1. Organizational structure and operation of the group of companies

1.1 Policy and business overview

1.1.1 Overview of the vision, objectives, goals and business strategies

Message from the chairman

Report of the Board of Directors

Kang Yong Electric Public Company Limited

In the fiscal year 2024 (B.E. 2567), the global and Thai economies continued to face persistent challenges stemming from multiple external factors, including global economic volatility, inflationary pressures, rising raw material costs, and geopolitical tensions, particularly between the United States and China. In response to the evident economic downturn, the Company adopted various adaptive measures, focusing on raw material cost management, maintaining high production efficiency despite lower output, cutting non-essential expenses, and deferring investments with low returns.

During the year, the Company was affected by rising costs of raw materials and energy, as well as fluctuations in exchange rates. Furthermore, changes in consumer behavior and the acceleration of digital transformation reshaped the operational landscape of the electrical home appliance industry. In response, the Company adjusted its strategy by focusing on reducing production lead time, a key initiative aimed at improving the efficiency of supply chain management. Additionally, the Company incorporated AI and IoT technologies into its manufacturing processes to enhance the speed and accuracy of product quality control. The Company also prioritized the development and value-added enhancement of its products to gain a competitive advantage and better address customer needs.

In the fiscal year 2024, the Company recorded a gross profit of 624 million baht, representing 10.3% of total revenue from sales and services, a decrease of 3.4 percentage points compared to 13.7% in fiscal year 2023. The decline was due to the ongoing economic recession, which negatively impacted consumer purchasing power. Nevertheless, net profit rose to 703 million baht, accounting for 11.6% of revenue from sales and services, representing a 1.13 percentage point increase from 10.42% in the previous fiscal year.

The Board of Directors has resolved to propose to the 2025 Annual General Meeting of Shareholders an allocation of profit in the form of a dividend of 17.80 baht per share, representing 50.17% of the net profit, totaling 352.4 million baht.

Looking ahead to fiscal year 2025, the Thai economy is expected to experience slower growth due to several factors, including political uncertainty, the burden of high household debt, and a decline in tourist arrivals, all of which are likely to reduce domestic purchasing power. Furthermore, exchange rate volatility, global economic recession, U.S. countervailing tax measures, and surging oil prices in various regions, driven by ongoing geopolitical conflicts, are anticipated to exert downward pressure on the Company's export performance. In response, the Company aims to retain the customer base, maintain sales volume, and expand high-margin, value-added product lines while improving manufacturing efficiency to lower production costs and enhance overall profitability.

The Company remains committed to conducting its business with a strong emphasis on environmental, social, and governance (ESG) principles. Key initiatives include investing in clean energy solutions, such as solar panel systems, adopting eco-friendly packaging, utilizing energy-efficient machinery, and supporting community engagement and stakeholder responsibility programs, underscoring the Company's commitment to sustainable growth.

The Company has established clear policies to reduce greenhouse gas emissions. This includes calculating both the organization's carbon footprint (CFO) and the product carbon footprint (CFP). The Company aims to achieve net-zero greenhouse gas emissions for Scope 1 and Scope 2 by 2030 and for Scope 3 by 2050. This will be accomplished by renewable energy, reduction of fossil fuel consumption, improvements in production efficiency, and the integration of environmentally friendly technologies. These efforts reflect the Company's commitment to environmental responsibility and sustainable development.

On behalf of the Board of Directors and management, I would like to express my heartfelt gratitude to all shareholders, business

partners, employees, and stakeholders for your ongoing support and trust. We are committed to fostering stable and sustainable business growth while creating value for all sectors through our new business philosophy: "Innovating for a Better Tomorrow."

Mr. Praphad Phodhivorakhun

Chairman of the Board of Directors

Vision

Management Policy

Support the products and services that are safe, secure, healthy, and beneficial for customer's lives and contribute to the realization of a sustainable society that is friendly to the whole supply chain. under the slogan: "Innovating for a better tomorrow."

Objectives

-

Goals

Mission

1. Implement top priority to Safety first, Health first, Quality first, and compliance with the law and the code of conducts thoroughly.
2. Complete business structural reform by promoting process innovation: innovation of methods and efficiency related to business operations and production.
3. Aim to realize a recycling-oriented society and sustainability to achieve SDGs.

Business strategies

Priority Actions

1. Strengthen the implementation of Safety First, Health First, Compliance, Quality Assurance, and Information Security.
2. Strengthen business foundation and expand business profits by implementing structural reforms that can flexibly respond to changes in the environment.
3. Increase operational efficiency by promoting DX and JIT activities throughout the Company from direct to indirect departments.
4. Enhance employee engagement and create a workplace where employees can work energetically.
5. Drive ESG factors to secure the balance of solving social issues and profit by promoting the 3Rs, together with conducting CSR activities.

1.1.2 Material changes and developments

Details regarding material changes and developments

Year	Material changes and developments
2025	<p>January 2025</p> <ul style="list-style-type: none">• Released the same 3-door bottom freezer refrigerator model (New Capless Door design, 300–400 litres) for the domestic market.• Developed the new R2 Series water pump with improved performance and efficiency. All models received the highest 5-star rating under the No.5 energy saving label. The new housing design significantly reduces operating noise and is protected by a design patent granted by the Department of Intellectual Property. <p>The R2 Series continues to meet Mitsubishi Electric's stringent safety and quality standards and complies with TIS 1548-2551. It has maintained its No.1 market position in Thailand for the 7th consecutive year, based on the 2023–2024 consumer survey by Marketeer magazine.</p> <ul style="list-style-type: none">• Launched new desk fan models D16A-GC and tatami fan models R16A-GC with redesigned rear motor covers for a more modern look. The newly designed motors offer improved energy efficiency, earning the 5-star No.

Year	Material changes and developments
2025	<p>5 energy label.</p> <ul style="list-style-type: none"> Began production of 18-inch living fan models LV18A-GC and LV18A-RC with both button and remote control options. These models feature specially designed plastic front grilles that deliver strong, wide airflow and have earned the 5-star No. 5 energy label. Launched 16-inch wall fan models W16A-GC and W16A-RC and 18-inch models W18A-GC and W18A-RC, both available in pull-cord and remote control versions. All models feature specially designed plastic grilles for enhanced airflow and carry the 5-star No. 5 energy label. Expanded colour options for fan products to 10 tones to enhance customer choice and stimulate sales. <p>February 2025</p> <ul style="list-style-type: none"> Developed a new 16-inch living fan model for export to Brunei. Key features include a modern design, Night Mode (which features dimmer light and silent operation for nighttime use), and a Child Lock to prevent accidental operation by children. Introduced two new 12-inch tatami fan models R12-HRC and R12-MC for export to Hong Kong. Both feature the new 1-Click blade system, which allows for easy disassembly and cleaning by simply pressing a single release button. Produced new plastic fan grille in black and brown for use with the following ventilation fan models: VD-10Z4T6, VD-10Z4T6-D, VD-15Z4T7, VD-15Z4T7-D, VD-15ZP4T7, VD-15ZP4T7-D, and EX-20SC7T. These colour options offer flexibility to match customers' interior design preferences. <p>Manufacturing Process Improvements in the year 2024:</p> <ul style="list-style-type: none"> April 2024: Upgraded the refrigerator Evacuation Line with new technology to enhance vacuum performance within the refrigeration system. This upgrade reduces vacuum time, energy consumption, and repair frequency while freeing up floor space for future process enhancements.
2024	<p>On 26 July 2024, the Annual General Meeting of Shareholders resolved to approve profit appropriation for dividend payment at 29.85 baht per share, totalling 591 million baht, to shareholders on 22 August 2024.</p>
2024	<p>April 2024</p> <ul style="list-style-type: none"> Launched a new 3-door bottom freezer refrigerator (New Capless Door design), 300–400 litre capacity, with a modern and robust look. Features a quick-freezing mode for faster cooling in the freezer compartment. Exported to Japan. <p>May 2024</p> <ul style="list-style-type: none"> Released a new 2-door bottom freezer refrigerator with a 421-litres capacity, designed for easy food storage and convenience. Exported to Australia. <p>September 2024</p> <ul style="list-style-type: none"> Introduced a new 4-door bottom freezer refrigerator (New Glass French Door design), 442-litre capacity, with improved usability and organization features, including a quick-freezing mode. Exported to Australia

1.1.3 Spending of the raised fund to serve the objectives declared in the registration statement for securities offering

Is there an issuance of equity securities or debt securities? : No

1.1.4 The obligations to which the company has committed in the registration statement, including the compliance with such obligations or conditions in the following years

Are there any issued securities with obligations or conditions? : No

1.1.5 Company information

Company name	:	Kang Yong Electric Public Company Limited
Symbol	:	KYE
Address	:	67 Moo 11, Debaratna Road, Km. 20, Bangchalong, Bangplee
Province	:	Samut Prakarn
Postcode	:	10540
Business	:	The Company is the manufacturer of Mitsubishi Electric brand of electrical home appliances such as refrigerators, electric fan, ventilating fan and water pump. The Company, with technical licensed by her joint - ventured partner, Mitsubishi Electric Corporation, Japan , has customers both domestics and overseas.

1.2.2 Information on products and services

1.2.2.1 Product/service information and business innovation development

Home appliances

Description of Products and Services

The Company manufactures and distributes home electrical appliances comprising refrigerators, electric fans, ventilating fans, and water pumps under the “Mitsubishi Electric” trademark, with technological cooperation and support from Mitsubishi Electric Corporation, Japan, in product development, designing and manufacturing, with an emphasis placed on product quality, safety, use of cutting-edge technology, energy-saving, and environmental friendliness to ensure responsiveness to customers’ requirements and strengthen competitiveness against other producers.

Refrigerators

The Company focuses on research and development of refrigerator designation, aiming to meet diversified consumers’ demands and preferences as follows:

1. Capless Design: The exterior design provides a luxurious, striking appearance like no other. Particularly, the unique design of the door frame without plastic frames makes it more beautiful and modern.
2. 50:50 Door Design (Premium Design): This is a unique refrigerator design for the HS series, divided into 50:50 proportions of the refrigerator door, which is perfectly suited for the kitchen counter.
3. Easy to Use: The product’s design offers diversity in models, number of doors, and capacity to match consumers’ usage preferences and allow for accessibility, convenience and time-saving.
 - Select Zone: This function allows users to switch the operating mode between Soft Freezing at about -7 degrees celsius and Chilled Mode at 0 degrees celsius. Soft Freezing is a technology that helps extend the shelf life of food in this condition, so users can cook the food promptly without wasting time defrosting for the FS series and HS/HGS series
4. Healthy Technology: The combination of food preservation technologies employed for good food hygiene, food freshness, and clean interior spaces are as below:
 - Vegetable Drawer with Vitamin Factory: The separate vegetable drawer compartment, engineered with built-in LED lights, acts on the chlorophyll in vegetables to stimulate photosynthesis. This technology also maximizes the freshness of your greens by maintaining a higher humidity than the main refrigerator compartment, keeping your greens crisper for a longer time.
 - Blue Catalyst Deodorizer is a new technology that utilizes blue light and bacterial inhibition agents in the filter to prevent bacteria growth up to 99.9% and help reduce unpleasant odors.
 - Supercool Chilling Case: The latest technology for storing fresh prime cuts of meats and fish. Standard-setting the temperature between 0 degrees Celsius to -3 degrees Celsius allows you to preserve meat or fish ready for cooking without wasting time defrosting.
 - Auto Ice Maker: All compartments, including the ice tray, pump pipe and filter, are detachable for easy washing. The tray is also antibacterial for more cleanliness.
 - Anti-bacteria food liner: Silvery inorganic antibacterial material contained in the food liner of a freezer and cooling compartment to prevent and stop the growth of bacteria (Silvery inorganic anti - bacteria material).
 - Rapid Freeze Function: Enables ultra-fast freezing to minimize cell damage in ingredients or food. This function helps preserve original taste and texture, extends shelf life, and freezes food up to 20% faster than standard freezing methods.
 - Minus ion surround cooling system: Minus ion surround cooling system helps distribute coolness through all shelves, including the bottle compartment, to help increase moisture in inner cases and preserve foods for a longer period.
5. High Quality with Environmental Friendliness & Energy Saving: The Company offers a high standard of product quality that could gain customer trust and environmental friendliness and energy saving.
 - Neuro Inverter system: The system is operated by intelligent microchips to identify users’ behavior in combination with sensors to measure interior and exterior temperature. The data is sent to intelligent processor microchips of the neuro-fuzzy system and inverter compressors to ensure the maximum efficiency of a refrigerator in all functioning conditions.
 - Premium safety: It signifies Mitsubishi Electric’s exclusive premium standard that accentuates the maximum utilization safety for all consumers. All parts and materials carefully selected for the products, including non-flammable material, added components to prevent electric current leakage, a built-in circuit breaker to prevent over-limit power, an over-heating protection device, etc.
 - Products are developed in line with each country’s safety standards and energy-saving requirements, using environmentally friendly raw materials that meet RoHS standards and Persistent Organic Pollutants Regulation (POPs).

In addition to the Company's commitment to developing high-quality refrigerators with advanced technologies and safety that align with Mitsubishi Electric's standards, the past year saw the launch of models with diverse designs and enhanced functionality, such as: MR-LX442EY (New 4-Door Model): A compact-size 4-door refrigerator ideal for limited-space residences. It features advanced technologies, including Supercool Chilling, Automatic Ice Maker, Rapid Freeze, and Vitamin Factory. This model was first introduced to the Australian market in September 2024. The MR-CX33K/MR-CX37K (New 3-Door Models): Designed with a modern Capless Door design to enhance aesthetic appeal. These models also come equipped with the same suite of advanced technologies as the MR-LX442EY and were launched in the Japanese market in April 2024. The Rapid Freeze function significantly enhances user experience by freezing ingredients faster (up to 20% quicker than standard freezing), reducing cell damage, preserving flavor, and extending food shelf life.

Electric Fans

The Company has further developed an electric fan line-up to suit diverse applications, comprising desk fans, Living fans, Tatami fans, wall fans, cycle fans, and ceiling fans. The blade of each model has a selectable size to fulfil the customer's various needs, along with the development of a closed motor design, which is Mitsubishi Electric's exclusive patent. It helps prevent the intrusion of dust and undesirable objects that cause damage to the product. As a result, it is highly durable.

The Company is committed to developing each electric fan model to be of high quality, durability, and safety according to Mitsubishi Electric standards. In the past year, the Company has designed and developed electric fans to be more diverse in terms of design and functionality, such as:

1. 18-inche Stand Fan (Flat Grille Design): LV18-GC and LV18-RC. Equipped with Child Lock for safety and Night Mode to reduce control light brightness and mute sound during sleep.

2. Wall Fans (Flat Grille Design)

- 2.1 16-inche models: W16A-GC, W16A-RC

- 2.2 18-inche models: W18A-GC, W18A-RC

These fans deliver airflow 30% farther than previous metal grille models and have earned the 5-star No.5 energy-saving label.

3. Color Expansion: to offer greater personalization and match various interior styles, the Company added four new fan colours which are Creamy Green, Creamy Brown, Creamy Pink, and Creamy Purple for several models, including: 12-inche, 16-inche, and 18-inche Desk Fans, 16-inche and 18-inche Tatami Fans. Additionally, White and Creamy Brown options were introduced for the LV16-GB and LV16-RB models.

Ventilating Fans

The Company's ventilating fan is considered a valuable product that helps improve consumers' quality of life. Meticulous attention has been paid to product development to ensure excellent and efficient air circulation. The Company's ventilating fans are available in wall, window, ceiling, and duct types.

In February 2025, the Company introduced new ventilation fan grills available in Black (P-10GB-BK/P-15GB-BK) and Brown (P-10GB-BW/P-15GB-BW). These accessories are compatible with the following models: VD-10Z4T6, VD-10Z4T6-D, VD-15Z4T7, VD-15Z4T7-D, VD-15Z4T7-D, and EX-20SC7T. Designed for aesthetic flexibility, these grills allow customers to better coordinate with their interior designs.

Water Pumps

The Company develops and manufactures a variety of water pumps to meet the diverse needs of users. These include models designed for drawing water from wells or water tanks, automatic pumps that operate in response to the opening and closing of faucets, constant pressure automatic pumps, and inverter type pumps equipped with electronic control systems to further enhance energy efficiency.

The R2-series water pump, first launched in Thailand in January 2025, features a newly designed Y shaped impeller that allows for smoother water flow and reduces noise during operation. This innovation results in quieter pump performance. Furthermore, the R2-series has been improved to deliver a higher flow rate than previous models, providing enhanced functionality to better serve customer requirements. Additionally, the R2-series has been certified with Thailand's highest energy efficiency rating 5-star Label No. 5 ensuring optimal energy savings and cost-effectiveness.

Diagram of Home appliances

Research and development policy in various areas, and details regarding innovation development in processes, products and/or services, or business models.

Research and development (R&D) policy : Yes

R&D expenses in the past 3 years

	2022	2023	2024
Research and development (R&D) expenses over the past 3 years (Million Baht)	193.74	169.64	122.43

1.2.2.2 Marketing policies of the major products or services during the preceding year

The Company sells products in three principal markets: domestic, Japan, and other export markets. In the fiscal year 2024, its sales to these markets were 44:38:17, respectively, compared to the sales of the year 2023; the sales amount increased in domestic and Japan, while other markets decreased because of the economic recession, the higher cost of living, and the high stock level in the markets, which caused sales to be sluggish.

Distribution channels

Domestic market

The Company distributes its products through Mitsubishi Electric Kang Yong Watana Co., Ltd., its sole distributor, which has distribution channels of its own such as dealers, modern trade, and project sales across the country. Mitsubishi Electric Kang Yong Watana Co., Ltd. also established additional warehouses in Lampang and Khon Kaen provinces to reduce the time of transportation and distribution. In addition, the Company registered its products as MiT product (Made in Thailand product) which is the certification of products manufactured in Thailand by the Federation of Thai Industries to increase competitiveness and allows the product to be tendered in governmental procurement.

Export markets

The Company exports its products primarily through its subsidiaries in Mitsubishi Electric Group, which have dealers worldwide,

comprising Asia, Oceania, the Middle East, etc.

The domestic/export sales ratio

Countries	Ratio (%)
Thailand	44.00
Japan	38.00

The industry competition during the preceding year

Domestic Market

Domestic demand for electrical appliances faced challenges from the global economic slowdown and declining market demand. However, there are supporting factors such as hotter weather and consumer behavior that may help boost market growth in the future.

Overall, the growth rate in the domestic market demand for the Company's electrical appliances has decreased in the past year. However, the Company adjusted sales strategies to focus on selling profitable models as premium products. The brief domestic market conditions for each product are summarized below.

- Refrigerators: Overall, market demand for refrigerator products declined. However, the Company changed its sales strategy to focus on selling premium products, resulting in an increase in the proportion of sales of 3-door and 4-door refrigerators, which is in line with the Company's strategy. In January, the Company developed and launched a new model of 4-door refrigerators that are more compact in size to strengthen the product lineup.
- Water pumps: Overall, market demand for water pump products has slightly decreased compared to the previous year. A high market stock level caused a slow sell-out in the first half of the fiscal year. However, the proportion of sales of constant-pressure pumps increased in line with market demand. In January, the Company developed and launched a new model, R2-Series, to further meet the customer's needs.
- Electric fans: Overall market demand grew at a rate similar to that of last year, driven by positive factors resulting from prolonged hot weather conditions, which led to increased demand for fans in early 2024. In addition, new fan colours released in 2024, namely white and pastel colours, continued to be well-received by customers in Bangkok and its vicinity, as well as other provinces. The Company has, therefore, expanded customer options by adding four new colours in 2025.
- Ventilating fans: Overall, market demand increased compared to the previous year, particularly in modern trade channels, where the Company has been able to increase the number of display products in stores, and consumers have become more concerned about ventilation systems in their homes.

Japan Market

Japan's economy expanded at a slower pace last year than estimated, as inflation weighed on private consumption. The downward revision in GDP estimates underscores the challenge the economy faces in maintaining stable growth amid inflationary pressures on domestic demand. Wage increases have not kept pace with inflation, as the sharp decline in the yen has increased import costs, leading to price rises relative to household purchasing power. The government and the Bank of Japan (BOJ) must implement policies to boost household incomes and consumption, as well as provide government aid measures and sustain a recovery in tourism.

The Company exports products to Japan, including refrigerators, electric fans, and ventilating fans. In fiscal year 2024, the market situation for the Company's products in Japan is summarized as follows:

- Refrigerators: Overall, market demand has a lower growth rate than last year. Freezers, small 2-door refrigerators, and 3-door refrigerators have experienced a lower growth rate compared to last year, especially 3-door refrigerators, due to the country's overall economic downturn, the depreciation of the yen, and the higher cost of living, which has reduced the purchasing power of refrigerators. However, the demand for Freezers is still at a level close to or slightly higher than last year, allowing the Company to maintain sales of Freezers.
- Water pumps: Overall, market demand for water pump products has slightly decreased compared to the previous year. A high market stock level caused a slow sell-out in the first half of the fiscal year. However, the proportion of sales of constant-pressure pumps increased in line with market demand.
- Electric fans: Overall, market demand has decreased as the Company has changed its distribution channels, the economic situation has caused people to delay their spending, and stores have a high level of stock
- Ventilating Fans: Overall, market demand has a significantly higher growth rate than last year, as outstanding

orders from the previous year, delayed due to projects such as schools and health centres, are expected to be delivered in the first half of the year.

Other Export Markets

The slowdown in the economies of major trading partners, driven by global economic volatility, geopolitical conflicts, and political tensions in certain regions, has been significant. This downturn in the global economy has resulted in high inflation, leading to increased prices for commodities and food.

