Message from the Chairman of the Board of Directors

The Nation Group is the largest integrated media institution with its affiliated media businesses have been incorporated as the listed company under the Nation Group (Thailand) Public Company Limited or NATION.

It currently includes eleven media outlets under the Nation Group, namely The Nation, Krungthep Thurakij, Nation TV Channel 22, Nation Story, Kom Chad Luek, Than Setthakit, Spring, Thai News, The People, Post Today, and Khob Sanam where the strength and the credibility of the media have been developed, resulting that the Nation Group continues its activities to move towards other businesses.

In 2023, the economy began to recover in both business sectors and organizing activities domestically and internationally. However, the overall Thai economy still has an indirect impact as a result of inflation and fluctuations in oil prices which have been affected by the protracted war between Russia and Ukraine, and the war between Israel and Hamas in Palestine. However, the Nation Group's operations have been recovering in a better state than the previous year.

In addition to focusing on income growth, the Company 2023 has embraced the conceptual framework for sustainable business operations (Sustainability) with the Board of Directors' meeting in August 2023 appointing the Corporate Governance and Sustainability Committee as Sub-committee to be responsible for formulating policy, supervising and designing the management guidelines into three areas; namely environmental, social and governance (ESG) which the concept of the ESG will help build the reliability of the business, reflecting the corporate responsibility towards its stakeholders and presentation of performance results in business development for sustainable growth, including the introduction of the artificial intelligence (AI) and the corresponding innovations that are in line with the media business are used to create new contents, reduce costs, and increase more efficiency in content production for the company both offline and online.

In 2024, on behalf of the Board of Directors, Executive Committee, and executives of all media under the Nation Group would like to thank all employees, partners, customers, shareholders, and stakeholders in all sectors for constant support and trust in Nation Group, the Company promises to be committed to developing and creating beneficial and useful content and is truly committed to leading Nation Group to the continuous growth under the Good Corporate Governance and Ethical Code of Conduct and serving as the effective media agency to give back the benefits to shareholders, society and the country.

Mr. Marut Arthakaivalvatee

Chairman of the Board of Directors

1. Business Operations and Operating Results

1. Structure and Operations of the Nation Group

1.1. Policy and Business Overview

Nation Group (Thailand) Public Company Limited (NATION) (the “Company”) and its subsidiaries as content providers have accumulated long experience entering its 53rd year facing challenges and changes that have proven the potential of the personnel team from time to time of the collaboration in driving the organization, “Nation Group” with the emphasis of both offline (traditional) media that builds trust in society and online media overall platforms to reach more news consumers so that Nation Group may sustain and grow amidst the new context that has arisen and becomes a media institution that can be further relied upon by the public.

The development in leaps and bounds of the ever-changing technology and digital communications in the modern era has affected all industries, changing people’s lifestyles career trajectories, and business models for all groups around the world to the extent that it is called a “Digital Disruption” phenomenon that brings about both crises and opportunities.

Digital Media Industry Situation

Digital media or social media is still been a media in which advertising spending continues to grow and grows by leaps and bounds in the opposite direction to the traditional media business which tends to slow down. However, under the One Nation strategy, various media such as print media business, television media business, and online media business are gathered around the Company, bringing about strengths in performance and unity management in driving the organization with the connection with offline platforms, that is, the publishing business. and the television media business is connected with overall online platforms such as Facebook and YouTube. Currently, YouTube is considered the main source of income for the television media business where income is generated from the growing online view volume. Revenue from the online media business in 2023 has grown higher than that of the year 2022 and the Management expects that the Company's online media business in 2024 will continue to grow in line with the advertising media industry trend.

However, traditional media is still necessary because personnel in the traditional media are capable of creating reliable and socially responsible content while new media reach a greater number of audiences. Meanwhile, creating reliable content can be used to further expand the business for the event business or organizing additional marketing activities, such as on-ground activities, and trade shows or award announcement events that the Group organizes every year, for example, the Kom Chad Luek Awards, etc. In addition, with the changing consumer behavior due to changes in digital technology (Digital Disruption) and the growth trend of the media industries, it is expected that the online media business will grow and become an income generation channel for the Group in the optimal proportion

Marketing strategies and distribution channels – The target customers are grouped into advertising agents (Agency) and direct customers, similar to the target customer groups of television media, and the existence of the Company's advertising sales department that directly contacts advertising agents and customers who are interested in advertising its products or services. In addition, the companies' earning derives from content distribution via social media, in which paid compensation is based on the online view volume from the relevant social media providers..

4. Creative Content Business, Event Marketing Business and B2C Business

Business to Customer (B2C) Strategy

- Food and beverage distribution business operated by Nation Coffee Company Limited (“NCOF”) in the form of a coffee shop and bakeries under the brand “Nation Coffee” to build a stronger Nation Group brand accessible to all groups as well as corporate social responsibility (CSR) because coffee beans in use have been produced from the northern region of Thailand.

The food and beverages business in the form of coffee shops and bakeries has been still popular among entrepreneurs and it is an industry that tends to grow continuously, but it has still faced many risk factors, such as fiercer business competition, rising cost of raw materials and inflation that may affect the purchasing power of consumers. However, the Company intends to strengthen the Nation Group's brand and reach all groups of customers through food and beverage sales services under the brand "Nation Coffee" as well as the intention of business expansion by catering food and beverages at events or marketing activities organized by the event/marketing activity business, thereby increasing the income generation opportunity and brand awareness among consumers.

Marketing strategies and distribution channels - If the economy in the future adjusts in a promising direction, the Company plans to expand branches into the prime area of the city to further disseminate the Nation Group's brands to all age groups.

2. Risk Management

2.1 Risk Management Policy and Plan

Currently, business operations have inevitably faced challenges from more intense competition due to the rapidly changing environment and technology. Innovation and technological development are therefore important beneficial business operations to achieve the established goals efficiently. Also, an efficient and effective internal control system is important. The Group therefore gives importance to risk management by using the appropriate management tools and mechanisms, including; continuous evaluation and monitoring to contribute to the business success even in a risky and constantly changing environment, and it is also considered a part of good corporate governance which plays an important role in building confidence among shareholders and investors and help create value added to the business sustainably.

The Company's risk management in various areas has been carried out with good corporate governance, anti-corruption policies and measures, an internal control system, performance evaluation system. The executive committee and senior executives of each department have analyzed various risk factors along with preparing an action plan and monitoring performance in the form of a business plan and annual budget under the definite structure and policies that can be implemented, focusing on using experience and knowledge application to improve various processes to achieve the best results for all stakeholders involved, thereby resulting in the effective business operation and achieve the established objectives.

2.2 Business Risk Factors

2.2.1 Business risks of the Company or the Group

1) Risk of changes in new business operations that have disrupted the main traditional business operations.

Changes and advancements in technology, especially digital technology of today have facilitated the production of new products and services intervening with the same business leaders, quick access to the changing consumer behavior in the target groups (entrepreneurs), and more response to the end users' need than ever before. With the advancement of communication technology, the formats of news and information presentations through online media have been developed, including mobile phones or tablets across multiple platforms. In this way, the print media business has been mostly affected due to high production costs, consuming huge natural resources, and more pollution emissions into nature as well. Meanwhile, the main income from advertisement has been distributed to other types of advertising media. In addition, the "online media" growth with the advantage of cost and speediness in a content presentation that consumers can easily access at no cost, thereby affecting changes in the news perception behavior of consumers who turn to read news online instead. As a result, advertising spending has been deviated to online media that can communicate and access target consumers more directly and the results are measurable. Also, the perception of news information quickly makes it possible for readers to access news and information anywhere, anytime, as well as being developed into in-depth consumer data (Consumer Insight) that may understand the behavior and needs of target consumers so that advertising clients can present products and services to the target audience and the effective responsiveness in terms of worth paying on advertising media spending among the entrepreneurs.

Therefore, to reduce the risk of new business operations that have been disrupting the main traditional business operations and have affected the economic conditions in every industry and the business operations of the Group, the executives have adjusted strategies continuously by reorganizing to digital media increasingly, implementing strategies under the ONE NATION policy, adjusting internal work processes continually to manage costs and expenses effectively, sharing resources for maximum benefit (synergy) including the use of content, news, and program production and personnel. The content presentation on main media makes use of cluster content in a megatrend as LEAD such as GO Green /Net Zero Carbon /Sustainability/ Health & Wealth etc. Revenue generation mainly focuses on meeting the solutions, needs, and goals of advertisers, coupling with linking offline, online, and on-ground together. As a result, the Group has exclusive content so hugely that it has been recognized by the general public; including academics, entrepreneurs, government officials, and politicians.

In addition, the Company has continuously expanded platforms and methods for presenting content in a variety of formats in line with the characteristics and behaviors of consumer groups on each platform, including Website, Facebook, YouTube, X(Twitter), Line, TikTok, and so on. The development and modification of content formats to create a good experience for readers/viewers as much as possible is expected to cause the Company's income to grow continuously to provide a channel for earning income for the Group in line with advertising industry trends.

In addition, an effective database management system has been developed with the application of information technology and modern communications to help support operations, improving the quality of the content production process to be more agile and incorporate new media to support news needs on all channels and platforms and support content in each business reciprocally. Also, the Company is committed to developing content to meet the needs of readers in all target groups, a readiness to change the formats of diverse advertising creation with an emphasis on multimedia technology to add the value of products and services that customers are given the most worthwhile returns.

The Company realizes the importance of databases (Big Data) that are beneficial to media business

operations in the future, including creating an artificial intelligence (AI) system that is extremely important in presenting content to the target groups precisely, and data analysis to make plans on marketing communications helpfully to the selection of appropriate media channels for customers.

2) Risks of the digital TV business operation

The television media industry previously included only six channels. The auction opening for digital TV licenses resulted in an increase of free TV channels to 28 channels, causing competition in the industry for both the quality of content, small entrepreneurs, and competition for advertising dollars. Later, the broadcasting of LOCA 15 and THV 17 was discontinued, leaving only 26 broadcasting channels. Mostly, the digital TV performance results did not meet plans due to problems in the viewing sector and the operators have reported the problems to the NBTC continuously. Until it was resolved by the National Council for Peace and Order (NCPO), the Announcement of the Head of the National Council for Peace and Order No. 4/2019 regarding measures to solve problems in the television and telecommunications business operations; seven operators returned their licenses, including Channel 3 Family (13), MCOT Family (14), Spring News (19), Bright TV (20), Voice TV (21), Spring (26) and Channel 3 SD (28), thereby leaving only 19 digital TV channels. After the licenses were returned, some digital TV channels were unable to conduct business, there appeared selling, management restructuring, and merger of content producers, as well as other transformations.

After the Group ceased broadcasting on the Spring 26 channel on August 15, 2019, and has the money from returning the licenses to repay debts to financial institutions, the Group has only one digital TV channel left, Nation TV 22.

A subsidiary of the Group, the Nation TV Company Limited or NTV (formerly known as NBC Next Vision Company Limited), the Company holds 100% of the shares and is the license holder for the digital TV channel, Nation TV22, producing, providing programs, and renting air time by broadcasting on digital television stations, Nation TV 22 channels and social media channels on all platforms, with a Licenses for the use of frequencies and digital terrestrial television business operation in the type of the national business service, the news and information category granted by the National Broadcasting and Telecommunications Commission (NBTC), validity of the said license is 15 years from the date it was granted, from 25 April 2014 to 24 April 2029.

In 2023, Nielsen reports that the total advertising budget will exceed a hundred billion baht, growing by more than 9% whereas TV media, which holds the highest spending, has shrunk due to inflation, a decline in purchasing, and a price rise. In 2023, the digital TV business was more obviously affected by digital disruption, although in 2023 there were positive signs from the gradual economic recovery of tourism, private consumption began to expand, there was still a political risk, rising interest rates, inflation due to food and oil prices, thereby resulting in shrinking of advertising spending through TV channels.

The Group continues to operate business under the changing media landscape affected by the fierce competition of digital TV, including the transition of disruptive technology to the 5G era, and the competition in the TV business on various platforms, thereby affecting business operations significantly. Therefore, it's necessary for the Group to adjust its operational plans to minimize the effect of the digital TV business operations as follows:

- Apply the strength of being a news station with its existing reliable content, adjusting the presentation, display, interesting news story formats, increased quality by presentation methods, added colorfulness with infographic/virtualization, and quality reporters.
- Add content that is more diverse than politics, such as international news, economic news, in-depth analysis, and exclusive interviews to expand the advertising customer base and viewers.
- Expand viewing channels across all platforms that viewers can watch on channels, offering a variety of content to meet the needs of the target audience on each platform, including websites, applications, and social media such as YouTube, Facebook, and TikTok, that consumers at their convenience may access content anywhere any time.

