Part 1 Business Operations and Performance

1. Organizational structure and operation of the group of companies

1.1 Policy and business overview

1.1.1 Overview of the vision, objectives, goals and business strategies

Message from the chairman

Dear Shareholders,

In 2025, Chiangmai Rimdoi Public Company Limited and its subsidiaries continued to operate amid a challenging economic environment, characterized by intense competition in the construction industry, cost fluctuations, and broader economic uncertainties. Nevertheless, through our experience, project management expertise, and effective cost control, the Company was able to maintain the quality of our work while significantly improving our profitability. For the year 2025, the Company reported total revenue from construction and services of Baht 917.78 million. Although total revenue decreased compared with the previous year, mainly due to certain construction projects nearing completion and being progressively delivered as planned, the Company was able to manage project costs more efficiently. As a result, the gross profit margin improved to 13.00%, while net profit increased significantly to Baht 51.26 million compared with the previous year.

In terms of financial position, the Company continued to strengthen its financial stability. Total liabilities decreased, while shareholders' equity increased to Baht 490.62 million. The Company also generated strong operating cash flows, resulting in a significant increase in cash and cash equivalents. In addition, as of the end of 2025, the Company had a backlog valued at Baht 717.78 million, which will be gradually recognized as revenue through 2027 and serves as an important foundation for future growth.

The Company remains committed to conducting business sustainably by integrating Environmental, Social, and Governance (ESG) principles into our operations. We emphasize efficient resource management, support the development and safety of our employees, and conduct business with transparency and accountability toward all stakeholders.

Looking ahead to 2026, the Company will focus on strengthening our core construction business while expanding opportunities in environmental service-related operations. We will also continue to leverage technology to enhance project management efficiency and cost control, as well as maintain prudent financial management to support sustainable long-term growth.

On behalf of the Board of Directors, I would like to express my sincere appreciation to our shareholders, customers, business partners, and all stakeholders for their continued trust and support.

I would also like to thank our management team and employees for their dedication and commitment in driving the Company forward. The Company remains committed to operating responsibly and creating sustainable value for our shareholders and society.

Message from the Chairman and Management

Vision

It is a company with quality management for stable and sustainable growth.

Objectives

-

Goals

-

Business strategies

- Enhance the capabilities of employees, contractors, and workers to elevate the Company's operational standards.
- Deliver quality work and services that provide value and cost-effectiveness to customers.
- Continuously develop the organization in alignment with technological advancements to strengthen long-term business value.
- Improve operational efficiency to reduce costs and enhance competitiveness.
- Establish targets to reduce greenhouse gas emissions from business operations and minimize environmental impact.

Mission

Having good governance in accordance with international standards.

Having continuous development.

Conducting business with responsibility towards customers and society.

1.1.2 Material changes and developments

Details regarding material changes and developments

| years | Material changes and developments |
|-------|--|
| 2025 | <ul style="list-style-type: none"> ● Renamed the subsidiary from Chiangmai CRD Co., Ltd. (cCRDs) to CRD Property Co., Ltd. (CRDP). ● Achieved ISO 14064-1:2018 certification from Bureau Veritas Certification (Thailand) Ltd. ● Received Organizational Carbon Footprint Certification for 2025. ● Awarded a "Very Good" (4-Star) CGR rating for 2025. |

| years | Material changes and developments |
|-------|---|
| 2023 | The company has been certified with ISO 14001:2015 and ISO 45001:2018 by Bureau Veritas Certification (Thailand) Ltd. for its warehousing operations. The company also received an excellent rating (5 stars) in the CGR assessment for the year 2016. |
| 2021 | The company resumed its business operations in waste management services (waste collection and landfill). |
| 2020 | The Company acquired a 70% stake in CRC Environmental Kyo Co., Ltd. ("Subsidiary" or "CEC") on February 1, 2021. The Company has been certified ISO 14001:2015 and ISO 45001:2018 by Bureau Veritas Certificate (Thailand) Ltd. for its construction work. |
| 2019 | The company expanded its construction projects to include hotels and resorts in the southern region (Koh Samui). The company has a portfolio of projects that promote innovation, such as the Integrated Waste Management Technology project for Chiang Mai University and the Biogas Production System Model Center (CBG). |
| 2018 | The company has improved its work process by creating a new platform to generate various reports in digital data format to reduce time and redundant work steps. |
| 2017 | The company was transformed from a "Company Limited" to a "Public Company Limited," changing the par value per share from 100 Baht to 0.50 Baht. The registered capital was increased to 250 million Baht by issuing 150.00 million additional common shares with a par value of 0.50 Baht per share for the Initial Public Offering (IPO). The company logo and stock abbreviation were changed from CRC to CRD, and it was listed on the Market for Alternative Investment (mai) on October 5, 2017, under the stock symbol "CRD." |
| 2016 | <p>The Company received the ISO 9001:2015 certification (updated from ISO 9001:2008) from Bureau Veritas Certification (Thailand) Ltd.</p> <p>The Company and R.K.J. ("CRC-R.K.J.") jointly invested in a project, with the Company holding a 60% stake and R.K.J. holding a 40% stake, to bid for the construction of a wastewater collection and treatment system for Pak Kret City Municipality, Nonthaburi Province.</p> <p>The Company expanded its headquarters by investing in an additional building and registered the change of address to 164/34-36 Chang Klan Road, Chang Klan Subdistrict, Mueang Chiang Mai District, Chiang Mai Province 50100.</p> <p>The Company increased its registered capital to 175.00 million baht to be used as working capital for the business.</p> |
| 2014 | [Company Name] and CRC Environmental Kyo Co., Ltd. ("CEC") established a joint venture under the name "Chiang Mai Rim Doi - CRC Environmental Kyo" ("CRC-CEC"). [Company Name] holds a 5% stake and CEC holds a 95% stake in the joint venture. The purpose of this joint venture is to bid for and provide municipal solid waste collection services in the areas of Mengrai, Nakhon Ping, Kawila, and Srivijaya within Chiang Mai municipality. |
| 2010 | The company has been certified with ISO 9001:2008 Quality Management System by Bureau Veritas Certification (Thailand) Ltd. |
| 1990 | Established Chiang Mai Rim Doi Company Limited ("CRC") with a registered capital of 0.50 million baht. |

1.1.3 Spending of the raised fund to serve the objectives declared in the registration statement for securities offering

Is there an issuance of equity securities or debt securities? : No

1.1.4 The obligations to which the company has committed in the registration statement, including the compliance with such obligations or conditions in the following years

Are there any issued securities with obligations or : No
conditions?

1.1.5 Company information

Company name : CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED

1.2.2 Information on products and services

1.2.2.1 Product/service information and business innovation development

Construction Services

The company provides general construction contracting services for buildings and structures, including building renovations commissioned by clients. These projects encompass a wide range of building types, such as office buildings, educational buildings, residential buildings, condominiums, hospitals, operating rooms, clean rooms, hotels, and more. The company offers civil engineering, architectural, and building systems (M&E) contracting services according to client specifications. For building systems (M&E), including electrical and communication systems, plumbing, and sanitation systems, the company engages experienced subcontractors specializing in each system. These subcontractors operate under the quality control of the company's engineers and a knowledgeable, skilled, and experienced team. In addition, the company provides infrastructure construction services based on client specifications. This includes the construction and installation of wastewater collection and treatment systems, irrigation projects, power plant buildings and water transmission systems, as well as the installation and testing of hydroelectric generators with associated equipment. The company is responsible for civil engineering works, while other systems such as wastewater treatment systems, high-voltage power generation systems, and building systems (M&E) are executed by experienced subcontractors under the company's strict quality supervision. The company can undertake projects directly and be responsible to the project owner as the main contractor (Main Contractor). Alternatively, the company may undertake projects as part of a Joint Venture, where it shares responsibility with the project owner based on the investment proportion, or as a Joint Operation, where it is responsible for specific project tasks. In Joint Venture or Joint Operation arrangements, the company collaborates with external partners as appropriate. Every investment in a joint venture is subject to the company's approval authority.

Diagram of Construction Services

Hydropower

Provide waste collection and disposal services.

The company provides waste collection and disposal services in municipalities and various cities across the country. The scope of operations is managed under the company's administration for long-term projects, using new vehicles for operations. For short-term projects, the company operates under its subsidiary, CRC Environmental Cure Co., Ltd. (CEC), utilizing older vehicles for operations.

| | 2023 | 2024 | 2025 |
|--|------|------|------|
| Research and development (R&D) expenses over the past 3 years (Million Baht) | 0.00 | 0.00 | 0.00 |

Additional explanation about R&D expenses in the past 3 years

The company has not yet undertaken any research and development projects.

1.2.2.2 Marketing policies of the major products or services during the preceding year

1. Product/Service Strategy

The company places great emphasis on construction quality and timely project delivery to build trust and confidence among clients. It achieves this by providing annual training programs for its personnel, covering technical engineering knowledge and construction safety. When selecting subcontractors for portions of projects under the company's contract, the company carefully chooses experienced subcontractors who meet its specified qualifications. Additionally, subcontractors receive training, construction technique guidance, and participate in workshops before commencing work. These workshops ensure that subcontractors understand the company's work standards and quality inspection procedures, thereby reducing the risk of substandard construction work. Moreover, the company's engineers and experienced team members closely supervise construction projects to maintain high-quality standards. The company also provides waste collection and disposal services, leveraging its expertise in comprehensive waste

management projects. This includes planning, collection, and hygienic disposal of waste using various methods. To support its expansion strategy for waste collection and disposal services in other regions across the country, the company has invested in acquiring 70% of CEC's registered capital. The company focuses on securing or bidding for projects with continuous contracts of at least five years. This ensures a stable revenue base and justifies investments in each project.

2. Pricing Strategy

The company follows a cost-plus-margin pricing policy, which is determined by estimating construction project costs and adding a profit margin. Cost estimation is a crucial step, especially in quantity take-off and project price evaluation for bidding purposes. At least two estimators assess the project's bill of quantities (BOQ) and compare their findings with the reference price (for government projects). If significant discrepancies arise between the two estimators' calculations, the cost estimation team will review both assessments to ensure accuracy. Their final decision considers their expertise and experience in cost estimation. Following this, the procurement team conducts market research on material prices and labor costs to finalize an appropriate cost estimate for the project. The company's pricing strategy for waste management project bidding also follows the cost-plus-margin method. Each project's Terms of Reference (TOR) are carefully reviewed, along with the competitive landscape, to ensure the bid price is both competitive and profitable. Waste management services provide a recurring income stream, ensuring sustained profitability for the company.

3. Business Acquisition Strategy (Place)

The company acquires projects through two main methods: Bidding for contracts and Direct negotiation with project owners. To mitigate the risk of non-payment, the company follows strict criteria in selecting projects and clients. Additionally, the company registers as a qualified contractor with both public and private sector organizations. This registration ensures that project owners notify the company when new construction bids become available. For large-scale projects or projects beyond its direct experience, the company considers entering joint ventures ("Joint Venture") or joint operations ("Joint Operation") with experienced partners. Such partnerships are structured within the company's operational authority framework. Over time, the company has consistently secured projects through client referrals, including from project owners, main contractors, and subcontractors. The company also participates in direct bidding for municipal waste management contracts with government agencies, such as city municipalities across the country. A dedicated team monitors procurement announcements on the Thai Government Procurement website, which serves as a central platform for government purchasing and contract bidding.

4. Marketing and Public Relations Strategy (Promotion)

The company implements marketing and public relations strategies by actively engaging in the Construction Contractors Association, where industry professionals exchange knowledge and business opportunities. Additionally, the company promotes its brand through various advertising channels. To strengthen its industry presence, the company sends its personnel as guest lecturers for government agencies and educational institutions. It also provides engineering students, particularly those studying civil engineering and construction-related fields, with opportunities to visit project sites and participate in internships. Moreover, the company continuously trains and educates subcontractors on construction techniques. For waste management services, the company's marketing strategy focuses on proving its capabilities through performance excellence. Positive evaluations from contracting agencies serve as strong endorsements, increasing the likelihood of being invited directly for new bids or contract extensions. Additionally, the company expands its reach nationwide by forming partnerships with local businesses that have the necessary expertise to support its waste management operations in different regions.

The industry competition during the preceding year

1. Construction Business

In 2025, the construction industry continued to face a highly competitive environment. Overall demand expanded at a relatively slow pace and remained uncertain. The main driver of construction activities continued to come from government infrastructure projects, while certain segments of private sector investment showed signs of slowing down. As a result, many contractors competed intensely for projects in a market with limited growth, leading to stronger competition in terms of pricing and contractual conditions.

The competitive structure of the industry generally consists of large construction contractors that have the capability to undertake large-scale and complex projects, and medium-sized and small contractors that typically participate in specialized works or operate as subcontractors. Medium-sized and smaller contractors tend to face greater pressure on profit margins, particularly during periods of low project prices and volatile construction costs. Competition in 2025 was primarily characterized by bidding processes in which price remained the key determining factor under limited new project opportunities. Consequently, many bid prices were highly competitive, which resulted in pressure on project margins. Some projects faced lower profitability and potential losses if project cost management and work scope control were not properly aligned with the bidding conditions. In addition, fluctuations in labor costs and construction material prices continued to affect the competitiveness of contractors across the industry.

Apart from price and cost pressures, natural disasters during the year also influenced the industry environment. On 28 March 2025, a major earthquake occurred in Myanmar, with tremors affecting several areas in Thailand, including Bangkok, which is a major center for real estate development and large-scale construction projects. Reports indicated that a high-rise office building under construction collapsed significantly following the earthquake, resulting in casualties and substantial structural and property damage. This incident prompted regulatory authorities and industry participants to review safety policies, structural standards, and building design practices to better withstand seismic impacts and prevent similar damage in the future.

For Chiangmai Rimdoi Public Company Limited, more than 80% of construction revenue in 2025 was derived from private sector projects. As a result, the Company's competitive environment is largely influenced by private sector investment decisions. Private sector clients typically emphasize project pricing, construction timeline, work quality, and clarity of project scope. Therefore, effective project management, cost control, and contractual risk management are critical competitive factors for the Company.

Although private sector projects generally offer greater flexibility in decision-making processes compared to public sector projects, they may involve risks related to counterparty creditworthiness, payment conditions, and changes in project scope, which may affect project cash flows if not properly managed. Accordingly, the Company places strong emphasis on selecting projects with contractual conditions and risk levels that are aligned with the Company's operational capabilities in order to mitigate potential impacts on profitability and liquidity. Considering the competitive environment and the impact of natural disaster risks in 2025, the Company has identified key risks in the construction business including price competition, credit risk from private sector clients, volatility in labor and material costs, and project liquidity risks.

To address these challenges, the Company has defined strategic approaches for 2026, including careful project selection aligned with the Company's financial and operational capacity, close monitoring of project and cost management, prudent credit and working capital management, as well as continuous monitoring of safety standards and natural disaster-related risks to ensure business continuity and long-term competitiveness.

2. Waste Collection and Disposal Services Business

The waste collection, transportation, and disposal business in 2025 exhibited a competitive structure that differs from the construction industry. Competition primarily occurs through public procurement processes conducted by local administrative organizations, which typically involve bidding procedures with both qualification and price requirements. As a result, competition tends to occur in cycles based on the contract periods of such service agreements.

Key factors influencing competitiveness in this business include the ability to control operational costs, availability of operational resources such as waste collection vehicles, personnel, and route management systems, as well as the

capability to manage and dispose of waste in compliance with relevant laws and environmental standards. These factors often provide structural advantages to operators with stronger operational infrastructure.

During 2025, government agencies and local authorities increasingly emphasized environmental compliance, regulatory requirements, and community impacts. Consequently, operators are no longer able to compete solely on pricing, but must also demonstrate capabilities in comprehensive waste management, operational transparency, and effective stakeholder and community engagement in the areas where services are provided.

In addition, fluctuations in labor costs, energy prices, and vehicle maintenance expenses remained key cost factors that operators must manage closely to maintain operational efficiency and service continuity.

Chiangmai Rimdoi Public Company Limited possesses competitive advantages through its operational readiness, including waste collection vehicles, experienced personnel, and waste management systems that enable efficient and continuous service delivery. The Company also has extensive experience working with local administrative organizations in Chiang Mai and nearby provinces, which helps strengthen confidence among contracting authorities.

However, the Company continues to face operational cost volatility, particularly in labor costs, energy prices, and vehicle maintenance expenses. The Company therefore emphasizes careful cost planning, continuous efficiency improvement, and effective operational management in order to maintain competitiveness and stable operating performance.

In summary, the waste collection and disposal business in 2025 remained highly competitive within the framework of public procurement processes conducted by government and local authorities. Operators with strong infrastructure, strict compliance with environmental regulations, effective cost management, and strong community engagement capabilities are more likely to sustain competitiveness and maintain service contracts over the long term.

1.2.2.3 Procurement of products or services

The company procures materials and key equipment for construction projects according to the specified brand, model, characteristics, quantity, and estimated price in the BOQ or equivalent quality materials. These include steel, stone, cement, sand, bricks, piles, formwork, and sanitary ware, as well as materials and equipment used in waste collection and disposal services. Purchases are made exclusively from suppliers listed in the company's Vendor List, in accordance with its procurement and purchasing policies, which consider factors such as availability, pricing, payment terms, employee service, and on-time delivery.

The company does not engage in exclusive supply contracts with any particular vendor. Instead, suppliers submit price quotations for comparison before purchase decisions are made. Orders are placed on a project-by-project basis, with suppliers delivering materials and equipment directly to the construction site. The First In, First Out (FIFO) method is applied for material usage.

The company's procurement approach follows two models:

1. Turnkey construction services, covering material supply, equipment, and labor.
 2. Partial construction services, such as supplying only certain materials and providing labor or labor-only contracts.
- All purchases require prior written approval from the project owner and/or authorized personnel.

Procurement in 2025

The company purchased essential construction materials such as cement, rebar, stone, sand, and bricks, which are locally produced and widely available. One key material to monitor for price fluctuations in 2025 is rebar, as its price is tied to global steel market trends. However, no significant price changes in rebar were observed that would materially impact the company's material costs.

The company's production capacity

| | Production capacity | Total utilization (Percent) |
|--|---------------------|-----------------------------|
| Construction projects completed in 2025. (Project) | 8.00 | 66.70 |
| Waste collection and disposal projects completed in 2025. (Project) | 2.00 | 33.30 |

Construction work and services comply with the specifications and scope outlined in the customer contract.

Acquisition of raw materials or provision of service

The procurement of construction materials by the company will be in accordance with the drawings and specifications set by the client to align with their needs and standards outlined in the contract, as well as the technical requirements that must be adhered to in order to achieve the best outcomes in every project. The company selects high-quality materials that meet engineering specifications to ensure the durability and safety of the structures being constructed. The materials used must be verified and assessed according to the standards specified in the client's drawings or technical details. The materials will be sourced from suppliers with expertise and certified standards, and the quality of the materials will be inspected before production and use in the project. Additionally, delivery and production schedules will be planned to ensure timely project completion while meeting the quality expectations of the client.

Proportion of domestic and overseas procurement

| Countries | Name of raw material | Value (Baht) |
|-----------|---|----------------|
| Thailand | Materials and equipment for general construction work. | 178,605,011.30 |

Major raw material distributors

Number of major raw material distributors (persons) : 2

In 2026, the company had three key raw material suppliers, each accounting for more than 10% of total purchases based on consolidated financial statements. These suppliers provided construction materials and included:

- Wittaya Panich Co., Ltd. – General construction materials (37.7%)
- Nopadol Panich Co., Ltd. – General construction materials (25.4%)

1.2.2.4 Assets used in business undertaking

Core permanent assets

As of December 31, 2025, the company's main fixed assets used in business operations include land, buildings and structures, machinery and equipment, furniture and office supplies, and vehicles.

The appraisal price of core permanent assets

| List of assets | Book value / Appraised value | Ownership | Obligations | Additional details |
|---------------------------------|---------------------------------|------------------------|------------------------------------|-------------------------------------|
| Land | 272.36 | Company | Mortgage as collateral | Mortgage amount 582.43 million baht |
| Buildings and structures | 4.44 | Company | Mortgage as collateral | Mortgage amount 55.35 million baht |
| Machinery and equipment | 75.11 | Company/ Subsidiary | Partially registered as collateral | Mortgage amount 60.72 million baht |
| Office decorations and supplies | 8.40 | Company/ Subsidiary | None | None |
| Vehicle | 1.57 | Company/ Subsidiary | None | None |

The impacts on the voting rights of the shareholders

To ensure transparency and enhance the company's competitiveness, as well as to increase confidence among shareholders, investors, and all stakeholders, the Board of Directors has established guidelines to protect the fundamental rights of shareholders. These rights include:

1. The right to ownership and control of the company through the appointment of the Board of Directors to act on their behalf.
2. The right to buy, sell, or transfer shares.
3. The right to attend shareholder meetings, cast votes, express opinions, and participate in decision-making regarding significant changes.
4. The right to appoint a proxy to attend meetings and vote on their behalf.
5. The right to appoint and dismiss directors.
6. The right to vote on the appointment and determine the compensation of auditors.
7. The right to receive timely and regular updates on company performance and management policies.
8. The right to receive equal distribution of profits.
9. The right to access information on related party transactions.

1.5 Issuance of other securities

1.5.1 Convertible securities

1.5.2 Debt securities

Debt securities : No

1.6 Dividend policy

The dividend policy of the company

The company has a dividend policy to pay dividends to shareholders annually at a rate of no less than 40% of the net profit remaining after all statutory reserves have been deducted, based on the company's separate financial statements. However, the payment of dividends will depend on cash flow, investment plans, legal conditions, and other factors that the company deems necessary and appropriate in the future. The dividend payment will not have a significant impact on the company's normal operations. The resolution of the Board of Directors approving the dividend payment must be presented to the shareholders' meeting for approval. However, the Board of Directors has the authority to declare an interim dividend if deemed appropriate and does not affect the company's operations, and this must be reported to the shareholders in the next meeting.

The dividend policy of subsidiaries

It appears that there is no clear policy defined yet.

2. Risk management

2.1 Risk management policy and plan

Risk management policy and plan

The Company recognizes the importance of risk management, which is an integral part of good corporate governance, as a key foundation that helps to achieve the Company's objectives. It can also add value to the organization, meet the expectations of stakeholders, and support sustainable business operations.

The Company has adopted the COSO ERM 2017 (COSO Enterprise Risk Management Framework) guidelines in its risk management process to ensure that risk management is effective and at an acceptable level. It has risk management policies and plans approved by the Board of Directors. The details are summarized below.

1. The Board of Directors has assigned the Risk Management Committee to establish corporate risk management policies and guidelines, including defining, assessing, controlling, monitoring, and developing the risk management process, as well as reviewing the adequacy of corporate risk management policies and systems. The Committee reports to the Executive Committee and the Audit Committee to review the appropriateness and effectiveness of the risk management system and presents key risks to the Board of Directors every quarter.
2. The Company's risk management framework uses COSO-ERM2017, which includes studying the internal environment, setting objectives, identifying risk events (risk factors), assessing risk (likelihood of risk occurrence and impact of risk), responding to risk (4Ts: Tolerate, Treat, Terminate, Transfer), risk control activities, monitoring, evaluation, and communication to risk stakeholders. The Company has also used Bow-Tie Analysis to support risk analysis.
3. In managing risk, the Company manages risk in alignment with its strategies and business plans to enable the Company to achieve its vision, mission, and strategic plans. The Company's corporate risks consist of (1) Strategic Risk, (2) Financial Risk, (3) Operational Risk, (4) Compliance Risk, (5) Technology Risk, (6) ESG Risk, (7) Emergency Risk, and (8) Emerging Risk.
4. The Company has also adopted the Three Lines of Defense principle, which defines the roles and responsibilities of units within the organization to ensure Check & Balance within the internal control framework. The units are divided into 3 levels:
 - (1) First Line of Defense is the operating unit, which is responsible for overseeing its own work to comply with established rules/systems, including overseeing compliance with internal control regulations and appropriate risk management. Related units: Line Manager, Operations Department, Direct Function Team
 - (2) Second Line of Defense is the unit responsible for setting policies, rules, and standards, as well as overseeing the work of other units, providing advice, disseminating knowledge, and communicating policies, rules, and standards as prescribed. Related units: Compliance Department, Legal Department, Quality Control Department
 - (3) Third Line of Defense is Internal Audit, which is an independent unit as it reports directly to the Audit Committee. The Internal Control Department is responsible for reviewing the various work processes of the departments, both at the 1st and 2nd levels, to ensure that they are in accordance with the specified requirements and are sufficiently effective and efficient. Related units: Internal Audit Department (Internal Audit)
5. The Company has established a Business Continuity Plan (BCP) that covers key risks to address various situations that may arise that could disrupt operations, such as floods, fires, epidemics, and power outages lasting more than 6 hours. To prevent disruption of operations and ensure business continuity, the Company has developed a contingency plan to ensure that systems are operational during a crisis, including annual drills.
6. To ensure effective risk management, the Company communicates with stakeholders involved in risk by providing training and developing a risk management manual to ensure that relevant employees understand and comply with the risk management plan.

3. Business sustainability development

3.1 Policy and goals of sustainable management

Sustainability Policy

Sustainability Policy : Yes

Chiangmai Rimdoi Public Company Limited is committed to conducting business and creating sustainable growth under good corporate governance throughout the value chain, considering the impact on stakeholders, society, and the environment. The company believes that operating based on sustainability is a key foundation for ensuring the organization's stable growth. Furthermore, the company is dedicated to creating positive change for the community, the environment, and the economy, ensuring that its operations move in the right direction and generate benefits for all levels of stakeholders.