Despite these unfavorable conditions, the Company's export volume has risen compared to the previous year in nearly every product category, apart from ventilation fans. Over the past year, the Company has adjusted its selling prices and modified its strategy to focus on offering premium products. The marketing situation of each product in fiscal year 2024 can be summarized as follows:

- Refrigerators: The Company's sales have increased compared to the previous year because many countries, such as Hong Kong, Singapore, and Australia, have been ordered to replenish their stock after reducing their stock to normal levels from the previous year. However, sales remain challenging due to the economic crisis and price competition from other brands.
- Electric fans: The Company's sales have increased compared to the previous year because major countries, like Vietnam, have returned their stock levels to normal and are beginning to place orders again. However, sales were lower than expected due to prolonged cold weather in northern Vietnam and competition from other brands driving down prices.
- Ventilating fans: The Company's sales growth decreased mainly from Vietnam due to the impact of lower sales of various construction projects compared to the previous year.

1.2.2.3 Procurement of products or services

Nature of Product Procurement

Manufacturing Process

The Company's manufacturing process begins with product design and development by receiving cooperation in product design and technical know-how from Mitsubishi Electric Corporation, Japan. Study and survey on market demand conducted so that product specifications agreement can be customized to suit customers' needs. After that, new product models are developed and then produced according to customers' purchase orders.

In the previous year, the Company developed and improved product safety to comply with Mitsubishi Electric's standards and each country's regulations to ensure the customer's safety and quality of our products.

Products are manufactured in mass production. The process starts with receiving customers' orders, followed by production planning, procurement of raw materials, components and parts, and manufacturing of products according to the production plan of each production line. The vital sub-process includes parts production, manufacturing equipment preparation, assembling, packaging, etc.

Recognizing the reliable product quality, the Company conducts the quality inspection at every step of the production process by applying the innovative machinery and tools for the quality control process to ensure that all marketable products meet the high-quality standards and customers' requirements.

After-sales Services

The Company set up a department to be responsible for product quality warranty and after-sales service provision. The department harmonizes with local and overseas distributors to provide technical information on each product, arrange specialized training for new products, exchange information from customers, and analyze the data to develop the new products. The department also renders advice and suggestions on product installation and application, supplies spare parts and after sales service provision, and coordinates and works jointly with the distributors to rigorously address any possible quality related problems. The Company has raised the security level that may cause any issues from the installations that do not comply with the requirements and may harm the users. Therefore, the Company arranged more training with especially cautious topics to educate the proper installation for dealers.

The company's production capacity

	Production capacity	Total utilization (Percent)
Refrigerator (Unit)	1,200,000.00	33.00
Electric fan & ventilating fan (Unit)	1,800,000.00	62.00
Water pump (Unit)	385,000.00	72.00

Acquisition of raw materials or provision of service

The Company still has to import the raw materials and parts such as compressor, electronic components etc. The products of the Company uniquely produce under the standard of Mitsubishi Electric Cooperation. Therefore, some of the raw materials and some of the parts are imported from reliable sources overseas. Furthermore, purchasing raw materials and parts in a massive volume through a MELCO subsidiary resulting in the production cost is lower.

Proportion of domestic and overseas procurement

Countries	Name of raw material	Value (Baht)
Thailand	Resin, Motors, Cast components, and Others	2,418,737.01
Japan	Steel, Electronic parts and Others	218,921.66
China	Compressor, Electronic parts, Motor and others	500,745.62
South Korea	Steel, Resin and Others	464,215.03
Malaysia	Electronic parts, Resin and Others	184,628.00

1.2.2.4 Assets used in business undertaking

Core permanent assets

Property, Plant, and Equipment

- Land and Land improvement
- Buildings and Plants
- Machinery, equipment, and factory tools
- Molds and dies
- Assets under construction and installation
- Office equipment

As at 31 March 2025, the Company has some machinery and equipment which has been fully depreciated but still active. The book value before deduction of accumulated depreciation of such assets amounted to approximately 5,250 million baht (the year 2024 was 4,970 million baht).

Investment policy in the subsidiaries and associated companies

Investment policy in the subsidiaries and associated : Yes
companies

The Company's investment policy focuses on investing in related businesses or supporting the Company's operations in both the short term and long term. The Board of Directors has a mechanism for overseeing and controlling associated companies with responsibility for their operation in order to protect the Company's interest in such investment. The meeting of the Board of Executive Directors shall appoint a director or executive as representative of the Company to serve as a director of its associated company, having duty to determine policies that are crucial to business operation, approve, express opinion, and follow up on the operation, but not to the extent of controlling such policies. The investment ratio depends on the business that invests and how much capital it needs.

1.2.2.5 Under-construction projects

Under-construction projects : No

1.3 Shareholding structure

1.3.1 Shareholding structure of the group of companies

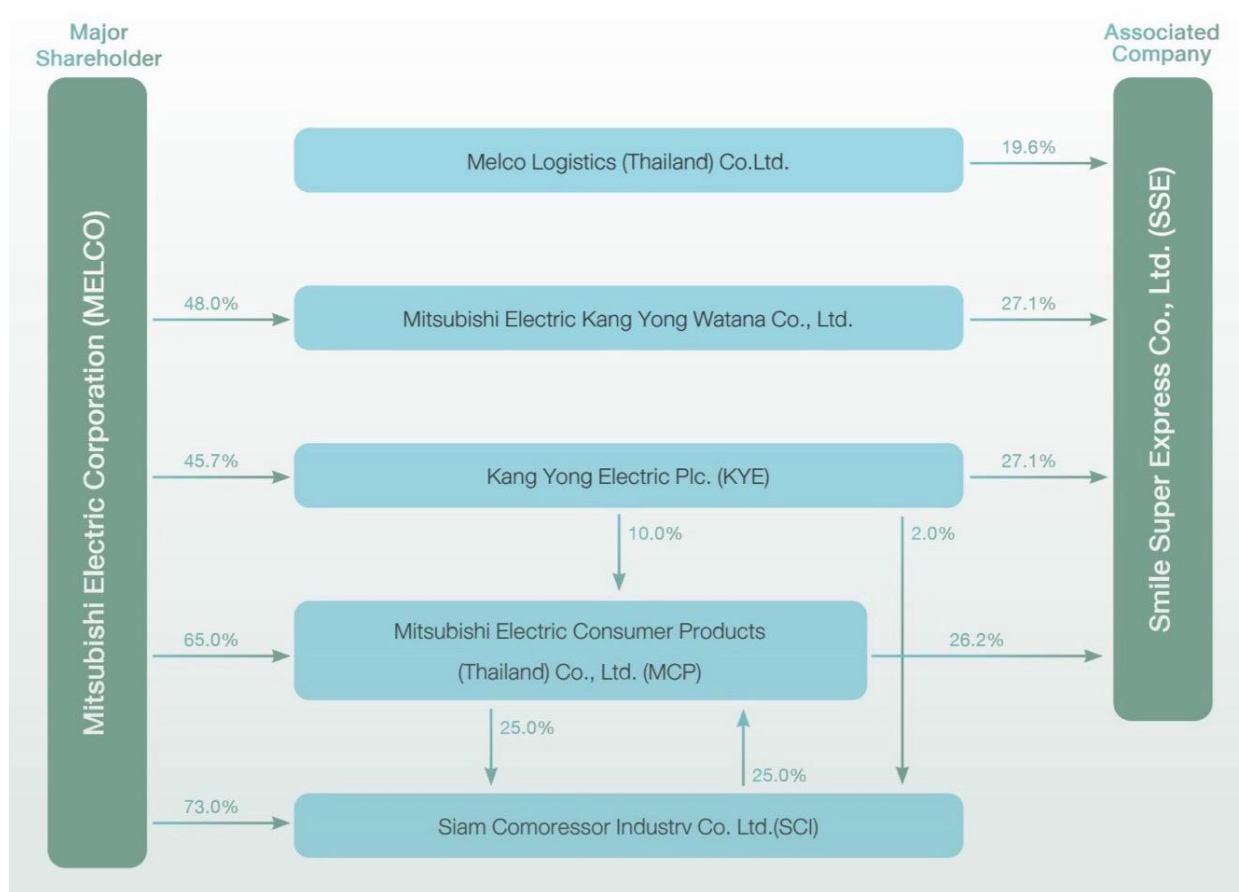

Policy on operational organization within the group of companies

The company is a manufacturer and distributor of home electrical appliances under “Mitsubishi Electric” trademark, with the copyright and manufacturing technology from Mitsubishi Electric Corporation (MELCO) which is the major shareholder of the company. The Company has significant business relationships with its major shareholders. The company cooperates with MKY and MCP which are the major shareholders to establish SSE for managing and maintains the inventory of all three companies to increase efficiency in managing and controlling the logistics costs of the company.

In March 2018, SSE changed its management by Melco Logistics (Thailand) Co., Ltd. (MELT) with to experience in inventory management and freight forwarding has come to manage, expand sales and profit in the future.

2. Risk management

2.1 Risk management policy and plan

Risk management policy and plan

Policy and Management Plan

The Company attaches importance to risk management, which is crucial to the achievement of its objectives and business operation with sustainable growth. Its risk management is under the governance by its Board of Directors, Audit Committee, and Internal Audit Office. The Company has reviewed and monitored emerging risks and uncertainties arising from internal and external factors that are changing rapidly amidst the global economic slowdown, as well as other risk facing the Company at present. This prevention aims to ensure that the Company has sound risk management, which can help prevent any possible damage to its business operation.

2.2 Risk factors

2.2.1 Risk that might affect the company's business, including environmental, social and corporate governance issues

Risk 1 Risk associated with keen competition

Related risk topics : [Strategic Risk](#)

- Volatility in the industry in which the company operates
- Competition risk

Risk characteristics

The home appliance industry is undergoing rapid and continuous change. There is significant competition from both established brands and new market entrants.

Risk-related consequences

Consumers have a wide range of choices and can easily compare prices and quality. With many players in the market, the competition for market share poses a substantial risk that could affect the Company's product prices and profits.

Risk management measures

To achieve sustainable and steady growth, the Company has revised its sales strategy by focusing on premium products and highlighting competitive models to boost sales and profits across different markets and product categories. Additionally, the intense competition in the technology sector for electrical appliances has prompted the Company to invest in research and development to meet the evolving needs of consumers.

Risk 2 Geopolitical Risk

Related risk topics : [Strategic Risk](#)

- Other : Geopolitical Risk

Risk characteristics

Over the past year, geopolitical risks have significantly impacted global trade. Key factors include the trade war between the United States and China, the Russia-Ukraine war, rising tensions in the Taiwan Strait, and political changes within the United States.

Risk-related consequences

These issues have affected shipping routes, the investment environment, supply chain stability, and trade policies, leading to a slowdown in global trade. Additionally, high inflation rates and economic recessions in many of the Company's trading partners have contributed to these challenges.

Risk management measures

The Company continuously monitors the situation and proactively adjusts its policies and strategies to remain aligned with the prevailing business environment.

Risk 3 Risks associated with reserving cargo space on vessels impact marketing

Related risk topics : [Strategic Risk](#)

- Volatility in the industry in which the company operates
- Government policy

Risk characteristics

Shipping rates have remained high this year due to demand-supply imbalances. In response, operators are cutting costs and improving efficiency by delaying new ship orders, decommissioning older vessels, optimizing cargo space, and occasionally skipping ports.

Risk-related consequences

These actions have caused delays in goods delivery to countries like Japan, Australia, and New Zealand. To manage this risk, the Company is keeping customers informed about the situation, helping them plan for faster shipping.

Risk management measures

Advance Export Planning Plan and book ocean freight space at least 1–2 months in advance to mitigate the risk of insufficient vessel space availability. Diversification of Logistics Partners Utilize multiple ocean freight service providers to reduce

reliance on a single operator and diversify transportation risk. Relationship Building with Shipping Lines and Forwarders Maintain strong relationships with shipping lines, agents, and freight forwarders to receive up-to-date market information and secure space allocation during periods of capacity shortage. Flexible Cost and Pricing Management Develop a flexible transportation cost management plan, such as budget reserves or price adjustment negotiations, to accommodate fluctuating freight costs during volatile market conditions. Monitoring of Market Trends and Freight Information Closely monitor market conditions and freight-related indicators, such as freight rates, to support timely planning and strategy adjustments.

Risk 4 Risks associated with technological changes and product development

Related risk topics : Strategic Risk
• Changes in technologies

Risk characteristics

Changing in production technology and product development technology

Home electrical appliances are products with intense competition in product design and development. The Company has developed its products every year concerning functionality, appearance, and energy saving so that all its products can compete well in the market.

Risk-related consequences

Technological changes and product development could pose a risk of fast product obsolescence and rapid replacement by new models

Risk management measures

The Company must, therefore, keep abreast of all changing circumstances carefully and conduct a study on product development trends to match market demand yearly to mitigate such risk.

At present, consumers priorities energy-saving when choosing products that suit their preferences. The Company has strived to develop products with the best energy-saving features in line with such a trend. In the past year, The Electricity Generating Authority of Thailand (EGAT) has announced the adjustment of energy saving standards No. 5, the highest level of 3 stars, to the highest level of 5 stars, effective January 2024, which water pump products can proceed to support the criteria above until the new criteria are passed in all R-series models.

The Company aware of the risk associated with technology changes posed directly on the Company; the Company mapped out a plan for the modification and change in its production technology and future product line-up, with investment duly made in the following infrastructures:

- Increases accuracy and reliability for checking the correctness of installing electronic parts on the refrigerator circuit board from the Chip moulder through automatic recording of inspection results by bringing the First Board Inspection system into use, it is possible to reduce the time spent on inspections by employees and help preserve the environment by reducing the amount of paper used and also being able to check historical data.
- Implementing automated test monitoring and recording systems and a traceability system to verify the performance and safety of fan and ventilator fan, to keep track of production trends and keep valuable data for developing new products.
- Increase the efficiency of refrigerator production by using new technology to speed up air evacuation in the cooling system. The new method will shorten vacuuming time, reduce electricity use, minimize repairs, and free up space for optimizing other production processes.

Risk 5 Inventory management risk

Related risk topics : Operational Risk
• Inventory risk

Risk characteristics

Potential for losses or inefficiencies resulting from the improper handling, forecasting, storage, or control of inventory within an organization

Risk-related consequences

Inefficient inventory management poses a risk that may lead to increased costs from excessive stockholding or lost revenue opportunities due to stock shortages. It may also negatively impact cash flow, production efficiency, and the ability to deliver products to customers on time.

Risk management measures

Inventory management improved in respect of Just-in-Time (JIT) manufacturing in several areas:

- Adoption of Kanban* (throughput card) for management of inventory volume in the work in process and warehouse as

well as control of supply chain from receiving parts from part suppliers to passing on throughput in the production process, thus allowing for improvement of delivery schedule in that delivery frequency per day will be higher, hence fewer parts per lot, resulting in less space requirement and more expense saving in stockpiling. *Note: Kanban is a tool to support running a pull production, thereby throughput volume for each process is matched with demand. It functions as a neurological pathway for lean management with the main benefit and target: producing what instructed, at the time instructed, and in the volume instructed only.

- The Company has considered changing the technology in the structure of part ordering system from part suppliers by using web ordering system and barcode system in receiving parts system as well as distributing parts system to increase accuracy, reduce workloads, and increase efficiency in managing raw materials and inventory.
- Improve the in-house logistic system from pushing system changed to pulling system. The Company changes from using a forklift to carry large quantities of transportation parts to an electric tow truck, then using parts shopping as needed to the production line instead to reduce work in process and reduce pollution that forklift release.

Risk 6 Risk involved with raw materials and supply chain

Related risk topics : Strategic Risk

- Business operations of partners in the supply chain
- Economic risk

Operational Risk

- Shortage or fluctuation in pricing of raw materials or productive resources
- Climate change and disasters

Risk characteristics

Raw material procurement risk has still been a priority for the company. It has kept a close watch on changing circumstances, especially the fluctuations in raw material prices over the past year, which the Company has to face with risks that are external factors that cannot be controlled, such as:

- Factors arising from the uncertain global economic situation, geopolitical conflicts, problems of inflation, and rising interest rates, including the impact of exchange rates.
- The risk from supply chain system involves the procurement parts and raw materials suppliers, such as earthquakes and natural perils in some countries.
- Risk from impacts of the policy from superpower countries such as trade war, sanction, as well as the changes in the US Federal Reserve's economic signals and interest rate policy.
- Risk of delayed delivery

Risk-related consequences

- These factors affect the price of critical raw materials that the company uses to produce products, especially plastic, resin, copper, aluminum, and steel, as well as other costs. That results in higher production costs
- The procurement parts and raw materials suppliers, such as earthquakes and natural perils in some countries.
- Impacts on raw material prices and production capacity, hence global volatility with a significant effect on the supply chain

Risk management measures

- The company continues to conduct cost-reduction activities to reduce the impact of rising raw material prices, such as sourcing raw materials from more than one source to minimize price volatility, increasing the proportion of domestic procurement, sourcing raw materials with the same quality and specifications but at a lower price, and collaborating with partners to improve the production process to be more efficient with lower costs while still maintaining the properties of the parts.
- The Company has drawn up a business continuity plan to manage the risks of trade partners both domestically and overseas.
- The Company monitors the global situation and is prepared to adapt to rapid and ongoing changes, minimizing any potential impacts.
- the Company to prepare a Business Continuity Plan, such as maintaining inventory levels of some key raw materials to ensure sufficient quantities of key raw materials, consolidating purchase orders with other companies in the Group to create bargaining power in the allocation and delivery of parts and raw materials, cooperating with internal departments and Mitsubishi Electric Corporation, Japan, to conduct testing and approve the use of substitute parts and raw materials, and selecting more than one manufacturer to reduce the risk of shortages of parts and raw materials, etc. In addition, it emphasizes good partnerships with key suppliers by fostering close cooperation and updating production data and advance purchase plans, allowing suppliers to plan production and prepare parts and raw materials more accurately.

By doing the countermeasures mentioned above, the Company can solve the supply problems and follow up on parts and raw materials to produce and deliver products in time to meet customer needs.

Risk 7 Financial risk

Related risk topics : Financial Risk

- Change in financial and investment policies of financial institutions that affect business operations
- Default on payment or exchange of goods
- Fluctuation in exchange rates, interest rates, or the inflation rate
- Liquidity risk

Risk characteristics

The Company exposes to reasonable business risk from changes in interest rates and foreign exchange rates, including from non-compliance with the contractual obligations of the contract parties

Risk-related consequences

- Foreign exchange risk to which the Company is exposed arises from its sales of products and settlement of purchase prices of goods, raw materials, and machinery and equipment in foreign currencies. The company has opened a foreign currency deposit account to reduce the risk of foreign currency exchange rates when receiving and paying for products and raw materials to reduce the difference in exchange rates. The company has opened a foreign currency deposit account to reduce the risk of foreign currency exchange rates when receiving and paying for products and raw materials to reduce the difference in exchange rates.
- Interest rate risk is the risk that arises in the future when the level of interest rates fluctuates, which will affect the Company's operation and cash flow. However, the Company believes that risk incidental to interest rates is insignificant because the Company does not borrow any loan and its deposits and other financial assets carry a short maturity period with interest based on the market rate. Therefore, the Company has not made any forward contract to prevent against such risk.
- Credit risk is risk arising from failure by customers or counterparties to repay debts to the Company as scheduled according to the agreed terms and conditions. The Company has mapped out a credit policy to regularly manage and control this risk by conducting a careful financial soundness analysis on all customers who apply for credit lines. The Company is confident that there will be no material impact from any uncollectible debts from its customers.
- Liquidity risk is managed by means of maintaining an adequate amount of cash and cash equivalents as required for business operations to minimize impact from cash flow fluctuation.

Risk management measures

Risk management is an essential part of business, which the Company has a system to control the balance of acceptable risk levels. By considering the cost of risk and the cost of risk management, the Company has constant control of the Company's risk management process to ensure that there is a balance between risk and risk control.

Risk 8 Labour risk

Related risk topics : Operational Risk

- Impact from population structure

Risk characteristics

Thailand is entering an ageing society due to the problem of a meagre population growth rate, and people like to pursue higher education. This may cause a labour shortage problem in the future

Risk-related consequences

The risk of labor shortage may lead to production disruptions, decreased operational efficiency, and delays in product delivery, potentially affecting customer satisfaction and the company's revenue.

Risk management measures

The company has used many measures, including providing compensation, incentives, and competitiveness. Therefore, it can maintain and recruit people to work continuously. In addition, the Company has successively built bilateral collaboration with vocational educational institutes aiming to enhance their teaching and learning as well as real practical skills, and recruited quality foreign labor such as Cambodian labor, resulting in relief of labor shortage risk to some extent.

Risk 9 Risk concerned with changes in laws

Related risk topics : Strategic Risk

- Government policy

Operational Risk

- Safety, occupational health, and working environment
- Impact on the environment
- Impact on human rights

Compliance Risk

- Change in laws and regulations

Risk characteristics

Thailand has introduced several new laws and regulations that have been significant for the Company over the past year. These include labor protection laws, personal data protection laws, environmental laws, occupational health and safety regulations, as well as laws related to renewable energy and energy conservation. Additionally, there are new industrial product standards and tax regulations, with various fee rates that will no longer be exempt due to the improvement of the COVID-19 situation. Companies listed on the Stock Exchange of Thailand must also comply with regulations from the Securities and Exchange Commission.

Risk-related consequences

- Risk of non-compliance being complained of, fined or having the license revoked
- Operations are being disrupted while waiting for regulations to be amended, or the production and export processes are temporarily halted.

Risk management measures

The Company recognizes as critically important across all areas of operation. To ensure compliance with applicable laws and regulations, the Company has established a dedicated unit responsible for overseeing and monitoring legal enforcement. This unit also issues internal regulations to maintain organizational confidentiality, create a personal data registry, and establish non-disclosure agreements with external individuals or organizations to prevent data leakage that could affect both internal and external parties. These efforts are considered an essential aspect of the Company's social responsibility.

