Distribution and Distribution Channel

Because information technology products and services for medium to large organizations have information that requires knowledge and understanding of information technology and the selection of products and services, customer's information technology needs and factors are important to be discussed. Therefore, the presentation of products and services of the Subsidiary focus on presenting directly to the customer to deliver good products and services that suit the needs of each customer effectively and efficiently to the customer's organization.

In addition, a business alliance that has developed cooperation continuously and for a long time is also an important channel that helps promote the sale of more products and services to various organizations.

Competition within the industry

Various situations happening in the world causes rapid changes and information technology is the main driver of every organization's business operations. Meanwhile, Cyberthreats are constantly trying to find ways to attack data. Security of information technology systems is therefore **a key factor that needs to be updated quickly and continually**. Cybersecurity Mesh is a technology that allows security solutions to be updated quickly and in a timely manner, by moving the control point closer to the assets it was designed to protect, can verify identity and policy compliance quickly and reliably both in cloud and non-cloud formats.

In addition, the need for the development of new systems in accordance with the changes and demands of consumers that occur all the time, need to be fast, agile, and flexible enough to keep up with the changes. Cloud Native Application development is a form of system development that plays an increasingly important role in the business sector. Cloud-native Platform is therefore important for support the development of the current work system

Strategic adjustment of IT architecture planning is therefore an important part of any organizations that is necessary to be taken into account so that being able to accommodate the changes mentioned above.

From the trend of technological changes that occur continuously, the Subsidiary has always adapted its business to be in line with the changes with a selection of products and services that are modern. It was developed in accordance with the rapid change and support the personnel of the Subsidiary, trained and certified in a variety of technologies from the product owner continuously in order to be ready for presenting products and services to customers.

In the meantime, the Subsidiary continues to focus on providing comprehensive information technology services that include hardware, software, installation services, and maintenance work, to be a service

contract. It is another option where customers do not need to invest in information technology equipment themselves. This is in line with the changing trends in investment in information technology of the organization. In addition, the Subsidiary continues to build alliances with market leaders in various fields continuously to create a variety of services to customers. The Subsidiary's business still has tools and services that are able to cope with this change as well. There is a computer center and an emergency data center. This includes the Emergency Reserve Office, which has been in operation since 2009 and is constantly being developed and improved, making it ready to serve as a data center capable of supporting large and secure data center according to international standards. It is also a computer center and a data center where are far from all risks.

Competition in the technology industry in which the Subsidiary operates its business, there is a high competition among both domestic and foreign operators. The Subsidiary therefore has to differentiate itself from other operators by being a comprehensive information technology service provider that maintains quality and standards that are recognized internationally by continuously providing trained and highly experienced professional personnel that has been recognized by leading organizations for a long time. It is an important strategy for being one of the leaders in information technology service provider in Thailand.

(3) Products and Serviced Sourcing

From being a comprehensive information technology service provider, service personnel are therefore an important resource. The Subsidiary has invested in creating and maintaining efficient personnel by providing both internal and external training. There are information technology tools and a computer center equipped with modern equipment to train and develop the work system in serving customers, including hiring specialists in new business and technology. This is to build the knowledge and expertise of the personnel of the Subsidiary in order to build the confidence of the customers who receive the services of the Subsidiary, and human resources development to comply with various types of technology development according to the technology required by the customer

For information technology products, the Subsidiary is both a direct importer and a distributor of world-class products. In addition, to keep abreast of changes in technology and customer needs, the Subsidiary procured and selected new products and services which have quality and has been recognized internationally by entering into a partnership agreement with the product owner that is trusted and recognized by users around the world, to have a variety to meet the needs of different customers including the provision of software services on cloud computing systems with Pay per use concept such as D-Work, a Human Capital Management System, etc.

Throughout the years, although the products and services that the Subsidiary represent are diversified, the Subsidiary did not stop creating additional value from these products and services. The Subsidiary continues to focus on providing customer service that has been recognized by both trade partners and leading organizations for a long time.

3 Driving Business for Sustainability

3.1 Sustainability Management Policy and Target

Premier Technology Public Company Limited and its Subsidiary ("the Company") are committed to conducting business under the spirit of "Harmonious Alignment of Success" from the adoption of 5 core values, which are quality, creativity, morality, coordination and mutual benefit to promote, encourage employees to implement, disseminate, and expand the benefits to stakeholders in the business chain, both inside and outside the organization that depend on each other. Hence the idea that if you want your business to be successful in the long run, there must be 3 main components that can grow together. The Company believes that the balance will result in the Company's business to grow strongly and sustainably.

- 1) Business that has progressed
- 2) Employees who are happy and feel secure in their work
- 3) Sustainable growth in society and the surrounding environment

or **"Progressive Business, Stable Employees, Sustainable Society"**

Business operations to create sustainable success together: The Company has adhered to business practices to create sustainable mutual success for over 20 years by using the process of creating engagement both within the organization and with organizations and individuals in many sectors continuously. Today, the United Nations has urged all countries around the world to set a common goal for SDG's (Sustainable Development Goals), which Goal 17 outlines for cooperation to achieve the "Partnership for the Goals". This means the cooperation of all parties to achieve the 16 goals set in all issues.

Employees with creating sustainable togetherness: The Company values employees who drive core values practices through work with a sample project "Serious people will not be indifferent", which opens a safe space for employees to use their creativity, create cooperation, find new ways to solve social and environmental problems, and take action. The Company has supported resources such as funds, time and knowledge to allow employees to develop projects by integrating knowledge and cooperation both within and outside the organization.

In addition, the Company has also received the results of encouraging employees to create sustainable mutual success from other projects..

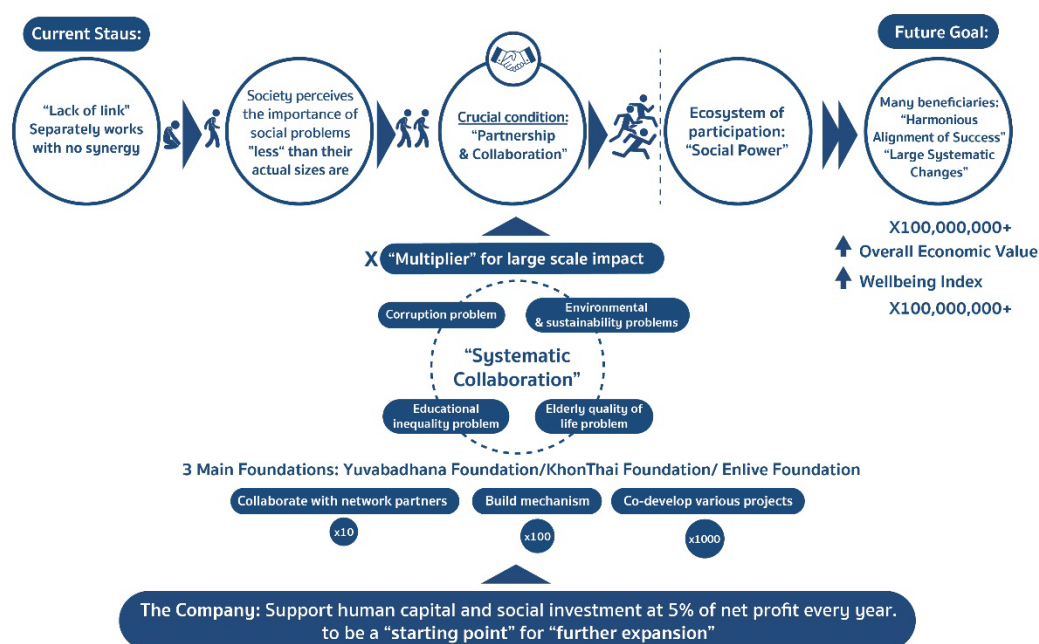

Support the creation of participation for sustainable social and environmental development:

The Company believes that the organization will have sustainable strength. It is imperative to gain the support and trust of all stakeholders in the enterprise value chain. The Company has continuously supported social sustainability development through various activities of the Company to support the creation of such participation. It also provides capital support of 5% of the net profit after deducting the corporate income tax burden of that accounting period to support the operation of the Yuvabadhana Foundation, KhonThai Foundation, Enlive Foundation and partner organizations, "Partnership and Collaboration", by supporting the Foundation's operations in various forms such as

1) **Fund donation to Yuvabadhana Foundation:** The foundation receives donations from other sources of more than 300 million baht per year.