The company has considered the issue of sustainable business development and selected the Sustainable Development Goals (SDGs), which are international development goals established by the United Nations, to align with the company's business strategies. This includes operations in ESG (Environmental, Social, and Governance) and action plans that respond to the feedback from stakeholders at all levels. The goal is for the company's operations to coexist harmoniously with the community, society, and the environment, under a business model based on ethics, transparency, honesty, and integrity.

Sustainability management goals

Does the company set sustainability management goals : Yes

Corporate Governance (G: Governance)

- Comply fully with laws, regulations, and rules, including the Construction Work Act, with no corruption or violations of regulations.
- Implement measures to control and ensure transparent and responsible business practices.
- Choose business partners who operate with transparency and meet the company's partner selection criteria.
- Communicate the company's vision, mission, strategy, and operational goals clearly.
- Maintain work quality that meets customer satisfaction ($\geq 80\%$).
- Deliver projects on time as per customer requirements and guarantee quality post-delivery according to contract agreements.
- Manage organizational risks to an acceptable level.
- Apply a fair partner selection process.
- Clearly communicate the required partner qualifications, being transparent and direct, while ensuring that procurement procedures follow policies and anti-corruption guidelines.

Social (S: Social)

- Respect human rights and ensure no violations.
- Collaborate to improve quality of life and develop society through partnership networks and various agencies.
- Ensure all projects follow safety guidelines and assess safety regularly. Minimize workplace accidents to zero or avoid major accidents that stop work.
- Respect the rights of employees and ensure fair employment practices with no unlawful or unfair labor.
- Develop employees' skills, both hard and soft skills.
- Set training goals of at least 8 hours per employee per year and consider promotions for employees who perform well and adhere to company regulations.

Environmental (E: Environment)

- Implement appropriate and efficient management measures for energy, environment, and biodiversity.

• Control water and electricity usage, as well as paper consumption, ensuring they do not exceed target limits, while involving all employees in this initiative. Control pollution, waste, wastewater, and noise levels to stay within environmental standards.

United Nations SDGs that align with the organization's sustainability management goals : Goal 2 Zero Hunger, Goal 2 Zero Hunger, Goal 3 Good Health and Well-being, Goal 3 Good Health and Well-being, Goal 4 Quality Education, Goal 4 Quality Education, Goal 5 Gender Equality, Goal 5 Gender Equality, Goal 10 Reduce Inequalities, Goal 10 Reduce Inequalities, Goal 13 Climate Action, Goal 13 Climate Action

Review of policy and/or goals of sustainable management over the past year

Has the company reviewed the policy and/or goals of sustainable management over the past year : No

Has the company changed and developed the policy and/or goals of sustainable management over the past year : No

3.2 Management of impacts on stakeholders in the business value chain

3.2.1 Business value chain

The company recognizes that the sustainability of its business operations cannot be viewed solely at the level of its own operational processes and service delivery. It must also consider every stage of operation that involves stakeholders throughout the business value chain. The company, therefore, prioritizes the feedback and needs of its stakeholders to adapt its management and business operations. This demonstrates social responsibility and aligns with what stakeholders perceive and consider important in a comprehensive manner.

The company has analyzed its stakeholders by considering their relevance in the business value chain, starting from the project conception stage to study the feasibility of the project before construction, the design stage, the construction stage, and the delivery of work to customers, until the maintenance stage during the warranty period after construction is complete. This assessment is based on the relevance and impact of operations between each other.

Environmental policy and guidelines : Yes

Environmental guidelines : Electricity management,
Fuel management,
Water resources and water quality management,
Waste management,
Greenhouse gas and climate change management,
Air quality management,
Noise pollution management,

Chiang Mai Rim Doi Public Company Limited (the “Company”) places great importance on conducting its business with care and responsibility toward the environment. This is because the consequences of environmental destruction will ultimately return to affect human livelihoods. Therefore, the Company has established policies to promote the conservation of natural resources and ensure that resources are used efficiently to maximize their benefits. The Company also commits to avoiding any encroachment upon or destruction of ecosystems.

In addition, the Company conducts environmental risk assessments and management within its business operations and promotes innovations that help make business processes more environmentally friendly. The Company also instills environmental awareness among employees at all levels so that they recognize the importance of environmental protection and serve as good role models for external stakeholders, encouraging them to participate in environmental conservation through the Company’s operational activities.

These initiatives include concepts for reducing and controlling resource consumption, promoting alternative energy use, utilizing environmentally friendly construction materials and green innovations. Furthermore, the Company places importance on waste management throughout its processes by encouraging reuse and recycling, minimizing leftover construction materials in projects, and proposing environmentally friendly construction materials, methods, and service models to project owners.

Environmental Practices and Guidelines

1. Provide employee training programs on safety, environmental management, and efficient resource utilization to enhance understanding and embed these principles into the Company’s organizational culture. Employees are also encouraged to participate in environmental and biodiversity management to achieve sustainable practices.
2. Provide recommendations to clients and designers regarding building design and building management that promote energy efficiency and environmental friendliness, including the development of **Green Buildings**.
3. Encourage employees to use resources efficiently and in an environmentally responsible manner by promoting water conservation, electricity saving, paper reduction, and organizing activities such as **Big Cleaning Day**, enabling the Company to effectively manage energy and environmental matters while preventing complaints.
4. Ensure that contractors strictly comply with Safety, Health, and Environment (SHE) requirements as well as all relevant laws and regulations.

Information on energy management

Energy management plan

The company's energy management plan : Yes

The Company is committed to effective energy management, with the ultimate objective of controlling and reducing the organization's energy consumption. This commitment is of significant importance as it enables the Company to reduce energy-related costs while enhancing the efficiency of its internal management systems. The Company establishes appropriate measures and places strong emphasis on continuous improvement and the enhancement of energy efficiency in order to achieve the targets that have been set.

In 2025 (B.E. 2568), the Company collected comprehensive data on its total energy consumption and registered the Organization Carbon Footprint covering all three scopes with the Thailand Greenhouse Gas Management Organization. The Company also obtained certification under ISO 14064-1:2018 from Bureau Veritas Certification (Thailand) Ltd.. The collected data will be used as a baseline database for establishing energy management targets in the following year.

Setting goals for managing electricity and/or oil and fuel

Does the company set goals for electricity and/or fuel : Yes
management

Details of setting goals for electricity and/or fuel management

| Target(s) | Base year(s) | Target year(s) |
|--|---|---|
| Reduction of electricity purchased for consumption | 2025 : purchased electricity for consumption 544,087.84 Kilowatt-hour | 2026 : Reduced by 5% or 27,204.39 Kilowatt-hour |

Performance and outcomes of energy management

Performance and outcomes of energy management : Yes

The Company has established an Energy Conservation Policy aligned with its energy management objectives and targets, demonstrating its commitment to promoting energy efficiency across its operations. The Company actively encourages employees to participate in energy-saving practices, such as turning off unused lights, unplugging electrical equipment when not in use, and avoiding unnecessary electricity consumption within the head office. In 2025, the Company successfully installed solar rooftop power generation systems at both the Head Office and the Pak Kret Branch Office, as part of its efforts to increase the use of renewable energy and reduce greenhouse gas emissions.

In addition, during 2025, the Company participated in the “SET Carbon Sandbox: Scope 3” pilot program organized by the Stock Exchange of Thailand to test a carbon data management system for listed companies. The Company collected and compiled greenhouse gas-related data for the entire year of 2025 to establish a baseline for setting future emission reduction targets.

In 2025, the Company recorded total electricity consumption of 544,087.84 kilowatt-hours (kWh).

Diagram of Performance and outcomes of energy management

Energy management: Fuel consumption

| | 2023 | 2024 | 2025 |
|-------------------|------------|------------|--------------|
| Diesel (Litres) | 720,067.85 | 745,996.69 | 1,019,526.50 |
| Gasoline (Litres) | 2,013.70 | 6,765.67 | 3,503.66 |
| LPG (Kilograms) | 3,585.00 | 1,635.00 | 2,970.00 |

Energy management: Electricity consumption

|--|------------|------------|------------|
| Total electricity consumption within the organization (Kilowatt-Hours) | 586,339.34 | 579,650.69 | 544,087.84 |
| Electricity purchased for consumption from non-renewable energy sources (Kilowatt-Hours) | 586,339.34 | 579,650.69 | 544,087.84 |

Information on water management

Water management plan

The Company's water management plan : Yes

The company places the utmost importance on preventing environmental impacts, including on employees, partners, and stakeholders. The company has therefore incorporated an environmental management system into its operations and has continuously improved its environmental management system. The company has been certified to the ISO 14001:2015 standard by promoting and supporting employees' awareness of the importance of environmental conservation, pollution prevention from company activities that may impact the environment of the organization and community, and requiring strict compliance with environmental laws. The company applies quality standard management and environmental management systems in its operational processes, enabling it to effectively develop operational methods that reduce environmental impacts. It has also established quality and environmental policies and formulated action plans in accordance with the defined policies. (See the full version at www.cmrd.co.th)

Setting goals for water management

Does the company set goals for water management : Yes

Details of setting goals for water management

| Target(s) | Base year(s) | Target year(s) |
|-------------------------------|---|----------------------|
| Reduction of water withdrawal | 2025 : Water withdrawal 23,924.43 Cubic meters | 2027 : Reduced by 3% |

Performance and outcomes of water management

Performance and outcomes of water management : Yes

The company mainly utilizes tap water in the construction process, approximately 95%, and groundwater for the remaining 5%. The company manages water usage efficiently through measures to reduce consumption by campaigning and promoting water conservation at various points of use. Additionally, the company has installed wastewater treatment tanks before discharging wastewater from construction projects, along with controlling water quality to meet standards. To ensure the most efficient and beneficial use of water resources, the company promotes awareness among employees about the value of water conservation to minimize wastewater generation. The company implements water recycling initiatives, such as utilizing water from vehicle wheel washing for watering plants and cleaning roads within the projects. Annual targets are set, and progress is monitored quarterly. The company receives

cooperation and commitment from all stakeholders in effectively managing water resources. For water management at the head office and construction projects,

Water management: Water withdrawal by source

| | 2023 | 2024 | 2025 |
|---|--------|-----------|-----------|
| Total water withdrawal (Cubic meters) | 841.00 | 16,731.90 | 23,924.43 |
| Water withdrawal by third-party water (cubic meters) | 841.00 | 16,731.90 | 23,924.43 |

Water management: Water consumption

| | 2023 | 2024 | 2025 |
|---|--------|-----------|-----------|
| Total water consumption (Cubic meters) | 841.00 | 16,731.90 | 23,924.43 |

Information on waste management

Waste management plan

The company's waste management plan : Yes

The Company recognizes the importance of effective waste, pollution, and environmental management and is committed to managing waste in accordance with the **3Rs principle: Reduce, Reuse, and Recycle**. The Company focuses on minimizing waste generation at the source by optimizing material usage and promoting the substitution of certain materials to reduce waste. In addition, the Company continuously improves its waste segregation system and raises awareness among employees regarding waste reduction and proper waste separation to ensure effective waste management practices.

To enhance environmental performance and ensure systematic waste management in its operations, the Company has implemented an environmental management system in accordance with **ISO 14001:2015** to support waste management throughout its operational processes as follows:

1. Waste Segregation at Source

Waste segregation at the source is considered the most important step in waste management. Proper separation of waste into different categories enables more efficient handling and treatment. Waste is classified into the following categories:

- **Recyclable Waste:** such as paper, plastics, glass, and metals.
- **Organic Waste:** such as food waste, coffee grounds, and leaves.
- **Hazardous Waste:** such as batteries, paint containers, and used light bulbs.
- **General Waste:** waste that cannot be recycled.

2. Proper Waste Collection

Following source segregation, waste must be properly collected to prevent contamination, the spread of pathogens, and unpleasant odors, particularly from organic waste. Clearly labeled waste bins are used for each waste category, and bins are kept properly covered to prevent waste dispersion and odor. Hazardous waste is stored in durable containers designed to prevent leakage.

3. Waste Transportation and Temporary Storage

Collected waste is transported to designated temporary storage areas or waste management facilities that are approved by relevant authorities to ensure safe and proper handling.

4. Recycling and Reuse

Recycling plays a key role in reducing waste and conserving natural resources. Recyclable materials such as paper, plastics, metals, and glass are separated and processed for reuse as raw materials in the production of new products. This process helps reduce the amount of waste requiring disposal and promotes resource efficiency.

5. Waste Disposal

Waste that cannot be recycled or is classified as hazardous waste is disposed of using appropriate and safe methods, such as sanitary landfill, in compliance with applicable environmental regulations.

Setting goals for waste management

Does the company set goals for waste management : Yes

Details of setting goals for waste management

| Target(s) | Base year(s) | Target year(s) | Waste management methods |
|--|--------------|----------------------|--------------------------|
| Reduction of waste generation Waste type: Non-hazardous waste | 2026 | 2027 : Reduced by 3% | • Recycle |

Performance and outcomes of waste management

Performance and outcomes of waste management : Yes

In 2025, the Company supported the concept of a Circular Economy by promoting the efficient use of natural resources. The Company focuses on reducing excessive resource consumption, minimizing waste generation, and encouraging the reuse and recycling of materials to ensure sustainable resource management. Key initiatives implemented during the year include waste segregation at source and the reuse of construction materials within the Company's operations.

Waste generated from operations is segregated into four main categories to facilitate proper waste management: recyclable waste (such as paper, plastics, glass, and metals), organic waste (such as food waste, coffee grounds, and leaves), hazardous waste (such as batteries, paint containers, and used light bulbs), and general waste, which cannot be recycled.

In addition, the Company collected and separated more than **30 kilograms of plastic bottle caps**, which were donated to the Green Road Project to support its social and environmental initiatives. This activity contributes to waste reduction and promotes the recycling of plastic materials for further social benefits.

In addition, the Company implemented the "Old Cement, New Path" initiative, which involves reusing leftover cement from plastering and structural works to produce durable interlocking paving blocks. In 2025, the Company produced 1,098 blocks, reducing cement waste by 1,647 kilograms. These blocks were reused internally, helping reduce waste disposal and lowering the cost of purchasing new paving materials while supporting resource efficiency.

Information on greenhouse gas management

Greenhouse gas management plan

The company's greenhouse gas management plan : Yes

Chiangmai Rimdoi Public Company Limited is committed to conducting its business sustainably with a strong emphasis on environmental responsibility. The Company recognizes the importance of minimizing environmental impacts arising from its operations, particularly those related to industrial activities that may contribute to climate change. To support this commitment, the Company promotes employee awareness and understanding of greenhouse gas management, including data collection for the calculation of organizational greenhouse gas emissions, as well as monitoring, reporting, and verification processes related to greenhouse gas emissions and removals. These practices enable the Company to develop effective plans and initiatives to continuously reduce greenhouse gas emissions in accordance with international standards.

In 2025, the Company prepared and disclosed its greenhouse gas emissions associated with business operations covering all three scopes and registered its Organization Carbon Footprint with the Thailand Greenhouse Gas Management Organization. The Company also obtained certification under ISO 14064-1:2018 from Bureau Veritas Certification (Thailand) Ltd.. The greenhouse gas emissions data have been verified, demonstrating the Company's commitment to transparency and effective greenhouse gas management.

The emissions data covering all three scopes will be established as the Company's base year (2025) to support the development of future greenhouse gas reduction strategies and initiatives.

Information on other environmental management**Plans, performance, and outcomes related to other environmental management**

The Company has implemented an environmental management system in accordance with ISO 14001:2015 to support effective environmental and waste management in construction areas. This system aims to prevent and mitigate environmental impacts arising from construction activities, particularly dust emissions generated from vehicles and operational processes.

The Company and its contractors strictly comply with air quality and pollution control measures. Key practices include regular water spraying to clean roads and reduce dust, requiring transportation vehicles to cover materials to prevent spillage and dust dispersion, setting speed limits for transport vehicles, and conducting regular inspections and maintenance of engines and construction machinery to ensure efficient and environmentally responsible operations. Noise generated from construction activities is also carefully managed to minimize disturbances to nearby communities. Environmental quality monitoring, including noise levels, particulate matter (dust), and vibration, is conducted on a monthly basis across all projects. The monitoring results indicate that environmental indicators remain within the limits prescribed by national environmental standards.

During the reporting year, the Company received two complaints from surrounding communities related to safety and environmental impacts. All complaints were addressed within one day of notification, and additional preventive measures were implemented to prevent recurrence.

The Company utilizes feedback from the complaint management process to continuously improve its environmental management and grievance handling procedures. To date, the Company has no record of environmental disputes or legal actions related to environmental impacts.

3.4 Social sustainability management

3.4.1 Social policy and guidelines

Social and human rights policy and guidelines : Yes

Social and human rights guidelines : Employee rights, Migrant/foreign labor, Child labor,
Safety and occupational health at work, Supplier rights

The Company places great importance on respecting human rights and considers it a principle in conducting business and operating towards sustainable stability. In addition, the Company recognizes that employees are a key driver in creating good performance for the Company.

The Company therefore treats all employees fairly in accordance with good ethics and morals, including respect for human rights and the rights and freedoms of employees, providing equal treatment without discrimination based on race, color, religion, gender, language, national origin, or education, and free from forced labor and child labor. The Company has declared a human rights policy as a guideline for the Board of Directors, executives, and employees of the Company at all levels, including the protection of employees' personal information, such as resumes, health records, employment history, and other employee information. In addition, in the event that it is necessary to disclose or transfer personal information of employees to the public, the Company will only do so with the consent of the employee.

Executives and employees at all levels are aware of the importance of and respect for human rights in all aspects of all individuals, as well as society and communities, in accordance with the laws of each country and the treaties to which each country is obligated, including

- Treating everyone in accordance with human rights principles, equally, and without discrimination.
- Avoiding actions that violate human rights.
- Supporting and promoting equal human rights.

- Communicating, disseminating, educating, understanding, setting guidelines, monitoring, and providing other support to stakeholders in conducting business throughout the business value chain, suppliers, contractors, and joint ventures to participate in conducting business ethically, respecting human rights, and treating everyone in accordance with human rights principles, as outlined in the human rights policy and guidelines, with details as follows:

1. Forced Labor Policy

1.1 Respect human rights, treat each other with respect, honor each other, and treat each other equally without discrimination based on physical, mental, racial, national, religious, gender, language, age, skin color, educational, or social status.

1.2 Do not engage in or support forced labor in any form and will not use corporal punishment or threats of violence or other forms of physical, sexual, mental, or verbal abuse as a disciplinary or control measure.

2. Child Labor Policy

2.1 Do not employ or support the employment of children under the age of 18 and do not allow or support child labor that is harmful to health or in an environment that may be hazardous to health, safety, and well-being.

3. Female Labor Policy

3.1 Do not allow female employees to work in jobs that are harmful to their health or body as prescribed by law. The Company will arrange for pregnant female employees to work or be in an environment that is not harmful to their health, hygiene, and safety during pregnancy. The Company will not terminate, demote, or reduce the benefits of female employees due to pregnancy.

3.2 Do not allow female employees to work on scaffolding higher than 10 meters above the ground and do not allow female employees to lift, carry, haul, or push heavy objects exceeding 15 kilograms.

4. Anti-Discrimination Policy

4.1 Do not engage in or support discrimination in employment, payment of wages and compensation, provision of welfare, opportunities for training and development, consideration for promotion or positions, termination, or retirement, and will not interfere with, obstruct, or commit any act that affects the exercise of rights or practices of employees due to differences in nationality, religion, language, age, gender, marital status, personal views on gender, disability, trade union membership, employee representative status, political affiliation, or other personal beliefs.

5. Social and Labor Responsibility Policy

5.1 Committed to ensuring that all employees of the Company work to a high standard, under the protection and fair treatment on a social basis, and in accordance with the provisions of labor law regarding labor protection, labor welfare, labor relations, and occupational health, safety, and the working environment, and relevant regulations, which will be reviewed, developed, and improved as appropriate.

5.2 Focus on conducting business responsibly towards the community and the environment by considering the potential impacts on the community and the environment through the establishment of environmental policies and guidelines to ensure that business operations have an impact on the environment and the community.

5.3 Continuously develop and implement the human rights due diligence process and strive to create and maintain an organizational culture committed to respecting human rights in accordance with the human rights policy.

5.4 Those who violate human rights are in violation of the Company's Code of Conduct and will be subject to disciplinary action in accordance with the regulations set forth by Chiang Mai Rim Doi Public Company Limited. In addition, they must be punished according to the law if the act is unlawful to the fullest extent.

Human Rights Due Diligence : HRDD

Does the company have an HRDD process : Yes

In response to the expectations of stakeholders regarding respect for human rights, the Company recognizes its responsibility to uphold human rights principles by preventing and mitigating potential human rights impacts across its operations. The Company conducts assessments to identify and manage potential risks of human rights violations that may arise at any time, ensuring that these considerations are integrated throughout the Company's entire value chain. To put this commitment into practice, the Company assigned its employees to participate in a training program on Human Rights Due Diligence (HRDD) for the construction sector held on 10–11 March 2025, organized by the Rights and Liberties Protection Department. The training aimed to enhance employees' knowledge and understanding of human rights risk management in business operations.

Following this initiative, the Company has begun implementing a Human Rights Risk Assessment process, which incorporates the principles of Human Rights Due Diligence (HRDD). The process evaluates both risks and opportunities in order to effectively manage potential impacts arising from business operations and to demonstrate the Company's commitment to respecting human rights.

The key steps of the process include:

1. Policy Commitment – Demonstrating commitment through the establishment and communication of a human rights policy.
2. Stakeholder Scope Identification – Defining relevant stakeholders involved in business operations and identifying potential impacts arising from activities throughout the supply chain.
3. Human Rights Risk Identification – Identifying potential human rights issues associated with business operations.
4. Risk Assessment and Prioritization – Assessing human rights risks within the supply chain and prioritizing them based on the likelihood and severity of potential impacts.
5. Monitoring and Review – Establishing processes for monitoring, reviewing, reporting, and continuous improvement.
6. Mitigation and Remediation Mechanisms – Implementing preventive measures and mitigation plans, establishing decision-making mechanisms, and providing remediation in cases where human rights impacts occur.
7. Communication and Disclosure – Ensuring transparent communication and disclosure of relevant information to stakeholders.

Information on employees and labor

Employees and labor management plan

The company's employee and labor management plan : Yes

Employee and labor management plan implemented by : Fair employee compensation, Employee training and development, Promoting employee relations and participation, Child labor, Safety and occupational health at work

The Company's employee and workforce management plan consists of the following key components:

1. Recruitment and Employment Practices

The Company places importance on recruiting qualified and suitable personnel. The hiring and appointment of employees are primarily based on the qualifications and capabilities of each individual to ensure that the Company receives support from quality personnel who can contribute to the Company's success.

2. Personnel Development

The Company is committed to continuous personnel development by organizing various training and education programs to enhance employee skills and expertise. This includes training in construction techniques, personal skills development, and leadership development to promote career growth.

3. Working Environment and Employee Well-being

The Company prioritizes the health and safety of its employees by providing health insurance, annual health check-up programs, and creating a good working environment to encourage employees to work efficiently and happily in the workplace.

4. Compensation and Benefits

The Company offers fair and appropriate compensation and benefits, including provident funds, health insurance, and various benefits that meet the needs of employees. It also establishes a compensation structure that can motivate and attract talented individuals.

5. Occupational Health and Safety Protection

As the Company operates a high-risk construction business, it provides personal safety products to employees, such as safety helmets, safety shoes, and training on various safety measures to prevent accidents and injuries at work.

6. Respect for Human Rights

The Company recognizes the importance of fair and equal labor practices, caring for the well-being of all employees, and respecting universal human rights by taking into account human dignity, freedom, and equality. Therefore, the Company has established a human rights policy as a guideline for practice and to promote human rights practices within the organization rigorously. This is carried out through established practices and various channels of activities to ensure that all employees are aware of their legal rights and respect for each other's rights. It also provides opportunities for employees to express their opinions. The measurement of human rights performance within the organization is determined by complaints or disputes regarding violations of employee human rights. The Board of Directors and all employees of the Company and its subsidiaries must strictly comply with this policy to retain valuable human resources. (See the full policy and practices at www.cmrd.co.th)

Setting employee and labor management goals

Does the company set employee and labor management : Yes
goals

Details of setting goals for employee and labor management

| Target(s) | Indicator(s) | Base year(s) | Target year(s) |
|-------------------------------------|--|--------------|---|
| • Employee training and development | Setting a target of no less than 20 training hours per person per year | - | 2025: A minimum of 20 training hours per person per year. |

Performance and outcomes for employee and labor management

Performance and outcomes for employee and labor : Yes
management

The Company's employee and labor management practices consist of the following key areas:

1. Recruitment and Fair Employment Practices

The Company places great importance on recruiting qualified and suitable personnel. In its hiring practices, the Company emphasizes equality and fairness in employment opportunities.

As of 2025, the Company and its subsidiaries employ a total of 205 permanent employees, consisting of 120 male employees and 85 female employees, including 3 employees with disabilities.

In addition, the Company promotes employment in accordance with the Empowerment of Persons with Disabilities Act, particularly Section 35, by supporting employment opportunities through outsourcing and service contracts to generate income for persons with disabilities, enabling them to become more self-reliant.