2.2.2 Risk to securities holders

Are there any risk factors affecting securities holders? : No

2.2.3 Risk to securities holders from investing in foreign securities (applicable to only foreign companies)

Are there any risk factors affecting securities holders : No
from investing in foreign securities?

3. Business sustainability development

3.1 Policy and goals of sustainable management

Sustainability Policy

Sustainability Policy : Yes

Corporate Sustainability Management Policy

To realize a prosperous society in which a "sustainable global environment" and a "safe, stable, and comfortable society" are compatible", as declared in one of the Company's management policies. The Company recognizes the importance of sustainable development to help the organization grow steadily as a guideline for the organization's operations to cover and balance in 3 dimensions: economy, society, and environment. Under the principles of good corporate governance throughout the business value chain and considering the impact on stakeholders, society and the environment, the Company announced the policy to drive the organization and conduct business under the management framework to be in the same direction.

In this regard, the Company's directors, executives, and all employees at all levels have a duty to support, encourage and implement in accordance with this policy, as well as transfer and communicate this policy to relevant parties and all groups of stakeholders to strengthen the potential of sustainable development together.

Scope of the report

The Company has an objective of operating its business with social and environmental responsibility under the philosophy of business operation as "Innovating For a Better Tomorrow." It is committed to developing personal capabilities, innovating products of value, supporting customers' wealth and growth, fostering quality of the society, and bringing sustainable returns to the shareholders so that the organization can stay happy with the community and the public, and concurrently bring ongoing prosperity to all stakeholders for the Sustainable Development. This report presents the results of the Company's sustainable business operations with a period from April 1, 2024 to March 31, 2025.

Reference link for sustainability policy : <https://www.mitsubishi-kyc.com/EN/corporate-sustainability.asp>

Sustainability management goals

Does the company set sustainability management goals : Yes

Sustainability management goals

The Company, as a manufacturer and distributor of electrical appliances under the trademark "Mitsubishi Electric", is committed to conducting business under the concept of sustainable development that is applied to cover its operations throughout the organization as follows.

1. People
2. Planet
3. Prosperity
4. Peace
5. Partnership

United Nations SDGs that align with the organization's sustainability management goals : Goal 1 No Poverty, Goal 2 Zero Hunger, Goal 3 Good Health and Well-being, Goal 4 Quality Education, Goal 5 Gender Equality, Goal 6 Clean Water and Sanitation, Goal 7 Affordable and Clean Energy, Goal 8 Decent Work and Economic Growth, Goal 9 Industry, Innovation and Infrastructure, Goal 10 Reduce Inequalities, Goal 11 Sustainable Cities and Communities, Goal 12 Responsible Consumption and Production, Goal 13 Climate Action, Goal 14 Life below Water, Goal 15 Life on Land, Goal 16 Peace, Justice and Strong Institutions, Goal 17 Partnerships for the Goals

Review of policy and/or goals of sustainable management over the past year

Has the company reviewed the policy and/or goals of sustainable management over the past year : Yes

Has the company changed and developed the policy and/or goals of sustainable management over the past year : No

3.2 Management of impacts on stakeholders in the business value chain

3.2.1 Business value chain

Management of impacts on stakeholders in the business value chain

Business Value Chain

Operation with stakeholders is a matter of great importance for the company. The company takes into account the groups of stakeholders as well as manages the sustainability of activities throughout the business value chain from upstream, namely the procurement of raw materials and transportation in the production process until downstream business activities such as product development procurement, product transportation and distribution of products and services to respond to the needs and expectations of all stakeholder groups and create a balance between value from operations. Businesses for all stakeholders can build good relationships and confidence in operations between the companies and stakeholders. It adheres to the principles of the circular economy throughout the value chain and product life cycle to promote the maximum use of resources and increase recycling and reuse, reduce waste, and reduce greenhouse gas emissions, ready to meet the needs of customers who care about the environment.

Stakeholder Connecting

In assessing the stakeholders, the Company's work units in charge of dealing and coordinating with each stakeholder groups through the joint meetings and email: information@kye.meap.com. The Company has brought complaints, suggestions, and opinions as a guideline for improving operations and responding to the expectations of all stakeholders appropriately. According to the Company's business ethics, Article 7, "Relationships with Stakeholders", conducting business and coordinating relationships based on honesty and fairness promotes good cooperation that would bring about sustainable development and growth.

3.3 Management of environmental sustainability

3.3.1 Environmental policy and guidelines

Environmental policy and guidelines

Environmental policy and guidelines	: Yes
Environmental guidelines	: Electricity management, Fuel management, Renewable/clean energy management, Water resources and water quality management, Waste management, Greenhouse gas and climate change management, Air quality management, Noise pollution management

The Overall of Environmental Policy and Practice

The Company is well aware of the importance of the environment; therefore, the policy and goals are clearly defined and reviewed for continuous improvement annually. Employees at all levels have to adhere.

According to the 2024 Environmental Management Policy, To realize a prosperous society in which a "sustainable global environment" and a "safe, stable, and comfortable society" by abiding with social norms and laws, as declared in one of the most important management policies, which the Company issues activities entitled to the system as follows:

1. Implement an environmental management system with periodic reviews and promote continuous improvement.
2. Strive to expand eco-friendly products that reduce the environmental impact of the entire product life cycle while creating products that create a comfortable living environment.
 - Strengthen development of energy-saving products to achieve a carbon neutral society.
 - Strengthen 3R development aimed at creating a circular economy.
 - Comply with environmental regulations related to products.
3. Promote an eco-factory and aim for a production system that conserves resources and has a low environmental impact.
 - Promote energy saving in manufacturing processes to achieve a decarbonized society.
 - Reduce CO2 emissions in transportation
 - Promote total waste generation control, resources recycling, efficient use of water and reduction of pollution load.
 - Reduce the use of chemical substances, substitution and appropriate management.
 - Reduce the emissions of greenhouse gases other than CO2
4. Disseminate the environmental policy, provide technical guidance, and strive for ecological improvement activities for all employees, affiliated companies, and cooperating companies as a whole SCM
5. Strengthen communication with local communities and raise awareness of environmental conservation by participating in local volunteer activities.
6. Comply with environmental laws, regulations, and other requirements, strengthen risk management, and improve environmental conservation.
7. Implement a Carbon Footprint Organization (CFO) and improve greenhouse gas management strategies and awareness.

The Environmental Policies and Practices under the following key areas:

1. Energy Management

The company has implemented an energy management system in compliance with legal requirements (8-step process) and adopted the international standard ISO 50001:2018. An energy conservation policy has been established, focusing on departments with high energy-consuming machinery and equipment. These departments are required to identify energy-saving measures and continuously improve the energy efficiency of such equipment in accordance with the nature and volume of their electricity usage.

2. Oil and Fuel Management

The company has adopted a policy for managing oil and fuel used in production processes. This includes improving the combustion efficiency of ovens and melting furnaces, as well as converting fuel-powered forklifts to electric ones in order to achieve zero fuel combustion by 2030, in line with the company's greenhouse gas reduction targets.

3. Renewable/Clean Energy Management

The company promotes the continuous use of renewable energy to reduce external electricity consumption by installing solar power

generation systems on building rooftops.

4. Water Resource and Water Quality Management

The company has implemented a management system aimed at efficient water usage, reducing water consumption in both production and

support activities. Efforts are made to increase the use of recycled water by treating and filtering it for safe reuse.

Additionally, wastewater discharged outside the facility is strictly monitored, with monthly quality inspections conducted by certified inspectors authorized by the Department of Industrial Works.

5. Waste and Waste Material Management

The company promotes proper waste segregation among employees and organizes activities to reduce production waste and waste from employee consumption. The 3Rs principle (Reduce, Reuse, Recycle) is applied. Industrial waste is treated or disposed of by authorized service providers with a focus on reuse and recycling. No industrial waste is sent to landfills, and all service providers must be licensed by the Department of Industrial Works.

6. Greenhouse Gas and Climate Change Management

The company has established environmental policies to address greenhouse gas management, including the calculation of the organization's carbon footprint. This identifies both emissions and offsets related to company activities. Environmental and energy action plans are then developed to reduce greenhouse gases, including initiatives such as raw material reduction, use of recycled water, electricity conservation, and reducing LPG gas consumption.

7. Air Quality Management

The company manages air quality by regularly inspecting air pollution control equipment, replacing activated carbon in odor trapping systems as scheduled, and measuring air quality as required by law. All measurements are conducted by inspectors certified by the Department of Industrial Works.

8. Noise Pollution Management

The company prevents noise pollution primarily at the source, ensuring machinery does not emit noise beyond legal standards. If risks are identified, sound barriers or covers are installed. Appropriate personal protective equipment is provided for high-noise areas. If the average noise level over an 8 hour shift reaches 85 dBA or more, or if hearing loss is detected (≥ 15 dB compared to baseline in one or both ears), the affected work area will be included in the company's Hearing Conservation Program. A Noise Contour Map is also displayed to visualize overall noise levels in each area.

Review of environmental policies, guidelines, and/or goals over the past year

Review of environmental policies, guidelines, and/or goals : Yes
over the past year

Changes in environmental policies, guidelines, and/or goals : Electricity management, Fuel management, Renewable/clean energy management, Water resources and water quality management, Waste management, Greenhouse gas and climate change management, Air quality management, Noise pollution management

1. Electrical Energy Management

A review of 2024 activities led to the following improvements for 2025

- Designating target product models aligned with the product development plan and establishing clear energy reduction goals (in percentage) to serve as 2025 targets.
- Designing and developing energy-efficient products to reduce CO2 emissions and achieve 3-Star Label No. 5 certification.

2. Oil and Fuel Management

A review of 2024 activities led to the following improvements for 2025

- Converting fuel-powered vehicles to electric systems, such as tricycles, small trucks, and external business vehicles.

- Enhancing the efficiency of ovens and furnaces, along with studying the feasibility of switching to electric energy.

3. Renewable/Clean Energy Management

A review of 2024 activities led to the following improvements for 2025.

- Planning to expand the use of renewable energy by increasing the installation of rooftop solar panels annually, targeting a total capacity of 5.15 MW by 2030.
- Planning to purchase Renewable Energy Certificates (REC) to promote the production and use of renewable energy, which can also be used to offset greenhouse gas emissions from electricity consumption.

4. Water Resource and Water Quality Management A review of 2024 activities led to the following improvements for 2025 due to a lack of clarity in identifying the sources of wastewater:

- Considering the installation of additional water meters in production-related areas, identifying specific locations, and developing an installation plan.
- Considering the installation of additional water meters in non-production areas such as restrooms and canteens, along with identifying specific locations and developing an installation plan.
- Reducing the use of tap water by considering the use of recycled water for applications such as cooling towers and pre-treatment processes.

5. Waste and Waste Material Management

A review of 2024 activities led to the following improvements for 2025

- Categorizing waste generated from production into hazardous and non-hazardous types to facilitate process improvement.
- Increasing control and reducing waste generated by office (production support) departments.
- Conducting training and communicating environmental management practices to all relevant personnel and contractors.
- Adding a performance indicator to monitor food waste from consumption.

6. Greenhouse Gas and Climate Change Management

A review of 2024 activities led to the following improvements for 2025

- Applying the 3Rs principle (Reduce, Reuse, Recycle) to reduce and optimize raw material usage.
- Reducing electricity consumption in products by designing and developing energy-saving models to lower CO2 emissions and achieve 5-Star Label certification.
- Increasing the use of recycled water to reduce the consumption of natural water resources and environmental pollution.
- Substituting or reducing the use of hazardous chemicals with safer alternatives.
- Raising awareness among all employees about reducing general and industrial waste through campaigns and training.
- Improving the efficiency of transporting components and products to reduce greenhouse gas emissions.
- Using renewable energy through the installation of rooftop solar power systems.
- Reducing electricity consumption by replacing or upgrading machinery for better energy efficiency.
- Planning employee training to increase understanding of energy-related variables and to develop energy specialists.

7. Air Quality Management

A review of 2024 activities led to the following improvements for 2025

- Monitoring air emissions from the factory every six months in accordance with legal requirements.
- Inspecting ventilation and odor control systems every three months to ensure effective operation.
- Maintaining ventilation and odor control systems on a regular schedule by responsible departments.

8. Noise Pollution Management

The company manages noise pollution primarily by controlling the noise at its source. Machinery used must not exceed the legal noise limits. If noise risks are identified, the company will implement control measures such as installing covers or partitions. Appropriate personal protective equipment (PPE) is provided for work areas with high noise levels. If the average noise exposure over an 8 hour shift is 85 dBA or higher, or if a worker shows hearing loss of 15 dB or more compared to the baseline in either or both ears, the company will enroll the affected work area in a hearing conservation program. A noise contour map will also be installed to provide an overview of noise levels in the respective areas.

3.3.2 Environmental operating results

Information on energy management

Energy management plan

The company's energy management plan : Yes

The company has implemented an energy management system in compliance with legal requirements (8 steps) and has adopted the international standard ISO 50001:2018 for energy management. The system focuses on identifying and evaluating Significant Energy Use (SEU) equipment and machinery, measuring their energy performance, and identifying energy conservation measures for each department. The objective is to reduce energy consumption and improve energy efficiency in alignment with appropriate production levels.

Each energy conservation measure includes specific energy reduction targets, action plans, and post-implementation energy consumption measurements. These measurements are compared against the targets to evaluate effectiveness. The results are then consolidated to establish the company's overall energy reduction goals.

Electrical Measures

- Measure 1: Replacing the Hydraulic motor with a Servo motor on a 450-ton plastic injection machine to enhance the machine's energy efficiency, resulting in an annual electricity savings of 72,527 kilowatt-hours, a yearly cost savings of 297,360 baht, and a reduction in CO₂e emissions of 43.41 tons of carbon dioxide equivalent.
- Measure 2: Fixing air leaks in the air compression system during the production process in Buildings 1, 2, 3, 4, 9, and 11 saves 152,418 kilowatt-hours of electricity per year, amounts to 624,914 baht per year in savings, and reduces CO₂e emissions by 91.24 tons of carbon dioxide equivalent.
- Measure 3: Refraining from overtime work throughout the Company each month to be consistent with energy production and management, which can save 188,562 kilowatt-hours of electricity per year, save 773,317 baht/year and reduce CO₂e emissions by 112.87 tons of carbon dioxide equivalent.
- Measure 4: Replace old motors of machines with high-efficiency motors (IE3) to reduce the energy consumption of machines with large motors, which can save 30,076 kilowatt-hours of electricity per year, equivalent to a cost savings of 123,312 baht per year and reduce CO₂e emissions by 18.01 tons of carbon dioxide equivalent.
- Measure 5: Expand the installation of equipment to control the on-off time of water coolers in the production line, resulting in 63,394-kilowatt-hour electricity savings per year, equivalent to a cost savings of 259,915 baht per year and a reduction in CO₂e emissions by 37.95 tons of carbon dioxide equivalent.
- Measure 6: Adjust the operating time of air conditioners (Precision Air) in the server room, which can save 6,431 kilowatt-hours of electricity per year, amounting to 26,367 baht per year, and reduce CO₂e emissions by 3.85 tons of carbon dioxide equivalent.
- Measure 7: Replacing T5 fluorescent lamps with LED bulbs in all production departments can save 100% of the energy, resulting in 20,904 kilowatt-hours of electricity per year, equivalent to 85,706 baht per year in savings, and reduce CO₂e emissions by 12.51 tons of carbon dioxide equivalent.
- Measure 8: Installing an inverter to control the motor speed, which adjusts according to the motor load, can save 5,224 kilowatt-hours of electricity per year, reduce expenses by 21,418 baht per year, and decrease CO₂e emissions by 12.51 tons of carbon dioxide equivalent.

All measures can save 539,536 kilowatt-hours of electricity per year, equivalent to saving 2,212,098 baht per year, and a reduced CO₂e emissions by 322.97 tons of carbon dioxide equivalent.

Thermal measures

- Measure 1: Controlling the opening and closing of the paint oven and aluminum smelting furnace to match the production volume, which can save 67,708 megajoules of heat energy per year, equivalent to a cost savings of 33,675 baht per year and reduce CO₂e emissions by 7.27 tons of carbon dioxide equivalent.

Setting goals for managing electricity and/or oil and fuel ⁽¹⁾

Does the company set goals for electricity and/or fuel : Yes
management

Details of setting goals for electricity and/or fuel management

Target(s)	Base year(s)	Target year(s)
Reduction of electricity purchased and fuel consumption	2023 : energy consumption 76,334,633.00 Mega Joules	2024 : Reduced by 1.63% or 1,337,206.00 Mega Joules
Increase of electricity consumption from renewable energy sources	2023 : electricity consumption from renewable sources 1,567,129.00 Mega Joules	2024 : Increased by 19.1% or 3,936,409.00 Mega Joules

Remark : ⁽¹⁾ The target year is calculated in comparison with the 2024 energy baseline.

Performance and outcomes of energy management

Performance and outcomes of energy management : Yes

In 2024, the company set targets to reduce the consumption of electricity, oil, and fuel, as well as to increase the use of electricity generated from renewable energy sources. The results of the implementation are as follows:

- Reduction in electricity, oil, and fuel consumption Target: 1.63% (1,337,206 MJ) Achieved: 1.23% (934,672 MJ)
 - Electricity consumption reduction Target: 1.7% (350,659 kWh) Achieved: 1.27% (240,865 kWh)
 - Oil and fuel consumption reduction Target: 0.94% (74,833 MJ) Achieved: 0.91% (67,557 MJ)
- Increase in the use of electricity from renewable energy Target: 19.1% (3,936,409 kWh) Achieved: 18.69% (3,535,480 kWh)

Energy management: Fuel consumption

	2022	2023	2024
Diesel (Litres) ⁽²⁾	7,422.00	29,668.00	27,301.00
Gasoline (Litres) ⁽³⁾	3,710.00	25,775.00	25,178.00
LPG (Kilograms)	215,103.00	177,524.00	146,021.00

Remark : ⁽²⁾ In 2022, the amount of diesel consumption did not include the usage data of company vehicles used for business purposes.

⁽³⁾ In 2022, the amount of gasoline consumption did not include the usage data of executive vehicles and company vehicles used for business purposes

Energy management: Electricity consumption

	2022	2023	2024
Total electricity consumption within the organization (Kilowatt-Hours) ⁽⁴⁾	24,415,491.00	20,185,514.00	18,916,362.00
Electricity purchased for consumption from non-renewable energy sources (Kilowatt-Hours)	23,149,402.00	18,618,385.00	15,380,882.00
Electricity purchased or generated for consumption from renewable energy sources (Kilowatt-Hours)	1,266,089.00	1,567,129.00	3,535,480.00

Remark : ⁽⁴⁾ material quantity are quantity of refrigerator, electric fan, exhaust fan and water pump.

Information on water management

Water management plan

The Company's water management plan : Yes

The company's water management plan is categorized into two main areas as follows:

1. Water Reduction

- Implement activities to reduce water usage in both production processes and supporting operations. Examples include reducing water consumption in cooling towers, surface cleaning processes, and water pump product testing.

2. Increasing the Use of Recycled Water

- The company has installed a recycled water filtration system to improve the quality of treated wastewater, ensuring it is safe for reuse. The recycled water is utilized in the following activities:

- 1) Flushing and cleaning restroom floors
- 2) Watering plants
- 3) Washing sludge press filter cloths
- 4) Cleaning solar panel surfaces
- 5) Cleaning the household waste collection area floor
- 6) Spraying water on rooftops to reduce heat

Setting goals for water management

Does the company set goals for water management : Yes

Details of setting goals for water management

Target(s)	Base year(s)	Target year(s)
Reduction of water withdrawal	2023 : Water withdrawal 71,306.00 Cubic meters	2024 : Reduced by 2% or 69,880.00 Cubic meters
Reduction of water consumption	2023 : Water consumption 71,306.00 Cubic meters	2024 : Reduced by 2% or 69,880.00 Cubic meters
Increase of recycled water for consumption	2023 : Recycled water for consumption 20,919.00 Cubic meters	2024 : Increased by 47% or 26,312.00 Cubic meters

Performance and outcomes of water management

Performance and outcomes of water management : Yes

Water Management Performance and Results are categorized into two areas as follows:

1. Reduction in Water Consumption

For the fiscal year 2024, the company established a water reduction target as part of its environmental management plan with the following details:

- Target: Reduce water consumption by 2% compared to the previous year (fiscal year 2023)
- Result for Fiscal Year 2024 : Water consumption was 70,020 cubic meters per year, representing a -0.2% change compared to the target. This slightly exceeded the target due to the replacement of the main water supply pipe from steel to HDPE. After the installation, water had to be drained to clean out residual impurities in the pipes, such as dust and pipe debris.

2. Increase in Recycled Water Usage

- Target: Increase the usage of recycled water to 47% of the treated wastewater volume
- Result for Fiscal Year 2024 : Recycled water usage reached 45%, equivalent to 26,312 cubic meters per year. The target was not achieved due to a malfunction of the booster pump supplying recycled water to restrooms during May–June 2024, which led to a decrease in the proportion of recycled water used.

