Our Goals

The Company aims to be a leading non-bank credit service provider, which creates opportunities to access alternative funding sources for Small and Medium Enterprise (SMEs). Lease IT has 6 operation goals to develop sustainable growth of the organization.

Account Receivable portfolio of the Company can be divided into 2 groups as follows;

1. Government agencies and state enterprises
(The proportion of debtors who work for government agencies and state enterprises are at **70%** of the account receivable portfolio.)
2. Large private company (The proportion of debtors who work for large private companies is at **30%** of the account receivable portfolio.)

1 Increase Competitiveness

Bid Bond

Lease IT enhances SMEs competitiveness by offering credit, according to value of bid bond, to support the issuance of a bank guarantee to those customers who want to bid on government or state enterprise projects.

Letter of Credit (L/C)

The Company offers financial service in form of Letter of Credit (L/C) to SMEs customers who want to import goods. Customers who use our L/C service are offered to use Project Backup Financing for payment of imported goods as well.

Our Financial Services

We focus on developing a wide range of financial services for our customers. Lease IT deliver comprehensive services specifically designed to support Small and Medium Enterprises (SMEs). Our services are divided into several categories to offer entrepreneurs assistance from the beginning to end of a project. These services include Leasing, Hire Purchase, Factoring, Bid Bond, Project Backup Financing, Letter of Credit (L/C), and Supplier Finance Program.

Letter of Guarantee

2 Provide Capital

Project Backup Financing

Let Lease IT be a part of your success by offering you Project Backup Finance, which offer you loan for your business or government project.

3 Increase Cash Flow

Leasing & Hire Purchase

The Company offers Leasing and Hire Purchase for entrepreneurs who want to buy and lease assets such as IT device, software and computer, machine, vehicle or any other equipment, on the condition that those assets must have leasing agreement with government, the state enterprises or large private enterprises.

Supply Chain Finance

Similar to Factoring, Supplier Finance program allows the SME suppliers of the Company who joins Supplier Finance program to receive immediate cash payment without waiting for credit term due of the seller. By doing this, supplier can improve their cash flow while the seller company, who joined the program, can improve their supply chain.

Factoring

The Company provides factoring service, which is the purchase of receivables. Approximately we offer 70-90 percent of value of invoice. Factoring allows SME to receiving immediate cash payment without waiting for credit term due. The Company typically purchases receivables without having collateral but there is the assignment of accounts receivable of customers to the Company.

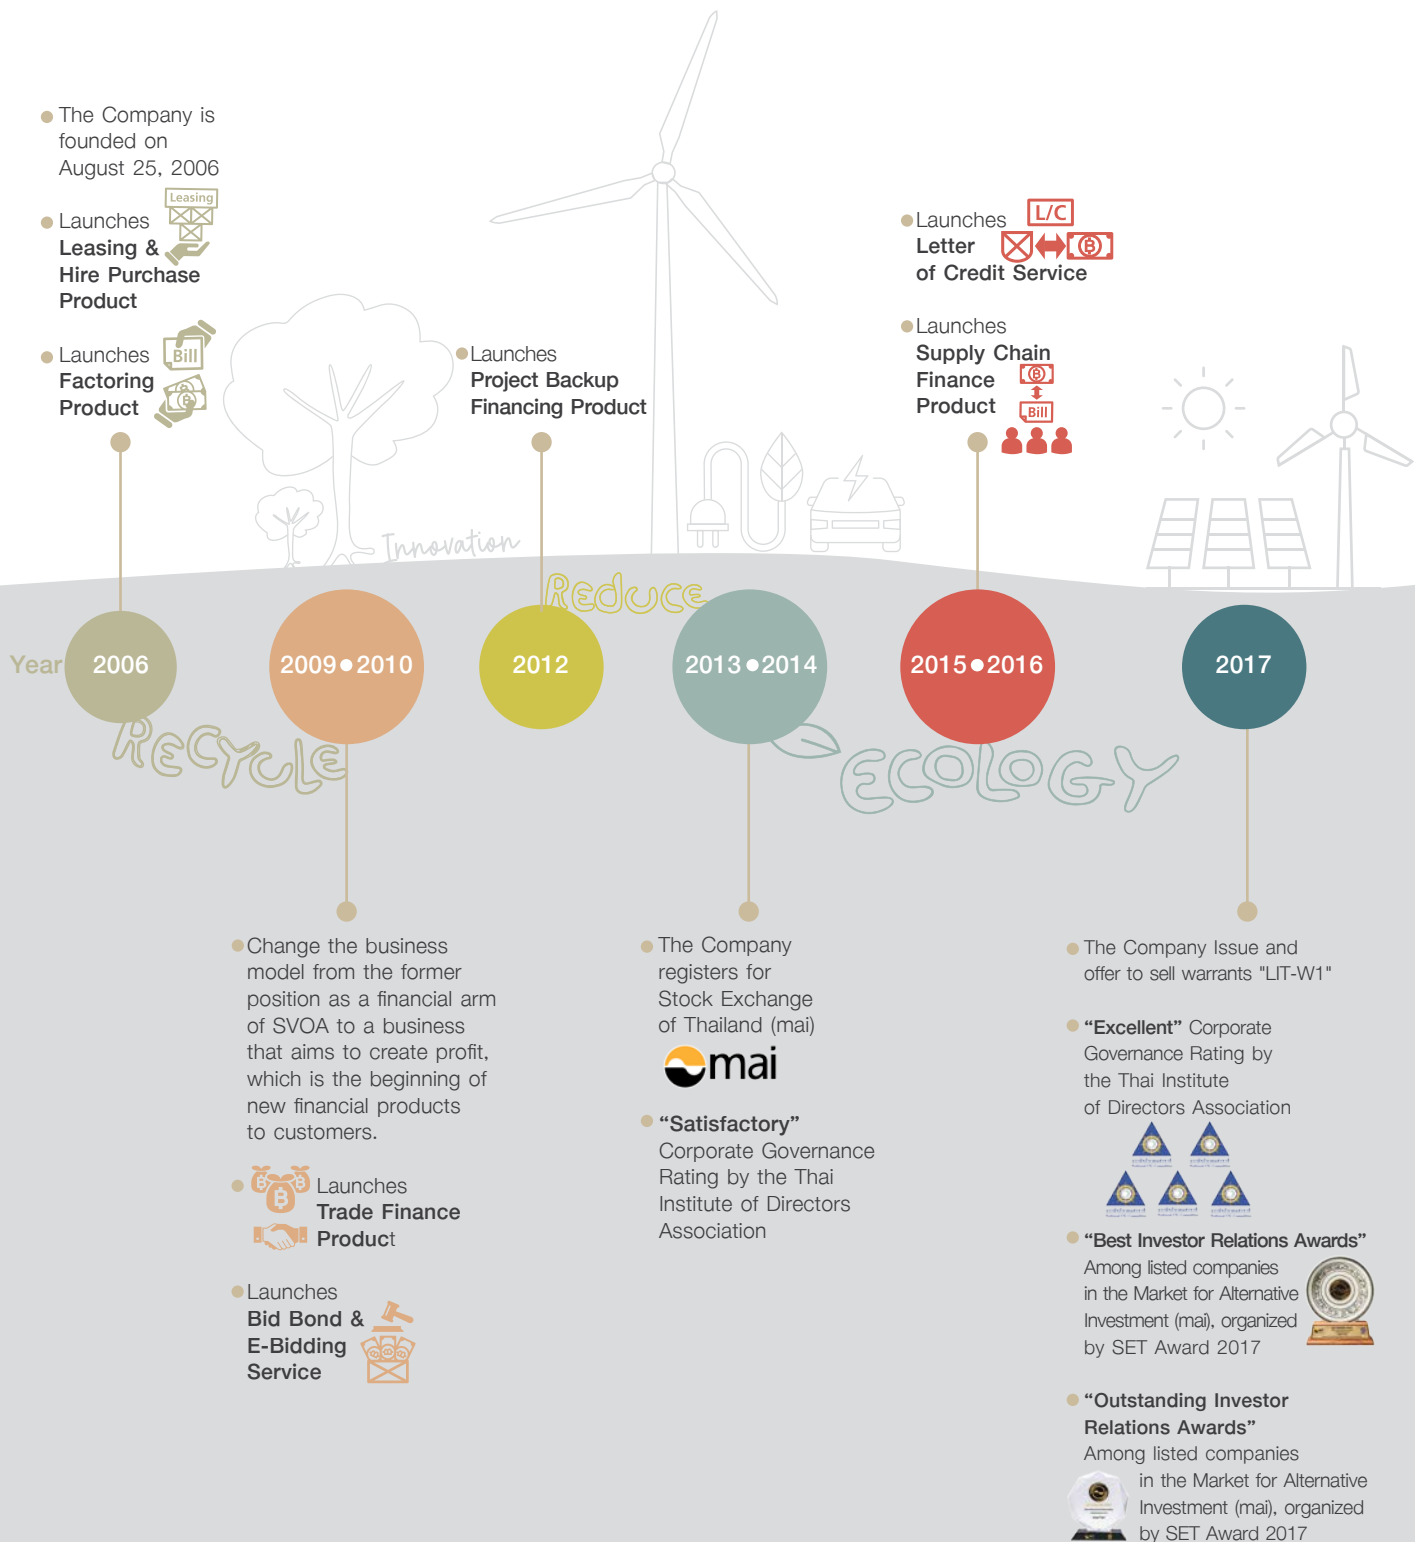

Term Loan

The Term Loan Project is a secured loan to enhance liquidity for entrepreneurs to expand their businesses. The credit consideration based on individual customer's risk. The Company provides the Term Loan to support economic expansion.

Key Development

Today, we focus to serve and finance SMEs and want them to reach an alternative source of funds. We aim to be the solution for our customers to help them with their business growth and success, ultimately becoming their true financial partner.

Message from The Chairman of the Board

This year is another year that we have to face with challenge situations in many areas, such as the technological progress especially Artificial Intelligence, which is important about replacing humans. The Conflict War have occurred in many regions, which were created enormous losses to humanity. The Economic Recovery after the COVID-19 outbreak has been slowly. The Country Management which is under the new government. Meanwhile, environmental problems are inevitable for every country in the world. The UN Secretary General has announced that Global Warming has ended but we are going into Global Boiling instead.

In the Company's operations, The Board of Directors has overseen operations that are consistent with the principles of good corporate governance, law, related regulations and announcements. Taking into account the benefits to all stakeholders. However, the Directors, Executives and Employee are adhered to comply with the Business Ethics, Anti-Corruption Policy to ensure transparency and accountability. The Company has declared intention to join Collective Active against Corruption in order to be a company with international standards.

The Company's strategies are consistent with the Company's Materiality and support the United Nations Sustainable Development Goals. The Company is committed to operating its business under the framework of sustainability in all dimensions: Economic Social and Environment under Corporate Good Governance for the Company's sustainable growth.

Police General

Jate Mongkolhutti
Chairman of the Board

Message from CEO Smart

Together Growth Sustainability

In the past year 2023, Lease IT Public Company Limited is still committed to operating business according to vision and main strategy and prepare for proactive and forward-looking adjustment towards integration in creating business value for the Company's customers as well as being aware of conducting business with caution under circumstances that may cause both direct and indirect impacts to the Company and stakeholders. Due to economic factors that are not yet fully driven, customer income has decreased, interest rates are continually rising affecting the cost of doing business for customers. Therefore, customer income generation decreased while expenses increased. The Company continues to conduct business cautiously by controlling risk in providing credit line to customer who tend to be at high risk by properly screening various risks and developing employees to be more proficient. And determining the proportion of business types. In order not to be in any business too much and choose industries that are growing in a positive direction. In addition, the debt resolution and debt collection processes have been improved to be more efficient. As well as developing internal information systems to support Technology Changing. Including the launch of new financial products to meet customer needs in various dimensions under the principles of Corporate Good Governance for sustainable growth and responsibility towards stakeholders, society, the environment and the nation.

1 Structure and operation of business groups

Policies and Overall Business Operations

Lease IT Public Company Limited (the “Company”) was incorporated on the 25th of August 2006 with a registered capital of 200 million Baht, with a paid up capital of 60 million Baht. The SVOA Public Company Limited is the majority shareholder with 99.99 percent of the stake in the business. Initially, the business objective was to support the trade of the SVOA group. The Company was a financial company (Financial Arm) of SVOA that provided loan, financial leases (Leasing) and loan purchase agreements (Hire Purchase) by targeting at those customers who were previously suppliers to the group of SVOA. The customers who were using the SVOA’s products had the privilege to use accounts receivable (Factoring) financing.

So that the Company’s business can meet the needs of SMEs to spread to cover other business besides only IT products. The Company turned to financing of goods outside the SVOA group as well as expanding credit facility beyond IT products in order to manage and compete with the same type of business in more products and other industries.

After the business model changed, as discussed above, the Company emphasized more on growth and business competitiveness by developing a model of financial products so as to continue doing business in order to satisfy customer needs and to offer credit to serve every industry, not only serve in IT sector. To do so, the Company added more variety of credit facilities besides factoring only such as Bid Bond, Project Backup Financing including Trade Finance.

On the 16th of May 2013, the Company has become a public company, therefore changed its name to Lease IT Public Company Limited.

The Company has 2 subsidiaries which are LIT Services Management Co.,Ltd, which was established on May 23, 2018 with registered capital of 10,000,000 baht to provides credit data analysis service and Ulite Digital Co.,Ltd., which was established on 5 November 2020 with registered capital of 10,000,000 baht to sell products and services in installments through a mobile application by focusing on supporting the target group, which is the new generation, to purchase products according to their lifestyle without having to use a credit card, include students, company employees, government officials, business owners, and freelancers.

The Company provides credit services to customers who are entrepreneurs in small and medium enterprises who face limitations in having loans from financial institutions. Such services were divided into 8 main categories:

1. **Leasing** : credit service in the form of financial lease or contract within a term of more than 3 years, typically dealing with the government agencies, state enterprises, or large private enterprises.
2. **Hire Purchase** : credit service in the form of an installment contract within a term of less than 3 years, including lease agreements with government agencies, state enterprises, or large private enterprises.
3. **Factoring** : The transfer of right of claims primarily through a purchase accounts receivable from a group of business operators owed by government agencies, state enterprises, or large private enterprises. The Company purchases the accounts receivable at a discounted price approximately 5-95 percent of the face value.
4. **Bid Bond** : credit facility in the form of a tender guarantee for individual entrepreneurs who want to bid for government agencies' and state enterprises' projects. In addition the Company also offers Bid Bond product in form of E-Bidding in order to response to government policy which using Electronics Government Procurement.
5. **Project Backup Financing** : provides funding for the procurement and/or preparing the pre-finance products prior to delivery of products to government agencies, state enterprises, or large private enterprises.
6. **Trade Finance** : provides products to a group of customer/entrepreneur who lacks of funds in the procurement process of products delivered to government agencies, state enterprises, or large private enterprises.
7. **Letter of Credit (L/C)** : the Company offers financial credit in form of Letter of Credit to guarantee the payment of buyer. By using Letter of Credit, the seller will receive payment after delivering goods and the buyer will pay after receiving goods.
8. **Supplier Finance** program allows the suppliers of the Company who joins Supplier Finance program to receive immediate cash payment without waiting for credit term due of the seller. By doing this, supplier can improve their cash flow while the seller company, who joined the program, can improve their supply chain

The Company has developed new financial products for entrepreneurs to expand portfolio of existing customers and to increase new customers as follows:

1. **The Term Loan Project** is a secured loan to enhance liquidity for entrepreneurs to expand their businesses. The credit consideration based on individual customer's risk. The Company provides the Term Loan to support economic expansion.
2. **Electric Motorcycle Loan Project** is an expansion of the loan business to personal microfinance loans. The Company respond to government policy in promoting electric vehicles. It is also a loan that helps support the reduction of greenhouse gas emissions. To be consistent with the Sustainability Development Goals of the Company under Good Corporate Governance, which taking into account the impact on the Economy. Society and Environment.

The Company provides integrated loan services that help entrepreneurs run their businesses from upstream to downstream. Due to the potential entrepreneurs could access to source of fund for expanding their business and ability to growth. With the Company's support team who have experience and provide advice that will drive the Company's customers towards success.

1. Vision Objective and Goals

Our Vision

To Create Opportunities for ALL

Our Mission

We strive to offer entrepreneurs, small and medium enterprises (SMEs) access to capital for their businesses by activating alternative funding sources outside the financial sector (Non-Bank), and knowledge that will lead to success and sustainable growth.

Business Goals

The Company aims to be a non-financial source of alternative fund for Small and Medium Enterprises (SMEs) which cannot access to source of funds, Such businesses normally require funding outside the system (private lender) which is a barrier to expand their business. Thus, the Company considers developing a variety of financial products/services to provide total financial solutions for entrepreneurs. The goals are as follow:

- 1. Revenue generation to create wealth and stability for the organization** The Company's goal is to create portfolio in line with the expansion of the economy, In the growth industry and generate higher returns to the Company, under financial products that meet customer needs. By the year 2024, there will be a loan portfolio of 1,900 million baht.
- 2. Developing the efficiency of the credit process** to raise the level of credit approval to be more efficient and able to screen out customer groups that are at risk at each level. (Sub-segmentation) through analyzing customer data in various dimensions and using effective risk management tools in accordance with the rules as well as upgrading credit supervision when problems arise. In order to be able to meet the needs of customers and reduce the likelihood of bad debts (NPLs) in the future.
- 3. Developing the efficiency of work processes** To enhance the competitiveness and raise the standard of the Company's work process in accordance with the situation of the competition and has higher efficiency by applying various technology systems to work. Resulting in speed and being able to analyze data in various dimensions to find business opportunities.

- 4. Customer satisfaction** to meet the needs of customers by providing credit with speed, keep up with the needs of customers with transparency bring in income Loan portfolio expansion and re-use of services including using customer feedback data to continuously improve and develop services to be better
- 5. Reliability and corporate image** To build confidence for customers, partners and stakeholders (Stakeholder), The Company emphasized on equality, Shareholders and employees, giving importance to all sectors and requiring all departments to work with good governance. Including the opportunity to reduce the financial cost of financing Through various channels with an experienced team and a goal to lead customers to success.
- 6. Sustainable growth** for the Company Sustainable growth under good corporate governance (Corporate Governance) anti-corruption and create value (Value Creation) for society and stakeholders in 3 dimensions, namely the economic dimension, the social dimension, and the environmental dimension.

Bank and Non-Bank still have been under pressure from Covid-19 outbreak situation and SMEs are still affected by rising of inflation and interest rate. In the challenges of investment conditions and economic expansion. The Company has had to adjust it strategy in order to keep up with the situation an achieve appropriate operating results. The Company continues to pursue its goal of generating income from a variety of financial products and new financial products that expand its business operations. This is to create organizational stability Create customer satisfaction, raise the standard of work processes and build credibility and corporate image

The Company has set short-term goal, long-term goal and strategy as follow :

Short-term goal :

Portfolio up to 1,900 million baht with in the year 2024.

Long-term goal :

Portfolio up 2,100 million baht with in the year 2026

Strategy :

In terms of generating income to create wealth and stability for the organization, improvement the efficiency of Credit Analysis and Working Processes, creating Customer's satisfaction for Brand Royalty, building Reliability and Corporate Image and Corporate Sustainability Growth.

Key Development

2006

- A registered company with a registered capital of 200 million Baht with a paid-up capital of 60 million Baht.

2007- 2014

- Registered capital has increased from 60 million Baht to 100 million Baht and fully paid up.
- Starting a business service supplier (Trade Finance) for those customers that were using existing financial products, whether loan financial leases, hire purchase loans, or transfer right of claims.
- Starting Bid Bond facility by acting as an intermediary between the bank (guarantees) and those customers who were entrepreneurs.
- Starting a set of business operations to support Project Backup Financing for customers of the Company who have good records in terms of skills and capabilities toward the work on that project but there were some restrictions on working capital. The debtors who facilitate the government projects was emphasized.
- Reducing the share capital from 200,000,000 Baht to 100,000,000 Baht by reducing the par value of shares from 10.00 Baht per share to 5.00 Baht per share, resulting in an authorized capital of 100,000,000 Baht consisting of 20,000,000 shares at 5.00 Baht and paid in full amount.
- Converting to a public company limited since May 16, 2013 .
- Changing the par value of shares from 5.00 Baht per share to 1.00 Baht per share. (20,000,000 shares capital with a par value of 5.00 Baht to 100,000,000 shares capital with a par value of 1.00 Baht)
- Increasing the registered capital 16,000,000 Baht from the existing registered capital 100,000,000 Baht. The total registered capital is 116,000,000 Baht through issuing 16,000,000 new ordinary shares at par value of Baht 1.00 per share allocated to Dr. Prasit Kanjanasakchai. This was a private placement offered Baht 1.50 per share.
- Increasing the registered capital 84,000,000 Baht from the existing registered capital 116,000,000 Baht. The total registered capital is 200,000,000 Baht through issuing 84,000,000 new ordinary shares at par value of Baht 1.00 per share. The details of the allocation is listed as follows:
 - 1.) Allocation of ordinary shares of 33,600,000 common shares to shareholders of the SVOA. Quantity of the shares depended on the shareholders in SVOA.
 - 2.) Allocation of ordinary shares of 46,200,000 common shares to the public.
 - 3.) Allocation of ordinary shares of 4,200,000 shares to directors and employees of the Company.

In case of the remaining share from the reserved shares of SVOA's shareholders according to (1) an offer to sell such shares to the public in (2) would have been taken place.

- During 12-14 March 2014, the Company has offered to sell ordinary shares to the shareholders and holders of preferred shares SVOA in the proportion of shares held by the shareholders in SVOA, the total amount of 33.6 million common shares with a par value of THB 1.00 per share in the offering price per share of 1.80 Baht.
- During 17-19 March 2014, the Company has offered to sell ordinary shares to the public, directors and employees of the total 50.4 million common shares with a par value of THB 1 per share in the offering price per share of 1.80 Baht. The Company registered the issued and paid up capital from 116,000,000 Baht (ordinary shares of 116,000,000 common shares at par value of Baht 1.00 per share) to 200,000,000 Baht (ordinary shares of 200,000,000 common shares at par value of Baht 1.00 per share) with the Ministry of Commerce on March 20, 2014. 2. Our Product and Service

(1) Characteristics of products / services and business innovation development

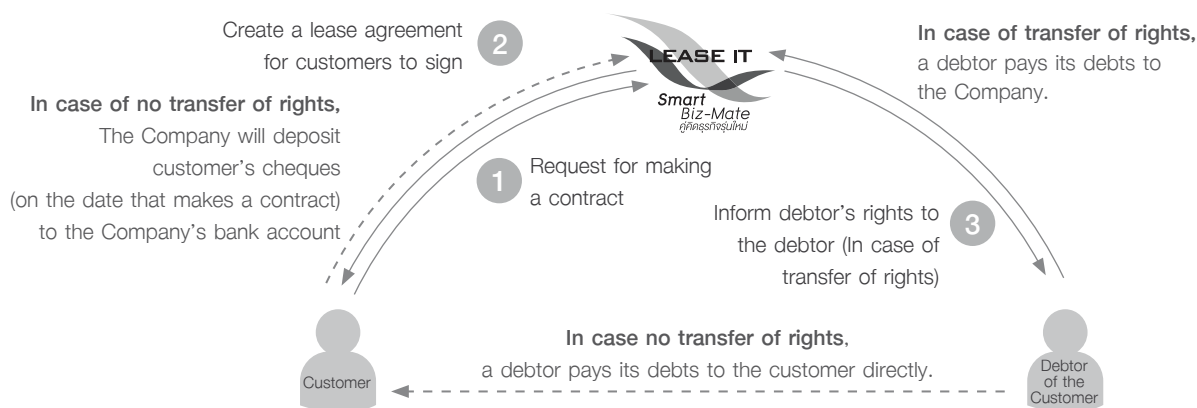

The Company is engaged in the business of providing financial service to customers who are Small and Medium Enterprises (SMEs) with limited sources of fund from financial institutions. Our products can be divided into 8 categories:

(1.1) Leasing

The Company provides leasing to entrepreneurs, who want to buy assets that has an agreement with the state enterprises or large private enterprises. The Company will buy assets from customer or any supplier and arrange leasing with customers. The ownership of the assets belongs to the Company, when installments fully made, the customer can decide to buy it. The Company must provide credit to customers at the rate of 70-100 of the product value with a fixed interest rate loan. Installment contracts provided for 3 years or more.

(1.2) Hire Purchase

The Company provides hire purchase to entrepreneurs, who want to buy assets such as computer devices, software, IT devices, appliances, including the equipment for education that has a lease agreement with the state enterprises or large private enterprises. The Company will buy assets from customers and arrange hire purchase with customers. In some cases, the Company may obtain the assets from the vendor (supplier) according to the needs of customers and arrange hire purchase with customers. The ownership of the assets belongs to the Company. When installment is fully made, the customer will acquire ownership of the assets. The Company must provide credit to customers at the rate of 70-100 of the product value with a fixed interest rate loan. Installment contracts provided by the Company will last no more than 3 years. Installment contracts will be made in the same manner as financial lease.

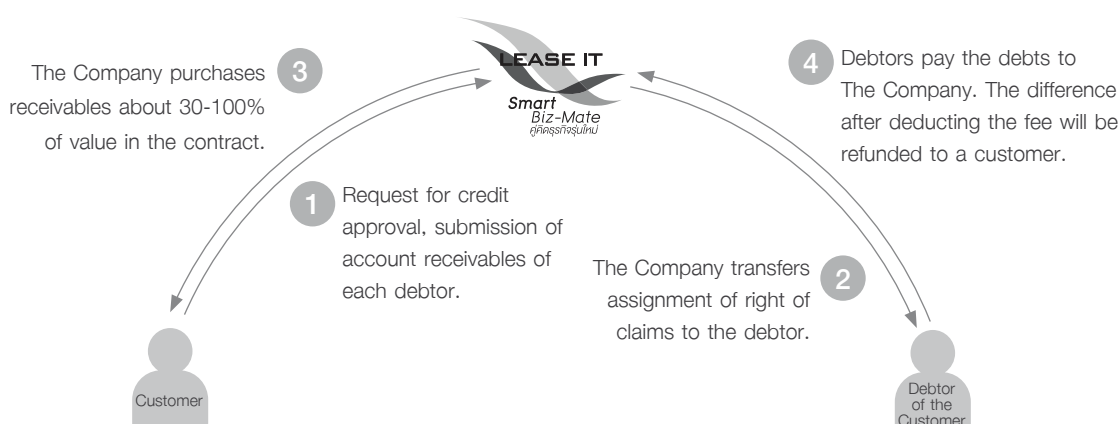

(1.3) Factoring

The Company provides factoring (short term credit) for working capital for entrepreneurs. The Company typically purchases receivables without having collateral but there is a transfer of commercial debt claims on customers to the Company. Transfer of rights (with recourse) means that the Company would have right to claim the customer. In case the debtor does not pay on time. The Company will focus on providing service to entrepreneurs, Small and Medium Enterprises who need cash to current operations and business of trading goods and services for example, purchasing and selling in general, commodities or maintenance services of IT equipment, general office equipment. The Company usually avoids buying commercial debts by way of complex delivery terms because the goods and

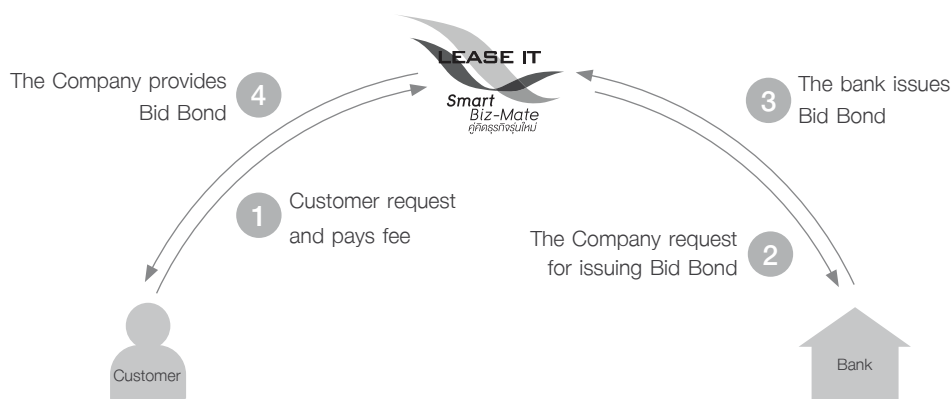

services might contain complicated disputes in terms of the integrity of commercial debt. As a result of that, the Company would focus on the purchase of accounts receivable mainly from the government agencies and state enterprises including large private enterprises. In most cases, the Company would purchase receivables less than 90 days. When payment is due, the Company would bill the amount directly to the debtor to pay off debts with the Company if there is a reminder the Company would refund the difference to customer.

