The Board holds at least eight scheduled meetings per year, the schedules of which are arranged in advance every year and submitted to each director at the beginning of the year so all the directors can arrange their schedule for the meetings. In addition, special meetings might be held to consider urgent matters.

At the meetings, the Chairman and the President & CEO of the Company jointly determine which agenda items are relevant to the meetings. Every individual member of the Board is entitled to propose agenda items.

In 2017, the Board held 11 meetings, eight scheduled meetings and three special meetings with 96% of the Board of Directors attending. Individually, each director (excluding the director resigned during the year) attended more than 75% of the total number of meetings. Prior to each meeting, all members received the agenda and supporting documents five working days prior to the date of the meeting to allow adequate time for their preparation.

When considering the matters presented to the Board, the Chairman of the Board presides over and duly conducts the meetings. All members of the Board are allowed to express their opinions independently. Resolutions are passed with a majority vote, whereby one director is eligible for one vote.

A director with a vested interest in the issue under consideration shall be excused and/or abstain from voting. In case of a tied vote, the chairman of the meeting will cast his vote to reach a resolution.

SCG executives are allowed to attend the Board's meetings to provide useful information to the Board, and to learn directly about the Board's initiatives and policies for effective implementation. However, the executives are not allowed to attend the meeting for certain agenda items which are reserved only for the Board of Directors or for non-executive directors in order to ensure independence of consideration.

In addition, the Board attaches significance to managing the conflicts of interest of the concerned parties with prudence, fairness and transparency. The information shall be fully disclosed. Any director with a vested interest in the matter under consideration must not be involved in the decision process.

After the Meeting, the secretary to the Board of Directors is responsible for preparing the minutes for all directors. The minutes must then be approved as the first agenda item of the following meeting of the Board, which is duly signed by the Chairman. Directors may make comments, corrections or additions to ensure maximum accuracy and completeness. After approval, minutes of the meeting are stored securely in the corporate secretary's office together with all related documents, which are backed up electronically to facilitate data searches.

In addition, for the months in which the Board of Directors meeting is not held, all directors are continuously informed of the operating results. The Company submits to the director relevant documents, together with information about any significant developments that occurred during the month, in order to keep them informed.

In addition, the Company holds a meeting between non-executive Directors without the Management present both after the Company's annual medium-term business plan meeting and when necessity arises in order to discuss various issues of public interest to allow non-executive Directors to express their opinions independently. In 2017, a meeting without the Management was held on August 26, 2017.

8.5 Human Resources

In adherence to one of SCG 4 Core Values "Belief in the Value of the Individual," SCG attaches great significance to employees and consider them the most valuable assets of the Company. SCG has consistently improved its human resources management system and fostered a human resources culture

that corresponds with its business strategies. SCG also places emphasis on human resources management strategies that are grounded in the present in order to maintain its competitive capacity.

1. Capability enhancement for region-wide business growth

SCG strives to strengthen the organization and its human resources to expedite decisions and overseas business operations. To this end, the Company has clearly defined the roles and responsibilities of its employees and units overseas as well as equipped its employees in each country with expertise related in human resources management such as relevant laws, labor relations, and human resources management systems. The Company has also cultivated relationships and created networks with governmental agencies, labor networks, and other business networks to exchange knowledge, develop its knowledge base, and foster cooperation to ultimately support business operations of the Company. Furthermore, SCG has actively enhanced its capacity to attract potential collaborators in each country where SCG conducts business by designing employment and remuneration models that are flexible for those with experience and by strengthening its brand.

2. Human resources management in preparation for business expansion

SCG has continuously studied and developed different human resources management structures and systems to achieve suitable models that correspond with the circumstances of different new business ventures, are characterized by flexibility, and help enhance the Company's adaptability regarding employment and working conditions, which will ultimately enable the Company to manage its human resources properly for each business.

3. Adaptability enhancement

To successfully enhance the organization's adaptability, its employees constitute a key factor. As such, SCG has continuously improved its working processes and environment to foster an organization culture that is rooted in open-mindedness, respect of each other's opinion, and audacity to embrace challenges. These ideals have been consistently communicated to employees throughout the organization, resulting in a strong organizational culture that has equipped the organization with the ability to adapt promptly and efficiently.

4. Continuous implementation of other human resources management strategies

SCG has also continuously pursued strategies in other dimensions of human resources management such as by conducting competency assessment both for domestic and overseas employees, developing SCG Talent Management System to ensure its completion and correspondence with the current business landscape, as well as putting in place an employee engagement system, in which employee engagement surveys are administered and the results are used to improve its existing human resources management systems in order to ensure currency and efficiency.

5. Human resources learning development

SCG believes in the value of the individual and strives for excellence. Recognizing that humans are invaluable resources in its pursuit of both short-term and long-term goals, SCG has invested in providing

each of its employees with the best learning experience to equip them with both expertise and integrity, which will contribute to SCG's competitive capacity and growth sustainably.

To ensure that the learning of SCG employees are at the maximum efficiency and meet business needs, SCG has adopted and applied role-based competency to every position so as to inform each employee of their roles and responsibilities in accordance with expected performance standards, which are designed in correspondence with its business needs. Any employees yet to meet their performance standards may choose 70:20:10 Learning Solutions in developing themselves. All learning and development solutions are part of SCG's Learning Management System, which is administered through an IT system to ensure maximum efficiency and effectiveness for both learners and the Company.

From their first day, each SCG employee is assigned individual competency profile, which includes three groups of competencies. The first group is professional competency such as for sales, HR, supply chains, and R&D, while the second group is for technical operations of each business group such as chemicals, packaging, and cement-building materials, assigned in accordance with the employee's business group. Once an employee is promoted to a leader with subordinates, they will also be assigned a leadership competency. These competency profiles are overseen by the committees for each professional and business group to ensure correspondence with the Company's business needs. Every December-February, SCG conducts competency assessment and formulates individual development plans for each employee to allow supervisors and subordinates to jointly set development goals so as to meet business needs and ensure professional advancement of the employee for the year. Every employee will develop their professional performance and technical performance where they have room for improvement in accordance with the 70:20:10 model, which focuses not only classroom learning but also on learning from experience and practice as well as learning from other related individuals. As for employees with leadership competency, additional leadership assessment and development will also be required.

