- 185 Attachment 5 Assets used in business operations and details about the property appraisal
- 189 Attachment 6 Policy and Practice of Corporate Governance and Business Code of Conduct
- 196 Attachment 7 Audit Committee Report
- 198 Attachment 8 Whistleblowing Policy
- 199 Attachment 9 Charter of the Board of Directors
- 204 Attachment 10 Charter of the Audit Committee
- 206 Attachment 11 Charter of the Nomination & Remuneration and Good Governance Committee
- 208 Attachment 12 Charter of The Risk Management Committee
- 209 Attachment 13 Charter of the Executive Committee
- 210 Attachment 14 Independent Limited Assurance Report

This Annual Report (56-1 One Report) referred to the information disclosed on the Company’s website, which is an integral part of the 56-1 One Report. The Board of Directors certifies the correctness and completeness of such referred information.

Vision

Strengthen balanced management and business operations. Increase the potential for long-term sustainable business operations by focusing on producing good quality products and services, both in terms of efficiency, cost control, delivery including social and environmental responsibility.

Sustainability Mission and Strategy

- >> Seek investment in projects with a decent return on investment and continuity of income to create opportunities and expand business.
- >> Continuously improve the quality of service in order to create the maximum customers' satisfaction.
- >> Develop staff to be competent and efficient, support new technologies by managing and expanding business opportunities.
- >> Promote good corporate governance and create a culture of responsible business practices.
- >> Manage partners for opportunities and business growth together.
- >> Manage environmental impacts and promote cost-effective resource utilization.

Message from Chairman of the Board

The Company is committed to conducting business with quality, both services and products are produced to meet the needs and create maximum satisfaction for customers and take into account the environmental protection in every step of the operation under the motto "Produce good quality products join hands to take care of the environment" The Board of Directors, management team and all employees are committed, dedicated and united in performing their work for the Company to expand its business and grow sustainably along with adherence to Transparency Principles Good Governance and Social Responsibility.

The situation of the coronavirus (COVID-19) pandemic in 2021 has affected the business operations of the group where most of our projects comes from oversea countries. The Company has encountered problems both in terms of traveling and dealing with customers, imports-exports of goods and raw materials including the import of certain types of tools, machines or materials. Therefore, the Company's operation in 2021 did not meet the target..

The Company has accelerated to adapt to the situation for continuous business by accepting more projects in Thailand and more strategy and channels to communicate and provide the best service to our customers. At the same time, the organization has find-tuned and adjusted the way working, daily life of our employee during the Coranovirus disease 2019 pandemic. The Company has set a plan and prepared a measure to support and prevent risks as well to keep all stakeholders and employees are safe and business can be operated continuously and sustainably.

On behalf of the Board of Directors, management and employees of the Company would like to thank our shareholders, our business partners, and all stakeholders who trust and support the Company. Please be confident that the Company has potential and is ready for business expansion, including management under the established strategy which will lead the Company towards sustainable growth and certainly create the best return for all stakeholders.

Report of Audit Committee

The Audit Committee has been assigned by the Board to perform duties according to Audit Committee Charter and the notifications of the Stock Exchange of Thailand Re: Qualifications and Scope of Work of the Audit Committee. The Audit Committee is comprised of 3 independent directors, it represents a minority of shareholders who will supervise the company's operations to be accurate and transparent. The chairman of the Audit Committee possesses knowledge and experience in finance and accounting. Therefore, the Audit Committee can perform its duties independently and effectively. In 2021, the Audit Committee held 4 meetings which were attended by all of its members and 1 time meeting with auditors without management in attendance.

In 2021, Mr. Suvit Manomaiyanon, Independent Director, Member of the Audit Committee and Member of the Nomination & Remuneration and Good Governance Committee, resigned from the position. Nomination & Remuneration and Good Governance Committee therefore, have recruited and appointed suitable and competent persons to replace by appointed Ms. Jongkolnee Tansuvan, Independent Director, Member of the Nomination & Remuneration and Good Governance Committee and Member of the Risk Management Committee take over another position as audit committee member.

Highlights of the Audit Committee performance are as outlined below:

Review of Financial Reports

The Audit Committee, in cooperation with the auditors and the executives of the Company, reviewed the quarterly financial reports and audited the annual financial report to ensure that the financial reports of the Company and its subsidiaries are prepared, in all material respects, in accordance with the generally accepted accounting standards and present adequate and reliable information.

Review of Internal Control System and Internal Audit

The Audit Committee has appointed ANS Business Consultants Company Limited to perform the duties of the Company's internal auditors. In 2021, internal auditors have reviewed the Company's important work processes according to the approved plan. The report was prepared and presented to the Audit Committee and the Board of Directors to acknowledge every quarter, including the assessment of the adequacy of the internal control system of the Company and its subsidiaries. In addition, the Audit Committee has regularly monitored the progress of improvements and fixes of the internal control system that has been audited and reviewed. In addition, the Company also has a channel for receiving complaints or information about fraud to assess the behavior of corruption. In 2021, no one complained or gave any information about corruption in any way.

Screening and Nomination of Auditor and Audit Fee to the Board of Directors

The Audit Committee deliberated on the proposal of auditor and audit fee to be submitted to the Board of Directors for endorsement on proposing to the meeting of shareholders for approval. The consideration criteria are: the auditor must be approved by the Office of Securities and Exchange Commission, the auditor's qualifications must be in accordance with relevant laws, the auditor must possess knowledge, capabilities and independence that meet applicable legal requirements, and the annual audit fee should be commensurate with the scope of audit. The 2021 annual general meeting of shareholders approved: the appointment of Ms.Kosum Cha-em, CPA license No. 6011, or Mr. Termphong Opanaphan, CPA license No. 4501, or Mrs. Ponnard Paocharoen, CPA license No. 5238, from EY Office Limited as auditors of the Company and its subsidiaries. The total annual audit fee for the Company and its subsidiaries in 2021 of 2,580,000 Baht, divided into the Company's annual audit fee of 800,000 Baht and the subsidiaries' annual audit fee of 1,700,000 Baht and non-audit fee of 80,000 Baht for a subsidiary.

Consideration of Reports on Related-Party Transactions or Transactions Involving Potential Conflicts of Interest

In 2021, the Audit Committee considered and rendered opinions on related-party transactions between the Company and its subsidiaries/parties having potential conflicts of interests and transactions involving potential conflicts of interest to ensure that these transactions were in the normal course of business, appropriate in terms of prices, reasonable, and mainly for the Group's benefits. The Company adheres to the Corporate Governance Policy and is confident that its practices are in accordance with conditions and criteria stipulated by regulators. Related-party transactions and transactions involving potential conflicts of interest are disclosed in the notes to the financial statements of the Company and its subsidiaries in annual report.

Supervision of Compliance with Rules, Regulations and Policies

The Audit Committee exercises oversight to ensure that the Company operates businesses in strict compliance with applicable policies, laws, rules and regulation. The Audit Committee also keeps abreast of regulatory changes, the developments in laws governing securities and exchange, the SET's rules and requirements and always applies them to the Company in a timely and proper manner.

Overall in 2021 , the Audit Committee has performed its duties with diligence, independent opinion openly, transparent and in full compliance with the charter of the Audit Committee approved by the Board of Directors, exercised oversight to ensure that the internal control system is efficient and effective by taking into account the Company's internal audit report prepared by ANS Business Consultants Company Limited, which is the Company's internal auditor, including the internal control recommendations given by the auditors of EY Office Limited. Vice President, Finance and Accounting Division, is the Secretary to the Audit Committee and directly liaises with the internal auditor and the external auditors. The Audit Committee, based on information and reports mentioned above, is of the opinion that the internal control system and the risk management system of the Company and its subsidiaries are appropriate and adequate to safeguard the Group's assets. The Company demonstrates good corporate governance. The Company's financial reports are prepared in accordance with the generally accepted accounting standards. Disclosure of financial reports is reliable, accurate, complete and adequate without any significant defects. The Company upholds the business ethics and demonstrates compliance with relevant rules, regulations and laws, including the criteria set by the Stock Exchange of Thailand and the Office of Securities and Exchange Commission.

Report of Nomination & Remuneration and Good Governance Committee

The Nomination & Remuneration and Good Governance Committee (“the Nomination Committee”) is entrusted by the Board with key responsibilities as set out in the Charter of the Nomination & Remuneration and Good Governance Committee. In 2021, the Nomination Committee held 4 meetings, highlights of the Nomination Committee’s performance are as outlined below:

Director nomination

The Nomination Committee nominates qualified director candidates to fill the seats vacated by directors who resign or retire by rotation. Considerations are based on nomination criteria such as qualifications, the relevance of their skills and expertise to the Company’s business and their commitment of time and dedication.

At the 2021 Annual General Meeting of Shareholders (“2021 AGM”), there were 3 directors retiring by rotation, namely Assoc. Prof. Dr. Paiboon Sreewiwatthana, Mr. Chotic Russamitinakornkul and Ms. Jongkolnee Tansuvan. The Nomination Committee and Board of Director proposed to the 2021 AGM the re-appointment of these 3 directors as the Company’s directors for another term in view that their qualifications, skills, knowledge and expertise were in line with the Company’s strategy and they demonstrated strong dedication and time commitment for their duties.

In 2021, Mrs. Chutima Katikawong, Director and Executive Director and Mr. Suvit Manomaiyanon, Independent Director, Member of the Audit Committee and Member of the Nomination & Remuneration and Good Governance Committee, resigned from the position. Nomination & Remuneration and Good Governance Committee therefore, have recruited and appointed suitable and competent persons to replace them by appointed Mr. Visuth Jirathiyut, an advisor of the Company, to serve as a director and executive director of the Company and appointed Ms. Jongkolnee Tansuvan, Independent Director, Member of the Nomination & Remuneration and Good Governance Committee and Member of the Risk Management Committee take over another position as audit committee member.

Evaluation of the performance of the Chief Executive Officer

The Nomination Committee is a committee that has the power and duty to set the rules and evaluated the annual performance of the Chief Executive Officer and proposed to the Board of Directors for consideration to track and ensure that the performance was in line with the roles and responsibilities assigned by the Board as well as to steer the management team's efforts towards the annual goals and targets.

In the assessment, a formulated assessment is used divided into 3 main parts 100% full score, each part will have a different weight.

Part 1: Performance	70% Weight
Part 2: Management Skills	15% Weight
Part 3: Management Behavior	15% Weight

Each section contains criteria for measuring performance according to sub-clauses. Each item will have a different full score in order of importance. When combined, the full score in each section is equal to 100 points.

Determination of structure, amount, forms and criteria for all types of remunerations

Director: The Nomination Committee proposed all types of 2020 annual remunerations of the director to the Board for consideration and proposal thereof to the meeting of shareholders for approval. The Nomination & Remuneration and Good Governance Committee's consideration criteria includes the appropriateness of the structure, amount, and form of remunerations in view of each director's performance and the director remuneration package of other listed companies that are comparable to the Company in terms of size and business type.

Chief Executive Officer and Employees: The Board of Directors has considered and approved all types of remuneration of the Chief Executive Officer and employees based on performance, consolidated results of the Group including the future business plan of the Group.

Supervise the implementation of corporate governance policy.

Supervise the Company to comply with the policies and criteria of corporate governance including reviewing the actions taken in various matters relevant appropriately and in line with the Company's business. The Company received an excellent corporate governance assessment for the year 2021 (5 stars).

Reviewed the Charter of the Nomination & Remuneration and Good Governance Committee

The Nomination Committee has reviewed the Charter of the Nomination Committee to be clear and consistent with the current situation and to make the nomination committee's role defined clear and comprehensive in all matters related.

Mr. Sakda Hanbuntrong
Chairman of Nomination & Remuneration and Good Governance Committee

Risk Management Committee

Ms. Jongkolnee Tansuvan
Director

Mr. Sarawut Charuchinda
Chairman

Mr. Chotic Russamitinakornkul
Director

Report of Risk Management Committee

The Risk Management Committee is comprised of 3 members and chaired by an independent director. The Risk Management Committee is mandated to perform duties in accordance with the Charter of the Risk Management Committee prescribed by the Board of Directors. In 2021, the Risk Management Committee held 2 meetings. Highlights of the Risk Management Committee's performance are as outlined below:

Manage the coronavirus (Covid-19) pandemic

Coronavirus 2019 (COVID-19) continues to spread during 2021, the Company's Risk Management working group, together with its management has established measures to prevent and supervise employees, follow news and announcements from government agencies and strictly urge employees to be self-defense, as well as coordinate and provide vaccines for employees, contractors and labor employees as a way to prevent infection or reduce severe infections if infected.

Consideration of the 2022 Risk Management Plan and Acknowledgment of the Risk Management Performance Update

The Risk Management Committee Meeting acknowledged the progress of risk management operations conducted in 2021. The operations carried out the risk assessment of the organization and various units in the Group at both Chachoengsao factory and Sattahip factory. Summarize the number of risks and risk management of each unit have been prepared together with risk management plans for the year 2022 and preliminary risks of all units for being as a risk management framework of the Group.

The Company recognizes that, regardless of the cause or level of the risk, it can cause damage or impact on the Company's business operations. Therefore, it has given importance to risk management in all aspect and matter in order to manage and control the risks to be in a limited range or to fix them completely in order to return the benefits to the company as much as possible..

Mr. Sarawut Charuchinda
Chairman of Risk Management Committee

Business Operations and Performance

1. GROUP STRUCTURE AND OPERATION

1.1 POLICY AND BUSINESS OVERVIEW

Best Tech is the Core Company providing services for processing steel products and steel structures (Steel Fabrication) according to the needs and requirements (specification) of the customers. The products produced by the company will be assembled and installed at the project sites for large-scale construction projects by both local and foreign customers in heavy industries such as mining, oil and gas, and energy. The company has the potential to award various types of work and meet international quality standards. Parts Fabrication where production requires knowledge and expertise such as piping system fabrication, processing and assembly of pressure vessels and storage tanks and structural steel fabrication including processing and assembling large modularization work, a large-scale project. Since 2016, the company has expanded its work scope to cover services as main power plant EPC contractor focusing on renewable energy power plants such as biomass power plants, solar power plants and biogas power plants.

VISION & MISSION

Vision

Strengthen balanced management and business operations. Increase the potential for long-term sustainable business operations by focusing on producing good quality products and services, both in terms of efficiency, cost control, delivery including social and environmental responsibility.

Sustainability Mission and Strategy

-  Seek investment in projects with a decent return on investment and continuity of income to create opportunities and expand business.
-  Continuously improve the quality of service in order to create the maximum customers' satisfaction.
-  Develop staff to be competent and efficient, support new technologies by managing and expanding business opportunities.
-  Promote good corporate governance and create a culture of responsible business practices.
-  Manage partners for opportunities and business growth together.
-  Manage environmental impacts and promote cost-effective resource utilization.

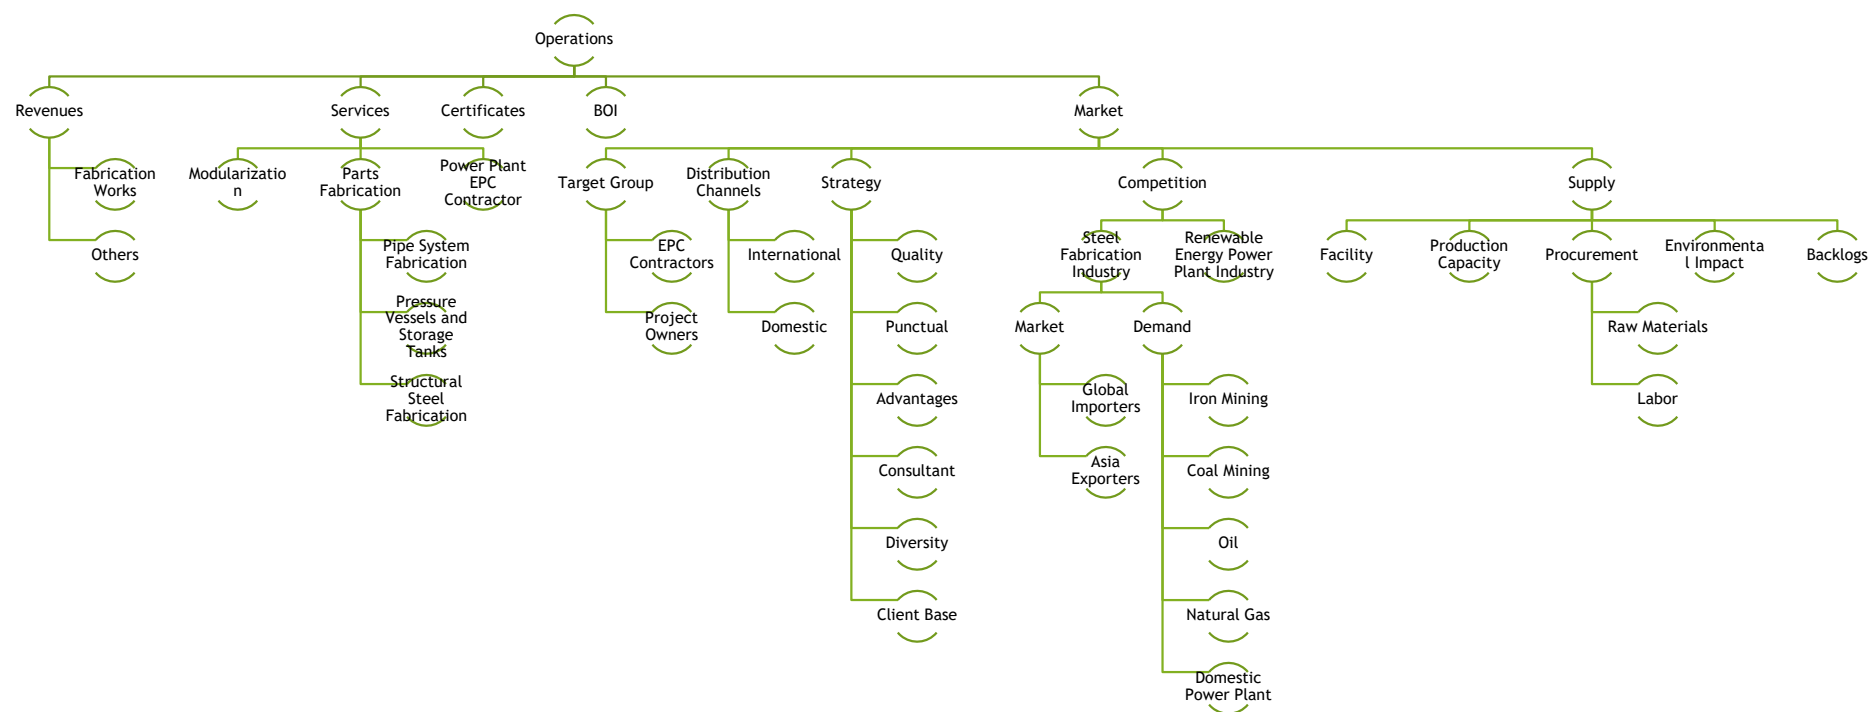

BACKGROUND AND KEY MILESTONES OF THE GROUP

The company's former name is Super Win Asset Co., Ltd. ("Super Win"). Established on 23 July 2012, Super Win operates as a holding company with Best Tech and Engineering Limited ("Best Tech") as a core company which established in 1987 and began its operations since then. Best Tech began trading engineering materials used in factories such as valves, pipes, fittings, etc. Initially, Best Tech's major customers were in the Gas and Petroleum Industry and Power Plant customers. Later, Best Tech expanded its services to cover other heavy industry customers by the vision of the shareholders that foresaw business opportunities to provide steel fabrication and structure services.

1987	<input type="checkbox"/> Best Tech & Engineering Limited ("Best Tech") was established with the initial registered capital of THB 2.00M, to operate business as a trader of materials, equipment, and piping system for various heavy industries such as oil and gas industry and power plants.
1990	<input type="checkbox"/> Best Tech expanded its business by manufacturing cooling pipes for Bang Pakong Power Plant which is the group's first time ever to provide parts fabrication service.
1991	<input type="checkbox"/> Great Power Engineering Ltd. ("Great Power") was established with the initial registered capital of THB 2.00M to manufacture piping system used in power plants.
1995	<input type="checkbox"/> Great Power's Factory ("Chachoengsao factory") was established at Chachoengsao Mueang District to manufacture piping system used in power plants. Great Power initially provided specialized productions of power plant piping systems, then expanded its service coverage to fabrication and assembly of pressure vessels and storage tanks and structural steel fabrication.
1997	<input type="checkbox"/> Best Tech expanded its service internationally, Best Tech has a project awarded by Stone & Webster to provide the service of heat pipe system for Phả Lại Power Plant Project in Vietnam.
2002	<input type="checkbox"/> Best Tech was engaged by 8 EPC contractors to provide parts fabrication services for the Changi water reclamation plant project in Singapore. Services provided were piping system and pipe bridging, coolant tanks, air receiver pressure vessels, hoppers, and passageway structures. The project contract awarded to Best Tech was approximately SGD 23.1M.
2006	<input type="checkbox"/> Great Power was granted the BOI privileges for the first time under the investment promotion certificate no. 154(2)/2549 for the Chachoengsao Factory to promote its investment in the manufacturing of steel rods, coupling and elbows.
2008	<input type="checkbox"/> Best Tech established the new factory ("Sattahip Workshops and Yards") in Sattahip Commercial Port, Sattahip, Chonburi, to support the expansion of its modularization business. This an advantage location is positioned next to a deep-sea port at a depth of approximately 12 meters below the sea level, providing convenience for exporting to international clients. Such convenience reduces the cost of transporting products to the port. In addition, the front pier has a wide-open area which eliminates size limitation of the workpiece for large-scale construction work. <input type="checkbox"/> Best Tech was offered a modularization contract for Golar Winter Renovation project, a floating storage and regasification unit (FSRU) operating in Brazil. This was Best Tech's first large-scale modularization project of with a contract value awarded at approximately EUR 1.3M. <input type="checkbox"/> Best Tech was offered a modularization contract for Peregrino project, a floating production storage and offloading (FPSO) operating in Brazil. The contract value awarded was approximately EUR 3.5M.
2011	<input type="checkbox"/> Great Power was granted the investment promotion certificate number 1997(5)/2554 for Chachoengsao factory and certificate number 1996(5)/2554 for Sattahip factory. The main objective of both certificates is to promote investment in machine, equipment, and parts fabrication businesses and steel structure for construction or industrial projects (Fabrication Industry), or platform repair businesses.

2011	<ul style="list-style-type: none"> <input type="checkbox"/> Best Tech was engaged by 4 EPC contractors in the modularization works for Solomon Iron Ore, a large iron mine located in Australia by Fortescue Metals Group (FMG). Best Tech was entrusted with the modularization works of the entire project such as ore processing facility, crushing hub, conveyors, train load-out system, etc. The contract value awarded to Best Tech was approximately USD 218.1M. <input type="checkbox"/> The Group undertook business restructuring. Best Tech acquired and merged with Great Power through the entire business transfer.
2012	<ul style="list-style-type: none"> <input type="checkbox"/> Superwin Assets Co., Ltd. (“Superwin”) was established with the initial registered capital of THB 5.00M as steel fabrication machine and equipment leasing business.
2014	<ul style="list-style-type: none"> <input type="checkbox"/> Best Tech was offered a contract from Samsung C&T Corporation to provide modularization service for Roy Hills project, a large-scale iron mining project in Australia. The contract value awarded was approximately USD 105.6M. <input type="checkbox"/> Superwin changed its name to BT Wealth Industries Co., Ltd. (BTW) and restructured its shareholding structure within the group by increasing the registered capital to THB 300.0M and its shareholding in Best Tech to 99.50% in order to prepare for future business expansions and listing on the Stock Exchange of Thailand.
2015	<ul style="list-style-type: none"> <input type="checkbox"/> BTW hold 90% of BT & Owl Solar 1 Limited to support in bidding for solar power and renewable energy plant projects in the future. <input type="checkbox"/> Best Tech Industries Limited (“BTI”) was established to support future expansion of steel fabrication and structure business. BTW holds 100% of BTI shares. <input type="checkbox"/> BTW is transformed from a limited company to a public limited company on 15 October 2015, then increased its registered capital from THB 300.00M to THB 378.00M by issuing 156.00 million ordinary shares with a par value of 0.50 baht per share for the first public offering and listed the company's ordinary shares on the Market for Alternative Investment on 11 July 2016. <input type="checkbox"/> BTW acquired 95.50% stake in Global Clean Energy to support operations of solar power and renewable energy plant businesses. Subsequently, BTW acquired all shares of Global Clean from an existing shareholders, to become a wholly owned subsidiary of BTW.
2016	<ul style="list-style-type: none"> <input type="checkbox"/> Best Tech expanded its scope of business to provide complete coverage of service as a power plant engineering, procurement and construction (EPC) contractor for two 5MW solar farm projects in Trad and Prachuap Khiri Khan. <input type="checkbox"/> BTI was granted the investment promotion certificate no. 59-0548-0-01-2-0 for Chachoengsao Workshop and Sattahip Workshops and Yards to promote an investment in the manufacturing of steel structures for constructions or industrial projects and material parts.
2017	<ul style="list-style-type: none"> <input type="checkbox"/> Best Tech was awarded a quality standard certificate from JIS – H Grade from Japan Steel-Fabrication Appraisal Organization (JSAO), a certified standard for the construction of steel structures for large buildings in Japan.
2018	<ul style="list-style-type: none"> <input type="checkbox"/> BTI transferred the certificate No. 59-0548-0-01-2-0 to Best Tech and Best Tech received that certificate retaining the same privilege.
2020	<ul style="list-style-type: none"> <input type="checkbox"/> Two subsidiaries, Global Clean Energy and BT & Owl Solar 1, registered for dissolution with the Ministry of Commerce. <input type="checkbox"/> Best Tech increased its registered capital by 2.2 million shares or THB 220.0M by selling to existing shareholders at the price of THB 100 per share, resulting in a total registered capital of 3 million shares or THB 300M.

1.2 OPERATIONS OF THE GROUP

BT Wealth Industries' Operations

Revenue Structure

The revenue structure of the company and its subsidiaries can be divided into 2 categories:

- 1) Revenue from fabrication is categorized into 4 groups according to service types provided:
 - 1.1 Modularization
 - 1.2 Parts Fabrication
 - 1.3 Power Plant EPC Contractor
 - 1.4 Others such as construction and installation
- 2) Other revenues include revenue from rental and service income, gains from foreign exchange rate, and interest income.

The revenue structure of the company and its subsidiaries between 2019 – 2021 is shown below in the table:

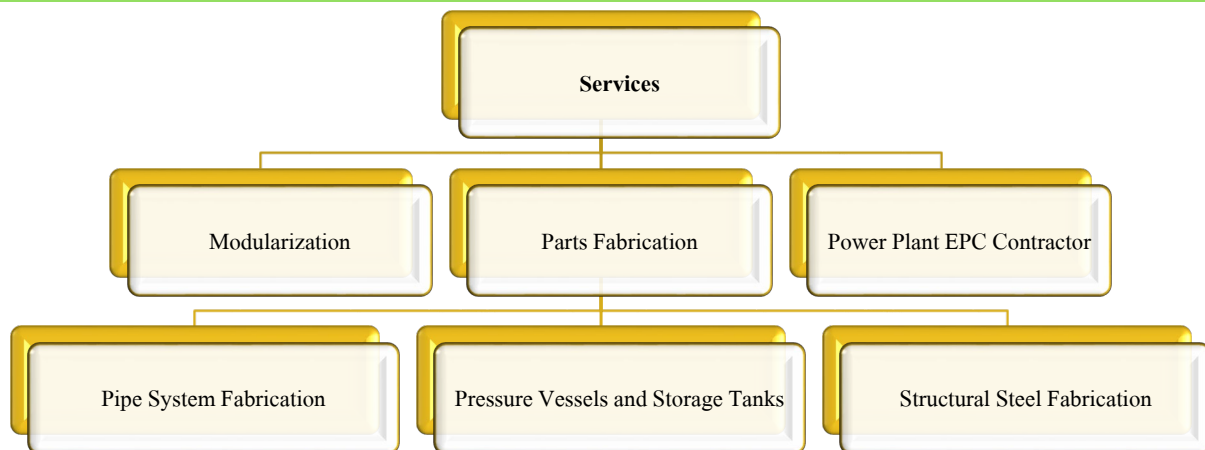

Revenue	For the Year Ended 31 st December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Revenue from Fabrication Work						
Modularization	–	–	595.67	40.43	570.69	44.85
Parts Fabrication	1,031.10	71.55	676.77	45.93	638.12	50.15
Power Plant EPC Contractor	54.84	3.81	75.07	5.10	1.21	0.09
Others	323.07	22.42	89.55	6.07	44.13	3.47
Total Revenue from Fabrication Work	1,409.01	97.78	1,437.06	97.53	1,254.15	98.57
Other Revenue	31.60	2.22	36.37	2.47	18.19	1.43
Total Revenue	1,440.61	100.00	1,473.43	100.00	1,272.34	100.00

The revenue from the fabrication work is the main income of the Company and its subsidiaries, which can be divided into:

- 1) Revenue from Domestic Customers, and 2) Revenue from International Clients as shown in the table below:

Revenue	For the Year Ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Revenue from Domestic Customers	864.04	61.32	1,023.35	71.21	1,008.42	80.41
Revenue from International Clients	544.97	38.68	413.71	28.79	245.73	19.59
Total Revenue from Fabrication Work	1,409.01	100.00	1,437.06	100.00	1,254.15	100.00

Type of Services

The company provides two types of services, Steel Fabrication and Power Plant EPC Contractor through its core company, Best Tech.