Interest rates would depend on the size of the business, financial position of customers, including the quality of the trade receivables.

(1.4) Bid Bond

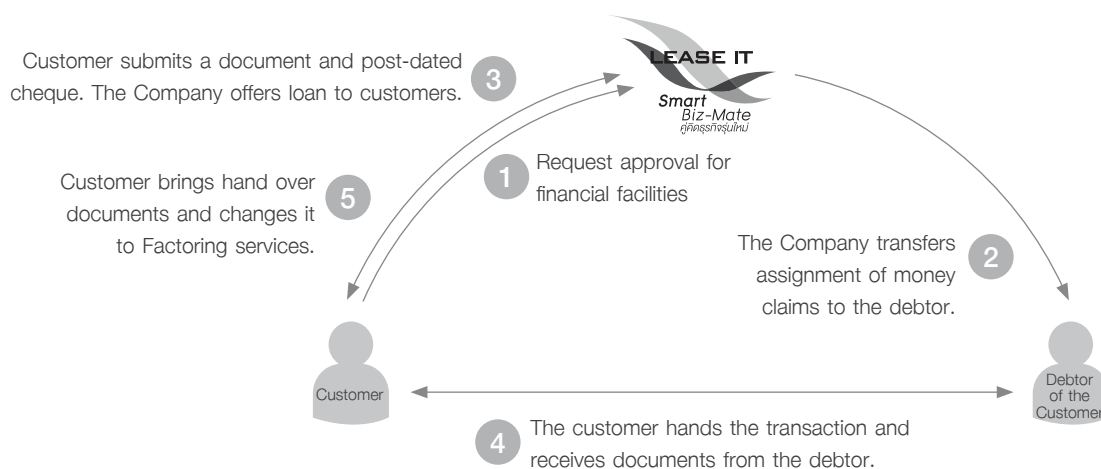

The Company started its business of providing Bid Bond in year 2010. The main goal was to support the issuance of a bank guarantee to those customers and operators who wish to bid in projects of the government agencies and state enterprises with the age according to the period specified by the government agency or state enterprises. The Company provides loans credit in accordance with the bid bond. Customers must present a bank guarantee or collateral returned to the company on the agreed date.

(1.5) Project Backup Financing

The Company provides credit to customers who need capital for the procurement of goods to be delivered to the government agencies, state enterprises, or large private enterprises. The applicants need a contract to deliver goods and services between the customer and the Company's trade receivables for consideration. The loans take place in term of supporting projects for clients to supply or deliver goods and services are considered as high risk. Almost all customers have had business

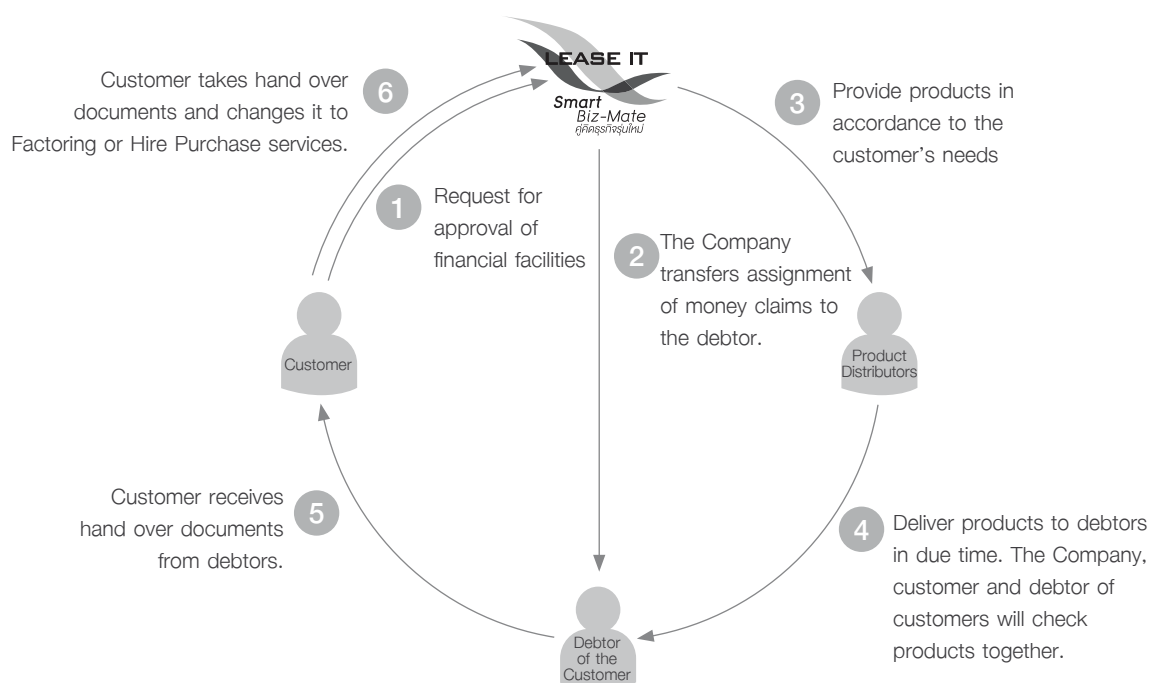

dealing records with the Company already and have a good payment record with the potential to do the project. It also requires the transfer of right of claims in payment of amounts through the Company to reduce risk. Once the customer has delivered the goods to the debtor and received the approval document. Most customers request for the factoring services with the Company, their intention is primarily to make a loan payment.

(1.6) Trade Finance

The Company arranges products for those entrepreneurs who lack of funds in order to supply the products to government agencies, state enterprises, or large private enterprises. The Company aims to continue to provide products from suppliers in accordance the customer needs and take the difference between cost price and sale price (sale price minus cost price). The Company will check the products together with the customer and the debtor on site. Trade finance is considered high risk; therefore, almost all customers are those customers who have previously had any business dealing records with the Company already and had a good payment record in the system. To reduce such risk, it also requires the transfer of right of claims in payment of

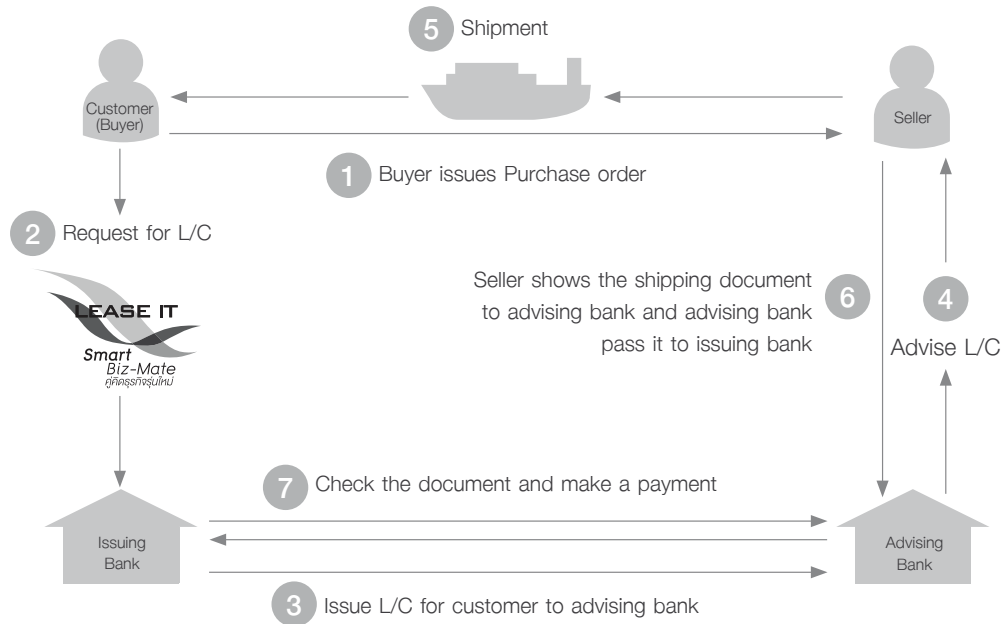

amounts supported by the Company or having a written authorization from the Company. In most of the case, after the Company has provided products for the customer and the customer has delivered them to the debtor and also received the approval document, the customer may request for factoring services, leasing services, or hire purchases services with the Company in order to assure the repayment of such loans. However, in cases the debtor of the customer has delayed in hand over transaction, that causes the customer cannot take hand over documents to the Company to receive loan within the due date. They will have to pay for the interest and penalty to the Company.

(1.7) Letter of Credit (L/C)

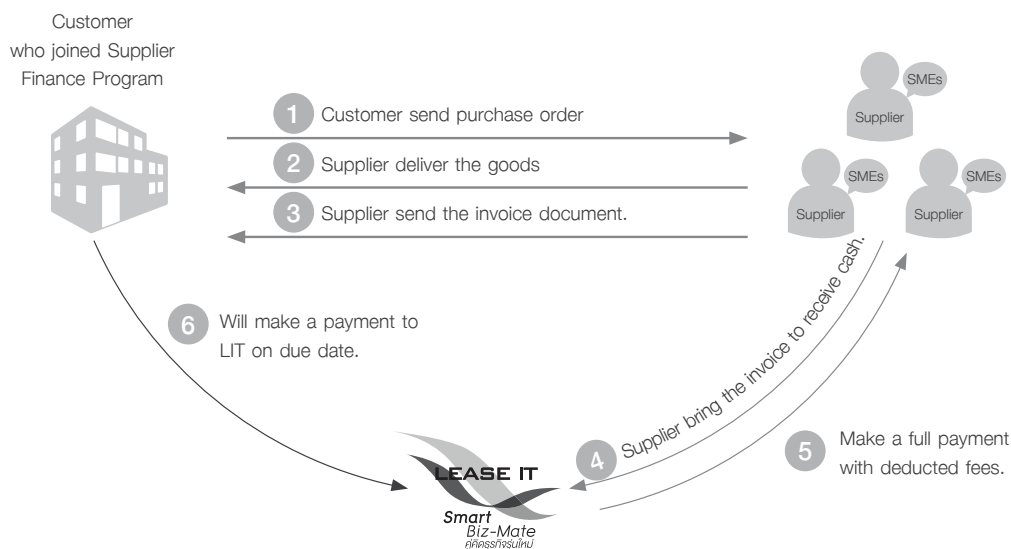

The Company offers financial credit in form of Letter of Credit (L/C) to customers. The Letter of credit is the document using to guarantee the payment of buyer. By using Letter of Credit, the seller will receive payment after delivering goods and the buyer will pay after receiving goods.

Letter of Credit (L/C)

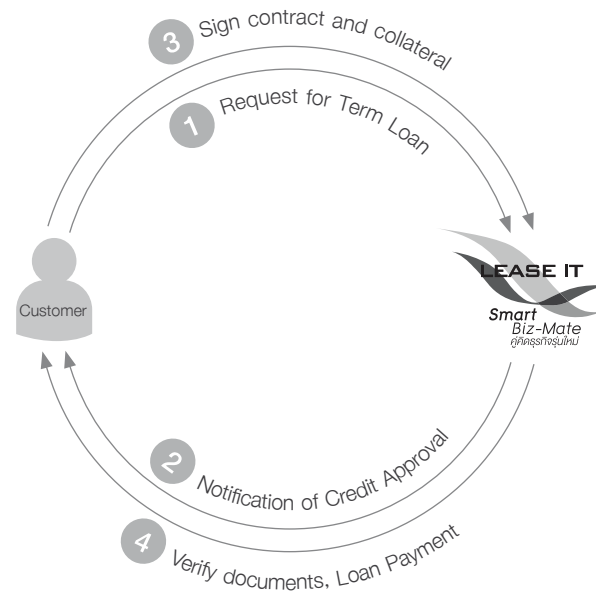

(1.8) Supplier Finance

Supplier Finance program allows the SMEs suppliers of the Company who joins Supplier Finance program to receive immediate cash payment without waiting for credit term due of the seller. By doing this, supplier can improve their cash flow while the seller company, who joined the program, can improve their supply chain.

(1.9) The Term Loan Project is a secured loan to enhance liquidity for entrepreneurs to expand their businesses. The credit consideration based on individual customer's risk. The Company provides the Term Loan to support economic expansion.

(1.10) Electric Motorcycle Loan Project is an expansion of the loan business to personal microfinance loans. The Company respond to government policy in promoting electric vehicles. It is also a loan that helps support the reduction of greenhouse gas emissions, In line with the Company's Sustainability Policy.

Guidelines for credit approval of the Company are as follows.

- 1) Initial consideration: Marketing and Sales Officer contacts, gathers information, collects customer documents..
- 2) LIT Service Management Co., Ltd. (Subsidiary) conducts credit analysis by analyzing the leverage of customers and debtors, characteristics of the projects, ability to deliver goods or services of customers and evaluates the process of receiving repayment of debtors.
- 3) To the approval authority for credit approval.

Credit approval

The Board of Directors has established credit approval authority for all types of credit. The Board of Directors has the authority to approve unlimited amounts. Board of Management Credit Committee and others according to Authority Table of the Company.

Control and monitoring of debtors

The Company keeps track of unpaid debts from the first day of the customer's outstanding payment. Whether the customer has problems from business operations or other factors that may cause default on payment, which make the Company unable to receive debt repayment, the Company has a unit to closely and regularly follow the customers. The Company adheres to debt collection that must be done as quickly and efficiently as possible. The debt quality of all customer groups will be closely monitored. The monitoring results are also reported to the executives on a weekly basis. Including the establishment of a Debt Resolution Strategy Working Group to determine policies and guidelines for debt collection of each debtor of the company. Including hiring an outsource company that has expertise in debt collection to expedite and deal with debtors closely. Measures for monitoring will be taken as follows.

- | | |
|---|---|
| 1) Not more than 3 months overdue, | the Operation Department and the Sales and Marketing Department track customers to determine the cause of delay in such accounts receivable and negotiate on fixing debts and report the summary to the executive meeting. |
| 2) Over 3 months overdue, | there is no progress, a claim letter is issued by the Legal Department. |
| 3) Over 4 months overdue, | the customer cannot comply with the conditions previously negotiated. The Legal Department must send a claim letter. |
| 4) For over 6 months overdue, | the customer fails to comply with the agreement, the Company will refer the case to the Company's Legal Department (Outsource) to further take action against the customer. The Operation Department closely monitors the work. |
| 5) In case of damage that clearly occurs, | the Company takes legal proceedings for each measure simultaneously without waiting for the time or steps of each measure. It is necessary to implement all methods quickly and efficiently as possible. |

Business innovation development

The Company continually uses the credit scoring model to support Factoring. And have improved the conditions to be in line with the current.

In 2020-2021, the Company has prepared related policies and activities to be in line with Personal Data Protection Act B.E. 2019 and use software to control compliance with personal data protection regulations and policies

In 2023, the Company has developed the core information system (Core Loan System) to be more modern and efficient. The Company has also developed Mobile Application Ulite to support new target customers, including students, employees of private companies, state enterprises officer, government officers and freelancers. The Company has developed Business Intelligence Dashboard system to support information in consideration and decision making. And the Company has procured and developed tools for storing documents in the form of electronic files for ease of storage and searching. It has also developed measures to maintain data security, clearly defining the rights to access each type of data and the Company has brought Robotic Process Automation Program to help in various operation areas . To improve work efficiency and reduce redundant work as well.

(2) Marketing and competition

The Company realized that access to capital for SMEs and Retail Customer is an important factor in Economic Growth. In the past there have always been the limitation of accessibility for appropriate funding. They could not access to funding because of the inequality in providing loan. If the problem can be solved, it will be a full driving force for the economy growth.

Ultimately, Lease IT is designed to solve the problem for SMEs and Retail Customer. Lease IT currently has financial products that support both Retail and SMEs Group.

1. The Company still focuses on lending in low-risk financial products for SMEs such as Factoring, Hire Purchase, Leasing. In addition, the Company has launched a new financial product, Term Loan, to enhance liquidity for our good customers. Term Loan is Micro Loan for SMEs with collateral and without collateral.
2. The Company is committed to providing financial alternatives for retail customers. In 2023, The additional Company's target groups which are employees, government officials, state enterprises employees, freelancers, and professionals. Due to selling products and services inform of Installments (Buy Now Pay Later) via Mobile Application with not less than 30 partners and more than 200 brands of products.

Competition conditions within the industry in the past year and trends in the industry and competition conditions in the future.

Competition in the SMEs business loan industry is moderate to high. This is because the demand of SMEs Loan continues to increase, but the standards of lending approval have become stricter. Competition for potential borrowers and proper customer screening have therefore become the main challenges of this year's industry competition. The important factors are as follows:

1. The target groups of the Company which are small and medium-sized enterprises (SMEs) that have limited access to financial institutions. However, after the COVID-19 crisis, Banks are increasingly playing in the SMEs market. Beware of the quality of the debtors along with debt resolution.
2. Most of the Company's customers are Small and Medium Enterprises (SMEs) that have limited access to financial institutions. As a result such entrepreneurs choose to use the services of lenders outside the financial institution sector or Non-Bank.
3. Because Small and Medium Enterprises (SMEs) could not get into financial institutions. Those entrepreneurs who have never used Non-Bank financial services, therefore they turn into borrowing from Loan Shark, which is illegal. They are being taken advantage of by charging interest rate that are higher than the law or illegal debt collection etc. Therefore, the Company's direct competitors are included loan shark too.

In the past, many customers had been loan sharks' customer, but now have been the Company's customer. The Company has many advantages compared to informal lenders in many ways. Whether the interest rate is cheaper than loan shark. Therefore, it is seen that the Company has a high opportunity to compete with loan shark.

4. Currently, there are new Digital Lenders emerging in the form of startups. There are new players in the lending market for entrepreneurs, giving entrepreneurs more options such as Peer to Peer, Lending, Crowdfunding, etc. In addition, the Ministry of Finance has increased channels to access to financial sources for retail customer. In order to prevent and solve the problem of loan shark. Therefore, a new type of microfinance business has been allowed, namely PICO finance, in which the operators can charge interest, fines, service fees, and other fees not exceeding 36% per year. This has caused the loan market to have more players who has PICO Finance License to compete under the risk framework of each organization. In addition, the COVID situation has accelerated the market for business loans that are provided online significantly.

Competitive Strategy

The trend of competition in the industry is increasing due to the entry of new players. And the current market situations, the Company must be adjusted to be in line with the situation and generate as much income as possible based on acceptable risks for sustainability growth. The Company continues to pursue its goal of generating income for stability with risk management continuously. From the analysis of the competitive situation, there are high competition because of increasing of many new player of Digital Lending. Along with this, the demanding of SMEs Loan continues to increase. but the standards of lending approval have become stricter, Therefore

1. In 2023, the competition for potential borrowers and proper customer screening will therefore become the main competition issues in the industry this year. Building credibility and corporate image (Rebranding), creating customer satisfaction, creating Brand Loyalty, maintaining Existing Customer, and developing customer relations (CRM) are therefore important in order to prepare to be armed in the Competition to find new customers and maintain the old customer base of Lease It.
2. Develop new financial products: The Company has a project to develop new loan services. To expand the loan portfolio of existing customers and capture new customer groups.
3. Maintain the Existing Customer, because they are a closer relationship with the Company and the Company could assess risk easier than new customers. And the Company can build customer loyalty by increasing customer satisfaction to create sustainable growth, creating a loyalty program to encourage customers to repurchase, creating long-term relationships, there are customer database for providing new product and there is a policy to develop Customer Relations as well.

4. Strategies for improving the efficiency of the credit process in a timely and transparent manner, as well as raise the level when the problem has been occurred. To be able to meet customer needs and reduce the chance of bad debts occurring. Uncertainty during the COVID-19 outbreak, the recent economic situation has affected Small and Medium Enterprises (SMEs), causing distressed debt. Which the Company have to carefully managing. Some debtors have poor liquidity, The Company proactively helping customers after the crisis by leading customers to a timely debt restructuring plan. So that customers can survive in the business in the long term and have the ability to repay debts to the Company.
5. The installment project for retail customer with Mobile Application, which is the application of Ulite Digital Co.,Ltd. (Subsidiary), This is the expanding to more customer in e-commerce. In the past, COVID-19 has accelerated the growth of e-commerce. The new target groups are employee, government officer, student, whom can apply. The application capable customer who love comfortable, speedy with installment in form of Buy Now Pay Later. This is popular in the group of Gen Z, who think that it is uncomfortable and complex to apply Credit Card, but it is easy to use via mobile application.

(3) Source of Fund

Trade Finance	1.69	0.10	1.81	0.09	2.20	0.09
Total	1,720.65	100.00	1,947.50	100.00	2,383.23	100.00

Note : Account receivables excluded allowance for expected credit losses

As of 31 December 2023 and 2022 was 546.13 million baht and 693.54 million baht, respectively, decreased about 21.25% due to the expansion of economy has not yet recovered as expectation causing business transaction decrease then effect to lower financing. Moreover, The government budget is still under consideration for the new annual budget, resulting in fewer business transaction who clients work with the government sector.

The Company has receivables under loan agreements as of December 31, 2023 and 2022 in the amount of 1,068.51 million baht and 1,134.15 million baht, respectively, which decreased by approximately 5.79 percent compared to the end of 2022 because they are high-risk products and being in the construction industry As some customers began to lack liquidity due to the economic situation, the Company therefore reduced lending of this type. The Company also focus on debt collection during the year.

For leasing and hire purchase as of 31 December 2023 and 2022 was 52.29 million baht and 82.16 million baht, respectively, decrease about 36.36% when compared with the year 2022 due to lower demand for leasing and hire purchase from government project is in consideration for the new annual budget. So, the Company has new product, Term loan to support liquidity's client for expansion their business. The was outstanding of Term loan about 20.18 million baht.

Allowance for expected credit losses policy

The Company recognized expected credit losses on financial assets which are measured at amortized cost using the General Approach. The Company classifies their financial assets into three stages based on the changes in credit risk since initial recognition as follow:

Stage 1 : Financial assets where there has not been a significant increase in credit risk (Performing). The Company will use a probability of default that corresponds to remaining maturity for financial assets with a remaining maturity of less than 12 months.

Stage 2 : Financial assets where there has been a significant increase in credit risk (Under-Performing). The Company recognized allowance for expected credit losses at the amount equal to the lifetime expected credit losses of financial assets.

Stage 3 : Financial assets that are credit-impaired (Non-Performing). The Company recognizes allowance for expected credit losses at the amount equal to the lifetime expected credit losses of financial assets.

The Company is to evaluate the increase in credit risk of loan receivables, factoring receivables, and financial lease and hire purchase receivables since initial recognition by comparing the default risk between the reporting date and initial recognition date. For the basis used in the evaluation, the Group applies an internal quantitative and qualitative basis and uses forecast information to assess the deterioration in credit quality of customers such as Days past due, compliance with conditions under debt restructuring contracts or according to court proceedings, High-risk group and that are closely monitored by management.

The Company evaluate provision by each agreement thus in case customer couldn't deliver their work and there is any risk that they could not do within timeline. The Company has to record allowance for expected credit losses each agreement offset with any guarantee i.e. cash received in advance or deferred cash return.

Bad debt write-off policy

The Company has write-off of bad debt policy under Ministerial Regulation No.186, (B.E.2534) Issued by the Revenue Code which has to authority by Management or Boards of Directors.

2 Risk Management

Risk Management Policy and Plan

Lease IT Public Company Limited has realized the importance of Enterprise Risk Management (ERM) in the management system and operations that are important to achieving the specified objectives efficiency and effectiveness throughout the organization. The Board of Directors has assigned the Audit Committee to perform the duties of the Risk Management Committee. and has appointed a risk working group to oversee the operations of all departments within the organization in accordance with the principles of good corporate governance. and support successful risk management at the organizational level.

The Board of Directors has assigned the Audit Committee to review the Company. There is a management system. Appropriate risk Efficient and effective There is a Risk Management Committee responsible for setting risk management policies. To cover the entire organization. Including supervising the system or process. Manage to minimize impacts on the company's business appropriately and report key risk management results to the company's board of directors in cases where there are important factors or events. which may have an impact on the company significant.

1. The Company is committed to creating and promoting a concrete risk management culture. Let executives and employees be a part of developing the risk management process. To achieve the company's objectives. By assessing risks to cover all aspects. and meet the expectations of stakeholders
2. All employees of the company and executives at all levels are owners of risk. It is responsible for identifying and evaluating impacts. and report risks to responsible agencies Including determining appropriate measures by taking into account the costs incurred in comparison with the benefits that will be received. To ensure effective risk management Reduce the likelihood and impact of an event to an acceptable level.

3. Monitor and evaluate risk management. To ensure that risk management is of high quality and appropriateness, know all risks that have a significant impact on achieving the objectives. The company is reported to responsible management and is able to respond in a timely manner.

Risk management culture

The Company recognizes that risk management culture is an important element in risk management. The aim is for all employees to have awareness of the risks. It aims to make all employees aware of the risks in their operations and apply risk management to see results in practice. The company requires executives to be Risk management communicator By transferring ideas from the executive level to the employee level. Including organizing an exchange of risk management experiences. in order to have appropriate risk management

Risk management framework

Risk management is a component of good corporate governance. The Company requires risk supervision. It is part of the management throughout the organization. The risk management team is responsible for supervising operations. It complies with the principles of good corporate governance and require risk reports to be reported to the board every quarter. To ensure that supervision Duties and responsibilities are appropriate. and make risk management effective. In addition, it can create additional value for the company's stakeholders as well.

Risk factors to the business operation of the Company

1. Current risks and potential risks 3-5 years

1.1 Current risk

(1) Credit Risk

Due to the nature of the Company does not emphasize collateral. Because the Company has transaction with debtor which is the Government Sector and State Enterprise in which the rights to claims to receives money are mostly transactions. Therefore it is considered to help reduce the risk to a preliminary level.

However, the Company has credit management policies by setting rules and defining procedures to check both customers and debtors carefully before approving any types of loans. According to the policies, the Company relies on the quality of customers, account receivable including products and services to be delivered.

The Company is aware of the uncertainty of the current situation and economic conditions. Therefore closely monitored the quality of debtors in order to improve the criteria and credit approval process and appropriate credit risk management by focusing on developing a systematic credit risk management process good performance standards as well as monitoring and controlling the risk of overdue credit at an acceptable level. The Company has established and assigned a subsidiary "LIT Service Management Co., Ltd." to be responsible for rigorous credit consideration and analysis in every step of the process. to screen only quality loans into the Company's credit portfolio, by verifying customer information (KYC/CDD), using a credit scoring system (Credit Scoring) as well as analyzing debtor's ability to repay debt, which is a business partner of the loan applicant (Customers of the Company) and analyze the process of debt collection from debtors to prevent debt collection controversy and the process of verifying information about the identity of the debt ability to deliver goods and services. It also focuses on lending to low-risk products as well as expanding its work with government agencies, including lending in industries that have a tendency to grow as well.

