Message from Chairman

In 2021, Thailand encountered difficulties from the situation of Coronavirus Disease 2019 (COVID-19) outbreak that has happened continuously since 2020. However, the mutation of COVID-19 led to significant outbreak in 2021, affecting routine life of a number of people, consumers' behavior and economic condition extensively at domestic and international level. Until the 3rd quarter, the government, proclaimed the Emergency Decree on Public Administration in Emergency Situations in vast areas of the nation to suppress and control the outbreak of New COVID-19. This incident inevitably had negative impacts on economy and entrepreneurs in different sectors especially with leasehold real estate business in forms of community mall and lifestyle mall in which AIMCG invests at present.

In 2021, the company, as the REIT Manager of AIMCG, put our full effort in cooperating with property manager and tenants to discuss a solution and plan about adjustment of a guideline for business operation in order to maintain the business to get through this crisis and to get prepared to support economic condition in 2022, which tends to recover significantly due to progress of vaccination from both public and private sectors. Furthermore, people adapt themselves to live a New Normal life that they are more careful. Moreover, the government has implemented a policy to deal with the outbreak with equilibrium to economic condition as same as measures that are applied in many countries all over the world.

For a guideline of operation of the company in 2022, the Company adheres to professional and transparent management of the REIT with emphasis on solving problems that are caused by the situations in past 2 years and adapting ourselves in order to enhance potentials of business operation, and get prepared to support the economy that tends to recover in order to generate return consistently and sustainably for AIMCG.

Finally, the Company would like to thank every trust unitholder for understanding and putting your trust on AIMCG. Hopefully, we will gain support from every trust unitholder in the future.

Sincerely yours,

Management Discussion and Analysis of the REIT Manager of the operation and financial position of AIMCG

Summary of operating results for the year 2021

In 2021, AIMCG had operating results from the property investment in total of 4 projects consisting of UD Town Project, 72 Courtyard Project, Porto Chino Project and Noble Solo Project, with total usable area of 85,355.72 square meters and total rental area of 45,256.63 square meters.

For the operating results of 2021, the accounting period from 1 January 2021 to 31 December 2021, AIMCG had total income of 362.19 million Baht, decreased 26.75 million Baht or 6.88 percent from 2020, with total net investment income of 233.17 million Baht, decreased 1.52 million Baht or 0.65 percent from 2020. The decrease of AIMCG operating results in 2021 compared with the results in 2020 is due to the spread of Coronavirus Disease 2019 (COVID-19) since 2020.

Income

Total income of AIMCG was 362.19 million Baht, decreased 26.75 million Baht or 6.88 percent from the previous year. The decrease of income of AIMCG in 2021 was due to the spread of COVID-19 since 2020. Total income of AIMCG consists of:

(1) Rental and service income in the amount of 360.51 million Baht or 99.54 percent of the total income. AIMCG uses the straight-line method for revenue recognition from rental and service income throughout the lease agreement according to the accounting policies, giving the rental and service income according to the accounting appearing in the financial statements higher than the actual rental and service income. The rental and service income according to the accounting appearing in the financial statements includes the UD Town Project at 172.59 million Baht or 47.88 of the total income; the Porto Chino Project at 108.55 million or 30.11 percent of total income; the 72 Courtyard Project at 64.83 million Baht or 17.98 percent of total income; and Noble Solo Project at 14.53 million Baht or 4.03 percent of total income. Besides, throughout the operating period, all assets invested in by AIMCG had an average occupancy rate of 100 percent. This included rental of spaces to minor tenants as well as areas leased to the original property owners or their affiliate companies, along with small shop rental spaces, rental areas with short-term lease agreements (not more than 1 year), or areas generating rent or income on a daily basis, such as for public relations and promotional activities, food and drink stalls, etc., as these have quick lease turnover, all of which allow for greater flexibility and efficiency of lease management in said areas.

(2) Interest income and other incomes of 1.68 million Baht or 0.46 percent of total income.

Expense

The total expenses of AIMCG were 129.02 million Baht¹, decreased 25.23 million Baht or 16.36 percent from the previous year in line with the direction of the decrease of rental and service income from full-year operating results, mainly consisting of project operating expenses in the amount of 63.24 million Baht or 17.46 percent of total income. Additionally, AIMCG also has expenses in the form of trust manager fees of 18.40 million Baht or 5.08 percent of total income; property management fees of 13.21 million Baht or 3.65 percent of total income; and financial costs of 13.94 million Baht or 3.85 percent of total income, consisting mainly of interest paid on loans from financial institutions and partly of additional expenses from the recording of interest paid on liability under the lease agreement according to the accounting practices which is a non-cash item.

¹ The Company has been aware of providing information to trust unitholders and investors for correct and comprehensive understanding. In 2022, the Company therefore sets the budget not higher than 1.00 million Baht for advertising and public relations, such as advertising expenses through various channels, sales promotion, seminar activities, advertising media, print media or any other related expenses, etc (The amount excludes VAT and expenses for announcement on the website to call a meeting of unitholders or publications delivered to the unit unitholders). This budget will be included in the part of other expenses of AIMCG. However, aforesaid expenses are aligned as specified in the REIT Registration Statement From.

Net investment profit

AIMCG had net investment profit in the amount of 233.17 million Baht or 64.38 percent of total income, decreased 1.52 million Baht or 0.65 percent from the previous year. In 2021, AIMCG had loss from changes in the fair value of real estate investments resulting from the annual valuation of assets of AIMCG which was an accounting transaction and a non-cash item in the amount of 296.45 million Baht, making AIMCG had a decrease in net assets from the operations of 63.26 million Baht in 2021, which was less than the increase in net assets from the operations in 2020 around 229.81 million Baht or 137.98 percent. Because AIMCG, in 2021, had loss from changes in the fair value of real estate investments higher than the profit in 2020. However, the said profit or loss from changes in the fair value of real estate investments was a record of accounting transactions and a non-cash item.

Financial Status

Assets

As of 31 December 2021, AIMCG had total assets in the amount of 3,344.14 million Baht, decreased 76.99 million Baht or 2.25 percent of total asset from 31 December 2020, consisting mainly of real estate investment at fair value of 2,823.09 million Baht or 84.42 percent of total assets, decreased from real estate investments per the fair value as of 31 December 2020 in the amount of 296.28 million Baht, incurring from adjusted book value according to financial reporting standards and loss from changes in the fair value of real estate investments resulting from the annual valuation of assets which was a non-cash item. Besides, as of 31 December 2021, AIMCG had rental and service receivables in the amount of 318.93 million Baht or 9.54 percent of total assets, increased from rental and service receivables as of 31 December 2020 in the amount of 193.11 million Baht. This was due to the delay in payment of rent and service fees caused by Coronavirus Disease 2019 (COVID-19) from 2020 onwards.

Liabilities

As of 31 December 2021, AIMCG had total liabilities in the amount of 481.99 million Baht, increased 43.09 million Baht or 9.82 percent of total liabilities from 31 December 2020, consisting mainly of recording of lease liabilities according to the accounting practices and loans from financial institutions to support the AIMCG operations. Total liabilities consisted of long-term and short-term loans from financial institutions in the amount of 239.76 million Baht or 49.74 percent of total liabilities in order to support investments and AIMCG operations. Said long-term and short-term loans carry an interest at the MLR rate, minus the rate specified in the loan agreements.

The loan to assets ratio of AIMCG as of 31 December 2021, was equal to 7.17 percent of total asset value. This still meets relevant criteria, which states that AIMCG may borrow no more than 35 percent of the total asset value or not more than 60 percent of the total asset value in the case that AIMCG has an Investment Grade credit rating.

Net Assets

As of 31 December 2021, AIMCG had total net assets of 2,862.14 million Baht, consisting of capital received from trust unitholders totaling 2,880.00 million Baht and retained earnings of 17.86 million Baht, with net assets per unit equal to 9.9380 Baht, decreased from 10.3549 Baht as of 31 December 2020.

The UD Town Project

The UD Town Project, which opened in 2009, is an outdoor shopping center set on a large area of approximately 28 rai, with a total usable area of approximately 45,219 square meters. It is in central Udon Thani and is convenient for traffic with easy access. It is uniquely designed to meet the needs of customers, including locals, foreigners, and tourists. It emphasizes shade and a variety of pleasant features found in nature, while also providing a modern feel for those looking to recharge, spend time relaxing, and to engage in social activities. The features of the UD Town Project are as follows:

The variety and diversity within the project respond well to the culture and lifestyles of Udon Thani residents and tourists alike: The UD Town Project has a great deal of variety within its service areas, including restaurants, a walking street, food court, activity area, concert area, etc., all of which meet the needs and lifestyle of Udon Thani residents and tourists. There are many stores in each zone for convenient shopping and the Project can accommodate customers both during the day and in the evening. It also responds to the needs of a wide variety of customer groups, including locals, foreigners, and tourists. Additionally, the rental areas and the activity area of the Project are in an open area, making it possible to adapt the area for various activities that meet the needs of customers in the future as well.

It is a high-potential location in the Udon Thani city center: The UD Town Project is located in the city center of Udonthani, making it convenient for travel and easy access. It is surrounded by 4 main roads: Pho Si Road, Thongyai Road, Prajak Sillapakom Road, and the road behind the main train station, allowing connections to and from and supporting travel by customers both within Udon Thani and from nearby provinces such as Khonkaen, Nongbualamphu, Loei, Nongkhai, Sakonnakhon, and Nakhonphanom, as well as neighboring countries such as Laos PDR.

Tenants within the project are popular and have created consumer demand for access to the project: The tenants within the UD Town Project are tenants popular with customers and they come in a variety of forms, including restaurant tenants, such as McDonald's, KFC, The Pizza Company, Oishi Buffet, etc.; retail tenants, such as Watson's, Villa Market, Tesco Lotus, etc.; and bank tenants, such as Krung Thai Bank, Kasikorn Bank, and the Government Savings Bank, Islamic Bank of Thailand.

It is the largest community mall in Udon Thani: The UD Town Project is the shopping center with the most outdoor and green areas in Udonthani. It meets the needs of Udonthani residents and tourists alike, as it is a project that has a distinctive style and differs from other shopping centers in the area.

It is designed for Project Identity: The design is based on three major principles, as follows: (1) The Project plan has no blind spot for customer flow and the building has no back wall, making it possible to display shops from all directions and facilitating convenient shop layout and design. (2) The Project layout is divided into different zones, allowing customers to sit comfortably or to enjoy walking around. It is designed for a continuous atmosphere in both the interior and the exterior of the Project, making it a perfect place for people to meet up. (3) The concept behind the architectural design is to allow customers to have a "Green and Sustainable" experience, placing particular importance on garden areas, with areas allocated for trees and for resting and relaxing. The Project is designed to be a modern lifestyle space that allows customers to spend time relaxing, engaging in social activities, shopping, and relaxing while remaining close to nature.

Project management experience: Udon Plaza the owner and founder of the UD Town Project, is local to Udonthani Province and has extensive experience in managing the UD Town Project, as it has done so since 2009. This expertise and genuine understanding of the area by management has allowed the Project to grow and adapt with a good understanding of consumer behavior and of the ins and outs of business in a city center such as this one.

The 72 Courtyard Project

The 72 Courtyard Project was opened in December of 2015 and is managed by Membership. It is located at Soi Sukhumvit 55 (Soi Thonglor), Sukhumvit Road, Khlong Tan Nuea, Wattana, Bangkok, and is a high-end lifestyle mall in the heart of Thonglor, fully equipped for both transportation and public utilities. It boasts a selection of 8 different food and beverage outlets as perfect destinations for meeting and socializing, with dining being the main featured activity. Outstanding characteristics of the 72 Courtyard Project are as follows:

It is a high-potential location: The 72 Courtyard Project is located on Soi Sukhumvit 55, also known as Soi Thonglor, an area with well-developed infrastructure that is also part of the business center of Bangkok. It is relatively well-known to both Thai and international tourists and offers convenient transportation and easy access to the Project. Additionally, the surrounding area is known for its population density and large numbers of consumers. All of these are positive factors that support demand for the 72 Courtyard Project.

Design and distinctive characteristics: The 72 Courtyard Project was co-designed by a well-known architectural firm from the U.K. The building is designed in a unique black box-like style, using precast terrazzo for the project's striking façade surface which can be seen from a distance. The building has been designed as a perfect meeting place for evening and night gatherings especially.

Rental spaces meet the needs of target customers: The 72 Courtyard Project is a rental area comprising mostly restaurants that respond to the needs of consumers in the Thonglor vicinity. Thonglor has long been known as a destination for socializing, eating, and drinking, and for gatherings of customers with high spending power. The 72 Courtyard Project has been designed to fit this particular target group.

Project management experience: The 72 Courtyard Project is managed by Membership, the shareholders of which are in the prominent Chetchotisak family business group, and who are well-known in Thailand for their experience and ability in the entertainment industry. They therefore have an excellent understanding of this particular market group and the needs of the target customers, as well as an ability to adjust marketing and business strategies to meet the needs of consumers in the future.

The Porto Chino Project

The Porto Chino Project is a community mall that opened in 2012 on an area of approximately 15 rai, located on Rama 2 Road, to be a new tourist destination for customers in the Samutsakhon Province area. It is also a rest area for tourists departing from Bangkok to travel to nearby provinces such as Samutsongkhram, Petchaburi, Prachuapkhirkhan, etc. Outstanding characteristics of the Porto Chino Project are as follows:

High-potential location: The Porto Chino Project is located on Rama 2 Road at the 25 kilometer-mark. This is a major road for travelers departing from Bangkok for southern provinces. It is located in the Nadi Subdistrict, Muang Samutsakhon District, Samutsakhon Province, with a distance of about 3.5 kilometers from Samutsakhon City proper (Samutsakhon Municipality) and is near to the Mahachai area, which is a densely populated area of Samutsakhon Province. It also allows for direct exit and entry to and from Rama 2 Road, making the Porto Chino Project the perfect community mall for customers in Samutsakhon Province itself, as well as for those from nearby provinces, such as Samutsongkhram and Nakhonpathom, both of which boast large numbers of residents. Additionally, these locational advantages have positioned the Porto Chino Project as the major rest area and dining oasis of Mahachai, an area known as a rest-stop and service point area for those traveling onward to western and southern routes. The front of the Project has been designed with drive-through style restaurants, further promoting the location as the perfect, comprehensive rest-stop over other rest-stops along Rama 2 Road catering to those traveling to popular tourist destinations such as Cha-am, Hua Hin, etc.

Prominent and distinctive building design: The Porto Chino Project is the very first lifestyle mall in the Mahachai area. Its building style and project layout are unique and distinctive, while also corresponding with Mahachai's reputation as a port or fishing city. This has made the Project stand out as unique and memorable and has attracted a wide variety of tenants popular within that particular market.