The Company has also established a clear policy on fair employment practices, which includes:

- Prohibition of child labor
- Prohibition of illegal migrant labor
- Prohibition of forced labor, ensuring that employees work voluntarily and with full consent

In 2025, the Company did not receive any complaints from employees regarding unfair wages or compensation.

There were also zero complaints related to violations of employee rights or personal rights by supervisors or colleagues.

The Company provides secure and transparent grievance channels that allow employees and stakeholders to freely submit complaints or feedback. Throughout 2025, the Company received no complaints related to human rights violations, and there have been no significant labor disputes during the past three years.

Furthermore, in 2025, the Company received the Model Organization for Promoting Employment Opportunities for Persons with Disabilities Award 2025, presented by the Chiang Mai Provincial Office of Social Development and Human Security, the Chiang Mai Provincial Employment Office, and the Social Innovation Foundation Thailand.

This recognition reflects the Company's commitment to supporting the development of persons with disabilities, promoting equality and social inclusion, and providing opportunities for persons with disabilities to demonstrate their abilities and access benefits on an equal basis with others.

2. Employee Development

In 2025, the Company continuously provided training programs for executives, supervisors, and employees to enhance their knowledge and professional skills. Approximately 90% of the total workforce participated in training programs during the year.

A total of 83 training courses were conducted, resulting in 3,778 training hours. The average training hours per employee were 18.43 hours per year, with a total training expenditure of THB 825,730.

These initiatives reflect the Company's commitment to strengthening employee capabilities and supporting continuous professional development.

3. Working Conditions and Employee Well-being

The Company has implemented initiatives to improve the living conditions of workers and their families in construction worker camps under the Building Social Impact (BSI) Initiative. The Company collaborates with the Chiang Mai Children's Home Development Network Foundation to improve the quality of life of workers and children living in the camps.

This initiative is supported by UNICEF Thailand, with the objective of improving living conditions and access to public services for workers and children residing in construction camps. The project encourages companies to adopt the Framework for Action to assess, plan, monitor, and measure improvements in worker camps in alignment with the Business and Human Rights (BHR) framework.

3.1 Infrastructure

In 2025, the Company demolished the existing worker camp and constructed a new worker accommodation facility. Workers were invited to participate in providing feedback and suggestions in the design process to ensure that the new camp meets the needs of its residents.

3.2 Safety and Documentation

The Company conducted two annual surveys of children living in the camps to verify essential documentation and provide support through coordination with network partners and the foundation.

In addition, awareness activities were organized to promote knowledge on preventing domestic and community violence. The Company conducted:

- 1 training session for volunteers
- 1 community activity for children and workers

These activities were held at the Chang Klan worker camp, with more than 30 participants.

3.3 Health

The Company provided disease prevention equipment, including mosquito larvicide sand (Abate), mosquito fogging machines, and disinfectant sprayers.

The Company also assisted workers by translating medical certificates, medication information, and healthcare benefits related to workers' children or dependents.

A survey of children was conducted to verify vaccination status, and the Company coordinated with hospitals and parents to ensure children received vaccinations according to Thailand's national immunization program.

All eligible children in the Chang Klan worker camp received the required vaccinations.

Additionally, two community health volunteers were trained through workshops and health awareness activities, with 27 participants attending these sessions.

3.4 Education

The Company implemented a school attendance monitoring system and supported after-school activities for children living in worker camps.

In 2025, there were 62 school-age children living in the Company's worker camps, all of whom were supported to attend school.

The Company also provided educational support, including books, school uniforms, school bags, colored pencils, and sports equipment to promote children's development.

Furthermore, Chiang Mai Rimdoi Public Company Limited allocated space within the worker camp to establish a children and youth activity room. The facility provides a safe and supportive environment where children can study, do homework, and participate in activities that promote their development.

[On 28 August 2025, the Company welcomed a delegation from UNICEF Thailand who visited the project site to observe the initiative.](#)

4. Compensation and Employee Welfare

In 2025, the Company implemented a salary adjustment policy based on employees' responsibilities, performance, and capability development. This policy aims to ensure fairness for employees who take on additional responsibilities or demonstrate enhanced professional competencies beyond their original job scope or salary level. Supervisors are responsible for conducting preliminary evaluations and providing recommendations, which are then submitted through the Human Resources Department to the Executive Committee for quarterly consideration. Employees may also present their ideas, achievements, and work performance directly to their supervisors when requesting salary adjustments.

The Company ensures that employees receive fair compensation and appropriate welfare benefits according to their job positions and employment types. Employee benefits are provided at no less than the minimum standards required by labor laws, including contributions to the Social Security Fund and the Provident Fund.

In addition, the Company provides various welfare benefits to support employees' quality of life, including:

- Employee uniforms
- Accommodation support
- Allowances for off-site assignments
- Health and accident insurance
- Employee assistance funds
- Educational scholarships

In 2025, the Company paid a total of THB 82,500,697.38 in employee compensation, including salaries, allowances, overtime pay, and bonuses.

The Company also places importance on enhancing employee well-being and engagement. As part of this effort, the Company organized employee recreational trips to strengthen relationships among employees, promote teamwork, and boost morale.

These activities also provide opportunities for employees to relax and recover from work-related stress, supporting a healthy work-life balance, which is an important factor in developing employee potential and fostering a positive working environment.

The Company remains committed to continuously organizing initiatives that strengthen employee engagement and ensure that employees can work happily while growing sustainably with the organization.

5. Occupational Health and Safety

Due to the nature of the Company's business, employees are frequently required to work at construction sites to monitor and control the quality of construction projects. As a result, employees may face potential occupational risks during their work.

The Company therefore places strong emphasis on occupational health and safety management, and has implemented the following measures:

5.1 Additional Insurance Coverage

The Company provides life insurance and health insurance for all full-time employees who have passed their probation period, in addition to social security and other legally required benefits.

5.2 Safety Planning and Management

The Company has established safety measures and implemented a Safety Plan covering occupational health, safety, and environmental management for both office operations and construction projects.

5.3 Personal Protective Equipment and Safety Training

The Company provides necessary personal protective equipment (PPE) for employees working at construction sites, including safety helmets and safety shoes.

Employees are regularly trained on safety regulations, operational procedures, and environmental management practices. Daily Morning Safety Talks are conducted before work begins to remind employees to remain alert and cautious. In addition, Safety Site Walks are conducted regularly to monitor safety conditions at construction sites. The Company also provides annual health check-ups for employees to help them monitor their health status and detect potential health issues at an early stage.

In 2025, a total of 125 employees participated in the annual health check-up program.

During the reporting year, no fatal workplace accidents occurred among employees, contractors, or subcontractors. A total of 12 workplace incidents were recorded, comprising:

- 6 incidents related to construction work, and
- 6 incidents related to waste collection operations.

6. Respect for Human Rights

The Company has established grievance mechanisms that allow employees to report complaints or concerns to the **Human Resources Department** or senior management when they believe they have been treated unfairly, subjected to misconduct, or experienced violations of their personal rights.

If employees are concerned about not receiving fair treatment, they may also submit complaints directly to the **Audit Committee**.

External parties and stakeholders may also submit complaints directly to the Audit Committee through the following channels:

1. Email

Audit Committee Chairman: audit_committee@cmrd.co.th

Managing Director: thirapat.c@cmrd.co.th

2. Company Website

Complaints can be submitted through the Company's website under the "Contact Us – General Information" section.

3. Postal Mail

Complaints can be addressed and sent directly to:

- Chairman of the Audit Committee
- Managing Director
- Company Secretary

Address:

Chiang Mai Rimdoi Public Company Limited

164/34–36 Chang Klan Road

Chang Klan Subdistrict, Mueang Chiang Mai District

Chiang Mai 50100, Thailand

In 2025, the Company received no complaints related to unfair compensation, employee rights violations, or personal rights violations by supervisors or colleagues. The Company maintains secure and transparent complaint channels to ensure that employees and stakeholders can express concerns freely.

Throughout 2025, the Company did not receive any complaints related to human rights violations.

Information about customers

Customer management plan

Company's customer management plan : No

Customer management plan implemented by the : Responsible production and services for customers,
company over the past year Development of customer satisfaction and customer
relationship, Consumer data privacy and protection

The company recognizes the importance of quality control from construction, storage, transportation, delivery to customers, and work warranty. There are also standards for safety and hygiene during construction. With a business model that is construction, responsibility for service is very important. In addition to the construction process that must be built efficiently in a limited time, the company also attaches importance to quality assurance of work.

The company has a policy of guaranteeing work within 2 years after project delivery. If there is any damage, a repair plan will be prepared and proposed to the project owner. To make sure that future errors are minimized. Last year, the company established a department directly responsible for repairing and maintaining customer products. Including quality inspection during construction, there are periodic reports to customers. To create an understanding of the construction process between customers and the company, reducing customer complaints in the future.

The Company places great importance on meeting customer expectations and addressing issues related to its services. To ensure continuous improvement, the Company has established customer complaint channels and conducts customer satisfaction surveys to capture customers' concerns and expectations. The feedback received is used to enhance service quality and improve operational processes.

Customer satisfaction surveys are conducted quarterly, with a target satisfaction rate of not less than 80% of the responses received.

In 2025 the Company defined five evaluation criteria to assess customer satisfaction. The overall satisfaction score achieved during the year was 80.02% which meets the Company's target.

Setting customer management goals

Does the company set customer management goals : Yes

Details of setting customer management goals

|--|--|---|---|
| <ul style="list-style-type: none">Responsible production and services for customersDevelopment of customer satisfaction and customer relationship | Work quality and customer satisfaction | 2024: Maintain work quality to ensure customer satisfaction ($\geq 80\%$) | 2025: Customer satisfaction is at 80.02%. |

Performance and outcomes of customer management

Performance and outcomes of customer management : Yes

The Company places great importance on quality control, occupational safety, and environmental management across all construction projects. The Company has appointed Internal Quality Auditors to conduct regular audits to ensure that operations comply with the ISO quality management system standards. The audit results indicated that all construction projects fully complied with the established quality control standards.

In addition, the Company has assigned Safety Officers to continuously inspect and assess occupational safety at construction sites. The evaluation results show that all projects passed the required safety assessment criteria.

Regarding environmental impact management, the Company conducts monthly environmental monitoring, covering measurements of dust levels, noise, and vibration. The monitoring results indicate that all projects operate within the limits specified by the National Environmental Board regulations.

Furthermore, the Company values customer feedback and incorporates customer evaluations as part of the project performance assessment.

The Company conducts customer satisfaction surveys to gather feedback, which is then used to improve, rectify, and further enhance service quality throughout the Company's operational processes.

In 2025, the Company achieved an average customer satisfaction score of 80.02% and no complaints were reported regarding substandard service quality or any violations of laws or company regulations by employees.

Performance and outcomes of community and social management

Performance and outcomes of community and social : Yes
management

In 2025, the Company implemented various Corporate Social Responsibility (CSR) initiatives with a total expenditure of THB 1,402,062. The details of activities conducted across different areas are as follows:

Education and Youth Development

The Company recognizes the importance of education as a fundamental foundation for national development. Therefore, the Company collaborates with its partners to continuously support educational initiatives for underprivileged schools through various forms of assistance.

In the past year, the Company supported educational activities for schools and organizations, including providing internship opportunities for students from various educational institutions. The Company has established a policy to accept students from vocational and undergraduate programs, from both public and private institutions, to undertake internships across various departments and construction project sites. This initiative aims to enhance practical skills, provide real-world experience, and prepare students for future careers.

In 2025, the Company accepted 37 interns from 12 educational institutions to work in various departments at the head office and construction sites.

In addition, the Company was invited to participate as guest speakers to share knowledge and experiences in construction and occupational safety. In collaboration with the Chiang Mai Provincial Office of Labour Protection and Welfare, the Company's safety officers participated as trainers in fire evacuation drills and earthquake and disaster preparedness training for students at Ban Tha Luk Sansai School, Chiang Mai Province.

Community and Social Development

In 2025, the Company constructed a new staircase and association signage and donated them to the Chiang Mai University Alumni Association, with a total value of THB 368,719.16.

The Company also supported various school activities by providing financial support, sports equipment, and prizes to Ban Kong Lom School in Wiang Haeng District, Chiang Mai Province, with a total contribution of THB 299,783.

Religious, Cultural, and Traditional Activities

The Company recognizes the importance of preserving Buddhism, cultural heritage, and traditional values, which play a vital role in Thai society. Therefore, the Company regularly supports activities related to religion, traditions, and culture through initiatives conducted by the Company, employees, and stakeholders.

In 2025, the Company participated in various social activities with nearby communities and provided financial contributions to support religious, cultural, and traditional events organized by foundations, charitable organizations, and other related institutions.

Participation in Sustainability Networks for Social Initiatives

The Company actively participates in social initiatives through collaboration with sustainability networks across both the public and private sectors to support community development.

Examples include providing construction materials for communities, schools, temples, and public facilities upon request.

The Company also collaborates with the Scholars of Sustenance Foundation Thailand (SOS Thailand), a non-profit organization dedicated to supporting vulnerable communities through food redistribution programs.

The foundation redistributes surplus high-quality food from businesses such as hotels, convenience stores, restaurants, and food operators to low-income communities and vulnerable groups. This initiative helps reduce unnecessary food waste while improving food security and promoting social equality.

Through the strong partnership between the Company and SOS Foundation, more than 1,000 tons of surplus food have been safely recovered and redistributed to vulnerable communities as well as workers under the Company's care. This support helps reduce daily living expenses by approximately THB 50–150 per meal.

Additionally, the initiative has contributed to the reduction of more than 2,300 tons of carbon dioxide equivalent (CO₂e) by preventing surplus food from being disposed of in landfills.

This achievement reflects the close collaboration between the Company and SOS Foundation in working toward the Zero Waste to Landfill goal, which aligns with the mission of SOS Thailand to address hunger and manage surplus food effectively in order to promote environmental sustainability.

In 2025, the Company received the The Good Sustaining Partner Award 2025 in recognition of its leadership in driving sustainable solutions to address hunger and food waste in Thailand at the SOS Thailand Awards 2025.

4. Management Discussion and Analysis (MD&A)

4.1 Operation, financial condition and material changes

Operational overview

Financial Performance and Analysis

In 2025, the Company and its subsidiaries recorded revenue from construction services of 612.17 million Baht, a decrease of 104.69 million Baht. This was due to the recognition of revenue from ongoing projects carried over from 2024 at a lower percentage of completion, resulting from a decrease in the volume of construction projects under management; consequently, the revenue recognized in 2025 was lower than in 2024. As of December 31, 2025, the Company and its subsidiaries had 14 undelivered projects, representing a remaining contract value (Backlog) of 717.78 million Baht, which will be gradually recognized as revenue through 2027.

The service revenue of the Company and its subsidiaries in 2025 amounted to 305.61 million Baht, an increase of 2.84 million Baht. The Company and its subsidiaries reported a net profit from operations of 51.26 million Baht, representing a net profit margin of 5.56 percent.

The Company and its subsidiaries had combined revenue from construction and services in 2023, 2024, and 2025 amounting to 799.80 million Baht, 1,019.62 million Baht, and 917.78 million Baht, respectively. The details of revenue, categorized by the nature of revenue recognition, are as follows:

Revenue from Construction Services

Revenue from construction services is recognized under construction contracts for assets where terms are agreed upon with customers prior to the commencement of work. Customers control the assets under construction arising from the Company's performance. Therefore, the Company recognizes construction revenue over time, measuring progress through the input method. This method measures the progress of construction work by referencing the proportion of construction costs incurred to date against the total estimated construction costs. The Company considers that this method reasonably reflects the Group's performance in transferring control of goods or services to customers.

The revenue of the Company and its subsidiaries depends on the types and volume of projects secured during each period. The Company and its subsidiaries have a policy to accept projects from both the public and private sectors, considering projects with appropriate rates of return and employers with potential, credibility, or strong financial standing.

Considering the number of projects and revenue recognized in the fiscal years 2023, 2024, and 2025, the Company and its subsidiaries had revenue from construction services of 522.57 million Baht, 716.86 million Baht, and 612.17 million Baht, respectively. This is divided into revenue from ongoing projects from previous years amounting to 269.21 million Baht, 507.76 million Baht, and 370.33 million Baht, respectively; and revenue from new projects initiated within those years amounting to 253.36 million Baht, 209.10 million Baht, and 241.84 million Baht, respectively.

In 2025, with a total of 25 projects under contract, the Company and its subsidiaries recognized a decrease in revenue of 104.69 million Baht, or 14.61 percent of the construction revenue from the previous year. This was because the revenue recognition from ongoing projects from 2024 decreased, resulting in lower recognized revenue in 2025 compared to 2024.

Revenue from Services

The Company and its subsidiaries recognize revenue from waste collection and disposal services over the period the services are rendered, as customers receive and utilize the benefits from the Group's services. The Group has the right to receive consideration from customers corresponding to the value provided to the customers as of the date the Group's performance is completed. Therefore, the Group recognizes revenue in the amount for which the Group has the right to issue an invoice. The Company and its subsidiaries had service revenue in the fiscal years 2023, 2024, and 2025 of 277.23 million Baht, 302.77 million Baht, and 305.61 million Baht, representing 34.23 percent, 29.57 percent, and 33.30 percent of operating revenue, respectively.

Although the Company and its subsidiaries experienced an increase in revenue, trade receivables decreased due to completed projects that are currently awaiting inspection and acceptance, thus billing cannot yet be processed. Consequently, revenue in this portion is recorded as unbilled receivables instead. For the average collection period in 2023, 2024, and 2025, it was 89 days, 51 days, and 48 days, respectively. The collection period in 2025 decreased because the Company and its subsidiaries were able to collect debts within the specified timeframe, except for projects currently involved in litigation.

Cash Flow Generation Capability

The Company and its subsidiaries reported profit (loss) for the years 2023, 2024, and 2025 of Baht (72.38) million, Baht 18.46 million, and Baht 51.26 million, respectively. This represents profit (loss) margins of (8.97)%, 1.80%, and 5.56% of total revenue, respectively. For the accounting period of 2025, the Company and its subsidiaries recorded an increase in profit compared to 2024, primarily due to improved cost control in construction projects.

The Company's cash flow generation capability improved in 2024 and 2025. Although the Company incurred a loss in 2023, it returned to profitability and generated stronger cash flows in 2024, mainly due to the collection of long-outstanding receivables and refunds of withholding tax. In 2025, the Company and its subsidiaries continued to generate profits, resulting in sustained positive cash flow performance.

Analysis on the operation and financial condition

Operating results and profitability

Total Revenue

Total revenue in 2025 amounted to 917.78 million Baht, a decrease of 9.99% compared to the same period of the previous year, with details as follows:

- **Revenue from construction services** in 2025 amounted to 612.17 million Baht, or a decrease of 14.61% compared to the same period of the previous year. This is divided into revenue from ongoing projects of 370.33 million Baht and revenue from new projects of 241.84 million Baht. The decrease in revenue resulted from a lower proportion of revenue recognition from ongoing projects.
- **Revenue from services** in 2025 amounted to 305.61 million Baht, or an increase of 0.94% compared to the previous year. This consists of revenue from waste collection and disposal services. In 2025, the increased revenue came from waste collection and disposal work in Nonthaburi province and new projects of a subsidiary acquired in 2025.
- **Other income** consists of gains from the sale of assets, revenue from insurance refunds, revenue from the sale of scrap materials, and interest income. In 2025, this amounted to 3.62 million Baht, or an increase of 15.65% compared to the previous year.

Costs and Expenses

Total costs in 2025 amounted to 798.44 million Baht, or a decrease of 14.66% compared to the same period of the previous year, with details as follows:

- **Cost of construction services** in 2025 amounted to 547.26 million Baht, or a decrease of 19.68% compared to the same period of the previous year. This is consistent with the decrease in construction revenue. The Company continues to improve its control over construction costs.
- **Cost of services** consists of significant items such as employee wages and expenses related to waste collection vehicles. In 2025, this amounted to 251.18 million Baht, or a decrease of 1.18%, representing a slight decrease in line with the Company's improved cost control.
- **Administrative expenses** in 2025 amounted to 56.36 million Baht, or an increase of 23.03% compared to the same period of the previous year. The increase was due to employee-related expenses and administrative costs.
- **Financial costs** in 2025 amounted to 9.69 million Baht, or a decrease of 35.61% compared to the same period of the previous year. Financial costs decreased due to more efficient debt management.

Gross Profit (Loss) and Net Profit (Loss)

- **Gross profit** in 2025 amounted to 119.34 million Baht, representing a gross profit margin of 13.00%. This is an increase from the same period of the previous year, which had a gross profit margin of 8.24%.
- **Net profit** in 2025 amounted to 51.26 million Baht, representing a net profit margin of 5.56%. The Company reported an increase in net profit compared to the previous year, which had a net profit of 18.46 million Baht.

Cash Cycle

The average collection period has continuously improved, from 91 days in 2023 to 51 days in 2024 and 53 days in 2025, reflecting that the Company and its subsidiaries can manage debt collection more efficiently. Additionally, the inventory turnover period also improved, standing at 9.40 days, 4.41 days, and 8.00 days in 2023, 2024, and 2025, respectively, as a result of increased efficiency in warehouse management. However, the average payment period to trade creditors in 2023 and 2024 was 43 days and 25 days, respectively. In 2025, the Company was able to maintain the

payment period at a low level, resulting from efficient cash flow management, with an average period of 30 days. Although the payment period in 2025 increased from 2024, it remains at an appropriate level, reflecting the Company's effective management of liquidity and cash flow.

Asset management capability

Asset Valuation

Impairment of Assets

There are no indicators of asset impairment.

Intangible Assets and Goodwill

- **2023:** Net intangible assets of 1.83 million Baht, representing a change of (31.37%).
- **2024:** Net intangible assets of 1.72 million Baht, a decrease of 0.11 million Baht, representing a change of (6.30%).
- **2025:** Net intangible assets of 1.89 million Baht, an increase of 0.18 million Baht, representing a change of 10.29%.

The changes in net intangible assets resulted from amortization. Specifically, in 2025, intangible assets increased due to investment in new computer software.

Liquidity and capital adequacy

Debt to Equity Ratio

In 2023, the ratio was 1.97 times, 1.23 times in 2024, and 0.99 times in 2025. The continuous decrease in the debt-to-equity ratio over the past three years is a positive signal, particularly in 2025, where it continued to decline as shareholders' equity increased from net profits and total liabilities decreased.

Interest-Bearing Debt to EBITDA Ratio

In 2023, the ratio was (27.75) times, 1.82 times in 2024, and 1.30 times in 2025. In 2025, the Company and its subsidiaries maintained improved debt management, resulting in a decrease in this ratio from 2024 and 2023, the latter of which saw operational losses and borrowings from external parties at high interest rates.

Debt Service Coverage Ratio (Operating Cash Flow Basis)

In 2023, the ratio was 0.86 times, 0.78 times in 2024, and increased to 0.99 times in 2025. The increasing ratio indicates a significantly strengthened ability to service debt from operating cash flow, as operating cash flow increased while liabilities decreased.

Interest Coverage Ratio (Operating Cash Flow Basis)

In 2023, the ratio was 6.09 times, 6.86 times in 2024, and 12.91 times in 2025. In 2025, there was a significant increase compared to 2024, reflecting an enhanced ability to pay interest. This demonstrates effective financial management and an increase in operating cash flow, which is a positive sign for the Company's financial stability.

Issuance of debt securities with an obligation to maintain financial ratios

Is there an issuance of debt securities with an obligation : No
to maintain financial ratios?

4.2 Potential factors or incidents that may materially affect the financial condition or the operating results

Significant factors or incidents that may materially affect the future financial condition or the operating results

The factors or events that may significantly impact the financial position or operations of the construction business include:

- 1. Economic Conditions:** Economic slowdown or recession may lead to a decrease in demand for construction services, affecting revenue and profits. On the other hand, economic growth could increase demand for construction projects.
- 2. Raw Material Prices:** Fluctuations in the prices of raw materials (such as steel, cement, labor) can impact project costs and profit margins. An increase in raw material prices may raise construction costs, thereby affecting profits.
- 3. Government Policies and Regulations:** Changes in laws, regulations, or government mandates such as zoning laws, city ordinances, environmental regulations, or tax laws can impact project costs and timelines. Delays in obtaining permits or the introduction of new regulations may disrupt project execution.
- 4. Project Delays or Disruptions:** Delays caused by unforeseen events, such as weather conditions, supply chain issues, or labor strikes, may affect project completion and delay revenue recognition. These disruptions could also increase costs.
- 5. Competition:** Increased competition in the construction industry may pressure pricing and profit margins. Companies might need to lower prices to remain competitive, which could affect profitability.
- 6. Finance and Liquidity:** Changes in interest rates, access to funding, or the company's ability to secure capital for projects may impact cash flow and its capacity to undertake new projects.
- 7. Client Payment Delays:** Delays or non-payment by clients may affect cash flow and may require the company to rely on working capital or secure additional funding.
- 8. Technological Advancements:** Adopting new technology or automation in construction can improve efficiency and reduce costs. However, failing to keep up with technological advancements may put the company at a competitive disadvantage.
- 9. Natural Disasters and Environmental Events:** Events such as floods, earthquakes, or other natural disasters can impact construction schedules, cause damage, and increase costs.
- 10. Labor Shortages or Labor Issues:** Difficulty in finding skilled labor or worker strikes could cause delays and increase project costs.

Additionally, health and safety issues could lead to accidents, legal liabilities, and delays in operations. These factors can significantly affect the financial health and operational performance of the construction business.