(2) Risk of Interest Rate Fluctuations

Typically, the lending interest rate is a major cost of the Company that varies according to the market interest rate. It affects interest rate valuation for the customer. The change of interest rate valuation may affect the operation performance of the Company.

The Company has policies and risk management guidelines from interest rate fluctuations because they are a major cost of the Company. In most cases, they are short-term loans in factoring, bid bond, project backup financing, and trade finance services. The Company is able to adjust the interest rates or fees based on the fluctuations in its financial costs. For the leasing and hire purchase services, the Company's interest rates are fixed for customers, however, the difference between the cost of funds and interest rates will be added to compensate the risk of interest rate fluctuations in the future.

However, the Company has managed to find a source of funds for a period corresponding to each loan type (Matching Source) to reduce the risk of fluctuations in interest rates by another way.

However, according to the policy and guidelines for managing funding sources, the Company has Interest Bearing Debt according to the statement of financial position as of December 31, 2023 as a debt with a fixed interest rate of 355.85 million baht and There is no floating interest rate debt.

(3) Risk of Asset Quality

The Company is exposed to asset quality risk, with a high proportion of Non-Performing Loans (NPLs) resulting from the ongoing COVID-19 pandemic. This causes the recovery of various economic activities to be discontinuous and the prohibition of certain types of businesses during the situation. As a result, customers lack liquidity for operation. In addition, inflation causes various costs to increase, affecting the ability to repay debts. In addition, TFRS9 accounting standards requires companies to include risk-shifting loans as part of Non-Performing Loans. Such as past due payments. Debtors in groups that are in the process of whose management is especially careful because they are at high risk, etc.

The Company continue to focus on lending policy by continuously increasing the proportion of lending to the Government Sector. As a result the Company currently has a ratio of customers with debtor in the private sector to customers with debtors who are government agencies.

In 2023, the proportion was 34 to 66 percent. In addition, the Company increased the intensity of screening new loans and also focused on low-risk products. Reduce lending in high-risk or complex industries, including lending under collateral to cushion the risk of high-risk.

(4) Risk of maintaining financial ratios of the Company

(4.1) Risk from the Company having to maintain the debt to equity ratio in accordance with the rules specified in the terms and conditions of the rights and obligations of the debenture issuer, which must be maintained at a ratio of not more than 4.0:1 at the end of each quarter or the end of the fiscal year throughout the life of the debentures. There are measures to keep the ratio not more than 4 times. The Company can maintain the ratio including an appropriate capital structure

(4.2) The risk from the Company The ratio of debtors to secured debentures must be maintained. The ratio is not less than 1.5 (one point five) times at the end of the quarter or the end of the fiscal year throughout the life of the debentures.

As of December 31, 2023, the Company has debt obligations for secured debentures in the amount of 300 million baht, and the Company has total debtors according to the terms and conditions exceeding 1.5 times of the secured debentures.

(5) Liquidity Risk

From 2021-2023, the Company has operating losses from the high disproportionate credit loss allowance following the increase in non-performing loans as a result of the increased risk. Significantly due to the impact of the economic recession resulting in a lack of liquidity for customers. causing inability to pay debts on schedule and reduced income from the strictness of lending in order to cause the least amount of non-performing debt from lending however The Company has many financial institutions that give financial support, the total amount of 700 million baht. Main financial amount is short-term loan. The Company still has a credit line of about 100 million baht that can be withdrawn unconditionally, which made the Company still able to manage liquidity.

In addition, the Company has liquidity management to prevent such risk by trying to allocate the use of fund to be in line with the source of fund (source of fund) of the Company It is a short-term loan with a maturity of 30-120 days, resulting in working capital from the credit portfolio of at least 300 million baht per month. Including the collection of non-performing debts and reducing unnecessary expenses, allowing the Company to maintain liquidity. In 2023, The Company has cash from operating activities in the amount of 192 baht.

The Company also has funding sources from new financial instruments. As a result of the Company's listed in the Stock Exchange of Thailand, such as issuing debentures. and additional credit lines from financial institutions and commercial banks, increasing capital, offering of warrant. This allows the Company to better manage its liquidity. Including increasing the ability to find funding sources for lending in the future.

(6) Risk from the Company Most of the debt is debt instruments.

Most of the Company's funding sources relying mainly on debt instruments. As of December 31, 2023, there was an outstanding debentures balance of 351.77 million baht, the Company is therefore at risk in case of unable to issue new debentures to redeem the previous debentures that are due to mature. However, as of 2023 the Company has already prepared cash and cash equivalents to repay some of the debentures due in June 2024 and still has borrowing lines from financial institution to support liquidity management.

(7) Risk Competitive

The Company has at risk to compete with financial institutions or lenders who have stakeholders being financial institutions. However, the target customer of the Company is different from the target customer of other financial institution. Most of them are small and medium enterprises with limited authorized capital and collateral which they are not supported by their financial institution. Meanwhile, there might be delays in the process of financial institutions and most financial institutions did not focus on the debtor as government agencies or state enterprises because the timing of payments was not clearly identified as large private enterprises. The specific group of enterprises prefers to use the services of loan from non-financial institutions.

Most competitors of the Company are non-financial institutions of loan servicing. They focus more on different types of loan services while our company provides a complete and integrated credit facilities by the important marketing strategies of the Company include a full service, quick and efficient processes, good relationship with customers, clear cut price, flexibility in lending.

(8) The Risk of Reliance on Personnel

Within the business model of the Company, employees are the key personnel, especially in sales and marketing, because they are the people who reach out and connect with customers. The personnel are considered an important resource in the business of the Company. However, the Company has set up the policy in relation to reduce the risk of loss of such personnel by focusing on the development and promotion of the proper personnel involved in the operation and growth. In addition, the Company has the policy to develop knowledge and ability to work as a team there not attached to the person. This will reduce the risk of relying on specific personnel.

(9) Risk of Influence in the Management of Major Shareholders

As of 31 December 2023, the SVOA Public Company Limited is a major shareholder with a shareholding proportion of 35.8 percent, able to control the resolution of the shareholding meeting on matters that are required by law or Company Regulations of receive a vote of not less than three-fourths of the shareholders' votes. Shares attending the meeting and having voting rights. This is because the major shareholder can use more than 25 percent of the votes for exercising the right to object in various resolutions. As a result, other shareholders may not be able to balance the votes of the major shareholders.

However, Major shareholders want the Company to operate independently because it is a completely different business from SVOA's business. Even though SVOA is the major shareholder, it is well aware that this type of business requires management expertise. It can be seen that most of the company's executives have experience in financial business. Meanwhile, the company has 5 independent directors and 4 members of the audit committee. All of whom have experience in financial business or have specialized knowledge that is beneficial to the company's business operations. To provide advice on business operations including checking, considering and screening to prevent transactions that may cause conflicts of interest in the future and to ensure transparency in the Company's operations

(10) The Risk of Information Technology and Communication

The Company has the risk of Information Technology and communication due to the Company has outsourced the software development for the Information System Management and provide database administration services, without a knowledgeable IT specialist to be responsible for database maintenance. However, the Company's information system has a quality and adequacy of decision making on financial information and other. The Company has also adopted a generally accounting policy. The Company has an efficiency information system including an access control system, data loss prevention, restore data, the copyright infringement controlling, reproduction, modification , edit electronic data or information technology maintaing confidential information, both Company and Customer information. So that the Company can effetinvely manage its information systems and data within the organization. The Company places importance on the development of modern information systems for growth in today's information technology REA. And to emphasize the experience and expertise in technology of SVOA Group.

At present, the Company continues to develop software for information management systems to be able to serve customers more efficiently continuously and to develop information for management decision-making and supporting the Company's Growth.

The Company has hired information specialists to be responsible for taking care of the information system infrastructure and database structure. In addition to provide reliable information for data analysis for management decision-making.

(11) Risk on corruption

The company engages in the business of providing loans in a variety of products. And the market for each product is different. which the company's customers There may be limitations on various matters, such as limitations on collateral for applying for a loan with the company. Restrictions on working capital, etc. From such characteristics, the company may face risks from corruption of employees, both those within the company. Or it may be caused by an outside person.

The company is aware of the possibility of corruption incidents and has therefore put in place an internal control system. and bring in information systems to help support Including the company It has given importance to cultivating awareness of honesty (Integrity). There is a channel for reporting clues, complaints, and suggestions (Whistle Blower) through the company's website. The company has established approval authority according to line of work. Control before granting loans by verifying the existence of the debt. Preparation of documents for transferring payment rights By allowing customers to transfer their rights to receive payments to the company, etc., the company There are guidelines for managing risks from corruption. By creating an anti-corruption policy. (Anti-Corruption Policy) to define roles and responsibilities responsibility Concrete procedures and guidelines for various matters.

(12) Corporate Image and Reputation Risks.

Risk to the reputation and image of an organization is important for every company as it is the reflection of the view by stakeholders on a company. Moreover, now a day, social network is an important communication channel to exchange information and news quickly and extensively. Consequently, if there is any negative news or incident appearing in social media which may be just fabricated rumors, inaccurate spreading of information on the Company via public relation activity or via the Company's website or social network including via advertisement in various documents or arising from a mistake in managing the business or simply ignorance which can affect the Company's image and reputation in positive or negative light.

In this connection, the Company has set up the Business Development Department to oversee and be responsible for using information in public relation activities so that it is factual and appropriate. Their responsibility include monitoring any material news on the Company, whether directly and indirectly, including consistently looking after and follow up on news and information appearing on the Company's website and social network in order to prevent or reduce misunderstanding that can affect the Company's image and reputation to the bare minimum.

1.2 Environment, Social, Government RISKS (ESG Risks)

(1) Climate change

Global warming problems result in the changing climate, rapidly changing seasons, melting glacier, higher sea level.

These things affect the current life and the business costs as well as delivery of the works. Although, the Company's business operations do not have direct impact on the environment, however, the use of electricity, energy of various kinds in business operations have indirect impact. The Company is aware and has set the target to reduce greenhouse gas emissions through various operations.

(2) Human rights in the supply chain

Respect for fundamental human rights, personal dignity, privacy and the rights of each individual that one contacts while working. The Company respects and abides by the law on human rights, including preventing and avoiding human rights violations of employees, trade partners and communities.

(3) Corporate governance

The Company operates a financial business that must be reliable and work within the legal framework. The Company has the Internal Audit Department responsible for inspecting the performance of various departments according to the regulations laid down. The audit results are reported to the Audit Committee and presented to the Board of Directors on a quarterly basis. Furthermore, the Company also has the channels for receiving complaints and has established guidelines for action if there are complainants. Besides, measures are available to protect the complainants.

1.3 Emerging Risk

Emerging Risk is the risk of losses which may result from unknown event/occurrence that has never taken place before or lacking of experience in facing such risk up to the present. In the future, there could be changes that take place as a result of various circumstances regardless of whether politically driven, legally driven, socially driven, technology driven or environmentally driven. In certain situation, it may not be possible to assess the impact or be unable to specify the risk. For example, the risk of various diseases or the risk arising from changes in weather conditions etc.

Emerging risk which may impact the Company could take the form of technological change i.e. Fintech, digital transformation, cyber attack and internet burglary. and the risk from the epidemic situation that may occur again Including extreme changes/volatility of the climate.

Due to the changing technology, there are new risks that may arise, such as the illegal use of personal identity information for inappropriate purposes. or without consent (Identity Fraud Risk), changing consumer behavior from increased use of technology Including the transformation to digital innovation. and the risk of being prosecuted In case of leakage of customer information and damaged customers.

Approach to risk management

- Collect information from reports or events which may turn out to be emerging risk from various sources, for example, World Economic Forum, state agency etc. in order to understand and find ways to eliminate/ reduce the impact on the organization appropriately.
- The Company is in the process of developing IT system to enable quick response to customers' requirements for prompt, correct and accurate information, taking into account data security is important.
- Manage and prepare the team to be able to cope with various changes such as preparing knowledge about Fintech (Financial Technology) to be able to lead the business through the Digital Transformation era.
- Create a risk management plan. Determine methods for managing risks to an acceptable level. and follow up on reports summarizing risk management results to ensure that risk management is of high quality and appropriateness.
- Have a Business Continuity Management.

Business Continuity Management (BCM)

Business continuity planning is the preparation of roadmap for managing business uninterruptedly without pause when the business is in the state of turmoil which could be the result of external or internal threats obstructing business operations.

1. Factor on losing the Company's prominent person

The Company realizes the importance of readying new & upcoming management team to replace the existing one upon the expiry of their tenure by preparing succession planning at the Chief Executive Officer/Managing Director level or Chief Financial Officer. Furthermore, the Company has arranged trainings for management at lower level including team head to witness the decision making process in loan approval via observing risks from all aspects.

2. Factor on losing the Company's critical information

The Company has information backup system both inside and outside the organization including disaster & recovery sites (DR Site) to support BCM's requirements, support storage and operation system backup including software and computer applications and related data so they can be retrieved and be ready for use at all times. As part of the process, the information will also be stored/back up at the disaster recovery sites on ongoing basis.

Upon the occurrence of crisis situation, the managing director has the authority to make decisions and give orders to resolve various emergency incidents together with other senior management members. All the company's staff and customers shall be informed accordingly via Line, email, the company's website or other appropriate channels.

Building risk culture in the organization

The Company realizes that organizational culture is an important component for the success of risk management. In this connection, the Company mandates that the management communicate the importance of risk management and act as the role model in risk management including applying risk management concept to the Company's operations. There is to be the transfer of risk management mindset from the management down to the staff level and to make risk management training/course be mandatory for manager level and up. Arrange to exchange risk management experience via strategy meetings and each member of the staff to become risk agent with the responsibility to report risk issues to his/her supervisor. If an employee discovers risk in the work process he/she has to report to the supervisor in order to find ways to prevent or minimize such risk.

2. Investment risk of Securities holders

(1) Risk of changes in the price of securities

Because the demand and supply of the market are constantly changing. This is often caused by variety of factors that the price of securities does not depend only on the Company's performance. Therefore, it is a risk for securities holders to invest with the Company. Securities holders therefore often diversity their investments in various industries in order to diversify their risks and minimize the loss of full or partial money.

(2) Risk from the ability to pay dividends

The ability to pay a company's future dividends depends on a number of factors, such as operating cash flow, the need to reserve capital for business expansion, etc. If there are factors affecting the ability to pay dividends, there is a significant change. The Company may be at risk of paying dividends at a lower rate than the predetermined or unable to pay dividends.

3. Risks of investing in foreign securities

The Company does not invest in foreign securities.

3 Driving business for sustainability

Sustainable Management Policy and Goals

The Company has set the sustainability direction in 3 main dimensions under the framework of the implementation of good corporate governance as follows:

1. Economy

Encourage Thailand's Economic by supporting SMEs to access source of fund systematically

The Company aims to be a non-financial source of alternative fund for Small and Medium Enterprises (SMEs) which cannot access to source of funds, not being supported by financial institutions even that those SMEs have potential to grow. Such businesses normally require funding outside the system (loan shark) which is a barrier to succeed the Company's goals in long term.

a. Product Innovation for SME

The Company considers developing a variety of financial services to provide total financial solutions especially for SMEs in order that SMEs can grow in accordance with their true capability.

b. Financial Partner

The Company is supporter and financial advisor for SMEs to have knowledge in accessing source of funds based on the philosophy of growing together between customers and the Company as a financial partner that supports customers to be successful and sustainable.

2. Social

Develop strong society

The Company gives importance to developing strong society according to good governance guideline so that the Company sets clear guidelines for executives and employees to conform as followings; Anticorruption, Human Right, Accounting operations, Fair labor practices, Health and safety in the work environment, fair business operation and responsibility for business partners, Breaches and supply chain management.

3. Environment

The current environmental problems which tend to be more serious. As a part of mitigation or impact arising from Human actions, either directly or indirectly. The Company and employees have created a consciousness to protect the world, protect the environment. It is believed that the small dots, when combined together, constitute a group and the power to reduce various pollution and help create a good environment in the future.

Sustainable development guidelines

The Company is determined to operate under good corporate governance practice by taking into consideration economic, social and environmental impacts. The Company specified an approach to sustainable development with participation of the stakeholders as follows.

1. To monitor developments, events, changes in related industry by considering factors that impact the business, society and the Company's environment such as the changing weather conditions, financial technology, international sustainable standards e.g. Global Reporting Initiative (GRI), Sustainable Development Goal (SDGs).
2. Accord importance to all stakeholders' expectations via participation in various activities, for example, conducting survey of customers' satisfaction, trade partners' satisfaction, employees' satisfaction, including taking into consideration the Board of Director's suggestions in order to improve and meet the expectations of the stakeholders appropriately

Disclosing the policy to all groups of employees and stakeholders as follows

1. Corporate Governance Policy

- Rights of shareholders
- Equitable treatment of shareholders

Sustainability management in the environmental dimension

1. Environmental Policies and Practices

The Company is aware of current environmental problems which tend to be more serious. Currently, there are organizations, government and private sectors, including non-profit organizations which are watchful and care more about environment. Therefore, to be a part of relieving or reducing any impact arose from human direct and indirect actions, the Company aims to implement in regard of environment to produce mutual benefit for the Company's every employee level and to reflect the responsibility for society, community, environment, and stakeholders according to the following approaches:

1. Implementation of activities of the Company and its subsidiaries shall strictly comply with related environmental laws and regulations.
2. Creating conscience for world saving to employee in order for them to be aware of the impact from doing or not doing things with a belief that many small parts can become a group and power that will reduce or relieve pollutions to forward good environment to our next generation by providing training that gives and publicizes knowledge to everyone.
3. Intention for the most efficient and worthy resource use.
4. Every executive level supports various aspects, for example, personnel, tool, time, budget, etc., in order for its implementations to be achieved according to the determined objectives.
5. The Company aims to develop the quality of life of its employee by promoting good atmosphere and environment to work pleasantly together with improving working performance to be efficient and met the Company's goal.
6. The Company will provide an advice channel for environmental problem-solving guideline of the most benefit by informing any responsible departments to lead to sustainability, which will be coordinated with every department for achieving the success in environmental problem-solving.

The Company aims to reduce any impacts arose from any aspects of environment and publicizes to its employee implementation results, including the following annual report:

- Reduction of greenhouse gas emission by reducing paper and electric energy
- Sorting the type of garbage before disposing and also record the amount of waste that has been recycle and income from garbage disposal.

In year 2023 the Company has a project to reduce electricity usage by requiring turning on-the air conditioning system during 8.00-18.00 each day. Turn off the light during the lunch break and after work. Reduce the use of water and reduce paper use, by using both sides of the paper before disposing.

Resource and Environmental Management Process

The Company emphasize the important of doing business on basis of good corporate governance, also responsible for society and the environment. By doing this, the Company has determined guideline for executives and employee to comply with good governance, transparency and ethics.

To achieve successfully and sustainable in a socially responsible and environmentally, the Company has established a policy of commitment to social responsibility and environmental activities. CSR policy functions are built to achieve continuity through the following procedures:

- To take continuous action.
- To link the various projects and activities together.
- All employees are required to participate in the activity.
- To build a network, such as CSR partner involvement of partners and so on.

The Company has focused on environmental protection and promote activities to reduce global warming. It focuses on simple activity which can start within our organization. Therefore, the Company have created awareness for employees aware of the importance of natural resources. As well as arrange the training to understand how to protect environment, starting from a small spot within the Company and actively promoting the practice as following:

- 1) Securing Forest: To promote use of recycled paper and paper saving
- 2) Reduction of electricity consumption: To promote the efficient use of electricity and the use of environmentally friendly electrical equipment.
- 3) Water conservation: Promote water saving.
- 4) Reduction of waste: Encourage employees to separate waste before disposing

Management Approach

The Company has assigned an environmental management policy to conserve environment and energy for reducing greenhouse emission from its operations by having the following process:

- Reduces corporate energy and resource uses
- Reduces greenhouse emission caused by the Company's energy use

- Determines for the members of its strategy team to be a committee of energy conservation which is responsible for energy management, follow up, inspection and collection of information of energy used inside buildings for constant development and improvement to meet the Company's goal.
- Assigns for energy conservation, water resource management, garbage and waste management to be responsible by its executives and every employee level by collaborating in every aspect.
- Provides knowledge, promote, and support its employee to participate in the measures of energy conservation, water resource management, and garbage and waste management. In the past years, there was a campaign of water and electricity resource reduction once they were not used.
- Assigns for goals of energy conservation and greenhouse emission to be the Company's indicator.

2. Environmental performance

Operation results are as follows

The Company calculated the volume of carbon footprint using carbon footprint by program for office/hotels and others developed by Thailand Greenhouse Gas Management Organization (Public Organization (TGO)). In 2023, the organization released greenhouse gas at the volume of 42.23 ton carbon dioxide (tCO₂e). In 2023 the Company's activities to reduce greenhouse gas by separating wastage for recycling and was able to reduce greenhouse gas release of 2.57 tCO₂e or 6.08% of released greenhouse gas.

Summary of Carbon Footprint (tCO₂e)

2023	Greenhouse Gas Quantity	% reduce
Greenhouse gas emission	42.23 tCO ₂ e	
Reducing Greenhouse gas emission	2.57 tCO ₂ e	6.08 %

Reduction of resource usage

Reducing paper use and wastage from printing documents.

1. The Company organized the Printer Management project with the objective to reduce paper wastage. Project results of the year 2023 can reduce expenses by 62%. (compare to base year)
2. Organizing meetings by reducing the use of paper, printing front-back documents, using re-use paper to complete 2 sides. In 2023, it can reduce the use of new paper of 5,891 sheets, equivalent to planting eucalyptus trees. Size 3-5 years, amount 0.90 trees, reduce the cost of using paper in the amount of 942 baht.

Environmental performance results in 2023

1. Electrical Energy Consumption

	2021	2022	2023
Electricity consumption per 1 sq m.	44.31 units	41.77 units	42.02 units
Electricity cost per 1 sq.m.	265.87 baht	250.65 baht	252.13 baht
Electricity consumption per 1 person	700.90 units	808.70 units	838.52 units
Electricity cost per 1 person	4,205.36 baht	4,852.20 baht	4,954.91 baht

2. Paper consumption

	2021	2022	2023
Cost of paper/ 1 employee	1,740.37 baht	1,501 baht	1,445.68 baht
Cost of paper/ 1 million baht of lending	20.31 baht	24.47 baht	28.70 baht

3. Water consumption

	2021	2022	2023
Water consumption per 1 person	N/A	N/A	1.67 units

The Company, with its non-bank status and operates as a lending institution, realizes the issue of environment, pollution caused by human behavior, stands ready to act in its role as a financier to support alternative energy promoters which operate environmental friendly projects to safeguard the environment and reduce greenhouse gas release.

Sustainability management in the social dimension

1. Social policy and practice

Develop strong society

The Company gives importance to developing strong society according to good governance guideline so that the Company sets clear guidelines for executives and employees to conform as followings:

1.1 Anti-corruption and Bribery Policy

The Company is committed to conduct its business with transparency. Anti-bribery and anti-corruption are defined as the main policy, or better said "Code of Conduct" of the Company. A code of conduct is a set of rules outlining the responsibilities of or proper practices for an individual, party or organization. Related concepts include ethical, honor and moral codes. Accordingly, directors, management and employees are required to comply with the Code of Conduct. Every single transaction through the Company is exempted from being involved in paying or offering bribes to other parties (or other agencies in all forms), whether the deviation from the Code of Construct is conducted directly or indirectly. On the contrary, the Company is highly encouraged to join the practices that will benefit all parties, or profit the operations of the Company legally and safely. In the past and up to this point, the Company has never ever faced any reports or complaints concerning bribery and corruption violations. To show commitment, the Company registered to be a member of PACT Network in year 2015.

In 2016, the Company has assigned a unit which is no conflict of interest, to review back to all customers who open new financial amount in order to collect information on corruption and bribery.

In 2017, the Company declared its intention to join the Thailand's Private Sector Collective Action against Corruption (CAC) on 9 June 2017.

In 2023, the company has reviewed and improved its anti-corruption policy. We have improved the channels for receiving complaints so that they can be sent to the Chairman of the Board of Directors. Chairman of the Audit Committee and the Audit Committee directly. The Company has established guidelines for receiving complaints as follows:

In the case where the whistleblower/complainant wishes to report a clue or file a complaint regarding conduct that is contrary to the company's code of conduct. corruption Complaints/clues can be reported through 3 channels: electronic mail at fraud@leaseit.co.th or registered mail. To the Chairman or Chairman of the Audit Committee or audit committee and through the complaint channel on the company's website

Actions when receiving a complaint

1. Chairman of the Board, Chairman of the Audit Committee, Audit Committee received a complaint
2. The Audit Committee will appoint a fact-finding committee to investigate the facts. If the facts are investigated and it is found that there are reasonable grounds to believe that the accused person has committed the act of accepting a bribe. Real corruption and misconduct The company will give the accused the right to know the allegations and the right to prove himself. When the investigation was completed, the accused had indeed committed a crime. The fact-finding committee will report to the audit committee for consideration.
3. Punishment will be carried out according to the regulations regarding the work of the company. and if that action is illegal Must be prosecuted to the fullest extent of the law, both civil and criminal.

The Company has a policy not to demote, punish, or have negative consequences for directors, executives, employees of the Company and subsidiaries who refuse to give and receive bribes and corruption. Even though that action will cause the company to lose business opportunities.

Measures to protect and maintain confidentiality

In order to protect the rights of the complainant Those who report clues, witnesses, and those who provide information act with honest intentions. The company will conceal the name, address, or any information that can identify the complainant or information provider. and keep the information confidential, limiting only those responsible for investigating complaints to have access to the information

For complainants or those affected, they will receive treatment and relief according to the Company's appropriate procedures.

Corrective measures

When the investigation is finished Fact-checking committee Line executives Related departments Risk Management Working Group They will jointly consider finding measures to correct the corruption incident that has occurred. or other events that may cause corruption To improve or add to the internal control system policy. work process Including civil or criminal litigation. and expand the results of the investigation to check corruption in other areas. that may be relevant By specifying corrective measures in each case, creating a corrective measures plan (Action Plan) with a time frame for implementation to present to the Chief Executive Officer (CEO) to consider taking appropriate action.

In 2023 There are no complaints.

1.2 Respect for Human Rights Principles

Moreover, the Company aims to expand basic human rights in terms of promoting respect for the rights and freedom of every individual through non-discrimination and anti-racist values. The concept of non-discrimination includes equality with respect to gender, social class, religion, or political beliefs of people. The Company freely accepts and tolerates those who think and believe in different ways. However, the Company does not merely focus on the promotion and protection of human rights. But it also emphasizes on the moral and ethical policies for all the employees involved with the Company. The rights for freedom of speech and expression of ideas also are fully considered under the Company's policy. As an instance, it is important for the Company to respect the all rights of stakeholders equally. Beyond of that, the Company takes social and ethical responsibility towards all its business operations in addition to different groups of people including customers, employees, investors, shareholders, stakeholders, board of directors, management, corporate governance team, and even the environment.

1.3 Tax operations

The Company requires its employee to strictly abide by the followings to prevent tax risk which may lead to any losses of the Company:

- Taxation: The Company avoids any fraudulent or incorrect or complication taxation for initial tax benefit and tax evasion.
- Tax system for corporate sustainability: The Company has its responsibility to the shareholders by being a company with excellent financial status and a tax system that sustainably increases value to the shareholders.
- Tax incentives: The Company aims to legally and sufficiently apply the tax incentives under consideration for sustainable and appropriate business operation in accordance with the efficiency principle of the tax system as defined objectives. The tax incentives include tax exemption measure at certain times, accelerated asset allowances or other incentives, which all of these are under national or local tax policy and used with any business that has its qualification met related criteria. However, such incentives may impact on consideration process for the Company's business operations, but it will only consider economic factors.