2) **Other Support** through personnel support, volunteer, share time, support management work and provide advice, knowledge and expertise in social project development

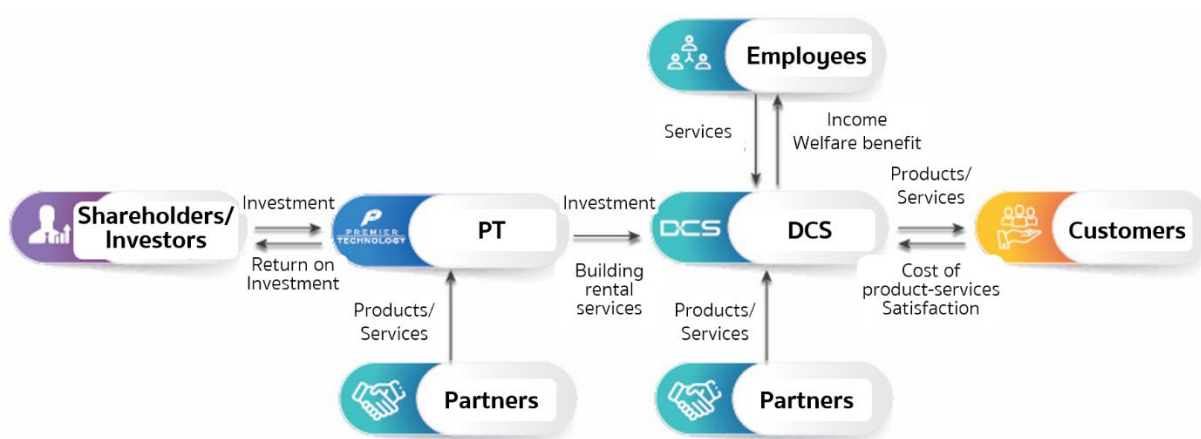

Funds and other support will support the creation of a cooperation mechanism through the management of the three foundations to be an extension of the results and create wider cooperation with co-developers and social stakeholders. The creation of "Partnership and Collaboration" is an important condition that will lead to "Harmonious Alignment of Success", formed a social force large enough to lead to systemic change able to overcome social traps or the "lack of synergies", the key mechanism that catalyzes the multiplier for scaling up is the creation of networks of cooperation and participation of various sectors, both the business sector, the social sector, the government sector, and the people who participated in volunteering and donating funds and other sectors to support the work of social sector partners on various issues through systematic and transparent mobilization and fundraising.

Therefore, **funding and other support of the company will be the starting point for expanding results, create a social power multiplier. It is a large social force which enough to lead to sustainable systemic change** by Yuvabadhana Foundation, KhonThai Foundation and Enlive Foundation, "Together with co-development organizations", to create a "cooperation mechanism" to expand results and link to co-development partners which are "Co-developers of social/environmental projects" at the corporate level, including organizations, business sectors, social sector organizations and many other government organizations. This leads to beneficiaries of sustainable social development such as children and youth, early childhood, the elderly, the disabled and the sick, teachers and parents, medical personnel and the general public, leading to social/environmental innovations for "Sustainable mutual success" in various forms, such as a shop (Pankan shop), social impact investment (BKIND Fund, Thai CG Funds and Media for Social Justice Fund), children's nutrition platform (Food4Good), crowdfunding platform (Taejai.com), etc.

3.2 Managing Stakeholder Impacts in the Business Value Chain

3.2.1 Business Value Chain

The Company is committed to "Providing quality services at international standards" focus on providing quality and efficient services, including professionalism for consumers because of the standardized service that creates spiritual values for good quality of life for consumers at the same time. The Company and its Subsidiary believe that true value comes with quality service. The Company has established guidelines to meet the satisfaction of consumers as follows:

- Provide products and services with quality, standards and safety to meet the consumers' needs

3.3 Sustainability Management in Environmental Dimension

3.3.1 Environmental policies, goals, strategies and practices: Short term / long term

Premier Group of Companies establishes a policy on environment and society together to do business by maintaining the balance of the environment, comply with environmental laws and regulations, give importance to and cooperate with the community to preserve the environment of the communities where the Group operates by

1. Care, maintain and protect to prevent an event that affects the environment. There must be equipment to treat waste so that there is no environmental impact and communities in which the Group does business.
2. When there is an event affecting the environment due to products / services or the operation of the Group, the Group will urgently fix and take responsibility for the damage.
3. Training and set up a system to inspect, supervise, maintain equipment and tools, and continuous improvement in order to increase efficiency in stewardship of the environment to maintain safety and confidence to the public.

The Company and its Subsidiary realize the importance of environmental conservation and biodiversity. The efficient use of resources has always been in line with business operations. The Company and its Subsidiary have therefore established environmental practices in the Code of Conduct for the following practices.

- Do nothing that will have a damaging effect on natural resources and the environment.
- Act or control to ensure compliance with environmental laws and regulations.
- Do not support or engage in transactions with anyone that is detrimental to the public environment.
- Promote efficient use of resources, have a policy to save energy and other resources by adopting technology that can save energy in the Company.

In addition, the Company has supported various activities and projects of the Premier Group of Companies' Sustainability Development Division that focuses on creating an engagement mechanism, creating network partners to expand cooperation for social and environmental outcomes in a wide area, including communities, government agencies and private sectors by supporting grants and volunteer work including expanding cooperation to network partners, customers and partners as well. Enlive Foundation is one example of such organizations taking care of the development of environmental quality such as

- Raising awareness about ecosystems and natural resources through the Young Environmentalists Project (Laem Sak Community) with participatory social impact assessment
- Using common area management processes to restore abundant natural resources through marine and coastal resource restoration activities, under the project to build a crab bank (Stall in the middle of the sea)
- Sustainable tourism promotion through the development tourism promotion project and reward ecosystem project

3.3.2 Environmental Performance

Efficient use of resources in parallel with the Company's business operations is to create participation in environmental stewardship of many stakeholders at the same time, including the Company, customers who use office building rental services, customers who use the energy-saving data center service of the Subsidiary, including employees on duty at the office. At the same time, it also results in efficient business operations because it can build confidence to users that the Company and its Subsidiary are organizations that focus on the use of resources and choose to present, and use quality products and services that are taken into account as the efficient use of resources.

Premier Group of Companies' Safety and Environment Working Group, which consists of members representing the Company and its Subsidiary, has implemented a campaign to reduce energy and resources consumption. It has been found that the program can reduce electricity and water consumption as shown in the table below.

Power consumption	Unit	2019	2020	2021	Reduced unit	Decrease (baht)
Power consumption	Megawatts	1,442	1,339	1,101	238	973,546.69
Power consumption per total area (12,396 sqm.)	MW / sq m.	0.109	0.108	0.089	0.019	78.54
Water consumption	Cubic meter	14,220	10,782	7,414	3,368	47,572.93

Premier Group of Companies also uses an engagement mechanism to build understanding and awareness of environmental considerations in business operations and, in daily life, for employees and stakeholder in various parts. For example, activities that offer ways to reduce energy from employee, online training courses, raising awareness of energy saving in the organization, disseminating knowledge about reducing energy consumption in various media within the organization, etc.

a. Energy Management

Office building rental business: The Company has arranged for maintenance and improvement of the quality of equipment usage in providing continuous service to tenants, to create efficient use of resources such as adding green areas around office buildings to help reduce the work of air conditioning systems, using energy-saving lamps, air conditioning system improvement and considering the use of renewable energy from installing a solar power system to generate electricity for use in buildings, etc.

Information Technology business (Subsidiary): The Subsidiary has Data Center to provide services to leading organizations in Thailand since 2005 to the present. The Subsidiary has selected quality equipment and has the ability to use energy efficiently. There is a process to measure energy consumption continuously on a monthly basis. This ensures an efficient energy consumption rate according to the international energy consumption criteria or PUE (Power Usage Effectiveness), which the Subsidiary has always measured the PUE value is lower than 1.7, which is the level of efficient use of energy.

In addition, the Subsidiary has also published information on energy-saving data center services to customers, partners, educational institutions, and guests continuously, to create understanding and awareness of energy efficiency, especially customers who come to use the service are considered to be part of the society in saving energy.

b. Water Management

The Company has installed a drip irrigation system for watering plants by using reuse water instead of tap water to help reduce the use of tap water. This is to make the most of the treated water and not releasing waste water to the public. It also increases the opportunity for gardeners to allocate more time, to improve, develop and take care of trees around the building instead of the time that plants have to be watered.

c. Garbage, Waste and Pollution Management

The Company has provided various projects on waste management such as waste separation, organic waste reduction, converting waste to minerals in soil and management of infectious waste caused by the epidemic of the Coronavirus 2019, etc. The project is an ongoing project. (For information on waste and waste management, the Company will report in the Sustainability Report.)

d. Management to reduce greenhouse gas

The Company focuses on participating in reducing greenhouse gas problems. The Company therefore chooses to use products to run its business that uses resources efficiently to create participation in environmental care together with employees, organizations and customers who use the service.

The activities of the Company that are expected to generate greenhouse gas emissions were electricity consumption from air conditioners in office buildings and electricity from Subsidiary's data centers. The Company has therefore managed as described in Clause 3.3.2 a. Energy Management.

Currently, the Company does not measure the amount of greenhouse gas emissions from its business operations by a certified data provider registered with the Thailand Greenhouse Gas Management Organization (TGO) for reasons of suitability in the business context. The Company has a policy for sustainable business operations which requires effective, systematic environmental management and is a part of business operations. Therefore, the management of greenhouse gas emissions will be with the-most-effective goal because it will be one of the factors that will lead to the goal of sustainable business operations.

4 Management Discussion and Analysis of Operating Results

4.1 Operation Analysis and financial situation

Business overview

Premier Technology Public Company Limited ("the Company") is one of Premier Group of companies. It operates the core business of Total Enterprise Solution and Services Provider through investment in a Subsidiary, Datapro Computer Systems Company Limited ("Subsidiary") and operates office building rental business, "Premier Place Building".

