Message from the Chairman

Over the past twenty-five years, Alla Public Company Limited has been the manufacturer and distributor of material handling equipment including hoist and crane, dock leveler and industrial doors as well as after-sales service of the Company's products. In accordance with our mission, the Company mindfully concentrates on not only quality of production and services, but effectiveness and safety also. The Company has gone through the rigorous quality control of production and services in order to maintain international standards. As the aforementioned, the Company has been appointed to be the sole agent of German products known as STAHL, while its subsidiary has been appointed to be the sole agent of ABUS which is from the same country of origin. With international standards, both STAHL and ABUS are the leading player in crane and hoist market in Germany.

Furthermore, the Company prioritizes organization management and comply with good corporate governance. The Company operates with good internal control, proficient and accountability as well as adhere to execute related regulations, laws and rules. The Company also concern in ethics, rights of shareholders, equality treatment of shareholders, role of stakeholders and disclosure and transparency. The Board of Directors

together with the sub-committees consisted of Executive Committee, Audit Committee, Risk Management Committee and Nomination and Remuneration Committee are the great supporters who drive and contribute the good practice in corporate governance to the Company. It is believed that the good corporate governance is key factor for the Company's sustainable growth.

Finally, on behalf of the Board of Directors, I would like to thank all shareholders, business partners, financial institution and honored customers for all along great support. I also would like to thank management team and the staff for the great dedication and being the key driver to bring the Company moves forward with its mission and operation plan. I assure that the Company will devoted to continuously develop with the sustainability and concentrates on value creation for all shareholders and stakeholders.

(Mr. Weerachai Ngamdeevilai Sak)
Chairman of the Board of Director

Message from the Chief Executive Officer

Among the domestic social change and global economic fluctuation in the year of 2017, many industries were diminishing growth, suspended investment project as well as challenged with high competition environment. However, with the good corporate governance, organization and risk management along with integrated cost management, we were able to cultivate the performance with Baht 621 million of revenues and Baht 60.29 million of comprehensive income.

We recently have numerous of customers in various industries such as automotive, steel and aluminum, power plant, construction materials, agribusiness and modern trade etc. For continuous improvement and sustainable growth, we not only concentrate on quality management including design, production and installation, but also be safety awareness in every single step. In term of after-sales service, we promptly provide both high-skilled service teams and spare components to service our honored customers. Moreover, we extremely intend to internationally expand the business.

Beside the intention of business improvement, we prioritize on sustainable corporate social responsibility, encourage our staff to be participated and constantly developed. We also give precedence to personnel in the aspect of quality of life enhancement.

On behalf of Chief Executive Officer, I would like to thank the shareholders, the Board of Directors, investor, financial institution, mass media, business allies, customers along with all staff for having confidence with the Company and being the great supporters all along. I would like to express the sincere gratitude to assure that we are cordially committed to good practices of corporate governance to deliver sustainable success in every business unit.

(Mr. Ong-ard Puntuyakorn)
Chief Executive Officer

History and Significant Changes

Alla Public Company Limited (“the Company”) was established by Mr. Ong-ard Puntuyakorn and a group of skillful engineers. Mr. Ong-ard was experienced in material handling equipment such as hoist and crane which is facilitated in many industries. He had working experience with leading company in Thailand as the in charge of sales and marketing department, cooperating with design and production engineer in order to meet customers’ need. As a result, Mr. Ong-ard has knowledge and ability and understanding of crane and hoist business in all aspects.

The Company and its subsidiary History and Significant Changes in brief

1992

Established by Mr. Ong-ard Puntuyakorn with Baht 1 million in registered.

1994

Authorized by STAHL Crane Systems Gmbh, Germany as a sole distributor of hoist and crane in Thailand.

Invested in 7,680 square meters of land in Chachoengsao and built factory with utility space of 1,500 square meters to manufacture hoist and crane parts.

1999

Increased registered capital to Baht 15 million for working capital.

2000

Expanded the utility space to 4,572 square meters for increasing the capacity and supporting the increased demand from customers.

2003

Increased registered capital to Baht 30 million.

2005

Expanded the utility space to 8,242 square meters to bring about more efficient in manufacturing.

2006

ABUS Crane Systems Ltd. approached and offered ALLA to be the sole distributor of crane and hoist parts under ABUS brand in Thailand. Since ALLA has already been the sole distributor of crane and hoist parts under STAHL brand, Mr. Ong-ard nominated ONVALLA (Subsidiary)(Registered since 1990 but not operated) to be the sole distributor of ABUS brand. At the mean time, ONVALLA has registered capital of Baht 1 million.

Obtained ISO9001:2008 from TUV NORD which is the certificate of quality management.

2008

ONVALLA (Subsidiary) invested in land with the area of 8,616 square meters in Lamlukka, Phatumthani Province to manufacture crane and hoist.

2009

Obtained certificate of Occupational Health and Safety Management System TIS18001:2011 and OHSAS18001:2007 from TUV NORD.

2010

The construction of ONVALLA factory Phase I has been completed with the area of 3,687.50 square meters.

2012

Onvalla factory at Lumlukka Phatumthani Phase II has been completed with the area of 4,968.50 square meters totaling factory area approximately 8,656 square meters.

2014

ALLA implemented restructuring of a group company by acquiring 100% of registered and paid-up common stocks in ONVALLA from original shareholder, thus ONVALLA became the subsidiary company.

The Company increased register capital to 100 million and during the period ALLA increased registered capital to Baht 225 million due to continuous growth in business.

ONVALLA (Subsidiary) increased registered capital to Baht 70 million.

2015

ONVALLA (Subsidiary) increased registered capital to Baht 150 million.

ALLA increased registered capital to Baht 300 million with Baht 225 million paid-up capital and change par value from Baht 100 to Baht 0.50 per share. In order to prepare for listing in the Stock Exchange of Thailand,

ALLA registered for transformation to be public company and changed business name from “Alla Company Limited” to “Alla Public Company Limited” on 17 September 2015.

2016

On 22 September 2016, the Company received the approval from Securities and Exchange Commission, Thailand (SEC) for offering newly issued securities to the public, amount 150 million shares of common stock.

The company registered for capital increase to Baht 300 million with the department of Business Development on 3 November 2016.

The Company started the first trading day on 8 November 2016 under stock symbol “ALLA”

2017

Onvalla (Subsidiary) increased registered Capital to Baht 250 million for construction new warehouse and working capital.

2008

ONVALLA (Subsidiary) invested in land with the area of 8,616 square meters in Lamlukka, Phatumthani Province to manufacture crane and hoist.

2009

Obtained certificate of Occupational Health and Safety Management System TIS18001:2011 and OHSAS18001:2007 from TUV NORD.

2010

The construction of ONVALLA factory Phase I has been completed with the area of 3,687.50 square meters.

2012

Onvalla factory at Lumlukka Phatumthani Phase II has been completed with the area of 4,968.50 square meters totaling factory area approximately 8,656 square meters.

2014

ALLA implemented restructuring of a group company by acquiring 100% of registered and paid-up common stocks in ONVALLA from original shareholder, thus ONVALLA became the subsidiary company.

The Company increased register capital to 100 million and during the period ALLA increased registered capital to Baht 225 million due to continuous growth in business.

ONVALLA (Subsidiary) increased registered capital to Baht 70 million.

2015

Products and Services

Products and services offered by the Company and its subsidiary are as follows:

Products and Services	ALLA (the Company)	ONVALLA (Subsidiary)
1. Crane and Hoist	✓	✓
2. Dock Leveler and Industrial Door	✓	✓
3. PVC Strip Curtain and Air Curtain	-	✓
4. Services	✓	✓

1. Crane and Hoist

Crane and hoist are the necessary machines in manufacturing process of industrial plants since they are used for conveying high-value products such as turbine for power plant, materials, objects and heavy machine in industrial plants which are automobile plant, steel plant, building materials plant, warehouse, etc. The design of crane depends on workspace and objectives. If crane and hoist are under maintenance, it will cause a disruption to or delay in production line, thus resulting in the production of the aforementioned plants could not manufacture products on schedule. Hence, crane and hoist in all factories must be of good quality, always be ready to use and meet standards in order to ensure that products conveyed by crane and hoist will not be damaged. In every step of crane production, The Company and its subsidiary pay high attention to good quality, concern international standards as well as consider for safety. The Company and its subsidiary emphasizes on production starting from design, which experienced engineering team advises on products and design. Skilled production team, who attended and qualified “ALLA Crane Systems” training course, pays attention to every steps of production, installation, delivery and after-sales services.

The Company was appointed to be Thailand’s sole authorized distributor of important parts of crane, for example, hoist and end carriages under the STAHL brand from Germany, while its subsidiary is Thailand’s sole authorized distributor of the ABUS brand from Germany. Both STAHL and ABUS are manufacturers of hoist, end carriages and other parts that meets the standards by focusing on functions, maintenance instruction, and safety in operation. The Company and its subsidiary consequently gain reputation and recognition for good quality over the long period.

Type of crane and hoist, which the group offers, are:

1.1 Crane

- 1.1.1 Overhead Crane is used in industrial plant, which lifts load. Overhead crane includes Single Girder Overhead Crane and Double Girder Overhead Crane.
- 1.1.2 Gantry Crane and Semi Gantry Crane is suitable for concrete structure parts manufacturing, concrete pile plants and precast plant.
- 1.1.3 Jib Crane, whose arm is designed to be able to rotate from 90 to 360 degrees, is suitable for all industries and plants that have limited space. This includes Pillar Jib Crane and Wall Jib Crane.
- 1.1.4 Wall Travelling Crane is suitable for lifting goods or products along the wall of factory building.
- 1.1.5 Monorail Crane is suitable for factory or a place requiring to use crane in specific areas and to stop at each production station.
- 1.1.6 Suspension Crane is suitable for factory, which needs below area as much as possible, such as airplane hangar.

- 1.1.7 Explosion-Proof Crane can be used in petrochemical and oil & gas industry, which STAHL is an expert in this field and regarded as one of the leaders in explosion-proof crane parts manufacturing.

▲ Double Girder Overhead Crane

▲ Single Girder Gantry Crane

▲ Pillar Jib Crane

▲ Monorail Crane

▲ Suspension Crane

1.2 Hoist

The Company and its subsidiary are importers and distributors of crane and electric hoist parts under STAHL and ABUS brand respectively. The products can be classified as follow:

- 1.2.1 Electric Chain Hoist has appropriate size structure, which can be used both inside and outside the building. Lifting height can be enhanced by changing chain length.
- 1.2.2 Electric Wire Rope Hoist has fully covered structure and is suitable for outdoor or dusty place. Unlike Electric Chain Hoist, Electric Wire Rope Hoist could not change lifting height as required but it is more durable with more load capacity.
- 1.2.3 Manual Chain Hoist is an equipment without electronic parts hence it does not require power and this is suitable for non-routine work.
- 1.2.4 Explosion-Proof Hoist can prevent spark from occurring and each of its part is explosive-proof. This reduces and protects spark from leaking out during operation. Explosion-Proof hoist is suitable for petrochemical industry or industry involved with flammable material. It comes in both chain and sling types.

2. Dock Leveler and Industrial Door

Dock Leveler is an equipment facilitating goods handling by bridging between a loading trailer and plant or warehouse, whereas Industrial Door is used for protecting impurities or storing coldness, which is crucial for present logistics systems, and helps for keeping products in safety and protects impurities. Main customer groups of the Company and its subsidiary are logistics, warehouse, cold storage, modern trade, including various industries that are interested in logistics together with production and marketing. The launch of the Asian Economic Community (AEC) at the end of 2015 offered opportunities for logistics industry since

Thailand might become logistics hub in the future, creating demand for logistics services. The brands of Dock Leveler, which the Company imports and distributes, include SERCO, STERTIL and INKEMA. The brand, which the Company's subsidiary imports and distributes, is DOCK EQUIPMENT. The brands of Industrial Door, which the Company imports and distributes, include NOVOFERM, CHASE DOOR and OVERHEAD DOOR. The brand, which the Company's subsidiary imports and distributes, is NASSAU.

2.1 Dock Leveler

Dock Leveler is a bridge facilitating goods handling between a truck and factory or warehouse. It helps for handling goods conveniently, rapidly and safely. Dock leveler includes Mechanical Dock Leveler, Airbag Dock Leveler, Electric-hydraulic Dock Leveler, Retractable Dock Shelters, Inflatable Dock Shelter and Dock Seal.

▲ Mechanical Dock Leveler

▲ Airbag Dock Leveler

▲ Electric-hydraulic Dock Leveler

▲ Retractable Dock Shelter

▲ Inflatable Dock Shelter

▲ Dock Seal

2.2 Industrial Door

Industrial Door is specifically manufactured for industrial plant for safety and for protecting things from impurities and fire, and for cold storage. The brands of Industrial Door, which the Company imports and distributes, include NOVOFERM, CHASE DOOR and OVERHEAD DOOR. The brand, which the Company's subsidiary imports and distributes, is NASSAU. The Industrial Door includes High-speed Roller Door, Overhead Sectional Door, Swing Door, Roller Fire Door and Cold Storage Door.

3. PVC Strip Curtain and Air Curtain

PVC Strip Curtain and Air Curtain are equipment installed in factory, warehouse or cold storage in order to block staff, trolley or forklift from passing through both inside and outside of room or building. These curtains protect dust and insect as well as help for maintaining temperature in warm and cold room, and saving energy. In addition, they are used both temporary and permanent partitions to separate each work area. Recently, the Company changes its distribution channel by only distributing through the subsidiary, which imports curtain from China. PVC strip curtain is used for protecting dust and noise, maintain temperature and conserve energy. It is comprised of several adjustable and transparent plastic strips, which are hanged on stainless steel swing hooks. The curtain is durable, transparent and reasonable price. It is suitable for a place

where workers or vehicles are frequently passing through. Air curtain protects dust, insect and air contaminated with germs from getting into the designated area. Moreover, it prevents air from getting into building or general factory. It can be used with PVC strip curtain to protect insects efficiently.

