Approve CHHK, a wholly owned subsidiary of CBG, to increase capital by the principal sum equivalent to the amount of not exceeding GBP 19.5 million or approximately THB 846.7 million by issuing primary shares for sales with the ratio of 1:1 so that the proceeds shall be used to take out the right offering share subscription to which CVHLUX issues for sales. Such subscription is made to the whole issue offered by CVHLUX, including both CHHK's portion and ICSG's because ICSG acting in capacity of an eligible shareholder has expressed its intention not to purchase the right offering shares;

2.2. Approve CVHLUX to increase capital equivalent to the amount of not exceeding GBP 40.2 million or approximately THB 1,747.5 million by issuing primary shares for sales with the ratio of 1:1, comprising:

(a) Right offering shares made to its shareholders for payment in cash equivalent to the amount not exceeding GBP 19.5 million or approximately THB 846.7 million so that the proceeds shall be used to support major expenses relating to sponsorships, marketing and operations to be incurred by ICUK; and

2. Relevant Parties and Relationships with the Listed Company

- ICSG is an unrelated party of Singaporean business partner with the Company, holding 49.0% of registered and paid-up capital of CVHLUX as of 30 September 2017 pre transactions;
- CHHK is a wholly owned subsidiary of the Company both pre and post transactions; and
- CVHLUX is a joint venture company between CHHK and ICSG, holding 51.0% and 49.0% of registered and paid-up capital as of 30 September 2017, respectively, pre transactions.

3. General Characteristics, Type and Size of the Transaction

3.1 General Characteristics and Type of the Transaction

CVHLUX is a holding company, only having 100.00% of the registered and paid-up shares of ICUK. The transactions are for CVHLUX to use the proceeds from the right offering shares as a source of fund to support major expenses relating to sponsorships, marketing and operations to be incurred by ICUK.

ICSG, as a business partner, was unable to provide financial support to the extent of its existing shareholding. Consequently, the Company, as a major shareholder and the owner of the energy drinks under Carabao trademark, has offered financial support to CVHLUX to the extent beyond current shareholding of 51%. The Change of overseas subsidiaries' capital structure, therefore, could be referred as a mechanism that reflects the control of the Company and subsidiaries over the investment in ICUK, which is indirectly held by CVHLUX.

ICUK's performance and financial position shall be reflected in the Company and subsidiaries' consolidated financial statement with increasing proportion from 51.0% to approximately 84.3% of shares after the transaction is settled which is expected to be within January 2018. The capital structure of CVHLUX in terms of equity and shareholders loans is preliminarily set out below.

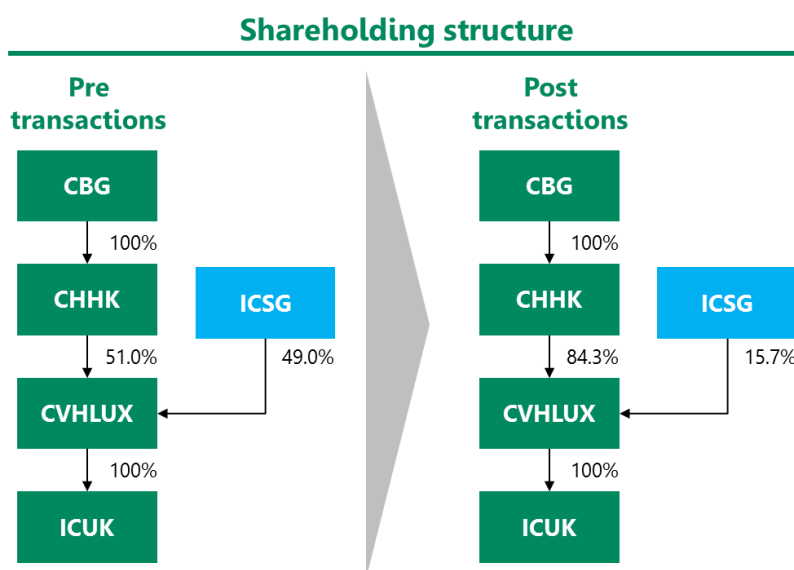

Value in Thai Baht (THB) as converted from Great British Pound (GBP) is based on exchange rate of 38.392 THB/EUR, 43.422 THB/GBP and 33.105 THB/USD according to Bloomberg Markets as of 8 November 2017. Actual value may change depending on the exchange rate being effected as of the transaction date

Shareholding structure of ICUK, indirectly held by CVHLUX, pre and post transaction is preliminarily set out below:

3.2 Size of the Transaction

The Change of overseas subsidiaries’ capital structure transaction is considered an asset acquisition pursuant to the Notifications on Acquisitions or Dispositions, whereby size of the transaction by the highest value based on total considerations method is equal to 13.37% based on the consolidated financial statements of the Company and subsidiaries for the 9-month period ending 31 September 2017.