Ability to respond to the needs of various customer groups: The Porto Chino Project is designed and managed to meet the needs of its particular customer base, which is not limited to residents of the area only, but also includes tourists from middle to upper-class consumer groups who enjoy modern lifestyles and have good spending potential. The Porto Chino Project is, therefore, not only a community center that supports residents in the neighborhood with high purchasing power but has also become a rest-stop for tourists or travelers passing through on their way to southern provinces.

The Project format is adjustable to meet the needs of consumers: The Porto Chino Project has been designed to meet the needs of residents in the area and fits the model of projects for which demand is likely to increase. It also has excellent project management, especially with regard to rental area allocation and appropriate proportion planning and distribution of tenant types, as well as continuous organization of public relations activities, all of which have contributed to the potentiality of the Porto Chino Project in its ability to continue to generate income in the future.

Experience and expertise of the Project developers: The Porto Chino Project is managed by D-Land, a real estate developer of well-known housing projects in the Mahachai area, the Porto Go Project which is a lifestyle mall and car rest-stop area in Phranakhonsrivayuthaya and Samutsakhon Province which is approximately 15 kilometers from the Porto Chino Project. D-Land, therefore, possesses the necessary expertise in project development and management, as well as a good understanding of the behaviors and needs of customers in that area.

The Noble Solo Project

The Noble Solo Project includes 6 commercial condominium units for commercial use, with a total area of approximately 1,423.72 square meters, and is located on Soi Sukhumvit 55 (Thonglor). Distinctive aspects of the project are as follows:

High-potential project location: The Noble Solo project is located on Soi Sukhumvit 55 (Soi Thonglor), a high-potential location in the central business district of Bangkok completes with convenient transportation and all public utilities. It is a densely populated area which has a high demand for spaces for commercial use.

Parking space area and size is conducive to commercial usage: The Noble Solo Project has approximate total room area of 907.72 square meters and a total parking area of 516 square meters. The parking area can accommodate approximately 43 cars, which is considered a high proportion of parking space when compared to other who normally provides 1 parking lot to room with 120 square meters. The project stands out, therefore, for its spacious parking area, a necessary facility for other business operators in the same location.

Experience and expertise of the Project developers: The Noble Solo Project is managed by Noble, which is also the Noble Solo condominium project developer and responsible for project management and tenant procurement. Noble has both the understanding and expertise required for this type of tenant management and has an excellent relationship with the current Noble Solo condominium juristic office, which will ensure that the Noble Solo Project assets outlined above will be well and consistently maintained.

Benefit Sourcing Policy

Nature of Benefit Sourcing

AIMCG has distributed the benefits from the main assets invested by leasing the main assets to the tenants of the area with the aim of creating a good and continuous return on investment in the long term to the trust unitholders. The REIT Manager will establish appropriate policies and strategies for managing AIMCG's assets to generate commercial income for AIMCG and provide the best returns to the trust unitholders.

Therefore, in order to lease the main assets that AIMCG has invested into the tenants, AIMCG will enter into a lease agreement which has a clause that complies with agreement regulations from the SEC or related authorities who directly responsible for tenants. Such agreements are fair and standardized with similar agreement regulations and conditions for all tenants.

In this regard, the REIT Manager has entered into agreements to appoint Udon Plaza, Chetchot, D-Land and Noble, who originally own the property and/or the same group of individuals of the property owner and have experience and expertise in real estate management to serve as property manager (third party) in each project. The REIT Manager will establish strategies and policies of benefit sourcing to create a good level of investment remuneration as follows:

- As for Asset Management, the REIT Manager will monitor AIMCG performance each year by comparing to its annual budget as well as past performance of AIMCG in order for AIMCG to achieve its targeted operating profit. If AIMCG profit does not meet the planned targets, the REIT Managers will conduct analysis to determine the cause as well as improve and develop a joint operational plan with property managers (third party) to achieve their anticipated goals.
- Setting the appropriate rental rate.
- Improving operational efficiency and controlling operating costs
- Enhancing the potential of the main assets that AIMCG invests in for the first time by maintaining the project area and improving the image of the asset.

From the mentioned characteristic of benefit sourcing, the income and cash flows that AIMCG will receive from investments in the main assets in which AIMCG invests will consist of rental and service incomes as follows:

Part 1: The income from leasing the area directly to the tenants in which AIMCG charged for renting and servicing in 2 characteristics as below:

- 1) Rental and service charges at a percentage of income
- 2) Rental and service charges are fixed rate according to the area size specified in the standard agreement.

The tenant will pay the rental fee and service fee in Part 1 on monthly basis to AIMCG.

Part 2: The income from the partial rental area, common area and promotion area renting by the property owners, AIMCG will charge the rental fee into 3 parts as follows:

- 1) Partial rental income^{/1} common area, event area and promotion area in the UD Town project leased to Udon Plaza with 3 years agreement and granted the parties the right to renew the agreement in accordance with the terms and conditions specified in the agreement.
- 2) Income from the lease of the 72 Courtyard project's space to the Membership, which is a 3-year lease of the space and gives the parties the right to renew the agreement further in accordance with the terms and conditions specified in the agreement.
- 3) The income from the lease of the partial space rent, common area space, event area, and promotion area of the Porto Chino Project to D-Land in which the lease of the space is for 3 years and gives the parties the right to renew the agreement further in accordance with the terms and conditions specified in the agreement.

Remarks ^{/1} In 2020, AIMCG granted the owner of the UD Town project to lease some of the space that AIMCG has invested in to build the hotel building for a leasing period of 3 years and gives the parties the right to renew the agreement in accordance with the terms and conditions specified in the agreement. However, the owner of the property must obtain the consent of the State Railway of Thailand and obtain the legal construction permission from the government agency.

As of 31 December 2021, AIMCG procures benefits from invested assets as detailed in the table below:

Project	Invested Area (sq.m.)	Leasable Area (sq.m.)	Occupancy Rate (percent)	Average Lease period of Tenant (year)	Income in the Fiscal Year 2021 (Million Baht)
1. UD Town Project: Investment in leasehold rights of land, commercial buildings, and utilities system within the project.					
• UD Town Project	45,219.00	27,871.60	100.00	13.38	173
2. 72 Courtyard Project: Investment in leasehold rights of commercial buildings and utilities system within the project.					
• 72 Courtyard Project	5,019.00	2,156.00	100.00	5.00	65
3. Porto Chino Project: Investment in leasehold rights of land, commercial buildings, and utilities system within the project.

Total	85,355.72	45,256.63	100.00	12.64	361

In 2021, the average rental fee of AIMCG's invested assets is 622 Baht per square meter per month. The average rental rate increased by 0.32 percent and overall, the average rental remained stable from the previous year. The rental rate may vary depending on the location of each project.

Type and Term of the Lease Agreement

There are 2 types of lease agreements for the lease of main assets invested by AIMCG, which are:

Type 1 Leasing of spaces that AIMCG had invested in UD Town project, the 72 Courtyard project, and Porto Chino project, whereby AIMCG directly enters into an agreement with the major tenant like Udon Plaza, Membership and D-Land who are the property owners, and the leases have a 3-year term. AIMCG gives the parties the right to renew the agreement according to the terms and conditions of the agreement which was made with Udon Plaza, Membership and D-Land.

Type 2 Renting to retail tenants For the assets that AIMCG has invested in UD Town Project, 72 Courtyard Project, Porto Chino Project, and Noble Solo Project, AIMCG has entered into lease agreement with the tenants for the invested assets of AIMCG in UD Town Project, 72 Courtyard Project, Porto Chino Project and Noble Solo Project, in which the incomes and cash flows received by AIMCG consist of monthly rental income and / or monthly service fees from the lease of the 4 projects, most of which are standard agreements with similar terms and conditions of the agreement, such as rental income from the lease area , the monthly service income from the provision of services, maintenance, repairs, and maintaining the building in a usable condition. For the period of the rental and the service are mostly the leasing and service agreements for a period of approximately 3 years with fixed monthly rental rates. There is a partial lease of each project with a term of more than 3 years, there will be fixed monthly rental rates and a gradual increase in rental rates as agreed during the term of the agreement.

Leases that expire in each year and the status of the renewal of the lease and the preparation of a new lease have details as shown in the table below.

Paid-up Capital	390,000,000 baht	50,000,000 baht	150,000,000 baht

Qualifications and experiences of the major tenants

Udon Plaza

Udon Plaza operates a commercial rental property development and management business who established and launched UD Town project in 2009, has more than 10 years of experience and specializes in managing areas for marketing activities for small shops with leases shorter than 1 year based on past results in which Udon Plaza's project managements are profitable with good yields. Information on the performance of each project showed that Udon Plaza understands the consumer behavior in Udon Thani province as well as the management of the project to be active regularly. Therefore, the REIT Manager believes that by allowing Udon Plaza to lease back to the area, the REIT Manager will be able to manage the assets that AIMCG will invest in effectively.

Membership

Membership Shareholders are a business group of the Chetchotisak family who has their reputation in Entertainment business, as a result, they have a good understanding of the needs of the market and target customers of 72 Courtyard, as well as having an understanding of how to modernize the project and keep up with future business changes. In addition, the REIT Manager had also considered the Membership's previous project management capabilities in the 72 Courtyard project, which were able to provide modern restaurants to lease the project's space and manage it with good returns, the REIT Manager believed that if the Membership was a tenant of the property, it would be possible to provide a restaurant affiliated with Membership to lease the space and makes the 72 Courtyard project a good return.

D-Land

D-Land is a specialist in real estate development and management who has managed the most successful and well-known Porto Chino projects based on the concept of a community mall and a rest area. Therefore, the REIT Manager is confident that D-Land will be the tenant of the Porto Chino project, who is capable of allowing space to lease to small shops or operate a marketing affair which brings benefits to the Porto Chino project. Considering the past results that D-Land had managed projects with profitable performances at high returns, the REIT Manager believes that from his long experience in developing and managing the projects, the company acquired good understanding of consumer behavior and needs and can manage rental space effectively.

Effects in the event of change in major tenant

In the case of Udon Plaza, Membership and D-Land, who are partial tenants of the rental space, common areas, event areas and promotional areas (as the case may be) do not renew the agreement or the termination of the lease agreement prior to the maturity period of the lease agreement, AIMCG may need time to find someone else to be the tenant of the area, which will directly affect AIMCG income.

To mitigate this risk, AIMCG entered into lease agreements with Udon Plaza, Membership and D-Land, stated that if there was an incident that AIMCG would have to replace the tenant in the UD Town Project and the Porto Chino Project, AIMCG can process the tenant of the property to pay a different penalty, which will allow AIMCG to be compensated for damages arising from the replacement of the two tenants. However, in the case of the 72 Courtyard Project, the REIT Manager will request for the actions of the property manager, who has the same group of shareholders as the tenant of the property of 72 Courtyard Project to keep track of why tenants need to be replaced and get property manager to provide new tenants for a reasonable period of time. The REIT Manager is confident that he will be able to manage and coordinate with property manager to provide suitable new tenants within a short period of time.

In case of Udon Plaza and/or Membership and/or D-Land are no longer the tenants, the REIT Manager has a process for determining the selection of a new major tenant by taking the benefits of AIMCG and the trust unitholders into account.

Measures if the major tenant is unable to comply with the lease agreement.

If the major tenant is unable to comply with the lease agreement the major tenant must proceed according to the agreement regulation within 60 days of the date the principal tenant is notified or aware of the breach of the agreement or within any period agreed by the parties, except for force majeure. However, in the event that the tenant defaults on the payment of rent and/or any outstanding funds that the tenant is obliged to pay to AIMCG as specified in the lease agreement, AIMCG shall assume that AIMCG may exercise the right to cancel this agreement immediately, unless otherwise specified in the agreement.

In addition, the REIT Manager will supervise the major tenant to pay rent within period specified in the lease agreement, with inquiries and follow-up payments at least 15 days prior to the due date to prevent the late payment or breach of contract. In the event of any force majeure, the REIT Manager will call for a meeting before the payment period. However, if the major tenant is unable to pay the lease fee, the REIT Manager will report to the Managing Director and the Board of Directors of the Company as soon as possible and notify the Trustee to consider the grounds for termination of the lease agreement and proceed with the legal proceedings.

However, in case the major tenant defaults on the payment of rent, the REIT Manager will do their best efforts to negotiate with tenants to help find a way for the principal tenant to pay the rent agreed in the agreement as soon as possible and minimize any damages that may be caused to the trust unitholders.

- 1) Performance fee not exceeding 3 percent per annum of net income from lease agreements and service agreements of AIMCG's main assets.
- 2) Incentive fee at the rate not exceeding 3 percent per annum of the AIMCG operation profit for AIMCG's main assets.
- 3) Commission fee not exceeding 0.5 months of rental rate and service fee in the case of the existing tenant renewing the lease and service agreement for a period of 3 years, and for 1 month of rental rate and service fee in the case of a new tenant entering into a lease agreement and service agreement for a period of 3 years. In case of renewal of the agreement or a new agreement more or less than 3 years, the commission fee will be reduced or increased (as the case may be) proportionate to the actual lease term.

The REIT Manager, as a property manager, hires property managers (third party) to manage each property project. For each property manager (third party)'s project management fee, it is charged to the REIT Manager on monthly basis and there are no additional fees will be charged by AIMCG.

The property manager has the property nearby AIMCG's asset called Montatip Hall which has an area of approximately 24,000 square meters operating a convention center, exhibition center and events, but does not have the characteristics that may compete with AIMCG because it is a different business with different groups of customers. AIMCG has signed an agreement with UD Town Project on non-business competition with AIMCG.

Mechanisms or measures used to supervise property managers to prevent conflicts of interest between property managers and AIMCG.

To prevent conflicts of interest between property managers and AIMCG, the Company has established guidelines for supervising the real estate management of property managers. It is defined in the Undertaking Agreement that for the duration of the property management agreement is effective, the property managers agree to perform their duties in providing small tenants to lease space in the project, which is the property in which AIMCG invests and maintains the tenants of the existing space in the best interests of AIMCG. The property management agrees not to take any

action fraudulently or unfairly, resulting in the tenant's termination the agreement or not renewing the lease agreement but entering into an agreement to lease other areas of the property managers or persons connected to the property managers.

In addition, property managers are required to prepare a report on the performance of the property managers in order to propose to the REIT Manager as specified by the agreement to appoint the property manager or as specified together in the agreement.