In addition, to ensure that every employee, both domestic and overseas, receives the opportunity to enhance their potential for their own and the Company's sustainable growth from their first day of employment, SCG has prescribed learning journeys to serve as a learning model for employees at all levels in accordance with their leadership roles, starting from employees with no subordinates or individual contributors to First Line Managers, Managers of Managers, Functional Leaders, Business Leaders, and Enterprise Leaders. For the leadership role at each level, SCG has prepared different learning and development paths. An example is the on-boarding program, a system of structured dialogues between superiors and individuals assuming a new leadership role that enables them to learn and understand the roles and expected behavior of each level of leadership from First Line Managers to Enterprise Leaders, to be taken in the first 90 days of transitioning to a new leadership role. In addition, SCG has also created New-to-Role Programs to help employees develop expertise and skills necessary for their levels, such as the Ready Together program for new employees. This year, SCG has introduced e-learning as part of the blended learning to enable new employees to learn anytime and anywhere to accommodate the modern learning styles and reduce the number of hours that they have to leave their work to attend classes. Moreover, New to Role Programs for First Line Managers, Managers of Managers, Functional Leaders, and Business Leaders are for employees whose leadership roles transitions to First Line Managers, Managers of Managers, Functional Leaders, and Business Leaders, respectively.

Every employee with a role shift is required to complete these programs to ensure that they can operate to the expected level with maximum efficiency and prepare them for advancement to subsequent leadership roles. In addition, SCG has defined assigned programs such as Abridged Business Concept (ABC) for individual contributors, Business Concept Development (BCD) or Management Development Program (MDP) for First Line Managers, and Management Acceleration Program (MAP) for Managers of Managers. Both MDP and MAP are conducted in collaboration with a leading institute like Duke Corporate Education and have been adjusted to correspond with the current business landscape. These content improvements include the addition of design thinking, which focuses on utilizing thinking processes to obtain insights into problems, taking a customer-centric approach, and applying creativity and varied perspectives to ideation of solutions, which are then tested and developed to create guidelines or innovation that meet customers' needs or new paradigms for products and services. In addition, CANVAS Model has been added to these programs to enable learners to visualize the overall picture of the business and better assess management risks.

The Board of Directors behave as role models in compliance with SCG's Principles of Corporate Governance and Code of Conduct.

SCG is resolved to become a role model in corporate governance, encapsulating it in SCG Vision with the conviction that SCG's corporate governance will ensure fairness, transparency, and long-term economic value for shareholders whilst creating confidence among all stakeholders and enhancing the Company's competitiveness to achieve sustainable growth.

The Governance and Nomination Committee is entrusted with overseeing SCG's corporate governance matters, encompassing the establishment of policy and guidelines as well as monitoring the performances of the Board of Directors and the Management to ensure their compliance with SCG's corporate governance policy. The Committee also monitors and evaluates the corporate governance practices together with periodically reviewing the guidelines to ensure their alignment with business operations and corporate governance practices at national and international levels. Moreover, corporate governance is specified as one of the main items on the agenda at the Board of Directors' meeting.

Practices on SCG's Corporate Governance

SCG firmly upholds and complies with the principles of corporate governance both locally and internationally. Examples include the Principle of Good Corporate Governance for Listed Companies of the Securities and Exchange Commission and the Stock Exchange of Thailand, as well as the Corporate Governance Report of Thai Listed Companies (CGR) of Thai Institute of Directors (IOD). Added to this are the internationally-recognized benchmarks such as ASEAN Corporate Governance Scorecard (ASEAN CG Scorecard) and DJSI Sustainability Assessment. The Governance and Nomination Committee takes charge of considering and proposing to the Board of Directors the establishment and implementation of the policy and guidelines for their approval. For issues that have yet been covered or implemented, the Management is to report to the Governance and Nomination Committee for review on an annual basis.

The Board of Directors compiled knowledge and practices in management that have been passed down from generation to generation and proven to align with the corporate governance principles. They were codified into a booklet on SCG's corporate governance guidelines, which was first published in 2003. Last updated in 2014, the booklet is now also published as an e-book on the Company's website.

In 2017, SCG was rated on corporate governance practice by various agencies and achieved numerous awards as follows:

All shareholders who voted to approve needed to mark the voting cards accordingly with his/her signature affixed but were not required to raise their hands. All the voting cards were collected when the meeting adjourned. As for a large number of shareholders who authorized their proxies to the Independent Directors, the Company needed to cast votes of approval, disapproval, or abstention for each agenda item according to their requisition.
9. The results of the vote count shall be announced at the Meeting after the completion of the counting of votes for each agenda item. However, vote counting for some agenda items might take longer. In such cases, the Chairman might request the Meeting to proceed with the consideration of the next item on the agenda to avoid disrupting the Meeting. The Meeting is informed of the result as soon as the vote counting has finished.