- Organize activities to further build on the Nation's news potential, increase your role as an "intermediary" that is reliable, quality, and neutral, being a professional medium with professional ethics in the connection of all sectors together, including the Kom Chad Luek Award 2023, organizing the charity golf competition, the "Nation TV Golf Charity 2023", and other seminar activities, etc., as a way to increase income. With all of these approaches, Nation TV has the potential to compete more robustly in the digital TV industry.
- Improve the methods for earning more income than ever before, selling the Spot-VTR-Scoop, bringing the Group's media potential in terms of content, and production quality, and organizing on-ground activities to offer solutions to better meet the needs of viewers and customers.
- Increase operational efficiency – the Company focuses on management both quantitatively and qualitatively, both internal and external data in all dimensions, such management as cost management, advertising time management, determination of the appropriate selling price, maintaining the existing customer base, and expanding new customer bases.
- Reduction of production cost and operating expenses, adopting modern technology to increase efficiency in the production process, management with adjusted work processes, reduced steps, and increased control of the operation in line with marketing strategies and goals, including management under the same policy, "One Nation", shared costs and expenses of news production and accepted overlapping works.

3) Risk of uncertainty of the continuing business operations

By the beginning of 2018, there was a change in the Board, the new Board remarked certain particulars on the financial statements, leading to the investigation, discovering that there was a recording of non-existent income from 2015 - 2017, totaling 690 million baht. Therefore, the financial statements adjustment was made, ending as of December 31, 2017, indicating an accumulated loss of more than 3. billion baht and debts (short-term debt) of more than 3 billion baht, sharply-high interest rate of up to 6-15%. As for the overview of business operations, the Group had more expenses than income, causing the Group to lack liquidity and the risk of uncertainty of continuing business operations since then.

The Company by the new board members initiated problem-solving regarding the lack of liquidity by gradually selling businesses with operating losses in a burden on cash flow, and gradually selling assets that do not generate income, such as university businesses, printing house businesses, transportation businesses, vacant land on Debaratna Road Km. 29 and Debaratna Road Km. 5, etc., The proceeds from such selling, the Company has brought to repay debts to third parties whose financial costs are high, and re-pay debts to the financial institutions. As for business operations where income does not meet the target, but costs and expenses are high due to technology disruption, the Company has addressed problems by adjusting work processes from traditional media and expanding to various online media platforms such as transforming the business of the Nation and Kom Chad Luek from print and online media to full online media, thereby resulting in the reduced costs and expenses, increased and expanded income from online channels on various platforms substantially.

The operating results for the year as of ended December 31, 2023, the Group had a net loss to the consolidated financial statements of 285.99 million baht and a net loss to the separate financial statements of 290.69 million baht. The Group had total assets as to the consolidated financial statements of 1,496.57 million baht and total assets as to the separate financial statements of 1,621.33 million baht, and total liabilities as to the consolidated financial statements of 629.47 million baht and total liabilities as to the separate financial statements of 549 million baht. The Group had total debt decreased from the 2018 consolidated financial statements by 3,371.40 million baht, a decrease of 2,741.93 million baht. The shareholders' equity as to the consolidated financial statements of 867.09 million baht and shareholder's equity as to the separate financial statements. In the amount of 1,072.32 million baht, and accumulated losses of 3,262.55 million baht as to the separate financial statement, it had accumulated losses of 3,057.22 million baht. However, the Group has taken measures according to the operation improvement plan under the "One Nation" policy.

Over the past year, since the Company and its subsidiary have been registered as two public company limited in which its structure and management are complex, in 2022 the Company has therefore distributed common shares of the Nation Broadcasting Corporation Public Company Limited (NBC) (currently renamed as 'King Gen Public Company Limited' (KGEN)) to reduce the redundancy costs and expenses and organizational restructuring, transfer of certain business units to operate under the Company, including Kom Chad Luek Online, Thai News, The People, and Nation Coffee, including focusing on core business operations that the Group has knowledge, experience, and expertise, the establishment of own community to increase strength in generating continuous income in the future sustainably. In addition, the external factors from the current situation have affected the overall economic situation and may affect the operations of the Group, indicating the material uncertainties that may cause significant doubt on the performance of the Group and the Company to continue operation.

In January 2023, the Company issued and offered 8,136 million additional common shares at the rate of 1 existing common share: 2 new common shares at the offering price of 0.09 baht per share to the existing shareholders in proportion to their shareholding. The Company has sold the entire amount of the right offering in the total amount of 732.23 million baht, enabling the Company to have liquidity and a stronger financial position with debt capacity to repay to the outsiders and all remaining debts incurred with the financial institutions to mitigate the interest burden and used it as revolving capital to create business expansion opportunities according to the investment policy framework set out by the Company and the Group to increase their income in the future.

The Group has improved its performance results and liquidity by restructuring its business according to the ONE NATION strategy, integrated with the strengths of its media networks to enable its cost management and expenses effectively and to increase the earning opportunity, thereby consequently the operations and liquidity of the Group have improved better, and regular reviews and improvement on business continuity management plan consistently with the changing organizational structure as well as covering the important events, focusing on the core business that the Group has actual knowledge and expertise, resulting that the Company's operating results has improved better and more.

Regarding business expansion, the Group has expanded its core business and related businesses, focusing on expansion into the digital media industry whose growth potential is high. In 2022, the Company

acquired the POSTTODAY, Thansettakij, and Thai News media to expand its core business and related businesses. Consequently, it enables the expansion of market shares as a leading producer of economic media, holding the largest market shares in both daily and every 3-day newspaper media business, and new media and helping to expand the customer base and increase trade bargaining power more efficiently, and the Group is potential to mobilize and organize large-scale (on-ground) activities, and reduced risks by reduced operating cost, internal management measures in cost control and expenses to manage and keep liquidity from the effect on the Company, as well as rearranging a more lenient debt repayment structure, loan payment to the financial institutions and lenders with financial costs appropriate to market conditions, etc. At a time when the Company's operating results are profitable, the Company and the Group may have been credited by the financial institution or find funding by other means. However, even though the operations of other media have improved better, the Company further needs to adjust its strategy and reduce costs and expenses in running the digital TV business intensively, and set goals for the year 2024 for all business units of the Company to be of the positive operating results (EBITDA)

4) Risk of changes in related business laws

The Personal Data Protection Act (PDPA) is a law regarding the granting of rights to data owners. It is a standard for securing personal data and legal use for the intended purpose and must be consented to by the data owner. The usage of personal information without the consent of the data owner may lead to a legal offense for violating privacy rights and a failure to comply with the provisions of the PDPA may be risky of civil, criminal, and administrative penalties. The Group therefore places great importance on personal data protection and management and has employed legal advisors to advise on necessary measures to ensure that the use and analysis of personal data are intended to increase efficiency and effectiveness in the delivery of advertising media services to reach target groups following all legal requirements.

The Company has a personal data protection policy comprising of policies and related guidelines. In practice, the Company has proceeded as follows:

- As for employees, the summary of the essence of the Personal Data Protection Act (PDPA) has been prepared and notified to employees. The letter of consent for disclosure of information has been sent to all employees to use and disclose personal data.
- As for online members, in the member subscription process, the Company has taken steps that members shall acknowledge and consent to the disclosure of personal information beforehand.

5) Risks of cybersecurity

The risks of cybersecurity are an important issue and affect the operations of the Company, for example, ransomware attacks on data and document files to encrypt critical data, exporting data and files from the computer via flash drive, external hard disk, or notebook, causing them to be lost. The malicious person's access to the information and have been published that causes damages, receiving phishing emails linked to access financial information, system code data, especially important work systems such as network systems, financial and accounting systems internal management systems, advertising management systems, and human resource management systems and other systems which contain personal information occupied by the Company as well important business information. If the systems are damaged or being attacked, certainly this affects business operations, data corruption, business secrets leakage, as well as the reputation of the Company.

The Company has established its corporate security policy including:

1. The information Security Management Policy is intended to set the direction and support the information security operations in line with the organization's mission and non-violation of the relevant laws and regulations. The Company provides the information security working group, establishing an information security policy to create confidence and safety in the use of information technology (IT) and network systems, data communication, and dissemination of information through the internal company websites.

2. IT Risk Management is to define duties and responsibilities for management and IT management to minimize and manage the existing risks. The Company inspects and monitors the use of the internal network and internet system, using computer programs on the company's computers, providing a security system to

prevent outside access and attacks to the servers and the client computers, for instance, protect the internet access and use, installation of anti-virus programs on computers, filtering data at sending and receiving e-mails, etc. The Company also provides an IT audit with an internal auditor and an external auditor every year to inspect and assess the information quality and security of the internal control system and make sure that it meets the standards appropriate to perform efficiently. If a loophole is found, it will be proposed to the executives for consideration, improvement, and further development of the IT system risk management.

The Company has invested in developing new work systems and prevention of risks arising from cyber threats, for example, improving firewalls and establishing strict security measures on access to the internal networks, including the security of access to the internal applications, setting application access rights to suit the user's role, availability, avoidance of system failures, covering the networks and servers, business continuity planning (BCP) along with testing to support the works in emergencies of cyber threats in various cases to assure that the organization can continue its business in an emergency efficiently.

2.2.2 Production risks

1) Risk of content production

The greatest quality of being a news station is reliability. The news presentation may be deemed socially fragile and may affect the corporate image and income generation. With the technological advancement of mobile phones with both a camera and a video recorder, easy and fast access to various platforms, making it easy for anyone to create content on social platforms. However, the content presented on the social platform includes real news, leaked news, fake news, trending news, and unreliable rumors.

As for the Nation Group, it is generally accepted as the “Professional Media Institute” including field news team with experience (news agency), assignment procedures, finding news, and presentation that is accurate and reliable, based on the professional ethics of the media impartiality, news sources review process, and presentation without bias, formulating guidelines for professional journalists that the news department and those involved shall strictly adhere to the “Nation Way”, the practices for which the Nation Group has applied for a long time and recently has been updated at the beginning of 2023. The Group's control of the quality of news and content presentation of various media are effective, reliable, and trustworthy among people from all walks of life.

With the ownership of the existing news agency, the Company has the advantage of a greater amount of information than general digital media, presentation and expansion of the news stories can be done diversely, serving as a content provider and content creator at the same time.

However, the Company always provides opportunities for outsiders who are implicated in the news to clarify the facts and also provides an opportunity for complaints. If the company employees have performed their duties inappropriately and deviated from the code of conduct, for example, in the case of reporters and announcers of the Group, upon an occurrence of a complaint raised or mistakes relating to the performance of duties, they will be suspended from work and the committee will be set up to investigate such actions if found guilty, there will be disciplinary punishment according to the work regulations, provided that the Management considers the impact on the public and further make improvements.

Even in the past, the Group has been affected by news presentations that viewers see it learning, creating hate and conflict among people in society in the case of news presentations by some groups of announcers, however, by strictly adhering to the code of conduct under the “Nation Way”, the Group currently can restore its reputation and confidence of society as before, and it is also an opportunity to create additional income for the organization.

2) Risk of experienced and talented personnel retention

Experienced and talented personnel retention is important to organizational development to grow and be recognized. The personnel with experience and competencies have the potential to provide productive

knowledge and advice to new personnel and help less experienced personnel to grow and develop their skills efficiently and qualitatively.

The Group as a mass media organization has been recognized for professionalism in the mass media industry. The “reliability” is proven for being a professional media institution of the Nation Group, it is important to the existence of the media and a value that should be cherished by media professionals. The personnel is a primary factor for quality content production. The personnel are therefore an important factor in business operations. Without the experienced and potential personnel, the reliability of quality content production may be affected. The Company is therefore aware of the importance of human resource management and personnel development. Amidst the ever-changing media landscape and the emergence of new platforms, an emphasis on the journalists’ knowledge and skills developments, including finding news, writing news, posting on various platforms, reporting news, or simplified editing contributes to information finding to compiling and verifying news to make it more reliable to assure the perfectness and, and reach the people as quickly as possible. In addition to serving as a field reporter, currently, the Company has focused on building capable and expertise personnel and in-depth information that is respected trusted, and influential on the opinions of followers or Key Opinion Leaders (KOL), being a thought leader and an influencer with the capacity of knowledge transfer, using platforms for online communication through online channels whether they are from inside or outside the organization according to the “NATION WAY” approach.

However, conducting business in the digital era is fiercely competitive, the Company therefore necessary to adapt to accommodate the competition and the changing media business operations. In doing so, the Company attaches importance to the personnel development and growth support along together with the success of the Company, furnished with commercial knowledge and understanding, skills and responsibilities to perform their duties effectively. The Company has set key performance indicators (KPIs) to measure the personnel performance at all levels. The KPIs can be used as information for the company personnel development, and decentralization and responsibility to executives at lower levels. The distributed responsibilities and

obligations have contributed to increasing enthusiasm and agility in business management for the organization and reduced redundancy of administration under the scope of duties and responsibilities specified by the Company's approval authority regulations (Corporate Index).

Over the past, it has been a transitional period from traditional to digital media. It therefore includes adjusted work processes and all company employees have been the considerable adaptation. The unadaptable personnel may have faced the risk of losing their position or job because the organization needs adaptable employees and learning new skills to work effectively in a changing environment.