To prevent conflicts of interest between property managers and AIMCG, in the event of a transaction between AIMCG and the property manager, AIMCG will proceed according to the laws as followings:

- 1) The terms and conditions of AIMCG to do transactions with property managers are as follows:
 - In the transaction, the trust deed and related laws will be carried out in the best interests of AIMCG.
 - Transactions that AIMCG will make with property managers must be transactions at a reasonable and fair price.
 - Individuals who directly or indirectly have benefits from the transactions must not participate in the consideration and decision to enter into the transactions.
- 2) Approval of transactions between AIMCG and property managers must be carried out in the following procedures:
 - Approved by the Trustee as a transaction in accordance with the trust deed and related laws.
 - In the event that a transaction may cause a conflict of interest, it must be approved by the Board of Directors of the REIT Manager.
- 3) Transaction policy with property managers;
 - Various types of transactions between AIMCG and property managers must be made under fair and appropriate conditions and in accordance with the securities laws.
 - In addition, AIMCG will disclose information about transactions made with property managers to the SEC and SET, as well as in notes to the financial statements of AIMCG audited by the auditor and in AIMCG annual report.

Thailand Economic Overview

In overall, Thai economy in the 4th quarter of 2021 was that the GDP: Gross Domestic Product expanded for 1.9%, which improved from the decrease at 0.2% in the 3rd quarter of the same year as a result of better condition of domestic and international product and service need. Private-sector consumption increased for 0.3% in the 4th quarter of 2021 due to the easement of the measures to control the outbreak of Coronavirus Disease 2019 (COVID-19), and application of other measures to boost the economy of the government. The government's spending rose for 8.1% because of main factor like the expansion of non-cash transfer for social welfare for purchasing products and services in the market system, involved with the outbreak of Coronavirus Disease 2019 (COVID-19). The product and service export elevated for 21.3%. However, total investment diminished for 0.2% from private investment that decreased for 0.9% compared with expansion in previous quarter.

In 2021, Thai economy expanded for 1.6%, which improved from the decrease at 6.2% in 2020. Total investment value, private-sector consumption, and export increased for 3.4%, 0.3% and 18.8%, respectively.

Thai economy in 2022 tends to recover continuously from the low expansion in 2021, driven by expansion of the domestic demand. Despite the outbreak of Omicron, new variant of Coronavirus Disease 2019 (COVID-19), it is likely to affect the public health system limitedly in the 1st quarter 2022, and finally, the government can provide easement for outbreak control measures subsequently. Furthermore, the economy is boosted by the recovery of service sector especially for tourism sector because of the easement, when foreign tourists are welcomed, and ongoing expansion of the export by better economic condition and world trade. However, there are some restraints and risk factors that may affect the economy in 2022 to become lower than anticipated possibly because of uncertainty of the outbreak of Coronavirus Disease 2019 (COVID-19) amidst the viral mutation, and pressure from the inflation owing to the increase of price of energy and consumption goods in the global market. Additionally, there are limitations from the condition of financial status in households and businesses, and restrictions in supply chain and international logistics that are unending, and risks from economic and world finance fluctuation as well as pressure from the inflation rate and geopolitical conflicts.

Business Competitiveness Overview

Overview of retail business

The retail business has been directly affected by the outbreak of Coronavirus Disease 2019 (COVID-19) since the beginning of 2020 until the 3rd wave during April to June and the 4th wave from July to August 2021. The aggravated outbreak resulted in the government to strictly implement the outbreak preventive and control measure as well as curfew measure, travel limit measure, and temporary shutdown of areas and establishments in many provinces including Bangkok Metropolis. As a result, most retail businesses have been considerably affected, that they could not fully open including department stores and shopping malls. Only some businesses were permitted to open such as supermarkets, drug stores, and banks etc. For food shops in shopping malls, customers could not dine in, but only takeaway was permitted and the service time was limited. From the severe and long-lasting outbreak, the Consumer Confidence Index in Thailand decreased to the lowest point at 39.6 in August 2021, which was the downfall to the lowest point for the first time since “Tom Yum Kung” Financial Crisis before it restored in the 4th quarter of 2021 from the easement of lockdown measures for any economic activities of the government. Meanwhile, various businesses launched marketing campaigns to boost spending, and that the consumer confidence index elevated to 46.2 in December 2021.

Although the situation of Coronavirus Disease 2019 (COVID-19) outbreak tends to improve, consumers are concerned about safety, with purchasing power that has not been well restored. According to the Kasikorn Research Center, the household economic and living index in December 2021 diminished continuously for the 3rd month at 33.9 from 34.7 in November. This reflects that households are still concerned about high cost of living especially for food and drink price.

In 2021, retail market in Bangkok included leasehold space in Central Retail District (“CRD”) for approximately 638,100 square meters without increase of the demand in leasehold space. During 2021, the ratio of empty space rose for 3 – 5% compared with before Coronavirus Disease 2019 (COVID-19), due to the outbreak. So, as of 2021, the vacancy rate of leasehold spaces was 7.63, and the rental rate decreased to 3,517 Baht/ square meter, accounted for 10% compared with as of the end of 2020.

According to Krungsri Research Center, in 2021-2023, the retail business generally tends to grow for 1.5-2.5% per annum on average. From purchasing power that gradually restores by economic condition amidst aggressive competition of the business from E-Commerce, which is likely to rapidly grow. It is a challenging factor that affects traditional retail business. Nevertheless, digital platform is a main policy in aligning the business with new consumer's behavior because many retail companies employ O2O (online-to-offline) business pattern to link online users with shops leading to increased recognition of buyers. Thus, it can compete with E-Commerce, and import business. The adapted retail business tends to receive benefit from changing spending behavior of consumers.

Marketing policy and competition of invested projects

In 2021, the retail business encountered aggressive competition and challenges from the situation of Coronavirus Disease 2019 (COVID-19) because most enterprises could not operate the business during lockdown measure of the government as well as closure of establishments or limitations of services. As a result, several retail entrepreneurs in the market lacked financial liquidity and they could not rent retail areas for business operation any more. Therefore, tenants lost opportunity to receive revenue from rent from these tenants. However, AIMCG invests in 4 projects located in different provinces including Bangkok Metropolis, Samut Sakhon and Udon Thani, resulting in variety of income sources. Additionally, risk is diversified from the announcement of temporary closure of the establishments in each area. However, during the lockdown measure, many shops could not normally operate works. AIMCG would like to take this chance to improve the area of projects to support service users when the situations turn normal. It is to maintain competitiveness of lifestyle mall in which AIMCG invests.

The increase of vaccination rate, easement of lockdown measure of the government and economic boost-up measures that are continuously implemented such as Half-Half Payment Scheme, Rao Thiw Duai Kan (we travel together) Scheme, can lead to better competition of the retail business in the future.

Risk Factors

AIMCG has thoroughly studied information of the invested assets, by checking relevant information such as report of real estate appraisal company and property engineering report. Moreover, there are other factors to consider such as performance forecast, changes in related laws and government regulations that may significantly cause risk in the business, operation, financial status and operating result, the REIT's stability or investors' investment.

As for the management in 2021, the Company as the REIT Manager had the opinion that there were risk factors that may significantly and adversely impact AIMCG, which the investors should consider as follows.

Risks associated with AIMCG or its operation

1. Risks due to the fact that the operating results and performance of AIMCG depends upon the capabilities of the REIT Manager and the property manager in managing and procuring benefits from the main assets of AIMCG

Effective management of the REIT and goal achievement requires the knowledge, competence, experience and expertise of the REIT Manager and the property managers.

The REIT Manager is responsible for setting forth the policy and management strategy in overall for the management of main assets invested in by the REIT as specified in the trust deed. The REIT Manager as the property manager has hired 4 property managers (third party) to manage the main assets of AIMCG in accordance with the policy and strategy set by the REIT Manager, by entering into a property manager appointment agreement with each property manager (third party): (1) Udon Plaza is the property manager of UD Town Project (2) Chetchot is the property manager of 72 Courtyard Project and (3) D-Land is the property manager of the Porto Chino Project (4) Noble is the property manager of Noble Solo Project.

In the management of main assets of AIMCG as normal business, the operations of the property managers are under the supervision and control of the REIT Manager, including finding new tenants or renewing leasehold and service agreements with current tenants and service recipients and sales promotion and support, maintenance or development of main assets initially invested by AIMCG to be in good condition and suitable for the provision of benefits. If the said property manager is unable to manage the strategies appropriately according to the policies handed down by the REIT Manager, or if there is a change in property manager or the key personnel of the property manager, this may adversely affect the value of the main assets and/or income expected by the REIT, which would therefore also affect operating results and the ability to pay benefits to trust unitholders, including repayments of due debt.

However, the Company has established measures to reduce such risks by carrying out careful performance appraisals of each property managers on an annual basis throughout their entire period of employment. In addition, the Company has a system in place for the regular monitoring and evaluation of said property managers' internal control systems. This is done in order to provide assurances for all trust unitholders that the property managers are conscientious and responsible in the efficient management of the main assets of AIMCG. In the event that another property manager must be appointed in place of the original property manager, the REIT Manager will carefully consider the qualifications of the new property manager to ensure that they are well-suited to the job before any such appointment.

2. Risks of conflict of interest that may arise out between AIMCG and property owners

1) Conflict of Interest due to property owners leasing back and/or subleasing portions of the assets invested by AIMCG

After the initial investment in the main assets of AIMCG, according to the information as of 31 December 2021, Udon Plaza has rented some of the area in UD Town Project, accounting for approximately 56 percent of the rental space in the project; Membership has rented some of the space in 72 Courtyard Project, accounting for approximately 61 percent of the project; and D-Land has rented some of the area in the Porto Chino project, accounting for approximately 33 percent of the rental space in the project. This could cause conflicts of interest between these property owners and AIMCG, especially in cases whereby the property owners or those in the same group as the property owners are acting as property managers. This is because the property owners may be incentivized to offer spaces leased back from AIMCG to other tenants rather than presenting available AIMCG spaces, which could result in the loss of opportunity and benefit to AIMCG and thus affect the income and performance of AIMCG.

However, the area of UD Town and Porto Chino Projects, where the owners of the property leasing back, those areas are small shop rented. (Approximately not more than 10 square meters) or the areas with a short-term lease agreement (up to 1 year) or the areas generating income or being rented on a daily basis such as a courtyard for public relations and promotional activities, food and beverage stalls, etc. Due to the nature of the area that the lease agreement changes quickly and it is the area used for organizing activities for public relations or promotional activities on a regular basis, therefore to manage the rental area by the REIT Manager efficiently, uncomplicatedly, without any delay that may cause loss and manage, on a timely manner to prevent the REIT from losing income from the area, and to create the ultimate benefit to the trust unitholders, the Company sees that in allowing the property owners to lease back the assets invested by the REIT will create a seamless operating system, as well as generating stable and consistent returns to the trust unitholders of the REIT. Additionally, this can makes the management of the area more flexible. As for the Porto Chino Project, it was leased back by the property owners to operate food, beverage and entertainment businesses like what the property owners has been operating the businesses before AIMCG invested.

In order to prevent potential conflicts of interest due to the property owners leasing back and/or subleasing portions of spaces leased from AIMCG, AIMCG has received an agreement from all three owners of the properties AIMCG initially invested stipulating that in order for the property owners to sublet a property or portion of a property, it may only be subleased in the already ongoing or preexisting manner and/or under the same characteristics as on the day said main assets were invested in by AIMCG. Additionally, in the case that the property owner as lessee of the property from AIMCG acts to lease the said property or areas to a third party in any manner other than those specified above, this must be approved first by the REIT Manager and may not be subleased to any lessee operating business types that are prohibited under relevant laws or regulations. AIMCG also reserves the right to prohibit the lessee from subleasing said properties to a third party if AIMCG is of the opinion that the said sublease will negatively affect, conflict with, or be in competition with the business and procurement of benefits by AIMCG for main assets initially invested in by AIMCG.

2) Conflict of interest due to additional projects carried out by property owners or property managers (third party)

As Udon Plaza or those within the same group as Udon Plaza has invested in a convention center project with a total rental area of approximately 800 square meters located on land just opposite the main assets of AIMCG, and D-Land invested in the Porto Go Project, which is a center for shops and restaurants catering to and accommodating onward

travelers heading to tourist destinations such as Petchaburi, Hua Hin, etc., with an area of 3,000 square meters and a distance of just approximately 15 kilometers from the Porto Chino Project. Thus, said projects may cause conflicts of interest with AIMCG, both due to the nature of the business being similar to that of AIMCG in the rental of spaces for shops and businesses, and due to new tenant procurement.

Udon Plaza has clarified to the REIT Manager about the objectives of the convention center project (Exhibition Hall) that the customers of which is a different customer base from the community mall and those customers are the restaurant and coffee shop operators. The purpose of providing such stores is to facilitate those who attend the event in the exhibition hall only. While D-Land has clarified that the project size is much smaller than the size of Porto Chino project and the customer base is different, who is a group of tourists stopping by for fuel and stop-off place. However, the REIT Manager is aware of the potential conflict of interest. Therefore, property management has been established for Udon Plaza and D-Land in order to prevent such conflicts that may arise, by applying to the entire period at Udon Plaza and D-Land operates as a property manager of AIMCG. Udon Plaza and/or D-Land and/or the same group of people of Udon Plaza and/or D-Land shall not operate business in competition with the AIMCG's business. If Udon Plaza and D-Land and/or the same group of people of Udon Plaza and/or D-Land wishes to dispose, distribute, transfer or lease additional projects to any person. This is not a normal lease of space to general customers per the normal commercial operation. Udon Plaza and D-Land shall inform the REIT Manager and give AIMCG the right of first refusal to additionally invest in such projects.

3. Risk due to the fact that the income of AIMCG depending on financial status of tenants and renewal of lease and service agreements after the expiry of agreements

As the main assets that AIMCG initially invests are the assets in the shopping center business, community mall and lifestyle mall category, the main income of AIMCG comes from rental and service income received from tenants of the main assets that AIMCG initially invests in 3 projects including UD Town Project, 72 Courtyard Project and Porto Chino Project. Main tenants of those projects are in the retail segment. Consequently, AIMCG is likely to expose to general risk factors related to investment in the aforementioned retail business. If one of the main tenants, or number of main tenants, or the tenants who rent large scale of the rental space have a deteriorating financial position, this may cause the tenants to delay their payment or default the payment and make the tenants unable to pay the debt. In addition, the tenants may not renew the lease and/or service agreements, or may request for an extension of the lease and/or service agreements with conditions that are less beneficial to AIMCG than what stated in the current lease and/or service agreements. This may have a material adverse effect on the financial position, performance and ability to pay benefits of AIMCG. However, the average occupancy rate in 2020 of UD Town Project, 72 Courtyard Project and Porto Chino project was 100 percent in all projects.