Technology has played a role in the business sector and influences business operations. If businesses can see opportunities and adapt to changes in technology, it creates a competitive advantage. On the other hand, businesses that can't keep up with technology can lose their competitiveness. In addition, the government's policy to develop the country to Thailand 4.0 is an important factor driving domestic entrepreneurs to increase their investment in information technology equipment, to be used to increase work efficiency and as a data analysis tool for making decisions in various matters which creates added value to the business. The core technologies that have received great attention are the Internet of Things (IoT), Cloud Computing, Big Data Analysis and Cyber Security Protection System to prevent unauthorized intrusion into the organization's network.

During 2021, the epidemic situation of COVID-19 continued from the previous year affect the economy, businesses and people widely both in production and transportation, resulting in the production process of many types of IT products, especially products in the group of network equipment (NetWork) is not enough to meet the demand, affecting a long time to wait for the product delivery. In addition, some companies have slowed down their investment in ordering products and many companies consider employees to work from home instead of at the workplace, which then resulted in a delay in the installation and delivery of the project. This caused the Company's whole year 2021 total revenue of 2,170.02 million baht, decreasing from the previous year by 682.93 million baht or 23.94 percent.

Since the end of 2011, the Company has invested in Premier Place building to be an office and used in business operations as a data center for customers of the Subsidiary and utilized some areas for leasing until the year 2021. The Company has continuously renovated the Premier Place buildings, both inside and outside, such as improving the sprinkle system, fire exit using air-pressurized system, installing CCTV and fire alarm to increase the safety of the tenants, improvement of wastewater treatment system, sanitation systems and electricity system, air conditioning system, installing film around the building to reduce energy consumption and to protect the environment, a ramp for wheelchair, landscape architecture outside the building, car park, improvement of air conditioning system passenger elevator system, wastewater treatment system, etc. During the year 2021, the total amount that the Company used in renovating Premier Place building totaling 1.6 million baht. Part 2 Corporate Governance

6 Corporate Governance Policy

6.1 Overview of policies and practices of corporate governance

The Company's Board of Directors emphasizes good corporate governance. It believes that good corporate governance and management under the framework of good ethics, transparency, accountability and fairness to all relevant parties will help to promote the Company's stable and sustained growth and help to increase the confidence of the shareholders, investors and all related parties. Therefore, the Board of Directors has established in writing the principles of good corporate governance as guidance for the management and employees as follows:

1. Conduct business with integrity, fairness, transparency and accountability, and disclose adequate information to all relevant parties.
2. Provide appropriate and effective internal control, risk management and internal audit systems.
3. Emphasize on the rights of shareholders and treat shareholders equally with fairness to all parties.
4. Comply with the requirements of all relevant laws and regulations and business ethics in order to protect the rights of all groups of stakeholders.
5. Organize the structure, duties and responsibilities of each group of directors clearly.

6.1.1 Policies and practices relating to directors

The Company has set the guidelines regarding the responsibilities of the Board of Directors as follows:

1. Structure of the Board of Directors

1.1 The Board of Directors has prescribed that the structure of Board should consist of directors with various qualifications in terms of sex, age, education, professional experience, skills and knowledge, specific capabilities that benefit the Company. There should be at least one non-executive director who has experience in the core business or industry of the Company.

1.2 The Board of Directors ensures that the Board's diversity policy and the number of years each director has served as a director of the Company are disclosed in the annual report and on the Company's website.

- 1.2.1 Disclose the procedures for selection of directors that is formal and transparent and the number of years each director has served as a director of the Company are disclosed in Annual Registration Statement (Form 56-1 One Report) and on the Company's website.
- 1.2.2 Disclose the name, history, qualifications, experience and shareholding in the Company of the directors in order to show that the Board has the knowledge, skills, characteristics and experience that are useful to the Company in Annual Registration Statement (Form 56-1 One Report) and on the Company's website.
- 1.2.3 Disclose clearly in Annual Registration Statement (Form 56-1 One Report) the directors representing the shareholders / non-executive directors / independent directors / executive directors.

1.3 The Board of Directors is appropriately sized and is composed of persons with sufficient knowledge, experience and skills to perform their duties efficiently. The Board is composed of at least 5 but not more than 12 directors.

1.4 The Board of Directors consists of independent directors who can independently comment on the performance of the management in the number prescribed in the notification of the Securities and Exchange Commission (SEC).

1.5 The proportion of directors is in accordance with the director nomination process, which is mainly based on the criteria of knowledge, competency and suitability of the person to be appointed as a director rather than on the criteria on proportion of investments.

1.6 The Company takes into account the benefits to corporate management according to the director nomination process set by the Company rather than the number or proportion of independent directors.

1.7 The Board of Directors has determined the tenure of each term of office but has not set the limit on the number of consecutive terms in office.

1.8 The Board of Directors considers the qualifications of the person to be appointed as an “independent director” to ensure that the independent directors of the Company are truly independent and are appropriate for the specific nature of the Company. Their independence must at least be in accordance with the criteria set by the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET).

1.9 The continuous tenure of the independent director will be beneficial to the corporate management and business operations of the Company. In addition, the search for a competent person to serve as independent directors cannot be implemented immediately.

1.10 The Chairman of the Board and the Managing Director have different roles and responsibilities. The Board has clearly defined the roles and responsibilities of the Chairman and the Managing Director and has recruited different persons to hold the positions of Chairman and Managing Director so that neither person has unlimited power.

1.11 The Board of Directors respects the judgment of the Managing Director and senior executives of the Company not to serve as a director of other companies with the same business as or in competition with the business of the Company or are contrary to the interests of the Company.

1.12 The Company has appointed a Company Secretary to be responsible for advising on laws and regulations of relevance to the Board of Directors and for overseeing the activities of the Board, including coordinating the compliance with the Board's resolutions.

The Board of Directors has determined the qualifications and experience of the appropriate Company Secretary who will perform the duty as the secretary of the Company. The qualifications and experience of the Company Secretary are disclosed in Annual Registration Statement (Form 56-1 One Report) and on the website of the Company.

1.13 The Company Secretary has received training and continuous development in legal, accountancy, or company secretarial practices. The Company determines the qualifications and appoints a person as the Company Secretary by taking into consideration of mainly his knowledge, capability and work experience, disregarding whether such person is a permanent employee of the Company or not.

2. Committees

2.1 The Board of Directors has appointed an Audit Committee in accordance with the requirement of the Stock Exchange of Thailand with a term of office of 3 years to perform specific duties and to propose matters for consideration or acknowledgement by the Board. The Audit Committee has rights and duties as set out in the Scope of Responsibilities of the Audit Committee and has qualifications according to the criteria prescribed by the SEC.

2.2 The Board of Directors has appointed the Corporate Governance and Risk Oversight Committee which consisting of the director from supporting unit or a person with sufficient knowledge and experience to perform governance and risk responsibilities and be independent from management. The committee consists of at least 3 directors to perform the duties of monitoring, auditing, evaluating and giving advice in regards to corporate governance and risk management.

2.3 The entire Board of Directors, except those with conflicts of interest, performs duties for the Remuneration Committee in order to consider the criteria for payment and forms of remuneration of directors in order to propose opinions to the Board of Directors, before presenting the remuneration of the directors to the shareholders' meeting for approval.

2.4 The entire Board of Directors, except those with conflicts of interest, performs duties for the Nomination Committee in order to consider the rules and procedures for the recruitment of suitable and qualified persons in line with the Company's business strategy to be a director, including selection of people in accordance with the specified recruitment process, propose opinions to the Board of Directors to propose to the shareholders' meeting to appoint directors. 3.3 The Board of Directors promotes the preparation of a written code of conduct so all directors, executives and employees will understand the ethical standards the Company uses in its business operations and seriously monitors compliance with the code.

The Company conducts all employees to take the "Honest Thai" test through the Company's intranet system to ensure that employees have the knowledge and understanding about anti-corruption, which is part of business ethics and can be implemented correctly and appropriately. The Company has evaluated the performance of all employees on the topic of morality and ethics, and good governance to be a good role model for others and society according to the core values of the Premier Group of Companies annually.

3.4 The Board of Directors considers any conflict of interests thoroughly. There should be clear guidelines on the approval of transactions with possible conflicts of interest, which is chiefly for the best interests of the Company and all its shareholders. Persons with vested interests should not participate in the decision-making process. The Board should also monitor compliance with regulations regarding the procedures for and disclosure of information on transactions that may have conflicts of interest to ensure accuracy and completeness.

3.4 The board has carefully considered conflicts of interest. The consideration of conducting transactions that may have conflicts of interest should have a clear guideline and be for the benefit of the Company and shareholders as a whole, where stakeholders do not participate in decision-making and the Board of Directors ensures that the requirements regarding procedures and disclosure of transactions that may have conflicts of interest are followed to be accurate and complete.

3.5 The Board of Directors ensures that internal control systems for financial reporting and compliance with regulations and policies are in place. The Board of Directors has assigned a person or a department that is independent to audit such systems and to review the main systems at least once a year, as well as disclose the review results in Annual Registration Statement (Form 56-1 One Report).