Steel Fabrication service is a service which structural steel or steel plate that qualifies the customers' specifications and standards is cut, formed, assembled, and welded into parts or structure according to the drawing agreed by customers. Steel fabrication service can be categorized into two main groups: 1) Modularization, and 2) Parts Fabrication. Company clients are mainly EPC contractors for large-scale engineering and construction projects and project owners operating in heavy industries such as mining, oil and gas, and power plant industries located in various countries with investments in aforementioned industries across continents such as Australia and Oceania, Asia and South America. Another service is to operate as a power plant EPC contractor which includes engineering, procurement, and construction works for power plant projects. Best Tech provides services as follows:

1. Modularization

Modularization is a production method for large-scale steel structure project or production process of heavy industries such as the mining industry and the oil and gas industry. This method begins with preliminary designing, engineering, detailed drawing, and project planning before the fabrication of pre-engineered units. Subsequently, the pre-engineered parts are transported to the project site and installed.

The group uses Sattahip Workshops and Yards as a main location for modularization works due to the vast open space and its strategic location adjacent to the Sattahip Deep-Sea Commercial Port required to deliver large-sized modular units to customers. In addition, the location provides the group with advantageous cost over other steel fabricators that are required to transport their products by road to the port.

The group has proven track records of modularization service for projects in various industries, beginning from gas and oil industry before expanding into other heavy industries such as the mining industry. Most clients in these industries are large international companies such as Samsung C&T Corporation, Terra Nova Technologies, Laing O'Rourke, Aalborg Industries, Crushing Services International Pty Ltd., and a Joint Venture (UJV) of Petrofac South East Asia Pte. Ltd., Saipem Singapore Pte. Ltd., and Samsung Engineering (Thailand) Co., Ltd.

2. Parts Fabrication

Parts fabrication is the process of fabricating steel plate, structural steel and steel pipes, into parts according to engineering drawings. The fabrication processes vary with the characteristic of products. Generally, processes involve cutting, bending, drilling and assembling steel parts. The group provides part fabrication services through its Chachoengsao factory and Sattahip Workshops and Yards. Various types of parts fabrication available are as follows:

2.1. Piping System Fabrication

The group provides preliminary design replication services to fabricate parts according to designed dimensions and shapes. Subsequently, the parts will be assembled into a piping system as part of the production process at the construction site. The company has capabilities to provide various types of piping system services such as pipe fabrication from steel plates, power plant cooling systems, building piping system, wastewater treatment piping system, and factory piping system. The group is specialized in piping system for power plants and is one of the leading piping works providers in the country and has been entrusted by the Electricity Generating Authority of Thailand (“EGAT”) which has continuously offered contracts to the group to become the provider of piping system services for nearly all of its power plant projects. Moreover, The group has experiences in providing cooling piping system services for power plants in the private sector, which are Wang Noi Power Plant of EGAT in Phra Nakhon Si Ayutthaya Province, Kaeng Khoi 2 Power Plant of Gulf Electric Public Company Limited in Saraburi Province and Glow Power Plant Phase 5 of Glow Energy Public Company Limited in Rayong Province, Replacement of South Bangkok Power Plant Phase 1 of Electricity Generating Authority of Thailand (EGAT), and Taketoyo No.5 Coal-fired Thermal Power Plant in Japan. Recently, the group has expanded its customer base into biomass power plants such as Mahachai Power Plant of Mahachai Green Power Co., Ltd. in Samut Sakhon Province. In addition, the group also provides piping supplementary services including painting, coating, wrapping, and manufacturing of pipe support used as the base or structure to support the load of the piping system in power plants or industrial factories.

2.2. Pressure Vessels and Storage Tanks

Pressure vessels are storage containers for liquid or gas that are transported or transfused under high pressure such as gas or hot water storage tanks. Therefore, the production and assemble processes of pressure vessels require specialized engineering expertise. Customers generally require products that meet various international standards. The group is awarded with various international accreditation certificates such as ASME U Stamp certificate from The American Society of Mechanical Engineers (ASME) for the manufacture and assembly of unfired pressure vessels and National Board R certificate from the National Board of Boiler and Pressure Vessel Inspectors (NBIC), which are both worldwide recognized standards from the United States. In addition, the group is also capable of providing non-pressured tanks or storage tanks fabrication and assembly services, which are typically used to store liquid in the factories under normal conditions. Furthermore, the group extends its scope of services covering the modification and maintenance of the pressure vessels and storage tanks according to clients’ orders.

2.3. Structural Steel Fabrication

The group provides structural steel fabrication services for clients in various heavy industries such as the mining and energy industry. Steel structure fabrication processes involve cutting, bending, welding and assembling the steel parts into the structures of factories, buildings, or a section of a production system according to clients’

designs. Finished works include, beams and columns, girders, walkways and gratings. Generally, structural steel fabrication works are less sophisticated and smaller than modularization works. Finished structural steel fabrication works are usually assembled as supporting parts for modularization and parts fabrication works.

3. Power Plant EPC Contractor

The group provides services as a power plant EPC contractor with scope of work covering engineering, procurement and construction of power plant projects for power plant operators, emphasizing on renewable energy power plants. In delivering its services as a power plant EPC contractor, the group will be in charge of designing engineering the blueprints of the power generation system, collaborating with the client on procuring manufacturing machineries and equipment from domestic and overseas suppliers, constructing the power plant and installing machineries and equipment, testing the electricity generation and distribution, and managing the power plant projects until commissioned and commercially operational. Power plants serviced The group are such as Solar Power Plant Trat Agricultural Cooperative, Trat Province and Solar Power Plant Bang Saphan Noi Agricultural Cooperative, Prachuap Khiri Khan Province.

Quality Assurance Standards and Certificates Awarded to the Company

The company's policy aims to achieve customer satisfaction with quality products and services and a commitment towards a continuous development, the company has been improving production processes to meet the international standards and demands of both domestic and foreign clients. The group has been awarded numbers of international quality assurance certificates from renowned accreditation organizations.

Standards and Certificates of Quality Awarded to the Company

Standards / Certificates	Description	Institution	Country	Year of First Accreditation
ISO 9001:2015	Quality Management System	Bureau Veritas	International Standard	2003
ASME U Stamp	Manufacturing and Assembly Standards for pressure vessels that do not touch the heat (Unfired Pressure Vessel) that can withstand pressure up to 3,000 pounds per square inch (psi).	ASME ¹	USA	2006
ASME PP Stamp	Assembly and Installation Standards for pressure piping	ASME ¹	USA	2006
ASME S Stamp	Standard for manufacturing and assembling steam generators (Boilers)	ASME ¹	USA	2006
National Board R	Maintenance Standards modification of steam tanks and pressure vessels (Boiler and Pressure Vessel)	NBIC ²	USA	2006
ASME U2 Stamp	Manufacturing Standards for unfired pressure vessels that can withstand pressure up to 10,000 pounds per square inch (psi)	ASME ¹	USA	2009

Standards / Certificates	Description	Institution	Country	Year of First Accreditation
ISO 14001:2015	Environmental Management Standards	Bureau Veritas	International Standard	2009
MHI Certificate of Qualification	Certificate of quality of production of pipes and tanks	MHI ³	Japan	2009
EN 1090-1:2009 +A1:2011	EU Standards for steel structure manufacturing control system	TUV NORD	Germany	2015
DIN EN ISO 3834-2	Quality Certification of welding plant for steel structure	TUV NORD	Germany	2015
JIS-H Grade	Standard Quality Certificate for the construction of steel structures for large buildings in Japan	JSAO ⁴	Japan	2017

Remarks: ¹ ASME = The American Society of Mechanical Engineers

² NBIC = The National Board of Boiler and Pressure Vessel Inspectors

³ MHI = Mitsubishi Heavy Industries

⁴ JSAO = Japan Steel-Fabrication Appraisal Organization

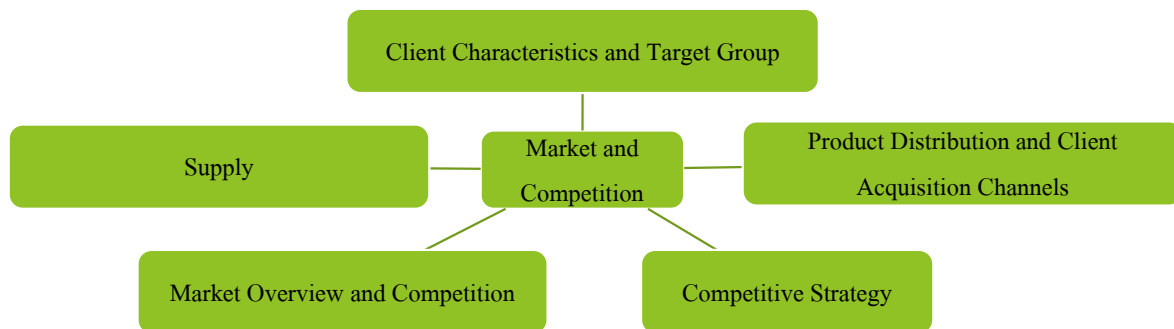

Investment Promotion Certificates

The group was granted 3 SMEs investment promotion certificates from the Board of Investment for Small and Medium Enterprise. Best Tech's Sattahip Workshops and Yards and Chachoengsao Workshop each received an investment promotion certificate and in 2016, a subsidiary, namely BTI, was granted an additional investment promotion certificate for its operations in Chachoengsao and Chonburi areas. In 2018, Best Tech Industries Co., Ltd. transferred the investment promotion certificate to Best Tech.

For	Sattahip Workshops and Yards	Chachoengsao Workshop	Local Factories in Chachoengsao and Chonburi
Promoter	Best Tech (Sattahip Workshops and Yards)	Best Tech (Chachoengsao Workshop)	Best Tech
Promotion Certificate issue date	11 August 2011	11 August 2011	15 November 2018 (Received rights transfer from BTI according to promotion certificate number 59-0548-0-01-2-0 issued on 25 April 2016)
Promotion Certificate number	1996(5)/2554	1997(5)/2554	61-1345-1-01-2-2
Types of businesses that are promoted	Machinery manufacturing business, equipment and parts and manufacturing business of metal structures for construction work or industrial work (Fabrication Industry) or platform repair.		Production of metal structures for construction or industrial work (Fabrication Industry) and metal parts or platform repair
Key benefits	* Exemption of import duty on machinery approved by the BOI and must be imported within 11 February 2014		* Exemption of import duty on machinery approved by the BOI and must be imported within 25 October 2014
	* Exemption of corporate income tax for net profits derived from promoted operations for 8 years from the date of commencement of operating income.		
	* Dividends from promoted businesses that are exempt from corporate income tax exemption are not required to be calculated for income tax during the period that promoted persons are exempt from corporate tax.		

For	Sattahip Workshops and Yards	Chachoengsao Workshop	Local Factories in Chachoengsao and Chonburi
	* Exemption of import duty on raw and essential materials imported from abroad for use in manufacturing for export for 1 year from the date of first import. * Exemption of import duty on items which promoted brings for re-export for 1 year from the date of first import		
Essence of condition	* Paid-up registered capital is not less than THB 80M.		
	* Thai nationals must hold shares totaling not less than 51.00 percent of the registered capital.		
	* Investment size (excluding cost of land and working capital) not more than THB 80M, but when including the whole business, there must be a net fixed asset or investment size (excluding cost of land and working capital) not exceeding THB 200 M.		* Investment size (excluding cost of land and working capital) not exceeding THB 1.0M.
			* Must be completed and ready to operate by 25 April 2019

Market and Competition

1. Client Characteristics and Target Group

There are mainly 2 groups of company clients: EPC contractors and project owners.

1.1 EPC Contractors

EPC contractors are the providers of engineering, procurement and construction services for projects. This group consists of large firms with complete coverage of construction services, solid capital resources to undertake turn-key projects, and directly bids for project owners' large-scale heavy industry projects worldwide. When clients in this group win the project bidding, they usually divide the project into sub-projects and hire several more sub-contractors depending on the field of expertise of each sub-contractor. Generally, projects that are contracted to the company are heavy industry projects in foreign countries with the scale generally larger than the projects that the company is directly contracted from the project owners. EPC contractors that the company has collaborated with are such as Alstom Asia Pacific, Laing O'Rourke, Mitsubishi Heavy Industries, and Samsung Heavy Industries.

1.2 Project Owners

The company provides product fabrication services for mostly project owners which are generally customers are companies that carry out investment and business expansion projects such as the construction of renewable energy plants, additional capacity increase projects, and production efficiency improvement projects. Project owners that the company has provided services for are such as Eastern Technical Engineering Pcl., Phu Bia Mining, and EGAT. These projects are usually smaller in size compared to those contracted with EPC contractors, due to the client's capacity to handle the size of the projects alone without the involvement of EPC contractors.

The business type of customer in 2021, most of revenue comes from oil & gas industry and then power plant industry, while in 2020 the most revenue from power plant business and then oil & gas industry. In 2019, the company and its subsidiaries had revenues from mining projects from Australia and Thailand. Details of revenue from production services categorized by type of customer industry as below:

Industry	For the Year Ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
1. Power Plant	759.94	53.93	608.72	42.36	467.22	37.25
2. Oil and Gas	-	-	596.58	41.51	573.60	45.74
3. Mining	263.98	18.74	75.42	5.25	114.54	9.13
4. Other Industries ¹	385.09	27.33	156.34	10.88	98.79	7.88
Total	1,409.01	100.00	1,437.06	100.00	1,254.15	100.00

*Remarks:*¹ Other industry includes Steel manufacturing, the dockyard industry, etc.

Revenue structure details by client's region are in the table below as follow:

Revenue Structure	For the Year Ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
1. Revenue from International Clients						
1.1 Australia	49.13	3.49	-	-	110.60	8.82
1.2 United State of America	-	-	177.87	12.38	7.54	0.60
1.2 Others ¹	495.84	35.19	235.84	16.41	127.59	10.17
Total Revenue from International Clients	544.97	38.68	413.71	28.79	245.73	19.59
2. Revenue from Domestic Clients	864.04	61.32	1,023.35	71.21	1,008.42	80.41
Total Revenue from Fabrication Work	1,409.01	100.00	1,437.06	100.00	1,254.15	100.00

*Remarks:*¹ International Clients from other countries in 2020 were mainly Switzerland, Canada and Bangladesh.

2. Product Distribution and Client Acquisition Channels

The company's product distribution and client acquisition channels are classified as either 1) International Clients, and 2) Domestic Clients, as elaborated below:

2.1 International Clients

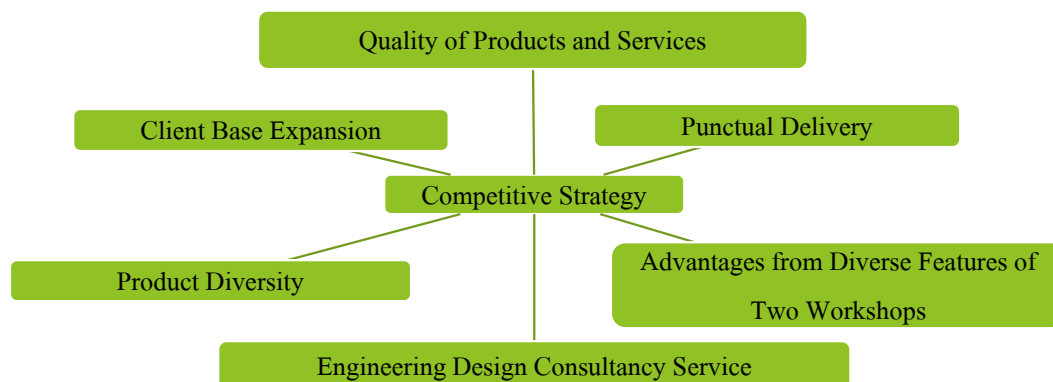

The group uses pro-active marketing through direct contact to reach international client both EPC contractors and project owners. The group's sales and marketing team closely monitors the information and market update from various sources to keep updated to upcoming project bidding, including both new investment and existing expansion projects. Once the upcoming project for bidding is identified, the sales and marketing team together with the management executives will analyze the project feasibility and expected return of each project to select appropriate projects for further bidding proposal decisions.

The group has good relations with clients and the quality of its products and services that meet international standards. The group has been directly contracted by both returning and new clients that have been referred to us by our existing client. Projects that the group has been directly approached by international clients such as Roy Hills Project, a large iron ore mining project and Modular Crush & Screen Project in Australia, and Ban Houayxai Gold Project, a gold mining project in Laos PDR.

2.2 Domestic Clients

The group's domestic distribution and client acquisition approach adopts the direct customer contact. The group's strengths in the domestic market lay in, among others, its expertise in piping system fabrication. The group has been continuously entrusted by EGAT and other private companies with piping system works. In addition, to extend and expand business opportunities, the company has worked with certain EPC contractors on the assessment of the feasibility and costs of projects to support the bidding proposals that the EPC contracts submit to project owners. Furthermore, such collaboration increases the opportunity of bidding success and, as a result, strengthens the company's long-term competitiveness.

3. Competitive Strategy

In the modularization and part fabrication service industry, clients emphasize their importance in the work quality and punctual delivery. Generally, the key selection criteria used by both project owners and EPC contractors are reputations and track records of service providers, which in most cases, outweigh the pricing. The reason is due to most projects are large in scale and high in value. Delays or defects of the construction will tremendously derail the employers' projects. Therefore, the group treats the quality of work and the punctual delivery as a top priority. To sustain the long-term competitiveness, the group adopts the following competitive strategy and business policy:

3.1 Quality of Products and Services

The group recognizes the importance of work quality and strongly believes that the reputation for trusted quality is a critical success factor for business sustainability. In an attempt to meet clients' expectations on the quality of work, before initiating the production process, the group discusses the target quality standard of each work with its clients to mutually agree on, among others, the sizes, welding quality and color quality. To achieve the highest standard of product and service quality, the group integrates the quality assurance during its production and post-production processes. In addition, the group has achieved a number of international quality standards and also offers post-delivery guarantees depending on the agreements of each project.

3.2 Punctual Delivery

The group develops a project management plan which entails the time estimation of the process, end-to-end, from material procurement and delivery to the workshop, production, assembly, quality check, and delivery of works to customers. The time estimation is also used as supplementary information for bid proposals and production planning. With its seasoned experience in this field, the group can estimate a precise time required for the processes that can ultimately strengthen the group's credibility in terms of its ability to punctually deliver product.

3.3 Advantages from Diverse Features of Two Workshops

The steel fabrication operations of The group are carried out at its two workshops, namely Sattahip Workshops and Yards and Chachoengsao Workshop. Both workshops feature unique advantages. Sattahip facility is large and adjacent to the Sattahip Commercial Port, providing capabilities for both the modularization and parts fabrication works. While Chachoengsao Workshop may be smaller in area, it manufactures small-to-mid-sized steel fabrication works utilizing road transportation for delivery.

3.4 Engineering Design Consultancy Service

The group enhances the value proposition of its services by offering engineering design consultancy for some of its clients' projects both modularization and parts fabrications. Through these dialogues, the group obtains correct understanding about the project and construction details and specifications, accurately assesses the production costs effectively reducing false production cost estimation, efficiently plans the production processes, controls and inspect the quality of works to minimize the risk of delivery delay and associated losses. These capabilities collectively contribute to the company's success in being appointed as a service provider and maintaining its competitiveness.

3.5 Product Diversity

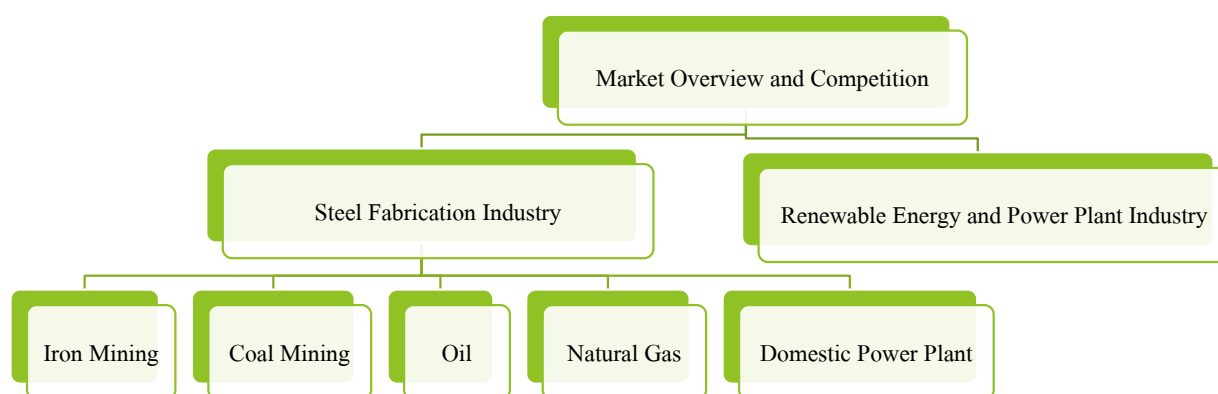

The group possesses expertise and extensive experience in steel fabrication and therefore can flexibly offer a wide range of metallurgical engineering services that meet clients' demands. Works that The group has delivered to its clients include modularization, piping system fabrication, pressure vessels and storage tanks, beam and column fabrication, girders, walkways and gratings and hoppers.

3.6 Client Base Expansion

During 2011 – 2015, The group’s international clients are concentrated in Australia. In order to build support a foundation for long-term growth, the group has adopted the proactive marketing approach to expand its client base. In 2017, The group expanded to countries in North America, South America, Africa, and Asia, by accepting projects in 15 countries. Furthermore, with its extensive experience and good reputation for the quality of its works that meets international standards, the group is widely recognized and trusted by its clients referring the group to other project owners and EPC contractors.

As regards the domestic market, the group’s parts fabrication customer base in the power plant industry has significantly grown and the group has been engaged to manufacture piping system fabrication works, pressure vessels and storage tanks works, and structural steel fabrication works. The client base growth is in line with the group’s fields of expertise as the group has a long-term proven track record as a parts fabricator for power plant projects. In addition, the group has expanded its services to the mining industry and more domestic industries in order to maintain the income level of the group and compensate for declining income from international projects.

4. Market Overview and Competition

Steel Fabrication Industry

The major revenue of the Company comes from Best Tech, a subsidiary, which is income from steel fabrication work. From 2016 to 2018, approximately 27% to 63% of revenue from steel fabrication service came from overseas customers. Therefore, the competition in which Best Tech is not limited to only domestic market, but also includes the global market where competitors are both operators in Thailand and other exporting countries. In addition, clients are also from various countries and industries. The overview of the steel fabrication market, including the competition and demand, are as summarized as follows:

1) Overview of Global Steel Fabrication Industry

According to statistics by the International Trade Center, an organization under the World Trade Organization (WTO), the world imports of steel products and steel structures increased from USD 94,872 million in 2016 to USD 103,632 million in 2017 and also increased in 2018. However, in 2019 and 2020, imports of steel fabricated and structural products decreased by about \$11,322 million from the previous year, which the increase and decrease were in line with global economic conditions and commodity conditions.

Global Top 10 Steel Fabrication and Steel Structure Works Importers Between 2016 – 2020*
(Unit: Million USD)

No.	Countries	2016	2017	2018	2019	2020
1	United States of America	9,255	9,552	10,620	10,915	10,747
2	Germany	7,792	8,611	9,669	8,900	8,564
3	United Kingdom	3,326	3,273	6,412	5,678	4,014
4	France	3,957	4,404	4,992	4,886	4,400
5	Thailand	3,709	4,037	3,898	3,547	3,025
6	Japan	3,255	3,274	3,808	3,871	3,371
7	South Korea	3,225	2,968	2,949	3,445	2,991
8	Mexico	2,955	3,018	3,197	3,172	2,797
9	China	2,919	3,026	3,204	3,209	2,721
10	The Netherlands	2,016	2,258	2,625	2,718	2,953
Others		52,463	59,210	63,151	62,339	55,775
Total		94,872	103,632	114,523	112,680	101,358

2) Market Competition

Competition in the international market is competition among international steel fabricators, most of the exports mainly from Asia. It accounts for more than 50% of the world's exports, with China as the world's largest exporter.

Asia's Top 10 Steel Fabrication and Steel Structure Works Exporters Between 2016 – 2020*
(Unit: Million USD)

No.	Countries	2016	2017	2018	2019	2020
1	China	17,801	18,718	20,627	22,864	23,612
2	South Korea	5,581	6,636	4,359	3,533	2,955
3	Turkey	2,067	2,271	2,598	2,664	2,651
4	India	1,730	2,011	2,111	2,165	1,875
5	Thailand	1,870	1,707	1,796	1,752	1,681
6	Japan	1,410	1,303	1,514	1,500	1,262

Others – Asia		3,136	2,531	2,849	2,595	2,370
Total – Asia		36,943	38,596	40,054	41,996	40,444
Total – Global		95,808	101,689	111,015	111,461	105,876

* *Source:* International Trade Centre Statistics, under the World Trade Organization (WTO), as of 21 January 2022.

* *Remarks:* Import–Export value of steel fabrication and steel structure works are based on the harmonized codes, i.e., 7308 – steel structure, 7326 – steel fabrication, and 8403 – boiler.

Thai steel fabricators are among the main fabrications with high competitiveness. As Thai fabricators have advantages in skilled labor, wages and not too far transport distance, the company is now one of the major of steel fabricators in Thailand, with a production capacity of 2,500 - 4,000 tons per month

3) Overview of Market Demand from Major Industries

Target clients of the steel fabrication business are clients in the mining, petroleum, natural gas, and the power plant industry. In the last 20 years, these industries have continued to grow as a result of high demand for consumption from China which has a leap in economic growth, while most developed countries have a steady and declining demand. Nevertheless, China has begun to enter into mature economy. As a result, the overall demand for products in these industries begin to increase in slower or reduced growth. The overview of the market demand is as detailed below as follows:

3.1) Overview of Mining Industry

The demand for industrial metals, such as iron, aluminum, and copper ore correlate with the global economic growth. The Commodity Market Outlook published by World Bank Group (October 2018) forecasts that the global economic growth will be mainly driven by the emerging markets and China given their substantial needs for infrastructural developments which are not yet fulfilled and their continuous investment in new projects. Best Tech's clients in mining business operate such as iron, gold, copper, and coal mines. The overview of the mining industry is as outlined below as follows:

Iron Ore Mining Industry

Iron ore is the most consumed natural resource in the world. Most iron ores are processed into iron, a major raw material used in related industries which drives major growth in the global economy such as the infrastructure construction industry (bridges and ports), transportation industry (trains and ships), and the automobile industry.

Coal Mining Industry

Coal is an energy mineral used in the production of electricity. According to a publication of U.S. Energy Information Administration ("EIA"), a U.S. governmental agency responsible for energy information of the U.S.A., which is published on the EIA website states that net power generation from coal was 8.1 billion megawatt-hour or 40% of the global power generation. In addition, EIA forecasts that net power generation from coal in 2040 will increase by 72% in 30 years, to 13.9 billion megawatt-hour or 36% of the global power generation.

3.2) Overview of Oil and Natural Gas Industry

Oil and natural gas are major energy sources for global power generation. According to EIA's 2040 projections published on its website, oil products will be mainly used by the industrial and transportation sectors while the natural gas will be used by the electric power and industrial sectors. Oil and nature gas demand is detailed below as follows:

Oil Industry

The growth of the oil consumption by member countries of the Organization for Economic and Co-operation and Development (“OECD”) has displayed a downward trend due to the advancement of energy-efficient technologies for vehicles and the decline in the use of oil as a source of energy for power generation. On the contrary, the oil consumption rates of non-OECD countries tend to rise due to the increasing number of personal vehicles and the growth of industrial sector in these countries. Major oil-producing countries are members of the Organization of Petroleum Exporting Countries (OPEC) such as Saudi Arabia, Iraq, Iran, Kuwait, and Venezuela.

Natural Gas Industry

In the past, natural gas has been mainly used for household cooking. However, in recent years, natural gas has been increasingly used as a source of fuel for power generation as it is considered clean energy with less carbon emission than oil and coals. According to the publications of EIA published on its website, net power generation from natural gas in 2010 accounted for 22% of the global power generation and it is expected that the use of natural gas in the electrical energy sector will increase to 24% of the global power generation in 2040 due to the abundance of natural gas supply, less combustion pollution and cheaper costs as compared to oil. As a result, electrical power producers around the world tend to shift to natural gas and thus the natural gas production volume is expected to continuously increase in tandem with the growth of electricity consumption.

