Enclosure

1. Capital Increase Form (F53-4)
2. Information Memorandum regarding the issuance and allocation of newly issued shares to accommodate the rights adjustment of Warrants to purchase the Company's newly issued ordinary shares No. 3 (ECF-W3)

East Coast Furnitech Public Company Limited (the "Company") wishes to inform the resolutions of the Meeting of the Board of Directors of East Coast Furnitech Public Company Limited (the "**Company**") No. 4/2019 held on March 29, 2019 to the Stock Exchange of Thailand (the "**SET**") as follows:

1. To approve the cancellation of the resolutions of the Board of Directors' Meeting No. 13/2018 held on November 30, 2018 and the resolutions of the Board of Directors' Meeting No. 2/2019 held on January 16, 2019 in relation to the investment in S-TREK and capital increase and the allocation of newly-issued shares in relation to the investment in S-TREK. This results from the fact that after the Board of Directors' Meeting No. 13/2018 and the Board of Directors' Meeting No. 2/2019 have resolved to approve the investment in S-TREK, there are facts and events occurring during the period of proposing such matter to the 2019 Annual General Meeting of Shareholders. The Company's Board of Directors have considered and opined that such facts and events have a significant impact on the entering into the transaction and may affect the benefits of the Company and shareholders. For this reason, the Board of Directors' meeting has reconsidered the investment in S-TREK in order to protect the benefits of the Company and shareholders.

From the reconsideration of investment in S-TREK, the Board of Directors' meeting has approved to postpone the investment in S-TREK for the following reasons:

1) Accounting record of S-TREK

According to the report on financial due diligence on S-TREK dated 9 November 2018, prepared by SP Audit Co., Ltd. (the "**Accounting Advisor**"), the certified public accountant approved by the Office of the SEC, who conducted the due diligence on the information appearing in the audited financial statements of S-TREK ended 31 December 2017 and the trial balance of S-TREK, prepared by the management of S-TREK, ended 30 June 2018, the Accounting Advisor has reported various significant findings

As such, the Company's Board of Directors required a special audit on the audited financial statements of S-TREK, ended 31 December 2017. The Company needs to use such financial statements in support of the evaluation of the fair value of S-TREK shares and has determined the result of the special audit in satisfaction to the Company as one of the important conditions for making the investment in S-TREK.

However, after the Accounting Advisor conducted the special audit as required by the Company's Board of Directors, it appears that during the audit, the Accounting Advisor preliminarily reported to the management that S-TREK's accounting record might not be in accordance with accounting standards, regarding which S-TREK will have to change from the financial reporting standards for Non-Publicly Accountable Entities (NPAEs) to the financial reporting standards for Publicly Accountable Entities (PAEs), and due to limited time, S-TREK might not be able to correct such issues before the time scheduled for entering into the transaction agreed with the Company and the transaction is also significant to S-TREK's financial statements and the Company's financial statements. The management then reported such primary findings regarding the non-compliance of the accounting record with accounting standards to the meeting for consideration.

2) Independent financial advisor's opinion

The Company has appointed I V Global Securities Public Company Limited as an independent financial advisor (the "**IFA**") to give opinions in relation to the investment in S-TREK ordinary shares through a share swap and the IFA has prepared the report on independent financial advisor's opinions regarding the asset acquisition of S-TREK ordinary shares, dated 15 March 2019 (the "**IFA's Report**"). After considering the reasonableness of the asset acquisition transaction and the appropriateness of the price and conditions of the transaction, i.e. acquisition of S-TREK ordinary shares, the IFA has opined that the entering into such transaction is not appropriate at this time. In the consideration, the IFA has taken into account the significant findings in the report of special audit above, and has also considered the important conditions in entering into the transaction.

3) Request for changes in the conditions for the purchase and sale of S-TREK shares

After the Company has amended the important conditions for making the investment in S-TREK (as detailed in Reference No. 2), the Company and the shareholders of S-TREK have tried to negotiate various conditions which would lead to the preparation of share purchase agreement and shareholders' agreement. However, the Company

and the shareholders of S-TREK have not been able to reach an agreement regarding significant issues of the agreements. In this regard, if there is any further information, the Company will inform via the Stock Exchange of Thailand system.

