- Fully commit, pay attention and do the best.

► ORGANIZATIONAL GOALS

Strategic plan and corporate goals in the long term 3 years (2022-2024), the company has aimed to provide a One Stop Service Solution to be the leader and provider of end-to-end solutions that are trusted and run a sustainable business. by bringing modern technology as part of business operations. Aiming to be a new business in business. They are also looking for ways to expand new customers and partners to drive sales and profits. Increase efficiency in resource and cost management. Along with creating the core values of the organization. Aim to develop personnel to have skills in innovation and technology and has operational excellence to be an organization with honesty professional and maximum efficiency. In addition, we still care and care about the surrounding communities. As well as stakeholders in all sectors to develop society together and sustainably.

MESSAGE FROM THE CHAIRMAN AND CEO

For the year 2023, digital transformation and ESG have become globally significant trends for every business, regardless of industry. Leaders should understand and maximize the benefits from these business trends. Digital transformation is no longer optional for businesses due to pressures from the pandemic and changing consumer trends towards digitalization. Organizations need to meet the changing expectations of employees amid a hybrid environment that emphasizes digitalization and continuous development. Leaders play a crucial role in driving successful digital transformation, including anticipating future business trends and challenges to define business vision, strategizing, and structuring business operations to manage and drive innovative thinking for sustainable digital transformation success.

In the operational strategy for 2023, the company focused on continuously adjusting its business plans under the vision of being a "Tech Ecosystem Builder". TKS aimed to lead in expanding investments in the technology (Tech) sector continuously to adapt swiftly to digital technology changes. This involved innovating information systems and restructuring the organization within the company group to combine market development and product development, as well as cost reduction in manufacturing to enhance overall competitiveness while maintaining existing business foundations and seeking new business partners.

Looking ahead for the next 2-3 years, TKS's business group is expected to diversify significantly, focusing on technology sectors, particularly in Deep Tech, leveraging its understanding of technology from experiences in tech startup ventures and affiliations such as SYNEX. The diversification and focus on technology businesses within TKS are expected to establish a strong foundation for long-term growth.

Regarding financial performance, as of December 31, 2023, the company's revenue was 1,488.3 million baht, a decrease of 93.5 million baht or 5.9% from the previous year. This decline in revenue was primarily due to decreased sales of special project work in the anti-counterfeit printing business and reduced sales of customer data printing services through digital systems. The initial profit margin was 29.6%, down from 30.4% due to increased raw material costs and production expenses compared to the previous year. Net profit from operations was 108.1 million baht, down by 37.9 million baht or 26.0% from the previous year due to the reduced initial profit margin and increased sales and management expenses. Additionally, the company recognized a decrease in profit sharing from investments in joint ventures of 136.0 million baht, a decrease of 49.1%, mainly due to a decrease in profit sharing from SYNEX. Total assets

A handwritten signature in black ink, appearing to read 'Apisak Tantivorawong'.

Mr. Apisak Tantivorawong

The Chairman of the Board of Directors

as of December 31, 2023, were 5,345.1 million baht, a decrease of 448.9 million baht or 7.7%, primarily due to changes in the valuation of investment securities. The company's financial position remains strong, with a debt-to-equity ratio of 0.29.

In 2024, the company anticipates recovery in both the label and packaging solutions business, expecting growth of over 25% by expanding markets into the food, electronics, and ASEAN markets, along with pushing forward the security label solution business, which has good growth potential. This will be achieved by leveraging technology to strengthen strategies as a Tech Ecosystem Builder.

In the past year, the company renewed its membership with the Thai Private Sector Collective Action Against Corruption and maintained a 5-star rating for corporate governance for the second consecutive year, placing in the Top Quartile in the 2023 Thai Corporate Governance (CGR) assessment organized by the Thai Institute of Directors (IOD) under the support of the Stock Exchange of Thailand and the Securities and Exchange Commission. The company also received a perfect score of 100 in the AGM Checklist for the third consecutive year, demonstrating a commitment to sustainable business growth based on ethical principles and good governance practices, alongside social and environmental development efforts to create sustainable business value and provide long-term returns to investors.

In addition, the company has received numerous awards and accolades related to its significant and sustainable development efforts. For example, it was awarded an A rating in the SET ESG Ratings for the second consecutive year (formerly known as THSI) in 2023, organized by the Stock Exchange of Thailand, in the industrial sector. The company was also consecutively honored with the Eco Factory accolade for the 7th year by the Federation of Thai Industries, reflecting its commitment to environmentally friendly operations for sustainable development. This recognition serves as a significant mechanism in demonstrating genuine sustainable development within the industry, including receiving awards such as the Outstanding Greenhouse Gas Reduction Network Factory accolade for the year 2023 from the Industrial Estate Authority of Thailand (IEAT), along with many other awards, reflecting the importance placed on conducting business sustainably.

The board of directors extends gratitude to shareholders, partners, customers, financial institutions, and all stakeholders, as well as management and employees who have supported the company's operations throughout. We remain committed to conducting business ethically, with consideration for all stakeholders, responsibility to society and the environment, and striving to continuously prosper as a sustainable business leader in the future.

On behalf of the Board of Directors,

Mr. Jutiphan Mongkolsuthree
Chief Executive Officer

PERFORMANCE HIGHLIGHTS

The Company had revenue from sales and services in amount THB 1,488.3 million, a decrease from the previous year (YoY) amounting to THB 93.5 million or 5.9%, mainly due to decline in sales of a special project in security printing solution and sales of digital printing solution. However, the decline was partially offset by export revenue in the security label business, which is the business group that the company is interested in and continues to expand. A gross profit for the year was 29.6%, a slight decrease from the last year, which has a gross margin of 30.8%, mainly due to the previous year, there was a special project in security printing business which has a higher gross profit margin than a normal project. As a result, the Company had a net profit from operations of THB 108.1 million, a decrease of THB 37.9 million or 26.0% from the last year, which mainly came from a decrease in gross margin and an increase in sales and administrative expenses. In addition, the Company also recognized the profit sharing from investments in associates decreased by THB 154.1 million or 44.3% from decrease in profit sharing from SYNEX.

Total assets as of December 31, 2023, were at THB 5,096.1 million, a decrease of THB 697.9 million or 12.0% from December 31, 2022, mainly due to the change in fair value measurement of investments in equity securities and warrants. The company's financial position is still strong with debt to equity ratio at 0.29.

Overview Business Strategy Tech Ecosystem Builder

The Company has continuously focused on adapting its businesses to keep up with digital disruption by developing the innovation of information technology and has internally restructured its group of companies to create a synergy both in terms of market and product development and in terms of reducing production capital to increase its overall competitiveness to maintain its existing business base alongside finding new business partners. Currently, the Company has invested in 6 major businesses as below

T.K.S. Technologies Public Company Limited (“The Company”) is a listed company in the Stock Exchange of Thailand under service industrial group in the category of printing media business, its first trading was on 18 November 2003, a total period listed in SET is 16 years and a total period in printing media business is 65 years since its establishment in 1954 started by Mr. Kriang and Mrs. Suchada Mongkolsuthree under the name of “Tae Giang Seng.” with a registered capital amounting 100,000 Baht, it operated businesses of stationery, office supplies and paper products.

Later, in 1986, under the management of Mr. Supant Mongkolsuthree, the Company’s business in stationery was changed to manufacture fanfold papers for computer (Stock Forms), copy papers and duplicating papers. In 2004, the Company invested in Siam Press Management Co., Ltd., which operates business in printing media similar to the Company’s business, by holding 85% of registered capital amounting 60 Million Baht to be a major shareholder and then holding 100% of shares in the beginning of 2005 with the objective to integrate the Company’s printing business from offset printing system in both continuous and sheet basis, digital printing system in color and black & white basis including printing management for large corporate customers. Siam Press Management Co., Ltd., changed its name to be T.K.S. Siam Press Management Co., Ltd. (“Subsidiary”) with registered capital of 300 Million Baht.

Business in computer peripheral devices, in 1988, Compex (Thailand) Company Limited, its subsidiary, was established with a registered capital of 1.0 Million Baht to operate import and export business of computer peripheral devices, software and information system. Distribution of computer peripherals, software and information systems. Compex (Thailand) Company Limited changed its name to be Synnex (Thailand) Public Company Limited with a registered capital of 800 Million Baht, its major shareholders are T.K.S. Technologies Public Company Limited with the shareholding proportion of 38.51% and Synnex Group of Companies, Taiwan (King’s Eye Investment Ltd.) with the shareholding proportion of 34.99%. Synnex (Thailand) Public Company Limited (“SYNNEX”) is a joint venture, therefore, the Company recognizes the revenue from this investment as profit sharing from investment in joint venture.

Later in 2019, the company acquired shares in TBSP Public Company Limited (“TBSP”) from 79.74% to 97.17%, which is a manufacturer and distributor of anti-counterfeiting publications such as plastic cards, cheque, Anti-Counterfeiting Labels, RFID, and Smart Card Reader, which at that time TBSP was a subsidiary of the company.

In 2021, the Company purchased newly issued ordinary shares of Sabuy Technology Public Company Limited (“SABUY”) in the amount of 110,000,000 shares, total value 984,500,000.00 baht, whereby the Company is a shareholder of SABUY in the proportion of 9.68 percent of the total shares sold of SABUY. Including the business structure of the Company and TBSP, TBSP will transfer assets including land, liabilities, including encumbrances and ordinary shares in subsidiaries to T.K.S. Siam Press Management Co., Ltd. (“SPM”), which It was a subsidiary in which TBSP held at that time 99.99% of the total issued shares of SPM and/or Marvel Pack Co., Ltd. (“MVP”), which was indirectly held by TBSP through SPM 99.99% of all shares sold of MVP.

The Company sold 150,061,118 ordinary shares of TBSP, representing not less than 73.48% of the total issued shares of TBSP, representing the total value. 2,005,022,000.00 baht to SABUY after the sale of TBSP shares, resulting in the company has 25% stake in TBSP of TBSP’s total paid-up shares. The restructuring of the Company and TBSP is a move to restructure its print media and plastic card businesses where the Company has focused on adapting to keep up with digital disruption by developing the innovation of information technology and has internally restructured its group of companies to create a synergy both in terms of market and product development and in terms of reducing production capital to increase its overall competitiveness to maintain its existing business base alongside finding new business partners

In 2022, the Company purchased 10,209,711 shares in TBSP (later changed its name to Plus Tech Innovation Public Company Limited or “PTECH”). The transaction resulted in the Company holding 51,048,559 shares in PTECH and maintaining the shareholding proportion of PTECH in the proportion of 25 percent of the total paid-up shares of PTECH.

The company has established Nex Ventures Co., Ltd., a new subsidiary, with a registered capital of 50,000,000 Baht to engage in investment activities in potential businesses or digital technology ventures to achieve the company’s strategy and sustainable growth. Subsequently, the company has resolved to increase the registered capital of Nex Ventures Co., Ltd. from the original 50,000,000 Baht to 100,000,000 Baht.

The company increased the registered capital from the original 462,226,467 Baht to 508,449,467 Baht by issuing common shares totaling 46,223,000 shares for dividend payment purposes. Furthermore, the company sold 25,000,000 common shares of SABUY and acquired common shares of Metro Systems Corporation Public Company Limited (“MSC”) totaling 32,400,000 shares, representing 9% of the total shares sold by MSC. Subsequently, the company sold an additional 8,000,000 common shares of SABUY and warrants of SABUY-W2 for 25,350,000 units, holding remaining warrants of SABUY-W2 totaling 8,650,000 units, and acquired common shares in Advanced Info Service Public Company Limited (“AIT”) totaling 19,200,000 shares, representing 1.44% of the total shares sold by AIT, and warrants of AIT-W2 totaling 28,968,900 units.

In the year 2023, during the Annual General Meeting of Shareholders No. 1/2023 held on February 16, 2023, the following resolutions were approved: 1. Approval to purchase 280 million common shares of AIT from SABUY and Mr. Chukiat at a total value of 2,100 million Baht (“AIT Share Purchase”). And 2. Approval to offer for sale 115 million common shares for capital increase to SABUY, a related party, at a total value of 1,610 million Baht (“PP Share Offering”).

During the Annual General Meeting of Shareholders for the year 2023, it was resolved to approve the issuance and offering of debentures not exceeding a total amount of 2,000 million Baht for general business purposes and/or repayment of debts and/or investments by the Company and its subsidiaries and/or use as revolving funds of the Company and its subsidiaries. Additionally, there was a resolution to amend the Company’s regulations to comply with the amended Public Limited Companies Act, including allowing the Company to use electronic methods for committee meetings and shareholder meetings, as well as for sending letters or documents.

The company has revised its dividend payment policy to be appropriate and in line with the actual operating results and financial position of the Company, which is of the utmost benefit to the shareholders. It was resolved to pay an interim dividend to shareholders at a rate of 0.08 Baht per share from the operating results for the first 6 months of the fiscal year 2023.

At the Annual General Meeting of Shareholders No. 2/2023 held on August 29, 2023, the following resolutions were made: 1. Resolution to cancel the purchase of 280,000,000 common shares of Advanced Info Service Public Company Limited (“AIT”) from SABUY and Mr. Chookiat Rujanapornpajee, and the offering of 115,000,000 common shares for capital increase to SABUY Company Limited (“PP Share Offering”). And 2. Approval to reduce the registered capital of the Company by 115,000,000 Baht from the registered capital of 623,448,439 Baht to 508,448,439 Baht by reducing the number of common shares that have not yet been issued by 115,000,000 shares with a par value of 1 Baht per share. The management of SABUY and Mr. Chookiat Rujanapornpajee jointly negotiated and agreed to cancel the transactions. This decision was made due to the volatility and rapid changes in the economic and capital markets both domestically and internationally during the preceding period, which had affected the overall securities market. Therefore, exercising caution, it was deemed appropriate to cancel the AIT Share Purchase, PP Share Offering, and SABUY securities sale transactions. Furthermore, the Company has not entered into any contracts or agreements related to these transactions. Consequently, the Company does not bear any responsibility or liability for payment of fines or damages to any related parties.

Both companies and SABUY, will continue to collaborate as business partners. They will remain focused on seeking additional business partnerships to strengthen and sustain the growth of their respective business ecosystems. The company will seek opportunities to enhance business growth potential and expand its current customer base by expanding investment scopes and diversifying investments into businesses with growth potential. This expansion will be a continuation of the existing business endeavors pursued by the Company group.

TECH ECOSYSTEM BUILDER

+ One Stop Service Solutions

Vision, Mission and Operational Strategy

Policy and business overview

The board of directors should have a participatory role in determining the company's vision and mission to ensure alignment of objectives among executives and employees. SOLUTIONS

INFORMATION OF PRODUCTS

Type of Business in T.K.S. Company Group

The Security & Fulfillment Solutions managed under T.K.S. Siam Press Management Co., Ltd. is the experienced and expert security printing leader for over 70 years and has adopted the advance integrated security printing techniques with variety of technologies in creation of products to fulfill the customer demand and provided the integrated one stop service solutions which categorizes products and services into 5 main groups.

This is the manufacturing and service business for the high valued document that prevents the duplication and anti-counterfeit, such as Cheque, Passbook, Certificate, Coupon & Gift Voucher, Tax Stamp, Postage Stamp, Loyalty Stamp / CRM Stamp, Examination Management Solution, and Other Security Document. Another product is the commercial business publishing such as Business Forms, and Advance Forms, etc.

The Company gives precedence to the customer services focusing on the prevention of imitation or forgery, and creation of new innovations to fulfill the customer demand through delivery of good and standard products to the customers, resulting in the trust on the Company as the manufacturer of security publications from both domestic and foreign government sector, both domestic and foreign leading financial institutions, and private sector agencies.

Cheque

It is one of the most important financial documents like cash. because it can be used to pay instead of cash or pay off debt to others instead of paying with cash which is widely popular Therefore, the prevention of counterfeiting must pay attention to every detail and selection laser grade specialty paper, printed with high-quality magnetic ink code (MICR), either with a watermark or with other forms of anti-counterfeiting are also possible.

At present, the company has developed a comprehensive check production system and is a leading provider of facilitation services for customers in the financial sector. Banking with Fast-Cheque or Check on Demand is the first to develop a fast check printing system. And more efficient by ordering online, connected to every branch, every service point such as Call Center, telephone, internet, etc. When the company receives an order, it will print out the Encode code, branch name, address and customer name in its entirety. and bind the book to be delivered to the branch in Clearing Area, Bangkok at the time of opening hours in the morning of the next business day. The bank can pay the check to the bank customer immediately.

Passbook

A passbook or book bank is one of the financial documents that can conduct financial transactions with banks such as deposits, transfers or withdrawals. Currently, there are many types of deposit accounts such as savings accounts, fixed deposit account, Daily Cash Flow Deposit Account, Capital account, etc. The company provides falsification-free printing services that use both special paper and ink, including signature transfer paper on the back of the passbook, which is a special paper and printing ink only for ink transfer function. When the impact of the pen tip creates a chemical reaction. To see the signature, UV ultraviolet light is required to verify against the customer's signature when conducting financial transactions at the bank.

Certificate, Coupon and Voucher

It is an important and valuable publication in itself. It is highly necessary to prevent counterfeiting such as certificates, certificates, cash coupons, gift certificates in lieu of cash, etc. The company has applied advanced printing technology in combination with the application of various anti-counterfeiting technologies. Both in terms of design, special paper, special ink, invisible ink, holograms, foils, as well as improving and developing products to be modern. in order to constantly resist the free transformation

EXAMINATION MANAGEMENT SYSTEM

Examination Management System (EMS)

It is a comprehensive service system in regard to competitive examinations, study entrance exams, civil service examinations and private sector work. A semester's achievement exam with a work format that completes all steps of the exam. And the company has separated the work and area from printing offset security system and bring the request technology system to be part of the product, namely the WEB system. Management of applicant information according to the objectives Moreover, the information is used to manage the exams to be safe and prevent fraud. In addition, the printing system has been developed that is a combination of offset printing and Digital printing system with fully integrated automatic exam booklet arrangement system to make exams accurate for test takers and to prevent fraud in exams, ensuring that customers get accuracy No errors, according to slogans, "zero defects" for customers are both public and private customers.

BUSINESS FORMS & COMMERCIAL DOCUMENT

Business Forms and Commercial Document

It is another service of the company due to the availability of modern machines and equipment. This enables the company to have the potential to provide printing services for various business forms and commercial publications in both cut sheet and continuous from formats such as Pay Slip, Pin Miller, Airways bill, Receipt / Tax Invoice, ATM Slip, Pay – in – Slip, Withdrawal Slip, Leaflet, Brochures, etc.

In addition, the company can also produce Annual Reports, Calendar, etc. The customer will specify the format of the requirements for the company to publish.

Stock Forms

consist of non-patterned continuous paper used in continuous printers.

Office Paper

by the company as a distributor, such as copy paper, thermal paper for fax machines special paper for laser and inkjet printers, etc. to meet the needs of customers.

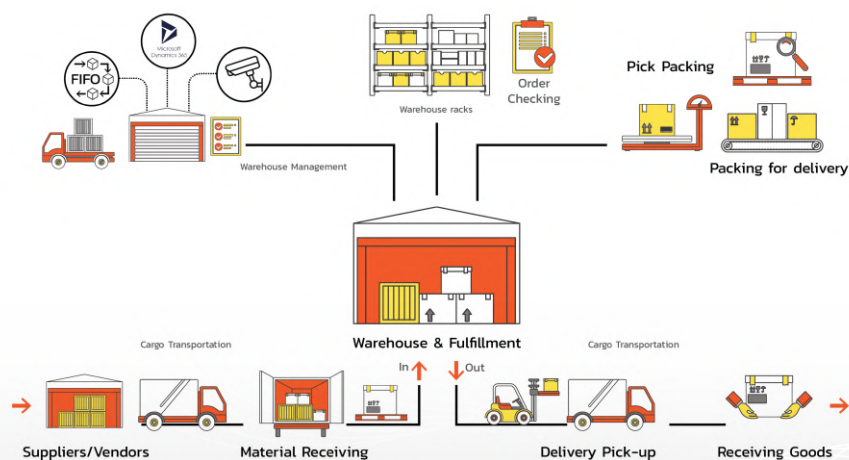

DIGITAL SOLUTIONS

This is a service for printing customer data by Files to Print System. It is the printing that uses data for formatting data in the form required by the customers, and then sending for printing in the digital printing system that can alter based on the Data and advertisements are personalized by color and black-and-white printing by Transactional system printer that prevents reprinting, in type of sheet roll and continuous paper, together with folding, sealing, and containing the envelopes by the automatic envelope folding, sealing, and containing machine, which can prevent Zero Defect. The data is managed by the ISO 27001 Standard System that makes the customer confident on the data security and the system complies with the ISO 22301 standard, with a backup site in case of emergencies to support timely production and provides the continuous services from Digital on Demand System Printing by taking data to prepare E-Service Solution that is the development of data to create Solutions, for instance, E-tax Invoice, E-policy, E-Document, CRM, HR App., and adds the communication channels to the customers by sending in E-mail, Line ad, Fax, SMS, Facebook, Web Service, Mobile App. etc. .

FULLFILLMENT SOLUTIONS

This is a warehouse and delivery service that facilitates the customers and has a Warehouse Management Platform system to oversee all management and operations by starting from supplying the products for the customers, managing the storage space, warehouse management (Min and Max of products), Pick and Pack of products and on-time delivery of products on the customer schedule, and retrospective verifiability. Fulfillment Solutions service responds to the online sales business and New Normal business management. In addition, the Company is expert at warehouse management for the organizational business on the printed form, stationery, and uniform products, and allocation of products for business usage, where the Company will increasingly assist the customers to save cost and time, mitigate the employee problems, and enhance the business expansion opportunity.

▶ LABEL & PACKAGING SOLUTIONS

COMPERICAL LABEL

This is the manufacturing business of various labels and packaging with advanced printing techniques integrated with for security technology in various forms as follows:

Commercial Label

This is the manufacture of liner and lineless labels, where the said products are suitable for labelling on the products in type of bottle, box, package, and bag of all types.

Security Label

This is an advanced manufacture using security printing technique integrated with anti-counterfeit technology in various forms, for instance, QR Code Sticker, Hologram and Void Sticker, Sticker Two Layer, and others, etc., in addition to the product inspection and certification system so that the uses can inspect the product status whether it is the authentic copyright or imitated product by reading data on label, together with the systems particularly designed and developed by the company.

Other than manufacture of security label and packaging, the Company has also provided the design and consulting services for many industrial customer groups, for instance, cosmetic, medicine and medical supplies, food and beverage, and electronics industries, etc., and the government sector group that requires the security labels like Customs stamp, Tax stamp, Revenue stamp, Loyalty stamp, Postage stamp, Brands Protection labels, and Other security label.

SECURITY LABEL

RFID TAG LABEL / NFC LABEL

BRAND PROTECTION & ANTI-COUNTERFEIT SOLUTIONS

Packaging

The manufacture of packaging used for containing the consumer goods by providing the services from designing the procedures for printing preparation, digital color separation, and plate making in various patterns that are suitable for the types of works. The Company can manufacture various patterns of flexible packaging to meet the customer needs.

PACKAGING SOLUTIONS

Special Stamp

It is a publication that requires a high level of anti-counterfeiting. and is of great importance which is considered a publication with a value equivalent to cash. Can be exchanged such as Revenue Stamp, Postage Stamp, Loyalty or CRM stamp. Therefore, the company has given the highest priority. With the use of anti-counterfeiting technology at a level similar to that of banknote production, including the use of special design software Including innovations such as special paper, special ink or special glue that the company has developed. Which has controlled the work from the raw material procurement process, printing techniques, special processes in the use of anti-counterfeiting technology, information management systems to transportation systems to ensure that customers can be assured of a high level of anti-counterfeiting publications. This is best managed.

GOVERNMENT SECURITY SOLUTIONS

▶ PLATFORM SOLUTIONS

This is an e-Solution system development service in order to fulfil the customer needs and develop to platform system, for instance:

Service provider Service provider or service provider of electronic data delivery means the service provider of delivering the data related to e-Tax invoice and e-Receipt and is the qualified person pursuant to the attachment of the Notification of the General-Director of the Revenue Department regarding value on preparation, delivery, and retention of e-Tax Invoice, and e-Receipt. It is to say that the service provider carries out to prepare, deliver, and retain e-Tax documents in lieu of the entrepreneurs, which must strictly conform to the rules as prescribed by the Revenue Department and the Electronic Transactions Development Agency (ETDA), control the security pursuant to ISO27001 Standard, conform to the certification conditions pursuant to KhorMorThorOr. 21-2562 with the objective of information security for the service provider to particularly prepare, deliver, and retain e-Tax invoice, and e-Receipt

eTaxGo

ePolicy

Outsource Service or the service in data management process with the modern technologies applied for providing the maximum efficient services in the areas relating to the organizational data management, with the security control system pursuant to the ISO27001 Standard to fulfill the customer need as follows.

- e-Document is the electronic data delivery outsourcing service via Multi Channels consisting of Email, SMS, Line, and FAX.
- Doc One is the data storage service in pdf file or other data file in the format required for storage, and to search and utilize for operational purposes where the right is defined to authorize the users to upload the stored documents at Data Center of the Company.
- DMS is the systematic e-Document management service for the customers, for instance, documentary scan service, returned letter scan service, business acknowledgement scan service, storage service for the data acquired from Application derived from the operation to be stored at the Company's database, and backed up the data, where the customers can use data and retrieve the said data whether being in the internal or external documents or working reports.