4. Services

4.1 After-sales services, other services for general customers

As at 31 December 2017, the Company and its subsidiary have 38 experienced teams with 78 skilled staff and sufficient stock of spare parts for customer's needs. Furthermore, the Company locates service center in Chonburi Province and Chachoengsao Province in order to provide 24-hour after-sales services to customers. The subsidiary locates service center in Pathumthani Province.

After-sales services of the Company and the subsidiary can be classified into three major categories as follows:

4.1.1 After-sales service under warranty

The Company and its subsidiary have a warranty, with the period of six months to six years, which scheduling to test load and conduct preventive maintenance for customer on monthly basis as agreed including general repair. The major services under warranty include:

- Preventive Maintenance is checking services for crane and hoist, industrial door and dock leveler in forms of preventive maintenance in order for products to be always ready for use. As required by law, crane must have preventive maintenance.
- General maintenance and spare part replacement. The customer can ask for service immediately. The warranty covers spare parts replacement for damage from normal use.

4.1.2 Contract Service

This service is a continuous service after the warranty expired. Moreover, it provides load test service, which is an additional service to warranty for crane as required by law, including scheduled load test by skilled engineer. After load test is performed and results meet internal standards, the engineer will issue Por Jor 1 certificate to customer.

4.1.3 Non Contract Service

This service includes preventive maintenance, load test, repair and spare parts replacement, depending on the requirement of customer at the time. This service offers to both customers who use products of the Company and its subsidiary and general customers.

4.2 Training center service

The Company and its subsidiary have training center offering courses of operation for crane operator, signalman and rigger. According to Department of Labour Protection and Welfare, the employer is required to provide the aforementioned course for the employee, and provide review course for crane operation in accordance with specific rules, procedure, training course and trainer.

Market and Competition

Competitive Strategy

The Company and its subsidiary define competition strategy and business policy in order to promote long-term competition and to continuously develop production capability by focusing on quality of products, on time delivery and good services to customers. The marketing strategy and main business policy includes:

1. Quality of Products

In every step of production process, the Company and its subsidiary always consider and determine on production of high quality products. In order to achieve this goal, the Company and its subsidiary utilize international standard machine and technology for production and provide team with knowledge and expertise in control and check quality of product in each step of the process in order for safety. The determination on developing production process contributed to the factory and products of the Company and its subsidiary to obtaining international certifications, including ISO9001:2008 for Quality Management System and TIS/OHSAS18001:2007 for Occupational Health and Safety Management System from TUV NORD.

2. After-sales services

The Company and its subsidiary focus on highest customer's satisfaction by providing 24-hour after-sales services and a team to advice customer on products regularly.

3. Spare parts

The Company and its subsidiary has appropriate spare parts policy in order to provide spare parts for customers in short period of time and to response to customer's demand in timely manner.

4. Safety

The Company and its subsidiary place importance on customer safety by providing equipment, taking care of and advising on product application. Besides, the Company and its subsidiary realize the importance of production safety by having production process that conforms to rules on safety, accident protection for employees, and installation of products by experts, which helps to reduce and control risk of accident to employee and concerned party.

5. Delivery time

The Company and its subsidiary place importance on delivery products and services in timely manner by estimating duration in production and installation in order to be confident that the Company and its subsidiary are able to complete the production and installation for customer in time.

6. Continuous development in knowledge and capability of staff

The Company and its subsidiary place importance on continuous development in knowledge and capability of staff in order to improve efficiency, flexibility and quality of operation by improving working system to be always up-to-date and constantly supporting employee's training and development. This resulted in improving capability and more importantly, the working system itself will enable employee to develop constantly.

Distribution Channels and Target Customer

Sales departments of the Company and its subsidiary handle products distribution. They have segregated duty and responsibility for each product category to their sales force. These sales staffs responsible for contacting customers, addressing customer demand and introducing products and services to customers. Products distribution of the Company and its subsidiary consists of:

1. Distribution through contractors

Since the Company and its subsidiary's products are mainly used in factories and warehouses, their customers are contractors from small size to large size contractors who have projects to build factories or warehouses. In building factories or warehouses, operators or owners of the factories will invite the contractors to bid for the project. The contractors will submit price according to the drawing and specifications. For the work related to products of the Company and its subsidiary, the contractors will contact the Company and its subsidiary to propose price according to the drawing and specifications. When operators or owners of the factory choose the contractors, the contractors will complete sales contract with the Company and its subsidiary then allow the Company and its subsidiary will produce or prepare products for installation and deliver products to customers.

2. Distribution to end users

This customer group is the owners of factories or warehouses, which the Company and its subsidiary used to provide service through contractor. After project delivered, the Company and its subsidiary continue to provide after-sales services, including maintenance, repairing and spare parts replacement. Hence, when these owners have project to expand their investment, factories or warehouses, they will contact the Company and its subsidiary to conduct the work without going through the contractors. Moreover, the customer in this category may be referred by factory owners, who were the Company and its subsidiary's customers and satisfied with quality and services, and they accordingly recommend other factory owners to use products and services of the Company and its subsidiary.

Customer structure of the Company and its subsidiary, classified by type of business:

Type of Business	Percentage (%)		
	2017	2016	2015
1. Motor vehicles	21.55	11.31	24.96
2. Steel and aluminum	11.78	19.73	10.69
3. Power plant	10.05	13.38	7.00
4. Agriculture and foods	9.54	5.29	5.86
5. Logistics	6.92	1.72	5.03
6. Hypermarket and convenient stores	4.48	1.38	8.37
7. Construction materials	4.13	13.17	5.26
8. Others ^{1/}	31.55	34.02	32.83
Total	100.00	100.00	100.00

Note: ^{1/}others include petrochemical sector and electronic parts sector and rail transit system sector.

Pricing Policy

The Company and its subsidiary adopt cost plus pricing policy and consider together with other factors such as comparison of the Company and its subsidiary's price to market price and price of competitors. Products pricing may appropriately adjust by product type, target customer and distribution channel in response to competition situation at that time in order to compete with the competitors in the market, but maintain margins as required by the Company and its subsidiary to be sufficient for expenses and operating expenses.

Certificate and International Standard

The Company focuses on improving efficiency in production and management in order to that meet international standards and is recognized by customers. Details of certificates obtained by the Company include:

Standard	Period	Detail
1.ISO 9001 : 2008 for Quality Management System	16 Mar 2015 - 15 Mar 2018	Standard, which International Standardization and Organization set up in order to promote management in quality of organization and systematically create customer's satisfaction
2.TIS 18001 : 2011 for Occupational Health and Safety Management	23 Nov 2015 - 22 Nov 2018	Thailand Industrial Standard, which is used to manage organization in order to reduce safety risk and increase employee' safety; and to improve operation of organization for safety, and to reduce
3.OHSAS 18001 : 2007 for Occupational Health and Safety Management	23 Nov 2015 - 22 Nov 2018	International Industrial Standard, which is used to manage organization in order to reduce safety risk and increase employee' safety; and to improve operation of organization for safety, and to reduce

Industry Overview and Competition

End-users of the Company and its subsidiary's products are in various industries. Over the past several years, the Company and its subsidiary have kept abreast of economic condition of these industries in order to assess opportunity, risk, and competition facing the Company and its subsidiary, details of which are summarized as below:

Foreign Direct Investment

In 2017, the overall Thai economy has expanded evidenced by records of the Board of Investment (BOI) for January to September 2016 and 2017 that investment amount from investment promotion soared from Baht 350.25 billion to Baht 376.57 billion, a 7.51% increase. The economic recovery resulted in an increase in investment from foreign investors. The investments were primarily made in metal, machine, transport equipment, electrical appliances and electronics industry and logistics development industry. The aforementioned increase in investment provides an opportunity for the Company and its subsidiary to boost sales of products and services as well as expand their customer base since their products can be used in diverse industries, especially for large-scale industries with continuous production process. According to said investment promotion information, investments from foreign investors are likely to increase.

Table: BOI promotion application filed 2015-2016 and 9 months (January-September) 2016 and 2017

	Jan-Sep 2017	Jan-Sep 2016	2016	2015
Total Investment (Billion Baht)	376.57	350.25	526.92	221.49
Registered Capital (Billion Baht)	43.21	51.99	79.32	67.25
- Thai	15.64	31.23	47.64	52.69
- Foreign	27.57	20.77	31.69	14.56

Source: the Board of Investment (www.boi.go.th)

Automotive and Parts Industry in 2017 (Source: Information from the Federation of Thai Industries)

Production of vehicle in 2017 totaled 1,988,823 units, an increase of 2.28% from the previous year. Production of passenger cars was 826,787 units or 41.57% of the total production, increased by 1.85% from 2016 whereas production of 1 ton pickup truck was 1,130,058 units equivalent to 56.82% of total production, raised by 2.47% from 2016.

In 2017, the exported vehicles being 1,139,696 units were more than the target, set at 1,100,000 units, 3.6% owing to the export of pickup trucks recovery in many partner markets. The export value was Baht 603,038 million, a decrease of 4.56% from the previous year. Export value of motorcycles were Baht 39,728 million, a decrease of 9.13% from the last year. Export of other automobile parts were Baht 202,488 million, an increase of 8.33% from the year 2016. Export of spare parts were Baht 36,127 million, a raise of 23.23% from the previous year. In summary, exports of vehicles, engine, automobile parts and spare parts were valued at Baht 881,380 million, a decrease of 1.17% from the previous year.

Power Generation

Power generation business, or power plant, is necessary to national development since business sector, private sector and households require electricity for their business and daily life. The expansion of power production business helps the Company's business to grow as well since power plants employ large and heavy machinery which must be lifted and moved by crane during the usual course of operation, especially for repairing and maintenance process.

According to the Office of the Energy Regulatory Commission's records as at 4 January 2018, there are many power producers desiring to produce and supply power to the Electricity Generating Authority of Thailand (EGAT) and the Provincial Electricity Authority (PEA). However, power producers who filed application to EGAT and PEA are classified into various status and types of plants. Therefore, the Company has an opportunity to produce and distribute cranes for power plants that have filed an application but have not yet signed the power purchase agreement (PPA), and those that have obtained approval but have not yet commenced operation (Commercial Operation Date or "COD") of IPP and SPP with a total of 41 projects. However, for the power plants that have already started commercial operation, the Company and its subsidiary may have an opportunity to produce and distribute crane or provide repairing and maintenance services to those power plants.

Table: Power Plant Information by Category and Status

Status	IPP Power Plant		SPP Power Plant		VSPP Power Plant		Total Power Plant	
	Project	Installed Capacity (MW)	Project	Installed Capacity (MW)	Project	Installed Capacity (MW)	Project	Installed Capacity (MW)
- Filed application but have not yet approved	-	-	-	-	31	131.25	31	30.00
- Approved but have not yet signed PPA	1	540.00	4	253.44	7	29.25	12	870.52
- Signed PPA but have not yet COD	3	5,930.00	33	2,999.98	87	480.12	123	11,098.23
- COD	17	15,544.52	128	11,247.71	901	4,826.38	1,046	29,517.57
Total	21	22,014.52	165	14,116.38	1,026	5,467.26	1,212	41,516.32

Source : Power plant information as at 4 January 2018 of the Office of the Regulatory Energy Commission (www.erc.or.th)

Note : IPP means independent power producer with capacity supplying to system not less than 90 Megawatts

SPP means small power producer with capacity supplying to system from 10 Megawatts to 90 Megawatts

VSPP means very small power producer with capacity supplying to system less than 10 Megawatts

COD means commercial operation date

PPA means power purchase agreement

Investment in Transport Infrastructure and the expansion of logistics business

The government plans to develop Thailand's Transport Infrastructure Development Strategy 2015-2022 under the accelerated plan the achievement of development goals, including the railway network between the cities and public transport network development, in order to solve traffic problems in Bangkok Metropolitan Region. The Company and its subsidiary have well-experienced in installing overhead cranes in the Depot. As a result of the investment in the public transport network development, there are opportunities for the Company and its subsidiary to sale products and services to target customers related to the development plan. Meanwhile, the National Economic and Social Development Board (NESDB) drives Thailand's Logistics Development Strategy (2017 - 2021) to enhance the logistics system of the country, support to be the ASEAN trading and services center as well as increase competitiveness. The three main strategies consist of development of value added supply chain, development of infrastructure and facilities, and development of logistics support factors being opportunities for the Company and its subsidiaries to expand their customer base.

Eastern Economic Corridor Development - EEC

The government supports infrastructure developments and provide investment privilege. The 10 targeted industries are comprise of First S Curve, including next – generation automotive, smart electronics, affluent, medical and wellness tourism, agriculture and biotechnology and food for the future, and New S Curve consisting of robotics, aviation and logistics, biofuels and biochemicals, digital and medical hub, that four of ten promoted industries are in the target customer. The investment in industrial promotional zone of 3 provinces, including Rayong, Chonburi and Chachoengsao, tend to expand considerably. Therefore, it is the business opportunity to distribute industrial products such as crane and electric hoist, Industrial doors and offer services to customers located in the Eastern Economic Corridor.

Product Procurement

Capacity Utilization

In crane production, the Company and its subsidiary customise the products to customer's order (made to order). The whole process from production to installation takes about 3-4 months, depending on complexity of work. Dock leveler, industrial door, PVC strip curtain and air curtain are finished products that are distributed to customers and will be completely installed within about 2 months after purchase order are confirmed by customers.

The Company and its subsidiary have two factories for crane production, one of which belongs to the Company located at 2/1 Moo 4, Wat Phimpawat - Khlong Koh Don Road, Koh Rai Sub-District, Ban Pho District, Chachoengsao Province, on land area of 4 rai 3 ngan 20 square wah. The subsidiary has one factory, located at 50 Moo 20, Lam Luk Ka Sub-District, Lam Luk Ka District, Pathumthani Province, on land area of 5 rai 1 ngan 54 square wah.