Water management: Water withdrawal by source

	2022	2023	2024
Total water withdrawal (Cubic meters)	79,144.00	71,306.00	70,020.00
Water withdrawal by third-party water (cubic meters)	79,144.00	71,306.00	70,020.00

Water management: Water discharge by destinations

	2022	2023	2024
Percentage of treated wastewater (%)	74.00	63.00	89.00
Total wastewater discharge (cubic meters)	35,577.00	24,244.00	32,464.00
Wastewater discharged to surface water (cubic meters)	35,577.00	24,244.00	32,464.00

Water management: Water consumption

	2022	2023	2024
Total water consumption (Cubic meters)	43,567.00	47,062.00	37,556.00

Water management: Recycled water consumption

	2022	2023	2024
Total recycled water for consumption (Cubic meters)	26,773.00	20,919.00	26,312.00

Information on waste management**Waste management plan**

The company's waste management plan : Yes

The company promotes proper waste segregation among employees and also implements activities to reduce waste generated from both production processes and employee consumption, based on the 3Rs principle (Reduce, Reuse, Recycle). For industrial waste generated within the company, priority is given to treatment or disposal by authorized contractors who are capable of reusing or recycling the waste. The company does not support the disposal of industrial waste by landfill. Contractors must be officially licensed by the Department of Industrial Works before the waste can be removed from the premises.

Setting goals for waste management ⁽⁵⁾

Does the company set goals for waste management : Yes

Details of setting goals for waste management

Target(s)	Base year(s)	Target year(s)	Waste management methods
Reduction of waste generation Waste type: Non-hazardous waste	2023 : non-hazardous waste 13.05 Kilograms	2024 : Reduced by 5% or 0.69 Kilograms	• Recycle

Remark : ⁽⁵⁾ The data used for setting waste and waste management targets pertains solely to general waste, with the unit of measurement being kilograms per person.

Performance and outcomes of waste management

Performance and outcomes of waste management : Yes

The company systematically manages waste within the organization based on the 3R principles (Reduce, Reuse, Recycle), with an efficient waste segregation system in place. Efforts are made to raise awareness and instill a sense of responsibility among employees regarding waste separation, aiming to reduce waste disposal through landfilling. In 2024, the company generated a total waste volume of 2,301,108.4 kilograms. Compared to 2023, this represents a reduction of 207,973.95 kilograms in total waste and a decrease of 3,570 kilograms in waste sent to landfill.

Diagram of Performance and outcomes of waste management

Raise awareness and instill a sense of responsibility regarding waste separation.

Promotes proper waste segregation

Waste management: Waste Generation

	2022	2023	2024
Total waste generated (Kilograms)	2,256,573.89	2,509,082.35	2,301,108.40
Total non-hazardous waste (kilograms)	1,862,653.14	2,400,575.85	2,181,839.30
Non-hazardous waste - Landfilling (Kilograms)	43,892.00	28,945.00	25,375.00
Non-hazardous waste - Incineration with energy recovery (Kilograms)	24,210.00	26,707.00	33,189.00
Non-hazardous waste – Others (kilograms)	1,794,551.14	2,344,923.85	2,123,275.30
Total hazardous waste (kilograms)	393,920.75	108,506.50	119,269.10
Hazardous waste - Incineration with energy recovery (Kilograms)	113,280.00	66,350.00	57,295.00
Hazardous waste - Incineration without energy recovery (Kilograms)	9,260.00	6,790.00	7,610.00
Hazardous waste – Others (kilograms)	271,380.75	35,366.50	54,364.10

Waste management: Waste reuse and recycling

	2022	2023	2024
Total reused/recycled waste (Kilograms)	2,065,932.39	2,380,190.85	2,171,346.40
Reused/Recycled non-hazardous waste (Kilograms)	1,794,551.14	2,344,923.85	2,117,072.30
Reused non-hazardous waste (Kilograms)	34,297.15	284,648.08	300,036.30
Recycled non-hazardous waste (Kilograms)	1,760,253.99	2,060,275.77	1,817,036.00
Reused/Recycled hazardous waste (Kilograms)	271,381.25	35,267.00	54,274.10
Reused hazardous waste (Kilograms)	315.50	507.00	591.10
Recycled hazardous waste (Kilograms)	271,065.75	34,760.00	53,683.00

Information on greenhouse gas management

Greenhouse gas management plan ⁽⁶⁾

The company's greenhouse gas management plan : Yes

From the announcement of the policy and goals of Mitsubishi Electric Corporation, Japan in terms of greenhouse gas management to achieve Net-zero emission in Scope 1, Scope 2 by 2030 and Scope 3 by 2050, using 2023 as the base year, Kang Yong Electric Co., Ltd. (Public Company Limited) has used the Mitsubishi Electric Group policy to create a plan and set the company's goals. The details of the greenhouse gas management plan are as follows:

1. Create a Net-Zero Greenhouse Gas Emissions plan
 - 1.1 Initially, focus on reducing greenhouse gas emissions in Scope 1, 2 by 2030
 - 1.2 Implement in the energy management system plan and environmental management system
 - 1.3 Plan for the long term in renewable energy production and the use of renewable energy production certificates
2. Preparation of the organization's carbon footprint (Carbon Footprint for Organization)
 - 2.1 Identify all activities of the organization
 - 2.2 Data collection and calculation of carbon dioxide emissions
 - 2.3 Assess the amount of emissions and request data certification from the Greenhouse Gas Management Organization (Public Organization)
3. Energy management system according to the international standard ISO50001, consistent with Scope 1,2
 - 3.1 Collect data on electricity and heat consumption along with production volume
 - 3.2 Announce the energy management policy, energy conservation and renewable energy
 - 3.3 Plan and set goals for energy and heat conservation activities
 - 3.4 Conduct energy conservation activities according to the plan and hold a meeting to follow up every 3 months
 - 3.5 Summarize the results of the activities to compare with the goals
4. Environmental management system according to the international standard ISO14001 in line with Scope 3
 - 4.1 Collect data along with production volume
 - 4.2 Announce the environmental management policy, water management, waste management
 - 4.3 Plan and set goals for environmental activities
 - 4.4 Conduct water management, waste management activities according to the plan and hold a meeting to follow up every 3 months
 - 4.5 Summarize the results of the activities to compare with the goals

Remark : ⁽⁶⁾ For Scope 3, there is no long-term plan for greenhouse gas management. There is only a target set according to the Mitsubishi Electric Group policy.

Compliance with principles and standards for greenhouse gas or climate change management

Principles and standards for greenhouse gas or climate change : Thailand Greenhouse Gas Management Organization (TGO)

Setting greenhouse gas emission goals

Does the company set greenhouse gas management goals : Yes

Company's existing targets : Setting net-zero greenhouse gas emissions targets

Setting net-zero greenhouse gas emissions targets

Details of setting net-zero greenhouse gas emissions targets

Greenhouse gas emission scope	Base year(s)	Short-term target year	Long-term target year	Certification
Scope 1	2023 : Greenhouse gas emissions 981.00 tCO ₂ e	-	2030 : Reduced by 100% or 981.00 tCO ₂ e in comparison to the base year	<ul style="list-style-type: none"> Thailand Greenhouse Gas Management Organization (TGO) : None Science-based Targets (SBTi) : None
Scope 2	2023 : Greenhouse gas emissions 9,308.00 tCO ₂ e	-	2030 : Reduced by 100% or 9,308.00 tCO ₂ e in comparison to the base year	<ul style="list-style-type: none"> Thailand Greenhouse Gas Management Organization (TGO) : None Science-based Targets (SBTi) : None
Scope 3	2023 : Greenhouse gas emissions 171,412.00 tCO ₂ e	-	2030 : Reduced by 100% or 171,412.00 tCO ₂ e in comparison to the base year	<ul style="list-style-type: none"> Thailand Greenhouse Gas Management Organization (TGO) : None Science-based Targets (SBTi) : None

Performance and outcomes of greenhouse gas management

Performance and outcomes of greenhouse gas management : Yes

1. Energy Management

1.1 Implement activities to improve production machinery and production support machinery to high-efficiency types

- Improve plastic injection machines from Hydraulic to Servo Motor
- Change low-efficiency motors to high-efficiency IE3 motors

1.2 Reduce the work of electrical appliances by setting the on-off time

- Set the on-off time of water coolers during non-use periods
- Set the on-off time of air conditioners during lunch breaks

1.3 Create awareness of efficient energy use, such as checking the use of air compressors and checking for air leaks in the system

1.4 Improve the production process and adjust overtime work to be appropriate for production volume

- Reduce overtime work to reduce energy use during low production periods
- Shut down some machines and combine production models

1.5 Use energy from Solar Rooftop with a production capacity of 3 MW and electricity production of 3,535 MWh or 1,767 tCO₂e and plan for additional installations the target for CO₂ Scope 1,2 emissions in 2024 is 8,815 tCO₂e, and from the results of activities to reduce CO₂ emissions, 8,401 tCO₂e were released, which exceeded the target by 414 tCO₂e and decreased by more than 1,887 tCO₂e compared to 2023.

2. Environmental management

2.1 Efficient use of resources using the 3Rs principle

- Reduce consumption parts in both production process activities and production support activities

- Reduce electricity consumption in the product
 - Reduce raw material use in the production process
 - Efficient use of resources, such as recycling plastic, steel, brass parts, reusing packaging boxes
- 2.2 Use clean production technology practices (Cleaner Production, CP)
- Change or reduce the use of less hazardous chemicals
 - Increase green space within the company's area
 - Support more environmentally friendly procurement
 - Reduce general waste from employee consumption
- 2.3 Raising awareness (Environmental awareness)
- Inspection of waste sorting within the factory
 - Environmental training for new employees and environmental campaigns for employees within the company
- 2.4 Preparation for becoming a carbon footprint organization (CFO)
- 2.5 Being an organization certified Green Industry Level 4 (GI-4)

3. Carbon Footprint for Organization Certification

3.1 The company received the Carbon Footprint for Organization certification in fiscal year 2024 on June 21, 2024. And received the certificate from the Greenhouse Gas Management Organization (Public Organization) on September 19, 2024. This was done for the first time (set as the base year) and will continue in fiscal year 2025.

3.4 Social sustainability management

3.4.1 Social policy and guidelines

Social and human rights policy and guidelines	:	Yes
Social and human rights guidelines	:	Employee rights, Migrant/foreign labor, Child labor, Consumer/customer rights, Community and environmental rights, Safety and occupational health at work, Non-discrimination, Supplier rights

To fulfil a social responsibility based on our management philosophy, the Company encourages all directors, managers, and employees to perform their duties under the following 8 business ethics.

1. Agreement and Law Abiding

Aware that agreement and law-abiding are fundamental principles of morality, the Company will not enter into contracts that violate laws and social norms and will strive to earn the trust of business partners by faithfully fulfilling the contracts. In addition, the Company will adhere to managing business activities with a keen sensitivity to society's ethics and common sense.

2. Respect for Human Rights

The Company will always respect human rights in all business activities without discrimination based on race, ethnicity, nationality, gender, age, creed, religion, social status, gender identity/sexual orientation, disability, etc. Furthermore, the Company will not engage in any behavior that disregards human character, such as harassment, defamation, or coercion.

3. Contribution to society

The Company is concerned with developing society as a corporate social responsibility and pursuing appropriate profits for the organization.

4. Coordination and harmonization with the local

As a corporate citizen, the Company will actively participate in local community events and contribute to the development of the community.

5. Realizing a sustainable society

Aim to create a recycling-oriented society and contribute to the realization of a sustainable society through business activities.

6. Awareness as a manufacturer

Realize the duty as a manufacturer to protect the assets such as personal information and tangible and intangible assets. Maintain a good image, data, and punctuality. Strictly enforce the distinction between public and private, such as prohibiting political action and disclosing only fact information.

7. Relationship with stakeholders

Recognize the responsibility to society and the stakeholders by conducting business fairly and operating the Company in good cooperation, which affects the development and sustainable growth of the Company.

8. Conflicts of interest management

Use verifiable transparent and fair business practices as a strict management control system that prohibits using powers and duties to seek benefits for their own or their companion.

3.4.2 Social operating results

Information on employees and labor

Employees and labor management plan

The company's employee and labor management plan : Yes

Employee and labor management plan implemented by the Company in the past year : Fair employee compensation, Employee training and development, Promoting employee relations and participation, Migrant/foreign labor, Child labor, Safety and occupational health at work

Fair Employment Practices

1. We shall comply with labor laws in each country and region where we operate, including internal company regulations and rules of employment.
2. We shall adhere to laws and regulations related to occupational safety and health, placing the utmost importance on the well-being of employees to ensure that all personnel can maintain both physical and mental health and perform their duties with strength and resilience.
3. We shall provide a safe and comfortable working environment that allows employees to carry out their responsibilities with peace of mind and a sense of satisfaction.

Setting employee and labor management goals

Does the company set employee and labor management goals : No

Performance and outcomes for employee and labor management

Performance and outcomes for employee and labor management : Yes

Thailand is entering an aging society, driven by a very low population growth rate and a growing trend of individuals pursuing higher education. This situation may lead to a future labor shortage, particularly in the private industrial sector, as fewer individuals enter the workforce. As a result, intense competition for labor has emerged, with companies offering higher compensation and enhanced benefits to attract workers. To address this challenge, the Company has implemented various measures, including offering competitive compensation and incentive benefits, which have enabled it to retain and recruit employees on a continuous basis.

In addition, the Company has actively pursued dual vocational education programs in collaboration with vocational colleges under the Office of the Vocational Education Commission. These programs aim to enhance practical skills and improve the effectiveness of vocational training. The Company has also recruited qualified foreign workers, such as Cambodian employees, to supplement the workforce—successfully mitigating the risks associated with labor shortages.

Information about customers

Customer management plan

Company's customer management plan : Yes

Customer management plan implemented by the company over the past year : Responsible production and services for customers, Communication of product and service impacts to customers/consumers, Development of customer satisfaction and customer relationship, Consumer data privacy and protection

Customer Management Information

The company collects data on product-related complaints, particularly those involving quality defects identified in products that have already been delivered to customers. This information is used to develop customer management plans and to conduct root cause analysis in order to implement corrective actions and prevent recurrence.

Customer Management Plan

In the event of a serious defect in a product sold through a sales company (including defects identified through after-sales service), where the issue falls within the scope of the company's operations and product liability, the company will promptly convene a meeting to establish a comprehensive management plan. This includes urgent response measures for affected customers, root cause analysis, corrective actions, recurrence prevention measures, and actions to manage any defective products that may have already entered the market.

Information on community and society

Community and social management plan

Company's community and social management plan	:	Yes
Community and social management plan implemented by the company over the past year	:	Employment and professional skill development, Education, Religion and culture, Forests and natural resources, Sports and recreation, Occupational health, safety, health, and quality of life, Disadvantaged and vulnerable groups, Reducing inequality

Employment and Vocational Skills Development

Examples include employing persons with disabilities in accordance with Section 35 of the Persons with Disabilities Empowerment Act and hiring dual vocational education students for internships.

Education

Examples include annually granting scholarships to employees' children, offering internship opportunities to dual vocational education students at the workplace every year, and organizing the "My School for My Community" program, which has been held consistently for five consecutive years.

Religion and Culture

Examples include organizing Kathin (robe offering) ceremonies, candle offering ceremonies for Buddhist Lent, and almsgiving activities on important religious days, with invited monks from a temple that supports orphans in Ang Thong Province.

Forests and Natural Resources

Examples include participating in a reforestation activity in Ban Intrai Community, Pho Ngam Subdistrict, Prachantakham District, Prachinburi Province, in collaboration with the Mitsubishi Foundation and the Royal Forest Department.

Sports and Recreation

Examples include donating sports and recreational equipment as part of the "My School for My Community" initiative.

Occupational Health, Safety, Health, and Quality of Life

Examples include organizing a bus stop cleaning activity at 8 locations along Theparak Road.

Support for the Underprivileged, Vulnerable Groups, and Reducing Social Inequality

An example is the "KYE Virtual Walk & Run" activity, where proceeds were donated to purchase school uniforms, educational supplies, and daily necessities for orphans at Wat Tan Chet Chor, Ang Thong Province.

4. Management Discussion and Analysis (MD&A)

4.1 Operation, financial condition and material changes

Operational overview

Revenues

From sales and services For the fiscal year 2024, the Company's revenues from sales and rendering services decreased by 997.1 million baht or -14.1% from 7,079.3 million baht in the year 2023 to 6,082.2 million baht in the year 2024, divided into the following three major business groups as follows:

- In the domestic market, revenue from sales and rendering services decreased by 244.4 million baht or -8.3% from 2,962.1 million baht in 2023 to 2,717.7 million baht in 2024, mainly due to the sales reduction of the refrigerator and water pump.
- Export to Japan market, revenue from sales decreased from 3,136.4 million baht in 2023 to 2,318.5 million baht in 2024 or decreased 817.9 million baht or -26.1% due to the sales reduction in all products.
- Export to markets elsewhere, the sales increased from 980.8 million baht in 2023 to 1,046.1 million baht in 2024 or increased 65.3 million baht or 6.7%, mainly due to the sales expansion in all products.

Investment income and other

Income Investment income and other income for the fiscal year 2024 was 883.1 million baht, an increase of 191.4 million baht or 27.7% compared to 2023. The increased income mainly came from investment income increased by 230.0 million baht, net foreign exchange gains reduced by 31.4 million baht and while other income decreased by 7.8 million baht.

Cost of Sales and Expenses

The cost of sales and rendering services in 2024 accounted for 89.7% of revenues from sales and rendering services. The parts and raw materials prices were soaring; therefore, the cost of products ratio increased by 3.4% compared to the previous year.

Selling expenses decreased from 291.4 million baht in 2023 to 275.1 million baht in 2024, reducing 16.3 million baht or -5.6% as the royalty fee decreased 24.1 million baht.

Administrative expenses decreased from 575.1 million baht in 2023 to 527.2 million baht in 2024, decreasing by 47.9 million baht or -8.3%. The major reduction was the product development fee, 47.2 million baht.

Profit

In the fiscal year 2024, the Company posted a gross profit margin of 624.7 million baht or 10.3% of revenues from sales and rendering services, which was a -3.4% decrease compared to the previous year. After considering the reduction of the selling expenses, the reduction of administrative expenses, the growth of investment income and other income, and the reduction of income tax; therefore, the net profit for the year 2024 was 702.4 million baht or 11.5% of revenues from sales and rendering services which increased by 1.1% from the year 2023. The net profit rate per share has dropped from 37.25 baht per share in the year 2023 to 35.48 baht per share in the year 2024. The return on equity in the year 2024 decreased from 8.54% in the year 2023 to 7.41% in the year 2024.

Total assets

As of March 31, 2025, the Company recorded total assets of 11,243.4 million baht, increased 128.6 million baht or 1.2% from the corresponding period of the previous year, with changes in essential asset items as follows:

- Cash and cash equivalents as of March 31, 2025, was 243.1 million baht, increased from the previous year by 20.8 million baht or 9.4%.
- Other current financial assets as of March 31, 2025, was 3,228.9 million baht, decreased from the previous year by -1,183.9 million baht or -26.8%. Short-term deposits with financial institutions have decreased, with cash being used to lend short-term loans to related businesses.
- Trade accounts receivables and other receivables as of March 31, 2025 was 900.2 million baht, a decrease of -53.7 million baht or -5.6% from the previous year, mainly due to a reduction in trade accounts receivable. The trade accounts receivable as of March 31, 2025 accounted for 851.4 million baht, decreased -57.5 million baht from 908.8 million baht in the fiscal year 2023.
- Inventories as of March 31, 2025 amounted to 645.2 million baht, a decrease of 77.2 million baht or -10.7% from

the previous year due to a reduction of finished goods, resulting from efficient sales and inventory management; therefore the inventory was lower than the previous year.

- Other non-current financial assets as of March 31, 2025, was 3,356.6 million baht, increased by 142.0 million baht or 4.4 compared to March 31, 2024 due to the fair value adjustment of other investments.

Total liabilities

As of March 31, 2025, the Company had total liabilities of 1,654.8 million baht, a reduction of 91.7 million baht or -5.3% compared to the previous year. The significant changes are as below:

- Trade accounts payable and other payables as of March 31, 2025 was 715.3 million baht, a decrease of -109.1 million baht or -13.2%, mainly due to the trade liabilities decreased as of March 31, 2025, which was 454.5 million baht, decreased from 541.8 million baht in the last year by 87.4 million baht.
- Deferred tax liabilities as of March 31, 2025 was 577.7 million baht, an increase of 30.3 million baht or 5.5%, mainly due to an increase in Gain on equity securities measured at fair value through other comprehensive income.
- Other liabilities as of March 31, 2025 was 90.5 million baht, declined by -9.1 million baht or -9.1% from the last year due to the estimated damage insurance costs are reduced by -6.9 million baht and a decrease in corporate income tax payable of -2.6 million baht.

The cash cycle was four days faster, from 55 days in 2023 to 51 days in 2024, resulting from efficient production and inventory management. The current ratio changed from 7.65 times in year 2023 to 9.02 times in year 2024; as can be seen the Company still has excellent financial stability.

Shareholders' equity

As of March 31, 2025, the Company recorded shareholders' equity of 9,588.7 million baht, increased by 220.5 million baht or 2.4% from the previous year, due to various changes as follows:

- Shareholders' equity increased by 220.5 million baht from its comprehensive income for the year 2024 due to net profit of 702.5 million baht and other comprehensive income of 108.9 million baht.
- Shareholders' equity decreased from dividend payment in August 2024. The Company paid dividends to its shareholders in the total amount of 591.0 million baht at 29.85 baht per share, according to the shareholders' meeting as of July 26, 2024, approved the resolution.

Issuance of debt securities with an obligation to maintain financial ratios

Is there an issuance of debt securities with an obligation : No
to maintain financial ratios?

4.2 Potential factors or incidents that may materially affect the financial condition or the operating results

Significant factors or incidents that may materially affect the future financial condition or the operating results

Foreign Exchange

The Company engages in international transactions involving both imports and exports. As a result, it is inevitably exposed to the risk of fluctuations in foreign exchange rates.