10. The Company assigned independent representatives from the auditor to check vote counting throughout the Meeting with the shareholders' right protection volunteer from Thai Investors Association serving as an observer.
11. Shareholders arriving after the Meeting commenced were allowed to vote on the agenda item considered provided that a resolution was not yet made. 17. Following the Annual General Meeting of Shareholders, the Governance and Nomination Committee will consider the questions and suggestions made by shareholders and propose them to the Board of Directors to determine appropriate response measures and improve the next shareholders' meeting. For the 2017 Annual General Meeting of Shareholders, the suggestions made by the shareholders were compiled by the Management and proposed to the Governance and Nomination Committee as well as the Board of Directors for consideration. The response measures were determined as follows:

Shareholders' Suggestions	Consideration / Response Measures
1. Proposed that a shadow board be established as commonly practiced in many countries, consisting of shadow board members concerned about specific issues considered by certain Sub-committees.	No immediate need for the establishment of a shadow board as concerned. Shareholders may make suggestions to the Board of Directors in writing or via the Company's website.
2. Proposed that the Company issue perpetual debentures.	No immediate need for the issuance of perpetual debentures. Over the years, the protocol for the new offering of debentures to replace those due for redemption has enabled the Company to raise capital at an appropriate interest rate over a specific period of time. Rights to purchase the new offering of debentures would be first granted to holders of debentures due for redemption. Only then would the debentures carried over to be offered to investors and the general public.
3. Proposed that the dividend payment date be earlier.	The Company is working with the securities registrar to consolidate the procedures for paying out dividends to allow for an early dividend payment date.
4. Proposed that the Company pay stock dividends.	Compared to stock dividends, cash dividends, which are currently paid by the Company, incur the same tax cost to shareholders. Cash dividend payment, therefore, provides a more convenient option for shareholders. Where they wish to acquire additional shares in the Company, they can reinvest the cash on purchasing the Company's common shares.
5. Proposed that a variable performance bonus be paid to the Directors in lieu of a fixed bonus.	At present, the Directors would receive a bonus of an amount not exceeding 0.5 percent of the dividend distributed to the shareholders, which is considered a variable performance bonus.
6. Proposed that the auditors communicate their opinions on the financial statements in a clearer manner to ease understanding.	The Company has entrusted the auditors to propose the shareholder's suggestion to the Federation of Accounting Professions for consideration.

2. The Equitable Treatment of Shareholders

SCG is fully aware of its duty to protect the interests of every shareholder, major or minor, individual or institutional as well as Thai or foreign investors to ensure equality and fair treatment for all to further ensure the maximum benefits of shareholders. The efforts are as follows:

Provision of opportunities for minor shareholders to propose matters to be included in the Meeting agenda and to nominate candidates for the election of Board members prior to the date of the Shareholders' Meeting

The Company has prescribed criteria and procedures whereby minority shareholders may propose agenda items for the Meeting and nominate qualified candidate(s) to be considered for election as a director of the Company for three months such rules and procedures are posted on SET Portal and the Company's website.

For the 2018 Annual General Meeting of Shareholders, the Company provided an opportunity to shareholders to propose agenda items for the Meeting and nominate qualified candidate(s) to be considered for election as a director of the Company during September 1 – November 30, 2017. The Agenda Item Proposal Form and/or Nomination for Directors Form along with the required documents must be sent to the Company Secretary or to the independent directors' email at ind_dir@scg.com. The criteria are as follows:

Prior to the Meeting, one or several shareholders holding in aggregate at least 5% of all issued shares of the Company (no less than 60 million shares) have the right to propose in advance agenda items. The Governance and Nomination Committee takes responsibility for screening the issues before presenting them to the Board of Directors for consideration. Should the proposed agenda item be included on the Meeting agenda, the Company shall specify it in the notice of the Meeting that the agenda item was proposed by a shareholder. However, in the event the proposed agenda item is rejected, the Company shall inform shareholders of the reasons at the Annual General Meeting of Shareholders.

Moreover, any shareholder is entitled to nominate in advance any qualified candidates for the election of Board members. The Governance and Nomination Committee shall consider the proposed nominees together with other nominated persons according to the Company's criteria for the nomination of directors. The Committee then presents the nominees to the Board for consideration before proposing them to the Shareholders' Meeting for approval.

In the past year, no shareholder proposed any agenda item or candidate for the election of Board members prior to the 2018 Annual General Meeting according to the above-mentioned criteria and procedures.

SCG Corporate Secretary Office will notify all involved persons of the blackout period in advance.

The Company has made it imperative to review share trading of the concerned persons on a regular basis and to prevent employees involved with the preparation of the financial statements from disclosing the information to outsiders from the closing date of the financial statements to the public disclosure of the information. Moreover, the concerned persons who have knowledge of confidential information that could have effect on the Company's share price are prohibited from trading the Company's shares until 24 hours after the public disclosure.

- Directors and executives (Top Executives) as defined by SEC are required to make an initial reporting of their securities holding in the Company to the SEC within 30 days of the date on which they are appointed (Form 59-1). They are also required to report on any changes in securities holding as a result of the purchase, sale, transfer or acceptance of transfer of securities (Form 59-2) within three business days of the date of any changes.

In addition, the Board of Directors will monitor to ensure compliance with such measures. It is stipulated that any changes in their shareholding be reported in the Board of Directors' meeting. The number of shares held by the directors and top executives both directly and indirectly as of the beginning and end of the year as well as those traded during the year shall be reported in the Annual Report. In 2017, there were no insider trading cases concerning the director, top executives, and employees involved with internal information.

Preventing Conflicts of Interests

The Company realizes the importance of managing the conflicts of interests of related persons, namely, the Board of Directors, SCG top executives, and employees in a prudent, fair, and transparent manner. As a consequence, the Board of Directors has established policies and measures regarding conflicts of interests as follows:

- Directors, top executives, and their related persons must file a report with the Company stating their interests in the management of the Company or a subsidiary when they first take the office. They must also file a report should there be any changes in their interests and at every year end. The Company Secretary shall deliver a copy of such report to the Chairman and Chairman of the Audit Committee within

seven days upon the receipt of the report in compliance with the Securities and Exchange Act B.E. 2535 and to use such information for monitoring and preventing any conflict of interests.

- At a Board of Directors' meeting, any director or executive who may have a vested interest in any agenda item under consideration must not attend the meeting or must abstain from voting on such agenda item. This is to ensure that the Board and executives make decisions in a fair manner for the utmost benefit of shareholders.

- In case the connected transaction requires shareholders' approval, shareholders with a vested interest must abstain from voting on such agenda item as stipulated by law and the Company's regulations.