Maximum capacity of the Company and its subsidiary, classified by type of crane, and utilization rates 2016-2017

Type of Crane	Maximum Annual Capacity (No. of Crane) ^{1/}		Combined Utilization Rate (%)	
	Company	Subsidiary	2017	2016
Single girder crane, less than 15 meters long	102	94	17	17
Single girder crane, more than 15 meters long	76	75	17	7
Double girder crane, less than 15 meters long	60	43	12	6
Double girder crane, more than 15 meters long	42	36	31	41
Special-function crane, less than 15 meters long	32	- ^{2/}	12	-
Special-function crane, more than 15 meters long	25	- ^{2/}	32	-

Note : ^{1/} maximum annual capacity = No. of cranes produced in a year, assuming that only a single type of crane is produced and based on working 8 hours/day

^{2/} the subsidiary does not produce special-function cranes.

Procurement of Raw Materials and Finished Products

The Company procures raw materials, supplies, spare parts, and finished parts from numerous local and abroad producers and suppliers with details as follow:

- 1. Raw materials, supplies and spare parts** includes structural steel, such as steel plate, steel, rust preventive primer, electrical equipment, equipment in electrical system. These raw materials are procured from several local suppliers, both large and small, representing 100% of value of raw material procured for production.
- 2. Finished Parts**
 - Hoist and parts, including hoist, end carriages, spare parts, are imported from Germany since both companies are sole authorized distributor of these products in Thailand. The Company is a sole authorized distributor of STAHL brand while the subsidiary is a sole authorized distributor of ABUS brand. One hundred percent of parts order is for crane and hoist production.
 - Dock leveler, industrial door, PVC strip curtain and spare parts are procured by importing from the overseas brand owners who appointed the authorized dealership to the Company and its subsidiary for brands such as SERCO STERTIL NOVOFERM and NASSAU.

Customer Satisfaction Level

The Company surveyed customer satisfaction, responsible by Customer Relations Department, the main survey area included sales and installation of crane and hoist, sales and installation of industrial door and dock leveler, as well as after-sales service. More than 2,200 questionnaires were issued, the result found that most customer satisfaction is excellent in line with the target. In addition, any recommendations received from customers and concerned department, directly report to Chief Operating Officer, then suggestions from customers will continue to improve.

Customer Satisfaction results for 2017 are consist of 5 areas, the satisfaction scores in each area are as follow:

- Product Quality has satisfaction score 97.80%
- Sales Representative Quality has satisfaction score 97.86%
- Performance Quality has satisfaction score 98.86%
- Safetyness has satisfaction score 99.57%
- Overall has satisfaction score 98.52%

Environmental Impacts

Crane manufacturing process of the Company and its subsidiary minimally affect environment, not exceeding regulated levels required by related-government agency detailed as follow:

- **Noise quality** In production process, noise may occur during welding, grinding, polishing, cutting and assembling process or from broken machines. Hence, the Company and its subsidiary provide preventive and noise-reduction equipment such as ear plug for employees working in the noise area and always provide repair and maintenance for the machine to run efficiently.

- **Air quality** Air quality from production process can be affected by mist from spraying and paint in crane assembling area and dust in shot blast area, where the dust level is not exceeding legal requirements. The Company provides equipment to protect odor, dust and smoke (Filter Half Mask) for employees who work in those areas. The Company and its subsidiary's plants are located far from community and plant areas are fully enclosed to prevent dust emissions.

- **Water quality** Since water is not used in the Company and its subsidiary's production process, there is no direct water pollution. Waste water from washing and cleaning within the plant, which is small amount, indirectly affects water quality. The Company and its subsidiary do not discharge waste water but stores in sump manhole in order to use for watering plants in factory area,

- **Waste** Waste from production process, such as steel scraps, are collected and made into various weights for test load. The Company and its subsidiary sell wood and paper waste to scrap dealers, registered with Department of Industrial Work. Other wet and dry waste are separated and collected by municipality.

The Company and its subsidiary have engaged a private, recognized by the Department of Industrial Works, to conduct an environmental quality evaluation on yearly basis. The latest results from evaluation on the Company on 4 August 2017 and on the subsidiary on 22-23 June 2017 by C.E.M Technology (Thailand) Co., Ltd., demonstrate that the noise level and air quality meet legal requirements.

Backlog

As at 31 December 2017, the Company and its subsidiary have backlog amounting to Baht 301 million, increased 34% from the previous year amounting to Baht 224 million.

Shareholding Structure

The shareholding structure of the Company and subsidiary is as follows:

Alla Public Company Limited

Alla Public Company Limited was established on 20 March 1991 to engage in production, distribution and installation of crane and hoist by using crane and hoist parts of STAHL brand. Moreover, the Company imports, distributes and installs industrial door and dock leveler, including after-sales services and training center service located at Koh Rai Sub-District, Ban Pho District, Chachoengsao Province.

The Company's target customers using crane and hoist, are various industrial plants desiring to use specific products since crane and hoist parts of STAHL brand can be produced to suit customer's requirements. These customers include automotive and parts manufacturer, power plant, construction materials, agriculture and warehouse.

Onvalla Company Limited

Onvalla Company Limited was established on 8 February 1990 but commenced operation in 2006. The subsidiary engages in production, distribution and installation of crane and hoist by using crane and hoist parts of ABUS brand. Moreover, the subsidiary imports, distributes and installs industrial door, leveler, PVC strip curtain and air curtain, including after-sales service and training center service located at Lum Luk Ka Sub-District, Lum Luk Ka District, Pathumthani Province.

The Subsidiary target customers using crane and hoist, are various industrial plants requiring to use uncomplicated products without specific requirements, since crane and hoist parts of ABUS is standard. These customers are property sector, steel and aluminum, construction materials and warehouse.

Risk Factors

The Company and its subsidiary consider it is important to manage risks systematically and effectively. Major risks factors are as follows:

1. Operation Risks

1.1 Risk from dealerships cancellation by brand owners

The Company and its subsidiary are manufacturers and distributors of crane and hoist. Major parts such as end carriage, gearbox, electric hoists, are imported from well-known overseas manufacturers, including STAHL and ABUS. These parts are assembled to crane structure and hoist, which are designed and produced by the Company and its subsidiary, and subsequently installed for customers. Moreover, the Company and its subsidiary are distributors of dock leveler and industrial door under brands SERCO, STERTIL, INKEMA, NOVOFERM and DOCK EQUIPMENT. If the Company and its subsidiary are not granted authorized dealerships or new products have inferior quality to the existing products, this will have adverse impact on customers' confidence in products and lower revenue from products and services accordingly.

Mitigation plan Since the Company and its subsidiary constantly meet terms and conditions specified in dealership agreements, the Company and its subsidiary have been trusted from the brand owners to be their distributors and have never been cancelled the dealerships. With efficient distribution channels, strong sale teams, more than 20-year experienced in the business, good services and good relationships with customers and brand owners, the Company and its subsidiary are confident that the brand owners will continue to grant authorized dealerships to the Company and subsidiary.

1.2 Risk from declining revenue due to dependence on customers in a few industries

During the past three years (2015-2017), the Company and its subsidiary's revenue was mainly contributed by customers in automobile and steel industry. Which are heavy industry growth mainly rely on economy Thailand. With the current slowdown in economy, these customers have scaled down their production capacities, thus lowering the Company and its subsidiary's revenue.

Mitigation Plan The Company and its subsidiary have diversified customer base to other potential industries such as construction materials, power, logistics and food. Moreover, the Company will focus more on after-sales services and maintenance to serve increasing number of customers, who need these services to ensure that their equipment is ready for operation. This will resulting in increase in revenue.

The Company also sees opportunity to expand its business to ASEAN Economic Community (AEC) countries and explores an investment opportunity in Indonesia with a local partner to distribute crane and hoist. This investment also aims to serve the Company's existing customers in Thailand, who have recently relocated their production base to Indonesia.

1.3 Risk from delay in project / product delivery

In production and distribution of crane and hoist, industrial door and leveler, the agreement normally specifies delivery date and penalty in the case that the Company and its subsidiary are not able to deliver project in timely manner. The penalty is usually a fine to compensate for damages from delay in product delivery. This fine, which varies from contract to contract, causes an increase in project cost and a decrease in profits accordingly. Moreover, the project delay will damage the Company and its subsidiary's reputation and lower trust from other customers, thus leading to potential loss of future business.

Mitigation Plan The Company and its subsidiary closely monitor and examine each step of work process - since design, procure parts from overseas, production and quality control. This will keep the management and concerned parties up to date on status of each project and allow the team to solve problem as soon as it arises, thus improving efficiency in project management.

1.4 Risks from shortages of skilled labor

Production and after-sales services require experienced staff to reduce potential loss during production process. In addition, they require less time to identify and solve problems, leading to customer's satisfaction. Hence, the Company and its subsidiary always focus on recruiting qualified staff for efficient production and services. However, technicians, welders and service staff are in demand. There are risks of not being able to recruit replacements for these staff when required.

Mitigation Plan To avoid shortages of skilled labor in the past, the Company and its subsidiary adjusted its salary structure to be competitive with other companies in the same industry and provided additional benefits such as meal allowance. This is also to incentivize staff to work for a long term. Although the new recruits are experienced, the Company and its subsidiary provide training courses to improve staff's knowledge and skills.

1.5 The risk to rely on personnel and executives.

Personnel are one factor in the success of the Company if the Company loses personnel or Chief Executive Officer and / or key personnel of the directors are not being able to maintain the proper position and not a substitute for comparable properties, it may have negative impact significantly to the financial condition, performance and business prospects of the Company.

Mitigation Plan The Company recognizes the importance of maintaining human resources of the Company has a plan to develop human resources by focusing on talent development and personnel as well as guiding career path of the personnel in each level clearly, including the allocation of a reasonable return on the capability of the individual, and then compare with other operators in the industry. Moreover, The Company also has a policy about the succession plan to delegate the work, The Company has continued to recruit new staff to replace resigned staff in order to have enough staff in accordance with the plans of the Company.

1.6 The risk from the stability of the information technology system.

The Company introduced a system in the database management for their organizations to optimize operations and reduce capital of the group of the company. The risk associated with database of enterprise information system, which may cause the damage of sensitive data, the risk from the data theft of critical information such as customer data and information, the authorities to resolve data where a significant portion of the risks these are necessary to manage data, the impact on operations and its financial status.

Mitigation Plan The Company has also developed networks in the top income with care and maintenance schedules for IT. Management systems have enough information and to prevent the loss of data, set only to persons authorized to have access to a computer network and information, as well as the completion of the operation of the plan, repair and maintenance information technology systems of the Company and its subsidiaries to stability. As a result, the Company's systems in case the system quickly.

2. Financial Risks

2.1 Risk from Fluctuation in Foreign Exchange Rate

The Company and subsidiary's products have a lot of import components. Most costs of import parts and payment are denominated in Euro followed by US dollar, whilst revenues from products and services in Thailand are in Baht. The agreement does not allow the Company to adjust Baht price to pass onto the impact of Euro and US Dollar appreciation to customer. Exchange rate fluctuation might affect costs and gross profit of the Company and its subsidiary.

Mitigation Plan The Company and its subsidiary reduce risk exposure by entering into forward contract, which is at management's discretion in accordance with approved policy and guidelines from the Board of Directors. The Company and its subsidiary closely monitor exchange rates and evaluate trends in order to quote selling prices, which reflects exchange rate in that period. In addition, the proper procurement and delivery plan together with products pricing to cover exchange rate fluctuation will limit exchange rate risks. The Company and its subsidiary do not have policy to speculate on exchange rate.

3. Risks of Investors in the Company's Securities

3.1 Risk from major shareholder with 50% ownership

After shares offering in the Stock Exchange of Thailand (SET), the major shareholder which is Puntuyakorn group will hold 63.84% of the Company's total paid up capital. Putuyakorn group also are management and authorized directors of the Company. Therefore, such group has authority in managing the Company and can control almost all major resolutions in shareholders' meeting. This includes the appointment of directors or other resolutions, which requires majority votes of the shareholders' meeting, except for agendas, which are in accordance with law or articles of association of the Company require three out of four of all votes of the shareholders attending the meeting and having the right to vote such as capital increase and capital reduction. Therefore, other shareholders attending the shareholders' meeting might not be able to collect sufficient votes to examine the Company's operations managed by the major shareholder.

Mitigation Plan The Company realizes such risk; therefore, the Company has managed to appoint four out of total eight directors to be independent directors. All four independent directors, who also serve in the Audit Committee, are knowledgeable, competent and well known. Besides, the Company engaged Internal Auditor, who is an external party, to examine and evaluate the Company's operations and report directly to the Audit Committee, thus providing thorough and transparent examination on operations and counterbalancing the Board of Directors.

Section 4 Disclosure and Transparency

The Board of Directors places importance on disclosure of the Company's important information, financial and non-financial, to be accurate, adequate, timely, transparent easy access and equitably available to all parties. The Company disseminates its information to shareholders, investors and public through various sorts, including the Stock Exchange of Thailand, the Company's website, Annual Registration Statement (Form 56-1) and Annual report.

The Board of Directors is responsible for the Company's financial statements and financial information in annual report. These financial statements are prepared in accordance with generally accepted accounting standards in Thailand by selecting suitable accounting policy consistently, including disclosure of information adequately in the financial statements. The Audit Committee will review quality of financial report, internal control and adequacy of information disclosure in notes to financial statements, and will report to the Board of Directors.

Investor Relations

The Board of Directors realizes that its information, both financial and non-financial, affect to the decision-making investors and stakeholders. For the investor relations part, the Board of Directors and executives provide important information to stock analysis and investors. In 2017, the Company presented its performance summarized below:

- The Company staged the company visit two times to present performance and company business at the Company's factory at Chachoengsao province in January and the subsidiary's factory at Lumlukka, Phatumthani province in October.
- The executives meeting with the press for presented performance and visit factory at Chachoengsao province in March.
- Always meeting with the investors at the "Opportunity Day" hosted by SET to present performance, information and financial statement to the stock analysts and investors.