Project or research and development that will affect the operating results and the financial condition in the near future

The projects or research and development initiatives that may impact the future performance and financial position of the construction business in the near future include the following:

- 1. Development of New Technology:** Investment in research and development of new technologies, such as Building Information Modeling (BIM), robotics in construction, or the use of advanced materials with higher efficiency, may help improve construction productivity, reduce costs, and speed up project timelines. These developments could enhance the company's competitiveness, but they require high initial investment.
- 2. Development of Environmentally Friendly Construction Projects:** Research and development in sustainable construction, such as using eco-friendly materials, reducing emissions, or improving energy efficiency in projects, could have long-term effects by increasing market demand and creating new business opportunities. However, there will be initial costs associated with research and development.
- 3. Development of Projects in New Areas:** Expanding into new markets or developing projects in rapidly growing regions may help increase revenue streams in the future. However, this involves market risks and costs related to exploration and development.

4. Research and Development in Improving Work Processes: Research to improve construction processes, such as developing more efficient project management systems, enhancing material procurement, or optimizing team management, can help reduce costs and improve operational efficiency in the long run.

5. Research and Development in Waste Management: Projects related to waste management, such as researching recycling technologies and more efficient waste management, could create new business opportunities in the future, especially in expanding to new areas or increasing opportunities to win government tenders.

These projects or research initiatives can significantly impact future performance by creating new revenue opportunities or markets. However, they require initial investments that carry higher risks and may affect financial stability in the short term.

| 2024 | Case name A case for enforcement of the arbitration award relating to the Hyatt Regency Samui construction contract. Plaintiff SAMUI VIPAT COMPANY LIMITED | |
| | Dispute No. 1 <u>Duration (approximate)</u> Expected completion date : Dec 2027 <u>Dispute description</u> | End of dispute |
| | | |

| Year of incident | Details | Progress status |
|------------------|---|-----------------|
| | <p>The company has a dispute regarding the breach of delivery conditions with Samui Vipharat Co., Ltd., which has been considered through the arbitration process of the Office of the Judiciary. Subsequently, the arbitral tribunal issued an award on February 22, 2024, under Red Case No. 11/2024, and later issued an order to amend the award on March 26, 2024. The ruling requires Samui Vipharat Co., Ltd. to pay the outstanding contract fees, return the performance guarantee, and cover additional work expenses to the company, totaling 114.1 million baht, with an interest rate of 5% per annum, commencing 30 days after the date of the award.</p> <p>The company filed a petition for the enforcement of the arbitral award on June 19, 2024. On the same day, Samui Vipharat Co., Ltd. filed a petition requesting the court to annul the arbitral award. The company subsequently submitted an objection to the annulment request on August 8, 2024.</p> <p><u>Outcome of the dispute / Progress of the dispute</u></p> | |
| | | |

| Year of incident | Details | Progress status |
|------------------|--|-----------------|
| | <p>The Civil Court issued an order dismissing the petition to set aside the arbitration award on 14 October 2025. Subsequently, on 17 November 2025, the Court ordered that the petition to enforce the arbitration award be brought back for consideration. However, the client informed the Court of its intention to appeal against the order of the Court of First Instance in the case seeking to set aside the arbitration award and therefore requested that the Court dispose of or postpone the hearing of this case. The Court considered that the Supreme Court's decision on the appeal regarding the petition to set aside the arbitration award may be binding and final for this case. Accordingly, the Court ordered a scheduling hearing to await the Supreme Court's decision and set the witness examination for the enforcement case on 1 July 2026.</p> <p><u>Additional details</u></p> <p>-</p> | |

| Year of incident | Details | Progress status |
|------------------|---|-----------------|
| | <p><u>Dispute description</u></p> <p>The Company submitted a statement of claim on 28 June 2024, requesting the Arbitral Tribunal to order the customer to pay outstanding construction fees and additional work charges totaling Baht 7.0 million, together with interest at the rate of 5% per annum from the due date of each invoice until the date of submission of the statement of claim, amounting to Baht 0.2 million, bringing the total to Baht 7.2 million. The Company also requested interest at the rate of 5% per annum on the principal amount of Baht 7.0 million from the date following the submission of the statement of claim until the customer fully settles the debt.</p> <p>Subsequently, on 19 September 2024, the customer filed a statement of defense and counterclaim, claiming repair costs for alleged damage in the amount of Baht 7.8 million and compensation for loss of opportunity in the amount of Baht 6.4 million, totaling Baht 14.2 million. The customer exercised the right to set off the value of work performed under the main contract and additional works in the amount of Baht 8.7 million, leaving the remaining claimed damages of Baht 5.5 million, together with interest at the rate of 5% per annum from the date of submission of the counterclaim until full payment.</p> <p><u>Outcome of the dispute / Progress of the dispute</u></p> <p>The Arbitral Tribunal rendered its award on 17 September 2025, Case No. 46/2568, ordering the customer (the respondent) to pay the Company construction fees in the amount of Baht 7.0 million, together with interest at the rate of 5% per annum on the principal amount under each invoice from the due date until the date of submission of the statement of claim, totaling Baht 0.2 million. The total amount therefore equals Baht 7.2 million, plus interest at the</p> | |

|------------------|--|-----------------|
| | <p>rate of 5% per annum on the principal amount of Baht 7.0 million from the date following the submission of the statement of claim until full payment is made to the Company.</p> <p>The Tribunal also ordered the Company to pay the customer Baht 0.3 million (including VAT), together with interest at the rate of 5% per annum on such amount from the date of submission of the counterclaim until full payment is made. The amount payable by the Company shall first be set off against the amount awarded to the Company under the arbitration award.</p> <p>On 7 October 2025, the Company issued a demand letter requesting payment in accordance with the arbitration award. However, in the statement of financial position as at 31 December 2025, management considered an allowance for expected credit losses for trade receivables and unbilled revenue in the amount of Baht 0.7 million and estimated repair costs and potential compensation for damages in the amount of Baht 4.2 million.</p> <p>Subsequently, the Company filed a petition for enforcement of the arbitration award on 18 November 2025, and the customer (the respondent) filed a petition with the Court to set aside the arbitration award on 23 December 2025. On 2 February 2026, the Civil Court scheduled a hearing on the petition to set aside the arbitration award on 9 March 2026 and scheduled witness examination in the enforcement case for 14–15 July 2026.</p> <p><u>Additional details</u></p> <p>-</p> | |

Part 2 Corporate Governance

6. Corporate governance policy

6.1 Overview of the policy and guidelines

Overview of the policy and guidelines

Corporate governance policy and guidelines : Yes

Chiang Mai Rim Doi Company Limited (Public Company) (“the Company”) designates it as the duty and responsibility of all directors, executives, and employees to acknowledge and comply with the policies and requirements stipulated in the Company's Corporate Governance and Code of Business Conduct Handbook. The Company shall promote and develop knowledge and understanding in this regard among directors, executives, and employees. Furthermore, the Company requires executives at all levels to oversee, take responsibility, and prioritize promoting the knowledge, understanding, and strict adherence to the Company's Corporate Governance and Code of Business Conduct Handbook among employees under their supervision.

The Company shall not engage in any unlawful acts or acts that violate the principles of corporate governance and business ethics. If the directors, executives, or employees violate the principles or practices as prescribed, they will be subject to strict disciplinary actions. If there is an act that is believed to be in violation of laws, rules, regulations, and government regulations, the Company will forward the matter to the government officials for further action.

6.1.1 Policy and guidelines related to the board of directors

Are there policy and guidelines related to the board of : Yes

directors

Guidelines related to the board of directors : Nomination of directors, Determination of director remuneration, Independence of the board of directors from the management, Director development, Board performance evaluation, Corporate governance of subsidiaries and associated companies, Other guidelines related to the board of directors

Nomination of directors

For the recruitment of directors and top executives of the Company, the Board of Directors has assigned the Nomination and Remuneration Committee to search for and consider the selection of qualified individuals in accordance with the Securities and Exchange Act and the qualifications specified by the Company, to propose to the Board of Directors for appointment or to seek approval from the shareholders' meeting as required by the Company's Articles of Association. In searching for qualified individuals, the Company will consider opening opportunities for shareholders to nominate individuals for election as directors of the Company in advance of the Annual General Meeting of Shareholders, within the timeframe specified by the Company's announcement, along with the criteria and conditions for nomination posted on the Company's website. The Company may also allow each director to nominate individuals whom they deem qualified or who have been recommended by external independent advisors. The details of the recruitment criteria are as follows:

1. Independent Directors must meet the following selection criteria:

(1) Hold no more than 1 percent of the total voting shares of the Company, its parent company, subsidiary, affiliated company, major shareholder, or person with control of the Company, including shares held by related persons of such independent director.

(2) Not be or have been a managing director, employee, salaried consultant, or person with control of the Company, its parent company, subsidiary, affiliated company, subsidiary of the same tier, major shareholder, or person with control of the Company, unless such characteristic has ceased to exist for at least 2 years prior to the date of appointment as an independent director. This disqualification does not include cases where the person has been a government official or consultant of a government agency that is a major shareholder or person with control of the Company.

(3) Not be a person who has a blood relationship or a relationship by registration under the law in the nature of father, mother, spouse, sibling, and child, including the spouse of a child, of an executive, a major shareholder, a person with control, or a person who will be proposed to be an executive or a person with control of the Company or a subsidiary.

(4) Not have or have had any business relationship with the Company, its parent company, subsidiary, affiliated company, major shareholder, or person with control of the Company in a manner that could hinder their independent judgment, and not be or have been a significant shareholder or person with control of a person who has a business relationship with the Company, its parent company, subsidiary, affiliated company, major shareholder, or person with control of the Company, unless such characteristic has ceased to exist for at least 2 years prior to the date of appointment as an independent director. The aforementioned business relationship includes normal commercial transactions for the purpose of carrying on business, lease or rental of real estate, transactions relating to assets or services, or the provision or receipt of financial assistance by way of loans, guarantees, or the provision of assets as security for debts, including other similar acts, which result in the Company or the counterparty having a liability to pay to the other party of at least 3 percent of the Company's net tangible assets or at least 20 million baht, whichever is lower. The calculation of such liability shall be in accordance with the method of calculating the value of connected transactions under the Notification of the Capital Market Supervisory Board on the Rules and Procedures for Connected Transactions, *mutatis mutandis*. However, in considering such liability, the liability incurred during the 1 year period prior to the date of having a business relationship with the same person shall be included.

(5) Not be or have been an auditor of the Company, its parent company, subsidiary, affiliated company, major shareholder, or person with control of the Company, and not be a significant shareholder, person with control, or partner of an auditing firm that has an auditor of the Company, its parent company, subsidiary, affiliated company, major shareholder, or person with control of the Company as a member, unless such characteristic has ceased to exist for at least 2 years prior to the date of appointment as an independent director.

(6) Not be or have been a provider of any professional services, including legal or financial advisory services, that has received fees exceeding 2 million baht per year from the Company, its parent company, subsidiary, affiliated company, major shareholder, or person with control of the Company, and not be a significant shareholder, person with control, or partner of such professional service provider, unless such characteristic has ceased to exist for at least 2 years prior to the date of appointment as an independent director.

(7) Not be a director appointed to represent a director of the Company, a major shareholder, or a shareholder who is related to a major shareholder.

(8) Not engage in any business that is of the same nature and materially competes with the business of the Company or its subsidiaries, or be a significant partner in a partnership, or be a director, managing employee, employee, salaried consultant, or hold more than 1 percent of the total voting shares of another company that engages in any business that is of the same nature and materially competes with the business of the Company or its subsidiaries.

(9) Have no other characteristics that would prevent them from providing independent opinions on the Company's operations.

(10) Each independent director may serve as an independent director for a consecutive period not exceeding 9 years in the past accounting periods. The Company's independent directors meet the aforementioned criteria. None of them

have business relationships or professional service relationships exceeding the specified criteria. They perform their duties and provide independent opinions.

2. Recruitment of Directors and Top Executives

The Nomination and Remuneration Committee will review the skills and characteristics (Skill and Characteristic) and the overall composition of the Board of Directors to align with the Company's strategies and business directions. A Board Skill Matrix is prepared to identify necessary skills that are still lacking on the Board and to determine the criteria for recruiting the desired directors annually during the review. The Nomination and Remuneration Committee also considers diversity in terms of skills, experience, knowledge, expertise, independence, and other specific abilities, without limiting the age and gender of the directors.

(1) Directors must be persons with knowledge, ability, and experience that will be beneficial to the business operations, be honest, have integrity, have business ethics, and have sufficient time to devote their knowledge, ability, and perform their duties to the Company to the fullest extent.

(2) Directors must be fully qualified and not disqualified under the Public Limited Company Act and the Securities and Exchange Act, including not having any characteristics that indicate a lack of suitability to be entrusted with the management of a company with public shareholders as announced by the Securities and Exchange Commission.

(3) Directors cannot engage in any business that is of the same nature and competes with the Company's business, or become a partner or director of another juristic person that is of the same nature and competes with the Company's business, whether for their own benefit or for the benefit of others, unless disclosed to the shareholders' meeting prior to the resolution for their appointment.

(4) Directors must inform the Company without delay if they have any direct or indirect interest in any contract made by the Company, or if they increase or decrease their shareholdings or debentures in the Company or its subsidiaries.

(5) Directors are not required to be shareholders of the Company.

(6) The Chairman of the Board must be an independent director and must not be the same person as the Managing Director.

(7) A director may hold a directorship in no more than 5 other listed companies on the Stock Exchange.

(8) The election of directors shall be in accordance with the Company's Articles of Association and relevant laws, which must be transparent and clear. The criteria and procedures for electing directors at the shareholders' meeting are as follows:

- Each shareholder shall have one vote per share.
- Each shareholder may cast their votes to elect one or more persons as directors of the Company. In the case of electing more than one person as directors of the Company, the votes cannot be divided among such persons.
- The persons who receive the highest number of votes in descending order shall be elected as directors of the Company, equal to the number of directors that the Company shall or may have at that time. In the event that there are more than one person receiving the same number of votes exceeding the number of directors that the Company shall or may have at that time, the chairman of the shareholders' meeting shall have the casting vote.

(9) In the event that a directorship becomes vacant due to the expiration of the term, the Nomination and Remuneration Committee will consider and select qualified individuals to be directors, to submit their recommendations to the Board of Directors, and to seek approval from the Annual General Meeting of Shareholders.

(10) In proposing the reappointment of an existing director for another term, the Nomination and Remuneration Committee will consider various factors, including performance, meeting attendance history, participation in meetings, and support for the activities of the Board of Directors. If the director is an independent director, the Committee will also consider the independence of such director.

(11) In the event that a directorship becomes vacant for any reason other than the expiration of the term, the Board of Directors may elect a person who is qualified and not disqualified by law to be a director of the Company in replacement at the next meeting of the Board of Directors, unless the remaining term of the vacating director is less than 2 months, in which case the approval of the Annual General Meeting of Shareholders must be obtained. The

person who is appointed as a replacement director shall hold office only for the remaining term of the director whom he replaces. The resolution appointing a person as a replacement director must receive votes of not less than 3 out of 4 of the remaining directors.

(12) The Nomination and Remuneration Committee is responsible for considering and selecting candidates for the position of Managing Director, proposing to the Board of Directors for approval of the appointment. The Managing Director is responsible for considering and selecting candidates for the positions of Deputy Managing Director and Assistant Managing Director, proposing to the Board of Directors for approval of the appointment.

Determination of director remuneration

The company has a clear and transparent remuneration policy. The Nomination and Remuneration Committee is responsible for considering and determining the remuneration of the Board of Directors and the Managing Director. The remuneration is then proposed to the Board of Directors for approval and subsequently to the shareholders' meeting for the remuneration of the Board of Directors. The remuneration policy for directors and the managing director considers the company's financial status, the scope of duties, and the responsibilities of each director or managing director to ensure that the remuneration is at a level that can attract and retain competent directors to serve the company. The remuneration is also comparable to that of directors in the same or similar industries. All directors of the company understand their roles and responsibilities as directors and are willing to express their opinions independently. They are committed to continuous improvement and perform their duties with honesty, integrity, prudence, and due diligence, taking into account the best interests of the company and fairness to all shareholders. Furthermore, all directors of the company dedicate sufficient time to fully perform their duties and responsibilities, including attending board meetings, except in cases of necessity.

Independence of the board of directors from the management

The Board of Directors maintains a clear separation of roles, duties, and responsibilities from the management to ensure checks and balances in the company's operations. The Board is responsible for considering and approving overall policies such as vision, mission, strategies, operating policies, allocation of significant resources, corporate governance policies, anti-corruption policies, and overall financial objectives. This ensures the achievement of goals and objectives, including monitoring, evaluation, and overseeing the reporting of operational results. Meanwhile, the management is responsible for managing the company according to the policies set by the Board.

The Chairman of the Board and the Chief Executive Officer (CEO) of the company are not the same person. This separation ensures a clear distinction of roles and responsibilities between the Board of Directors and the management. The Chairman manages the Board, which is responsible for overseeing the management of the company. The CEO, as the head of management, is responsible for managing the company according to the policies and objectives approved by the Board. Furthermore, having a separate Chairman and CEO creates a balance of power, allowing the Chairman to act independently.

The Chairman of the Board presides over the meeting and is responsible for allocating sufficient time for each agenda item for directors to freely express their opinions on important issues. This is done with fair consideration for the benefits of shareholders and stakeholders. During the meeting, the Chairman summarizes the key points of each agenda item for the Board's consideration, while encouraging and providing opportunities for each director to express their views. This process ensures that all perspectives are gathered and synthesized into a resolution.

Director development

The Board of Directors has established an orientation program for new directors to ensure their understanding of the Company's business and relevant regulations. In addition, the Board of Directors has a policy to encourage all directors, senior management, and the company secretary to continuously participate in training courses on corporate governance, both through internal training and from external institutions such as the Stock Exchange of Thailand, the SEC, or the Thai Institute of Directors (IOD).

For the orientation of the new Board of Directors, the Company has prepared preliminary information about the Company, including the organizational structure and management, business operations, main products and services, company regulations and relevant laws, as well as the regulations of the SEC and the Stock Exchange of Thailand related to the new directors. This is to ensure that the directors can understand the Company's operations and acknowledge their roles, duties, and responsibilities as directors or independent directors (as the case may be).

Board performance evaluation

The Board of Directors mandates an annual performance evaluation to allow the Board to review its performance, problems, and obstacles encountered during the year. In 2017, the Company conducted three types of evaluations:

1. Board Self-Assessment Form, used to assess the overall performance of the Board, consisting of main assessment topics: Board structure and qualifications, roles, duties and responsibilities of the Board, Board meetings, director performance, and relationship with management.
2. Sub-Committee Self-Assessment Form, used to assess the overall performance of sub-committees assigned by the Board of Directors, consisting of main assessment topics: structure and qualifications of the committee, roles, duties and responsibilities of the committee, and committee meetings.
3. Individual Board and Sub-Committee Evaluation Form, used to assess the proper performance of individual directors, consisting of main assessment topics: Board structure and qualifications, roles, duties and responsibilities of the Board, and Board meetings. This form is used to monitor the performance of the Board of Directors and sub-committees to ensure they comply with the approved corporate governance policy and/or best practices, to improve the performance of the Board of Directors and sub-committees to align with the established policies, and to review problems and obstacles encountered in the past year.

Corporate governance of subsidiaries and associated companies

The Board of Directors is responsible for managing the business and operations of the Company, including managing the subsidiaries to comply with the Company's principal business plan, according to the resolution of the shareholders in good faith, under the law, objectives, and regulations of the Company, including overseeing the Company, subsidiaries, and associated companies to comply with the regulations of the Stock Exchange of Thailand. The Board of Directors' operations in overseeing, controlling, managing, and taking responsibility for the operations of the Company, subsidiaries, and associated companies, with the following important issues:

1. The Board of Directors has a policy to appoint representatives to serve as directors or executives in subsidiaries and associated companies to oversee the management of such companies in accordance with the Company's policies effectively and efficiently.
2. The Board of Directors regularly monitors the operations of subsidiaries or associated companies in which it has invested, including setting guidelines for persons appointed by the Company as directors or executives in such companies to comply with.
3. The Board of Directors oversees the business operations of subsidiaries and associated companies to comply with business policies, goals, operating plans, strategies, and budgets as approved.
4. The Board of Directors considers the organizational structure and management of subsidiaries and associated companies to be efficient and conducive to the business environment.
5. The Board of Directors considers and approves expenditures for investments or various operations, transactions, acquisitions or disposals of assets, borrowing or obtaining any credit from financial institutions, lending, capital increases, capital reductions, company dissolutions that have a significant impact on the business operations of subsidiaries and associated companies.
6. The Audit Committee considers and reviews the accuracy and reliability of financial reports, reviews the internal control system, internal audit, related party transactions, compliance with relevant laws and regulations, including overseeing the operations of subsidiaries and associated companies.

7. The Risk Management Committee considers and filters the risk management policies and guidelines of subsidiaries and associated companies.
8. The Board of Directors is committed to developing the management of subsidiaries and associated companies to have a good corporate governance and risk management system.
9. The Board of Directors will receive performance reports from subsidiaries and associated companies and regularly review the operating results to plan for future work and goals.

Other guidelines related to the board of directors

Risk Management, Internal Control, and Internal Audit

The Board of Directors has established an enterprise-wide risk management policy, starting from the process of risk identification, risk assessment, risk monitoring and control, as well as the creation of risk standards to ensure effective and consistent risk management.

The Company places importance on an internal control system that is appropriate for the current business operations, both at the management and operational levels, to be effective. Therefore, the organizational structure has been adjusted to align with the goals, business, roles, and responsibilities of each department. The duties, authorities, and responsibilities of employees and executives are clearly defined in writing. There is control over the use of company assets to ensure benefits. The segregation of duties between operators, inspectors, controllers, and evaluators is implemented to ensure appropriate checks and balances. In addition, there are internal controls related to the budget system, whereby the company has arranged for regular monthly budget utilization reports to be submitted to the responsible management, to control the appropriate use of the budget.

The Company has established an audit function to ensure that the Company's core operations and key financial activities are carried out in accordance with established guidelines and are effective, including compliance with laws and regulations applicable to the Company (Compliance Control). To ensure the independence of the internal audit function and to enable a thorough audit, the Board of Directors has mandated that internal audit reports be submitted directly to and evaluated by the Audit Committee.

6.1.2 Policy and guidelines related to shareholders and stakeholders

Are there policy and guidelines and measures related to : Yes

shareholders and stakeholders

Guidelines and measures related to shareholders and : Shareholders, Employee, Customer, Business

stakeholders competitors, Suppliers, Creditors, Government

agencies, Community and society, Other guidelines

and measures related to shareholders and

stakeholders

Shareholders

In addition to recognizing the equal fundamental rights of shareholders, the Company has established operational guidelines in accordance with good corporate governance principles. There are accurate and transparent disclosures, internal control and risk management, anti-corruption policies, and adequate channels for communication with the Company. This is to assure shareholders that the Company will conduct business with transparency and is committed to creating sustainable growth and stable returns for shareholders in the long run.

Employee

The company considers employees to be its most important resource, as they are a part of leading the company to success. The company places importance on respecting human rights. The company will treat all levels of employees

and stakeholders with equality, without discrimination. There will be no discrimination based on race, religion, gender, or culture, and no violation of basic human rights. Moreover, the company complies with labor laws, has fair employment practices, prepares employment contracts with fair conditions, has a compensation structure that is in line with knowledge, abilities, and job responsibilities, and has a system for paying wages, compensation, and employee benefits appropriately. The company provides good and appropriate welfare to executives and employees, maintains a safe working environment for life, health, and property, allows for appropriate leave and transfers, and provides channels for communication between employees and senior management. The company also supports the development process and enhances knowledge and skills by providing on-the-job training both internally and externally as necessary and appropriate to develop and enhance employee knowledge and abilities continuously and consistently. In addition, the company places importance on respecting human rights. All levels of employees will be treated equally, and no employee will be discriminated against based on personal relationships.

Customer

The company is committed to maximizing customer satisfaction by continuously selecting high-quality products and services that are environmentally friendly. This ensures that customers receive quality products and services at reasonable prices. Furthermore, the company regularly conducts customer satisfaction surveys and has expanded complaint channels for customers through its website. The company will keep all customer complaint information confidential, and if the complaint is significant, it will be presented to the Board of Directors for further action.

Business competitors

The Company conducts business under the framework of fair competition rules and opposes anticompetitive practices. We consider the principles of trade competition law and business ethics. We do not commit fraud, damage the reputation of competitors, seek trade secrets of competitors by improper means, both directly and indirectly, and do not disclose competitor information under any circumstances. We also do not infringe on the intellectual property of others.

Suppliers

The company considers equality in conducting business, which is based on fairness and mutual benefits. The partner selection process has clearly defined steps and practices for selecting partners fairly and transparently. It takes into account reputation, standards, and good governance practices. It also establishes contracts with fair trade terms and conditions that do not violate the law. In addition, the company has a policy of not accepting money, assets, or any other improper benefits from partners and does not support partners who engage in misconduct, are involved in corruption, or violate human rights.

Creditors

The company treats all creditors equally and fairly by strictly adhering to the terms, agreements, and contracts. This ensures creditors' confidence in the company's financial standing and its ability to repay debts fully and on time. In the event of any changes to the terms, agreements, or significant events that may affect the company's financial status and potentially impact its ability to repay debts, the company will notify creditors to find solutions or remedies together.