3. Role of Stakeholders

This practice is overseen by the Board of Directors to ensure compliance with laws and regulations and adherence to SCG Corporate Governance Guidelines, SCG Sustainable Development Guidelines, SCG Code of Conduct, and other relevant policies, as well as protection of such rights and stringent equitable treatment.

Subsequently, in 2011, the Board of Directors approved the formulation of engagement policy and guidelines for each stakeholder groups in a formal written form, which serve as a clear guidance for employees on engaging each stakeholder groups.

At present, stakeholders have easier access to the Company's information through various sources and play an increasingly active role in its business operations. In addition to reducing risks that may cause damage to the corporate image and reputation, the efforts also help enhance the brand and competitive advantages, adding value to the Company by demonstrating its commitment to stakeholders. 5.7 Policy on Directors and Top Executives Holding Directorship in Organizations outside SCG

Limitation of the Number of Listed Companies in Which a Director May Hold Directorship

The Board of Directors has set a policy to limit the number of listed companies in which each director may hold a directorship. This policy aims to protect the Company's best interests because it helps ensure that directors have time sufficient to handle their duties. The Board of Directors has agreed to set the policy prescribing that each director should hold directorship of a maximum of four other listed companies. In addition, SCG has a guideline in case the President & CEO is appointed as the director of another company. The matter will be proposed to the Board of Directors for approval.

Policy and Guidelines on SCG Top Executive's Directorship in Organizations outside SCG

The Board of Directors has established a policy allowing the President & CEO and the Company's management to hold a directorship in companies that are not SCG subsidiaries or associates or to spend the Company work hours carrying out directorships for external institutes for the three following organizations:

- (1) Governmental organizations that are not established for the benefit of a political party, in which their service represents their cooperation with the authorities and contribution to the general public.
- (2) Private organizations that are established for the benefit of the general public such as the Federation of Thai Industries, the Thai Chamber of Commerce, the Thailand Management Association, etc.
- (3) Private organizations that are established for trading purposes but present no conflicts of interest with SCG and do not consume time to the extent that it is disadvantageous for the Company.

The President & CEO is to propose a directorship in other companies or external institutes for approval from the Board of Directors. As for management employees, the proposal must be submitted for approval in accordance with the Company's Approval Authority, in which case the proposal will be reviewed with consideration to the Company's intent to ensure that its employees demonstrate determination and effort and dedicate their working hours to their duties at the Company to the best of their ability, as well as adhere to the ethical guidelines regarding conflicts of interest, whereby employees do not engage in a conduct that constitutes a competitive with the Company's business. The approval of directorships or the use of the Company's working time on duties in external institutes/companies depends on the Company's judgment and is reviewed on a case-by-case basis. In this regard, the Company has informed relevant management employees of the aforementioned policy and process.

5.8 Performance Appraisal and Knowledge Enhancement

Performance Appraisal of the Board

SCG has stipulated a performance assessment and a review of the performance results of the Board of Directors and Sub-committees at least once a year on a yearly basis. The assessment is divided into two types, namely the performance assessment of the Board of Directors as a whole and the self-assessment. On top of this is the performance appraisal of the Chairman of the Board of Directors. The Board of Directors then analyzes and summarizes the results of the assessment to formulate measures to further enhance the efficiency of the Board of Directors.

As for the performance assessment of the Board of Directors as a whole and self-assessment, the Governance and Nomination Committee is tasked with reviewing the performance assessment forms for the Board of Directors and the Sub-committees, the performance assessment form of the Chairman, and information needs questionnaires used to enhance the knowledge and performance of the directors; and proposing these forms to the Board of Directors for review.

The Corporate Secretary Office distributed the assessment forms to each director for assessing the performance of the Board of Directors and the Sub-committees in which he serves. Afterwards, the Corporate Secretary Office summarized and presented the results of the performance assessment to the Governance and Nomination Committee and the Board of Directors for acknowledgment and later submitted the assessment results to the Chairman of the Board and the Chairman of each Sub-committee.

In 2017, the performance assessment results of the Board of Directors and the Sub-committees were summarized as follows:

Board of Directors/Sub-committees	Performance assessment results for the committee as a whole (%)	Performance assessment results for the committee Self-assessment (%)
1. The Board of Directors	92	95
2. The Audit Committee	99	98
3. The Governance and Nomination Committee	99	98
4. The Remuneration Committee	88	94

The Assessment of SCG President & CEO and SCG Top Executives

The Board of Directors and the Remuneration Committee assess the performance of the President & CEO based on the Company's operating results, implementation of the Board's policies, and the overall socio-economic circumstances. The Remuneration Committee will then consider the appropriate remuneration for the President & CEO and top executives of SCG and propose such amount to the Board taking into account the following information regarding the current and previous years:

1. The business unit's operating results based on percentage of EBITDA on operating assets. The target EBITDA percentage for each business unit of SCG shall be set forth each year for assessment and comparison purposes.

2. The operating results of the business unit compared to those of other companies in the same industry, both locally and internationally.
3. The executive's capability to develop the business unit and improve operational efficiency for each business unit each year.

In addition, a survey on manager-level employees' opinions regarding the President & CEO and the top executives is included in the Remuneration Committee's consideration.

Performance Evaluation of the Board by Independent Outside Counsel

Apart from the performance assessment of the Board of Directors as a whole and self-assessment, the Board also set a policy to engage independent outside counsel to conduct additional performance assessment of the Board in every three years to develop the guidance for more efficient performance of the Board. The next round of assessment will be conducted in 2018.

Development of Directors and Top Executives

The Governance and Nomination Committee deemed it appropriate to arrange activities to enhance knowledge beneficial to the performance of duties and responsibilities of the Company's Directors. - The selection of members of the Board of Directors according to SCG's Corporate Governance Guidance

The Governance and Nomination Committee is tasked with the duty of selecting candidates to replace the retiring directors at the end of their terms, or whatever the case may be, to propose to the Board of Directors and/or at the Annual General Meeting of Shareholders to be appointed. The Governance and Nomination Committee selects qualified candidates from various backgrounds, with credentials in a wide range of professions, excellent leadership, a breadth of vision, a proven record of ethics and integrity, and the ability to share their opinions independently.