In this regard, the Company has established measures to mitigate the above risks by requiring agreement by Udon Plaza and D-Land regarding any areas invested in by AIMCG in the UD Town Project and Porto Chino Project (as the case may be), in which has no tenant on the date that AIMCG invested or the space is available within 5 years from the date of said investment. Udon Plaza and/or D-Land, and/or any persons designated by Udon Plaza and/or D-Land agree to lease said areas within the above projects from AIMCG at the specified rental rate. This includes payment of utilities, land and house taxes, and/or any other expenses related to tenantless areas within the above projects

4. Risks related to material improvements or repairs to properties

The UD Town Project, 72 Courtyard Project and Porto Chino Project are the main assets initially invested by AIMCG and those projects have operated since 2009, 2015 and 2012 respectively. At present, assets invested in by AIMCG are in good condition and have been continuously renovated and received repairs and improvement as necessary as for suitability of use. Said renovations have not had any impact on the procurement of main assets initially invested in by AIMCG. However, in the future, AIMCG may have to consider material improvements or repairs and/or work system changes for main assets initially invested in by AIMCG, including changes in appearance and/or important system changes for main assets initially invested in by AIMCG. This is to ensure said main assets remain up-to-date and suitable for the benefit of customers in said projects, as well as to attract more tenants for major properties and assets invested in by AIMCG. The aforementioned major renovations and/or repairs of the main part of the assets may require temporarily closing some areas or portions of these main assets of AIMCG, which may affect the use of said assets or result in tenants' termination of contracts or inability to renew leases. Therefore, if main assets invested in by AIMCG require major renovation or repairs, this may cause a material adverse effect on the financial status and operating results of AIMCG.

That said, in regard to major renovations or repairs, the property manager shall assess said plans on an annual basis and send these to AIMCG and the Trustee for approval respectively. Plans for major renovations or repairs may be improved by closure of areas one at a time in order to minimize any impact on the procurement of main assets invested in by AIMCG, as well as to continue to make available for use the areas surrounding the space under repair or renovation. Additionally, the REIT Manager may consider estimates and prepare a plan for gradual provision or disbursement of maintenance and renovation fees according to the expected renovation timeframe in order to ensure that main assets invested in by AIMCG are in good condition and are suitable for use. In the future, however, there may be a risk that the reserve fund for said major property renovations is not sufficient to cover the cost of repairs, property improvement or image enhancement to maintain competitiveness. Such an event could have a negative impact on the operating results, financial status, and ability to pay compensation to trust unitholders.

5. Risk due to the AIMCG's inability to utilize the main assets because the contract party fails to comply with the agreements relating to the REIT's investment and property management

In investment and property management of AIMCG, AIMCG has entered into a purchase agreement, lease agreement, sublease agreement and an action agreement (As the case may be) for investment in main assets that AIMCG invests in with property owners and/or agreement relating to the investment and management of AIMCG for obtaining benefit of AIMCG and obliging the contract party to comply with the terms of the agreement.

Even the terms are stipulated in the aforementioned agreement, the contract party may breach the contract or cause any event resulting in termination or breach of the contract. In such case, even AIMCG has the right to terminate the contract, claim for damages, as well as call for any lack of benefit, but the breach of contract by such contract party may cause AIMCG unable to receive benefits or to enforce the terms of the said contract. For example, being unable to force the contract party to comply with the terms of the contract or the contract party fails to compensate for the damages as requested by AIMCG, therefore, AIMCG may have to enter into judicial process by exercising the right to file the case in the court. The REIT Manager cannot predict the amount of time taken to complete the said process and the amount of money that AIMCG will be compensated for the damages. In addition, the result of lawsuit depends on the court decision. Even the court has the judgment that AIMCG wins the case. AIMCG may have difficulty enforcing the judgment of the court. The unitholders therefore have the risk of not receiving the benefits in the amount or within the time anticipated.

6. Risk from Borrowing

As of 31 December 2021, AIMCG has approximately 199.76 million Baht of long-term loans and approximately 40 million Baht of short-term loans from financial institutions and bank guarantee in the amount not more than 10 million Baht to be used as working capital in the management and operation of AIMCG, maintenance and improvement of assets invested by AIMCG, including as a guarantee the use of the infrastructure of the AIMCG's assets and as collateral for the acquisition or maintenance of the right to pledge or right to invest in additional assets in the future, whereas the total value does not exceed 35 percent of the total asset value of AIMCG.

Therefore, AIMCG may be exposed to risks from such borrowing due to the fluctuation of economy and interest rates. Since the floating interest rate under the loan agreement may change during the term of the loan agreement, this will affect the operation of AIMCG and does not have sufficient liquidity to pay the interest and principal. This also may affect the ability AIMCG to pay benefits to the unitholders. In the event that AIMCG is unable to pay the interest and/or the principal as specified in the loan agreement or any other breach under the loan agreement, it may result in the creditor to take legal action against AIMCG or exercise its right according to the agreement due to the failure to comply with the loan agreement, including forcing a mortgage on the AIMCG's assets to be used as collateral for the loans.

The REIT Manager well recognizes such risk and manage AIMCG with care by monitoring performance of AIMCG and observing the external factors as well as trend of interest rate on regularly basis. Moreover, the REIT Manager may consider to apply for other financial instruments to reduce such risk, for example, interest rate swap. or take any action such as extending the due date of debt payment, indulgence of conditions that may obstruct management of AIMCG, etc. provided that such actions are in compliance with related laws or regulations and for the utmost benefits of trust unitholders.

7. Risks arising from increased competition and consumer lifestyle changes

AIMCG's performance could be affected by increased competition due to the opening and renovating of shopping centers and malls by both existing and new operators, as well as due to consumer lifestyle changes, combined with technological advances. The latter especially is resulting in challenges due to the growth of the online marketplace which is able to meet the needs and lifestyles of the new generation and which presents strong competition in terms of product variety and convenience, in turn leading to retail businesses (which comprises the major tenants of the UD Town Project and the Porto Chino Project, as well as shopping mall operators) needing to adapt and adjust their strategic plans constantly to keep up with the changing environment.

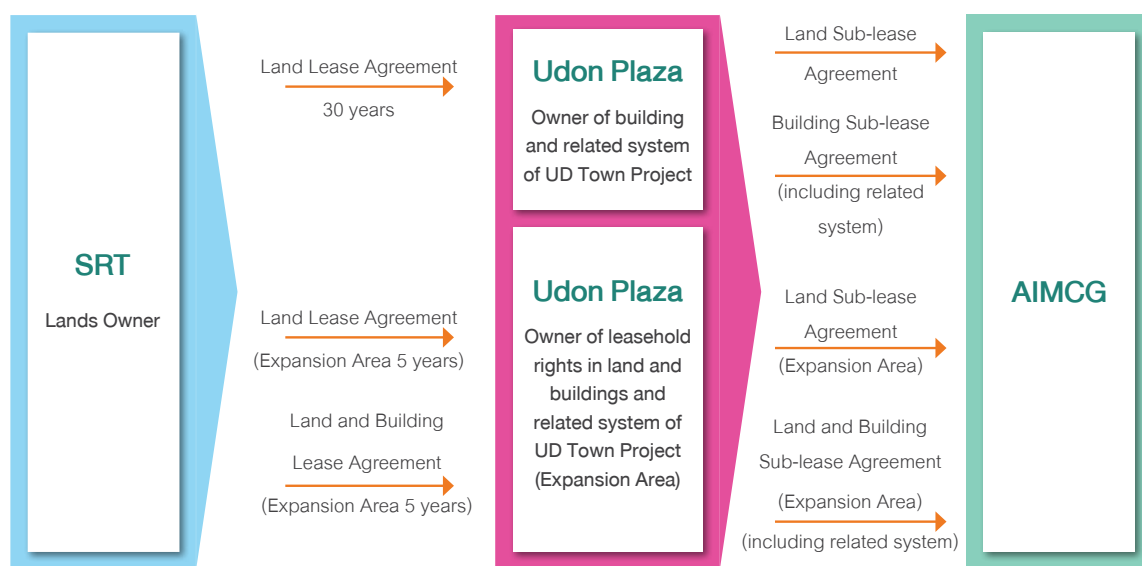

Therefore, the Company as the REIT Manager shall collaborate with the property manager (outsider) in taking necessary steps and action under the scope of power and responsibility of the REIT Manager and as specified in Trust Deed, the REIT Management agreement, property manager agreement, and any other relevant agreements, including related regulations. Said actions would be carried out under the supervision of Trustee of the operation in order to increase the competitiveness of the main assets invested in by AIMCG, especially in regard to retail and shopping centers, by focusing on the development and improvement of said properties and thus increasing the efficiency of asset procurement and utilization of space, as well as maintaining modernity and a positive image. Said strategies and measures will be planned jointly by the above parties to ensure continued development and improvement of those shopping centers, making them both unique and acceptable to the public, while incorporating new concepts in line with the current lifestyles of today's consumers to create an impressive customer experience overall.

Risks associated with AIMCG Main Assets

1. Risks related to AIMCG investment in the UD Town Project

- 1) Risks related to AIMCG investment in leasehold rights and sublease rights in the UD Town Project, in which said leasehold and/or sublease rights may be terminated or end before the expiration dates, thus resulting in AIMCG losing the rights to use said leased and/or subleased properties.

The UD Town Project is located on land belonging to SRT, for which Udon Plaza has the leasehold rights. AIMCG has entered into a lease and sublease agreement with Udon Plaza in order to utilize said leased and subleased properties according to the investment objectives of AIMCG. Details of this investment appear in the diagram below.

Even though, any said investment by AIMCG in leasehold rights and sublease rights per the land sublease agreement, building lease agreement, sublease agreement (expansion area) and sublease of land and buildings agreement (expansion area) shall be correct and/or registered with relevant authorities, there is still a risk for AIMCG due to the possibility of leasehold rights and sublease rights under said agreements being terminated or ending before the relevant lease or sublease period. This would result in loss of opportunity, use, and/or benefit from leased or subleased assets by AIMCG, thus affecting AIMCG's procurement of benefits and income.

In the case of leasehold rights of buildings that AIMCG invests, condition or reason that will make Udon Plaza as the lessor has the right to terminate the contract with AIMCG as the lessee before the expiration of the lease period is in the event that AIMCG as the lessee breaches the agreement, such as failure to perform the tenant duties as specified in the building lease agreement, including the duty to use the leased property, the duty to pay rent and AIMCG does not remedy such breach within the specified period. In addition, there may be cases where the agreement is terminated due to force majeure. However, in the case where the duty to pay rent per the terms of the agreement which the payment period is fixed, AIMCG therefore has time to collect and obtain money to pay the rent and AIMCG also has time to correct such default of rental payment. In addition, the Company has take precaution in the management in or order to prevent such default. Besides, the leasehold of the building invested by AIMCG may be terminated or ended prior to the expiry of lease

term. In the event that any termination of said agreements was a result of breach of contract by Udon Plaza as the lessor, AIMCG retains the right to terminate the contract immediately. In such a case, Udon Plaza must pay the remaining leasing fees to AIMCG, along with any income or any other benefits received by the sub-lessor in the name of AIMCG. Said payments must be commensurate with the remaining lease or sublease terms, including any lack of benefit to AIMCG due to inability to utilize leased assets for the remaining lease or sublease terms. This does not, however, preclude the rights of AIMCG in claiming damages and/or any other expenses arising from the breach of contract.

In regard to sublease rights to land and buildings invested in by AIMCG, there is a risk to AIMCG if Udon Plaza, as a contract party with SRT in land lease agreements, land lease agreements (expansion area), and land and building lease agreements (expansion area), violates or is in breach of any of the material conditions in the main lease contract to the extent that it could cause said lease contract to be ended. Said breach would be including, but not limited to, default on payment of annual rent, which Udon Plaza is still obligated to pay under the contract. In such a case, this could affect enforcement of the sublease agreement and result in inability by AIMCG to utilize the subleased property according to the objectives specified in the sublease agreement. Additionally, in the event that said main contract is terminated for any other reason, this too could cause AIMCG to lose the rights to utilize the subleased property under the sublease agreement. Risks due to such an event could have a significant impact on the business, performance, and financial status of AIMCG. For example, it may result in AIMCG being unable to utilize the subleased assets in accordance with the investment purpose; Income that AIMCG is expected to receive has significant change and even the sub-lessor compensate the damages to AIMCG, such damages may be less than the REIT's income that has changed or is inadequate for the actual damages.

In the case of the sublease for the UD Town Project, however, AIMCG has made an agreement with Udon Plaza whereby AIMCG agrees to pay rent directly to the State Railway of Thailand so as to prevent any risk of Udon Plaza breaching said obligation. Additionally, AIMCG has received an undertaking agreement from Udon Plaza, the leased property owner, providing guarantees and agreement regarding various duties, the main of which specifies that throughout the sublease term, Udon Plaza shall strictly comply with all duties stipulated in the master lease agreement and shall not distribute, transfer, or place any obligations on leasehold rights on subleased land, except with the prior written consent of AIMCG. This includes Udon Plaza's agreement that it shall not terminate or amend the master lease agreement for any reason and/or regardless of any period of time without the prior written consent of AIMCG. In the event that Udon Plaza breaches any of the clauses stipulated in the master lease agreement, Udon Plaza agrees to notify AIMCG of said breach of contract in writing, thus giving AIMCG the right to amend said contract without delay, or to agree to request consent from the State Railway of Thailand to transfer the rights and responsibilities of Udon Plaza as the lessee under the master lease agreement.

2) Risk related to land lease agreement (expansion area) and sublease of land and buildings agreement (expansion area) under which there remains a provision allowing the State Railway of Thailand to terminate the contract or request return of space

Regarding the details stated in 1), the investment in the UD Town Project (expansion area). AIMCG entered into the said land sublease agreement (expansion area) and land and buildings sublease agreement (expansion area) from Udon Plaza which is the owner of the leasehold rights for land and buildings (expansion area) from the State Railway of Thailand, in order to sublease said property according to the investment objectives of AIMCG.

The term of the land lease agreement (expansion area) and/or the land and buildings lease agreement (extension) between SRT and Udon Plaza, providing that in the agreement that gives SRT to be able to terminate the said agreement or return the area, if SRT as the lessor wishes to use the area and Udon Plaza has no right to claim damages. Therefore, there is still a measure of possible risk to AIMCG if the land leases agreements (expansion area) and/or land and building agreement (expansion area) is terminated before the rental period expires. The land sublease agreement (expansion area) and the land and buildings sublease agreement (expansion area) that was entered into by AIMCG with Udon Plaza would also end. This would result in a lack of use and/or benefit from said subleased assets (expansion area) to AIMCG made with Udon Plaza, which could affect the obtaining of benefits and income to AIMCG.