2.2.3 Risks of management and corporate governance

1) Determination of administrative policy

The mass communication business is an important medium for distributing news to the general public which has influenced in guiding public opinion towards politics, economics, and society. Therefore, the media business requires executives with experience and expertise in the mass media in particular and conducting business based on the ethics and transparency under the duties of a mass media organization that adheres to the professional ideology in accordance with professional media ethics to investigate corruption of government officials and politicians, taking care of the interests of the nation and the people, pinpointing of being a media that is responsible for social sustainability and the nation. The executives therefore play an important role in formulating policy, and standpoint in presenting news ethically. The Board of Directors and major shareholders of the Company recognize the importance of presenting news; therefore, it does not interfere with news presentation policy, but it has established practices for news presentation rendered by the editorial team of all media in the "Nation Way" group in the Company's corporate governance policy and supervise operations to be in accordance with established policies

2) Internal Control

The Company attaches importance to integrity, transparency, and verifiability in management. The Board of Directors and the Audit Committee have recognized the importance of internal audit performance, envisioning that the effective internal control system is a basic mechanism of the corporate governance process that enables the company activities to run efficiently and achieve the set objectives, preventing damages that may occur to the Company. It also focuses on and emphasizes the income recognition from advertising sales of the Group, control of advertising sales management with the Advertising Management System (AMS), improving the system efficiency, accommodating changes in the earning environment in line with plans and goals under the sustainable corporate growth strategy.

In 2023, the Company appointed JR Business Advisory Company Limited to act as the Company's internal auditor, auditing and assessing the adequacy of the internal control system, payment system, and creditors of the Company and its subsidiaries, including inspecting the management of the futsal field of Khobsanam Company Limited, covering the earning and expenses management, supervising the field, equipment, utilities, services, and fees. as well as preparing and presenting the management reports. Overall, it was found that the Company has designed an internal control system for operational risk management adequately in the form of policies, regulations, employee handbooks, responsible persons, and performance under the procedures. There were no significant observations where improvement was needed.

In the evaluation of the internal control adequacy under the COSO (The Committee of Sponsoring Organizations of the Treadway Commission) framework, the internal auditor has adopted the Internal Control Sufficiency Evaluation Form provided by the Securities and Exchange Commission. The evaluation results were at a satisfactory level and the results were reported directly to the Audit Committee for consideration and reported to the Board of Directors for acknowledgment completely.

In addition, the Company has anti-corruption policies and practices, and the Company has been granted the second renewal of membership for the Thai Private Sector Collective Action Against Corruption

(CAC) project. The validity of the second renewal is for another 3 years, effective from September 30, 2023, to September 30, 2026, thereby confirming that the Company conducts business with transparency and places importance on anti-corruption compliance which contributes to raising the standards of society and the nation, leading to a sustainable economy.

2.2.4 Financial risks

1) Risk of debt burden

As of December 31, 2023, the Company and its subsidiaries had a total loan burden of 123 million baht, a decrease of 78.02 million baht from December 31, 2022, 201.02 million baht. The particulars of the significant changes included as follows: the Company's right offering to sell ordinary shares to existing shareholders in proportion to their shareholding, amounting to 8,136 million shares, at an offering price of 0.09 baht per share. The entire amount of the right offering totaled 732.23 million baht, the Company has liquidity a stronger financial position, and . the capacity of debt payment to outsiders and financial institutions to reduce the interest burden and use it as revolving capital to expand business opportunities according to the investment policy framework set out by the Company and the Group to increase its income in the future.

However, to minimize the risk of lack of liquidity and to pay debts by the due date, the Group continues to use overdraft funds, bank loans, and loans from related parties and outsiders, including reaching an agreement with the original lenders to extend the loan term for which the debt is due and payable.

2) Risk of outside sources of finance

In 2023, the Company obtained the funds of the right offering for a capital increase of 732.23 million baht, and it was paid back to third-party creditors. and all financial institutions to minimize the interest burden and used as revolving capital for business and necessary activities to increase opportunities for continuous business expansion. The Company therefore takes into consideration the appropriate source of funds and has still negotiated with the financial institutions to request a credit limit concerning the potential risks and possible impacts. The interest rate adjustments and changes in the monetary policy by banks or financial institutions may cause changes in the interest rate. However, with a regular circulation of repayment of the principal and interest by the Company at times of cash flow adequacy while requesting additional loans at times of cash flow shortage. The Company then accepted commitments from external lenders in supporting cash flow for the Company, thereby ensuring that the outsider financial support and sufficient cash flow shall meet the operations and competent adaptation to the situations and response to the needs of business expansion shall be carried on appropriately.

3) Risk of trade receivables impairment

In 2023, the Company had trade receivables before deducting the allowance for expected credit losses of 171.90 million baht, the allowance for expected credit losses of 43.40 million baht is estimated according to the Group's accounting policy as specified in the notes to the financial statements, that is; the provision for expected credit losses is calculated based on the aging of outstanding debt from the due date of payment for groups of customers with similar credit risk patterns by grouping customers by customer type. The calculation of expected credit impairment losses takes into account the weighted probability effect, time value of money, and reasonable information and can support existing as of the date of reporting on past events, current conditions, and forecasts of future economic conditions.

The debtors have been overdue for more than 12 months as to the financial statements, amounting to 40.67 million baht. Most of the debtors have been outstanding since before 2018, and the Company has been in the process of filing a lawsuit to further distribute as bad debt. As of December 31, 2023, there were thirteen debtors subject to the legal action, amounting to 26.57 million baht.

Furthermore, the Group provides measures to prevent the risk of long-term outstanding debtors, and

the advertisement selling policy for the affiliated media, including Krungthep Turakij, Nation STORY, Nation TV, Than Setthakit, Post Today, Spring, Kom Chad Luek, Thai News, TNEWS, The Nation, The People, Khopsanam, with news production accurately and reliably through channels including: print media (newspapers), digital media (online) and TV media, emphasizing the quality control of new trade receivables, analyzing the credibility of new customers individually to see if they are on the Black List, Watched List or not. In the case of new customers are subject to the Black List, or Watched List, advance payment is a must before advertising. As for existing customers, the maximum payment term is three (3) months, and coordination with the external law firm is required to expedite debt collection for cases where customers have persistent problems.

2.2.5 Investment risks by security holders

The economic factors that are uncontrollable and may affect the stock price and dividend payment of the Company include but are not limited to political changes, natural disasters, epidemics and technological progress, and other factors that may affect the Company's operational plans and make it deviated from the set goals such as a liquidity, investment plans, and use of working capital for operations, and business expansion, etc.

The Company has a dividend payment in an amount not exceeding 65 percent of net profits according to the Company's separate financial statements after deducting corporate income tax, legal reserve, and other reserves.

2.2.6 Risk of large accumulated losses and future dividend payment failure

In the fiscal year 2023, the Group demonstrated a net loss of 285.99 million baht and a net loss to the separate financial statements of 290.68 million baht, resulting in the Group accumulated losses of 3,262.55 million baht and accumulated losses as to the separate financial statements of 3,057.32 million baht. The Group had increased losses from 2022 due to the increased costs and expenses, an increase of 2 percent from the year 2022, including the cost of organizing activities and online media costs. In addition, there was accumulated loss from past operating results, mainly resulting from investment in two digital TV channels; NOW26 and Nation TV 22, which have been experiencing high competition as well as digital disruption, causing the operating results not to meet the set goals. Therefore, dividends cannot be paid to shareholders according to the dividend policy, which specifies more than 65 percent of the net profit as to the company's separate financial statements after deducting corporate income tax, legal reserve, and other reserves.

However, the Group's Management has been in the process of improving operating results according to the restructuring plan in synergy with internal departments under the "ONE NATION" strategy by focusing on core business operations that the Group has knowledge and expertise to manage its costs and expenses efficiently, increase of the earning opportunities from more diverse channels, and creating the opportunities for other businesses of the Group to increase net profits continually, including benefiting the Group to grow and may create sustainability in competitiveness in the marketplaces effectively.

2.2.7 Risk of issuing and offering the warrants to purchase the ordinary shares of the Nation Group (NATION-W4) at a significant proportion (Dilution Effect)

According to the resolution of the Extraordinary General Meeting of Shareholders No. 1/2022 on December 29, 2022, it was resolved to approve the issuance and offering of warrants to purchase ordinary shares of Nation Group (Thailand) Public Company Limited (NATION-W4) in the amount of 2,711,980,241 units, allocated to existing shareholders who have subscribed and were allocated additional ordinary shares of the Company at a ratio of 3 existing ordinary shares to 1 unit of warrant. The shareholders with the right to the W4 warrants are shareholders on the designating date of the list of shareholders who have the right to be allocated additional ordinary shares in proportion to their shareholding and W4 warrants on December 7, 2022, and exercise their rights to subscribe for shares and receive allocation of the additional shares to raise fund during the period 19-20 and 23-25 January 2023.

The resolution of the Company's Board of Directors Meeting No. 6/2023 on 14 November 2023, the meeting resolved to approve setting the date for issuing warrants to purchase the ordinary shares of Nation Group (Thailand) Company Public Company Limited No. 4 (NATION-W4) on 27 November 2023 with the allocated/sold number of warrants of 2,711,980,006 units and there were 2,711,980,006 shares in supporting to the exercise of rights. The exercise rate is 1 unit of warrant and has the right to purchase 1 ordinary share. The exercise price is 0.25 baht per share. The warrant is valid for 2 years, warrant holders can exercise their rights every 15th day of March, June, September, and December of each year. The first exercise date is March 15, 2024, and the last exercise date is November 26, 2025.

However, if the exercise of the warrant (NATION-W4) rights by the shareholders in the future will cause a dilution effect, consequently affecting the earnings per share, the dividends per share, and shareholder voting rights, this effect depends on the exercise of warrant rights by existing shareholders.

2.2.8 Risks of the Environmental Impacts

Climate change is one of the main causes of natural disasters that are more frequent and likely to become more severe, causing huge losses to people's lives and properties and wide-ranging economic and social impacts. Therefore, to deal with the climate change problems, greenhouse gas emission reduction, and adapt to mitigate the climate change impacts, the Company places importance and is committed to environmental management in two aspects of the operations as follows:

1. Content presentation of environmental management through programs providing knowledge and creating awareness among the people and society, collaboratively organizing seminars with government and private agencies, publicizing business operations under the 'ESG' concepts, for example, the "ROAD TO NET ZERO Business Opportunities & Challenges" seminar to create knowledge and understanding for all relevant sectors to be aware of the applicable measures that may result in the entrepreneurs' adjustment to increase the competitiveness on the global stage and the 'Keep The World' program production on the Spring News channel that presents news concerning the environment, weather, and wildlife documentaries, campaign to save the world and caring for natural resources.

2. Internal environmental management

- Adjust the organization's work processes, adopting the technology to all work systems, making it possible to reduce paper use
- Campaign for employees to use energy wisely, walking up and down the stairs instead of taking the elevator for good health and helps save power energy.
- Campaign for employees to separate waste before throwing it away to encourage recycling, a campaign to reduce the use of plastic in everyday life, such as using cloth bags, carrying personal lunchboxes and drinking glasses, buying products with recyclable packages, etc.
- Support customers to be serviced via electronic systems such as receiving electronic invoices (E-invoice), and receiving electronic receipts (E-receipt), including issuance and withholding tax through the E-withholding tax.

2.2.9 Social Risks

Since the rapid changes in communication technology have resulted in changes in consumer behavior of media consumption, the Group requires organizational restructuring in conformity to the changing lifestyles of consumers, that is; adjusting from the original core business (print media) into digital business to generate income to replace existing media that tends to fade out consistently with the changing consumer behavior, integrating the strengths of affiliated media to make difference in the content, quality news that benefits the public, reinforcing being a socially responsible media, focusing on producing quality news content in the proper context while adhering to the media professional ideology and ethics, conducting a business with respect for human rights, corruption inspection, and taking care of the public interests.

Employee: attaching importance to labor practices that will develop the Group's personnel in terms of knowledge, abilities, skills, and experience as well as career advancement, contribution to training and skill development related to innovation and new technology, caring for the quality of life and safety of employees, including cultivating awareness among executives and employees to be socially responsible.

In 2023, training programs were provided to the employees, for example, news announcer training, Personal Data Protection Act (PDPA) training, sales staff training, Town Hall events to provide knowledge about the strategy and direction of operations for affiliated media groups, etc.

Social assistance: The Company is aware of the participation in social development and contribution, support, and collaboration with business partners in social project activities whether be religion and culture, education, and quality of life.

In 2023, the Company together with its employees and people in good faith collectively donated money to make a merit of the Pha Pa Samakkhi at the "Buraphajarn Remembrance" event on the 1st anniversary of Phra Phromwachiramedhajan (Im Arinthamo)'s death, contributing funds to build Komes Trairatana Chedi to be used as a place to study and practice Dhamma according to the teachings of the Lord Buddha for monks, novices, and the general public, including making use of it to spread Buddhism to society beneficially.