Section 5 Responsibilities of the Board of Directors

1. Structure of the Board of Directors

- 1.1 The Board of Directors comprises of directors with various qualifications in terms of skills, experiences and expertise in specific field, to benefits the Company. The Board of Directors plays a key role in setting up policy and business plan, and overseeing, examining, evaluating operation performances to ensure that it meets targeted plan. The Board of Directors ensures that the Company's operations comply with laws, rules, and resolutions from the shareholders' meeting, and with integrity, ethics and code of conducts. The Board of Directors also oversees and ensures that the business operations by the executives follow guidelines, achieve targets and provides highest benefits to the Company and shareholders. The structure of the Board of Directors must comprise at least 1 non-executive director with experience in accounting and finance.
- 1.2 The Board of Directors must be sufficient number of members to oversee the Company's business. It should comprise of members with sufficient knowledge, experience and ability to perform their roles efficiently. The number of members on the Board of Directors must not less than five members.
- 1.3 The Board of Directors must comprise independent director in compliance with the requirements of the Securities and Exchange Commission. The independent director can freely give opinion on business operation by the executives. This creates check and balance when consider business matters and review the operation by the executives to benefits the Company.

As at 31 December 2017, the Board of Directors had eight members, consisting of four non-executive directors, (four of which are independent directors, which is in compliance with the requirements of the Securities and Exchange Commission, which requires the number of independent directors must be at least one out of three of total directors, and requires the Audit Committee must comprise at least three members, who have the qualifications in accordance with the related notification of the Securities Exchange Commission), and four directors being executives and employee, consisting of one Chief Executive Officer, one Chief Operating Officer and one Chief Administration Officer and deputy financial manager.

- 1.4 The Board of Directors represents all shareholders, not representative of any particular groups.
- 1.5 The Board of Directors has policy to have number of non-independent directors in fair proportion of investment of controlling shareholders in the Company.

- 1.6 According to article of association and related law, the appointment of directors must be transparent. The selection process must conduct through corporate governance process and consider education background and professional experiences of the candidate with sufficient detail for decision making of the Board of Directors and shareholders. According to article of association, at every annual General Meeting of the Shareholders, at least one out of three of total numbers of the directors must retire. If the number of directors cannot be divided into three portions, the number of directors to retire must be nearest to one out of three of total members of the directors. Directors with the longest tenure will retire and they can be reappointed.
- 1.7 Directors' term in office is defined in article of association. There is no limit on number of reappointment of vacated directors. As for qualifications of independent director, the Board of Directors' policy stated that independent director who has been in such position for nine years or three terms consecutively, the Board of Directors will review the true independence of the said independent director every year.
- 1.8 The Board of Directors clearly segregates authorities and responsibilities in setting up policy on corporate governance and day-to-day business operations. Chairman of the Board of Director and the Chief Executive Officer are elected by the Board of Directors and both positions cannot not be held by same person in order for clear responsibilities between setting up policy and oversight, and managing business. The Company clearly segregates roles and responsibilities between the Board of Directors and the executives. This provides check and balance in that the Board of Directors sets policy and oversee, at policy level, business operation by the executives, while the executives manages business in different areas in accordance to policy. The Chairman of the Board of Directors is not involved in day-to-day business but supports and provides advice in business operation of executives through the Chief Executive Officer regularly, while the Chief Executive Officer is responsible for administration and management of the Company with the authority provided by the Board of Directors.
- 1.9 The Board of Directors limits number of company, that each director can have any position in, at five listed companies. This is due to the consideration of efficiency of directors with several positions in other companies and sufficiency of time to perform duties of the Company.
- 1.10 According to article of association, the Board of Director sets policy in assuming position in other companies of the Company's director. The Company's director must not operate or be partner of a company with or without limited liability, or be a director of a company or a public company that has the same business and competes with the Company's business, except that the director informs the shareholders' meeting prior to appointment.
Moreover, the Board of Directors does not have policy to nominate executive to be other company's director except for the company in the Company's group. In case the Company's executive will assume position in other companies, it must be approved by the Board of Directors, except for a position in non profit organization. The position must not violate law and regulation in relation to the Company's business and the said executive must not use current position at the Company to promote other business.

- 1.11 The Board of Directors appointed the company secretary who possesses relevant qualifications and experiences. According to the Securities and Exchange Act, the company secretary has duties and responsibilities to advise on law and regulations necessary for the Board of Directors, oversee and assist the Board of Directors' activities, and ensure that resolutions of the Board of Directors are conducted. The Company disclosed the qualifications and experiences of the company secretary in annual report and on the Company's website.
- 1.12 The Board of Directors promotes and supports the company secretary in training and continuous developing in the area of law, accounting and duties of the company secretary.

2. Sub-committee

The Company appointed sub-committees, namely the Audit Committee, the Executive Committee, the Risk Management Committee and the Nomination and Remuneration Committee.

3. Roles, Duties and Responsibilities of the Board of Directors

3.1 Duties and Responsibility of the Board of Directors

The Board of Directors considers and approves important issue relating the Company's business operations such as vision, policy, strategy, goal, business plan, an annual budget, internal control and risk management, oversee the management/executive to operate in accordance with policy and plan efficiently and effectively.

However, the Board of Directors is responsible for the Company's financial statements; assigns the Audit Committee to review financial report and ensures that financial report is prepared in accordance with generally accepted accounting standards and ensures transparently and adequately discloses the Company's important information. The accounting department and/ or auditor propose financial report to the Board of Directors/the Audit Committee every quarter. The Board of Directors is responsible for the Company's financial statements and financial information (The Board of Directors' Report on its Responsibility to the Financial Statements) in annual report.

3.2 Corporate Governance

The Board of Directors ensures written policy on corporate governance and this policy is communicated to all employees in the organization to understand policy on corporate governance, and to adopt and to follow this policy. The Board of Directors regularly reviews the policy and its implementation at least once a year.

3.3 Code of Conduct

The Board of Directors adheres to operation business with fairness and has policy to set written code of conduct to implement and disseminate to directors, executives and all employers to understand ethics and to be guidelines in operating business. Code of conduct serves as intention to operate business with transparency, responsibility to stakeholders, consideration of social and environment. Code of conduct reflects value and guidelines for employees to follow. The Company publishes and announces code of conduct and ensures that all employees strictly follow this code of conduct. The Board of Directors monitors that code of conduct are strictly adopted and followed.

3.4 Conflict of Interest

The Board of Directors carefully considers the matter of conflict of interest and has clear guidelines when considers transaction that may have a conflict of interest for the benefits of the Company and shareholders. The policy does not allow directors, executives and employees, including related person to the said parties, to seek personal interests that conflict with the Company's interest. The policy also encourages the person to avoid any act that causes a conflict of interest. The person, who relates to, has interest or is connected to the transaction that is under reviewed and considered, must make it known to the Company of how the said person is related or connected to this transaction. The said person shall not be involved in the decision on this transaction.

The Audit Committee shall present to the Board of Directors of connected transaction and transaction with conflict interest, which is carefully reviewed. The Company ensures the compliance with the Securities and Exchange Commission and the Stock Exchange of Thailand in pricing and other conditions with the person that may have a conflict of interest, to be the similar conditions as transaction with other parties without conflict of interest.

The Board of Directors oversees and ensures that the Company follows requirements on process and disclosure accurately and adequately of transaction that may have a conflict of interest, by disclosing these transactions in the financial statements, annual report and annual registration statement (Form 56-1).

3.5 Internal Control

The Board of Directors places important on efficient oversight and internal control both executive level and operation level. Internal control system is a major mechanism to help provide confidence to administrative and management to reduce business risk, operate business efficiently by allocating proper resource and achieve targeted goal, protect assets from escaping or losing due to corruption or wrongdoing, support accuracy of financial reporting, guide staff to operate in accordance with law, order, regulation and protect investment of shareholders. Hence, the Company clearly defines duty and authority of staff and executive in writing, monitors of utilization of assets, segregates duty of operator, monitor and evaluator, to provide suitably check and balance system.

The Board of Director assigns the Audit Committee to review the efficiency and suitability of the internal control system that the management provides; prepare and review control system in operation, financial reporting, compliance, corporate governance and risk management; and focus on early warning sign in business operation and unusual transaction. The Company hires external party, who is independent in performing task, to be responsible for the Company's internal control. Multiplus Audit and Consulting Co., Ltd. is the Company's internal auditor to perform audit function in order to be confident that the Company has adequate and suitable internal control system. The internal auditor will report directly to the Audit Committee. The Company monitors and evaluates performance regularly, in order to be certain that the system is efficient. The Company will evaluate of the adequacy of internal control system and other important systems at least once a year and disclose the results in the Company's annual report.

3.6 Risk Management Policy

The Board of Directors determined Risk Management Policy to cover the whole organization and assigned the management to follow the policy including regularly report to the Board of Directors for acknowledgement, arrange the system reviewing and annual assessment of the effective of risk management, at least once a year and disclose in the Company's annual report.

The Board also places importance to early warning signs and unusual transactions.

3.7 Complaints and Clues Informing

The Board of Directors give clear guidelines for persons who intends to provide tips or interest person via website or directly report to the company. The person can inform independent director or member of the Audit Committee to order for validate and investigate in accordance with the Company's process and report to the Board of Directors.

4. The Board of Directors' Meeting

- 4.1 The Company set meeting schedule and agenda in advance and informs each director about the said schedule, in order for the directors to manage their schedule to accommodate the meeting.
- 4.2 The Company set the policy to have the Board of Directors' meeting at least five times a year (In 2017, the Company have the Board of Directors' meeting at six times), including other special meetings as necessary. However, to provide more flexibility in operating business, the executive committee meeting is held once a month, which will consider and approve business matters within authorities and responsibilities assigned by the Board of Directors. At each Board of Directors' meeting, the executive committee will inform the approved transaction by the executive committee to the Board of Directors in order to oversee, control and supervise the operation of the management continuously and in timely manner.
- 4.3 In arranging the Board of Directors' meeting, Chairman and the Chief Executive Officer will consider and select matter or topic to include in the meeting agenda. Each director has an opportunity to propose matter freely that benefits the Company. It is each director's responsibility to attend the meeting not less than 75% of total number of the Board of the Directors' meeting held in one year.
- 4.4 The company secretary sends invitation letter together with agenda and supporting document to directors not less than seven days before the meeting, in order for directors to study the issue. With an exception for urgent case that needs to protect the Company's rights or benefits, the notification of the meeting will be informed by other processes and the date of the meeting can be earlier. In the Board of Directors' meeting, the company secretary attends and records minutes of the meeting, and send to Chairman of the Board of Directors to consider and sign, and propose to the meeting to acknowledge in the next meeting. The Company Secretary also keeps and maintains information and document relating to meeting for convenience for searching and reference. Normally, members of the Board of Directors attend all meetings except necessary case that they need to inform prior to the meeting.
- 4.5 The Chairman of the Board of Directors acts as Chairman of the meeting and is responsible for supervise and allocate sufficient time for each agenda. All directors can express their opinion freely on important matters for the benefits of shareholders and related party fairly.

Report of the Audit Committee

The Audit Committee, appointed by the Board of Directors, is comprised of four independent directors, each of which has experiences in management, engineering, financial accounting and law. Mr. Weerachai Ngamdeevilaisak serves as Chairman of the Audit Committee. Prof. Dr. Sahaton Rattanapajit, Mr. Chirawat Srisawadi and Mr. Patai Bunmark are Members of the Audit Committee. Ms. Oranuch Phongamwong is Secretary of the Audit Committee.

The Audit Committee performs its duty within scope of responsibilities in accordance with assignments from the Board of Directors and the Audit Committee Charter. In term of the corporate governance, the Company purposes integrity and transparency of operations which are responsible for shareholders. The Audit Committee ensures that the Executive Committee and the management operates correctly, completely and generally in accordance with the Company's policies.

In 2017, the Audit Committee held six meetings upon consultations with the management, internal auditor and auditor to acknowledge, approve and discuss on various issues, which can be summarized as follows.

1. Review of Financial Statements

The Audit Committee reviewed quarterly and yearly 2017 consolidated financial statements before proposing to the Board of Directors for approval. The Audit Committee inquired and obtained clarification from the management and the auditor in relation to accuracy of the financial statements, significant adjustment which impacts on financial statements, appropriateness of accounting method and scope of audit as well as adequate and accurate disclosure. The Audit Committee and the auditor had meeting without the management's presence to independently discuss important matters in relation to preparation of financial statements, disclosure of useful information and consider suggestions by the auditor to improve the Company's internal control more efficiently.

2. Review of Internal Control and Risk Management

The Audit Committee reviewed internal control and risk management in order to evaluate its adequacy and suitability in accordance with standards of internal audit and guidelines by the Securities and Exchange Commission, Thailand. The Audit Committee quarterly monitored and discussed with the Risk Management Committee on the risk management operations and reviewed the report of internal audit, an external party hired by the Company. The Audit Committee was of the opinion that the Company had adequate and suitable internal control and risk management.

3. Review of Compliance with Law

The Audit Committee required the review and monitoring of the Company's operation to ensure that the Company abides by the security law, regulations of the Stock Exchange of Thailand and other related laws. This review was included the scope of work for internal audit and was one of the agenda to be reported in the quarterly meeting of the Audit Committee.

The Audit Committee did not find any indicator that the Company intended to neglect and/or operated any transactions to violate the laws which was material.

4. Review of the guidelines for entering into Connected Transactions

The Audit Committee reviewed suitability and adequacy of the rules and procedures of entering into connected transactions or transactions that could be conflict of interests. The Audit Committee also reviewed transactions that could be within the scope of connected transaction or conflict of interests during the year and reviewed disclosure of the transactions in accordance with regulations and guidelines by the Stock Exchange of Thailand.

The Audit Committee was of the view that connected transactions occurred during the year were the ordinary transactions of business and benefited the Company. Moreover, the disclosure of information of such transactions were adequate and suitable.

5. Oversight Internal Audit

The Audit Committee considered the mission, the scope of operations of internal audit unit, duties and responsibilities, auditor independence, organization and manpower as well as reviewed and approved the 2017 audit plan, prepared in accordance with the risks assessment of the Company's departments, the audit quality improvement plan, the development of knowledge skills and expertise of the internal audit personnel.