To alleviate the effects of the above risks related to investment in main assets by AIMCG in the UD Town Project (expansion area), AIMCG has received an undertaking agreement from Udon Plaza under the sublease agreement (expansion area) and the land and buildings sublease agreement (expansion area) that will allow AIMCG to fully utilize said leased property according to the spirit and purpose of the contract/agreement, free of any liability, obligation, or action taken against it. Additionally, in the event of any breach by Udon Plaza of the land lease agreement (expansion area) and/or land and buildings lease agreement (expansion area) between SRT and Udon Plaza, resulting in said contract being terminated or ending for any reason other than dereliction of or negligence in duties or a failure to perform duties between AIMCG and Udon Plaza as specified in the contract, AIMCG retains the right to claim for damages from Udon Plaza for the said incident and/or to terminate the contract between AIMCG and Udon Plaza immediately. In such a case, Udon Plaza must pay the remaining leasing fees to AIMCG, along with any income or any other benefits received by Udon Plaza in the name of AIMCG. Said payments must be commensurate with the remaining rental terms, including any lack of benefit to AIMCG due to an inability to utilize the leased assets for the remaining sublease term specified in the lease agreement. This does not, however, preclude the rights of AIMCG in claiming damages and/or any other expenses arising from the breach of contract.

2. Risks due to AIMCG investment in the 72 Courtyard Project which is located according to the special reciprocal agreement and the land owner has not been registered at the relevant land office

The 72 Courtyard Project is located on land belonging to an individual for which Membership holds the leasehold rights for the construction of buildings and other structures under a special reciprocal agreement, which takes precedence over lease agreements, allowing them to conduct business in the 72 Courtyard Project and retain ownership of 72 Courtyard Project Buildings. For investment in main assets by AIMCG, AIMCG has entered into a building lease agreement with Membership for said 72 Courtyard Project in order to utilize constructed buildings, which are leased assets according to the investment objectives of AIMCG. In this regard, even if investment in leasehold rights by AIMCG is completely correct and registration has been carried out with the relevant authorities, there is still a possible risk to AIMCG due to the fact that the leasehold rights for the land on which the 72 Courtyard Project is located according to the special reciprocal agreement, which holds precedence over the lease between Membership and the land owner of the 72 Courtyard Project, have not been registered at the relevant land office. Thus, the special reciprocal agreement may be terminated or ended before the rental term is complete. However, the Civil and Commercial Code stipulates that the lease term of real estate which is scheduled for more than 3 years. Whereby the legal principles which under the Civil and Commercial Code both in writing and registration may not be applied, that is, contract parties may sue to enforce the case, even if the lease said case has a lease term of more than 3 years and has not been registered with relevant authorities.

If the owner of the land on which the 72 Courtyard Project is located transfers ownership of said land to a third party, the judgment of the Supreme Court is that the special reciprocal agreement (which takes precedence over the normal lease agreement) shall be personal rights enforceable only between the contract parties and are not binding upon the third party transferee, that is, unless the transferee agrees to be bound by said agreement and except in the case of rights and responsibilities under the contract of inheritance. Therefore, if the owner of the land on which the 72 Courtyard Project is located transfers ownership of said land to a third party, and if said third party does not agree to allow the property invested in by AIMCG to remain on the land for which said ownership has been transferred, thus affecting the building lease agreement for the 72 Courtyard Project between Membership and AIMCG, this would result in a lack of use and/or benefit from the 72 Courtyard Project building (which is a leased asset) to AIMCG, which could affect the procurement of benefits and income to AIMCG.

However, in regard to the special reciprocal agreement (which takes precedence over the normal lease agreement) between the landowners of the 72 Courtyard Project and Membership, it is stipulated in the contract that if the owner of the 72 Courtyard Project wishes to sell or transfer ownership of the land on which the 72 Courtyard Project is located (which is an asset leased according to the special reciprocal agreement which takes precedence over the normal lease agreement) to a third party, Membership must be notified of the price for which said property would be sold and Membership must be given first buyer's rights. Additionally, AIMCG has received an agreement from Membership that AIMCG will be allowed to utilize fully the leased property in accordance with the spirit and purpose of the contract, free of any liability, obligation, or action taken against it. In addition, throughout the entire lease term, Membership agrees not to transfer the rights and obligations under the special reciprocal lease agreement with the landowners of the 72 Courtyard Project property to any other third party or to sell, transfer, or place any obligations on buildings in the 72 Courtyard Project for others, except with the prior written consent of AIMCG. Also, in the event of a breach of contract by Membership due to the special reciprocal agreement (which takes precedence over the normal lease agreement) for any reason whatsoever, including but not limited to a change in ownership of the land on which the 72 Courtyard Project is located, thus causing AIMCG to be unable to utilize the leased property, and if said event was not the result of AIMCG's dereliction of or negligence in duties or failure to fulfill obligations under the contract, AIMCG reserves the right to claim damages from Membership due to said incident and/or to terminate the contract immediately. In such a case, Membership must pay the remaining leasing fees to AIMCG according to the Straight Line Calculation, along with any income or any other benefits received by Membership in the name of AIMCG. Said payments must be paid commensurate with the remaining rental terms, including any lack of benefit to AIMCG due to an inability to utilize leased property for the remaining lease term. This does not, however, preclude the rights of AIMCG in claiming damages and/or any other expenses arising from the breach of contract.

3. Risks related to rental contract requirements for certain projects, which give the right to small tenants to terminate the lease and the service contract before expiration of contract and/or contract limit the amount of damages tenants are responsible for in the event that said tenants terminate the contract prematurely and/or contract restrict the use of the area of AIMCG

The lease agreement and/or service agreement with some of the tenants in the UD Town Project and Porto Chino Project includes the right for said tenants to terminate the lease and service agreements before the expiration date of the contract term without constituting a breach of contract, as well as clauses limiting the amount of damages said tenants are responsible for in the event of termination of the lease agreement before the expiration of the contract term. Additionally, certain clauses in said contracts restrict the use of certain parts of the UD Town Project for certain types of businesses only, including hypermarket businesses, supermarkets, or department store businesses. Therefore,

there may be a risk to AIMCG if said tenants terminate the lease and/or service agreement before the expiration of the contract term and AIMCG is unable to procure new tenants to replace said tenants within a reasonable timeframe, or is unable to find new tenants, or if new tenants agree to a shorter rental period than the previous tenants. Also, in such a case, AIMCG may not receive full compensation based on actual damages, and may be subject to limitations on finding new tenants, such as certain rental spaces permitted for rental only to tenants operating certain types of businesses as outlined above. It therefore could have a direct impact on the performance of AIMCG.

4. Risk of competition from shopping centers and other retailers within the same target group, which may affect the procurement of benefits and the operating results of AIMCG

Because the main assets invested in by AIMCG, such as the UD Town Project, Porto Chino Project, and the 72 Courtyard Project, are a major source of income for AIMCG due to the space rental business within the community and lifestyle mall categories, when considering same or similar business types in nearby areas, it is clear that AIMCG may face increased competition due to other operators also running shopping center businesses in a similar manner, and these operators also having developed, renovated, and decorated said retail spaces or having succeeded in attracting consumers.

In addition, the property rental operators of AIMCG must face continually changing customer needs, including lifestyle and consumption behavior changes among customers making purchases or receiving services. This has caused increased competition in the procuring of new tenants, the contract renewal of existing tenants, and the reduction of rental rates to attract tenants, all of which may have a significant impact on the procurement of benefits and the performance results of AIMCG.

That said, all three aforementioned projects and main assets invested in by AIMCG are in appropriate locations convenient for travel and transportation and have achieved suitable market positioning with clear target customer groups, as well as having concepts and designs that are different from other shopping centers in the same area. These are considered important factors helping to enhance the potential of AIMCG assets allowing competitiveness against other operators without significantly affecting the procurement of benefits and performance of AIMCG.

Risk associated with Real Estate Investment

1. Risks arising from land expropriation

AIMCG may have the risks in the event that any property invested by AIMCG is expropriated by any government agency hindering AIMCG from utilizing the invested properties for benefits on business operation. Moreover, in the event of such expropriation, AIMCG may not receive compensation from such expropriation or receive compensation that is less than the value of the invested properties. In addition, such compensation may not cover the expected distribution and capital invested by trust unitholder because the amount of compensation is based on conditions as specified in related agreements and remaining duration of lease term after expropriation. Therefore, the Company is unable to estimate opportunities on expropriation because it depends on policy and necessity of area utilization of the government in the future.

2. Risks resulting from increase in expense related to the properties and operational expenses

The ability of AIMCG to make the distribution payment to trust unitholders may be negatively affected if expenses related to the properties and operational expenses are increased whereas incomes are not increased to be consistent with those expenses. Many factors may increase expenses on the properties and operational expenses, such as, expenses on properties maintenance, taxes and fees related to the properties, expenses of public utilities, service fees of sub-contractors, inflation, and insurance premiums, etc.

3. Risks related to the value of leasehold rights for properties invested in by AIMCG, which may be reduced with the remaining rental term period and thus would result in the value of AIMCG trust units decreasing accordingly as well

AIMCG will invest in leasehold rights to real estate for which the value of said leasehold rights may decrease per the remaining lease period according to the valuation of an independent appraisal and/or any other factors beyond the control of the REIT Manager. Therefore, when the leasehold has expired, if AIMCG does not have any additional investments in main assets, the value of the net assets of the trust unit would be equal to zero. In such a case, AIMCG would not have reserve funds for the return of investment in leasehold rights to trust unitholders but would gradually pay back said investment to trust unitholders by the reduction of registered capital.

In addition, the trust unit value could also decrease as a result of appraisal of leasehold rights, changes in occupancy rates and/or rental rates and/or utility fees, or due to any other reason beyond the control of AIMCG. As such, a change in value of said leasehold rights may have a significant impact on the net asset value of AIMCG, trust unit value, and/or final remunerations of AIMCG.

4. Risks associated with natural disasters, flood, and sabotage

The major properties of AIMCG may be damaged by any natural disaster such as flood and/or sabotage. Therefore, AIMCG shall maintain the insurance for those properties covering all lease term and renewal period in order to relieve any damages against the major properties of AIMCG and loss of life and properties of the related tenants with the best conditions of insurance. AIMCG therefore enters into the insurance contracts, whereby such insurance shall cover the properties throughout the rental period and be consistent with insurance standard for the similar buildings to the major properties of AIMCG in both aspects of building nature and usage, for example, all risk insurance and public liability insurance.

Risks associated with Investment in the trust units

1. Risks caused by decrease of trust unit price after offering

Offering price of trust unit is based on various factors that may be changed in the future, for example, business and investment opportunities of AIMCG, condition of property market in Thailand under the perspective of investors, estimation of investors and analysts, market value of properties of AIMCG, attraction of trust units compared with other equity instruments, balance between sellers and purchasers of trust units, size and liquidity of REIT unit investment market in Thailand in the future, amendment of related rules and regulations, foreign currency exchange, interest rate, and fluctuation of the capital market.

With those factors, trust unit may be sold and purchased with higher or lower price than unit net asset value. Although AIMCG has cash flow for investment as the reserve for operations or for others, this capital may increase the value of assets but it may not increase market price of trust unit. If AIMCG is unable to perform operations as per the expectation of market whether in aspect of future income or distribution payment to trust unitholders, the market price of trust unit may be affected negatively.

Moreover, trust units are not financial products with protection of investment amount. The nature of investment in trust units is not entering into loan agreement or guaranty that trust unitholders will get return of invested money. Therefore, the investors may have the risks not get back a whole or partial amount of invested money.

2. Risks associated with AIMCG to make distribution payment to trust unitholders and such distribution is less than turnover of AIMCG gained from its operation

AIMCG incomes obtained from properties investment depend on several factors as well as the amount of rental fee and expenses rate related to properties and occurring operational expenses. If AIMCG properties generate insufficient income, cash flow of AIMCG and ability on distribution payment may be negatively affected. The Company is unable to promise whether AIMCG will make the distribution payment or maintain stable and/or higher distribution rate in the future. In addition, there is not warranty that the rate of rental fee as specified in the current lease agreement will increase or generate the additional rental fee based on expansion areas of properties or new assets those will boost up income of AIMCG and enable AIMCG to pay distribution to trust unitholders in the higher amount.

To determine the amount of distribution for trust unitholders, AIMCG has to take many factors into account, not only the turnover received by AIMCG from properties renting, but also the income after deduction of operational expenses. Such operational expense includes expenses on management, payment of due loan, other obligations, etc., with considering of cash flow as well as other expenses of AIMCG. Therefore, the distribution amount paid to the trust unitholders is less than the turnover that AIMCG received from operations of properties investment.

3. Risk that the pay back from the termination of the REIT may be less than the amount invested by the trust unitholders from the offering for sale of trust units

In the event that AIMCG is terminated, the REIT Manager cannot guarantee that the trust unitholders will receive their investment back, either in whole or in part. This depends on the cause, method of termination and criteria for disposing of the main assets of AIMCG.

4. Risks associated with taxes and fees

In case of amendment of tax laws and regulations or laws and regulations, the trust unitholders may have burdens on taxes related to purchasing or investment of trust units i.e., pay for taxes with higher rate or in the event that the distribution is paid to foreign investors, the withholding tax with different rate shall be applied.

Also, AIMCG's taxes and fees burdens may also change from current rate, for example, the properties transaction of sale and purchasing or ownership transfer may have some revised scheme of taxes and fees in the future that cause additional taxes or fees that AIMCG may be binding to pay for it as a whole or partial.

Distribution Payment Policy

Distribution Payment Policy shall be followings:

- (1) The REIT Manager will pay to unitholders the distributions of, in aggregate, at least 90% of the adjusted annual net profit in a given accounting year, consisting of a year-end distribution and an interim distribution in each quarter (where applicable). Distribution payments made by the REIT Manager to trust unitholders are limited to a maximum of 4 times per accounting year. However, in a given accounting year where a capital increase is made, AIMCG may pay distributions to trust unitholders more than 4 times for the interest of the existing trust unitholders (A distribution payment will be first made in the first accounting period of AIMCG if its profit is adequate for such distribution payment).

The adjusted net profit as mentioned in the above paragraph means the profit after the following adjustments prescribed by the SEC Office or its subsequent amendments such as the deduction of the unrealized gains from the valuation or revaluation of AIMCG's assets, the difference between revenue recognition in financial statements and in rental and service contracts, other adjustments to be in line with the cash position of AIMCG, the deduction of reserve for loan principal repayments and other obligations which become due, or the deduction of reserve for assets repair and maintenance as per AIMCG's specified plan etc.

- (2) If AIMCG, based on the adjusted annual net profit specified in (1). above, records retained earnings in any accounting year, the REIT Manager may pay distributions to trust unitholders from the retained earnings.
- (3) If AIMCG sustains accumulated losses, the REIT Manager will not pay distribution to the trust unitholders.
- (4) For each distribution payment to the trust unitholders in each accounting period, the REIT Manager will make an announcement of the distribution payment, arrange for the closure of the trust unitholders register to compile a list of trust unitholders entitled to the distribution, and proceed with the distribution payment to the trust unitholders. A year-end distribution will be paid by the REIT Manager within 90 days from the end

of accounting year while a quarterly interim distribution (if any) will be paid within 90 days from the end of the accounting period of the quarter immediately preceding such distribution payment. The distribution rate shall be at the discretion of the REIT Manager whereby if the distribution to be paid for a given period is equivalent to 0.10 Baht per unit or lower, the REIT Manager reserves the right to withhold such distribution and carry it forward to a subsequent distribution payment.