Human rights: As a media business with a commitment to presenting news and useful information for readers, listeners, and viewers primarily. The news presentation is based on fact, completeness, comprehensiveness, and fairness to all parties involved to maintain credibility and social responsibility, refraining from infringement of personal rights. So, functioning performing duties shall be subject to the ethical performance framework of the "Nation Way", a code of conduct manual and ethical standards for the Nation Group to strictly adhere to, reinforcing its status as a professional media institution all the times, and it is also a guideline for preventing human rights violations.

3.1 Sustainability management in the environmental dimension

3.1.1 Environmental policies and practices

The Company is aware of social responsibility towards the use of natural resources and energy, and the reduction of waste emissions to minimize the potential impact of climate change, as well as the impacts on communities and society to bring forth the balance of sustainable development in terms of economy, community, and environment in line with the Company's sustainable development policy. The Company therefore has established policies and practices for the environment and energy as follows (For details of the Environmental Policies and Practices, visit the Company website www.nationgroup.com).

Environmental policies and practices

- (1) Follow relevant laws, regulations, and the relevant environmental quality standards strictly.
- (2) Give importance to the selection and development of products, services, and work processes that promote the use of natural resources for maximum benefit environmentally friendly, energy-saving, and minimizing the amount of waste under the 3Rs concept of waste management (Reduce - Reuse - Recycle).
- (3) Support operations according to environmental strategies, plans, and goals.
- (4) Set up an action plan in the event of an emergency and mitigation plans to minimize and restore environmental impacts, including rehearsals so that those involved are ready to follow the plan without causing any impact on the environment
- (5) Communicate, train, and build knowledge understanding, and awareness of roles and responsibilities that employees of the Group participate in the environmental management to achieve the organization's goals.
- (6) Communicate policies and practices to those involved in the Group's business operations.

Energy Policy and Practice

- (1) Comply with laws, regulations, and the relevant power quality standards strictly
- (2) Promote searching for powerful approaches and methods for energy, environment, and climate management appropriately to business with the introduction of technology, innovation, or new work systems.
- (3) Promote resource consumption management, including water, chemicals, materials used in the production process, and chemicals and spare parts in machinery maintenance as well as the Company's infrastructures cost-effectively and efficiently.
- (4) Communicate, create knowledge and understanding, and raise awareness of the importance of energy consumption efficiently.
- (5) Disseminate news and knowledge about energy consumption and conservation, and participation in projects of government or private agencies to increase energy management efficiency.

3.3.2 Environmental Performance Results

In 2023 and a continuum to the year 2024, the Company has implemented and set out plans as follows.

1) Plan for changing gasoline-powered vehicles to electric vehicles (EVs). They will be gradually replaced by the company cars and executive cars that are 5 years old and higher firstly. This will help save on fuel costs and maintenance costs which will significantly reduce, and reduced emission of greenhouse gases. However, it plans to replace a total of 23 cars, including cars in use rented by the Company and installation of EV chargers in the Company's surroundings.

2) Zero waste management plan in cooperation with Bangkok Metropolis to organize training to provide the appropriate knowledge and to develop training videos, for example, the demonstration of Zero Waste disposal so that Bangkok will have waste disposed and sorted efficiently as well as a discussion with the Vidyasirimedhi Institute of Science and Technology (VISTEC) on recycling garbage and reuse, for example, producing employee uniforms (shirts) from plastic water bottles to reduce the amount of waste, recycling waste from food scraps through the distillation process into green fertilizer and methane gas to be distributed to nearby communities to make use of the waste from food scraps.

3) Plan for reduced paper use by taking advantage of the application and work approval system and disbursement where no paper is used, except for certain trading partners where paper is still needed.

4) Green event plan to organize the Company's events, starting from on-site registration, use of cleanable or biodegradable containers for snacks, giving souvenirs for environmental preservation, selection of the hotels with an emphasis on solar energy usage, event team's rented EV as well as choosing to organize activities for hotels nearby the BTS routes for convenience, saving energy, and reducing carbon dioxide emissions.

5) Reforestation plan – Climate change problems have affected the environment, ecosystems, and the way of life of people globally caused by the greenhouse gas emissions into the atmosphere, thereby resulting in global warming. The Department of Marine and Coastal Resources has initiated the “Mangrove Reforestation Project for Carbon Credit Benefits” to push all sectors to work together to address such problems. The mangrove forest is a natural area that is important to the ecosystem because it can absorb carbon dioxide and help capture greenhouse gases which is an important factor causing global warming. At the same time, the private sector participating in the project will gain benefits resulting from reducing the amount of greenhouse gas emissions. (the amount of carbon footprint) each year. If carbon emissions are less than the specified criteria, the remaining amount of carbon is evaluated and can be sold as carbon credits.

The Company recognizes the importance of the global warming problems which are currently becoming more severe, and therefore joined the said project and received approximately 205 rai in the area of Chumphon Province and Trang Province to plant mangrove forests. The duration of the project is 30 years, in which the company-sponsored reforestation plots will be looked after by the local communities. Therefore, it's assumed that the appropriate care is given, to growing and absorbing carbon from the atmosphere according to the intended purpose. Initially, in December 2023, the Company collaborated with officials of the Department of Marine and Coastal Resources to conduct a field survey of the mangrove forest to consider the suitability of the area before further planting mangrove forests.

6) Efficient use of electricity plan – focusing on cultivating consciousness among employees, cooperatively reducing the consumption of electrical energy and more efficient use, and coordinating with the Ministry of Energy to find ways to reduce electricity in the organization. In addition, it includes a plan assigning the employees of each level to act as a representative to monitor to ensure employee compliance with the established regulations.

7) Plan for ongoing CSR, for example, the Nation Sharing Kindness Project, donating things to the victims and maintaining religion, and coordination with external volunteer groups, such as Zendai Group in cooperation to doing CSR activities in various areas.

Management for Greenhouse Gas Emission Reduction

The Company places great emphasis on management to reduce greenhouse gas problems. In 2023, the Company had Scope 1 greenhouse gas emissions of 2,865 tons of carbon dioxide equivalents, Scope 2 greenhouse gas emissions of 1,183 tons of carbon dioxide equivalents, and Scope 3 greenhouse gases of 358 tons of carbon dioxide equivalents, totaling 4,406 tons of carbon dioxide equivalents, increased by 598 tons of carbon dioxide equivalents or an increase of 15.7 percent from the previous year.

The causes of increased greenhouse gas emissions are because of the acquisition of Thansettakij Multimedia Company Limited and the service expansion of two futsal fields by Khobsanam Company Limited, as well as the election of members of the House of Representatives in May, thereby directly resulting in the increased energy consumption. The verifier is LRQA (Thailand) Company Limited.

In July 2023, Thailand Carbon Neutral Network (TCNN), led by Mr. Woraphong Nakchatri, Chairman of the TCNN Network, and Mr. Kiatchai Maitriwong, Director of the Greenhouse Gas Management Organization, in cooperation with Nation Group (Thailand) Public Company Limited, led by Mr. Somchai Meesen, Executive Vice President, and Ms. Orawan Pipat, Managing Director of Springnews, signed a Memorandum of Understanding (MOU) on cooperation to promote communication and public relations, raising public awareness of reducing, absorbing, and storing greenhouse gases, as well as developing a platform as a center for gathering information on technology and innovation for reducing, absorbing, and storing greenhouse gases in Thailand at the Greenhouse Gas Management Organization Chaloem Phrakiat Government Center, Chaengwattana, Bangkok.

The signing of this MOU is considered a starting point for combining the strengths of both organizations towards the nation's ultimate goals in compliance with international agreements after the COP26 meeting participation, as announced by the Thai government that Thailand will achieve its carbon neutrality goal by 2050, and net-zero carbon emission by 2065.

4. Management Discussion and Analysis (MD&A)

Explanation and analysis of operating results and financial position

Summary of past performance results

The main business operations of the Group can be divided into 4 types:

1. Print media business, online media advertising and activities
2. Broadcasting media business, online media and events
3. Online media business and activities
4. Other businesses - food and beverage distribution segment

The Group's revenue structure accounts for 56 percent, 32 percent, 11 percent, and 1 percent of the Group's total revenue in 2023, respectively.

Summary of the total operating results of the Company and its subsidiaries for the year ending 31 December 2023

The consolidated financial statements of the Nation Group (Thailand) Public Company Limited and its subsidiaries for the year ending December 31, 2023, the Group demonstrated an equity loss of 286 million baht, compared to the same period of the year 2022 which had a profit of 381.55 million baht, representing a change in profit decreasing by 175% each (in 2022, excluding profits from sales of investments in subsidiaries of 467.62 million baht and profits from valuation of investments in equity instruments of 166.66 million baht, the Group had a loss of 252.73 million baht). Thus, as compared to the same period of the year 2023, the Group's loss increased from 2022 by 13 percent. However, the Company hereunder clarifies the operating results of the Group with the significant changes which can be summarized as follows:

Total operating income

The total revenue for the year 2023 decreased by 41 percent compared to the same period of the year 2022, mainly caused by the following.

- Service and sales revenue for 2023 decreased by 0.5 percent compared to the same period of the year 2022, mainly due to revenue from product sales decreased by 88 percent because during 2022 the Group sold investments in subsidiaries that operate a product distribution business, resulting in decreased income from product sales. Meanwhile, event revenue increased by 69 percent, and online media advertising sales still grew by 13 percent.
- Other income decreased due to the Company 2022 having a profit from selling investments in subsidiaries of 467.62 million baht and a profit from the valuation of investments in equity instruments of 166.66 million baht.

Cost of sales and services

The cost of sales and services increased by 10 percent compared to the same period of the year 2022, mainly caused by the activity cost and online media costs that correspond to increased income.

Selling and administrative expenses

Sales and administrative expenses for 2023 amounted to 357.07 million baht, a decrease of 12 percent compared to the same period of the year 2022. Most of them were lower consulting fees and professional fees.

Financial costs

The financial costs for 2023 amounted to 7.73 million baht, a decrease of 73 percent compared to the same period of the year 2022, mainly caused by the Company's repayment of both short-term and long-term loan debt.

Financial position

The total assets as of December 31, 2023, amounted to 1,496 million baht, an increase of 23 percent compared to the same period of the year 2022, mainly due to an increase in the right-of-use assets from renting office buildings and football fields in the amount of 148 million baht, intangible assets, and goodwill increased from the business acquisition in the Nation News Co., Ltd. and the advance payment for business acquisition decreased from the Group's paying for the remaining ordinary shares in the purchase of the ordinary shares in Nation News Co., Ltd. and the ordinary shares transfer was completed in January 2023.

The total liabilities as of December 31, 2023, amounted to 629 million baht, a decrease of 21 percent compared to the same period of the year 2022 due to receiving the fund-raising amount of money in January 2023, and such money was used to repay long-term loan debts borrowed from persons and to pay off the creditors from purchasing investments in subsidiaries. As a result, total liabilities decreased, although liabilities under lease agreements increased from renting office buildings and football fields.

The shareholders' equity as of December 31, 2023, amounted to 867 million baht, an increase of 106 percent compared to the same period of the year 2022 because, during 2023, 8,136 million additional shares were allocated at the offering price of 0.09 baht per share to existing shareholders in proportion to their shareholding. As a result, the Company received additional capital of 732 million baht and had a net loss of 286 million baht.

Financial ratios

	2022	2023
Gross profit margin	12.84%	3.99%
Liquidity ratio	0.65	0.76
Return on shareholders' equity rate (times)	127.82%	-44.41%
Total debt-to-equity (D/E) ratio (times)	1.89	0.73

The gross profit margin for 2023 was 3.99 percent while it was 12.84 percent in the previous year because sales and service income decreased by 4 million baht and sales and service costs increased by 77 million baht compared to the previous year, resulting in gross profit margin decreased.

The liquidity ratio for 2023 was 0.76 times, an increase of 0.65 times from the previous year due to a decrease in current liabilities. The decrease in current liabilities mainly resulted from creditors from purchasing investments in subsidiaries that were paid during the year.

The return on shareholders' equity rate for 2023 was -44.41 percent while it was 127.82 percent in the previous year, a decreased rate of 172.23 percent due to the company having an increased net loss from the previous year in the amount of 681 million baht. As a result, the proportion of returns on shareholders' equity decreased.

The total debt-to-equity (D/E) ratio for 2023 was 0.73 times while it was 1.89 times in the past year, a decrease of 1.16 times due to the Company 2023 repaying the creditors from purchasing investments in subsidiaries and capital increase, resulting in the shareholders' equity increased, and the Total debt-to-equity (D/E) ratio decreased from the previous year.