6. Appointment of External Auditor for 2017

The Audit Committee carried out the evaluation of auditor and their remuneration for 2017 by taking into consideration of performances, independence and ethical requirements according to the guidelines from the Securities and Exchange Commission, Thailand (SEC). The Audit Committee offered the Board of Directors to propose approval from the shareholders' meeting to reappoint EY office limited as auditor for 2017.

7. Report of Operation Results

The Audit Committee quarterly reported operation results to the Board of Directors by providing useful suggestions to the management. The management properly improved operations in accordance with the suggestions.

In 2017, the Audit Committee performed its duty with competency, carefulness, independence and without limitation of obtaining information from the management, staff and other concerned parties. The Audit Committee opinioned and provided useful suggestions for all stakeholders equally.

In conclusion, the Audit Committee was of the view that the Board of Directors, the management and staff determined to perform their duties to achieve the Company's goal by emphasizing on operating under appropriate internal control, risk management systems and sufficient good corporate governance.

This report was reviewed and approved by the Audit Committee on 20 February 2018.

On behalf of the Audit Committee

Mr. Weerachai Ngamdeevilai Sak
Chairman of the Audit Committee
20 February 2018

Internal Control and Risk Management

The Board of Directors' Opinions on Internal Control

The Company recognizes the importance of the internal control and risk management systems with an emphasis on internal control, which is adequate and suitable for business, by adopting the framework of COSO (The Committee of Sponsoring Organizations of the Tread Way Commission) which is comprised of eight components as follows.

1. Control Environment

The Company sets clear vision, mission, business strategy and organization structure, which supports business management and operation. The Company has built corporate culture into employees awareness of duty, responsibility with effectiveness, kind assistance, sacrifice for the benefits of organization, community and society, positive thinking, readiness of skills and health as well as integrity at work.

2. Objectives Setting

The Company determines the objectives of risk management to be accordance with the Company's strategy and risk. The Company clearly and appropriately targets the risk management of the organization to achieve the objectives.

3. Event Identification

The Company records the events that could subject to internal and external risk factors which could be able to impact the Company. The aforementioned is to understand the events. The management could determine the ways and policies to manage risks that may occur as well.

4. Risk Assessment

The Company realizes on the importance of risk management, hence systematically performs risk assessment by defining criteria and suitable method, ensuring all units to be aware of the Company's risk tolerance level, providing guidelines for risk management and communicating to employees to behave.

5. Risk Response

The Company gathers risks that may arise in the organization to set regulations and policies such as management, personnel, finance, operations, information systems, accounting and risk management, etc. to reduce losses or impacts into the Company's tolerance level.

6. Control Activity

The Company has written policies and procedures for all employees to behave by defining good control activities. For example, segregation of duty for between reviewal and approval staffs, setting approval authority policy which specifies the limit at each level, and setting budgeting system by analyzing and controlling the worthiness of spending to maximize benefits. The Company regularly reviews policies and procedures by senior management and performs sufficient control by implementing KPIs as a tool for planning and monitoring.

7. Information System and Communication

In order to communicate the accurate and sufficient information for decision making of the Board of Directors, the management, shareholders and concerned parties, the Company has continuously developed information system and communication to achieve soundness and efficiency.

8. Monitoring Activities performs

The Company performs monitoring process including arranging department meetings to operation performances, preparing performances report to the management, setting up internal audit division to monitor, review and provide recommendations to improve internal audit, when meterial control weakness occurs. The monitoring and Enterprise Risk Management (ERM) are tools for the management to improve and develop internal control and risk management. As the Board of Directors' meeting of ALLA Public Company Limited 2/2018 held on 22 February 2018, which 4 independent directors attended the meeting, the Board of Directors assessed the adequacy of the Company's internal control system in accordance with the assessment form for adequacy of internal control system by the Securities and Exchange Commission Thailand, (SEC). The Board of Directors was of the opinion that the Company had suitable and adequate internal control system. All functions effectively performed in accordance with generally accepted accounting standards, notices of the Securities and Exchange Commission, Thailand (SEC). and regulations of the Stock Exchange of Thailand (SET) by reporting its quarterly and annually financial statements and providing financial statements disclosure in accurate, adequate and timely manner. The Company had adequate and suitable internal control system and efficiently developed with changing circumstances in order to achieve its objectives and abided by related laws and regulations. Any significant issue or mistake that may cause damage to the Company and subsidiary's operations was not found. The Company's internal control system of relationed transactions with major shareholders, directors and the management or the person related to the aforementioned parties was adequate, the Company's assets was prevented from being misappropriate used by the management. The independent directors and the Audit Committee did not have different opinion from the Board of Directors. Moreover, the Audit Committee will increasingly supervise good corporate governance.

The Company realized on the indispensability of internal control, by implementing good corporate governance, distinctly defining duties, responsibilities, rules, regulations, policy, authority level of management and appropriate approval level in writing. The Company set up internal audit division, which independently monitors and evaluate internal control system and directly report to the Audit Committee to review operations and activities in order to achieve objectives and goals of the Company and its subsidiary. The results showed that there was no material mistake in internal control system. In the other areas of internal control, the Board of Directors was of the view that the Company and its subsidiary had adequate internal control.

Internal Audit Unit to Monitor Internal Control

Multiplus Audit and Consulting Co., Ltd. ("Independent Internal Auditor" or "Multiplus"), which was an independent internal audit firm (Outsource), was appointed by the Company to evaluate and monitor the Company and its subsidiary's internal control system in 2017. The Audit Committee was of the opinion that Mutiplus supervised by Mr. Surapol Tavalvijajit had suitable qualifications and competent staffs. Moreover, the Company initate to have its own internal audit division, which Ms. Oranuch Phongamwong (January - October 2017) and Mr. Titi Ponglumjeak (November 2017 - present) are the Company's internal auditor to perform internal audit function and to support and facilitate Multiplus. The internal auditors directly reported to the Audit Committee regularly, thus ensuring that the Company had adequate internal control.

Risk Management

The Company recognizes the importance of risk management then organizes the Risk Management Committee, chaired by the Chief Executive Officer, to monitor and manage risk in order to maximize effectiveness. In 2017, the Risk Management Committee held four meetings to review the numbers of incidents, action plan of each units responsible for each risk factors and consider risks level in order to manage risk effectively. Risk management is the key element of every steps in the business operation and relates to all levels. The Company instruction manual and procedure of risk management and corporate risk profile annually. The corporate risk profile categorizes into strategic risk, operation risk, financial risk and compliance risk, which might affect to the Company's goals. The Risk Management Committee also reviewed risk from various incidents occurred during the year, ranked the risk level, developed guidelines to treat risk, assigned responsible person to develop an action plan and manage risk into tolerance level in order to achieve the Company's goals and build up confidence from shareholders and stakeholders.

Guarantee in a total amount of Baht 2.09 million.	<p><u>Opinion of the Audit Committee</u></p> <p>The aforesaid guarantee for hire purchase is subject to the condition set forth by the leasing company. The subsidiary needs such vehicles in its usual business operation. No guarantee fee is charged to the subsidiary. Therefore, the transaction is deemed reasonable and beneficial to the subsidiary.</p>

Necessity and rationale of related party transaction

In 2017, the Company and its subsidiary's related party transactions included directors' guarantee on loans from financial institutions and vehicles hire-purchase contracts. These transactions were reasonable and necessary since they were under normal course of business and support the Company and its subsidiary's business. The Company did not pay for guarantee provided by directors and related parties.

The Audit Committee reviewed the aforesaid related party transactions and was of the opinion that the transactions were deemed reasonable and beneficial to the Company and its subsidiary (See detail of each transaction in the table above).

Measure or procedure in approving for related party transaction

In the Board of Directors' meeting, there was a resolution to define policy and procedure of the approval for related party transaction between the Company and persons, who may have a conflict of interest, such as major shareholders, directors, executives, controlling persons, connected persons, related persons. The Company shall abide by the Security and Exchange Act, rules, orders and regulations required by the Securities and Exchange Commission, Thailand (SEC), the Capital Market Supervisory Board and the Security Exchange of Thailand (SET). The Company shall follow requirements relating to disclosure of related party transaction in accordance with accounting standards by the Institute of Certified Accountants and Auditors of Thailand. The person who may have a conflict of interest shall not be allowed to be involved or approve such transaction.

In case the law requires approval for related party transaction from the Board of Directors or the shareholders' meeting, the Company shall invite the Audit Committee to consider and give opinion on the necessity and rationale of such transaction.

Principles of related party transaction that is a commercial transaction with normal terms and conditions and a commercial transaction without normal terms and conditions are as follow:

Commercial transaction with normal terms and conditions

Entering into a commercial transaction with normal terms and conditions, the Company and/or its subsidiary may enter into related party transactions that include selling and purchasing of goods and services with directors, executives or persons who may be related in the future. The Company defined a framework for such transaction, which was reviewed and accepted by the Audit Committee, and subsequently approved by the Board of Directors. The Management can approve the transaction, that the terms are similar to which the reasonable normal contract under the same circumstance, without any influences on the bargaining power due to the Company's director's, executives, or related parties. As such, the Company shall prepare a summary report on related party transactions with directors, executives or related persons and quarterly report to the meeting of the Audit Committee and the Board of Directors.

Commercial transaction without normal terms and conditions and other transactions

Entering into a commercial transaction without normal terms and conditions and other transactions with the persons, who may have a conflict of interest, the Company shall propose to the Audit Committee to consider and give opinion on the necessity and suitability of entering into such transaction. The Audit Committee shall consider the suitability of prices and conditions of such the transactions and compare prices with other parties or market prior to proposing to the Board of Directors and/or the shareholders' meeting, if required, for their approval. In case of the Audit Committee does not possess expertise to consider possible related party transactions, the Company shall bring in the independent expert or the Company's auditor to give opinion on the mentioned transaction in order to support the Audit Committee, the Board of Directors and/or the shareholders' meeting, if required, for their decision making. The persons who may have a conflict of interest shall not be allowed to vote such transaction.

The Company shall disclose related party transaction in note to financial statements audited by the Company's auditor, annual report and annual registration statement (Form 56-1) as required by the Securities and Exchange Act.

Policy or future related party transaction

The Company expects related party transaction arising from normal course of business and supporting normal business with normal terms and conditions of the Company and/or its subsidiary. For instance the directors guarantees on credit facilities from financial institutions and vehicles hire purchase for the Company and its subsidiary, will be continually occurred. As for the existing or future related party transaction, the Company shall clearly set policy of transfer pricing at fair market prices and conditions, avoid transferring of benefit and consider benefit to the Company and its subsidiary. The Audit Committee shall review and give opinion quarterly on related party transaction which is a normal business transaction or supporting normal business transaction. However, guarantee on credit facilities from financial institutions and automobile hire purchase by directors and/or assets of directors may be redeemed on the conditions of guarantee after securities of the Company are listed in the Stock Exchange of Thailand (SET). If the Company cannot redeem the aforesaid guarantees, the directors shall guarantee without being paid any fees onwards.

As for transaction between persons, who may have a conflict of interest that is different from the first paragraph, such as normal business and supporting normal business transactions without normal terms and conditions and other transactions, the Company set policy of measurement and approval for related party transaction and disclose of the mentioned transactions.

As for future related party transaction, the Board of Directors must abide by the Security and Exchange Act, rules, and regulations required by the Securities and Exchange Commission, Thailand (SEC), the Capital Market Supervisory Board and the Stock Exchange of Thailand (SET). This includes following requirements relating to disclosure of connected transactions of the Company and its subsidiary in accordance with standards by the Institute of Certified Accountants and Auditors of Thailand.

PVC strip curtain and Air curtain	9,315	1%	10,245	2%	(930)	(9%)
Total revenue from sales	483,048	78%	478,715	79%	4,333	1%
<u>Revenue from services</u>						
Crane and Hoist	103,891	17%	106,468	18%	(2,577)	(2%)
Industrial door and Dock leveler	26,509	4%	14,160	2%	12,349	87%
Training center	387	0%	367	0%	20	5%
Total revenue from services	130,787	21%	120,995	20%	9,792	8%
Other Income	7,125	1%	7,755	1%	(630)	(8%)
Total Operating Income	620,960	100%	607,465	100%	13,495	2%

Total operating income for the year 2017 were Baht 621 million, increased from prior year of Baht 14 million or 2% which can be analyzed by each type of business as follows.

- Crane and Hoist: The portion of sales was 59% of total revenues. The sales in 2017 slightly decreased by 1% compared to prior year. Even in the third and fourth quarter, the Group's customers, which were automotive, steel and aluminum, had ordered crane and electric hoists increased. However, in overall of this year, the Group was still affected by the slowdown of investment in early 2017.
- Industrial door and Dock leveler: The portion of sales was 18% of total revenues. The sales increased by 8% compared to prior year, mainly due to the expansion of core customers, especially Logistics, Hypermarket and Agriculture and foods.
- Service revenues: The portion of service revenues was 21% of total revenues which increased by 8% compared to prior year, mainly due to an increase of door service contracts in the Hypermarket segment.

In addition, the Company received an interim dividend of Baht 10 million from its subsidiary, which this transaction had been eliminated in the consolidated financial statements.

As at the end of this year, the Company and its subsidiary had revenues backlog of Baht 301 million, which increased by Baht 77 million or 34% compared to last December, such backlog will gradually be recognized as revenues from the first quarter of 2018 onward.

Operating Expenses

Operating Expenses	2017 Thousand Baht	2016 Thousand Baht	Change
Cost of sales and services	430,199	414,183	4%
Selling expenses	27,025	25,119	8%
Administrative expenses	90,175	91,789	(2%)
Total Operating Expenses	547,399	531,091	3%

Total operating expenses for the year 2017 of the Company and its subsidiary were Baht 547 million, increased from prior year of Baht 16 million or 3%. The mainly causes due to

- An increase of cost of sales and services which was in line with the increase of revenue from sales and services, and also increased from provision for other long-term employee benefits.
- Selling expenses slightly increased in line with the increase of revenue from sales and services
- Administrative expenses slightly decreased since the Company had additional expenses related to the distribution of shares due to the capital increase in the Stock Exchange of Thailand in 2016.