(5) In order to pay the distribution, the following criteria must be complied:

- (a) Trust unitholders entitled to receive the distribution shall be trust unitholders as listed in registration book of AIMCG at the book closing date for distribution payment based on portion of trust units holding by each trust unitholder. In the event that there is any individual or persons in the same group holds trust unit exceeding threshold as prescribed in the notification of SEC, such individual or persons in the same group shall not be entitled to receive the distribution of such exceeding trust units.
- (b) The REIT Manager shall announce the distribution payment before the book closing date in accordance with the period as stipulated by laws in order to determine the right of distribution receiving and distribution rate through SET portal and other following methods:
 - Send the notices to trust unitholders as listed in registration book at the book closing date; or
 - Post the announcement in the share spaces at all the REIT Manager's office; or
 - Announce via the website of the REIT Manager and/or the website of AIMCG; or
 - Publish at least 1 newspaper.
- (c) The REIT Manager shall deduct withholding tax from the distribution amount as prescribed by laws depending on type of trust unitholders.
- (d) The REIT Manager shall pay the distribution by cheque ordered to be paid to trust unitholder with stamp "A/C Payee Only", and then send to the addresses as specified by trust unitholders in subscription via registered mails or money transfer to deposit accounts as informed by trust unitholders, whereas trust unitholders shall be responsible for fees and expenses occurring by such money transfer and also risk resulting from currency exchange rate (if any). The REIT Manager shall deduct those fees and expenses from the distribution amount before transfer.
- (e) In the event that trust unitholders ignore to claim or receive each and/or any distribution by the expiration date of prescription as stipulated in Thailand Civil and Commercial Code, it shall be deemed that such amount of money shall become to be owned by AIMCG whereas the REIT Manager shall not utilize such distribution for other purposes besides those for benefits of AIMCG.

(6) Distribution Payment Condition and Method

If trust unitholders or persons in the same group as the trust unitholders hold trust unitholders exceeding thresholds or do not comply with the criteria under the Notification No. TorJor. 49/2555, the Notification No. GorRor. 14/2555, and the Notification No. SorChor. 29/2555, as applicable, they shall be subject to the distribution restriction and their distribution entitlements shall be proportional to their holding percentage and subject to the rates specified by the Notification No. TorJor. 49/2555, the Notification No. GorRor. 14/2555, and the Notification No. SorChor. 29/2555, as applicable. In this regard, the REIT Manager will arrange for the computation of the distribution entitlement of each unitholder in such group on a pro rata basis to identify the baseline for the distribution calculation.

Only if the SEC Office has issued rules, orders or waivers in otherwise for exception, such distribution that cannot be paid to the trust unitholders shall be given to other trust unitholders in proportion to their holding percentage whereby the REIT Manager shall proceed with the distribution allocation of payment to the entitled trust unitholders.

Duties and Responsibilities of Trustee

General duties

Trustee has the duty to manage AIMCG with loyalty, integrity and care as a professional, to treat the trust unitholders fairly for the best interest of trust unitholders in general. Trustee shall comply with relevant laws, the Trust Deed, the objectives of AIMCG, the resolutions passed by the meetings of the trust unitholders, and additional obligations to the trust unitholders (if any).

In performing the said duties, Trustee may seek the advice and recommendations of professional independent consultants, as deemed appropriate by Trustee. Moreover, in performing said duties, Trustee shall refrain from any actions which are in conflict with the interests of AIMCG, whether said action is for the benefit of Trustee or for the benefit of others. That is, except in cases of compensation for those acting on behalf of Trustee, or of a transaction with appropriate measures or mechanisms in place to monitor and ensure balance and fairness of said transaction, whereby Trustee is able to show proof that they have managed AIMCG in a fair manner and have disclosed sufficient relevant information to the unitholders ahead of time, and to which said unitholders did not present any objection.

Property Management Duties

- (a) Trustee must delegate REIT management to the REIT Manager approved by the SEC, except in the case of management of other assets which are not core assets of AIMCG and for which Trustee may act on their own or assign another person(s) to act on their behalf.
- (b) Management of assets other than the core assets of AIMCG shall be the responsibility of the REIT Manager, except in the case that the REIT Manager is unable to carry out said responsibilities, in which case the following rules and regulations apply:
 - 1) In the case Trustee must carry out said duties, measures must be set in place to ensure agencies managing any investment in other said assets are separate from agencies that could cause a conflict of interest or conflict in performance of duties, as well as establishing measures for safeguarding inside information by keeping agencies and personnel responsible for managing said investments separate from agencies or personnel that could take the opportunity to utilize said information.
 - 2) In the case that a person other than the REIT Manager is assigned to carry out said duties or assignments, those persons must comply with criteria as defined in the Notification of the Capital Market Supervisory Board regarding the appointment of other persons for duties or responsibilities in connection with business operations, specifically in relation to allowing other persons to carry out duties related to fund investments, *mutatis mutandis*.

Trustee Responsibilities in Organization of Work Systems

Trustee is responsible for providing an appropriate work system in accordance with the Trust Act and as required by the Office of the SEC. Trustee's work system must cover at least the following:

- (a) Trustee shall keep AIMCG's assets separate from its personal assets and accounts of the Trustee. In maintaining the assets, AIMCG under the Trust Deed must be separated from Trustee's own assets and other REIT's assets in the possession of Trustee.
- (b) The REIT management must be inspected and monitored by the REIT Manager in accordance with the Trust Deed, the Trust Act, and other related laws.
- (c) Records must be kept of ownership or rights over AIMCG assets, revenue, expenses, and liabilities, as well as any accounts related to AIMCG.
- (d) Inspection and monitoring of the duties of the REIT Manager must be carried out for the benefit of AIMCG.

- (e) Control, inspection, and prevention of any actions must be carried out by the REIT Manager in accordance with the Trust Deed and the Trust Act and any corruption in the management of AIMCG must be prevented.
- (f) Trustee shall prepare an account of the AIMCG's assets that separates the AIMCG's assets from other assets and accounts of Trustee. Where Trustee manages multiple trusts, the account of assets of each trust shall be separately prepared, ensuring that the entries in these accounts are correct, complete and up-to-date, and the trusts are separated from Trustee's own assets and other assets in possession of the Trustee.
- (g) In the event that Trustee fails to perform operations as defined above causing AIMCG to be mixed with personal assets of Trustee without possibility of separation, it shall be assumed that:
 - 1) Those mixed assets are owned by AIMCG.
 - 2) Damages and debts caused by management of mixed assets shall be deemed as personal damages and debts of Trustee.
 - 3) Benefits obtained from management of mixed assets must be owned by AIMCG.
 - 4) Mixed assets as defined in the first paragraph shall include assets that are transformed to other shapes or conditions.
- (h) In case Trustee fails to comply with the duties as mentioned above and, as a consequence, the assets of REITs are commingled in the manner that it is unable to identify to which respective trust the assets belong, it shall be presumed that the commingled assets, including assets that are transformed into a different form or state, and any benefits or obligations incurred from the management of such commingled assets shall belong to each trust in proportion to the costs of commingled assets.

Duties on AIMCG Management

- (a) Trustee has the duty to attend every meeting of trust unitholders where the resolutions of the meetings of trust unitholders are required for any acts, Trustee shall:
 - 1) Answer inquiries and render opinions on the compliance of such acts and matters that are proposed for the meeting's resolutions with the Trust Deed or relevant laws.
 - 2) Raise objections and notify the trust unitholders that such acts and matters that are proposed for the meeting's resolutions cannot be executed if they are not in accordance with the Trust Deed or applicable laws.

In the event that Trustee is the trust unitholder requiring any voting or operation as the trust unitholder, Trustee has to consider on and maintain the ultimate benefits of trust unitholders based on good faith and carefulness. In addition, Trustee shall not cause any conflict or impact against performances as Trustee of AIMCG.

- (b) Trustee has the duty to enforce the debt repayment or ensure the enforcement of the debt repayment for compliance with the agreements between AIMCG and third parties.
- (c) Trustee is not allowed to offset the debts arising beyond the performance in Trusteeship owed by Trustee to a third party against the debts arising from the management of trust owed to AIMCG by the third party. Violation of this clause shall be considered void.

- (d) Where Trustee executes legal acts or transactions with third parties, Trustee shall notify such third parties in writing upon the execution of the legal acts or transactions that they are performed in Trusteeship.
- (e) Performance of duty in relation to AIMCG management is considered Trustee's responsibility and shall not be delegated to other parties unless an exception has been granted, giving Trustee the right to delegate said duties as stipulated in the Trust Deed regarding AIMCG management responsibilities and asset management duties.
- (f) Trustee shall be responsible for preparing registration book whereas Trustee may assign Thailand Securities Depository Company Limited (TSD) or licensed person to provide service as securities registrar under Securities and Exchange Act to perform such preparation. When assigning other persons as Securities Registrar, Trustee shall be responsible for governing such assigned person to comply with criteria as defined in Trust Deed and securities laws unless required evidence is prepared under system and regulations of TSD on securities registrar.
- (g) Trustee or securities registrar shall prepare the evidence to exhibit the right in trust units or trust certificate for giving to trust unitholder under criteria as defined in Trust Deed and securities laws.
- (h) In the event that trust unitholders ask Trustee or trust unit registrar to issue the evidence on the right in new trust units or new trust certificate in lieu of lost or defected trust certificate, Trustee shall be responsible for issuing or performing operations to issue the evidence for exhibiting the right in new trust units or new trust certificate for trust unitholder within the proper duration.
- (i) Trustee is responsible for providing opinion regarding the performance of the REIT Manager in the AIMCG annual report. The REIT Manager is responsible for preparing and presenting said report to the trust unitholders, whereby Trustee must express his opinions and assessment of the REIT Manager's performance and operations in managing AIMCG, in accordance with the terms of the Trust Deed, as well as any laws, notifications, and other related or unrelated requirements. If the REIT Manager does not comply with the terms of the Trust Deed or any other laws, notifications, and/or related regulations, such matters must be specified, along with corrective actions taken by Trustee.
- (j) Trustee is responsible for certifying reports of the net asset value of AIMCG and trust unit value on the last business day of each quarter in accordance with the relevant rules and regulations prescribed, allowing the REIT Manager to disclose the said report to the SEC within 45 days from the last day of each quarter.

In addition, when the REIT Manager issues the annual report for each period, publishing information regarding net asset value and net asset value per unit in the annual report of AIMCG, Trustee is responsible for exercising prudence and caution regarding the REIT Manager's calculation of the net asset value (NAV) of AIMCG's assets per unit in accordance with the relevant rules and regulations prescribed. The REIT Manager must also submit information relating to the calculation of the net asset value, including but not limited to property valuation reports, and must certify the accuracy of all information submitted to the Trustee.

- (k) Trustee may incur a debt and/or any expenses under the guidelines, conditions and procedures as specified in the Trust Deed, Trust Act, other relevant announcements, rules and regulations.
- (l) Trustee is not obliged to provide any guarantees to ensure the performance of its duties as Trustee and Trustee has no other duties to the trust unitholders and/or any other person apart from those specified in the Trust Deed and/or as provided by law. In case where Trustee has entered into the Trust Deed, it is not a guarantee of income or performance of AIMCG or the guarantee of the contractual compliance of the tenants.

- (m) When AIMCG has ended, Trustee shall be allowed to continue to perform duties in the collection, distribution, and allocation of assets. All debts and expenses must be cleared at the time of termination of AIMCG in the order specified in the Trust Act.
- (n) Trustee shall separate the financial statements of AIMCG from the financial statements of other REITs or of Trustee, taking into account the standards set forth by the laws governing accounting professions. All financial statements prepared must be examined and commented on by the auditor before submission to the SEC and disclosure to the public in accordance with the rules and regulations announced by the SEC. The said auditor must be approved by the SEC and must not be a director, officer, or employee of Trustee
- (o) Trustee shall refrain from exercising the right to receive monies or assets from AIMCG for expenses paid to a third party.

Duties on Monitoring and Auditing for the Performance of the REIT Manager or assigned person (if any)

- (a) To observe that AIMCG management is performed by the REIT Manager that is approved by SEC Office during the existing of AIMCG.
- (b) To follow up and perform as necessary in order to supervise assignees to maintain the qualification and performance in compliance with the criteria as defined in Trust Deed and related laws as well as discharge former assignee and appoint new assignee.
- (c) To control and supervise AIMCG investment to be in accordance with Trust Deed and related laws.
- (d) To control and supervise information disclosure of AIMCG correctly and completely as defined in Trust Deed and related laws.
- (e) To provide opinion on operations or transactions for AIMCG by the REIT Manager and other assignees (if any) for supporting the request for the resolution from the trust unitholders, for the disclosure of AIMCG to trust unitholders or as requested by the SEC Office.
- (f) In cases where necessary, for the benefit of AIMCG and the trust unitholders overall, Trustee may require the REIT Manager to take action as deemed appropriate and in such a way as not to place undue burden upon the REIT Manager beyond the duties specified in the Trust Deed or other related laws. As such, said issues or actions taken by the REIT Manager must not be in conflict with or contradict the Trust Deed or other laws, standards, rules, or regulations of relevant government agencies. If said issues place undue burden or expense upon the REIT Manager, Trustee and the REIT Manager will discuss the matter further and come to agreement accordingly.
- (g) In the event that the REIT Manager performs or suspends any operations and causes damages against AIMCG or fails to comply with Trust Deed or related laws, Trustee has duty to report to SEC Office within 5 official days from the date of acknowledgement and remedy, amend, or inhibit damages occurred with AIMCG as proper.
- (h) Where no REIT Manager is appointed or REIT Manager cannot perform its duties due to any reasons, Trustee shall provisionally manage AIMCG until a new REIT Manager is appointed. Pursuant to the rules and regulations set forth by the Notification No. KorRor. 14/2555, Trustee shall have the duty to, where necessary, manage AIMCG in order to prevent, deter or limit gross damages to AIMCG or the trust unitholders in general as well as to perform acts within the scope of authority and duties specified in the Trust Deeds and the Trust Act and may assign other parties to manage AIMCG during such period in

accordance with the scope, rules, and conditions specified in the Trust Deed. The Trustee is also empowered to appoint a new REIT Manager in accordance with the scope of duties and authority permissible by The Trust Deed and the Trust Act.