Changes in important financial ratios

For operating results as to the consolidated financial statements for the year ending December 31, 2023

1. Liquidity Ratio

The liquidity ratio for the year 2023 was 0.76 times, an increase from the previous year of 0.65 times due to a decrease in current liabilities. The decrease in current liabilities mainly has stemmed from creditors from purchasing investments in subsidiaries that were paid during the year.

The quick ratio for the year 2023 was 0.46 times, an increase from the previous year of 0.32 times, with a decrease in current liabilities, mainly stemming from creditors purchasing investments in subsidiaries that were paid during the year, resulting in an improved quick ratio.

Cash Cycle for the year 2023, the Group has a cash turnover period of 28 days, an increase from the previous year of 21 days, including a debt collection period of 49 days, which decreased from the previous year of 50 days. The product selling period was 0.11 days, an increase from the previous year of 0.09 days, while the debt repayment period was 22 days, a decrease from the previous year of 28 days.

2. Profitability Ratio

The gross profit margin for the year 2023 was 3.99 percent while that of the previous year was 12.84 percent because sales and service income decreased by 4 million baht and sales and service costs increased by 77 million baht compared to the previous year, thereby resulting in decreased gross profit margin.

The operating profit margin for the year 2023 was -35.22 percent, while that of the previous was -31.51 percent, a profit margin decreased by 3.71 percent due to decreased sales and service income and increased sales and services cost. However, with the controlling of sales and administrative expenses by the Group, the respective expenses declined. As a result, the operating profit margin decreased less than the gross profit margin.

Net profit margin for the year 2023 was -29.67 percent while that of the previous year was 24.01 percent. The profit margin decreased by 53.68 percent because in 2022 the Company had a profit from selling investments in subsidiaries of 468 million baht and profits from the investment valuation in equity instruments of 167 million baht, thereby resulting in the improved net profit margin in 2022.

Return on equity (ROE) for 2023 was -44.41 percent while that of the previous year was 127.82 percent. The ROE decreased by 172.23 percent because the Company had an increased net loss from the previous year of 681 million baht. As a result, the proportion of returns on equity decreased.

3. Operating Efficiency Ratio

Return on assets (ROA) for the year 2023 was -21.08 percent while that of the previous year was 31.25 percent, a decrease of 52.33 percent. At the same time, **the return on fixed assets (ROFA)** was -116.31 percent while that of the previous year was 210.79 percent, a decrease of 327.10 percent because the Company had an increased net loss from the previous year of 681 million baht. **The asset turnover ratio** was 0.64 times while that of the previous year was 1.35 times, the turnover decreased by 0.71 times.

4. Financial Ratio

Total Liabilities to Equity Ratio for 2023 was 0.73 times while that of the previous year was 1.89 times, a decrease of .16 times, because in 2023 the Company paid the creditors from purchasing investments in subsidiaries and capital increase, and increase in shareholders' equity, thereby resulting that the D/E ratio decreased from the previous year.

Debts to Equity Ratio for the year 2023 was 0.32 times while that of the previous year was 0.51 times, a decrease of 0.19 times, because in 2023 the Company's loans from individuals and financial institutions decreased by 74 million baht from the previous year due to loan repayment and capital increase, consequently shareholders' equity increased, the interest-bearing debt decreased from the previous year.

The interest coverage ratio for the year 2023 was -17.60 times while that of the previous was -2.94 times, a decrease of 14.66 times, because in 2023 cash flow used in operating activities increased by 27 million baht, financial costs decreased by 21 million baht, resulting in a decrease in the interest coverage ratio.

Earnings Before Interest and Taxes (EBIT) to Interest Expense Ratio in 2023 was 36.13 times, a decrease from the previous year of 14.71 times because in 2023 the Company had an increase in losses before interest and taxes from the previous year of 705 million baht, resulting in a decrease in the EBIT to Interest Expense Ratio.

Main factors and influences that may affect future operations or financial status

● Overall Thai economic conditions

Fiscal Policy Office announced the forecast results of Thai economy performance in 2023 which is expected to expand by 1.8 percent (expanded by 1.6 - 2.0 percent during a forecast period), slowing down from the year 2022 which expanded by 2.6 percent. The important factors of the recession of industrial production business, especially the product categories in the automotive, computers, and electronics, as resulted from the economically slowing demand of Thailand's major trading partners. As for the situation of the value of the Thai Baht (THB) in 2023, it was found that the THB value was fluctuating, and depreciating in the first 3 quarters of 2023 and appreciating in the 4th quarter of 2023, mainly resulting from the acceleration of Federal Reserve interest rates, impact from China's economic problems and Japan's accommodative monetary policy.

For the year 2024, the Ministry of Finance expects that the Thai economy will expand by 2.8 percent per year (2.3 to 3.3 percent expanded during a forecast period), with the volume of exports of goods and services expected to still expand while the tourism sector expects that in 2024 the number of tourists will increase, which they are foreign tourists from China and Malaysia and it will have a positive effect on the tourism business, exposure to income increase opportunities and tourism sector development in the country. Furthermore, it is expected that merchandise export expansion will likely slow down slightly in line with demand in the world market and the slower economic expansion of trading partners.

Important factors that may affect the Thai economy in 2024 include:

- Uncertainty of the world economy and fiscal policy, the recovery of the world economy will have an impact on Thai exports and Thai private investment, and the fiscal policy has still been uncertain as a result of the impact of large-scale economic stimulus measures, such as the digital wallet project.
- Uncertainty of monetary policy, although there will be a gradual increase in the policy interest rate to 2.5%, which is a level suitable for stable economic growth in the long term, however, if the economy slows down and employment decreases, this may result in a reduction in the policy interest rate to help stimulate spending to recover the economy to grow again
- Geographic conflicts and intense political situations in various regions may have long-term effects on the Thai economy, especially in international strategic battles such as the strategic competition between China and the United States, the fighting situation between Israel and Hamas that may affect energy prices to increase, and the prolongation of the war between Russia and Ukraine.
- The situation of the election of leaders of Thailand's important trading partners such as the United States, Russia, and India, etc., may have an impact on policies and relations between Thailand and those trading partners. However, such impacts may consist of many factors depending on international policy and relations

- The situation of the global financial market may have an impact on the Thai economy, especially the volatility of the global financial market, tight monetary policy implementation of key trading partners, and financial problems in foreign countries such as the United States and the European Union that may affect exchange rates and investment risks in Thailand.
- China's economic situation is also an important factor that may affect exports and the recovery of Thailand's tourism sector because China is an important market for Thai exports and the popularity of Chinese tourists has an impact on the Thai tourism sector.

Thus, the monitoring and analysis of the aforementioned situations is vital to planning and adapting to the unexpectedly changing economic and political situations at the global and regional levels that may affect the Thai economy in the future.

However, print media needs to adapt to accommodate the changes in communities and communication of today's people.

● **Television media business**

In 2023, television media has still been popular, although digital TV has been disrupted by social media and streaming, causing consumers to watch less TV on their television screens, however, they have still been watching TV programs on online media and OTT (Over-The-Top) channels increasingly. Consistent with Nielsen data in October 2023, stating that the rating for watching TV programs through TV players was still the highest at 7.327%, while the rating for watching TV through digital media such as YouTube was at 1.638%, indicating that digital TV is still an important medium despite the disruptions of social media and streaming, the consumers have still been interested and desire to watch TV programs via digital TV continuously.

● **Digital Media Business**

Currently, the digital (online) media business has continued to grow rapidly and by leaps and bounds, contrary to the traditional media business which has still been slowing down. This is because of the changes in the lifestyles of modern people in their need to access information and services via the Internet. Online media business represents providing services and generating income through the internet on various platforms such as online news websites, blogs, social media, online videos, etc. However, today's advertisers have increasingly turned to use advertisement and promotions through KOLs or influencers, thereby causing digital media to adapt to the changes whether be content, or presentation while the KOLs or influencers will be supplemented as well.

6.1.2 Shareholder and stakeholder policies and practices

The Company has attached the importance to compliance with Good Corporate Governance covering the essences of Good Corporate Governance in five chapters as follows:

Chapter 1 Rights of Shareholders

The Company is well-acknowledged that shareholders have ownership rights with the control of the Company through the Board's appointment to act on their behalf and have the right to make decisions in the significant changes of the company as stipulated in the corporate governance policy. The Company has also placed importance on respect for the rights of shareholders and compliance with the applicable laws and regulations.

The company has a policy regarding the equitable and fair treatment of all shareholders and is aware of the right to access the Company's information adequately and promptly, and the company secretary is responsible for arranging the disclosure of various information of the Company through the company website www.nationgroup.com to provide the company information to shareholders and general investors, including the most recently updated important information, news, and provide opportunities for shareholders to express their opinions and inquire equally.

Shareholder Meeting

The Board of Directors places importance on holding the annual general meeting of shareholders to report the shareholders the Company's operating results and participate in decision-making on important matters of the company, including enquires on management and business activities of the Company with the Board of Directors and Management

At the shareholders' meeting in the past year 2023, the Company has not only complied with the rules and relevant laws properly and completely, but also focused on the relevant actions in accordance with Good Corporate Governance, adherence to the practices contained in the AGM Checklist Manual prepared by the Thai Investors Association, the Listed Companies Association, and the Securities and Exchange Commission.

The Company has the policy to promote and facilitate the shareholders with disclosure in detail of the schedule of date time and place of meeting in advance with a clear map outlined in the invitation letter and introduction of the barcode system for registration, vote counting, and resolution of the meeting.

In 2023, the 2023 Annual General Meeting of Shareholders was held on April 12, 2023, through electronic media (E-AGM) of Inventech Connect (Streaming) at 10:00 a.m. Registration started at 8:00 a.m.

3 directors were attending the meeting who were in the meeting room, 5 directors attending the meeting via electronic media, and a total of 8 directors attending the meeting (complete number of all members, no directors absent from the meeting).

For the 2023 annual shareholder meeting, there were 36 shareholders and proxies attending the meeting, totaling 5,704,116,113 shares, representing 46.74 percent of the total number of 12,203,911,086 shares sold. The meeting proceeded in accordance with good shareholder meeting guidelines and as required by law as follows:

Before the General Meeting of the Shareholders

The Company has the invitation letter to the general meeting of shareholders with full details disclosed on the Company's website at the time as required by laws. The Company has assigned Thailand Securities Depository Company Limited, the Company's share registrar to distribute the meeting invitation letters to the Company's shareholders in advance before the meeting date. The invitation letter contains details of the meeting agenda, facts, and reasons, the Board's opinion on each agenda completely and sufficiently for the shareholders' decision, data transmission for shareholders to download the previous shareholders' meeting minutes, annual report, supporting documents for consideration to each agenda, instruction, and methods, independent director information, meeting attendance procedures, the articles of association specifically related to the shareholders' meeting, map of the meeting venue and the power of proxy form as prescribed by the Ministry of Commerce, as well as an announcement and advertisement of detailed meeting and the proposed agenda in the daily newspaper for at least 3 consecutive days before the meeting date.

The Company allows minority shareholders to propose meeting agendas and the nomination of persons to be appointed as directors from December 6, 2022, to February 6, 2023, and submit questions in advance of the date of the Annual General Meeting of Shareholders from March 28, 2023 to April 7, 2023 via the website www.set.or.th, or www.nationgroup.com, and it appears that no shareholders nominated the candidate (s) to be selected as a director, and no shareholders proposed additional agenda, and no shareholders submitted questions before the date of the Annual General Meeting of Shareholders.

Meeting Date of the Annual General Meeting of Shareholders

To consider and determine the meeting date time and place, the Company realized the convenience of traveling to attend meetings. The Company allows shareholders and proxies to register for the meeting at least 1 hour in advance of the meeting time and invites the auditors from the KPMG Phoomchai Audit Ltd. and the Company's legal advisors to attend the meeting to hear opinions, prepare to answer questions raised by shareholders and check the vote count. In the 2023 shareholders' meeting, the Chairman of the Audit Committee acted as the chairman of the meeting.

Before the meeting

The Company clarified to the meeting the rules and procedures applied to the meeting, voting method, vote counting, and ballot use thoroughly, the chairman of the meeting allowed the shareholders to ask questions and express their opinions within a proper time, and the CEO and some Executive Directors to clarify questions raised by the shareholders and provided recording on the essence of the questions, answers, and conclusions on that respective matter in the meeting minutes.

The Company introduced a barcode information system to the registration for the meeting attendance, vote counting, and the results of the resolution on each agenda. Also, in the agenda for the director election, the Company allowed individual shareholders to elect directors, having the voting methods, vote counting methods, and meeting resolutions recorded. A score is identified as 'agreed', 'disagreed', and 'abstained' in the minutes of the meeting completely. As for the agenda for the director election, the resolution is made on an individual basis. In passing the resolution on each agenda, the ballot is applied that may be verifiable at a later time and the voting in each agenda is in the meeting minutes completely.

The Company proposed agenda for consideration and determination of directors' remuneration that the Annual General Meeting of Shareholders considers and approves on an annual basis, directors' remuneration information is presented compared to the previous year, including policies and clear criteria regarding the determination of directors' remuneration in the support of the consideration of shareholders.