Government agencies

The company is committed to supporting government operations and complying with the regulations and policies of regulatory agencies. In conjunction with promoting and supporting collaboration in various government activities to jointly enhance stability and growth for the nation, including prioritizing intellectual property or copyrighted works, the company conducts business under the law or regulations related to intellectual property rights. It will not undertake or support any action that constitutes intellectual property infringement, whether it be copyright, patents, trade secrets, trademarks, information, trade names, geographical indications, or all types of intellectual property. The company has established a policy that requires the board of directors, executives, employees, and company staff to comply with the

aforementioned laws to ensure transparent, fair, and auditable business operations. Furthermore, the company will not conduct business or engage in activities with any juristic person or individual who infringes upon any type of intellectual property.

Community and society

The company is committed to conducting business with consideration for its impact on the community, society, and the environment. The company places importance on activities that benefit society and neighboring communities. In addition, the company encourages executives and employees at all levels to utilize resources efficiently and cost-effectively, and to work with a sense of safety consciousness, environmental awareness, and consideration for stakeholders, in conjunction with creating sustainability for the company.

Other guidelines and measures related to shareholders and stakeholders

Treatment of Shareholders

The Company places importance on and supports the creation of innovation and business operations with responsibility towards customers and stakeholders, including social and environmental responsibility. In other words, the Company recognizes the rights of all stakeholders equally, whether they are external stakeholders, including shareholders, customers, partners, competitors, creditors, society, communities, the environment, and relevant government agencies, as well as internal stakeholders, including the Company's employees. This is because these stakeholders are a key mechanism in developing and creating success for the Company, which is considered to promote the Company's sustainable and continuous growth in operating results.

Treatment of Shareholders:

- 1.1 Perform duties with honesty, integrity, and make decisions with good faith and fairness to both large and small shareholders, and for the benefit of all stakeholders.
- 1.2 Manage the Company's business to be progressive, stable, and generate appropriate returns for shareholders.
- 1.3 Perform duties and make decisions with competence and prudence by applying knowledge, experience, expertise, and management skills to the best of their ability in all cases.
- 1.4 Report the Company's operating status, performance, and future prospects to shareholders equally, consistently, and truthfully.
- 1.5 Do not seek benefits for oneself or related parties by using any information of the Company that has not been disclosed to the public.
- 1.6 Do not disclose the Company's confidential information to others improperly.
- 1.7 Do not engage in any actions that may cause a conflict of interest with the Company or any actions that constitute corruption.

6.2 Business code of conduct

Business code of conduct

Business code of conduct : Yes

In 2025, the Company was assessed for corporate governance under the Corporate Governance Report (CGR) project and received an "Very Good" rating, or 4 stars. This reflects the Company's corporate governance with Governance as a guideline for sustainable development, along with consideration for the Environmental and Social aspects, covering the concept of sustainable organizational development (ESG). This reflects the Company's long-term growth potential. The Company recognizes the importance of good corporate governance with transparency and fairness to all stakeholders. The Company is committed to developing the organization to operate in accordance with good corporate governance principles. Adhering to good corporate governance principles is a governance system that is ethical and enables the organization to have appropriate and efficient management, enhances the organization's competitiveness for sustainable growth, builds confidence in investment, creates long-term value for shareholders, and builds trust among all stakeholder groups. The Company attaches importance to good corporate governance by establishing a corporate governance policy under the principles of good governance, corporate governance regulations, and the regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC). This policy serves as a framework for conducting business, including the importance of treating all shareholders fairly and equally, with transparency, and providing accurate and sufficient information. The Company's Code of Conduct was first established when the Company was listed on the stock exchange in 1967 and is reviewed and updated annually to reflect changing circumstances. This ensures that the Company's operations are in line with the principles of good corporate governance of the SEC and the SET.

Policy and guidelines related to business code of conduct : <https://www.cmrd.co.th/wp-content/uploads/2025/03/1-%E0%B8%84%E0%B8%B9%E0%B9%88%E0%B8%A1%E0%B8%B7%E0%B8%AD%E0%B8%81%E0%B8%B2%E0%B8%A3%E0%B8%81%E0%B8%B3%E0%B8%81%E0%B8%B1%E0%B8%9A%E0%B8%94%E0%B8%B9%E0%B9%81%E0%B8%A5%E0%B8%81%E0%B8%B4%E0%B8%88%E0%B8%81%E0%B8%B2%E0%B8%A3%E0%B8%97%E0%B8%B5%E0%B9%88%E0%B8%94%E0%B8%B5-Code-of-Conduct-Rev.22-02-6.pdf>

Policy and guidelines related to business code of conduct

Guidelines related to business code of conduct : Prevention of conflicts of interest, Anti-corruption, Whistleblowing and Protection of Whistleblowers, Preventing the misuse of inside information, Gift giving or receiving, entertainment, or business hospitality, Compliance with laws, regulations, and rules, Information and assets usage and protection, Anti-unfair competitiveness, Information and IT system security, Environmental management, Human rights, Safety and occupational health at work, Other guidelines related to business code of conduct

Prevention of conflicts of interest

To prevent conflicts of interest, the Board of Directors exercises careful oversight when transactions that may involve a conflict of interest arise. The Board has established written policies and procedures for the approval of connected transactions in the company's Articles of Association. These policies stipulate that in the event that the company enters into a connected transaction or a transaction involving the acquisition or disposal of the company's assets as defined and in accordance with the criteria set forth in the Stock Exchange of Thailand's Notification on Connected Transactions or the Acquisition or Disposal of Assets of Listed Companies, the company shall comply with the criteria and procedures specified in such notification.

The Board of Directors is aware of transactions with conflicts of interest and connected transactions and has carefully considered the appropriateness of each transaction, including compliance with the regulations of the Stock Exchange of Thailand. In terms of price and conditions, the transactions are treated as if they were conducted with unrelated parties. The details, transaction value, counterparty, reasons/necessity are disclosed in the annual report and the 56-1 Annual Information Form. In addition, any director, executive, or employee who has a conflict of interest will not be permitted to participate in the decision-making process or vote on matters that may involve a conflict between the interests of the company and those individuals.

The company has a policy prohibiting directors, executives, and employees from using their positions as directors, executives, or employees of the company to seek personal gain. Therefore, the following code of conduct has been established:

6.1 The Board of Directors, the Audit Committee, and the management must carefully consider conflicts of interest regarding connected transactions in accordance with the regulations of the Stock Exchange of Thailand, with honesty, good faith, reasonableness, and independence under a good ethical framework, taking into account the interests of the company as a priority to ensure that such transactions are reasonable and primarily for the benefit of the company. Those who have a conflict of interest in any matter will not be able to participate in the approval of such transactions.

6.2 Must not engage in any act that conflicts with the business interests of the company, such as causing the company to lose profits, receive less profit than it should, or sharing profits from the company.

6.3 Do not engage in any act that competes with the business of the company.

6.4 Avoid engaging in self-dealing transactions that may create a conflict of interest with the company.

6.5 In cases where it is necessary to enter into such transactions for the benefit of the company, such transactions shall be conducted as if they were conducted with an unrelated party with whom the company has a commercial agreement of the same nature as that which a prudent person would enter into with a counterparty in general, with

bargaining power free from influence as a director, executive, or related person, and must not be involved in the consideration or approval process, and must comply with the requirements of the Stock Exchange of Thailand and the Securities and Exchange Commission regarding the disclosure of connected transactions.

6.6 Directors, executives, employees, and employees of the company, including their spouses and children, are prohibited from seeking personal gain in private businesses with the company, such as engaging in any act to sell goods and services to the company. If such an act occurs, a written explanation must be provided, and the information must be disclosed to the company in all cases.

Anti-corruption

Chiang Mai Rim Doi Public Company Limited has the ideology and confidence in conducting business with honesty, integrity, ethics, social responsibility, transparency, taking into account the benefits of all stakeholders, and in accordance with good corporate governance principles. As well as not accepting corruption in all forms, both directly and indirectly, to serve as guidelines for working and making decisions in the business operations of the Board of Directors, executives, and employees. In order for the Company's business operations that may be at risk of fraud and corruption to be carefully considered and implemented, the Board of Directors deems it appropriate to establish a written "Anti-Corruption Policy" to serve as a guideline for the Board of Directors, executives, and all employees of the Company to strictly comply with. This Anti-Corruption Policy has been reviewed and approved by the resolution of the Board of Directors Meeting No. 01/2564 on February 22, 2021.

Whistleblowing and Protection of Whistleblowers

The Company has established complaint and whistleblowing channels, which cover from receiving complaints, fact-finding, and concluding, including the protection of whistleblowers and related persons, to receive complaints, comments, or suggestions from stakeholders who are affected or at risk of being affected by the Company's business operations or by the actions of the Company's directors, management, and employees regarding illegal acts or ethical violations, including conduct that may constitute fraud.

Scope of Complaints and Whistleblowing

- Acts that violate or fail to comply with state laws and regulations or corporate governance policies, corporate governance principles, business ethics, and the Company's regulations.
- Acts that may constitute fraud, which means any act committed to seek unlawful benefits for oneself or others, such as embezzlement, corruption, fraud, etc.

Persons who can file a complaint

Company personnel, relevant officials, or external individuals who witness or become aware of, including individuals affected by the Company's business operations or by the actions of the Company's directors, management, and employees that violate or fail to comply with state laws and regulations or the principles of corporate governance, business ethics, policies, and regulations, including acts that may constitute fraud. The Company encourages whistleblowers to identify themselves and provide sufficient and clear evidence.

Complaint and Whistleblowing Process

Upon witnessing an incident of violation or non-compliance with state laws and regulations, corporate governance principles, business ethics, policies, or regulations of the Company, including acts that may constitute fraud by the Company's directors, management, and employees, complainants can report the matter through the complaint and whistleblowing channels. In the case of employees, if such an incident is witnessed, they should first inquire or consult with their supervisor. If they are unsure or uncomfortable doing so, they should report the matter through the complaint and whistleblowing channels.

Upon receiving a complaint, the complaint recipient may consider taking appropriate action or forwarding the matter to the relevant person, taking into account the independence of the action based on the content or issues raised in the complaint, to conduct a fact-finding investigation and follow up on progress to ensure that appropriate action is taken in response to the complaint received. The following guidelines apply:

(1) If the complaint involves an act that violates or fails to comply with the policies and procedures regarding personnel, it shall be forwarded to the Head of Human Resources.

(2) If the complaint involves an act that violates or fails to comply with state laws and regulations, policies, corporate governance principles, business ethics, and the Company's regulations, it shall be forwarded to the Company Secretary.

(3) If the complaint involves an act that may constitute fraud, which means any act committed to seek unlawful benefits for oneself or others, such as embezzlement, corruption, fraud, etc., it shall be forwarded to the Audit Committee or the Chief Audit Executive.

(4) In the event that the complaint under (1) – (3) is complex or involves multiple departments, it shall be submitted to the Managing Director for the appointment of a fact-finding committee to conduct an investigation into the matter.

(5) The complaint shall then be reported to the Chief Audit Executive for registration and recording of the complaint for follow-up on the progress of the complaint.

However, in the event that a violation or non-compliance with the law and regulations of the Company or an act of fraud is found, disciplinary action shall be taken in accordance with the Company's regulations and/or legal penalties may be imposed if the act is illegal.

Reporting False Information

In the event that the reported information is proven to be false due to an intention to distort the facts or to slander others, the person reporting such information shall be deemed to have committed a violation of the Company's Code of Conduct. The determination of penalties shall be in accordance with the Company's regulations and/or relevant legal provisions.

Protection of Whistleblowers and Related Persons

Whistleblowers will receive appropriate and fair protection from the Company, such as no changes in job position, job description, work location, suspension, intimidation, work interference, termination, or any other unfair treatment of the whistleblower. The Company will keep information about the complaint confidential and will not disclose it to unrelated parties, except as required by law.

Related persons who are informed of or receive information relating to a complaint must keep the information confidential and not disclose it to others, except as required by law. If there is an intentional violation of disclosing the information, the Company will take disciplinary action in accordance with the Company's regulations and/or legal action, as the case may be.

Complaint and Whistleblowing Channels

Whistleblowers can submit complaints or tips, clearly marked as confidential documents, through the following channels:

(1) Report via email as follows:

- Chairman of the Audit Committee at audit_committee@cmrd.co.th or
- Managing Director at thirapat.c@cmrd.co.th or
- Company Secretary at kanjana.c@cmrd.co.th

(2) Report through the Company's website ("Contact Us" section, General information)

(3) Report by phone +66(0) 5327-1420 or +66(0) 5327-2429 ext. 107

(4) Report by mail, addressed to, or submitted directly to

- Chairman of the Audit Committee or
- Managing Director or
- Company Secretary or
- Mail to: Chiang Mai Rim Doi Public Company Limited 164/34-36 Chang Klan Road, Chang Klan Subdistrict, Mueang Chiang Mai District, Chiang Mai Province 50100

Preventing the misuse of inside information

The company has stipulated that directors, executives, employees, and employees of the company, including their spouses and unemancipated children, are prohibited from trading in the company's securities during the period of 1 month prior to the disclosure of financial statements to the public.

Directors, executives, employees, and employees of the company, including their spouses and unemancipated children, are prohibited from using inside information of the company that has or may have an impact on changes in the price of the company's securities, which has not yet been disclosed to the public, to trade, buy, sell, offer to buy, offer to sell, or induce others to buy, sell, offer to buy, or offer to sell the company's securities, whether directly or indirectly, before such information is disclosed to the public, regardless of whether such act is done for their own benefit or for the benefit of others, or for the benefit of others to do so in exchange for a benefit. Violators will be subject to disciplinary action by the company.

Directors, executives, employees, and employees of the company are prohibited from disclosing or exploiting the company's confidential information and/or inside information for their own benefit or for the benefit of any other person, whether directly or indirectly, and whether or not they receive any benefit in return.

Must maintain the interests and confidentiality of the company or clients. It is forbidden to disclose company secrets to outside parties, especially competitors, even after the termination of their status as directors, executives, or employees of the company.

Gift giving or receiving, entertainment, or business hospitality

In giving or receiving, the Company's directors, executives, employees, and affiliates must comply with the following:

1. Receiving Gifts or Other Benefits

(1) The Company prohibits its directors, executives, and employees from accepting gifts or other benefits from all stakeholders involved in the Company's business operations, such as accepting gifts, solicitations, invitations to hospitality, donations, etc., from customers, business partners, or those who have business relationships with the Company, including government officials, in the form of cash or anything that can be easily exchanged for cash, except for giving or receiving in the case of funerals, weddings, ordinations, or customary festive occasions.

(2) Employees are responsible for informing business partners and relevant stakeholders of the Company's No Gift Policy on a regular basis and requesting their cooperation in its implementation.

(3) In the event that it is necessary to accept a gift or other benefit and it is unavoidable, such as when a business partner is unaware of the No Gift Policy and has already given the gift, or the Company has assigned an employee to attend an event and received a prize from a lucky draw, or the employee is in a situation where they cannot refuse to accept the gift due to the need to maintain good relations with the individual or organization, the employee should do the following:

(a) The recipient of gifts shall be at the department manager level or higher, or an employee assigned as a company representative.

(b) Upon receiving the gift, it must be immediately submitted to the Human Resources Department for recording and presented to the management meeting for further consideration and appropriate action. Exceptions are made for consumable items with an expiration date within 1 month or souvenirs with a value not exceeding 500 Baht. The Human Resources Director has the authority to distribute such items to employees as deemed appropriate.

(4) In the event that the Company is offered an award, souvenir, or any item from a competition, a contract with a business partner, or an event that recognizes the Company's achievements, the Company may accept such items on an inter-organizational basis. The Company assigns the department manager level or higher to receive the items on behalf of the Company. Such items are considered the property of the Company. The authorized representative must submit the items to the personnel department for recording and present them to the management meeting for further consideration.

(5) The Company permits directors, executives, and employees to accept souvenirs with a value not exceeding 500 Baht during customary festive seasons, public relations events, or seminars, such as calendars, keychains, pens, notebooks, commemorative coins bearing the organization's logo or the event, etc. The Company assigns supervisors or department manager level or higher to receive and distribute souvenirs to employees as appropriate.

(6) Soliciting sponsorships or gifts can be done on an inter-organizational basis. The process of soliciting sponsorships must be approved according to the Company's procedures and signed off by authorized personnel only.

(7) Accepting offers for seminars, training, study tours, or company visits where the business partner covers the expenses is permissible if it is deemed appropriate and beneficial to the Company. Factors to consider when accepting such offers include:

(a) Offers made on an individual basis, not between organizations.

(b) Offers that are not specified in the agreement.

(c) Offers intended for tourism rather than learning.

2. Giving of Gifts or Other Benefits

The Company stipulates that the giving of gifts or other benefits to stakeholders with a value not exceeding 3,000 Baht is permissible during customary festive seasons and traditions, which do not violate the law. Approval for such actions must be obtained from the department manager level or higher. Furthermore, to avoid and prevent actions that may be construed as bribery, which could lead to corruption, the Company requires that the department manager level or higher inspects the appropriateness of the action before proceeding and acts as the representative in presenting the gift or other benefits on behalf of the Company.

3. Charitable Donation and Sponsorship Policy

The giving or receiving of donations, fundraising, sponsorships, gifts, or any other form of monetary contribution for charitable purposes must be transparent and lawful. It must be ensured that such actions are not used as a pretext for bribery. In the event that the donation is of significant value, the Company will present it to the authorized director of the Company for approval on a case-by-case basis.

4. Political Contribution Policy

The Company conducts its business with political neutrality, does not participate in, and does not favor any political party, politician, or political figure. The Company does not use its funds or any resources to support any political party, politician, or political figure, either directly or indirectly. The Company prohibits its directors, executives, and employees from using their positions, duties, assets, time, or any of the Company's facilities to benefit or support any political activities, political organizations, or members of political organizations. The Company also prohibits its directors, executives, and employees from using their authority to persuade, pressure, or coerce colleagues, including subordinates, to support any political activities.

Compliance with laws, regulations, and rules

Personnel at all levels must comply with relevant regulations and legal requirements, both domestically and/or internationally. Prior to undertaking any work that may be subject to legal stipulations, careful consideration, thorough review, and verification by responsible parties are necessary to ensure compliance with all applicable laws.

1. Directors, executives, and employees must comply with laws, regulations, rules, and requirements of the Stock Exchange of Thailand, the Securities and Exchange Commission.

2. Directors, executives, and employees must not evade compliance with relevant regulations, rules, and laws.

3. Directors, executives, and employees must comply with the company's "Corporate Governance" and "Business Ethics" policies.

4. All personnel involved must comply with relevant regulations and legal requirements, both domestically and/or internationally, to ensure the accuracy and completeness of the company's accounting and financial records.

Information and assets usage and protection

The Board of Directors, management, and employees are responsible for maintaining assets, using assets, information, and company secrets to achieve maximum efficiency. The following practices have been established:

1. Employees must maintain machinery, tools, vehicles, and work equipment in good condition and use resources or energy in their work economically or with minimal waste.
2. Employees must work together to be cautious and protect any company assets from damage or loss from any person or disaster and not use any company assets for personal gain or for the benefit of others without permission.
3. All documents must be prepared with honesty, care, and in accordance with established standards, and it is forbidden to forge company books, reports, or documents.
4. Employees must not violate company rules or orders that may cause accidents or damage to company property.
5. Employees must be aware of and comply with the guidelines for using computer and network systems correctly and appropriately.
6. Do not install or save software on the company's computer system without permission.
7. Computer equipment, information technology systems, and various information are considered company assets. Management and employees should not use computers and information technology for personal gain.

Anti-unfair competitiveness

Prohibiting the giving or receiving of bribes in all forms of business dealings with partners, contractors, or any agencies, both public and private, that conduct business with the company. All business operations must be transparent and comply with legal regulations. Moreover, in managing the supply chain to prevent corruption with business partners, the company will clarify and encourage business partners to operate in accordance with the principles and practices of good corporate governance (Code of Conduct).

Information and IT system security

The company has a policy for employees and related personnel to use the information technology system, which consists of a data communication network circuit, software systems used for operations and data processing, computers with peripherals, data files, and company information effectively, without violating the law or relevant Royal Decrees, with adequate security standards for the benefit and business outcomes of the company. Therefore, it is stipulated as follows:

1. Implement information technology systems in all aspects of work and develop the company's personnel to have up-to-date knowledge and abilities.
2. Employees must use the information technology system to promote the company's business. They must not act for personal gain or violate ethics and good morals.
3. Information recorded and disseminated through the information technology system is the responsibility of the data owner to ensure that it does not violate the law or infringe upon third parties.
4. Use legal and standard software.
5. The use of information technology systems must be authorized and comply with established regulations.
6. Data owners must protect their information technology systems and critical business information from unauthorized access, theft, and sabotage to ensure the continuity of the company's business.
7. The person responsible for the overall information technology system, as assigned by the company, is responsible for establishing measures to control and protect the information technology system to be stable and secure, including monitoring all personnel to strictly comply with the regulations.

Environmental management

The company operates with environmental considerations in mind, minimizing environmental impacts from business operations. This is achieved by using environmentally friendly products, conserving energy, utilizing resources efficiently, and reducing waste generation and disposal costs.

Human rights

Chiang Mai Rim Doi Public Company Limited is committed to conducting business responsibly towards customers and society, as well as all stakeholders, in accordance with the principles of good corporate governance. In terms of human rights protection, Chiang Mai Rim Doi Public Company Limited strictly complies with the law to ensure that its business operations are free from human rights violations. The management and the Board of Directors therefore deem it appropriate to establish a human rights policy and practices to prevent human rights violations in all business activities of Chiang Mai Rim Doi Public Company Limited, including its business value chain and joint ventures, to ensure that all stakeholders are treated fairly and equally with respect to their fundamental rights.

Safety and occupational health at work

Chiang Mai Rim Doi Company Limited (Public Company Limited), a contractor for general building and construction, basic infrastructure systems, including waste management and disposal services, is committed to implementing and managing quality, security, safety, occupational health, environment, and social responsibility as follows:

1. Develop work processes to be of high quality, meeting customer needs and organizational goals to create sustainable business growth. Encourage employees to utilize technology to reduce work steps.
2. Manage the business with environmental considerations in mind, reducing environmental impacts from business operations by using environmentally friendly products, saving energy, using resources efficiently, and reducing waste generation and disposal costs.
3. Maintain and promote a safe and healthy work environment, protecting and preventing illness, injury, and loss from company operations that impact workers, the environment, and the community.
4. Support and encourage employees within the organization, partners, and contractors to participate in implementing and improving work quality, safety, occupational health, and the environment.
5. Comply with laws, regulations, and rules related to quality, safety, occupational health, and environmental practices.

This policy applies to all departments within the organization, from top management to operational staff, including contractors and subcontractors working in the area. In particular, executives must be role models in their work, supporting, driving, monitoring, and continuously reviewing performance to achieve the organization's vision and mission.

Other guidelines related to business code of conduct

Subsidiary and Associated Company Management Policy

The Board of Directors is responsible for managing the business and operations of the Company, including the management of subsidiaries, in accordance with the Company's principal business plan, as resolved by the shareholders in good faith, under the law, objectives, and regulations of the Company, including overseeing the Company, subsidiaries, and associated companies to comply with the rules of the Stock Exchange of Thailand. The Board of Directors' duties in overseeing, controlling, managing, and taking responsibility for the operations of the Company, subsidiaries, and associated companies are as follows:

1. The Board of Directors has a policy to appoint representatives to serve as directors or executives in subsidiaries and associated companies to oversee the management of those companies in accordance with the Company's policies effectively and efficiently.
2. The Board of Directors regularly monitors the operations of subsidiaries or associated companies in which it has invested, including providing direction to persons appointed by the Company as directors or executives in such companies.
3. The Board of Directors oversees the business operations of subsidiaries and associated companies to ensure compliance with business policies, objectives, operational plans, strategies, and budgets as approved.
4. The Board of Directors considers the organizational structure and management of subsidiaries and associated companies to ensure efficiency and suitability for the business environment.

5. The Board of Directors approves expenditures for investments or various operations, transactions, acquisition or disposal of assets, borrowing or requesting any credit from financial institutions, lending, capital increases, capital reductions, and company dissolutions that have a significant impact on the business operations of subsidiaries and associated companies.
6. The Audit Committee reviews the accuracy and reliability of financial reports, internal control systems, internal audits, related party transactions, compliance with relevant laws and regulations, including overseeing the operations of subsidiaries and associated companies.
7. The Risk Management Committee considers and screens risk management policies and guidelines for subsidiaries and associated companies.
8. The Board of Directors is committed to developing the management of subsidiaries and associated companies to have a good corporate governance and risk management system.
9. The Board of Directors will receive performance reports from subsidiaries and associated companies and regularly review their performance to plan for future work and goals.

Implementation of the CG Code as prescribed by the SEC : Fully implement

Corporate Governance Practices

The Company has established a system of corporate governance and internal control, which consists of 5 key elements as follows:

Category 1: Shareholders' Rights

To ensure transparency and enhance the Company's competitiveness, as well as to increase confidence among shareholders, investors, and all stakeholders, the Board of Directors has established guidelines to protect the fundamental rights of shareholders, including the right to ownership by controlling the Company through the appointment of the Board of Directors to act on their behalf, the right to buy, sell, or transfer shares, the right to attend shareholders' meetings and vote, including expressing opinions and participating in decisions on important changes, the right to appoint a proxy to attend meetings and vote on their behalf, the right to appoint and remove the Board of Directors, the right to vote on the appointment and remuneration of the auditor, the right to receive information, operating results, and management policies on a regular and timely basis, the right to receive an equal share of profits, and the right to be informed of related party transactions.