5. Board Self-Assessment

5.1 The Board of Directors and the sub-committees conduct self-assessment of its performance at least once a year so that the Board of Directors and the sub-committees can collectively consider its performance and problems for further improvement by setting a benchmark for systematic comparison with its performance.

5.2 The Board self-assessment is an assessment of the Board of Directors as a whole and individual. For the Sub-Committee self-assessment is an assessment of a whole board. In addition, the criteria and process are disclosed in the Company's Annual Registration Statement (Form 56-1 One Report).

5.3 The Board of Directors has assessed the performance of the Chairman of the Executive Committee or Chief Executive Officer annually in order to be used in determining compensation in accordance with assessment criteria as specified by the Stock Exchange of Thailand.

For the Board self-assessment process, the Company Secretary will send the evaluation form mentioned above to all directors in November and respond within 15 December of every year. After that, the Company Secretary will collect and report the results of the evaluation in comparison with the previous year to the next Board of Directors' Meeting to acknowledge and improve the work to be more effective.

For the Board self-assessment criteria, the Company has evaluated the performance of the entire committee and evaluate the performance of individual by using the method of 5 level scoring for each topic, which are:

- 0= Strongly disagree or there has been no implementation of the matter,
- 1= Disagree or there has been little implementation of the matter,
- 2 = Agree to a limited extent or there has been initial implementation of the matter,
- 3 = Mostly agree or there has been progressive implementation of the matter,
- 4= Strongly agree or there has been complete implementation of the matter.

The evaluation topics consisted of 6 main topics, which are:

1. Structure and qualification of the Board
2. Roles, duties and responsibility of the Board
3. Board Meeting
4. Duties of Directors
5. Relationship with the management division
6. Directors' Self Development and Executive Development.

As for the evaluation criteria of each sub-committee, the Company has a whole-group assessment by using the same method as the performance evaluation of the entire board and the individual performance evaluation which the topic of assessment consists of 3 main categories which are

1. Structure and qualifications of the sub-committees
2. Meetings of sub-committees
3. Roles, duties and responsibilities of the sub-committees

Moreover, the Company has evaluated the performance of the Chairman of the Executive Committee by considering from the Company's business operation performance and operating performance that was in accordance with the policy assigned by the Board of Directors for the improvement. Scoring method used

is the same as operation performance of the entire board evaluation and the performance of individual. The evaluation topic consisted of 3 main sections, which are:

Section 1: Progress of work plan

Section 2: Performance Measurement

- 2.1 Leadership
- 2.2 Strategy Formulation
- 2.3 Strategy Implementation
- 2.4 Financial planning and financial performance
- 2.5 Relationship with the Board
- 2.6 External Relations
- 2.7 Administration and Personnel relations
- 2.8 Succession
- 2.9 Knowledge of products and services
- 2.10 Personal Characteristics

Section 3: Development of the Chairman of the Executive Committee

6. Remuneration

Directors' remuneration is provided in a manner comparable to the level practiced in the same industry of listed companies. This includes experience, duties, roles and responsibilities. (Accountability and Responsibility) and benefits expected to receive from each director. Directors who have been assigned additional duties and responsibilities, such as members of sub-committees, should receive appropriate additional compensation.

7. Board and Management Training

7.1 The Board of Directors encourages and facilitates training and educating for those involved in corporate governance of the Company, such as directors, members of the audit committee, executives, Company Secretary, etc., to assist them to continuously improve their performance. Training and educating can be done internally or through the use of the services of external institutions.

7.2 The Board of Directors determines the orientation for all new directors to build the understanding in the Company's business and the implementation of various aspects in order to prepare for the performance of the Directors. The Company Secretary is the coordinator of the various matters such as business structure, board structure, scope of duties, related laws, business introduction, operation guidelines, etc.

7.3 The Board of Directors has established a personnel development policy for directors and executives and disclose in the Company's Annual Registration Statement (Form 56-1 One Report).

7.4 The Board of Directors requires the Managing Director to present them with the Company's succession plan at least once a year. The Managing Director and senior executives have prepared continuous succession plans in case they cannot perform their duties.

The criteria that the company was not complete and was not able to comply with the 2021 Corporate Governance Report of Thai Listed Companies (CGR) on the topic of the Board's responsibilities are as follows:

Criteria that has not practiced

1. The Board of Directors has no policy to limit the number of listed companies that each director may hold as a director in the corporate governance policy of the Company since each director has considered the efficiency in performing his duties. There is no limit to the number of companies to hold a position, therefore, there is no impact on the performance. In addition, the number of persons with sufficient knowledge and experience to hold the position of director of the Company is limited. It is difficult to find a person to serve as a director.

2. The Board of Directors does not have a policy for Managing Director on the holding of director position at other companies; since the Company has set prohibitions / restrictions on Managing Director about conducting transactions or taking positions in companies or organizations with conflicts of interest or that affect the performance of the Managing Director position. In addition to the aforementioned prohibitions / restrictions, the Company believes in and respects the judgment of the managing director for taking the position of director or any other position in the other company or other organization.

3. The Board of Directors has no policy to limit the number of years / term of office of an independent director for not more than 9 years as the continued succession of Directors can be beneficial to the Company's business and operations. In addition, to recruit personnel with knowledge and competence to hold the director position is not easily performed.

4. The Company's Board of Directors has the member of the Executive Committee who takes a position of director in other listed companies since the member of the Executive Committee has considered the efficiency in performing their duties in a timely manner. Therefore, no limiting the number of company in holding the position had no impact on the performance; and that number of persons with sufficient knowledge and experience to hold the Company's director position is limited. Thus, in stipulating such condition, the Company will face with difficulty to recruit such persons to hold the director position.

5. The Board of Directors did not disclose the CEO's remuneration policy both in short term and long term, including the monitoring of the CEO's performance as it is internal information that should not be disclosed, though the overall number of executives was disclosed.

6. Shareholders/ Board of Directors did not approve the Executive Director/ Chief Executives as the Executive Committee has informed to waive the rights to receive compensation and according to the power of authorities' handbook, the authority in setting remuneration of chief executive is in the authority of Managing Director which is already appropriate and the Board of Directors has verified through the annual budget.

7. Chairman of the Board of Directors is not independent director, as the appointment of Chairman of the Board of Directors has been considered from directors with qualification, knowledge and competence, have understanding and adhere to the good governance principle, without having to regard whether the director is independent or not.

8. The Company's Board of Directors consisted of less than 50 percent independent directors due to the elements of independent directors is not the significant essence in the Board of Directors' role of duties.

9. The Company did not provide project grants to managements to purchase the Company' shares for a period of more than 3 years and pricing higher than the price at the time of allocation, including the concentration not more than 5 percent, since The Company provides oversight and incentive to managements and other employees to work happily and organizations already bound without the need for project grants to management or other employees in purchasing the Company' shares. However, if the Company has such a project, the Company also will give both managements and other employees on the principles of equality.

6.1.2 Policies and practices related to shareholders and stakeholders

The Company respects, gives rights and treats all shareholders equally, such as giving rights to shareholders even though they only hold one share in proposing agenda or propose a suitable person to the Board of Directors for consideration to propose to the Annual General Meeting of Shareholders for consideration. In addition, the Company has a regulation of the use of internal information in order to prevent conflicts of interest. The Company is also certified as a Thai Private Sector Collective Action Coalition against Corruption from the Thai Private Sector Collective Action Coalition against Corruption and there is a provision on training and educating all employees to be aware of and strictly place importance on the Anti-Corruption and Corruption Policy and provide protection to employees who report fraudulent clues.

The Company's good corporate governance policy adheres to the Principles of Good Corporate Governance for Listed Companies B.E. 2012 related to shareholders and stakeholders are as follows:

b. Agenda to consider the remuneration of directors

- 1) Amount and form of remuneration by position or responsibilities of the directors
- 2) Directors' remuneration policy
- 3) Criteria and procedures for determining remuneration
- 4) Other benefits received as director (presently the directors do not receive any other benefit apart from meeting allowance and annual bonus)
- 5) Approved by the Board of Directors serving as the Remuneration Committee
- 6) The opinion of the Board of Directors is sufficient and clear for the shareholders to cast their vote

c. Agenda to appoint the auditor and determine the audit fee.

- 1) Name of the auditor and the audit firm
- 2) Experience and competence of the auditor
- 3) Independence of the auditor
- 4) Years of service to the Company (in case of appointment of the current auditor) or reason for the change of auditor (in case of appointment of a new auditor)

- 5) How the suitability of the audit fee together with other fees of the auditor is determined
 - 6) Approved by the Audit Committee
 - 7) The opinion of the Board of Directors is sufficient and clear for the shareholders to cast their vote
- d. Agenda on dividend payment
- 1) Dividend policy
 - 2) The amount of dividends to be paid together with reasons and information for consideration
 - 3) Reason why dividend payment does not conform to the policy
 - 4) The opinion of the Board of Directors is sufficient and clear for the shareholders to cast their vote
- e. Agenda to consider material matters of the Company, such as capital increase / decrease, amendment of regulations, business sale / dissolution / transfer / merger etc.
- 1) Details of the matter proposed.
 - 2) Objective, reason or necessity.
 - 3) Impact on the Company and its shareholders.
 - 4) The opinion of the Board of Directors is sufficient and clear for the shareholders to cast their vote

1.3 The Board of Directors facilitates shareholder participation and voting in meetings and refrains from any action that could limit the opportunities of the shareholders to attend the meeting. The procedures for attending and voting should not be complicated or too costly for shareholders, and the meeting location should have sufficient size and easily accessible.