- Nominated candidate screening guidelines

In screening nominated candidates for the Board of Directors, the Governance and Nomination Committee has drawn up screening guidelines encompassing the following factors:

1. Qualifications of each nominated candidate

The Governance and Nomination Committee should take into consideration each nominated candidate's personal qualifications in various facets such as:

- Integrity and accountability
- Informed judgment
- Maturity, stability, characteristics of a good listener, and the ability to express individual independent opinion
- Commitment to upholding principles, standards, and professionalism
- Other qualities the Committee deems essential

2. Required expertise in nominated candidates

The Governance and Nomination Committee should take into consideration areas of expertise and specialization that a nominated candidate should possess so that the Committee can formulate strategies and policies and effectively supervise the implementation.

3. Diversity of directors

In addition to the two aforementioned factors, the Governance and Nomination Committee might consider drawing up guidelines regarding the diversity of other qualifications of a nominated candidate such as an equal representation of different groups of stakeholders, educational backgrounds, age, gender, etc.

Moreover, the Governance and Nomination Committee used the Board Skill Matrix as supporting information in the selection of candidates to replace the retiring directors with a focus on the recruitment of needed skills and expertise. The list comprises three categories as follows:

- **Knowledge, expertise, or experience in Macro-management**

This category is divided into seven subcategories, namely, SCG-related business or industry, other large businesses or industries, administration and management of large corporations, economy and investment, policy and strategy formulation, foreign affairs, and risk management.

- **Specific knowledge, experience or, expertise**

This category is divided into five subcategories encompassing law, marketing, accounting/financial literacy with specific knowledge on financial statement accounting standards, or current/prior position as a member of an audit committee of a listed company as well as finance, and information technology.

- **Corporate Governance knowledge, experience, or expertise**

This category is divided into two subcategories, namely, corporate compliance including the formulation of relevant CG policy and guidance, and shareholder engagement.

In addition, the Governance and Nomination Committee also incorporated the list of chartered directors compiled by the IOD as additional information in the selection of candidates to replace the directors due to retire by rotation.

Rules and Procedures for the Election of Directors

1. Prior to the Annual General Meeting of Shareholders, the Governance and Nomination Committee proposes to the Board the names of persons to replace directors who are retired by rotation. The nominees will then be listed for consideration for election during the Meeting. All shareholders have an equal right to propose other candidates. Authority to select directors rests with shareholders.

2. A shareholder shall have one vote for each share he holds or represents.

3. At the election of Directors, the shareholders shall vote for each individual candidate nominated for Directors, but not exceeding the number of Directors required for that election. The vote shall not be distributed.

4. The candidates shall be ranked in descending order from the highest number of votes received to the lowest, and shall be appointed as directors in that order until all of the director positions are filled. If the votes cast for the candidates in descending order are tied, which would otherwise cause the number of directors to be exceeded, the chairman of the Meeting shall cast the deciding vote.

As proposed by the Governance and Nomination Committee, the Board of Directors formulated guidelines for the nomination of qualified candidates to replace the retiring directors as follows:

1. Each director shall nominate no more than four qualified candidates to replace the retiring directors and the retiring directors should not nominate themselves as candidates.

2. Each director shall assess his/her knowledge and expertise according to the Board Skill Matrix for use as supporting information in the nomination of qualified candidates to replace the retiring directors.
3. The Governance and Nomination Committee shall consider qualified candidates nominated by each director together with those nominated by shareholders within the designated period.
4. The Governance and Nomination Committee with no member having conflict of interests present shall review the list of candidates nominated by the directors and shareholders and propose four qualified candidates to the Board of Directors which will subsequently be proposed for election at the Annual General Meeting of Shareholders. The review shall take into consideration the guidelines published in SCG Corporate Governance Handbook as well as suggestions of the Thai Institute of Directors (IOD), and careful and thorough consideration of each candidate's qualifications.
5. The Board of Directors with no member having conflict of interests present shall consider the qualifications of each candidate in a careful and thorough manner and subsequently propose the qualified candidates for election as directors to replace the retiring directors at the Annual General Meeting of Shareholders.

Nomination and Succession Plan for Top Executive Positions at SCG

SCG has put in place a proper and transparent nomination process for key management positions at every level in order to ensure that all of our top executives are professionals who perform their duties independently from the major shareholder and other shareholders. The succession plan for the President & CEO and top executives is carried out by the Governance and Nomination Committee and considered by the Board of Directors. SCG's nomination process commences with the process of recruiting candidates who possess both talent and integrity. Young talents are the focus of recruitment, so that they can be groomed to become leaders in the future. Qualified employees will undergo a high potential assessment and pursue development courses following individual career development plan. These talents will be assigned challenging tasks, and their positions will be rotated periodically in order to further develop their leadership skills and all-round knowledge in every area of SCG's business. The plan is implemented at every level of employment to ensure that staff members are ready to fill any positions that become vacant.

9.4 Oversight of Company's Subsidiaries and Associates

The Board of Directors has set forth the mechanisms for overseeing and monitoring the management and operations of Company's subsidiaries and associates. To that effect, the Board has empowered President & CEO and/or President of each business unit to perform such duties as selecting representatives to be board members, executives, or controlling persons in those entities and reporting them to the Board.

The number of SCG's representatives in each subsidiary and associate is determined by the percentage of holding in that entity. However, to ensure proper oversight of SCG's investment, President & CEO and/or President of each business unit shall report on the operating results of the subsidiaries and

associates to the Board of Directors at the board meeting on a quarterly basis. A report on the operating results shall be submitted to the Board in the month when there is no board meeting.