The Company paid tax at the rate of 20%, but due to the Company's poor performance, it does not pay tax.

1.4 Equitable Labor Treatment

All personnel of the Company are the most essential parts in operating its business. The Company shall give priority to them without discrimination. In regards to employment that emphasizes equality. There is no limitation or discrimination on gender, race, religion and culture, with reasonable and fair compensation. not discriminate as well as providing welfare in various areas, developing personnel to have knowledge and potential to increase in accordance with the changes that have occurred. The Company promotes its employee to be harmonious, rely on each other, not distinguish, treat to each other politely, and respect others' human dignity. The Company protects its employee from internal and external safety threats by providing good and safe working environment, appropriate wage and compensation, good welfare for its employee, and allowing its employee to grow under justified consideration process. For structure modification and corporate collocation, it shall responsibly implement them under the policy framework, including be strictly complied with laws and regulations related to labor. It shall provide innovation and technology to support the business operations to reward its employee who performs their job with maximum ability, speed, discretion, diligence, enthusiasm, consciousness, and rationality based on their knowledge without being taken over by emotions and seeking for knowledge.

In 2023, the Company has paid for the Fund for Empowerment of Persons with Disabilities as scheduled.

Good Practices

1. The Company equally treats its employee without discrimination for origin, race, gender, color, religion, disability, family lineage, educational institution or other statuses not directly related to working performance.
2. The Company gives opportunity to every employee to fully show their abilities with providing appropriate reward and motivates the working performance with salary, bonus, incentive, and appropriate working performance expense in accordance with the Company's rule.
3. The Company's employee shall perform their duties with maximum ability, good conscience, honesty, equity, virtue and ethics, and being responsible.

1.5 Health and Safety for Working Environment

A part which creates happiness to its employee whom is like a family member is providing a good working environment that supports the employee's health and enhancing safety management, occupational health, and working environment by fundamentally adhering to legal operations, furthering development and applying international measures related to safety expectation of its workers, customers, as well as those who are related to the Company's activities and operational areas due to that there is nothing which can be replaced or compensated such unwanted losses.

In 2023, there is no information about any injury or death or event related to safety for working environment. Demonstrate a good working environment and safety. In 2023 the Company has had fire drills and fire evacuation together with the building.

1.6 Justified and Responsible Business Operations to Partners

The Company focuses on providing services in such good ways that result in the utmost satisfaction of the clients. To achieve such goal, customers need to receive detailed product risk-return terms correctly and appropriately. Similarly, the Company must be sincere to handle the customer complaints including trying to fix the defects that probably are caused by the service

Partners and competitors are the outsiders whom the Company shall compete with according to the way of laissez-faire capitalism in running its business. The competition shall rightly be implemented, not distort information, not be fraudulent or use any other methods which are not incorrect and in line with good competition, maintain any confidentiality under related criteria and laws, as well as not illegitimately and unjustly seek for any information of its partners and competitors.

Good Practices

- The Company shall operate its business by taking justified competition into consideration, not incriminating and attacking its competitors without any reasonable information.
- The Company's personnel shall be careful in contacting any competitors and its personnel in any event, do not expose or neglect that the Company's confidentiality is its competitors' hands.

1.7 Breaches

The Company has assigned ethics as a guideline to be followed by every executive and employee. Breach of the Company's ethics and legal policies in any event shall be recorded and notified to the audit and corporate governance committees whom examine breach of ethics reports that are submitted through the complaint channel. The Company shall expose any information of number and cases of breach of ethics, morality, anti-corruption, and public bribery. In addition, the Company shall expose any information to the Stock Exchange of Thailand in case of any breaches which significantly impact on the Company.

In the year 2023, there was no complaint.

1.8 Supply Chain Management

Apart from focusing on its operations, the Company also aims to supply chain management with good governance, considering impact on environment and society to prevent any risks which may effect on the Company's image and operations both in direct and indirect ways. The Company follows up some of its partners' operations from news. If any breach matter is found, the Company shall review such partners.

The Company has its procurement policy which is transparent, justified, and verifiable, as well as strictly complying with related laws, treating every partner with impartiality, non-exploitation, equally providing full, correct, clear, and adequate information, non-discrimination, available anti-corruption policy followed strictly, and being against every kind of anti-corruption both in direct and indirect ways. However, infraction and non-compliance to the anti-corruption policy may lead its partners and contractors to be prosecuted.

The Company has set a payment period for the Company's partners in the amount of 30 days, with the average payment period to partners actually occurring in 2023 in the amount of 30 days, which is in accordance with the conditions without delay.

2. Social performance

Given that the Company is involved in the financing business, it was able to assist promoters to alternatively have access to funds other than via commercial bank loans in order to tackle the issue of informal debt faced by SMEs. The total loans granted in 2023 were 3,274 million baht. In the context of informal loans in the system, the Company assisted SMEs to shave off borrowing cost of between 1.5%-3.0% by extending loans in the total amount of between 49-98 million baht

Development of Technology and Innovation

Financial technology keeps changing forcing the Company to make adjustments to the organization for smooth operations. The Company has made improvements to the information technology system to be modern with greater working efficiency.

In 2023, The Company has continued to develop the core information system (Core Business Application). To be modern and more efficient in working, Development of Ulite Application to support more group of customers, including employees of private companies, government officials, state enterprises, freelancers, etc. The Company is in the process of developing a Business Intelligence Dashboard in order to have information to support decision making quickly and accurately. In addition, the company has procured and developed tools for storing documents in the form of electronic files for ease of storage and searching. The Company has established measures to maintain data security and has determined the rights to access information each type clearly.

Innovation

The company has brought in Robotic Process Automation to help with various operations, resulting in less work in this area and more ability to do other work.

The Company has used a Virtual Private Network (VPN) for work. In case of the officers have to Work From Home or the officers cannot come to the office. The Company has used the MS Team system for online meetings/seminars to reduce the risk of infectious diseases.

Environment

Climate Change

The Company realizes the importance of natural resources which is being depleted with time. The global weather condition is in the state of crisis. Every party concerned must jointly cooperate to alleviate the potential negative impact through various activities. The Company announced its intention to join the project “Talad Toon Thammapibarn” on the occasion of the King’s royal coronation rite to practice ‘Sufficiency Economy’ philosophy by managing the business with responsibility, always conscious of social and the environment benefit that will lead to sustainable benefit to the Company, concerned parties, the society and population at large. This is also in line with the global community’s Sustainable Development Goal. The matters that the company has specified are: Reducing greenhouse gas emissions by separating waste for recycling. It has set a goal of reducing greenhouse gas emissions by 5-20%.

The Company is aware of the impacts of climate change. and take part in reducing the impacts that will occur from business operations The Company has provided credit support to those who want to use electric motorcycles. It supports the reduction of greenhouse gas emissions.

The Company has arranged for waste to be separated so that it can be recycled. In 2023, the Company joined the “Ting to Trash” project, a project organized by the SEC Office and the Thai Listed Companies Association, to encourage proper waste separation and can help reduce greenhouse gas emissions as well.

4 Analysis and the management's explanations

Overall performance picture

Total Income

Type of Income	Consolidated Financial Statement			
	2023		2022	
	MB	%	MB	%
Interest Income ¹⁾	61.48	55.84	98.42	62.86
Fee and Services Income ²⁾	37.65	34.19	46.87	29.94
Other Income ³⁾	10.98	9.97	11.27	7.20
Total Income	110.11	100.00	156.57	100.00

Remark :

¹⁾ Interest income Comes from various products of the company and its subsidiaries

²⁾ Income from fee and service consist of fees for signing contracts and transferring rights, fees from opening credit line, fees from credit analytics of LIT Service Management Co., Ltd. and other service fees.

³⁾ Other Income, such as interest income from late payment and scrap value interest received from the bank, etc.

The revenues of the group company for the year ended 31 December 2023 consist of interest income, fee and service and other income at the proportion of 55.8%, 34.2% and 10.0% respectively. Interest income and fee income decreased because of low financing to high risk industry i.e. construction industry so revenue decreased. In addition, the Company focuses on new financing on low risk product and high liquidity, factoring in an economic slowdown in this year. As a result, the revenue decrease 46.5 million baht for 2023.

Interest revenues consist of income from finance lease, hire-purchase contract, factoring, project finance backup, term loan and installment sales. The breakdown of interest income classified by products for the year ended 31 December 2023 and 2022 are as follows:

Interest income	Consolidated Financial Statements				Change	
	2023		2022			
	Thousand Baht	Percent	Thousand Baht	Percent	Thousand Baht	Percent
● Installment Sales	1,975	3.21	4,411	4.48	(2,436)	(55.23)
● Factoring contracts	45,177	73.49	58,484	59.42	(13,307)	(22.75)
● Loan contracts	9,436	15.35	22,973	23.34	(13,537)	(58.93)
● Finance lease contracts	2,961	4.82	8,747	8.89	(5,786)	(66.15)
● Hire-purchase contracts	1,373	2.23	3,786	3.85	(2,413)	(63.73)
● Term loan contracts	544	0.88	-	-	544	100.00
● Personal loan	11	0.02	24	0.02	(13)	(54.17)
Total interest income	61,477	100.00	98,425	100.00	(36,948)	(37.54)

For the year 2023, the interest income of 61.48 million baht, decreased by 36.95 million baht or 37.54%. The main reason was that the interest income according to loans contracts decreased by 13.54 million baht or 58.93% and factoring contracts decreased in the amount of 13.31 million baht or 22.75%. Major of interest income is from factoring, the Company has interest income from factoring 45.18 million baht or 73.49% in 2023 whereas there was only 59.42% in the prior year. In the current year, the Company focus on financing in low risk product and high liquidity for reduce NPL from new finance. Project backup finance decreased from 22.97 million baht in 2022 to 9.44 million baht in current year due to the product is high risk products, so the Company has to focus carefully financing to customers as a result to decrease in low finance in this product. In addition, the effect from COVID-19 pandemic 2-3 years ago has directly affect to liquidity of SMEs then the Company could not recognize interest income as accounting standard.

However, there is interest income form term loan 0.54 million baht which is new product during the year.

Income from fee and service consist of revenues from finance lease, hire-purchase contract, factoring, project finance backup, term loan, installment sales and bid bonds. The change in the composition of revenues from fee and service classified by type of products as of 31 December 2023 and 2022 are outlined as follows:

Fees and service income	Consolidated Financial Statements				Change	
	2023		2022			
	Thousand Baht	Percent	Thousand Baht	Percent	Thousand Baht	Percent
● Installment Sales	7,623	20.25	15,055	32.12	(7,432)	(49.37)
● Loan contracts	6,500	17.26	12,054	25.72	(5,554)	(46.08)
● Factoring contracts	21,770	57.82	15,706	33.51	6,064	38.61
● Finance lease contracts	18	0.05	95	0.20	(77)	(81.05)
● Hire-purchase contracts	39	0.10	67	0.14	(28)	(41.79)
● Term loan contracts	900	2.39	-	-	900	100.00
● Letter of guarantees	800	2.12	3,817	8.14	(3,017)	(79.04)
● Others	4	0.01	79	0.17	(75)	(94.94)
Total fees and service income	37,654	100.00	46,873	100.00	(9,219)	(19.67)

For the year 2023, Fee and service incomes has 37.65 million baht decreased Baht 9.22 million or 19.67% because the Company decreased financing of loan contracts for some industries and also considered financing amount based on quality and size of customers and debtors. Because Thai economic and COVID-19 pandemic impacted to customers on loan contracts which are not complete projects in time. In addition, the Company also focused on financing on factoring contracts which is low products risk. So, fee and service income from factoring is 21.77 million baht or 57.82% of total fee which increased from prior year 6.06 million baht or 38.61% as company strategy to focus on this product.

Other income

Other income is mainly from interest income from late payment 70.48% of total other income which occurred from late payment. In the year 2023, interest income from late payment was 7.74 million baht increased by Baht 4.06 million from expediting debt collection.

Expense consists of expenses relating to services, administration, bad debts and expected credit loss, and finance expenses as of 31 December 2023 and 2022, as follows.

Service and administrative expense

For the year 2023, The Company had service expense decreased by 3.03 million baht or 11.49% when compared with the prior year which align with revenue, mainly decrease was from related employee expense. Administrative expenses also decreased by 2.96 million baht or 3.85% by controlling unnecessary operating expenses.

Finance Cost

For the year 2023, finance cost decreased by Baht 12.11 million or 24.31% compared with last year due to repayment debenture in March and September about 400 million baht and 100 million baht respectively.

Expected credit losses

Revealed expected credit losses by comparing the periods as of 31 December 2023 and 2022 as follows.

Classified by business type	(Unit: Thousand Baht)	
	Consolidated Financial Statements	
	2023	2022
Balance at beginning of the year	661,681	535,417
Add: Allowance expected credit loss	105,142	126,819
Less: Written-off	(38,316)	(633)
Bad debts collection	167	78
Balance at end of the year	728,674	661,681

For the year 2023, Expected Credit Losses (ECL) increased by Baht 105.14 million compared with the previous year. In this regard, ECL is recorded following Thai Financial Reporting Standard No.9 (TFRS9) that was from the COVID-19 pandemic passed 2-3 years ago pressure in many industries and then inflation which impact to higher cost, resulting in negative affect to SMEs which are main customer of company. They had delayed goods and service then there was penalty charged and additional operation cost especially construction segment had fully impacted. Receivables who are in the process of litigation and debt restructuring, lack liquidity during the recession of the external factors. Resulting in the inability to pay debts as scheduled reflects the risks inherent in the quality of the customers at any moment, the risks may change in the future depending on various factors, thus the company is obliged to set aside in accordance with the quality and risks of the customers and the circumstances. There was written-off about 38.32 million baht during the year, the Company has write-off policy align with Revenue Code No. 168 which has to collect with finalization litigation process to ensure that the customer could not have any ability to pay debt which will be saving tax in the future. So, the Company speed up legal team for litigation process to collection debts and tax saving for write-off receivables. At present, the company is suing and expects to be able to collect debts from court judgments or write off bad debts in the case of failure to collect debts in order to manage NPL ratio to have a better ratio.

As of 31 December 2023, The Company had Non-Performing loans (NPLs) of 1,117.50 million baht. In this regard, the Company considering the expected credit loss based on the significant increase in the debtor's risk and the ability to pay the debt in accordance with Thai Financial Reporting Standard No. 9 (TFRS9).

However, the Company has policy for preventive, controls and improvement quality of financing such as credit analysis process, focusing on low-risk product (Factoring), limitation portfolio and decreasing finance to complex industries for decrease risk of new financing. Moreover, headcount of collection department increased and outsource of collection company also increased, managed NPL database for monitoring and also set up NPL solution special working team to resolve NPLs

Net Loss

For the year 2023, The Company had a loss of 117.61 million baht compared with a prior period which had a loss of 100.03 million baht due to a significant decrease in revenue of 46.46 million baht or 29.67% aligning with customers lacking liquidity to pay-debts and decreasing in the financing amount. and ECL increased in line with NPLs from high risk and affected customer quality. As a result, the higher Expected Credit Losses (ECL). Although, The Company has controlled the service and administration expenses.

Remark :

** The ratio can't be calculated because the Company has loss before Interest Income Tax Depreciation and Amortization (LBITDA)

^{1/} Return on Equity (ROE) calculated by Earnings Before Interest Income Tax (EBIT) / Average total shareholder's equity

^{2/} Return on Asset (ROA) calculated by Earnings Before Interest Income Tax (EBIT) / Average total asset

^{3/} Debt to Equity Ratio calculated by Total liabilities / Total shareholder's equity

^{4/} Debt to Equity Ratio calculated by the ratio of "liabilities" to "shareholders' equity" at the end of the accounting period. "Liabilities" means the total liabilities in the financial statements of the Company which has been audited by the auditor

^{5/} Interest bearing debt to EBITDA ratio calculated by interest-bearing liabilities / Earnings Before Interest Income Tax Depreciation and Amortization (EBITDA)

^{6/} Interest Coverage Ratio (ICR) calculated by Earnings Before Interest Income Tax Depreciation and Amortization (EBITDA) / Finance cost in the Statements of comprehensive income.

^{7/} Debt Service Coverage ratio (Cash Basis) calculated by Earnings Before Interest Income Tax Depreciation and Amortization (EBITDA) / Interest Bearing liabilities matured in 1 year

^{8/} Non-Performing Loans (NPLs) ratio calculated by Non-Performing Loans * 100 / Total Account Receivable

^{9/} Interest Bearing Debt matured in 1 year to total interest bearing Debt calculated by Interest Bearing Debt matured in 1 year / Total Interest Bearing liabilities

Analysis of key financial ratios

The Current ratio as of the end of 2023 and 2022 was 1.98 and 2.45 times, respectively. A decrease was from decrease issuing debenture and loans from financial institutions to suitable for financing.

Profitability ratios e.g. net profit ratio, return on capital, return on assets had declined due to the loss for this year attributable to the sluggish economies causing a reduction in loan underwriting coupled with stricter credit approval criteria. Nevertheless, the Company continued to maintain the difference between the interest income and financial cost amidst the weak economy and high competitor by adopt Risk Base Pricing strategy to increase revenue of each transaction.

Operating efficiency ratio e.g. interest income to assets, return on assets or asset turnover etc. which use average assets for the calculation, it can be seen that the ratios in 2023 and 2022 was 3.57 times and 4.72 times have the tendency to decline albeit minimally from lower profitability. Nevertheless, the average total assets were maintained at around 1,500 million baht.

Debt to Equity (D/E) ratio that the Company must maintain the Debt to Equity (D/E) ratio of within 4 times. It can be seen that in 2023, 2022 and 2021. The Company was able to maintain the ratio at 0.36 times, 0.76 times and 1.18 times as stipulated which remain within the covenant. A decrease in D/E ratio was from repayment debentures on March as due date and on September 100 million baht before due date for cash flow management. It can be seen that the ratio is not over that 2.00 times. At present, such a ratio is affected by the issuance of new debenture and the repayment of existing debenture during the year. The Company adhered to the concept of synchronizing the source of capital to loan underwriting and the debtor structure to achieve effective returns from using the capital while increasing liquidity by way of maintaining sufficient cash for operations.

The asset quality ratio e.g. expected credit loss ratio to non-performing loans, allowance for doubtful accounts to total loans ratio and NPL ratio have a tendency to rise marginally when compared to 2022. NPLs ration increase to 65.01% in 2023 from 54.62% and 29.52% in 2022 and 2021, respectively. Economic slowdown was from the COVID-19 pandemic pressure in many industries, especially in the construction industry and Small and Medium Enterprise (SMEs) resulting in a decrease in liquidity of the customers and ability to pay for 2-3 years ago which effect to non-performing loans increased. Moreover, others out of control factors i.e market, competition and economic and inside factors i.e concentration of industry in the past un-completion projects during delivered, also effected to quality of customer. In addition, lower financing effected to decreased average ports which is another reasons of higher NPLs.

However, the company Focuses on solving asset quality problems by using a variety of strategies, such as increasing the quality screening of customers and debtors, avoiding high-risk industries and increasing head count of the debt collection team including using outsource agencies to expedite debt collection, etc. The Company expected to reduce the NPL ratio within the next 2-3 years.

Total assets

As of 31 December 2023 and 2022, the Company had total assets of 1,424.49 million baht and 2,017.46 million baht respectively of which decreased about 592.97 million baht or 29.39% from a decrease of receivable. The majority were loans to customers or 69.52% and 63.65% of total assets respectively.

Current assets as of 31 December 2023 and 2022 total 726.79 million baht and 1,242.30 million baht respectively. The major current assets is current portion of receivables within 1 year of those lending stood at 74.53%, and 61.14% of total current assets respectively. The cause of the decline was from low financing. Moreover, cash and cash equivalent also decreased 378.23 million baht or 80.87% due to repayment debenture in March and September 2023.

Total non-current assets as of 31 December 2023 and 2022 was about 697.70 million baht and 775.16 million baht respectively. Key non-current assets is non-current portion of receivables over 1 year of those lending stood at 64.30% and 67.67% of total non-current assets respectively. The cause of the decrease in loan receivables due over 1 year according to expediting debt collection and write off receivables during the year.

Asset quality

For the year 2023, the Non-Performing Loans (NPLs) ratio of 65.01% increased from 54.62% mainly was from a decrease of total port receivables from carefully financing to prevent new NPLs from new financing. In addition, overall of the economy in various industries and severe inflation, goods and wages higher. This directly affects the liquidity of SMEs, which are the company's main customers, they take longer period to recover than large companies. The Company also strictly screens customer quality to prevent NPLs from issuing new loans.

Moreover, the Company had improved process of financing for good loans since receivables are mainly assets of the Company such as credit risk analysis, review and follow up quality of customer, diversify ports and expediting debt collection.

Debtor	Consolidated Financial statements		Change	
	2023 Million Baht	2022 Million Baht	increase/ (Decrease)	% change
Installment	31.85	35.84	(3.99)	(11.13)

Allowance for expected credit losses	519.51		471.73		379.85	
Net - Loan receivables	549.00		662.42		928.82	

As of 31 December 2023 and 2022, the age of the debtor under the loan agreement is in the normal range, 5.92% and 8.45% are not yet due because they are high-risk loans that may cause NPLs, the Company therefore reduces this type of credit, especially in the construction industry. This type of lending is currently being released to customers in industries that tend to grow. Or it is a job that the customer has the potential and expertise enough to accomplish the delivery. As a result, the amount of lending in this type has decreased considerably.

Accounts receivable overdue for more than 3 months, equivalent to 968.05 million baht, most of which are customers in the construction industry 77.36 percent and mostly caused by lending during 2019-2021, which was directly affected by the Pandemic of COVID-19 Since the beginning of 2020, dragged on for almost 3 years. Causing during that time, there were various restrictions on entering the work, resulting in delayed delivery of work. Customers bear the cost of project management, both in terms of labor costs and higher prices of raw materials. Until there is a lack of liquidity to pay interest, including supporting the project to be successful as well However, since the epidemic situation of COVID-19 begin to unravel Many projects are back to completion and some are in the process. which the company has followed up closely to deliver the work and repay the debt and if there is damage after the project is closed The Company will negotiate a debt repayment along with this restructuring. In addition, some customers in this group have pledged their assets as collateral. However, the company has gradually set aside an allowance for expected credit losses according to the risk and estimated damage that is expected to occur. The company has already set aside an allowance for this type of customer. The total amount is about 519.51 million baht or 53.68% of over 3 months' due.

Trade receivables

Remarks : ^{1/} Financial lease agreements e.g. financial lease agreement, bid bonds deposit awaiting for return to Customers, Cash receipt awaiting for return to receivables etc.

^{2/} Other liabilities e.g. trade and other payables, provision for long-term employee benefits and income tax payables etc.

The Company's source of capital can be classified under 2 types i.e.

1. Overdraft limit and short term loan from financial institutions.

Under the short term loan agreement, there are certain financial covenants which the Company must adhere to e.g. maintaining D/E ratio and the stipulation of minimum shareholding by major shareholders about which the Company has complied.

As of 31 December 2023, the Company has total limits from financial institutions of 700 million baht which mainly is short term loan. According to loss operation since 2021 from recording expected credit loss as risk and quality of customers and revenue decreased from lower financing. However, there is credit limit about 100 million baht available without any conditions. So, the Company can manage cash flow and there was no outstanding of short-term loan end of the year 2023.

2. Long term borrowing via debentures and non-bank borrowing

For debentures, there were financial covenants imposed e.g. maintaining the minimum value of the rights to claims on trade receivables of term loan customers, factoring customers, financial lease customers and hire purchase customers exclude NPLs which must not be less than 1.5 times of the outstanding debenture amount during its lifetime and maintain the D/E ratio of not exceeding 4 times. The Company was able to comply with such covenants.

As of 31 December 2023, the Company has debenture outstanding balance amount was the amount maturing in 2024 of 298.08 million baht and 53.69 million baht in 2025.

The Company adheres to the concept of managing the source of capital to synchronize with the debtor structure by using banks' short term loans to finance short term lending i.e. receivable financing, bid bond, project-related and working capital loans. The Company can adjust interest rate or fee in line with the capital cost which may change from time to time. The Company's long term borrowings are used to finance long term loans to customers or hire purchase loans where it charges fixed interest rate. Nevertheless, the difference in interest rate between the cost of fund and the rate charged to customers will have built-in cushion (interest spread) that covers the risk of interest rate fluctuations which could happen.

Liabilities

As of 31 December 2023 and 2022, the Company had total liabilities of 433.67 million baht and 909.03 million baht respectively, decreased about 475.36 million baht or 52.29%. The reduction of total liabilities from the repayment of short-term loan from financial institutions and debentures during the year.

Shareholders' equity

In view that the Company offers diverse lending products covering all of the customers' business requirements. However, due to the economic slowdown, the Company There was a decrease in the amount of financing amount including increasing caution to mitigate the damage from non-performing loans arising from the release of old or new loans. As a result, the Company had loss operation for the year 2023 effect to decreased in retained earnings and shareholders' equity. As a result, shareholder's equity as of 31 December 2023 and 2022 was 990.82 million baht and 1,108.43 million baht, respectively.

Appropriateness of capital structure

As of 31 December 2023 and 2022, the Company's D/E ratio stood at 0.44 times and 0.82 times which indicates that the Company has a lower ratio compared to 2022 due to repayment of debenture during the year where the Company maintaining the debt-to-equity ratio in accordance with the regulations of issuing debentures and other credit lines with financial institutions

(B) Capital Expenditures

The Company invested in several technological-oriented systems e.g. electronic document filing to enhance the security in document archiving and reduce storage space. In addition, there is credit processing and operation system which is still not complete costing about 21.96 million baht there is capital commitment about 4.1 million baht end of the year 2023. The system is test run processing after which the Company hopes shall speed up the operations with enhanced accuracy that should benefit the service and provide timely information for the management's decision making. The investment in each project is funded by the cash inflow from operations.

(C) Factors affecting credit rating

On 29 September 2023, the Company obtained a credit rating of BB- from Tris Rating Co., Ltd. (TRIS) with 'Stable' outlook from BB 'Negative' owing to the high credit concentration and weak credit profile of its target customers. These include mainly underserved SMEs that have been adversely impacted by the COVID-19 pandemic. The company's weaker-than-expected financial performance caused by falling revenues over the past two years as well as moderate funding and liquidity position. Nevertheless, the company's strong capital position remains the key credit strength.

Revenue decreased as low financing amount from strictly credit approval for preventive new NPL. So, finance amount decreased in 2023 about 800 million baht when compared with prior year.

Moreover, the higher NPL ratio increased to 65.01% in 2023 from 54.62% in 2022. The economic slowdown coupled with the impact from Coronavirus Disease 2019 (COVID19) as a resulting to lockdown. Then, SMEs had directly impact in varies industry especially construction industry which is over 54% of total port as of the year 2023. At the same time, the high credit concentration remains a rating constraint, putting pressure on the Company's risk position.

The conclusion of the credit rating was a decrease of revenue and increase of non-performing loan customers were the main factor that affected the Company's credit rating. As a result, the Company focused on reducing the Non-Performing Loan (NPLs) ratio by applying stricter credit approval process/criteria, review and follow up a liquidity of customers and reduce exposures to industries with high risk. In addition, the Company also concentrated on collection and legal team both inside and outside company to decrease NPLs. In 2023, the Company could collect debt from NPLs in the amount of 45 million baht or increase about 75% from prior year which the Company expect to reduce credit concentration in the next 2-3 years including better NPL ratio.