1.4 The Company provides the shareholders with an opportunity to send their questions about the Company prior to the meeting date, by clearly determining the criteria for submission of questions in advance and duly informing the shareholders along with the delivery of the notice to the shareholders' meeting. In addition, the Company also disseminates the criteria for submission of questions in advance on its website. The Board of Directors has prescribed the procedure for screening the questions submitted in advance and requires that the Company to provide answers to the shareholders in advance, as well as inform the shareholders' meeting. The details of the procedure are as follows:

- 1.4.1 The Company provides shareholders with the opportunity to submit questions related to the meeting agenda to the Board of Directors in advance throughout the submission period. As for the general meeting of shareholders, the Board will gather the questions until 7 days before the meeting date. The Company adheres to the following guidelines:
- 1) Clearly determine the criteria for submission of questions in advance.
 - 2) Inform the shareholders along with the delivery of the notice to the shareholders' meeting.

- 3) Prescribe procedures for advance submission of the questions, such as allowing the shareholders to send the questions through the Company's website, by email or by post to the Board of Directors.

- 7) The Company answers the questions for the shareholders on the day of the meeting.
- 8) The Company informs the shareholders' meeting of the questions submitted in advance by the shareholders and the answers to such questions.

1.5 The Board of Directors encourages shareholders to use proxy forms on which they can specify their votes and proposes as an option at least 1 independent director for shareholders to appoint as their proxy.

Shareholders can download proxy through the Company's website and the Company also provides a stamp duty to shareholders. Moreover, the shareholders have rights to attend the meeting after the Chairman opened the meeting and vote on the remaining agenda which is still under consideration and no vote and to be counted the attendance since that agenda except the shareholders would have seen otherwise.

2. Procedures on the Shareholders' Meeting Date

2.1 The Board of Directors encourages the use of technology with the shareholders' meetings, including registration of the attending shareholders and vote counting and reporting, so that the meeting can be conducted quickly, accurately and precisely.

2.2 Directors' Attendance at shareholders' meetings

2.2.1 All directors should attend the shareholders' meetings.

2.2.2 In the case where not all the directors can attend, at least the following persons must attend the shareholders' meetings:

- 1) Chairman
- 2) Managing Director
- 3) Chairman of the Audit Committee

2.2.3 The shareholders are presented with the opportunity to pose questions to the chairpersons of the various committees on matters in which they are involved.

2.3 In the shareholders' meeting, voting is made separately for each item in the case of several items in an agenda, such as the election of directors.

2.4 The Company has in place a process for vote counting, storage of voting papers for every agenda item and full video recording of the meetings, which is disclosed on the Company's website. The meeting and vote counting for every agenda item are conducted with transparency and accountability.

2.5 The Chairman has allocated adequate time for discussion and encourages the shareholders to express opinions and pose questions related to the Company to the meeting.

3. Preparation and Disclosure of the Minutes of the Shareholders' Meetings

3.1 The minutes of shareholders' meetings records the explanation of the voting and vote counting procedures used to the meeting prior to commencement of the meeting, as well as the opportunity provided for the shareholders to raise issues and questions. It also records the questions and answers, the voting results for each agenda item of the number of shareholders approving, dissenting and abstaining, and the list of directors who attended or missed the meetings.

3.2 The Company discloses to the public the voting results and the minutes of the meeting on its website. The details of the practice are as follows:

3.2.1 Disclose the resolutions of the meeting separated into approving, dissenting or abstaining votes on the next working day.

3.2.2 Disseminate the minutes of the meeting within 14 days from the shareholders' meetings to serve as a channel for shareholders to express an opinion without having to wait for the next meeting.

3.2.3 Post the videos of the shareholders' meeting on the Company's website.

4. The Company provides more care to the shareholders than their legal rights by providing current important information on its website.

For the 2021 Annual General Meeting of Shareholders, the Company held the meeting on Wednesday 28 April 2021 at 10.00 a.m., via Electronic Method (E-AGM), in accordance with the Emergency Decree on Electronic Meetings, B.E. 2563 and other laws and regulations related. A total of 37 shareholders attended the meeting in person and by proxy or 50.0403 percent of the total number of subscribed shares after deduction of treasury stock. The meeting was attended by the total of 7 directors from the totaling of 8 directors comprising the Chairman, Chairman of the Audit Committee, Managing Director and 5 other directors. In addition, the Company's senior management for Accounting Division, Financial Division and Legal Division of the Company and its Subsidiary; Company Secretary and external auditor also joined the meeting.

At every General Meeting of Shareholders, the Company assigned the Thailand Securities Depository Company Limited which is the share registrar of the Company, to send the notice of the meeting together with the rules and procedures for attending the meeting and all relevant supporting information of the various agendas, which included adequate and clear opinions from the directors for each agenda item, to inform the shareholders prior to the meeting date. Such information in both Thai and English were also posted not less than 30 days prior to the meeting date on the Company's website; www.premier-technology.co.th, so as to allow the shareholders time to review the information in advance of the date of the meeting. The minutes of the meeting was prepared

and filed with the Stock Exchange of Thailand and disseminated on the Company's website within 14 days from the date of the meeting for the shareholders to review.

In 2021, the Company was assessed for the management quality of its Annual General Meeting of Shareholders under the Annual General Meeting of Shareholders (AGM) Assessment project organized by the Thai Investors Association together with the Office of the Securities and Exchange Commission and the Thai Listed Companies Association. The criteria used in the assessment covers the various steps in arranging the shareholders' meeting before the meeting day, on the meeting day and after the meeting day. The Company received an "Excellent" rating.

The criteria that the Company was not able to put into practices according to the 2021 CGR in Chapter 1 The Rights of Shareholders are as follows:

1. The Company had not present about the vote-counting auditor in the shareholders meeting report since in providing independent individual to be the canvasser or to verify the vote results is not the method to prevent corruption in casting a vote. The Company has completely provided the method in counting, storing vote documents and recording of the meeting as well as disclosed on the Company's website. Thus the proceeding of the meeting and vote counting is transparent and accountability.

2. The Board of Directors hold total shares of more that 25 percent of the issued shares of the Company as the Company has no rights or involved in trading or holding shares of shareholders.

Chapter 2 The Equitable Treatment of Shareholders

The Board of Directors supervises and protects the fundamental rights of all shareholders whether major shareholders, minority shareholders, institutional investors or foreign investors equally, including the process that facilitate the shareholders to attend the meeting without too much hassle, shareholders are protected from acts of exploiting and controlling shareholder. The measures of protection directors, management and employees from using the inside information for the benefit of the whole, including directors and management have to disclose information regarding their interests and their related parties.

The Company has established guidelines for the equitable treatment of shareholders as follows:

1. Release of Information Prior to the Shareholders' Meeting

1.1 The Company informs the Stock Exchange of Thailand of the meeting schedule together with the agenda and opinions of the Board of Directors and disseminated this information on the Company's website. The details of the procedures are as follows:

1.1.1 The Company provides an opportunity for the shareholders to review the supporting information of the meeting on its website at least 30 days prior to the date of the shareholders' meeting.

1.1.2 The supporting information of the meeting posted on the Company's website contains the same information that the Company will send to the shareholders in the form of hard copy documents.

1.1.3 The Company sends the notice of the meeting and the supporting documents to the shareholders for more days in advance than that stipulated by law (at least 30 days prior to the meeting date).

1.2 The Company informs the shareholders of the various meeting rules and procedures for voting, including the voting rights attached to each class of shares, both in the notice of the meeting and at the shareholders' meeting.

1.3 The above notice of the shareholders' meeting is fully translated into English and disseminated at the same time as the Thai version.

2. Protection of the Rights of Minority Shareholders

2.1 The Board of Directors has clearly pre-determined the criteria for minority shareholders to propose additional agenda items in advance of the shareholders' meeting date. In order to demonstrate fairness and transparency in considering whether the agenda items proposed by the minority shareholders should be included, the Company has the following criteria:

- 1) All shareholders have the right to propose agenda items.
- 2) Details of the supporting information for consideration.
- 3) Criteria to determine inclusion/non-inclusion of the matter proposed as an agenda item.
- 4) Channels through which to propose agenda items, such as send a letter to the Board of Directors that may be sent in advance through the Company's website, by email etc.
- 5) Nomination period is from 1 January to 31 December of every year
- 6) The Board of Directors informs the shareholders via the Company's website of the criteria for proposing agenda items.
- 7) There is a screening process of the matters proposed by the shareholders for consideration by the Board of Directors in the Board meeting.
- 8) Inform the shareholders of the Board of Directors' decision together with the reasoning by informing the shareholder who proposed the agenda item and informing the shareholders' meeting.