SCG has prepared an authority manual prescribing the scope of authority, duties, and responsibilities of persons representing SCG as board members or executives in the subsidiaries and associates. Constant revisions on such manual are made, consistent with changes in the subsidiaries and associates both in Thailand and overseas.

Mechanisms for overseeing disclosure of financial information and operating results; connected transactions between subsidiaries and/or associates and related parties; disposal or acquisition of assets; or complete and accurate material transactions are stated in the Articles of Association of the subsidiaries and associates. Such transactions shall be in compliance with the rules and procedures stipulated by the announcement of the Stock Exchange of Thailand.

In addition to the authority manual, the Audit Committee, in fulfilling the role as a supervisor, is responsible for assessing the effectiveness of the oversight, risk management, and the internal audit systems of the subsidiaries and associates with SCG's representatives in the management. The auditing is planned based on the risk of each company and includes the auditing and assessment of the Company's internal control systems, efficiency, and effectiveness of operations, and financial statements. Furthermore, the Audit Committee has resolved for the subsidiaries and associates to implement as a preventative measure against errors a business self-audit system, which can be adjusted to suit the environment of each company, with emphasis on a holistic assessment, in order to create added values to the organizations. To this effect, the companies and the Audit Office jointly perform risk assessment, formulate the internal control system and risk warning signals, and produce risk-monitoring reports. In the presence of risk shifting, the internal control system must be modified to accommodate such a change. The assessment reports are then presented to the management, with a copy submitted to the Audit Office as supporting information for future audit plans according to the level of risk. In addition, external audits are to submit assessment reports on the internal control system to the Audit Committee every quarter.

The key to effective and efficient operational management between the Company and other business partners is the agreement on mutual understanding concerning issues such as separation of duty in management, the scope of authority, fair division of profit for all concerned parties. To that effect, SCG generated a Shareholders' Agreement which stipulates the Company to respect the rights of its business partners with all due fairness and cooperates fully with the partners to ensure successful operations of the joint ventures.

9.5 Internal Information Control

The Company has established measures to prevent misuse of internal information and incorporated them into SCG Code of Conduct and Regulations for Employees in writing. The Insider Trading Policy involved with the use of information that could reasonably be expected to affect the value of the Company's share was also formulated with the approval of the Board of Directors. The policy encompasses such measures as prohibiting the directors, top executives, employees, and those responsible for related functions from trading in the securities of SCG or other companies related to insider

information (Blackout Period) 30 days before the public disclosure of quarterly and annual financial statements and until 24 hours after the disclosure of the information. Other measures include reporting of any changes in shareholding of the Board of Directors and top executives as stipulated by Securities and Exchange Commission (SEC) and reporting to the Board of Directors' meeting on a regular basis.

Aside from the aforementioned measures, the Company has defined guidelines on managing internal information that could have any impact on the Company's share price. They prescribe how the internal information can be appropriately managed and handled to minimize the risks associated with the misuse of such information. The policy and guidelines regarding the use of internal information are disclosed under the topic 'Corporate Governance' under Section 'The Equitable Treatment of Shareholders of the Annual Report' and published on the SCG websites.

9.7 Implementation of Corporate Governance Code for Listed Companies 2017

In 2017, the Board of Directors, as recommended by the Governance and Nomination Committee, considered applying the practice guidelines outlined in Corporate Governance Code for Listed Companies 2017 (the CG Code) developed by the Securities and Exchange Commission (SEC) into SCG business operations. As the governing board of the Company, all the directors considered the Code thoroughly and understood the benefits and importance of adopting the CG Code for the Company's sustainable value creation. The performance results in accordance with each practice guideline in the CG Code were assessed to ensure conformance with the guidelines that match SCG's business operations. Where the practice guidelines fell short of accommodating SCG business, the Board of Directors stipulated that substitute measures be set forth and recorded as the resolution made by the Board so they will be considered and reviewed annually. For 2017, the aspects of which the company has not yet complied are detailed in Section 9.8.

9.8 Good corporate governance guidelines in other aspects

The Company has continuously adopted and complied with the Principles of Good Corporate Governance for Listed Companies 2012 recommended by the Stock Exchange of Thailand. Furthermore, the Board of Directors in 2017 resolved to apply Corporate Governance Code for Listed Companies 2017 (the CG Code) developed by the Securities and Exchange Commission (SEC) into SCG business operations where it deems appropriate. In 2017, the areas that the Company had yet to adopt but were replaced with comparable measures as follows:

1. Chairman of the Board should be an Independent Director
 - The current Chairman of the Board is an executive of the major shareholders. However, the Board of Directors has specified the duties of the Chairman so that emphasis is placed on the interests of the company, shareholders, and stakeholders. In addition, all board members required to assess the performance of duties of the Chairman on a yearly basis.
2. The numbers of the consecutive terms a director and the numbers of the consecutive terms a subcommittee can serve should be specified, such as no more than three consecutive terms. The number of consecutive terms an independent director can serve should be no more than nine consecutive years, starting from the first appointment. If the director is to hold the office more than the term limit, it needs to be considered earnestly.
 - Currently, the Board of Directors reviews the terms of a member of the Board of Directors and Sub-committees based on each individual's qualifications, the resulting diversity, and needed areas of knowledge and expertise, in tandem with the use of the Board Skill Matrix as additional information.

- At the 2017 Annual General Meeting of Shareholders, two independent directors who held the office for more than nine consecutive years and were due to retire by rotation were Mr. Sumet Tantivejkul and Mr. Pricha Attavipach. The Board of Directors considered it appropriate to propose both retiring independent directors for re-election, details of where were distributed to shareholders prior to the election of directors. The Board of Directors considered and opined that both directors are capable of expressing their opinions independently and their qualifications are in accordance with the relevant rules and regulations. They have brought a blend of experience, knowledge, and experience to make recommendations benefiting strategy formulation and SCG's business operations in line with the sustainable development approach.
3. All members of the Nomination Committee are independent directors.
- Currently, the Governance and Nomination Committee comprises five members, four of whom are independent directors, constituting more than half of the Committee, and the Chairman of the Governance and Nomination Committee is also an independent directors. However, the company always reviews the membership of each member of the sub-committees on a yearly basis, taking into account the qualifications and appropriateness as specified in the charters of the Sub-committees.