Even though, financing amount decreased from carefully as recession situation but the Company focused to increase revenue with strongest position due to full options products with suddenly service that main customers work with government or large private debtor since they have ability to pay. The Company also focus on low-risk product and has royalty program with existing customer whereas find new customer by digital marketing and explore new products based on strong equity and liquidity.

Main influential factors that could affect future performance

Sufficient and diverse source of capital is an important factor in driving the business. The Company has raised capital via several channels e.g. capital increase, borrowings from various financial institutions including issuing various debt instruments e.g. Bills of Exchange (B/E), debenture issuance etc. The Company focusses on effective management of its finance both qualitatively and quantitatively in well diversified manner to reduce external risk factors that could impact capital sourcing in addition to reducing the risk of interest rate fluctuations and to effectively manage capital cost.

The Company received a credit rating of BB- “Stable” from Tris Rating Co., Ltd. owing to the rising NPL ratio during the year and decrease in revenue which may affect the confidence of investors and the issuance of debenture including borrowings from financial institutions not to mention the potentially higher cost of funding if the credit rating suffers further downgrade.

Nevertheless, the effective risk management and control of non-performing loans throughout the year e.g. stricter lending approval process, reduction of exposure to high-risk industries, debtors deconcentrating, diversification of the lending portfolio by expanding to several industries, focuses on financing to customers who are government suppliers, low-risk financial products, keep existing customers and strengthening the debt collection team to follow up the repayment closely. Note that the Company shall strive to reduce the NPL ratio continuously in the next 2-3 years.

6 Corporate Governance Policy

Overview of policies and practices in corporate governance

1. Policies and guidelines on board

The Company has established policies and guidelines regarding the Board of Directors so that the Company can conduct business with fairness and transparency, covering the selection and determination of directors' remuneration, Independence of directors from management, Director Development, Evaluation of the performance of directors, and Supervision of Subsidiaries

The Company considers governance as an important mechanism leading to the efficient management transparency and accountability. Therefore, the main focus of the Company is Good Corporate Governance. This will help the Company to build trust and confidence among its stakeholders, investors, shareholders and all the concerned parties. Moreover, having Good Corporate Governance can be assumed as a tool to add value, create competitiveness, and promote sustainable growth of the Company in the long term. Nevertheless, the Company requires a policy of Good Corporate Governance. As defined by the SET, the Board of Directors had a meeting on 15th of July 2013 (3/2013) to discuss and cover 5 main categories

For establishing the corporate governance framework, the Company has studied the rules issued by the regulators, i.e. The Securities and Exchange Act, B.E. 2535, Public Limited Companies Act, B.E. 2535, Announcements and Rules of The Securities and Exchange Commission (SEC) and The Stock Exchange of Thailand, which are applied to the Company as appropriate. The Company has complied with all principles of good corporate governance of The Securities and Exchange Commission.

The Company's good corporate governance policy covers five principles, namely shareholder rights, equitable treatment of shareholders, roles toward stakeholders, disclosure of information and transparency as well as responsibilities of the Board. The Company has complied with all principles of good corporate governance of the Securities and Exchange Commission

For financial reports, the Company has prepared financial statements according to accounting standards and financial reporting standards promulgated by the Federation of Accounting Professions as well as generally accepted accounting principles of Thailand by selecting appropriate accounting policies and adhering to them regularly. The Board of Director is responsible for the specific financial statements of the Company. And the consolidated financial statements of the Company and its subsidiaries. Also, careful judgement and the best possible estimate are used in the making the disclosure of sufficient important information in the notes to the financial statements in order that the financial statements are reliable and beneficial to shareholders and general investors.

The Board of Directors representing the shareholders is responsible for supervising the business according to the laws, objectives, rules and resolutions of the shareholders' meeting. It also oversees the management to work for achieving the goal of performance in accordance with the strategies and annual plans approved by the Board of Directors.

The Board of Directors is also responsible for monitoring the performance according to specified work plans, including the implementation of risk management, internal control, compliance with relevant regulations and operational checks. This is to make the performance of duties of the Board more efficient, therefore the Board of Directors has appointed specific subcommittees consisting of members with knowledge, expertise and experience in such fields, namely the Audit Committee, Executive Committee. Also, it has appointed the Audit Committee to perform the duties on its behalf, the Nomination and Remuneration Committee, the Risk Management Committee and the Corporate Governance Committee.

The Company has separated the roles, duties and responsibilities between the Board of Directors and the management. The Board of Directors has performed its duties honestly and carefully to protect the interests of the Company. The Company has clearly specified the Board of Directors' approval power in important matters such as setting the goals, guidelines, strategies and policies, business plans and budget of the Company, reviewing, auditing and approving business expansion plans, large investment projects as well as investing with other entrepreneurs proposed by the management, etc.. This is detailed in Form 56-1 One Report under the topic of the scope of power and duties of the Chairman and the Board of Directors. Besides, so as to allow the directors to have time to perform their duties, therefore the number of no more than 5 listed companies has been fixed in which each director can hold a position without exception.

The structure of the Board of Directors consists of independent directors, more than one-third of the total number of directors. Currently, the company There are a total of 8 directors, divided into 3 executive directors and 5 non-executive directors who are independent directors. There are 4 female directors in the Board of Directors. The Board of Directors appoints the Audit Committee in order to assist in the governance of the Company. The Audit committee has rights and duties to acknowledge and investigate the authority of other sections. At least one of the audit committee member must have knowledge and experience in accounting sufficient to verify the reliability of the financial statements of the Company. The term of the independent director should not exceed 9 years from the date of first appointment as a director. There are 2 Independent directors, who has held the position of independent director of the Company for more than 9 years. The Board of Directors is of the opinion that he has a transparent, unblemished work history and is able to express his opinions independently, has brought knowledge and expertise to give suggestions which is beneficial to the operation of the Company. And they have full qualifications according to the qualifications of an independent director as determined by the Office of the Securities and Exchange Commission, And the 2021 Annual General Meeting of Shareholders (No. 8) and the Annual General Meeting of Shareholders 2022 (No. 9) resolved to appoint such 2 directors back to be the director for another term.

The Company has no director holding positions in more than 5 listed companies (excluding advisory positions in listed companies).

The Company has no policy for the Managing Director of the Company be appointed as a director in another Company and more than 2 other listed companies (excluding affiliated companies), and may not be directors of the same type of business or business that may cause conflict of interest. Unless approved by the Board of Directors. However the Managing Director/ Chief Executive Officer of the Company does not hold directorship in more than 2 other listed company.

The Company has an independency policy that a Chairman and the Managing Director/Chief Executive Officer will not be the same person in order to prevent any arbitrary of one subject in voting process. Therefore, the scope of authority of each position is clearly defined in the operation model of the Company. Board of Directors is supposed to be determined based on the elements of authority, and all the other directors also are appointed in the same way. The Chairman has been elected by the directors of the Company and acts as the chairman of the meeting. The chairman has the responsibility to ensure that the meetings of the Board of Directors of the Company proceed in accordance with the agenda, encourage all directors to participate in the meeting, give advice and recommendation to the management and support the business operation of the Company. However, the Chairman will not interfere with the work of the management of the Company.

The Company has determined the diversify of the Board of Directors. The Board of Directors of the Company is composed of directors who possess of directors who possess qualifications, knowledge, expertise and experiences in various areas, including finance and accounting, business administration, law and telecommunications business. The independent directors possess higher qualifications than those required by the Securities and Exchange Commission and The Stock Exchange of Thailand.

The Board of Directors has a policy to promote and facilitate training and educating people involved in the corporate governance system of the Company, including the directors, audit committee members, executives and company secretary so as to continuously improve the work performance, namely the courses of the Thai Institute of Directors as well as the courses important for company development organized by the Stock Exchange of Thailand, the Securities and Exchange Commission and the Federation of Accounting Professions.

The Board of Directors has a policy on orientation for new directors and enhancing knowledge for directors. The Company assigns the company secretary to prepare information for new directors in order to allow new directors to acknowledge the roles, duties and responsibilities of directors, policies, business information and corporate

governance practices of the Company before performing the duties of directors, including promoting the creation of business knowledge and understanding for all directors to help support the directors' performance of duties more efficiently. Furthermore, the Company has a policy to regularly enhance knowledge of executive directors. In 2023, there was 1 new director.

The Directors of the Company are not the employee or partner of the external auditors since the Company was established.

Similarly, the Board of Directors is supposed to appoint the duties and responsibilities of the Company Secretary under the Act of Securities and Exchange.

Proportion of the Board of Directors

Male Directors	2	50%
Female Directors	2	50%
Average tenure :	6.12 years	

2. Policies and practices related to shareholders and stakeholders

A. Shareholder Care Equitable treatment of shareholders

Promoting the exercise of shareholders' rights

A1. The Rights of Shareholders and Promoting the exercise of Shareholder's Right

The Company recognizes the importance of fundamental rights of shareholders as the following: (a) the right to sell or transfer shares. (b) the right to receive a share of Company profits. (c) the right to receive adequate information of the Company. (d) the Right to attend and vote at a meeting by the shareholders to appoint or remove directors. (e) the right to appoint an auditor and make a decision about the matters affecting the Company such as dividend payments. (f) the right to determine or modify regulations and the memorandum and articles of association as well. (g) the right to reduce or increase the Company's capital and so on.

Apart from the above-mentioned rights and empowerments, the Company has worked on various matters in order to promote and facilitate the exercise of shareholders as the following:

- (1) Informing the shareholders to attend a meeting at least 14 days in advance, specifying the date, time, place and agenda while handling the documents related to the matter entirety.
- (2) If the shareholder is unable to attend the meeting, the Company allows shareholders to delegate an independent director or any other person instead. Those attending the meeting as a proxy will be informed via invitation letter as well.
- (3) The Company also provides registration channels at the meeting venue specifically for individual shareholders and institutional investors and also arranges the computer system for registration and vote counting to expedite the registration and vote computation process.
- (4) Providing opportunity for shareholders to ask questions fully and freely.
- (5) Eventually at the end of the meeting, the Company will prepare a report with details correctly. Subsequently, that report can be verified by shareholders.

The Company held the 2023 Annual General Meeting of Shareholders (No.10) on 3 April 2023 at The ASIC Meeting Room, MS Siam Tower 31st floor, Bangkok, Thailand. There were 10 directors and management attending the meeting.

The Company engaged the Thailand Securities Depository Co., Ltd., its registrar, to send the invitation notice to the meeting, together with the supporting documents on its website at www.leaseit.co.th at least 30 days prior to the meeting in order to facilitate the shareholders with an easy and prompt access to the information relating to the meeting

The Company provided opportunities for the shareholders to propose meeting agendas and nominate individuals to be selected as company directors in advanced for the 2023 Annual General Meeting of Shareholders (No.10) during 16 November-30 December 2022. However, no question was submitted.

The Company must state the opinion of the Board of Directors in the notice of AGM. Within period required by the SEC or Securities Exchange so that shareholder can study the information before meeting. Typically, the shareholders will receive information through the electronic email, The Company's official website, and newspapers according to public companies limited act. The public company limited has a policy to invite the shareholders and board of directors simultaneously including the president of committees (i.e. Chairman of the Audit Committee etc). Doing this jointly clarify and respond to inquiries by the shareholders attending the meeting.

Before the meeting began, the Company explained to all shareholders the criteria and the procedures for vote casting. There was also an external legal advisor who supervised the meeting and the voting process to ensure that they were conducted in accordance with applicable laws and the Articles of Association of the Company. At the meeting, the chairman of the meeting provided opportunities for the shareholders to express their opinions and to make inquiries relevant to the Company and the meeting agenda.

On the next day after the conclusion of the meeting, the Company informed the resolution of each agenda of the 2023 Annual General Meeting of shareholders (No.10) by indicating the votes as "approved", "disapproved" or "abstained from voting" to the Stock Exchange of Thailand including the Company's website.

The Board of Directors places importance on fair and equitable treatment to all shareholders; including both shareholder executive and non-executive shareholders. No matter shareholders are Thai or foreigner. Similarly, does not matter shareholders are in majority or minority. The following actions have been implemented:

- The Company has a policy to protect the rights of all shareholders. At the Annual General Meeting of shareholders, the chairman of the meeting conducted the meeting in accordance with the agenda as set forth in the invitation notice to the meeting. No agenda was added without prior notification to the shareholders. All shareholders were entitled to vote base on the amount of shares held by each shareholder whereby one share was equal to one vote.
- During 16 November-30 December 2022, the Company provided opportunities for the shareholders to propose matters that they considered necessary for inclusion in the agenda and to nominate candidates for election as directors for the 2023 Annual General Meeting of Shareholders (No.10). The Company also posted the criteria and procedures in relation thereto in the form of a newsletter to the Stock Exchange of Thailand and on its website at www.leaseit.co.th. However, no shareholders proposed matters for inclusion in the agenda of the meeting nor nominated any candidates for election as directors.
- The Company gave authority to Thailand Securities Depository Co., Ltd. (TSD) as the registrar of the Company to send invitation letter and attached document for Annual General Meeting 14 days in advance of the meeting. The Company also posted invitation letter and attached document for Annual General Meeting on Company's website at www.leaseit.co.th since 3 March 2023 onward. It is at least 30 days in advance before the meeting so that the shareholders can reach the information regarding the meeting conveniently.

- The shareholders who could not attend the meeting in person were entitled to appoint an independent director of the Company or any other person to attend the meeting and vote on their behalf. The Company prepared proxy forms as prescribed by the Ministry of Commerce, whereby the shareholders may give their proxies voting instruction. The proxy forms were delivered to the shareholders together with the invitation notice to the meeting. Additionally, the shareholders could download the proxy forms the Company's website at www.leaseit.co.th
- The meeting will be in accordance with the regulations of the Company. The details of the agenda will be informed via the invitation letter entirety. Nevertheless, some unnecessary details about the agenda not added in notification letter of shareholders. The agenda itself is important due to the fact that shareholders have to take time to study it before making any decision whether attend or not.
- The Board of Directors have approved a policy on reporting the purchase/sale of securities of the Company to the Board of Directors which covered the use of inside information illegally (Insider Trading) with respect to those individuals involved, including directors, executives and employees as well as spouses and minor children of all persons involved. For instance, the provided information includes the penalties imposed on the Company, or any disclosure of the information which show adopting policies in order to prevent exploitation of inside information by the Company for their own benefit. Obviously, accomplishing such a great task need to educate directors and management level of the Company regarding the obligation to report full details about their spouses and underage children as well as the change of holding the Securities and Exchange Commission under Section 59 and penalty provisions under the Securities and Exchange Act of Year 1992. However, The Board of Directors and executives have to report the purchase/sale of securities of the Company to the Board meeting by quarter..

The Company prepared the minutes of the Annual General Meeting of shareholders, and posted the minutes of the meeting on the Company's website at www.leaseit.co.th

The Company has a policy in the involved transaction is deemed to be approved by shareholders in accordance with the requirements of the Stock Exchange of Thailand prior to the transaction. The Company will disclose the name and the relationship of the related parties, pricing, the value, including the comment of the Board of Directors on the transaction for shareholders to be clear in the Annual General Meeting.

The Company prohibits the transaction in a manner that provides financial assistance such as lending and credit guarantees.

The Company has transactions with affiliated Company which was done at a fair and at arm's length.

A.2 The Equitable Treatment of Shareholders

All shareholders of the Company must be treated equally and fairly according to existing fundamental rights. Therefore, the Company has a policy and guidelines on supervision of using internal information of the Company for the wrongful benefit of one's own or others. This may cause damage to the shareholders as a whole, including encouraging equal treatment of all shareholders so as to ensure that all shareholders will enjoy equal protection of their basic rights.

B. Prevention of internal information usage

In order for all shareholders to be treated equally, so the Board of Directors has established a policy and practices to protect the use of internal information by establishing the rules on securities trading, which require the directors and executives to prepare and submit the report on securities holding and trading of the Company within the time limit. Also, the company secretary must report the change in securities holding of directors and executives to the Board of Directors meeting on a quarterly basis by specifying the time for prohibiting securities trading as follows.

- (1) During 30 days before disclosure of the quarterly and annual financial statements and within 24 hours after disclosure of financial statements and other periods that the Company will set from time to time

- (2) In special circumstances, the person designated by the Company may sell the Company's securities during the prohibition period of securities trading if being in the situations such as having seriously financial difficulties or need to comply with any legal requirements or being subject to court order by preparing a memorandum stating the reason to seek approval for submission to

(2.1) Chairman of the Board (If the seller is a director or company secretary)

(2.2) Chairman of the Audit Committee (If the seller is Chairman of the Board)

(2.3) Chief Executive Officer/Managing Director (If the seller is the person designated by the Company who is not a director and company secretary). A copy of such memo must also be sent to the company secretary.

In 2023, there were no cases where directors, executives or employees of the Company use inside information for personal gain.

C. Prevention of conflict of interests

The Company requires the directors and executives to report to the Board of Directors of the Company interests of one's own or related persons in business management of the Company or subsidiaries under Section 89/14 of the Securities and Exchange Act 1992 as amended by the Securities and Exchange Act (No. 4) 2008. By reporting when taking office for the first time, and to report everytime if there were a change in information according to the form approved by the Board of Directors. The objective is to allow the Company to

have information for implementation of the regulations on connected transactions, which may cause a conflict of interests and may lead to transfer of interests of the Company and subsidiaries. Moreover, the directors and executives must perform their duties with caution and integrity. The decisions must be made without direct or indirect interests in the matters of decision-making. Information of such report is therefore beneficial for monitoring the performance of duties of directors and executives according to the aforementioned principles.

D. Responsibility to stakeholders

The Company has many stakeholders, including shareholders, employees, customers, trade partners, creditors, competitors, including the community and society. All stakeholders must be treated by the Company according to existing rights under the laws and agreements with the Company fairly. Besides, in case of any damage, the Company will provide appropriate remedies to all parties with the following practices.

- Allowing reporting wrongful or illegal acts or complaints about breaking the law or code of conduct through the Audit Committee and providing measures to protect employees or whistleblowers
- Providing the channels for stakeholders to report or complain about rights violations and providing information to contact the assigned person clearly
- Providing an operational process after being informed of wrong or illegal acts by checking information and reporting to the Board of Directors on matters with significant impact
- Establishing the policies related to business ethics, viz. conflict of interest policy, anti-corruption policy, sustainability policy, policy on human rights and labor practices, whistleblowing policy, personal information protection policy, safety and occupational health policy

The Company realizes the rights of all groups of stakeholders, whether inside or outside Company, and has undertaken to ensure that such rights are well protected and treated, in order to create good understanding and co-operation between Company and its stakeholders, which will be advantageous to the operation of Company, create confidence and stability for Company and its stakeholder and increase the ability of Company to complete in the long term as the following:

D.1 Role to employees

According to the Company's belief, a strong organizational foundation arises from the fact that employees are knowledgeable, competent, expert, recognize the importance of their roles and duties. If employees successfully perform their duties and achieve the goals, certainly the Company's business will become successful and achieve the targets likewise. Therefore, the Company has set practices toward employees.

1. The main focus of Company is on the personnel selection. The Company seeks to hire those kinds of employees who are appropriate to the position having the relevant experience compatible with the nature of the Company. The Company has always regarded its employees as valuable resources, whose roles are fundamental to the success of the Company. Accordingly, the Company aspires to increase the potential of its employees throughout their career path by improving skills, knowledge and aptitude of its employees, as well as providing every employee with an opportunity to improve its career path on an equitable basis and offering incentives in remuneration so as to be reasonable compared with other leading companies in market as well as the quality of life for all employees equally. In 2023 is no complaints through the aforementioned channels.

J. Disclosure of Information and Transparency

One of the major concerns of the Board of Directors is to establish a very complete and accurate disclosure in transparency of the financial reporting, as well as providing general compliance with the rules of the Securities and Exchange Commission. Financial reports include important information that may affect the price and securities of the Company, which eventually affects the decision making process of the related investors. The Company decided to distribute the Company's information (equally and transparently) to shareholders and public via the media disclosure and the Company's website at www.leaseit.co.th. The Company also holds an analyst briefing in each quarter to announce its quarterly operating results to shareholders, investor, analysts, fund managers, and other interested persons. The analyst briefing

The Board of Directors have approved a policy on reporting the purchase/sale of securities of the Company to the Board of Directors which covered the use of inside information illegally (Insider Trading) with respect to those individuals involved, including directors, executives and employees as well as spouses and minor children of all persons involved. For instance, the provided information includes the penalties imposed on the Company, or any disclosure of the information which show adopting policies in order to prevent exploitation of inside information by the Company for their own benefit. Obviously, accomplishing such a great task need to educate directors and management level of the Company regarding the obligation to report full details about their spouses and underage children as well as the change of holding the Securities and Exchange Commission under Section 59 and penalty provisions under the Securities and Exchange Act of Year 1992. However, The Board of Directors and executives have to report the purchase/sale of securities of the Company to the Board meeting by quarter.

Board of directors was well aware of the crucial responsibility towards the financial statements, therefore their main emphasis was to provide accurate and complete information which are true and reasonable. Accordingly, the financial statements of the Company were prepared in accordance with generally accepted accounting standards. By choosing the appropriate accounting policies and practices regularly (and implementing cautious discretions including adequate disclosure in the financial statements notes), the Board has managed to establish and maintain an effective internal control system in the financial office. All these transitions, let the Company to ensure reasonably that the accounting records are maintained properly (with accurate, complete, and sufficient information) leading to identify weaknesses and flaws in order to prevent fraud or abnormal operation significantly. The appointed Audit Committee consisted of Non-Executive Directors to serve on the audit of financial reports. Finally, the Audit Committee will report transactions and Internal Audits to the Board of Directors in terms of reports and surveys.

K. Measures to take action against people failing to comply with such policies and practice guidelines

The Company has established appropriate penalties for the offenses without the need for punishment arranged in order, including verbal warning, written warning, suspension from job, non-consideration for salary adjustment, suspended bonus, laying off without compensation and according to legal penalties as well.

Business Code of Conduct

The Company has established the Business Code of Conduct for directors, executives and employees as practice guidelines, for working honesty, adhering to the rule of Law, transparency, morality and adhering to justice, be responsible to all stakeholders, not involved in human rights violations, anti-corruption, no conflict of interest not infringe on intellectual property, confidentiality. Board of Director Meeting

The Company has a policy that the Board of Directors must meet at least once every 3 months. The Company inform the directors of the dates and time of the meetings in advance every year so that the directors can manage their schedule to attend the meetings accordingly. There are clear agenda for each meeting. The Company sends the meeting invitation, together with the supporting documents, to the directors at least five days in advance to allow the directors having sufficient time to study the information prior to the meeting. The senior management of the Company will join the meeting in order to clarify and answer the Board of Directors' queries. The chairman will allow every director to express his/her opinion before proceeding with the vote and concluding a resolution of the meeting in each agenda. In addition, the Company has a policy that requires a minimum number of quorum at the time of the commission will vote on all must be present for at least 2 out of 3 of its members. The Company record the minutes of the meetings in writing and kept the originals with the meeting invitation notices and the relevant supporting documents and are also maintained to facilitate the directors and relevant persons for the purpose of examination.

Remuneration of Directors and Executives

The Company has determined remuneration for the directors and executives at an appropriate level, which is sufficient to retain competent directors and executives. While it avoids paying excessive remuneration, it remains the rate at the level comparable to companies in the same group of industry. Factors to be considered include experience, obligations, appraisal and scope of roles and responsibilities. The remuneration payment of the directors must be approved by the Company's shareholders. For remuneration of executives, it will be in accordance with principles and policies as determined by the Company's Board of Directors in which the consideration will be made based on duties, responsibilities, performance of each executive, and operational performance of the Company.

At the 2023 Annual General Meeting of shareholders, the meeting approved the remuneration of the Board of Directors and the subcommittees as follows:

Position	Monthly Allowance (Baht/Month)	Meeting Allowance* (Baht/Month)
Chairman of the Board	150,000	5,000
Director	40,000	5,000

Position	Monthly Allowance (Baht/Month)	Meeting Allowance* (Baht/Month)
Chairman of Audit Committee	35,000	5,000
Audit committee Member	10,000	5,000

In determining the remuneration of the Chief Executive Office, the Remuneration Committee will consider the performance of the Chief Executive Officer during the previous year pursuant to the specified key performance indicators (KPIs), each of which has different weighted scores. Also in 2015, the Company is prepared to grant to management to buy securities. This is the long-term incentive compensation that is consistent with the Company's portfolio and benefits given to shareholders.

3. Supervision of Subsidiaries and Associated Companies

The Company considered sending 1 director and 1 executive to be directors in 2 subsidiaries namely, LIT Service Management Company Limited, U Lite Digital Company Limited. Such directors and executives have been approved by the Board of Directors' meeting. However, if such director and executive cease to be a director of the subsidiary The Board of Directors will consider sending people to look after the benefits from time to time. The Company has established a policy for important transactions such as connected transactions.

4. Following up on compliance with corporate governance policies and practices

The Company pays attention to good corporate governance. The relevant policies and practices have been established in the Company's corporate governance policy and business ethics. Along with promoting real action to build confidence among all groups of stakeholders

(1) Prevention of Conflicts of Interest

The Company has established a policy on the Board of Directors. Executives and employees are required to perform their duties in the best interests of the Company. Any person who has an interest or is involved in the consideration Such person must notify the Internal Audit Department. Who supervise such matters and do not participate in the consideration of such transactions

Policy on conflicts of interest

The Company has taken some measures in order to prevent the conflicts of the interests that may arise (within the transaction process) of the Company and those persons who may create inconsistency. Due to the fact that the stakeholders in any subject will not be able to take part in the transaction, therefore it is the Board of Directors to oversee whether the Company complies with the laws and regulations of the Securities and Exchange Commission announcements (as well as requirements of the Capital Market Supervisory Board and Exchange) or not. In addition, the Board of Directors have to monitor all the disclosure requirements relating to the transactions (and acquisition or disposition of assets) of the Company. Their job is to strictly investigate the compliance (of transactions and assets) with the accounting standards set by the Association of Accountants.

In addition, the Company may assign the Audit Committee or independents experts to examine and comment on the appropriateness of the price strategies as well as reasonableness of the transactions. The results of the investigations will be disclosed in the form of financial statement notes in Annual Registration Statements These forms have been audited or reviewed by the auditors of the Company. Details appear in Part 2 Corporate Governance, Chapter 9 Internal Control and Connected Transactions.

(2) Use of internal information

The Company supervises the use of internal information according to the law and good corporate governance principles, which have been established in writing. In summary, the important policies are as follows.

1. The Company has required the directors, executives and employees to sign so as to acknowledge the relevant announcements of the SEC stipulating that the directors and executives are responsible for reporting changes in securities holding to the SEC according to Section 59 of the Securities and Exchange Act 1992 within 3 business days from the date of change in securities holding and must notify the company secretary to record the changes and summarize the number of securities of individual directors and executives for presentation to the Board of Directors in the next meeting. Also, penalties are notified for violating or failure to comply with such requirements.
2. The Company has the regulations prohibiting disclosure of financial statements or other information affecting the securities prices of the Company to third parties or non-related persons. Also, it is not permissible to trade securities during 1 month before information on financial statements or other information affecting the securities prices of the Company/group of companies will be released to the public. Non-compliance with such requirements is a violation of discipline, punishable, ranging from warning, cutting wages, suspension from job without being paid to dismissal.

Such guidelines have been approved by the Board of Directors. The Company Secretary will notify via email/line to relevant persons.

In the year 2023, There was no Directors and Executives traded the Company securities. There was no trading of the Company securities during the period of the Company specified not permission to trade.