3.3) Overview of Domestic Power Plant Industry

The electricity consumption of Thailand tends to continuously increase in line with the country’s economic growth. The electricity production output is also on the rise and the Electricity Generating Authority of Thailand (“EGAT”) is in charge of ensuring that the total generating capacity can accommodate the peak demand for Thailand’s power supply security.

The Power Development Plan for 2018 – 2037 (“PDP2018”) of the Energy Policy and Planning Office, the Ministry of Energy, dated 30 April 2019, provides a forecast of Thailand’s electricity demand between 2018 – 2037 and plan to secure sufficient generating capacity in light of future demand in accordance electricity demand shifts due to expectations of power production technology advancement in the future and to reflect the government's policy and 20-year national strategic plan, by considering power generation development suitable for electricity demand and production capacity in each region. In addition, the plan also considers the connection between electricity production investment, power transmission system stability to maximize value, and promote the electricity industry to increase competition under supervision to ensure maximum efficiency and maintain stability.

Thailand's Peak Electricity Demand : 2018-2037

Source: Energy Policy and Planning Office

Based on the peak demand forecast, the Energy Policy and Planning Office plans to increase Thailand's net power generating capacity to 77,211 megawatts in 2037 from the existing capacity of 46,090 megawatts at the end of 2017 and aggregate output from new power plants of 56,431 megawatts, offset by the output of 25,310 megawatts from decommissioned power plants.

According to the PDP2018, additional capacities from new power plant developments by the Electricity Generating Authority of Thailand (EGAT) and independent power producers ("IPP") between 2018 – 2024 are listed below as follow:

Producers	Project	Contract Capacity (Megawatts)	COD
EGAT	Replacement of Mae Moh Power Plant units 4–7	600	2018
	Lam Ta Klong Power Plant Units 3–4	500	2018
	Wind Turbine at Lam Ta Klong Phase 2	24	2018
	Replacement of Bangpakong Power Plant Blocks 1–2	1,386	2020
	Replacement of South Bangkok Power Plant Blocks 1–2	1,220	2019
	Downstream Water Power	67.95	2018–2023
	Solar Power – Sirindhorn Dam	0.25	2018
	Mix Solar Power and Water Power	69	2020–2023
IPPs	Gulf SRC CC #1	1,250	2021
	Gulf SRC CC # 2	1,250	2022
	Gulf PD CC #1	1,250	2023
	Gulf PD CC # 2	1,250	2024
Total additional production from power plants		8,867.20	

Renewable Energy Power Plant Industry

In addition to the steel fabrication business, the core business of the group, the Company has a subsidiary that has been established to tap into business opportunities from the renewable power plant business. The overview of the renewable power plant industry could be outlined below:

Overview of Renewable Power Plant Industry

As the alternative energy has been increasingly important for Thailand's electricity system, the Alternative Energy Development Plan ("AEDP") has been included in the PDP2018, according to which net generation from renewable energy total electricity demand of 28,004 MW of renewable energy in the following table below:

Installed Capacity in 2037 under the AECF

Unit: Megawatts

However, at the end of 2017, the Department of Alternative Energy Development and Efficiency (DEDE) has been drafting the revised Alternative Energy Development Plan 2018 – 2037 (AEDP 2018) to present the Ministry of Energy, which will result in total alternative energy generation at the end of the plan in year 2037 to be 28,004 megawatts, increasing from 18,613 megawatts in the original plan, with an emphasis on solar power and biomass energy.

5. Source of Supply

5.1. Production Facilities and Capacity

The group provides steel fabrication services through its 2 facilities, the Sattahip Workshops and Yards and Chachoengsao factory. The details of both facilities as of 31 December 2021 can be summarized as follows:

Facilities	Location	Area (SQ.M.)	Capacity ¹ (Tons per Month)
Sattahip Workshops and Yards	Sattahip Naval Base, Sattahip, Chonburi Province	219,031	1,500 – 3,000
Chachoengsao Factory	Bangkhwan, Muang, Chachoengsao Province	133,943	1,000

Remarks: ¹ Production capacity varies according to each project types and specifications.

5.2. Production Factors and Procurement

The group's key production factors are raw materials and labor, which can be as summarized as follows:

1) Raw Materials

The group uses different forms of steel such as plate steels, structural steel, tube and joint steel as key raw material in its operation. Most of the steel products used are of high quality and durability, and can withstand operating conditions of heavy industry projects such as high pressure and extremely high or low temperature conditions. To reliably control the standards and quality of the steel, the group procures steel products from reliable foreign and domestic suppliers. Currently, the group procures 51.54% of raw materials domestically. Details are as shown in the table below:

Source of Raw Materials	For the Year Ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Domestic Suppliers	434.70	63.50	565.59	84.67	257.85	51.54
Overseas Suppliers	249.92	36.50	102.42	15.33	242.45	48.46
Total	684.62	100.00	668.01	100.00	500.30	100.00

2) Labor

Steel fabrication that the group produces requires a lot of labor. A very complex and important part of the work is performed by a full-time employee who is skilled labor and specialized technicians. But if it is any other part of work which is not complicated, the group will hire temporary workers or subcontractors to operate the fabrication. The group has effective labor management and there is planning for the quality and the number of labor in the production from the planning stage. There has never been a labor shortage affecting the production process significantly. The risk of labor shortage is diversified by recruiting workers through more than 10 labor recruiting companies.

5.3. Environmental Impact

The group controls pollution that may occur throughout the production process, such as painting is done in closed areas. The canvas is stretched to prevent the spread of air pollution that may occur. The group coordinates with the provincial industry office to organize activities with the community. There are public relations to the communities surrounding the factory to know how the company is operating. In addition, the group was certified ISO 14001: 2004, an international standard for environmental management. In the past, the group has never received any complaints and has never had a history of disputes or litigation about creating an environmental impact.

5.4 Backlogs

As of 31 December 2021, the group's total backlogs amounted to THB 1,287 million, detail of backlog are listed as follow:

Significant and not yet delivered: Structural Steel Fabrication

Project	Industry	Country	Customer	Period	Total	Yet Unrecognized Work Value
Thai Oil Clean Fuel Project, Thailand	Oil Refinery	Thailand	Joint Venture (UJV) of Petrofac SEA, Saipem Singapore & Samsung Eng. Thailand	01/10/2019–31/08/2022	THB 1,702.12M	THB 534.77 M
Hin Kong Project	Power Plant	Thailand	BHI (THAI) Co., Ltd.	13/12/2021-31/10/2022	USD 9.40M (THB 313.77M)	USD 9.40M (THB 313.77M)

Significant and not yet delivered: Processing and assembly of pressure resistant tanks and containers

Project	Industry	Country	Customer	Period	Total	Yet Unrecognized Work Value
Site Fabrication Tank for Hinkong Project	Power Plant	Thailand	MHI Power Project (Thailand) Co., Ltd	08/07/2021-28/2/2022	THB 75M	THB 72M

1.3 Shareholding structure

Structure of the Group

BTW is a holding company which has 2 subsidiaries, Best Tech is the core operating company of the Group, and Best Tech Industries Limited.

The Company and its subsidiaries is in accordance with the relevant regulations with the notification of the Capital Market supervisory board on request for offering of newly issued shares and the notification of the Securities and Exchange Commission concerning the consideration of the size of the company with respect to the permission of holding company to offer new shares.

BT Wealth Industries Public Company Limited

Company registration number 0107558000431

Registered and paid-up shares Common Shares 756,000,000 shares Par value 0.50 Baht per share

Nature of Business To become a holding company with Best Tech & Engineering Limited as the Core Company, which is engaged in the business of providing Steel Fabrication services according to customers' requirements and specifications.

Address 593/3 Soi Ramkhamhaeng 39 (Thepleela 1), Ramkhamhaeng Rd., Kwaeng Wangthonglang, Khet Wangthonglang, Bangkok Telephone: 66 2314 2151 – 2 Fax: 66 2319 7301 – 2

Shareholders

1) Major Shareholders

As of 31 December 2021, the list of top 10 major shareholders is as follow:

Major Shareholders	Number of Shares	Percentage of shares
1. Mr. Chotic Russamitinakornkul	168,900,000	22.341
2. Mrs. Siripond Satawin	100,964,200	13.355
3. Mr. Piyapat Russamitinakornkul	40,000,000	5.291
4. Mr. Pavanan Satawin	39,000,000	5.159
5. Mr. Sarun Satawin	36,000,000	4.762
6. Mr. Rujanan Satawin	20,700,000	2.738
7. Mr. Thanomsak Russamitinakornkul	20,000,000	2.646
8. Ms. Pimsiri Sareewiwatthana	12,000,000	1.587
9. Ms. Suveena Chartmaneererk	11,533,900	1.526
10. Ms. Pitchsinee Sareewiwatthana	10,506,300	1.390
Total	459,604,400	60.795

Remarks: % Shares of minor shareholders (% Free float) = 51.21%

2) Best Tech & Engineering Limited Shareholders (“Best Tech”)

As of 31 December 2021, Best Tech has total registered capital of THB 300.00 M, divided into common shares of 3,000,000 shares at a par of THB 100. The shareholder list is as follows:

Name	Number of Shares	Percentage of shares
BT Wealth Industries Public Company Limited	2,985,010	99.50
Miss Oussanee Russamitinakornkul ¹⁾	14,988	0.50
Mrs. Siripond Satawin	1	0.00
Mr. Chotic Russamitinakornkul	1	0.00
Total	3,000,000	100.00

Remarks: 1) Miss Oussanee Russamitinakornkul is the elder sister of Mrs. Siripond Satawin and Mr. Chotic Russamitinakornkul

1.4 Amount of Registered Capital and Paid-up Capital

As of 31 December 2021, the Company has the registered capital of THB 378M and the paid-up capital of THB 378M, divided to common shares of 756 million shares at par of THB 0.50.

1.5 Issuance of other securities

The company does not issue other types of securities. There is only one type of common stock security.

1.6 Dividend Policy

Dividend Policy of The Company

The Company has a dividend pay-out policy at the rate of no less than 40% of its net profit based on the separate financial statements, after the deduction of legal reserve and other reserves (if any). In considering dividend payments, the Company takes into account of cash flow, operating results, financial structure, investment plan, conditions and obligations that bind the Company, necessity and future needs, including the consistency of dividend payments.

The resolution of the Board on the dividend payments shall be proposed to the meeting of shareholders for approval. Exception applies to interim dividend payments to shareholders which can be approved by the Board given that the Company’s net profit and cash flow are preliminary sufficient for the interim dividend payments. Such interim dividend payments shall be reported to shareholders at a subsequent meeting of shareholders.

The 2021 Annual General Meeting of Shareholders held on 9 April 2021, approved the 2020 dividend payment to shareholders at the rate of Baht 0.02 per share, paying dividends on 7 May 2021.

	2017	2018	2019	2020
Annual Dividend (Baht / Share)	–	0.02*	–	0.02
Interim Dividend (Baht / Share)	0.07	–	–	-
Net profit for the year from separate financial statements (Baht / share)	(0.013)	(0.033)	(0.262)	0.06
Dividend payout ratio versus net profit (%)	N/A	N/A	N/A	33.33

* Paid from retained earning

Dividend Policy of Subsidiaries

Best Tech & Engineering Limited has a dividend pay-out policy at the rate of no less than 40% of its net profit based on the financial statements after the deduction of legal reserve and other reserves (if any). The Board and/or shareholders of Best Tech consider dividend payment based on business conditions such as necessary investment plans, cash flow, operating results, financial structure, conditions and obligations that bind Best Tech, necessity, and future needs, to ensure the suitability of dividend payment.

Other subsidiaries shall be decided by the board of director and/or shareholders of each in light of performance, financial positions, business conditions, necessary investment plans, cash flow, operating results, financial structure, conditions and obligations that bind the subsidiaries, necessity, and future needs.

However, in order to comply with the Management Policy of the Holding Company, annual dividend payment and interim dividend (if any) of subsidiaries must be approved by the Board of Directors Committee of the Holding Company before proceeding.

Dividend payment of subsidiaries

The 2021 Annual General Meeting of Shareholders of Best Tech & Engineering Limited approved the dividend payment for the year 2020 to shareholders at the rate of Baht 5.10 per share, as a payment from net profit for the year 2020 in respect of Non-BOI.

The 2021 Annual General Meeting of Shareholders of Best Tech Industries Limited approved refrain from paying dividends for the year 2020.

2. RISK MANAGEMENT

2.1 Risk Management Policy and Plan

The Company is fully aware of the rapid changes in the business environment, economic, political, technology etc. Such changes will affect the operations to achieve the company's goals. Therefore, to ensure that the Group has adequate risk management procedures to accommodate such changes. The company has set "Risk Management Policy" is as follows.

1. Risk management is a key strategic aim of the Company and a part of its annual business plan development process.
2. Each functional unit has the duty to identify and manage its own risks.
3. Employees at all levels are responsible for risk management and are expected to be aware of risks associated with their operations.
4. Processes for managing material risks must be established and risks must be controlled within an acceptable level in support of the group's attainment of its business objectives.
5. Risk management performance must be regularly examined, monitored, assessed, and reported.

The Company has its own Risk Management Committee which is chaired by an independent director and comprised of members being the Company's senior executives. This effectively contributes to the Risk Management Committee's insight into risks associated with the Company's business and its ability to make sound decisions and take a vigorous approach to risk management. The Risk Management Committee is responsible for screening and reviewing risks and make risk management recommendations to the Board of Directors.

The Company has prepared the risk and opportunity analysis rules to be used as a basis for considering the impact of both positive and negative risks that will occur on the company in terms of Image, Quality and Environmental systems, Operational process and Goals of the Company. There are 5 levels of risk determination ie very high, high, medium, low, very low. The criteria for determining the risk level in each area will vary as appropriate.

In 2021, a comprehensive risk assessment was conducted as planned for the Company and all entities within the Group, including Chachoengsao Factory and Sattahip Workshops and Yards. In this regard, risk issues and risk management activities of all functional units were compiled and the following actions were taken to address key risk issues.

1. Organize a risk management working group meeting to monitor and assess the operational risk that occurs, defining solutions and following up continuously the results of the correction to reduce the risk.
2. Preparing the risk management plan for the year 2021 by preparing a preliminary risk management plan for all departments to be a framework for risk management of the Company and presenting the said annual risk management plan to the Risk Management Committee for approval.
3. Prepare plans and preventive measures support the situation of the Coronavirus disease 2019 pandemic.

2.2 Risk Factors for the Company's Business Operation

Business Operation Risk

The Company's business operation risks are mainly resulted from those of Best Tech because of no operation in other subsidiaries. These risks include the following:

1) Risk of Revenue Fluctuation from Project-Based Operation

Best Tech's revenue was mainly from parts fabrication, modularization and power plant EPC which were awarded by customers via project biddings. The revenue depended on the number of projects awarded to Best Tech, project values and project progresses achieved for the operation period. Therefore, if the number of projects available for bidding in the market significantly drops or Best Tech is not continuously awarded with new projects, Best Tech's revenue stream will be interrupted. This results in fluctuation of Best Tech's business performance. In addition, Best Tech's revenue also depends on types of project as gross profit margins of each project type are different.

However, Best Tech is fully aware of this risk and therefore attaches importance to bid planning and proactively expands its customer base and seeks new business opportunities by keeping abreast of the industry news and developments. In order to sustain and enhance its competitiveness, Best Tech is highly committed to develop competencies by controlling production costs, improving productivity and delivering works on time. These efforts have led to Best Tech's success in continuously expanding its customer base in order to maintain its revenue growth momentum and appropriate profit margins in the long term.

2) Risk of Customer Concentration

In 2021, the proportion of revenue from steel structure services is mainly for customers in the oil and gas industry (Oil & Gas) and power plants (Power Plant) accounting for 45.74% and 37.25% of the total revenue. However, given the company's boundless production flexibility supporting its custom-made business nature, the company can provide works and services to diverse projects and industries which are not limited to only mining or power plant projects. In the future, if the heavy industries in other regions have stronger growth and more construction activities than the Australian mining industry or the domestic power plant industry, the company will diversify its customer base into such industries to avoid over-dependency on any particular industry. The company has experiences in delivering manufacturing services to customers in various industries such as mining, energy, power plant and petrochemical industries and in different countries such as Australia, Laos PDR, Singapore, Papua New Guinea, United States of America and Canada and in 2021, the Company is focusing on the domestic market.

3) Risk of Dependency on Large Project

Modularization works which were the major source of revenue of Best Tech in 2020 are large project with high project value. Each year, the largest project generally accounted for a very high proportion of Best Tech's total revenue. For example, the revenue from Thailoil projects is high concentration of income. Such concentration in the revenue source exposes Best Tech to the risk of dependency on large projects. The dependency on large project is commonly seen in the steel fabrication business. Best Tech has always undertaken pre-project screening which encompasses the examination of customers' qualifications in terms of backgrounds, financial positions and credit worthiness. Most of the company's customers, both EPC contractors and project owners, are global companies that have long experience in large-scale projects or mining and energy industries and possess strong financial position. Best Tech has never had any payment collection problems because all of its customers have fulfilled their payment obligations.

4) Foreign Exchange Risk

The Company has fabrication service income from various projects in abroad, resulting in revenue in foreign currency, where the contract revenue in foreign currency is mainly in US dollars. Therefore, the fluctuation of the US dollar against the Thai Baht currency will significantly affect the company's performance and operating profit.

Details of revenue from fabrication service recognized in the financial statements and the amount of foreign currency purchases in 2019 – 2021 classified by currency as follows:

Revenue from fabrication

Currency	Jan – Dec 2019		Jan – Dec 2020		Jan – Dec 2021	
	Revenue (THB Equivalent)	%	Revenue (THB Equivalent)	%	Revenue (THB Equivalent)	%
USD	537.02	38.11	408.01	28.39	220.55	17.59
THB	856.94	60.82	1,023.35	71.21	994.09	79.26
AUD	15.06	1.07	5.70	0.40	39.51	3.15
Total	1,409.01	100.00	1,437.06	100.00	1,254.15	100.00

Amount of purchases

Currency	Jan – Dec 2019		Jan – Dec 2020		Jan – Dec 2021	
	Purchase Amount (THB Equivalent)	%	Purchase Amount (THB Equivalent)	%	Purchase Amount (THB Equivalent)	%
USD	244.28	16.09	111.92	9.33	235.80	28.57
THB	1260.74	83.07	1,079.50	89.97	567.86	68.79
Others	12.72	0.84	8.48	0.70	21.83	2.64
Total	1,517.74	100.00	1,199.90	100.00	825.49	100.00

From the above tables, the company's revenue in 2019 - 2021 were concentrated in USD which is significantly higher than value of purchases in US dollar and other foreign currencies. Therefore, the natural hedge between accounts receivable and accounts payable in foreign currencies could not provide adequate cushion against the potential impact of foreign exchange fluctuation on operating profit.

The Company is fully aware of the risk and mitigates the risk by ensuring that the contractual prices agreed with its customers can, to a certain extent, accommodate the currency rate changes. In addition, the company has a proper policy to regularly execute forward transactions when appropriate to alleviate the potential impact of foreign exchange rate fluctuation on Best Tech's performance.

5) Risk of Project Cost Overrun

The Company's revenue is primarily project-based and the revenue of each project depends on the contractual price agreed with a customer.

There are two potential causes of cost overrun: 1) Failure to control costs within the budget, and 2) Calculation or budgeting deviates from actual production cost.

5.1 Failure to Control Costs within the Budget

Major costs of Best Tech are labor cost and raw material costs.

☐ Labor Cost

Labor cost is considered a major production cost. Most of the labor workers are daily workers and their wages are fixed according to the contracts made with each project's labor agents. Therefore, the risk that the labor cost per unit will exceed the budgeted amount is low. However, the labor cost may exceed the budget if the actual number of man-hour was higher than budgeted due to uncontrollable external factors or internal factors such as Best Tech's project management.

External factors that may cause the actual number of man-hour rate of Best Tech to be higher than budgeted are rain, late delivery of raw materials, etc. However, Best Tech has mitigated such risks by, for example, roofing over main work areas and providing safety-related training to its employees to reduce accidents.

In addition to labor management, Best Tech also attaches importance to the production site management as modularization works require a large work area while the space of the production site is limited. Best Tech selects work sites and organizes production activities by taking into account the suitability of each work site in light of the size of projects, the urgency and the physical conditions of each area with an aim to optimize production efficiency and prevent delays that may culminate in higher labor cost.

☐ Raw Material Cost

Raw material cost is considered another major production cost and the main raw material is steel. There are 2 causes that will drive the steel costs to be higher than the budget: the cost of steel per unit increases, and the actual rate of steel usage is higher than the budget. Typically, Best Tech makes steel purchase agreements with suppliers according to the total demand of each project as soon as Best Tech has finished the comprehensive estimation of raw materials required for such project and the estimation is generally completed within 1-2 months after the service agreement with a customer has been made. Therefore, the risk of over-budget raw material cost caused by a hike of steel price per unit is relatively low.

However, the mismatch between the actual rate of steel usage and the budgeted rate may stem from erroneous steel resource utilization planning, or defective steel cutting and, or errors in the assembly process that cause deviations from the intended quality standards or designs and a need for more steel material to fix defects. Best Tech has in place an efficient system for controlling and monitoring steel usage by checking the actual steel usage against the production resource plan on a daily basis. This system enables Best Tech to quickly identify the gap and dynamically enhance the efficiency of its raw material usage. In addition, to avoid errors that will cause an unplanned need for additional raw materials, Best Tech adopts a stringent quality control system and assigns its quality control team to conduct a quality inspection, in which a customer's quality control team occasionally joins, on all important steps of production processes. This helps minimize defective works and the risk of over-budget usage of raw materials.

5.2 Calculation or budgeting deviates from actual production cost

Revenue under the service agreements made between Best Tech and its customers is based on the pricing that is derived through the cost-plus pricing method by adding the targeted profit margin to the budgeted costs which include labor cost, raw material cost and other expenses. Therefore, Best Tech's gross profit margin may fall below the target if the cost budgeting is erroneous and causes the budget to be below the actual production costs.

The cost budgeting for the project bidding price assessment begins with the analysis of detailed drawings received from customers to identify the types and quantity of raw materials needed and the man-hour requirements of each project. Then, updated price lists of raw materials will be solicited from suppliers, including the labor wage information from labor agents. The information will be consolidated to support the cost budgeting and the prices to be quoted to customers. After service agreements with customers have been signed, shop drawings will be made and the cost budget will be reviewed for accuracy by comparing new information gained from the detailed analysis of drawings with the information on which the cost budgeting is originally based. If there are differences that have material impact on costs, Best Tech will inform customers and re-negotiate contractual prices to reduce the risk of budget underestimation.

6) Risk of Labor Shortage

Parts fabrication and modularization works are labor-intensive. Best Tech opts to hire temporary workers with short-term employment contracts according to the length of each project because Best Tech's manpower needs, in terms of headcount and skills, constantly shift according to the nature and progress of its projects.

As Best Tech's works are labor-intensive and most of its workers are temporary workers who will be newly recruited upon a new large-scale project is awarded to Best Tech. Typically, Best Tech has only 1-2 months for the worker recruitment process after a service agreement is signed, hence the risk of labor shortage as Best Tech may be unable to recruit adequate manpower required for completing the works within the deadline. As a consequence, Best Tech is exposed to the risk of delivery delay and the resultant late delivery penalty, and may have higher labor cost per unit due to overtime pays caused by the limited availability of labor force.

However, Best Tech has never experienced any material labor shortage issue because of the good labor planning. In addition, Best Tech recruit's workers through several labor agents to avoid dependency on a single labor agent. Best Tech also attaches importance to positive relationship with labor agents, treats workers fairly and pays wages on time. As a result, Best Tech is on good terms with its labor agents and these labor agents quickly respond to Best Tech's labor force needs.

7) Risk of Price Fluctuation of Steel which is Major Raw Material

Steel is a major raw material of Best Tech and there are two types of steel the Best Tech uses, i.e., steel plate and structural steel. The prices of both steel products correlate with the prices of hot rolled coil in the global market because steel plate and structural steel are made from hot rolled coil. Steel cost is positively correlated with the global steel prices while the steel price per unit in service agreements made with customers is specified as a fixed rate. Therefore, increases in the global steel prices may lead to higher raw material costs which, as a consequence, may adversely affect the gross profit margin and performance of Best Tech.

Fully aware of the risk, Best Tech makes steel purchase agreements with suppliers according to the total demand of each project as soon as Best Tech has finished the comprehensive estimation of raw materials required for such project and the estimation is generally completed within 1–2 months after the service agreement with a customer has been made. This enables Best Tech to fix the steel price per unit and limit the period of its exposure to the steel price fluctuation to only an interval between the signing of service agreements with customers and the placing of steel purchase orders with suppliers. After steel purchase orders have been made, the risk of steel price fluctuation will be entirely passed to the suppliers. Therefore, Best Tech’s steel procurement policy as mentioned earlier can significantly reduce Best Tech’s exposure to raw material cost increases from the steel price fluctuation.

8) Risk of Non-Renewal or Termination of Land Lease Agreement of Sattahip Workshops and Yards

At present, Best Tech has two plants, Chachoengsao Workshop and Sattahip Workshop. Chachoengsao Workshop is located on land of approximately 89,847 sq.m., owned by Best Tech and 44,096 sq.m. leased from other person with 3-year rental period (renewable options for 3 times for 3 years, 3 years and 1 year, respectively). The most of the area is used for parts fabrication works. Sattahip Workshops and Yards is located within Sattahip port’s premises in Chonburi province which are leased from the Sattahip Commercial Port of the Royal Thai Navy. The total area of the Sattahip Workshops and Yards is approximately 219,031 sq.m. The land lease agreement of Sattahip Workshops and Yards must be renewed on an annual basis and it is difficult to find a factory location which is in proximity of deep-sea ports which are limited in number, if the lease agreement of Best Tech for the premises within the Sattahip Commercial Port of the Royal Thai Navy is not renewed, either partially or entirely, or is prematurely terminated, the size of production yards will be diminished and Best Tech may experience difficulties in transporting large-sized works via road to the port. As a consequence, Best Tech may lose its modularization customers which are major source of Best Tech’s revenue and may incur higher logistic costs from the road transport of works to farther ports. These factors can affect Best Tech’s long-term competitiveness.

However, since 2008 when the lease agreement was originally made until today, Best Tech has never experienced any problems in renewing the lease agreement. In addition, Best Tech successfully negotiated for the continuously expanding of leased area to 188,246 sq.m. in 2020. Best Tech has always been a good tenant, strictly complied with the terms and conditions of the lease agreement, and continuously provided support for activities of the Sattahip Commercial Port of the Royal Thai Navy. The past records of the Sattahip Commercial Port of the Royal Thai Navy’s lease agreements show that there are very few changes of tenants if the tenants duly comply with applicable terms and conditions and make punctual payment of lease fees. Therefore, Best Tech is confident that the lease agreement with the Sattahip Commercial Port of the Royal Thai Navy will be continuously renewed.

9) Risk of Expiry of Tax Benefits from Investment Promotion Certificates

Best Tech is entitled to privileges under the SME investment promotion program and one of these privileges is an 8-year exemption from corporate income tax on a net profit from businesses under the investment promotion program. The period of 8 years starts from the date the businesses earn revenue from their operations and the investment certificates of the Chachoengsao and Sattahip Workshops and Yards, the Workshop will expire on 2 May 2019 and 3 April 2020, respectively. The expiry of such tax benefit thus may cause Best Tech’s net profit to decrease.

To handle the risk associated with the expiry of the tax benefits, the group, by Best Tech Industries Company Limited (“BTI”) has filed an investment promotion certificate application and is granted the investment promotion certificate no. 59-0548-0-01-2-0 for the Sattahip Workshops and Yards and the Chachoengsao Workshop to promote investment in the business of manufacturing of structures used for construction or industrial projects, such as steel structures, vessels and piping spools, including material parts, such as grating within the quota of approximately 20,000 tons per years. The corporate income tax on the net profit from the entitled business is exempted for 8 years.

On 10 September 2018, The Board of Investment Office (BOI) approved BTI to transfer the certificate no. 59-0548-0-01-2-0 to Best Tech and Best Tech received that certificate on 12 November 2018 with the same and remain privilege.

10) Situation risk of the coronavirus (Covid-19) pandemic

Operation Impact

The Coronavirus (COVID-19) pandemic continues to affect businesses and companies, with the impact that companies are unable to travel to contact or accept new projects from overseas, including the import of raw materials or equipments may be delayed. As a result, the company focuses on accepting more domestic projects, but faces high competition for the domestic market as well and and sourcing raw materials from the country to replace.