For the three reasons mentioned above, the today's Board of Directors' Meeting has reviewed and considered the appropriateness of the investment and approved the postponement of the investment in S-TRK, the capital increase and allocation of newly-issued shares which are related to the investment in S-TREK. The Board of Directors has considered carefully and thoroughly taking into account the maximum benefits of the Company and shareholders. In this regard, the period of bringing back the investment in S-TREK agenda for consideration would depend on the Board of Directors' judgement.

2. From the postponement of investment in S-TREK, capital increase and allocation of newly-issued shares which are related to the investment in S-TREK, the Board of Directors' Meeting has considered and approved the amendment of capital increase and allocation of newly-issued shares that have been approved by the Board of Directors' Meeting No. 13/2018 held on November 30, 2018 and the Board of Directors' Meeting No. 2/2019 held on January 16, 2019. With respect to the capital increase and allocation of newly-issued shares, there still remains the issuance and allocation of newly-issued shares to offer for specific persons under Private Placement basis pursuant to the General Mandate, and the allocation of newly-issued shares to accommodate the rights adjustment of Warrants to purchase the Company's newly issued ordinary shares No.3 (ECF-W3) as follows:
 - 1) To propose the 2019 Annual General Meeting of Shareholders to consider approving the increase of 26,750,000 registered capital of the Company, divided into 107,000,000 shares with a par value of Baht 0.25 from the existing registered capital of Baht 285,712,090.75 to the registered capital of Baht 312,462,090.75.
 - 2) To propose the 2019 Annual General Meeting of Shareholders to consider approving the amendment of Clause 4 of the Memorandum of Association of the Company to be in line with the increase of the registered capital of the Company according to aforementioned Clause 4.
 - 3) To propose the 2019 Annual General Meeting of Shareholders to consider approving the allocation of 95,000,000 newly issued ordinary shares to the specific person under the Private Placement basis with a par value of Baht 0.25 per share, equivalent to 10 percent of the paid-up capital of the Company to the specific person under the Private Placement basis under the General Mandate basis.
 - 4) To propose the 2019 Annual General Meeting of Shareholders to consider approving the allocation of the newly issued ordinary shares of the Company to accommodate the 10 adjustment of rights under ECF-W3, which is issued and allotted to the existing shareholders on pro rata basis, totaling 12,000,000 shares with a par value of Baht 0.25.

In this regard, when the Board of Directors' Meeting has resolved to approve the postponement of the investment in S-TREK and amendment of capital increase and allocation of newly-issued shares agenda, the Board of Directors' Meeting has resolved to remain following resolutions: (1) To propose the 2019 Annual General Meeting of Shareholders to consider approving the reduction of the registered capital of the Company and the amendment of Clause 4 of the Memorandum of Association of the Company to be in line with the reduction of the registered capital of the Company; (2) To propose the 2019 Annual General Meeting of Shareholders to consider the issuance and offer the debenture with the commitment amount of not exceeding Baht 2,000,000,000; and (3) To propose the

2019 Annual General Meeting of Shareholders to consider approving amendment of the Objectives of the Company and the amendment of Memorandum of Association of the Company Clause 3. Objectives of the Company to be in line with the Objectives of the Company.

3. As a result of the approval of postponement of investment in S-TREK and capital increase and allocation of newly-issued shares in S-TREK, amendment of capital increase and allocation of newly-issued shares agenda as per details in clause 2., the Board of Directors' Meeting has approved to amend the agenda of 2019 Annual General Meeting of Shareholders to be in line with the postponement of investment in S-TREK and capital increase and allocation of newly-issued shares in relation to the investment in S-TREK, and the amendment of capital increase and allocation of newly-issued shares agenda as mentioned above, the agenda items of the meeting shall be as follows:

A is the number of fully-paid ordinary shares as of the date prior to the book closing date, for shares subscription, for the offering to the existing shareholders. In case of general public offering and/or private placement, it is the date prior to the first date of the shares offering.

B is the number of newly issued ordinary shares offered to the existing shareholders and/or general public and/or specific individuals (private placement).

BX is total proceeds, after deducting all expenses (if any), obtained from the offering of newly issued ordinary shares to the specific individuals (Private Placement).

"The market price of Company's ordinary shares" is determined to be in equivalent to "The weighted average market price per share of the Company's ordinary share". Meaning that, "The weighted average market price per share of the Company's ordinary share" is the total trading value of the Company's ordinary shares divided by the number of Company's ordinary shares that were traded in the MAI exchange (the "SET") during the duration of 7 consecutive Business Days (the day on which the stock market is opened for the stock trading) prior to the date used for the calculation.