Category 2: Equal Treatment of Shareholders

General Rights

The Company is committed to protecting the interests and rights of shareholders and places importance on treating all shareholders equally. The Company has a policy of disclosing information about the Company in various aspects completely, accurately, and transparently, including the rights that shareholders are entitled to or matters that affect the Company, such as attending meetings to exercise voting rights at the shareholders' meeting, the right to receive dividends, capital reductions or increases, etc.

Shareholders' Meeting

The Company has a policy to hold shareholders' meetings in accordance with the law and the regulations of the Stock Exchange of Thailand, both in terms of calling the meeting, notifying the agenda, sending the notice of meeting, conducting the meeting, and recording the minutes of the meeting, as well as providing full facilities for shareholders at each shareholders' meeting.

Before the Meeting

The Board of Directors must hold a shareholders' meeting as an Annual General Meeting within 4 months from the end of the Company's fiscal year. The Company will send out a notice of the meeting along with documents for each agenda item to shareholders at least 14 days before the meeting date. The Company will also publish the meeting documents on the Company's website approximately 30 days before the meeting date and notify the Stock Exchange

of Thailand of such publication to allow shareholders sufficient time to study the meeting materials in advance before receiving the information in document form.

In the Annual General Meeting, the Company provides information for the shareholders' decision-making in the invitation letter, including:

- Facts and rationale, along with the Board of Directors' opinions on each agenda item.
- Important information such as the background of the person nominated to be appointed as a director (in the agenda item of electing directors to replace those retiring by rotation), details of directors' and sub-committee remuneration, etc., including details of shareholder proxies. The Company has provided shareholders with an additional option by nominating at least 1 independent director to be a proxy for shareholders to attend the meeting and vote on resolutions at the meeting in the event that the shareholder is unable to attend the meeting.

The Company has provided facilities for shareholders and proxies attending the meeting by having staff register using a barcode system and preparing ballots for each agenda item.

During the Meeting

The Chairman of the Board presides over the meeting, and there is a sub-committee chairman, as well as the Company's directors attending the meeting (as disclosed in the meeting report) to clarify and answer shareholders' questions on relevant issues. Before the start of the meeting according to the agenda, the Chairman informs the meeting of the procedures for voting on each agenda item, and the voting results are announced to the meeting at the end of each agenda item.

The Company has conducted the shareholders' meeting in accordance with the agenda specified in the notice of meeting and has allowed shareholders to vote for the election of directors on an individual basis in the agenda item of electing directors. In addition, the Company adheres to the practice that, in order to allow shareholders the opportunity to study the information before making a decision, the Company will not add any agenda items at the meeting without prior notice to shareholders.

During the meeting, the Chairman of the meeting provides equal opportunity for shareholders to review the Company's operations, as well as to ask questions and express their opinions and suggestions. Both major shareholders and minority shareholders receive the same information regarding business operations and financial reports, as well as the right to dividend allocation.

After the Meeting

The Company has accurately and completely recorded the minutes of the meeting and the voting on each agenda item, including recording important questions and comments from shareholders in the minutes of the meeting. The Company has submitted the minutes of the shareholders' meeting to the Stock Exchange of Thailand within 14 days after the end of the meeting, as well as published them on the website. www.cmrd.co.th so that shareholders are informed and can monitor the Company's operations.

Category 3: The Role of Stakeholders

The Company places importance on and supports innovation and responsible business practices towards customers and stakeholders, including social and environmental responsibility. The Company recognizes the rights of all stakeholders equally, whether they are external stakeholders, which consist of shareholders, customers, business partners, competitors, creditors, society, communities, the environment, and relevant government agencies, as well as internal stakeholders, which consist of the Company's employees. This is because these stakeholders are an important mechanism in the development and success of the Company, which promotes the Company's sustainable growth and performance.

Category 4: Disclosure and Transparency

The Company places importance on disclosing information that is accurate, complete, and transparent through easily accessible and reliable channels, both in the form of financial and general information reports, as well as important information that affects the Company. The Company discloses information through various communication channels such as the website of the Stock Exchange of Thailand and the Company's website. www.cmrd.co.th Annual Report,

Annual Information Form, and Annual General Meeting of Shareholders, etc., so that investors and interested parties are fully informed.

The Company's important information consists of financial reports and non-financial information in accordance with the requirements of the Securities and Exchange Commission, Thailand, and other relevant information. The financial statements disclosed to the Stock Exchange of Thailand have been reviewed/audited by the Company's auditors and approved by the Board of Directors. The Board of Directors is responsible for the Company's consolidated financial statements and the financial information presented in the annual report. The financial statements are prepared in accordance with generally accepted accounting standards in Thailand, using appropriate and consistently applied accounting policies, prudent judgment, and adequate disclosure of significant information in the notes to the financial statements. In addition, the Board of Directors has established and maintained an effective internal control system to provide reasonable assurance that accounting records are accurate, complete, and sufficient to safeguard assets and to identify weaknesses and prevent material fraud or irregularities. The Board of Directors has appointed an Audit Committee, which is composed of independent directors who are not executives, to oversee the quality of financial reporting, internal control, and the Audit Committee's approval of this matter. The Audit Committee's report is included in the annual report and the annual information form. The Company has informed the directors and management of the relevant announcements of the Securities and Exchange Commission (SEC) that require directors and management to report changes in shareholdings to the SEC under Section 59 of the Securities and Exchange Act B.E. 2535 within 3 days from the date of the change in shareholdings and to notify the Company Secretary to record the changes and summarize the number of securities held by each director and executive.

Category 5: Responsibilities of the Board of Directors

The Board of Directors, as the representative of the shareholders, has an important role in setting the vision, mission, policies, and making decisions on important policies and strategies of the Company, monitoring and reviewing the performance of the management to comply with the policies and strategies set for the best interests of the shareholders, as well as evaluating the Company's operating results against the established plans. Therefore, the Board of Directors consists of qualified individuals with diverse knowledge, abilities, and experience, who can bring their experience to develop and set policies that will benefit the Company's business.

In addition, the Company's Board of Directors places importance on disclosing sufficient information to shareholders, investors, and all stakeholders. The information disclosed must be accurate, complete, transparent, comprehensive, and timely, including financial reports, operating results, other relevant information, as well as information that affects the Company's securities prices in accordance with good corporate governance principles. The Company discloses information and news to shareholders, investors, and interested parties for their investment decisions through various channels, including sending documents by mail, disclosing information through the Company's website, and the Stock Exchange of Thailand's information system.

The Board of Directors has the duty and responsibility to perform its duties in accordance with the provisions of the law, objectives, regulations, applicable rules, and resolutions of the shareholders' meeting, including considering and approving the establishment of policies and management direction, financial goals, and budgets. The Board of Directors also monitors the operations to ensure that they are in accordance with the established policies effectively for the best interests of the shareholders under ethical standards with honesty and prudence.

Information on provident fund management

Provident fund management policy

Provident fund management policy : Yes

The Company provides a Provident Fund as part of its employee welfare program to promote long-term savings and enhance employees' financial security. The fund is managed by Krung Thai Asset Management Public Company Limited under the Thai Mankong Master Pooled Fund.

In 2025, the Company adjusted the employer contribution rate based on employees' years of service, ranging from 3% to 10% of wages. Employees are also given the option to contribute to the fund at rates ranging from 2% to 15% of their wages, in accordance with the specified criteria.

This initiative reflects the Company's commitment to enhancing employee welfare and supporting employees' long-term financial well-being.

As of 31 December 2025, 136 employees participated in the provident fund out of 194 eligible employees, representing a participation rate of 70.10%.

8.1 Summary of duty performance of the board of directors over the past year

Summary of duty performance of the board of directors over the past year

In 2025, the Board of Directors reviewed the company's vision, mission, values, strategies, policies, objectives, organizational structure, and operational direction to ensure alignment with business operations. This review aimed to provide managers and employees with a unified direction and to monitor the implementation of corporate strategies in accordance with relevant policies, regulations, laws, and rules. The Board also oversaw the adequacy of the internal control system and enterprise risk management to ensure appropriate standards within the legal framework and objectives. The Board provided constructive feedback for organizational development during Board of Directors meetings and shareholder meetings with honesty, prudence, consideration for the best interests of the company, and responsibility towards shareholders and all stakeholders.

Selection of independent directors

Criteria for selecting independent directors

Independent Director There must be criteria for selection as follows:

1) Holds no more than 1 percent of the total voting shares of the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the Company, including shares held by related persons of such independent director.

2) Not be or have ever been a director, executive, employee, regular salaried consultant, or controlling person of the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the

Company, unless such status has ceased for at least 2 years prior to the date of appointment as an independent director. This disqualification does not include cases where the person was previously a government official or consultant of a government agency that is a major shareholder or controlling person of the Company.

3) Not be a person related by blood or legal registration as father, mother, spouse, sibling, child, including the spouse of a child, of an executive, major shareholder, controlling person, or a person nominated to be an executive or controlling person of the Company or its subsidiary.

4) Not have or have ever had a business relationship with the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the Company in a manner that could compromise their independent judgment, including not being or having ever been a significant shareholder or controlling person of a person who has a business relationship with the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the Company, unless such status has ceased for at least 2 years prior to the date of appointment as an independent director. The aforementioned business relationship includes ordinary course of business transactions, real estate lease or rental, transactions related to assets or services, or the provision or receipt of financial assistance through loans, guarantees, provision of assets as collateral, including other similar acts, which result in the Company or the counterparty having a liability payable to the other party of at least 3 percent of the Company's net tangible assets or at least 20 million Baht, whichever is lower. The calculation of such liability shall be in accordance with the method for calculating the value of connected transactions as prescribed by the Capital Market Supervisory Board's Notification on the Rules and Procedures for Connected Transactions, *mutatis mutandis*. However, in considering such liability, liabilities incurred within 1 year prior to the date of the business relationship with the same person

5) Not be or have ever been an auditor of the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the Company, and not be a significant shareholder, controlling person, or shareholder of an accounting firm that employs an auditor of the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the Company, unless such status has ceased for at least 2 years prior to the date of appointment as an independent director.

6) Not be or have ever been a provider of any professional services, including legal or financial advisory services, receiving fees exceeding 2 million Baht per year from the Company, its parent company, subsidiary, affiliated company, major shareholder, or controlling person of the Company, and not be a significant shareholder, controlling person, or shareholder of such professional service provider, unless such status has ceased for at least

7) Not be a director appointed to represent a director of the Company, a major shareholder, or a shareholder who is related to a major shareholder.

8) Not engage in a business that is identical and materially competitive with the business of the Company or its subsidiary, or not be a significant partner in a partnership, or be a director, executive, employee, regular salaried consultant, or hold more than 1 percent of the total voting shares of another company that engages in a business that is identical and materially competitive with the business of the Company or its subsidiary.

9) Not have any other characteristics that could prevent them from providing independent opinions regarding the Company's operations.

10) Each independent director may serve consecutive terms for no more than 9 years in the past accounting periods. The Company's independent directors possess the qualifications stipulated above. No individual has business relationships or provides professional services exceeding the specified threshold. They perform their duties and provide independent opinions.

In the past year 2025, no independent director has had a business relationship or provided professional services, and no person appointed as an independent director has had a business relationship or provided professional services exceeding the specified threshold.

Rights of minority shareholders on director appointment

The Company has established criteria and procedures for considering the rights of minority shareholders to propose agenda items and/or nominate candidates for appointment as directors in advance for the Board of Directors' consideration to be included in the agenda of the Annual General Meeting of Shareholders. This is to provide shareholders with the opportunity to participate in the Company's governance and to select qualified individuals who can perform their duties effectively for the best interests of all shareholders and stakeholders. The right is granted to one or more shareholders who hold, in aggregate, not less than 5 percent of the total voting rights of the Company and have continuously held the shares for at least 12 months from the date of shareholding until the date of proposing the agenda item and/or nominating a person for election as a director of the Company. The Company has disclosed these criteria on the Company's website and announced them on the website of the Stock Exchange of Thailand. However, no shareholder proposed any agenda items, and there were no nominations for directors during such period. The Company Secretary has reported this to the Board of Directors' Meeting for acknowledgement.

Information on the evaluation of duty performance of directors

Criteria for evaluating the duty performance of the board of directors

The Board of Directors requires an annual performance evaluation to allow the Board to review the performance, problems, and obstacles encountered during the year. In 2025, the Company conducted three types of evaluations:

1. Individual Board Member Self-Assessment Form: Used to assess the overall performance of each board member. The main assessment topics include the structure and qualifications of the board, the roles, responsibilities, and duties of the board, board meetings, the performance of directors, and relationships with management; and
2. Sub-committee Self-Assessment Form: Used to assess the overall performance of each sub-committee assigned by the Board of Directors. The main assessment topics include the structure and qualifications of the committee, the roles, responsibilities, and duties of the committee, and committee meetings; and
3. Individual Board Member and Sub-Committee Evaluation Form: Used to assess the proper performance of individual directors. The main assessment topics include the structure and qualifications of the board, the roles, responsibilities, and duties of the board, and board meetings. This form serves as a framework for reviewing the performance of the Board of Directors and sub-committees to ensure alignment with approved corporate governance policies and/or best practices. This process aims to improve the performance of the Board of Directors and sub-committees in accordance with established policies and to review problems and obstacles encountered in the past year.

Evaluation of the duty performance of the board of directors over the past year

The Board of Directors mandates an annual performance evaluation to allow the Board to review the performance, issues, and obstacles encountered during the year. In 2025, the Company conducted three types of evaluations:

1) Self-assessment of the Board of Directors as a whole, used to evaluate the overall performance of the Board. The main assessment topics include the structure and qualifications of the Board, the roles, duties, and responsibilities of the Board, Board meetings, the performance of directors, and the relationship with management.

2) Self-assessment of each Board subcommittee, used to evaluate the overall performance of each subcommittee assigned by the Board of Directors. The main assessment topics include the structure and qualifications of the subcommittee, the roles, duties, and responsibilities of the subcommittee, and subcommittee meetings.

3) Individual evaluation of the Board of Directors and subcommittee members, used to assess the proper performance of individual directors. The main assessment topics include the structure and qualifications of the Board, the roles, duties, and responsibilities of the Board, and Board meetings. These evaluations serve as a framework for monitoring the performance of the Board of Directors and subcommittees to ensure alignment with approved corporate governance policies and/or best practices. This process aims to improve the performance of the Board of Directors and subcommittees in accordance with established policies and to review issues and obstacles encountered in the past year.

Detailed justification for the Company director's non-attendance at the Board of Directors' meeting

Remuneration of the board of directors

Types of remuneration of the board of directors

The determination of remuneration for the Company's Board of Directors shall be carried out by the Nomination and Remuneration Committee and proposed to the Board of Directors for approval before proposing to the shareholders for approval each year. The 2025 Annual General Meeting of Shareholders held on 22 April 2025, approved the remuneration for the Board of Directors by setting the payment of meeting attendance fees according to the position. The Chairman of the Board and the Chairman of the Sub-Committee are entitled to 20,000 Baht per meeting, and the Directors and Sub-Committee members are entitled to 15,000 Baht per meeting. Other forms of

remuneration, such as Director's bonuses, shall be allocated by the Chairman of the Board to each Director based on the Company's operating results. The total remuneration for the Company's Board of Directors and Sub-Committees for the year 2025 shall not exceed 2,000,000 Baht. In the case of Directors who receive a regular salary as executives, they will not be entitled to meeting attendance fees.

Remunerations or benefits pending payment to the board : 0.00

of directors over the past year

(Baht)

8.1.3 Supervision of subsidiaries and associated companies

Mechanism for overseeing subsidiaries and associated companies

Does the Company have subsidiaries and associated : Yes

companies

Mechanism for overseeing subsidiaries and associated : Yes

companies

Mechanism for overseeing management and taking : The appointment of representatives as directors,
responsibility for operations in subsidiaries and associated executives, or controlling persons in proportion to
companies approved by the board of directors shareholding, Disclosure of financial condition and
operating results, Transactions between the company
and related parties, Acquisition or disposal of assets,
Internal control system of the subsidiary operating
the core business is appropriate and sufficient in the
subsidiary operating the core business

The Board of Directors is responsible for the business management and operations of the Company, including the management of subsidiaries, in accordance with the Company's core business plan, as resolved by the shareholders in good faith, under the law, objectives, and regulations of the Company, including overseeing the Company, subsidiaries, and associated companies to comply with the rules of the Stock Exchange of Thailand. The Board of Directors' operations in overseeing, controlling, managing, and taking responsibility for the operations of the Company, subsidiaries, and associated companies have the following key points:

1. The Board of Directors has a policy to appoint representatives to serve as directors or executives in subsidiaries and associated companies to oversee the management of such companies in accordance with the Company's policies effectively and efficiently.
2. The Board of Directors regularly monitors the operations of subsidiaries or associated companies in which it has invested, including setting directions for persons appointed by the Company as directors or executives in such companies to comply with.
3. The Board of Directors oversees the business operations of subsidiaries and associated companies to comply with business policies, goals, operating plans, strategies, and budgets as approved.
4. The Board of Directors considers the organizational structure and management of subsidiaries and associated companies to be efficient and conducive to the business environment.
5. The Board of Directors considers and approves expenditures for investments or various operations, transactions, acquisitions or disposals of assets, borrowings or loan applications from financial institutions, lending, capital increases, capital reductions, company dissolutions that have a significant impact on the business operations of subsidiaries and associated companies.
6. The Audit Committee considers and reviews the accuracy and reliability of the financial statements, reviews the internal control system, internal audit, related party transactions, compliance with relevant laws and regulations, including overseeing the operations of subsidiaries and associated companies.
7. The Risk Management Committee considers and refines the risk management policies and guidelines of subsidiaries and associated companies.
8. The Board of Directors is committed to developing the management of subsidiaries and associated companies to have a good corporate governance and risk management system.
9. The Board of Directors will receive performance reports from subsidiaries and associated companies and will regularly review the performance to plan for future work and goals.

Disclosure of agreements between the company and shareholders in managing subsidiaries and associated companies

(Shareholders' agreement)

Currently, the company has related party transactions. In the future, the company may have additional related party transactions with directors, executives, or related persons. The company may enter into such transactions by considering the following policies: comparing prices and conditions prior to proceeding, and ensuring that the transactions have commercial terms similar to those that a reasonable person would agree to with an unrelated party in the same circumstances, with bargaining power free from the influence of their status as a director, executive, or related person. The Board of Directors has approved in principle the commercial terms and conditions for transactions between the company and related persons to serve as guidelines for future transactions.

8.1.4 The monitoring of compliance with corporate governance policy and guidelines

Prevention of conflicts of interest

Operations for conflict of interest prevention over the past year

Has the company operated in preventing conflicts of : No / In Progress
interest over the past year

The company has established a policy that the Board of Directors, executives, and employees must act in the best interests of the company. In the event that any person has a conflict of interest or is involved in a matter under consideration, such person must inform the internal audit unit responsible for such matters and refrain from participating in the consideration of such transaction. In the past year, the company has reviewed cases that may give rise to conflicts of interest, with the following conclusions:

1. Directors holding positions in the same business: There are no directors holding positions in the same business.
2. The Internal Audit Department has reviewed the company's transactions with trading partners with a transaction size of 10 million baht or more, totaling 3 transactions. It was found that none of these transactions involved the company's Board of Directors, executives, or employees.
3. To enhance corporate governance, in the past year, the company has reviewed the Business Ethics in the section on conflicts of interest by adding a section on the independence of the Board of Directors from management to ensure that it covers, prevents, and mitigates risks in this regard.

Number of cases or issues related to conflict of interest

Prevention of the use of inside information to seek benefits

Operations for prevention of the use of inside information to seek benefits over the past year

Has the company operated in preventing the use of inside : No / In Progress
information to seek benefits over the past year

The Company ensures that the use of inside information complies with the law and good corporate governance principles by setting it out in writing in the Good Corporate Governance Manual, which will be given to directors, executives, and employees upon joining the company. The key policies are summarized below.

1. The Company requires directors, executives, and employees to acknowledge the relevant announcements of the SEC Office, which require directors and executives to report changes in securities holdings to the SEC Office under Section 59 of the Securities and Exchange Act B.E. 2535 within 3 business days from the date of the change in securities holdings. The company also requires them to notify the company secretary to record the changes and summarize the securities of each director and executive, to be presented to the Board of Directors at the next meeting. In addition, the company also notifies them of penalties for violating or failing to comply with such regulations.

2. The Company prohibits the disclosure of financial information or other information that may affect the Company's securities prices to outsiders or unrelated persons. The company also prohibits trading in securities during the 1 month prior to the disclosure of financial information or other information that may affect the Company's/Group's securities prices to the public. The company also prohibits trading in the Company's securities until 24 hours have elapsed since the disclosure of such information to the public. Failure to comply with these regulations is considered a disciplinary offense of the Company. If any director, executive, or employee who has access to material inside information commits a disciplinary offense, they will be subject to penalties ranging from reprimands, salary deductions, suspension without pay, to termination.

These guidelines have been approved by the Board of Directors.

Number of cases or issues related to the use of inside information to seek benefits

| | 2023 | 2024 | 2025 |
|---|------|------|------|
| Total number of cases or issues related to the use of inside information to seek benefits (cases) | 0 | 0 | 0 |

Anti-corruption action

Operations in anti-corruption in the past year

Has the company operated in anti-corruption over the : No / In Progress
past year

Form of operations in anti-corruption : Review of appropriateness in anti-corruption, Assessment and identification of corruption risk, Communication and training for employees on anti-corruption policy and guidelines, The monitoring of the evaluation of compliance with the anti-corruption policy, Review of the completeness and adequacy of the process by the Audit Committee or auditor

The Company has established policies and procedures to combat fraud and corruption, as detailed in Section 6.2. The Board of Directors has assigned the Audit Committee to oversee the internal control system, and the management is responsible for raising awareness and communicating ethical conduct to all employees.

In the past year, the Company has reviewed the adequacy of its anti-corruption processes. The Audit Committee assigned the Internal Audit Department to conduct the review. The results of the review are as follows:

1. Document storage has been verified and validated.
2. Employees have fully complied with the operational manual.

| | 2023 | 2024 | 2025 |
|--|------|------|------|
| Total number of cases or issues received through whistleblowing channels (cases) | 0 | 0 | 0 |

The monitoring of compliance with other corporate governance policy and guidelines

The company places importance on good corporate governance. It has established policies and practices related to corporate governance policy and business ethics, and promotes their actual implementation to build confidence among all stakeholders. In the past year, the company has monitored the implementation of good corporate governance, covering the following areas:

- 1) Employee care and non-discrimination
- 2) Antitrust and fair competition
- 3) Environmental care, health, and safety in the organization
- 4) Information security

The follow-up results found that the company has fully implemented the guidelines for each issue.

8.2 Report on the results of duty performance of the audit committee in the past year

8.2.1 Meeting attendance of audit committee

| List of Directors | Meeting attendance of audit committee | | | Average percentage meeting attendance |
|--|---------------------------------------|---|----------------------------------|---------------------------------------|
| | Meeting attendance (times) | / | Meeting attendance right (times) | |
| 1. Mr. ANANT SIRISAENG TAKSIN (Chairman of the audit committee) | 4 | / | 4 | 4/4 (100.00%) |
| 2. Mr. PRAWAT SIRIPATRODOM (Member of the audit committee) | 4 | / | 4 | 4/4 (100.00%) |
| 3. Mrs. NARUMON KIMPAKORN (Member of the audit committee) | 4 | / | 4 | 4/4 (100.00%) |
| Average Attendance Rate | | | | 100.00% |

8.2.2 The results of duty performance of the audit committee

The Company's Audit Committee consists of 3 independent directors, as follows:

1. Mr. Anan Sirisangtaksin Chairman of the Audit Committee
2. Mr. Prawate Siriphattarodom Audit Committee Member
3. Mrs. Narumon Kimpakorn Audit Committee Member

The Audit Committee members are knowledgeable, have specific expertise, have qualifications that meet the requirements of the Securities and Exchange Commission and the Stock Exchange of Thailand, and are independent in performing their duties.

In 2025, the Audit Committee held 4 joint meetings with the company's auditors and 1 meeting without the company's executives. The results of the meetings were presented to the Board of Directors every time. The key points of the performance can be summarized as follows:

1. Consider the quarterly and annual financial statements that have been reviewed and audited by a certified auditor before presenting them to the Board of Directors and disclosing them to shareholders and the public. The Committee discussed with the auditors and took into account their comments on key issues to ensure compliance with accounting rules and standards and adequate disclosure of information in the financial statements to shareholders and the public. The Committee also increased its scrutiny of key audit matters, or KEY Audit Matters, as commented on by the certified auditor.
2. Review the disclosure of connected transactions and transactions that may involve conflicts of interest.
3. Review the adequacy of the company's internal control system, including recommending adequate internal control and asset control systems.
4. Consider, advise, and approve the annual audit plan proposed by the Internal Audit Department and/or the Internal Control System Audit Specialist (Outsource).

5. Review the performance and recommendations of the Internal Audit Department and/or the Internal Control System Audit Specialist (Outsource).
6. Review the performance of the auditor in the past year and make recommendations on the appointment of the auditor and the determination of the auditor's remuneration.
7. Consider and provide opinions on compliance with the Securities and Exchange Act, the Stock Exchange's regulations, or other laws related to the Company's business.