Financial Impact

From the pandemic situation of Coronavirus 2019, this causes business stagnation and many businesses lack of liquidity or stop doing business, which continually affect from customers, sellers, creditors and debtors, they all come together to find ways to adapt such as extending the payment period, stop lending, recover money from these receivables, etc. During the past year, the Company may receive some money late but partly due to the fact that some customers have to work from home, which makes the payment transaction process delayed and inconvenient as usual.

The Company has not been adversely affected by these impacts for other impacts, such as balance sheet and performance, contractual obligations and the risk to the survival of the entity.

Management Risk

Risk of Controlling Interest

As of 31 December 2021, the major shareholders, namely the Satawin family and the Russamitinakornkul family, owned 56% of the total issued and paid-up shares of the Company. In addition, the Russamitinakornkul family, which are the major shareholders of the Company, serve as executives and directors with signing authority of the Company.

Nonetheless, the Company’s management structure is comprised of the Board and 4 Board Committees, namely the Executive Committee, the Audit Committee, the Risk Management Committee and the Nomination & Remuneration and Good Governance Committee, and their scope of authority and duties is clearly defined to ensure that the Company’s practices and operations are of good standards and auditable. The Audit Committee of the Company is comprised of 3 independent directors and has a significant role in maintaining the organization’s checks and balances and screening matters to be proposed to the meeting of shareholders to a certain degree. The Company also engages an external firm to serve as an internal auditor to audit internal operations of the Company for greater transparency whereby the internal auditor directly reports to the Audit Committee. The Company also establishes rules and procedures governing related-party transactions with directors, major shareholders, persons with controlling interest and persons with potentials conflict of interest, according to which such persons shall not have the authority to approve these transactions, in order to mitigate risks.

3. DRIVING BUSINESS FOR SUSTAINABILITY

3.1 Policy and overview

The Company aims to operate and create sustainable business growth under the principles of good corporate governance and optimum benefits for the shareholders taking into consideration the impact on stakeholders social and environment To accomplish such aspiration, the Board, at its Meeting No. 3/2015 on 13 May 2015, established policies on corporate social responsibility for example Corporate Social Responsibility Policy, Anti-corruption Policy and Quality and Environmental Policy, which have been communicated to employees of all companies in the group for acknowledgement and strict compliance (see the full policy and guidelines: www.btwealthindustries.com) as follows:

- 1 Adhere to business operations in accordance with good corporate governance principles for listed companies in 2017 (CG Code)
- 2 Focus on business development through innovation and being responsible for all stakeholders.
- 3 Operate business in an environmentally friendly manner, from raw material procurement, production, waste disposal and energy conservation.
- 4 Focus on quality control of products and services according to the standards, reduce wastage in the production process and deliver the product on time by adopting a standardized quality management system and environmental management applied in the operation process.
- 5 Develop and engage with employees, customers, communities and society to improve the quality of life with consideration of human rights principles.
- 6 Adhere to principles against all forms of corruption and bribery, both direct and indirect.
- 7 Define safe and standard processes and procedures to prevent accidents that may occur.

3.2 Managing stakeholder impacts in the business value chain

Company's Value Chain

The Company is a metal processing business that covers two main markets: metal fabrication and installation on site as traditional parts (examples of products that the company produces are steel structures, piping systems, liquid receiving tanks, pressure vessels, etc.). Which are used for various industries that are important to the economy such as power plants, petrochemical plants Water distillation plant in renewable energy power plant. And metal fabrication and installation of large modules, enabling customers to serve both domestic and international customers, therefore contributing to the economic growth of the country. The Company also has a large factory area in the Sattahip Port area making it able to support large-scale production and assembly and convenient for transportation as well.

- | | |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------|
| 1) Inputs Management: | Environmentally friendly project design / quality material procurement / quality raw material sourcing |
| 2) Operation: | Safety and Community Impacts / Waste reduction and environmental impacts |
| 3) Distribution of products and services: | Transportation / delivery of quality products and services on time |
| 4) Marketing and sales: | The pricing is reasonable and fair. |
| 5) After-sales service: | Product warranty and satisfaction. |

Stakeholders of the Company

Stakeholders	Stakeholder Expectations	Meeting Expectations
Customers	Quality products, reasonable prices, timely delivery.	Control the quality of products and services to meet the standards, reduce wastage in the production process.
Partners	The trading system is accurate and effective. There is fairness and equality to all trade partners.	<ul style="list-style-type: none"> * Develop an efficient trading system. * Adhere to the principle of equitable treatment and fairness to all trade partners. Dealing with business partners is a fair reward for both parties.
Competitors	There is a competition that is honest and ethical.	Treat competitors under the law and good commercial ethics.
creditor	Receive full and punctual repayment.	<ul style="list-style-type: none"> * Abide by the conditions and contracts made with creditors * Pay the debt completely and on time. * Use the borrowed money for the purpose of borrowing.
Employees	Safe in operation and have stability and career advancement.	Uphold Human Rights, Labor Laws and promote learning and development.
Shareholders	Good return on investment	Dividend
Society, Communities and Environment	<p>Contribute to society and help them develop better.</p> <p>The production process does not affect the environment.</p>	<ul style="list-style-type: none"> * Organize activities to help society and the community as appropriate. * Comply with Environmental Laws by adhering to the principles of compliance with environmental management standards.

3.3 Sustainability management in the environmental dimension

Policies and guidelines

The Company is certified for environmental management (ISO 14001: 2015) by promoting and encouraging employees to realize the importance of conserving the environment, prevention of pollution from company activities that may affect the environment of the organization and community and requires strict compliance with environmental laws. The Company has applied a management system for quality standards and environmental management in its operations, this makes it possible to develop operational procedures that reduce the impact on the environment as well. As well as establishing a quality and environment policy (See full text : www.btwealthindustries.com/en/sustainability/cg) by implementing the quality management system ISO 9001: 2015 and environmental management ISO 14001: 2015 under the motto "Produce good quality products, join hands to preserve the environment" with an emphasis on practice protection and promotion to achieve the main goal of managing product quality standards and manage the environment in accordance with the environment of the organization, community and environmental laws at the same time.

Environmental performance

1. Greenhouse Gas Management

The Company recognizes that climate change poses a significant threat to our planet. The Company drives its willingness to help build a low-carbon society. Therefore, we take into account the implementation of mitigation and adaptation measures by reducing greenhouse gas emissions and integrating climate-related risks and opportunities into a holistic approach. The Company has taken steps to measure and monitor its greenhouse gas emissions strategize to set reduction targets and develop measures to reduce greenhouse gas emissions.

Greenhouse Gas Management System

To reduce carbon emissions and reduce environmental impacts, the Company has embarked on developing a carbon management plan, including monitoring, reporting and monitoring (MRV), greenhouse gas emission reduction projects and awareness and technical training.

1. Reporting greenhouse gas emissions:

The Company monitors the plant's energy consumption and makes greenhouse gas emissions plans in scopes 1 and 2, aiming to improve energy reports and plant emissions accounts every year. It also combines the energy management system, which is controlled by the Department of Alternative Energy Development and Conservation (DEDE), into the process of establishing a list of greenhouse gas emissions to ensure accuracy in the company's data collection process. The 2021 greenhouse gas emissions data was also reviewed by external agencies, EY Office Limited, in accordance with the internationally recognized standard (ISAE) 3000: Assurance Engagements Other than Audits or Reviews of Historical Financial Information.

Greenhouse gas emissions efficiency

The plant's greenhouse gas emissions are planned according to the guidelines for preparing greenhouse gas emissions reports for listed companies, The Securities and Exchange Commission (SEC) and the Greenhouse Gas Management Organization (PUBLIC ORGANIZATION) and GHG Protocol, that are internationally recognized. 2021 Greenhouse Gas Emissions Primordy as table

Greenhouse gas emissions	source	2021 Greenhouse gas emissions (equivalent ton CO ₂ e)
Scope 1	All direct GHG emissions, including the Company's vehicles and fixed sources, in production facilities owned and controlled by the Company.	1,476.23 tones CO ₂ e
Scope 2	Indirect greenhouse gas emissions from the use of electricity purchased from producers.	2,262.48 tones CO ₂ e
Scope 1+ 2		3,738.71 tones CO ₂ e

In 2021, the Company's plants had direct greenhouse gas emissions of all 1st district 1,476.23 tCO₂e, representing CO₂e (39.49%) of plants greenhouse gas emissions, while all 2nd-range emissions 2,262.48 tCO₂e is represented as CO₂e (60.51%) of plants greenhouse gas emissions.

Note: Greenhouse gas emissions cover only Sattahip and Chachoengsao Plant production lines. Electricity consumption at Bangkok Head Office is not included. It is in the process of collecting data and revealing it the following year.

Greenhouse gas emissions by production line

Sattahip

Greenhouse gas emissions	source	2021 Greenhouse gas emissions (equivalent ton CO ₂)
Scope 1	All direct GHG emissions, including the Company's vehicles and fixed sources, in production facilities owned and controlled by the Company, such as the use of fuel in backup generators, use of carbon dioxide (CO ₂) in the production process	1,120.88 tones CO ₂ e
Scope 2	Indirect greenhouse gas emissions from the use of electricity purchased from the manufacturer.	1,394.09 tones CO ₂ e
Scope 1 + 2		2,514.97 tones CO ₂ e

Chachoengsao

Greenhouse gas emissions	source	2021 Greenhouse gas emissions (equivalent ton CO ₂)
Scope 1	All direct GHG emissions, including the Company's vehicles and fixed sources, in production facilities owned and controlled by the Company, such as the use of fuel in backup generators, use of carbon dioxide (CO ₂) in the production process	355.35 tones CO ₂ e
Scope 2	Indirect greenhouse gas emissions from the use of electricity purchased from the manufacturer.	868.39 tones CO ₂ e
Scope 1 + 2		1,223.74 tones CO ₂ e

2. Greenhouse Gas Emission Reduction Program

The Company take it very seriously to finding ways to continuously reduce greenhouse gas emissions directly or indirectly in scopes 1 and 2. Under the control operation, most of the Company's greenhouse gas emissions come from the production process, air conditioning and lighting. Therefore, the Company's energy reduction strategy is focus on reducing volume usage the basic energy of existing systems and switch to renewable energy sources that can reduce the company's energy consumption. Solar's electricity output is 1,055.02 MWH. or the reduced amount of electricity generated by Solar is 403.54 Mtco₂e.

3. Cognition and technical training:

In response to the organization's environmental policies, The Company is committed to providing more knowledge and understanding of greenhouse gas emission management to its employees by regularly implementing training programs and sharing knowledge for employees. The Company strongly believes in raising firm awareness as well as providing its personnel with more comprehensive environmental capabilities. This will strengthen the management of long-term climate change.

Self Consumption Solar Roof : January - December 2021

	Chachoengsao Plant	Sattahip	Total
Electricity cost per unit	4 Baht	7 Baht	
Electricity bill in 2021	1,501,157 KWH	2,689,879,781 KWH	2,691,380,938 KWH
	6,004,628 Baht	18,829,158,467 Baht	18,835,163,095 Baht
Electricity savings from Solar	623,389 KWH	1,028,815,736 KWH	1,029,439,125 KWH
	2,493,554 Baht	7,201,710,152 Baht	7,204,203,706 Baht
2021 CO2 emissions	588,453 Ton	1,054,432,874 Ton	1,055,021,328 Ton
Reducing CO2 Emissions from Solar Systems	244,368 Ton	403,295,769 Ton	403,540,137 Ton

2. Energy management

To show the intention and determination to take action on energy conservation, the Company Company has complied with the Energy Conservation Promotion Act B.E. 2535 (1992). as follows:

- ☐ Appoint a working group on energy management by defining powers, duties and responsibilities.
- ☐ Implement energy conservation goals and submit an annual energy management report performed in compliance with the Ministerial Regulations, prescribing standards, criteria and methods for energy management in controlled factories and buildings, B.E. 2552 of the control factories of Best Tech & Engineering Ltd. -ID: 24103-0020 / TSIC-ID 25121-1004)) for the Department of Alternative Energy Development and Efficiency to examine and certify. The results of the inspection will be known around mid-March 2022. However, the results of the initial energy conservation of the submitted can be summarized as follows:

	Reducing percentage of the original used energy.	
	Target energy conservation plan *	Actual energy conservation effect
Chachoengsao plant	1.00	4.10
Sattahip plant	1.00	3.95

** Set up goals according to the ISO 14001 environmental management goals.*

- ☐ Establish an energy conservation policy according to the energy conservation objectives and goals which corresponds to the status of energy consumption and suitable for the factory.
- ☐ Best Tech has measures to make the most of the current system and operate it continuously by using some energy from the solar roof of the two plants, changing the lamp from a high-energy lamp to a more energy-efficient lamp, use of Solar Cell LED lamp 60W, reduce the hours of use of light bulbs by using Photo Switch and air conditioner condenser cleaning.
- ☐ Evaluate the energy conservation potential of the plant divided into 3 levels: Enterprise-level assessment, product-level assessment and machinery / equipment level assessment with energy conservation goals and plans set a reduced percentage of the original amount of energy used by setting goals according to the environmental management goal ISO 14001.
- ☐ Monitoring and evaluation of energy management by appointing an Internal Energy Management Auditor.
- ☐ Review, analyze and correct energy management shortcomings as recommended by the Internal Energy Management Auditor.
- ☐ Arrange schedules and training courses on energy conservation for employees.
- ☐ The Company has prepared a manual on energy saving in the office to raise awareness about the use of valuable resources.
- ☐ Generate electricity from solar cells for use in the company's production process.

Post an announcement board to disseminate the energy conservation policy for employees in the factory to acknowledge and implement.

3. Management of water

- ☐ Provide cooperation in providing information on industrial water use under The Water Management System Development Project to increase the efficiency of industrial water use in the Eastern Economic Corridor, EEC.
- ☐ Approximately 95% of the main water source used by the Company comes from tap water, while the other 5% comes from recycled water and reuse.
- ☐ Manage water to improve water use efficiency by using 3 measures:
 - * Reduce:
 - Install an automatic water filler / cut instead of opening-closing manually. Campaign and promote water saving at various water use points. As well as replacing faucets and leaking joints.
 - Check / replace the main filter in the water supply to reduce sediment and impurities before use, which will reduce the drainage of water from various water filtration points such as drinking water filter, etc.
 - Reduced water content 10-15 cubic meters / month
 - * Reuse:
 - Establishing / add water retention points to reserve water that has been used but still has quality for reuse, such as pressure testing work, etc.
 - Reduced water content 30-40 cubic meters / month
 - * Recycle: After reusing the water until work is finished, use that water for cleaning of the gutter and some factory floors.
- ☐ The wastewater treatment system in the factory is a system through a grease trap. Setting the period and person responsible for cleaning and then flows into the local seepage pond. It is an ongoing and daily drainage wastewater treatment.

Summary of the work of wastewater treatment systems submitted to the Department of Pollution Control, Ministry of Natural Resources and Environment, which is in compliance with the National Environmental Quality Promotion and Preservation Act B.E. 2535 (1992).

Well-treated wells: Wastewater treatment capacity 15,680 bb/day or 5.72 million bb/year.

Water content is used in all activities of pollution sources: 7,009 cubic meters/year.

Wastewater entering the wastewater treatment system: 5,607 cubic meters/year.

4. Management of waste and pollution

- ☐ Establish regulations for waste disposal to regulate the management of all kinds of factory wastes that affect the environment to comply with applicable laws and regulations such as the Cleanliness and Order of the City Act B.E. 2535 (1992) and announcement of the Ministry of Interior on solid management B.E. 2560 (2017).
- ☐ Perform 5S activities all departments monthly and a Big Cleaning Day activity 1 day per month.
- ☐ Hire a third-party company that provides a license to supply/collect hazardous waste in accordance with the announcement of the Ministry of Industry to be the operator of sewage disposal removing the waste material outside the factory area including waste contaminated with toxic waste such as paint residue, electronic waste, used oil, scrap, etc. by following up and supervising to comply with the Notification of the Ministry of Industry regarding the disposal of waste or unused materials, B.E. 2548 issued under the Factory Act B.E. 2535.

Disposal quantity: waste, contaminated waste, etc. (kg)

2019	2020	2021
182,533	68,200	80,860

In the past, Best Tech has never received any complaints or never had a dispute or legal proceeding about an environmental impact from Factory waste.

3.4 Sustainability management in the social dimension

Policies and guidelines

The Company realizes the importance of business operation by considering the principles of business operations under the code of business ethics along with social responsibility and always place importance on stakeholders at all levels. With an emphasis on the implementation of human rights principles, fair and equitable treatment and giving back to society. The Company has been set Corporate Social Responsibility, Anti-Corruption Policy, Safety- Occupational Health and Working Environment Policy and Quality - Environment Policy, Prevent and Stop Violence in the workplace Policy etc.

(See full version at <https://www.btwealthindustries.com/en/sustainability/cg>) as well as the following important guidelines:

- A. Employee Care and Development: Labor Relations Management, creating operational procedures, supervise and prevent serious work accidents. Adhere to labor law and human rights (more details in the topic “6. Corporate Governance Policy – Principle 4: Recruitment and Development of Top Executives and Personnel Management–Personnel Management and Development”)
- B. Responsibility to Customers: Recruiting raw materials and selecting quality vendors/subcontractors, able to produce quality products according to relevant standards, meet customer needs and deliver on time.
- C. Society and Community: Prevent pollution from company activities that may affect the environment of the organization and community.

Performance results

A. Employee Care and DevelopmentE

Employment

- 1) The Company hires unlimited or discourages sex. however, in some types of work, the Company may need to use unique personnel. knowledge and expertise, which the Company considers safety and suitability for the job characteristics. The company employs 517 men and 188 women, representing a proportion of male employees per female employee, equal to 73:27.
- 2) The Company has complied with the Promotion and Development of the Quality of Life of Persons with Disabilities Act 2007 by hiring 8 persons with disabilities in accordance with the proportion prescribed by law.
- 3) Management of foreign workers: The Company has taken steps to ensure that the work permit of foreign workers is complete and correct, the Company requires that all foreign workers have a work permit by preparing a registration for controlling alien workers. To be used to control the renewal of work permit and visa to complete the schedule.

Compensation and benefits

- 1) Providing welfare in work such as uniforms including protective equipment such as shirts, glasses, hats and shoes, etc.
- 2) Arrange annual health checks for employees.
- 3) Establish a Welfare Committee to oversee employee welfare by providing health and life insurance benefits, provident funds, social security and work uniforms for employees, starting with provident funds for employees since April 2016, with a company contribution rate of 3.00% and 5.00 percent depending on seniority, and allowing members to choose their own investment policies according to the choice set by the Board of Fund. At the end of 2021, the proportion of employees participating in provident funds was 61% compared to the total number of employees eligible to apply for the fund.
- 4) In 2021, the remunerations, such as salaries, bonuses and provident fund, paid by the Company for the Company's management totaling THB 15.03 M, Best Tech's management totaling THB 10.13 M, and employees of the Company and Best Tech totaling THB 279.41 M.

Employee Development

- 1) Organize seminars and send staff to participate in both internal and external trainings. In 2021, 212 employees attended 34 training/seminars courses, 161 hours, completed. as required by the government.
- 2) Rotate employee to other departments in order to gain more experience, increase the working capacity and practice leadership skills. The preparation of personnel to be able to rise to higher positions in the future.

Ensuring the quality of life and safety of employees' work

- 1) Established "Prevent and Stop Violence in the work place Policy. It was created as a reasonable fairness practice and focused on ensuring that the workplace is free from harassment or infringement of rights of any kind, that no acts of violence, intimidation, harassment against colleagues, visitors or any other persons in the workplace of the Group. The Group respect the rights of all employees by not tolerate any form of harassment, such as creating an atmosphere of conflict, showing hostility, intimidation acts or bias that could be considered unlawful discrimination based on race, religion, skin color, gender or gender bias that could affect job performance, and also includes verbal abuse with vulgar words, ect. The Group considers intimidation, harassment or violent shifts under any circumstances to be serious. All employees must follow and strictly comply with the policy.
- 2) Appoint the Occupational Safety, Health and Environment Committee abd establish Safety, Occupational Health and Work Environment Policy and holding a meeting every month as required by law.
- 3) The Company complies with the Ministerial Regulation on Welfare Management in the Establishment B.E. 2548 by providing medical supplies and drugs for first aid use and a contract to hire professional nurses to attend the factory as well as began providing doctors at the office of Sattahip according to the law from July 2020.
- 4) Organize activities to promote good relations and foster unity among employees which resulted in the working together very well and achieve the organization's objectives such as Kathin, New Year's Day, Public benefit activities.
- 5) Provide basic firefighting training and practice a fire escape once a year as specified in the annual training plan.
- 6) Organize a rewarding event for employees who deliver helpful feedback on safety. This is to encourage employees to be aware of safety in their operations.

- 7) Encourage employees to join in the following activities to care for society, community and environment

The number of the accident statistics in the work of the company

2021	No.	24	Persons	750 man-hours
2020	No.	27	Persons	256 man-hours
2019	No.	22	Persons	1,202 man-hours

Labor Disputes

In 2021, the Company and its subsidiaries did not have any material labor disputes.

Training / Seminar in 2021: Attendees 212 persons 34 courses 161 hours i.e. :

Corporate Carbon Footprint Management in accordance with ISO 14064 and Greenhouse Gas Management Organization Manuals and preparing for the preparation of greenhouse gas emissions reports for listed companies

Etc.

From the Coronavirus pandemic (Covid-19) in 2020 continued until 2021, the Group has taken various strictly actions in order to prevent risks to employees and related parties, for example,

□ Preparing measures to prevent and take care of themselves from the coronavirus 2019. Implement such practices comply with government-defined guidelines such as: check the body temperature every time before entering the building, setting up the alcohol gel placement and sinks in the office and factory areas, requiring the wearing of face masks at all times during work, organizing a shuttle for employees to reduce their use public transport, emergency planning and

online work etc.

- Employees are provided with ATK (Antigen Test Kit) tools, and specifically at Chachoengsao factory, they randomly inspect employees weekly in 10% of the total number of employees according to the guidelines specified by the government.
- Support co-ordinate and arrange for employees, including contractors and employees, to be vaccinated against coronavirus (COVID-19)

- Obtain certificates through establishment standards Offices, organizations, establishments or factories are clean and safe, prevent COVID-19. The Group has strictly followed important measures in terms of disease prevention, environmental health and environmental health. Establish guidelines for cases of coronavirus 2019 and other measures such as: establish a COVID-19 Steering Committee, screen workers and visitors or use the Thai Save Thai Program to show to staff before entry, etc.

Fair treatment of labor

- 1) The Company has management on labor relations, respect for human rights including handling discipline and grievances in accordance with the provisions of labor law by encourage employees to exercise their rights, such as free elections, receiving basic health insurance (Social Security Rights) thoroughly, properly paid, liberated to use their local language, be able to behave according to local cultures and follow religious beliefs without anyone compulsorily.
- 2) Establish disciplinary action processes and fair complaints and in accordance with the labor law which is clearly stated in the employee handbook and the work regulations of the Company.
- 3) Provide communication channels to express opinions and make complaints to the management by providing a box to receive opinions / complaints or notify the HR department directly.
- 4) Appoint a welfare committee in the workplace. The matter about welfare complaints was taken into account at the meeting of the Occupational Safety, Health and Environment Committee.
- 5) Participated in the Thai Labor Standard (TLS) Project to develop the Company's labor standard system, a social responsibility for labor as a tool for labor workers to receive fair labor protection, no forced labor and discrimination, have the right to freedom of collective bargaining labor welfare, have good health and have a better quality of life.

B. Responsibility to Customers:

- 1) Prepare quality plans and quality manuals to serve and produce quality products which meet the customer's requirements and standards, as well as be subject to the group's standards and international standards of various countries.
- 2) Deliver the products on time and post-delivery warranties.
- 3) Customer satisfaction survey about the Company's services is also provided at the end of the project by allowing customers to rate their satisfaction in various areas such as product quality, delivery of goods, cooperation of employees in solving problems, security operating systems, etc. In order to use the results for further development and improvement. The assessment is still being followed up from customers as the COVID-19 pandemic has resulted in inconvenience to inquire.
- 4) Certified with many international standards, which is a certain level of certification that the company produces quality products.

C. Society and Community

- 1) Encourage employees to realize the importance of maintaining the environment, preventing pollution from the company's activities that may affect the environment of the organization and communities and requiring strict compliance with environmental law by the Company has been certified by the Environmental Management Standard (ISO 14001:2015).
- 2) Establish a "Quality and Environment Policy" by requiring operations to take into account environmental maintenance in all processes. Apply quality management, standardization and environmental management system in the operating process. This enables to develop operational methods that reduce the impact on the environment.

- 3) Establish waste disposal protocols to control all types of waste management in factories affecting the environment in order to comply with other relevant laws and requirements.

- Participated in the "8th of 8th Month 8th P.8 Streak" Program by providing essential equipment in the face of covid-19 outbreaks such as PPE, masks, gel alcohol with Orbortor Bang Kwan, who is working on building Community Isolation to support covid-19 patients waiting for referral at Wat Prong-arkard, Chachoengsao Province.

Labour Minister Receives Rice from BT Wealth Industries PCL to Support Workers Fight COVID-19

🏠 Main Page » New » News » Labour Minister Receives Rice from BT Wealth Industries PCL to Support Workers Fight COVID-19

👁 31 Aug 2021

On August 30, 2021, at 08.30 hours, Labour Minister Mr. Suchart Chomklin received 2,000 bags of rice at 5 kilograms per bag from Mr. Chotik Rasmeethinakornkul, Chief Executive Officer of BT Wealth Industries PCL, and his team. The Ministry of Labour will deliver the goods to help workers affected by COVID-19. The effort helps lighten the burden and build morale in the fight against the COVID-19 pandemic, helping each other in times of adversity. It is another way to alleviate suffering and food expenses. The occasion took place at the Chatumongkol Room, 6th floor, Ministry of Labour.

Remark: ¹ Inventory turnover = cost of fabrication work/(average WIP + average inventory)

² Average payment period = Revenue from fabrication/average advance

³ Modified cash cycle = Collection period + Sale period - Payment period - Revenue receipt in advance

4.2 Analysis of Operation Results

The Group operating through its core company, Best Tech, which previously engaged in the trading and distribution of supplies and metal devices for different types of industries. Currently, the Group is providing services related to parts fabrication and modularization to domestic and international customers in large-scale heavy industries. Subsequently, since 2016, the Group has expanded its business to cover services as power plant engineering, procurement & construction (EPC) contractor through initially providing EPC services for solar farm projects.

Revenues structure

Total revenue can be divided into 3 categories, revenue from fabrication work, gain on exchange rate, and other revenue, as shown below:

Revenue Structure of the Group for 2019 - 2021

Total Revenue	For the year ended, 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Revenue from Fabrication Work	1,409.01	97.81	1,437.06	97.54	1,254.15	98.57
Gain on Exchange Rate	8.95	0.62	-	-	-	-
Other Revenue	22.65	1.57	36.27	2.46	18.19	1.43
Total Revenue	1,440.61	100.00	1,473.33	100.00	1,272.35	100.00

In 2021, the Group's total revenue decreased by THB 200.98M or 13.64% YOY, majority come from fabrication work. The revenue from fabrication work in 2021 of 45.74% generate from the customer group of gas and petroleum and 37.25% power plant industry, 9.13% from mining industry and other such as trading of 7.88%.

1) Revenue from Fabrication Work

Revenue from fabrication work for 2019, 2020 and 2021 accounted for 97.81%, 97.54% and 98.87% of total revenue, respectively. Revenue from fabrication work can divided into 4 types of works, modularization, parts fabrication, power plant EPC contractor, and others as detailed below:

Revenue structure from fabrication work for 2019, 2020 and 2021

Revenue from Fabrication Work	For the Year ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
1) Modularization	-	-	595.67	41.45	570.69	45.50
2) Parts Fabrication	1,031.10	73.18	676.77	47.09	638.12	50.88
3) Power Plant EPC Contractor	54.84	3.89	75.07	5.23	1.21	0.10
4) Others	323.07	22.93	89.55	6.23	44.13	3.52
Total	1,409.01	100.00	1,437.06	100.00	1,254.15	100.00

In 2021, majority of the revenues from fabrication work are derived from parts fabrication, accounting for 50.88% of revenue from fabrication work, while in 2019 and 2020, the Group's revenue was from parts fabrication accounted for 73.18% and 47.09% of revenue, respectively. In addition, the revenues from modularization work accounted for 41.45% and 45.50 % of total revenue from fabrication works in 2020 and 2021, respectively.

1.1) Revenue from Modularization

During 2020, the group start a new project, modularization work, to install pipe and equipment in the oil refinery in Thailand which the group recognized the revenue from modularization of THB 595.67M in 2020 and THB 570.69M in 2021.

1.2) Revenue from Parts Fabrication

At present, revenue from parts fabrication is considered the main income for the group. In 2019- 2021, the Group has revenue from parts fabrication representing of 47% - 75% of total revenue. Majority from customers in the power plant industry both in Thailand and oversea. The type of work was consisted of piping systems, steel structure work, processing and assembly of pressure resistant tanks and tanks.