Raw Material and Component Prices

The Company relies on various key raw materials and components such as steel, copper, plastic, and electronic parts. The prices of these inputs are subject to fluctuations based on global market mechanisms and are influenced by external factors such as inflation, energy prices, geopolitical tensions, and global demand and supply dynamics.

Foreign exchange rates and raw material prices are key factors that may significantly impact the Company's financial position and operating results in the future. The Company, therefore, closely monitors relevant developments and implements risk management plans to maintain cost and performance stability as much as possible amid an increasingly uncertain business environment.

guidelines

Determination of director remuneration

The Company places great importance on determining director remuneration based on the principles of fairness, transparency, and alignment with the responsibilities, duties, and scope of work of each director. This approach is intended to attract and retain qualified and competent individuals to effectively oversee the Company's operations. The key principles are as follows:

Remuneration Determination Criteria

1. Based on the scope of responsibilities of each director's position, as well as their knowledge, expertise, and experience beneficial to the Company.
2. Taking into account the Company's performance and business scale to ensure appropriateness.
3. Benchmarking against companies in the same industry and listed companies of similar size.

Types of Remuneration Director remuneration is categorized into the following types:

1. Monthly Remuneration: Paid to members of each board committee.
2. Meeting Allowance: Paid based on the number of meetings attended by each director.
3. Other Remuneration (if any).

Remuneration Approval Process

1. The Nomination and Remuneration Committee is responsible for proposing the remuneration framework and rates for directors to the Board of Directors.
2. The Board of Directors reviews and endorses the proposal before presenting it for approval at the shareholders' meeting.

Disclosure of Information

The Company shall disclose details of director remuneration clearly, transparently, and comprehensively in the Form 56-1 One Report and the Annual Report, including the total amount paid under each type of remuneration.

Reference link for determination of the director remuneration : <https://www.mitsubishi-kye.com/EN/corporate-comp.asp>
policy and guidelines

Board performance evaluation

In accordance with good corporate governance principles for listed companies, the Board of Directors and the sub-committees of a listed company should conduct a self-assessment at least once a year. This allows the Board to jointly review performance and identify areas for improvement. Accordingly, the Company has reviewed and adopted appropriate assessment criteria and topics in line with the self-assessment guidelines provided by the Stock Exchange of Thailand. At the Board of Directors' meeting held on February 13, 2025, the Board approved that the Board of Directors shall conduct an annual self-assessment, at least once a year. The year 2025 marks the ninth year that the Company has implemented this process. The assessment for this year was conducted on an individual basis. The Company, through the Corporate Secretary, distributed the self-assessment forms to the directors in February 2025 and has compiled the assessment results accordingly.

The Company by the Company Secretary sent the Board members the self-assessment form in February 2025 for the Board to evaluate

their 2024 performance, and the result of which was reported to the Board meeting on May 19, 2025.

The Board's self-assessment result for 2024 comprised three sections:

1. Board structure and qualifications
2. Board of Director meeting
3. Roles, duties, and responsibilities of the Board

In conclusion, the earned average score is 3.98 out of the full score of 4. All criteria points have good average score (in a 3.0-4.0 range), reflecting the Board's performance of duties according to the good corporate governance principles at a well to excellent level.

Note: Scoring system and definition:

- 0 = Strongly disagree or never conducted
- 1 = Disagree or seldom conducted
- 2 = Fair or moderately conducted
- 3 = Agree or well conducted
- 4 = Strongly agree or excellently conducted

Attendance of Directors

In fiscal 2024, the Company held a total of 6 Board of Directors' meetings. Meetings of other board committees consisted of four meetings of the Audit Committee, three meetings of the Product Pricing Committee, and one meeting of the Nomination and Remuneration Committee. In contrast, the Board of Executive Directors holds meetings twice a month to enable the Company to carry on its operations with flexibility and efficiency. Most of the directors regularly attended meetings. Details of meeting attendance by the individual directors are as 8.1.2:

Reference link for the board performance evaluation policy : <https://www.mitsubishi-kye.com/EN/corporate-comp.asp>
and guidelines

6.1.2 Policy and guidelines related to shareholders and stakeholders

Are there policy and guidelines and measures related to : Yes
shareholders and stakeholders

Guidelines and measures related to shareholders and : Shareholders, Employee, Customer, Business competitors, Suppliers,
stakeholders Creditors, Government agencies, Community and society, Other
guidelines and measures related to shareholders and stakeholders

Shareholders

The Company recognizes the caring and respect for rights of the shareholders in accordance with corporate governance principles, as described in the topics 'Rights of Shareholders' and 'Equitable Treatment of Shareholders.'

Rights of Shareholders

The Company recognizes the rights of shareholders to access correct and adequate information of the Company on a timely and equal basis. The Company submits notice of the shareholders' meeting together with documents containing complete and sufficient information for the meeting to the shareholders in advance as required by laws and providing important details of the proposed issues, rationale and necessity, and the opinion of the Board of Directors. Those who are not convenient may appoint a proxy or any of the Company's independent directors, who also are members of the Audit Committee, to attend the meeting and cast votes on their behalf. Moreover, the information is made available through the Stock Exchange of Thailand's SET Portal Straight Through system.

The Company sets to hold an annual general meeting of shareholders within 4 months from the end of the fiscal year. In 2024, the Company convened one annual general meeting of shareholders on Friday, July 25, 2025 via electronic media (E-AGM) in accordance with the Emergency Decree E-meetings, 2563 B.E. The meeting system and broadcast live were from meeting room 121, Kang Yong Electric Public Company Limited to enable the shareholders to consider, comment or vote on the proposed issues properly at the meeting. Members of the Board of Directors, the Audit Committee and other Board committees, as well as the certified public accountants and the management of the Company, were present at the meeting to answer all queries raised by the shareholders on an equitable basis. Questions and answers were correctly and completely recorded in the minutes of the shareholders' meeting. The

Board of Directors prepared the minutes of the shareholders' meeting and made it available on the Company's website within 14 days after the meeting date for the shareholders' ease of reference and examination.

The meeting was carried out as in the order set in the agenda without addition of any items. E-meeting for registration and to view the live audio-visual system from the meeting, using the E-Voting system to vote on each agenda

Equitable Treatment of Shareholders

The Company fully conforms to the code of best practices in relation to rights of the shareholders. In particular, the shareholders are given the right to propose agenda items for the annual general meeting and/or to nominate candidates for director election in advance, thus signifying a fair treatment of all shareholders. For the 2024 Annual General Meeting of Shareholders, the Company arranged for the shareholders to propose agenda items for the said meeting and/or nominate qualified persons for director election in advance during January 18 – March 17, 2024, and so notified the shareholders through the SET. Moreover, the Company posted information on its website at www.mitsubishi-kye.com, giving details about the procedure and method of consideration in a clear and transparent manner. For the 2025 Annual General Meeting of Shareholders, none of the shareholders proposed agenda items for such meeting and/or nominated qualified candidates for director election.

As for the 2025 Annual General Meeting of Shareholders, scheduled to be held in this July, the Company has similarly given the shareholders the right to propose agenda items for the meeting and/or to nominate candidates for director election in advance, by forwarding their proposed agenda items and director nomination to e-mail address at information@kye.meap.com or by fax or registered mail during January 18 - March 17, 2025, the matter of which was already notified by the Company to the SET, none of the shareholders proposed agenda items for such meeting and/or nominated qualified candidates for director election.

The Company has also provided convenience to non-Thai shareholders by making available meeting notice and relevant meeting documents in English version to communicate with non-Thai shareholders with due regard to their equitable rights as the shareholders of the Company.

Employee

1. Employees are provided with fair and reasonable compensation and welfare as follows:
 - Staff shuttle buses are provided for employee transport between the office and their residences.
 - Company canteens that offer hygiene food at a reasonable price.
 - Annual scholarships are granted to employees' children from elementary school to bachelor's degree level.
 - Other fringe benefits are also offered to employees at all levels, comprising wedding celebration, maternity leave, assistance in case of death of employees or any of their family members, provident fund, yearly health check-up, and savings cooperative.
2. A safe workplace has been maintained to ensure security of employees' life and properties.
3. Employee promotion, rotation, rewarding, and punishment are conducted in a fair and ethical manner based primarily on the individual employees' educational background, competence and justification.
4. Importance is given to employees' equal opportunity of knowledge, capability, and skill development on a consistent basis.
5. All applicable employee-related laws and regulations are strictly observed.

Customer

1. Products of a quality that meets or exceeds customers' expectations are delivered to customers under fair terms and conditions.
2. Customers are provided with correct, adequate, and up-to-date information about products and services to be a basis for their buying decision. No exaggerated message should be sent, whether through advertising or any other communication media, which could cause misrepresentation of quality, quantity or any conditions about the products and services among the customers.
3. Customers' confidential information is strictly treated and is not unethically used for personal benefit or for the benefit of any related party.
4. Customers' requirements are promptly satisfied, and an efficient communication system and channel is provided for customers to file their complaints about product and service quality.
5. Consistent efforts are made on research, development, and production of quality and safe products.

Business competitors

1. The Company abides by the fair competition rules.
2. The Company will not acquire its competitors' trade secrets by any unlawful or improper means.

3. The Company will not defame its competitors with any false or unethical accusation.
4. The Company has a policy in place to perform in compliance with the fair-trade rules and laws, both at home and in the regions where its business is located, as well as anti-monopoly law and other trade competition laws.
5. The Company will not infringe the intellectual property rights or any other rights in relation to intellectual property of others.

Suppliers

1. Creditors are treated fairly and equitably with fair benefits to both parties.
2. All agreements and agreed terms and conditions are strictly honored. In the case where any condition cannot be fulfilled, the Company will promptly notify its business partners and/or creditors in order to jointly seek remedial measures.
3. In making any business deal, fraud by demanding, receiving, or seeking of any improper benefit must be avoided.
4. If any fraud by such demand, receipt or seeking of improper benefit is discovered, it must be notified to the creditors in order to jointly solve the problem in a fast and fair manner.
5. In the acquisition, procurement and selection of a trade partner company, such factors as quality, price, delivery period, technology and consistency in product supply will be taken into consideration.
6. A correct, complete, and punctual financial report must be regularly submitted to the creditors.

Creditors

1. Creditors are treated fairly and equitably with fair benefits to both parties.
2. All agreements and agreed terms and conditions are strictly honored. In the case where any condition cannot be fulfilled, the Company will promptly notify its business partners and/or creditors in order to jointly seek remedial measures.
3. In making any business deal, fraud by demanding, receiving, or seeking of any improper benefit must be avoided.
4. If any fraud by such demand, receipt or seeking of improper benefit is discovered, it must be notified to the creditors in order to jointly solve the problem in a fast and fair manner.
5. In the acquisition, procurement and selection of a trade partner company, such factors as quality, price, delivery period, technology and consistency in product supply will be taken into consideration.
6. A correct, complete, and punctual financial report must be regularly submitted to the creditors.

Government agencies

The Company recognizes the role and significance of government agencies and public authorities in regulating, promoting, and driving sustainable development. Accordingly, the Company has established clear policies and practices for its interactions with government entities, based on key principles of transparency, legal compliance, and the avoidance of conflicts of interest. These practices include:

1. Strict compliance with relevant laws, regulations, rules, and standards issued by public authorities
2. Professional and ethical coordination with government agencies
3. Providing employee training on anti-corruption and proper conduct in dealings with public sector representatives
4. Disclosing information appropriately and transparently in accordance with legal requirements
5. Establishing channels for complaints or whistleblowing related to improper conduct

Community and society

1. The Company has inculcated in its employees social and environmental awareness and responsibility in accordance with the ISO 14001 standard.
2. The Company is responsible for and committed to preserving the environment as well as the custom and tradition of the local communities where it operates.
3. The Company regularly implements activities, both on its own and through joint effort with the government sector, for the development of society, community and environment so as to upgrade quality of life in the communities where it operates.
4. Attempts are made to prevent an accident and control waste discharge to be better than the acceptable level.
5. The Company will promptly and efficiently address any issue arising from its operation that affects the environment and the community and will fully cooperate with the government sector and other concerned agencies.

Other guidelines and measures related to shareholders and stakeholders

Compliance with other good corporate governance principles

The Company attaches importance and adheres to corporate governance and business ethics by considering the appropriateness with the Company's business environment and the benefit to the Company as a whole, as well as, the Company's shareholders and stakeholders. Those additional good practices are:

1. The Company gives precedence to the issuing of annual general meeting invitations to shareholders in advance to provide the shareholders with sufficient and appropriate time to study the information. Also, the Company sets a date for the shareholders' meeting during July of every year, which the shareholders tend to be able to attend the meeting conveniently. The invitation letter for the shareholders' meeting also subjects to be posted on the Company's website not less than 30 days prior for the shareholders to prepare the meeting information in advance.
2. The Company has consistently established measures to safeguard the rights of minority shareholders, such as allowing them to nominate individuals for election as directors and propose agenda items for the Annual General Meeting of Shareholders in advance.
3. The Company examines the rights of shareholders to attend the annual general meeting thoroughly, in order to ensure that the proxy is correct and does not violate the rights of other shareholders who participate in the meeting.

6.2 Business code of conduct

Business code of conduct

Business code of conduct : Yes

The Company adheres to its management philosophy as the guiding principle in conducting business, with a strong awareness of its responsibilities toward society at large. It encourages directors, executives, and all employees to carry out their duties in accordance with the following eight principles of business ethics:

1. Strict Compliance with Laws and Contracts

The Company places utmost importance on legal compliance as a fundamental principle. It shall not enter into any contracts or agreements that violate laws, regulations, or social norms, and shall build trust with business partners through honesty and strict adherence to agreements. Furthermore, it is committed to conducting business in alignment with widely accepted ethical standards.

2. Respect for Human Rights

All business activities are conducted with respect for human rights, without discrimination based on nationality, ethnicity, race, gender, age, beliefs, religion, social status, gender identity, sexual orientation, disabilities, or any other grounds. The Company shall not be involved in any actions that disregard human dignity, such as harassment, defamation, threats, or coercion.

3. Contributing to Society

The Company operates as an enterprise that generates fair profits while remaining mindful of its responsibility to contribute to the overall development and well-being of society.

4. Promoting Harmony in Local Communities

The Company dedicates itself to being a responsible member of local communities by actively participating in community development and social contribution activities.

5. Participation in Building a Sustainable Society

The Company conducts its business with consideration for creating a society that promotes circular resource use and contributes to long-term sustainability.

6. Awareness of Workplace Responsibilities

The Company recognizes its duty as a business operator to protect and manage its assets, including personal data and both tangible and intangible corporate property. It upholds the Company's image, information integrity, and efficient use of time, refrains from political partisanship, ensures that only factual information is disseminated, and strictly maintains a clear separation between company matters and personal affairs.

7. Fair Relationships with Stakeholders

The Company is aware of its responsibilities to society and all stakeholders, conducting business and building relationships based on fairness and integrity. This fosters cooperation that contributes to the sustainable growth and success of the Company.

8. Managing Conflicts of Interest

The Company has established a strict internal control system to prevent the misuse of authority for personal or group gain. It is committed to transparent, fair, and accountable business practices.

Policy and guidelines related to business code of conduct : <https://www.mitsubishi-kye.com/EN/corporate-comp-manual.asp>

Policy and guidelines related to business code of conduct

Guidelines related to business code of conduct : Prevention of conflicts of interest, Anti-corruption, Whistleblowing and Protection of Whistleblowers, Preventing the misuse of inside information, Money laundering prevention, Gift giving or receiving, entertainment, or business hospitality, Compliance with laws, regulations, and rules, Information and assets usage and protection, Anti-unfair competitiveness, Information and IT system security, Environmental management, Human rights, Safety and occupational health at work, Other guidelines related to business code of conduct

Prevention of conflicts of interest

The directors and the management must make any decision and action for the Company's best interests. If there is a conflict of interest, directors or executives will bring such matters to the Board of Directors or the shareholders' meeting to consider the necessity of doing the said transaction and the impact that will occur, as the case may be. In considering and approving

transactions that may cause conflicts of interest, directors with interests in such transaction will not be able to vote in that resolution. In addition, the new Securities and Exchange Act has assigned the Company's directors and executives to prepare reports on their interests and related persons for the Company to acknowledge. The Act also stated that directors, the management, and their related persons are responsible for preparing a report on the change in holding the Company's securities within three business days after the transition to the Company. The corporate secretary is eligible for sending copies to the Chairman of the Board of Directors and the Chairman of the Audit Committee every six months regularly. Besides, the Company has reported the connected transactions following the Securities and Exchange Commission (SEC) rules, which were disclosed in the financial statements and the annual registration statement.

Anti-corruption

Anti-Corruption Policy

The Company has a policy against corruption announcing on the Company's website to enable all directors, executives, and employees to perform their duties under the Company's business ethics and to fight against corruption in all forms. To build confidence in the Company's stakeholders, the Company has set up the appropriate anti-corruption guidelines and measures, clear anti-corruption training for employees and anti-corruption communication both internally and externally.

Anti-Corruption actions

The Company has Anti-Bribery Rules, which is a requirement and guideline for the Company, directors, and employees to comply with and requires all employees to operate their work with honesty and express their awareness of their duties and responsibilities.

Other important actions

- Requested cooperation from the supplier to refrain from giving any gifts to executives or employees in the New Year season and any other festival.
- Provided training and campaigning for employees to realize the importance regularly through the ME-Learning system and an exhibition.

Whistleblowing and Protection of Whistleblowers

Compliance Whistleblower

The Company has regulations to support whistleblowing, either seeing any action or behavior from both the organization and the employee who imposes misconduct violates or may infringe on conduct against legal requirements or the Business Ethics. The more promptly the Company can gather and communicate, the more reducible effect will occur to the Company from that action or behavior. Therefore, the Company establishes a Whistle Blower channel for all stakeholders to report clues or complaints encountering any incidents or actions against the law and business ethics that may cause damage to the Company. The Company also has set guidelines and acknowledges all stakeholders every year. Those who witness the above events or actions shall gather information, clues, and evidence to verify the facts as much as possible, then notify directly to the Company by sending feedback or document complaints to the following address.

Attention to: Manager of the Internal Audit Control Office
 Kang Yong Electric Public Company Limited
 P.O. Box 49, Bangna Tower 10541
 Or send electronic information to
 E-mail address: hotline@kye.meap.com

The Manager of the Internal Audit Office and the investigation team, appointed by the Chairman of the Board of Directors or Managing Director according to the Company announcement, will take into account. It is essential to protect and prevent any impact on the whistleblower as it is confidential information. The Company shall act fairly by referring and proving the information received and quickly decide to take further action on the matter or problem appropriately. To make whistleblowing information purely and fairly and certify the truthful information, the Company requests a specific full name with clear contact. If necessary, the Company may request additional information for consideration of the result of such action. In the past year, the Company receive any information has taken action.

Preventing the misuse of inside information

The Company has in place measures and policies for managing security of its confidential business information, including not only trade secrets but also other significant information, so as to prevent any leak of such information as well as prevent any executive or work unit that has access to insider information from disclosing it to any third party or any person unrelated to

the Company's business. The Company has therefore established a hierarchy of information secrecy and a framework of responsibility, including individuals who are authorized to access the information to prevent the use of insider information for personal benefit or for the benefit of other parties, whether directly or indirectly.

In addition, the Company discloses the holding of securities by its directors, top management, and finance department manager in the annual report. Any change in such securities holding shall be reported to the SEC under the Section 59 of the Securities and Exchange Act B.E.2535, and also notified to the Company Secretary for preparing a report on change of securities holding and outstanding amount of securities holding by the directors and top management for further submission to the next meeting of the Board of Directors.

Money laundering prevention

Anti-social Forces Resistance and Anti-money Laundering

1. We will not have any relationship with and will not conduct business with any anti-social forces (including crime syndicates, terrorists, drug dealers). If any demand is made by anti-social forces, we refuse such demand.
2. We comply with applicable anti-money laundering, anti-corruption and anti-social forces laws and regulations.

Anti-unfair competitiveness

The Company is steadfast in conducting business ethically and transparently based on its management philosophy with awareness of corporate responsibility for the society at large. It encourages the directors, management, and all staff members to perform duty under the code of ethics and in line with the Mitsubishi Electric Group Conduct Guidelines, which the Company first communicated to its employees as work rules in 2007 and has revised from time to time to suit the circumstances, as below:

Fair Competition

- The Company adheres to the principle of conducting business in strict conformity with rules and laws governing trade competition and monopolization, both domestically and overseas, as specified in the “Mitsubishi Electric Group Conduct Guidelines”. The Company has put in place “criteria for compliance with trade competition law” for internal implementation regarding “do’s and don’ts” about meetings of trade associations or conferences and transactions with competitors to prevent Cartel grouping under trade competition and anti-monopoly law in its handbook for meetings and transactions with competitors since December 24, 2015. To ensure right understanding and practice according to such criteria, it has continually trained new executives and employees with self-learning system (E-Learning).
- The Company will not consent to, agree to, or exchange information with competitors in a way that could unreasonably restrict competition regarding products, prices, production, salability, sales conditions, bidding, or any other agreements, whether verbal or in writing, or expressed or implied. It will not have communication with competitors in any manner that could reasonably cause unfair competition.
- The Company will not violate any intellectual property rights, or any other rights related to the intellectual property of any person by complying with the rules on intellectual property management.

Information and IT system security

Confidential Corporate Information Protection

1. We appropriately safeguard and protect our confidential corporate information against risks of external cyber attacks, internal misconducts, etc. The protection applies to information of all formats, including on paper, electronically in documents or in IT applications and systems.
2. We respect the confidential corporate information of others. We obtain necessary confidential corporate information of others in a lawful and appropriate manner, including by entering into confidentiality agreements with appropriate and reasonable terms, and protect and manage them in compliance with the confidentiality agreements.