In addition, the company has collaborated with the new business alliance in order to step toward the new integrated business that fulfills the customer demand and advance the Company's revenues for the continuous growth in the future. The negotiation of the Company and PTECH with SABUY, which is the leader of various modes of electronic payment services, food center system management, and sales of goods via automatic vending machine. In the opinion of the Company, the said synergy among the Company, PTECH, and SABUY can increasingly contribute to the risk management of printing media service business and plastic card business of the Company and PTECH. The Company and PTECH as the expert of plastic card business will have the opportunity to access the new customer base in electronic financial market and food center management, which is the existing trade partners of SABUY. Meanwhile, the Company and PTECH will have the opportunity to participate in investment in the business of sales of goods via automatic vending machine, which is the business consistent with the tendency of Digital Economy and the change of consumer behavior that has currently focused on more entering the transactions via electronic devices. The Company believes that the joint venture among the Company, PTECH, and SABUY can mutually generate the growth of revenues of all parties in the future.

Card Solutions This is the production of plastic cards, and provision of services to save personal information on cards with modern printers and equipment, along with building a confidence with a high standard of security system that has been certified by Visa, MasterCard, CUP, JCB, TBCC, and AMERICAN EXPRESS(AMEX) as a card manufacturer that complies with the standard of debit cards, credit cards, chip credit cards (EMV). This includes the production of various types of Smart Card. In addition, the integrated service is provided to enter data on card in various forms, such as printing name, image, membership number, and Barcode; and entering magnetic stripe data and entering data on the chip, etc., as well as supplying the supporting documents, filling the card in the envelope in order to be prepared for delivering to the channels.

Our Customer

With confidence in the standards and quality of products and services which operates under the management system certification according to international standards for example, ISO 9001:2015 Quality Management System standards, ISO 27001:2013 Information Security Management System, ISO 22301 (BCM) Business Continuity Management System, ISO 29110 Quality Management System for Software Engineering, ISO 14001:2015 Environmental Management System, GMP (Good Manufacturing Practices), HACCP (Hazard Analysis and Critical Control Points), HALAL, ISO 45001:2018 Occupational Health and Safety Management System, and so on. It is divided into domestic and international customers. The company has a customer base of up to 2,500 companies, divided into banking and finance groups, industrial group, Retail and restaurant group, Insurance and Leasing group, Government sector, Education group, Hospital group, Transportation and Logistics group, Service group, Telecommunications and Communications group, Electronic group, Cosmetics and Pharmaceuticals, Foods and Beverages groups, etc.

MARKETING AND COMPETITION

Printing Industry Condition

The printing industry can be categorized into two levels of qualities including:

(1) General Quality which requires the use of conventional technology. In Thailand, there are several ten thousand small-sized to large-sized printing houses, causing price-based competition. The small-sized printing houses have higher advantage due to low operating cost while large-sized printing houses have higher operating cost; and

(2) Advance Quality which requires the use of sophisticated technology and high investment fund, resulting in a limited number of competitors, for instance, the printing houses for security document printing. In Thailand, there are only 3 private-owned security printing houses and only 4-5 digital printing houses. The Company is categorized as large-sized printing house that provides both security and digital printing services.

As a result, the large-sized printing houses using advanced technology are able to generate good profits. However, the quality assurance standard must be implemented to ensure high printing work quality and precision, limited on-time delivery and, most importantly, guarantee the confidentiality of customer information and/or secret to avoid leakage from the printing houses.

In respect to paper-based printing trend, the lower consumption can be observed since it has currently been replaced by the modern technology called digital platform in paper consumption. For instance, bank cheques have been replaced by e-Payment system, withdrawal from ATM has been replaced by Prompt Pay e-payment system. The government has also promoted the private sector business to use Digital Platform system concerning the government transactions, for example, in former issuance of tax invoice, physical tax invoice has been replaced by e-tax Invoice, and e-Policy has been confirmed by Digital Signature instead of document in issuing the insurance policy. As a result, the printing houses, not just serving for production to order, must extend the broader services both in printing and customer data management to retain the customer base not to be used with other service providers. For example, previously, the customer orders to print the forms with the Company, and the Company prints the customer data and then forwards it to the customers. The Company has invented the services covering the customer requirements, and therefore, we have designed a service called Data Communication Management along with a multi-channel system. This includes receiving customer forms or printing forms for customers, processing data, managing data printing on customer forms, and delivering them through various channels such as Email, SMS, FAX, social media (Line, Messenger), and printing for postal delivery. Providing this type of service helps the company maintain long-term customer relationships and increase revenue.

Security Document Market

Cheque On Demand Service

The Company is the first provider of Cheque on Demand service in Thailand. This market has limited number of competitors because this service requires the security system as well as customer trust toward the service provider and quick delivery system that can fulfill the customer demands. The Company, therefore, focuses on further expanding this market. However, most customers in this market are banks that still encode cheques and print the customer names by their own. For this reason, the Company must penetrate the market of other bank customers so that the banks will turn to use the Company's services instead of printing by their own.

Advance Forms/Security Forms

This market has few competitors as this work requires the use of sophisticated printing technology, security design system to prevent forgery, including the investment in building separate printing facility to ensure safety and security from the aforementioned factors, resulting in the requirement of high investment fund and therefore causing few competitors. In addition, most customers prefer not to frequently change the manufacturers due to the security reason and preventing the competitors to perceive the strategies or promotions launched for marketing, resulting in low competition in this market.

Business Forms Market

The said business forms market is highly competitive since the business forms are non-renewable products and have a large order quantity in each order. The production process does not require the use of advanced technology, therefore, there have been several competitors. However, most customers are in the group of financial institutions, communication business and governmental agencies. As most customers in this market have adopted an e-Auction system, this has caused more market competition because it is the price competition system where the auction price is quite low while the raw material cost is increased. This has caused the Company's inability to enter to compete in e-Auction system every time. Thus, the Company has applied a strategy of value addition to its products by offering the warehouse and product storage management service to enhance the convenience and options for the customers. Therefore, this is the full sale of products and service to widen the market expansion opportunities.

Office Paper Market

The office paper market is highly competitive due to its ready-to-use nature and minimal reliance on technology for production. The manufacturing process involves cutting paper to size, resulting in a market with many competitors. Customers prioritize price over product quality in this market, where paper quality does not vary significantly. Currently, TKS Paper has its own brand, offering products such as copying paper, continuous paper, thermal paper for fax machines, and specialty paper for laser and inkjet printers. This product range aims to meet the diverse needs of customers.

Digital Print and E-Service Solution Market

Digital print and e-Service Solution market is the market with few competitors since it is the service relating to the customer data security, and quite high capital must be required both in the matter of machine and security system, in accompany with the service accuracy and rapidity in a limited time. The Company is more ready and diverse for providing the services than the existing service providers. The Company can provide services for the continuous paper roll, perforated continuous paper, and sheet paper, and containing the envelope with Zero Defect that prevents errors. And importantly, the company is also able to provide full-color printing services using a four-color process. The company maintains quality management standards or software product standards such as ISO 29110 and ISO 27001. It is a printing house with a secure work environment, ensuring the security of customer data and adhering to the Business Continuity Management System (ISO 22301:2012) standard. This involves managing the assessment of internal threats within the company and having a backup site in case of emergencies to ensure uninterrupted production. This instills confidence in customers that their data is error-free and that business operations can continue seamlessly. In the company's competitive market, there are only 1-2 competitors with similar standards.

Fulfillment Management Service Market

In the fulfillment management service market, the Company has anticipated that the domestic fulfillment management market will be increasingly grown up to 25% within next 10 years, where the Company has foreseen that the group of customers who use this service will more adapt to change their sales channel to E-commerce. Therefore, the Company has added more services for the group of E-commerce market by particularly offering the service of Fulfillment Management System to the group of E-commerce customers both groups of the existing customers and new customers. The service is provided from the product storage area service for rent, ability to define the area size on suitability basis. However, the quantity of inventories is calculated and recorded into online system, and verifiable all the time, with no need to manually calculate the stocks. The said service always checks the incoming orders of the customers, and then pick up the products from the product storage area to be packed down in packages for further preparing the delivery. The delivery service to the logistic service providers that support the sellers and are chosen by the buyers to use their services. After delivering, data is updated, and product delivery is tracked until arrival to the customers. The Company is able to create the market expansion opportunities to the customers who require One Stop Service, and other groups of E-commerce. In addition, the Company may apply innovation or AI System to operate the Fulfillment business, which contributes to saving

of storage expenses and reduction of management complexity. The Company has extended its services to offer Fulfillment Management Service together with other products, for instance, the package of Fulfillment Solution together with Label & Packaging Solution, and Digital Platform Solution.

Warehouse and Logistic Management Service Market

The form warehouse management service market is the market with few competitors. Most of the form service providers that have been currently operated their businesses, have operated their businesses in the manners of production to order for form printing and delivery to customers only, without the storage and warehouse management service. The Company's form warehouse management service can create the market expansion opportunity to the customers who require One Stop Service, that contributes to saving of storage expenses and reduction of management complexity. The Company has extended the non-publication warehouse management, for instance, employee uniform management, stationery management, and gift and souvenir management; and established a policy for extending the product management to the group of e-Commerce customers and the group of IT customers.

Label & Packaging Solution Market

In the past year, 2023, there has been rapid growth in the e-commerce business. Consumers have increasingly turned to online ordering services. However, there are certainly vulnerabilities in the packaging of consumer goods, especially in the categories of food and beverages, cosmetics, and medicines, where products may be counterfeit and not easily traceable. Therefore, businesses in the anti-counterfeiting label group have become increasingly important. Recognizing the significance of protecting against copyright infringement, the company has integrated advanced technology into its operations. The development of production processes that allow for unique and non-repeating printing, along with the introduction of the Platform Code Guard Plus, enables consumers to instantly verify the authenticity of products. This service meets the needs of businesses in addressing copyright infringement issues, reducing problems of imitation, and preventing counterfeiting. It has garnered significant interest from businesses in the food and beverage, cosmetics, pharmaceuticals, and healthcare sectors.

Digital Platform (e-Solution) Service Market

The current overall situation of the printing house business has been fairly changed from the conventional style. The role of publication has been going to be reduced with the technological trend in all E categories due to the major drive from the changing consumer behavior along the era. Thus, the constant adaption has been required by studying the changing consumer demand and the government policies relating to Digital platform, and the popular trend that may affect the product and service needs of the customers for planning to cope with and improve and develop the products and services to fulfill the customer demand to keep abreast of the situation. Moreover, the new rapidity and variety-focused services and One-Stop Service have been promoted as other options that can persuade the service users. At present, the Company has expanded its sales work to extend Digital Platform Solution, for instance, e-Quotation, e-Payment, e-Tax invoice, e-Policy, e-Statement, e-Ticket, e-Coupon, e-Mail, e-Marketing etc. In addition, T.K.S. has had various groups of customers from the paperless trend where works are stored in file format rather than stored in document. In selling, the 24 hours services of the Company have also been required by the customers to support printing and e-Solutions based on Service Level Agreement (SLA). The company adheres to standards for quality management or software product ISO 29110 and ISO 27001. It operates as a printing house with a system in place to ensure security in operations, overseeing both customer data and business continuity management standards (Business Continuity Management System: ISO 22301:2012). This management process evaluates threats that may occur within the organization. The company also has a backup site in case of emergencies to ensure production continues as scheduled, thus instilling confidence in customers.

SUPPLY OF PRODUCTS AND SERVICES

Nature of Product Acquisition

Paper has been considered as the most important main raw material in the publication and office paper businesses and estimated to be approximately 60%-70% of total production cost of the Company. Planning shall be carried out in each ordering, and the monthly meeting shall be held pursuant to the Manual of ISO 9001 Quality Standards to determine the suitable ordering quantity of raw materials for each quarterly production. There have been both domestic and foreign sources of papers, depending on the type of paper. However, the number of the major domestic paper producers and distributors has been small, but if considering the foreign source of raw materials, there have been several producers. The Company's key sources of raw materials have been available in ASEAN Region, USA, and Europe. Nevertheless, the transportation cost that is the main cost other than paper price, shall be also considered on ordering the raw materials from abroad.

At present, the Company and its subsidiaries have used almost papers from the domestic source of raw materials. However, the Company has placed the paper orders from Thai Paper Co., Ltd., and Advance Agro Public Company Limited, which are major domestic producers in the proportion of 50% - 60% of total ordering quantity due to the uniformity of raw material and delivery quality. However, the Company has not committed on the ordering from the said manufacturer. In the past, the Company has never encountered with shortage of raw materials in production.

Production Process

Business Forms and Offset Forms Production Process

Both the whole sheet and continuous papers are printed in most production of general business forms. The production procedure consists of designing the printing pattern on paper surface for using as business forms, which have the different formats, for instance, Receipt, Purchase Order, Office Documents, etc., printing the work on paper or chemical paper with the property of self-reproduction. The production process starts from designing as required by the customers, making mould, and requisitioning raw materials in Production Order, and then bringing into the machine for printing pattern and perforated alignments, after that, packing in box and storing in warehouse for further transportation. The quality shall be periodically inspected in each production process.

The Company provides printing service of business forms designed and printed for specific purposes such as receipt, tax invoice, bill, bank deposit and withdrawal slips, ATM slip, salary slip, letterheaded paper, poster, brochure, calendar, annual report, etc. based on customer requirements.

Advance Forms and Security Forms Production Process

The production process of advance forms and security forms consists of the production similar to that of business forms. However, the design is focused on uniqueness using the program for a specific usage. The paper used has special property, or the paper ordered for producing the specific work together with the material with special property, for instance, special printing ink, or lamination, etc., are difficult for imitation. In addition, the design is also focused on work value addition, for instance, Share Certificate, Coupon, Cheque, etc. The production process starts from designing, making mould, and requisitioning raw materials based on Production Order, and then bringing into the printer to print the designed pattern, and then bringing into the specific machine for the work value addition procedure after printing, for instance, lamination in part of Advance Forms, and after that, packing in box and storing in warehouse for further transportation. The quality is inspected in each production process. For printing work in type of Security Forms, most production procedure is carried out in the special room in separation from the production line of other types of publications for the convenience of the valued work security. Working is performed under CCTV, and the working photograph is taken. Packing is controlled using scanning the packing data into the program for confirming the correctness, and the packing status can be reported while working and the packing result summary is reported when completion of working.

Cheque On Demand and Digital Print & Mail Service

The said service is publishing the data on the form as required where the customer submits data to the Company via Network System. When the Company receives data and verifies without revising any part of data, and then printing data via printer, making sheet, or making book, and also packing for preparing the delivery. The printed data is stored and returned to the customers and inspected.

Office Paper Production Process

The production of office paper in type of continuous printing paper (Stock Forms) consists of the simple procedure due to non-requirement of designing pattern on paper, starting from requisitioning raw materials from Production Order, and making mould and then bringing into the printer for making lined patterns or perforated alignments, and after that, packing in the box, and storing in warehouse. The quality is inspected in each production process.

In part of production of other types of office papers in form of blank paper, the Company takes roll paper into cutting machine, and processes both in the roll and sheet characteristics, packs in box for waiting to deliver with no need to pass the printing process.

Flexible Packaging Production Process

Flexible packaging production process consists of the procedure starting from designing, making mould, and entering to printing, laminating the film layer, and forming, which is different in the matters of materials used in printing, and usage procedure, and machines used for packing. The printer can print several printing materials, not limited to paper, but also various types of films up to 10 colors, for instance, PE, PP, OPP, PET, MPET, LLDPE, ALU papers, etc. The machine used for manufacturing is the specific machine of which adhesive coating and dry lamination can be done and/or the printing material is slitted in roll or sheered in sheet, and died cut based on the pattern, or formed to make various patterns of envelope with automatic envelope making machine. The quality is completely inspected in each production procedure. After that, packed on the box or pallet, and stored in warehouse for further transportation.

Label & Sticker Production Process

The production of label and sticker consists of the production process starting from designing, making plate, and preparing the raw materials that are sticker, film, foil, and paper. The types of films used includes PVC, PE, PP, OPP, PET, Silver Hologram, or M-PET, etc. The raw materials are entered to 4-8 colors printing process and has the capability to print non-repeating, unique codes, and after that, entered to post-printing process, for instance, whole sheet coating, spot coating, film coating, scratch ink printing, and other post-printing techniques by making in type of roll or sheet, cutting and peeling the unusable part (Die Cut) to be the finished goods as required by the customers, and attaching on product, on packaging, or using to identify during production process. The entire production process is gathered to be in one set of machine called All in one.

Warehouse and Logistic Management Service Process

The Company gathers the requisition data at each point of the customers via Online System, after that, arranges the products for delivering to the advised place, where it takes not exceeding 3 (three) working days in Bangkok Metropolitan zone, and not exceeding 7 (seven) working days in upcountry.

Currently, T.K.S. Technologies Public Company Limited and T.K.S. Siam Press Management Co., Ltd have a total area of 35 acres, divided into office space of 3,800 square meters, factory building area of 12,000 square meters, and warehouse area of 8,000 square meters. This includes various types of printing and post-printing machines to accommodate customer needs. Dividend Payout Ratio is calculated based on the value of dividends paid in accordance with the annual operating results combined with the value of stock dividends

RISK MANAGEMENT

Policy and Plan for Risk Management

The Company is aware of the importance of risk management from both internal and external factors that may affect the business. Therefore, it operates and manages risks continuously according to the principles of Enterprise Risk Management of The Committee of Sponsoring Organizations of the Treadway Commission (COSO-ERM 2017) in corporate risk management that is linked to all levels and processes in business operations, including setting corporate risk policies that all employees operate. The Company has established a risk management committee to supervise risk management for maximum efficiency.

The main objective of the company is to make all employees and all levels in the organization aware of the importance of systematic corporate risk assessment. and plans to manage such risks efficiently and to be able to control and respond to the assessed risks completely in all aspects. Therefore, the risk management policy is set as follows.

1. Keeping the risk at an acceptable level to ensure that the company will be able to meet its business objectives, which means the ability to meet demands, Including reducing various conflicts that may arise with the Company's relevant stakeholders as much as possible. However, risk management must be balanced to ensure that business operations remain viable.

2. Risk assessment and management must be an important part of the business process of all departments of the company, starting from strategy formulation and execution of each activity. Including must be used as one of the important factors in business decision making and various steps from considering alternatives including evaluating the best alternatives.

3. Promote risk assessment and management as one of the key cultures of the organization by conducting it transparently, systematically, and continuously in accordance with business conditions in each period.

4. The Company's risk management principles are set out as follows:

- There must be a comprehensive and timely identification of risk factors.
- There must be an assessment of the level of risk by considering the impact and likelihood of the factors occurring.
- Risks must be managed within an acceptable risk level. In choosing a method for managing, consideration must be given to the appropriateness of the costs to be incurred and the returns to be received. It must be the method that has the highest probability under the economic and business factors of the company.
- There must be a communication to give people in the company a deep understanding of the risk assessment and management process, including the methods to be used to control the risk to an acceptable level.
- There must be regular monitoring and reporting of risks to manage the Company's risks appropriately and timely.

Risk factors for the Company's business operations

Current and emerging business risks of the company or group of companies

Strategic Risk

Risk from doing business by holding shares in other companies.

The Company is a Holding Company whose main income is from holding shares in other companies. And does not operate its own business that will generate significant income. The performance of the company depends on the results of operations and dividend payments of companies that the company invests in. There is a possibility that the return on investment in those companies may not be as expected due to the impact of the domestic and international economic environment that is accelerating inflation and energy prices, resulting in the company's operating performance and dividend ability to be below targets.

The Company responds to this risk by sending executive directors to be appointed as directors of various companies in which the Company invests in proportion to its shareholding. To supervise the management policies of those invested companies in accordance with the policies governing subsidiaries, associates, and joint ventures. Including investment restructuring and diversification to companies with consistently growing operating profits and consistent dividend payments in line with the company's Tech Ecosystem Builder strategy to generate sustainable returns.

Financial Risk

Liquidity risk

The Company has invested in other companies as long-term investments by using short-term borrowings while long-term borrowings are subject to gradual repayment. Therefore, there is a possibility that the cash flow received from the investment may not be related to the cash flow paid for loan repayment according to the conditions, resulting in the lack of financial liquidity of the company.

The company has responded to this risk by providing adequate short-term credit facilities and low financing costs. To enhance financial liquidity along with finding sources of long-term loans with appropriate financial costs. Including preparing a fundraising plan by issuing debentures to adjust the capital structure to an appropriate level to support future investments sustainably.

Compliance Risk

Risk from non-compliance with tax law

The Company is a holding company that has invested shares in many other companies which may have complicated transactions to restructure the Company's investment or reorganize the business within the group of companies to suit the investment strategy. It is therefore possible that those transactions involve tax legal issues that require discretion to interpret. This results in entering into transactions with misunderstandings from tax law practices and subsequent tax liability.

The Company responds to this risk by monitoring and studying new interpretations and discussions on unclear issues to ensure that those transactions comply with applicable tax laws.

Operational Risk

The risk of participating in corruption

In the normal course of business operations, employees of the Group shall coordinate with government officials and/or private entities who are customers and/or partners in relation to receiving orders, or service contracts and receiving services relating to import/export on a regular basis. Therefore, it is possible that employees of the group companies will be demanded by government officials and/or private sectors in exchange for obtaining such orders or service contracts or in exchange for facilitating or speeding up the service. As a result, the business operations of the group of companies require higher costs and/or operating time than usual.

The Company has responded to this risk by joining the Private Sector Collective Action against Corruption: CAC by evaluating and preparing corruption risk management guidelines, and announcing The anti-corruption policy informs stakeholders of the organizational culture that the Group promotes and strictly adheres to. In 2022, the group of companies did not find any significant issues or flaws related to corruption.

Cybersecurity risk

The Company has implemented information technology system to use in operations that exchange information between external agencies through the internet system, which may be a target for cyber-attacks, therefore, there is a possibility that the company's information technology system will be attacked by cyber-attacks, resulting in the inability to operate as usual.

The company has responded to this risk by applying the requirements of the ISO 27001:2013 standard in information security management along with educating its employees. Including penetration testing of information technology systems to find vulnerabilities that may exist and take appropriate improvements or preventive actions to continuously improve the efficiency and effectiveness of cybersecurity.

Emerging Risk

Inflation Risk

The Thai economy after the outbreak of the coronavirus disease 2019 has been affected by the conflict between Russia and Ukraine and the geopolitical confrontation between powers that has driven inflation to accelerate rapidly and intense. Especially in food and energy products and pressure the central banks of many countries to carry out tight monetary policy by accelerating the policy rate increase in order to stem inflation until the global economy faces the risk of entering a recession. Therefore, it is possible that the group's customers will be diminished in purchasing power until they have to reduce/slow down orders and the business partners of the group will not be able to bear the higher costs until they have to raise raw material prices. As a result, the performance of the group of companies was lower than the target.

The company has responded to this risk by closely monitoring and evaluating the situation to negotiate to increase the selling price which will pass on the higher cost to customers according to the market mechanism. And negotiate to increase the quantity of raw material orders that are likely to be further adjusted according to the current negotiable price.

Risk from rising energy prices

The cost of electricity generation in Thailand has increased due to the sharp increase in energy prices and the depreciation of the Thai baht. The government has a policy to continuously increase the variable electricity price to offset the cost of production. Therefore, there is a possibility that the production cost of the group companies will increase from the price of electricity used in production, resulting in a decrease in the competitiveness of the group companies.

The company has responded to this risk by reducing its electricity consumption by continuing to implement production efficiency improvement projects and investing more in solar rooftop installations.

Risk of extreme climates

Emissions of greenhouse gases into the Earth's atmosphere lead to climate change resulting in climate extremes, which are continuous climate variability in various forms, such as frequent severe wind storms, raining heavier than usual, etc. Therefore, there is a possibility that there will be a power outage in the vicinity of the factory location and the Solar Rooftop will not be able to produce electricity as usual, causing the production of the group of companies to be interrupted.

The company has responded to this risk by reducing its carbon emissions through ongoing production efficiency improvement and energy conservation projects.

DRIVING SUSTAINABLE BUSINESS

The company is committed to preparing annual sustainability reports regularly, following the criteria set by the Stock Exchange of Thailand, in conjunction with the Sustainable Development Goals (SDGs) of the world. Information is disclosed through the company's website and internal communication channels.

Scope of Reporting

The company has prepared and reported on the performance results of T.K.S. Group (T.K.S. Technology Public Company Limited and T.K.S. Siam Press Management Limited) for the fiscal year 2023, from January 1, 2023, to December 31, 2023, related to sustainability management.

Policy and Objectives of Sustainable Management

T.K.S. Group has a policy to conduct business in a sustainable manner in line with the company's business direction and strategy, considering organizational risks and opportunities for improvement, as well as the needs and expectations of all stakeholders, including their social and environmental impacts. This encompasses economic, social, and environmental aspects (ESG).

The company has been selected as an Eco Factory by the Industrial Environment Institute of the Federation of Thai Industries, the first in Samut Sakhon province since September 21, 2016, and has plans to develop environmentally friendly production processes and innovations. Environmental management is based on social responsibility within and outside the organization to achieve the main objectives and lead the company towards sustainable development.