1.3) Revenue from Power Plant EPC Contractor

The Group has operated the power plant construction business (Power Plant EPC Contractor), in the years 2019 to 2021 average revenue from this business segment approximately 1% - 6% of revenue from fabrication work.

1.4) Revenue from Others

The revenue from other or non-core work in 2021 of THB 44.13M or 3.52% of total revenue, mostly from material supply, paint work, installation work, engineering and other consulting work, factory construction, etc.

2) Other Revenue

In 2021, other revenue of THB 18.19M, representing 1.43% of total revenue which decreased from prior year by 49.85%. Other revenue mainly from trading income, gains on sales of assets and other tools and rental income of devices and tools. Such other revenue was continuously generated from normal operations.

Cost and gross profit margin analysis

Structure of revenue, cost, and gross profit margin from fabrication work for 2019, 2020 and 2021

Item	For the Year Ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Revenue from Fabrication Work	1,409.01	100.00	1,437.06	100.00	1,254.15	100.00
Cost of Fabrication Work	1,524.45	108.19	1,302.17	90.61	1,316.44	104.97
Gross Profit (loss)	(115.44)	(8.19)	134.89	9.39	(62.29)	(4.97)

The Group, operating through Best Tech, recorded the cost of fabrication work for 2019, 2020 and 2021 of 108.19%, 90.61% and 104.97% of revenue from fabrication work, respectively.

The gross profit (loss) margin of the Group varies from period to period depending upon various factors. Key factors are as follows:

- 1) Different types of work in each period. Modularization yields a higher gross profit(loss) margin than parts fabrication due to its complexity and lower market competition.
- 2) Variation orders in each period. Variation orders offer a higher average gross profit margin than contract-based orders. This is because most variation orders incur labor costs for making adjustments according to customers' orders and are urgent. Therefore, the Group can charge customers at higher-than-usual fee rates.
- 3) Power plant EPC contractor service. This service offers a lower gross profit margin than steel fabrication because the main costs of power plant EPC contractor service are from the purchases of electricity production machinery and equipment with a relatively low gross profit margin.

In addition, the most factors affecting gross margins in each period as mentioned above, the impact of the economic slowdown since 2019 and the impact of the Coronavirus (Covid 19) pandemic since 2020 onwards, it is too difficult for setting the selling price or increase of products, the number of new projects are reduced, and raw material prices are increased. Moreover, the nature of the work requires labor to do in the fabrication process, resulting in increased costs of raw materials and labor, therefore gross profit is reduced.

Administrative expenses

The Group's key administrative expenses include personnel expenses, office expenses, vehicle expenses, selling expenses, consulting and service fees, other fees and taxes, insurance expenses, and other expenses as summarized below:

Structure of administrative expenses for 2019, 2020 and 2021

Item	For the Year Ended 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Personnel Expenses	63.58	65.16	59.76	63.02	54.94	67.22
Office and Vehicle Expenses	18.50	18.96	14.27	15.05	12.29	15.04
Selling Expenses and Consultation/Service Fees	9.12	9.35	8.05	8.49	8.45	10.34
Fees, Taxes and Other Expenses	6.37	6.53	12.75	13.45	6.05	7.40
Total Administrative Expenses	97.57	100.00	94.83	100.00	81.73	100.00

In 2021, the group's administrative expenses amounted to THB 81.73M, a decrease of THB 13.10M from 2019, due to the control and manage of expenses in accordance with the economic situation. The COVID-19 situation has led to a reduction in employee expenses such as annual bonus, etc., as well as lower expenses related to fees, taxes and other expenses from the previous year. Also, in 2021 the group has loss from foreign exchange decreased by 6.18 million baht, etc.

Operating profit and net profit

Operating profit and net profit(loss) for 2019, 2020 and 2021

Item	For the Year Ended 31 December		
	2019	2020	2021
Operating Profit(loss) (Baht Million)	(181.02)	76.33	(125.83)
Net Profit (Loss) (Baht Million)	(198.80)	42.93	(143.27)
Operating Profit Margin (%)	(12.56)	5.18	(9.89)
Net Profit (Loss) Margin (%)	(13.80)	2.91	(11.26)

Group performance over the past 3 years from 2019 - 2021, showing profit (loss) from operations before finance costs and income tax are THB (181.02) M, THB 76.33M and THB (125.83) M, respectively. Operating profit in 2021 is reduced by 265% from 2020, mainly due to higher labor costs due to the need to fabricate work to be completed on schedule. Thus, the number of labor and overtime has to be increased from normal and there is also an increase in overhead costs from the previous year, resulting in the company's profits decreasing from the previous year.

4.3 Financial Position Analysis

Assets

The Group's total assets as of 31 December 2019, 2020 and 2021 were THB 1,920.79M THB, 1,784.31M, and THB 1,651.71M, respectively. The Group's core assets at the end of 2021 consist of cash and bank deposits, trade accounts receivable, unbilled income, inventories and fixed assets, which are all assets necessary for the operation of the Group's projects. The change in total asset value is therefore a result of the value of current assets related to the type of work and operation that changes over time according to the amount of work performed each year.

1) Cash and Short-Term Investment

As of 31 December 2019, 2020 and 2021, the Group's cash and short-term investment totaled THB 30.31M, THB 97.60M, and THB 40.09M, respectively. For the year 2021, the Company's cash balance has decreased because in the year 2020, the Company received payment for goods from customers at the end of the period. During the year 2021, the Company has cash to use as working capital for the purchase of raw materials for the production and fabrication of steel structures, and for paying other expenses, including expenses related to employees, etc.

2) Accounts Receivable and Other Receivable

As of 31 December 2019, 2020 and 2021, the Group's accounts receivable and other receivable totaled THB 413.99M, THB 234.88M, and THB 194.54M, respectively. In 2021, total receivables decreased by 17.17% from prior year. Changes in accounts receivable at the end of each year were based on types of work and numbers of projects being executed by the Group. Also, the amount of finished product that could be charged to the customer as compared with the advance from the customer for that particular project was considered. If at the end of the year, the project's work in progress of the group was of high value and the amount charged to the customer based on the percentage of completion was higher than the advance from the customer, the group would have a high level of accounts receivable.

As at December 31, 2019 and 2020, the Group had accounts receivable and other receivables increased from the previous year which is in accordance with the progress of the work during the reporting period. Most of which are parts fabrication which has many medium and small project with smaller value and numbers. The Group's accounts receivable and other receivable could be divided based on types and receivable aging as follows:

Structure of accounts receivable and other receivable as of 31 December 2019, 2020 and 2021

Item	As of 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%

Other Receivable						
Total Other Receivable	26.75	6.46	10.63	4.53	9.52	4.90
Total Accounts Receivable and Other Receivable	413.99	100.00	234.88	100.00	194.54	100.00

The Group's accounts receivable and other receivable were from unrelated parties and most accounts receivable consisted of undue balances. The Group had a credit term policy of 30–120 days from the date of invoice. As for the policy for setting aside an allowance for doubtful debts, the Group will consider payment history, credit status, and aging analysis of debtors. Debt servicing ability (credit) of each customer was analyzed and evaluated on a regular basis. As of 31 December 2021, no allowance for doubtful accounts was set after the management consideration, and there were no signs of payment defaults.

3) Unbilled Receivables

Unbilled receivables refer to a transaction in which a value of work is recognized based on the percentage of completion method but is not yet charged to the customer as the due date as per the manufacturing service contract is not yet reached. Such transaction not yet be recorded as an account receivable and therefore must be recorded as unbilled receivables. A change in unbilled receivables each year is derived from the difference between the amount of revenue recognized based on the percentage of completion method and the amount of revenue charged to the customer according to the provision in the manufacturing service contract. If the amount of revenue recognized based on the percentage of completion method is higher than the amount of revenue charged to the customer, the difference will be recorded as unbilled receivables at the end of a given period.

As of 31 December 2019, 2020 and 2021, the Group's unbilled receivables totaled THB 432.66M, THB 389.34M and THB 407.59M, respectively. Total unbilled receivables decreased by 10.01% and increased 4.69% in 2020 and 2021, respectively.

4) Inventory

As of 31 December 2019, 2020 and 2021, the Group had inventory of THB 273.29M, THB 244.42M, and THB 260.44M, respectively. Inventory in 2020 decreased by 10.56% from 2019 and 2021 increased by 6.55% from prior year. All inventory items were within the operations of the group and could be divided into:

- 1) Work in process is raw material that has been issued into the project but has not yet begun production. Therefore, the incurred project costs are recorded as construction in progress as part of the assets in the statement of financial position.
- 2) Raw materials and supplies most of which are steel plates and structural steel acquired to fulfill customers' manufacturing orders.

5) Property, Plant and Equipment–Net

As of 31 December 2019, 2020 and 2021, the Group's property, plant and equipment – net totaled THB 617.80M, THB 621.79M, and THB 590.03M, respectively, representing 0.65% increase YOY in 2020 and 5.11% decrease YOY in 2021. The property, plant and equipment–net could be divided into the following categories:

Property, plant and equipment – net as of 31 December 2019, 2020 and 2021

Item	As of 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Land	55.55	8.99	55.55	8.93	55.55	9.41
Land improvement	31.55	5.11	63.99	10.29	57.15	9.69
Building	318.24	51.51	321.87	51.77	295.71	50.12
.41Machinery and Equipment	159.36	25.79	165.49	26.62	171.60	29.08
Office Equipment	9.08	1.47	9.55	1.54	8.13	1.38
Vehicles	9.53	1.55	3.54	0.57	1.79	0.30
Assets under Installation and Construction	34.49	5.58	1.80	0.29	0.10	0.02
Property, Plant and Equipment – net	617.80	100.00	621.79	100.00	590.03	100.00

The value of property, plant and equipment has increased over the past few years mainly due to increases in machinery and equipment, vehicles and assets under installation and construction. The Group purchases additional machinery and equipment such as steel cutting machines, scaffolding, cranes, etc in order to expand its production capacity and support the operation's growth.

6) Other current assets and other non-current assets

Other current assets and other non-current assets as of 31 December 2019, 2020, and 2021

Item	As of 31 December (Mil.Baht)		
	2019	2020	2021
Other current assets	32.73	43.62	32.96
Other non-current assets	32.99	44.98	46.27

Other current assets consist of prepaid insurance premiums, withholding corporate income tax, prepaid corporate income tax, other prepaid expenses, undue input VAT, assets from foreign exchange contracts, and liabilities from foreign exchange contracts. Other non-current assets consist of prepaid deposits and property rental insurance, etc.

Capital Structure

1. Total Liabilities

The Group's total liabilities as of 31 December 2019, 2020 and 2021 were THB 801.73M, and THB 621.39M, and THB 647.26M, respectively, with 22.49% decrease YOY in 2020 and 4.16% increase in 2021. Most liabilities of the Group were current liabilities related to the operations such as short-term loans from financial institutions, accounts payable, unearned revenue from construction. Therefore, changes in total liabilities were in line with changes in total assets and the number of projects in each year.

1) Bill of exchange creditors and short-term loans from financial institutions

As of 31 December 2021, the Group had short-term loans from the bank totaling THB 360.08M, which mainly was a trust receipt facility and promissory note with the bank. The group use credit facility with the financial institutions to facilitate the purchase of raw materials used in the operations.

2) Accounts payable and other payable

As of 31 December 2019, 2020, and 2021, the Group's accounts payable and other payable totaled THB 177.58M, THB 177.50M, and THB 130.62M, respectively. The Group's accounts payable mainly consisted of balances from purchases of raw materials and accrued expenses, etc.

Accounts payable and other payable as of 31 December 2019, 2020 and 2021

Item	As of 31 December					
	2019		2020		2021	
	MB	%	MB	%	MB	%
Unrelated parties						
Accounts Payable and Payable for Purchase of Assets	157.45	88.66	135.31	76.23	108.68	83.20
Accrued Expenses and Other Payable	19.61	11.05	42.19	23.77	21.94	16.80
Related Parties						
Accrued Expenses and Other Payable	0.52	0.29	-	-		
Total	177.58	100.00	177.50	100.00	130.62	100.00

Trade and other payables in 2021 decreased from the previous year by THB 46.88M, mainly due to a decrease in accrued bonuses. Most of account payable was from purchase of raw materials. Generally, the group has different credit terms from different creditors. For foreign steel raw material creditors, credit terms are within a range of 30–180 days for purchases under trust receipt facilities. For domestic steel raw material creditors, some creditors require that the group make partial payments in advance for every purchase and pay the remaining balances when all steel raw materials have been received.

3) Construction revenue received in advance

As of 31 December 2019, 2020, and 2021, the Group's construction revenue received in advance was THB 33.54M, THB 13.92M, and THB 50.02M, respectively. Construction revenue received in advance is cash received in advance from the customer according to the manufacturing service contract. Normally, the customer makes an advance in installments from the contract date and according to the work progress as specified in the contract such as when ordering raw materials. The value of advance payments may vary based upon the conditions stipulated in the manufacturing service contract. Such advance payments will be recorded as part of liabilities in the statement of financial position and gradually recognized as revenue in the income statement according to the percentage of completion and production progress.

2. Shareholders' Equity

The Group's shareholders' equity as of 31 December 2019, 2020, and 2021

Item (Unit: MB)	As of 31 December		
	2019	2020	2021
Share capital			
Registered Capital	378.00	378.00	378.00
Issued and Paid-up Capital	378.00	378.00	378.00
Ordinary Share Premium	495.77	495.77	495.77
Retained Earnings – Appropriated	39.00	41.50	46.00
Retained Earnings – Unappropriated	45.93	86.23	(75.86)
Other Components of Shareholders' Equity	160.22	160.22	160.22
Shareholders' Equity of the Company	1,118.92	1,161.72	1,004.13
Equity Attributable to Non-controlling Interests of the Subsidiaries	0.14	1.20	0.033
Total Shareholders' Equity	1,119.06	1,162.92	1,004.46

The Group's shareholders' equity as of 31 December 2021 decreased from 2020 by 13.63% as a result of the recognition of operating losses of the Company and its subsidiaries in 2021.

Cash Flow

Item (Unit: MB)	For Year Ended 31 December		
	2019	2020	2021
Cash and Cash Equivalents – Brought forward	45.14	30.32	97.60
Operating Activities			
– Operating Profits Before Changes in Operating Assets and Liabilities	(99.70)	146.29	(38.06)
– Changes in Operating Assets and Liabilities	(196.20)	199.52	(10.70)
Net Cash Flow from (Used in) Operating Activities	(295.90)	345.81	(48.76)
Net Cash Flow from (Used in) Investing Activities	(46.95)	(80.52)	(24.76)
Net Cash Flow from (Used in) Financing Activities	328.03	(198.01)	16.01
Cash and Cash Equivalents – Carry forward	30.32	97.60	40.09

Operating profit (loss) from operations before changes in operating assets and liabilities for the year ended 31 December 2019, 2020 and 2021 increased by THB 245.99M and decreased by THB 184.35M, respectively. Cash from operating activities in 2020 increased by THB 641.71M and decreased by THB 394.57M in 2021. The change in cash flow from operating activities came from asset and liability such as trade receivable and other, trade payable and other also construction revenue received in advance, etc.

In 2021, the Group had net cash from investing activities of THB 24.76M and net cash used in investing activities of THB 46.95M and THB 80.52M in 2019 and 2020, respectively, as a result of investment in buildings and equipment of the group.

In 2021, the net cash flow used in financing activities was THB 16.01M, resulting from increase in short-term from bank and made a dividend payment of THB 15.12M. In 2020, the net cash flow used in financing activities was THB 198.01M, resulting from the repayment of short-term from bank and promissory note from other company. In 2019, the group has short-term loan from promissory note from other company and financial institute of THB 343M and made a dividend payment of THB 15.12M

As a result of the change in net cash from operating activities, investing activities and financing activities, cash and cash equivalents at the end of 2019 and 2020, the Group's cash and cash equivalents at the end of the period were THB 30.32M, THB 97.60M, respectively. For 2021, the Group's cash balance at the end of the period amounted to THB 40.09M.

Financial Ratio

Financial ratio	Consolidated		
	For Year Ended 31 December		
	2019	2020	2021
Current ratio (time)	1.63	1.89	1.64
Quick ratio (time)	1.23	1.37	1.14
Debt to equity ratio (time)	0.72	0.53	0.64

Based on financial ratio analysis, the group has sufficient liquidity for continuous operation without any business disruption by considering liquidity ratio and quick ratio. In addition, debt to equity ratio were relatively low. The Company does not have long-term loans and use only short-term credit lines for working capital.

Corporate Governance 2

6. CORPORATE GOVERNANCE

6.1. CORPORATE GOVERNANCE POLICY OVERVIEW

The Board of Directors of BT Wealth Industries Public Company Limited ("the Company") has defined the corporate governance policy to cover the business operations of the Group by referring to the principles of good corporate governance for listed companies 2017 (CG Code) as specified by the SEC. The company has published the corporate governance policy on the company's website for all stakeholders to be informed. There are 8 key practices and guidelines for action in various matters to be comprehensive and consistent, summarized as follows:

PRINCIPLE 1: ESTABLISH CLEAR LEADERSHIP ROLE AND RESPONSIBILITIES OF THE BOARD

- ☐ Define the Company's vision and mission for executives and employees to operate in the same direction.
- ☐ Prepare the charters for the Board of Directors and sub-committee that indicate clearly about the duties, roles and responsibilities of the Board for reference and published on the Company's website. The charters of each committee have to be continuously reviewed and updated.
- ☐ Prepare comprehensive and relevant policies on business operations and published on the Company's website for all employees to be aware and adhere to as a guideline by focusing on creating value for sustainable business, competitiveness, good performance, taking into account the long-term effects, conduct business with ethics, respect rights and be responsible for shareholders and all stakeholders, and social and environmental responsibility.
- ☐ Oversee and supervise the directors and senior management to strictly comply with the rules and regulations within the company and the regulatory agencies. Business operations must be transparent and examined. Related party transaction must comply with the regulations. Provide equal and legitimate rights to all shareholders and proper dividend payment. Take into account about basic human rights for employees' treatment. The Company therefore does not violate the rules of regulatory agencies.
- ☐ Oversee and supervise subsidiaries by establishing measures and mechanisms both directly and indirect, procedures for consideration and operational process are in the Company's Articles of Association.

PRINCIPLE 2: DEFINE OBJECTIVES AND MAIN GOALS THAT PROMOTE LONG TERM SUSTAINABILITY

- ☐ Supervised the management to develop strategies and annual plans in line with the Company's objectives and targets, together with environmental factors of the business at that time, potential, competitiveness, competitors, opportunities and risk appetite. The Company has a Board of Directors Meeting during December every year to review its strategic plan and targets.
- ☐ Review the vision and mission to be clear and can be used as a key concept in shaping the business model and communicating to everyone in the organization, moving in the same direction.

PRINCIPLE 3: STRENGTHEN THE BOARD OF DIRECTORS' EFFECTIVENESS

- ☐ Set up a skill matrix for shaping the structure of directors. The Board is comprised of members possessing expertise in financial engineering, business administration, marketing, law, accounting, finance and other fields that are beneficial for the Company's business. The Company has one independent director who has experience in the core industry of the Company.
- ☐ Set up 4 sub-committees, Audit Committee, Nomination & Remuneration and Good Governance Committee, Risk Management Committee and Executive Committee, to scrutinize and study the management approach of the Company and its subsidiaries before proposed to the Board of Directors for further consideration.
- ☐ The Company clearly segregates and designates duties and scope of powers and duties of each Sub-committee under its charters* to allow each Sub-committee to work transparently, to have sufficient check and balance of power and to review the company's operations. Important resolutions must still be approved by the Board of Directors or Shareholders' Meeting.
- ☐ The definitions of independent directors* adopted by the Company is as specified in the Charter of the Board under the section of the qualifications of independent directors and in compliance with the Capital Market Supervisory Board Notification No. Tor.Jor.39/2559 Re: Application for and approval of offer for sale of newly issued shares. Independent directors of the Company do not hold shares of the company, independent from the management and major shareholders, can express their opinions freely and working with the entire board and management effectively.
- ☐ Board of Directors will elect one of the directors to be the chairman. The Company clearly separates the duties and positions of the Chairman of the Board and the Chief Executive Officer for enhanced effectiveness, governance and transparency as follows:

Chairman of the Board – The Chairman of the Board is an independent director and shall not serve as the Chief Executive Officer or be involved in the Company's routine management. This is in compliance with the principle of segregation of duties in policy formulation and oversight from those in operations management. The Chairman of the Board has the duties as stipulated in the Charter of the Board of Directors.

Chief Executive Officer – The Chief Executive Officer has the duties and responsibilities as defined in the Company's policy.

There is no conflict between Board of Directors and Management. All parties cooperate to lead the business to grow well.

- ☐ Appoint a Company Secretary by defining the scope of duties and responsibilities of the Company Secretary in accordance with the criteria set by the supervisory authority, such as preparing and keeping documents related to Directors, Directors' meeting, Shareholders' meeting and other tasks as assigned by the Board of Directors.
- ☐ Performance evaluation of the committee to be used as a guideline for compensation assessment and improving operational efficiency.

*Note: * Definition of Independent Director, Charter of the Board of Directors and each sub-committee, Roles and Duties of the President and Chief Executive Officer, Details of the Board of Directors and Sub-Committees, Structure and Function are shown in the topic "7. Corporate Governance Structure – Director Information" in this report.*

PRINCIPLE 4: RECRUITMENT AND DEVELOPMENT OF TOP MANAGEMENT AND HUMAN RESOURCES MANAGEMENT

- ☐ The Group aligns its human resource management practices with its business strategies and goals by adopting a rigorous recruitment process to ensure that selected candidates possess the abilities and experiences that fit for the jobs, future growth and requirements of the Group. The Company cares for employees to work happily progressive and better quality of life.
- ☐ Established a Director and Top Executive Nomination Policy in order to ensure to select a professional executive for the position of director and top management of the Company and its subsidiaries. The Nomination & Remuneration and Good Governance Committee screens and selects candidates whose knowledge and abilities match the Company's requirements and propose the nomination of such candidates to the Board of Directors for appointment.
- ☐ The Director and Top Executive Nomination Policy also encompasses the succession planning for top level positions to prepare for the future. The Company has successor development plans for key positions of both the Company and its subsidiaries. The deputy director of each department and the Managing Director are in charge of overseeing the succession planning with support from the Human Resources Department. With an aim to achieve the leadership and business continuity, the Nomination & Remuneration and Good Governance Committee ensures that the succession plans for top level positions of the Company and its subsidiaries are in place and reviews the plans periodically as deemed appropriate.
- ☐ Set up a "Human Resource Management Policy" as a manual on recruitment, working guide on promotion and rotation, annual evaluation guide, etc., to be used as a guideline for the Group's human resources to be consistent and to support the continuous growth of business.
- ☐ Promote and support Directors and Executives attend seminars / training courses that are relevant and beneficial to the performance of the job position.
- ☐ Set up a Remuneration Structure and evaluation
 - ☐ Remunerations of Chief Executive Officer and Executives
 The Board has the authority to approve the remuneration and the bonus from performance for the Chief Executive Officer based on the recommendation made by Nomination & Remuneration and Good Governance Committee. The remuneration and bonus are fair and based on the performance of the Chief Executive Officer achieved and the performance targets assigned. The Chief Executive Officer of the Company also serves as the Managing Director of Best Tech, the Chief Executive Officer waives his right to receive remuneration for his service as the Managing Director of Best Tech.
 - ☐ Remunerations of Executives, and Employees
 The Company sets up a guideline for evaluation practices, promotion, rotation and compensation to provide employees with a way to improve their works. Criteria for remuneration will be the same, based on the Individual performance, the overall performance of the company, economic conditions, including in line with the objectives and goals of the organization and the interests of the business in the long run. The Nomination & Remuneration and Good Governance Committee will consider the appropriate adjustment and remuneration rates and present them to the Board of Directors for approval.

☐ Evaluation of Chief Executive Officer and Executives

The Board assigns the Nomination & Remuneration and Good Governance Committee to arrange for the performance evaluation of the Chief Executive Officer on an annual basis. The Nomination & Remuneration and Good Governance Committee is in charge of review the performance evaluation criteria applicable to the Chief Executive Officer and presenting the results of the performance evaluation which is based on such criteria to the Board for approval. The Nomination & Remuneration and Good Governance Committee also determines the bonus budget based on the prior years' operating results including the annual remuneration of the Chief Executive Officer.

☐ Management of shareholder structure and relationships

The Board of Directors is aware about major shareholder of the company, holding positions as directors. Therefore, to prevent such relationships from affecting the control and administrative power by authorizing the approval authority levels for operations and transactions, clarifying roles, duties, screening and approving on various matters.

☐ Management and Human Resources Development

- ☐ Prepare working manual on recruitment and staff selection, annual manpower planning, promotion and rotation, probation evaluation and annual evaluation, preparation of inside and outside training plans for staffs.
- ☐ Strictly respect the rights of employees in accordance with basic human rights, international laws and regulations. Focus on health care, occupational health, safety in life and property and the working environment of the employees. By establishing Safety Committee and create a "Safety, Occupational Health and Working Environment" policy to enhance the quality of life for all employees. The principles are as follows.

- 1) The Company will encourage employees at all levels to conduct dangerous search activities and to update continuously.
- 2) The Company will promote and support the work of eliminating and preventing all types of accidents that will harm the health, safety and working environment of employees and the company's assets.

- 3) The Company assigns supervisors at all levels to be responsible for supervising the safety, health, hygiene and working environment of employees, introducing, training and acting as an example to their subordinates as well as supervising the use of equipment to protect both the person and machine tools.
 - 4) The Company requires all employees to comply with safety regulations and notifications. The Company will promote training and incentives for employees.
 - 5) It is the responsibility of all employees to be responsible and cooperative in preventing accidents. The workplace must be clean and tidy.
 - 6) The Company will keep track of the results and evaluate the compliance of such policies to achieve results in continuous practice.
- ☐ There are welfare committees to manage employee welfare. Health insurance, life insurance, provident fund, social security fund and uniform are provided for employees. The Company and Best Tech established provident funds in April 2016. The employer contribution rates were 3.00% and 5.00%, depending on the lengths of service of employees, and provident fund members were offered preferred investment options (100% debt instruments and mixed investment in debt instrument and equity instruments) determined by the provident fund committee.
 - ☐ Prepare operating manual and training to use as criteria and guidelines for determining the appropriateness of employees to develop their knowledge and ability in accordance with the duties to be performed. The Group encouraged senior management to be trained and developed to increase knowledge and experience to benefit the operation as needed and appropriate.
 - ☐ Prepare an orientation course for new employees by adopting ethic policy, code of conduct and other company's policies, especially security policy to provide employees with knowledge and prepare them in actual operation.
 - ☐ Set up the target for preventing accidents and recording statistics according to the management goals of occupational health, safety and the environment to achieve positive success. The main goal is zero (ZERO Accident). All contractors / business partners / drivers / or contact persons entering into working area, including Yard / project area / store area / storage area / equipment and PPE equipment control area must wear personal protective equipment with the minimum requirements, namely safety helmets / safety goggles / suits that cover the body properly and iron head shoes or steel head rubber boots.

PRINCIPLE 5: NURTURE INNOVATION AND RESPONSIBLE BUSINESS

- ☐ Implementing a policy and treatment of stakeholders, Policy related to social responsibility (see the full policy details (<https://www.btwealthindustries.com>) and guidelines for all groups of company stakeholders, employees, customers, business partners, business competitors, creditors, the society, the community and the environment are treated appropriately, equitably and fairly for the sustainability and long-term success of the Company. The employees are communicated to acknowledge and strictly observe.
- ☐ Anti- Corruption: Establish an " Anti- Corruption Policy" as detailed on the Company's website. (<https://www.btwealthindustries.com/misc/pdf/sustainability/2016-anti-corruption-en.pdf>).
- ☐ Resources Allocation and Management Establish a "Quality and Environment Policy" by requiring that the operations take into account the environmental preservation of all processes. Apply quality, standard and environmental management systems to operational processes. This allows the Company to develop operational procedures that reduce the impact on the environment as well.

- ☐ Setting rules for waste disposal to control the management of all types of waste in factories that affect the environment in order to comply with relevant laws and regulations.
- ☐ Prepare a manual for working on energy saving in the office, create awareness of valuable resources utilization.
- ☐ Information Technology Management: Prepare an "information technology system policy" which will consist of sub-policies in various matters related to the use of corporate information technology such as continued support policy on Computer Crime Act 2007, Computer Usage Policy, Social Media Usage Policy. The preparation of work manuals on guidelines for the care of information systems, Ethics-Clause in using internet etc. have been disclosed on the website of the company for all employees to acknowledge and abide strictly by the policies and guidelines.