"The average price per newly issued ordinary shares" shall be calculated from the total proceeds received by the Company deriving from the securities offering, less expenses incurred from the offering (if any), divided by the number of newly issued shares to accommodate those rights.

“The date that is used for the calculation” means the first date of the offering of the newly issued ordinary shares to the private placement.

However, currently the company is not able to calculate the adjustment ratio of Warrants ECF-W3, since in calculating the price and ratio of new exercise of rights, it shall be calculated from “the market price of Company’s ordinary shares” which is equivalent to “the weighted average market price per share of the Company’s ordinary shares” which means the value of sell and purchase of ordinary shares divided by the number of ordinary shares of the Company that were traded in the SET during consecutively 7 business days of the SET (the day on which the stock market is opened for the stock trading) before the first date of offering newly-issued shares to specific persons under Private Placement basis, which the Company is currently not able to calculate. The Company shall be able to calculate the price and ratio of exercise of rights on first day that the ordinary share purchaser shall not be entitled to subscribe the newly issued ordinary shares; in other words, the first date of offering the newly issued ordinary shares under the Private Placement basis. The adjustment of exercise price and exercise ratio shall be effective immediately on the first day of offering newly-issued ordinary shares under the Private Placement basis, which shall be informed by the Company through the SET system later on.

In this regard, in the case that the offering price of newly-issued ordinary shares under the private placement basis is not lower than 90 percent of the market price of Company’s ordinary shares, the Company shall not adjust rights of ECF-W3, and in that case, the Company shall proceed to reduce its registered capital by cancelling such unallocated shares.

1.2 Determination of Offering Price and Appropriateness of the Adjusted Exercise Price and Exercise Ratio

The details of calculation methods used to determine the adjustment of exercise price and exercise ratio shall be in accordance with Clause 3.3.1 (b) of the Terms and Conditions as specified in 1.1. However, the Company is currently not able to calculate the adjustment ratio of ECF-W3, since in calculating the price and ratio of new exercise of rights, it shall be calculated from “the market price of Company’s ordinary shares” which is equivalent to “the weighted average market price per share of the Company’s ordinary shares” which means the value of sell and purchase of ordinary shares divided by the number of ordinary shares of the Company that were traded in the SET during consecutively 7 business days of the SET (the day on which the stock market is opened for the stock trading) before the first date of offering newly-issued shares to specific persons under Private Placement basis, which the Company is currently not able to calculate. The Company shall be able to calculate the price and ratio of exercise of rights on first day that the ordinary share purchaser shall not be entitled to subscribe the newly issued ordinary shares; in other words, the first date of offering the newly issued ordinary shares under the Private Placement basis. The adjustment of exercise price and exercise ratio shall be effective immediately on the first day of offering newly-issued ordinary shares under the Private Placement basis, which shall be informed by the Company through the SET system later on.

In this regard, in the case that the offering price of newly-issued ordinary shares under the private placement basis is not lower than 90 percent of the market price of Company’s ordinary shares, the

Company shall not adjust rights of ECF-W3, and in that case, the Company shall proceed to reduce its registered capital by cancelling such unallocated shares.

Therefore, the Company is required to allocate newly-issued ordinary shares to accommodate the rights adjustment of ECF-W3 in the number of not exceeding 12,000,000 shares. In case that there are adjustments in exercise price, exercise ratio and the method to calculate the adjustment of exercise price and exercise ratio, as described in Clause 1.1, there shall be no negative impact to the returns or benefits, which the warrant holders or warrant substitute holders shall receive once they exercise their rights.

3. Information of Dilution Effect from Issuance and Offering of the ECF-W2 and ECF-W3

3.1 Price Dilution

Currently the company is not able to calculate the adjustment ratio of Warrants ECF-W3, since in calculating the price and ratio of new exercise of rights, it shall be calculated from "the market price of Company's ordinary shares" which is equivalent to "the weighted average market price per share of the Company's ordinary shares" which means the value of sell and purchase of ordinary shares divided by the number of ordinary shares of the Company that were traded in the SET during consecutively 7 business days of the SET before the first date of offering newly-issued shares to specific persons under Private Placement basis. The company is currently not able to calculate the price dilution.