2.2 The Board of Directors established procedures for minority shareholders to nominate candidates to serve as directors and to provide supporting information regarding the candidates' qualifications and their consent in advance of the shareholders' meeting date. The rules for nomination are as per the following topics:

- 1) Nomination channel is by submitting a letter to the Board of Directors.
- 2) Nomination period is from 1 January to 31 December of every year.
- 3) Supporting information for consideration, such as detailed information on the qualifications of the proposed candidates, the candidates' letters of consent, etc.
- 4) The Board of Directors informs the shareholders of the rules for nomination candidates through the dissemination channels of the Stock Exchange of Thailand and through the Company's website.
- 5) The Board of Directors considers the qualifications of the candidates proposed by the minority shareholders according to the criteria set by the Company.

- 6) The Company Secretary informs the shareholders who proposed candidates of the Board of Directors' decision and its reasoning and the Chairman informs the shareholders' meeting.

2.3 Shareholders in a management position may not add an agenda item without prior notice unless necessary, especially important agenda items that the shareholders require time to review before making a decision.

2.4 The Board of Directors provides the opportunity for the shareholders to exercise their rights to elect directors individually.

3. Prevention of the use of insider information

3.1 The Board of Directors sets policies for keeping and preventing the use of insider information of the Company in writing, and inform such guidelines to everyone in the organization to follow, including the guideline on the trading of the Company's stocks for directors, executives and employees with internal information to use as a guideline. Directors, executives and employees with internal information must not trade, transfer or accept the transfer of stocks of Company during the period of 1 month before the financial statements were disclosed and within 2 working days after the said disclosure.

3.2 All directors and executives who have a duty by law to report on their stock holding of the Company are required to regularly send such report to the Board of Directors and this information must be disclosed in the Company's Annual Registration Statement (Form 56-1 One Report).

4. Conflicts of Interest of Directors

4.1 The Board of Directors has a policy for the directors and executives to report any conflict of interest regarding each agenda item prior to consideration and that such conflict must be recorded in the minutes of the Board of Directors' meeting as follows:

- 1) The Board of Directors has set the guideline for the directors and executives to disclose their interests and those of their related persons to the Board so that it can make a decision for the benefit of the Company as a whole.
- 2) This guideline is consistent with the nature of the business and the regulations of the relevant authorities, such as the Bank of Thailand, the Securities and Exchange Commission, the Stock Exchange of Thailand, etc.
- 3) The Company Secretary has been assigned as the recipient for information on any interest of the directors, executives and their related persons.
- 4) The Company Secretary has the duty to report any interest of the directors and executives, together with related persons to the Board of Directors, especially when the Board has to consider any transaction between the Company and the director or executive who have an interest or is connected.

4.2 The Board of Directors supervises that directors with material interest in a manner that may impede the said directors from providing an independent opinion shall not participate in the meeting to consider the agenda item in which he has an interest.

At the 2021 Annual General Meeting of Shareholders, there were no changes in the order of the agenda items and no agenda item was added. The meeting was not requested to consider matters other than those specified in the notice of the meeting.

Moreover, directors and executives have reported their shareholdings in the Company of their spouses and minor children to the Board of Directors or the person who was assigned by the Board of Directors including the disclosure of the Board of Directors and Annual Registration Statement (Form 56-1 One Report)).

The criteria that the Company was not able to put into practices according to the 2021 CGR in Chapter 2 The Equitable Treatment of Shareholders are as follows:

The Company did not specify the election of directors by Cumulative Voting because the Company has completed the process of recruiting qualified management and recognizes the rights of the minority anyway.

Chapter 3 The Role of Stakeholders

The Company believes that the private sector is a significant factor of the economic and social of the country and the Company is deemed responsible for taking care of the survival and the sustainability of the social. Therefore, the Company and its Subsidiary adhere to their intention to operate business by recognizing the significant of all stakeholders under the Premier Group's business intention for "Progress Business, Stable Employees, Sustainable Society". In the event of that the nominees elected in subsequent order receives equal votes and the number of directors to be elected at that time is exceeded, the chairman of the meeting shall cast the deciding vote.

3. At every Annual General Meeting of Shareholders, one-third of the directors shall retire. If one-third is not a round number, the number closest thereto shall be the applicable number.

The directors to vacate office within the first and the second year following Company registration shall draw lots. In subsequent years, the directors serving the longest shall retire. The directors who retire by rotation are eligible for re-election by the shareholders.

4. Any director who wishes to resign from office shall submit a letter of resignation to the Company. The resignation shall be effective on the date that the Company receives the letter. The director may notify the Registrar of his resignation.

5. In the event that a position of director becomes vacant for any reason other than the end of the office term, the Board of Directors shall appoint any individual with the characteristics prescribed by law to be a new director at the next Board meeting, except if the remaining office term is less than 2 months. The replacement director shall hold office only for the remainder of the office term of the director whom he replaces.

The resolution of the Board of Directors pursuant to the first paragraph must consist of votes of not less than three-fourths of the number of remaining directors.

6. The shareholders' meeting may remove any director from office before the end of term with a resolution of not less than three-fourths of the total votes of shareholders present and eligible to vote and altogether holding not less than one-half of the total number of all shares held by the shareholders present and eligible to vote at that meeting.

B. Audit Committee

The Board of Directors appoints at least 3 members to serve as the Audit Committee of the Company. Each member of the Audit Committee must be an independent director and must possess the qualifications stipulated by the securities and exchange laws, as well as relevant notifications, regulation and/or rules of the Stock Exchange of Thailand that prescribes the qualifications and scope of duties and responsibilities of the Audit Committee.

C. Executives

The Company has a policy to recruit executives through the selection of persons who possess knowledge, capability, skills and experience beneficial for the Company's operations, fully understands the Company's business and is capable of managing the business to achieve the objectives and goals set by the Board of Directors. Selections are made in accordance with the human resources regulations and must be approved by the Board of Directors and/or any person assigned by the Board of Directors.

Board and Management Training

1. The Board of Directors encourages and facilitates training and educating for those involved in corporate governance of the Company, such as directors, members of the Audit Committee, executives, the Company Secretary, etc., to assist them to continuously improve their performance. Training and educating can be done internally or through the use of the services of external institutions.

2. The Board of Directors determines the orientation for all new directors to build the understanding in the Company's business and the implementation of various aspects in order to prepare for the performance of the Directors. The Company Secretary is the coordinator of the various matters such as business structure, board structure, scope of duties, related laws, business introduction, operation guidelines, etc.

3. The Board of Directors has established a personnel development policy for directors and executives and disclose in the Company's Annual Registration Statement (Form 56-1 One Report).

Part 3 Financial Statements

Report of the Board of Director's Responsibilities for Financial Statements

The Board of Directors are responsible for the financial report as prepared by Premier Technology Public Company Limited and its Subsidiary in order to ensure the accurate and reasonable presentation of financial position, revenues and expenses and statement of cash flow. The presentation reflects accurate, complete and sufficient data entry of assets; prevents frauds and abnormal business operations. In preparing the financial report, appropriate accounting policies have been practiced consistently and in compliance with the generally accepted accounting standards. Significant information has also been sufficiently disclosed in notes to financial statements and the auditors provided their opinion in Report of the Independent Auditors.

The Board of Directors appointed the Audit Committee consisting of the independent directors to review the financial report and review the sufficiency of the internal control system. The opinion of the Audit Committee appeared in Report of the Audit Committee in the Annual Registration Statement (Form 56-1 One Report).

The Board of Directors has the opinion that the Company's overall internal control is adequate and appropriate to be rationally confident that the Company and its Subsidiary's financial statements and the consolidated financial statements for the year ended 31 December 2021 are reliable in accordance with the generally accepted accounting standards and accurate under the relevant laws and procedures.

(Mr. Vichien Phongsathorn)

Chairman

On behalf of the Board of Directors

Premier Technology Public Company Limited and its Subsidiary
Report and consolidated financial statements
31 December 2021

Independent Auditor's Report

To the Shareholders of Premier Technology Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Premier Technology Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2021, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Premier Technology Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Premier Technology Public Company Limited and its subsidiaries and of Premier Technology Public Company Limited as at 31 December 2021, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matter and how audit procedures respond for the matter are described below.

Recognition of sales revenue

The subsidiary's revenue from sales, amounting to Baht 1,036 million, consists of revenue from sales of goods and revenue from IT integrated solutions. The amount of sales revenue recognised by the subsidiary is significant to the Group's total revenue and has a direct impact on the profit or loss of the entity. In addition, the process of measurement underlying the recognition of revenue from IT integrated solutions requires management to exercise significant judgement to assess the percentage of completion of the project work. I therefore focused on the audit of the amount and timing of the subsidiary's recognition of revenue from sales.

In order to examine the subsidiary's recognition of revenue from sales of goods I assessed and tested internal controls with respect to the revenue cycle by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative sample to test the operation of the designed control. Moreover, on a sampling basis, I examined documents supporting actual sales transactions occurring during the year and near the end of the accounting period, reviewed credit notes issued by the subsidiary after the period-end and performed analytical procedures on data of the revenue account to detect possible irregularities in sales transactions throughout the period.