PRINCIPLE 6: STRENGTHEN EFFECTIVE RISK MANAGEMENT AND INTERNAL CONTROL

- ☐ Internal Audit System
 - ☐ Appointed the Audit Committee to perform duties and responsibilities as specified in the Charter of the Audit Committee.
 - ☐ Internal auditor: ANS Business Consultants Co., Ltd. is an internal auditor of the Company to operate, report, and comment as detailed in the section "9. Internal control and related transactions" in this report. The internal auditor has to report the results of the examination and review of various work systems directly to the Audit Committee on quarterly basis to ensure that the company have adequate and effective internal control and internal audit.
 - ☐ Auditors: The Audit Committee has considered the selection of auditors and the remuneration and proposes to the Board of Directors for consideration and agrees, presenting to the Annual General Meeting of Shareholders for approval. The criteria for consideration are the auditor must obtain approval from the SEC and possess the qualifications of the auditor in accordance with the relevant laws and must have knowledge, ability and independence in accordance with the relevant laws. The Audit Committee has access to the necessary information and needs to be considered in the meeting of the Audit Committee. On 10 November 2020, the Audit Committee held a meeting with the auditor without the management attending the meeting, so that the Audit Committee can discuss and request opinions about the company's financial reports directly from the auditor.
- ☐ Conflict of Interest Management
 - ☐ Prevention of Misuse of Inside Information
 The Board of Directors monitors and manages conflicts of interest that may arise between the Company and the Management, the Board or the shareholders. These conflicts also include prevention of inappropriate use of property, information and opportunities of the Company and inappropriate transactions with those who have a relationship with the company. The Group has prevented the use of inside information for equality recognition of information as follows:
 - 1) The Company informed all directors and executives of the Company and the subsidiaries of their duties to report the holding of the Company's securities by themselves, their spouse and minor child(ren) to the SEC pursuant to Section 59 and the penal provisions under Section 275 of the Securities and Exchange Act B.E. 2535 as well as to report the acquisition or divestment of the Company's securities by themselves, their spouse and minor child(ren) to the SEC pursuant to Section 246 and the penal provisions pursuant to Section 298 of the Securities and Exchange Act B.E. 2535.

- 2) The directors and executives of the Company and the subsidiaries, including their spouse and minor child(ren) prepared and submitted the reports on their holding of the Company's securities including the changes thereto to the SEC within 3 business days from the date of such changes. Copies of such reports were delivered to the Company Secretary on the same day of the report submission to the SEC.
- 3) The Company and the subsidiaries restricted the non-public information access to only involved personnel on a need-to-know basis and ensured the security of non-public information. Information owners reinforced involved personnel to strictly comply with the policy.
- 4) The Company Secretary informed the directors, executives and employees privy to confidential information of the non-trading period as detailed below and prohibited them from passing inside information to external parties or unauthorized persons before the public disclosure of the information:
 - ☐ Directors, executives and management of the Accounting and Finance Division, including their related parties, are prohibited from trading in the Company's securities during the period of 1 month before the release of quarterly and annual financial statements and within 24 hours from the release of such financial statements.
 - ☐ If directors, executives and employees have access to non-public and material information that may affect the prices of the Company's securities, they shall refrain from trading in the Company's securities within 48 hours after the public release of such information.
- ☐ Conflict of Interest management Requirements and guidelines on Connected Transactions.

6.3. MAJOR CHANGES AND DEVELOPMENTS

Board of Directors acknowledging the CG Code and recognizing its role as a leader in creating sustainable value for the business. The company has been evaluated for being an excellent corporate governance (5 stars) for the year 2021. The Board of Directors Meeting held on 9 November 2021, considered and reviewed the appropriateness of the CG Code to be used in accordance with the business of the Company. Comments have been recorded in the minutes of the meeting. The management has been assigned to consider creating and developing action plans to suit the business. In which the principle of the operation is still unable to proceed or can only be partially implemented, the Board of Directors will monitor continually and ensure that the code is in line with the CG Code. Key practices that the company has not yet implemented are:

Operation	Reason
Policy on the minimum number of quorum while the Board of Directors will vote at the Board meeting whether There must be at least two-thirds of the total number of directors	The company has a small number of directors, so operations may not be flexible. In the past, all the directors of the Company attending the meeting will attend the meeting until the end.
Participation in the Private Sector Collective Action Coalition Against Corruption Program	The company has an anti-corruption policy and strictly adheres in all aspects including having a closely monitored control system. In the future, the Company may consider participating in the project as appropriate.

The Nomination & Remuneration and Good Governance Committee's Meeting and the Board of Directors' meeting held on 22 February 2022 evaluated the 2021 overall CG Code implementation by considering the compliance report of the corporate governance principles that the Company has prepared and presented. The practices on corporate governance of the Company are consistent and in accordance with the Company's corporate governance policy. The implementation of the CG Code in accordance with the policies and guidelines in the CG Code has been fully complied. There has been continuously developed and improved to be consistent with the business conditions.

Business Partners: The "Practical Guideline for Vendor Selection and Evaluation" has been developed and adheres to the principles of fairness and equality to ensure that the Group and its business partners are fairly benefit. The Group complies with the terms of agreements made with its business partners as well as its Code of Ethics. There are a fair procurement process and contract terms or agreements. This guideline explains the process of registering vendors and evaluating vendors / service providers / subcontractors or contractors to ensure that orders for products or services from vendors / service providers / subcontractors or contractors with quality and receiving quality products or services that meet the needs and on-time delivery. It also encourages suppliers / service providers / subcontractors or contractors to compete and continuous efficient improvement. The process is summarized as follows:

1. Register the list of vendors / service providers / subcontractors or contractors (AVL) by allowing the seller / service provider / subcontractor or contractor to fill in the details in "Vendor registration / contractor". For tasks that are considered important, risky or otherwise, additional operations may be conducted with visits, audits by key managers or individuals related to that job, review past performance, or inquire from a company that is a reference customer including requesting samples to check before making a decision.
2. Assess the quality of the seller / service provider / subcontractor or contractor according to the topics and criteria for scoring. By evaluating the quality, the seller will be evaluated from 5 main topics, namely Product and service quality, product delivery and after-sales service, product or service price, quality of after-sales service and the quality system and / or environment of the seller / service provider. The assessment of subcontractors / contractors will be evaluated in 4 aspects: quality, delivery, price and other aspects such as environment and safety, information provision, etc.

3. In case of failing to meet the evaluation criteria, notify the seller / service provider / subcontractor or contractor for cooperation in improving the product or service or registering a blacklist if the assessment results meet the criteria set by the Company.

Competitors: The Group conducts businesses with professionalism and integrity, competes in accordance with the laws and code of ethics to promote ethical competition. The Group refrains from defaming its competitors and does not use indecent means to obtain information or secrets of competitors.

Creditors: To foster the creditors' trust, the Group strictly complies with the conditions and agreements made with the creditors, punctually fulfill its debt repayment obligations, and use loans for activities that meet the stated loan purposes, the Group refrains from the concealment of information or facts to the detriment of its creditors. In the prior year, the Group strictly complied with conditions and loan agreements and never missed debt repayments despite the turbulence in the financial markets.

8. IMPORTANT PERFORMANCE REPORTS ON CORPORATE GOVERNANCE

8.1. SUMMARY OF THE BOARD'S PERFORMANCE

NOMINATION OF DIRECTORS

The Board of Directors assigns the Nomination & Remuneration and Good Governance Committee to determine the criteria and process for recruiting individuals to serve as directors and chief executive officer. The Company has set a Board Skill Matrix to be a guideline for determining the qualifications of nominate directors for making the board structure consists of diverse personnel in all aspects. The nomination is based on the suitability of candidates in terms of their qualifications, knowledge, experiences and expertise in light of the Company's strategy as well as their ability to devote their time to the Company. The nomination will then be proposed to the Board or the meeting of shareholders for approval. The Company has established the "Director and Top Executive Nomination Policy". This policy is used as a guideline for recruiting qualified persons to serve as directors and executives of the Company and its provisions in respect to the Director Nomination Policy are as described below:

"The Nomination & Remuneration and Good Governance Committee is in charge of nominating qualified candidates to the Board of Directors or the shareholders, as applicable. The nomination process is designed to give preference to persons with leadership, insightful vision, ethics, integrity, proven track record of transparency, and independent judgment. Desire qualifications are identified from the skills, experience and expertise that are necessary for and/or lacking in the Board of Directors based on the Company's policies and strategy, including the satisfaction of all qualification requirements applicable to the positions of director or independent directors as set forth by the Public Limited Company Act B.E. 2535 (and its amendments), the Securities and Exchange Act B.E. 2535 (and its amendments), and the relevant notifications of the Capital Market Supervisory Board and the Office of Securities and Exchange Commission.

Nomination of qualified candidates will be proposed to the Board of Directors and/or the meeting of shareholders, as applicable, for appointment. There is a process for appointing directors, as follows

1. Election of directors to replace directors retiring by rotation is subject to approval from the meeting of shareholders in accordance with the following:
 - (1) Each shareholder has one vote per share.
 - (2) Individual director voting shall apply. The number of nominees whom the shareholders vote for shall not exceed the number of director positions available for such election and shareholders cannot split their votes.
 - (3) Nominees receiving the highest number of votes, in descending order, are considered elected as directors according to the number of vacancies available for such election. In case of vote tie that will result in the number of the elected directors to exceed the number of vacancies available, the chairman of the meeting shall cast a tie-breaking vote.
2. With regard to the election of directors to fill vacancies resulting from other causes than retirement by rotation, the Board of Directors may elect directors to fill the vacancies whereby a three-fourths majority of the total remaining directors is required. The term of a replacing director shall be equal to the remaining term of an outgoing director whom he/she replaces."

The Company does not hire or appoint any person to be the advisors of the Nomination & Remuneration and Good Governance Committee in recruitment.

For the nomination of directors to replace the directors who retired by rotation at the 2021 Annual General Meeting of Shareholders, the Nomination & Remuneration and Good Governance Committee ("Nomination Committee") has criteria for nominating directors by considering the qualifications, knowledge, competence, experience and duties of directors to be removed from their positions. This includes allowing shareholders to nominate persons to be directors from 1-30 December 2020. Procedures and procedures are also published on the Company's website as well as generally acknowledged, where no other shareholders nominate qualified persons.

This year, Assoc. Prof. Dr. Paiboon Sareewiwatthana, an independent director who must be retired by rotation, has period from the beginning of his tenception to the term of re-appointment as a director for more than 9 years, which, according to the Charter of the Board of Directors, is defined: ".....Independent directors have a term of up to 9 years unless necessary and approved by the shareholders' meeting". The shareholders' meeting approved the successive tenure of independent directors in the company for more than 9 years by Assoc. Prof. Dr. Paiboon Sareewiwatthana, as well as the approval of the three directors who must be retired by rotation in 2021, Assoc. Prof. Dr. Paiboon Sareewiwatthana, Mr. Chotic Russamitnakornkul and Ms. Jongkolnee Tansuvan reinstated the position for another term because they deemed that the three directors were experienced and knowledgeable who benefited the Company as well as having time to perform their duties to the fullest. Independent directors can give their opinions freely and qualify for the full qualifications of directors as required by applicable law, corporate regulations and Charter of the Board of Directors.

In addition, Ms. Chutima Katikawong and Mr. Suvit Manomaiyanon, Directors of the Company, have resigned as a director. The Board of Directors' Meeting and the 2021 Annual General Meeting of Shareholders of the Subsidiary, therefore, appointed person as a director. as follows :

<input type="checkbox"/> Mr. Visuth Jirathiyut	Advisor
To hold a position referee	Director / Executive Director : BT Wealth Plc.
	Authorized Director. : Best Tech Ltd.
replacement	Ms. Chutima Katikawong
<input type="checkbox"/> Ms. Jongkolnee Tansuvan	Independent Director Member of the Nomination &
	Remuneration and Good Governance Committee / Member of
	the Risk Management Committee
To hold a position referee	Member of The Audit Committee (Add position)
replacement	Mr. Suvit Manomaiyanon
In the process of nominating one remaining director.	

STRENGTHENING AND SELF-DEVELOPMENT OF DIRECTORS

The Company encourages its directors and senior executives to participate in training programs or activities that widen their knowledge relating to their duties as directors and members of Board Committees. All of Directors of the Company attended the Director Accreditation Program arranged by the Thai Institute of Directors ("IOD"). In addition, some directors also joined other programs such as the Director Certification Program and the Role of Chairman program as shown on Details about the Directors and Executives in this annual report.

When there is an important change in the rules of the regulatory or related agencies, the company has delivered documents including summaries or recommendations or as an agenda item in the Board of Directors meeting, as appropriate for the Directors and Executives concerned to know.

When new directors are appointed, the company secretary will conduct a summary of the Company's information and key points presented to new directors by

- 1) Prepare documents for newly appointed directors whose content includes vision, strategy and business goals and key actions, the Charter of the Board, the Memorandum of Association, Company Regulations and company's latest annual report to be used as a guideline.
- 2) Organize new directors attended all Director Accreditation Program.

In 2021, all of the Audit Directors of the Company attended a seminar with a course "Preparations after the end of the COVID-19 pandemic:100-year crisis, opportunities and expectations after covid-19 pandemic" held by the Auditor's Office.

All of directors and subsidiary directors have been already trained in the necessary courses for directors by the Thai Institute of Directors (IOD). The newly appointed directors of the Company and subsidiaries, Mr. Visuth Jirathiyut and Mr. Piya Suksri, have completed the training in the courses required for directors organized by the Thai Institute of Directors Association ("IOD").

PERFORMANCE EVALUATION OF THE BOARD OF DIRECTORS

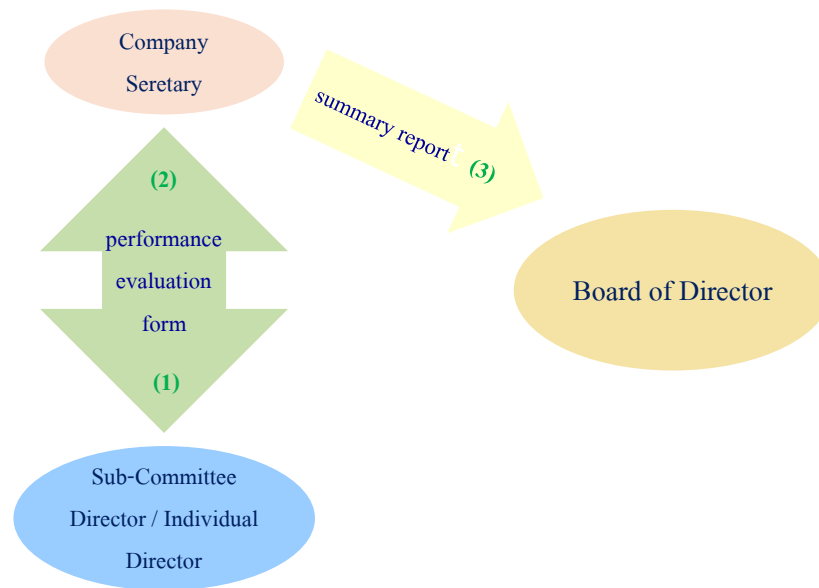

The Board of Directors evaluates performance annually. The performance evaluation of the entire board of directors, Sub-Committee evaluation and Individual Directors for Directors to review their performance, issues and obstacles during the past year and to increase the effectiveness of directors in accordance with good corporate governance principles.

The Evaluation Criteria

Evaluation criteria / Factors to be considered	The Whole Board	Sub-Committee	Individual Directors
Structure and Qualifications of Directors	/	/	/
Roles Duties and Responsibilities of Directors	/	/	/
Meeting of the Board of Directors	/	/	/
Performance of Directors	/		
Relationship with Management	/		
Self-development of Directors and Management	/		

The method of scoring in the assessment will be set as a standard for the committee to compare the results of each topic or compare the results of each year. The score scale ranges from 0–4 (no action on that matter – excellent action on that). The procedures for evaluating the performance of the three committees are the same as follows:

The procedures for evaluating the performance of the whole Board , Sub-Committee , Individual Director

The Board of Directors Meeting, held on 21 December 2021 evaluated the performance of the Board of Director, each Sub-Committee and Individual with the overall performance of duty for the year 2021 of a full score of 4 (score range of 0–4 points) as follows:

Sum up Overall	Board of Director	Audit Committee	Nomination & Remuneration and Good Governance Committee	Risk Management Committee	Executive Committee	Individual
	3.87	4.00	3.82	3.95	4.00	3.82

BOARD MEETING

The Charter of the Board requires that the Board holds at least 4 Board meetings annually. In 2021, the Board of Director held 6 meetings. The Board meeting schedule is planned in advance for the entire year as follows:

- ☐ Meetings every second week after the end of the quarter for the Board of Directors to consider and approve quarterly and annual financial statements, also consider the performance compared to the target and review the strategic plan and goals in accordance with the situation.
- ☐ Meetings in December to consider and approve annual goals and strategic plans. Including reviewing the vision and mission to be used as a framework and guidelines for the next year.
- ☐ Conduct additional meetings as necessary, such as consideration of related party transactions, transaction approvals in the authority of the Board of Directors, reviewing goals and plans, etc.
- ☐ The Board of Directors requires at least 1 meeting of non-executive directors without the management attendance to exchange ideas in terms of economic conditions and management approach in the next year. In 2021 there was one meeting held on 21 December 2021.
- ☐ Audit Committee requires at least 1 meeting annually with auditor without the management attendance. In 2021 there was one meeting held on 9 November 2021.
- ☐ The charter of the sub-committee, the Risk Management Committee and the Nominating & Remuneration and Good Governance Committee, requires at least 2 meetings per year. In 2021, there were two meetings and four meetings, respectively.

In preparation for the meeting, the Chairman of the Board and the Chief Executive Officer jointly consider the items to be included in the Board meeting agendas on the basis of importance and necessity. Other directors may propose items to be included on the Board meeting agendas and the members of the Company's management team will attend the discussion of relevant agenda items to provide additional and supporting information.

The Company Secretary submits the meeting invitation letter and meeting documents to directors at least 7 days in advance of each Board meeting in order that the directors have sufficient time to study the meeting agenda and meeting documents. Following each Board meeting, the Company Secretary prepares minutes of the meeting in writing and present the draft minutes to directors within 7 days for review prior to the adoption thereof at a subsequent Board meeting. The minutes and all supporting documents are properly retained and made available for examination by the Board and relevant regulators.

The Chairman of the Board presides as the chairman of the meeting and allocates sufficient time for the management team to present their proposals and for the directors to comprehensively discuss relevant issues. All Directors realized of their roles and responsibilities by attend the meeting and allocate time to consider and scrutinize issues prior to the decision on the agenda

For the year 2021, due to the continuous situation of the coronavirus-2019 epidemic therefore, in order to prevent and reduce the risk of the gathering of the crowd at the Board of Directors meeting, directors and meeting attendees can attend at the company's meeting room (offline) and via electronic media (online) by strictly adhering to the rules set by the relevant departments. In the year 2021, the Company's directors have a combined average of attendance at the Board of Directors' meetings. This represents 100% of all board meetings held in the year. All of directors attended the meeting representing 100 percent. Details of attendance and number of meetings of each committee held during the year are as follows.

REMUNERATION OF DIRECTOR AND EXECUTIVE

The Company does not hire or appoint any person to be the advisors of the Nomination & Remuneration and Good Governance Committee in the consideration of compensation. The Board assigns the Nomination & Remuneration and Good Governance Committee to deliberate on the structure, amount, forms and criteria for the payment of cash and non-cash remuneration in all forms applicable to the Chairman of the Board, directors and the Chief Executive Officer. The current criteria are reviewed against the remuneration packages adopted by other companies in the same industry as the Company and companies that are listed on the stock exchange and is comparable to the Company in terms of their market capitalization. The remuneration must be commensurate with the duties and responsibilities of each director. The Nomination & Remuneration and Good Governance Committee will recommend the remuneration of the directors and members of Board Committees to the Board for endorsement and proposal thereof to the shareholders for approval on an annual basis.

For the year 2021, the 2021 Annual General Meeting of Shareholders approved the remuneration of directors for the year 2021 as proposed by the committee as follows:

* The position fee is a monthly compensation in which the company determines the amount of money according to the position of director, only one position will be paid : approved at the same rate as the remuneration for the year 2020.

Position	Board of Director	Audit Director	Nomination Director	Risk Management Director	Executive Director
Chairman	50,000	45,000	-	-	-
Member	40,000	-	-	-	-

* Annual gratuity is annual remuneration, which is determined by the performance of the Company. The Nomination & Remuneration and Good Governance Committee proposes the budgetary framework for the annual gratuity of directors to the Board for endorsement and subsequently to the meeting of shareholders for approval. For directors' 2020 annual gratuity, the 2021 Annual General Meeting of Shareholders approved for abstain payment of 2020 annual gratuity for directors as The Nomination Committee and the Board of Directors proposed.

Details of the directors' remunerations in 2021 were as follows:

Name / Position	Retainer Fee Baht/Month	Gratuity Baht/Year	Total Baht/Year

All of directors are fully aware of the time commitment need and none of the Company directors holds directorship in more than 5 listed companies. The Company requires all directors and top managements to prepare reports, "Report of Related Parties of Directors, Management, Major Shareholders, Authorized Control" for knowing the position in other companies and update the information on yearly basis. The list of directors, position in the Company, history of education, experience and holding positions in other companies are described in "Details about Directors, Executives, Persons with Controlling Interest and Company Secretary" in the attachment to this report.

SUPERVISION OF SUBSIDIARIES AND ASSOCIATED COMPANIES

The Company operates as a holding company with subsidiaries, direct and indirect measures and mechanisms have been established in the Company's regulations "Section 9 Supervision and Management of Subsidiaries" to supervise subsidiaries in order to comply with the Company's policies, laws, guidelines and related notices to maintain the interests of the investments of subsidiaries. The Company has made "Investment Policy, Corporate Governance Policy for Subsidiaries and Associates and Holding shares in companies which the company and its subsidiaries invest Policy" to be used as guidelines for supervising the Group companies to operate in the same way.

This rules and policy set out important guidelines for the supervision of subsidiaries and associates. In such matters, sending representatives of the Company to be Directors and Executives in subsidiaries and associated companies. Submission of proxy in proportion to shareholding in each company. Submission of such representative must be considered and approved by the Board of Directors taking into account the suitability of each company, control of compliance with contract and laws, rules and regulations. Substantive transactions before directors and executives appointed by the Company to position in the subsidiary can vote, they must first be approved by the Board of Directors, etc.

FOLLOWING UP ON THE IMPLEMENTATION OF THE CORPORATE GOVERNANCE POLICY AND PRACTICE

The Company realizes the importance of good corporate governance. The related policies and practices have been established in the corporate governance policy of the company and the business code of conduct. Along with promoting real action to build confidence among all groups of stakeholders. The Company pays attention to good corporate governance by establishing related policies and practices in the Corporate Governance Policy of the Company and the Business Code of Conduct along with promoting real action to build confidence among all groups of stakeholders. The board has followed up and found that the company has acted appropriately according to the policy guidelines. The results of the performance of each criteria are reported in the topic "Part 2 Corporate Governance—6.3. Major Changes and Developments – Principle 6: Ensure that there is an appropriate risk management and internal control system".

8.2. AUDIT COMMITTEE REPORT

The Audit Committee has been assigned by the Board to perform duties according to Audit Committee Charter and the notifications of the Stock Exchange of Thailand Re: Qualifications and Scope of Work of the Audit Committee. The Audit Committee is comprised of 3 independent directors, it represents a minority of shareholders who will supervise the company's operations to be accurate and transparent. The chairman of the Audit Committee possesses knowledge and experience in finance and accounting. Therefore, the Audit Committee can perform its duties independently and effectively. In 2021, the Audit Committee held 4 meetings which were attended by all of its members and 1 time meeting with auditors without management in attendance.

In 2021, Mr. Suvit Manomaiyanon, Independent Director, Member of the Audit Committee and Member of the Nomination & Remuneration and Good Governance Committee, resigned from the position. Nomination & Remuneration and Good Governance Committee therefore, have recruited and appointed suitable and competent persons to replace by appointed Ms. Jongkolnee Tansuvan, Independent Director, Member of the Nomination & Remuneration and Good Governance Committee and Member of the Risk Management Committee take over another position as audit committee member.

Highlights of the Audit Committee performance are as outlined below:

Review of Financial Reports

The Audit Committee, in cooperation with the auditors and the executives of the Company, reviewed the quarterly financial reports and audited the annual financial report to ensure that the financial reports of the Company and its subsidiaries are prepared, in all material respects, in accordance with the generally accepted accounting standards and present adequate and reliable information.

Review of Internal Control System and Internal Audit

The Audit Committee has appointed ANS Business Consultants Company Limited to perform the duties of the Company's internal auditors. In 2021, internal auditors have reviewed the Company's important work processes according to the approved plan. The report was prepared and presented to the Audit Committee and the Board of Directors to acknowledge every quarter, including the assessment of the adequacy of the internal control system of the Company and its subsidiaries. In addition, the Audit Committee has regularly monitored the progress of improvements and fixes of the internal control system that has been audited and reviewed. In addition, the Company also has a channel for receiving complaints or information about fraud to assess the behavior of corruption. In 2021, no one complained or gave any information about corruption in any way.

Screening and Nomination of Auditor and Audit Fee to the Board of Directors

The Audit Committee deliberated on the proposal of auditor and audit fee to be submitted to the Board of Directors for endorsement on proposing to the meeting of shareholders for approval. The consideration criteria are: the auditor must be approved by the Office of Securities and Exchange Commission, the auditor's qualifications must be in accordance with relevant laws, the auditor must possess knowledge, capabilities and independence that meet applicable legal requirements, and the annual audit fee should be commensurate with the scope of audit. The 2021 annual general meeting of shareholders approved the appointment of Ms. Kosum Cha-em, CPA license No. 6011 or Mr. Termphong Opanaphan, CPA license No. 4501 or Mrs. Poonnard Paocharoen, CPA license No. 5238 from EY Office Limited as auditors of the Company and its subsidiaries. The total annual audit fee for the Company and its subsidiaries in 2021 of 2,580,000 Baht, divided into the Company's annual audit fee of 800,000 Baht and the subsidiaries' annual audit fee of 1,700,000 Baht and non-audit fee of 80,000 Baht for a subsidiary.

Consideration of Reports on Related-Party Transactions or Transactions Involving Potential Conflicts of Interest

In 2021, the Audit Committee considered and rendered opinions on related-party transactions between the Company and its subsidiaries/parties having potential conflicts of interests and transactions involving potential conflicts of interest to ensure that these transactions were in the normal course of business, appropriate in terms of prices, reasonable, and mainly for the Group's benefits. The Company adheres to the Corporate Governance Policy and is confident that its practices are in accordance with conditions and criteria stipulated by regulators. Related-party transactions and transactions involving potential conflicts of interest are disclosed in the notes to the financial statements of the Company and its subsidiaries in annual report.

Supervision of Compliance with Rules, Regulations and Policies

The Audit Committee exercises oversight to ensure that the Company operates businesses in strict compliance with applicable policies, laws, rules and regulation. The Audit Committee also keeps abreast of regulatory changes, the developments in laws governing securities and exchange, the SET's rules and requirements and always applies them to the Company in a timely and proper manner.

Overall in 2021, the Audit Committee has performed its duties with diligence, independent opinion openly, transparent and in full compliance with the charter of the Audit Committee approved by the Board of Directors, exercised oversight to ensure that the internal control system is efficient and effective by taking into account the Company's internal audit report prepared by ANS Business Consultants Company Limited, which is the Company's internal auditor, including the internal control recommendations given by the auditors of EY Office Limited. Vice President, Finance and Accounting Division, is the Secretary to the Audit Committee and directly liaises with the internal auditor and the external auditors. The Audit Committee, based on information and reports mentioned above, is of the opinion that the internal control system and the risk management system of the Company and its subsidiaries are appropriate and adequate to safeguard the Group's assets. The Company demonstrates good corporate governance. The Company's financial reports are prepared in accordance with the generally accepted accounting standards. Disclosure of financial reports is reliable, accurate, complete and adequate without any significant defects. The Company upholds the business ethics and demonstrates compliance with relevant rules, regulations and laws, including the criteria set by the Stock Exchange of Thailand and the Office of Securities and Exchange Commission.

8.3. SUMMARY OF THE PERFORMANCE OF THE SUB-COMMITTEES

Performance of duties of the Nomination & Remuneration and Good Governance Committee

The Nomination & Remuneration and Good Governance Committee ("the Nomination Committee") is entrusted by the Board with key responsibilities as set out in the Charter of the Nomination & Remuneration and Good Governance Committee. In 2021, the Nomination Committee held 4 meetings, highlights of the Nomination Committee's performance are as outlined below:

Director nomination

The Nomination Committee nominates qualified director candidates to fill the seats vacated by directors who resign or retire by rotation. Considerations are based on nomination criteria such as qualifications, the relevance of their skills and expertise to the Company's business and their commitment of time and dedication.