- Promote the reuse of treated water by installing a recycled water filtration system.
- Reduce the use of plastic bags, foam containers, thin plastic cups, and plastic straw inside the Company.
- Promote employees to reduce food waste in the company.
- Promote and support green procurement continuously by considering ordering office equipment and consumables that have been certified for environmentally friendly products such as green label products green basket labels Carbon Footprint Reduction labels, etc.
- Promote conservation of biodiversity by adding green areas within the Company.
- Promote the adoption of circular economy principles in business operations.
- Organize training for all new employees on environmental conservation.
- Perform activities focusing on controlling the operations of various activities to prevent environmental toxicity.
- Carry a campaign for recycling waste sorting to reduce the amount of landfill waste, and setting up a clean and well-managed waste sorting center
- Select industrial waste disposal operators that are authorized by the Department of Industry only and abolish landfill (Zero landfill).
- Promote changes in waste disposal methods from incineration to recycled instead.
- Change the metal material to a pre-coated metal (PCM) to cancel the painting process.
- Improve the quality of wastewater before discharging into public canals by controlling water quality before releasing it to be 20% more stringent than the law. Install a real-time water quality monitoring and alerting system. When the water quality is lower than the control criteria, the floodgate will close automatically to prevent it to the outside.
- Conduct environmental quality measurements, including wastewater quality, effluent quality, rainwater gutter, the air exhausted from the chimney, and noise level, to follow up and report to concerned government agencies.
- Checking the condition of the shuttle bus to reduce the emission of black smoke.
- The Company has been certified Green Industry Level 4 (Green Culture) by the Ministry of Industry, which represents an environmentally friendly business operation adhering to business operations with social responsibility inside and outside the Company, aiming for sustainable industrial development throughout the supply chain.

Human rights

Social Policy and Practice

The Company focuses on doing business with respect for human rights and responsibility to stakeholders by adhering to the following practices:

1. Respect for Human Rights

The Company has established a code of conduct in accordance with the model of the Mitsubishi Electric Group by fostering respect for human rights without discrimination as to nationality, race, religion, social status or disability of its employees. It makes sure that no harassment of human right or discriminative action takes place while upholding a fair practice and ensuring job security for employees at all levels. Job opportunities are provided for non-Thai labor and the disabled as part of its

workforce.

The Company assigns the employees duties of their capability based on the labour structure under Thai labour laws with proper welfare and benefits conducted by the welfare committee available under the same standards. Moreover, the Company arranges meetings with the labour union on a monthly basis, with a common goal of improving the quality of working life and building up good labour relations between the Company and the employees. As a testament to its relentless efforts in this issue, the Company has received the Workplace with Outstanding Labour Relations and Welfare Management Award from the Department of Labor Protection and Welfare, the Ministry of Labour, for 16 consecutive years. This award has demonstrated an outcome of the Company's determination in labour relations management with best practices so clearly, and of which the Company, the labour union, and the employees have been proud.

2. Fair Treatment of Labour

Salary and Welfare

The Company has adjusted its salary structure to be compatible with competition in the labor market and to a rate above the authority's minimum wage payment as moral support for the employees' performance of duties. Performance of employees of all levels evaluated twice a year and the results of which used to determine annual promotion and salary increment.

Moreover, the Company has set up Workplace Welfare Committee following Labor Protection Act, B.E.2541, Section 96, with employee committee members and management representatives appointed to coordinate with Workplace Welfare Committee in determining welfare

structure guidelines beneficial to the employees. Such committee will jointly meet to consider rationalizing basic welfare package in each year in line with the rising cost of living as a way to help cut down expenses for the employees. Employees also provided with the cost of living allowance, diligence allowance, and lunch allowance, as well as improvement of welfare canteen more coverage of medical expenses, annual health check-up, etc.

To improve employees' quality of life, the Company offers additional benefits apart from the basic welfare as below.

- Establishing Kang Yong Electric Saving Cooperatives since 2002 to enhance economic and social benefits to members through self-support and support for one another according to the cooperatives principle, comprising lending of loans at lower interest rates than commercial banks, financial assistance for members affected by natural disasters, and occupational training for retired employees.
- Arranging a flea market with affordable price products for employees.
- Arranging recreational activities for skill development and entertainment purposes, which will have positive effects on their mental and physical wellness, etc.
- Establishing a walled-off area as a lactation corner for employees, who are breastfeeding mothers, a breastfeeding support program provided by the Company since October 2016.
- Establishing a gym in the building (fitness room) from November 2019.

Safety and occupational health at work

Occupational Health and Safety Policy

The Company is always aware that everyone working in the company are a group of people who are the key to moving the organization forward to success and prosperity. Therefore, the company is focusing on creating a workplace culture that "prioritizes the safety, physical health, and mental well-being of everyone working in the company". Aiming to create a safe, happy, and healthy environment that encourages energy and enthusiasm. This culture relies on everyone taking responsibility for their own safety and their colleagues while implementing initiatives to eliminate dangerous behaviors and hazards.

[Safety Slogan]

Promoting continuous safety activities through risk-taking prevention and predictive activities.

[Basic Policy]

1. Promote continuous improvement of safety and health, workplace management by disseminating, observing, and implementing occupational health and safety and environmental management systems as the foundation of management.
2. Pursue zero accidents by establishing culture that prioritize safety and individual awareness.
3. Support achieves the fundamental safety target (zero dangerous behaviors and zero hazards) by thoroughly implementing health and safety activities at the workplace and evaluating risk assessment with all employees and employees of affiliated companies.
4. Strengthen the prevention of traffic and occupational accidents through organizational efforts to raise individual awareness

of occupational health and safety and traffic safety.

5. Achieve sustainability by creating a workplace environment where people can work actively by maintaining fundamental physical and mental health and preventing occupational diseases, contagious diseases, and infectious diseases.

Occupational Health and Safety Operations

1. Occupational Health, Safety and Environment

The Company incorporates occupational health, safety, and environment into the yearly policy and action plan so that the executives, supervisors, and staff at all levels will cooperate in the implementation according to the policy consistently and efficiently. The Occupational Health, Safety and Environment Committee has set up composed of senior executives, supervisors at all levels and the labor union to ensure compliance with ISO 14001 environmental management standards and occupational health, safety and environment rules and regulations, as follows:

- The 5S and Kiken Yoshi Training (KYT) programs are used as a basis for implementing tasks according to the organization structure with the rectification of any risk-prone area that may cause danger, upholding the rules and regulations, and ensuring staff wear personal safety equipment that is up to standards in a risky area on a strict basis.
- All systems and measures are improved to prevent any danger from the operation of machinery and tools, such as the installation of equipment separating the workspace of the machinery controller from the machinery spot. Staff are supervised and trained about using newly procured tools and machines with new technology based on risk assessment to mitigate risks at the average level or higher. Risks at all levels across the organization are contained, and annual occupational health, safety, and environmental objectives must be communicated to concerned staff to consistently perform this task and develop a knowledge base in operation.
- Safety knowledge and training are made available for all the employees. Safety exhibitions are regularly organized yearly to settle awareness of occupational health, safety, and environment, both theoretical and practical, in existing and new employees to prepare for actual operation
- The Company has simulated possible accident risk by setting up an unsafe realization room for the production line and office to build awareness of potential danger and underline the degree of workspace inspection by supervisors to ensure safety. Traffic in the Company premises is improved to ensure safety for work operators and visitors, with a precise specification of a pedestrian path around the building and a pedestrian crossing.
- Enhance the safety awareness for all employees and all departments by organizing Safety Talk to share the information that employees can practice. The content includes rules, regulations, and safety practices to ensure maximum workplace safety.
- The Company is committed to preventing accidents from working based on the idea that accidents from work-related can be avoided by encouraging ongoing safety activities continuously. Those activities are designed under the Occupational Health and Safety plan to reduce the statistics of accidents in the workplace to zero, leading to a safety culture for safe workers and good health. As a result, the Company received a plaque of honor from Zero Accident Campaign 2025 by receiving the award Platinum level for seven consecutive years.
- Enhance the awareness of occupational health for all employees, all departments by organizing Health Talk to maintain employees' physical, mental health and well-being in society and prevent health deviations caused by work.

2. Safety Outside Office Hours

Individual employees are deemed not only as a driving force for the Company's business operation to move forward with success, but also as a tower of strength for their family. Therefore, they must be both mentally and physically healthy to be ready for their work, especially for those who work in risk-prone and unsafe areas or even those whose working areas are risk-free. The Company provides welfare and arranges health-concern activities for the employees, such as anti-drug sports competition, don't drive drunk campaign from the eve of long holidays to enhance social responsibility awareness in order to prevent accidents during employees' trips back home upcountry and back to work, random drug and alcohol testing on staff shuttle bus drivers, and safety helmet campaign for staff who use motorcycles. Traffic accidents should be reported in order to increase awareness of traffic accidents and ensure their highest safety.

In addition, emergency report is put in place in case of staff having an accident outside office so that first-aid and urgent support can be timely provided.

Other guidelines related to business code of conduct

Information Disclosure and Transparency

The Company has disclosed information as required by the SET, such as financial reports, changes of directors and members of board committees, approval of connected transactions, etc., via the SETLink system after every Board of Directors' meeting or shareholders' meeting and already published such information in the annual report and annual registration statement (One Report) covering report on operating results, financial statements, management's discussion and analysis, and report on the Board of

Directors' responsibility for the financial statements to ensure transparency for the benefits of the shareholders. Investors can also ask for more information by contacting its Investor Relations Division at telephone number 02-337-2900 Ext. 1120 or at e-mail: information@kye.meap.com

Responsibility for Supply Chain

The Company has systematically, scrupulously and formulated a socially responsible procurement policy, entailing procurement control, supply source assessment, supplier selection etc. In doing so, it adheres to the ethical standards on "discharge of duty with integrity and righteousness while maintaining a cordial relationship with business partners" through mutually supporting cooperation as if being alliances in terms of technology, safety, output expansion, environmental problem reduction, and quality standard upgrade, so that they could move together toward business strength and stability.

Innovation and Publicizing of Innovation from CSR Activities

The company is committed to promoting a culture of innovation within the organization to enhance competitiveness, respond to market dynamics, and create long-term value for all stakeholders. This is achieved through the following approaches:

1. Establishment of an Innovation Unit

- The Innovation Development Department was established to drive the creation and development of new approaches in manufacturing processes, management, and product design in collaboration with the production department.

2. Development of Learning and Experimentation Support Systems

- The company promotes learning in emerging technologies and concepts such as AI, Digital Manufacturing, and ESG principles through both internal and external training programs.

3. Creation of Platforms for Idea Exchange and Expansion

- Cross-departmental meetings are organized to facilitate the exchange of ideas and creative concepts, along with feasibility studies to assess potential integration into production processes.

4. Development of Collaborative Innovation Networks

- The company collaborates with ME Group affiliates and external partners, including research institutions and academic organizations, to expand knowledge and jointly develop new technologies.

5. Integration of Innovation into Corporate Strategy

- Innovation is positioned as a core corporate value and is integrated into strategic goals, including the development of environmentally friendly products that meet the needs of modern lifestyles.

6. Recognition and Motivation

- The President Awards are organized as a platform for employees to present innovative projects or ideas, aiming to foster motivation, creativity, and continuous improvement.

Promotion of compliance with the business code of conduct

Promotion for the board of directors, executives, and : Yes
employees to comply with the business code of conduct

Responsibility of the Board of Directors

The Company operates business by upholding the code of business ethics and business administration philosophy and is well aware of its corporate responsibility for the society at large. It encourages the directors, the management and all staff members to discharge duty under eight aspects of business ethics, encompassing compliance with laws, respect for human rights, contribution to society, creation of unity in the local community, participation in environmental problem solving, awareness of one's duty as a workplace member, promotion of good cooperation with stakeholders, and management of conflict of interest by putting in place a rigid control process to ensure a fair and transparent business operation.

At present, five out of the total 14 board members of the Company are independent directors, which is in compliance with the corporate governance practices requiring that at least one-third of the total number of directors should be independent directors. This helps to ensure that the shareholders' rights and benefits will be taken care of, and the Company's benefits fully protected. It also leads to checks and balances in the board structure since 9 of them are non-executive directors and 5 are executive directors. Under such board composition, the non-executive directors are able to render opinion fully and independently in the consideration on all issues at the board meeting.

The Company has segregated the position, power and duty, and persons between the board chairman and the president to maintain checks and balances between them. The Company also established the Board of Executive Directors to consider essential matters with due care and for the utmost benefit.

Participation or declaration of intent to join anti-corruption : No
networks

6.3 Material changes and developments in policy and corporate governance system over the past year

6.3.1 Material changes and developments related to the review of policy and guidelines in corporate governance system or board of directors' charter

In the past year, did the company review the corporate governance policy and guidelines, or board of directors' charter : No

Material changes and developments in policy and guidelines over the past year : No

6.3.2 Implementation of the CG Code for listed companies

Implementation of the CG Code as prescribed by the SEC : Mostly used in practice

Good Corporate Governance

Kang Yong Electric Public Company Limited (the "Company") recognizes the importance of good corporate governance in accordance with the Corporate Governance Code (CG Code) for listed companies issued by the Securities and Exchange Commission (SEC). The Company has adopted and applied the CG Code appropriately to suit the nature of its business, aiming to conduct operations with transparency, accountability, and long-term value creation for shareholders and all stakeholders. The Company's key practices are as follows:

1. Responsibilities of the Board of Directors

The Board of Directors is responsible for setting the Company's policies, strategic direction, and overseeing its operations to ensure efficiency, transparency, and adherence to governance principles. The Board performs its duties independently, prudently, and with accountability, focusing on the long-term best interests of shareholders.

2. Defining Objectives to Promote Sustainability

The Company conducts business with a strong sense of responsibility toward society, the environment, and all stakeholder groups. Business objectives are aligned with sustainable value creation alongside economic growth.

3. Board and Executive Recruitment

The Company has in place a structured process for the recruitment and evaluation of directors and senior executives, taking into account competence, integrity, and continuity in leadership.

4. Board Performance Evaluation

The Company emphasizes regular performance evaluations of the Board of Directors and its subcommittees to enhance effectiveness and strengthen corporate governance practices.

5. Promoting an Ethical Corporate Culture

The Company has established a Business Code of Conduct and an Ethics Handbook as operational guidelines for all employees. Directors and executives are expected to serve as role models and promote integrity throughout the organization.

6. Risk Management and Internal Control

The Company continuously assesses and manages business risks and has implemented an effective internal control system under the oversight of the Audit Committee. This ensures operational efficiency and compliance with applicable laws and regulations.

7. Disclosure and Communication

The Company is committed to accurate, complete, timely, and fair disclosure of information through appropriate channels such as the annual report, the Company's website, and shareholders' meetings. This fosters transparency and builds trust among stakeholders.

7. Corporate governance structure and significant information related to the board of directors, subcommittees, executives, employees, and others

Methods of balancing power between the board of directors : Others : Responsibilities of the Board of Directors
and Management

The Company has established its Business Ethics Policy based on its core management philosophy, placing strong emphasis on the Company's responsibility toward society as a whole. Directors, executives, and employees are encouraged to carry out their duties in accordance with the Company's eight key principles of business ethics. These include strict compliance with laws and contractual obligations, respect for human rights, contribution to society, promotion of community harmony, participation in building a sustainable society, recognition of workplace responsibilities, maintaining fair stakeholder relationships, and proper management of conflicts of interest. To support ethical and transparent business conduct, the Company has implemented a robust control system that ensures fairness and accountability.

At present, the Company has five independent directors out of a total of fourteen board members. This complies with best practice guidelines on good corporate governance, which recommend that at least one-third of the board comprise independent directors. This structure helps assure shareholders that their rights and interests will be fairly protected and managed. Additionally, the board is structured to maintain a balance of power, with nine non-executive directors outnumbering five executive directors. This composition allows non-executive directors to express their views independently and effectively during board deliberations. Furthermore, the roles, responsibilities, and individuals serving as Chairman of the Board and Managing Director are clearly separated to establish a check-and-balance mechanism.

The Company has also established an Executive Committee tasked with carefully reviewing and deciding on significant corporate matters to ensure maximum benefit for the Company.

Selection of independent directors

Criteria for selecting independent directors

Nomination of Independent Directors

The Company considers its independent directors' qualifications based on the criteria set forth in notification of the Capital Market Supervisory Board, as follows:

1. Not holding shares more than 1% of the total number of voting shares of the company's its subsidiary, major shareholders or controlling persons including shares held by related persons of the independent director.
2. Not being or having previously been an executive director, employee, staff or advisor who receives a regular salary of the Company or a controlling person of the Company or its associates or major shareholder, unless the foregoing status ended not less than two years prior to the date of appointment.
3. Not being a person related by blood or registration under law, such as a father, mother, spouse, sibling, or child, including spouses of children of others directors, executives, major shareholders, controlling persons, or persons to be nominated as directors, executives or controlling persons of the Company or its associates.
4. Not having or having previously had a business relationship with the Company, its subsidiary, major shareholder or controlling person, in a manner which may interfere with the independent director's independent judgment; and not being or having previously been a substantial shareholder or controlling person of the Company, unless the foregoing status ended not less than two years prior to the date of appointment.
5. Not being or having previously been an auditor of the Company, its associates, major shareholder or controlling person; nor

being a substantial shareholder, controlling person or partner of an audit firm which employs auditors of the Company, its associates, major shareholder or controlling person, unless the foregoing relationship ended not less than two years from the date of appointment.

6. Not being or having previously been any kind of professional advisor including a legal advisor or financial advisor who receives an annual service fee exceeding two million baht from the Company, its subsidiary, major shareholder or controlling person; and not being or having previously been a substantial shareholder, controlling person or partner of the professional advisor, unless the foregoing relationship ended not less than two years from the date of appointment.

7. Not being appointed as a representative of the Company's director, major shareholder or a shareholder who is a related person of the major shareholder.

8. Not conducting any business which is of the same nature as, or in competition with, the business of the Company or its associates in material aspect; nor being a substantial partner of a partnership, or an executive director, employee, staff or advisor who receives a regular salary, or a shareholder holding more than 1% of the total number of voting shares of any entity whose business is of the same nature as and in competition with the business of the Company or its subsidiary in any material aspect.

9. Not possessing any other characteristics which lead the independent director to be unable to render independent opinion regarding business affairs of the Company.

Rights of minority shareholders on director appointment

Rights of Shareholders

The Company recognizes the rights of shareholders to access correct and adequate information of the Company on a timely and equal basis. The Company submits notice of the shareholders' meeting together with documents containing complete and sufficient information for the meeting to the shareholders in advance as required by laws and providing important details of the proposed issues, rationale and necessity, and the opinion of the Board of Directors. Those who are not convenient may appoint a proxy or any of the Company's independent directors, who also are members of the Audit Committee, to attend the meeting and cast votes on their behalf. Moreover, the information is made available through the Stock Exchange of Thailand's SET Portal Straight Through system.

The Company sets to hold an annual general meeting of shareholders within 4 months from the end of the fiscal year. In 2024, the Company convened one annual general meeting of shareholders on Friday, July 26, 2024 via electronic media (E-AGM) in accordance with the Emergency Decree E-meetings, 2563 B.E. The meeting system and broadcast live were from meeting room 121, Kang Yong Electric Public Company Limited to enable the shareholders to consider, comment or vote on the proposed issues properly at the meeting. Members of the Board of Directors, the Audit Committee and other Board committees, as well as the certified public accountants and the management of the Company, were present at the meeting to answer all queries raised by the shareholders on an equitable basis. Questions and answers were correctly and completely recorded in the minutes of the shareholders' meeting. The

Board of Directors prepared the minutes of the shareholders' meeting and made it available on the Company's website within 14 days after the meeting date for the shareholders' ease of reference and examination.

The meeting was carried out as in the order set in the agenda without addition of any items. E-meeting for registration and to view the live audio-visual system from the meeting, using the E-Voting system to vote on each agenda

Equitable Treatment of Shareholders

The Company fully conforms to the code of best practices in relation to rights of the shareholders. In particular, the shareholders are given the right to propose agenda items for the annual general meeting and/or to nominate candidates for director election in advance, thus signifying a fair treatment of all shareholders. For the 2024 Annual General Meeting of Shareholders, the Company arranged for the shareholders to propose agenda items for the said meeting and/or nominate qualified persons for director election in advance during January 18 – March 17, 2024, and so notified the shareholders through the SET. Moreover, the Company posted information on its website at www.mitsubishi-kye.com, giving details about the procedure and method of consideration in a clear and transparent manner. For the 2025 Annual General Meeting of Shareholders, none of the shareholders proposed agenda items for such meeting and/or nominated qualified candidates for director election.

As for the 2025 Annual General Meeting of Shareholders, scheduled to be held in this July, the Company has similarly given the shareholders the right to propose agenda items for the meeting and/or to nominate candidates for director election in advance, by forwarding their proposed agenda items and director nomination to e-mail address at information@kye.meap.com or by fax or registered mail during January 18 - March 17, 2025, the matter of which was already notified by the Company to the SET, none of the shareholders proposed agenda items for such meeting and/or nominated qualified candidates for director election.

The Company has also provided convenience to non-Thai shareholders by making available meeting notice and relevant meeting documents in English version to communicate with non-Thai shareholders with due regard to their equitable rights as the shareholders of the Company.