For any shareholders who are unable to attend the meeting in person, the Company offers, together with the invitation letter, an alternative of authorizing at least one independent director of the Company who has no conflict of interest in the matters to be considered as a proxy to attend the meeting and vote on behalf of the shareholders of the Company, with the invitation letter and the Proxy Letter (Form A.) (Form B.) and (Form C.) attached whereby Form B is a form that shareholders can set their voting direction in each agenda; and Form C. in the case the proxy is a custodian.

After the Meeting Date of the Annual General Meeting of Shareholders

The Company disclosed the results of the resolution in the Annual General Meeting of Shareholders to the shareholders and the general public through the SET's Set Community Portal system after the meeting or no later than 9:00 a.m. on the next business day from the date of the meeting held in accordance with the Rules on Disclosure of the Stock Exchange of Thailand appropriately.

Chapter 2 Equitable Treatment of Shareholders

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Material Uncertainty Related to Going Concern

I draw attention to Note 1.2 to the financial statements that the Group has incurred operating losses for consecutive years, and had operating losses of Baht 286 million (the Company only: Baht 291 million) and had negative cash flow from operating activities of Baht 143 million (the Company only: Baht 149 million) during the year. As at 31 December 2023, the Group had a deficit of Baht 3,263 million (the Company only: Baht 3,057 million). In addition, the Group's equity is less than 50% of paid-up share capital since December 2018, which causes the Company's securities to be marked with "C" (Caution) sign. Currently, the Group is in the process of implementing action plans to improve its performance and restructure its financial structure. The Group's management is confident that the Group will be able to continue as a going concern.

These events or conditions, along with other matters as set forth in Note 1.2 to the financial statements, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern, depending on the success of plans to improve its performance and restructure its financial structure.

My opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, key audit matters and how audit procedures respond to each matter are described below.

Recognition of revenue from service

The Group has entered into agreements with a large number of customers across various types of services and channels. The terms and conditions of these arrangements have been considered to identify the performance obligations, including the allocation of the transaction price. The amount and timing of revenue recognition significantly impact the Group's profit or loss and revenues from these services are material transactions on the financial statements. I therefore determined it as a key audit matter. The accounting policy for recognition of revenue is disclosed in Note 4.1 to the financial statements.

I performed audit procedures on the recognition of revenue from service of the Group as follows:

- Assessed and tested its significant accounting internal controls with respect to revenue from service, by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls, and with special consideration given to expanding the scope of the testing of the significant accounting internal controls which respond to the above risks
- Applied a sampling method to select agreements to assess whether revenue recognition was consistent with the conditions of the relevant agreement, including the allocation of transaction price for each transaction, and whether it was in compliance with the Group's policy, and, on a sampling basis, examining supporting documents for actual transactions occurring during the year and near the end of the accounting period
- Sent a confirmation for the outstanding balance of account receivables
- Reviewed credit notes that the Group issued after the period-end
- Performed analytical procedures on disaggregated data to detect possible irregularities in transactions throughout the period, particularly for accounting entries made through journal vouchers.

Business combination

As discussed in Note 10.1 and 10.2 to the financial statements regarding the acquisitions of investments in subsidiaries, the Company completed the measurement of the fair values of the identifiable assets acquired and the liabilities assumed as at the acquisition dates. Management was required to exercise substantial judgement when determining the assumptions used as a basis for measurement of the identifiable assets acquired and liabilities assumed.

I performed audit procedures on business combination as follows:

- Read related agreement and document and inquired management to understand key terms and conditions of the transactions
- Considered the methods and assumptions that management used to determine the fair values of the identifiable assets acquired and the liabilities assumed as of the acquisition dates for investments in subsidiaries, made enquiries of responsible executives, assessed the methods applied by the management for each type of asset
- Tested the calculations and reviewed significant assumptions used in valuing intangible assets
- Reviewed the disclosures made with respect to the acquisitions of investments in subsidiaries.

Impairment of non-financial assets and goodwill

As at 31 December 2023, the Group had intangible assets and Digital television license with a carrying amount of Baht 426 million (the Company only: Baht 66 million) as discussed in Notes 13 and 14 to the financial statements, respectively. In addition, the Group had investments in subsidiaries with a carrying amount of Baht 923 million and goodwill with a carrying amount of Baht 371 million as discussed in Notes 10 and 15 to the financial statements, respectively. As discussed in Note 10.4 to the financial statements, the Group recognised impairment loss on investments in subsidiaries totaling Baht 191 million in the statement of comprehensive income for the current year. The determination of impairment of those assets are significant accounting estimates requiring management to exercise a high degree of judgment in identifying the impairment indicators and cash generating units, and estimating the cash inflows that are expected to be generated from that group of assets in the future including setting an appropriate discount rate and long-term growth rate.

I performed audit procedures on impairment of assets consideration as follows:

- Assessed the indicators of the impairment of assets, the identification of cash generating units and the financial models selected by management, by gaining an understanding of management's decision-making process
- Reviewed the significant assumptions applied in evaluating value and preparing estimates of the cash flows expected to be realised from the assets in the future, which involved comparing those assumptions to information from both internal and external sources of the Group and comparing past cash flow projections to actual operating results, in order to evaluate the cash flow projections

- Compared the discount rate through analysis of the weighted average cost of capital of the entity and long-term growth rate to the industry information
- Tested the calculation of the recoverable values of the assets using the selected financial model
- Reviewed the disclosures made with respect to the impairment assessment for those assets.

Other Matter

The consolidated financial statements of Nation Group (Thailand) Public Company Limited and its subsidiaries and the separate financial statements of Nation Group (Thailand) Public Company Limited as at 31 December 2022 and for the year then ended, presented herein as comparative information, were audited by another auditor who expressed an unmodified opinion on those statements and drawn attention on the Group's ability to continue as a going concern and the acquisition of investment in subsidiary which the Group was currently in the process of measuring the fair values of the identifiable assets acquired and the liabilities assumed at the acquisition date, under her report dated 28 February 2023.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Company, but does not include the financial statements and my auditor's report thereon. The annual report of the Company is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Company, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Nation Group (Thailand) Public Company Limited and its subsidiaries
Notes to consolidated financial statements
For the year ended 31 December 2023

1. General information

1.1 General information of the Company

Nation Group (Thailand) Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in publishing and distribution of newspapers, providing advertising and news services. The registered office of the Company is at 1854, 9th, 10th, 11th Floor, Debaratana Road, Bangna-Tai Sub-District, Bangna District, Bangkok.

1.2 Fundamental accounting assumptions

The Group has incurred operating losses for consecutive years, and had operating losses of Baht 286 million (the Company only: Baht 291 million) and had negative cash flow from operating activities of Baht 143 million (the Company only: Baht 149 million) during the year. As at 31 December 2023, the Group has a deficit of Baht 3,263 million (the Company only: Baht 3,057 million). In addition, the Group's equity is less than 50% of paid-up share capital since December 2018, which causes the Company's securities to be marked with "C" (Caution) sign.

Currently, the management is in the process of implementing action plans to improve the Group's performance and liquidity by implementing the restructuring plan under "One Nation" strategy in order for the Group to be united and reduce redundant costs. The Group strives to establish organisational cooperation and synergies among the Group. The Group has shifted its primary revenue strategy from selling advertising across various media platforms of the Group to offering the comprehensive marketing solutions, and promoting organisational image and public relations tailored to specific objectives of customers. The "One Nation" strategy aims to support the operations of each business unit and brand in creating its own community to strengthen its sustainable revenue in the future. In addition, the Group restructured its financial structure by increasing its share capital and planning on loan borrowing from financial institutions with appropriate finance costs. The management believed that these measures will enable it to continue as a going concern.

Therefore, the financial statements have been prepared on a going concern basis. Accordingly, such financial statements do not include any adjustments relating to the realisation of the recoverable amount and classification of the assets or the amount and classification of liabilities that might be necessary should the Group be unable to continue its operations as a going concern.

2. Basis of preparation

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of Nation Group (Thailand) Public Company Limited ("the Company") and the following subsidiary companies ("the subsidiaries") (collectively as "the Group"):

Company's name	Nature of business	Country of incorporation	Percentage of shareholding

- b) The Group is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Group have been eliminated from the consolidated financial statements.
- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

2.3 The separate financial statements present investments in subsidiaries under the cost method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2023. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2024

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2024. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements except for the following standard, which involves changes to key principles, as summarised below.

TAS 12, *Income Taxes*

The amendment narrows the scope of the initial recognition exception, so that deferred tax related to assets and liabilities arising from a single transaction that give rise to equal taxable and deductible temporary differences such as leases and decommissioning obligations shall be recognised.

The amendment should be applied to transactions that occur on or after the beginning of the earliest comparative period presented.

The management of the Group is currently evaluating the impact of this standard on the financial statements in the year when it is adopted.

4. Significant accounting policies

4.1 Revenue and expense recognition

Rendering of services

- a) Service income from advertising is recognised as income when services have been rendered. The service is generally considered to be rendered when the advertisement is issued. The service rate charged and the service period are stipulated in contracts. Service income is stated on the basis of an invoiced value for the services rendered after deducting discounts and reduced from the consideration payable to a customer.

- Revenue from advertising on newspapers is recognised when services are rendered through the newspapers.
- Revenue from advertising on television programmes is recognised when services are rendered through the broadcast programmes.
- Revenue from advertising on online platforms is recognised when services are rendered through the online platforms.

- b) Revenues from production for contracts

Revenue from production for contracts, in which content ownership is vested in the customer from the start of the production and the entity has an enforceable right to payment for the work completed to date, is recognised over time when services have been rendered, taking into account the stage of completion.

Revenue from production for contracts with content other than the above conditions is recognised at the point in time when the production is completed, and the content is transferred.

- c) Revenue from rental of airtime on television stations

Revenue from the rental of airtime on television stations is recognised over the period of the airtime.

- d) Revenue from newspapers subscriptions

Revenue from newspaper subscriptions is recognised on a straight-line basis over the relevant subscription period.

- e) Revenue from event planning and organisation

Revenue from event planning and organisation is recognised when the event has taken place.

f) **Revenue from other services**

Revenue from other services is recognised upon completion of the service.

The revenue that has been recognised but is not yet due under the contracts is presented under the caption of "Accrued income" in the statement of financial position. These amounts recognised as accrued income are reclassified to trade receivables when the Group's right to consideration is unconditional, such as upon completion of services and acceptance by the customer.

The obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer is presented under the caption of "Unearned income" in the statement of financial position. Unearned income is recognised as revenue when the Group performs under the contract.

Sales of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally upon delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns, discounts, allowances and price promotions to customers.

When a contract provided a customer with a right to return the goods within a specified period, the Group recognises the amount ultimately expected they will have to return to customers as a refund liability and recognise the right to recover the goods expected to be returned by customers as a right of return asset in the statement of financial position. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods.

Interest income

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

Dividends

Dividends are recognised when the right to receive the dividends is established.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.3 Investments in subsidiaries

Investments in subsidiaries, joint ventures and associates are accounted for in the separate financial statements using the cost method.

4.4 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and allowance for loss on impairment (if any).

Depreciation of investment properties is calculated by reference to their costs on the straight-line basis over estimated useful lives of 20 years. Depreciation of the investment properties is included in determining income.

On disposal of investment properties, the difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period when the asset is derecognised.

4.5 Property, plant and equipment/Depreciation

Land is stated at revalued amount. Buildings and equipment are stated at cost amount less accumulated depreciation and allowance for loss on impairment of assets (if any).

Land is initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to their fair values. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Differences arising from the revaluation are dealt with in the financial statements as follows:

- When an asset's carrying amount is increased as a result of a revaluation of the Group's assets, the increase is credited directly to the other comprehensive income and the cumulative increase is recognised in equity under the heading of "Revaluation surplus". However, a revaluation increase is recognised as income to the extent that it reverses a revaluation decrease in respect of the same asset previously recognised as an expense.
- When an asset's carrying amount is decreased as a result of a revaluation of the Group's assets, the decrease is recognised in profit or loss. However, the revaluation decrease is charged to the other comprehensive income to the extent that it does not exceed an amount already held in "Revaluation surplus" in respect of the same asset.

Depreciation of plant and equipment is calculated by reference to their costs, on the straight-line basis over the following estimated useful lives:

Building improvements	-	5 - 10 years
Equipment	-	5 - 10 years
Furniture, fixtures and office equipment	-	5 years
Motor vehicles	-	5 years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.6 Intangible assets, Digital television license and amortisation

Intangible assets acquired through business combination are initially recognised at their fair value on the date of business acquisition while intangible assets acquired in other cases are recognised at cost.

Digital television license are recognised at cost, with the cost of Digital television license measured at the cash equivalent price, which is the present value of the installments payable. The difference between the total payment to be made and the cash equivalent price is recognised as a finance cost over the license fee payment period, and amortised from the time the Group is ready to provide commercial service.