At the 2021 Annual General Meeting of Shareholders (“2021 AGM”), there were 3 directors retiring by rotation, namely Assoc. Prof. Dr. Paiboon Ssreewiwatthana, Mr. Chotic Russamitnakornkul and Ms. Jongkolnee Tansuvan. The Nomination Committee and Board of Director proposed to the 2021 AGM the re-appointment of these 3 directors as the Company’s directors for another term in view that their qualifications, skills, knowledge and expertise were in line with the Company’s strategy and they demonstrated strong dedication and time commitment for their duties.

In 2021, Mrs. Chutima Katikawong, Director and Executive Director and Mr. Suvit Manomaiyanon, Independent Director, Member of the Audit Committee and Member of the Nomination & Remuneration and Good Governance Committee, resigned from the position. Nomination & Remuneration and Good Governance Committee therefore, have recruited and appointed suitable and competent persons to replace them by appointed Mr. Visuth Jirathiyut, an advisor of the Company, to serve as a director and executive director of the Company and appointed Ms. Jongkolnee Tansuvan, Independent Director, Member of the Nomination & Remuneration and Good Governance Committee and Member of the Risk Management Committee take over another position as audit committee member.

Evaluation of the performance of the Chief Executive Officer

The Nomination Committee is a committee that has the power and duty to set the rules and evaluated the annual performance of the Chief Executive Officer and proposed to the Board of Directors for consideration to track and ensure that the performance was in line with the roles and responsibilities assigned by the Board as well as to steer the management team’s efforts towards the annual goals and targets.

In the assessment, a formulated assessment is used divided into 3 main parts 100% full score, each part will have a different weight.

Part 1: Performance	70% Weight
Part 2: Management Skills	15% Weight
Part 3: Management Behavior	15% Weight

Each section contains criteria for measuring performance according to sub-clauses. Each item will have a different full score in order of importance. When combined, the full score in each section is equal to 100 points.

Determination of structure, amount, forms and criteria for all types of remunerations

Director: The Nomination Committee proposed all types of 2020 annual remunerations of the director to the Board for consideration and proposal thereof to the meeting of shareholders for approval. The Nomination & Remuneration and Good Governance Committee’s consideration criteria includes the appropriateness of the structure, amount, and form of remunerations in view of each director’s performance and the director remuneration package of other listed companies that are comparable to the Company in terms of size and business type.

Chief Executive Officer and Employees: The Board of Directors has considered and approved all types of remuneration of the Chief Executive Officer and employees based on performance, consolidated results of the Group including the future business plan of the Group.

Supervise the implementation of corporate governance policy.

Supervise the Company to comply with the policies and criteria of corporate governance including reviewing the actions taken in various matters relevant appropriately and in line with the Company's business. The Company received an excellent corporate governance assessment for the year 2021 (5 stars).

Reviewed the Charter of the Nomination & Remuneration and Good Governance Committee

The Nomination Committee has reviewed the Charter of the Nomination Committee to be clear and consistent with the current situation and to make the nomination committee's role defined clear and comprehensive in all matters related.

**Performance of duties of Risk Management Committee**

The Risk Management Committee is comprised of 3 members and chaired by an independent director. The Risk Management Committee is mandated to perform duties in accordance with the Charter of the Risk Management Committee prescribed by the Board of Directors. In 2021, the Risk Management Committee held 2 meetings. Highlights of the Risk Management Committee's performance are as outlined below:

Manage the coronavirus (Covid-19) pandemic

Coronavirus 2019 (COVID-19) continues to spread during 2021. The Company's Risk Management Working Group, together with its Management, has established measures to prevent and supervise employees, follow news and announcements from government agencies and strictly urge employees to be self-defense, as well as coordinate and provide vaccines for employees, contractors and labor employees as a way to prevent infection or reduce severe infections if infected.

Consideration of the 2022 Risk Management Plan and Acknowledgment of the Risk Management Performance Update

The Risk Management Committee Meeting acknowledged the progress of risk management operations conducted in 2021. The operations carried out the risk assessment of the organization and various units in the Group at both Chachoengsao factory and Sattahip factory. Summarize the number of risks and risk management of each units have been prepared together with risk management plans for the year 2022 and preliminary risks of all units for being as a risk management framework of the Group.

The Company is cognizant that all risks, regardless of their causes and impact levels, entail detrimental effects on the Company's performance and operations. Therefore, the Company attaches significance to the comprehensive risk management to effectively manage, mitigate and eradicate risks for optimized benefits of the Company.

9. INTERNAL CONTROL AND RELATED TRANSACTIONS

9.1. INTERNAL CONTROL SYSTEM

The Board of Directors has appointed the Audit Committee to have duties and responsibilities as specified in the Charter of the Audit Committee. The list of directors, structure and other details is shown in "7. Corporate governance structure – detail about Sub-committee." in this report.

The Company is a holding company and has Best Tech as its core company operating the steel fabrication business which is a core business and the main source of revenue of the Company. Therefore, the assessment of the Company's internal control system encompasses the assessment of both Best Tech's internal control system and the Company's supervision of its subsidiaries' operations.

HEAD OF INTERNAL AUDIT AND HEAD OF COMPLIANCE

The Company has engaged ANS Business Consultants Company Limited ("ANS") as its internal auditor continued since 31 July 2014 and ANS has designated Mr. Amornpong Nualwiwat, director, as the head of internal auditor of the Company. The Company assigned Mr. Piya Suksri, Chief Financial Officer, to be the coordinator between the Company and Internal Auditor and Audit Committee.

The Audit Committee is in charge of reviewing the independence of the internal audit unit and endorsing the appointment, transfer and dismissal of the Company's internal auditor or any unit being responsible for the Company's internal audit activities. The Audit Committee reviewed the qualifications of ANS and Mr. Amornpong Nualwiwat and concluded that they possessed independence and qualifications that suitable for the position as Mr. Amornpong Nualwiwat had more than 10 years of internal audit experiences and completed the Certified Professional Internal Audit of Thailand Program. Qualifications of the Head of Internal Audit are as outlined in the section of Details about Head of Internal Audit in this Annual Report.

ANS audited Best Tech's internal control system from September – October 2014 at the head office, the Chachoengsao office and the Sattahip office. The audit covered 9 work processes, i.e., 1) the sale/bidding process 2) the project management process 3) the product design and development process 4) the procurement/employment process 5) the inventory management process 6) the accounting and finance process 7) the information technology management process 8) the fixed asset, tool and equipment management process and 9) the human resources management process. ANS issued a report on internal control audit which presented audit findings and recommendations about each of the audited processes. These suggestions have been modified accordingly by management.

In the following years, ANS has prepared an annual audit plan and perform a system audit include follow-up improvements in the part of the system that has been reviewed and commented on continuously.

In 2021, ANS audited Sales and Billing Information system, Human Resource Management Process, Cost Management System and Project Budget and Information Technology Management Processes. ANS operates in accordance with the audit plan established by considering risks that are critical to the business in accordance with the circumstances. ANS has issued an audit report and audit findings and provide suggestions on what should be improved in each process report to the Audit Committee and the Board of Directors. The said audit report included a summary of internal control and risk management issues that the Company and subsidiaries should work on in order to ensure that the internal control system

and the risk management are efficient, adequate and appropriate. In this regard, the management team has undertaken improvement actions on most of the issues included in the recommendations. The past internal audits found no indications of fraud or defects that may cause serious damage. The internal auditors and the Company's auditors do not have any significant issues regarding the Company's internal control system and risk management.

OPINIONS OF THE BOARD ON THE COMPANY'S INTERNAL CONTROL SYSTEM

The internal auditor has assessed the adequacy of the Group's internal control system. For the year 2021 by using data from the adequacy assessment form of the internal control system prepared when applying for a listing license in the stock exchange, as well as consider policies of relevant administrative and regulatory regulations and the overall opinion of the internal audit work of the year 2021 for Best Tech and Engineering Limited, the subsidiary that has the most major activities in the group. It is believed that this assessment can reflect the internal control of the Company.

Based on the assessment of the internal control system, internal auditor concluded that, in overall, the Group has an internal control system covering all 5 elements in accordance with the integrated internal control framework, namely control environment, risk assessment, control activities, information and communication, and monitoring activities. Build reasonable confidence that the risk management is at an acceptable level. Once the internal auditor detects a defect and report to the management and the responsible unit, the management has urged to correct and improve within a timely manner. In addition, the Risk Management Division has continuously monitored duties and report improvement progress to the Audit Committee every quarter.

In case that various business units encounter problems and obstacles in the operation, the management will use the Operation Meeting mechanism to jointly find a conclusion to solve the problem and follow up with the amendment in time.

The Audit Committee and the Board of Directors held on 22 February 2022 have considered and acknowledged the result of such assessment and have opinions in consistent with the opinion of the internal auditor and have concluded that the Company's internal control and risk management system were adequate and appropriate and that the Company ensures that there were adequate personnel to effectively implement the systems. The Company also has in place the internal control system that is adequate for the Company's supervision of its subsidiaries' operations to prevent against the abusive or unauthorized use of assets of the Company or its subsidiaries by directors or executives as well as for controlling transactions with persons having potential conflicts of interest and related parties.

MANAGEMENT OF CONFLICTS OF INTEREST

Business dealings generally involve multiple parties. To prevent transactions that may be in conflict with the best interest of the Company and its shareholders and to uphold the good corporate governance principles, the Board of Directors has established the policies governing the conflicts of interest of Company and its subsidiaries addressing different aspects of our transactions. These policies are disclosed on the Company's website under the section of "Code of Conduct". The policy is related to each other as follows:

- 1) Policy in making connected transactions involving trade agreement done in similar manner a reasonable person would do to his counter-party in similar situation.
- 2) Policy in making new venture.
- 3) Policy in shareholding of companies that the Company and its subsidiaries have invested in.
- 4) Policy in lending to joint ventured company.
- 5) Policy in preparation of written documents.

9.2. RELATED-PARTY TRANSACTIONS

Approval Procedures for Related-Party Transactions

Previously, the Company operated as a limited company and thus did not establish procedures governing related-party transactions or an audit committee to review and render opinions on related-party transactions. However, the Company has thereafter defined measures and procedures governing the approval of related-party transactions and transactions with persons having potential conflicts of interest, according to which such transactions shall be escalated to the Audit Committee for opinions of the appropriateness of such transactions in view of the Company's best interest. For related-party transactions that are beyond the Audit Committee's fields of expertise, the Company will solicit opinions of independent experts or the Company's auditor on such transactions to support the consideration or decision of the Audit Committee and/or the Board and/or the meeting of shareholders, as applicable.

Persons with potential conflicts of interest or related parties shall not have the right to vote on such transactions. Related-party transactions that have been executed are disclosed in the notes to the audited financial statements of the Company, the Annual Report and the Annual Filing (Form 56-1 One Report) of the Company.

Related-Party Transactions Policy and Outlook

1. Related-Party Transaction Policy

- 1) Directors and executives of the Company and subsidiaries must prepare reports on conflicts of interest of themselves and their related parties and submit such reports to the Company in order that the Company has information beneficial for its compliance with rules governing related-party transactions.
- 2) Related-party transactions that may give rise to conflicts of interest shall be avoided.

- 3) Where it is necessary to execute related-party transactions, all related-party transactions of the Company and subsidiaries must be escalated to the Audit Committee for opinion and subsequently to the Board or the meeting of shareholders (as applicable) for approval. Exception applies to related-party transactions which have normal commercial terms and are in accordance with the principles that have already been approved by the Board.
- 4) The Company's internal procedures governing related-party transactions and applicable rules prescribed by the Office of Securities and Exchange Commission and the Stock Exchange of Thailand shall be complied with.
- 5) The prices and conditions of related-party transactions shall be the same as those executed with third parties (arm's length basis) and must be fair, reasonable and in the Company's best interest. Where such benchmark is not available, the Company and subsidiaries shall refer to the prices of products and services of the same or similar terms and conditions of external parties.
- 6) Parties having conflicts of interest with related-party transactions shall not have the authority to approve or vote on such transactions.
- 7) The Company or subsidiaries may appoint an independent appraiser to evaluate and compare the prices of major related-party transactions to ensure that they are reasonable and in the Company's best interest.

2. Outlook of Related-Party Transactions with Persons having Potential Conflicts of Interest

Despite the Company's policy to avoid related-party transactions, the Company may have to continue to enter into related-party transactions with entities and/or persons having potential conflicts of interest in the future in the circumstances that related-party transactions are necessary and beneficial for the Company. The outlook of related-party transactions is as summarized below:

- 1) Short-term rental of assets, i.e., the rental of office building by the Company and Best Tech from a director, are likely to continue in the future.
- 2) Financial assistance:
 - 2.1) Loans from directors and loan guarantees by directors – The Company anticipates that these transactions will not occur in the future as the Company does not have a policy to borrow from its directors nor to seek guarantees from directors for the future loans of the Company or subsidiaries.
 - 2.2) Advance payment by related entities or persons – The Company anticipates that these transactions will occur in the future as and when necessary for the business.

For future related-party transactions, the Company shall comply with the laws governing securities and exchange, Articles of Association, notifications, orders or related rules, including the rules governing related-party transactions and the acquisition and disposal of major assets of the Company. Such transactions shall not give rise to conflicts of interest and shall be conducted in the best interest of the Company and all shareholders.

Financial Statement 3

REPORT OF THE BOARD OF DIRECTORS' RESPONSIBILITY FOR FINANCIAL REPORTING

The Board of Directors emphasize duties and responsibilities in taking care of the company's business to run well. It is responsible for the separate financial statements and the consolidated financial statements of the Company and its subsidiaries. The financial statements have been prepared in accordance with generally accepted accounting standards and the regulations of the Securities and Exchange Commission. The company has chosen an accounting policy that is suitable for the company. The financial statements have been audited by a certified public accountant. The auditors have audited in accordance with generally accepted auditing standards and expressed unqualified opinions on the financial statements of the Company and its subsidiaries.

The Board of Directors has assigned the Audit Committee. It consists of independent directors who are responsible for overseeing the internal control system, risk management system and reviewing the Company's and its subsidiaries' financial statements. To ensure that the 2021 financial reports of the Company and its subsidiaries are prepared accurately and adequately disclosed. The Audit Committee has expressed its opinions on such matters as stated in the Audit Committee Report.

The Board of Directors considers that the internal control system and the overall risk management system of the Company and its subsidiaries are appropriate and sufficient to ensure that the 2021 Financial reports of the Company and its subsidiaries are prepared in accordance with financial reporting standards and relevant laws.

Associate Professor Dr. Paiboon Sareewiwatthana
Chairman of the Board of Directors

BT Wealth Industries Public Company Limited

and its subsidiaries

Report and consolidated financial statements

31 December 2021

Independent Auditor's Report

To the Shareholders of BT Wealth Industries Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of BT Wealth Industries Public Company Limited and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2021, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of BT Wealth Industries Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of BT Wealth Industries Public Company Limited and its subsidiaries and of BT Wealth Industries Public Company Limited as at 31 December 2021, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matter and how audit procedures respond are described below.

Revenue from fabrication work

The Group has disclosed its policies on recognition of revenue from fabrication work, estimated cost of fabrication work and allowance for loss on fabrication work projects in Note 4.1 and Note 5 to the financial statements, respectively. I identified revenue recognition, cost recognition and estimation of possible losses from fabrication work to be areas of significant matter in the audit. This is because the amount of revenues and costs that the subsidiary recognises from fabrication work contracts in each period form a significant portion of the Group's total revenues and total costs. In addition, the process of measurement, the determination of appropriate timing of recognition, and the estimation of possible losses are areas requiring management to exercise significant judgement to assess the percentage of completion, the probability of loss, and the measurement of possible loss. These will affect amount and timing of the recognition of revenue, costs and provisions for fabrication work.

I examined recognition of revenue from fabrication work, costs of fabrication work and allowance for loss on fabrication work projects by assessing and testing the internal controls relevant to the recognition of revenue from fabrication work, and the estimation and revisions of project costs, by making enquiries of responsible executives, gaining an understanding of the controls, and selecting representative samples to test the operation of the controls designed by the subsidiary. In addition, I reviewed the approach and the underlying assumptions that the subsidiary applied in estimating the percentage of completion and cost of fabrication work throughout the project. I evaluated the estimation of possible losses by the management through a compare of the estimated project costs with revenue. I also tested the calculation of percentage of completion and reviewed the rationale for the conclusion reached by management as a result of comparison of the percentage of completion as evaluated by the engineers of the subsidiary and actual cost incurred. On a sampling basis, I examined supporting documents for the recognition of revenue and costs of fabrication work incurred.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

The accompanying notes are an integral part of the financial statements.

BT Wealth Industries Public Company Limited and its subsidiaries
Notes to consolidated financial statements
For the year ended 31 December 2021
1. General information
1.1 General information of the Company

BT Wealth Industries Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the rental of assets and its registered address is at 593/3 Soi Ramkhamhaeng 39 Thep Leela 1), Ramkhamhaeng Road, Wangthonglang, Bangkok.

1.2 Coronavirus disease 2019 Pandemic

The Coronavirus disease 2019 pandemic is adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the group operates. The Group’s management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

2. Basis of preparation

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of BT Wealth Industries Public Company Limited (“the Company”) and the following subsidiary companies (“the subsidiaries”).

Company’s name	Nature of business	Country of incorporation	Percentage of shareholding	
			2021	2020
			(%)	(%)
Best Tech & Engineering Limited	Steel fabrication work	Thailand	99.5	99.5
Best Tech Industries Limited	Steel fabrication work	Thailand	100.0	100.0

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Group have been eliminated from the consolidated financial statements.
- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

2.3 The separate financial statements present investments in subsidiaries under the equity method.

3. New financial reporting standards

3.1 Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

3.2 Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2022

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and, for some standards, providing temporary reliefs or temporary exemptions for users.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

4. Significant accounting policies

4.1 Revenue and expense recognition

Revenues from fabrication work

The subsidiary has determined that its fabrication contracts generally have one performance obligation. The subsidiary recognises fabrication revenue over time where the stage of completion is measured using an output method, based on information provided by engineers or project manager or measured using an input method, based on comparison of actual construction costs incurred up to the end of the period and total anticipated construction costs to be incurred to completion by considering nature of each project.

The likelihood of contract variations, claims and liquidated damages, delays in delivery or contractual penalties is taken into account in determining the revenue to be recognised, such that revenue is only recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

When the value and stage of completion of the contract cannot be reasonably measured, revenue is recognised only to the extent of contract costs incurred that are expected to be recovered.

Sales of construction materials

Sales of construction materials are recognised at the point in time when control of goods is transferred to the customer, generally on delivery of the goods. Sales are measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns, discounts and allowances.

Rental and service income

Rental and service income are recognised over time when services have been rendered taking into account the stage of completion.

Interest income

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

4.2 Balances of contracts with customers

Contract assets

A contract asset is the excess of cumulative revenue earned over the billings to date. Allowance for impairment loss is provided for the estimated losses that may be incurred in customer collection. Contract assets are transferred to receivables when the rights become unconditional (i.e. services are completed and delivered to the customer).

Contract liabilities

A contract liability is recognised when the billings to date exceed the cumulative revenue earned and the subsidiary has an obligation to transfer goods or services to a customer. Contract liabilities are recognised as revenue when the subsidiary fulfil its performance obligations under the contracts.

4.3 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.4 Inventories

Raw materials, spare parts and factory supplies are valued at the lower of cost (under the weighted average method) and net realisable value and are charged to production costs whenever consumed.

4.5 Investments in subsidiaries

Investments in subsidiaries are accounted for in the separate financial statements using the equity method.

4.6 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and allowance for loss on impairment (if any).

Depreciation of investment properties is calculated by reference to their costs on the straight-line basis over estimated useful lives of 20 years. Depreciation of the investment properties is included in determining income.

On disposal of investment properties, the difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period when the asset is derecognised.

4.7 Property, plant and equipment/Depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of plant and equipment is calculated by reference to their costs, on the straight-line basis over the following estimated useful lives:

Buildings and construction	-	5, 10, 20	years
Machinery, tools and construction equipment	-	5, 10	years
Furniture, fixtures and office equipment	-	5	years
Motor vehicles	-	5	years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation and construction.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.8 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on the straight-line over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

The intangible assets with finite useful lives are computer software with useful lives of 5 years.

4.9 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

4.10 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Land and land improvement	-	3	years
Buildings and construction	-	2, 4, 8	years
Machinery and equipment	-	5, 10	years
Furniture, fixtures and office equipment	-	2	years
Motor vehicles	-	5	years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounted the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

The Group as a lessor

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee. Lease receivables from operating leases is recognised as income in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying assets and recognised as an expense over the lease term on the same basis as the lease income.

4.11 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.12 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment, right-of-use asset, investment properties and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss.

4.13 Employee benefits***Short-term employee benefits***

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits***Defined contribution plans***

The Group and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

Defined benefit plans

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

4.14 Provisions

Provisions are recognised when the Group has present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provision for losses on fabrication projects is made in the accounts in full when the possibility of loss is ascertained.

4.15 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.16 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost or fair value through profit or loss (“FVTPL”). The classification of financial assets at initial recognition is driven by the Group’s business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (“EIR”) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss. These financial assets are derivatives.

Classification and measurement of financial liabilities

Except for derivative liabilities, at initial recognition the Group’s financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. The EIR amortisation is included in finance costs in profit or loss.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.17 Derivatives

The Group uses derivatives, such as forward currency contracts to hedge its foreign currency risks.

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. The subsequent changes are recognised in profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

4.18 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Revenue from fabrication contract

The subsidiary recognises revenue from fabrication contracts over time taking into account the stage of completion. The management has exercised judgements in measuring the progress towards satisfaction of the performance obligation, with reference to information provided by the project engineers or project managers and relying on their expertise and past experience and based on comparison of actual construction costs incurred up to the end of the period and total anticipated construction costs to be incurred to completion by considering nature of each project.

Estimated fabrication project costs

The subsidiary estimates costs of fabrication projects based on details of the fabrication work, taking into account the volume and value of construction materials to be used in the project, design cost, labor cost, subcontracting costs and other related costs to be incurred to completion of service. Estimates are reviewed regularly or whenever actual costs differ significantly from the figures used in the original estimates.

Allowance for losses on fabrication work projects

Management applied judgement in estimating the loss they expect to be realised on each fabrication project, based on estimates of anticipated costs that take into account the progress of the project and actual costs incurred to date, together with fluctuations in costs of construction materials, labour and the current situation.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

6. Related party transactions

During the years, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company and related parties.

	Consolidated		Separate		(Unit: Million Baht)
	financial statements		financial statements		PRICING
	2021	2020	2021	2020	POLICY
<u>Transactions with subsidiaries</u>					
(eliminated from the consolidated financial statements)

Normal credit term provided to customers is 30 to 120 days.

9. Contract assets/Contract liability

9.1 Contract assets - unbilled receivables

As at 31 December 2021, the balance of unbilled receivables of Baht 408 million (2020: Baht 389 million) is expected to be billed within one year.

9.2 Revenue recognised in relation to contract balances

As at 31 December 2021, revenue recognised that was included in construction revenue received in advance at the beginning of the year aggregating to Baht 14 million (2020: Baht 34 million).

9.3 Revenue to be recognised for the remaining performance obligations

As at 31 December 2021, revenue totaling to Baht 1,287 million (2020: Baht 1,050 million) is expected to be recognised in the future in respect of performance obligations under contracts with customers that are unsatisfied (or partially unsatisfied). The subsidiary expects to satisfy these performance obligations within two years or less.

10. Inventories

(Unit: Thousand Baht)

	Consolidated financial statements					
	Reduce cost to net realisable					
	Cost		value		Inventories - net	
	2021	2020	2021	2020	2021	2020
Raw materials	259,763	243,491	(4,269)	(4,167)	255,494	239,324
Spare parts and factory supplies	4,944	5,095	-	-	4,944	5,095
Total	264,707	248,586	(4,269)	(4,167)	260,438	244,419

During the current year, the subsidiary reduced cost of inventories by Baht 0.1 million, to reflect the net realisable value. This was included in cost of fabrication work. (2020: the subsidiary reversed the write-down of cost of inventories by Baht 0.2 million and reduced the amount of inventories recognised as expenses during the year).

11. Restricted bank deposits

Restricted bank deposits of the subsidiary consist of fixed deposits of Baht 5 million (2020: Baht 5 million) pledged with banks to secure credit facilities and guarantees granted by banks and bank deposits of Baht 5 million (2020: Baht 5 million) which guarantee received from employee.

12. Investments in subsidiaries

Details of investments in subsidiaries as presented in the separate financial statements are as follows:

(Unit: Thousand Baht)

Company's name	Carrying amounts based							
	Paid-up capital		Shareholding percentage		Cost		on equity method	
	2021	2020	2021	2020	2021	2020	2021	2020
			(%)	(%)				
Best Tech & Engineering Ltd.	300,000	300,000	99.5	99.5	298,501	298,501	339,466	511,432
Best Tech Industries Ltd.	25,000	25,000	100.0	100.0	25,000	25,000	22,745	23,522
Total					323,501	323,501	362,211	534,954

On 30 November 2020, Best Tech & Engineering Ltd. registered an increase in its issued and paid up share capital with the Ministry of Commerce by Baht 220 million (2,200,000 shares at a par value of Baht 100 each) from amounting to Baht 80 million (800,000 shares at a par value of Baht 100 each) to new registered share capital of Baht 300 million (3,000,000 shares at a par value of Baht 100 each).

The Company recognised its share of comprehensive income from investments in subsidiaries in the separate financial statements are as follows.

(Unit: Thousand Baht)

Company's name	Share of profit (loss) from investments in subsidiaries		Dividend received	
	during the year			
	2021	2020	2021	2020
Best Tech & Engineering Limited	(156,744)	29,629	15,223	-
Best Tech Industries Limited	(776)	(361)	-	-
Total	(157,520)	29,268	15,223	-

13. Investment properties

The net book value of investment properties in the separate financial statements as at 31 December 2021 and 2020 is presented below.

(Unit: Thousand Baht)

	Buildings for rent	
	2021	2020
Cost:		
1 January	357,333	357,333
31 December	357,533	357,533
Accumulated depreciation:		
1 January	66,395	48,458
Depreciation for the year	17,875	17,937
31 December	84,270	66,395
Net book value:		
Net book value as at beginning of year	291,138	309,075
Net book value as at end of year	273,263	291,138

As at 31 December 2021, the fair value of the investment properties is Baht 349 million (2020: Baht 349 million).

The fair value of the above investment properties has been determined based on valuation performed by an accredited independent valuer. The fair value of the buildings for rent has been determined using the income approach. Key assumptions used in the valuation include yield rate, inflation rate, long-term vacancy rate and long-term growth in real rental rates.

2021 (Baht 17 million included in service cost, and the balance in administrative expenses)							21,097

As at 31 December 2021, certain items of plant and equipment were fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation of those assets amounted to approximately Baht 440 million (2020: Baht 506 million) (The Company only: Baht 131 million, 2020: Baht 146 million).

The subsidiary has mortgaged its land and structures thereon with total net book value as at 31 December 2021 of Baht 74 million (2020: Baht 81 million) as collateral against credit facilities granted by bank.

15. Leases

The Group has lease contracts for various items of property, plant, and equipment used in its operations. Leases generally have lease terms between 3 - 10 years (The Company only: lease terms between 3 - 10 years).

a) Right-of-use assets

Movement of right-of-use assets for the year ended 31 December 2021 are summarised below:

(Unit: Thousand Baht)

	Consolidated financial statements					Total
	Land and land improvement	Buildings and construction	Machinery and equipment	Furniture, fixtures and office equipment	Motor vehicles

Total trade and other payables	<u>130,622</u>	<u>177,494</u>	<u>532</u>	<u>3,524</u>

18. Provision for long-term employee benefits

Provision for long-term employee benefits, which represents compensation payable to employees after they retire, was as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
Provision for long-term employee benefits at beginning of year	39,049	32,910	10,167	9,350
Included in profit or loss:				
Current service cost	5,988	6,248	712	703
Interest cost	550	471	124	114
Benefits paid during the year	(3,104)	(580)	(1,761)	-
Provision for long-term employee benefits at end of year	<u>42,483</u>	<u>39,049</u>	<u>9,242</u>	<u>10,167</u>

The subsidiary expects to pay Baht 2.3 million (2020: 7.3 million) of long-term employee benefits during the next year (The Company only: none).

As at 31 December 2021, the weighted average duration of the long-term employee benefit liabilities is 11 years (The Company only: 11 years) (2020: 11 years, The Company only: 11 years).