Other Major Items

Other Items	2017 Thousand Baht	2016 Thousand Baht	Change
Finance costs	751	3,539	(79%)
Income tax expenses	15,262	13,824	10%
Total Other Items	16,013	17,363	(8%)

- Finance cost decreased since the Company repaid entire long-term loans from financial institutions in the fourth quarter of 2016.
- Income tax expenses increased in line with the operating profit.

Profitability Analysis

Profitability Analysis	2017 Thousand Baht	2016 Thousand Baht	Change
Gross profit	183,636	185,527	(1%)
Gross profit margin (%)	30	31	
Operating profit before adjustment of extraordinary item	59,732	59,011	1%
Actuarial loss on other long-term employee benefits	(2,184)	-	(100%)
Net profit	57,548	59,011	(2%)
Net profit margin (%)	9	10	
Total comprehensive income	60,293	59,011	2%
Basic earnings per share (Baht)	0.10	0.12	(17%)

- Gross profit and gross profit margin slightly decreased which were due to high competitive market. However, the Group continued to strive for costing effective management.
- Operating profit before adjustment of extraordinary item increased due to the increase of operating income and the decrease of administrative expenses. However, due to the actuarial loss on other long-term employee benefits, as a result, net profit and net profit margin slightly decreased from previous year.
- Total comprehensive income increased from actuarial gain arising from post-employee benefit plans.
- Basic earnings per share for 2017 decreased as from the increase of ordinary shares resulting from the capital increase by initial public offering in the fourth quarter of 2016.

Asset Management

Assets

Assets	2017 Thousand Baht	2016 Thousand Baht	Change
Cash and cash equivalents	270,472	178,130	52%
Short - term investments	112,213	210,078	(47%)
Trade and other receivables	161,188	142,674	13%

Less Allowance for doubtful accounts	(53)	-	(53)	-
Trade accounts receivable and accrued income – net	158,062	100%	141,007	100%

Total assets of the Company and its subsidiary increased of Baht 53 million or 6%, due mainly to

- Cash and cash equivalents increased due to the maturity of short-term investment during the year.
- Trade accounts receivable and accrued income increased in line with the increase of revenue from sales and services.
- Property, plant and equipment increased due to investment in assets under construction of its subsidiary's warehouse.

Liabilities and Equity

Liabilities and Equity	2017 Thousand Baht	2016 Thousand Baht	Change
Short - term loans from financial institutions	-	36,436	(100%)
Trade and other payables	65,523	27,711	136%
Deposit received in advance	25,529	18,789	36%
Long - term loan from financial institutions	-	3,000	(100%)
Other liabilities	85,337	85,761	(1%)
Total Liabilities	176,389	171,697	3%
Total Shareholders' Equity	776,637	728,344	7%

Total liabilities of the Company and its subsidiary increased of Baht 5 million or 3%, due mainly to

- Trade and other payables increased and short-term loans from financial institutions decreased, due to the repayment of trust receipts during the year and no additional loan obtaining for debts repayment.
- Deposits received in advance increased in line with the increase of backlog revenues.
- In 2017, the Group repaid entire short - term and long - term loans from financial institutions.

Total shareholders' equity increased of Baht 48 million or 7% which increased from total comprehensive income for the year of Baht 60 million and decreased from dividend payment of Baht 12 million.

Liquidity and Capital Management

Cash Flows	2017 Thousand Baht	2016 Thousand Baht
Net cash from operating activities	93,455	55,516
Net cash from (used in) investing activities	56,995	(238,645)
Net cash from (used in) financing activities	(58,107)	259,737
Net increase in cash and cash equivalents	92,343	76,608
Beginning cash and cash equivalents	178,129	101,521
Ending cash and cash equivalents	270,472	178,129

For the year 2017, the Company and its subsidiary had net increase in cash and cash equivalent of Baht 92 million from the beginning balance of Baht 178 million. As a result, cash and cash equivalents at the end of the year was Baht 270 million. Details of cash flows by activities during the year were as follows:

- Net cash from operating activities were Baht 93 million, resulting mainly from profit of 2017.
- Net cash from investing activities were Baht 57 million, due mainly from short-term investment of Baht 100 million. However, cash also decreased for fixed assets investment of Baht 48 million.
- Net cash used in financing activities were Baht 58 million, due mainly to loans repayment of Baht 40 million and paid dividend of Baht 12 million.

Key Financial Ratios Analysis

Key Financial Ratios	2017	2016
Returns Ratio (%)		
Return on Assets	7.94	9.88
Return on Equity	7.65	11.00
Liquidity Ratio (x)		
Current Ratio	5.36	5.44
Quick Ratio	4.10	4.17
Assets and Liabilities Management (Day)		
Average Collection Period	88.92	81.33
Average Sales (Inventory) Period	128.70	152.99
Average Payment Period	44.92	60.60
Leverage and Coverage Ratio		
Total Liabilities to Equity (x)	0.23	0.24
Interest Coverage Ratio (x)	97.94	21.58
Dividend Payout Ratio (%)	72.98	50.84

- Return on assets decreased by 1.94% and return on equity decreased by 3.35% due to the increase of assets as from trade accounts receivable and assets under construction. The average shareholders' equity increased due to the initial public offering in the fourth quarter of 2016.
- There was no significant changed of current ratio and total debt to equity ratio
- Average collection period slightly increased while average sales period decreased and average payment period increased since the increase of revenues in this year was mainly from revenue from services which mostly were employee costs.
- Total liabilities to equity was no significant changed. Interest coverage ratio increased as from the decrease of finance costs. Dividend payout ratio increased due to the dividend payment increased from prior year.

Factors affecting future operations

Irreplaceable technology of electronic cranes and hoists

Cranes and Hoists Industries can grow continually in the future as every industry needs cranes and hoists for lifting heavy materials. Recently, there is no substitute of any technology, for cranes and hoists, for lifting.

Industry growth in Thailand and Future Public Investments

The industry outlook in 2018 is expected to be better as the domestic economy that could be gradually recovered from 2017, led by the public investments. In particular, the growth of the investments in infrastructure including the investments of the private sectors which likely to be increased in 2018. Due to the continual increase in production capacity of export sector, the intention from foreign investors in investing in Eastern Economic Corridor (EEC) project and the penetration into the Thai consumer market of e-commerce businesses. These will contribute to investment needs in various fields such as transportation, storage and distribution, data collection and analysis.

Since the demand of electricity is increasing steadily in Thailand, and according to the B.E. 2558-2579 Power Development Plan and B.E. 2558 Alternative Energy Development Plan, as a result, the Electricity Generating Authority of Thailand and the Provincial Electricity Authority has increased the purchasing of electricity. Allowing entrepreneurs interested in entering to the electricity generation, therefore, the power plant industry is likely to rise.

Transportations and Logistics are very important to both domestic and international industries, to link all economic of each sectors. The government has realized the importance of this business. As evidenced by the Transport Infrastructure Development Plan of Thailand B.E. 2558-2565 and the Development of the Strategic Plan Logistics No. 3 (B.E. 2560-2565), the trend of the transportations and logistics business are expected to grow significantly, especially Modern Trade, which is expected to expand cover the nationwide. This also includes the entering to Asian Economic Community (AEC). As a result, the expansion of industrial business, which related to transportations and logistics, will increase such as High Speed Rail, Railroad Train, Metro lines, Cold Storage, Warehouse Renting, and Domestic and International Transportations.

The government also supports infrastructure of transportations, and promotions to attract the investments by focusing on ten target industries, The Eastern Economic Corridor (EEC), including the investment in three target industrial estates in Rayong, Chonburi and Chachoengsao which are likely to be broadened significantly. It is the opportunity of the business to sell products and also offers services to customers located in the East Economic Corridor Zone.

The expansion of the ASEAN Industries

The expansion of ASEAN Industries, such as Indonesia and the CLMV, which have potential for future growth, and including the public investments in the infrastructure of those countries. This could be a good opportunity for Thailand to grow together with the expansion of the neighboring regions.

Approach to the Future Operations

Risk diversification to other industry segments

The Company has diversified its operations to other industry segments, by expanding the target groups to other industries that are likely to grow in the future, such as Power plants, Agriculture and foods, Building Materials Industry, and the public investments also. The Company has readiness to design electric cranes and hoists to meet the needs of various customers and to support customer applications. This includes the good quality of the Company's products which can gain trust from customers for a long time.

The expansion of Industrial door and Dock leveler

Since the trend of the logistics business that to grow steadily, which requires the good quality products for efficient storing and loading. One of the main product of the Company, that is, industrial door and dock leveler which are able to meet the needs of customers, with good quality and the trust from customers for a long time. Including the after-sales service that is available for 24 hours, the Company is able to expand and ready to grow with the growth of logistics as well in the future.

The expansion of After-Sales Service

The Department of Labour Protection and Welfare requires any company to test the components and devices of active crane, in accordance with the guidelines, for the safety of users. It is one more way that the Company can expand the after sales service, specifically targeting the former customers, as well as finding new customers in the future. The Company is ready to serve with mechanic and car services that are available for 24 hours. Having spare parts for emergency case, which can be delivered to customers in a short time, in response to uninterrupted operations of customers.

New Business Unit Adding

The Company has increased business channels by adding new business units, including sales and services of warehouse management systems i.e. automated warehouse system and automated storage and retrieval system (AS/RS), as well as semi-automated storage/retrieval system, fully automated parking system, and spare part of the aforesaid product and providing the after-sale services. In order to expand the business and to cover all businesses. This new business unit is likely to be a good trend in the future since the automated management system can solve the shortage of labor at present.

The expansion of investment to ASEAN

The Company is studying the possibility of expanding investment to ASEAN. It is currently surveying the form of investment which has begun in Indonesia. This is a significant step and is a model of overseas investment in the future, which the Company believes that it has good prospects of expansion of cities in neighboring countries. The Company also can relies on existing customers that have invested in overseas or having oversea production base. The Company emphasizes on the use of the brand "ALLA" to expand investment in order to be recognized in the ASEAN in the future.

Manufacturing process improvement

The Company has arranged a meeting to discuss the guidelines of reducing costs of every departments in the organization and doing KAIZEN activity. The objectives are to improve production efficiency, to reduce costs from production, both in monetary and non-monetary such as the duration of work, redundant work and also to reduce costs of back-office. This is to raise awareness, through the cooperation and participation of all departments. The result is to be monitored by management closely.

The Board of Directors' Report on its responsibility to the Financial Statements

The Board of Directors recognizes its responsibility for the separate financial statements and the consolidated financial statements of Alla Public Company Limited and its subsidiary, including financial information that appears in the annual report. The financial statements have been prepared in accordance with the Accounting Act B.E. 2543 and Thai Financial Reporting Standards (“TFRS”) issued under the Accounting Professions Act B.E. 2547, including the Accounting Interpretations and Guidelines issued by the Federation of Accounting Professions, and the financial reporting requirements promulgated by the Securities and Exchange Commission under the Securities and Exchange Act B.E. 2535.

The Board of Directors has instituted and maintained appropriate internal controls to ensure that the financial statements have been accurately prepared and completely disclosed in the notes to the financial statements. The Board of Directors has appointed the Audit Committee to review the accuracy and reliability of the financial statements. This includes reviewing the accounting policies, related party transactions (if any), internal control system and internal audit. The opinion of the Audit Committee on such matters appears in the Audit Committee Report as shown in this annual report.

It is the Board of Directors' opinion that the overall Company's internal control system is satisfactory and can reasonably assure that the separate financial statements of the Company and the consolidated financial statements of the Company and its subsidiary for the year ended 31 December 2017 are accurate, reliable and in accordance with the relevant financial reporting standards.

(Mr. Weerachai Ngamdeevilaisak)
Chairman of the Board of Directors

(Mr. Ong-ard Puntuyakorn)
Chief Executive Officer

Independent Auditor's Report

To the Shareholders of Alla Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Alla Public Company Limited and its subsidiary (the Group), which comprise the consolidated statement of financial position as at 31 December 2017, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Alla Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Alla Public Company Limited and its subsidiary and of Alla Public Company Limited as at 31 December 2017, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are described below.

Revenue recognition

Sales of goods and services are significant accounting transactions as the amounts recorded are material and directly affect profit or loss of the Group. In addition, the revenues of the Group are derived from various sources, such as sales of goods, sales with installation service, and provision of after-sale services and other services, and lead time for goods or service delivery under each agreement can be different. Accordingly, the timing of the Group's revenue recognition varies. I therefore focused my audit on the revenue recognition of the Group.

I examined the Group's revenue recognition by assessing and testing the Group's internal controls with respect to the revenue cycle by making enquiries of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls. In addition, I applied a sampling method to select sale and service transactions occurring during the year and near the end of the reporting period to check against the supporting documents and reviewed credit notes that the Group issued after the period-end date. I also performed analytical procedures on disaggregated data to detect possible irregularities in sale and service transactions throughout the period, particularly for accounting entries made through journal vouchers.

Inventory - work in process

Estimating the net realisable value of work in process, as disclosed in Note 10 to the financial statements, is an area of significant management judgement, particularly with regard to the estimation of provision for diminution in the value of work in process. This requires details of the estimated cost to complete the production, including necessary selling expenses. There is therefore a risk of that the recognised amount of provision for diminution in the value of inventory is not adequate, which will result in the Group's inventory being overstated. Thus, I focused my audit on this matter.

I assessed the appropriateness and tested the effectiveness of the Group's internal controls relevant to the determination of provision for diminution in the value of inventory, performed substantive testing on supporting evidence of the cost included in the work in process. In addition, I assessed the appropriateness of the assumptions applied by management in determining such provision by gaining an understanding of the basis applied in determining the provision for diminution in value of inventory and reviewing the consistency of the application of that basis as well as the rationale for the recognition of specific provisions, comparing net proceeds from sales transactions per sales agreements with the actual cost occurring when completed after the date of the financial statements, and comparing expected proceeds from sales transactions per sales agreements with the actual cost of work in process as at the period-end date plus the estimated cost to complete the unfinished work.