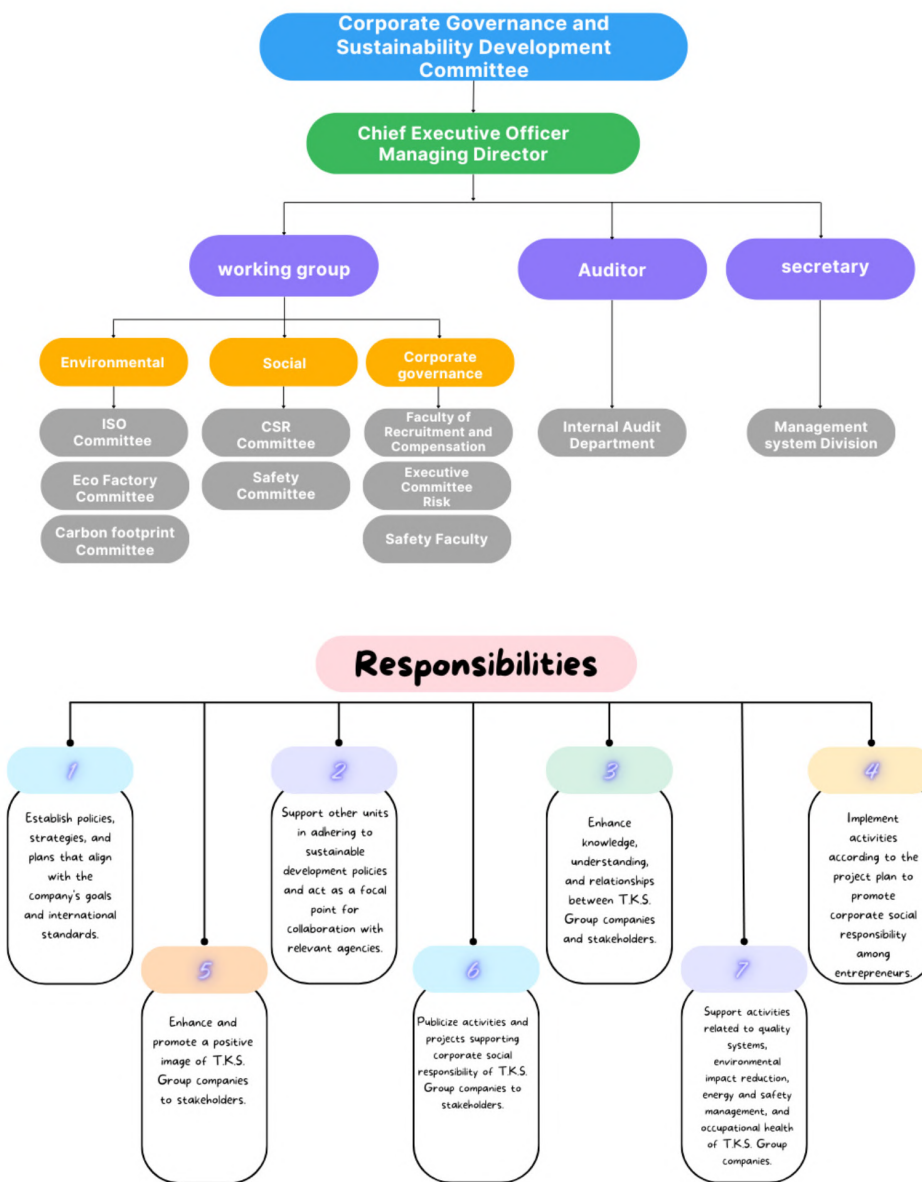

Sustainability Management Policy – T.K.S. Group

The company is committed to conducting business sustainably in alignment with the organization's vision, emphasizing ethical principles and practices, alongside social, economic, and environmental responsibilities. This commitment is aimed at fostering trust among stakeholders through transparent and accountable operations. The company's operational guidelines include the following:

SUSTAINABLE DEVELOPMENT POLICY

Sustainable Development Committee Structure

Managing Stakeholder Impacts in the Value Chain

Value Chain Management

The company is conscious and prioritizes the sustainable management of the value chain to meet the expectations of all stakeholders.

ANALYZING STAKEHOLDERS IN THE BUSINESS VALUE CHAIN:

The company manages the value chain by utilizing information gathered through engaging with stakeholders across all sectors. This includes conducting annual satisfaction surveys, listening to feedback, holding meetings, or utilizing other forms of stakeholder engagement to understand the impacts and issues relevant to the company. This information is then used to define key performance indicators and track progress continuously to ensure effective management systems are in place.

 G3 - Sustainable Risk Management
 G4 - Innovation Development
 G5 - Cybersecurity and Personal Data Protection
 G6 - Product Quality and Recall
 G7 - Employee Health and Safety
 G8 - Compliance with Laws and International Standards

ESG Metrics and Targets

The company recognizes the importance of driving and promoting operations, thus has established guidelines for implementing metrics and targets in each dimension of environmental, social, and corporate governance (ESG). These are aligned with the sustainable development goals of the United Nations (UN SDGs), as follows:

Dimension	Approach to Operations	the sustainability targets
Environment 	<ul style="list-style-type: none"> Climate Change Adaptation Energy Management Water Management Raw Material Management Greenhouse Gas Management Waste and Waste Management Biodiversity Conservation Environmentally Friendly Products Sustainable Packaging 	<ul style="list-style-type: none"> Here are the sustainability targets or key performance indicators (KPIs): 1. Achieve Carbon Neutrality by 2050. 2. Reduce energy consumption per ton of paper by 2% from the previous year. 3. Reduce water consumption per ton of paper by 5% from the previous year. 4. Achieve zero waste to landfill from production processes of environmentally friendly products. 5. Limit paper production waste to less than 66 kilograms per ton of paper used. 6. Reduce greenhouse gas emissions per ton of paper used by 2% from the previous year. 7. Increase the number of products certified with Carbon Footprint of Product (CFP) by at least 3 products. 8. Ensure that at least 5% of total purchasing volume consists

Dimension	Approach to Operations	the sustainability
Social 	<ul style="list-style-type: none"> Fair treatment of labor. Responsiveness to customers/consumers. Employee skill development. Hiring of local labor. Responsibility towards communities/society. Human rights compliance. 	<ul style="list-style-type: none"> Employee job satisfaction and organizational commitment not less than 50%. Zero fatalities due to accidents. Zero complaints from the community. Zero human rights violations.
Governance 	<ul style="list-style-type: none"> Good corporate governance Anti-corruption compliance. Innovation development. Cybersecurity and personal data protection. Product quality and product recall procedures. Occupational health and safety management. Legal compliance and international standards adherence. 	<ul style="list-style-type: none"> CG Score/AGM Score in the excellent range. Certified member of the Corporate Administration Club (CAC). Network system stability exceeding or equal to 99.5%. No complaints regarding product safety or legal compliance. Number of supported projects/budgets. Support for local labor hiring.

NET WORK TOWARDS SUSTAINABILITY

The company is committed to operating on the basis of sustainability in economic, social, and environmental aspects to achieve results and maximize efficiency.

Environmental Saving Report

SCGP
RECYCLE

T.K.S. GROUP

วันที่ 01/01/2023 ถึง 31/12/2023

คุณประโยชน์ที่ส่งมอบไปแล้ว 3,590 กิโลกรัม

ลดการตัดต้นไม้		61 ต้น
ลดการปล่อยก๊าซ CO2		2,441 กิโลกรัม
ลดการใช้น้ำ		93,340 ลิตร
ลดการใช้เชื้อเพลิง		5,026 ลิตร
ลดการใช้พลังงาน		14,360 กิโลวัตต์

Economic Collaboration

In 2023, the company participated in the “Old for New” initiative with SCGP, returning 3,590 kilograms of used paper for recycling.

Collaboration in Greenhouse Gas Emission Reduction TCNN

Our company has joined the Thailand Carbon Neutral Network (TCNN) as an organization focused on greenhouse gas management. TCNN comprises 599 members aiming to collaborate on project development and carbon trading

Industrial Greenhouse Gas Reduction Network

We are part of the initiative to establish an industrial network to support greenhouse gas reduction led by the Industrial Estate Authority of Thailand (IEAT). Our company has been recognized as a prominent industrial facility for reducing

Environmental Collaboration

LET'S ZERO Together

Our company has joined the "LET'S ZERO Together" project with the Industrial Printing and Packaging Estate, participating in tree planting within the estate

Green Star Award

We collaborated with the Industrial Printing and Packaging Estate and community representatives to conduct business assessments, demonstrating our commitment to conducting sustainable and environmentally friendly

Sustainability Management in Environmental Dimension

Environmental Management

Our company has been selected as an Eco Factory by the Industrial Environment Institute of the Federation of Thai Industries and has continuously received Green Industry Level 4 certification from the Ministry of Industry since 2015.

Risk of Climate Change

The company recognizes the importance of climate change due to greenhouse gas emissions and electricity consumption, which are key resources in production processes. Therefore, we are committed to reducing greenhouse gas emissions from our production processes, which are the main cause of climate change, leading to natural disasters such as global warming and environmental catastrophes. This poses clear risks to our business operations and impacts on our finances, operations, and reputation in various ways:

1) Financially: Increased costs from repairing damaged infrastructure. 2) Operational: Delays in product transportation and operational disruptions. 3) Reputation: Building a reputation as a company prepared to address climate change is of interest to investors. As a result, the company prioritizes energy management and greenhouse gas reduction. Since 2017, we have been using solar energy on our production building's 6,032 square meters, with a peak production capacity of approximately 993.75 kilowatts. In 2022, we installed additional solar panels on the warehouse's 2,426.30 square meters, with a peak production capacity of around 506 kilowatts, totaling 8,458.30 square meters and a production capacity of 1,499.75 kilowatts. Furthermore, we have consistently outperformed our energy consumption reduction targets per ton of paper used.

Environmental Policy and Practices

The company has established environmental policies and plans as part of its business operations. We are committed to reducing environmental impacts and have appointed an Environmental Committee to oversee energy, water, waste, pollution, and greenhouse gas management. This is to ensure compliance with the company's environmental management system standards as outlined in our policy framework (https://www.tks.co.th/wp-content/uploads/2024/01/TKS_001_ISO14001.pdf). Following a review of our environmental policies this year, it is determined that the policies and practices remain applicable and effective. Therefore, we have set targets to save energy and reduce water usage by 2% from the previous year to promote awareness and maximize resource efficiency.

Environmental Performance

Energy Management Progress

The company has implemented energy management policies and set a target to reduce energy consumption by 2 % per ton of paper compared to the previous year. Through energy conservation projects conducted annually, progress is reported at Management Review meetings, with performance monitored monthly starting from 2020.

In 2021, the company upgraded the Main Air Compressor System and reduced the number of 50 HP air compressors from three to one per Business Unit (BU), resulting in a total reduction of 354,016.00 kWh per year or 43.87 kWh per ton of paper used. This initiative saved approximately 1,348,800.96 THB annually. However, energy consumption per ton of production increased by 0.79% compared to 2020 due to printing packaging materials using customer-supplied raw materials.

In 2022, the company participated in a government-sponsored project to upgrade machinery and equipment for energy conservation, aimed at further reducing energy consumption.

In 2023, the company replaced inefficient water chillers and cooling towers, resulting in a reduction of 389,016.58 kWh per year or 49.44 kWh per ton of paper used, saving approximately 1,606,638.46 THB annually.

In 2024, various measures were implemented to improve the energy efficiency of the air conditioning system, including replacing old air handling units (AHUs) and reducing room ceiling heights to minimize the use of separate air conditioning units. These initiatives reduced energy consumption in the air conditioning system by 56,522.60 kWh per year or 8.13 kWh per ton of paper used.

Water Management

The company prioritizes responsible water resource management by aiming to reduce water usage by 2% per ton of paper compared to the previous year. Rainwater is efficiently collected and stored in underground tanks for subsequent reuse, while recycled water undergoes treatment processes to ensure its quality before being reused. Monthly reviews conducted by management ensure continuous monitoring of water management practices. Additionally, preliminary wastewater treatment is implemented to meet regulatory standards before discharge, demonstrating the company's commitment to environmental compliance and sustainability.

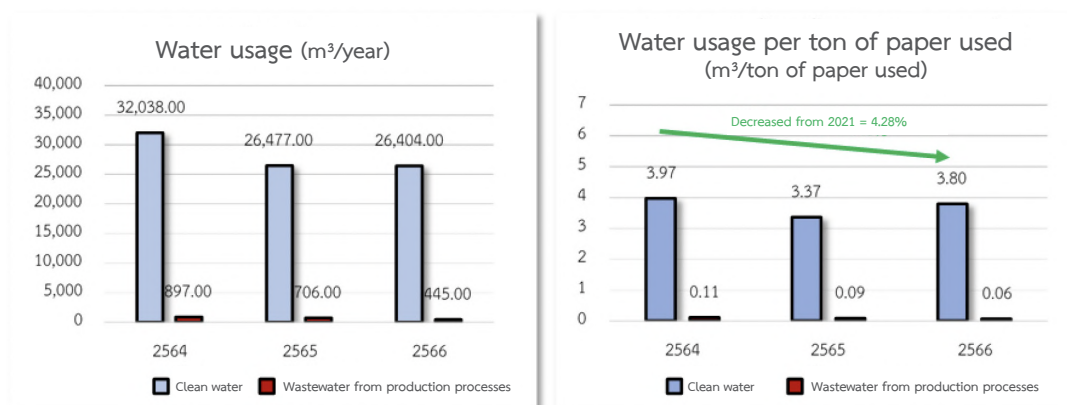

Results of wastewater measurement and analysis:

Water values	Standard values	2021	2022	2023
pH (acidity - alkalinity)	5.5-9.0	7.70	7.68	7.94
TDS. (Total Dissolved Solids): mg/l	3,000	1,350.00	796.50	759.27
BOD. (Biochemical Oxygen Demand): mg/l	500	165.00	175.33	75.18

In 2021, the company implemented measures to utilize rainwater from underground storage tanks for sanitary purposes, specifically toilets, resulting in a reduction of tap water usage by 923.045 cubic meters per year or savings of 29,304.30 Baht annually.

For the year 2022, the company improved the sprinkler system for watering trees, expanding its coverage to areas such as the Red Pavilion, Hoo Kra Jang Lawn, and the staircase garden. By utilizing treated wastewater from the production process, the company efficiently reduced tap water consumption by 301.00 cubic meters per year, saving 10,279.00 Baht annually.

In 2023, the company further promoted rainwater usage, expanding its application to the cleaning of condenser units (CDU) in the air conditioning system. This initiative, along with continued use in sanitary facilities and sprinkler systems, contributed to a significant reduction in external tap water consumption by 1,007.54 cubic meters per year, translating to savings of 34,401.65 Baht annually.

Waste Management and Hazardous Substances Management

The company implements waste management and hazardous substances management by segregating waste types within the premises, including general waste, recyclable waste, and hazardous waste. The goal is to reduce non-hazardous waste (paper) to less than 66 kg per ton of paper used and hazardous waste to less than 10 kg per ton of paper used. In 2023, the company changed its waste disposal method from landfilling to incineration, reducing environmental impact. Compared to 2022, where 17.319 tons were disposed of, the company disposed of 40.314 tons of waste in 2023, complying with legal requirements. There is continuous improvement in handling hazardous chemicals and substances, including data compilation, emergency protocols, chemical management systems, and regular emergency response drills since 2013. These measures have prevented incidents of chemical or hazardous substance leaks, ensuring the safety of employees, communities, and the external environment.

In addition to implementing preventive measures, the company has undertaken various projects continuously until 2023, including:

1. Substitution of Hazardous Raw Materials:

The company initiated a project to replace Ethyl Acetate solvent with water-based adhesive starting in 2013 to reduce the risks associated with Ethyl Acetate. In 2023, the proportion of water-based adhesive usage as a replacement for Ethyl Acetate reached 72.75%, compared to 70.97% in 2022, exceeding the target of 55%.

2. Chemical Ink Replacement:

The company replaced shellfish-based printing ink with soy-based ink to reduce the use of hazardous chemicals, a project initiated in 2013. In 2023, the proportion of Soy-Ink usage reached 25.83%, compared to 19.01% in 2022, not meeting the target of 20% due to the slow drying property and difficulty in color control of Soy-Ink compared to oil-based ink. Additionally, the company replaced shellfish-based printing ink with Mineral Oil Free ink, starting from 2013.

In 2023, the proportion of Mineral Oil Free ink usage reached 12.36%, compared to 3.38% in 2022, exceeding the target of 3%.

Greenhouse Gas Management

The company has been managing greenhouse gas emissions by establishing a greenhouse gas emission database following the guidelines of the International Organization for Standardization (ISO) since 2019. This is to address climate change, and the company has been working to reduce greenhouse gas emissions through various projects, setting a target to reduce emissions by 2% compared to the previous year. Additionally, the company has benefited sustainability by providing information and opportunities for interested parties to visit the solar cell system, along with recommending methods and benefits to help stakeholders develop sustainable business practices.

As part of its business operation policy, which includes social and environmental responsibility, energy management, waste management, raw material selection, and environmentally friendly product production, the company successfully reduced greenhouse gas emissions per ton of paper used by an average of 18.37% in 2023. This reduction was achieved through the replacement of high-efficiency machinery (air compressors) with older sets. The results contributed to a reduction in greenhouse gas emissions by approximately 28.79 tons of CO₂ equivalent per year or 3.66 tons of CO₂ equivalent per ton of paper used.

In 2023, the company implemented measures to enhance energy efficiency and increase the potential for reducing greenhouse gas emissions within the organization. These measures included:

- Installing timers to control the automatic operation time of electrical motors.
- Installing motion sensors to control the operation of bright light bulbs.
- Installing equipment to adjust the motor speed appropriately for usage.

These measures resulted in energy savings and a reduction in greenhouse gas emissions of up to 31.40 TonCO₂eq per year, or 0.0045 TonCO₂eq per ton of paper used.

Note: The data on greenhouse gas emissions for the year 2023 is currently under review.

Air Pollution Management

The company monitors, inspects, and controls pollutants in the air emitted from its 7 outlets, measuring 3 parameters. This is done in accordance with the standards set by the Ministry of Industry's Announcement No. 2549 regarding the allowable limits of air pollutants emitted from factories, with air quality inspections conducted twice annually.

In the year 2023, the Total Suspended Particulates (TSP) level was 98% compliant with the Ministry of Industry's standards, while the Sulphur Dioxide (SO₂) level was 99.7% compliant, and the Xylene level was 99.9% compliant.

Products and Services Environmentally Friendly

In the technology printing business, which heavily relies on resources and can have environmental impacts, the company prioritizes environmentally friendly procurement. In 2023, the company purchased environmentally friendly products worth 19,872,315.21 Baht from 18 green suppliers out of a total of 60 suppliers.

1ST TIER SUPPLIER

Green Landscape Management

The company operates under a commitment to environmental friendliness for sustainable development, following the criteria of an Eco Factory. Prioritizing sustainable environmental preservation, the company aims to have at least 5% of its premises designated as green areas. Currently, the company has 2.73 acres of green space out of a total of 25.45 acres, accounting for 10.73%.

The company consistently maintains, cares for, and improves green areas within its premises.

Sustainability in the Social Dimension

Policies and Practices in Social Dimensions

The company emphasizes equal treatment for all, without discrimination against any group, and values respect for human dignity, freedom, and equality of individuals. It has established policies to not engage in any actions that violate human rights and related laws. These policies cover non-discrimination based on physical or mental characteristics, race, nationality, religion, gender, age, skin color, education, social status, as well as non-discrimination in all aspects of employment, including recruitment, compensation, working hours, and holidays, task assignments, performance evaluations, training and development, and career advancement planning. The company does not tolerate forced labor, human trafficking, or child labor, as prohibited by law. It prioritizes employee well-being, considering the health and quality of life of employees and communities through continuous welfare policies and activities. These include

Targets

2023

- Human Rights Violations
- Discriminatory Practices
- Sexual Harassment or Coercion
- Violation of Indigenous Peoples' Right

0 Case

In 2023, the company improved awareness and compliance with international human rights principles, with no reported violations.

employee health check-ups and promoting activities that support good health, such as exercise programs, football competitions, badminton competitions held within the company, or competitions between companies located in the printing industry estate. In cases of human rights violations, the company takes appropriate corrective actions, with continuous monitoring, inspection, and reporting processes. Additionally, the company considers various forms of redress to ensure that individuals affected by human rights violations receive effective remedies, including apologies, compensation, rehabilitation, financial or non-financial compensation, penalties, and measures to prevent recurrence, such as prohibitions or guarantees against repeat offenses.

Social Performance Results Employees and Workforce

The company emphasizes a policy of equal opportunity employment without discrimination based on gender, ethnicity, religion, or culture. In 2023, both TCES Technology Public Company Limited and TCES Siam Press Management Company Limited employed a total of 586 staff members, encompassing diverse age groups, genders, educational backgrounds, and job descriptions. During that year, the company hired employees with disabilities, maintaining a ratio of 1 disabled employee per 100 regular employees in compliance with the law on employing people with disabilities.

	2021	2022	2023
Proportion of hiring persons with disabilities to total employees	1:100	1:100	1:100
Proportion of male employees to female employees	1:1.33	1:1.47	1:1.38
Total number of employees hired	705	636	586

The company also has a policy to support opportunities for people with disabilities to have suitable positions to help improve their quality of life and support them in utilizing their potential to promote their strengths and capabilities. The company employed disabled individuals in the year 2023, with a total of 586 employees, of which 6 were disabled individuals, meeting the legal requirement. Currently, the company continues to consistently implement the national plan for the development of the quality of life for disabled individuals.

Employee Knowledge and Skill Development

Management Development

The company promotes and supports continuous learning for board members, executives, and employees through participation in seminars and training sessions organized by relevant organizations. The company provides seminar and training materials periodically. Additionally, the company distributes relevant documents to board members to ensure they are informed and equipped to make informed decisions. In the year 2023, executives participated in various training and seminar courses, including:

Training and seminars	Hour
IMET MAX 4	288
AI for Executive: Outpacing the Competition with Deep Tech	3

Employee Development

The company recognizes that employees are valuable human resources, especially in the face of technological changes and various situations. Therefore, it focuses on developing knowledge and skills to enhance career advancement opportunities, increase business competitiveness, and prepare employees for changes in the current world. Additionally, it aims to foster a learning organization culture to ensure sustainable business operations.

In 2023, the company conducted training sessions emphasizing knowledge sharing and offered courses related to quality systems and professional skill development in various functional areas. The courses included:

Training and seminars	No. of courses	Hour
ISO Standard System and Safety Course	19	187
Technology and Information Security Development	22	152
Career Skill Development Courses	25	166
Other Development Courses	6	48

Summary of Training for Managers and Employees 2021-2023

Summary of training of executives and employees	2021	2022	2023
Number of Courses	26	59	72
Average Training Hours	252	609	553
Average Employees Trained per Year	705	640	586

Performance Measurement

The company has a performance evaluation system in place to measure success in work performance. Key Performance Indicators (KPIs) are used to reflect the efficiency and effectiveness of work performance. The evaluation tool is a comprehensive 360-degree assessment, covering the potential of employees from all angles, including supervisors, subordinates, colleagues, and stakeholders. This is done to cultivate a culture of efficient collaboration in the workplace.

Safety, Occupational Health, and Environmental Conditions at Work

The company is concerned about the lives and health of all employees, therefore, it implements measures related to safety, occupational health, and environmental conditions at work, with the following policies:

1. Promoting employee awareness of safety and fire hazards.
2. Safety at work is the primary responsibility of all employees.
3. The company will improve the working environment to ensure safety.
4. The company supports and promotes various safety activities to stimulate employee awareness, such as training, motivation, publicity, safety competitions, etc.
5. All levels of management must lead, train, and motivate employees to work safely.
6. All employees must consider their own safety, as well as that of their colleagues and company assets, while working.

Safety Culture

7. All employees must cooperate in safety, occupational health, and environmental projects of the company and have the right to propose improvements to the working environment and safe work practices.
8. The company will seek alternatives to hazardous chemicals for the health of employees.
9. Encouraging employee participation in hazard elimination to reduce work-related illnesses.

In the year 2023, the company continuously developed and improved operational efficiency in safety to reduce the risks of illness, injury, or death, and appropriately cared for the quality of life of employees or workers. Key activities undertaken include:

- New employee training before starting work, including initial orientation on workplace safety for new and job-changing employees.
- Basic fire extinguishing and fire evacuation drills, with 40% of employees undergoing basic fire extinguishing training annually and all employees practicing fire evacuation once a year.
- Training on safe work practices, such as safe forklift operation and certification exams, occupational disease and environmental training, and proper lifting techniques.
- Chemical spill training for employees working with chemicals, conducted once a year.
- Environmental and workplace condition assessments, including assessments for heat, light, and noise once a year, and chemical concentration assessments twice a year.
- Provision of suitable personal protective equipment for employees exposed to hazards.
- Annual employee health check-ups.
- Communication and dissemination of safety and health information to employees through various company communication channels, such as email, notice boards, and monthly morning talks.

- Establishment of badminton and football clubs, as well as a fitness room for employees to promote self-care and health.
- Basic first aid and automated external defibrillator (AED) training.
- Campaign activities to promote safety culture within the organization.
- Safe driving campaign during the New Year holiday season.
- Morning exercise activities for support staff before work to promote alertness, initiated since the year 2023.
- Installation of free drinking water stations within the company premises, with water quality analysis conducted twice a year, meeting standard specifications.

From the assessment of the Injury Frequency Rate (I.F.R) and Injury Severity Rate (I.S.R) in the company's workplace over the past 3 years, from 2021 to 2023, it was found that there have been no accidents during this period. This is attributed to continuous activities promoting and raising awareness about workplace safety.

Fire extinguishing and evacuation drills were conducted annually in 2023.

Employee health check-ups in 2023.

EMPLOYEE ENGAGEMENT ASSESSMENT

The company has conducted a survey of quality of life, happiness, and organizational engagement for the year 2023, with respondents being employees within the company. The company has a policy to create employee engagement and continuously survey factors that affect employee engagement. In order to promote and support all employees to be continuously and sustainably happy, as well as work together to strengthen the organization to be a model organization that creates happiness, the company conducts a survey of quality of life, happiness, and organizational commitment once a year.