The Audit Committee is of the opinion that the company's financial statements have been reviewed and audited by certified auditors in accordance with generally accepted accounting and financial reporting standards, and that the financial information has been adequately disclosed. There is no reason to believe that the financial statements are materially misstated. In addition, the Audit Committee has approved the nomination of the certified auditor, AST Master Co., Ltd., as the company's auditor and subsidiaries for the year 2025, with a remuneration of 1,840,000 baht per year.

The results of duty performance of Executive Committee

In 2025, the Executive Committee performed its duties within the scope of responsibilities as stipulated in the Executive Committee Charter, as approved by the Board of Directors. A total of 12 meetings were held during the year, and the results of these meetings were reported to the Board of Directors. Key matters considered by the Executive Committee can be summarized as follows:

- Reviewed the operational plans and budgets of the Company and its subsidiaries for submission to the Board of Directors for approval, and continuously monitored management performance to ensure alignment with the approved plans and budgets.
- Monitored the implementation of policies and management guidelines in various areas, including the utilization of the Company's budget, to ensure compliance with the mandates of the Board of Directors and the established operational plans.
- Considered project implementations, investments, or other transactions conducted in the ordinary course of the Company's business within the limits or budgets approved by the Board of Directors and in accordance with the delegated authority.
- Reviewed and monitored the Company's performance on a quarterly basis, covering both operational and financial aspects.
- Reviewed the Executive Committee Charter and concluded that the current charter remains adequate and consistent with the Committee's responsibilities, as well as with relevant policies and guidelines.
- Performed other duties as assigned by the Board of Directors from time to time.

The results of duty performance of Nomination and Remuneration Committee

In 2025, the Nomination and Remuneration Committee performed its duties and responsibilities as stipulated in the Nomination and Remuneration Committee Charter, exercising its knowledge, capability, prudence, and careful consideration. The Committee also provided opinions and recommendations during the meetings of the Nomination and Remuneration Committee. In 2025, the Committee held 1 meeting. The Committee considered that the number of meetings held was appropriate for the current business environment. The key matters performed during 2025 can be summarized as follows:

1. Considered and proposed the appointment of directors to replace those whose terms expired in 2025. The proposal was submitted to the Board of Directors for consideration and for further submission to the shareholders' meeting for approval in accordance with the Company's Articles of Association.
2. Considered and determined the directors' remuneration for 2025 and proposed it to the Board of Directors for submission to the shareholders' meeting for approval. Directors and subcommittee members receive annual remuneration in the form of meeting allowances paid per meeting. The Chairman of the Board/Chairman of subcommittees receives a meeting allowance of Baht 20,000 per meeting, while directors/subcommittee members receive Baht 15,000 per meeting, with the total remuneration not exceeding Baht 2,000,000 per year.
3. Considered and determined the remuneration for the Managing Director for 2025, consisting of salary, position allowance, professional license fee, bonus, and benefits, with a total not exceeding Baht 3,729,000 per year.

9. Internal control and related party transactions

9.1 Internal control

Summary of the opinion of the board of directors regarding the internal control of the company

The Board of Directors approves the internal control adequacy assessment report. The assessment utilizes the Internal Control Adequacy Assessment Form, encompassing risk management, and aligns with the Internal Control - Integrated Framework issued by The Committee of Sponsoring Organizations of the Treadway Commission (COSO). This framework guides the company's internal control adequacy evaluation and comprises five essential internal control components:

- (1) Control Environment
- (2) Risk Assessment
- (3) Control Activities
- (4) Information & Communication and
- (5) Monitoring Activities

9.1.1 Adequacy and appropriateness of the company's internal control system

Company's internal control system : The Committee of Sponsoring Organizations of the Treadway Commission (COSO), COSO - Enterprise Risk Management Framework (ERM)

The Committee of Sponsoring Organizations of the Treadway Commission (COSO)

The 1st Board of Directors' Meeting 2026, held on February 21, 2026, with all 4 independent directors in attendance, the Board of Directors assessed the internal control system of the Company and its subsidiaries by inquiring information from the management. The Board approved the assessment form prepared by the management and the report of the Audit Committee. The Board concluded that, from the assessment of the internal control system of the Company and its subsidiaries in 5 aspects, namely, control environment, risk assessment, control activities, information and communication systems, and monitoring activities, the internal control system of the Company and its subsidiaries is adequate and appropriate. The Company and its subsidiaries have allocated sufficient personnel to operate the system effectively. The Company also has an internal control system to monitor and supervise the operations of its subsidiaries to prevent the assets of the Company and its subsidiaries from being misused or used without authority by the directors or management, including transactions with persons who may have conflicts of interest and related parties.

COSO - Enterprise Risk Management Framework (ERM)

The 1st Audit Committee Meeting 2025 held on February 22, 2025, with all 3 Audit Committee members in attendance, the Audit Committee approved the Company's and its subsidiaries' internal control report in accordance with the COSO - ERM framework, covering all 5 components: Control Environment, Risk Assessment, Control Activities, Information and Communication, and Monitoring and Evaluation. The Audit Committee is of the opinion that the Company's and its subsidiaries' internal control system is adequate and appropriate. The Company and its subsidiaries have allocated sufficient personnel to effectively implement the system. The Company also has an internal control system in place to monitor and oversee the operations of its subsidiaries to mitigate financial and operational risks, prevent fraud and errors, enhance the reliability of financial reporting, and appropriately improve the efficiency and effectiveness of work processes.

9.1.2 Deficiencies related to the internal control system

The Board of Directors is of the opinion that the Company and its subsidiaries have adequate and appropriate internal control systems, and there were no internal control deficiencies during the past year.

| | 2023 | 2024 | 2025 |
|---|------|------|------|
| Total number of deficiencies related to the internal control system (cases) | 0 | 0 | 0 |

9.1.3 Opinions of the audit committee and auditor's observations on internal control

Does the audit committee have opinions on internal : No
control different from the board of directors' opinions?

Does the auditor have any observations on the company's : No
internal control?

9.1.4 Opinions of the audit committee on the position of the head of the internal audit unit

Head of the internal audit unit : Internal personnel

The 1st Audit Committee Meeting 2022, held on February 26, 2022, Mrs.Nongluk Nounnunta was appointed as Head of Internal Audit, effective from February 26, 2022. This appointment stems from her 7 years of experience in internal audit practice and her participation in relevant training programs, including: Risk Management Training (Basic and Advanced) COSO ERM 2017 Batch 2/62, COSO 2013 Framework for Internal Control (Basic and Advanced) Batch 1/62, Internal Control and Risk Management Assessment for Each System Based on COSO 2013 ERM and Fraud, Internal Audit Management, Continuous Auditing, 21st Certified Internal Auditor (CIA) Program, and Integrated Internal Audit for Procurement and Accounts Payable. Her understanding of the company's business and operations makes her well-suited for this position. The appointment, removal, or transfer of the Head of Internal Audit requires approval or consent from the Audit Committee. The qualifications for the Head of Internal Audit are outlined in Appendix 3.

9.1.5 Appointment, discharge, and transfer of the head of the internal audit unit

Does the appointment, discharge, and transfer of the head : Yes
of the internal audit unit require the audit committee
approval?

The practice for the appointment, removal, and transfer of the Head of Internal Audit is as follows:

1. **Appointment** : The Audit Committee shall consider and approve the appointment of the Head of Internal Audit, taking into account appropriate qualifications such as internal audit competency, experience, and independence. The appointment must be in accordance with good corporate governance principles and demonstrate transparency and credibility in the performance of duties.

2. **Removal**: The Audit Committee may consider removing the Head of Internal Audit if it is found that the Head of Internal Audit is unable to perform their duties as expected or if there are reasons why they cannot hold the position, such as lack of competence, conflicts of interest, or inappropriate conduct. The removal must follow a transparent process and take into account fairness.

3. Transfer: The transfer of the Head of Internal Audit must be considered by the Audit Committee and must be based on the appropriateness of the organization and the required workload. The transfer must be carried out with caution and without affecting the independence of the Head of Internal Audit. The Audit Committee must ensure that the Head of Internal Audit in the new position will be able to perform their duties effectively and independently. These actions are aimed at ensuring that the internal audit function is independent and can operate effectively, free from influence from management or other interested parties.

9.2 Related party transactions

Related party transactions

Does the company have any related party transactions? : Yes

9.2.1 - 9.2.2 Names of the group of persons who may have a conflict of interest, nature of relationship, and information on related party transactions

Persons/entities with potential conflicts

| Name of person or entity/type of business | Nature of relationship | Information as of date |
|--|---|------------------------|
| 1. CRC Environmental Cure Co.,LTD. (CEC) Waste collection service | <p>1. The legal entity has shareholders holding a total of 67.90% of the registered capital, while the remaining 32.10% is divided as follows: 1) Mr. Kanchana Apinyawatcharakul holds 20.00% of the company's shares, and 2) Mr. Taweesak Nimapan holds 10.00%, with both being related to Mr. Chalernsak Nimapan, a shareholder of the company. 3) Mr. Pitchaya Suwansaya holds 2.10% of the company's shares and is related to Mr. Pattanapong Suwansaya, an executive of the company (previously a subsidiary, but later restructured to clarify it as a company within the shareholder group).</p> <p>2. | 3. Mr.Thirapat Chirapipat | | | |
| Transaction 1 <u>Nature of transaction</u> Creditors from investment in subsidiaries <u>Details</u> Mr. Thirapat Chirapipat sold 3,015 common shares of CEC to CRD at a price of 3,300 Baht per share, totaling 9.95 million Baht. CRD made a payment of 3.98 million Baht for the purchase of the investment in the subsidiary to the seller on February 18, 2021, leaving a balance of 5.97 million Baht, which was due for payment on December 30, 2021, December 30, 2022, and December 30, 2023, with equal installments. Subsequently, the company issued a letter on November 15, 2021, requesting an extension for the payment of the shares for installments 2-4. On December 1, 2022, the company requested to further extend the payment term for installments 2-4, along with a late payment penalty at an interest rate of 5% per annum, starting from January 30, 2022, except for the installment that has not yet reached its due date, until the full payment for each installment of the share purchase is made. The new payment schedule was adjusted as follows: Installment 2 to be paid on December 30, 2025; Installment 3 on December 30, 2026; and Installment 4 on December 30, 2027. <u>Necessity/reasonableness</u> | 5.97 | 5.97 | 0.00 |

| | 2023 | 2024 | 2025 |
| <p>Mr. Thirapat Chirapipat sold 3,015 common shares of CEC to CRD at a price of 3,300 Baht per share, totaling 9.95 million Baht. CRD made a payment of 3.98 million Baht for the purchase of the investment in the subsidiary to the seller on February 18, 2021, leaving a balance of 5.97 million Baht, which was due for payment on December 30, 2021, December 30, 2022, and December 30, 2023, with equal installments. Subsequently, the company issued a letter on November 15, 2021, requesting an extension for the payment of the shares for installments 2-4. On December 1, 2022, the company requested to further extend the payment term for installments 2-4, along with a late payment penalty at an interest rate of 5% per annum, starting from January 30, 2022, except for the installment that has not yet reached its due date, until the full payment for each installment of the share purchase is made. The new payment schedule was adjusted as follows: Installment 2 to be paid on December 30, 2025; Installment 3 on December 30, 2026; and Installment 4 on December 30, 2027.</p> <p><u>Necessity/reasonableness</u></p> <p>It was part of the group's restructuring efforts to eliminate potential conflicts of interest that might arise in the future regarding the waste management business. The sale price of the shares was deemed reasonable and close to the book value per share of CEC. This transaction is expected to generate additional returns from the investment, stemming from the net profit generated from the various ongoing projects of CEC that the company has already undertaken.</p> <p><u>Audit committee's opinion</u></p> <p>The 1st audit committee meeting of 2026, held on February 21, 2026, it was considered and concluded that the transaction was appropriate.</p> | | | |

9.2.3 Policy and future trends of related party transactions and the compliance with the obligations specified in the prospectus of the company

Measures and procedures for approving related party transactions or connected transactions

Measures and Procedures for Approving Related Party Transactions

In the case of related party transactions with individuals who may have potential conflicts of interest or stakeholders, or may have conflicts of interest in the future, the agreements will be in line with standard commercial practices, similar to agreements that a prudent person would make with a counterpart in a similar situation. This will be based on normal market conditions, free from influence, and without the involvement of any directors, executives, or related individuals. The conditions will be reasonable, verifiable, and will not lead to any transfer of benefits. The management of the company can proceed under the principles approved by the board of directors and must prepare a summary report to be presented to the Audit Committee every quarter.

For non-standard transactions, the company will seek the opinion of the Audit Committee regarding the necessity and appropriateness of the transaction. If the Audit Committee lacks expertise in evaluating related party transactions, an independent appraiser, specialist, or auditor will be appointed to provide an opinion to the Audit Committee, which will use this information to make a decision and provide their opinion to the board of directors or shareholders, as applicable, before the transaction takes place.

Future trends in related party transactions

Policy or Future Trends for Related Party Transactions

In the future, if the company needs to engage in related party transactions, it will establish terms in accordance with normal business practices and market prices that can be compared to terms or prices of similar businesses conducted with third parties. The Audit Committee will provide an opinion on the pricing, compensation rates, and the necessity and appropriateness of the related party transactions. If the Audit Committee lacks the expertise to evaluate the potential related party transaction, the company will appoint an independent appraiser, specialist, or the company's auditor to provide an opinion on the transaction, which will then be used by the Audit Committee to make a decision and give their opinion to the board of directors or shareholders, as necessary. The company will disclose related party transactions in the notes to the financial statements audited by the company's auditor. If the company's common shares are listed on the Market for Alternative Investment (MAI), it will disclose the related party transactions in the 56-1 One Report according to the Securities and Exchange Act and the regulations, announcements, orders, or requirements of the Stock Exchange of Thailand.

Future Related Party Transactions In the future, the company's directors must comply with the established regulations and will not participate in any transactions where they or any individuals may have a conflict of interest with the company. Such transactions must be disclosed to the board of directors for consideration. The company must ensure compliance with the Securities and Exchange Act, regulations, announcements, orders, or requirements of the Stock Exchange of Thailand, including the disclosure of related party transactions and in accordance with accounting standards set by the Accounting Profession Council. Additionally, the company will not engage in related party transactions that are outside the company's normal business operations.

9.2.4 Information on appraised assets and appraisal price in conjunction with the execution of related party transactions

Can be referred in attachment 4: assets for business undertaking and details of asset appraisal

Part 3 Financial Statement

Board of Directors' Responsibility Statement for the Financial Report

Board of Directors' Responsibility for the Financial Statements

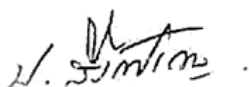

The Board of Directors is responsible for the separate financial statements and the consolidated financial statements of Chiangmai Rimdoi Public Company Limited and its subsidiaries, as well as the financial information presented in the Form 56-1 One Report. The financial statements for the year ended December 31, 2025 have been prepared in accordance with Thai Financial Reporting Standards (TFRS). Appropriate accounting policies have been adopted and applied consistently. Judgments have been exercised prudently, and reasonable estimates have been made in the preparation of the financial statements. In addition, adequate disclosures of significant information have been included in the notes to the financial statements in order to present fairly the financial position, operating results, and cash flows of the Company, for the benefit of shareholders and other stakeholders.

The financial statements have been audited by the independent auditor from AST Master Company Limited, who has expressed an independent opinion that the financial statements present fairly, in all material respects, the financial position, financial performance, and cash flows in accordance with Thai Financial Reporting Standards. The Company has provided full cooperation and all necessary information and documentation to the auditor to facilitate the audit in accordance with the auditing standards.

The Board of Directors recognizes the importance of good corporate governance and has therefore established and maintained appropriate and effective risk management systems, internal control systems, and internal audit functions to ensure that the accounting records and financial reporting of the Company are accurate, complete, and adequate for safeguarding the Company's assets, as well as preventing and detecting fraud or irregularities that may materially affect the Company.

The Board of Directors has appointed the Audit Committee, which consists entirely of independent directors, to oversee and review the appropriateness of accounting policies, the quality of financial reporting, the internal control system, the internal audit function, and the risk management system. The Audit Committee also reviews the disclosure of related party transactions to ensure that such disclosures are complete, transparent, and in compliance with the relevant regulations. The opinion of the Audit Committee is presented in the Audit Committee Report included in the Form 56-1 One Report.

The Board of Directors is of the opinion that the Company's overall internal control system is adequate and appropriate and can provide reasonable assurance that the separate financial statements and consolidated financial statements of Chiangmai Rimdoi Public Company Limited and its subsidiaries for the year ended December 31, 2025 are reliable and prepared in accordance with generally accepted accounting principles and applicable laws and regulations.

Chiangmai Rimdoi Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of **Chiangmai Rimdoi Public Company Limited and its subsidiaries** ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2025, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, comprising information of material accounting policies and other explanatory information, and have also audited the separate financial statements of **Chiangmai Rimdoi Public Company Limited** for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position as at 31 December 2025, their financial performance and cash flows for the year then ended of **Chiangmai Rimdoi Public Company Limited and its subsidiaries** and separate of **Chiangmai Rimdoi Public Company Limited** in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matter is the matter that, in my professional judgement, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

Key audit matter and how audit procedures respond for each matter are described below.

Nor

Revenues from construction services

The Company recognized its revenue from construction contract, which is performance obligation satisfied over time of performance construction by measuring the progress towards complete satisfaction of that performance obligation which is based on input method. This method measures the progress of performance construction based on the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. I focused on this area because the recognition of revenue on construction contracts involved significant judgement and assumption in estimating the progress of construction service.

My procedures in relation to management's assessment of revenue recognition of those contracts included:

- Understood and assessed the estimated total contract cost prepared by management, in particular, the key assumptions including the expected recovery, and the historical financial performance and forecast out-turn against budget of other contracts of a similar nature and size. Tested internal controls over the budgeting process relating to the estimated total contract costs and revisions thereto and verified estimated costs by interviewing the project engineer and random inspecting the supporting evidences;
- Tested the internal controls over revenue and receivable cycle and purchase and payable cycle for projects;
- Inspected client acceptance certificates, correspondence and minutes of meetings with customers. Inspected selected signed contracts for key clauses to identify relevant contractual mechanisms such as variations to the contract requested by the customer, sharing of cost overruns or efficiencies with the customer, contractual damages and success fees and assessed whether these key clauses were appropriately reflected in the amounts included in the forecasts;
- Compared gross profit from the start of projects up to now for analysis and assessment for the appropriateness of estimated costs;
- Performed site visit for significant projects, inquired the progress of projects from engineers and compared and assessed the appropriateness of the progress of construction projects for comparison with the progress measuring using input method.
- Checked actual costs against supporting documents, tested the calculation of the progress of work based on actual construction costs incurred, and compared the progress as evaluated by the project engineer to the progress based on actual construction costs incurred.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matter. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Financial Statements

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2025

1. GENERAL INFORMATION

Chiangmai Rimdoi Public Company Limited operates its business in Thailand. The main business are construction services and solid waste disposal service business. The major shareholders are the Chirapipat family. The registered office of the Company is at 164/34-36 Changklan Rd., Changklan, Muang, Chiangmai.

The Company was listed on the Stock Exchange of Thailand on 5 October 2017 and the Company's stocks were traded on the MAI (Market for Alternative Investment).

As at 31 December 2025, the Group has deficit balances in consolidated and separate statements of financial position, which are Baht 48.2 million and Baht 57.7 million, respectively (2024: deficit balances in consolidated and separate statements of financial position were Baht 97.1 million and Baht 117.8 million, respectively). This is caused by the economic slowdown in Thailand, a decrease in construction projects, and high competition in the construction industry, which directly impact the Company's profitability. However, the Company has continued to bid on projects that the Company has expertise in and can control in order to generate the appropriate income. Additionally, the Company has expanded to a solid waste disposal service business to increase sales and profit in the future. The management believes that the Group is capable of repaying short-term and long-term borrowing from financial institutions by the due date. Therefore, the financial statements have been prepared on a going-concern basis.

2. BASIS FOR FINANCIAL STATEMENTS PREPARATION

The financial statements are prepared in accordance with Thai Financial Reporting Standards (TFRSs) and guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission.

The preparation of financial statements in conformity with Thai generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses in the reported periods. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

The Group's financial statements are presented in Thai Baht, which is also the functional currency of the Group. All financial information presented in Thai Baht has been rounded in the notes to the financial statements unless otherwise stated.

The consolidated and separate financial statements have been prepared on the basis that the Group will continue to operate going concern by the historical cost convention except for the revaluation of certain assets and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period as disclosed in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and service at transaction date.

The consolidated financial statements include the financial statements of Chiangmai Rimdoi Public Company Limited ("the Company") and the following subsidiary companies ("the subsidiaries") (collectively as "the Group"):

| Name of entity | Nature of business | Country of incorporation | Percentage of shareholding of ordinary shares | |
|--|--|--------------------------|---|------|
| | | | 2025 | 2024 |
| <u>Subsidiaries directly held by the Company</u> | | | (%) | (%) |
| CRC Environment cure Co., Ltd. | Solid waste disposal | Thailand | 70 | 70 |
| CRDProperty Co., Ltd. (Formerly named " Chiangmai CRD Co., Ltd.") | Construction services and general services | Thailand | 100 | 100 |

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

The Company is deemed to have control over an investee or subsidiary if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.

Subsidiary is fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.

The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.

Material balances and transactions between the Group have been eliminated from the consolidated financial statements.

Non-controlling interests represent the portion of profit or loss and net assets of the subsidiary that is not held by the Company and are presented separately in the comprehensive income and within equity in the consolidated statement of financial position.

The Company has joint arrangements which assessed as joint operations between the Company and other joint operators. The Company recognise its shares of assets, liabilities, revenues and expenses of the joint operation, in proportion to its interest, to the separate financial statements. The details are as follows:

| Name of entity | Nature of business | Country of incorporation | Interest in joint operations |
|--|-----------------------|--------------------------|------------------------------|
| Joint Venture Chiangmai Rimdoi - R.K.J. (Registered dissolution on 18 December 2023 and the liquidation process was completed on 28 October 2025 (Note 12)) | Construction services | Thailand | 60% |

The separate financial statements present investments in subsidiary and a joint venture under the cost method net of allowance for impairment loss (if any).

For the convenience of the user, an English translation of the consolidated and separate financial statements has been prepared from the financial statements that are issued in the Thai language.

3. NEW FINANCIAL REPORTING STANDARDS

3.1 Financial reporting standards that became effective in the current year.

During current year, the Group has adopted several revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2025, onwards. The adoption of these standards does not have any significant impact on the Group's financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2026.

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2026, onwards. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards making financial reporting standards clearer and more appropriate.

The Group's management believe that the amended financial reporting standards shall not have significant impacts to the Group.

4. MATERIAL ACCOUNTING POLICIES INFORMATION

The principal accounting policies adopted in the preparation of these financial statements are set out below;

4.1 Cash and cash equivalents

Cash and cash equivalents consist of cash and deposits at bank and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

Deposits at financial institutions that are restricted in use are presented as “Fixed deposits pledged as collateral” as part of other non-current assets in the statement of financial position.

4.2 Supplies

Supplies are stated at the lower of cost or net realizable value. Cost is determined by the weighted average method. The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the supplies, such as import duties and transportation charges, less all attributable discounts. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), but excludes borrowing costs. Net realisable value is the estimate of the selling price in the ordinary course of business, less the costs of completion and selling expenses. Allowance is made, where necessary, for obsolete, slow moving and defective inventories.

4.3 Construction contracts

A Construction contract is a contract specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated and functions or their ultimate purpose or use.

The Company recognizes revenue from construction contracts over time only if the Company can reasonably measure its progress towards complete satisfaction of the construction performance obligation. In the case that the Company is unable to reasonably measure the outcome of a construction performance, but the Company expects to recover the costs incurred in satisfying the performance obligation. The Company recognise revenue only to the extent of the costs incurred until such time that it can reasonably measure the outcome of the performance obligation.

Measuring progress has been determined using input method which is calculated as a proportion of the actual completed construction costs to total budget costs.

When it is probable that total construction costs will exceed total construction revenue, the expected loss is recognised as an expense immediately.

When measuring progress, the Company excludes from the measure of progress any goods or services for which the Company does not transfer control to a customer. Conversely, the Company includes in the measure of progress any goods or services for which the Company transfers control to a customer when satisfying that performance obligation.

The Company’s construction contracts typically are fixed price which payments from customers are based on a billing schedule as established in each contract. Therefore, the Company recognizes trade receivables when the Company has the right to receive payments according to such billing schedule indicated in the contracts.

Contract assets represent the Company’s right to consideration in exchange for goods or services that the Company has transferred to a customer which determined by costs incurred plus recognised profits (less recognised losses) exceed progress billings and presented as unbilled receivables.

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

Contract liabilities represent the Company's obligation to transfer goods or services to a customer for which the Company has received consideration (or the amount is due) from the customer. A contract liability is recognised when the Company receives or has an unconditional right to receive non-refundable consideration from the customer before the Company recognises the related revenue. The Company's contract liabilities consists of construction revenue received in advance which is determined as progress billings exceed costs incurred plus recognised profits (less recognised losses) and advance received from employers which is the amount received before the related work is performed and will gradually be settle net with the payments of progress billing from customers.

4.4 Investment in subsidiaries and a joint venture

Investments in joint ventures as presented in the consolidated financial statements is accounted for using the equity method.

