Position Combination or Separation: The Company has made this a policy that the Chairman of the Board of Directors shall not be the same individual who positions as the managing director, to ensure the check and balance and, so, made reviewing of work more transparent.

The Chairman of the Board of Directors comes as independent Director and is the leader and meeting moderator who controls the flow of the Board of Directors' meeting in effective and efficient manner. In each meeting, all Directors are urged to actively participate, as well as raising essential questions. Directors also occasionally meet to advice and help the business management with the managing director. At the same time, the Board is to stay away from routine day-to-day operations or business activities responsible by management, where the managing director is the head of the management team. The Board of Directors has authorized the managing director or the authorized person to sign in binding document as has been directly authorized. The Managing director then effectively authorizes and empowers the high executives with the tasks which are clearly marked in term of line of duty and responsibility. Therefore, the authority and role of the Board and that of the management are clearly defined and separated.

Persons who receive the maximum number of votes that are ranged according to the order of each candidates' score received from the vote will be elected as Directors, with the number of Directors equal to the number of Directors needed at the time of election. If too many candidates receive equal votes, they will draw for the raffle ticket to determine final selection.

For executive positions from the position of Deputy Managing Director to department directors, the management will be responsible for recruitment consideration of the most suitable person according to the Human Resource management regulation, and report to the Board of Directors to acknowledge, except when there is an appointment of head of the Internal Audit team, it must first be approved by the Audit Committees.

Policy for the Company's Directors and Executives in other firms

In 2007, the Audit Committees reviewed the principle of Good Corporate Governance which has been revised for the fifth time since 2001 to be submitted to the Board of Directors to consider a policy to allow the Company's Directors to hold positions in other companies listed in the Stock Exchange of Thailand no more than 5 companies, and in 2010 there was an adjustment in the policy that only allows directors to take a position at no more than 3 listed companies in the Stock Exchange of Thailand in order to comply with the advice of Stock Exchange of Thailand. Moreover, the Company's Board of Directors stipulated that the managing director and high executives can also hold the posts of Director in other companies as seen necessary and does not affect the duty and responsibility of the Company but must be approved by the Board of Directors or Authorized person.

The Board of Directors has not determined the term of Directors and Independent Directors, since the Company's Board of Directors believes that the expertise in the book business and other matters concerned does not depend on the number of terms in the position, but the director should have the ability and time to dedicate for the Company to their best ability in coming up with strategy, creative vision, and offering consultations to business operations. The decision to select individuals for the positions in the Board of Directors is totally the shareholders' right.

Balance of Power for Non-Executive Directors: as at December 31, 2016 the Board of Directors consists of 12 members:

- Directors that are in the management team : 2 persons
- Directors that are not in the management team : 5 persons
- Independent Directors : 5 persons

Therefore, the 5 Independent Directors which are accounted for 41.17% of all Directors which is still lower than the suggestion that the Board of Directors of a listed company should consist of more than 50% of Independent Directors, according to the survey of corporate governance of Thai listed companies by Thai Institute of Directors. However, the Company's definition of an Independent Director is more strict than the definition set forth by the Office of Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand. Thus, the Stakeholders can be sure to allow these Directors to represent the shareholders independently, resulting in check and balance for management.

The Board of the Company is responsible for performing its duties according to legality, objectives and company regulations and shareholders' resolution with integrity for the Company's best interest. The Board of the Company has an exact amount of time to be in office, which is consistent with the Company's regulations which stated that one-third of Committees who have the longest term in position must accept the resignation in each annual general meeting.

The Board of Directors has confidence that a good corporate governance process can help to promote the operations of the Company, and is the heart of achieving the fundamental objective to optimize value for the shareholders. - Giving highest priority to building satisfaction for customers

The Board of Directors understands the business operation, the responsibility to the Stakeholders, staff, environment and society. The Board has prepared the spread of business ethics, policies on social and environmental issues through several communication channels such as the public relation activities and staff's meetings. It also includes the follow up on the ethical conduct of business and stipulates the penalty measures.