RESPONSIBILITY FOR PRODUCTS AND SERVICES

The main products are registered.
Carbon Footprint of Product (CFP)

The continuous increase in customer demand for environmentally friendly products and services has made the release of greenhouse gas data for products a critical factor in purchasing decisions. The company promotes its main product group to obtain certification for the carbon footprint label of the product with the Thailand Greenhouse Gas Management Organization (TGO). This evaluation considers data from raw materials, transportation, and product manufacturing. The company uses this assessment as a database to develop products with reduced greenhouse gas emissions. In 2023, the company registered CFP for the paper product group, totaling 31 products, representing 100% of the company's main products.

ผลิตภัณฑ์ที่ได้รับการรับรองฉลากคาร์บอน
ฟุตพริ้นท์ จำนวน
31 ผลิตภัณฑ์

In response to customer demands, considering sustainability and environmental friendliness, the company is dedicated to developing and designing high-quality, safe products, processes, and solutions that are reusable, recyclable, and aligned with the principles of the circular economy.

The products have been certified with the carbon footprint label, totaling 31 products.

CUSTOMER RESPONSIBILITY

We are dedicated to continuously developing products and services to meet customer satisfaction with responsibility.

The company is committed to continuous development of products and services to meet customer satisfaction with responsibility, honesty, and integrity. We develop sustainable and environmentally friendly products.

SALES AND SERVICE CHANNELS

The company prioritizes customer needs and behaviors by offering two product distribution channels:

1. Direct distribution
2. Online distribution, such as Shopee.

CHANNELS FOR COMPLAINTS

The company is dedicated to developing sales and service channels continuously, thus establishing three complaint channels: 1. www.tks.co.th 2. Telephone hotline 3. Email or postal mail.

In 2023, the company conducted a customer satisfaction survey regarding products, pricing, sales, and delivery. The survey selected customers with the top 30 main sales, accounting for 70.13%. The target satisfaction rate was set at no less than 80%. The evaluation criteria used to measure satisfaction levels were:

Evaluation Criteria:

Evaluation Topics:

The satisfaction survey results from data from the top 30 customers with the highest order values. Total order value is 1,109.22 million baht, accounting for 70.13% of the company's total sales. The results of the overall evaluation in all 4 areas accounted for 87.92 percent, Grade B, "Customers are satisfied at a good level" when compared to the evaluation results from last year. The evaluation results were at an improved level in every topic. The details are as follows:

However, the company Still aware and have determination in order to continuously raise the level of evaluation, a plan has been prepared to improve in various areas as follows:

Community and social policy

Participation in community and social development is considered crucial, and the company takes this matter seriously and consistently. There's promotion and support for all employees at every level to have a sense of responsibility and be part of societal responsibility. Engaging in activities around the factory and community development aid, respecting the rights of stakeholders, and not infringing upon the rights of others within the community and society are emphasized. Activities involve cooperation with various organizations for the development of nearby communities to generate benefits for sustainable development and improve the quality of life for community members.

The company has continuously supported local employment, and in the past year, there have been 159 local hires to distribute income to the community. Support for goods and services from the surrounding community creates sustainable income for the community, fostering good relationships between the factory, community, and employees, such as purchasing and supporting products from the local community.

Participation and community development related to business

The company has a policy of community development participation by organizing CSR activities every month for the communities surrounding the company. Additionally, the company is conscious of the safety of the community, society, and the environment of the employees and stakeholders involved in its operations. It promotes awareness among students regarding road safety since the Kokkham community area has a significant number of industrial companies, posing a risk of road accidents. Moreover, the company ensures compliance with regulations strictly enforced by the law. Furthermore, the company actively participates in various activities aimed at community and environmental development in the local area where it operates.

The company emphasizes caring for employees by considering their health and quality of life through continuous welfare policies and activities. These include health check-ups for employees and promoting healthy activities such as exercise, football competitions, badminton tournaments, and various running events organized by external organizations. The company consistently encourages and supports employee participation in these activities or competitions between companies located in the printing industrial estate.

Additionally, the company plays a role in improving the quality of life and promoting participation with employees, communities, societies, and stakeholders. In 2023, the company conducted the following activities:

1. TKS Company supports a donation of 20,000 baht for National Children's Day 2023 to Watsopanaram School.
2. TKS Company supports a donation of 10,000 baht for National Children's Day 2023 to the Amiriyah Moumin Foundation in three southern border provinces.
3. TKS Company supports a research scholarship of 30,000 baht for medical equipment research for the Thai Medical Equipment Association, Mahidol University.
4. TKS Company supports medical equipment worth 50,000 baht for patient care at Ketmadi Sriwararam Hospital (Samut Sakhon Hospital 2).
5. TKS Company supports a merit-making ceremony for the triple gem with a donation of 10,000 baht at Wat Kokkham and cloth for the Bansandab School.
6. TKS Company supports the procurement of equipment for mobility-impaired individuals with a value of 5,000 baht for the Bangkok Metropolitan Association for the Disabled.
7. TKS Company supports 448 YK-80B Fingertip Pulse Oximeters, valued at 90,513.92 baht, for Phraputtaleela Hospital, Samut Songkhram.
8. TKS Company supports consumer goods worth 30,000 baht for the Office of Social Development and Human Security, Samut Songkhram, on International Day of Persons with Disabilities.
9. TKS Company supports the Kokkham Mini Marathon #3 event with a donation of 10,000 baht organized by the Municipality Cultural Council of Samut Songkhram, Samut Songkhram Province, to raise funds for the renovation of the cultural hall at Kokkham Temple.
10. TKS Company organizes HAPPY NEW YEAR activities and happiness surveys in collaboration with Mahidol University.
11. T-Tree project: Vegetable planting on the company premises with 69 participants planting a total of 690 plants.
12. K-Keep project: Creating awareness among employees about proper waste separation and donating recyclables such as plastic bottles, glass bottles, and aluminum cans generated from employee sorting to Bansandab School, which faces financial constraints in hiring assistant teachers. In 2023, TKS Company donated 1,162.5 kilograms, equivalent to approximately 9,626 baht.
13. S-Sketch project: Encouraging children to draw using leftover materials from the production process, specifically paper, to produce notebooks, thus reducing parental expenses by more than 300,000 baht.

Promoting innovation within the organization

In the year 2023, the CEO policy “Build Something New” was implemented to increase opportunities for innovation, encouraging employees to develop through learning and hands-on experience. This initiative aimed to stimulate change and efforts to achieve goals. Additionally, a culture of “TKS We Can” was fostered within the organization to instill confidence, curiosity, volunteerism, and full commitment among employees, leading the organization to sustainable success. This included embedding innovation in the company’s mission, focusing on creating innovative products, business development, and services that meet the needs of customers and partners, which is the company’s mission. Furthermore, the organization aimed to develop employees’ innovation and technological skills and excel in their work as part of its strategic goals.

Innovation development involved collaboration from all levels and departments of the company to brainstorm, create, and improve work processes according to policies. Progress was reported through Action Plan updates in each quarter of the year 2023, reflecting the company’s commitment to and promotion of new innovations. These innovations were categorized into:

1. **Product Innovation:** The company supported research and development of new products to meet future demands, leveraging numerous innovative patents that added value to customers and the environment, such as residue-free adhesive stickers and labels, security void and protection labels, and self-adhesive stamps.
2. **Service Innovation:** The company introduced new service models, such as providing comprehensive RFID tag rental services to retail customers, utilizing technology and automation to improve efficiency in work processes and customer service.
3. **Operational and Process Innovation:** The company enhanced its information technology systems using Microsoft Dynamics 365 ERP software and developed other technology systems to support operational processes efficiently. It also innovated to improve and support modern production processes, implementing automation or tooling systems to reduce production costs, minimize downtime, and increase productivity. Examples include:
 - **Collecting and Sealer Machine:** The company has developed a machine for packaging A4-sized envelopes. This tool can assemble various components of the work into an envelope, such as books, inserts, reply envelopes, or attached documents, into a single set. It can automatically insert items into envelopes and seal them. Previously, this type of work involved multiple steps and required many employees. Therefore, the introduction of this automatic tool or machine has resulted in benefits such as reduced production time, decreased need for labor, and increased production capacity per day.
 - **Robot RFID TAG:** The company has promoted innovation by utilizing Robot Arms for RFID TAG tasks. These tasks involve counting and inspecting TAGs in large-scale production, which traditionally required a significant workforce and had limited response time to meet customer demands. Therefore, the company identified an opportunity to reduce production time by employing Robot Arms to increase production capacity, akin to augmenting human labor. The benefits include significantly increased production capacity and the ability to work continuously without fatigue, thereby addressing the need to reduce production costs.

- **Robot Arm:** The company has also promoted innovation by adapting Robot Arms for RFID TAG tasks. These tasks involve counting and inspecting TAGs in large-scale production, which traditionally required a significant workforce and had limited response time to meet customer demands. Therefore, the company identified an opportunity to reduce production time by employing Robot Arms to increase production capacity, akin to augmenting human labor. The benefits include significantly increased production capacity and the ability to work continuously without fatigue. Additionally, there is continuous development in utilizing Robot Arms, such as handling tasks in place of workers, automating reading and recording tasks, leading to increased production capacity, reduced work time, and lower production costs.
- **Assembly Card Machine:** This is a machine used for card attachment tasks, which involve checking customer data. The machine attaches cards with customer data onto paper and verifies the data using a 2D-Scanner read by the Smart-track program. The objective is to integrate card attachment processes with data verification processes, resulting in reduced man-hour costs for this type of work by combining both processes into a single machine. This allows employees to be redirected to higher-value tasks. Furthermore, it reduces human error.
- **Inspection Matching at HZG machine (Cover and body passbook):** This machine is designed to attach covers to the interior of bank deposit passbooks. It installs a camera to read the barcode numbers on the interior for matching before attaching the covers (Passbook Inspection). The objective is to increase the accuracy of matching covers with interiors, reducing QC matching inspection steps done manually by employees. The benefits include reduced man-hour costs and decrease human error.

MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)

EXECUTIVE SUMMARY

T.K.S. Technologies Public Company Limited (“the Company”) and its subsidiaries would like to report the operating performance and financial position for the year-ended December 31, 2023. The Company had revenue from sales and services in amount THB 1,488.3 million, a decrease from the previous year (YoY) amounting to THB 93.5 million or 5.9%, mainly due to decline in sales of a special project in security printing solution and sales of digital printing solution. GP margin was 29.6%, a decrease from the previous year, which has a gross margin of 30.8% mainly due to the rising of paper raw material and production cost when compared to the previous year.

The Company had a net profit from operations of THB 108.1 million, a decrease of THB 37.9 million or 26.0% from the previous year which mainly came from a decrease in gross margin and an increase in selling and administrative expenses. In addition, the Company also recognized the profit sharing from investments in associates decreased by THB 154.1 million or 44.3% from decrease in profit sharing from SYNEX.

Total assets as of December 31, 2023 was at THB 5,096.1 million, a decrease of THB 697.9 million or 12.0% from December 31, 2022, mainly due to the change in fair value measurement of investments in equity securities. The company’s financial position is still strong with debt to equity ratio at 0.29.

As of December 31, 2023, the net asset value of the Company (NAV) based on the consolidated financial statements compared to the Company’s market capitalization and the book value adjusted by the fair value of the investment in associates net with deferred tax liabilities was shown as follows;

Net Asset Value : NAV

- Corporate Governance Rating (CGR) 'Excellence' 2023 and a member of the Thai Private Sector Collective Action against Corruption (CAC) from Thai Institute of Directors (IOD)
- 3Rs Award for the project "Improving Industrial Waste Management Efficiency Towards Zero Waste to Landfill" for the year 2023
- Trophy of Eco Factory Excellence Award from the Federation of Thai Industries

Overview Business Strategy – Tech Ecosystem Builder

The Company has continuously focused on adapting its businesses to keep up with digital disruption by developing the innovation of information technology and has internally restructured its group of companies to create a synergy both in terms of market and product development and in terms of reducing production capital to increase its overall competitiveness to maintain its existing business base alongside finding new business partners. Currently, the Company has invested in 6 major businesses as below:-

1. Security & Fulfillment Solution Business – through an investment in T.K.S. Siampress Management Company Limited (“SPM”)
2. Technology Platform Business- through an investment in Gofive Company Limited (“Gofive”)
3. Corporate Venture Capital in Tech Startup Company through an investment in Next Ventures Company Limited (“NEXT VENTURES”)
4. IT Trading & Distribution Business - through an investment in Synnex Public Company Limited (“SYNNEX”)
5. Fintech and services through own ecosystem - through an investment in Sabuy Technology Public Company Limited (“SABUY”) and Plus Tech Innovation Public Company Limited (“PTECH”)
6. Fully integrated IT solutions and services - through an investment in Metro Systems Corporation Public Company Limited (“MSC”) and Advanced Information Technology Public Company Limited (“AIT”)

Operating Performance Analysis

Financial Performance for the 4th quarter 2023

Revenue and Gross Profit

The Company had revenue from sales and services in the amount of THB 329.1 million, a decrease from the same period of the previous year (YoY) amounting to THB 106.0 million or 24.4%, mainly due to decline in sales of a special project in security printing solution. While comparing to Q3/2023 (QoQ), The Company had revenue from sales and services decrease by amounting to THB 44.0 million or 11.8% from a decline in sales in security printing solution such as examination and sales of a special project in security label business.

A gross profit for the period was 29.9%, nearly from the same period last year (YoY), which had a gross profit margin of 30.0% and comparing to Q3/2023 (QoQ), the Company’s gross profit increase, as a result of efficient management of cost production and focus on expanding on the potential growth business which can generate a high gross margin.

Selling and administrative expense

The Company had selling and administrative expenses of THB 63.5 million, a decrease from the same period of the previous year (YoY) amounting to THB 11.6 million or 15.5% and comparing to Q3/2023 (QoQ), the Company had selling and administrative expenses decrease of THB 8.5 million or 11.8%, due to selling expense related to lower sales.

Finance cost and Income Tax

The Company had finance cost of THB 8.3 million, an increase from the same period of the previous year (YoY) by THB 1.7 million or 25.8% and comparing to Q3/2023 (QoQ), the Company’s finance cost increase in the same direction from drawdown of short-term loans from financial institutions to reserve for operating expenses paid during the period.

The Company had income tax of THB 4.7 million, a decrease from the same period of the previous year (YoY) by THB 3.1 million or 39.6% and comparing to Q3/2023 (QoQ), the Company’s income tax decrease in line with a declining in the net profits from operations.

Profit sharing from investment in associates and dividend received from investment

The Company recognized the profit sharing from investments in associates of THB 52.5 million, a decrease from the same period of the previous year (YoY) of THB 18.2 million or 25.8%, mainly due to decrement in the profit sharing from SYNEX from 2 main factors: (1) a decrease in sales and gross profit from the economic situation and lower in consumer purchasing power (2) an increase in finance cost due to higher in policy interest rates. While comparing to Q3/2023 (QoQ), The Company recognized the profit sharing from investments in associates a slight decrease from PTECH.

Loss from extraordinary items

During the Q4/2023 and Q3/2023, The Company recognized losses from fair value measurement of derivative instrument – warrant net from income tax expenses amounting to THB 10.0 million and amounting to THB 11.1 million, respectively. Any changing in fair value of such derivative instrument will be recognized in profit/loss. Moreover, the Company had professional fee related to investing activities. Thus, totaling a loss from extraordinary items was THB 10.0 million and THB 12.6 million, respectively. While in the Q4/2022, the Company recognized losses from fair value measurement of derivative instrument – warrant net from income tax expenses and recognized gains from sales of other financial assets. Thus, totaling a loss from extraordinary items was THB 36.8 million.

Financial Performance for the year ended December 31, 2023

Revenue and Gross Profit

The Company had revenue from sales and services in amount of THB 1,488.3 million, a decrease from the previous year (YoY) amounting to THB 93.5 million or 5.9%, mainly due to decline in sales of a special project in security printing solution and sales of digital printing solution. However, export revenue in security label business, which is the business group that the company is interested in, continues to expand. A gross profit for the period was 29.6%, a decrease from the previous year (YoY), which had a gross profit margin of 30.8%, mainly due to (1) the previous year, there was a special project in security printing business which has a higher gross profit margin than a normal project (2) the rising of paper raw material and production cost when compared to the previous year.

Selling and administrative expense

The Company had selling and administrative expenses of THB 290.2 million, an increase from the previous year (YoY) amounting to THB 2.3 million or 0.8% due to selling expense related to higher sales volume of export revenue in security label business & digital printing solution such as shipping and postage cost.

Finance cost and Income Tax

The Company had finance cost of THB 30.4 million, an increase from the previous year (YoY). The Company draw-down of short-term loans to reserve for income tax paid during the year and gradually repaid some of the long-term loans from cash received from operations and dividend received from investments. Amidst the rising market interest rate situation, the Company has continued to find sources of loans and focused on working capital optimization in order to maintain financial cost at an appropriate level.

The Company had income tax of THB 25.1 million, a decrease from the previous year (YoY) by THB 11.6 million or 31.5% due to a decrease in the net profits from operations. In addition, during the Q3/2023, the Company received additional tax benefits from the Board of Investment Certificate (BOI) for improving production efficiency from the renewable energy.

Profit sharing from investment in associates and dividend received from investment

The Company recognized the profit sharing from investments in associates of THB 193.5 million, a decrease from the previous year (YoY) of THB 154.1 million or 44.3%. Such decrement mainly came from declining in the profit sharing from SYNEX due to the economic situation and lower in consumer purchasing power and the profit sharing from PTECH decreased from the gain on asset disposal recognized in the previous year.

However, during the year, the Company received dividends from its investments from SABUY, MSC and AIT, in the total amount of THB 41.4 million, which partially compensated for the decrease in profit sharing from associates.

Gain (loss) from extraordinary items

For the year ended December 31, 2023, The Company recognized losses from fair value measurement of derivative instrument – warrant net from income tax expenses amounting to THB 45.5 million. Any changing in fair value of such derivative instrument will be recognized in profit/loss. Moreover, the Company had professional fee related to investing activities amounting to THB 5.9 million. Thus, totaling a loss from extraordinary items was THB 51.4 million.

While in the year ended December 31, 2022, The Company recognized gains from fair value measurement of derivative instrument – warrant net from income tax expenses amounting to THB 161.3 million and recognized gains from sales of non-current assets classified as held for sale net from loss of impairment of intangible assets amounting to THB 17.2 million. Thus, totaling a gain from extraordinary items was THB 178.5 million.

FINANCIAL POSITION ANALYSIS

Assets

As of December 31, 2023, the Company had total assets of THB 5,096.1 million, decreased by 12.0% at THB 697.9 million from December 31, 2022 and the major decrement of total assets were described as follows:

- Cash and cash equivalent and other assets increase by THB 89 million, mainly from trade accounts receivable tends to decrease from sale decrement in Q4/2023.
- Investment in associates decreased by 14 million which mainly due to the dividend received from SYNEX amounting of THB 202 million and the recognition of profit sharing from SYNEX and PTECH during the year.
- Other financial assets decreased by THB 541 million from the recognition loss from the changing in fair value measurement of investments in equity instrument which was recognized through other components of equity amounting to THB 613 million and recognized loss from fair value measurement of derivative instrument – warrant amounting to THB 53 million in profit/loss. Policy and guidelines related to the Board of Directors

The Board of Directors recognizes the important role of corporate governance for the best interest of the Company, which must understand the roles, duties, and responsibilities by dividing the roles and responsibilities between the Board of Directors and the Management. Therefore, an appropriate Board structure has been established for efficient and effective performance of the Board of Directors with guidelines for practice as follows:

Composition and Appointment of the Board of Directors

The Board of Directors consists of the Chairman of the Board, Vice Chairman of the Board, and other directors as appropriate to the size of the Company's business and effective performance. In total, there are no less than 5 members and have independent directors who have qualifications as specified by the Securities and Exchange Commission ("SEC") and the Stock Exchange of Thailand ("SET") of not less than one-third of the total number of directors and must not be less than 3 members.

The Board of Directors elects one independent director to be the Chairman of the Board of Directors. If the Board of Directors deems appropriate, one or more directors may be elected to be the Vice Chairman of the Board of Directors.

The Company nominates a person to be appointed as a director at the Annual General Meeting of Shareholders by requesting a resolution of the shareholders' meeting to be passed by a majority vote of the shareholders who attend the meeting. The shareholders meeting shall elect directors in accordance with the following conditions and procedures:

1) One shareholder shall have one vote for every one share held by that shareholder;

2) When electing directors, the casting of votes shall be made at one time for a group of persons up to the full number of all directors to be elected at that time or, if the shareholders meeting deems appropriate, the casting of votes shall be made to elect directors on an individual basis. However, in the casting of votes in either case, each such person elected by the shareholders shall receive votes from shareholders according to the total number of shares held by each shareholder under (1) and no shareholder can allot his or her votes to any person in any number.

3) When electing directors on an individual basis, persons receiving the most votes are those who are elected to be directors, in descending order, to the number of directors who are to be elected. If there is a tie for the last to be elected and this exceeds the said number of directors, the election shall be drawn by lots.

At every annual general meeting, at least one-third (1/3) of the number of directors shall vacate their office. If the number of directors is not a multiple of three, then the number nearest to one-third (1/3) must retire from office.

If the position becomes vacant due to reasons other than the completion of the term of office The Nomination and Remuneration Committee shall select and nominate a person with suitable qualifications according to the law and criteria prescribed to be a director instead. The person who is appointed as a replacement director will be in the position of director for the remaining term of the director he replaces. selection part Persons suitable to hold the position of senior management The Nomination and Remuneration Committee will consider the criteria and process for nominating qualified persons for the position of Chief Executive Officer to propose to the Board of Directors. Including reviewing the succession plan, including a list of eligible candidates for succession consideration.

The appointment of directors of the Company shall be in accordance with the Company's Articles of Association and the requirements of relevant laws. However, it must be transparent and clear, considering the person's educational background and experience and professional practice with sufficient details for the benefit of the Board of Directors and shareholders' decision-making.

Qualification of the Board of Directors

1. The directors must be the persons who have sufficient knowledge, competency, integrity and business ethics, and enable to have adequate time to devote their competency and perform their duties for the Company.

2. The directors must fulfill their qualifications and possess non-prohibited characteristics as prescribed by public limited companies' law and related laws, and must not possess any characteristics that are unsuitable for managing a business of which the general public is the shareholder pursuant to the requirement prescribed by the SEC.

3. The directors can assume directorship in other companies but must not obstruct their performance of duties as director of the Company and must be in compliance with the guidelines of the Office of SEC and SET.

4. The directors must not operate a business of the similar nature as the Company or competing with the Company's business or entering to be the partner in ordinary partnerships or partner without limit of liability in limited

partnership or assuming directorship in other companies operating similar business nature as the Company and competing with the Company's business, whether for personal benefits or benefits of others, except the case where the Shareholders' Meeting has been notified before resolving for appointment.

5. The independent directors must have the qualifications prescribed by the Company which must be in line with Independent Director Qualifications prescribed by relevant notifications of SET and SEC. They must safeguard the interests of all shareholders in equal manner without any conflict of interests and participate in the Board of Directors' Meeting by giving opinions independently.

Definition of "Independent Director" means a director who does not undertake any related business or assignment that may affect their independent decision-making. Basic qualifications of the independent director as defined by the rules and regulations of the Securities and Exchange Commission as per the following details: -

1. Not holding shares in excess of 1 (one) % of total voting shares of the Company, parent company, subsidiary, associated company, major shareholder, or regulator of the Company. The number of shares held by any related person of that independent director must also be counted.
2. Must not be or have never been a director participating in management role, an employee, an officer, an advisor who received regular salary, or the regulator of the Company, parent company, subsidiary, associated company, subsidiary at the same level, major shareholder, or regulator of the Company, unless such independent director has not been the aforesaid person for at least two years prior to the resolution date of his/her appointment.
3. Must not be a person having relationship, either through bloodline or legal registration, as father, mother, spouse, sibling and child, as well as the spouse of a child of other director, executive, major shareholder, or regulator, or a person who has been nominated as director, executive or regulator of the Company or subsidiary.
4. Have no or have had any business relationship with the Company, parent company, subsidiary, associated company, major shareholder, or regulator of the Company in a manner that may obstruct his/her due and independent use of discretion. The independent director shall not be and have not been a significant shareholder or a regulator of the person that has business relationship with the Company, parent company, subsidiary, associated company, major shareholder, or a regulator of the Company, unless such independent director has been free from such characteristics for at least two years prior to the resolution date of his/her appointment.

Business Relationship shall cover any ordinary course of business or trade for business engagement purpose, property rent or leasing, transaction relevant to asset or service, or giving or receiving financial assistance in a form of loan or guarantee, offering assets as collateral, and any other similar conduct which causes the Company or its counterparty to be liable for debt settlement to another party in an amount equivalent to 3 (three) % or more of the net tangible assets of the Company or twenty million Baht or more, whichever is lower. The calculation of the said debt shall accord with the calculation of a connected transaction prescribed in the Notification of the Capital Market Supervisory Board regarding the criteria on connected transactions mutatis mutandis. However, consideration of the said debt shall include the debt incurred during the one-year period prior to the date on which such business relationship takes place with the same person.

5. Must not be or have never been an auditor of the Company, parent company, subsidiary, associated company, major shareholder, or regulator of the Company, and have not been a significant shareholder, a regulator, or a partner of an auditing firm for which the auditor of the Company, or that of its parent company, subsidiary, associated company, major shareholder, or a regulator of the Company has been working, unless such independent director has been free from such characteristics for at least two years prior to the resolution date of his/her appointment.
6. Must not be or have never been a professional service provider, and legal or financial advisor, who obtains service fee more than two million Baht a year from the Company, its parent company, subsidiary, associated company, major shareholder, or regulator of the Company, and have not been a significant shareholder, a regulator, or a partner of such professional service provider, unless the independent director has been free from such characteristics for at least two years prior to the resolution date of his/her appointment.
7. Must not be a director who has been appointed as a representative of the Company's director, major shareholder, or the shareholder related to the Company's major shareholder.