Significant actuarial assumptions are summarised below:

	Consolidated financial statements		Separate financial statements	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
	(% per annum)	(% per annum)	(% per annum)	(% per annum)
Discount rate	1.62	1.62	1.62	1.62
Salary increase rate	3.00 - 7.00	3.00 - 7.00	3.00 - 7.00	3.00 - 7.00
Turnover rate	0 - 50	0 - 50	0 - 50	0 - 50

The effects of sensitivity analysis for significant assumptions on the present value of the long-term employee benefit obligation as at 31 December 2021 and 2020 are summarised below:

(Unit: Thousand Baht)

As at 31 December 2021					
	Consolidated financial statements		Separate financial statements		
	% per annum	Increase	Decrease	Increase	Decrease
Discount rate	1.0	(2,618)	2,961	(131)	137

Salary increase rate	1.0	3,167	(2,846)	317	(308)
Turnover rate	20.0	(3,094)	3,999	(15)	17

19. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside a statutory reserve at least 5% of its net profit after deducting accumulated deficit brought forward (if any), until the reserve reaches 10% of the registered capital. The statutory reserve is not available for dividend distribution.

20. Expenses by nature

Significant expenses classified by nature are as follows:

		(Unit: Thousand Baht)			
		Consolidated		Separate	
		financial statements		financial statements	
		2021	2020	2021	2020
Salaries, wages and other employee benefits		315,141	308,696	16,673	18,738
Depreciation and amortisation		81,905	75,050	44,924	50,792
Construction materials and subcontractors		822,504	889,350	-	-
Changes in inventories of raw materials and supplies		16,121	(29,104)	-	-

21. Income tax

Income tax expenses for the years ended 31 December 2021 and 2020 are made up as follows:

		(Unit: Thousand Baht)			
		Consolidated		Separate	
		financial statements		financial statements	
		2021	2020	2021	2020
Current income tax:					
Current income tax charge		3,586	3,951	3,560	3,788
Deferred tax:					
Relating to origination and reversal of temporary differences		(159)	(432)	372	701
Income tax expenses reported in profit or loss		3,427	3,519	3,932	4,489

The reconciliation between accounting profit (loss) and income tax expenses is shown below.

	Consolidated financial statements		Separate financial statements	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
Accounting profit (loss) before tax	(139,838)	46,446	(138,535)	47,285
Applicable tax rate	20%	20%	20%	20%
Accounting profit (loss) before tax multiplied by income tax rate	(27,968)	9,289	(27,707)	9,457
Deferred tax assets which have not been recognised during the year	34,196	-	-	-
Previously unrecognised deferred tax assets on unused tax loss	(2,731)	(6,413)	-	-
Share of (profit) loss from investments in subsidiaries	-	-	31,504	(5,854)
Effects of elimination entries on the consolidated financial statements	(225)	(482)	-	-
Effects of:				
Non-deductible expenses	135	483	115	409
Additional expense deductions allowed	(352)	(873)	(352)	(873)
Others	372	1,515	372	1,350
Total	155	1,125	135	886
Income tax expenses reported in profit or loss	3,427	3,519	3,932	4,489

The components of deferred tax assets and deferred tax liabilities are as follows:

	Consolidated financial statements		Separate financial statements	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
Deferred tax assets				
Allowance for diminution in value of inventories	854	833	-	-
Provision for long-term employee benefits	8,497	7,810	1,848	2,033
Short-term provision	100	190	-	-
Other	303	361	198	151
Total	9,754	9,194	2,046	2,184
Deferred tax liabilities				
Leases	1,549	1,148	1,121	887
Total	1,549	1,148	1,121	887
Deferred tax assets - net	8,205	8,046	925	1,297

As at 31 December 2021, the subsidiary has unused tax losses totaling Baht 360 million (2020: Baht 195 million), on which deferred tax assets have not been recognised as the subsidiary believes future taxable profits may not be sufficient to allow utilisation of the unused tax losses.

The unused tax losses of the subsidiary amounting to Baht 360 million will expire by 2026.

22. Promotional privileges

The subsidiary has received promotional privileges from the Board of Investment for the manufacture of Manufacturing of machinery and equipment and manufacturing of structural steel of construction work or industrial work or repairing of platform, pursuant to the investment promotion certificate No. 61-1345-1-01-2-2 issued on 15 November 2018. Subject to certain imposed conditions, the privileges include an exemption from corporate income tax for a period of 8 years from the date the promoted operations begin generating revenues (23 April 2019).

The subsidiary's operating revenues for the years ended 31 December 2021 and 2020, divided between promoted and non-promoted operations, are summarised below.

	Promoted operations		Non-promoted operations		(Unit: Thousand Baht)	
					Total	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
Revenues from fabrication work						
Local	956,188	857,761	45,347	166,178	1,001,535	1,023,939
Export	252,619	413,121	-	-	252,619	413,121
Total	<u>1,208,807</u>	<u>1,270,882</u>	<u>45,347</u>	<u>166,178</u>	<u>1,254,154</u>	<u>1,437,060</u>

23. Earnings (Loss) per share

Basic earnings (loss) per share is calculated by dividing profit (loss) for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

24. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as executive committee.

The Group is principally engaged in the fabrication work for construction and industrial segment. Its operations are carried on only in Thailand. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain exclusively to the aforementioned reportable operating segment and geographical area.

Geographic information

The Group operates in Thailand only. As a result, all of the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

Major customers

For the year 2021, the subsidiary has revenues from two major customers in amount of Baht 756 million (2020: three major customers of Baht 852 million), arising from fabrication work for construction and industrial purpose.

25. Provident fund

The Group and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. Both employees, the Group contribute to the fund monthly at rates of 3% and 5% of basic salary. The fund, which is managed by TISCO Asset Management Company Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for 2021 amounting to approximately Baht 3.8 million (2020: Baht 3.7 million) were recognised as expenses (The Company only: Baht 0.5 million, 2020: Baht 0.5 million).

26. Dividend paid

Dividends	Approved by	Total dividends (Thousand Baht)	Dividend per share (Baht)
Final dividends for 2020	Annual General Meeting of the shareholders on 9 April 2021	15,120	0.02

27. Commitments and contingent liabilities

27.1 Capital commitments

- As at 31 December 2021, the subsidiary had capital commitments of Baht 0.5 million (2020: Baht 11 million) relating to the acquisition of machinery and equipment.
- As at 31 December 2021, the Company had capital commitment amounting to Baht 75 million (2020: Baht 75 million) in respect of the uncalled portion of investment in the subsidiary.

27.2 Lease commitments

As at 31 December 2021 and 2020, the Group has future lease payments required under these non-cancellable leases contracts as follows:

	Consolidated		(Unit: Thousand Baht)	
	financial statements		Separate	
	2021	2020	2021	2020
Within 1 year	24,128	24,794	292	122
Over 1 and up to 5 years	121	-	121	-
Total	24,249	24,794	413	122

27.3 Guarantees

- As at 31 December 2021, the Company has guaranteed bank credit facilities of its subsidiary amounting to USD 7 million and Baht 1,556 million (2020: USD 5 million and Baht 1,546 million).
- As at 31 December 2021, there were outstanding bank guarantees of USD 3 million and Baht 346 million (2020: USD 4 million and Baht 450 million) issued by banks on behalf of the subsidiary to guarantee purchase of goods, electricity use, among others.
- As at 31 December 2021, the subsidiary has outstanding letters of credit of Baht 3 million (2020: Baht 21 million).

28. Fair value hierarchy

As at 31 December 2021 and 2020, the subsidiary had the assets that were measured at fair value using different levels of inputs as follows:

(Unit: Thousand Baht)

	Consolidated financial statements							
	As at 31 December 2021				As at 31 December 2020			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Financial assets measured at fair value								
Foreign currency forward contracts	-	852	-	852	-	1,342	-	1,342

(Unit: Thousand Baht)

	Separated financial statements							
	As at 31 December 2021				As at 31 December 2020			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Assets for which fair value are disclosed								
Investment properties	-	-	291	291	-	-	291	291

29. Financial instruments

29.1 Derivatives not designated as hedging instruments

As at 31 December 2021, the subsidiary had foreign exchange forward contracts which value of Baht 0.9 million (2020: Baht 1.3 million). The subsidiary uses foreign exchange forward contracts to manage some of its transaction exposures. The contracts are entered into for periods consistent with foreign currency exposure of the underlying transactions, generally from 1 to 12 months.

29.2 Financial risk management and policies

The Group's financial instruments principally comprise cash and cash equivalents, trade accounts receivables and short-term loans from financial institutions. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to trade accounts receivables, contract assets, deposits with banks and financial institutions and other financial instruments. The maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position.

Trade receivables and contract assets

The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. Outstanding trade receivables and contract assets are regularly monitored.

An impairment analysis is performed at each reporting date to measure expected credit losses. The provision rates are based on days past due for each customer. The calculation reflects the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial instruments and cash deposits

The Group manages the credit risk from balances with banks and financial institutions by making investments only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Group's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Group's Executive Committee. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments.

The credit risk on debt instruments and derivatives is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Market risk

There are three types of market risk comprising material price risk, foreign currency risk and interest rate risk.

Material price risk

The subsidiary has risk of price fluctuation of steel which is major raw material. The subsidiary enters into steel purchase agreement with suppliers according to the total demand of each project as soon as the service agreement with a customer has been made to mitigate the price risk of steel.

Foreign currency risk

The subsidiary's exposure to foreign currency risk relates primarily to its trading and expense transactions that are denominated in foreign currencies. The subsidiary manage foreign currency risk by ensuring that the contractual prices agreed with its customer can, to certain extent, accommodate the currency rate changes. In addition, the subsidiary has a policy to regularly execute forward transactions when appropriate to alleviate the potential impact of foreign exchange rate fluctuation on the subsidiary's performance.

The balances of financial assets and liabilities denominated in foreign currency is summarised below.

Foreign currency	Financial assets		Financial liabilities		Average exchange rate	
	as at 31 December		as at 31 December		as at 31 December	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
	(Million)	(Million)	(Million)	(Million)	(Baht per 1 foreign currency unit)	
USD	1	1	4	2	33.4199	29.9909

The following tables demonstrate the sensitivity of the Group's profit before tax to a reasonably possible change in US dollar exchange rates, with all other variables held constant.

Currency	Change in FX rate	Effect on profit before tax
	(%)	(Million Baht)
USD	+5.0	(4.1)
	- 5.0	3.9

Interest rate risk

The subsidiary's exposure to interest rate risk relates primarily to short-term loans. Most of the subsidiary's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate. The subsidiary manages its interest rate risk by using borrowings mostly as fixed rates loans and therefore believes that the impact to the Group's profit before tax from interest rate risk is immaterial.

Liquidity risk

The Group manages its liquidity risk by maintaining a level of cash and cash equivalents as well as management of current assets and current liabilities and sources of fund as deemed adequate to finance the operations of the Group.

29.3 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

30. Capital management

The primary objective of the Group's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2021, the Group's debt-to-equity ratio was 0.64:1 (2020: 0.53:1) and the Company's was 0.03:1 (2020: 0.03:1).

31. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 22 February 2022.

BUSINESS CODE OF CONDUCT

1. The Health and Safety of Employees, Customers and Surrounding Community

The Corporate Group places extreme importance on the health and safety of employees, customers, and surrounding community. The operations of employees' tasks must comply with the health and safety regulations of the agency, including related laws and regulations. This also includes all stakeholders who enter into work area of the Company. This is to prevent accidents in the work area, which may affect the employees, customers, and surrounding community. For any occurrence of an accident, those involved must report the cause of accident, losses, or any impact it might has, so that those effected can be compensated accordingly, and preventive measures can be established to prevent future occurrence.

2. Anti-corruption and Anti-bribery

The Corporate Group encourages employees to abide by the law in good citizenship as well as support business partners in operating legally with transparency and fairness. The Corporate Group emphasizes in anti-corruption and anti-bribery policy, treating it as extremely important policy that all employees must adhere and follow. In order to ensure that the anti-corruption and anti-bribery policy is put into actual practice, the Company has provide guidelines for giving and receiving of gifts or assets as follow:

- 1) Employees are prohibited from accepting or requesting for gifts, assets, or other benefits from persons who are involved in the business of the Corporate Group.
- 2) Employees are prohibited from giving gifts, assets, or other benefits that might affect decision-making of the persons who are involved in the business of the Corporate Group.
- 3) In normal tradition of gift giving within appropriate price range, and in fostering relationship between the Corporate Group and stakeholders, giving or acceptance of gifts must be reported to the supervisors for transparency and to prevent future conflicts of interests. However, when in doubt, the supervisors have the authority to order to return the gifts to senders.

The Corporate Group has proper accounting records of all financial transactions, including payment of commission, fees or gratuities.

3. Fair Competition

The Corporate Group promotes fair and honest business competition under the laws and good Business Code of Conduct, by focusing on honest competition, avoid destroying competitors' reputation through accusation, as well as not seeking competitors' confidential information through improper means.

4. Legal and Fair Employment, Anti-violations of Human Rights

The Corporate Group will adhere to the laws and related regulations with regards to employment and the principles of basic human rights according to international standard. The Company will not discriminate against national origin, race, gender, age, skin color, religion, disability, economic status, family origin, place of education, or any other status that are not related directly to business operation, as well as respect the individuality and human dignity.

5. Anti-violation of Intellectual Properties and Copyrights

The Corporate Group specifies that all directors, management and employees operate according to Intellectual Property and Copyright laws, in particular with non-infringement of computer software in accordance to the Corporate Group's Information Technology System Policy.

6. Usage of Information Technology and Communication

The Corporate Group places importance on the usage of information technology and communication, as such the management has set up Information Technology System Policy, which will be used as guidelines in monitoring the operations of Information Technology officers, as well as all employees who use the Company's system. This will be in accordance to the Computer Crime Act B. E. 2550 and the notice from Ministry of Information and Communication Technology's Computer Traffic B.E. 2550

The Corporate Group requires all employees be responsible for strict compliance to the Corporate Group's Information Technology System Policy.

7. Usage of Internal Information

The Company has set up policy on the use of internal information, by which the directors, management and employees of the Corporate Group must comply with the following guidelines as follows:

- 1) The Company informed all directors and executives of the Company and the subsidiaries of their duties to report the holding of the Company's securities by themselves, their spouse and minor child(ren) to the SEC pursuant to Section 59 and the penal provisions under Section 275 of the Securities and Exchange Act B.E. 2535 as well as to report the acquisition or divestment of the Company's securities by themselves, their spouse and minor child(ren) to the SEC pursuant to Section 246 and the penal provisions pursuant to Section 298 of the Securities and Exchange Act B.E. 2535. (Including additional amendments)
- 2) The directors and executives of the Company and the subsidiaries, including their spouse and minor child(ren) prepared and submitted the reports on their holding of the Company's securities including the changes thereto to the SEC within 3 business days from the date of such changes. Copies of such reports were delivered to the Company Secretary on the same day of the report submission to the SEC.
- 3) The Company and the subsidiaries restricted the non-public information access to only involved personnel on a need-to-know basis and ensured the security of non-public information. Information owners reinforced involved personnel to strictly comply with the policy.
- 4) Directors, executives and employees are prohibited from using internal information for the purpose of trading the company's securities and prohibited them from passing inside information to external parties or unauthorized persons before the public disclosure of the information:
 - ☐ Directors, executives and management of the Accounting and Finance Division, including their related parties, are prohibited from trading in the Company's securities during the period of 1 month before the release of quarterly and annual financial statements and within 24 hours from the release of such financial statements.
 - ☐ If directors, executives and employees have access to non-public and material information that may affect the prices of the Company's securities, they shall refrain from trading in the Company's securities within 48 hours after the public release of such information.

If the executives or employees of the Company and its subsidiaries violate the terms of the use of such insider information, in addition to having penalties under the Securities and Exchange Act, still considered to be guilty of violating the work regulations of the group and having disciplinary action. The disciplinary penalty is based on the nature of the offense or the severity of the outcomes, ranging from written warning, written warning and suspension, dismissal with compensation, to termination without compensation.

8. Prevention of Conflicts of Interests

To safeguard against transactions that might create conflicts of interest between the Company and shareholders, and to uphold good corporate governance, the Board of Directors has set up policy on transactions that might create conflicts of interest of the Company and its subsidiaries as follow:

- 1) Policy in Making Connected Transactions Involving Trade Agreement Done in Similar Manner a Reasonable Person Would Do to His Counter-Party in Similar Situation.

The Board of directors has authorized policy in principles for making connected transactions of the Company/its subsidiaries with the directors, management or related persons, whose trading condition is normal and/or according to market price, as per trade agreement done in similar manner a reasonable person would do to his counter-party in similar situation, with bargaining power free from the influence of their status as directors, management or related persons, in accordance to Section 89/12 of the Securities and Exchange Act (Issue no. 4) B.E. 2551. For connected transactions with trading condition that is not normal and/or according to market price, the Company shall adhere to the rules and regulations of related agencies.
- 2) Policy in Making New Venture.

The Company and its subsidiaries are required to present detailed business plan for new venture to the Board of Directors or its designated person, and arrange for evaluation of investment plan, which takes into consideration the compensation and benefits that will arise to the Company and its shareholders as a whole. However, the Company has no policy in new venture with the directors, management, major shareholder, or related persons, unless necessary or as a support to the Company's operation, and for the best benefit of the Company and the shareholders as a whole. The Company must also act in accordance to the Notification of the Capital Market Committee TorJor 21/2551, Re: Rules on Connected Transactions (including amendments), and the Notification of Stock Exchange of Thailand, Re: Disclosure of Information and the Execution of Listed Company in Connected Transactions B.E. 2546 (including amendments), or relevant rules and regulations in place.
- 3) Policy in Shareholding of Companies that the Company and Its Subsidiaries Have Invested In

In any investment, the Company and its subsidiaries will follow the policy of holding the shares themselves, unless necessity arises and only for the best benefits of the Company and its shareholders as a whole. This must be presented to the Audit Committee and the Board of Directors for consideration and authorization. In addition, any person who has any conflict of interests on a given matter shall not be present in such agenda consideration and shall not be allowed to vote for such matter.
- 4) Policy in Lending to Joint Ventured Company

Lending is not the main business of the Company. However, if the Company and its subsidiaries need to lend to their joint ventured company that requires financial support in term of shareholders' loans, the Company and its subsidiaries will provide loans in proportion to investment, except when necessary and deemed appropriate by the Board of Directors, which will be considered for authorization on a case-by-case basis. However, the Company has no policy of lending to the directors, management or major shareholders, and/or related person, or to businesses that the Company and its subsidiaries have joint ventured with that individual, unless as shareholders' loans in proportion to investment, or for the best benefits of the Company and its shareholders as a whole. The Company must also act in accordance to

the Notification of the Capital Market Committee (To r J o r) 21/2551, Re: Rules on Connected Transactions (including amendments) , and the Notification of Stock Exchange of Thailand, Re: Disclosure of Information and the Execution of Listed Company in Connected Transactions B.E. 2546 (including amendments) , or relevant rules and regulations in place. In cases where transaction size is lower than standard required for disclosure, the Company will also report the transaction to the Audit Committee for information.

5) Policy in Preparation of Written Documents

The Company and its subsidiaries will concisely issue promissory notes, loan agreements and/or financial assistance contracts in written documents, and will properly file and store the evidences, regardless of lending to their affiliated company.

9. Penalties

If the management or employees of the Corporate Group do not comply with the Business Code of Conduct, they are in violation of the Corporate Group's work regulations and face disciplinary penalty. The disciplinary penalty is based on the nature of the offense or the severity of the outcomes, ranging from written warning, written warning and suspension, dismissal with compensation, to termination without compensation.

ATTACHMENT 7 AUDIT COMMITTEE REPORT

Audit Committee has been assigned by the Board to perform duties according to Audit Committee Charter and the notifications of the Stock Exchange of Thailand Re: Qualifications and Scope of Work of the Audit Committee. The Audit Committee is comprised of 3 independent directors and the chairman of the Audit Committee possesses knowledge and experience in finance and accounting. Therefore, the Audit Committee can perform its duties independently and effectively.

In 2021, the Audit Committee held 4 meetings which were attended by all of its members and 1 time meeting with auditors without management in attendance. Highlights of the Audit Committee performance are as outlined below:

Mr. Suvit Manomaiyanon, Independent Director, Member of the Audit Committee and Member of the Nomination and Remuneration Committee, resigned in 2021. Therefore, the Board of Directors has nominated and appointed qualified and appropriate persons to serve as audit committee members instead. Ms. Jongkolnee Tansuvan , Independent Director, Member of Risk Management Committee and Member of Nomination & Remuneration and Good Governance Committee of the Company , was appointed to be the Member of Audit Committee on behalf of the resigned directors.

REVIEW OF FINANCIAL REPORTS

The Audit Committee, in cooperation with the auditors and the executives of the Company, reviewed the quarterly financial reports and audited the annual financial report to ensure that the financial reports of the Company and its subsidiaries are prepared, in all material respects, in accordance with the generally accepted accounting standards and present adequate and reliable information.

REVIEW OF INTERNAL CONTROL SYSTEM AND INTERNAL AUDIT

The Audit Committee appointed ANS Business Consultants Company Limited as the Company's internal auditor. In 2021, the internal auditor audited and reviewed key work processes of the Company in accordance with the approved audit plan, assessed the adequacy of the internal control system of the Company and its subsidiaries, and prepared and presented the internal audit reports to the Audit Committee and the Board of Directors on a quarterly basis.

The Audit Committee regularly followed up on the improvement of the internal control system based on the review and audit reports. As part of its corrupt behavior assessment initiative, the Company has also established a whistleblowing program as a channel to receive complaints or information about corruption. However, no complaints or information about corruption were reported to the Company in 2021.

SCREENING AND NOMINATION OF AUDITOR AND AUDIT FEE TO THE BOARD OF DIRECTORS

The Audit Committee deliberated on the proposal of auditor and audit fee to be submitted to the Board of Directors for endorsement on proposing to the meeting of shareholders for approval. The consideration criteria are: the auditor must be approved by the Office of Securities and Exchange Commission, the auditor's qualifications must be in accordance with relevant laws, the auditor must possess knowledge, capabilities and independence that meet applicable legal requirements, and the annual audit fee should be commensurate with the scope of audit. The 2021 annual general meeting of shareholders

approved the appointment of Ms. Kosum Cha-em, CPA license no. 6011, or Mr. Termphong Opanaphan, CPA license no. 4501, or Ms. Ponnard Paocharoen, CPA license no. 5238, from EY Office Limited as auditors of the Company and its subsidiaries. The total annual audit fee for the Company and its subsidiaries in 2021 of THB 2,500,000 divided into the Company's annual audit fee of THB 800,000 and the subsidiaries' annual audit fee of THB 1,700,000 and non-audit fee of THB 80,000 for a subsidiary.

CONSIDERATION OF REPORTS ON RELATED-PARTY TRANSACTIONS OR TRANSACTIONS INVOLVING POTENTIAL CONFLICTS OF INTEREST

In 2021, the Audit Committee considered and rendered opinions on related-party transactions between the Company and its subsidiaries/parties having potential conflicts of interests and transactions involving potential conflicts of interest to ensure that these transactions were in the normal course of business, appropriate in terms of prices, reasonable, and mainly for the Group's benefits. The Company adheres to the Corporate Governance Policy and is confident that its practices are in accordance with conditions and criteria stipulated by regulators. Related-party transactions and transactions involving potential conflicts of interest are disclosed in the notes to the financial statements of the Company and its subsidiaries, the Annual Report, and the Annual Filing.

SUPERVISION OF COMPLIANCE WITH RULES, REGULATIONS AND POLICIES

The Audit Committee exercises oversight to ensure that the Company operates businesses in strict compliance with applicable policies, laws, rules and regulation. The Audit Committee also keeps abreast of regulatory changes, the developments in laws governing securities and exchange, the SET's rules and requirements and always applies them to the Company in a timely and proper manner.

Overall in 2021, the Audit Committee has performed its duties with diligence, independent opinion openly, transparent and in full compliance with the charter of the Audit Committee approved by the Board of Directors, exercised oversight to ensure that the internal control system is efficient and effective by taking into account the Company's internal audit report prepared by ANS Business Consultants Company Limited, which is the Company's internal auditor, including the internal control recommendations given by the auditors of EY Office Limited. The Chief Financial Officer is the secretary to the Audit Committee and directly liaises with the internal auditor and the external auditors. The Audit Committee, based on information and reports mentioned above, is of the opinion that the internal control system and the risk management system of the Company and its subsidiaries are appropriate and adequate to safeguard the Group's assets. The Company demonstrates good corporate governance. The Company's financial reports are prepared in accordance with the generally accepted accounting standards. Disclosure of financial reports is reliable, accurate, complete and adequate without any significant defects. The Company upholds the business ethics and demonstrates compliance with relevant rules, regulations and laws, including the criteria set by the Stock Exchange of Thailand and the Office of Securities and Exchange Commission.

Mr. Sarawut Charuchinda
Chairman of the Audit Committee

The Executive Committee shall review this Charter as necessary and appropriate and propose to the Board of Directors for approval (if any).

ATTACHMENT 14 INDEPENDENT LIMITED ASSUARANCE REPORT

Independent Limited Assuarance Report in regards to greenhouse gas management by EY Office Co., Ltd.

Independent Limited Assurance Report

To the Directors of BT Wealth Industries Public Company Limited

Conclusion

BT Wealth Industries Public Company Limited (“BTW”) engaged EY Office Limited (“EY” or “we”) to perform a ‘limited assurance’ engagement, as defined by International Standards on Assurance Engagements, hereafter referred to as the “engagement”, on selected subject matters (the “Subject Matters”) included in BTW’s 56-1 One Report for the year ended 31 December 2021 (the “56-1 One Report”).

Based on our procedures and the evidence obtained, nothing has come to our attention that causes us to believe that the Subject Matters were not prepared and presented fairly, in all material respects, in accordance with the Criteria.

Subject Matters

Our limited assurance engagement covers the following Subject Matters:

Subject Matters	Scope	56-1 One Report's session
Direct (scope 1) greenhouse gas emissions (tCo2e)	Chachoengsao and Sattahip Plants controlled by BTW and Best Tech & Engineering Limited	The first table presented under Section 3.3: Sustainability management in the environmental dimension, Subtopic: Greenhouse Gas Management
Indirect (scope 2) greenhouse gas emissions (tCo2e)		

Other than as described in the above table, which sets out the scope of our engagement, we did not perform assurance procedures on the remaining information included in the 56-1 One Report, and accordingly, we do not express a conclusion on this information.

Criteria applied by BTW

In preparing the Subject Matters BTW applied the Global Reporting Initiative Sustainability Reporting Standards (‘GRI Standards’) and the requirements under the 56-1 One Report pronounced by the Capital Market Supervisory Board, the Security and Exchange Commissions of Thailand.

BTW's responsibilities

BTW’s management is responsible for selecting the Criteria, and for presenting the Subject Matters in accordance with that Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records and making estimates that are relevant to the preparation of the Subject Matters, such that it is free from material misstatement, whether due to fraud or error.

EY's responsibilities

Our responsibility is to form a conclusion on BTW's presentation of the Subject Matters based on the evidence we have obtained.

We conducted our engagement in accordance with the International Standard for Assurance Engagements 3000 (ISAE 3000) - *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* (the "Standard"). This Standard requires that we plan and perform our engagement to obtain limited assurance about whether, in all material respects, the Subject Matters are presented in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

Our Independence and Quality Control

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, and have the required competencies and experience to conduct this engagement.

EY also applies International Standard on Quality Control 1 - *Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements*, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Description of procedures performed

Procedures performed in a limited assurance engagement vary in nature and timing from and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for preparing the Subject Matters and related information, and applying analytical and other appropriate procedures.

Our procedures included:

- ▶ Conducted interviews with personnel to understand the business and reporting process
- ▶ Conducted interviews with key personnel to understand the process for collecting, collating and reporting the Subject Matters during the reporting period
- ▶ Checked that the calculation criteria have been correctly applied in accordance with the methodologies outlined in the Criteria
- ▶ Undertook analytical review procedures to support the reasonableness of the data
- ▶ Identified and testing assumptions supporting calculations
- ▶ Tested, on a sample basis, underlying source information to check the accuracy of the data

We also performed such other procedures as we considered necessary in the circumstances.

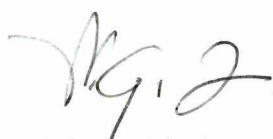

Other matters

Our report does not extend to any disclosures or assertions relating to future performance plans and/or strategies disclosed in the 56-1 One Report.

The maintenance and integrity of BTW's website is the responsibility of BTW's management. Our procedures did not involve consideration of these matters and, accordingly we accept no responsibility for any changes to the Subject Matters and related disclosures, the 56-1 One Report or to our independent limited assurance report that may have occurred since the initial date of presentation on BTW's website.

Restriction of use

This report is prepared in accordance with our engagement terms agreed with BTW, and intended solely for the Directors of BTW for the purpose of reporting the Subject Matters in the 56-1 One Report and is not intended to be and should not be used by anyone other than those specified parties. To the fullest extent permitted by law, we do not accept or assume any responsibility for any reliance on this assurance report to any persons other than the Directors of BTW, or for any purpose other than that for which it was prepared.