Monitoring the Use of Internal information

- The directors, management and employees of the Company are prohibited to reveal the confidential and/or private data about the Company. The reason is to stop the personnel to disclose or seek benefits for themselves or for the benefit of any other person, whether directly or indirectly and whether they received benefits or not.
- The directors, management, employees, spouse, and children of the staff of the Company are prohibited to use some internal data (not publish to the public yet) because it may affect the price of the securities of the Company. Knowing such kind of information has potential risk to let the people take advantage of buying, selling, offering, or persuading others to do business with the securities of the Company, whether directly or indirectly, or whether such action is done for the benefit of themselves or others, or to allow others to do so by their benefits. Obviously, the risk is only when the data have been made public yet. Any violation of such terms will be punished by disciplinary measures of the Company.
- The Company has informed the executives about the securities report of the Company and also identified to their spouses and underage children. More details about the conditions and possibilities of violation of the personal/sensitive information are discussed in Section 59 of the Securities and Exchange Commission.
- The Company has defined the rules in not allowing the board, committee, employees, spouse and children of staffs sell or buy securities during the period of 1 month prior to the public disclosure of financial statements and within 24 hours after disclosure of financial statement.

The Company will inform the executive, officers and employees of the Company to know about the above requirements.

The Company has not been fined impeach or take civil action by regulators such as the SEC or the SET regarding stock trading by using Internal Information.

(3) Anticorruption

The Company has established policies and procedures to combat corruption. The Board has assigned the Audit Committee to supervise the internal control system. The executives are responsible for raising awareness and communicating their duties in good faith to all employees.

A) Anti-Corruption and Bribery

The Board of Directors is determined to reject all kinds of corruptions and bribes in every level, whether in the transactions with government sector or private sectors. The Company has developed the anti-corruption policy in year 2015, and make a procedure document to prevent and monitor the risk of fraud. The code of conduct imposes restriction on directors, executives, employees and other persons acting on behalf of the Company in engaging in giving or receiving illegal or inappropriate gifts, whether in cash or in kind, in order to achieve business advantages or relationship with business partners, and requires for a risk assessment in relation to such anti-corruption regularly.

In 2016, the Company has assigned a unit which is no conflict of interest, to review back to all customers who open new financial amount in order to collect information on corruption and bribery. The results found that no corruption and bribery.

In 2017, the Company announced its intention to cooperate with the Thai private sector in the fight against corruption (Collective Action Coalition) on June 9, 2017.

In 2023, the Company invites new customers of the Company to participate in declaring the intention for anti-corruption in all forms continuously. The Company reviewed the anti-corruption policy which has been approved by the Board of Directors. And the Company will announce the intention to join the Thai Private Sector's anti-corruption coalition on January 2, 2024. The Company will proceed as follows

- Assessing the risks associated with corporate fraud including the adoption of anti-corruption policy, compliance management plans and provide guidelines for conducting business for management and staff.
- Disclosing and sharing internal policies, experiences, good practices and promoting a key succession of business transactions guideline for accurate and transparent in Thailand.
- Collaborate with companies in the same industry, partners, and other stakeholders by creating an operational alignment and participating in anti-corruption activities.

The evaluation and follow up of Anti-corruption and Bribery policy and process of risk assessment from Corruption and Bribery

The Company executives organized the internal control for effective operation and risk reduction from nature of business. The internal control mentioned consists of Preventive control and Detective control which helps lower the chance and motivation in bribery and corruption by using duty allocation to allocate role and duty among employees and arrange the evaluation process of anti-corruption policy. The executives can receive report of defect and doubted behavior of employees in time, so that they can improve the internal control and the audit can be a part of follow up and assessment process of

anti-corruption policy annually and reports the result to Board of Directors of the Company. The directors, executives and all employees are obliged to report the breach of such anti-corruption policy. In this regard, the Company has arranged appropriate protection measures for the reporters. Each year, the Company has arranged trainings for employees who are interested in, or working in relevant departments, to acknowledge the importance of, and have understanding on, the anti-corruption policy and procedures, as well as the risk assessment on corruption actions.

The Infringement of intellectual property and license policy

The Company set the policy and guideline of The Infringement of intellectual property and license as followings;

- The Company's employees must give respect and not to infringe the intellectual property and license of others. If the employees see the behavior of Infringement of intellectual property and license, they must report to their supervisors.
- Check the intellectual property or license of things before receiving or using internally in order to reduce Infringement of intellectual property.
- The employees have to report to supervisors when facing the breach of such infringement of intellectual property

- In working process, the employees must protect the intellectual property of the Company, such as data, program and process and not to reveal to others outside the Company without the Company's permission.

Caution

- 1) To copy adapt or apply any electronically equipment, data, or Information Technology without reasonable cause.
- 2) To use confidential data without owner's permission.
- 3) To make a decision on receiving, using and right protecting of intellectual property without the clear and accurate understanding.

(4) Whistleblowing Actions in case of whistleblower and protection of whistleblower.

The Company has set up a communication channel through its website at www.leaseit.co.th to provide opportunities for shareholders and interested persons to opinion or complain directly to the Board of Directors of the Company in case there is an unfair treatment or a trouble arising from the action of the Company or shareholders can contact Board of Directors directly via;

9 Internal control and related transactions

Internal Control

In the board meeting No. 2/2024 held 20 February 2024, 4 audit committees member, who are the risk Management committee, attended the meeting. They evaluated the adequacy of the internal control system of the Company through making inquiries from executives. As a result of that, they concluded that the evaluation of the internal control system of the Company includes 5 parts as follows:

1. Control Environmental

The Company aims to set target of doing business and sets budget for evaluate its performance. The budget would under the approval of the Board of Directors. Furthermore, the Company set the appropriate and reasonable business target in line with economic situation. The executive responsible for each function is regularly reviewed by the Company. The Company structure is suitable for nature of work and responsibility. The Company set the supervision line clearly in order that every unit can proceed effectively. The Company sets the policy and authorities or proceeds the important issues in writing according to level of authorization and creates workflow of each unit under the audit process of internal control unit regularly. Moreover, the Company has fair operation policy and plan with customers to protect customers' benefit and keep customers' royalty in long term.

2. Risk Assessment

The Company analyzes the cause of risk factors in order to reduce risk that can occur and follow up the cause of the risk factors and find the way to prevent the risks. The employees know their roles, duties and risks together with the measurement to control that risks they are responsible to. The measurement is informed in working procedure, training and company's policy.

3. Control Activities

The Company set the level of approval authority clearly, work flow manual, detail of employees in each unit and job description clearly. As the related transaction policy, the Company proceed according to the principles approved by Board of Directors and approved by Audit committee. The stakeholders cannot vote for that kind of issue. The Board of Directors must aware of benefit of the Company to the utmost and consider as if the transaction was made by external party.

4. Information and Communication

The Company provides information systems, quality and adequate decisions, both of financial data and other information. The Company's accounting policies as standard that is acknowledged in the auditor's report.

To the efficiency of Information Technology System, the Company controlled to access the Information Technology systems, data, recall and the infringement of license and protection of the intellectual property of the Company and our customer.

5. Monitoring

The Company follows up the meeting results every three months in order to report the result to Board of Directors with reasons and recommendation for improvement. Meantime, the executives also hold the meeting weekly to evaluate the situations in order to set the problem-solving guideline in time.

The Board of Directors were agreed upon developing an internal system which controls transactions with major shareholders, directors, executives or related persons sufficiently, adequately and appropriately

Observations of Internal Audit on Internal Controls of the Company

Internal Audit department has been monitoring the management system core areas by providing feedback to the Company. In practice, the internal audit department leads to improve the quality of internal audits continuously by increasing the checks and balances (Check and Balance) on every control system. The internal audit department conducted a follow-up check-in on systems of 2022. The results of such investigation of internal audit on internal controls could provide good detections and recommendations for the Company to revise various issues successfully.

Observations of Auditor on Internal Controls of the Company

The EY Office Limited, the auditor of the Company as for the year ending 31 December 2023, examined the effectiveness of internal control system in order to set the appropriate scope of audit work. The result of the audit is believed that the Company's financial statements are correct in all material respects in accordance with generally accepted accounting standards and financial reporting standards.

Opinions of the Audit Committee

The Company's Audit Committee has considered information concerning the related transactions and has the opinion that such related transactions were reasonable and were transactions which occurred as per market prices or fair prices and there were no differences from selling and purchasing from other third parties.

- **Necessities and reasonableness of related transactions**

Operations concerning the related transactions were necessary and reasonable for the maximum benefits of the Company and were as per normal business

- **Procedures on approval of related transaction**

For procedures on approval of related transaction in the future, the Company shall comply with the laws on securities and securities exchange including regulations, announcements, orders or requirements of the Stock Exchange of Thailand. The management will estimate income-expense which are related party transactions that occur regularly and prepare a budget for each type of related party transaction prepared over a period of 1 year to request approval from the Board of Directors before proceeding with disbursement.

- **Trends of related transactions in the future**

The Company expected that such related transactions shall continue to occur in the future because the related transactions of the Company and the person who may have conflict of interest shall be as per normal business practices of the Company. In addition, the Company has appointed the Audit Committee to Audit and consider the disclosure of information of related transactions which may have conflict of interest so they shall be correctly and completely be in accordance to the law on securities and securities exchange including regulations, announcements, orders or requirements of the Stock Exchange of Thailand as well as compliance with the regulations related to disclosure of information on connected transactions and acquisition or disposal of assets and in accordance with the generally accepted accounting standards specified by the Federation of Accounting Professions.

- **Policy on Conflict of Interest**

The Company has established measures to prevent conflict of interest that may arise from related transactions of the Company and persons who may have conflict of interest. The Executives and Stakeholders are not allowed to take part in the approval of those transactions. The Company's Board of Directors must ensure that the Company has complied with the Securities and Exchange Act, and regulations, notifications regarding the disclosure of related transactions, the acquisition or disposition of significant assets of the Company, and the accounting standards prescribed by the Federation of Accounting Professions.

In addition, the Company will provide the audit committee or auditors or independent specialist as the case may be, to review and give opinion on the suitability of prices and justification of transactions, and will disclose related transactions in the notes to the financial statements that have been verified or reviewed by the Company's Auditors. Details are shown in Section 2 Corporate Governance, Chapter 9 Internal Control and Related Transactions.

**Independent Auditor's Report**

To the Shareholders of Lease IT Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Lease IT Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2023, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Lease IT Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lease IT Public Company Limited and its subsidiaries and of Lease IT Public Company Limited as at 31 December 2023, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are describe below.

Allowances for expected credit losses of receivables

The Group has adopted the set of Thai Financial Reporting Standards related to financial instruments. The set of standards includes Thai Financial Reporting Standard No. 9 Financial Instruments which stipulates a basis for calculating impairment of financial instruments using the expected credit loss method. The basis involves complex calculation modelling which requires management to use significant judgements and estimates in developing expected credit loss models in compliance with Thai Financial Reporting Standards. Significant management judgements include the identification of criteria for assessment of a significant increase in credit risk since initial recognition, the consideration of the future economic forecast based on weighted probabilities of situations to be incorporated in the models and a management overlay used to adjust of the allowance for expected credit losses due to the limitations of the model.

The Group has adopted the policy on the recognition of allowance for expected credit losses, as discussed in Note 4.4 to financial statements. As at 31 December 2023, the Group had net book value of trade and other receivables, installment account receivables, loan receivables, factoring receivables, financial lease and hire-purchase receivables, and term loan receivables amounting to totaling Baht 998 million representing 70 percent of the total assets (The Company only: Baht 980 million representing 70 percent of total assets), with allowance for expected credit losses amounting to Baht 730 million (The Company only: Baht 715 million), which is material amounts to the financial statements.

Because of the materiality and the use of management's significant judgements and estimates, as mentioned above, I therefore addressed the adequacy of allowances for expected credit losses of receivables as a key audit matter.

I gained an understanding of, assessed and tested the internal controls relating to the calculation of allowance for expected credit losses of receivables, taking into account the balance, complexity and credit risk of each receivables portfolio. I compared the accounting policies of the Group with Thai Financial Reporting Standards. I considered and assessed model development process and tested the accuracy of the data used in model development on a sampling basis. I also assessed the methods and assumptions applied by the Group in the calculation of the allowance for expected credit losses, including the method used to incorporate the management overlay to address the limitations of the model and the recording of allowance for expected credit losses.

Moreover, I examined the allowances for expected credit losses by assessing the classification of receivables based on changes in credit risk since initial recognition, testing the calculation of the allowances for expected credit losses at the end of accounting period, and testing the completeness of the data used in the calculation of allowances for expected credit losses, including assessing the adequacy of disclosure in accordance with the relevant financial reporting standards.

Interest incomes and fee and service incomes recognition

The Group has adopted a policy on the recognition of interest incomes and fee and service incomes recognition as discussed in Note 4.1 to financial statements. In 2023, the Group's revenue mainly consisted of interest incomes from receivables for a total of Baht 61 million (representing 56 percent of total revenue) (the Company only: Baht 60 million representing 64 percent of total revenue) and fee and service incomes from receivables for total of Baht 38 million (representing 34 percent of total revenue) (the Company only: Baht 23 million representing 25 percent of total revenue). The incomes were generated from various types of loans provided to a large number of customers. Therefore, I addressed the amount and timing of interest incomes and fee and service incomes recognition as a key audit matter.

I assessed the Group's information technology system controls and also assessed and tested the internal controls related to the loan origination, loan receipt and interest incomes and fee and service incomes recognition processes, by making enquiries of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls. I applied a sampling method to select each type of loan agreements to assess whether the recording of loans and receipt of repayment, and the interest incomes and fee and service incomes recognition were consistent with the conditions of the relevant agreements and in compliance with the Group's recognition policy. In addition, I performed analytical procedures on the data regarding the interest incomes and fee and service incomes recognised throughout the period and tested the accounting entries for interest incomes and fee and service incomes made through journal vouchers on a sampling basis.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- ☐ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ☐ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ☐ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ☐ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Lease IT Public Company Limited and its subsidiaries

Notes to consolidated financial statements

For the year ended 31 December 2023

1. General information

Lease IT Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. Its major shareholder is SVOA Public Company Limited, which was incorporated in Thailand. The Company is principally engaged in providing financial services in form of hire-purchase, leasing, factoring services for sales and services, and loans. The registered office of the Company is at 1023, 29th Floor, MS SIAM Tower, Chong Nonsi, Yannawa, Bangkok.

2. Basis of preparation of the financial statements

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Profession Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of Lease IT Public Company Limited ("the Company") and the following subsidiary companies ("the subsidiaries") ("collectively as "the Group").

Company's name	Nature of business	Country of incorporation	Percentage of shareholding	
			<u>2023</u> (%)	<u>2022</u> (%)
<u>Held by the Company</u>				
LIT Service Management Co., Ltd.	Providing services relating to data information, credit analysis and credit management	Thailand	100	100
Ulite Digital Co., Ltd.	Providing installment trading business on electronic platform	Thailand	100	100

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries have been prepared using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Company and its subsidiaries have been eliminated from the consolidated financial statements.
- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

2.3 The separate financial statement presents investment in subsidiaries under the cost method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2023. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2024

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2024. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and, for some standards, providing temporary reliefs or temporary exemptions for users.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

4. Significant accounting policies

4.1 Revenue and expense recognition

Interest incomes

Interest incomes from installment contracts, loan, factoring, financial lease and hire-purchase contracts, and term loan are recognised on an accrual basis using the effective interest method over the period of contracts. The effective interest rate is applied to the gross carrying amount of receivables, unless the receivables subsequently become credit-impaired when it is applied to the net carrying amount (gross carrying amount net of the expected credit loss allowance) of the financial asset

Fee and service incomes

Fee and service incomes are recognised at a point in time upon completion of the service or recognised over the period of contracts, except for fees related to loans directly which are recognised on an accrual basis using the effective interest method over the period of contracts.

Dividends

Dividends are recognised when the right to receive the dividends is established.

Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

Direct expenses charged on loans

Initial direct expenses at the inception of contract i.e. commission expenses are to be deferred and amortised using the effective interest method.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with original maturity of three months or less and not subject to withdrawal restrictions.

4.3 Receivables

Receivables which included trade receivables, installment receivables, loan receivables, factoring receivables, financial lease and hire-purchase receivables, and term loans receivables are stated at net realisable value. Unearned financial lease and hire-purchase incomes (unearned interest income) are presented as deduction from financial lease and hire-purchase receivables, and deferred direct expenses are presented as deduction from unearned interest incomes.

4.4 Allowance for expected credit losses - Installment receivables, Loan receivables, factoring receivables, financial lease and hire-purchase receivables, and term loan receivables

The Group recognised expected credit losses on financial assets consisting of installment receivables, loan receivables, factoring receivables, financial lease and hire-purchase receivables, and term loan receivables together with financial guarantee contracts, which are measured at amortised cost using the General Approach. The Group classifies their financial assets into three stages based on the changes in credit risk since initial recognition as follow:

Stage 1: Financial assets where there has not been a significant increase in credit risk (Performing)

For credit exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the Group recognises allowance for expected credit losses at the amount equal to the expected credit losses in the next 12 months. The Group will use a probability of default that corresponds to remaining maturity for financial assets with a remaining maturity of less than 12 months.

Stage 2: Financial assets where there has been a significant increase in credit risk (Under-Performing)

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, the Group recognises allowance for expected credit losses at the amount equal to the lifetime expected credit losses of financial assets.

Stage 3: Financial assets that are credit-impaired (Non-Performing)

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial assets that have become credit-impaired, the Group recognises allowance for expected credit losses at the amount equal to the lifetime expected credit losses of financial assets.

At each reporting date, the Group is to evaluate the increase in credit risk of loan receivables, factoring receivables, financial lease and hire-purchase receivables and term loans receivables since initial recognition by comparing the default risk between the reporting date and initial recognition date. For the basis used in the evaluation, the Group applies an internal quantitative and qualitative basis and uses forecast information to assess the deterioration in credit quality of customers such as:

- Days past due
- Compliance with conditions under debt restructuring contracts or according to court proceedings
- High-risk group and that are closely monitored by management

The Group evaluates the significant increase in credit risk since initial recognition as either individual or collective assessment. The collective assessment is made for portfolios of facilities with similar credit risk characteristics such as payment schedules and contractual credit terms for loan and term loan receivables, sectors of business entities being main sources of revenues for factoring receivables, number of parties involved in financial lease and hire-purchase contracts.

Financial assets are assessed to be credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the counterparties have occurred. Evidence of credit-impaired financial assets includes arrears of overdue payment or having indications that the borrower is experiencing significant financial difficulty, a breach of contract, bankruptcy or distressed restructuring. The Group's policy for overdue receivables are as follows:

- Installment receivables are overdue for more than 90 days
- Loan receivables are overdue for more than 90 days or post-dated cheque exceeds 60 days
- Factoring receivables from a private sector are overdue for more than 90 days or for more than 120 days in case of a government sector
- Financial lease and hire-purchase receivables are overdue for more than 90 days
- Term loans receivables are overdue for more than 90 days

The Group considers their historical loss experiences, adjusted by present perceivable information, and determines adjustment of economic future forecast based on weighted probabilities of situations in calculating the expected credit losses at least once a year. The Group uses most of information announced by the Bank of Thailand or government agencies, adjusted by an internal point of view and weighting of base scenario, best scenario and worst scenario in order to reflect the fair expected credit losses.

The measurement of expected credit losses for financial guarantees is based on the expected payments to reimburse the holder less any amounts that the Group expects to recover.

Expected credit losses are recognised through profit or loss in the statements of comprehensive income.

4.5 Property foreclosed

Property foreclosed represent assets repossessed from receivables and are stated at the lower of cost and estimated net realisable value.

4.6 Investments in subsidiaries

Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

4.7 Equipment and depreciation

Equipment is stated at cost less accumulated depreciation and allowance for loss on impairment (if any).

Depreciation of equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

Building improvement	-	5	years
Furniture	-	5	years
Computers	-	3	years
Office equipment	-	5	years
Motor vehicles	-	10	years

Depreciation is included in determining income.

An item of equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is recognised in part of profit or loss when the asset is derecognised.

4.8 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and any accumulated impairment loss (if any).

Intangible assets with finite lives are amortised on the straight-line basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

Intangible asset with finite useful lives is as follows:

Computer software	5 - 10 years
-------------------	--------------

No amortisation is provided on computer software under installation.

4.9 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease, and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Office building	6 years
Motor vehicles	10 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

4.10 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associates and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

4.11 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the equipment, right-of-use asset, and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss.

4.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Group and its employees have jointly established a provident fund together with the group company of a major shareholder. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

Defined benefit plans

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary, based on actuarial techniques using the projected unit credit method.

Actuarial gain and loss arising from defined benefit plan are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Group recognises restructuring related cost.

4.13 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.14 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.15 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost and fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets which are security investments held for trading measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

Classification and measurement of financial liabilities

At initial recognition, the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

The Group recognises the allowance for expected credit losses (“ECLs”) on their financial assets measured at amortised cost without any signs of credit-impaired events. The financial reporting standards requires to recognise impairment based on an Expected Credit Losses Model and management overlay for the factors which are not captured by the model. The Group accounts for changes in expected credit losses in stages, with different methods in determining the allowance for credit losses and the effective interest rate applied at each stage as mentioned in Note 4.1 and 4.4.

For trade receivables which do not contain a significant financing component, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.16 Fair value measurement

Fair value is the price that would be received from sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures, and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Allowance for expected credit losses

In determining an allowance for expected credit losses for each type of receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic conditions for groupings of various customer segments with similar credit risks, increase in credit risk condition, the development of complex expected credit losses model with a series of underlying assumptions, etc. The Group's historical credit loss experiences and forecast economic conditions may also not be representative of whether a customer will actually default in the future. This estimation has various relevant factors; therefore, the actual results may differ from estimates.

Leases

Determining the lease term with extension and termination - The Group as a Lessee

In determining the lease term, the management is required to exercise judgement in assessing whether the Group is reasonably certain to exercise the option to extend or terminate the lease considering all relevant facts and circumstances that create an economic incentive for the Group to exercise either the extension or termination option.

Estimating the incremental borrowing rate - The Group as a Lessee

The Group cannot readily determine the interest rate implicit in the lease, therefore, the management is required to exercise judgement in estimating its incremental borrowing rate to discount lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profit.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statements of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk, liquidity, correlation and longer-term volatility of financial instruments. Also, change in assumptions about these factors could affect the fair value presented in the statements of financial position and disclosures of fair value hierarchy.

6. Related party transactions

During the years, the Group had significant business transactions with its related parties. Such transactions arose in the ordinary courses of business and were concluded on commercial terms or on bases agreed upon between the Company and its related parties. The pricing policies for these related party transactions are summarised as follows:

1. Rental and service expenses are charged at agreed prices.
2. Sales and purchases of equipment and computer software are at market prices.
3. Dividend income is recognised when declared.
4. Loans between related party is charged at the rate of 1.5 percent per annum.
5. Purchases of goods and services are at market prices.

During the years, significant transactions between the Company and its related parties are summarised below.

	(Unit: Thousand Baht)			
	Consolidated financial statements		Separate financial statements	
	2023	2022	2023	2022

Total allowance for expected credit losses as presented above excludes that of trade and other receivables.

As at 31 December 2023, the Group classified stage 3 receivables in respect of their credit risks from risk assessment of installment account receivables, loan receivables, factoring receivables, financial lease and hire-purchase receivables, term loan receivables and interest receivables, of which the total book value was Baht 1,117.5 million (2022: Baht 1,062.7 million). Status of receivables can be classified as follows:

1. Receivables with 90 days overdue for Baht 315.5 million (2022: Baht 412.7 million), of which the debt collection process is under close-monitoring.
2. Receivables with acknowledgement of debt or debt restructuring contracts for Baht 125.4 million (2022: Baht 100.5 million), of which the payment has been followed up in order to ensure that it is in accordance with contractual conditions. Such receivables, with an amount of Baht 14.5 million (2022: Baht 14.5 million), contained collateral with a total value that covered the receivables amounting to Baht 0.9 million (2022: Baht 0.9 million) in form of land which was registered as mortgage and of which the ownership had been transferred to the Group.
3. Receivables under litigation which are during prosecution of civil and criminal cases as well as during court trials for Baht 676.6 million (2022: Baht 549.5 million). Such receivables, with an amount of Baht 151.1 million (2022: Baht 76.8 million), contained collaterals with a total value that covered the receivables amounting to Baht 89.2 million (2022: Baht 39.3 million) in form of land and building which were registered as mortgage and of which the ownership had been transferred to the Group.

As at 31 December 2023, the Company has account receivables overdue more than 12 months but have not been classified as receivables with credit impairment because these are receivables from ongoing projects with Government agencies, for which collection is proved to be quite certain. However, the Company has appropriately and adequately set up allowance for expected credit losses based on the heightened risk from uncollectible receivables.

Movements of allowance for expected credit losses for installment receivables, loan receivables, factoring receivables, financial lease and hire-purchase receivables, term loan receivable and interest receivables for the year ended 31 December 2023 and 2022 are as follows:

22. Income tax

22.1 Deferred tax assets

As at 31 December 2023 and 2022, the components of deferred tax assets and deferred tax liabilities are as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Deferred tax assets				
Allowance for expected credit losses	146,063	132,654	143,080	129,353
Provision for long-term employee benefits	887	749	866	735
Leases	190	1,278	171	1,255
Deferred initial fees income from financial lease and hire-purchase contracts	2	8	2	8
Installments sales received in advance	969	1,042	-	-
Total	148,111	135,731	144,119	131,351
Deferred tax liabilities				
Deferred commission expenses	(109)	(111)	(109)	(111)
Deferred expense on debenture issuance	(446)	(1,301)	(446)	(1,301)
Leases	(643)	-	(643)	-
Difference of income recognised under financial lease contracts	(3)	(4)	(3)	(4)
Total	(1,201)	(1,416)	(1,201)	(1,416)
Deferred tax assets – net	146,910	134,315	142,918	129,935

22.2 Income tax expenses

Income tax expenses for the years ended 31 December 2023 and 2022 are made up as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Current income tax:				
Current income tax charge for the year	173	2,769	-	-
Deferred tax:				
Relating to origination and reversal of temporary differences	(12,595)	(26,196)	(12,983)	(23,794)
Income tax revenue reported in the statements of comprehensive income	(12,422)	(23,427)	(12,983)	(23,794)

The amounts of income tax relating to each component of other comprehensive income for the years ended 31 December 2023 and 2022 are as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Deferred tax on actuarial gains and losses	-	760	-	719

Reconciliations between accounting loss and income tax revenue for the years ended 31 December 2023 and 2022 are shown below.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Accounting loss before tax	(130,035)	(123,458)	(124,955)	(113,697)
Applicable tax rate	20%	20%	20%	20%
Accounting loss before tax multiplied by income tax rate	(26,007)	(24,692)	(24,991)	(22,739)
Write-down of previous deferred tax asset	5,937	-	5,937	
Effects of:				
Bad debts written-off	-	125	-	-
Non-deductible expenses	32	351	23	46
Additional expense deductions allowed	(773)	(69)	(769)	(69)
Income not subject to tax	-	-	(400)	(2,000)
Deferred tax asset unrecognised	8,024	-	6,854	-
Others	365	858	363	968
Total	7,648	1,265	6,071	(1,055)
Income tax revenue reported in the statements of comprehensive income	(12,422)	(23,427)	(12,983)	(23,794)

As at 31 December 2023, the Group has unused tax losses totaling Baht 40.1 million (The Company only: Baht 34.3 million), on which deferred tax assets have not been recognised as the Group believes future taxable profits may not be sufficient to allow utilization of the unused tax losses. The unused tax losses will expire by 2027 - 2028.