3.2 Control Dilution

$$= \frac{\text{Number of newly-issued shares}}{\text{Number of paid-up shares} + \text{Number of newly-issued shares}}$$

$$= \frac{12,000,000}{959,405,082 + 12,000,000 + 129,958,631}$$

$$= 1.09 \text{ Percent}$$

If the rights adjustment takes place and the warrant holders of ECF-W3 exercise their rights in full, the control dilution would be 1.09 percent.

3.3 Earnings Per Share Dilution : EPS Dilution

$$= \frac{\text{Earnings per share (pre-offering)} - \text{Earnings per share (post-offering)}}{\text{Earnings per share (pre-offering)}}$$

$$= \frac{0.0498 - 0.0493}{0.0498}$$

= 1.09 percent

If the rights adjustment takes place and the warrant holders of ECF-W3 exercise their rights in full, the earnings per share dilution would be 1.09 percent.

The Opinions of the Board of Directors on Various Matters according to the Notification of the Capital Market Supervisory Board No. TorChor. 73/2558 Re: List of Information Disclosed in the Notice of the Shareholders' Meeting of the Listed Company for Seeking Approval of the Issuance and Offering of Securities

4.1 Background of the Determination of the Offering Price and Appropriateness of the Issuance of Newly-issued Ordinary Shares to Accommodate the Rights Adjustment of ECF-W3 in the Number of not Exceeding 12,000,000 shares

The adjustment of exercise price and exercise ratio of ECF-W3 as a result of the issuance and allocation of newly-issued shares to specific persons under the private placement basis under the general mandate basis in the number of not exceeding 95,000,000 shares shall be in accordance with Clause 3.3.1 (b) of the Terms and Conditions, the calculation detail of which is shown in Clause 1.1 which is appropriate. However, the Company is currently not able to calculate the adjustment ratio of Warrants ECF-W3, since in calculating the price and ratio of new exercise of rights, it shall be calculated from "the market price of Company's ordinary shares" which is equivalent to "the weighted average market price per share of the Company's ordinary shares" which means the value of sell and purchase of ordinary shares divided by the number of ordinary shares of the Company that were traded in the SET during consecutively 7 business days of the SET before the first date of offering newly-issued shares to specific persons under Private Placement basis, which the Company is currently not able to calculate. The Company shall be able to calculate the price and ratio of exercise of rights on first day that the ordinary share purchaser shall not be entitled to subscribe the newly issued ordinary shares; in other words, the first date of offering the newly issued ordinary shares under the Private Placement basis. The adjustment of exercise price and exercise ratio shall be effective immediately on the first day of offering newly-issued ordinary shares under the Private Placement basis, which shall be informed by the Company through the SET system later on.

4.2 Reason and Necessity of the Issuance of newly-issued ordinary shares to accommodate the rights adjustment of ECF-W3 in the number of not exceeding 12,000,000 shares

To be compliant with the rights adjustment conditions of ECF-W3, clause 3.3.1 (b) of the Terms and Conditions, relating to the conditions of rights adjustment of warrants, the Company shall have to proceed to adjust the exercise price and the exercise ratio, throughout the maturity period of the warrant when the Company offers new allotment of ordinary shares to the existing shareholders and/or public and/ or specific individuals (private placement), and the average price of the newly issued ordinary share is lower than 90

percent of “the market price of the Company’s ordinary shares”, in order to maintain the benefits of the warrant holders. Therefore, the Company is required to allocate newly-issued ordinary shares to accommodate the rights adjustment of ECF-W3 in the number of not exceeding 12,000,000 shares. In case that there are adjustments in exercise price, exercise ratio and the method to calculate the adjustment of exercise price and exercise ratio, as described in Clause 1.1, there shall be no negative impact to the returns or benefits, which the warrant holders or warrant substitute holders shall receive once they exercise their rights.

In this regard, in the case that the offering price of newly-issued ordinary shares under the private placement basis is not lower than 90 percent of the market price of Company’s ordinary shares, the Company shall not adjust rights of ECF-W3, and in that case, the Company shall proceed to reduce its registered capital by cancelling such unallocated shares.

4.3 Possibility of the Plan for Using Proceeds which are derived from the Issuance of newly-issued shares to accommodate the rights adjustment of ECF-W3 in the number of not exceeding 12,000,000 shares