In addition to the practices implemented in compliance with The Principles of Good Corporate Governance for Listed Companies recommended by The Stock Exchange of Thailand, the Company has in place other practices relating to good corporate governance as follows:

Raising awareness of corporate governance

The present prosperity, success, and stability of SCG are the result of doing business according to its ethical core values – the ideals that have been held in high regard and put into practice by the Board of Directors, by management, and by staff at all levels. They are:

- ADHERENCE TO FAIRNESS
- DEDICATION TO EXCELLENCE
- BELIEF IN THE VALUE OF THE INDIVIDUAL
- CONCERN FOR SOCIAL RESPONSIBILITY

In 1987, the Board of Directors compiled a list of principles in a formal written document called the “Siam Cement Group Code of Ethics”, currently known as SCG Code of Conduct, to serve as guidelines that were aligned with SCG's philosophies with the Company's directors serving as role models. It has been constantly updated to better correspond with the evolution of SCG and suit the shifting economic and social climate.

To further raise awareness of the SCG Code of Conduct among employees, the Company informs its employees at every level of and promotes adherence to the SCG Code of Conduct to cultivate the awareness from the first day of employment onward. In addition to the publication of the SCG Code of Conduct on the website, the Company has published the SCG Code of Conduct Manual and distributed it to all new SCG employees along with conducting informational events to expound the Code of Conduct

principles and practices to ensure clear understanding and strict adherence in performing their duties. This has also been included as a key factor in the yearly employee performance assessment. The Board of Directors played a vital role in raising awareness and being a good role model in complying with SCG corporate governance practices for SCG employees. To communicate SCG Code of Conduct to new employees, the Code was incorporated into the SCG Ready Together training course. More channels were added to promote employees' better understanding and engagement in expressing views and sharing experience related to SCG Code of Conduct through the "Dee Dee Club" Facebook fanpage where people can learn more about the SCG Code of Conduct. To promote better understanding of the SCG Principles of Corporate Governance and compliance with the SCG Code of Conduct, a mascot called Mr. Janya was developed to create constructive engagement with employees via the activity "Janya on Tour". Added to this was the conducting of workshops on Governance, Risk and Compliance (GRC) and SCG Code of Conduct for employees.

Moreover, SCG has also exchanged its knowledge and experience regarding the SCG Code of Conduct as well as the development of SCG's guidelines for corporate governance with interested companies and organizations both in the governmental and private section to support and promote awareness about ethical business conduct, fair treatment of stakeholders, and corporate social responsibility.

SCG also established the whistleblowing policy, to protect any employee who files a complaint or reports on improprieties or suspected violations of laws, rules and regulations, the Company's Articles of Association, SCG Code of Conduct, and Anti-corruption Policy. In this regard, the Company has formed a working team responsible for devising policies and providing consultancy regarding compliance with SCG Code of Conduct. This team comprises the top management in business units responsible for relevant matters, each of whom is tasked with monitoring the performance results and providing counsel on relevant matters. In addition, the Company has established channels through which employees can voice their opinions and make inquiries about SCG Code of Conduct, which can be found on the SCG website under "SCG Code of Conduct" and "SCG Code of Conduct Consultation System".

Anti-corruption Efforts

SCG stresses the importance of fighting corruption by establishing the Anti-corruption Policy which was proposed to the Governance and Nomination Committee for approval prior to being submitted to the Board of Directors for approval in order to be a guideline for business operations and integrated into corporate culture in line with one of SCG's 4 Core Value "Adherence to Fairness" with focus on integrity, transparency, verification, and equitable treatment to all concerned parties in a respectful, sincere, friendly, and fair manner.

The commitment resulted in the Siam Cement Public Company Limited being certified by Thailand's Private Sector Collective Action against Corruption (CAC) on July 5, 2013. SCG continually remains committed to anti-corruption implementation. In 2016, SCG passed the recertification. Moreover, two SCG subsidiaries, listed companies and one non-listed company, were also certified in 2016, thanks to their shared commitment to fighting corruption. The certified companies comprise Thai-German Ceramic Industry Public Company Limited, Quality Construction Products Public Company Limited (listed companies) and Thai

Plastic and Chemicals Public Company Limited (non-listed company) (SCG Anti-corruption Policy is available for download at www.scg.com)

In 2017, the National Anti-Corruption Commission (NACC) announced “Guidelines on Appropriate Internal Control Measures for Juristic Persons to Prevent Bribery of State Officials, Foreign Public Officials and Agents of Public International Organizations” under section 123/5 of the Organic Act on Counter Corruption B.E. 2542. SCG reminded and raised employees' awareness of the actions that might cause corruption risk and continuously conducted risk indicators analysis and corruption risk assessment. This risk was categorized as one of compliance risk.

SCG has created the Proactive and Preventive System by determining corruption risk mitigation plans, control activities, responsible persons, monitoring, measurement, reviewing and evaluating methods of the risk assessment process for employees to use as guidelines for corruption prevention. At the same time, the Audit Office performed the assessment and monitoring of good governance practices and compliance with the SCG Code of Conduct and Anti-corruption Policy in every audit period.