Information on the evaluation of duty performance of directors

Criteria for evaluating the duty performance of the board of directors

Self-Assessment of the Board of Directors

According to the good corporate governance for listed companies, it is suggested that listed companies' board of directors and committee members should assess their performance at least once a year so as to allow them to jointly evaluate their performance and seek rectification and improvement measures. The Company has properly reviewed its Board self-assessment guidelines and criteria to be consistent with those of the Stock Exchange of Thailand. The Board meeting on February 13, 2025 accordingly approved for the Company to have self-assessment of the Board of Directors conducted at least once a year only as a whole Board in the first place as the Company has just implemented such an assessment for 2025, the nine year. The Company by the Company Secretary sent the Board members the self-assessment form in February 2025 for the Board to evaluate their 2024 performance, and the result of which was reported to the Board meeting on May 19, 2025. The Board's self-assessment result for 2024 comprised three sections:

1. Board structure and qualifications
2. Board of Director meeting
3. Roles, duties, and responsibilities of the Board

Evaluation of the duty performance of the board of directors over the past year

In conclusion, the earned average score is 3.98 out of the full score of 4 All criteria points have good average score (in a 3.0-4.0 range), reflecting the Board's performance of duties according to the good corporate governance principles at a well to excellent level.

Note: Scoring system and definition:

- 0 = Strongly disagree or never conducted
- 1 = Disagree or seldom conducted
- 2 = Fair or moderately conducted
- 3 = Agree or well conducted

4 = Strongly agree or excellently conducted

In fiscal 2024, the Company held a total of 6 Board of Directors' meetings. Meetings of other board committees consisted of five meetings of the Audit Committee, three meetings of the Product Pricing Committee, and one meeting of the Nomination and Remuneration Committee. In contrast, the Board of Executive Directors holds meetings twice a month to enable the Company to carry on its operations with flexibility and efficiency. Most of the directors regularly attended meetings. Details of meeting attendance by the individual directors are as follows:

Detailed justification for the Company director's non-attendance at the Board of Directors' meeting

There is another critical meeting

Remuneration of the board of directors

Types of remuneration of the board of directors

Director Remuneration Policy The Company places importance on determining directors' remuneration based on principles of fairness, transparency, and alignment with the responsibilities, duties, and scope of work of each director. The objective is to incentivize qualified and competent individuals to effectively perform their duties in overseeing the Company's governance. The key principles are as follows:

1. Remuneration Criteria

- Consideration is given to the scope of responsibility for each directorial position, as well as the knowledge, capabilities, and experience that benefit the Company.
- The remuneration must be appropriate and consistent with the Company's performance and business scale.
- Benchmarking is conducted against peers in the same industry and directors' remuneration data from listed companies of comparable size.

2. Types of Remuneration

- Directors' remuneration is categorized into three types:
 - (1) Monthly Retainer Fees – paid to each member of the board and subcommittees.
 - (2) Meeting Allowances – determined based on the number of meetings attended by each director.
 - (3) Other Remuneration – if any.

3. Remuneration Approval Process

- The Nomination and Remuneration Committee proposes the structure and rates of directors' remuneration to the Board of Directors.
- The Board of Directors considers and endorses the proposal before presenting it for approval at the Shareholders' Meeting.

4. Disclosure

- The Company discloses all types of directors' remuneration clearly, transparently, and comprehensively in the Form 56-1 One Report and Annual Report, indicating the total amount paid for each type of remuneration.

8.2.2 The results of duty performance of the audit committee

Audit Committee's Report

The Audit Committee of Kang Yong Electric Public Company Limited as appointed by the Company's Board of Directors is composed of three independent directors, namely Mr. Arthakrit Visudtibhan as Chairman of Audit Committee, Police Major General Sahaschai Indrasuksri and Dr. Apichai Boontherawara. A Board of Directors meeting appointed Dr. Apichai Boontherawara as a financial advisor to review the reliability of the Company's financial statements to the Audit Committee as he has adequate knowledge and experience in such field.

The Audit Committee has performed the following duties independently in the scope of responsibilities prescribed in the Audit Committee Charter, which are consistent with the regulations of the Stock Exchange of Thailand (SET) and the Office of the Securities and Exchange Commission (SEC). The operations of the Audit Committee in the fiscal year 2024 (April 2024 - March 2025) are summarized as below:

1. Financial Statement Review The Audit Committee reviewed important information on quarterly financial statements and annual financial report for the fiscal year 2024. With the explanation given by and inquiries made on significant points with the external auditors and Finance Department Manager of the Company, the Committee expressed an opinion that the Company's financial statements are accurate and complete, with adequate and reliable disclosure of information following the generally accepted accounting standards. The auditors also reported the independence in performing the duties and auditing related issues founded for the consideration of the Audit Committee in all respects.

Besides, the Audit Committee acknowledged the notable points and implementation relating to the changes in the relevant accounting and financial reporting standards.

2. Risk Management Review

The Audit Committee considered the risk management policy, risk assessment, and risk management plan and approach. The Committee set up the Risk Management Committee with the President as a Chairman and working groups comprising management members from all departments. The roles of the Risk Management Committee are, to identify risks which might hinder business operations from achieving the Company's targets and objective. Second, to assess risk levels weighing on its potential to impact the organization materially. Lastly, to determine measures to deal with such risks by either managing, avoiding, mitigating, transferring or accepting them. These working groups shall report their risk assessment and management every six months.

In 2024, the Committee acknowledged the management's risk management activities such as risk prevention measures from the

coronavirus disease 2019, measures to relax soaring prices of parts and raw materials, measures to drive and stimulate sales, and compliance with legal requirements, etc.

The Committee expressed an opinion that the Company's risk management system has been adequate and appropriate to avoid any significant impact on the organization.

3. Internal Control and Internal Audit Review

The Audit Committee considered and endorsed the annual audit plan of Internal Audit Control Office which reviewed the internal control systems, according to the organizational structure and business operation in compliance with the laws and regulations relevant to its business.

The Committee considered the operating results to assess adequacy and appropriateness based on the quarterly internal audit report and the year-round overall internal control assessment report to follow-up the improvement actions as recommended from the internal audit report.

The Committee considered and viewed that the Company operated the business with an adequate and efficient internal control system. The management controlled and monitored risks that might cause damage to the Company in the all significant operations, as well as reviewed the practice of anti-bribery, reviewed of conflicts of interest, and trade competition protection which abides by current regulations and internal control standards.

All in all, the Company's operations contain an adequate and efficient internal control system. The management has conducted a review and improvement of the work system to be accurate and comply with the laws, regulations and code of business ethics.

4. Proposal for Appointment of Auditor and Auditor Remuneration for 2025

The Audit Committee considered the nomination of auditors from KPMG Phoomchai Audit Limited, to be appointed as the Company's auditors for the fiscal year 2025, and to determine appropriate auditor remuneration. The auditors are considered from qualifications, the scope of responsibilities, audit work quality in the previous year, and independence in performing audit work, as well as audit knowledge, technique, and outstanding experience in the area.

5. Consideration of Connected Transactions or Transactions with Potential Conflict of Interest

The Audit Committee considered to review and provide opinion on connected transactions that may cause a conflict of interest with the Company. In the fiscal year 2024, the Committee found that the connected transactions and the disclosure of such information are conducted with goodwill to the Company appropriately and reasonably following the criteria of the Stock Exchange of Thailand and the Office of the Securities and Exchange Commission.

6. Audit Committee Meeting

In the fiscal year 2024, the Audit Committee had a total of 4 meetings, including co-meeting with the management, the external auditors without attendance by the administration. No Committee members were absent from any of such meetings.

The Audit Committee arranged a self-assessment for their performance as the entire Committee for the fiscal year 2024 using the criteria and the best practice of the Stock Exchange of Thailand as the guidelines to ensure compliance with good corporate governance. The assessment result, the earned average score is 4 out of full score of 4 which all criteria points have good average score, reflecting the audit committee's performance of duties according to the Audit Committee Charter and the good corporate governance principles at a well to excellent level.

In conclusion, the Audit Committee performed duties entirely in the scope of duties and responsibilities as prescribed in the Audit Committee Charter, and as assigned by the Board of Directors in order to ensure that the Company could run its business with good corporate governance, efficient management, sufficient and appropriate internal control for business operations, effective risk management, and reliable accounting system and financial report, as well as compliance with the laws, rules and regulations relevant to the Company's business operations.

4 Dr. Apichai Boontherawara (Member of the subcommittee)	2	/	2
5 Mr. Pumipat Sinacharoen (Member of the subcommittee)	2	/	2

The results of duty performance of Nomination and Remuneration Committee

In 2024, the Nomination and Remuneration Committee convened a total of two meetings, held on May 10, 2024, and November 7, 2024.

Key agenda items included:

1. Adopt of the minutes of the previous meeting.
2. Nomination of directors to replace those retiring by rotation, considering five directors whose terms had expired. 3. Consideration of directors' remuneration for 2024, proposing a total remuneration budget not exceeding THB 6.5 million, the same amount as in 2023.
3. Nomination of a new director to replace a resigned director
4. Appointment of a new secretary to the committee

Throughout the year, the Nomination and Remuneration Committee has performed its duties effectively, covering director nominations, annual remuneration proposals, and adjustments to the structure of various board committees. These efforts have ensured continuity, transparency, and adherence to principles of good corporate governance in the company's management.

Meeting attendance Product Pricing Committee

Meeting Product Pricing Committee (times) : 3

List of Directors	Meeting attendance Product Pricing Committee		
	Meeting attendance (times)	/	Meeting attendance right (times)
1 Pol. Maj. Gen. Sahaschai Indrasuksri (The chairman of the subcommittee)	3	/	3
2 Mr. Keiji Oya (Member of the subcommittee)	3	/	3
3 Mr. Yasuhito Negishi (Member of the subcommittee)	2	/	2
4 Mr. Manu Leoparote (Member of the subcommittee)	3	/	3
5 Mr. Arthakrit Visudtibhan (Member of the subcommittee)	3	/	3

The results of duty performance of Product Pricing Committee

In 2024, the Product Pricing Committee held a total of three meetings and played a key role in reviewing pricing strategies for each product group to ensure alignment with changing market conditions and cost structures. The key highlights of the Committee's

performance are as follows:

1. Review of Product Pricing Performance (Markup on Cost: MoC) The Committee reviewed the markup on cost performance across various product categories to assess profitability and pricing effectiveness.
2. Oversight of Proactive Pricing Strategy Implementation The Committee closely monitored the execution of pricing strategies to ensure responsiveness to market dynamics and cost fluctuations—particularly with regard to volatile raw material prices, such as copper, and the impacts of foreign exchange rates.
3. Provision of Strategic Recommendations to Management Strategic advice was provided on key issues, such as controlling the sale of low-margin products, promoting high value-added products, and maintaining a balance between sales volume and profit margins to achieve efficient and sustainable pricing management.
4. Governance of Fair Pricing within the Group The Committee emphasized its role in corporate governance by monitoring and ensuring fair pricing practices, particularly to prevent inappropriate profit shifting among affiliated companies.

In conclusion, the Product Pricing Committee has fulfilled its duties with diligence, transparency, and efficiency, in accordance with good corporate governance principles, to support the company's sustainable growth.

9. Internal control and related party transactions

9.1 Internal control

Summary of the opinion of the board of directors regarding the internal control of the company

Internal Control and Risk Management

Opinion of the Board of Directors on the Company's Internal Control

The Company recognizes and places importance on continuous internal control and risk management. The Board of Directors has set up and assigned the Audit Committee to be responsible for reviewing adequacy and appropriateness of internal control and risk management. For ensuring efficiency and effectiveness in the conduct of business or discharge of duty in compliance with the policies, Articles of Association, and resolutions of the Board of Directors and the shareholders' meeting, including the applicable laws, notifications, and regulations. The Company's internal control and risk management in the previous year can sum up as follows:

Control within the organization

1.1 The Company is well aware of its corporate responsibility for the society as a whole, by ensuring its directors, executives and employees conduct ethical business. To ensure the Company's objectives and to be in line with the Mitsubishi Electric Group Conduct Guidelines, the Company communicates its policies and targets as well as gives a written clarification to the employees organization-wide. Also, the Company arranges training, and testing (E-Learning) thereon to the employees at all levels for their translation into action and follow up the results.

1.2 The Board of Directors has appointed four Board committees, namely the Board of Executive Directors, the Audit Committee, the Nomination, and Remuneration Committee, and the Product Pricing Committee, with duties and responsibilities designated to monitor and control business operation in line with the objectives.

1.3 The Board of Directors has assigned the Board of Executive Directors to undertake business administration on its behalf and to determine policies and targets on business administration, quality assurance, environmental management, health and safety, energy conservation, confidentiality security management, business ethics management, and anti-fraud and anti-corruption. The Board has also formulated the organizational structure by dividing management duties and responsibilities into 2 main lines as follows:

1.3.1 Administration and planning line composed of 6 departments which are Corporate Strategic Planning Office, Internal Audit Control Office, General Administration Department, Finance Department, Purchase Department and Marketing Department.

1.3.2 Engineering line composed of 6 departments which are, Production Engineering, Quality Assurance Department, Tool & Plastic Production, Fan Production, Refrigerator Production, and Water Pump Production.

1.4 The Company has established a selection and nomination process to recruit personnel with required knowledge, skills, expertise and experience, from operating staff to supervisory and executive levels allocated appropriately according to the organization structure. It has a process in place for performance evaluation, salary increment and promotion, and a succession plan, with key talents selected to undergo a training course in Japan. Wages and salaries as well as other remuneration and benefits are made available as appropriate to employees at all levels without discrimination. At the same time, a fair penalty system applies to any case where an employee performs in violation of the work rules and regulations.

1.5 The Company has an independent work unit handling internal audit and following up on other work units' operations in terms of internal control, risk management and compliance with applicable laws. Such internal audit unit shall implement in line with the annual audit plan, and shall report the audit result and follow-up result of subsequent corrective action to both the Board of Executive Directors and the Audit Committee for acknowledgement, as well as comments and recommendation for the management's improvement and remedial action accordingly.

1.6 The Audit Committee shall perform duties with independence in the scope of power and duties prescribed in the Audit Committee Charter. It has reviewed financial reports, risk management, internal control and audit systems, proposed appointment of external auditors and auditor remuneration, and connected transactions or transactions that may have a conflict of interest, on a quarterly and annual basis. Results of such review by the Audit Committee are also proposed to the meeting of the Board of Directors for acknowledgement and consideration every quarter and published in the Audit Committee's annual report. (See details in "Audit Committee's Report.")

2. Risk assessment

In risk management, on a semi-annual basis, all departments of the Company reviewed risk identification, risk assessment, and risk management in line with risk assessment forms to fit with the Company's policies and cover all of its corporate targets.

Risk Management Committee reviewed risk identification and risk level assessment, as well as risk management measures, of working groups in all departments. It also examined risk management to ensure efficiency and suitability with the organization, closely followed up on risk management performance, and reported risk management activities of all departments as the significant agenda items to the meetings of the Audit Committee and the Board of Directors for acknowledgement and consideration.

3. Control activities

3.1 The Board of Executive Directors and executives at various managerial levels map out yearly policies, objectives, and targets of all departments, and communicate them to staff members for further translation into practice to achieve such aims. The operation monitoring system is in place with reporting at meetings held at all levels on a weekly, monthly, quarterly and semi-annual basis. The staff reports the progress of their operation and the executives shall give instructions and assignments to ensure that the Company's goals and objectives entirely achieved.

3.2 The Company arranges written corporate rules to control operations in financial transactions, procurement, production, quality control, sales of goods and general administration, with a scope of power, duties, responsibilities, and approval amount limit for each level. A limit exceeding budget request subjects to consideration and approval of the meeting of Budget Committee chaired by the President and held every week to consider budget spending proposals.

3.3 The Company has appointed representatives as directors in associated companies to follow up the operations of such companies.

3.4 The Company Secretary has been assigned to keep and regularly update information on the significant shareholder, directors, executives, and connected persons, to facilitate monitoring and review of related transactions or transactions prone to conflict of interest.

4. Information and communication The Company has established an adequate information and communication system. It has prepared accurate, complete, and reliable information within an appropriate period, and made it available to the Board of Directors, the management and staff members to support decision-making on a timely basis. Secure access to information in various work systems is determined precisely and as prescribed by relevant laws via such channels as e-mail, Intranet, and communication through activities and joint meetings to strengthen coordination and operation to achieve the targets set forth.

For external parties, the Company has disclosed and communicated its information comprehensively and equitably to the stakeholders through its communication channel, i.e., www.mitsubishi-kye.com, and in case of disclosure according to the criteria of the Stock Exchange of Thailand (SET), such as financial report, annual report of operating results, and minutes of the annual general meeting of shareholders, via the SET's information system and the Company's website.

Moreover, the Company has a channel for stakeholders to report any incident or any act prone to a violation of the laws and regulations, code of business ethics which may cause damage to the Company. They may inform the Internal Audit Control Office by post: P.O. Box 49, Bangna Tower 10541. The Company has a system in place to process such cases and make an investigation thereof before deciding on any appropriate action.

5. Monitoring activities The Company has a process to monitor business operations at directors, executives, and managerial levels through various meetings, namely Board of Directors meeting (quarterly), Board Committee meetings, business plan meeting, departmental policy and implementation plan meeting, weekly manager meeting, monthly business unit meeting, weekly and monthly quality meeting, and so forth.

Directors and executives will acknowledge operating results covering achievements and/or problems from the minutes of the meetings. They will then at the respective meetings instruct the relevant parties to take improvement or solution actions to meet the Company's objectives and targets.

At the Board of Directors meeting 1/2024, on May 20, 2024, which the three Audit Committee members attended, assessed the Company's internal control system in five areas based on the Audit Committee's report and expressed an opinion that the Company's internal control system has been adequate and appropriate. The system contained with an efficient management system with sufficient transactions with persons that may have a conflict of interest and connected parties, and there is no any deficiency

in the internal control system that could cause a significant impact on the Company.

Head of Internal Audit Control

The Board of Executive Directors, with the consent of the Audit Committee, has appointed Mr. Pensak Plavuthithothai as a Manager of the Internal Audit Control Office, and taking effect on April 1, 2020. Mr. Pensak has 34 years of work experience and knowledge of the Company's business activities and operations. Thus, He is qualified and appropriate to perform duties in this position. Appointment, removal, or rotation of Manager of Internal Audit Control Office shall be subject to approval or consent from the Audit Committee.

9.1.1 Adequacy and appropriateness of the company's internal control system

Company's internal control system : The Committee of Sponsoring Organizations of the Treadway Commission (COSO)

The Committee of Sponsoring Organizations of the Treadway Commission (COSO)

Internal Control in accordance with COSO Framework The Company maintains an internal control system based on the COSO framework, which includes the following components:

1. Control Environment

- The Company has established written policies and management objectives, which are communicated clearly and thoroughly to all employees.
- The Company has appointed four sub-committees: the Executive Committee, the Audit Committee, the Nomination and Remuneration Committee, and the Product Pricing Committee. These committees are assigned specific responsibilities to supervise and ensure that the Company's operations align with its objectives. The Company has also defined a clear organizational structure with segregation of duties and responsibilities at all levels of management.
- The Company has a structured recruitment and selection process to ensure that qualified and capable personnel are hired at all levels from executives and supervisors to operational staff. Fair and appropriate remuneration, benefits, and welfare are also provided to all employees.
- An independent internal audit unit is established to monitor and evaluate the effectiveness of internal control systems, risk management, and legal compliance. The internal audit unit reports its findings directly to the Executive Committee and the Audit Committee.

2. Risk Assessment

- Every six months, all departments review and assess potential risks. Mitigation measures and control plans are developed to align with the Company's policies and performance targets.

3. Control Activities

- The Company has implemented formal written procedures and regulations to govern operations across various business functions, including finance, procurement, production, quality control, sales, and general management. These procedures define the authority levels, approval limits, and budget request processes, which must be reviewed and approved by the Budget Committee.

4. Information and Communication

- The Company has established effective information systems and communication channels. Data is accurately and reliably collected, processed, and reported to management and the Board of Directors in a timely manner. Access rights are defined for each system, and communication is facilitated through email, internal communication systems (Intranet), and corporate engagement activities.
- For external stakeholders, the Company ensures equal and transparent disclosure through the Stock Exchange of Thailand's information system and the Company's official website: www.mitsubishi-kye.com

5. Monitoring Activities

- The Company conducts regular monitoring of operations at the board, executive, and management levels through various meetings, including: quarterly Board of Directors meetings, sub-committee meetings, business planning sessions, policy and departmental activity planning meetings, weekly management meetings, monthly business unit meetings, and weekly/monthly quality review meetings.

9.2.4 Information on appraised assets and appraisal price in conjunction with the execution of related party transactions

Can be referred in attachment 4: assets for business undertaking and details of asset appraisal

Part 3 Financial Statement

Board of Directors' Responsibility Statement for the
Financial Report

Report of the Board of Directors' Responsibility for Financial Statements

The Board of Directors is responsible for the financial statements of Kang Yong Electric Public Company Limited including the financial information presented in the Annual Report. The financial statements have been prepared in accordance with the generally accepted accounting standards under the Accounting Act, B.E. 2543 and the requirements of the Securities and Exchange Commission regarding preparation and presentation of financial statements under the Securities and Exchange Act, B.E. 2535 by consideration to use of accounting policy appropriate and have been applied consistently including cautious discretion and reasonable estimates in the preparation, as well as disclosure of significant information adequate in the notes to the financial statements. The financial statements has been audited and expressed opinion in the auditor's report with unconditional by the independent certified public accountant.

The Board of Directors has put in place the risk management and internal control systems in order to assure that the accounting information is accurate , completely, timely and sufficiently to sustain the Company's assets including prevent frauds or any significant irregularities operation .

In this regard, the Board of Directors has appointed the Audit Committee comprising independent directors to be responsible for the quality of the financial report, the assessment of the internal control and internal audit to ensure efficiency, effectiveness and reliability. The Audit Committee has reported the performance to the Board of Directors, and given opinions on these issues in the Audit Committee's report presented in the Annual Report 2024.

The Board of Directors is of the opinion that the internal control system and internal audit of the Company are adequate and appropriate , able to ensure rationally that the financial statements for the year ended March 31, 2025 of Kang Yong Electric Public Company Limited are reasonably reliable and accurate in material aspects in accordance with the generally accepted accounting standards.