In addition, when Trustee considers that the REIT Manager fails to perform the duties correctly and completely as specified in Trust Deed, Trust Act, announcement of the SEC Office or any other related announcements Is or may cause serious damage to AIMCG and/or trust unitholders and the REIT Manager is unable to remedy such damage within reasonable time period. Trustee may act on behalf of the REIT Manager as Trustee considers proper for the benefit of AIMCG and the trust unitholders in overall.

Other than what specified in Trust Deed, if the REIT Manager takes any action that has an impact, amends or changes any material part of the core assets such as amendment to the property structure, modification of the type or nature of use of the property. The REIT Manager is required to seek approval from Trustee before taking action on such matters.

Duties on Trust Deed

- (a) To supervise amendment of Trust Deed to meet with methods and conditions as defined in Trust Deed and criteria as defined in related laws.
- (b) In the event that amendment of Trust Deed fails to meet with Item (a) above, Trustee shall perform its role under authorities and duties as defined in Trust Deed and Trust Act for maintaining overall benefits of trust unitholders.
- (c) In the event that the criteria on trust unit offering or REIT management issued under the Securities and Exchange Act and Trust Act are subsequently amended and Trust Deed consisted of provisions that are not under such criteria, Trustee shall perform its role to amend Trust Deed to meet with such criteria under the methods as defined in Trust Deed or as ordered by SEC Office under Article 21 of Trust Act.

AIMCG Corporate Governance

Corporate Governance Policy

Since the REIT Manager realizes on the importance to manage AIMCG to comply with laws, rules, regulations, and Trust Deed by performing duties with transparency, loyalty, good faith, and responsibility for the ultimate benefit of Trust Unitholders, the REIT Manager shall not perform any action that may be contrary to or cause any conflict with overall benefits of Trust Unitholders and investors. To govern AIMCG, the REIT Manager has to perform duties as follows:

- (1) To disclose important and related information sufficiently for decision making of investors whereas such information must be explicit without distortion and misunderstanding.
- (2) To do not utilize information obtained from performing duties as the REIT Manager for any improper and personal benefit or cause any damage or effect against overall benefits of AIMCG.
- (3) To perform operations carefully without causing any conflict of interest. In the event of any conflict, the REIT Manager must take all actions to ensure that investors will be treated fairly and appropriately.

Use of Internal Information

For transparency of AIMCG management, the REIT Manager establishes the policy to lay out a guideline for our directors, executives, and/or employees related to the internal information to prevent the improper and/or illegal information usage. All directors, executives and/or employee shall refrain from use or disclose any significant internal information of AIMCG to the public for their own benefit or other persons' advantages. Additionally, they are responsible for reporting the possession of trust unit in every trust unit trading or transfer to Legal and Compliance Department. In addition, the REIT Manager shall inform the prohibition of trust unit trading or transfer via email within 30 days prior to publishing of the quarterly and annual financial statements to SET or prior to the disclosure of significant internal information of AIMCG that may affect to trust unit price.

AIMCG Investment Management

Investment Management

Business Development Department has the major responsibility to procure and select quality assets for the AIMCG's investment as well as to meet with Investment Policy of AIMCG and related criteria in order to enable AIMCG to grow continuously and generate appropriate returns to trust unitholders. The important details can be concluded as follows:

- (1) Business Development Department will look for opportunities to invest in major assets and perform primary inspection in order to consider whether such investment meet with objectives and policy on investment of AIMCG, related laws, and criteria as defined in the notifications of SEC. Subsequently, preliminary investment report will be proposed to CEO for consideration and approval.
- (2) In the event that CEO approves primary investment report, Business Development Department will inspect and review details of assets (Due Diligence) thoroughly including information, title deeds, and related documents under criteria on assets investment as declared by SEC as well as assess possible risks caused by investment in such assets.
- (3) The value of invested assets must be assessed by independent valuator (outsource) and report on such valuation must be mutually reviewed as defined in the notifications of SEC for using as the information for making decision on investment of such assets.
- (4) Such report must be proposed to the Board of Directors for consideration and approval. After being approved by the Board of Directors, Business Development Department will send information on investment of such assets to Trustee for consideration and approval based on the size of transaction and rules as defined by SEC (and as amended by SEC). In the event of consideration on the first investment in assets, Trustee's approval is not required.
- (5) Operations must be performed as defined in Trust Deed and other contracts in relation to investment in assets.

Benefits Acquisition from AIMCG's Main Assets

- (1) The REIT Manager will acquire benefits from major assets by renting, sub-leasing, and allowing the use of spaces with service charge, providing services in relation to renting or allowing the use of spaces. The REIT Manager will not perform any action to utilize AIMCG for operating other businesses, for example, hotel business or hospital business, etc., except when necessary due to the change of tenants or in process of seeking new tenants. The REIT Manager may temporarily operate the REIT for other business purposes, as prescribed by relevant laws.

- (2) In the event that the REIT Manager will rent the property to person who will use such property for operating any business that cannot be operated by AIMCG, for example, hotel business or hospital business, etc., most of rental fee shall be agreed in a fix amount in advance and may also set additional rental fee based on the operating results of the tenant. Such agreement regarding the rental fee shall be disclosed in the registration statement and prospectus, Annual registration statement and annual report.
- (3) The REIT Manager is prohibited from renting any property to any person with any proper suspicion to utilize such property for operating any business that is immoral or illegal. For each renting, the REIT Manager shall make the agreement on termination of such renting in the event that the tenant is appeared to utilize the property for operating such kind of business.
- (4) The REIT Manager has to maintain the main assets to be in good order and ready for income acquisition. The REIT Manager is responsible for making the property all risks insurance with sufficient and appropriate coverage as agreed by Trustee for restoring the properties of AIMCG in order to acquire benefits as usual during the term of investment in such properties. Such property all risks insurance must cover all kinds of disaster that may be occurred with the properties under the coverage that is not less than Full Replacement Cost. In addition, the REIT Manager must make the public liability insurance for covering outsiders that may be damaged by the properties or all operations in the properties under sufficient and appropriate coverage. To consider on the coverage of such insurances that made by the REIT Manager, Trustee will not deny preparation of such insurances and their coverage without proper reason.
- (5) In the event that AIMCG acquires the ownership of any property and the REIT Manager intends to obtain benefits from such property through renting to the former owner.

The REIT Manager has to set the rental fee rate charged from the former owner in the manner of normal trading fee as if making general trading transaction with Third party.

Selection of Property Manager

In the case where the REIT Manager intends to assign property management duties to property managers, the REIT Manager shall carefully select property managers with prudence, supervise and monitor the performance of property managers sufficiently to ensure that property managers are qualified in terms of their knowledge, capabilities, expertise and experience in managing the real estate of AIMCG. In addition, the REIT Management shall control and supervise performance of property managers to ensure compliance with Trust Deed the REIT management agreement, and applicable laws and notifications for the best interest of unitholders and investors in general. In appointing property managers to manage the invested real estate of AIMCG in relation to, for example, day-to-day operations of such real estate, the REIT Manager shall, at least, proceed with the following:

- (1) To assess and evaluate qualifications of property managers by taking into account their experience, reputation and track records in terms of, for example, tenant acquisition, debt collection, in-house building maintenance, rental space management, rental service delivery, internal control to prevent revenue leakage, effective expense disbursement control, mechanism to prevent conflicts of interest between property managers and AIMCG, and other important factors. This is to provide assurance that property managers will be able to effectively manage assets of AIMCG and add value to AIMCG and trust unitholders. In this regard, internal control systems of property managers shall meet the minimum requirements per the criteria and guidelines for the management of investment fund and trusts as prescribed by the SEC Office.

- (2) To review the suitability of the compensation of property managers which must be commensurate with their performance in order to motivate property managers to boost the revenue of AIMCG. For example, the compensation of property managers may be tied to actual rental revenue and service fee or net profit from property rental.
- (3) To establish mechanism that allows AIMCG to change their property managers if the property managers fail to comply with terms and conditions specified in property management agreements or their performance is unsatisfactory.
- (4) To establish a process for regular monitoring and evaluation of the internal control system of property managers to ensure that their internal control systems remain effective and can prevent or easily detect frauds or noncompliance. For example, property managers may be required to submit reports on internal control system assessment (if any) conducted by auditors and internal auditors, only in relation to the AIMCG operation, to the REIT Manager.

The REIT Manager may specify in property management agreements that property managers are held liable for benefit loss suffered by AIMCG where such loss is caused by the negligence of property managers in respect of their internal control systems which are vulnerable to frauds.

- (5) If the REIT Manager finds that property managers perform or fail to perform acts and such action or inaction cause the property managers to lack credibility, based on the generally accepted duties, authority and professional standards of property managers, in terms of their ability to fulfil duties specified in property management agreements, the REIT Manager shall arrange to terminate the property management agreements in order for the REIT Manager to either take over the property management or select new property managers as replacements.

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of AIM Commercial Growth Freehold and Leasehold Real Estate Investment Trust

Opinion

I have audited the financial statements of AIM Commercial Growth Freehold and Leasehold Real Estate Investment Trust ("the Trust") which comprise the statement of financial position and detail of investments as at 31 December 2021, the statements of comprehensive income, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of AIM Commercial Growth Freehold and Leasehold Real Estate Investment Trust as at 31 December 2021, and its financial performance, changes in net assets and cash flows for the year then ended in accordance with the guidance of accounting practices for Property Fund, Real Estate Investment Trust, Infrastructure Fund, Infrastructure Investment Trust, which is determined by Association of Investment Management Companies and approved by the Securities and Exchange Commission.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Federation of Accounting Professions' Code of Ethics for Professional Accountants that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Key audit matter	How the matter was addressed in the audit
<p><i>Valuation of investment in properties</i></p> <p>As at 31 December 2021 the Trust's investments in properties was presented at fair value of Baht 2,823.09 million, and an unrealised loss on change in fair value of investments in properties of Baht 296.45 million was recognized in the statement of comprehensive income for the year ended 31 December 2021.</p> <p>The fair value is determined by an independent valuer by using the income approach method which is measured by discounted cash flow projections which reflects rental income from current leases and assumptions about rental income from future leases in the light of current market condition. The REIT Manager must make judgements and significant estimates in determining the fair value which includes:</p> <ul style="list-style-type: none"> • growth rate of rental income; • occupancy rate; and • discount rate. <p>Refer to Note 5 to the financial statements for critical accounting estimates, assumption and judgements and Note 7 to the financial statements for details of the investment in properties.</p>	<p>My audit procedures are summarized as follow:</p> <ul style="list-style-type: none"> - Assessed the Trust's internal controls related to the measurement of the fair value of the investments in properties by inquiry with the responsible persons and gaining an understanding of the controls designed by the REIT Manager. - Assessed the competency, independence, and objectivity of the valuer firm and verified their qualifications - Discussions with REIT Manager and independent valuer to understand the basis and assumptions used for measurement of the valuation of investment properties. - Assessed the assumptions and checked the validity of the data used in the valuation of the investment in properties by evaluating a sample of inputs as follows: <ul style="list-style-type: none"> • The growth rate of rental income and occupancy rate, which performed the comparison between past experiences and related document of rental extension. • The estimated future net cash flows received which was estimated from rental and other income and expenses. • Discount rate, which considered the basis of discount rate and compared with the same business.

Key audit matter	How the matter was addressed in the audit
	<ul style="list-style-type: none"> - Recomputed the calculation of valuation of investment in properties. It is based on the estimated discount cash flow of investment properties. It is calculated on discount rate, which is affected the current market and audited the accuracy of transactions. <p>From the above procedures, I found that the significant assumptions, used in the accounting estimates of REIT manager and related judgement of fair value measurement of investment in properties are reasonableness.</p>

Other Information

The REIT Manager is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to the REIT Manager and request them to revise the material misstatement.

Responsibilities of the REIT Manager for the Financial Statements

The REIT Manager is responsible for the preparation and fair presentation of the financial statements in accordance with the guidance of accounting practices for Property Fund, Real Estate Investment Trust, Infrastructure Fund, Infrastructure Investment Trust, which is determined by Association of Investment Management Companies and approved by the Securities and Exchange Commission, and for such internal control as the REIT Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, REIT Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless REIT Manager either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

REIT Manager is responsible for overseeing the Trust's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the REIT Manager.
- Conclude on the appropriateness of the REIT Manager 's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the REIT Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the REIT Manager with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with the REIT Manager, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2021

1. GENERAL INFORMATION

AIM Commercial Growth Freehold and Leasehold Real Estate Investment Trust (“the Trust”) is a real estate investment trust established under the Trust for Transaction in Capital Market Act, B.E.2550 in accordance with the Trust Deed signed on 3 July 2019 between AIM Real Estate Management Company Limited as the Trust Settlor and SCB Asset Management Company Limited as the Trustee. The Trust was established as a specific closed-end real estate investment trust with an indefinite term. The Trust’s objectives are to mobilize funds raised from investors and loans from financial institutions to invest in the freehold or leasehold right of the immovable assets (including sub-leasehold right of immovable assets) and movable assets which are component parts and equipment of aforesaid immovable assets.

The Stock Exchange of Thailand (“SET”) approved the listing of the Trust’s investment trusts and permitted their trading from 12 July 2019 onwards.

AIM Real Estate Management Company Limited acts as REIT Manager, SCB Asset Management Company Limited acts as Trustee and there are Property managers of each Project as follows :

A) Udon Plaza Co., Ltd.	For UD Town Project
B) Chetchot Co., Ltd.	For 72 Courtyard Project
C) D-Land Property Co., Ltd.	For Porto Chino Project
D) Noble Development Public Co., Ltd.	For Noble Solo Project

As a result, the World Health Organization declared the outbreak of novel coronavirus (COVID-19) as a pandemic, which continues to spread globally in March 2020. It may lead to early termination, breach or renewal of certain existing lease contracts as well as affect new contract signing, and rental income in the coming periods. REIT manager is considering its impact on the leasing market, performing relevant assessments and taking proactive measures for remediation.

2. DISTRIBUTION POLICY

The Trust has a policy to pay distributions to unitholders as follows:

REIT Manager shall distribute to the Trust's unitholders at least 90% of the adjusted net profit for the accounting period, comprising the year-end distribution and the interim distribution (if any). REIT Manager shall pay distributions to the Trust's unitholders not more than 4 times in each accounting period, except in the event of a capital increase, when the Trust may pay more than 4 distributions in an accounting period in the best interests of the unitholders holding trust units prior to the capital increase (the distribution shall be begun to make in the first accounting period that the Trust has sufficient profits).