Other matter

The consolidated financial statements of Alla Public Company Limited and its subsidiary (the Group) and the separate financial statements of Alla Public Company Limited for the year ended 31 December 2016 were audited by another auditor who under her report dated 22 February 2017, expressed an unqualified opinion on those statements.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Alla Public Company Limited and its subsidiary

Notes to consolidated financial statements

For the year ended 31 December 2017

1. General information

1.1 Corporate information

Alla Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in imports and distributes cranes and electric hoists, industrial doors and loading docks, electronic lifts including relevant parts and other equipment. The Company also provides related installation and after sales-service. Its registered address is No. 933 935 937 939 Soi Onnut 46, Onnut Road, Suan Luang sub-district, Suan Luang district, Bangkok.

2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 11 October 2016, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

a) The consolidated financial statements include the financial statements of Alla Public Company Limited (“the Company”) and its subsidiary (“the Subsidiary”) as detailed below.

Subsidiary	Nature of business	Percentage of shareholding	
		2017 Percent	2016 Percent
Onvalla Company Limited	Import, distribution of cranes and electronic hoists, industrial doors and loading docks, electronic lift, PVC strip curtains, including relevant parts and other, equipment. Provide installation and after sales - service.	100	100

- b) The Company is deemed to have control over an investee or subsidiary if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiary is fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiary is prepared using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Company and its subsidiary have been eliminated from the consolidated financial statements.

2.3 The separate financial statements present investments in subsidiary under the cost method.

3. New financial reporting standards

Below is a summary of financial reporting standards that became effective in the current accounting year and those that will become effective in the future.

(a) Financial reporting standards that became effective in the current period

During the year, the Company and its subsidiary have adopted the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which are effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of the revised financial reporting standards does not have any significant impact on the Company and its subsidiary's financial statements. However, one standard involves changes to key principles, which are summarised below.

TAS 27 (revised 2016) Separate Financial Statements

This revised standard stipulates an additional option to account for investments in subsidiaries, joint ventures and associates in separate financial statements under the equity method, as described in TAS 28 (revised 2016) Investments in Associates and Joint Ventures. However, the entity is to apply the same accounting treatment for each category of investment. If an entity elects to account for such investments using the equity method in the separate financial statements, it has to adjust the transaction retrospectively.

This standard does not have any significant impact on the Company and its subsidiary's financial statements because the management has decided to continue accounting for such investments under the cost method in the separate financial statements.

(b) Financial reporting standards that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of the revised financial reporting standards and interpretations (revised 2017) which are effective for fiscal years beginning on or after 1 January 2018. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes and clarifications directed towards disclosures in the note to financial statements.

The management of the Company and its subsidiary believe that the revised financial reporting standards will not have any significant impact on the financial statements when they are initially applied.

4. Significant accounting policies

4.1 Revenue recognition

Sales of goods including installment services

A sale of goods including installment is recognised when the Company and its subsidiary have transferred to the buyer the significant risks and rewards of ownership, generally when the customer has accepted testing run goods result after installment.

Sales of goods

Sales of goods are recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Sales are the invoiced value, excluding value added tax, of goods supplied after deducting discounts and allowances.

Rendering of services

Service revenue is recognised when services have been rendered.

Other income

Other income is recognised on an accruals basis.

Dividends

Dividends are recognised when the right to receive the dividends is established.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.3 Trade accounts receivable

Trade accounts receivable are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experience and analysis of debt aging.

4.4 Inventories

Work in process are valued at the lower of cost (under the specific method) and net realisable value, the cost of work in process is measured using the actual cost method and includes cost of raw materials, labour and factory overheads.

Raw materials, spare parts and factory supplies are valued at the lower of cost (under first-in, first-out method) and net realisable value and are charged to production costs whenever consumed.

The net realisable value of inventory is estimated from the estimated selling price in the ordinary course of business, less the estimated cost of completion and estimated expenses necessary to make the sale.

Reduce cost of inventories for obsolete inventories are set up for obsolete, slow-moving and deteriorated inventories which based on the past experience and current information.

4.5 Investments

- a) Investments in securities held for trading are stated at fair value. Changes in the fair value of these securities are recorded in profit or loss.
- b) Investments in non-marketable equity securities, which the Company and its subsidiary classify as other investments, are stated at cost net of allowance for impairment loss (if any).
- c) Other long-term investments are stated at cost net of allowance for impairment (if any)
- d) Investments in the subsidiary are accounted for in the separate financial statements using the cost method.

The fair value of unit trusts is determined from their net asset value.

The weighted average method is used for computation of the cost of investments.

In the event the Company and its subsidiary reclassify investments from one type to another, such investments will be readjusted to their fair value as at the reclassification date. The difference between the carrying amount of the investments and the fair value on the date of reclassification are recorded in profit or loss or recorded as other components in shareholders' equity, depending on the type of investment that is reclassified.

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognized in profit or loss.

4.6 Property, plant and equipment and depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of plant and equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

Buildings and building improvements	5 - 52 years
Machinery, tools and equipment	2 - 10 years
Furniture, fixtures and office equipment	3 - 10 years
Motor vehicles	5 - 10 years

Depreciation is included in determining income.

No depreciation is provided for land, assets under construction and installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective assets. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

4.8 Intangible assets

Intangible assets are stated at cost less any accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

Computer software	3 - 10 years
-------------------	--------------

4.9 Deferred trade rights

Deferred trade rights are stated at cost less any accumulated amortisation and allowance for impairment loss (if any).

Amortization is charged to the income statement on a straight-line basis over the estimated economic useful life of 10 years.

4.10 Warranty reserve

Warranty reserve is estimated by reference to actual warranty expenses incurred and calculated at a percentage of related sales and quantities of products under warranty.

4.11 Related party transactions

Related parties comprise enterprises and individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include individuals or enterprises which directly or indirectly own a voting interest in the Company and its subsidiary that gives them significant influence over the Company and its subsidiary, key management personnel, directors, and officers with authority in the planning and direction of the Company and its subsidiary operations.

4.12 Long-term leases

Leases of assets which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases are depreciated over the useful life of the asset.

Leases of assets which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight line basis over the lease term.

4.13 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company and its subsidiary's functional currency. Items included in the consolidated financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.14 Impairment of assets

At the end of each reporting period, the Company and its subsidiary perform impairment reviews in respect of the property, plant and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of an asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss.

4.15 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits and other long-term employee benefits

Defined contribution plans

The Company and its subsidiary and its employees have established a provident fund. The fund is monthly contributed by employees and by the Company and its subsidiary. The fund's assets are held in a separate trust fund and the Company and its subsidiary contributions are recognised as expenses when incurred.

Defined benefit plans and other long-term employee benefits

The Company and its subsidiary have obligations in respect of the severance payments, it must make to employees upon retirement under labor law and other employee benefit plans. The Company and its subsidiary treat these severance payment obligations as a defined benefit plan. In addition, the Company and its subsidiary provide other long-term employee benefit plan, namely long service awards.

The obligation under the defined benefit plan and other long-term employee benefit plans is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income.

Actuarial gains and losses arising from other long-term benefits are recognised immediately in profit and loss.

4.16 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiary recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiary review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiary record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.17 Provisions

Provisions are recognised when the Company and its subsidiary have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.18 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiary apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiary measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiary determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Reduce cost of inventory to net realisable value

The determination of reduce cost of inventory value, requires management to make judgements and estimates. The reduce cost to net realisable value is estimated based on the selling price expected in the ordinary course of business less the estimated cost of completion and estimated expenses necessary to make the sale; and reduce cost for obsolete, slow-moving and deteriorated inventories, that is estimated based on the approximate useful life of each type of inventory and the results of inspections conducted by the quality control department.

Plant and equipment and depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the Company and its subsidiary's plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans and other long-term employee benefits

The obligation under the defined benefit plan and other long-term employee benefit plans is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Warranty reserve

According to the term of 6 months to 6 years after-sales warranty after delivering of crane and door sale and installation, the Company and its subsidiary are required to estimate the provision for after-sales service which might occur in the future as a result of crane and door sale and installation during the year throughout the warranty term. Management is required to use judgment and past-experience for set up such provision.

6. Related party transactions

During the years, the Company and its subsidiary had significant business transactions with related parties. Such transactions, which are summarised below, were concluded on commercial terms and bases agreed upon between the Company and those related parties.

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements		Pricing policy
	2017	2016	2017	2016	
<u>Transactions with subsidiary</u> (eliminated from the consolidated financial statements)					
Sales and service income	-	-	2,767	2,199	Cost plus margin
Dividend income	-	-	10,000	-	As declared rate
Interest income	-	-	-	240	Interest rate at 6.50 percent per annum
Rental and software maintenance income	-	-	3,656	2,040	Mutually agreed price as stipulated in the contract
Freight income	-	-	149	-	Cost plus margin
Cost of sales and services	-	-	5,269	2,917	Cost plus margin
Rental expense	-	-	2,226	1,531	Mutually agreed price as stipulated in the contract

As at 31 December 2017 and 2016, the balances of the accounts between the Company and those related companies are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Trade and other receivables - related party (Note 9)				
Subsidiary company	-	-	2,394	148
Trade and other receivables - related party	-	-	2,394	148
Trade and other payables - individual and related party (Note 16)				
Subsidiary company	-	-	1,060	1,377
Key management	-	6	-	6
Total trade and other payables - individual and related party	-	6	1,060	1,383

Directors and management's remuneration

During the years ended 31 December 2017 and 2016, the Company and its subsidiary had employee benefit expenses payable to their directors and management as below.

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Short-term employee benefits	26,103	23,478	18,396	16,633
Post-employment benefits	2,326	2,181	1,649	1,562
Other long-term benefits	51	59	37	45
Total	28,480	25,718	20,082	18,240

7. Cash and cash equivalents

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Cash	225	235	145	155
Bank deposits	270,247	177,895	201,179	162,148
Total	270,472	178,130	201,324	162,303

As at 31 December 2017, bank deposits carried interests between 0.37 and 1.40 percent per annum (2016: 0.37 and 1.60 percent per annum).

8. Short-term investments

(Unit: Thousand Baht)

	Consolidated and separate financial statements

(Unit: Thousand Baht)

	Separate financial statements					
	Cost		Reduce cost to net realisable value		Inventories - net	
	2017	2016	2017	2016	2017	2016
Work in process	30,787	27,129	(384)	(279)	30,403	26,850
Raw materials and others	71,094	69,549	(4,359)	(3,919)	66,735	65,630
Goods in transit	3,215	4,078	-	-	3,215	4,078
Total	105,096	100,756	(4,743)	(4,198)	100,353	96,558

During the current year, the Company and its subsidiary reduced cost of inventories by Baht 0.41 million (2016: Baht 2.05 million), to reflect the net realisable value, which was included in cost of sales and services (The Company only: reduced cost of inventories by Baht 0.55 million (2016: Baht 1.54 million) to reflect the net realisable value, which was included in cost of sales and services).

11. Restricted bank deposits

These represent fixed deposits pledged with the banks to secure credit facilities.

12. Investment in subsidiary

As at 31 December 2017 and 2016, details of investment in subsidiary company in the separate financial statements are summarised below.

(Unit: Thousand Baht)

Company's name	Separate financial statements							
	Paid-up capital		Shareholding percentage		Cost		Dividend received during the year	
	2017	2016	2017 (%)	2016 (%)	2017	2016	2017	2016
Onvalla Co., Ltd.	250,000	150,000	100	100	252,000	152,000	10,000	-
Total					252,000	152,000	10,000	-

On 15 August 2017, the Extraordinary shareholders' Meeting of Onvalla Company Limited, a subsidiary company, passed a resolution to increase of its registered share capital from Baht 150 million (1.5 million ordinary shares of Baht 100 each) to Baht 250 million (2.5 million ordinary shares of Baht 100 each) by issuing 1 million new ordinary shares with a par value of Baht 100 per share. The Company paid for the incremental of share capital totaling Baht 100 million on 23 August 2017. The subsidiary company registered the increase of its share capital with the Ministry of Commerce on 29 August 2017.

13. Property, plant and equipment

2016 (Baht 8 million included in cost of sales and services, and the balance in selling and administrative expenses)							11,560
2017 (Baht 7 million included in cost of sales and services, and the balance in selling and administrative expenses)							10,472

As at 31 December 2017, the Company and its subsidiary had motor vehicles with net book value of Baht 14.22 million (2016: Baht 19.87 million) and the Company only amounting to Baht 11.86 million (2016: Baht 17.26 million) which were acquired under finance lease agreements.

As at 31 December 2017, certain plant and equipment items of the Company and its subsidiary have been fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation of those assets amounting to Baht 51.40 million (2016: Baht 45.75 million) and the Company only amounting to Baht 39.99 million (2016: Baht 38.67 million).

As at 31 December 2017, the Company and its subsidiary pledged their land and buildings thereon, of which net book value amounted to approximately Baht 77.47 million (the Company only: nil), with financial institutions as collateral to secure credit facilities (2016: Baht 101.45 million, the Company only: Baht 22.99 million).

During the year 2016, the Company and its subsidiary had changed the estimated useful life of building from 10 - 20 years to 24 - 52 years to reflect the expected pattern at the future economic benefits.

14. Intangible assets

The net book value of intangible assets as at 31 December 2017 and 2016 are presented below.

(Unit: Thousand Baht)

	Consolidated financial statements	Separate financial statements
31 December 2017:		
Cost	11,348	10,476
Less: Accumulated amortisation	(6,743)	(6,018)
Net book value	4,605	4,458
31 December 2016:		
Cost	11,149	10,280
Less: Accumulated amortisation	(4,704)	(4,231)
Net book value	6,445	6,049

A reconciliation of the net book value of intangible assets for the years 2017 and 2016 are presented below.