The additional activities carried out in 2017

To foster awareness and understanding among the Directors, Executives, and employees as well as inspire actual implementation of the Company's Anti-corruption Policy in accordance with Section 123/5 of the Organic Act on Counter Corruption B.E. 2542 announced by NACC, SCG carried out the following activities:

1. The Board of Directors approved the adoption of Section 123/5 announced by NACC, with the approval of the Audit Committee. The CEO communicated this development to every SCG employee via “Message from CEO” to demonstrate the tone at the top.
2. Awareness promotion activities were continuously organized to educate employees and develop proactive and preventive anti-corruption systems.
 - 1) Prepared “Ethics e-testing” of which the test contents were classified into three levels, consistent with the roles and responsibilities of the employees' levels by testing employees on ethics, SCG 4 Core Values, Code of Conduct and Anti-corruption Policy. The contents of the test were designed to encourage employees to learn and understand the adoption of the policy, and all Thai employees were required to pass the test at 100%. In addition, the answers given were also analyzed. Most incorrect answers were communicated to have employees' understanding realigned.
 - 2) Fostered responsibility and accountability awareness regarding risk management and control in accordance with the Three Lines of Defense.
 - 3) Communicated important corruption cases to employees to illustrate responsibility and accountability in accordance with the Three Lines of Defense.
3. A compliance management system for controlling and monitoring anti-corruption operations was introduced to define clear roles and responsibilities, including law and rule compilation, risk assessment, control, monitoring, inspection, and reporting, for both internal and external reports.

4. An “Anti-corruption Compliance Assessment Form” was created for units involving high risks such as project procurement, project sales, and government affairs units. The assessment form defined indicators/signs of corruption risks as well as provided methods for risk mitigation and control both for system and employee operations so as to enable operators and supervisors of the unit to analyse risks involved by themselves, apply control methods correctly, and use self-assessment results to improve subsequent operation plans to enhance efficiency. In addition, appropriate internal control and penalties in accordance with Section 123/5 of the Organic Act on Counter Corruption B.E. 2542 announced by NACC were also communicated to employees.

Activities constantly carried out by SCG

1. Distribution and communication of SCG Code of Conduct (Revised) and Anti-corruption Policy to all employees for acknowledgment and adoption via a series of VDO clips: “Good life with SCG Code of Conduct,” “Janya on Tour,” and “Anti-corruption.”
2. Executives meeting with employees to give details about the Company’s business operations including the Anti-corruption Policy and providing them with opportunities to make any inquiries for a better understanding.
3. Training employees on compliance with Corporate Governance and the Anti-corruption Policy through various courses/channels to reaffirm SCG’s corporate culture. These are as follows:
 - New Employee Orientation Course
 - SCG Ready Together United Course
 - Business Concept Development Course
 - Leading Yourself Course
 - Facilitative Leadership Course
 - Good Corporate Governance Course for supervisors and management employees (in each business unit)
4. Six issues of IA Letter to (available both in Thai and English) launch every two-month through email of every employee.
5. SCG Code of Conduct Consultation System and Anti-corruption Policy banners on the SCG Intranet.
6. SCG demonstrates its intent in promoting and extending the concept to its suppliers, so that, with the synergy of SCG and its suppliers, the ethical practices and the corporate governance for communities, society, and the environment can reach society at large. To that effect, SCG has compiled the “SCG Supplier Code of Conduct” as guidelines for SCG suppliers since 2013. It emphasizes SCG’s relentless commitment to social responsibility encompassing five areas: 1) Ethical Business Practices, 2) Labor Protection and Human Rights, 3) Occupational Health and Safety, 4) The Environment, and 5) Laws and Regulations. In 2017, the number of participating suppliers has increased steadily, giving SCG added confidence to continue to develop more good citizens for society.

Policy on Protection and Fairness for Employees Who Inform on or Disclose of Wrongful Conduct or Non-Compliance with the Laws, Rules, and Regulations, the Company's Articles of Association, SCG Code of Conduct, and Anti-corruption Policy (Whistleblowing Policy)

SCG has given priority to good corporate governance and opened up opportunities for employees and stakeholders to report or inform any irregularities in the business operations of SCG such as corporate governance, ethical practices, corruption, financial transactions, Code of Conduct, and compliance with legal requirements, regulations, or Anti-corruption Policy through the specific channels provided. This is to ensure investigation of complaints are conducted according to the process specified in the "SCG Whistleblowing Policy Guidelines" and reported to the Audit Committee and the Board of Directors. In addition, information on the procedures and the channels through which complaints can be lodged is clearly publicized on the Company's website.

To ensure that such reporting or provision of information will not cause trouble to the complainant or informant, SCG has established a mechanism for protecting and relieving the distress that might occur to those who report or inform from unjust treatment such as abuse and threats. The Audit Office, responsible for the security of the Whistleblowing System, has designated a separate server to ensure independence from other usage.

SCG has provided channels for complains as follows:

- As for internal channels for employees, complaints can be made both with the names identified and anonymously.
 1. The banner on the first page of Intranet SCG website, which is accessible to every employee. Informants can direct their complaints to any of the following:
 - Trusted supervisors
 - The Director of the Corporate Human Resources Division
 - The Internal Audit Director
 - The Secretary to the Board of Directors
 - A Company Director
 2. Submission of a formal document to the aforementioned persons.
 3. Email submission to an independent director at ind_dir@scg.com.
- As for external parties, complaints can be lodged on www.scg.com under the "SCG Whistleblowing System." Informants are required to identify their names and can direct their complaints to any of the following:
 - The Corporate Secretary Office
 - The Internal Audit Office

 - A member of the Audit Committee

Complaints can also be lodged in the form of a formal document submitted to the aforementioned parties.

Informants can keep track of their complaints through a system, which is a vital mechanism in the control and prevention of corruption.

In 2017, continuing for the 3rd year, the test was categorized into 3 levels into employee's duties, authority, and roles and responsibilities at each level. Every SCG employee has achieved a 100% pass score. Additionally, test results are further analyzed by looking at those issues which employees answered incorrectly. Then communicate to employees for their better understanding.

The first line's staffs are considered the most important in making this model succeed and be efficient. SCG strengthens this awareness by using various communication methods such as First line who is the top/key person of the Company/function communicates this issue employees/subordinates or setting workshops for practical use in operation (Execution).
- 1.1.3 Sharing case studies in areas of fraud and non-compliance with laws and regulations, policies and procedures and Code of Conduct: for raising employee's awareness and prevention of repeated cases.