23. Short-term loans from financial institutions

	Interest rate		(Unit: Thousand Baht)	
			Consolidated and separate	
			financial statements	
	2023	2022	2023	2022
	(Percent per annum)	(Percent per annum)		
Short-term loans from financial institutions	-	MOR - 1.75	-	50,000
Total			-	50,000

Short-term loan agreements contain certain covenants that, among other things, require the Company to maintain debt to equity ratio at the rate prescribed in the agreements, and the portion of the Company's shares held by its major shareholder.

24. Debentures

No.	Date of issuance	Conditions	(Unit: Thousand Baht)	
			Consolidated and separate financial statements	
			2023	2022
1.	23 March 2021	Issued name registered, unsecured and unsubordinated debentures with a debenture holders' representative, 2-year debentures at a coupon rate of 5.70% per annum with interest payable every 3 months, and maturity on 23 March 2023	-	393,800
2.	23 December 2022	Issued name registered, secured and unsubordinated debentures with a debenture holders' representative, 1.5-year debentures at a coupon rate of 7.00% per annum with interest payable every 3 months, and maturity on 23 June 2024	300,000	400,000
3.	20 September 2023	Issued name registered, unsecured and unsubordinated debentures without a debenture holders' representative, 1.5-year debentures at a coupon rate of 7.00% per annum with interest payable every 3 months, and maturity on 20 March 2025	54,000	-
Total			354,000	793,800
Less: Deferred issuing expenses			(2,231)	(6,505)
Debentures			351,769	787,295
Less: Portion due within one year			(298,079)	(393,206)
Debentures - net of current portion			53,690	394,089

Movements of the debenture account for the years ended 31 December 2023 and 2022 were summarised below.

	(Unit: Thousand Baht)	
	Consolidated and separate	
	financial statements	
	2023	2022
Balance at beginning of the year	793,800	786,800
Add: Increase during the year	54,000	400,000
Less: Redemption during the year	(493,800)	(393,000)
Balance at end of the year	354,000	793,800

Such debentures contain certain covenants which the Company has to comply with, such as financial ratios, dividend payment and disposal of assets, etc.

On 23 December 2022, the Company issued secured debentures which contain certain conditions that the Company has to comply with, such as values of right transfer in cash receipts from factoring receivables, loan receivables, financial lease receivables and hire-purchase receivables must not less than 1.5 times of the unredeemed debentures value throughout the period of those secured debentures, excluding receivables which have credit losses.

On 25 September 2023, the Company has early redeemed debentures in the amount of Baht 100 million to manage cash flows and finance costs of the Company.

25. Other financial liabilities

The balance of other financial liabilities as at 31 December 2023 and 2022 is as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Other current financial liabilities				
Bid bonds deposit awaiting for return to customers - current portion	18,685	20,751	18,685	20,751
Cash receipt awaiting for return to receivables	15,502	15,469	15,286	15,217
Short-term credit deposit	18,618	2,342	18,618	2,342
Total	52,805	38,562	52,589	38,310
Other non-current financial liabilities				
Long-term credit deposit	7,174	-	7,174	-
Total	7,174	-	7,174	-
Total other financial liabilities	59,979	38,562	59,763	38,310

As at 31 December 2023, the Company had bid bonds deposit awaiting for return to customers of Baht 19 million (2022: Baht 21 million) which arose from the Company being a guarantor with a bank that issued bank guarantees for bid bonds on behalf of the Company's customers.

26. Provision for long-term employee benefits

Provision for long-term employee benefits, which represents compensation payable to employees after they retire, was as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Provision for long-term employee benefits				
at beginning of year	3,745	5,804	3,673	5,282
Amount included in profit or loss:				
Current service costs	593	1,132	562	998
Interest costs	98	94	95	85
Past service costs	-	515	-	905
Included in other comprehensive income:				
Actuarial (gain) loss arising from				
Demographic assumptions changes	-	40	-	36
Financial assumptions changes	-	(744)	-	(714)
Experience adjustments	-	(3,096)	-	(2,919)
Provision for long-term employee benefits	4,436	3,745	4,330	3,673

As at 31 December 2023, the weighted average duration of the liabilities for long-term employee benefits is approximately 13 - 21 years (2022: 13 - 21 years) and the Company only: 13 years (2022: 13 years).

Significant actuarial assumptions are summarised below:

	(Unit: percent per annum)	
	Consolidated and separate	
	financial statements	
	2023	2022
Discount rate	2.8	2.8
Future salary increase rate	5.0	5.0
Employee turnover rate (depending on age of employees)	10.0 - 25.0	10.0 - 25.0

The results of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligations as at 31 December 2023 and 2022 are summarised below:

(Unit: Million Baht)				
As at 31 December 2023				
	Consolidated		Separate	
	financial statements		financial statements	
	Increase 1%	Decrease 1%	Increase 1%	Decrease 1%
Discount rate	(0.4)	0.4	(0.4)	0.4
Salary increase rate	0.5	(0.4)	0.4	(0.4)
Employee turnover rate (20 of based assumption)	(0.5)	0.6	(0.5)	0.6

(Unit: Million Baht)				
As at 31 December 2022				
	Consolidated		Separate	
	financial statements		financial statements	
	Increase 1%	Decrease 1%	Increase 1%	Decrease 1%
Discount rate	(0.3)	0.4	(0.3)	0.4
Salary increase rate	0.4	(0.3)	0.4	(0.3)
Employee turnover rate (20 of based assumption)	(0.4)	0.5	(0.4)	0.5

27. Share capital

On 17 December 2021, the Company's Extraordinary General Meeting of shareholders No. 1/2021 passed the resolution approving the following:

1. Approved a reduction in the Company's registered capital from Baht 300,000,000 (300,000,000 ordinary shares with a par value of Baht 1 each) to Baht 299,999,532 (299,999,532 ordinary shares with a par value of Baht 1 each) by cancelling the 468 authorised but unissued ordinary shares from stock dividend.
2. Approved an increase in the Company's registered capital from Baht 299,999,532 (299,999,532 ordinary shares with a par value of Baht 1 each) to Baht 558,357,230 (558,357,230 ordinary shares with a par value of Baht 1 each) by issuing 258,357,698 new ordinary shares with a par value of Baht 1 each. The Company registered the share capital increase with the Ministry of Commerce on 24 December 2021.

3. Approved the allocation up to 258,357,698 new ordinary shares with a par value of Baht 1 each as follows:
 - 3.1 No more than 221,449,456 new ordinary shares of the Company with a par value of Baht 1 each to be offered to existing shareholders of the Company in proportion to the number of shares held by each shareholder at a price of Baht 1.20 each. The Company received the paid-up share capital on 21 January 2022.
 - 3.2 No more than 36,908,242 new ordinary shares of the Company with a par value of Baht 1 each to support the exercise of the warrants No.2 (LIT-W2) to purchase ordinary share of the Company.

On 7 April 2022, the Company's Annual General Meeting of shareholders 2022 passed the resolution approving the follows:

1. Approved an increase in the Company's registered capital from Baht 558,357,230 (558,357,230 ordinary shares with a par value of Baht 1 each) to Baht 601,732,935 (601,732,935 ordinary shares with a par value of Baht 1 each) by issuing 43,375,705 new ordinary shares with a par value of Baht 1 each. The Company registered the share capital increase with the Ministry of Commerce on 19 April 2022.
2. Approved the allocation 43,375,705 new ordinary shares with a par value of Baht 1 each to support the exercises of warrants No.1 (LIT-W1)

28. Warrants

28.1 During the year 2022, 41,653 LIT-W1 warrants has been converted, there were 157,058,499 unexercised LIT-W1 warrants. However, LIT-W1 expired on 25 April 2022 and was transferred to share premium amounting to Baht 392.6 million in the year.

28.2 On 1 February 2022, the Company issued and allocated 36,907,466 units as the second warrants issuance of Lease IT Public Company Limited (LIT-W2). Details are as follows:

Type	Name registered and transferrable
Offering price per unit	Baht 0
Maturity of warrants	3 years from the date of issuance
Exercise price	Baht 2.00 per share, subject to change in accordance with the conditions of rights adjustments
Conversion ratio	1 ordinary share per 1 warrant, subject to change in accordance with the conditions of rights adjustments
Conditions and period of exercise	<p>1) Exercises of the warrants can be made on the 25th of June and December of each year throughout the term of the warrants, with the first exercise date being 25 June 2022, and the warrant holders have to deliver notification of their intention to exercise the warrants at least 5 business days prior to each exercise date. The final exercise date is 31 January 2025 and warrant holders have to deliver notification of their intention to exercise the warrants at least 15 business days prior to this final exercise date.</p> <p>2) Unexercised warrants can be accumulated to exercise during the next exercise period, until the maturity of the warrants.</p>

As at 31 December 2023 and 2022, there were 36,907,445 unexercised LIT-W2 warrants.

29. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside a statutory reserve at least 5 percent of its net profit after deducting accumulated deficit brought forward (if any), until the reserve reaches 10 percent of the registered capital. The statutory reserve is not available for dividend distribution.

30. Interest incomes

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Interest incomes from

Others	2,968	7,281	1,601	5,187
Total other incomes	10,983	11,274	10,208	19,180

33. Expenses by nature

Significant expenses classified by nature are as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Salaries and other employee benefits	54,879	57,725	49,323	52,260
Expected credit losses	105,195	126,967	99,696	112,336
Depreciation and amortisation	10,845	10,981	8,436	8,670
Sale promotion expenses	5,805	8,283	3,532	5,002
Lease and services expenses	6,637	5,920	5,587	4,817
Professional fees	4,190	4,699	3,260	3,769
Special business tax	2,738	3,434	2,726	3,418
Financial management fees	572	1,877	507	1,791

34. Loss per share

Basic loss per share is calculated by dividing loss for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares issued during the year.

Diluted loss per share is calculated by dividing loss for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares issued during the year plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the year or on the date the potential ordinary shares were issued.

As at 31 December 2023 and 2022, the warrants were excluded from the potential ordinary shares since their exercise price was in excess of the fair value of the ordinary shares.

35. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

For management purposes, the Group is organised into business units based on its services and has three reportable segments as follows:

1. Lending business in term of hire-purchase, financial leases, factoring from selling and service, loans and sales of goods.
2. Providing the data information and credit analysis included the project management
3. Online shopping service platform with installment payment.

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions regarding resource allocation and performance assessment. Segment performance is measure based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements.

Revenue and profit, and total assets and total liabilities information regarding the Group's operating segments for the years ended 31 December 2023 and 2022 are as follows.

35.1 Results of operations separated by business segment

31 December 2023	426,467	1,326	32,078	(26,199)	433,672
31 December 2022	901,749	4,058	33,503	(30,281)	909,029

Geographic information

The Group only operates in Thailand. As a result, all the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

Major customers

For the years 2023 and 2022, the Group has no major customer with revenue of 10 percent or more of an entity's revenues.

36. Provident fund

The Group and its employees jointly registered a provident fund scheme under Provident Fund Act B.E. 2530. The fund is monthly contributed by the employees at the rate of 5 percent of their basic salaries and by the Group at the same rate. The fund is managed by SCB Asset Management Company Limited and will be paid to the employees upon termination in accordance with the rules of the fund. The contributions for the years 2023 and 2022 amounting to Baht 0.89 million and Baht 1.05 million, respectively, were recognised as expenses for the Group (The Company only: Baht 0.79 million and Baht 0.97 million, respectively).

37. Commitments and contingent liabilities

As of 31 December 2023 and 2022, the Group has commitments other than those disclosed in other notes as follows:

37.1 Capital commitments

As at 31 December 2023, the Group had capital commitments of Baht 4.1 million and the Company only of Baht 4.1 million relating to the development and installation of the Company's credit business and operating information technology system (2022: The Group: Baht 4.2 million and the Company only: Baht 4.2 million).

37.2 Service commitments

The Group have entered into several agreements in respect of other services. The terms of the agreements are generally between 1 and 3 years.

As at 31 December 2023 and 2022, The Group has future minimum payments from service agreements as follows:

	(Unit: Million Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2023	2022	2023	2022
Payable				
In up to 1 year	6.6	6.4	5.5	4.9
In over 1 and up to 3 years	0.9	5.3	0.9	4.2

37.3 Guarantees

As at 31 December 2023, the Company had commitments of approximately Baht 18 million (2022: Baht 25 million) as a result of its guarantees to banks on behalf of customers to whom the banks issued bank guarantees for bid bonds. The Company has pledged deposits of Baht 40 million (2022: Baht 40 million) to secure these bank guarantees as Note 17.

38. Financial instruments

Financial risk management objectives and policies

The Group's financial instruments, principally comprise cash and cash equivalents, other current financial assets, trade and other receivables, installment account receivables, loan receivables, factoring receivables, financial lease receivables, hire-purchase receivables, term loan receivables, restricted bank deposits, bank overdrafts and short-term loans, trade and other payables, long-term loans, debentures, and financial liabilities. The financial risks associated with these financial instruments and how they are managed is described below.

38.1 Credit risk

The Group is exposed to credit risk primarily with respect to trade and other receivables, installment account receivables, loan receivables, factoring receivables, financial lease receivables, hire-purchase receivables and term loan receivables which is the risk that a counterparty or a borrower fails to comply with conditions and covenants stated in the agreement resulting in non-performing debt and adverse effect over the Group's income and capital fund. The Group manages the risk, adopting appropriate credit control policies and procedures, evaluating credit analysis from customers' information and monitoring status of customers on a continuous basis. The maximum exposure to credit risk is limited to the carrying amounts of receivables net of allowance for expected credit losses stated in the statements of financial position.

The Group reviews expected credit losses model which is in compliance with TFRS 9 related to the impairment of financial assets by continually reviewing numbers and information used in calculation to ensure that the model is appropriate.

The maximum exposure to credit risk of financial assets

The maximum exposure to credit risk is gross carrying amounts of financial assets before the effect of mitigation through use of collateral arrangements and any operations to increase creditability. For financial assets recognised in the statements of financial position, the maximum exposure to credit risk equals their gross carrying amounts before deducting allowance for expected credit losses.

Credit quality analysis

The Group presents the table of credit quality of financial assets exposed to credit risk in Note 8 -15 to the financial statements.

Financial instruments and cash deposits

The Group manages the credit risk from balances with banks and financial institutions by making investments only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Group's Executive Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

The credit risk on debt instruments and derivatives is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

38.2 Market risk

Market risk is the risk that changes in interest rates, foreign exchange rate and securities price may have an effect on the financial positions of the Group. As the Group has no assets or liabilities denominated in foreign currencies and no investments in market securities; therefore, the Group only has interest rate risk.

Interest rate risk

The Group has interest rate risk which is the risk that the value of financial instruments will fluctuate as a result of changes in market interest rates. The Group manages the changes in interest rate risk by means of an appropriate structuring of holdings in assets and liabilities with different repricing dates, taking into account the direction of market interest rates, in order to generate a suitable yield while maintaining risk at acceptable levels.

Significant financial assets and liabilities as at 31 December 2023 and 2022 classified by type of interest rates are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

38.3 Liquidity risk

Liquidity risk is the risk that the Group will be unable to liquidate their financial assets and/or procure sufficient funds in a timely manner to discharge their debts obligations on due date or acquiring funds at a higher unacceptable cost thus affecting the Group's income and capital fund at present and in the future.

The Group manages liquidity risk by means of appropriate structuring of short-term and long-term sources of capital. In addition, the Group has a policy to maintain liquidity to ensure that it has sufficient liquidity to meet both present and future requirements.

The table below summarises the maturity profile of the Group's non-derivative financial instruments as at 31 December 2023 based on contractual undiscounted cash flows:

(Unit: Million Baht)

	Consolidated financial statements			
	On demand	Less than 1 year	1 to 5 years	Total
<u>Non-derivatives</u>				
Trade and other payables	-	5	-	5
Debentures	-	311	59	370
Lease liabilities	-	4	-	4
Other financial liabilities	-	53	7	60
Total non-derivatives	-	373	66	439

(Unit: Million Baht)

	Separate financial statements			
	On demand	Less than 1 year	1 to 5 years	Total
<u>Non-derivatives</u>				
Trade and other payables	-	1	-	1
Debentures	-	311	59	370
Lease liabilities	-	3	-	3
Other financial liabilities	-	53	7	60
Total non-derivatives	-	368	66	434

38.4 Fair value of financial instruments

As at 31 December 2023 and 2022, the Group had financial assets and liabilities that were measured at fair value, and of which fair values was disclosed using different levels of inputs as follows:

	(Unit: Million Baht)			
	Consolidated and separate financial statements			
	2023			
	Fair value			
	Level 1	Level 2	Level 3	Total
<u>Financial assets measure at FVTPL</u>				
Investment in trading securities	-	80	-	80
<u>Financial liabilities for which fair value are disclosed</u>				
Debentures	-	353	-	353

	(Unit: Million Baht)			
	Consolidated and separate financial statements			
	2022			
	Fair value			
	Level 1	Level 2	Level 3	Total
<u>Financial liabilities for which fair value are disclosed</u>				
Debentures	-	793	-	793

Fair value hierarchy of financial assets and liabilities as at 31 December 2023 and 2022 has been prepared in accordance with Notes 4.16 to the financial statements.

As at 31 December 2023 and 2022, the methods and assumptions used by the Group in estimating the fair values of financial instruments are as follows:

- For financial assets and liabilities with short-term maturity, including cash and cash equivalents, trade and other receivables, trade and other payables, short-term loans, restricted bank deposits, their carrying amounts in the statement of financial position is approximate their fair values.

- b) The fair value of installment account receivables, loan, factoring, financial lease, hire-purchase and term loan receivables are estimated by discounting expected future cash flows by current market interest rates of the loans with similar terms and conditions.
- c) The fair value of debentures is estimated by discounting expected future cash flows by the current market interest rate of the borrowings with similar terms and conditions.

During the current year, there were no transfers within the fair value hierarchy.

38. Capital management

The primary objective of the Group's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2023, the Group's debt-to-equity ratio was 0.44:1 (2022: 0.82:1) and the Company's was 0.44:1 (2022: 0.83:1).

39. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 20 February 2024.

1 Details of Directors, Management, Controlling Persons Person assigned to the highest responsibility in accounting and finance Those assigned to take direct responsibility for accounting supervision. Company secretary

5 Policy and practices of corporate governance and business code of conduct

1. Nomination and Remuneration of Directors and Executives, Independence of the Board of Directors from the Management, Director Development and Evaluation of the Performance of Directors, including supervision of subsidiaries and associated companies

Nomination and Remuneration of Directors and Executives

The Company requires its directors to comply with the Code of Best Practices for directors of listed companies according to guidelines of the Stock Exchange of Thailand. The Board of Directors approves the vision, mission, strategies, direction and policies for operations, business plans and annual budget of the Company and supervises the management to act in line with the policies and business plans specified under the laws, objectives and Articles of Association of the Company and resolutions of the Board of Directors as well as the shareholders' meeting by taking into account the best interests of the Company and stakeholders mainly. This is intended to create stability and sustainability for the Company and add value to shareholders in the long term. The Board of Directors requires the annual review and approval of the Company's vision, mission, strategies, direction and policies for operations so as to adapt to changing business situation and conditions. The Board must understand and know its roles, responsibilities and must perform the duties in accordance with the laws, objectives and Articles of Association of the Company as well as resolutions of the shareholders' meeting with integrity by taking into account the benefits of the Company and shareholders essentially.

The Board of Directors has established policies and plans for succession to the position of the highest level executives of the organization and Senior Management which consists of Deputy Chief Executive Officer and Chief Financial Officer. The operating guidelines are clearly defined. The Board of Directors is responsible for selecting follow up on the implementation of the succession plan and selection of the Chief Executive Officer. The Chief Executive Officer is responsible for considering, selecting and monitoring the implementation of the succession plan. And considering the selection of the Debt Chief Executive Officer and the Chief Financial Officer.

Policy on "Succession Plan"

1. Introduction

The Company attaches importance to sustainable corporate governance. Therefore, the Board of Directors has established and further implemented Succession Plan as guidelines for action.

2. Objectives

1. To always evaluate readiness as for the extent to which the organization has workforce with Qualifications and Competencies.
2. To be able to plan the recruitment and selection of personnel in advance proactively by planning the recruitment and development from personnel in the organization with capabilities in the positions of departmental manager or above up to managing director or chief executive officer or outsiders.
3. To plan replacement and succession for retirement and management of talents or positions targeted by the market/competitors.
4. To reduce the loss rate of personnel with knowledge, capabilities and experience.
5. To motivate and retain talented and competent employees to plan replacement and succession and receive the opportunities for development and promotion to higher positions.

3. Regulations and rules

3.1 Regulations and rules for Succession Plan

The Company has developed the rules and regulations for selecting personnel who will be responsible for important management positions of the Company so as to be appropriate and transparent. The objective is to ensure that the Company has qualified executives with professional skills, experience and competencies through the Nomination and Remuneration Committee and/or Chief Executive Officer and succession planning according to employee level as follows.

A) Managing Director or Chief Executive Officer (CEO) level

- The management prepares a succession plan at managing director or chief executive officer level for proposing to the Nomination and Remuneration Committee to consider and present to the Board of Directors for approval.
- The Nomination and Remuneration Committee arranges to monitor the progress of succession plan from identifying the successors (personal notification), competency development as well as evaluation.
- When the position of chief executive officer/managing director is vacant or the person in office is unable to perform the duties, the Nomination and Remuneration Committee is responsible for selecting a new chief executive officer/managing director for presentation to the Board of Directors to approve the appointment of a suitable replacement person.

Basic Qualifications of Managing Director or Chief Executive Officer are as follows.

1. Education is not lower than the Bachelor's degree level.
2. Having experience in management in the position of line director or above
3. Having leadership and far-sighted vision
4. Capability of strategic planning and organizational management
5. Making prudent decisions and solutions by taking into account the best interests of the organization

B) Executive level from Departmental Director to Assistant Managing Director level

- The management prepares a succession plan at executive level from departmental director to assistant managing director level so as to propose to the Nomination and Remuneration Committee to consider and present to the Board of Directors for approval.
- The managing director must arrange to monitor the progress of succession plan from identifying the successors (personal notification), competency development as well as evaluation.
- When the executive position from departmental director to assistant managing director level is vacant or the person in office is unable to perform the duties, the managing director is responsible for selecting and appointing a new executive to the vacant position.

Basic Qualifications of Executive from Departmental Director to Assistant Managing Director level are as follows.

1. Education is not lower than the Bachelor's degree level.
2. Having experience in management in manager position or above
3. Having leadership and far-sighted vision
4. Having the capability of strategic planning
5. Integrity and seeing the benefits of the organization as important

3.2 The Company's Succession Plan includes the following processes.

- 3.2.1 Creating an Employee Training and Development plan in advance before employees will retire or leave office prematurely
- 3.2.2 Specifying Qualifications and Competencies, which refer to desirable knowledge, skills, personality and attitudes of employees in those positions and creating an Individual Development Plan
- 3.2.3 Selecting, evaluating work performance and assessing the competencies of the person who will be the candidate to consider suitability
- 3.2.4 Identifying at least 2 successors from competency assessment and analysis, employee performance by notifying employees in advance (personal notification) so as to prepare for accepting an assignment and learning work
- 3.2.5 Developing and evaluating employees who are expected to be successors about their ability to actually develop and work as expected. If not as expected, action must be taken as follows.
 - 3.2.5.1 Selecting and planning new succession and developing replacement successors (if any) or
 - 3.2.5.2 Nomination and selection from outsiders
- 3.2.6 When the successors are fully qualified according to the positions with higher responsibilities and there are vacancies or new higher positions, Promotion & Acting must be presented according to the Company's policy.

Independence of the Board of Directors from the Management

The Company has separated roles, duties and responsibilities between the Board of Directors and the management. The Board of Directors has performed its duties honestly and carefully to protect the interests of the Company. The Company has clearly set the approval authority of the Board of Directors in various matters. Such as setting goals, guidelines, policies, business plans and the budget of the Company Reviewing, auditing and approving business expansion plans Large investment projects As well as joint investments with other operators proposed by the management.

Scope of authority, duties of the Chairman of the Board and the Board of Directors

Roles and duties of the Chairman of the Board of Directors

The Company's Articles of Association Clause 29. "In summoning a meeting of the Board of Directors Notice of the meeting shall be sent to the directors at least three (3) days prior to the meeting, except in case of urgent necessity to preserve the rights or benefits of the Company, the meeting will be notified via electronic means, or any other means and the date of the meeting will be scheduled faster than that.

The Board of Directors may send meeting invitations to the directors by electronic means. If the director has requested or giving consent in writing or give consent by electronic means according to channels, methods and within the period specified by the company or according to the rules prescribed by the Registrar."

Besides, so as to allow division of the authority and duties in determining the Company's policies and management of the Company to be clearly separated from each other, therefore the Company stipules that the Chairman of the Board and Chief Executive Officer must be different persons. The Chairman of the Board has the roles and duties as follows.

1. Convening the meeting of the Board of Directors, chairing the Board of Directors' meeting and shareholders' meeting as well as playing a role in setting the agenda together with the managing director
2. Playing a role in controlling the meeting effectively according to the Company's Articles of Association, encouraging and allowing the directors to express their opinions independently
3. Encouraging the Board of Directors to perform the duties at full capacity according to the scope of authority, responsibilities and good corporate governance principles
4. Supervising, monitoring the management of the Board of Directors and other subcommittees to achieve the objectives set

5. Casting a vote if the Board of Directors meeting votes and the votes of both sides are equal

Roles and duties of the Board of Directors

1. The Board has the authority and responsibilities in managing the Company according to the laws, objectives and Articles of Association of the Company as well as the rightful resolutions of the shareholders' meeting with integrity and carefulness to protect the interests of the Company.
2. Arranging to have the balance sheet as well as profit and loss statement of the Company created at the end of the Company's accounting period, which have been verified by the auditor and presenting to the shareholders' meeting for consideration and approval
3. Setting the goals, guidelines, policies, business plans and budget of the Company. Monitoring and Supervision of administration of the management in conformity with the established policies, plans and budgets with efficiency and effectiveness
4. Reviewing, checking and approving business expansion plans, large investment projects as well as investing with other entrepreneurs proposed by the management
5. Formulating the Risk Management policy to cover the entire organization and supervising the availability of risk management system or processes with appropriate support measures and control methods to reduce the impact on the Company's business
6. Determining the management structure, having the power to appoint the Executive Committee, managing director and other subcommittees as appropriate, e.g. the Audit Committee, Nomination and Remuneration Committee, etc., including establishing the scope of authority and duties of the Executive Committee, managing director and subcommittees appointed

The authorization under the specified scope of power, duties must not have the characteristic of enabling such Executive Committee, managing director and subcommittees to consider and approve transactions with potential conflicts, interests or any other conflict of interest done with the Company or subsidiaries (if any) except approval for transactions according to the policies and criteria already approved by the Board of Directors.

7. The Board may authorize one or more directors or any other person to perform any act on behalf of the Board under control of the Board or may authorize such persons to have the power as deemed appropriate by the Board and within a period of time considered by the Board as suitable. The Board may cancel, revoke, change or modify such authorization when considered appropriate.

That authorization must not have the characteristic of enabling such persons to consider and approve any transaction in which one or person may have a conflict, have interests or may have a conflict of interests in any other manner to be done with the Company or subsidiaries (if any) as defined in the announcements of the Capital Market Supervisory Board and/or the Stock Exchange of Thailand and/or any other announcement of relevant agencies except approval for transactions in accordance with the policies and criteria already approved by the Board of Directors.