For revenue from IT integrated solutions, I gained an understanding of the internal controls related to this revenue, including those related to procurement and the recording of project costs, inquired of responsible executives, and gained an understanding of the processes that the subsidiary applied in assessing the percentage of completion, estimating project costs and estimating possible losses. I also considered the conditions in the contracts relating to revenue recognition. In addition, I examined the estimation of project costs and, on a sampling basis, I examined the supporting documents for project costs incurred during the year and performed an analytical review of the percentage of completion estimated by the project managers and the percentage of completion determined through a comparison of project costs incurred throughout the period to the total estimated project costs. I also read related contracts and performed an analytical review of gross profit margin to detect possible irregularities.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Premier Technology Public Company Limited and its subsidiaries**Notes to consolidated financial statements****For the year ended 31 December 2021****1. General information****1.1 Corporate information**

Premier Technology Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in a holding company. The registered office of the Company is at 1 Premier Corporate Park, Soi Premier 2, Srinakarin Road, Nongbon, Prawet, Bangkok.

1.2 Coronavirus disease 2019 Pandemic

The Coronavirus disease 2019 pandemic is adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the group operates. The Group’s management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

2. Basis of preparation

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of Premier Technology Public Company Limited (“the Company”) and the following subsidiaries (“the subsidiaries”) (collectively as “the Group”):

Company's name	Nature of business	Country of incorporation	Percentage of shareholding	
			<u>2021</u>	<u>2020</u>
			Percent	Percent
<u>Owned by the Company</u>				
Datapro Computer Systems Company Limited	Distribution and provision of services relating to computer and computer systems	Thailand	100	100
<u>Owned by the Company's subsidiary</u>				
Datapro Computer Systems (Myanmar) Company Limited (Wholly owned by Datapro Computer Systems Company Limited)	Provision of services relating to computer systems	The Republic of the Union of Myanmar	100	100

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) The assets and liabilities in the financial statements of overseas subsidiary companies are translated to Baht using the exchange rate prevailing on the end of reporting period, and revenues and expenses translated using monthly average exchange rates. The resulting differences are shown under the caption of “Exchange differences on translation of financial statements in foreign currency” in the statements of changes in shareholders’ equity.
- f) Material balances and transactions between the Group have been eliminated from the consolidated financial statements.

- 2.3 The separate financial statements present investments in subsidiaries under the cost method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2022

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and, for some standards, providing temporary reliefs or temporary exemptions for users.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

4. Significant accounting policies

4.1 Revenues and expense recognition

a) Revenue from contracts with customers

The subsidiary recognised revenue from contracts with customers when the subsidiary entered into agreements which had enforceable rights and obligations. The subsidiary identifies the performance obligations in the contract and allocate the transaction price to the performance obligations in the contract.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the subsidiary expects to be entitled in exchange for those goods or services, net of value added tax ("VAT"). Depending on the terms of the contract and the laws that apply to the contract, control of the asset may be transferred over time or at a point in time.

The subsidiary principally earns revenue from IT integrated solutions and services relating to information technology systems which can be broadly categorised as follows:

IT integrated solutions

IT integrated solutions comprise a comprehensive range of services, from project design and planning, assessment of hardware and/or software options and their suitability, sourcing and sale of hardware and/or software. Contracts for bundled sales of hardware and/or software and integration services are treated as a single performance obligation. Revenue from IT integrated solutions is recognised over time, when services have been rendered taking into account the stage of completion, using an output method, based on information provided by the subsidiary's engineers or project managers or recognised at a point in time depending on the terms of the contracts.

Services relating to information technology systems

Services relating to information technology systems is recognised over time when services have been rendered taking into account the stage of completion, measuring based on a straight-line basis over the contractual terms.

b) Rental income

Rental income is recognised as revenue on a straight-line basis over the related rental agreement.

c) Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

d) Dividends

Dividends are recognised when the right to receive the dividends is established.

4.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and cash at banks, and all highly liquid investments with an original maturity of 3 months or less and not subject to withdrawal restrictions.

4.3 Inventories

Inventories are valued at the lower of cost (under the first-in, first-out method and the specific identification method) and net realisable value.

4.4 Investments in subsidiaries

Investments in subsidiaries are accounted for in the separate financial statements using the cost method net of allowance for impairment loss (if any).

4.5 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and allowance for loss on impairment (if any).

Depreciation of investment properties is calculated by reference to their costs on the straight-line basis over estimated useful lives of 3 - 20 years. Depreciation of the investment properties is included in determining income.

On disposal of investment properties, the difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period when the asset is derecognised.

4.6 Property, plant and equipment/Depreciation

Land is stated at cost. Building and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of building and equipment is calculated by reference to their costs, on the straight-line basis over the following estimated useful lives:

Building	-	20 years
Leasehold improvements	-	5 and 10 years
Furniture and fixtures	-	5 and 10 years
Office equipment	-	5 years
Computer and equipment	-	3, 5 and 10 years
Motor vehicles	-	5 years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.7 Intangible assets

Intangible assets are recognised at cost. Following the initial recognition, the intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on the straight-line basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

The Group amortises intangible assets, which comprise product design and development costs on the straight-line basis, with the periods of economic useful life being approximately 10 years.

4.8 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred (if any), and lease payments made at or before the commencement date of the lease less any lease incentives received (if any).

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Building and improvements	4 - 6 years
Computer and equipment	5 years
Motor vehicles	1 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

The Group as a lessor

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee. Lease receivables from operating leases is recognised as income in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying assets and recognised as an expense over the lease term on the same basis as the lease income.

4.9 Related party transactions

Related parties comprise enterprises and individuals that control, or are controlled by, the Group, whether directly or indirectly, or which are under common control with the Group.

They also include associated companies and individuals which directly or indirectly own a voting interest in the Group that gives them significant influence over the Group, key management personnel, directors and officers with authority in the planning and direction of the Group's operations.

4.10 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Group's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.11 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment, right-of-use asset, investment properties and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Group could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss.

In the assessment of asset impairment, if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss.

4.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The subsidiary and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the subsidiary. The fund's assets are held in a separate trust fund and the subsidiary's contributions are recognised as expenses when incurred.

Defined benefit plans

The subsidiary has obligations in respect of the severance payments they must make to employees upon retirement under labor law. The subsidiary treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the subsidiary recognises restructuring-related costs

5.13 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

5.14 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.15 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value including interest income recognised in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Group has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Classification and measurement of financial liabilities

Except for derivative liabilities, at initial recognition the Group's financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Regular way purchases and sales of financial assets

Regular way purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace are recognised on the trade date, i.e., the date on which the Group commits to purchase or sell the asset.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Group considers a significant increase in credit risk to have occurred when contractual payments are more than 30 days past due and considers a financial asset as credit impaired or default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to have a significant increase in credit risk and to be in default using other internal or external information, such as credit rating of issuers.

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.16 Derivatives

The Group uses derivatives, such as forward currency contracts to hedge its foreign currency risks, respectively.

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. The subsequent changes are recognised in profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Derivatives are presented as other non-current assets or other non-current liabilities if the remaining maturity of the instrument is more than 12 months and it is not due to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

4.17 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Revenue from contracts with customers

Identification of performance obligations

In identifying performance obligations, the management is required to use judgement regarding whether each promise to deliver goods or services is considered distinct, taking into consideration terms and conditions of the arrangement. In other words, if a good or service is separately identifiable from other promises in the contract and if the customer can benefit from it, it is accounted for separately.

Determination of timing of revenue recognition

In determining the timing of revenue recognition, the management is required to use judgement regarding whether performance obligations are satisfied over time or at a point in time, taking into consideration terms and conditions of the arrangement. The Group recognises revenue over time in the following circumstances:

- the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs
- the entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date

Where the above criteria are not met, revenue is recognised at a point in time. Where revenue is recognised at a point in time, the management is required to determine when the performance obligation under the contract is satisfied.

In calculating the revenue recognised over time, the management is required to use judgement regarding measuring progress towards complete satisfaction of a performance obligation, measuring based on information provided by the subsidiary's engineers or project managers.

Leases***Determining the lease term with extension and termination options - The Group as a lessee***

In determining the lease term, the management is required to exercise judgement in assessing whether the Group is reasonably certain to exercise the option to extend or terminate the lease considering all relevant facts and circumstances that create an economic incentive for the Group to exercise either the extension or termination option.

Allowance for expected credit losses of trade receivables

In determining an allowance for expected credit losses of trade receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

Investment property

In determining depreciation of investment property, the management is required to make estimates of the useful lives and residual values of investment property and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review investment property for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Property plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

6. Related party transactions

During the years, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Group and those related parties.

26. Financial information by segment

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the Group's Board of Directors.

For management purposes, the Group is organised into business units based on its products and services and have 2 reportable segments as follows:

- (1) Distribution and provision of services relating to computer and computer systems.
- (2) Rent out space and services.

No other operating segments have been aggregated to form above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements. However, the Group's central administrative activities, financing activities (including finance costs and finance income) and income taxes are managed on a group basis. Therefore, these income and expenses are not allocated to operating segments.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following tables present revenue and profit information regarding the Group's operating segments for the years ended 31 December 2021 and 2020.

Geographic information

The Group is operated in Thailand only. As a result, all of the revenues and assets as reflected in these financial statements pertain to the aforementioned geographical reportable segment.