8. Not engage in the business of the same nature as or competing with that of the Company or its subsidiary and must not be a significant partner in a partnership, or director participating in management role, an employee, officer, or advisor who obtains regular salary, or a shareholder holding more than 1 (one) % of total voting shares of any other company which engages in the business of the same nature as or competing with that of the Company or its subsidiary.
9. Must not have any other characteristics that prevent the director from giving independent opinions on the Company's operations.

After having been appointed as an independent director as per the above qualifications, the Board of Directors may assign such independent director to make collective decisions in relation to the business operations of the Company, parent company, subsidiary, associated company, subsidiary at the same level, major shareholder, or a regulator of the Company.

Nomination of Company Directors and CEO

The appointment of the Board of Directors is in accordance with the Company's Articles of Association and relevant legal requirements. It also complies with the principles of good corporate governance of SET and SEC and the company's good corporate governance policy. Through the process of the Nomination and Remuneration Committee, which is responsible for recommending the structure, size, composition and qualifications of the Board of Directors and sub-committees. by analyzing the necessary skills to be used in the selection of directors to be suitable and in line with the company's business strategy including the complexity of the company's business in terms of education, knowledge, expertise, skills, experience, and specific abilities related to the Company's business The Company uses the Director Pool database from the Thai Institute of Directors Association (IOD) as a component in the selection of new directors and considers the qualifications of the person who will be the Company's director to be appropriate. There is a guideline for considering general characteristics and Board Skill Matrix, including considering directors who can devote their time to fully performing their duties as a director. Directors should not hold positions in more than 5 listed companies.

At present, the Company's directors and high-level executives have a skill matrix as shown in the following table.

list of directors	Independent Director	female independent directors	Non-Executive Director	Core Skills	Specific Skills

Remark: ★ = Essential CEO Qualifications

In 2023, the Company has at least one non-executive director who has experience in the main business or industry in which the Company operates, namely Mr. Apisak Tantivorawong and Miss. Sutida Mongkolsuthree

In addition, the Board of Directors has a policy to allow shareholders to take part in taking care of the business and giving more opinions on business operations. Therefore, minority shareholders are given an opportunity to submit a list of qualified persons under the Securities and Exchange Act and the qualifications specified by the Company. to be selected as the Company's director by announcing the invitation on the Company's website for shareholders to submit their names and personal profiles to the Company. The Company has set a minimum percentage of shareholding for shareholders who are entitled to nominate directors in advance, which must hold a total of not less than five percent of the total number of voting rights of the Company, and must hold shares until the specified date. Closing the register book for the right to attend the shareholders' meeting

Office Term of Directorship

The office term of each director is three years per term and can be elected upon retirement by rotation to resume the director office.

At each Annual General Meeting of Shareholders, at least 1/3 of the directors shall retire. If total number of directors cannot be divided exactly by three portions, the number of directors nearest to 1/3 ratio shall apply for retirement.

In the event of retirement due to any other reasons apart from rotation, the Nomination and Remuneration Committee shall consider and select the candidate to be proposed to the Board of Directors for consideration and such candidate shall remain in their office as per the remaining office term of the director he/she replaced.

Other than vacancy by rotation, the director shall vacate the office upon:

- (1) death;
- (2) resignation;
- (3) lack of qualifications or subject to prohibition under the law;
- (4) being removed by resolution of the shareholders meeting by voting of not less than three-fourths of the number of the shareholders present and entitled to vote and having shares in aggregate not less than one-half of the number of shares held by the shareholders present and entitled to vote;
- (5) being removed by the court order.

Any director wishing to resign from the director position shall submit the resignation letter to the Company. The resignation shall take effect upon the date on which the resignation letter reaches the Company.

In case of a vacancy on the Board of Directors otherwise than by rotation, the Board of Directors shall elect any person who is qualified and not subject to prohibition under the laws as a replacement director at the next meeting of the Board of Directors, except in the case where the remaining term of office of such director is less than two months. The replacement director shall hold the office only for the remaining term of the director whom he replaces

For a director who has been an independent director for 9 years or 3 consecutive terms, the Nomination and Remuneration Committee will review the true independence of that independent director annually.

Assumption of Directorship in Other Companies and Listed Companies

To ensure that the directors can perform their duties in efficient manner, the Company therefore set up a policy to limit the number of directors assuming directorship in other companies and listed companies by not more than five listed companies at the same time.

Any directors assuming directorship or management position in other companies, he/she must notify the Company for acknowledgement since it is a stake holding issue required for reporting as prescribed in "Disclosure of Information and Transparency".

Determination Remuneration of Directors and Executives

At present, the Company has designated the Nomination and Remuneration Committee to consider the remuneration of directors fairly and appropriately with the duties and responsibilities of the directors by comparing them with businesses of similar size in the same business. For the consideration of the remuneration of the senior management, the Company has arranged the appropriate remuneration through the performance appraisal process in accordance with the criteria set by the Board of Directors and the Human Resources Department for each level of management. It is linked to the Company's performance and the performance of each executive to determine short-term and long-term performance indicators, which are criteria for evaluating the Chief Executive Officer's performance. These performance indicators reflect short-term and long-term compensation. For the Chief Executive Officer and Executives, the Company has transparency and appropriate procedures for considering compensation.

Remuneration of Directors and Executives

The Company has set a clear and transparent policy on directors' remuneration. The Board of Directors will consider the review according to the rules or methods and structures that are fair and reasonable, which will be considered based on the Company's performance and operating results in comparison with the rate of remuneration in the same industry and the scope of duties and responsibilities ready to be presented to the shareholders' meeting for approval. The Annual General Meeting of Shareholders held on April 20, 2023, approved the monetary remuneration in the form of meeting allowances for the rate of directors' meeting allowances to be effective until the shareholders' meeting determines otherwise. The directors assigned to be members of the sub-committees receive meeting allowances in accordance with the increased workload, except executive directors who do not receive meeting allowances from being a member of the sub-committees.

Succession Plan

The company's board of directors has designated the nomination and compensation committee as responsible for developing a succession plan for the CEO position. This plan is presented to the board for consideration, including overseeing the company's succession plan for senior management positions. Regular reviews are conducted to evaluate the importance of positions, recruitment, and development to ensure that successors possess the necessary knowledge, skills, experience, and qualifications beneficial to the company. Additionally, periodic reviews of the succession plan are conducted, with at least one report submitted annually to the board for awareness of development and succession plans.

Succession Process:

- Analyze the company's business environment, including strategy, policies, investment plans, and expansion plans, to assess the readiness of personnel in alignment with the company's strategy in both the short and long term.
- Define capabilities, including knowledge, skills, personality traits, and desired attitudes of employees in each position, and develop individual development plans accordingly.
- Select, evaluate performance, and assess the potential of employees for suitability.
- Use assessment tools to analyze employee potential.
- Identify successors based on assessments and analyses of employee potential and performance, with advance notification to prepare employees for succession.
- Develop and evaluate employees expected to succeed in their roles, ensuring development and performance align with the Succession Plan policy.

Orientation for New Directors

In the event of a new director, the Board of Directors realizes the importance of performing duties of the new director by stipulating that an orientation for all new directors is required so that the new director is aware of the Company's expectations regarding the roles, duties, and responsibilities of the Board of Directors, director as well as to acknowledge the overall operating guidelines of the company Structure of Subsidiaries, Associated Companies and Good Corporate Governance Practices of the Company as well as create knowledge and understanding of business and operations in various fields of the Company to prepare for the performance of the directors' duties. The Company has a policy to encourage directors to attend training courses to enhance their understanding of the roles and missions under the Good Corporate Governance Campaign. The directors can attend the training at the Thai Institute of Directors Association or related agencies for which the company is responsible for all expenses.

Policy and guidelines related to shareholders and stakeholders

The Company treats shareholders fairly and equally with fundamental rights, adheres to the principles of good corporate governance, strives to be shareholders' representatives in transparent business operations, as well as has an accounting system and reliable finance. This is to ensure that all shareholders are treated equally in all matters relating to the Company, including the right to attend and vote at the shareholders' meetings, the appointment of proxies, the provision of information in advance in a timely manner for decision-making, meeting place, time allocation for agenda, disclosure of information of interest and the right to express opinions freely at the meeting, etc. In addition, the Board of Directors will not take any actions that may cause conflicts of interest to the Company without seeking benefits for themselves and without disclosing confidential information to outsiders.

Rights and equity of shareholders

The Company recognizes its responsibility and importance to respect and protect the rights of shareholders, including not infringing or depriving shareholders' rights, but encouraging shareholders to exercise their rights under the law as follow:

- The right to receive share certificates and the right to buy, sell and transfer securities by the Company appointed by the Company Thailand Securities Depository Co., Ltd. acts as the Company's securities registrar. to facilitate the shareholders

The company has complied with the corporate governance policy of the company. With the following 8 principles

Principle 1 Establish Clear Leadership Role and Responsibilities of the Board in Sustainable Value Creation of the Company

The Board shall understand role, duties and responsibilities in managing the Company in accordance with laws, regulations and resolutions of the Shareholders' Meeting with integrity, diligence and protection of the Company's interest, mutually define with the management the annual business plan and budget 2019 of the Company to be the framework for operation, review operating policy for management in various areas to attain the objectives and goals, and monitor, evaluate and oversee performance reporting in accordance with goals. The policies in various areas are formulated and prepared as Corporate Governance Manual and disclosed on the Company's website: www.tks.co.th to be in the framework of sustainable business operation.

Principle 2 Define Objectives that Promote Sustainable Value Creation

The Board promotes the collaboration among the Company and stakeholders and significant related parties, such as shareholders, suppliers of goods and services to the Company, buyers of products from the Company, and employees, due to its emphasis on supervision and concern on the right of the stakeholders. The guideline of practice is based on integrity and fairness with transparency, and without self-exploitation which conflicts with the interests of the Company and stakeholders, as the main goals of the sustainable business operation as follows.

Shareholders: The Company ensures fair and equitable treatment among all shareholders in accordance with basic rights and upholds the principle of CG Code. The Company shall commit to act as the shareholder's representative by operating business with transparency and reliable accounting and financial system. The Company also ensures that every shareholder is treated fairly and equally in all matters relating to the Company. Those matters include the rights to attend and vote at the Shareholders' Meeting, assign proxy, advance disclosure of information at appropriate timing to facilitate decision-making, meeting venue, appropriate time allocation for agenda, disclosure of information in stakeholdings and the right to freely express opinions at the meeting. In addition, The Board shall not perform any acts that may result in conflict of interest with the Company nor seeking personal benefits and disclosing confidential information to any third parties.

Customers: The Company is committed to supply good quality and standardized products and services to ensure highest benefits for customers in terms of price and quality. The Company guarantees highest confidentiality of customer information and performs regular product quality inspection, including ensuring accurate and on-time delivery of products as well as compliance with any contracts, agreements or conditions agreed between the customers in transparent and equal manner. The Company shall equally prioritize the demands of both major and minor customers by setting a team for contacting with the customers, providing useful advice, and accepting customer suggestions or opinions, and maintaining confidentiality of customer information.

Rules and Guideline of practices

- Providing a strict and appropriate system for caring, maintaining, preventing, and protecting any information or properties of the customers under the Company's supervision, always including installing CCTV system for recording operations and allowing the customers to check work process, and the face scan system has been also established for work attendance records with convenience, fastness, and safety.
- Creating innovations to achieve customer satisfaction and perform business operations in environmental-friendly manner based on ISO 9001 system and perform duties with full effort and commitment.
- Exercising knowledge, abilities, expertise, carefulness, and care to deliver quality products to customers in professional manner.
- Surveying customer satisfaction by allowing them to express opinions on product and service quality, including any other comments toward the Company for further improvements to create highest satisfaction of its customers.
- Strictly and appropriately maintaining confidentiality of customer information and avoiding disclosure of such information to any third parties unless consent is given by the customer or required by legal proceeding.
- Setting up a team to be responsible for handling customer complaints and suggestions for further improvement and higher work effectiveness.
- Establishing an anti-corruption policy as a guideline for employees at all levels of the Company Group to gain the trustfulness of all customers, vendors, shareholders, and stakeholders.
- Complying with generally accepted standards that are relevant to the Company's business operations

- Proper operating business in compliance with the official laws and requirements, and avoiding any assistance, promotion or support in any unlawful activities and transactions
- Communicating the Company's product or service information to ensure that the customers have correct understanding regarding the Company's products and services

Employees: The Company gives high priority to human resources in terms of welfare, safety and improvement of working environment by performing its operations and overseeing under safety, occupational health, and working environment policy, including providing appropriate annual employee remunerations in consistency with the payment of remuneration of the same industry. In addition, the Company provides various employee welfares such as provident fund, Employee Joint Investment Program (EJIP), and establishes annual health check policy for all employees, including encouraging the use of masks and noise protection equipment in case where an employee must work under an environment exposed to dust and loud noise from machines. The Company annually arranges working environment inspection. This includes inspection of lighting at workplace, dust content and loudness within manufacturing plant as well as drinking water quality, etc.

In terms of strengthening the work environment, the Company has focused on making all employees proud and trust in the organization by embedding the corporate culture "T.K.S. We Can"

Furthermore, the Company develops the employee in every level to enhance their competency for supporting future business growth by providing training programs to enhance knowledge and competency of the employee in each division to be in reasonable and appropriate level for the performance of each employee in each level and transferring knowledge among the employees in the said division.

To allow employees the chance to give opinions and suggestions, the Company therefore continuously organizes General Meeting of Shareholders and Extraordinary Meeting of Shareholders every year so that the employees are notified of the Company's policies and operating results, and allowed to ask questions and give suggestions and opinions to the Management. The Company also prepares comment/complaint boxes that can only be opened by the Managing Director.

For new employees, the Company organizes orientation in the first day of working commencement for new employees to primarily inform them of the Company's policies, regulations, rules, business structure, corporate culture, welfares, and other benefits of the Company. Within 1 year, the Company shall organize orientation activity for new employees to get acquainted with their co-workers, seniors, and the Management as reinforcement of good relationships among the people within the organization, organizational engagement, and teamwork learning.

However, the Company takes safety and environment into consideration, promotes the Company's stakeholders to participate in community and society development, and continuously upholds and develops stakeholder treatment. The statistics of accidents at workplace, absenteeism rate, occupational illness rate, and yearly average training hours of the employees are disclosed.

In the year 2020-2021, Samut Sakhon Province has experienced a severe COVID-19 epidemic situation and is the most controlled area with surveillance and lockdown in the province, which affects the employees' duties. Therefore, the company has adjusted the working hours of night shift employees to be in line with the provincial policy to achieve the company's operations in line with the goals set.

Society, Community and Environment: The Company has been accredited with Eco Factory Certification and Environmental Management System Standard Certification (ISO 14001) which are applied to control environment in order to ensure that the surrounding community adjacent to the Company will be safe from pollutions. The Company also organizes activities with nearby community to mutually build happy coexistence, such as granting scholarship to the students in nearby schools, etc.

Creditors: The company has fair treatment and is responsible to creditors, especially in terms of guarantees, capital management, and measures to prevent default payments. The Company has strictly complied with the terms and conditions of the contract in borrowing money according to the agreement. Both in repayment of debt, loan, interest, and will comply with the conditions for borrowing money according to the agreement and have duties that should be owed to trade creditors. There has never been any practice that violates the agreed conditions, conceals information, or facts that will cause damage to creditors, which has always built creditors' confidence. In addition, the company has joint activities with trade creditors to exchange knowledge and organize seminars on occasion.

Guidelines are as follows.

- In the event that the Company is unable to comply with the conditions, the Company will notify the creditors in advance in order to mutually consider the solution.

- The company will avoid accepting and paying any benefits in doing business with creditors dishonestly.
- The Company places importance on capital management to have an appropriate structure to support the Company's business operations and maintain creditors' confidence.
- Accurate, complete, and timely reporting of debt obligations to creditors upon request.

Criteria for selecting and evaluating business partners of the Company are as follows:

- Quality of products and services.
- Features of the product that must meet the needs. and can be allowed to be tested first
- Expertise and experience
- Financial status
- Business reputation.
- Conduct business that is friendly to the environment and has good corporate governance principles.
- The risk of providing services to many customers.

Business Partners: The Company takes the importance of business partners into account, purchases products and services from business partners under trade conditions, and complies with related laws, rules and contracts ensuring fair treatment and transparency among business partners. The Company also gives precedence to payment of purchased products and services on time. The Company's business partner selection system is reliable and responsible for society and environment to ensure that quality and standard products and services in accordance with the requirement will be delivered to the customers.

Practical Guidelines are as follows:

- Not demanding, accepting, and paying any trade benefits to business partners in bad faith, and strictly complying with the agreed contract, agreement and conditions. In case where the Company is unable to comply with the said conditions, it must immediately notify the business partners in advance to jointly seek appropriate solutions based on reasonable ground.
- Controlling or preventing the event where conflict of interest relating to the Company's business occurs or may occur in appropriate manner and avoiding to seek any unlawful benefits or benefits that are in conflict with the official regulations.
- Not being involved in any actions that may infringe intellectual property rights, and promoting efficient use of the Company's resources and assets among the executives and employees, including using proper copyrighted products and services, and not supporting the use of any products or services that infringe intellectual property.
- Maintaining strict compliance with trade conditions and agreements to bring about standard trade both with domestic and overseas business partners.

- Business reputation
- Operating business that is environmentally friendly and in line with CG Code.
- Risk from providing services to multiple customers

Competitors: The Company strictly upholds the compliance with ethics and code of conduct on relationships with the Company's trade competitors. The trade competitors are treated in consistency with international principle under legal framework on the principle of trade competition, and observance on the rule of good and equitable competition. The Company rejects any distortion of information, deception or use of any other improper methods in the course of the good competition, and not attempt to damage the reputation of its trade competitors through false allegation, sabotage, accusation, or undertaking any unfair actions for competition, and not engaging in any dishonest or inappropriate action in order to obtain the competitors' confidential information, and not restricting other persons to participate in business competition.

Government: The Company has provided full cooperation as good citizen by strictly complying with laws, rules and regulations relating to the Company's business.

Intellectual Properties or Copyrights: The Company has set up a policy to comply with laws relating to non-infringement of intellectual properties or copyrights, and non-encouragement of its employees to undertake any actions that may infringe unlicensed intellectual properties or copyrights of other persons. This is the observance with ethics and code of conduct concerning intellectual properties and the use of the Company's information and communication technology.

Anti-Corruption: In 2023, the Company has promoted personnel within the organization by organizing training to raise awareness and educating on corruption continuously. In addition, there is a communication and notification policy on the no-accepting / no-giving gifts to business partners by communicating via E-mail and letter to acknowledge and understand In order to further cultivate the values of employees and business partners.

Principle 3 Strengthen Board Effectiveness

The Board realizes that the directors shall play the crucial role in taking responsibility for corporate governance for highest benefits of the Company and shall understand their roles, duties, and responsibilities. The roles and duties are delegated between the Board and the Management, and the appropriate structure of the Board of Directors is therefore determined for efficient and effective work performance of the Board as per the following guideline of practice.

Principle 4 Ensure Effective CEO and People Management

The Board of Directors properly realizes that the people who assume CEO position in every level which is the important managerial position and takes part in driving the Company toward its goals, therefore, in 2019, the Board of Directors established the Nomination and Remuneration Committee to perform duties to ensure the Board of Directors that the Company shall properly and transparently proceed the nomination process by considering from knowledge and experiences, and governing personnel management and development to be consistent with the Company's strategy.

In people management aspect, the Company encourages the directors and chief executive officers to attend adequate trainings of the programs as recommended by Office of the Securities and Exchange Commission, and organized by Thai Institute of Directors (IOD) to develop the knowledge of directors, chief executive officers and Company Secretary for recognition on rules and regulations, and practice of being directors and executives of the Company so that they can perform their duties with integrity, carefulness and best interests of the Company and the overall shareholders.

Principle 5 Nurture Innovation and Responsible Business

The Board of Directors simultaneously gives precedence to business operation, and creation of social and environmental benefits under management based on CG Code pursuant to the guideline stipulated by the Office of Securities and Exchange Commission and the Stock Exchange of Thailand. Code of Ethics and Code of Conduct are continuously observed through good, transparent and fair management system with all parties of stakeholders for trust and confidence of the shareholders in investment in the Company's business. Therefore, the Corporate Governance and Social Responsibility Committee have been established to perform the duties in governing and monitoring the Management to operate the business under social and environmental responsibilities for sustainable compliance with main objectives and goals.

The Company also gives precedence to development of people which are the important resources, by promoting working environment, fostering "TKS We can" corporate value to enable all employees to trust each other, are interested in learning, spiritual mind and do their best, the organization will be led to sustainable success

In innovation development: the product aspect, the study of research and development of new products is supported to satisfy the future increasing demand for increasing the business opportunity. In operation aspect, the information technology system has been developed and improved to be the supporting tool of the efficient work process, such as time reduction and cost reduction, etc.

Principle 6 Strengthen Effective Risk Management and Internal Control System

The Board of Directors has established the Audit Committee and Risk Management Sub-Committees to properly govern risk management system and internal control system for compliance with relevant laws and standards. The Internal Audit Department that is independent in performing duties is in charge as reported in Annual Report. The policies and matters have been determined as guideline of practice as follows.

Principle 7 Ensure Disclosure and Financial Integrity

The Board of Directors gives high precedence to disclosure of news information, and financial information and other information which are not financial information to people in general. The important information of the Company consists of financial information and non-financial information. In 2022, the financial information particularly in part of financial statements which were reviewed/audited by the auditor to be fairly proper in materiality in accordance with Generally Accepted Accounting Principles and passed the consent from the Audit Committee/the Board of Directors prior to disclosure to the shareholders, has been disclosed. The Board of Directors also reported the responsibility toward financial report in Annual Report and disclosed the detail of remuneration of the Board of Directors in topic of “Management Structure”.

The Company has disclosed non-financial information in accordance with the criteria prescribed by the SET and the Office of SEC, and interrelated transactions, analysis of the Management on website of the Stock Exchange of Thailand at www.set.or.th, website of the Office of Securities and Exchange Commission at www.sec.or.th in accordance with the criteria prescribed by the Stock Exchange of Thailand and the Office of Securities and Exchange Commission, and website of the Company at www.tks.co.th. The information is always updated so that the users can timely acquire news information, conveniently access, and gain maximum benefits. If there are doubts for interrogation, please contact Investor Relations and Corporate Communication Division at Tel. 02-784-5888 e-mail: investor@tko.co.th for equitable acquisition of data and information by the shareholders and stakeholders.

In addition, the Company also emphasizes on the relationship with the shareholders, general investors and analysts and therefore determines that the Company’s information shall be publicized to the investors consisting of both the shareholders and the persons who are interested to hold shareholders in the future. In 2023, the chief executives of the Company and Investor Relations Section provided data and notified the Company’s information to the mass media, shareholders, investors, and analysts of the securities as per the following summary.

1. Information presentation at listed companies meeting with investors (Opportunity Day) 2 times
2. Organize 1 online meetings with analysts and institutional investors
3. Conducted 2 online meetings with institutional analysts and investors.
4. Press Releases in case the company has significant investment or business activities.
5. Publication of news and analysis of the Company on the Company’s website at www.tks.co.th

Principle 8 Ensure Engagement and Communication with Shareholders

By recognizing the importance of the shareholders, the Company therefore has established a policy to ensure equitable and fair treatment among every shareholder in the Company’s Corporate Governance Policy. Basic rights of the shareholders include the right to buy, sell or transfer shares, the right to gain adequate, accurate, timely and regular news information of the business, the right to receive dividend payout, the right to attend meetings to exercise voting rights in the meeting for appointment or removal of director(s) including the appointment of the auditor. In addition, the shareholders must be adequately notified of meeting rules and procedures of meeting attendance, and information for consideration and must be allowed to participate in proposing additional meeting agenda, nominate directors and raise inquiries at the meeting, including authorizing proxy to attend the meeting on their behalf.

Shareholders’ Meeting

The Company requires the Annual General Meeting of Shareholders (AGM) to be held every year within the period of 120 (one hundred and twenty) days counting from the last date of the Company’s fiscal year. In case of urgency requiring for consideration on special agenda that may affect or involve in the interests of the shareholders and requires approval from the shareholders, the Board of Directors may call for an Extraordinary Meeting of Shareholders on case-by-case basis. In 2023, the Company held 2023 Annual General Meeting of Shareholders on 20 April 2023 at Mongkolsuthree Room, Synnex (Thailand) Public Company Limited. At the Annual General Meeting of Shareholders, the Company shall consider the legal rights of the shareholders, including the exercise of such rights, and non-violation or derogation of the rights of shareholders as follows:

• Before the Shareholders' Meeting Date

The Company's policy is to support and facilitate the shareholders in attending the Shareholders' Meeting, including supporting and facilitating institutional investors that are interested in investment with the Company in the future.

The Company shall prepare and deliver the meeting notice for the Annual General Meeting of Shareholders to the institutional shareholders, together with the details of meeting agenda, important and essential information for the shareholders' decision-making support, opinions of the Board of Directors, complete minutes of previous meeting, the Annual Report, proxy forms (Form A, B, and C) as determined by the Ministry of Commerce, specifying clear and complete proxy instruction, meeting venue, date, time and location map. The meeting notice must indicate details of relevant documents which must be presented by the shareholders on the date of the meeting as protection of their rights to attend the meeting. The meeting notice shall be delivered to the shareholders at least 14 (fourteen) days in advance before the meeting date to ensure that the shareholders have received adequate, accurate and transparent information for decision-making in resolution. The Company shall also announce meeting notice through Thai newspaper for 3 (three) consecutive days and at least 3 (three) days in advance before the meeting date. In addition, the shareholders can access to view the information in relation to details of meeting agenda of each meeting via the Company's website as it will be publicized in advance before the meeting date by at least 30 (thirty) days to notify the shareholders of the Annual General Meeting of Shareholders and allow them sufficient time to prepare themselves before receiving meeting documents.