Following the initial recognition, the intangible assets and Digital television license are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets and Digital television license with finite lives are amortised on the straight-line basis over the economic useful life. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

Customer relationship	-	10 and 24 years
Backlog	-	Contract period
Trademark and trademark right	-	10 and 30 years
Computer software	-	3 and 5 years
Digital television license	-	15 years

4.7 Business combination and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at the acquisition date fair value, the amount of any non-controlling interests in the acquiree and the acquisition date fair value of the Group's previously held equity interest in the acquiree, in a business combination achieved in stages.

For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group measures the identifiable assets acquired and the liabilities assumed at acquisition date fair value, and classifies and designates them in accordance with the contractual terms, economic circumstances, and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the Group will be recognised at fair value at the acquisition date. A contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. A contingent consideration classified as an asset or liability is measured at fair value, with changes in fair value recognised in profit or loss.

Goodwill is initially recorded at cost, which equals the excess of cost of the business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of the business combination, the excess is immediately recognised as a gain in profit or loss.

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the Group's cash-generating units (or group of cash-generating units) that are expected to benefit from the synergies of the combination. The Group estimates the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses relating to goodwill cannot be reversed in future periods.

4.8 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease, and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Buildings	-	6 years
Football field	-	6 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

The Group as a lessor

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee. Lease receivables from operating leases is recognised as income in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying assets and recognised as an expense over the lease term on the same basis as the lease income.

4.9 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associates, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

4.10 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.11 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the non-financial assets whenever events or changes in circumstances indicate that an asset may be impaired. The Group also carries out annual impairment reviews in respect of goodwill. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Group could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss. However, in cases where property, plant and equipment were previously revalued and the revaluation was taken to equity, a part of such impairment is recognised in equity up to the amount of the previous revaluation.

In the assessment of asset impairment (except for goodwill), if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at a revalued amount, in which case the reversal, which exceeds the carrying amount that would have been determined, is treated as a revaluation increase.

4.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Company and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognised as expenses when incurred.

Defined benefit plans

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Group recognises restructuring-related costs.

4.13 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.14 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.15 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component or for which at contract inception the Group expected payment by the customer less than one year and the Group has applied the practical expedient regarding not to adjust the effects of a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Group has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Dividends on listed equity investments are recognised as other income in profit or loss.

Classification and measurement of financial liabilities

Except for derivative liabilities, at initial recognition the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Regular way purchases and sales of financial assets

Regular way purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace are recognised on the trade date, i.e., the date on which the Group commits to purchase or sell the asset.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Group considers a significant increase in credit risk to have occurred when contractual payments are more than 30 days past due and considers a financial asset as credit impaired or default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to have a significant increase in credit risk and to be in default using other internal or external information, such as credit rating of issuers.

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.16 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Revenue from contracts with customers

Identification of performance obligations

In identifying performance obligations, the management is required to use judgement regarding whether each promise to deliver goods or services is considered distinct, taking into consideration terms and conditions of the arrangement. In other words, if a good or service is separately identifiable from other promises in the contract and if the customer can benefit from it, it is accounted for separately. The entity will allocate a portion of the transaction price to goods and services based on relative stand-alone selling prices.

Determination of timing of revenue recognition

In determining the timing of revenue recognition, the management is required to use judgement regarding whether performance obligations are satisfied over time or at a point in time, taking into consideration terms and conditions of the arrangement. The Group recognises revenue over time in the following circumstances:

- the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs
- the entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

- the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date

Where the above criteria are not met, revenue is recognised at a point in time. Where revenue is recognised at a point in time, the management is required to determine when the performance obligation under the contract is satisfied.

In calculating the revenue recognised over time, the management is required to use judgement regarding measuring progress towards complete satisfaction of a performance obligation.

Allowance for expected credit losses

In determining an allowance for expected credit losses, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

Goodwill and intangible assets

The initial recognition and measurement of goodwill and intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash-generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Allowance for impairment of non-financial assets

In determining allowance for impairment of non-financial assets, the management is required to exercise judgements regarding determination of the recoverable amount of the assets, which is the higher of their fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the performance of the assets of the cash-generating unit being tested. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Litigation

The Group has contingent liabilities as a result of litigation. The Group's management has used judgement to assess of the results of the litigation and believes that no loss will result. Therefore, no contingent liabilities are recorded as at the end of reporting period.

6. Related party transactions

During the years, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Group and those related parties.

As at 31 December 2023 and 2022, the Company pledged the subsidiaries' shares totaling Baht 272 million as collateral against credit facilities of bank overdrafts and short-term loans granted by financial institutions.

10.1 Thansettakij Multimedia Company Limited (“Thansettakij”) (held by the Company)

On 30 December 2022, the Group obtained control of Thansettakij engaged in selling newspapers and providing advertisements through newspapers and online media by acquiring 99.99% of shares and voting interests in the company from News Network Corporation Public Company Limited (“Seller”), a related party, totaling Baht 240 million, less the call for payment of provision for long-term employee benefits of Baht 3 million. The net consideration is Baht 237 million. On 27 January 2023, the Company completely paid for the remaining balance payable from its investment in a subsidiary of Baht 227 million.

As at the date of entering into the Sale and Purchase Agreement (“Agreement”), a subsidiary had been involved in several defamation lawsuits. However, the Seller agreed to pay for damages arising from the subsidiary’s legal proceedings, subject to terms and conditions specified in the Agreement.

The Company completed the fair value of the identifiable assets acquired and the liabilities assumed at the acquisition date. The value of the assets and liabilities of Thansettakij at the acquisition date are summarised below:

	(Unit: Thousand Baht)	
	Fair value	Carrying value

10.2 Nation News Company Limited (“Nation News”) (held by Nation TV Company Limited (“Nation TV”))

On 17 October 2022, the Company's Board of Directors Meeting passed a resolution approving the acquisition by Nation TV of ordinary shares of Nation News totaling 189,997 ordinary shares, representing 99.998% of all issued shares, totaling Baht 294 million, from King Gen Public Company Limited. Nation News is engaged in the provision of online media services and an application for online data collection. The acquisition was part of “One Nation” strategy to extend a larger database of audience under an integrated data management system. Nation TV paid advance payment for purchases of the ordinary shares of Baht 64 million under “Advance payment for purchases of assets” in the consolidated statement of financial position as at 31 December 2022.

On 27 January 2023, Nation TV received ordinary shares of Nation News and made full payment for these shares.

Nation TV completed the fair value of the identifiable assets acquired and the liabilities assumed at the acquisition date. The value of the assets and liabilities of Nation News at the acquisition date are summarised below:

	(Unit: Thousand Baht)	
	Fair value	Carrying value
Cash and cash equivalents	2,676	2,676

Less: Cash and cash equivalents of a subsidiary	(2,676)
Less: Advance payment for purchases of assets	(63,770)
Net cash paid for purchase of investment in a subsidiary	227,324

The goodwill of Baht 254 million represents the resource sharing across the Group under the "One Nation" strategy, leading to an increase in revenue, cost sharing, and margin generation for the Group. It also includes the utilisation of an integrated data management system for analysing and processing audience access data to create tailored content for each audience, thereby creating added value from this information in the future.

From the acquisition date, Nation News had revenue and loss amounting of Baht 73 million and Baht 5 million, respectively, in the consolidated statement of comprehensive income for the year ended 31 December 2023. However, if the combination had taken place on 1 January 2023, the revenue and loss of Nation News, in the consolidated statement of comprehensive income, would have been Baht 80 million and Baht 4 million, respectively.

10.3 Acquisitions of investments in Nation News Company Limited ("Nation News") and Nation Coffee Company Limited ("Nation Coffee") and trademarks and assets related to KomChadLuek business unit from Nation TV Company Limited ("Nation TV")

On 15 August 2023, the Board of Directors' meeting of the Company approved various transactions related to the acquisitions of investments in subsidiaries and assets, as well as the repayment of intercompany loans. The details of the approved transactions are as follows:

- 1) The Company purchased all 189,997 shares of Nation News, representing 99.998% of the total voting shares of Nation TV, with a total value of Baht 294 million.
- 2) The Company purchased 60,000 shares of Nation Coffee, representing 60% of the total voting shares of Nation TV, for a total value of Baht 1.5 million. As a result, the Company will hold 99.99% shareholding in Nation Coffee.

- 3) The Company acquired the trademarks and assets related to the KomChadLuek business unit from Nation TV, with a total value of Baht 64 million (Value Added Tax included).

To facilitate these transactions, the Company offset the payment for the abovementioned shares and assets to Nation TV against the outstanding intercompany loans to the Company, totaling Baht 359 million. The transfer of shares and assets was successfully completed in September 2023.

Additionally, the Board of Directors' meeting of the Company on 15 August 2023 approved a resolution to call for an additional payment of 50% of the share value of Nation Coffee amounting to Baht 5 million. Previously, the Company had already called for a 25% payment of the share value of Nation Coffee. The Company has already made the full payment for the ordinary shares. Furthermore, it also approved an increase of Baht 210 million in the registered capital of Nation TV, from Baht 860 million (86 million ordinary shares with a par value of Baht 10 per share) to Baht 1,070 million (107 million ordinary shares with a par value of Baht 10 per share) through the issuance of 21 million new ordinary shares with a par value of Baht 10 per share. The Company offset the payment for Nation TV's share capital against the outstanding intercompany loans to the Company, totaling Baht 210 million. The transaction was successfully completed in December 2023.

10.4 Impairment of investments consideration

Nation TV Company Limited ("Nation TV")

The Company recognises an impairment loss for investment in Nation TV amounting to Baht 145 million in the statement of comprehensive income to reduce the carrying amount of the asset to its recoverable amount.

The Company has determined the recoverable amounts of its investment in a subsidiary based on value in use, using cash flow projections based on financial estimates approved by the management, covering the periods of 5 years.

Key assumptions used in the value in use calculations are as follows:

	(Unit: % per annum)
Long-term growth rate	2.50
Pre-tax discount rates	14.95

Management has considered growth rate from historical operation results and expected market growth, inflation rate and discount rate as a pre-tax rate to reflect the risks specific to the subsidiary.

The following reasonably possible change in the key assumptions on which the units' recoverable amount are based would result in a further impairment.

	(Unit: Million Baht)
Long-term growth rate (decrease by 0.5%)	4
Pre-tax discount rate (increase by 0.5%)	8

Swenn Corporation Company Limited ("SWENN") and Krungthep Turakij Media Company Limited ("KTM")

During the year, the Company assessed the impairment of its investment in SWENN and KTM and recorded a loss from impairment of the investments amounting to Baht 2 million and Baht 44 million, respectively, in the profit and loss in the separate financial statements. This adjustment was made to ensure that the assets reflect a value equal to its expected recoverable value. The Company's management has considered assessing the fair value (level 3) of these investments using the Adjusted Book Value method.

The Group arranged for an independent professional valuer to appraise the value of certain assets on an asset-by-asset basis. The basis of the revaluation was as follows:

- Land were revalued using the market approach.

Key assumptions used in the valuation are summarised below:

	Consolidated / Separate financial statements	Result to fair value whereas an increase in assumption value
Price per square wah (Baht)	3,600 - 55,000	Increase in fair value

Had the land been carried in the financial statements on a historical cost basis, their net book value as of 31 December 2023 and 2022 would have been as follows:

	(Unit: Thousand Baht)	
	Consolidated / Separate financial statements	
	<u>2023</u>	<u>2022</u>
Land	28,387	28,387

As at 31 December 2023, certain items of building and equipment were fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation of those assets amounted to approximately Baht 45 million (the Company only: Baht 43 million).

The Group has mortgaged their land amounting to approximately Baht 69 million (2022: Baht 69 million) as collateral against credit facilities received from financial institutions.

Ending balance	<u>371,265</u>	<u>116,771</u>

The Group allocates goodwill acquired through business combination to the cash generating units (CGUs) for annual impairment testing as follows:

	(Unit: Thousand Baht)	
	Consolidated financial statements	
	<u>2023</u>	<u>2022</u> (Restated)
Khobsanam	13,325	13,325

Nation News Company Limited	254,494	-
Total	<u>371,265</u>	<u>116,771</u>

The Group has determined the recoverable amounts of its cash-generating units based on value in use using cash flow projections from financial estimation approved by management covering a 5-year period.

Key assumptions used in value in use calculations are as follows:

	(Unit: % per annum)		
	Khobsanam	Thansettakij	Nation News
		Multimedia Company Limited	Company Limited
Long-term growth rate	2.50	2.50	2.50
Pre-tax discount rate	13.62	14.73	12.57

Management has considered growth rate from historical operation results and expected market growth, inflation rate and discount rate as a pre-tax rate to reflect the risks specific to each cash-generating unit.

Management has considered the above and believes that there is no occurrence of impairment of goodwill.

Management believes that any reasonably possible change in the key assumptions on which the recoverable amount are based would not cause the carrying amount to exceed its recoverable amount.

