Interest income is recognised on a time proportion basis, taking into account of the principal outstanding and the interest rate over the period to maturity, when it is determined that such income will accrue to the Trust.

4.9 Income taxes

The Trust is exempted from Thailand corporate income tax. No provision for corporate income tax has been made in the financial statements.

4.10 Dividend distribution

For distribution payment to unitholders, the REIT Manager will approve the distribution payment and assigned the closing date of the unitholders register's book.

WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust
Notes to the Financial Statements
For the year ended 31 December 2022

5 Distribution policy

The Trust has a policy to pay distribution to unitholders as follows:

- 1) The REIT Manager shall pay distributions to unitholders that, in aggregate, amount to not less than 90% of adjusted net profit for the year. The distributions should be divided into a year-end distribution and an interim distribution (if any). The REIT Manager shall pay distributions to unitholders no more than 4 times a year, unless the Trust increases capital.

The adjusted net profit means the net profit of the Trust determined on a cash basis including loan repayments made in accordance with loan agreements and other due commitment (if any).

- 2) In case the Trust has accumulated losses, the REIT Manager will not pay the distributions to the unitholders.

In considering the payment of interim distribution, if the value of interim distribution per unit to be paid is lower than or equal to Baht 0.10, the REIT Manager reserves the right not to pay the distribution at that time and to bring such distribution forward for payment together with the next distribution payment.

The REIT Manager will arrange a distribution payment as mentioned to the unitholders within 90 days after the closing of the financial year.

6 Capital risk management

The Trust's objectives when managing capital are to safeguard the Trust's ability to continue as a going concern, in order to provide returns for unitholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Trust may adjust the amount of distribution paid to unitholders, return capital to unitholders, issue new shares or sell assets to reduce debt.

7 Financial risk management

Financial risk factors

The Trust exposes to a variety of financial risks which are market risk (including fair value risk), credit risk and liquidity risk. The Trust's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Trust's financial performance.

7.1 Interest rate risk

The Trust has interest rate risk from borrowings at floating interest rates. The Trust has no significant interest-bearing assets. These exposures are managed partly by issuing and offering debentures to be an option in financing with fixed rates of interest in the future or using financial instruments to reduce interest rate risk from borrowings.

Information about interest rates from borrowings and debenture is disclosed in Note 12 and Note 13.

WHA Premium Growth Freehold and Leasehold Real Estate Investment Trust
Notes to the Financial Statements
For the year ended 31 December 2022

Sensitivity

Profit or loss is sensitive to higher or lower interest expenses from borrowings as a result of changes in interest rates.

	Impact to net investment gain increase (decrease)	
	2022 Million Baht	2021 Million Baht
Interest rate - increase 1% *	(3)	(14)
Interest rate - decrease 1% *	3	15

* Holding all other variables constant

7.2 Credit risk

The Trust has no significant concentrations of credit risk. The Trust has policies in place to ensure that contracts are made with customers who have an appropriate credit history and are in various businesses. Additionally, the Trust has a policy to collect advance rental deposits from customers as a collateral in case of default. In the REIT Manager's opinion, the Trust does not have credit risk other than the recognition of the allowance for doubtful accounts (if any) as presented in the financial statements. The estimated for expected credit loss is assessed based on the past collection experiences, customers' deposits and other factors such as the local economic conditions. The Trust has no significant risk with financial institutions since cash is placed with reputable financial institutions.

7.3 Liquidity risk

The Trust maintains sufficient cash to prudently manage its liquidity risk. The Trust invests its cash in market securities. The Trust manages the availability of funding through an adequate amount of fund obtain from the unitholders and borrowing from financial institution which are sufficient for the Trust's activities.

Maturity of financial liabilities

Fair value of the following financial assets and liabilities approximated to the carrying amount as at 31 December 2022 and 31 December 2021.

Financial assets

- Cash and cash equivalents
- Trade receivables presented as other assets

Financial liabilities

- Accrued expenses
- Borrowings from financial institutions
- Debentures
- Other liabilities

Above financial liabilities measure at amoritised cost.

Fair values are categorised into hierarchy based on inputs used as follows:

- Level 1: Quoted market prices (unadjusted) in an active market for identical assets or liabilities
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for assets or liabilities, either directly (i.e., market prices) or indirectly (i.e., inputs derived from market prices)
- Level 3: Inputs for assets or liabilities that are not based on observable market data (unobservable inputs)

8.1 Transfer between fair value hierarchy

The Trust did not have any transfers between hierarchy levels during the period.

8.2 Valuation techniques used to measure fair value level 3

REIT Manager has assessed the valuations of assets required for financial reporting purposes, including level 3 fair values. The independent appraiser has reported directly to the REIT Manager. The REIT Manager has reviewed and evaluated appropriateness of the assumptions in valuation, then explain the reasons for the changes in fair value to the Trustee to review that information. In case of changes in the assumptions that is expected to result in significant changes in the fair value of the assets, REIT Manager will consider adjusting the fair value accordingly.

The main information that the appraiser use for level 3 fair value assessment comprises of discounted cash flow which determined based on the location of each project, the ability to generate cash flow, competitive market and risk-free rate of return. The appraiser applied 9.00% - 10.00% of discounted cash flow for assets that based on yield rate from government bond plus business risk, service, market and economy conditions.

9 Critical estimates and judgements

The REIT Manager continually evaluated assumptions used in estimates and judgements. These assumptions are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Fair value of certain financial assets

The fair value of investments in properties that are not traded in an active market is determined by Income Approach using discounted expected future cash flows received from investments in properties by the appropriate discount rate which reflect related risks. The Trust engages independence appraiser to assess the fair value of investments in properties.