(Mr. Praphad Phodhivorakhun)

Chairman of the Board of Directors

(Mr. Keiji Oya)

President

June 12, 2025

Auditor's Report

Independent Auditor's Report

To the Shareholders of Kang Yong Electric Public Company Limited

Opinion

I have audited the financial statements in which the equity method is applied and separate financial statements of Kang Yong Electric Public Company Limited (the "Company"), which comprise the statement of financial position in which the equity method is applied and separate statement of financial position as at 31 March 2024, the related statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements in which the equity method is applied and separate financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2024 and its financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements in which the Equity Method is Applied and Separate Financial statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to my audit of the financial statements in which the equity method is applied and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matter is those matter that, in my professional judgment, were of most significance in my audit of the financial statements in which the equity method is applied and separate financial statements of the current period. This matter was addressed in the context of my audit of the financial statements in which the equity method is applied and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

Adequacy of provision for warranties	
Refer to Notes 3 (n) and 13 to the financial statements in which the equity method is applied and separate financial statements.	
The key audit matter	How the matter was addressed in the audit
The provision for product warranty is material to the financial statements. The determination of the provision involves estimates by management of the amount and probability of claims. Therefore, I consider this matter to be a key audit matter.	<p>My audit procedures included, among others:</p> <ul style="list-style-type: none"> - Inquiring management to gain understanding on the process for estimation of provision for warranties. - Testing the reliability of actual warranties report by comparing actual claimed data with actual warranties report including testing on sampling basis of relevant documents. - Challenging management regarding the method used for estimation to evaluate the reasonableness of the method and assumptions used. - Considering the appropriateness of assumptions used for estimation of expected damage from warranty by comparing with historical actual claimed data. - Testing the calculation of provision for warranties by consider total sales of finished goods, total actual warranty expense and average claimed year. - Considering the adequacy of the Company's disclosures in accordance with the related Thai Financial Reporting Standards.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements in which the equity method is applied and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements in which the equity method is applied and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements in which the equity method is applied and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements in which the equity method is applied and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the correction be made.

Responsibilities of Management and Those Charged with Governance for the Financial Statements in which the Equity Method is Applied and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in which the equity method is applied and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements in which the equity method is applied and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements in which the equity method is applied and separate financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements in which the Equity Method is Applied and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements in which the equity method is applied and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements in which the equity method is applied and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements in which the equity method is applied and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements in which the equity method is applied and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements in which the equity method is applied and separate financial statements, including the disclosures, and whether the financial statements in which the equity method is applied and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of equity-accounted investees of the Company to express an opinion on the financial statements in which the equity method is applied. I am responsible for the direction, supervision and performance of the audit of the financial statements in which the equity method is applied. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements in which the equity method is applied and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the Board of Directors on 20 May 2024.

1 General information

Kang Yong Electric Public Company Limited, the “Company”, is incorporated in Thailand and was listed on the Stock Exchange of Thailand in October 1993. The Company’s registered office at 67 Moo 11, Debaratna Road, K.M. 20, Bangchalong, Bangplee, Samutprakarn.

The immediate parent company during the financial year was Mitsubishi Electric Corporation (45.70% shareholding), which was incorporated in Japan.

The principal activities of the Company are manufacturing and distributing household electrical appliances under the “Mitsubishi” trademark. The Company obtains the production licence and technology from its parent company.

2 Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standards (“TFRS”), guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission. The financial statements are presented in Thai Baht, which is the Company’s functional currency. The accounting policies are described in note 3 have been applied consistently to all periods presented in these financial statements.

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of the Company accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

3 Significant accounting policies

(a) *Basis of preparation of the financial statements in which the equity method is applied*

The financial statements in which the equity method is applied relate to the Company and the Company’s interests in an associate.

Interests in equity-accounted investee

The Company’s interests in equity-accounted investee comprise interest in an associate.

Associate is an entity in which the Company has significant influence, but not control or joint control, over the financial and operating policies.

Interest in an associate is accounted for using the equity method. It is initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the financial statements in which the equity method is applied include the Company’s share of the profit or loss and other comprehensive income of equity-accounted investee, until the date on which significant influence ceases.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

(b) Investment in associate

Investment in associate in the separate financial statements of the Company is measured at cost less allowance for impairment losses. Dividend income is recognised in profit or loss on the date which the Company's right to receive payment is established.

(c) Foreign currencies

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to the respective functional currencies at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate at the reporting date.

Foreign currency differences are generally recognised in profit or loss.

(d) Financial instruments

(d.1) Classification and measurement

Financial assets and financial liabilities (except trade accounts receivables (see note 3(f))) are initially recognised when the Company becomes a party to the contractual provisions of the instrument, and measured at fair value plus or minus, for financial assets and financial liabilities not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition.

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI); or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified prospectively from the reclassification date.

On initial recognition, financial liabilities are classified as measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses and any gain or loss on derecognition are recognised in profit or loss.

Financial assets measured at amortised costs are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, expected credit loss and any gain or loss on derecognition are recognised in profit or loss.

Equity investments measured at FVOCI are subsequently measured at fair value. Dividend income is recognised as income in profit or loss on the date on which the Company right to receive payment is established, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

(d.2) Derecognition and offsetting

The Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

The difference between the carrying amount extinguished and the consideration received or paid is recognised in profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and the Company intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(d.3) Impairment of financial assets other than trade accounts receivables

The Company recognises allowances for expected credit losses (ECLs) on financial assets measured at amortised cost, debt investments measured at FVOCI and loan commitments issued which are not measured at FVTPL.

The Company recognises ECLs equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition or credit-impaired financial assets, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

ECLs are a probability-weighted estimate of credit losses based on forward-looking and historical experience. Credit losses are measured as the present value of all cash shortfalls discounted by the effective interest rate of the financial asset.

The Company considers a financial asset to have low credit risk when its credit rating is equivalent to the globally understood definition of 'investment grade'. The Company recognises ECLs for low credit risk financial asset as 12-month ECLs.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due, significant deterioration in credit rating, significant deterioration in the operating results of the debtor and existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Company.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

(d.4) Write offs

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering. Subsequent recoveries of an asset that was previously written off, are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(d.5) Interest

Interest income and expense is recognised in profit or loss using the effective interest method. In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and highly liquid short-term investments which have a maturities of three months or less from the date of acquisition.

(f) Trade and other accounts receivables

A receivable is recognised when the Company has an unconditional right to receive consideration. A receivable is measured at transaction price less allowance for expected credit loss. Bad debts are written off when incurred.

The Company estimates lifetime expected credit losses (ECLs), using a provision matrix to find the ECLs rates. This method groups the debtors based on shared credit risk characteristics and past due status, taking into account historical credit loss data, adjusted for factors that are specific to the debtors and an assessment of both current economic conditions and forward-looking general economic conditions at the reporting date.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is calculated using the weighted average cost principle. Cost includes direct costs incurred in acquiring the inventories. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

(h) Investments properties

Investment properties are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed assets includes capitalised borrowing costs.

Depreciation is calculated on a straight-line basis over the estimated useful lives of buildings of 20 years and recognised in profit or loss. No depreciation is charged on freehold land.

Differences between the proceeds from disposal and the carrying amount of investment property are recognised in profit or loss.

(i) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials, direct labour, and any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Differences between the proceeds from disposal and the carrying amount of property, plant and equipment are recognised in profit or loss.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item when the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Depreciation

Depreciation is calculated on a straight-line basis (except for factory equipment - moulds and jigs using the double declining balance method) over the estimated useful lives of each component of an asset and recognised in profit or loss. No depreciation is provided on freehold land or assets under construction.

The estimated useful lives are as follows:

Land improvements	5 years
Buildings and improvements	5 - 20 years
Machinery and equipment	5 - 25 years
Factory equipment	5 - 12 years
Office equipment	5 years
Vehicles	5 years

(j) Intangible assets

Intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses. Subsequent expenditure is capitalised only when it will generate the future economic benefits. Amortisation is calculated on a straight-line basis over the estimated useful lives of intangible assets and recognised in profit or loss.

The estimated useful lives are as follows:

Software licences	10 years
Computer software	5 years
Golf course membership	5 years

(k) Leases

At inception of a contract, the Company assesses that a contract is, or contains, a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices of each component. For the leases of property, the Company has elected not to separate non-lease components and accounted for the lease and non-lease components wholly as a single lease component.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date, except for leases of low-value assets and short-term leases which are recognised as an expenses on a straight-line basis over the respective lease terms.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

Right-of-use asset is measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurements of lease liability. The cost of right-of-use asset includes the initial amount of the lease liability adjusted for any prepaid lease payments, plus any initial direct costs incurred. Depreciation is charged to profit or loss on a straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of all lease payments that shall be paid under the lease. The Company uses the Company's incremental borrowing rate to discount the lease payments to the present value. The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a lease modification. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

As a lessor

At inception or on modification of a contract, the Company allocates the consideration in the contract to each component on the basis of their relative standalone selling prices.

At lease inception, the Company considers to classify a lease that transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to lessees as a finance lease. A lease that does not meet this criteria is classified as an operating lease.

The company derecognises and determines impairment on the lease receivables as disclosed in note 3(d).

(l) Impairment of non-financial assets

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated.

An impairment loss is recognised in profit or loss if the carrying amount of an asset exceeds its recoverable amount.

The recoverable amount is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss of asset recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

(m) Employee benefits

Defined contribution plans

Obligations for contributions to the Company's provident fund are expensed as the related service is provided.

Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligations is discounted to the present value, which performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Company determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(n) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Provision for warranties

A provision for product warranties is recognised when the underlying products or services are sold. The provision is based on historical actual claimed data and a weighting of all possible outcomes against their associated probabilities.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

(o) Measurement of fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are based on unobservable input.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Company measures assets and asset positions at a bid price and liabilities and liability positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received.

(p) Revenue

Revenue is recognised when a customer obtains control of the goods or services in an amount that reflects the consideration to which the Company expects to be entitled, excluding those amounts collected on behalf of third parties, value added tax and is after deduction of any trade discounts and volume rebates.

Revenue from sales of goods is recognised on the date on which the goods are delivered to the customers.

Revenue for rendering of services is recognised over time. The related costs are recognised in profit or loss when they are incurred.

(q) Rental income

Rental income from investment property is recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income. Contingent rentals are recognised as income in the accounting period in which they are earned.

(r) Investment income

Investment income comprises dividend and interest income from investments and bank deposits. Dividend income is recognised in profit or loss on the date the Company's right to receive payments is established. Interest income is recognised in profit or loss as it accrues.

(s) Income tax

Income tax expense for the year comprises current and deferred tax, which is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in separate financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(t) *Earnings per share*

Basic earnings per share (EPS) is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

(u) *Related parties*

A related party is a person or entity that has direct or indirect control or has significant influence over the financial and managerial decision-making of the Company; a person or entity that are under common control or under the same significant influence as the Company; or the Company has direct or indirect control or has significant influence over the financial and managerial decision-making of a person or entity.

(v) *Segment reporting*

Segment results that are reported to the Company's CODM (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly assets, liabilities, investment income, gain (loss) on exchange rate, other income, some of selling and administrative expenses.

Kang Yong Electric Public Company Limited

Notes to the financial statements

For the year ended 31 March 2024

4 Related parties

Relationship with an associate is described in note 8. Other related parties that the Company had significant transactions with during the year were as follows:

Name of entities	Country of incorporation/ nationality	Nature of relationships
Key management personnel	Japanese, Thai	Persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of the Company
Mitsubishi Electric Corporation	Japan	Parent, 45.70% shareholding
Kulthorn Kirby Public Company Limited	Thailand	Common director
Mitsubishi Electric Kang Yong Watana Co., Ltd.	Thailand	A subsidiary of the Company's parent and common director
Mitsubishi Electric Consumer Products (Thailand) Co., Ltd.	Thailand	A subsidiary of the Company's parent and common director
Siam Compressor Industry Co., Ltd.	Thailand	A subsidiary of the Company's parent
Mitsubishi Electric Life-Network Co., Ltd.	Japan	A subsidiary of the Company's parent
Mitsubishi Electric Engineering Co., Ltd.	Japan	A subsidiary of the Company's parent
Mitsubishi Electric Taiwan Co., Ltd.	Taiwan	A subsidiary of the Company's parent
Mitsubishi Electric Asia Pte. Ltd.	Singapore	A subsidiary of the Company's parent
Mitsubishi Electric Australia Pty. Ltd.	Australia	A subsidiary of the Company's parent
Mitsubishi Electric Sales Malaysia Sdn. Bhd.	Malaysia	A subsidiary of the Company's parent
Mitsubishi Electric (Malaysia) Sdn. Bhd.	Malaysia	A subsidiary of the Company's parent
Setsuyo Astec Corporation	Japan	A subsidiary of the Company's parent
Melco Thai Capital Co., Ltd.	Thailand	A subsidiary of the Company's parent
Mitsubishi Electric (Hong Kong) Ltd.	Hongkong	A subsidiary of the Company's parent
Mitsubishi Electric Automation (Thailand) Co., Ltd.	Thailand	A subsidiary of the Company's parent

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

Significant agreements with related parties

Technical assistance agreement

The Company entered into agreement with Mitsubishi Electric Corporation (MELCO) whereby such company agreed to provide the Company the technical information and know-how of production. In consideration thereof, the Company agreed to pay royalty fees, development fees and technical assistance fees computed based on agreed formula to MELCO. The term of the agreement was for a period of 5 years and is automatically extended for a successive period of 5 years each unless either party notifies in writing to the other party any intention of termination at least 6 months prior to expiration of the agreement.

Building rental agreement

The Company entered into a building rental agreement with Smile Super Express Co., Ltd., an associate, whereby the Company will provide building rental to the associate for use as a warehouse for its finished goods. The agreement was for a period of 2 years with rental rate as specified in the agreement. This agreement is renewed by either party notification in writing to the other party at least 60 days before expiration of this agreement. In June 2023, the Company notified to renew such agreement for a period of 2 years expiring on 31 July 2025.

Inventory management service agreement

The Company entered into an inventory management service agreement with Smile Super Express Co., Ltd., an associate. Under the term of the agreement, the Company agrees to pay an inventory management service fee in an amount and a condition as specified in the agreement. The agreement has a term of 1 year and shall be automatically extended for successive 1 year term unless terminated by either party.

Thai Baht pooling service agreement

In May 2002, the Company entered into the Thai Baht Pooling Service Agreement with Melco Thai Capital Co., Ltd. (MTC), other related party, whereby MTC agreed to provide management service relating to Thai Baht current account of the Company. In consideration thereof, the Company is committed to pay or earn the interest at the rate and method as specified in the agreement. There is no expiration of the agreement unless there are any cases complying with termination conditions as specified in the agreement.

Short term loan to related party

On 22 January 2024, the Company entered into a loan agreement with Melco Thai Capital Co., Ltd., other related party, whereby the related party issued the promissory note to the Company amounting to Baht 90 million which bears interest at the rate of 2.50% per annum and will be due on 23 January 2025.

Investment properties comprise land and buildings that are leased to an associate and plots of land that are not used in operations. Renewals are negotiated with the lessee. No contingent rents are charged.

The fair value of investment properties as at 31 March 2024 of Baht 144.30 million (2023: Baht 161.28 million) was determined by independent professional valuers, at discounted cash flow using risk-adjusted discount rates for land and buildings that are leased to an associate and was considered by appraisal value of the Treasury Department for land not used in operations. The fair value of investment property has been categorised as a Level 3 fair value.

Vehicles	10,907	14,589
Copy machines	939	-
Computers	489	769
Total	14,942	20,904

For the year ended 31 March 2024, additions to the right-of-use assets of the Company were Baht 3.08 million (2023: 11.92 million).

The Company leases a number of land, vehicles, copy machines and computers for 3 - 6 years, with extension options at the end of lease term for land lease contract. The rental is payable monthly as specified in the contract.

Extension options

Some property leases contain extension options exercisable by the Company up to one year before the end of the non-cancellable contract period. Where practicable, the Company seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Company and not by the lessors. The Company assesses at lease commencement date whether it is reasonably certain to exercise the extension options. The Company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

At 31 March 2024	68,620

A provision for product warranties is recognised when the underlying products or services are sold. The provision is based on historical actual claimed data and a weighting of all possible outcomes against their associated probabilities. Management estimates the provision for warranties by estimation from the proportion of actual warranty claimed and total sales of products during average claimed years.

15 Share premium and reserves

Share premium

Section 51 of the Public Companies Act B.E. 2535 requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account (“share premium”). Share premium is not available for dividend distribution.

Legal reserve

Section 116 of the Public Companies Act B.E. 2535 requires that a public company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account (“legal reserve”), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

Other component of equity

The fair value reserve comprise:

- the cumulative net change in the fair value of equity securities designated at FVOCI.

16 Segment information and disaggregation of revenue

The Company operates in a single line of business, namely the manufacturing and selling of household electrical appliances, which is an integrated line of product. The Company sales goods in domestic and overseas. The chief operating decision maker (CODM) determines operating segment on a geographical basis as follows:

- Segment 1 Sale of goods and rendering of services in Thailand
- Segment 2 Sale of goods in Japan
- Segment 3 Sale of goods in other countries

The Company’s strategic divisions are managed separately because they require different marketing strategies. For each of the strategic divisions, the chief operating decision maker (CODM) reviews internal management reports at least on a monthly basis.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment operating profit, as included in the internal management reports that are reviewed by the Company’s CODM. Segment operating profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

The Company's operations mainly involve business segments in manufacturing and selling of household electrical appliances in Thailand and sale goods in both domestic and oversea (Japan and other countries). Financial information of the Company by operating segments on a geographical basis for the years ended 31 March 2024 and 2023 was as follows:

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

Financial instruments not measured at fair value

The Company determined Level 3 fair values for investments in equity instruments which is not actively traded in market. The fair value of the investment was then determined using a valuation technique that used significantly unobservable input such as dividend discounted model, and market comparison technique.

Sensitivity analysis

For the fair values of financial assets measured at fair value Level 3, reasonably possible changes at the reporting date to one of the significant unobservable inputs, holding other inputs constant, would have the following effects;

Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Dividend discounted model	Discount rate	The estimated fair value would increase (decrease) if the discount rate was lower (higher)
Market comparison technique	Adjusted market multiple	The estimated fair value would increase (decrease) if the adjusted market multiple were higher (lower)

Reconciliation of Level 3 fair values	Financial statements in which the equity method is applied and separate financial statements	
	2024	2023
	<i>(in thousand Baht)</i>	
Equity securities		
At the beginning of the year	2,194,283	2,324,526
Net change in fair value (including unrealised transactions)		
- recognised in OCI	1,019,089	(130,243)
At the end of the year	3,213,372	2,194,283

(b) Financial risk management policies

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

Kang Yong Electric Public Company Limited

Notes to the financial statements

For the year ended 31 March 2024

The Company audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(b.1) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

(b.1.1) Trade accounts receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's trade terms and conditions are offered. The Company's review sale limits for each customer regularly. Any sales exceeding those limits require approval.

The Company limits its exposure to credit risk from trade accounts receivables by establishing a maximum payment period of 4 months. Outstanding trade receivables are regularly monitored by the Company. An impairment analysis is performed by the Company at each reporting date. The provision rates of expected credit loss are based on days past due for to reflect differences between economic conditions in the past, current conditions and the Company's view of economic conditions over the expected lives of the receivables.

Information relevant to trade accounts receivables are disclosed in note 6.

(b.1.2) Cash and cash equivalent

The Company's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions which the Company considers to have low credit risk.

(b.2) Liquidity risk

The Company monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Company's operations and to mitigate the effects of fluctuations in cash flows.

The following table are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include contractual interest payments and exclude the impact of netting agreements.

Kang Yong Electric Public Company Limited

	1,094,989	1,082,425	13,426	-	1,095,851

(b.3) Market risk

The Company is exposed to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is as follows:

(b.3.1) Foreign currency risk

The Company is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies. The Company primarily utilises forward exchange contracts with maturities of less than one year to hedge such financial assets and liabilities denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated purchases and sales, denominated in foreign currencies, for the subsequent period.

Financial statements in which the equity method is applied and separate financial statements				
Exposure to foreign currency at 31 March	2023		2022	
	USD	JPY	USD	JPY
	(in thousand Baht)

Forward exchange selling contracts	-	-	-	-
Net exposure	266,622	(45,029)	352,632	(15,712)

Kang Yong Electric Public Company Limited
Notes to the financial statements
For the year ended 31 March 2024

Sensitivity analysis

A reasonably possible strengthening (weakening) of Thai Baht against all other foreign currencies at the reporting date would have affected the measurement of financial instruments denominated in a foreign currency. This analysis assumes that all other variables, in particular interest rates, remain constant.

		Financial statements in which the equity method is applied and separate financial statements	
<i>Impact to profit or loss</i>	Movement (%)	Strengthening (in thousand Baht)	Weakening
<i>At 31 March 2024</i>			
USD	1	(2,666)	2,666
JPY	1	450	(450)
<i>At 31 March 2023</i>			
USD	1	(3,526)	3,526
JPY	1	157	(157)

(b.3.2) Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Company's operations and its cash flows because loan interest rates are mainly fixed. So the Company has low interest rate risk. The sensitivity impact to the increase or decrease in interest expenses from borrowings, as a result of changes in interest rates is immaterial on financial statements of the Company.

23 Capital management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board regularly monitors the return on capital, by evaluating result from operating activities divided by total shareholders' equity, excluding non-controlling interests and also monitors the level of dividends to ordinary shareholders.