In 2023, the Company published the invitation letter of the 2023 Annual General Meeting of Shareholders in Thai and English on the Company's website on March 17, 2023, including disseminating it on the website 33 days in advance and sending it by post on March 29, 2023. Including sending the meeting invitation letter 22 days in advance

For Annual General Meeting of Shareholders, the Company allows the shareholders the opportunity to propose additional meeting agenda items and nominations for the election of the Company's directors starting from 1 October 2023 to 31 December 2023. In case of additional meeting agenda items, the Company shall notify the shareholders. In case of urgency, the Company shall submit the meeting notice to the shareholders by at least 14 days in advance before the meeting date to protect the rights or interest of the Company, including disseminating the supporting information of the agenda of the Shareholders' Meeting in advance on SET website and the Company's website before delivery of the said documents.

• Meeting Date of the Shareholders' Meeting

The company provides convenience to shareholders traveling to meetings by offering shuttle van services, with meeting points at the underground train parking building at the Thailand Cultural Center to the meeting venue. After the meeting, staff members are available to welcome and provide information for document verification and registration to ensure sufficient time for each shareholder. Additionally, technology (QR Code - QR Code scanner) is implemented to facilitate document verification for each shareholder attending the meeting and registration process, with a maximum waiting time not exceeding 20 minutes per person or per proxy form.

Including organizing a meeting venue with sufficient space to accommodate the shareholders who are residing in Bangkok or nearby provinces. Before starting each meeting, the Chairman must always explain all meeting rules, for instance, calling to order for meeting, voting and vote counting procedures for votes of the shareholders who must resolve in each agenda pursuant to Articles of Association of the Company, etc. In respect to vote counting, the Company shall count the number of shareholder votes of every agenda and clearly present the voting results of every agenda in the meeting room. The total number of votes for each agenda is clearly separated to protect the rights of shareholders.

In respect to vote counting, the Company shall notify at the Shareholders' Meeting to ask for a volunteer to check the number of votes at the General Meeting of Shareholders and Extraordinary Meetings of Shareholders, including disclosing the voting results to the meeting and record in the meeting minutes. During the meeting, the opportunity shall be given to the meeting attendees to be entitled to exercise their rights in protecting their own benefits by raising questions, expressing opinions, giving suggestions and casting a vote in the Shareholders' Meeting to exercise the right of mutual decision-making on key matters that may affect the Company, such as the appointment or removal of directors, nominations of the candidate for independent director position, approval of the auditor, dividend payout allocation, capital decrease or increase, determination or amendment of Article of Associations, Memorandum of Association and approval of special agenda, etc. The shareholders shall also be granted the right to attend the Shareholders' Meeting after the commencement of the meeting and shall be entitled to exercise voting rights or cast a vote on the agenda that has been under consideration and has not yet been resolved.

The Company shall also specify the stakeholding of the director in the meeting notice of the Shareholders' Meeting. In case where any director has interest or involvement in the agenda under consideration, the Chairman of the Meeting must notify the meeting attendees before considering such agenda and those directors having interest or involvement in such matter shall not be allowed to attend the meeting and vote on that agenda. In addition, the Chairman including the relevant directors and executives shall be responsible for attending the meeting to answer the shareholders' questions. During the meeting, the Chairman of the Meeting shall allow the shareholders to freely express their opinions, give suggestions or raise questions in any agenda before resolving on any agenda to ensure that the shareholders are notified of sufficient information and details regarding such matter. In case where the shareholders have any suspicions or questions on any agenda, the Company shall prepare a team of relevant personnel to answer the questions under the accountability of the Board of Directors. In the Shareholders' Meeting, the Chairman of the Meeting also asks the meeting to strictly consider meeting agenda in sequence stated in the meeting notice delivered to the shareholders in advance without making any changes of such agenda sequence, and no other matters apart from the ones stated in the meeting notice shall be raised for consideration.

- **After the Shareholders' Meeting**

The Company shall disclose the voting results of each agenda of the Shareholders' Meeting on the following day via Set Portal of the SET and on the Company's website, including preparing meeting minutes which shall be disclosed to the shareholders via Set Portal of the SET within 14 (fourteen) days after the meeting date as per the regulation of the Stock Exchange of Thailand. The Company shall ensure that full and proper details of meeting records consisting of meeting minutes, vote casting and questions raised by the shareholders during each agenda, are publicized on the Company's website.

The Company's policy is to disclose up-to-date information on the Company's website to ensure that the shareholders acknowledge the changing news information of the Company and information disclosed by the Company pursuant to the regulations after disclosure of such information to the SET. Such information shall be publicized on the Company's website both in Thai and English languages.

Corporate governance that has not yet complied with the principles of good corporate governance in other matters

Code of practice in any matter that the Company has not adopted or formulated as a policy since the principle is inconsistent with the context and business of the Company. At present, the Board of Directors will consider and review to develop and monitor for further action by the Company. will be used as a guideline for further appropriate use by the items that are not yet practiced include:

Non-Compliance Point	Reason (Alternative Measure)
Establishing a policy for continuous board membership tenure of no more than 9 years for independent directors and ensuring that the company does not have independent directors serving for more than 9 years.	The Board of Directors has considered that the Company's independent directors has continued to have full qualification and are capable to give independent opinions although they have been holding their positions for more than 9 years.
All members of the company's board of directors hold positions in no more than 5 registered companies, with the policy stating that there should be no exceptions.	Currently, there is only one board member who holds positions in more than 5 registered companies. However, the board of directors considers this member to be knowledgeable, experienced, and competent in performing their duties as a board member excellently. Additionally, they are able to dedicate sufficient time to the company.
The board should consider appointing a corporate governance committee with a composition of more than 50% independent directors, and the chairman of the corporate governance committee should be an independent director.	The chairman of the Corporate Governance, Supervisory and Sustainable Development Committee is an independent director, but the composition of independent directors is only 33.33%. The Corporate Governance, Supervisory and Sustainable Development Committee regularly reports its operational results to the board of directors every quarter.

Diversity Policy for the Board of Directors' Structure

The Board of Directors of the company sets the structure of the board to include directors with diverse qualifications, including various professional skills, diverse expertise, specialized abilities beneficial to the company, understanding of the company's business group, gender, age, and without ethnic restrictions. The company aims for the board to include at least one non-executive director with experience in the company's primary business or industry. The company targets to have at least two female directors on the board to align with diversity policies. However, due to the resignation of Mrs. Ladawan Charoen-rajapark, effective December 21, 2023, the company now has two female directors out of nine, or approximately 22.22%.

For more information on the Board Skill Matrix, please refer to the overview of the Corporate Governance Policy and Practices.

Independence of the Board of Directors from the Management

Separation of Duties, Roles and Responsibilities between the Chairman of the Board and CEO

The Board of Directors plays a vital role in corporate governance to ensure the best interests of the Company and overall shareholders. Thus, to ensure proper check and balance of the operation, the duties, roles, and responsibilities have therefore been separated between the Chairman of the Board and CEO to avoid both positions to be held by the same person. The Chairman of the Board shall be an independent director having the qualifications prescribed by law and the Company and having none of any relationships with the Management.

Balance of Director Power

The Company shall consist of non-executive directors by more than half of total number of directors and among such number, there shall be independent directors by at least 1/3 of total number of directors. In addition, no less than three directors fulfill the qualifications prescribed by law and by the Company and take part in corporate governance with independence and impartiality to ensure highest benefits of the shareholders and stakeholders of the Company.

Communication with management

Directors can directly access and communicate with the management and company secretary as appropriate. However, such access and communication must not interfere or interfere with the Company's normal business operations

Assumption of Directorship in Other Companies and Listed Companies

To ensure that the directors can perform their duties in efficient manner, the Company therefore set up a policy to limit the number of directors assuming directorship in other companies and listed companies by not more than five listed companies at the same time.

Any director assuming directorship or management position in other companies, he/she must notify the Company for acknowledgement since it is a stakeholders issue required for reporting as prescribed in "Disclosure of Information and Transparency".

Authorized Director

as of December 31, 2023

Mr. Supant Mongkolsuthree, Mr. Jutiphan Mongkolsuthree, Ms. Sutida Mongkolsuthree and Mr. Parkpoom Pooudom, Four out of two directors jointly sign their names and affix the company's official seal.

Information on subcommittees

Audit Committee

The Board of Directors has appointed the Audit Committee, which entirely consists of members who are independent directors, to be responsible for corporate governance. The Audit Committee shall hold a meeting once every three months and hold regular meetings with the Company's Auditor, and report to the Board of Directors. The members of the Audit Committee must not be less than three persons.

As of 31 December 2023, the Company's Audit Committee consists of 3 independent directors as follows:

Name	Position

Corporate Governance of Subsidiary, Joint Venture, and Associated Company

The Company continuously operates its business by giving precedence to good corporate governance policy. The written Good Corporate Governance Policy and Code of Business Ethics Manual have been prepared with the objective to be used in regulating the business operations of the Company, subsidiary, joint venture, and associated company. The Board of Directors has publicized the Good Corporate Governance Policy and Code of Business Ethics to be understood and observed by the directors, executives and employees at all levels. The Company believes that good corporate governance is the key to successfully achieving the Company's missions. CG Code is the control of business operations of the organization with accountability, transparency, verifiability, and ethical competitiveness. Moreover, the compliance with CG Code will minimize risks and strengthen the corporate competitiveness in the long run by focusing on highest benefits of the shareholders

In respect to nomination and exercise of voting rights for appointing directors in the subsidiary, or joint venture or associated company, it shall be carried out by the Management to nominate into the consideration of the Board of Directors, and/or the Shareholders' Meeting of the subsidiary, or joint venture or associate company. The appointed person to act as a director of the subsidiary or joint venture or associated company shall have a duty to execute for the best interest of the Company, the subsidiary, joint venture and associated company.

The Board of Directors and/or the authorized person of the Company shall be firstly informed or give consent in resolution or exercise of voting rights in the subsidiary or joint venture or associated company on key matters that significantly affect or will affect the Company. The delivery of the director to act as the representative of such subsidiary or joint venture or associated company shall be in line with the Company's shareholding proportion.

Moreover, in case of the subsidiary, joint venture and associated company, the Company has set up a rule requiring that the person appointed by the Company shall be responsible for ensuring the complete and proper regulation established by the subsidiary, joint venture and associated company in connected transactions, acquisition or disposition of assets, or any other key transactions of the Company. The same rules concerning disclosure of information and undertaking of the said transactions as that of the Company, including governing that data collection and bookkeeping of the subsidiary can be audited and gathered by the Company to prepare consolidated financial statements within the specified deadline.

Monitoring of compliance with the corporate governance policy and guidelines

The Company attaches great importance to corporate governance. In the past year, the Board of Directors, The Corporate Governance Manual has been reviewed to be up-to-date and consistent with business operations. to encourage real practice, it also creates long-term value and builds confidence with all groups of stakeholders and has been followed up to ensure compliance with important corporate governance policies and practices.

In addition, the Company has followed up to ensure compliance with 4 other good corporate governance issues as follows:

1. Prevention of conflict of interest

T.K.S. Technologies Public Company Limited (TKS) aims to properly perform anything with intention to always yield the excellent results. Thus, the maximum benefit of TKS shall be adhered in the employee's work performance under the legal and ethical uprightness by avoiding the act that causes the conflict of interest possibly affecting any decision-making. However, the Company has prepared the policy relating to the conflict of interest in the Corporate Governance Manual of the Company with the following practical guidelines.

- Connected Transactions
 - The Company shall carefully consider their appropriateness before entering all connected transactions and determine the price and conditions of the connected transactions like entering the transactions with the third parties.
 - In the case where the Company or its subsidiaries enter the connected transactions that are the transactions as determined in the Notification of the Board of Governors of the Stock Exchange of Thailand, and the Office of the Securities and Exchange Commission (Office of the SEC) regarding the disclosure of information and

the operations of the listed companies in the connected transactions. The Board of Directors shall strictly supervise to ensure the execution according to the rules, conditions, and procedures of the said Notification.

- Directors and executives with related interests are prohibited to participate in considering the approval. In the case where the connected transactions are entered, the Audit Committee shall participate in consideration and advice pursuant to the Corporate Governance Code, and the rules of the Stock Exchange of Thailand.
- The investment in the business of which the Board of Directors or the executives have the related interest shall be approved by the Board of Directors' Meeting, where the said directors or executives shall not participate in the approval consideration to prevent the conflict of interest.
- Situations that cause the conflict of interest

The Company establishes a policy for preventing not to cause the problem of conflict of interest in other situations other than the following connected transactions.

- General investment. The Company shall not allow its personnel who is the shareholder or gains the interest from the competitor or trade partner business with which the Company contacts the business, to participate in making decision on the matters relating to the business relationship with the said entity, unless upon approval of the Chief Executive Officer. The purchase of the listed companies' shares in the Stock Exchange or the investment through the Mutual Fund or investment units, shall not be considered as a conflict of interest, unless it has a bad effect on working with the Company.
- Receipt of gift. The personnel at all levels should not receive gifts, tickets, sports ticket, offers for recreation, entertainment accommodation, or offers for personal provision. If the said act brings about making a commitment to the Company or making the Company lose interest.
- Charitable contributions of money or property. The public charitable contributions of money or property includes the requirement as the supporter to have the intention notice or the requesting notice for the subsidy donation or issue the receipt or gratitude letter.
- Business and procurement relationships. The Company prohibits not to give or receive bribes in the business operations, and all types of procurements according to the rules relating to the procurement and the policy of service usage from the third parties and contact the Company's works, and to be taken place with transparency, integrity, and accountability under the related laws and set of regulations of business operations.
- Taking academic works, public service works as lecturer or assumption of any position. The personnel at all levels of the Company can request for approval from the Chief Executive Officer to take the works in the academic institution, public service work as lecturer, or assumption of any positions, for instance, the director of the company or consultant, that will help extending the visions and experiences for the personnel, but must not take the Company or one's position in the Company to be involved with the activities externally performed, unless upon approval to do so.

The Company also determines that in case there are transactions causing conflict of interest with the Company, the superior shall be immediately reported for acknowledgement. In 2023, the Company has already amended the practical guidelines and publicized the amended Code of Conduct Handbook on the Website.

In 2023, the Company did not find any conflicts of interest between directors, executives, and employees of the Company to enter connected transactions that could lead to conflicts of interest.

2. Insider Trading for Exploitation

The Company establishes the policy relating to the insider trading in the Corporate Governance Handbook and sets up the supervision procedure for the executive's usage of the Company's insider information for personal and securities trading benefit. The following is the summary of the crucial policies.

- The Company has the policy and adheres to ethics, integrity, and sincerity in operating the business with the customers, trade partners, and shareholders, and establishes clear policies and code of conduct. In the

case where the employees or executives disclose the information of the Company or use it for personal purposes or enter the transactions that may be in conflict of interest, it shall be deemed a serious offence and may be disciplinarily punished.

- The Company has given the notice to its directors and executives about their duty to report the securities holding of their own, their spouse and underage children who hold the Company's securities, and are informed about the preparation of the report of changes in securities holding upon every purchase, sale, or transfer or transfer acceptance of the securities within 3 (three) working days after the purchase, sale, transfer, or transfer acceptance date of the securities as required by the Office of the Securities and Exchange Commission. However, the directors and executives shall deliver the copy of above report to the Company Secretary on the same date as the date of reporting to the Office of the SEC to gather for proposing to the Board of Directors' Meeting every time, and it is determined to be the meeting agenda for acknowledgement on the securities holding report.
- The Company determines that the directors and executives shall submit the stakeholding report of their own or of the related parties for the gain and loss relating to the business management of the Company and its subsidiaries or associated companies. The directors and executives shall submit the first report within 30 (thirty) days after they are appointed as the directors or executives in the specified report form and report every time of change within 30 (thirty) days after the change in the specified report form. The said report shall be stored at the Company Secretary, and the Company Secretary shall deliver the copy to the Chairman of the Board and the Chairman of the Audit Committee according to the regulations of the Office of the SEC.

However, the Company also establishes the policy for preventing the misuse of the Company's insider information by formulating the measures of prohibition not to take the opportunity or use the information acquired from the directors, top executives, or employees for exploitation or doing the business that is competitive with the Company or the relevant business, as well as not to use the insider information for personal benefit in trading the Company's securities or provide the insider information to other person for benefit in trading the Company's securities, and avoid or suspend the trading of the Company's securities in 1 (one) month period before publicizing the financial statements or key information that affects the price of the Company's securities (except the purchase of shares pursuant to the Employee Joint Investment Program (EJIP). However, the directors and executives shall report their securities holding to the Board of Directors' Meeting for acknowledgement pursuant to Section 59 of the Securities and Exchange Act B.E. 2535 (1992) together with the report within 3 (three) working days to the Office of the SEC for acknowledgement and further dissemination to the public. In addition, the directors or top executives shall report the stakeholding to the Board of Directors' Meeting for acknowledgement. However, the said policy has already been approved by the Board of Directors.

In the past year 2023, the Company has not had any incidents where directors, executives, employees, and related persons have violated the measures to prevent the use of insider information or trade securities using inside information.

3. Anti-corruption and the guideline for disclosing the information relating to the performance of anti-corruption

T.K.S. Technologies Public Company Limited ("TKS") has expressed its intention to participate in the Thai Private Sector Collective Action Against Corruption (CAC) Project on 12 June 2019 and certified as the member of the Project on 30 June 2020. However, the Company has also expressed its intention that the employees at all levels shall be aware of the importance that the successful business operations of the Company in the stable and sustainable manners depend on the trust of customers, shareholders, stakeholders of all parties, and public, on the Company that operates with integrity, honesty, transparency, and fairness.

In 2023, the Board of Directors resolved to approve the review of the Anti-Corruption Policy as a guideline for anti-corruption. So that directors, executives, and employees of the company strictly comply with such measures. This is to prevent doubts about the integrity of the company with the expectation that the directors, executives, and all employees will jointly monitor in case of doubt. Or found inappropriate behavior and against the anti-corruption policy and good ethics of the company. The company will listen to all complaints equally, transparently, attentively, and fairly to all parties.

Furthermore, the company has been granted its first membership renewal, which is valid for three years (2023-2026). This certification reflects the ethical conduct in conducting business operations, emphasizing responsibility towards society and stakeholders according to the principles of good corporate governance. The company operates with competitive business strategies that are fair, transparent, and uphold the importance of product and service quality.

The Company has requested the Board of Directors' Meeting to have the agenda for considering and approving the yearly review of anti-corruption policy. The said policy has the following practical guidelines.

- It covers the personnel management process from recruitment or selection of personnel, promotion, training, employee performance evaluation, and provision of reward, without action or involvement with all forms of corruptions both directly and indirectly for the personal or the Company or his/her related party, for instance, friend, family, acquaintance, etc., by assigning the superior at all levels to communicate with the employees for understanding in order to be used in the business activities under their responsibilities and control and supervision on the efficient practices.
- The practices prescribed in the Business Ethics Handbook and Code of Business Conduct Handbook of the Company, the treatment policies, and guidelines for all groups of stakeholders, including the related rules and work manuals of the Company, as well as other practical guidelines that will be further prescribed by the Company, shall be applied for any actions pursuant to the anti-corruption policy.
- For the clarity of action on the matter with high-risk occurrence of corruption, the directors, executives, and employees at all levels shall carefully perform in the following matters.
- Not receive or give gift, present in cash, cheque, bond, share, gold, precious stone, jewel, immovable property, or similar articles, or other benefits, for instance, entertainment, facilitation of accommodation and vehicle, etc., from or to the related parties with whom they contact and coordinate whether in the government agencies, private agencies, trade partners, and trade competitors, to induce to omit to perform their own duties. However, the expenses for giving, granting, or receiving presents and entertainment shall be in line with the requirements in the Company's business ethics and practical policies. The article, gift or other benefits given to one another on the job should not be high in price and suitable for each occasion.
- However, before receiving souvenir, the verification should be carried out to ensure the proper compliance with laws and Articles of Association of the Company, where the article or gift given to one another on job should not be high in price and suitable for each occasion. In giving the article or gift on different occasions or times, the value shall not be high until beyond the business regularity and status.
- The payment and receipt of money concerning the gift expense, hospitality service charge, and other expenses, and other spending relating to the compliance with the business contracts can be performed in the name of the Company only and shall be reasonably and properly taken place as prescribed by the Company's rules in the occasion or in the international season and can be verifiable.
- The directors, executives, and employees can receive gifts with value of not more than 3,000 Baht, unless in case where they are unable to deny and must receive the gifts with value of more than 3,000 Baht from the trade partner, they shall give a notice to their superior and the working group for acknowledgement, and send the said gifts to the Secretary Office, in order to be further used as prizes and/or charitable contributions as appropriate.
- Use of donation or property of the Company for charity shall be performed in the name of the Company only, and subject to the execution of the Secretary Office. The contributions or provisions of grant-in-aid shall be considered based on the approval power in each hierarchy of the authorized persons defined by the Company. The charitable contributions shall be the contributions for the foundation, organization, charitable places, for instance, monastery, hospital, school, university, clinic, or social profit organization, which have certificate or are reliable, and verifiable. In addition, donation or grant-in-aid shall be transparently and legally received, where it must be confident of not using as excuse of bribery.
- The charitable contributions in the personal name can be performed but must not be involved or cause doubt that the said contributions are corruptive for expectation of any interests.

- The use of money or property of the Company to support the project shall be specified in the name of the Company only. The purpose of the paid grant-in-aid shall be for the business, good image, and reputation of the Company. However, the clear, evidential, and verifiable purposes shall be specified in disbursement, and the disbursement shall be carried out through the procedure pursuant to the Company's rules.
- Not being the intermediary of offering money, property, article, or any other benefit with the person who is related to the business, government agency or any organization to exchange with the non-justified privilege or make the government officer omit to comply with the prescribed legal ordinances, rules and regulations, and practices.
- Not performing any acts relating to the politics within the Company and not using any resources of the Company for the said actions. However, the Company is an organization that adheres to the political neutrality, supports the compliance with laws and democracy, and not having any guideline for political assistance to any political parties either directly or indirectly. However, the Company's directors, executives, and employees are entitled to be involved with the political activities under the legislation pursuant to the constitution, related laws and set of regulations.
- The procurement shall be transparently and verifiably carried out through the procedures pursuant to the Company's rules.
- According to the business relationship and procurement with the government sector, bribe giving or receiving is prohibited in all types of business operations. The Company's operation and work contact with the government sector shall be taken place with transparency and integrity and carried out according to the related laws.
- If witnessing the act that is within the scope of corruption or implies the corruption with the effect relating to the Company both directly or indirectly, the witness shall not neglect or ignore the said behavior and should immediately inform the Chief Executive Officer for acknowledgement or inform via the whistleblowing channel as defined in this policy.
- The employee should not neglect or ignore when seeing the act within the scope of corruption relating to the Company and shall inform his/her superior or the person in charge for acknowledgement and collaborate in investigation. If there is any doubt or query, the employee shall consult with his/her superior or the person assigned to perform the duty and responsibility of monitoring the practice on anti-corruption via the defined channels.
- The person who violates laws, ordinances, rules, and policies, including other practices of the Company shall be disciplinarily and/or legally punished by considering from his/her intention, environment, offence effect. The Company has a policy not to demote and punish the employee or give a negative effect to the employee who refuses the corruption, even though the said act will cause the loss of business opportunity. The Company has the clear communication process via various channels, for instance, orientation courses for new directors and employees, seminars, training, intranet, etc. The directors and executives shall be aware of the importance of dissemination, knowledge, and counsel provision, to create the superior's understanding on anti-corruption so that the employees shall perform according to the anti-corruption policy of the Company and shall be the good model in the matter of having integrity, ethics, and code of conduct.

The Company's anti-corruption policy also determines that the Chief Executive Officer shall consider receiving the whistleblowing issues, complaints, and act that may be suspicious to be corruption directly or indirectly occurred with the Company.

The Company defines the contact and complaint channels as follows.

- Inform via e-mail channel at feedback@tks.co.th, where this e-mail is directly sent to the Chief Executive Officer, the Chairman of the Audit Committee, and the Chairman of the Corporate Governance Committee, and the VP – Internal Audit
- Inform via the Company's website channel at www.tks.co.th (Topic: Whistleblowing)

- Inform via the channel at Tel. 0-2784-5888; or
- Inform via the channel of Suggestion Box (Red Box)

In 2023, the Company has acted against corruption by sending E-mail to communicate to employees about the risks that may cause corruption, including preventive measures such as refraining from receiving gifts during the festive season. However, the Company did not find or receive any clues about corruption.

4. Whistleblowing

The Company attaches great importance to anti-corruption in all forms by raising awareness among its personnel in an integrated manner. It is a part of sustainable management and enhances the benefits of all stakeholders and stakeholders. Therefore, the objective is to set up a whistleblowing system for business administration actions that are not in accordance with the good corporate governance by persons outside the Company and those within the Company for those who report the whistleblowing which is an act that is beneficial to the Company. To be protected and protected from harassment and for employees within the company from being obstructed in their advancement in their legitimate work.

In the past 2023, the Company has not received any complaints about fraud or unethical actions. or in the case of the company's negative reputation due to the management of the Board of Directors including there is no case where the non-executive director resigns due to the wrongful corporate governance of the Company as well as no legal disputes in terms of labor consumer rights and any business operations.