As at 31 December 2023, the Company has deductible temporary differences and unused tax losses totaling Baht 3,013 million (2022: Baht 2,945 million), on which deferred tax assets have not been recognised.

The unused tax losses of the Group amounting to Baht 2,437 million will expire by 2028 (2022: Baht 2,646 million will expire by 2027).

27. Earnings per share

Basic earnings per share is calculated by dividing profit (loss) for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Diluted earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the year or on the date the potential ordinary shares were issued.

As a result of the issuance of ordinary shares discussed in Note 21 to the financial statements, for comparative purposes, basic earnings per share the year ended 31 December 2022 have been recalculated as below.

Basic earnings per share is calculated by dividing profit (loss) for the period attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year multiplied by a factor calculated based on the fair value of the ordinary shares before and after the exercise of share subscription rights.

The following table sets forth the computation of basic earnings per share:

	Consolidated financial statements		Separate financial statements	
	<u>2023</u>	<u>2022</u>	<u>2023</u>	<u>2022</u>
Profit (loss) for the year attributable to equity holders of the Company (thousand Baht)	(285,996)	381,549	(290,689)	491,159
Weighted average number of ordinary shares (thousand shares)	11,537,592	4,358,540	11,537,592	4,358,540
Earnings per share (Baht)	(0.025)	0.088	(0.025)	0.113

The exercise prices of the warrants (NATION-W4) were higher than the average market price of the Company's ordinary shares for the year ended 31 December 2023. Therefore, the Company did not assumed conversion of the warrants in the calculation of its diluted earnings per share. The Company presented the diluted earnings per share equal to the basic earnings per share for the year ended 31 December 2023.

28. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as Chief Executive Officer.

For management purposes, the Group is organised into business units based on its products and services and have four reportable segments as follows:

- 1) Publishing and online advertising and related online and event, represents sale and service relating to publishing, and advertisement service through newspapers, online media and related events.
- 2) Broadcasting and related online and event, which represents advertisement service through televisions, online media and related events.
- 3) Online media and related event, which represents advertisement service through online media and related events.
- 4) Others, which represents sale of food and beverages.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and on a basis consistent with that used to measure operating profit or loss in the financial statements.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following tables present revenue and profit (loss) information regarding the Group's operating segments.

32. Financial instruments

32.1 Financial risk management objectives and policies

The Group's financial instruments principally comprise cash and cash equivalents, trade and other receivable, investments, loans to related parties, restricted bank deposits, short-term loans from financial institutions, trade and other payables, loans from related and other individuals and lease liabilities. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to trade and other receivable, contract assets, deposits with banks and financial institutions and other financial instruments. The Group's maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position.

Trade and other receivables/contract assets

The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. Outstanding trade and other receivables/contract assets are regularly monitored. In addition, the Group does not have high concentrations of credit risk since it has a large customer base in various industries.

An impairment analysis is performed at each reporting date to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar credit risks. The Group classifies customer segments by customer type. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial instruments and cash deposits

The Group manages the credit risk from balances with banks and financial institutions by making investments only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of [the Group's Executive Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

The credit risk on debt instruments and derivatives is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Market risk

There are two types of market risk comprising equity price risk and interest rate risk.

Equity price risk

Equity price risk is the risk arising from changes in the price of equities or common stock that may cause volatility in earning or fluctuations in the value of financial assets. The Group has closely managed and monitored market situations to provide information for management to monitor the risk.

Interest rate risk

The Group's exposure to interest rate risk relates primarily to its financial assets and liabilities. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, except for trade and other receivables, accrued income, investment in equity instrument, payable from purchase of investment in a subsidiary and trade and other payables with no interest charged.

As at 31 December 2023 and 2022, significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

32.2 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

The methods and assumptions used by the Grouping estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturities, including cash and cash equivalents, accounts receivable and short-term loans, accounts payable and short-term loans, the carrying amounts in the statement of financial position approximate their fair value.
- The fair value of equity securities is generally derived from quoted market prices.

- c) The fair value of long-term loans is estimated by discounting expected future cash flows by the current market interest rate of loans with similar terms and conditions.

During the current year, there were no transfers within the fair value hierarchy.

33. Capital management

The primary objective of the Group's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value and it meets financial covenants attached to the loan agreements. The Group has complied with these covenants throughout the reporting periods.

As at 31 December 2023, the Group's debt-to-equity ratio was 0.73:1 (2022: 1.89:1) and the Company's was 0.51:1 (2022: 1.25:1).

34. Events after the reporting period

- a) On 10 January 2024, the Company's Executive Board of Directors passed the resolutions approving the issuance and offering of a bill of exchange, totaling Baht 50 million, to high-net-worth-investors. During January and February 2024, the Company issued the bill of exchange to a company, which is consideration and a shareholder of the Company.
- b) On 28 February 2024, the Company's Board of Directors passed resolutions proposing to the 2024 Annual General Meeting of Shareholders the issuance and offering of debentures for further consideration and approval. The proposed maximum amount does not exceed Baht 300 million, to be offered to the general public, and/or through private placement, and/or to institutional investors, and/or to high-net-worth individuals, and/or to ultra-high-net-worth individuals.

35. Reclassification

The reclassifications are as follows:

(Unit: Thousand Baht)

	As at 31 December 2022			
	Consolidated financial statements		Separate financial statements	
	As reclassified	As previously reported	As reclassified	As previously reported

Investment Policy

The Company has not focused on investing in fixed assets (hardware) but focused on information service provision as a content provider which services provision can be rendered overall platforms and contemplation of the investment in businesses associated with the main business for the expansion of the core business network to be fully integrated.

The Company collectively formulated policies and participates in management. It consists of four business segments as follows:

1. Print media business

Nation Group (Thailand) Company Limited (NATION) engages in the production and distribution of the 'Bangkokbiznews' newspapers and online media under the 'Krungthep Turakij' brand. Thansettakij Multimedia Company Limited (TMM) engages in the production and distribution of "Thansettakij" newspapers and online media, with NATION holding 99.99% of the shares as of December 30, 2022.

2. Online media business

NATION provides advertising services through online media under the following brands such as Krungthep Turakij, Thansettakij, Posttoday, Spring News, The Nation, Kom Chad Luek, Khobsanam, Thai News, The People, and Nation Story.

The business operations carried out under the subsidiaries as follows:

1. Nation Group (Thailand) Public Company Limited, operating business under the NATION, including Spring News, Kom Chad Luek, and The Nation
2. Khobsanam Company Limited (KSN) was established in December 2021 with NATION holding 99.99% of the shares. It provides advertising services through online media under the name "Khobsanam".
3. Posttoday Company Limited (POST) was established in September 2022 with NATION holding 99.99% of the shares. It provides advertising services through online media under the name "Posttoday"

4. Nation News Company Limited (NTN) provides advertising services through online media under the name “Thai News”, and in September 2021, acquired “The People” online business to operate under NTN. On January 27, 2023, NTV purchased the investment in NTN, representing 99.99%. On September 1, the NATION purchased an investment in NTN from NTV, with NATION currently holding 99.99 percent of the shares.
5. Thansettakij Multimedia Co., Ltd. (TMM) provides advertising services through online media under the name “Thansettakij”.
6. Nation TV Company Limited (NTV) provides advertising services through online media under the name “Nation Story”.

3. Broadcasting media business

Operating business under a subsidiary, Nation TV Co., Ltd. (“NTV”), engaging in providing and producing information in various formats to transmit content on television and online media.

In late 2012, the NBC Next Vision Co., Ltd. (later renamed as Nation TV Co., Ltd. (“NTV”) operated a business of producing television programs and providing advertising services through television media. It is a company in which Nation Broadcasting Corporation Public Company Limited (NBC) holds 99.99% of shares. On December 27, 2013, NNV participated in the auction for frequency licenses to provide digital television services in the nation-level business services type in the category of news and information and was one of seven winning bidders with the highest price, with NNV bidding for a digital TV license in the news and information category of 1,338 million baht. In June 2014, it had a registered capital increase from 1 million baht to 300 million baht. Later in September 2015, it had a registered capital increase from 300 million baht to 500 million baht, and later in September 2016, it had a registered capital increase from 500 million baht to 800 million baht. Overall business operations, NNV is a digital TV license holder in news and content categories under the name “Nation TV” channel, broadcasting under Channel Number 22, managed and operated by NBC under the concept of a 24-hour news and knowledge station, aiming to present accurate, neutral, up-to-date news, along with in-depth analysis and information all-around by the experienced news teams. Later on April 11, 2019, the National Council for Peace and Order (“NCPO”) issued Order No. 4/2019 regarding measures to solve problems in television and telecommunications business operations. The indirect subsidiaries were exempt from the last two installments of spectrum license fees (Fifth installment and Sixth installment) according to the announcement of the NBTC office regarding the criteria, methods, and conditions for compensation payment resulting from the return of the license to use frequencies to provide digital television services of 447 million baht, and in March 2022, NNV increased its registered capital from 800 million baht to 860 million baht. On May 30, 2022, NATION sold ordinary shares in NBC to unrelated persons. Therefore, the television media business was transferred back to NNV which NNV purchased assets related to the television media business from NBC and NATION, and purchased 85,999,997 common shares of NNV from NBC, thereby NATION holding 99.99 percent of shares in NNV. As a result, NNV changed its status from an indirect subsidiary to a subsidiary. On July 1, 2022, the name was changed to Nation TV Company Limited (NTV). In addition, in December 2023, NTV increased its registered capital from 860 million baht to 1,070 million baht.

In addition, by the end of 2012, Bangkok Business Broadcasting Company Limited (BBB) was established to conduct business of television programs production and TV advertising services in which Krungthep Thurakit Media Co., Ltd. holds 99.99% of the shares with a registered capital of 1 million baht. On December 26, 2013, BBB participated in the auction for frequency licenses to provide digital television services in the national business service category in standard definition and was one of the seven winners of the bid for the highest bid, with BBB bidding for a digital TV license in the SD general category for 2,200 million baht, thus taking over the management and operation of the digital television station business under the name of the “Now 26” Channel. In June 2014, BBB increased its capital from 1 million baht to 500 million baht, with NATION

holding an investment proportion in BBB of 99.80 percent. Later, in September 2015, BBB increased its registered capital from 500 million baht to 1,000 million baht, with NATION's additional investment of 500 million baht, causing NATION's investment proportion in BBB to increase from 99.80 percent to 99.90 percent. Later in December 2016, BBB increased its registered capital from 1,000 million baht to 1,500 million baht, with NATION's additional investment of 500 million baht, taking a stake in BBB of 99.99 percent. On February 15, 2019, the channel name was changed from "NOW 26" to "Spring 26" and the company name was changed from Bangkok Business Broadcasting Company Limited to Spring 26 Company Limited (Spring 26). Later, on April 11, 2019, the National Council for Peace and Order ("NCPO") issued a Statement of Order No. 4/2019 regarding measures to solve problems in television and telecommunications business operations, and on May 2, 2019, the NBTC Office issued an announcement regarding the criteria, methods and conditions for compensation payments resulting from the return of licenses to use frequencies to provide digital television services. Spring26 filed a complaint for returning the license to the NBTC office and the return of channel was approved on June 27, 2019, with the NBTC office deciding to cease broadcasting on August 15, 2019 on Spring26. Therefore, the business model was changed from the broadcasting business to the online media business. On September 16, 2019, the company changed its name to Nation Digital Content Company Limited (NDI), and later in November 2022, the company sold its investment in Nation Digital Content Company Limited (NDI) to an unrelated person, causing its cessation of the subsidiary status.

4. Business selling products or services directly to customers (B2C)

Operating business under an indirect subsidiary, the Nation Coffee Company Limited (NCOF), engaging in selling food and beverages. It is a joint investment of the NATION and its subsidiary (NTV), representing 40 percent and 60 percent, respectively. Later in September 2023, NATION purchased the investment in NCOF from NTV, currently the NATION holds 99.99 percent of the shares.

Supervision of subsidiaries

The Company controls over and formulates policies for its subsidiaries by dispatching 2-3 directors of the NATION to be directors in the subsidiaries under its supervision. The subsidiaries' supervision is divided into a business unit, with the business unit's management and/or subsidiary company proposing business plans and budgets for the NATION Executive Director (Ex-Com) to consider approval while the NATION executives gather and present to the Board of Directors for approval of the business plan and annual budget again. The performance supervision is carried out via the budget system, the business unit's executives shall be responsible for managing the business unit in compliance with the approved business plan and budget. If any items are beyond the budget, they must be approved by the Executive Committee beforehand. Furthermore, every month, the business unit's executives and/or subsidiaries shall report their performance to the NATION Executive Committee which shall then present the overall performance of the Company and each business unit and/or subsidiary to the Board of Directors quarterly, and if the subsidiary's business operations that have significantly affected the Company, the subsidiary shall propose the topics and request approval at the Company's Board of Directors Meeting primarily.