Besides, in the beginning of 2011 the Company avowed the intention to join the Collective action Coalition to fight against corruption in Thailand's private sector together with Thai Institute of Directors, Thai Chamber of Commerce, Thai Banker's Association, International Chamber of Commerce and Thai Listed Companies Association. Good Corporate Governance Principle that the Company Cannot Comply

In 2016 the Company is able to follow the principles of corporate governance of Thai listed companies issued by Thai Institute of Directors. However, the Company cannot adhere to some principles as follows:

The Board of Directors should limit the term of independent committees to a maximum of 9 years without exception; preferably the maximum term should be 6 years without exception: As the Company's main business is retailing which requires special expertise in products such as books, the Board of Directors do not limit the term of independent directors. After consideration, it is agreed that experience and expertise in book business is needed in order to provide a policy, strategy, vision and advice for the Company's direction. Anyhow, the Board of Directors do not overlook the disclosure of the date each independent director took up the position and the length of term that each independent director has been in the office so far; this information is disclosed in the invitation to the General Shareholders Meeting so that it can be used as a reference in the meeting.

Anyhow, the Company's regulation indicates that in every general shareholders' meeting, one third of the directors need to leave the office, which is the director who has the longest term. The Company also gives an opportunity to the shareholders to nominate the person who is qualified to be appointed a director at least 3 months before the end of the accounting year. Because of the procedure that the Company follows in selecting the person to be the director, it can be said that the Company does not overlook the suggestion to limit the term of independent directors; the independent directors are also a member of the Board of Directors, one third of which are required to leave the office every year.

The company should form the CG Committee and Risk Management Committee: Even though the Company does not form the CG Committee as shown in the organizational structure, the Audit Committee consistently perform the task in checking the good corporate governance under the scope of duties specified in the Audit Committee's Charter and duties assigned by the Board of Directors.

10.2 Operation and Reporting

Such objective will allow the Company, stakeholders and the whole society grow together with sustainability. From the first day of establishment the objective has been carried on and seen through with determination. It has been passed on through the culture of the Company, through the attempt to become a 'good role model' in every aspect, through the works produced and through the growth in different areas.

The Company believes that the corporate social responsibility means that the Company must operate its business with ethics. Success of the Company must go along with the improvement of society. Every stakeholder is focused and treated with balance.

To achieve the above objective, the Company must make the Corporate Social Responsibility (CSR) the work and responsibility of every employee. It is in compliance with the objective of the establishment and usual business operation. CSR must be a part of the business process. CSR must not cost more than an ordinary process. CSR must involve employees. CSR must be in the actual work process. This is the reemphasis on the Company's management philosophy that we will not do anything differently from a normal business operation. We only change the 'way of thinking' and operate the normal business with 'different methods'.

Every business of the Company is aimed to answer the original objective of establishment. Books, magazines and educational resources are produced to benefit Thai society that still needs those materials. Distributing books for our publishers give a chance to good books to be widely distributed while publishers can survive, stay stronger and be ready to produce even more good books. The increase of SE-ED Book Center to different communities allow people to have an easy access to books that are selected and displayed in a way that suits the lifestyle in each area. The school focuses on promoting knowledge skill, working skill, life skill, voluntary mind and awareness of the social responsibility.

Responsibility to society, community and environment is not just an additional work but the core of the business operation, the breath of SE-ED family who are creators, initiators and role models. Every employee in the Company is a part of this responsibility in one way or another.

The Company could be claimed to have a vital role in breaking through the overall book business and quickly expanding the market for educational resources.

The Company believes that a sustainable organization can be developed from not only the ability to yield reasonable profits and growth rate for shareholder but also from the ability to improve itself to become a good role model that create works beneficial and acknowledgeable to the society at large. The Company's employees stay happy. Environmental awareness is a part of the business operation. The Company, thus, has operated the business on the interrelation of sustainable development with society and environment, with the founding belief that '**Good Will shall lead to growth, leading to profits, to strength and eventually to sustainability**'.