The adjusted net profit means the net profit adjusted by the following items:

- (1) Deduction of unrealized gain from appraisal or appraisal review of assets of the Trust including adjustment of other items as prescribed by the Securities and Exchange Commission to reflect the cash position of the Trust.
- (2) Deduction of the provision for payment for debt from borrowing or obligation arising from borrowing of the Trust under the limit stated in the registration statement and prospectus or annual report, as the case may be.
- (3) If the Trust has accumulated profit that is based on the adjusted annual net profit of the Trust, in accordance with the above information for any accounting period, REIT Manager may pay distributions to Trust's unitholders from such retained earnings.
- (4) If the Trust has accumulated losses, REIT Manager will not make any distributions to the Trust's unitholders.

With respect to distribution payment, if the amount of the distribution per unit to be paid is lower or equivalent to Baht 0.10, REIT Manager reserves the right not to pay a distribution at that time and to carry forward such distribution to be paid together with the following distribution.

3. BASIS OF FINANCIAL STATEMENTS PREPARATION

The accompanying financial statements have been prepared in accordance with the guidance of accounting practices issued under the Accounting Professions and the guidance of accounting practices for Property Fund, Real Estate Investment Trust, Infrastructure Fund, Infrastructure Investment Trust, which is determined by Association of Investment Management Companies and approved by the Securities and Exchange Commission (“Accounting Guidelines”). For the areas not covered by the accounting guidelines, the Trust applies the requirements in accordance with Thai Financial Reporting Standards (“TFRS”) issued by the Federation of Accounting Professions which effective on the financial reporting period of the financial information and are presented in Thai Baht. These financial statements are officially prepared in the Thai language. The translation of these financial statements to other languages must be in compliance with the official report in Thai.

The financial statements have been prepared on a historical cost basis, except as otherwise disclosed specifically.

The preparation of financial statements in conformity with accounting guidelines and Thai Financial Reporting Standards requires REIT manager to use of certain critical accounting estimates and exercise judgement in the process of applying the Trust’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates to the financial statements are disclosed in Note 5.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 Revenues and expenses

Rental and services income from investment in properties is recognized in the statement of comprehensive income on a straight-line basis over the term of the lease.

Interest income is recognized on an accrual basis based on the effective rate.

Expenses are recorded on an accrual basis.

4.2 Measurement of investments

Investments are recognized as assets at cost on the date which the Trust has rights on investments.

Cost of investments comprises the purchase prices paid by the Trust in order to acquire such investments.

Investment in properties

Investment in properties are presented at fair value.

REIT Manager determined their fair values of such investment as at the first accounting period using the acquisition cost of investments. Subsequently, fair value of such investments will be based on the appraisal value assessed by an independent appraiser approved by the Thai Valuers Association and the Valuers Association of Thailand (Pursuant to the Notification of the Securities and Exchange Commission concerning the granting of approval of valuation companies and principle valuers for public use).

Gain or loss on measurement of such investments are presented as gain or loss on change in fair value of investments in the statement of comprehensive income.

Investments in securities

Investments in unit trusts are presented at their fair value which is determined from their net asset value. Gains or losses on measurement of investments in unit trusts are presented as gain or loss on change in fair value of investments in the statement of comprehensive income.

4.3 Receivables from rental and services

Rental receivable is amount due from customers for services performed in the ordinary course of business. It is generally due for settlement within 30 days and therefore is classified as current.

Rental receivable is recognised initially at the amount of consideration that is unconditional unless it contains significant financing components, it is recognised at fair value. The Trust holds the rental receivable with the objective to collect the contractual cash flows and therefore measures it subsequently at amortised cost.

Impairment of receivables from rental and services

The Trust used the simplified approach in the assessment of impairment of receivables from rental and services. It is determined by classify the type of receivables as following the credit risks and the expected credit losses through debtor aging, which assessed on histories, expectation of economic changes and other factors affected the debtor payment. The expected credit losses is recognized from estimated in the weighted averaged possibility.

The Trust assessed the expected credit losses of receivable from rental and services in the ended of accounting period. The losses and reversal of losses are recorded in the statement of comprehensive income as a part of the Trust's expenses.

4.5 Distribution to unitholders

A decrease in retained earnings is recognized as at the date a distribution is declared.

4.6 Income tax

The Trust has no corporate income tax liability since it is exempted from corporate income tax in Thailand.

4.7 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Trust applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Trust measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 unobservable inputs for the asset or liability

At the end of each reporting period, the Trust determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

4.8 Financial instruments

Initial recognition

Financial assets and liabilities are initially recognized in fair value of consideration (Transaction price). The transaction price, directly related to acquisition of financial assets and liabilities, is recorded in the statement of comprehensive income.

Reclassification and subsequent measurement of financial assets

All financial assets are classified as the financial assets presented in fair value through profit or loss and subsequently measured in fair value through profit or loss in the statement of comprehensive income except for cash and cash equivalents and receivable which is subsequently measured at amortized cost.

Reclassification and subsequent measurement of financial liabilities

All financial liabilities are classified as the financial liabilities presented in amortized cost and subsequently measured in amortized cost. The Trust recognized the interest expenses by using the Effective Interest Rate ("EIR").

Derecognition of financial assets

The Trust derecognizes the financial assets when the rights in contract to obtained cash flows from financial assets is ended or transfered rights in contract to others.

Derecognition of financial liabilities

The Trust derecognizes the financial liabilities (or some parts of financial liabilities) from the statement of financial position when the obligations identified in the the contract are performed, cancelled or ended.

4.9 Provisions for liabilities and expense, and contingent assets

The Trust recognized provision for for liabilities and expenses in the financial statements when the Trust has legal or constructive obligation as a result of past events with probable outflow of resources to settle the obligation and where a reliable estimate of the amount can be made. The contingent asset will be recognized as separate asset only when the realization is virtually certain.

5. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTION AND JUDGEMENT

The preparation of financial statements in conformity with financial reporting standards and the guidance of accounting practices at times requires REIT Manager to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures, and actual results could differ from these estimates. Significant judgements and estimates are as follows:

5.1 Fair value of investments in properties

As at the statement of financial position date, the Trust measured value of investments in properties at fair value. The fair value is estimated based on investment cost for the first period ended and appraisal value which appraised by independent appraiser and/or financial adviser for other subsequent years. The independent appraiser/financial adviser value the investments using the income approach because they are revenue generated assets and there is no direct market price that could be used to apply a comparative approach. The key assumptions used in estimating the fair value are occupancy rate, discount rate, rental rate, return rate and rental's growth rate.

5.2 Leases

Identification of lease term

The Trust identified lease term when the lease is reasonably extended or cancelled. The Trust determined the facts and related environment, which motivate the lessee to use the extension of lease period or not use the option of cancelled the lease.

For the lease of properties, the main factor are the period of project and objectives of using in assets.

The Trust will adjust the period of contract when it has changed in the uncancellable period of lease by the Trust uses (do not use) the right or has (does not have) the commitment to use or not use the right. The assessment of reasonably determination will incur as the significant situation or changing in environment which have the impact on lease period assessment and under the Trust's control.

Identification of the discount rate of lease liabilities

The Trust considers the additional borrowing cost as follow:

- Using the financing source from the third parties and adjusting the obtained information to reflect the changing of financial factors of lease if possible.
- Adjust the specific lease such as lease period, currency and guarantee.

5.3 Allowance for expected credit losses

The Trust has determined allowance for expected credit losses to reflect on the impairment on uncollectable receivables from rental and services. The allowance for expected credit losses is considered by using the historical collection and the expectation of future collections.

Interest rate risk is the risk of financial assets value and financial liabilities value changes due to the change of market interest rate.

24.3 Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Trust as and when they fall due. The Trust has no concentrations of credit risk due to the Trust having a large number of tenants in various businesses. Additionally, the Trust has a policy to collect in advance the rental deposits from customers as collateral in case of default. The REIT manager is of the opinion that the Trust does not have significant credit risk.

Management Discussion and Analysis

Operating Results 2021

In 2021, AIMCG had operating results from the property investment in total of 4 projects consisting of UD Town Project, 72 Courtyard Project, Porto Chino Project and Noble Solo Project, with total usable area of 85,355.72 square meters and total rental area of 45,256.63 square meters.

For the operating results of 2021, the accounting period from 1 January 2021 to 31 December 2021, AIMCG had total income of 362.19 million Baht, decreased 26.75 million Baht or 6.88 percent from 2020, with total net investment income of 233.17 million Baht, decreased 1.52 million Baht or 0.65 percent from 2020. The decrease of AIMCG operating results in 2021 compared with the results in 2020 is due to the spread of Coronavirus Disease 2019 (COVID-19) since 2020.

Revenue

Total income of AIMCG was 362.19 million Baht, decreased 26.75 million Baht or 6.88 percent from the previous year. The decrease of income of AIMCG in 2021 was due to the spread of COVID-19 since 2020. Total income of AIMCG consists of:

- (1) Rental and service income in the amount of 360.51 million Baht or 99.54 percent of the total income. AIMCG uses the straight-line method for revenue recognition from rental and service income throughout the lease agreement according to the accounting policies, giving the rental and service income according to the accounting appearing in the financial statements higher than the actual rental and service income. The rental and service income according to the accounting appearing in the financial statements includes the UD Town Project at 172.59 million Baht or 47.88 of the total income; the Porto Chino Project at 108.55 million or 30.11 percent of total income; the 72 Courtyard Project at 64.83 million Baht or 17.98 percent of total income; and Noble Solo Project at 14.53 million Baht or 4.03 percent of total income. Besides, throughout the operating period, all assets invested in by AIMCG had an average occupancy rate of 100 percent. This included rental of spaces to minor tenants as well as areas leased to the original property owners or their affiliate companies, along with small shop rental spaces, rental areas with short-term lease agreements (not more than 1 year), or areas generating rent or income on a daily basis, such as for public relations and promotional activities, food and drink stalls, etc., as these have quick lease turnover, all of which allow for greater flexibility and efficiency of lease management in said areas.
- (2) Interest income and other incomes of 1.68 million Baht or 0.46 percent of total income.

Expense

The total expenses of AIMCG were 129.02 million Baht¹, decreased 25.23 million Baht or 16.36 percent from the previous year in line with the direction of the decrease of rental and service income from full-year operating results, mainly consisting of project operating expenses in the amount of 63.24 million Baht or 17.46 percent of total income. Additionally, AIMCG also has expenses in the form of trust manager fees of 18.40 million Baht or 5.08 percent of total income; property management fees of 13.21 million Baht or 3.65 percent of total income; and financial costs of 13.94 million Baht or 3.85 percent of total income, consisting mainly of interest paid on loans from financial institutions and partly of additional expenses from the recording of interest paid on liability under the lease agreement according to the accounting practices which is a non-cash item.

¹ The Company has been aware of providing information to trust unitholders and investors for correct and comprehensive understanding. In 2022, the Company therefore sets the budget not higher than 1.00 million Baht for advertising and public relations, such as advertising expenses through various channels, sales promotion, seminar activities, advertising media, print media or any other related expenses, etc (The amount excludes VAT and expenses for announcement on the website to call a meeting of unitholders or publications delivered to the unit unitholders). This budget will be included in the part of other expenses of AIMCG. However, aforesaid expenses are aligned as specified in the REIT Registration Statement From.

Net investment profit

AIMCG had net investment profit in the amount of 233.17 million Baht or 64.38 percent of total income, decreased 1.52 million Baht or 0.65 percent from the previous year. In 2021, AIMCG had loss from changes in the fair value of real estate investments resulting from the annual valuation of assets of AIMCG which was an accounting transaction and a non-cash item in the amount of 296.45 million Baht, making AIMCG had a decrease in net assets from the operations of 63.26 million Baht in 2021, which was less than the increase in net assets from the operations in 2020 around 229.81 million Baht or 137.98 percent. Because AIMCG, in 2021, had loss from changes in the fair value of real estate investments higher than the profit in 2020. However, the said profit or loss from changes in the fair value of real estate investments was a record of accounting transactions and a non-cash item.

Financial Status

Assets

As of 31 December 2021, AIMCG had total assets in the amount of 3,344.14 million Baht, decreased 76.99 million Baht or 2.25 percent of total asset from 31 December 2020, consisting mainly of real estate investment at fair value of 2,823.09 million Baht or 84.42 percent of total assets, decreased from real estate investments per the fair value as of 31 December 2020 in the amount of 296.28 million Baht, incurring from adjusted book value according to financial reporting standards and loss from changes in the fair value of real estate investments resulting from the annual valuation of assets which was a non-cash item. Besides, as of 31 December 2021, AIMCG had rental and service receivables in the amount of 318.93 million Baht or 9.54 percent of total assets, increased from rental and service receivables as of 31 December 2020 in the amount of 193.11 million Baht. This was due to the delay in payment of rent and service fees caused by Coronavirus Disease 2019 (COVID-19) from 2020 onwards.

Liabilities

As of 31 December 2021, AIMCG had total liabilities in the amount of 481.99 million Baht, increased 43.09 million Baht or 9.82 percent of total liabilities from 31 December 2020, consisting mainly of recording of lease liabilities according to the accounting practices and loans from financial institutions to support the AIMCG operations. Total liabilities consisted of long-term and short-term loans from financial institutions in the amount of 239.76 million Baht or 49.74 percent of total liabilities in order to support investments and AIMCG operations. Said long-term and short-term loans carry an interest at the MLR rate, minus the rate specified in the loan agreements.

The loan to assets ratio of AIMCG as of 31 December 2021, was equal to 7.17 percent of total asset value. This still meets relevant criteria, which states that AIMCG may borrow no more than 35 percent of the total asset value or not more than 60 percent of the total asset value in the case that AIMCG has an Investment Grade credit rating.

Net Assets

As of 31 December 2021, AIMCG had total net assets of 2,862.14 million Baht, consisting of capital received from trust unitholders totaling 2,880.00 million Baht and accumulated loss of 17.86 million Baht, with net assets per unit equal to 9.9380 Baht, decreased from 10.3549 Baht as of 31 December 2020.

Liquidity

AIMCG had net cash flows from the operating activities in the amount of 176.87 million Baht and net cash flow used for financing activities in the amount of 73.13 million Baht, consisting mainly of cash for benefit provision to unitholders in the amount of 56.82 million Baht and interest payable in the amount of 10.90 million Baht. Therefore, AIMCG had total cash and cash equivalents in the amount of 174.72 million Baht as of 31 December 2021.

Factors or events that may affect the financial status or operations in the future

The spread of Coronavirus Disease 2019 (COVID-19), deadly diseases, contagious disease or severe outbreak and the government measures for controlling the outbreak such as the lockdown measure, as well as slowdown in the world economy due to the pandemic may affect business operations and ability of the tenants to pay rental and service fees of AIMCG's properties, which may adversely affect the operations and financial status of AIMCG. However, the REIT manager and property manager of each project has closely monitored the pandemic situation and the government measures to recover and stimulate economy, as well as ensured sound and careful management of the project with the objective to build long-term business between the projects and tenants, which will benefit the image of the project in the long run, based on the best interests of AIMCG and the trust unitholders.