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Net book value at beginning of year	6,445	8,033	6,049	7,352
Additions	249	454	195	454
Write-off - net book value	(15)	-	-	-
Amortisation for the year	(2,074)	(2,042)	(1,786)	(1,757)
Net book value at end of year	4,605	6,445	4,458	6,049

15. Short-term loans from financial institutions

(Unit: Thousand Baht)

	Interest rate (Percent per annum)		Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016	2017	2016
Trust receipts	-	1.73 - 3.45	-	36,436	-	25,184
Total			-	36,436	-	25,184

Short-term loans from financial institutions of the Company and its subsidiary are guaranteed by bank deposits of the Company, land and buildings thereon of the Company and its subsidiary and joint guaranteed by their directors. During 2017, the bank released the guarantee by land and buildings thereon of the Company and the joint guarantee by the directors.

16. Trade and other payables

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Trade accounts payable - related party	-	-	964	1,364
Trade accounts payable - unrelated parties	47,992	21,460	31,320	15,453
Other payables - related party	-	-	96	13
Other payables - unrelated parties	17,531	6,245	7,351	4,486
Other payables - key management	-	6	-	6
Total trade and other payables	65,523	27,711	39,731	21,322

17. Long-term loans

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Long-term loans	-	3,000	-	-
Less: current portion	-	(3,000)	-	-
Long-term loans, net of current portion	-	-	-	-

Movement of long-term loans during the years ended 31 December 2017 and 2016 are summarised below.

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Balance as at 1 January	3,000	49,275	-	39,525
Add: Cash receipt during the year	-	8,000	-	8,000
Less: Repayment during the year	(3,000)	(54,275)	-	(47,525)
Balance as at 31 December	-	3,000	-	-

Long-term loans from domestic financial institutions are guaranteed by the Company and secured by mortgage of the subsidiary's lands and buildings. The loans and interest are repayable on a monthly installments and are carried interest at the interest rate of MLR - fixed rate per annum as stipulated in the agreement.

Under conditions of loan agreements, the subsidiary has to maintain financial ratios such as Debt to Equity Ratio (D/E) and Debt Service Coverage Ratio (DSCR).

18. Trade and other payables

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Liabilities under financial lease agreements	10,073	15,175	8,534	13,598
Less: Deferred interest expenses	(739)	(1,296)	(678)	(1,201)
Total	9,334	13,879	7,856	12,397
Less: Portion due within one year	(4,139)	(5,142)	(3,215)	(4,541)
Liabilities under financial lease agreements, net of current portion	5,195	8,737	4,641	7,856

Present value of future minimum lease payments	5,142	8,737	13,879	4,541	7,856	12,397

19. Short-term loans from financial institutions

Provision for long-term employee benefits as at 31 December 2017 and 2016, which represents compensation payable to employees after they retire and other employee benefits, are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Provision for long-term employee benefits at beginning of year	35,953	32,286	27,768	25,601
Included in profit or loss:				
Current service cost	6,129	3,964	3,977	2,442
Interest cost	1,256	1,128	923	850
Included in other comprehensive income:				
Actuarial (gain) loss arising from				
Demographic assumptions changes	(1,382)	-	(841)	-
Financial assumptions changes	(4,516)	-	(2,986)	-
Experience adjustments	2,468	-	(267)	-
Benefits paid during the year	(644)	(1,425)	(644)	(1,125)
Provision for long-term employee benefits at end of year	39,264	35,953	27,930	27,768
Provision for employee benefits				
Current	3,329	644	2,864	644
Non-current	35,935	35,309	25,066	27,124
	39,264	35,953	27,930	27,768

Line items in profit or loss under which long-term employee benefit expenses are recognised are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Cost of sales and services	4,367	2,288	2,605	1,379
Selling and administrative expenses	3,018	2,804	2,295	1,913
Total expenses recognised in profit or loss	7,385	5,092	4,900	3,292

As at 31 December 2017, the weighted average duration of the liabilities for long-term employee benefit is 23 to 24 years (2016: 16 to 21 years) The Company only: 24 years (2016: 16 years).

Significant actuarial assumptions are summarised below:

	Consolidated financial statements		Separate financial statements	
	2017 (% per annum)	2016 (% per annum)	2017 (% per annum)	2016 (% per annum)
Discount rate	1.86 - 2.11	3.21 - 3.68	1.86	3.21
Salary increase rate	5.00	7.66 - 9.11	5.00	9.11
Employee turnover rate (depending on age)	0 - 24.00	0 - 50.00	0 - 24.00	0 - 31.00

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2017 and 2016 are summarised below.

(Unit: Thousand Baht)

	As at 31 December 2017			
	Consolidated financial statements		Separate financial statements	
	<u>Increase 0.5%</u>	<u>Decrease 0.5%</u>	<u>Increase 0.5%</u>	<u>Decrease 0.5%</u>

Total	10,043	9,740	7,127	7,574
Deferred tax liabilities				
Unrealised gain on held for trade investments	442	-	442	-
Accumulated depreciation - building	186	192	-	-
Total	628	192	442	-
Deferred tax assets - net	9,415	9,548	6,685	7,574

25. Earnings per share

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

The following table sets forth the computation of basic earnings per share:

	Profit for the year		Weighted average number of ordinary shares		Earnings per share	
	2017 (Thousand Baht)	2016 (Thousand Baht)	2017 (Thousand shares)	2016 (Thousand shares)	2017 (Baht)	2016 (Baht)
Consolidated financial statements						
Basic earnings per share						
Profit attributable to equity holders of the Company	57,548	59,011	600,000	474,180	0.10	0.12
Separate financial statements						
Basic earnings per share						
Profit attributable to equity holders of the Company	60,908	50,991	600,000	474,180	0.10	0.11

26. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as Chief Executive Officer.

For management purposes, the Company and its subsidiary are organised into business units based on their products and services with production facilities in Thailand and operates in both local and overseas markets, and have two reportable segments as follows:

1. Sales and relevant service.
2. Service.

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and on a basis consistent with that used to measure operating profit or loss in the financial statements.

Transfer prices between operating segments are concluded on commercial terms and based agreed upon between the operating segments as described in Note 6 to the financial statements.

Inter-segment revenues are eliminated on consolidation.

The following table presents revenue and profit and total assets information regarding the Company and its subsidiary's operating segments as at and for the years ended 31 December 2017 and 2016:

(Unit: Thousand Baht)

Consolidated financial statements									
For the years ended 31 December									
Sale and relevant service income	Service income		Total segments		Eliminated transactions		Consolidated

Additions to non-current assets other than deferred tax assets							37,006	16,867	

Geographic information

The Company and its subsidiary operate in Thailand only. As a result, all the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

Major customers

In 2017, the Company and its subsidiary have no major customer with revenue of 10 percent or more than of its consolidated revenue.

In 2016, the Company and its subsidiary have revenue from four major customers in amount of Baht 193 million and the Company only of Baht 126 million.

27. Provident fund

The Company and its subsidiary and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. The employees contribute to the fund monthly at the rate of 3 - 15 percent of basic salary, the Company and its subsidiary contribute to the fund monthly at the same rate as its employees but not more than 5 percent of basic salary. The fund, which is managed by Sinstaporn's Securities Co., Ltd., will be paid to employees upon termination in accordance with the fund rules. The contributions for the year 2017 by the Company and its subsidiary amounting to approximately Baht 2.87 million (2016: Baht 2.20 million) were recognised as expenses, the Company only: Baht 2.27 million (2016: Baht 1.79 million).

28. Commitments and contingent liabilities

As at 31 December 2017, the Company and its subsidiary had commitments and contingent liabilities as follows:

28.1 Capital commitments

As at 31 December 2017, the Company and its subsidiary had capital commitments of approximately Baht 6.77 million relating to warehouse construction of its subsidiary, the Company only: nil (2016: Consolidated and separate financial statements of Baht 0.09 million, relating to computer software development of the Company).

28.2 Operating lease and service commitments

The Company and its subsidiary have entered into several lease and service agreements in respect of the lease of space, computer software maintenance, security service, consultant fee and other services. The terms of the agreements are generally between 1 and 4 years.

Future minimum payments required under these operating leases and service agreements are as follows:

(Unit: Million Baht)

	Consolidated financial statements		Separate financial statements	
	2017	2016	2017	2016
Payable within:				
Less than 1 year	1.15	1.48	1.00	3.21
1 to 4 years	0.37	0.15	0.26	0.15

28.3 Guarantees

As at 31 December 2017, there were outstanding bank guarantees of approximately Baht 42.29 million (2016: Baht 39.15 million), the Company only: Baht 26.28 million (2016: Baht 35.98 million), issued by banks on behalf of the Company and its subsidiary to guarantee contractors work.

28.4 Credit facilities

The Company and its subsidiary have unused credit facilities of bank overdraft and other credits of approximately Baht 580.70 million which are guaranteed by land and building thereon of its subsidiary and pledge by bank deposits of the Company.

29. Fair value hierarchy

As at 31 December 2017 and 2016, the Company and its subsidiary had the assets and liabilities that were measured or disclosed at fair value using different levels of inputs as follows:

(Unit: Thousand Baht)

As at 31 December 2017				
Consolidated financial statements				
	Level 1	Level 2	Level 3	Total
Asset measured at fair value				
Held for trade investments

30. Financial instruments

30.1 Financial risk management

The Company and its subsidiary's financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, trade and other receivables, investments, trade and other payables and short-term and long-term loans and liabilities under finance lease agreements. The financial risks associated with these financial instruments and how they are managed in described below.

Credit risk

The Company and its subsidiary are exposed to credit risk primarily with respect to trade and other receivables. They manage the risk by adopting appropriate credit control policies and procedures and therefore do not expect to incur material financial losses. In addition, they do not have high concentration of credit risk since they have a large customer base. The maximum exposure to credit risk is limited to the carrying amounts of trade and other receivables as stated in the statement of financial position.

Interest rate risk

The Company and its subsidiary exposure to interest rate risk relates primarily to their deposits with banks, bank overdrafts and loan from banks. However, since most of their financial assets and liabilities have short-term maturity and bear floating interest rates or fixed interest rates which are close to the market rate. For long-term loans bear floating interest rates.

Significant financial assets and liabilities as at 31 December 2017 and 2016 classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

(Unit : Million Baht)

As at 31 December 2017									
	Consolidated financial statements					Separate financial statements			
	Fixed interest rates within 1 year	Floating interest rate	Non-interest bearing	Total	Effective interest rate (% per annum)	Fixed interest rates within 1 year	Floating interest rate	Non-interest bearing	Total

Foreign currency risk

The Company and its subsidiary's exposure to foreign currency risk arises mainly from selling and purchasing transactions that are denominated in foreign currencies. The Company and its subsidiary seek to reduce this risk by entering into forward exchange contracts when they consider appropriate. Generally, the forward contracts mature within one year.

Below is the summary of Company and its subsidiary's significant foreign currency dominated assets/liabilities.

Currency	As at 31 December 2017				Average exchange rate as at 31 December 2017 (Baht per one foreign currency unit)
	Consolidated financial statements		Separate financial statements		
	Assets (Thousand)	Liabilities (Thousand)	Assets (Thousand)	Liabilities (Thousand)	
EUR	9	621	8	401	39.0273
USD	424	74	424	72	32.6809

Currency	As at 31 December 2016				Average exchange rate as at 31 December 2016 (Baht per one foreign currency unit)
	Consolidated financial statements		Separate financial statements		
	Assets (Thousand)	Liabilities (Thousand)	Assets (Thousand)	Liabilities (Thousand)	
EUR	10	1,154	1	766	37.7577
USD	32	141	32	116	35.8307

As at 31 December 2017 and 2016, the Company and its subsidiary had outstanding forward exchange contract with maturities less than one year as follows:

As at 31 December 2017

Consolidated financial statements					
Foreign currency	Bought amount (Thousand)	Amount paid by Baht per contract (Thousand Baht)	Contractual maturity date	Contractual exchange rate	
				Bought amount	Sold amount
				(Baht per one foreign currency unit)	
Euro	537	21,190	5 April - 28 June 2018	39.01 - 39.75	-

As at 31 December 2016

Consolidated financial statements

Foreign currency	Bought amount (Thousand)	Amount paid by Baht per contract (Thousand Baht)	Contractual maturity date	Contractual exchange rate (Baht per one foreign currency unit)	
				Bought amount	Sold amount

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2017 Loss	2016 Loss	2017 Loss	2016 Loss
Derivatives				
Forward exchange contracts	(107)	(438)	(43)	(243)

30.2 Fair values of financial instruments

The methods and assumptions used by the Company and its subsidiary in estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturity, including cash and cash equivalents, trade and other receivables, trade and other payables, short-term loans and liabilities under finance lease agreements, their carrying amounts in the statement of financial position approximate their fair value.
- Current investments in securities held for trading debt securities are stated at market fair value.
- For long-term loans carrying interest approximate to the market rate, their carrying amounts in the statement of financial position approximates their fair value.

During the current year, there were no transfers within the fair value hierarchy.

31. Capital management

The primary objective of the Company's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value.

As at 31 December 2017, the Company and its subsidiary's debt-to-equity ratio was 0.23:1 (2016: 0.24:1) and the Company only was 0.16:1 (2016: 0.18:1).

32. Event after the reporting period

On 22 February 2018, the Board of Directors' Meeting of the Company passed a resolution to approve the dividend payment for the operating results of the year 2017 at the rate of Baht 0.07 per share, totaling Baht 42 million. The schedule of the dividend payment is in May 2018. However, such dividend payment is subject to the approval of the Annual General Meeting of the shareholders, which is to be held on 24 April 2018.

33. Reclassification

The Company and its subsidiary have reclassified certain accounts in the statement of comprehensive income for the year ended 31 December 2016, presented herein as comparative information, in order to comply with the reclassification of accounts for the current year. The details are as follows.

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	As reclassified	As previously reported	As reclassified	As previously reported
Statement of comprehensive income				
Cost of sales and services	414,183	413,789	290,629	290,364
Selling expenses	25,119	25,010	16,232	16,171
Administrative expenses	91,789	91,164	69,253	68,729
Finance cost	3,539	4,667	3,005	3,855

The reclassifications had no effect to previously reported net profit or shareholders' equity.

34. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 22 February 2018.