In this regard, the Company has implemented guidelines for good corporate governance in all 4 areas, namely prevention of conflicts of interest, use of insider information to seek benefits, anti-corruption, and whistleblowing and protection measures. Which is disclosed in the Company's Corporate Governance Handbook which can be studied further on the Company's website.

T.K.S. GROUP ZERO CORRUPTION

"SPY, BE SUSPICIOUS, SEND NEWS"

ANTI-CORRUPTION TRAINING AND ACTIVITIES FOR EMPLOYEES

Report on performance of the Audit Committee for the past year

Number of meetings and meeting attendance of individual members of the Audit Committee

In 2023, there were 5 meetings of the Audit Committee as per the following details:

No	Meeting Date	Mr. Prasert Bunsumpun	Mr. Prapas Kong-led	Mrs.Ladawan Charoen-rajapark	Mr. Areepong Bhoocha-oom

2	May 11, 2023	Audit Committee	-	Audit Committee	Chairman of the Audit Committee
3	August 7, 2023	Chairman of the Audit Committee	Audit Committee	Audit Committee	Resigned
4	November 6, 2023	Chairman of the Audit Committee	Audit Committee	Audit Committee	Resigned
5 (extra)	December 18, 2023	Chairman of the Audit Committee	Audit Committee	Audit Committee	Resigned
Total		5/5	3/3	5/5	2/2

In 2023, the Audit Committee held a total of 5 meetings in which the Audit Committee acted on behalf of the Board of Directors in overseeing the Company's operations and providing independent and honest opinions on financial reports, internal control system, internal audit system, selection of independent auditors, consideration of conflicts of interest, and compliance with relevant laws and regulations. by specifying components, scope, authority, responsibility, and meeting requirements for the Audit Committee to perform their duties effectively as assigned by the Board of Directors.

In the 2023 Audit Committee Meeting, the Audit Committee performed the following important duties:

- Supervising the internal auditor's work and providing recommendations for various audits to ensure efficiency and effectiveness according to international standards and aligned with the organization's strategies and directions. The Audit Committee annually approves the internal audit plan and reviews the appropriateness of the internal audit department's organizational structure.
- Examining the adequacy of the internal control system according to the criteria of the Securities and Exchange Commission and the Stock Exchange of Thailand (SET).
- Reviewing the quarterly financial statements and the fiscal year 2023 financial statements with management and the auditor to ensure the accuracy and completeness of the company's financial reports, as well as adequate and comprehensive disclosure of information.
- Overseeing the disclosure of related party transactions among the company, subsidiaries, and affiliated companies to ensure compliance with business conditions and criteria set by the Stock Exchange of Thailand.
- Overseeing the process of notification and whistleblowing in cases where employees and stakeholders suspect or observe actions that may violate laws, regulations, ethical standards, or corporate governance policies, including investigating and summarizing the results of any corporate fraud investigations to establish internal preventive measures.

The Audit Committee held 5 meetings, including 1 meeting without management participation, jointly with the auditor to discuss the annual financial audit plan and provide the auditor an opportunity to report significant findings regarding the company's financial audit.

INTERNAL CONTROL AND RELATED PARTY TRANSACTIONS

Internal Control

The Board of Directors and the Audit Committee continually place importance on the internal control system by emphasizing on having an internal control system that is sufficient and suitable for business operations. There is also an internal audit unit responsible for inspecting and reviewing the operations of various departments of the Company and reporting directly to the Audit Committee to ensure efficient business operations.

In the past year, the adequacy of the internal control system has been assessed using the assessment form of the Office of the Securities and Exchange Commission (SEC). The internal control assessment form consists of 5 aspects as follows:

Control Environment

The Board of Directors approves and supervises the business operation goals proposed by the management annually, as well as establishing an efficient committee structure and reporting to ensure proper internal control and appropriate corruption prevention. Including setting business goals and Key Performance Indicators (KPIs) for use in evaluating operational efficiency in line with organizational goals, organizational goals are conveyed to the line and department levels, A good working environment is created to encourage personnel at all levels in the organization to have a positive attitude towards the organization by fostering a corporate culture that values honesty and ethics.

Risk Assessment

The company has given importance to risk management that may affect the business that may not achieve the objectives or goals set. The Board of Directors has appointed the Risk Management Committee, which consists of company directors and top executives, with duties and responsibilities in risk assessment covering strategic risks, operational risks, compliance and financial risks, including emerging and sustainability risks. The Board of Directors regularly oversees and monitors the Company's risk management process, whereby the Risk Management Committee reports the risk assessment results to the Board of Directors on a quarterly basis for acknowledgment. Details of risk management appear in the topic of "Risk Management".

Control Activities

The company has written internal control measures, both Manual Controls and Automated Controls, covering various processes appropriately, establishing policies and procedures that clearly define the scope of authority, responsibility, and approval. A manual for every step of the operation has been prepared and reviewed periodically to ensure that the internal control measures and approval authority are still effective in preventing corruption.

Information & Communication

The Company places great importance on information and communication systems by promoting and supporting its continuous development. so that information is accurate and up to date. It has introduced a modern and efficient information technology system, including measures for data security, data hierarchy, as well as systematically storing important data or documents. To ensure that the operation and use of important information for the management of executives or stakeholders is complete, accurate, adequate, appropriate, reliable, and timely.

Monitoring Activities

The Company has continuously monitored and evaluated the internal control and performance results by the Board of Directors assigning the Audit Committee to review the internal control system and having an internal audit unit to assess the sufficiency of the control system. Internal audit plan approved by the audit committee to provide suggestions for developing the internal control system to be more effective. However, if internal control deficiencies are found, the company has taken steps to follow up and correct the results so that the operating results meet the targets.

During the said assessment, the Board of Directors had a question from the management to review the existence of the internal control system that the management had prepared the assessment form. The Board of Directors is of the opinion that the internal control system of the Company and its subsidiaries is sufficient and appropriate. The Company has provided personnel appropriate and sufficient to implement the system efficiently and effectively.

Considering the appointment, transfer, dismissal of the head of the internal audit department or any other department responsible for internal auditing must be approved by the Audit Committee first every time. The Audit Committee has appointed Miss. Walaiporn Saengrungroratsamee, Internal Audit Manager since November 6, 2023, because he is experienced and knowledgeable in the practice of internal auditing, as well as understanding the company's operating activities are therefore deemed appropriate to perform such duties.

Related Transactions

In the year 2022, the company has related transactions with related persons as disclosed in the notes to the financial statements. For the year ended December 31, 2023, the Audit Committee has reviewed and opined that such connected transactions were reasonable. It is in normal trade. And the price was set comparable to the market price in that business, which can be summarized as follows:

Relationship Nature of transaction	Business name	Type of transaction	Value (million baht)	
			2023	2022
Subsidiary Company	Gofive Co., Ltd.	Sell products	12.67	16.32
	Thai British DPost Co., Ltd.	Management fee income	43.20	24.00
	T.K.S. Siampress Management Co., Ltd.	Rental income	12.00	13.58
	Plus Tech Innovation PCL, (Formerly TBSP PCL. (Ended 20 September 2021))	Buy products	24.23	88.10
		Rental and service	8.6	8.68

Interest expense	The rate agreed upon in the contract is based on the bank's interest rate
Other expenses	Price agreed upon by the contract

Measures or procedures for approving related transactions

The CEO has been authorized by the company's board to approve the conduct of business operations within the group under normal business practices and general trading conditions. This must be following securities laws and regulations, announcements, orders, or regulations of the Stock Exchange of Thailand, including compliance with reporting standards set by the Professional Accountants Council.

Furthermore, the delegation of authority to the management committee must comply with the company's laws, regulations, and regulations, and in cases where any action may have beneficial or adverse effects on the management committee or persons who may have conflicts of interest, the management committee shall not have the authority to approve such actions. The management committee must present these matters to the company's board for further consideration.

In addition, in cases where transactions are related or involve the acquisition or disposal of significant assets of the company, subsidiaries, joint ventures, or associated companies, such transactions must be considered by the audit committee and proposed to the company's board for approval or submission to the shareholders' meeting for approval and/or any other actions as per the criteria and methods stipulated by the Stock Exchange of Thailand to comply with its requirements on these matters.

Policy or trends in related transactions in the future

The company will continue to trade and provide services between each other with its related parties in the future. As such transactions are part of the company's normal business operations. And is a support for the normal business of the subsidiary. The pricing will be based on the cost price plus marginal profit comparable to the market price. It has been a key for any transaction with a person who may have a conflict of interest which is a director, executive or a person with a stake with directors or executives, the company will strictly follow the rules and procedures in approving related transactions.

REPORT OF THE AUDIT COMMITTEE

Dear Shareholders,

The Audit Committee of T.K.S. Technology Public Company Limited, a listed company, consists of qualified and experienced members in accordance with the requirements of the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET). The committee members, who operate independently, are comprised of:

Name	Position
1. Mr. Prasert Bunsumpun	Chairman of the Audit Committee
2. Mr. Areepong Bhoocha-oom	Audit Committee Member
3. Mr. Prapas Kong-led	Audit Committee Member

Note: Mr. Prasert Bunsumpun was appointed as the Chairman of the Audit Committee on May 12, 2023, replacing Mr. Areepong Bhoocha-oom. Subsequently, Mr. Areepong Bhoocha-oom resumed his position as an Audit Committee Member, replacing Mrs. Ladawan Charoen-rajapark, effective December 21, 2023.

The Audit Committee has diligently fulfilled its duties and responsibilities assigned by the company's charter, focusing on ensuring compliance with good corporate governance principles, including legal compliance, regulations, and continuous monitoring to achieve the set objectives. In the year 2023, the Audit Committee held 5 meetings, with full attendance of all members, along with participation from management, internal auditors, and external auditors when relevant. The key outcomes of these meetings are summarized as follows:

1. Financial Reporting Review

The Audit Committee reviewed the quarterly and annual financial reports of the Company and its subsidiaries prepared in accordance with Thai financial reporting standards. Meetings were conducted jointly with the auditors and financial management to assess the accuracy, completeness, and reliability of financial reports, adequacy of financial disclosure, appropriateness of accounting policies, and specific matters arising from the audit (Key Audit Matters). The auditors confirmed their ability to carry out their duties independently without any constraints and provided an unqualified opinion on the Company's financial statements for the year 2023.

2. Internal Control System Evaluation

The Audit Committee examined the adequacy of the internal control system based on an assessment conducted by the internal audit department, following the SEC's internal control assessment framework. It was found that the Company has a well-structured organizational framework, policies for good corporate governance, and guidelines for compliance. Business plans or investment policies were established, and measures and mechanisms for close monitoring were in place. The Audit Committee concluded that the Company's internal control system is appropriate, efficient, and effective in supporting its business operations, with no significant issues or deficiencies that could impact the Company's objectives. Additionally, management continuously improved and rectified issues based on the recommendations of the Audit Committee, internal auditors, and internal audit department.

3. Interrelated Transactions Review

The Audit Committee reviewed the appropriateness of interrelated transactions or transactions that may involve conflicts of interest, ensuring accurate and sufficient disclosure of information in compliance with the regulations of the SEC and SET. The aim was to ensure that transactions complied with regulations, business ethics, were reason-

able, fair, and did not result in undue benefits. Comprehensive and accurate information disclosure was provided within the specified timeframe, adhering to the principles of good corporate governance and relevant regulations and announcements of the SEC and SET.

4. Internal Audit Oversight

The Audit Committee has overseen the internal audit function, ensuring coverage of work scopes, duties, responsibilities, independence in operations, and staffing levels. This includes reviewing and approving the annual internal audit plan, developing quality improvement plans for internal audit, and enhancing the knowledge, skills, and competencies of internal audit personnel. The Committee found the internal audit function of the Company to be independent, efficient, and satisfactory.

5. Selection and Appointment of External Auditors

The Audit Committee has evaluated and selected external auditors based on their performance, independence, qualifications, skills, experience in auditing business, results of quality control system audits conducted by the affiliated accounting office, and the Company's financial audit results for the past year. The Committee recommended to the Board of Directors to propose the appointment of KPMG Phumchai Limited as the Company's external auditor for the fiscal year 2023. The nominated auditor is a securities auditor approved by the Securities and Exchange Commission and is in compliance with relevant regulations.

6. Compliance Oversight

The Audit Committee has examined and monitored the Company's operations to ensure compliance with regulations, rules, and regulations of the Securities and Exchange Commission and the Stock Exchange of Thailand, as well as other laws or regulations related to the Company's business operations. This ensures that the Company has fully complied with the aforementioned standards.

7. Whistleblowing Oversight

The Audit Committee has overseen the process for receiving disclosures and complaints when employees and stakeholders have doubts or suspect wrongdoing, non-compliance with laws, regulations, codes of conduct, or ethical policies, ensuring confidence that the Company has an independent investigation process and appropriate follow-up measures, including internal prevention measures.

In summary, the Audit Committee has diligently fulfilled its duties and responsibilities as mandated by its charter, utilizing its knowledge and expertise independently and providing straightforward opinions for the utmost benefit of the Company. The committee has reviewed its charter annually to ensure its appropriateness, coverage of requirements, and relevant criteria, thereby ensuring confidence in the effectiveness and efficiency of its duties in the year 2023, achieving the objectives assigned by the Board of Directors.

(Mr. Prasert Bunsumpun)

Chairman of the Audit Committee

REPORT OF THE NOMINATION AND REMUNERATION

Dear Shareholders,

The Board of Directors of T.K.S. Technologies Public Company Limited resolved to appoint the Nomination and Remuneration Committee as part of the good corporate governance system. The Nomination and Remuneration Committee consists of at least three Company Directors and at least one Person must be an independent director and the chairman of the Nomination and Remuneration Committee should be an independent director. To assist as the core in driving the performance of duties of the Nomination and Remuneration Committee independently, with the following list of committees:

Name	Position	Number of Meetings
1. Mr.Prapas Kong-led	Chairman of Nomination and Remuneration Committee (independent director)	2/2
2. Mr.Supant Mongkolsuthree	Nomination and Remuneration Committee Member	-
3. Miss.Sutida Mongkolsuthree	Nomination and Remuneration Committee Member	4/4

Note:

1. Mr. Prapas Kong-led assumed the position of the Selection Committee Member, replacing Mr. Areepong Bhoocha-oom, effective from May 12, 2023, and subsequently assumed the position of the Chairman of the Selection Committee, replacing Mrs. Ladawan Charoen-rajapark, effective from December 21, 2023.

3. Mr. Supant Mongkolsuthree assumed the position of the Selection Committee Member, replacing Mrs. Ladawan Charoen-rajapark, effective from December 21, 2023.

In performing its duties for the year 2023, the Nomination and Remuneration Committee held 4 meetings to monitor the operations and perform their duties as specified and report the meeting results to the Board of Directors on a quarterly basis. Which has important points that may be summarized as follows.

1. To consider the performance appraisal for the year 2023 of the Chief Executive Officer to present to the Board of Directors for approval.

2. Consider reviewing the charter for the year 2023 without any changes. and presented to the Board of Directors for approval.

3. Encourage the company to give minority shareholders the opportunity to nominate a person to be nominated as the company's director. Before the Annual General Meeting of Shareholders for the year 2023 and for the year 2023.

4. Consider and propose the determination of remuneration for company directors in 2023 by considering the operating results and business size of the company, including companies in the same industry, together with the responsibilities of the Board of Directors to present to the Board of Directors. consider the edge before proposing to the 2023 Annual General Meeting of Shareholders for approval.

5. Consider recruiting qualified persons to serve as directors in place of those who retire by rotation to propose to the Board of Directors for approval before proposing to the 2023 Annual General Meeting of Shareholders for consideration and appointment as replacement directors.

6. Consider nominating directors to serve as sub-committees by considering the composition of sub-committees in terms of qualifications, knowledge, and expertise suitable for performing duties in sub-committees to propose to the Board of Directors for appointment.

7. Consider recruiting qualified persons to serve as directors in replacement of those who resigned during the interim period and increase the number of directors to propose to the Board of Directors for consideration and appointment as replacements for those who resigned.

(Mr.Prapas Kong-led)

Chairman of the Nomination and Remuneration Committee

REPORT OF THE CORPORATE GOVERNANCE AND SUSTAINABILITY COMMITTEE

Dear Shareholders,

The Corporate Governance and Sustainability Committee is part of our commitment to good corporate governance. The committee has been monitoring and providing recommendations on corporate governance and sustainability practices to enhance the company's long-term growth and value creation for shareholders. This includes overseeing and promoting sustainable development initiatives within the company and its subsidiaries. The committee aims to elevate corporate governance standards and support sustainable development efforts appropriately, transparently, and in line with Environmental, Social, and Governance (ESG) principles, as well as to establish a strong foundation for combating corporate corruption. The Corporate Governance and Sustainable Development Committee consists of 3 members, as follows:

Name	Position	Number of Meetings
1. Mrs Saowanee Kamolbutr	Chairman of the Corporate Governance and Sustainability Committee (Independent Director)	4/4
2. Mr.Jutiphan Mongkolsuthree	Corporate Governance and Sustainability Committee Membe	3/4
3. Mr.Parkpoom Pooudom	Corporate Governance and Sustainability Committee Membe	4/4

In the performance of its duties for the year 2023, the Corporate Governance and Sustainability Committee held 4 meetings to monitor operations and fulfill its designated responsibilities. The committee also reported meeting outcomes to the Board of Directors regularly each quarter. Key highlights from these meetings include:

1. Monitor and review efforts to support shareholder participation and communication to ensure alignment with policies aimed at enabling shareholders to oversee business operations and provide feedback on business conduct. This includes adherence to principles of good corporate governance regarding shareholder rights.

2. Monitor and review performance outcomes in line with the Thai private sector's collaborative efforts against corruption, and communicate the results of these efforts, such as communicating the cessation of gift-giving during all festivities, disseminating the No Gift Policy banner, and distributing to company partners to demonstrate commitment to adhering to the Thai private sector's collective action against corruption (CAC).

3. Report on complaints and reports of corruption received in the year 2566. In 2566, the company did not receive any complaints regarding corruption or cases of business ethics violations.

4. Monitor and provide guidance for participation in various sustainability project assessments in 2566, such as the Thailand Sustainability Investment (THSI) assessment project, the CSR-DIW project, the Corporate Governance Rating (CGR) survey, re-certification in the Thai private sector's collective action against corruption (CAC) project, and the Outstanding Corporate Governance Disclosure project.

5. Review and adjust corporate governance practices of the company to be suitable for business operations and align with global standards. Provide recommendations to the board of directors for continuous improvement.

6. Review and amend the charter of the corporate governance and sustainability committee.

7. Evaluate the performance of the corporate governance and sustainability committee annually, including an overall assessment of the committee's performance and individual self-assessment, to facilitate development and improvement.

These achievements, driven by dedication and commitment to good corporate governance practices, have resulted in the company receiving an Excellent CG Scoring of 5 stars in the Corporate Governance Rating (CGR) for the year 2023, consecutively for the second year, and remaining in the Top Quartile for the second consecutive year in the CGR survey for 2023 conducted by the Association for the Promotion of the Status of Institutions. Additionally, the company has been recognized for sustainable development, such as receiving an A rating in the SET ESG Ratings for the year 2023 for the second consecutive year (formerly known as THSI Sustainability Shares), reflecting the importance placed on sustainable business practices.

These successes demonstrate the company's commitment to corporate governance standards alongside social responsibility and sustainable management, driven by the company, management, and employees. Therefore, the corporate governance and sustainability committee is confident that the company can grow sustainably, gain trust, create benefits for stakeholders, and be globally recognized.

(Mrs Saowanee Kamolbutr)
Chairman of the Corporate Governance
and Sustainability Committee

REPORT OF THE RISK MANAGEMENT COMMITTEE

Dear Shareholders,

The Risk Management Committee of T.K.S. Technology Public Company Limited has fulfilled its duties in accordance with the charter of the Risk Management Committee approved by the Board of Directors to ensure that the company conducts risk assessment and establishes appropriate risk management strategies to achieve the company's missions and business objectives in alignment with the company's organizational strategy. The Risk Management Committee is composed of knowledgeable directors and executives as follows:

Name	Position
1. Mr.Areepong Bhoocha-oom	Chairman of the Risk Management Committee
2. Mr.Jutiphan Mongkolsuthree	Risk Management Committee Member
3. Mr.Parkpoom Pooudom	Risk Management Committee Member

Note: Mr. Areepong Bhoocha-oom was appointed Chairman of the Risk Management Committee on May 12, 2023, replacing Mr. Montri Mahaplerkpong

The Risk Management Committee has diligently performed its duties according to the charter of the Risk Management Committee, focusing on fostering a culture of continuous risk management within the organization. During the year 2023, the Risk Management Committee held a total of 4 meetings, which were instrumental in the following key areas of work:

1. Supervising the organization's risk management to ensure that there is a risk management process aligned with the COSOERM2017 framework and that risk management plans are developed to address significant risks, aiming to mitigate the occurrence and impact of risks on the organization's strategic objectives.
2. Reviewing risk management plans and revising risk items to align with the organizational strategy and the changing economic and business environment that may pose challenges to achieving organizational goals. The Risk Management Committee emphasized the importance of diversifying investment risks to achieve sustainable returns.
3. Monitoring the organization's risk management plan closely on a quarterly basis and providing recommendations to management for better risk management practices, including establishing clear risk indicators to measure the effectiveness of risk management and ensuring that risk management is maintained at an acceptable level.
4. Reporting the results of the Risk Management Committee's operations to the Board of Directors on a quarterly basis.

In summary, the Risk Management Committee has prioritized organizational risk management in accordance with its assigned responsibilities in the charter, developing and improving the organization's risk management system in a rapidly changing environment. Furthermore, the Risk Management Committee has continuously monitored and provided insights into organizational risk management, covering all significant risk issues in both the short and long term, to ensure that the company efficiently and effectively manages risks at an acceptable level. This will enable the company to achieve its goals and create long-term value for the business.

(Mr.Areepong Bhoocha-oom)

Chairman of the Risk Management Committee

REPORT OF THE EXECUTIVE COMMITTEE

Dear Shareholders,

The Executive Committee was established to support the Board of Directors in overseeing the management's operations in accordance with the policies, vision, strategies, goals, and regulations set forth in management as set by the Board of Directors. assign and to enable the Executive Board to understand their roles and responsibilities by using this charter as a guideline for performing their duties. The Executive Committee consists of 2 members as follows:

Name	Position	Number of Meetings
1. Mr.Jutiphan Mongkolsuthree	Chairman of the Executive Committee	9/9
2. Mr.Parkpoom Pooudom	Member of the Executive Committee	9/9

In performing its duties for the year 2023, the Executive Committee held 9 meetings to monitor the operations and perform their assigned duties and report the meeting results to the Board of Directors on a quarterly basis. Which has important points that may be summarized as follows.

1. Consider and scrutinize business plans, strategies, and annual budgets of the company to propose to the Board of Directors for further approval.
2. Report on the company's performance every month.
3. Support and encourage employees to have the opportunity to continually create new innovations to add value to the products.
4. Supervise operations in accordance with goals, business plans, annual budgets, and business expansion guidelines of the company in line with visions, missions, strategies, and resolutions of the Board of Directors. Without going against the laws, rules, regulations of the company and relevant regulatory.
5. Supervise the Company to have an appropriate and concise internal control system in accordance with the recommendations and objections of the Audit Committee.
6. Consider and approve matters that require approval from the Board of Directors. Except for any activities that the Board of Directors has assigned to other committees to carry out.
7. Review the charter at least once a year and if there is any amendment as deemed appropriate, submit it to the Board of Directors for approval.
8. Perform other duties related to management as assigned by the Board of Directors.

The Executive Committee is committed to managing the business to achieve the vision, mission, goals, and business strategies of the organization and manage it under the principles of good corporate governance, transparency, and accountability. with conducting business with social and environmental responsibility, including supporting anti-corruption continuity for the organization to grow and have stability.

(Mr.Jutiphan Mongkolsuthree)
Chairman of the Executive Committee

REPORT ON RESPONSIBILITIES OF THE BOARD OF DIRECTORS TOWARD FINANCIAL REPORTING

The Board of Directors is responsible for the financial statements of T.K.S. Technologies Public Company Limited and consolidated financial statements of T.K.S. Technologies Public Company Limited and subsidiary, including the financial information presented in the Annual Report. The financial statements have been prepared in accordance with financial reporting standards and appropriate accounting policies which have always been strictly adhered to and based on careful consideration as well as best estimations. All material information has been adequately and transparently disclosed in the Notes to Financial Statements to protect the benefits of the shareholders and general investors.

The Board of Directors has set up risk management system and maintains appropriate and effective internal control system to ensure upon reasonable ground that all accounting records are accurate, complete, and adequate for sustaining the Company's assets and preventing corruptions or any material irregular business operations.

The Board of Directors has appointed the Audit Committee to be responsible for reviewing the accounting policies and the quality the financial reports, including auditing internal control system, internal audit, risk management system and considering the disclosure of related party transactions. The opinions of the Audit Committee in respect to such matters are disclosed in the Report of the Audit Committee which is presented in this Annual Report.

The financial statements of the Company and the consolidated financial statements of the Company and subsidiary have been reviewed by the Company's auditor which is Ms. Sirinut Wimonasathit, Certified Public Accountant License No.8413 from KPMG Phoomchai Audit Ltd. Throughout the auditing process, the Board of Directors cooperatively provided the information and documents required by the auditor for inspection and expression of opinions in accordance with the auditing standard. The opinions of the auditor are disclosed in the Auditor's Report which is presented in this Annual Report.

The Board of Directors is of the opinion that the overall internal control system of the Company is adequately efficient and can assure the credibility of the financial statements of T.K.S. Technologies Public Company Limited and consolidated financial statements of T.K.S. Technologies Public Company Limited and subsidiary for the year ending December 31, 2023, which strictly adhered to the financial reporting standard and related laws and regulations.