Development of Directors and Management

Board of Directors has a policy to promote and facilitate training and educating people involved in the Company's corporate governance system, including directors, audit committee members, executives and company secretary. In order to continuously improve work performance, namely the curriculum of the Thai Institute of Directors Association (IOD). Including courses that are important to company development organized by the Stock Exchange of Thailand Office of the Securities and Exchange Commission and the Federation of Accounting Professions

Evaluation of Directors' Performance

The Board of Directors conducts an Evaluation on the Performance of the Board of Directors and the Director Self-Assessment on a regular basis. Every year To provide opportunities for each committee member to express their opinions on the overall performance of the Board of Directors to assist in reviewing the performance, problems and obstacles. In performance during the past year

2. Care of shareholders Equitable treatment of shareholders Promoting the exercise of shareholders' rights Equitable treatment of shareholders Promoting the exercise of shareholders' rights Protection against the use of inside information Prevention of Conflicts of Interest Responsibility to stakeholders Compensation in case of rights violation Anti corruption And measures for taking action against those who violate policies and guidelines

The Equitable Treatment of Shareholders

The Board of Directors places importance on fair and equitable treatment to all shareholders; including both shareholder executive and non-executive shareholders. No matter shareholders are Thai or foreigner. Similarly, does not matter shareholders are in majority or minority. The following actions have been implemented:

The Company has a policy to protect the rights of all shareholders. At the Annual General Meeting of shareholders, the chairman of the meeting conducted the meeting in accordance with the agenda as set forth in the invitation notice to the meeting. No agenda was added without prior notification to the shareholders. All shareholders were entitled to vote base on the amount of shares held by each shareholder whereby one share was equal to one vote.

During 16 November-30 December 2022, the Company provided opportunities for the shareholders to propose matters that they considered necessary for inclusion in the agenda of the 2023 Annual General Meeting of Shareholders (No. 10) and to nominate candidates for election as directors. The Company also posted the criteria and procedures in relation thereto in the form of a newsletter to the Stock Exchange of Thailand and on its website at www.leaseit.co.th. However, no shareholders proposed matters for inclusion in the agenda of the meeting nor nominated any candidates for election as directors.

The Company gave authority to Thailand Securities Depository Co., Ltd. (TSD) as the registrar of the Company to send invitation letter and attached document for Annual General Meeting 14 days in advance of the meeting. The Company also posted invitation letter and attached document for Annual General Meeting on Company's website at www.leaseit.co.th 30 days in advance of the meeting so that the shareholders can reach the information regarding the meeting conveniently.

The shareholders who could not attend the meeting in person were entitled to appoint an independent director of the Company or any other person to attend the meeting and vote on their behalf. The Company prepared proxy forms as prescribed by the Ministry of Commerce, whereby the shareholders may give their proxies voting instruction. The proxy forms were delivered to the shareholders together with the invitation notice to the meeting. Additionally, the shareholders could download the proxy forms the Company's website at www.leaseit.co.th

The meeting will be in accordance with the regulations of the Company. The details of the agenda will be informed via the invitation letter entirety. Nevertheless, some unnecessary details about the agenda not added in notification letter of shareholders. The agenda itself is important due to the fact that shareholders have to take time to study it before making any decision whether attend or not.

The Board of Directors have approve a policy on reporting the purchase/sale of securities of the Company to the Board of Directors which covered the use of inside information illegally (Insider Trading) with respect to those individuals involved, including directors, executives and employees as well as spouses and minor children of all persons involved. For instance, the provided information includes the penalties imposed on the Company, or any disclosure of the information which show adopting policies in order to prevent exploitation of inside information by the Company for their own benefit. Obviously, accomplishing such a great task need to educate directors and management level of the Company regarding the obligation to report full details about their spouses and underage children as well as the change of holding the Securities and Exchange Commission under Section 59 and penalty provisions under the Securities and Exchange Act of Year 1992. However, The Board of Directors and executives have to report the purchase/sale of securities of the Company to the Board meeting by quarter.

The Company prepared the minutes of the Annual General Meeting of shareholders, and posted the minutes of the meeting on the Company's website at www.leaseit.co.th

The Company has a policy in the involved transaction is deemed to be approved by shareholders in accordance with the requirements of the Stock Exchange of Thailand prior to the transaction. The Company will disclose the name and the relationship of the related parties, pricing, the value, including the comment of the Board of Directors on the transaction for shareholders to be clear in the Annual General Meeting.

The Company prohibits the transaction in a manner that provides financial assistance such as lending and credit guarantees.

The Company has transactions with affiliated Company which was done at a fair and at arm's length.

Policy on reporting stock trading / securities holdings by the directors and the management

1. Introduction

Lease IT PCL ("Company") strives to treat every shareholder transparently and fairly in line with good corporate governance principles. In order to demonstrate such intention, the Board of Directors (BOD) arranged to put in place a policy on securities trading by the directors and management to be used as the operational guidelines.

2. Objectives

This policy's objectives are:

- 2.1 To specify operational guidelines involving securities trading by the directors, the management and the auditor of the Company.
- 2.2 To support and encourage the directors, the management and the auditor of the Company to abide by the Stock Exchange of Thailand's Act B.E. 2535 ("SET Act") involving securities trading using internal information and the Securities Exchange Commission's announcement ("SEC") on reporting of securities holdings by the directors and management of a registered company.
- 2.3 To maintain the trust of shareholders and investors in the Company's securities.

3. Scope

- 3.1 This policy applies to the directors, the management and the auditor of the Company. In addition, some materials of the policy also cover the spouses and children who have not reached the legal age of such individuals.
- 3.2 This policy covers the trading of the Company's securities including its subsidiaries (if any) which are registered with the SET or MAI (collectively called "securities of the group company").

4. Definitions

Any statement or words in this policy shall have the following meanings unless specified otherwise.

- 4.1 "Policy" means the policy on securities trading by the directors, the management and the auditor.
- 4.2 "Company" means Lease It PCL.
- 4.3 "Securities" means shares (common or preferential) and convertible securities means convertible debentures, warrants or transferable subscription rights ("TSR"), stock options, derivatives (e.g. futures and options) and other financial derivatives which can be traded in the financial markets.
- 4.4 "Trading" means to buy, sell, transfer or accept transfer of securities and/or other legal benefits of the securities including exercising the rights to buy shares or exercising the rights under the warrants to buy shares or debentures.
- 4.5 "Short sale" means selling the securities which are not owned but borrowed from other people who own such securities e.g. brokers.

4.6 “Internal information” means factual information considered pertinent to the decision making in securities trading which are not publicly disclosed. Examples of internal information are:

- (a) The Company’s financial position and financial performance.
- (b) Financial projections.
- (c) Decision to declare or not declare dividend.
- (d) Change in the credit rating.
- (e) Change in the value of securities.
- (f) Securities redemption.
- (g) Business plan that affects the Company’s benefits.
- (h) Significant change to investment plan or project investment.
- (i) Joint venture, business merger or sell of business.
- (j) Making a tender offer to purchase securities of other companies.
- (k) Purchase or sell significant assets.
- (l) Critical information on new products.
- (m) Gain or loss of important trade contracts.
- (n) Major legal disputes.
- (o) Change in the Company’s Objectives.
- (p) Change in important accounting policies.
- (q) Change in the management authority or significant change in the BOD or senior management.

4.7 “Director” mean the Company’s directors.

4.8 “Management” means the managing director/chairman of the management board/the top four management levels below the chairman of the management board and shall include the accounting or financial personnel at the management level holding the title of department head or higher in the Company per the SEC’s definitions.

4.9 “Auditor” means the auditor who is appointed to be the Company’s auditor via the ordinary shareholders’ resolution each year.

4.10 “The individual which the Company appoints” means the person with the authority or duty who is privileged or has access to the Company’s internal information (including spouses and children who have not reached the legal age of that person). Examples of persons who may have access to such internal information.

Note that the Company secretary shall be responsible for overseeing the roster of individuals which the Company appoints and inform such individuals when their names are added or removed from such roster.

5. Duty and responsibility

5.1 The Company’s BOD assigns the managing director with the duty to oversee this policy and to ensure that the individuals appointed by the Company strictly comply with the policy.

5.2 The Company secretary’s main duty is to implement this policy including monitoring its effectiveness as well as answering questions and offer interpretation in case of any doubt.

5.3 The management is responsible and must ensure that their subordinates realize the importance and understand this policy including strictly abide by it.

5.4 The directors, the management and the auditor must strictly abide by this policy including communicate the policy to their spouses and children who have not reached the legal age for their acknowledgement.

6. Policy and operational guidelines

6.1 The directors, the management and the auditor are prohibited from using internal information to trade securities which is specified in the SET Act on trading securities registered with the SET or securities traded in the Securities Trading Center which prohibits any person to make an offer to buy or an offer to sell securities or persuade other person to buy, sell or offer to buy or offer to sell securities registered with the SET or securities traded in the Securities Trading Center whether directly or indirectly which exploits other external parties by using facts or information which are considered material to cause change in the securities price and where such facts have not been publicly disclosed but such persons are privileged, by their position in the Company, to the information or have access to such information. This is regardless of whether such actions benefit the persons directly or benefit other parties or in disclosing such facts/information to other parties in exchange for favors or compensation.

6.2 Blackout period

6.2.1 Prohibit a person appointed by the Company to trade the Company's securities within 30 days (Blackout period) before disclosure of the Company's quarterly and annual financial statements and within 24 hours after the financial statements have been disclosed, any other period specified by the Company from time to time.

6.2.2 In some special circumstances, such appointed person may be able to trade securities within the Blackout period e.g. in the situation where such person is suffering severe financial difficulty or must comply with legal directives or under court order. In such circumstances, a memo for approval must be sought from:

- (1) The chairman of the board (in the case the seller is a director or the Company secretary).
- (2) The chairman of the audit committee (in the case the seller is a committee member).
- (3) The chairman of the management board/managing director (in the case the seller is an appointed person but not a director or the Company secretary). Note that a copy of such memo is to be submitted to the Company secretary also.
- (4) The Company secretary shall announce the prohibited period/Blackout period for securities trading for the appointed persons in advance.

6.3 Report of securities holdings

6.3.1 First report

- (1) The director, the management and the auditor of the Company has the duty to prepare the report of securities holdings in their name, in their spouse's name and in the name of their children who have not reached legal age per the SEC's Form 59-1 and submit to the SEC within 30 days from the date of being appointed a director, a management member or as the Company's auditor or from the closing date for trading securities by the public as announced by the SET's securities regulations.
- (2) The person appointed by the Company apart from the director, the management and the auditor must prepare a report of securities holding in the group company and submit to the Company secretary within 30 days from the date of notification by the Company secretary.

6.3.2 Report when there is an amendment

- (1) The directors, the top 4 management levels and the auditor of the Company have the duty to prepare a form to report any change to securities holding per the SEC's Form 59-2 which is to be submitted to the SEC within 3 business days from the date of buy, sell or accept to transfer the securities in line with the laws on securities and securities market.
- (2) The person appointed by the Company in addition to the directors, the management and the auditor has the duty to prepare the report on change in securities holding in the group company and submit to the Company secretary within 3 business days from the date of buy, sell or transfer or accept the transfer of securities.

6.3.3 Exceptions

The following changes in securities holding need not be reported via the SEC's Form 59-2.

- (1) Exercise the rights offering.
- (2) Exercise the rights under convertible securities.
- (3) Exercise the warrant rights on newly issued shares to the directors or employees (Employee Stock Option Program "ESOP") or receive securities from the joint investment program between the employer and employees (Employee Joint Investment Program "EJIP").
- (4) Receive the securities via inheritance.
- (5) The transfer or accept the transfer of securities which is used as security for trading futures.

6.4 The securities trading which are not classified under this policy can be described as the securities holding or accept to buy securities for business takeover (Tender Offer).

6.5 Other limitations on securities trading.

6.5.1 The Company specified certain persons to hold its securities for the long term hence they should not trade such securities for short term purpose to prevent speculation on the Company's securities.

6.5.2 The persons who the Company appointed should avoid the following transactions.

- (1) Short sell the Company's securities which could be interpreted as a signal to the market that the seller is not confident in the Company.
- (2) Trade derivatives (e.g. futures and options) involving the Company's securities which may lead to securities trading using internal information.
- (3) Hold the Company's securities in the Margin Account which may be forced by the securities company to sell such securities in the event of the inability to provide additional security for top-up.

7. Penalty in the event of violations

Any director, any management member or the auditor who violates or fails to comply with the operational guidelines in trading securities according to the securities and securities markets laws must be punished as specified by the statutes.

The Company arranges for recording minutes of the annual common shareholding meeting and arranged to disseminate the minutes via the Company's website at www.leaseit.co.th

The Company has the policy to report connected transactions which are required to be approved by the shareholders per the directives of the SET before such transactions are permitted. The Company shall disclose the information on the names and relationship of connected persons, policy on setting the price and the transaction value including the opinions of the Board of Directors on such matters clearly to the shareholders at the shareholder meeting.

The Company has the policy to not allow interrelationship transactions that can be described as providing financial assistance e.g. lending monies, loan guarantee.

The Company has inter-group transactions with related companies which are conducted at fair market value and on arm's length basis.

3. The Role of Stakeholders

A) The rights of stakeholders

The Company realizes the rights of all groups of stakeholders, whether inside or outside Company, and has undertaken to ensure that such rights are well protected and treated, in order to create good understanding and co-operation between Company and its stakeholders, which will be advantageous to the operation of Company, create confidence and stability for Company and its stakeholder and increase the ability of Company to complete in the long term as the following:

1. **Rights of Employees** : The main focus of Company is on the personnel selection. The Company seeks to hire those kinds of employees who are appropriate to the position having the relevant experience compatible with the nature of the Company. The Company has always regarded its employees as valuable resources, whose roles are fundamental to the success of the Company. Accordingly, the Company aspires to increase the potential of its employees throughout their career path by improving skills, knowledge and aptitude of its employees, as well as providing every employee with an opportunity to improve its career path on an equitable basis and offering incentives in remuneration so as to be reasonable compared with other leading companies in market as well as the quality of life for all employees equally. The Company has a policy to pay compensation in accordance with the results of operations of the Company in the short term, including the ability to make a profit each year in the form of incentives and bonus. The Company used the form of performance measures based on the Balanced Scorecard by using Key Performance Indicators (KPIs) as a tool to assist in the management strategy into action. By measurement or evaluation that helps organizations achieve consistency in unison. And focus on the things that are important to the success of the organization.

Moreover, The Company has set up an Employee Joint Investment Program (EJIP) to provide long-term savings and being the Company's shareholder to its employees since 2015 and will be completed in March 2018. In 2018, the Company continue the Employee Joint Investment Program No. 2 (EJIP No. 2). The program lasts for 3 years.

The Company places importance on the welfare and safety of its employees. The Company provides fundamental welfare and benefits as required by law, such as working hours, holidays, annual leaves, and any other types of leave, as well as social security, compensation fund and provident fund, and constantly communicates all benefits to its employees. In addition to those as prescribed by law, the Company also provides other welfare to its employees, such as health insurance, which covers outpatient and inpatient treatment, life insurance, personal accident insurance, annual health check-up, as well as providing healthcare measure, such as communication of preventive measures for epidemics and provision of protective masks and alcohol-based hand gel for its employees and visitors. In addition, the Company also provides financial aid to its employees in various cases, such as wedding, childbirth, ordination, death of close relatives and natural disasters, etc.

2. **Customers** : The Company sets policies and guidelines for customers. All the conditions are clearly stated and fair. In addition, the Company is committed to providing customer service, as well as assisting and advising clients with courtesy while listening to their problems (and finally providing solutions to customers) without revealing on the clients' personal information. The Company has clearly defined customer selection criteria. It is based on the following criteria.
 - The presence of the customer.
 - The ability to repay customers and debtors.
 - Ability to complete work projects.

The Credit Committee is responsible for considering the above criteria.

3. **Partners** : The Company has set policy on fair practice and responsible for all business partners based on trade agreements which specify conditions and guidelines to practice everything clearly and fairly. Moreover, the agreement cooperate the involved partners in such a way that brings benefit for two parties.
4. **Creditors** : Company aspires to maintain sustainable relationship with its creditors. The Company has a policy to treat its creditors equitably and fairly by providing correct, transparent and verifiable information to its creditors, and to strictly honour the terms and conditions of the contracts it has with its creditors whether in relation to the repayment of principal, interest and fees, maintenance of financial ratio or other conditions, etc. The Company will immediately inform its creditors in case the Company fails to comply with any condition in order to jointly find solutions. In the past year, the Company had no event of default obligation.
5. **Competitors** : Though there are many competitors in the market, the Company is committed to operate in such a way compatible with morality, ethics and high standard of service. Similarly, the rivals of the Company are considered and treated based on the moral and ethical issues. The first priority of the Company is to treat competitors with tightening a mutual understanding and cooperation between providing financial and quality standards to customers as well.
6. **Society, Communities and the Environment** : The Board of Director has a policy to focus on the practical conduct with regard to their responsibilities to society and the nation. The Company offered various types of activities with co-operation from several public and private organizations to support community, society and environment.

The Board of Directors has adopted a policy on the environment and promote the efficient use of resources. The Company has set guidelines that can be implemented within the Company such as energy saving, water saving, Reuse paper, a campaign of the waste, including waste water treatment prior to discharge into the sewer.

In addition, the Board of Directors of the Company encourages employee education and training with regard to environment matters. The Company has a policy to protect the environment which will be implemented to promote responsibility towards the environment, and develop and use more environmental friendly technologies. The Company has continuously taken actions to reduce environmental impact and control activities that may have environmental impact.

The Detail regarding Corporate Social and Environment activity can be found under Section “Corporate Social and Environment”.

B) International Human Rights Principles

The Company supports internationally declared human rights which include declarations and treaties of the United Nations on human rights. Directors, executives and employees of the Company and other persons acting on behalf of the Company shall respect personal dignity, privacy and individual rights of each person they are in contact with in the course of their duties, and shall not take any action which results in or supports the violation of any human rights as prescribed in the code of conduct “Corporate Ethics-Good Governance of the Company”.

The Company respects and is in line with the law on human rights, including preventing and avoiding human rights violation of its staff, partners, and communities under the legal provisions defined by the Thai law with the following practices:

- **Child Labor**: The Company shall be in line with the law on minimum age for employment and shall not allow child labor to perform any task which is harmful to health and growth process, including not to effect on compulsory education.
- **Forced Labor**: The Company shall not conduct or support any kinds of forced labor and shall not charge or forfeit any identity documents of its staff unless such implementation is not against any laws.

- Non-discrimination: The Company shall respect difference and treat its stuff equally without facilitate or derogate its stuff's rights unfairly caused from origin, nationality, race, color, ancestor, religion, social status, gender, age, disability or infirmity, political idea, as well as marital status. The Company provides an opportunity to report clues about any actions. in violation of human rights through complaints channels. In 2023, there were no complaints about human rights.

C) Anti-corruption and Bribery Policy

The Board of Directors is determined to reject all kinds of corruptions and bribes in every level, whether in the transactions with government sector or private sectors. The Company has developed the anti-corruption policy in year 2015, and make a procedure document to prevent and monitor the risk of fraud. The code of conduct imposes restriction on directors, executives, employees and other persons acting on behalf of the Company in engaging in giving or receiving illegal or inappropriate gifts, whether in cash or in kind, in order to achieve business advantages or relationship with business partners, and requires for a risk assessment in relation to such anti-corruption regularly.

In 2016, the Company has assigned a unit which is no conflict of interest, to review back to all customers who open new financial amount in order to collect information on corruption and bribery. The results found that no corruption and bribery.

In 2017, the Company announced its intention to cooperate with the Thai private sector in the fight against corruption (Collective Action Coalition) on June 9, 2016.

In 2023, the Company invites new customers of the Company to participate in declaring the intention for anti-corruption in all forms continuously. The Company reviewed the anti-corruption policy which has been approved by the Board of Directors. And the Company will announce the intention to join the Thai Private Sector's anti-corruption coalition on January 2, 2024. The Company will proceed as follows:

- Assessing the risks associated with corporate fraud including the adoption of anti-corruption policy, compliance management plans and provide guidelines for conducting business for management and staff.
- Disclosing and sharing internal policies, experiences, good practices and promoting a key succession of business transactions guideline for accurate and transparent in Thailand.
- Collaborate with companies in the same industry, partners, and other stakeholders by creating an operational alignment and participating in anti-corruption activities.

The evaluation and follow up of Anti-corruption and Bribery policy and process of risk assessment from Corruption and Bribery

The Company executives organized the internal control for effective operation and risk reduction from nature of business. The internal control mentioned consists of Preventive control and Detective control which helps lower the chance and motivation in bribery and corruption by using duty allocation to allocate role and duty among employees and arrange the evaluation process of anti-corruption policy. The executives can receive report of defect and doubted behavior of employees in time, so that they can improve the internal control and the audit can be a part of follow up and assessment process of anti-corruption policy annually and reports the result to Board of Directors of the Company. The directors, executives and all employees are obliged to report the breach of such anti-corruption policy. In this regard, the Company has arranged appropriate protection measures for the reporters. Each year, the Company has arranged trainings for employees who are interested in, or working in relevant departments, to acknowledge the importance of, and have understanding on, the anti-corruption policy and procedures, as well as the risk assessment on corruption actions.

D) The Infringement of intellectual property and license policy

The Company set the policy and guideline of The Infringement of intellectual property and license as followings;

- The Company's employees must give respect and not to infringe the intellectual property and license of others. If the employees see the behavior of Infringement of intellectual property and license, they must report to their supervisors.
- Check the intellectual property or license of things before receiving or using internally in order to reduce Infringement of intellectual property.
- The employees have to report to supervisors when facing the breach of such infringement of intellectual property
- In working process, the employees must protect the intellectual property of the Company, such as data, program and process and not to reveal to others outside the Company without the Company's permission.

Caution

- 1) To copy adapt or apply any electronically equipment, data, or Information Technology without reasonable cause.
- 2) To use confidential data without owner's permission.
- 3) To make a decision on receiving, using and right protecting of intellectual property without the clear and accurate understanding.

E) Measures on Whistle blowing and Protection for Whistle blowers

Whistleblowing policy The Board of Directors provides opportunities for stakeholders both inside and outside the organization to report clues, complaints, and suggestions on issues of illegal violations, ethics, and inaccurate financial reports, or a defective internal control system Through the Audit Committee to consider investigating and finding out the facts as well as setting measures to protect and protect whistleblowers.

Channels for receiving complaints

In the case of receiving injustice or suffering from the actions of the Company including matters that may cause damage to the Company. There are 3 channels to file a complaint in the case of rights violations as follows:

1. Electronic letter addressed to the Chairman of the Board of Directors or the Chairman of the Audit Committee, or the Audit Committee at email address: fraud@leaseit.co.th
2. Postal mail addressed to the Chairman of the Board of Directors or Chairman of the Audit Committee or Audit Committee Member at Lease IT Public Company Limited 1023 MS Siam Tower Building, 29th floor, Rama 3 Road, Chongnonsi, Yannawa, Bangkok 10120
3. Company website <https://www.leaseit.co.th> Topic: "Report clues/complaints/suggestions"

Furthermore, all employees must report an event or a behavior which is unlawful or suspected to be unlawful or violates the good governance of the Company or any rules or laws to their supervisors. The Company has also provided a channel for employees to consult or report directly to the Deputy Chief Executive Officer or Chief Executive Officer upon becoming aware of or suspecting any conduct which is unlawful or violates the policy and has or may have impact on employees, other stakeholders and the Company.

Procedures for dealing with complaints, violations and non-compliance:

When reporting incidents or clues to giving or receiving bribes Corruption and misconduct or the Audit Committee notifies or requests an investigation. The Audit Committee will appoint The "Fact Investigation Committee" investigates the facts as received from the clues and reports the results to the Audit Committee.

Measures to protect and maintain confidentiality

In order to protect the rights of the complainant Those who report clues and those who provide information act with honest intentions. The Company will conceal the name, address, or any information that can identify the complainant, witness, or informant, and keep the information confidential, limiting only those responsible for investigating complaints to have access to such information

The person responsible for investigating complaints has a duty to preserve information, complaints, and documentary evidence of the complainant. Witnesses and informants are kept confidential. Do not disclose information to unrelated parties. However, if anyone discloses information The Company will impose the highest punishment. Unless it is disclosed in accordance with duties as required by law.

The Company has a policy not to reduce positions. Punish or give negative consequences to directors, executives, employees of the Company and subsidiaries who refuse to give and receive bribes and corruption. Even though that action will cause the Company to lose business opportunities.

Corrective measures

When the investigation is finished Fact-checking committee Line executives Related departments Risk Management Working Group Participate in considering and discussing measures to resolve the corruption incident that has occurred, or other events that may cause corruption in order to improve or add to the policy, internal control system work process Including civil or criminal litigation, and expand the results of the investigation to investigate corruption in other areas that may be relevant. By specifying corrective measures in each case. Prepare a corrective measures plan (Action Plan) with a time frame for implementation. To present to the Chief Executive Officer (CEO) to consider taking appropriate action.

Complainants or those affected will receive treatment and relief according to the Company's appropriate procedures.

In order to prevent the recurrence of violations of the Code of Ethics, the Company has clearly defined penalties for those who violate or commit crimes, and the Company will take steps to ensure that all employees are informed, understood, and able to put them into practice

4. Disclosure of Information and Transparency

One of the major concerns of the Board of Directors is to establish a very complete and accurate disclosure in transparency of the financial reporting, as well as providing general compliance with the rules of the Securities and Exchange Commission. Financial reports include important information that may affect the price and securities of the Company, which eventually affects the decision making process of the related investors. The Company decided to distribute the Company's information (equally and transparently) to shareholders and public via the media disclosure and the Company's website at www.leaseit.co.th. The Company also holds an analyst briefing in each quarter to announce its quarterly operating results to shareholders, investor, analysts, fund managers, and other interested persons. The analyst briefing is attended by the management of the Company who will clarify and answer inquiries raised by attending persons.

The Board of Directors have approve a policy on reporting the purchase/sale of securities of the Company to the Board of Directors which covered the use of inside information illegally (Insider Trading) with respect to those individuals involved, including directors, executives and employees as well as spouses and minor children of all persons involved. For instance, the provided information includes the penalties imposed on the Company, or any disclosure of the information which show adopting policies in order to prevent exploitation of inside information by the Company for their own benefit. Obviously, accomplishing such a great task need to educate directors and management level of the Company regarding the obligation to report full details about their spouses and underage children as well as the change of holding the Securities and Exchange Commission under Section 59 and penalty provisions under the Securities and Exchange Act of Year 1992. However, The Board of Directors and executives have to report the purchase/sale of securities of the Company to the Board meeting by quarter.

Board of Directors was well aware of the crucial responsibility towards the financial statements, therefore their main emphasis was to provide accurate and complete information which are true and reasonable. Accordingly, the financial statements of the Company were prepared in accordance with generally accepted accounting standards. By choosing the appropriate accounting policies and practices regularly (and implementing cautious discretions including adequate disclosure in the financial statements notes), the Board has managed to establish and maintain an effective internal control system in the financial office. All these transitions, let the Company to ensure reasonably that the accounting records are maintained property (with accurate, complete, and sufficient information) leading to identify weaknesses and flaws in order to prevent fraud or abnormal operation significantly. The appointed audit committee consisted of non-executive directors to serve on the audit of financial reports. Finally, the audit committee will report transactions and internal audits to the Board of Directors in terms of reports and surveys.

Charter of Audit Committee

In order to manage Lease IT PCL efficiently, transparently, verifiable, in line with good corporate governance policy and create confidence among the shareholders, involved parties including the public to support sustainable growth and development, the BOD appointed the Audit Committee as a mechanism in business supervision. The scope, duty, responsibility and authority of the Audit Committee are clearly specified. You can read full details by scanning the QR CODE.