Major customers

For the year 2021, the Group has revenue from three major customers in amount of Baht 477 million (2020: Baht 799 million derived from three major customers), arising from distribution and provision of services relating to computer and computer systems segment.

27. Provident fund

The subsidiary and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. Both employees and the subsidiary contributed to the fund monthly at the rate of 5 and 8 percent of basic salary. The fund, which is managed by Kasikorn Asset Management Company Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for the year 2021 amounting to approximately Baht 22 million (2020: Baht 23 million) were recognised as expenses.

29. Commitments and contingent liabilities

29.1 Capital commitments

As at 31 December 2021, the Group does not have capital commitments (2020: Baht 2 million) (the Company only: Baht 2 million), relating to renovation of rental building and building systems.

29.2 Service commitments

The Group had entered into several service agreements in respect of the office building services with other companies and a related company. The terms of the agreements are generally between 1 to 3 years.

As at 31 December 2021 and 2020, future minimum payments required under these service agreements were as follows:

	Consolidated		(Unit: Million Baht)

29.3 Long-term management service commitments

The Group has entered into management service agreements with a related company, whereby management fees totaling Baht 1.8 million per month (2020: Baht 1.8 million per month) the separate financial statement: Baht 0.6 million per month (2020: Baht 0.6 million per month) is payable in the future. The agreements end in December 2021 but they automatically renew for period of one year each time until terminate.

29.4 Bank guarantees

As at 31 December 2021, the Group has outstanding bank guarantees of approximately Baht 90 million (2020: Baht 116 million) issued by banks on behalf of the Group in respect of certain performance bonds as required in the normal course of business of the Group. These included letters of guarantee amounting to Baht 89 million (2020: Baht 115 million) to guarantee contractual performance of the subsidiary and amounting to Baht 1 million (2020: Baht 1 million) to guarantee electricity use of the Company.

30. Financial instruments

30.1 Financial risk management objectives and policies

The Group's financial instruments principally comprise cash and cash equivalents, investment, trade accounts receivable, short-term loans to related party, restricted bank deposits, trade and other payables, short-term loans from related party, long-term loans and lease liabilities. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to deposits with banks, trade accounts receivable and short-term loans to related party. The maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position. The Group's maximum exposure relating to derivatives is noted in the liquidity risk topic.

Trade receivables

The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. Outstanding trade receivables are regularly monitored. In addition, the Group does not have high concentrations of credit risk since it has a large customer base in various industries.

An impairment analysis is performed at each reporting date to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar credit risks. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial instruments and cash deposits

The Group manages the credit risk from balances with banks and financial institutions by making investments only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis and may be updated throughout the year subject to approval of the Group's Executive Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

The credit risk on debt instruments and derivatives is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Market risk

There are two types of market risk comprising currency risk and interest rate risk. The Group enters into a variety of derivatives to manage its risk exposure, including foreign exchange forward contracts to hedge the foreign currency risk arising on the import of goods.

Foreign currency risk

The subsidiary manages its foreign currency risk by hedging transactions that are expected to occur within a maximum 12-month period.

When a derivative is entered into for the purpose of being a hedge, the subsidiary negotiates the terms of the derivative to match the terms of the hedged exposure. For hedges of forecast transactions, the derivative covers the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting payable that is denominated in the foreign currency.

The subsidiary's exposure to foreign currency risk arises mainly from trading transactions that are denominated in foreign currencies. As at 31 December 2021, the subsidiary had the net liabilities denominated in foreign currency amounting to USD 1 million (2020: USD 1 million).

As at 31 December 2021 and 2020, the subsidiary had outstanding forward exchange contracts in order to hedge the foreign currency risk as follows:

Consolidated financial statements

Foreign currency sensitivity

The following tables demonstrate the sensitivity of the Group's profit before tax to a reasonably possible change in US dollar exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives as at 31 December 2021 and 2020. The subsidiary's exposure to foreign currency changes for all other currencies is not material.

Interest rate risk

The Group's exposure to interest rate risk relates primarily to their cash at banks, short-term loans to related party, short-term loans from related party, long-term loans and lease liabilities. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

As at 31 December 2021 and 2020, significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

Interest rate sensitivity

The Group considers that the sensitivity of the Group's profit before tax to a reasonably possible change in interest rates on that portion of floating rate loans to and loans from affected as at 31 December 2021 is not material.

Liquidity risk

The Group monitors the risk of a shortage of liquidity through the use of bank overdrafts, bank loans and lease contracts. The Group's policy is maintain debt-to-equity ratio and debt service coverage ratio at the rate prescribed in the bank loans agreement. Approximately 80% of the Group's debt will mature in less than one year at 31 December 2021 (2020: 72%) (the Company only: 52%, 2020: 59%) based on the carrying value of borrowings reflected in the financial statements. The Group has assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Group has access to a sufficient variety of sources of funding.

The table below summarises the maturity profile of the Group's non-derivative financial liabilities and derivative financial instruments as at 31 December 2021 and 2020 based on contractual undiscounted cash flows:

30.2 Fair values of financial instruments

As the majority of financial instruments are short-term and long-term financial liabilities carry interest rates which are close to market rates, the Group expects that fair value of their financial instruments are close to the amounts presented in the statements of financial position.

31. Capital management

The primary objective of the Group's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value and it meets financial covenants attached to the loan agreements.

As at 31 December 2021, the Group's debt-to-equity ratio was 1.4:1 (2020: 1.1:1) and the Company's was 0.4:1 (2020: 0.1:1).

32. Event after the reporting period

On 14 February 2022, the Board of directors meeting passed the resolution to raise the agenda to Annual General Meeting for approval to pay a dividend for the year 2021 to the shareholders of Baht 0.66 per share, a total of Baht 187 million. The Company has already paid an interim dividend of Baht 0.25 per share, a total of Baht 71 million. The remaining dividend is Baht 0.41 per share, a total of Baht 116 million will be paid and recorded after it is approved by the Annual General Meeting of the Company's shareholders.

33. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 14 February 2022.

1.2.3 Disclose clearly in Annual Registration Statement (Form 56-1 One Report) the directors representing the shareholders / non-executive directors / independent directors / executive directors.

1.3 The Board of Directors is appropriately sized and is composed of persons with sufficient knowledge, experience and skills to perform their duties efficiently. The Board is composed of at least 5 but not more than 12 directors.

1.4 The Board of Directors consists of independent directors who can independently comment on the performance of the management in the number prescribed in the notification of the Securities and Exchange Commission (SEC).

1.5 The proportion of directors is in accordance with the director nomination process, which is mainly based on the criteria of knowledge, competency and suitability of the person to be appointed as a director rather than on the criteria on proportion of investments.

1.6 The Company takes into account the benefits to corporate management according to the director nomination process set by the Company rather than the number or proportion of independent directors.

1.7 The Board of Directors has determined the tenure of each term of office but has not set the limit on the number of consecutive terms in office.

1.8 The Board of Directors considers the qualifications of the person to be appointed as an "independent director" to ensure that the independent directors of the Company are truly independent and are appropriate for the specific nature of the Company. Their independence must at least be in accordance with the criteria set by the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET).

1.9 The continuous tenure of the independent director will be beneficial to the corporate management and business operations of the Company. In addition, the search for a competent person to serve as independent directors cannot be implemented immediately.

1.10 The Chairman of the Board and the Managing Director have different roles and responsibilities. The Board has clearly defined the roles and responsibilities of the Chairman and the Managing Director and has recruited different persons to hold the positions of Chairman and Managing Director so that neither person has unlimited power.

1.11 The Board of Directors respects the judgment of the Managing Director and senior executives of the Company not to serve as a director of other companies with the same business as or in competition with the business of the Company or are contrary to the interests of the Company.

1.12 The Company has appointed a Company Secretary to be responsible for advising on laws and regulations of relevance to the Board of Directors and for overseeing the activities of the Board, including coordinating the compliance with the Board's resolutions.

The Board of Directors has determined the qualifications and experience of the appropriate Company Secretary who will perform the duty as the secretary of the Company. The qualifications and experience of the Company Secretary are disclosed in Annual Registration Statement (Form 56-1 One Report) and on the website of the Company.

1.13 The Company Secretary has received training and continuous development in legal, accountancy, or company secretarial practices. The Company determines the qualifications and appoints a person as the Company Secretary by taking into consideration of mainly his knowledge, capability and work experience, disregarding whether such person is a permanent employee of the Company or not.

2. Committees

2.1 The Board of Directors has appointed an Audit Committee in accordance with the requirement of the Stock Exchange of Thailand with a term of office of 3 years to perform specific duties and to propose matters for consideration or acknowledgement by the Board. The Audit Committee has rights and duties as set out in the Scope of Responsibilities of the Audit Committee and has qualifications according to the criteria prescribed by the SEC.

2.2 The Board of Directors has appointed the Corporate Governance and Risk Oversight Committee which consisting of the director from supporting unit or a person with sufficient knowledge and experience to perform governance and risk responsibilities and be independent from management. The committee consists of at least 3 directors to perform the duties of monitoring, auditing, evaluating and giving advice in regards to corporate governance and risk management.