1. Comparison of Net Tangible Assets (NTA)	=	$\frac{\text{NTA by shareholding percentage} \times 100}{\text{NTA of the Company}}$

Remark: 1/ The purchase of primary shares in cash for both their own and ICSG's right offerings and the conversion of loans to equity shall cause CHHK a higher proportion of shareholding in ICUK, which is indirectly held by CVHLUX, increased from 51.0% to approximately 84.3%

2/ CVHLUX is exempted from preparing an audited financial statement for the period ending 31 December 2016 within its jurisdiction. 3/ Consolidated financial statements of CVHLUX show a negative net asset value, therefore, the calculation of net asset value is not applicable.

However, based on net asset value of separated financial statements of CVHLUX as of 30 September 2017, prepared by the Company's management (unreviewed and unaudited), which is amounted to THB 628 million, the size of the transaction by the highest value based on total considerations method is equal to 3%.

4.1 Nature of Business of ICUK

A new chapter of our energy drinks under Carabao trademark orchestrated to the global stage was unfolded since we managed to enter a 3-season principal partnership agreement with Chelsea Football Club in November 2015, made investments for a shareholding of 51% in Intercarabao Limited (“**ICUK**”) in October 2016 to conduct marketing, sales and distributions of our energy drinks under Carabao trademark in the United Kingdom and soft landed in November 2016 a landmark 3-season sponsorship agreement with English Football League. We are in deeply understanding that those football sponsorships and joint venture into overseas business operations may put the Group’s financial performance and position at risks during the start-up phase. However, we believe that our feat of endeavors as mentioned shall be considered an investment from strategic perspective to substantiate a solid platform instrumental in driving business expansions outside Thailand in the long run. Due to our equity investments in ICUK, its financial performance and position have been reflected in our consolidated financial statements from the 4th quarter of 2016 onwards.

Sales volume of energy drinks under Carabao trademark in the United Kingdom has improved steadily quarter on quarter, up from the average monthly sales volume of 167k cans in the 1st quarter of 2017 to 868k cans in the 3rd quarter of 2017. This improvement is a result of our strategy to focus on extensive distribution coverage, particularly in modern trades, as ICUK was able to penetrate into three of the leading modern trade channels in the 3rd quarter of 2017. Coupled with this, such progress is supported by our distinguishing position of official sponsor to Chelsea Football Club Limited and

Value in Thai Baht (THB) as converted from Great British Pound (GBP) is based on exchange rate of 38.392 THB/EUR, 43.422 THB/GBP and 33.105 THB/USD according to Bloomberg Markets as of 8 November 2017. Actual value may change depending on the exchange rate being effected as of the transaction date

English Football League and product differentiation strategy, especially the Green Apple flavored energy drinks under Carabao trademark, which are getting more recognition from customers. As a consequence, ICUK's business plans aim to entail further penetrations in more modern trades, careful allocation of marketing and promotional budgets to spur growth through priority channels, strong push of product sampling experiences among the target group to attract the trials for future sales and cost reductions particularly in redundant procedures to deliver appropriate rate of return on sales.

ICUK also continued to bear fruit from increasing sales of our energy drinks under Carabao trademark quarter on quarter outside the UK, up from the monthly average of 475k cans in the 1st quarter of 2017 to 1.80 million cans in the 3rd quarter of 2017. The Group believes such window of business opportunities is opened up by our bolstering visibility of energy drinks under Carabao trademark in the global spotlight, thanks to our sponsorships to Chelsea Football Club Limited and English Football League expected to serve as a key to future growth in overseas businesses. In light of this, we decided to enter into the deed of variation in respect of rights and fees to the sponsorship agreement with Chelsea Football Club Limited. The amendments allow the Group to extend sponsorship period from a three-year term ending 30 June 2019 to a five-year term ending on 30 June 2021, whereby the Group shall bear an extra cost of GBP 3 million throughout this entire arrangement. However, should the first three years come to end, our sponsorship status will be automatically changed from "Principal Partner" to "Global Partner" in the next following two years.