Investment in subsidiaries and a joint venture is accounted for in the separate financial statements using the cost method, less allowance for loss on impairment of investments (if any).

4.5 Investment property - land

The Group are measured initially investment properties at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Any gains or losses arising from changes in the value of investment properties are recognised in profit or loss when incurred.

On disposal of investment properties, the difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period when the asset is derecognised.

4.6 Property, plant and equipment

Land is stated at revalued amount. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Land is initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to their fair values. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Differences arising from the revaluation are dealt with in the financial statements as follows:

When an asset's carrying amount is increased as a result of a revaluation of the Company's and its subsidiaries' assets, the increase is credited directly to the other comprehensive income and the cumulative increase is recognized in equity under the heading of "Revaluation surplus". However, a revaluation increase is recognised as income to the extent that it reverses a revaluation decrease in respect of the same asset previously recognised as an expense.

When an asset's carrying amount is decreased as a result of a revaluation of the Company's and its subsidiaries' assets, the decrease is recognised in profit or loss. However, the revaluation decrease is charged to the other comprehensive income to the extent that it does not exceed an amount already held in "Revaluation surplus" in respect of the same asset.

Depreciation of plant and equipment are calculated on the straight-line method over their estimated useful life, as follows:

| | Years |
|------------------------------|-------|
| Buildings and improvement | 5-20 |
| Machinery and equipments | 5 |
| Fixtures & Office equipments | 5 |
| Vehicles | 5-10 |

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

Repairs and maintenance are charged in profit or loss during the financial period in which they are incurred. The cost of the replacement part is included in the carrying amount of the asset is depreciated over the remaining useful life of the related asset.

When assets are sold or retired, the Group will eliminate their costs and accumulated depreciation from the accounts and recognize any gain or loss resulting from their disposal in the statement of comprehensive income.

Assets under installation are stated at cost. These assets are not depreciated until such time as the relevant assets are completed and ready for their intended operational use.

4.7 Leases

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised through initial measurement, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

Unless the Group is reasonably certain that it will obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Depreciation of right-of-use assets are calculated by reference to their costs on a straight-line basis over the shorter of their estimated useful lives and the lease term. If ownership of the leased asset is transferred to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Depreciation of right-of-use assets are as follows:

| | Years |
|-----------|-------|
| Land | 4-5 |
| Buildings | 3 |
| Equipment | 5 |
| Vehicles | 5 |

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of the lease payments to be made over the lease term, discounted by the interest rate implicit in the lease or the Company's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or reassessment.

Short-term leases and Leases of low-value assets

Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognised as expenses on a straight-line basis over the lease term.

4.8 Intangible asset

Intangible asset is right to use a computer program that looks at a specific purchase recorded as an asset when the cost of acquisition and action to a particular computer program used accompanied by a request. It is amortized using the straight-line method over the estimated useful life of 3-5 years.

4.9 Impairment of land, building and equipment and intangible assets

The Group reviewed the impairment of land, building and equipment and intangible assets whenever events or changes in circumstances indicate that the recoverable amount of assets is below the carrying amount. the Group recognizes the impairment losses and a reversal of impairment loss is recognized as income when there is an indication that the expected recoverable amount is higher than the amount recognized provided that such a reversal should not exceed the carrying amount that would have been determined (net of amortization and depreciation) had no impairment loss been recognized for the asset in prior periods.

4.10 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognized as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group contributions are recognized as expenses when the employee have rendered service to the Group during the year.

Defined benefit plans

The Group have obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group and its subsidiaries treat these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the Projected Unit Credit method.

Actuarial gains or losses arising from the defined benefit plans are recognized immediately in other comprehensive income that will not be reclassified.

4.11 Revenue and expense recognition

Revenues from construction services

For construction contract, which mutually agreed before commencing related work, the customer controls assets under construction as which the Company's performance creates. Therefore, revenues have been recognized over time of construction using input method (Note 4.3) for measuring progress of construction. This method measures construction progress as a proportion of the actual completed construction costs to total budget costs. The Company determines that input method is able to reasonably depict The Group's performance in transferring control of goods or services promised to a customer.

Revenue from rendering services

The Group recognizes revenue from solid waste disposal service throughout the service period as the customers simultaneously receive and consume the benefits as the Group provides the services and the Group has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the Group's performance completed to date. Therefore, the Group recognizes revenue in the amount to which the Group has a right to invoice.

Other income and expense is recognised on the accrual basis.

Interest income is recognised on an accrual basis based on the effective interest rate.

Dividends are recognised when the right to receive the dividends is established.

4.12 Income tax

Income tax expense represents the sum of current income tax and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognizes deferred tax liabilities for all taxable temporary differences while they recognize deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilized.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

The Group records deferred tax directly to comprehensive income and shareholders' equity if the tax relates to items that are recorded directly to comprehensive income and shareholders' equity.

4.13 Basic earnings per share

Basic earnings per share are computed by dividing profit for the year by the weighted average number of common shares during the years.

4.14 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, and fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

Classification and measurement of financial liabilities

Except for derivative liabilities, at initial recognition the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Impairment of financial assets

For trade receivables and contract assets, the Group applies a simplified and recognises a loss allowance based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.15 Derivatives

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value at the reporting date. The subsequent changes are recognised in profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

4.16 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

4.17 Critical accounting estimates and assumption

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

Allowance for expected credit losses of trade receivables and contract assets

In determining an allowance for expected credit losses of trade receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

Joint arrangements

The Management applied judgement to determine the type of joint arrangement, based on consideration of the rights and obligations arising from the arrangement including the conditions for receiving returns under the share purchase agreement. On this basis, the management of the Company determined that the Company has 1 investments in joint venture agreements that are joint operations between the Company and other joint operators in accordance with TFRS 11.

Investment property - land

The Group present investment property - land at the fair value estimated by an independent appraiser, and recognises changes in the fair value in profit or loss. The independent valuer using the market approach for land. The valuation involves certain assumptions and estimates.

Property plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the Group's plant and equipment and to review estimate useful lives and residual values when there are any changes.

The Group measure land at revalued amounts. Such amounts are determined by the independent valuer using the market approach for land. The valuation involves certain assumptions and estimates.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Revenue from contracts with customers

Identification of performance obligations

In identifying performance obligations to transfer goods or services to a customer, the management is required to use judgement regarding whether each promise to deliver goods or services is considered distinct, taking into consideration terms and conditions of the arrangement. In other words, if a good or service is separately identifiable from other promises in the contract and if the customer can benefit from it, it is accounted for separately.

Determination of timing of revenue recognition

In determining the timing of revenue recognition, the management is required to use judgement regarding whether performance obligations are satisfied over time or at a point in time, taking into consideration terms and conditions of the arrangement. The Group recognises revenue over time if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by The Group's performance as The Group performs
- The Group's performance creates an asset that the customer controls as the asset is created; or

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

- The Group's performance does not create an asset with an alternative use to The Group and The Group has an enforceable right to payment for performance completed to date

Where the above criteria are not met, The Group recognizes revenue at a point in time, the management is required to use judgement when the performance obligation under the contract is satisfied.

In calculating the revenue recognised over time, the management is required to use judgement regarding measuring progress towards complete satisfaction of a performance obligation, measuring based on a proportion of the actual completed construction costs to total budget costs.

Estimated of construction project costs

The Group estimate costs of construction projects based on details of the construction work, taking into account the volume and value of construction materials to be used in the project, including labour costs, construction overheads, other direct costs and indirect systematically allocated costs to be incurred to completion of construction, taking into account the direction of the movement in these costs. Estimates are reviewed regularly when there is change in scope of work or whenever actual costs differ significantly from the figures used in the original estimate.

Provision for losses on construction projects

Management applied judgement in estimating the loss they expect to be realised on each construction project, based on estimates of anticipated costs that take into account the progress of the project and actual costs incurred to date, together with fluctuations in costs of construction materials, labour and the current situation.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

4.18 Related person and companies

Persons and companies that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprise, key management personal, including directors and officers of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

As at 31 December 2025, the Company is involved in a dispute concerning the breach of delivery conditions with a trade debtor. The carrying amount of this debtor is Baht 55.5 million (2024: Baht 55.5 million) and is classified as past due for over 12 months. Additionally, there is unbilled revenue of Baht 9.1 million (2024: Baht 9.1 million) (Note 8). The debtor has claimed a penalty for the breach by deducting Baht 51.8 million from the amount payable to the Company (2024: Baht 51.8 million). However, the Company's management believes that they have adhered to the contract terms and expect to collect the full amount owed. Therefore, no provision for potential liabilities has been recorded in the financial statements (Note 33.2).

As at 31 December 2025, the Company has a dispute related to the breach of contract terms for payment with a second customer, with a carrying amount of Baht 3.1 million (2024: Baht 3.1 million), classified as past due for more than 12 months, and unbilled revenue of Baht 4.1 million (2024: Baht 4.1 million) (Note 8). The Company filed a dispute (Note 33.3). However, the statement of financial position as at 31 December 2025, management considered an expected credit loss allowance for the trade receivable and unbilled revenue amounting to Baht 0.7 million and estimated repair costs and potential compensation of Baht 4.2 million (2024: an expected credit loss allowance for the trade receivable and unbilled revenue of Baht 0.7 million and estimated repair costs and potential compensation of Baht 4.2 million).

As at 31 December 2025 and 2024, the Group has recognized a loss allowance of 100% against all receivables over 1 year past due excluding above debtors who filed a dispute because historical experience has indicated that these receivables are generally not recoverable, except the large government and private project receivables and the dispute receivable as mentioned above.

For large public and private project receivables, the Group considers the allowance for lifetime expected credit losses based on the Group's historical experience, analysis of current receivables' and analysis of current general economic conditions. Management determines that the Group has no significant credit losses arising from the large public and private project receivables.

For other trade receivables which overdue not more than 1 year as at 31 December 2025 and 2024, the Group determines lifetime expected credit loss using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position. Management does not record the expected credit losses calculated from such provision matrix because it has not material to the financial statements.

As at 31 December 2025, the carrying amounts of the trade receivables included trade accounts receivable which are subject to a factoring arrangement for project construction of Baht 4.3 million (2024 : None), which has been pledged for credit facilities from financial institutions in Note 16. However, the Company has retained the obligation to repay the debt, the Company, therefore, continues to recognize these receivables. The Company considers that the held to collect business model remains appropriate for these receivables and hence continues measuring them at amortized cost.

8. UNBILLED RECEIVABLES /ADVANCES RECEIVED FROM EMPLOYERS AND CONSTRUCTION REVENUE RECEIVED IN ADVANCE

| | In Baht | |
|--|--|------------------------|
| | Consolidated and Separate financial statements | |

During the year 2020, the Joint Venture has estimated compensation to be paid in the amount of Baht 20.2 million. This case is currently in the process of submitting the matter by the employer relating to the inflation rate used to calculate the contractual service incurred from 2015 to 2020 with the relevant government agency. The result of this matter is not yet known. However, the Joint Venture's management has estimated the damage that may be incurred and recognised in profit and loss for the year 2020. During 2010 - 2022, the employer also informed the Joint Venture to pay compensation in the amount of Baht 20.2 million. The employer notified the commercial bank and issued a Letter of Guarantee to pay such an amount. The commercial bank made the payment to the employer in February 2023. The Commercial Bank allows the Joint Venture to repay the principal and interest every month within 48 months at the interest rate of MLR-1 percent of the rest of the Company. The Joint Venture recorded the transaction as a long-term loan, which was guaranteed by Chiangmai Rimdoi Public Company Limited, mortgage of the land of the Company, and guaranteed by the Company. Chiangmai Rimdoi Public Company and Director of the Joint Venture.

The joint venture filed a lawsuit with the Administrative Court to consider the dispute regarding the administrative contract. On 11 October 2023, the joint venture submitted a request to amend the supplementary complaint and filed objections to testimony in the Administrative Court regarding a dispute related to the administrative contract.

Subsequently, on 31 July 2024, the Chiang Mai Municipality notified the refund of the contract guarantee the amount of Baht 20.2 million with interest at the rate of 5 percent per year for 484 days, the amount of Baht 1.3 million, a total of contract guarantee and interest that must be refunded to the Joint venture the amount of Baht 21.5 million. The Joint Venture has sent an acceptance letter dated 5 August 2024, considered and accepted the amount offered by the Chiang Mai City Municipality. After the Chiang Mai Municipality has fully refunded the cash to the joint venture, the Joint Venture will submit a request to withdraw the lawsuit in the Chiang Mai Administrative Court. The Chiang Mai Municipality has fully refunded the money to the joint venture on 16 August 2024. The Company has filed a request to withdraw the complaint, and the Administrative Court ordered the withdrawal of the complaint and additional complaints and remove the case from the registry along with returning all court fees to both plaintiffs on 4 September 2024. The Joint Venture recognized the refund of the contract guarantee and interest income in the account "Revenue from refund of the contract guarantee" amounting to Baht 21.5 million in the statement of income for the year ended 31 December 2024.

As at 31 December 2025, certain assets items of the Group have been fully depreciated. The gross carrying amount before deducting accumulated depreciation of those assets amounted to Baht 78.9 million (2024: Baht 77.7 million) (Separate: Baht 68.5 million (2024: Baht 68.3 million)).

As at 31 December 2025, land building and vehicles of the Group, with net book value amounting to Baht 274.0 million (2024: Baht 328.4 million) (Separate: 274.0 million (2024: 328.4 million)) are mortgaged as collateral for overdraft and short-term loans facilities (Note 16) long-term loans facilities (Note 20).

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

During the year 2024, the Company arranged for an independent professional valuer to reappraise the value of its land. The revaluations were conducted on 5 July 2024, using the sale comparison approach, the results of which showed an increase in the net book value of the land of Baht 181.5 million. The Company recorded the resulting revaluation increase in other comprehensive income and the cumulative increase is recognised as the “Revaluation surplus on assets” in the shareholders’ equity. As at 31 December 2025, the Company’s management believes that the fair values do not have any significant changes.

Revaluation surplus on assets

Revaluation surplus on assets is the surplus from land appraisal as of 31 December 2025 and 2024, as follows :

| | In Baht |
|--------------------------------------|---------------------|
| Revaluation surplus on assets | 181,532,197 |
| <u>Less</u> Deferred tax liabilities | <u>(36,306,440)</u> |
| Net book value | <u>145,225,757</u> |

The revaluation surplus on assets of such assets cannot be deducted from accumulated losses and not available for dividend distribution.

15. RIGHT-OF-USE ASSETS

Movements of the right-of-use assets in the consolidated and separate financial statements for the years ended 31 December 2025 and 2024 are summarised below.

32. Memorandum of Understanding

In 2025, the Company entered into an agreement with a business partner to conduct a feasibility study for a potential joint investment project. Under the agreement, the Company is required to place a deposit of Baht 9.0 million as a guarantee for the use of the partner's information in assessing the investment feasibility. The parties agreed that such deposit shall be considered as part of the investment amount should the joint investment materialize.

As at 31 December 2025, the feasibility study is still in progress and no investment decision has been made. Accordingly, the Company has recorded the amount as a long-term deposit in the statement of financial position. In the event that the joint investment does not take place, the Company is entitled to a refund of the deposit in accordance with the terms of the agreement.

33. DISPUTE TOPIC AND LITIGATION

As at 31 December 2025, dispute topic and litigation are as follows:

- 33.1** During 2025, the Company received a memorandum of allegation from a government agency regarding its involvement in wrongdoing during 2014. The Company exercised its right to object and made a memorandum explaining the allegation. On September 22, 2025, the relevant government agency informed the Company of its decision that the Company had not committed any wrongdoing as alleged, and that the allegations were groundless and therefore dismissed.
- 33.2** As at 31 December 2025, the Company is involved in a dispute concerning the breach of delivery conditions with a trade debtor. The carrying amount of this debtor is Baht 55.5 million (2024: Baht 55.5 million) (Note 7). Additionally, there is unbilled revenue of Baht 9.1 million (2024: Baht 9.1 million) (Note 8). The debtor has claimed a penalty for the breach by deducting Baht 51.8 million from the amount payable to the Company (2024: Baht 51.8 million). However, the Company's management believes that they have adhered to the contract terms and expect to collect the full amount owed. Therefore, no provision for potential liabilities has been recorded in the financial statements. Subsequently, on 22 February 2024, the arbitration tribunal issued a ruling under dispute case number 11/2024, with an amended ruling on 26 March 2024, ordering the customer (the respondent) to pay outstanding receivable, refund performance guarantees, and work-related expenses totaling Baht 114.1 million, plus interest at a rate of 5% per annum starting from 30 days after the ruling date. The Company submitted an enforcement request for the arbitration ruling on 19 June 2024, while the customer (the respondent) filed a request to revoke the ruling on the same day. The Company submitted an objection to the annulment request on 8 August 2024. The Civil Court heard both parties' petitions on 26 August 2024. The Civil Court heard both parties' petitions on 26 August 2024. Then, the Civil Court scheduled a witness examination hearing in the case where the Company seeks to enforce the arbitral award. Subsequently, on 29 April 2025, the court temporarily dismissed the case in which the company sought to enforce the interim arbitral award, in order to await the outcome of the case in which the customer filed for the annulment of the said award. Witness hearings in that case are scheduled for 14 - 15 August 2025. On 14 October 2025, the Court rendered a judgment dismissing the case in which the customer

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

sought to set aside the arbitral award. Subsequently, on 17 November 2025, the Court ordered that the case for enforcement of the arbitral award be reinstated for further consideration. However, the customer informed the Court of its intention to file an appeal against the judgment of the Court of First Instance in the case seeking to set aside the arbitral award and therefore requested that the Court dismiss or postpone the proceedings in this case. The Court considered that the decision of the Supreme Court in the appeal of the case seeking to set aside the arbitral award may be binding on and final with respect to this case. Accordingly, the Court ordered a case management conference to await the outcome of the Supreme Court's consideration and scheduled the witness examination hearing in the enforcement of the arbitral award case for 1 July 2026.

- 33.3** As at 31 December 2025, the Company has a dispute related to the breach of contract terms for payment with a second customer, with a carrying amount of Baht 3.1 million (2024: Baht 3.1 million) (Note 7), and unbilled revenue of Baht 4.1 million (2024: Baht 4.1 million) (Note 8). The Company filed a dispute on 28 June 2024, requesting the arbitration tribunal to order the customer to pay outstanding wages and additional work fees totaling Baht 7.0 million, plus interest at a rate of 5% per annum from the due date of each invoice until the dispute filing date, amounting to total interest of Baht 0.2 million, bringing the total claim to Baht 7.2 million, with additional interest at 5% per annum on the principal amount of Baht 7.0 million from the dispute filing date until payment is made in full. On 19 September 2024, the customer filed objections and counterclaims for repair costs of Baht 7.8 million and compensation for lost opportunities of Baht 6.4 million, totaling Baht 14.2 million. The customer exercised the right to offset work fees under the main contract and additional work of Baht 8.7 million, leaving a remaining claim of 5.5 million Baht with interest at 5% per annum from the counterclaim filing date until full payment. On 17 September 2025, the Arbitral Tribunal rendered an award in Red Case No. 46/2025, ordering the client (the respondent) to pay the Company service fees in the amount of Baht 7.0 million, together with interest at the rate of 5 percent per annum on the principal amount under each invoice until the date of submission of the statement of claim, representing a total interest amount of Baht 0.2 million. The total sum payable is therefore Baht 7.2 million, plus interest at the rate of 5 percent per annum on the principal amount of Baht 7.0 million (comprising service fees and additional work fees) from the date of submission of the statement of claim until full payment is made to the Company. The Company was also ordered to pay the client Baht 0.3 million (inclusive of value added tax), together with interest at the rate of 5 percent per annum on the said principal amount from the date of submission of the counterclaim until full payment is made. The amount payable by the Company to the client shall be deducted from the amount the Company is entitled to receive from the client under the arbitral award. On 7 October 2025, the Company issued a letter, requesting payment pursuant to the arbitral award rendered by the Arbitral Tribunal. Subsequently, the Company filed a petition for enforcement of the arbitral award on 18 November 2025. The customer (the objector) filed a petition seeking to set aside the arbitral award on 23 December 2025. On 2 February 2026, the Civil Court scheduled a hearing on the petition to set aside the arbitral award for 9 March 2026 and scheduled the witness examination hearing in the enforcement of the arbitral award case for 14-15 July 2026. However, in the statement of financial position as at 31 December 2025 and 2024, Management considered an expected credit loss allowance for the trade receivable and unbilled revenue amounting to Baht 0.7 million and estimated repair costs and potential compensation of Baht 4.2 million.
- 33.4** The company had a dispute regarding the breach of payment terms under the contract with a third-party customer. The debtor in question had claimed a penalty for the breach, offsetting it against the outstanding debt owed to the company, amounting to Baht 1.7 million as of 31 December 2567 classified as unbilled receivables account. Later, the company filed a lawsuit with the Chiang Mai Provincial Court, requesting the customer to pay the outstanding amount of 1.70 million baht, along with 5% annual interest on the principal amount from 8 November 2023, until full payment is made. The Chiang Mai Provincial Court rendered a judgment of dismissal on 6 August 2025. Subsequently, the Company considered and concluded that it was unnecessary to proceed with the appeal. Accordingly, the Company decided not to file an appeal petition, and the case was therefore finalized. During 2025, the Company recognized a full write-off of the outstanding balance as bad debt.

CHIANGMAI RIMDOI PUBLIC COMPANY LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

- 33.5** The company had a dispute regarding the breach of conditions related to the refund of a performance guarantee that had become due under the contract with a fourth-party customer amounting to Baht 3.7 million. The customer had previously negotiated several times for installment payments and extensions of the repayment period; however, the customer failed to make payment in accordance with the agreed terms. on 15 October 2025, the Company has filed a lawsuit against the customer with the Chiang Mai Provincial Court to claim the refund of the performance guarantee. The Court has scheduled a mediation hearing on 25 November 2025 and determine the issues for witness examination on 8 December 2025. On 2 February 2026, the Court scheduled a mediation session and the parties entered into a settlement agreement, pursuant to which the customer agreed to repay the Company an amount of Baht 4.0 million by way of monthly instalments of not less than amount of Baht 0.05 million, to be fully settled within 36 months. The first instalment is due on 5 March 2026, with subsequent instalments due on the 5th day of each month thereafter. Management has not recorded any expected credit loss allowance, as it has concluded that the full amount of the receivable is expected to be recovered.
- 33.6** A contractor filed a lawsuit against the Company, alleging that the Company had outstanding construction service fees in the amount of Baht 1.99 million. Based on the Company's submissions to the Court, the Company had fully paid the contractor for all construction work delivered to the Company. On 11 December 2024, the Court of First Instance rendered a judgment dismissing the claim. The contractor filed an appeal with the Court of Appeal on 9 July 2025, and the Company filed its statement of defence to the appeal on 21 November 2025. The Court accepted the statement of defence on 25 November 2025. The case is currently pending consideration by the Court of Appeal. However, management believes that the Company has fully settled such wages. Accordingly, no provision for contingent liabilities has been recognized in the financial statements.

34. COMMITMENT AND CONTINGENT LIABILITIES

34.1 Bank guarantees

As at 31 December 2025 and 2024, there were outstanding bank guarantees issued by banks on behalf of the Company in respect of certain performance bonds as required in the normal course of business of the Company. The details of bank guarantees are as follows:

| | In Million Baht | | | |
|---|--------------------------------------|--------------|----------------------------------|--------------|
| | Consolidated financial statements | | Separate financial statements | |
| | 2025 | 2024 | 2025 | 2024 |

| Over 1 and up to 5 years | 0.3 | 0.1 | 5.2 | 21.5 |
| Total | 21.3 | 20.0 | 49.5 | 98.0 |

34.3 Revenue in the future in respect of performance obligations are unsatisfied (or partially unsatisfied) commitments

As at 31 December 2025, the Group expected to be recognized revenue in the future in respect of performance obligations under contracts with customers that are unsatisfied (or partially unsatisfied) for a segment of construction services amounting to Baht 489.0 million and segment of solid waste disposal amounting to Baht 228.8 million. (2024 : segment of construction services amounting to Baht 451.7 million and segment of solid waste disposal amounting to Baht 503.9 million), which the Group expects to satisfy these performance obligations within 5 years.

34.4 Other commitments

As at 31 December 2025, the Company has commitments amounting to approximately Baht 97.6 million in supplies for project construction costs, with which it had already entered into agreements (2024 : Baht 45.7 million).

35. FINANCIAL INSTRUMENTS

35.1 Financial risk management policies

The Group's financial instruments principally comprise cash and cash equivalents, trade accounts receivable, short-term loan and long-term loan. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group are exposed to credit risk primarily with respect to receivables. However, since the majority of the Group's contracts are made with government agencies and other creditworthy customers, the Group does not anticipate material losses from their debt collection outside those for which provision has already been set aside.

The Group estimated the allowance for doubtful accounts from the ending balance of accounts receivable. The estimate was made by considering the customer's past collection experiences. An impairment analysis is performed at each reporting date to measure expected credit losses. The provision for expected credit losses rates are based on days past due for groupings of various customer segments with similar credit risks. The calculation reflects the reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade and other receivables are written-off in accordance with the Group's policy.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 DECEMBER 2025

Interest rate risk

The Group's exposure to interest rate risk relates primarily to its cash at financial institutions, bank overdrafts and short-term loans, lease liabilities and long-term borrowings. Most of these financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate. The Group has no financial derivative to manage such risks.