(Mr. Apisak Tantivorawong)
The Chairman of the Board of Directors

(Mr. Jutiphan Mongkolsuthree)
Chief Executive Officer, CEO

T.K.S. Technologies Public Company Limited and its Subsidiaries

Financial statements for the year ended

31 December 2023

and

Independent Auditor's Report

Independent Auditor's Report

To the Shareholders of T.K.S. Technologies Public Company Limited

Opinion

I have audited the consolidated and separate financial statements of T.K.S. Technologies Public Company Limited and its subsidiaries (the “Group”) and of T.K.S. Technologies Public Company Limited (the “Company”), respectively, which comprise the consolidated and separate statements of financial position as at 31 December 2023, the consolidated and separate statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 31 December 2023 and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of my report. I am independent of the Group and the Company in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Valuation of inventories	
Refer to Notes 3 (g) and 7 to the consolidated and separate financial statements	
The key audit matter	How the matter was addressed in the audit
Inventory is valued at the lower of its cost and net realisable value. As the selling price of the Group and the Company is subject to the highly competitive market conditions, there is a risk that net realisable value of inventories will be lower than their cost. The measurement of the net realisable value and valuation for deteriorated, damaged, obsolete and slow-moving and shrinkage inventories involve management's judgement; thus, this is a focus area of my audit.	<p>My audit procedures included the following:</p> <ul style="list-style-type: none"> • Inquired the management who is responsible for this area to obtain an understanding of the Group's and the Company's procedures in relation to measuring the net realisable value of their inventories; • Tested the aging of inventory and the reasonableness of assumptions used to set the percentage of deteriorated, damaged, obsolete and slow-moving inventories determined by management and compared that percentage with information for destruction inventories. • Tested calculation of the measurement of net realisable value of inventories by comparing the cost of inventories against expected net realizable value (i.e. selling price in the latest invoices less costs to sell); and • Considered the adequacy of disclosures in relation to inventories in the consolidated and separate financial statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the correction be made.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the Board of Directors on 22 February 2024.

1 General information

T.K.S. Technologies Public Company Limited, the “Company”, is incorporated in Thailand and was listed on the Stock Exchange of Thailand on 18 November 2003. The Company’s registered office located at 30/88, Moo 1, Chetsadawithi Road, Khokkam, Mueang Samutsakhon, Samutsakhon.

The Company’s major shareholders during the financial year was Mongkolsuthee family (41.69% shareholding).

The principal activities of the Company and its subsidiaries are manufacturing of business forms, continuous paper forms, security printing, other printing, continuous labels, printing warehouse service and other investments. Details of the Company’s subsidiaries and associate as at 31 December 2023 and 2022 are given in note 8 and 9.

2 Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standards (“TFRS”), guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission. The financial statements are presented in Thai Baht, which is the Company’s functional currency. The accounting policies, described in note 3, have been applied consistently to all periods presented in these financial statements.

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of the Group’s accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

3 Significant accounting policies

(a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interests in associates and joint ventures.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

At the acquisition date, the Group measures any non-controlling interest at its proportionate interest in the identifiable net assets of the acquiree. In addition, when there is a change in the Group’s interest in a subsidiary that does not result in a loss of control, any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received from the acquisition or disposal of the non-controlling interests with no change in control is accounted for as other surpluses/deficits in shareholders’ equity.

T.K.S. Technologies Public Company Limited and its Subsidiaries**Notes to the financial statements****For the year ended 31 December 2023**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities, any related non-controlling interests and other components of equity of the subsidiary. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

The Group recognised investments in associates using the equity method in the consolidated financial statements in which the equity method is applied. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's dividend income and share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which significant influence or joint control ceases.

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated on consolidation. Unrealised gains arising from transactions with associates and joint ventures are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Business combinations

The Group applies the acquisition method when the Group assess that the acquired set of activities and assets include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. The acquisition date is the date on which control is transferred to the Group, other than business combinations with entities under common control. Expenses in connection with a business combination are recognised as incurred.

The Group elect to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is an assets rather than a business acquisition when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

Goodwill is measured as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less net fair value of the identifiable assets acquired and liabilities assumed. Any gain on bargain purchase is recognised in profit or loss immediately.

Consideration transferred includes assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, any contingent consideration and equity interests issued by the Group.

Any contingent consideration is measured at fair value at the date of acquisition, and remeasured at fair value at each reporting date. Subsequent changes in the fair value are recognised in profit or loss.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group estimates provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Business combination under common control are accounted for using a method similar to the pooling of interest method, by recognising assets and liabilities of the acquired businesses at their carrying amounts in the consolidated financial statements of the ultimate parent company at the transaction date. The difference between the carrying amount of the acquired net assets and the consideration transferred is recognised as surplus or deficit from business combinations under common control in shareholder's equity. The surplus or deficit will be written off upon divestment of the businesses acquired. The results from operations of the acquired businesses will be included in the consolidated financial statements of the acquirer from the beginning of the comparative period or the moment the businesses came under common control, whichever date is later, until control ceases.

(b) *Investments in subsidiaries, associates and joint venture*

Investments in subsidiaries, associates and joint ventures in the separate financial statements are measured by using the equity method. Dividend income is recognised as a reduction from the carrying amount of the investments on the date on which the Group and the Company's right to receive payment is established. If the Company disposes of part of its investment, the deemed cost of the part sold is determined using the weighted average method. Gains and losses on disposal of the investments are recognised in profit or loss.

(c) *Foreign currencies*

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to the respective functional currencies of each entity in the Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate at the reporting date.

Foreign currency differences are generally recognised in profit or loss. However, foreign currency differences arising from the translation of the following items are recognised in other comprehensive income: an investment in equity securities designated as at FVOCI (except on impairment, in which case foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss)

(d) *Financial instruments*

(d.1) *Classification and measurement*

Financial assets and financial liabilities (except trade accounts receivables (see note 3(f))) are initially recognised when the Group becomes a party to the contractual provisions of the instrument, and measured at fair value plus or minus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI); or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified prospectively from the reclassification date.

On initial recognition, financial liabilities are classified as measured at amortised cost using the effective interest method or FVTPL. Interest expense, foreign exchange gains and losses and any gain or loss on derecognition are recognised in profit or loss.

Financial assets measured at amortised costs are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, expected credit loss and any gain or loss on derecognition are recognised in profit or loss.

Equity investments measured at FVOCI are subsequently measured at fair value. Dividend income is recognised as income in profit or loss on the date on which the Group's right to receive payment is established, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

(d.2) Derecognition and offset

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

The difference between the carrying amount extinguished and the consideration received or paid is recognised in profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and the Group intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(d.3) Impairment of financial assets other than trade accounts receivables

The Group recognises allowances for expected credit losses (ECLs) on financial assets measured at amortised cost, debt investments measured at FVOCI, and loan commitments issued which are not measured at FVTPL.

The Group recognises ECLs equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition or credit-impaired financial assets, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

ECLs are a probability-weighted estimate of credit losses based on forward-looking and historical experience. Credit losses are measured as the present value of all cash shortfalls discounted by the effective interest rate of the financial asset.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

The Group considers a financial asset to have low credit risk when its credit rating is equivalent to the globally understood definition of 'investment grade'. The Group recognises ECLs for low credit risk financial asset as 12-month ECLs.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due, significant deterioration in credit rating, significant deterioration in the operating results of the debtor and existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

The Group considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group take action such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

(d.4) Write offs

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering. Subsequent recoveries of an asset that was previously written off, are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(d.5) Interest

Interest income and expense is recognised in profit or loss using the effective interest method. In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and highly liquid short-term investments which have maturities of three months or less from the date of acquisition. Bank overdrafts that are repayable on demand are a component of cash and cash equivalents for the purpose of the statement of cash flows.

(f) Trade receivable

A trade receivable is recognised when the Group has an unconditional right to receive consideration. A trade accounts receivable is measured at transaction price less allowance for expected credit loss. Bad debts are written off when incurred.

The Group estimates lifetime expected credit losses (ECLs), using a provision matrix to find the ECLs rate. This method groups the debtors based on shared credit risk characteristics and past due status, taking into account historical credit loss data, adjusted for factors that are specific to the debtors and an assessment of both current economic conditions and forward-looking general economic conditions at the reporting date.

T.K.S. Technologies Public Company Limited and its Subsidiaries**Notes to the financial statements****For the year ended 31 December 2023****(g) Inventories**

Inventories are measured at the lower of cost and net realisable value. Cost is calculated using the first in first out principle. Cost includes direct costs incurred in acquiring the inventories. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

(h) Investment properties

Investment properties are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed assets includes capitalised borrowing costs.

Depreciation is calculated on a straight-line basis over the estimated useful lives of buildings and improvement ranging from 10 to 20 years and recognised in profit or loss. No depreciation is charged on freehold land and assets under construction.

Differences between the proceeds from disposal and the carrying amount of investment property are recognised in profit or loss.

(i) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes capitalised borrowing costs, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Differences between the proceeds from disposal and the carrying amount of property, plant and equipment are recognised in profit or loss.

Subsequent cost

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item when the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of each component of an asset and recognised in profit or loss. No depreciation is provided on freehold land and assets under construction.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

The estimated useful lives are as follows:

Buildings and building and land improvements	3 to 25	years
Machinery and equipment	3 to 20	years
Furniture, fixtures and office equipment	3 to 5	years
Vehicles	3 to 5	years

(j) Intangible assets

Intangible assets that have indefinite useful lives are measured at cost less impairment losses. Other intangible assets are measured at cost less accumulated amortisation and impairment losses. Subsequent expenditure is capitalised only when it will generate future economic benefits. Amortisation is calculated on a straight-line basis over the estimated useful lives of intangible assets and recognised in profit or loss.

The estimated useful lives are as follows:

Computer software	3 to 10	years
Customer relationship	10	years

(k) Leases

At inception of a contract, the Group assesses that a contract is, or contains, a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices of each component. For the leases of property, the Group has elected not to separate non-lease components and accounted for the lease and non-lease components wholly as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date, except for leases of low-value assets and short-term leases which are recognised as an expenses on a straight-line basis over the respective lease term.

Right-of-use asset is measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurements of lease liability. The cost of right-of-use asset includes the initial amount of the lease liability adjusted for any prepaid lease payments, plus any initial direct costs incurred and an estimate of restoration costs, less any lease incentives received. Depreciation is charged to profit or loss on a straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment.

The lease liability is initially measured at the present value of all lease payments that shall be paid under the lease. The Group uses the Group's incremental borrowing rate to discount the lease payments to the present value. The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a lease modification, or a change in the assessment of options specified in the lease. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

As a lessor

At inception or on modification of a contract, the Group allocates the consideration in the contract to each component on the basis of their relative standalone selling prices.

At lease inception, the Group considers to classify a lease that transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to lessees as a finance lease. A lease that does not meet this criteria is classified as an operating lease.

The Group recognises finance lease receivables at the net investment of the leases, which includes the present value of the lease payments, and any unguaranteed residual value, discounted using the interest rate implicit in the lease. Finance lease income reflects a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group recognises lease payments received under operating leases in profit or loss on a straight-line basis over the lease term as part of other income. Initial direct costs incurred in arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

The Group estimates lifetime expected credit losses (ECLs), using a provision matrix to find ECLs rate. This method groups the lease receivables based on shared credit risk characteristics and past due status, taking into account historical credit loss data, adjusted for factors that are specific to the debtors and an assessment of both current economic conditions and forward-looking general economic conditions at the reporting date. The Group derecognises the lease receivables as disclosed in note 3(c).

(l) Impairment of non-financial assets

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised in profit or loss if the carrying amount of an asset exceeds its recoverable amount, unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

The recoverable amount is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss of asset recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

(m) Employee benefits

Defined contribution plan

Obligations for contributions to the Group's provident funds are expensed as the related service is provided.

Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligations is discounted to the present value, which performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Group determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(n) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(o) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

T.K.S. Technologies Public Company Limited and its Subsidiaries**Notes to the financial statements****For the year ended 31 December 2023**

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are based on unobservable input.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Group measures assets and asset positions at a bid price and liabilities and liability positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price, the financial instrument is initially measured at fair value adjusted for the difference between the fair value on initial recognition and the transaction price and the difference is recognised in profit or loss immediately. However, for the fair value categorised as level 3, such difference is deferred and will be recognised in profit or loss on an appropriate basis over the life of the instrument or until the fair value level is transferred or the transaction is closed out.

(p) Revenue from contracts with customers

Revenue is recognised when a customer obtains control of the goods or services in an amount that reflects the consideration to which the Group expects to be entitled, excluding those amounts collected on behalf of third parties, value added tax and is after deduction of any trade discounts.

Revenue from sales of goods is recognised on the date on which the goods are delivered to the customers.

Revenue for rendering of services is recognised as the services are provided. The related costs are recognised in profit or loss when they are incurred.

For bundled packages, the Group recognises revenue from sales of products and rendering of services separately if a product or service is separately identifiable from other items and a customer can benefit from it or the multiple services are rendered in different reporting periods. The consideration received is allocated based on their relative stand-alone selling prices.

(q) Income tax

Income tax expense for the year comprises current and deferred tax, which is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss and differences relating to investments in subsidiaries and joint ventures to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in the separate financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(r) Earnings per share

Basic earnings per share (EPS) is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

4 Related parties

A related party is a person or entity that has direct or indirect control or joint control, or has significant influence over the financial and managerial decision-making of the Group; a person or entity that is under common control or under the same significant influence as the Group; or a person or entity over which the Group has direct or indirect control or joint control or has significant influence over the financial and managerial decision-making.

Relationships with subsidiaries, associates and joint ventures are described in notes 8 and 9. Other related parties which the Group had significant transactions with during the year were as follows:

Name of entities	Country of incorporation/ nationality	Nature of relationships
Key management personnel	Thai	Persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of the Group.
Service Point Company Limited	Thailand	Other related company, a subsidiary of an associate
SABUY Technology Public Company Limited	Thailand	Other related company
Next Capital Public Company Limited	Thailand	Other related company

Notes to the financial statements

For the year ended 31 December 2023

Significant agreements with related parties

The Company had land rental agreement with a related party. The agreement shall be in effect for a period of three years, commencing from 1 August 2022 to 31 July 2025.

On 15 December 2021, a subsidiary entered into a loan agreement with indirect subsidiary amounting to Baht 500 million. As at 31 December 2022, such indirect subsidiary has drawn down a total of Baht 492.5 million from this facility. This loan bore interest at the rate of 4.2% per annum, which will become due at call.

On 1 January 2023, the Company had entered into management service agreements with subsidiary, whereby the Company agrees to provide management services and committed to received services fee as specified in the agreements during the term of agreement. This agreement is valid since counterparty agreed upon written notice until 31 December 2023.

On 12 December 2023, a subsidiary entered into a loan agreement with subsidiary amounting to Baht 18 million. As at 12 December 2023, such subsidiary has drawn down a total of Baht 18 million from this facility. This loan bore interest at the rate of 4.25% per annum, which will become due at call.

Other commitments

As at 31 December 2023 and 2022, the Company has mortgaged the land and structure thereon of the Company and its subsidiaries as collateral against short-term and long-term borrowings from financial institutions. Hereby, the Company and its subsidiaries have made the credit facilities counter-guarantee for each other without any guarantee fee.

As at 31 December 2023 and 2022, some investment properties in the consolidated financial statements with a net book value of Baht 347.3 million for both year and Baht 60.88 million for both year in the separate financial statements, were subject to secure the Group's credit facilities obtained from the financial institutions, as described in note 15.

Investment properties, comprised of properties and plant that the Company held but did not identify the project to hold and for rental income. On 22 December 2021, indirect subsidiary acquired land and building from an associate in amount of Baht 496.5 million, which is mutually agreed price. At 31 December 2023, fair value of investment properties of Baht 570.83 million for the Group and Baht 259.25 million for the Company (2022: Baht 570.83 million for the Group and Baht 259.25 for the Company) was determined by independent professional valuers, applying market comparison approach values on an existing use basis and by comparing with offering price from nearby land. The fair value of investment properties has been categorised as a Level 3 fair value because the significant unobservable input used in measuring the fair value of investment properties is quoted prices and the purchasing and selling price of comparable investment properties, adjusted with other different factor.

Information relating to leases are disclosed in note 12.

Rental income recognised in profit or loss in 2023 and 2022 in separate financial statement was Baht 12 million and Baht 11.86 million, respectively.

As at 31 December 2023, the Group and the Company had unutilised credit facilities totalling Baht 792.52 million and Baht 288.97 million, respectively (2022: Baht 788.52 million and Baht 230.93 million, respectively).

As at 31 December 2023 and 2022, short-term loans from financial institutions were promissory notes at call, bearing interest at the rate from 2% to 4% per annum (2022: from 2% to 3.44% per annum).

Long-term loans from financial institutions

In September 2019, the Company entered into a long-term loan agreement with a local financial institution for Baht 304.0 million. This loan bears interest rate of 3% per annum. The principle and interest of the loan are repayable every three-month period, totaling 19 installments. The Company will repay the first installment in March 2020 and shall fully repay the principle and interest within September 2024. All installments shall be repaid from repayment schedule of the loan agreement. The Company shall comply with certain conditions and restrictions in the loan agreements by placing the ordinary shares of Synnex (Thailand) Public Company Limited, valued not less than 1.5 times of each drawdown amount and placing the ordinary shares of Plus Tech Innovation Public Company Limited, valued not less than 1 time of each drawdown amount as collateral.

In September 2019, the Company entered into a long-term loan agreement with a local financial institution for Baht 308.0 million. This loan bears interest rate of 3% annum. The principle and interest of the loan are repayable every three-month period, totaling 20 installments. The Company will repay the first installment in March 2020 and shall fully repay the principle and interest within December 2024. All installments shall be repaid from repayment schedule of the loan agreement. The Company shall comply with certain conditions and restrictions in the loan agreements by placing the ordinary shares of Synnex (Thailand) Public Company Limited, valued not less than 1.5 times of each drawdown amount and placing the ordinary shares of Plus Tech Innovation Public Company Limited valued not less than 1 time of each drawdown amount as collateral.

In June 2020, the Company received approval for extending the debt moratorium for 2 installments (quarterly period) for 2 loan agreements as mentioned previously.

In December 2021, the subsidiary entered into a long-term loan agreement with a local financial institution for Baht 217.5 million. This loan bears interest rate of BIBOR plus 2.7% per annum. The principle and interest of the loan are repayable every month. The Company will repay the first installment in December 2021 and shall be repaid from repayment schedule of the loan agreement within November 2026. The subsidiary shall comply with certain conditions and restrictions in the loan agreements by pledging land and building and placing of Synnex (Thailand) Public Company Limited at the number as specified in the share pledge agreement as collateral. This loan is guaranteed by the parent company.

T.K.S. Technologies Public Company Limited and its Subsidiaries**Notes to the financial statements****For the year ended 31 December 2023**

In October 2022, the subsidiary entered into a long-term loan agreement with a local financial institution for Baht 74 million, such subsidiary has drawn down a total of Baht 44.5 million. This loan bears interest rate of prime rate minus 2% per annum. The principle and interest of the loan are repayable every month. The Company will repay the first installment in November 2023 and shall be repaid from repayment schedule of the loan agreement within October 2027. The subsidiary shall comply with certain conditions and restrictions in the loan agreements by placing of Plus Tech Innovation Public Company Limited at the number as specified in the share pledge agreement as collateral. This loan is guaranteed by the parent company.

The Company and the subsidiary has commitment to comply with conditions and restrictions as specified in the loan agreement such as maintaining the shareholding, maintaining the debt service coverage ratio, no mortgage land and buildings, not incurring any debt obligations that prevent the ability to maintain the total debt to equity ratio, etc.

During 2022, the subsidiary entered into a transfer and lease-back agreements for machinery and equipment with a financial institution and recognised the amount transferred of Baht 52.2 million as loans from a financial institution with an interest rate of 3% to 3.4% per annum. The contracts ends between February 2025 to June 2027.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

At the Extraordinary General Meeting of Shareholders held on 16 February 2023, the shareholders approved as follows:

- a) The reduction in authorised share capital from Baht 508,449,467 to Baht 508,448,439 by cancelling 1,028 authorised share capital but unissued with a par value of Baht 1 per share and an amendment to the Memorandum of Association of the Company to comply with the reduction of to the Company's registered capital.
- b) the increase in authorised share capital from Baht 508,448,439 to Baht 623,448,439 by issuing of 115,000,000 new ordinary shares with Baht 1 per share for future investment.

The Company registered the decrease and increase in share capital on 17 February 2023 and 20 February 2023, respectively.

At the Extraordinary General Meeting of Shareholders held on 29 August 2023, the shareholders approved the reduction in authorised share capital from Baht 623,448,439 to Baht 508,448,439 by cancelling 115,000,000 authorised share capital but unissued with a par value of Baht 1 per share and amendment to the Memorandum of Association of the Company to comply with the reduction of to the Company's registered capital.

The Company registered the decrease in share capital on 1 September 2023.

Share premium

Section 51 of the Public Limited Companies Act B.E. 2535 (1998) requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). Share premium is not available for dividend distribution.

18 Legal Reserve

Section 116 of the Public Limited Companies Act B.E. 2535 (1992) requires that a public company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward (if any), to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

19 Segment information and disaggregation of revenue

Segment results that are reported to the Group's CEO (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Management determined that the Group has three reportable segments which are the Group's strategic divisions for different products and services, and are managed separately because they require different technology and marketing strategies. The following summary describes the operations in each of the Group's reportable segments.

- Segment 1 Manufacturing of business forms, continuous paper forms and securities printing.
- Segment 2 Providing information technology system and software services.
- Segment 3 Investment in associates and joint venture and other investments.

Notes to the financial statements

For the year ended 31 December 2023

Contribution plans

The contribution plans comprise provident funds established by the Group for its employees. Membership to the funds is on a voluntary basis. Contributions are made monthly by the employees at rate of 3 - 15% of their basic salaries and by the Group at rate of 3 - 5% of the employees' basic salaries. The provident funds are registered with the Ministry of Finance as juristic entities and are managed by a licensed Fund Manager.

22 Expenses by nature

The statements of comprehensive income include an analysis of expenses by function. Expenses by nature disclosed in accordance with the requirements of various TFRS were as follows:

		Consolidated financial statements		Separate financial statements

Deferred tax assets have not been recognised in respect of the following items:

	Consolidated financial statements		Separate financial statements	
	2023	2022	2023	2022
	<i>(in thousand Baht)</i>			
Temporary differences				
- financial assets measured at FVOCI	106,167	-	106,167	-
- financial assets measured at FVTPL	3,152	-	3,152	-
Loss carry forward	15,044	10,944	743	-
Total	124,363	10,994	110,062	-

The tax losses will be expired in 2024 to 2028. The deductible temporary differences do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilise the benefits therefrom.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

24 Basic earnings per share

The calculations of basic earnings per share for the year ended 31 December 2023 and 2022 were calculated by dividing the profit for the year attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

	Consolidated financial statements		Separate financial statements	
	2023	2022	2023	2022
	<i>(in thousand Baht / thousand shares)</i>			
Profit attributable to ordinary shareholders of the Company (basic)	285,517	670,342	285,517	670,342
Weighted average number of ordinary shares (basic) as at 31 December	508,448	508,448	508,448	508,448
Earnings per share (basic) (in Baht)	0.56	1.32	0.56	1.32

25 Dividends

T.K.S. Technologies Public Company Limited and its Subsidiaries**Notes to the financial statements****For the year ended 31 December 2023**

The following tables present valuation technique of financial instruments measured at fair value in the statements of financial position:

Type	Valuation technique		
Investment in venture capital	The adjusted net asset value method.		
Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Equity securities	Market comparison technique	Adjusted market multiple (2023: 2.5).	The estimated fair value would increase (decrease) if the adjusted market multiple were higher (lower).
Equity securities	Discounted cash flows	Discount rate: (2023: 20%-22.3%).	The estimated fair value would increase (decrease) if the discount rate was lower (higher).
Convertible debt instruments	Discounted cash flows	Business Valuation: (2023: Baht 86,190).	The estimated fair value would increase (decrease) if business valuation was higher (lower).

(b) *Financial risk management policies*

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group audit committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(b.1) *Credit risk*

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers.

(b.1.1) *Trade accounts receivable*

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's commercial terms and conditions are offered. The Group's review historical credit and financial statements. Sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from the risk management committee.

T.K.S. Technologies Public Company Limited and its Subsidiaries
Notes to the financial statements
For the year ended 31 December 2023

The Group limits its exposure to credit risk from trade accounts receivables by establishing a maximum payment period of 3 months. Outstanding trade receivables are regularly monitored by the Group. An impairment analysis is performed by the Group at each reporting date. The provision rates of expected credit loss are based on days past due for individual trade receivables to reflect differences between economic conditions in the past, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Information relevant to trade accounts receivables are disclosed in note 6.

(b.1.2) Cash and cash equivalent

The Group's and the Company's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions which the Group and the Company considers to have low credit risk.

(b.2) Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

The following table show the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include contractual interest payments and exclude the impact of netting agreements.

(b.3) Market risk

The Group is exposed to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is as follows:

T.K.S. Technologies Public Company Limited and its Subsidiaries

Notes to the financial statements

For the year ended 31 December 2023

(b.3.1) Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's operations and its cash flows because loan interest rates (see note 15) are mainly fixed. So the Group has low interest rate risk. The sensitivity impact to the increase or decrease in interest expenses from borrowings, as a result of changes in interest rates is immaterial on financial statements of the Group.

28 Capital management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board regularly monitors the return on capital, by evaluating result from operating activities divided by total shareholders' equity, excluding non-controlling interests and also monitors the level of dividends to ordinary shareholders.
