Beryl 8 Plus Public Company Limited (the "**Company**") would like to inform the material resolutions of the Board of Directors' meeting 4/2022 on 11 August 2022 to the Stock Exchange of Thailand (the "**SET**") as follows;

1. To approved and proposed to the Extraordinary General Meeting of Shareholders No. 2/2022 to consider and approve the Company to entering into the acquisition of Bay Computing Company Limited ("**Baycoms**") by receiving the transfer of 80,000 ordinary shares in Baycoms or equivalent to 100 percent of the registered capital (the "**Purchase of Baycoms' Ordinary Shares**") by receiving the transfer from (1) Mr. Supachai Buristrakul, Ms. Nida Tangwongsiri and Mr. Avirut Liangsiri (the "**Natural Person Shareholders**") or a juristic person designated by the Natural Person Shareholders (collectively referred to as the "**Group of Shareholders**") in the amount of 11,200 shares in accordance with the Share Purchase Agreement (the "**Purchase of Shares from Group of Shareholders**") and (2) from Keymaker Venture Capital Company Limited ("**Holding**") in the amount of 68,800 shares under a mechanism called Entire Business Transfer or EBT, that is, the Company will purchase and accept the transfer of the entire business from Holding, which includes all assets, liabilities, rights, duties and responsibilities of Holding existing currently and in the future on the business transfer date. In this regard, Holding has no liability and has only Baycoms' ordinary shares as at the business transfer date. Therefore, on the business transfer date, the Company will accept the transfer of 68,800 ordinary shares in Baycoms, valued in total at 1,239,999,992 Baht from Holding (the "**Acceptance of the Entire Business Transfer**"). (Details of the entering into the Purchase of Baycoms' Ordinary Shares are in Enclosure 1.)

In payment of the consideration for the Purchase of Shares from the Group of Shareholders, the Company will make the payment for 11,200 ordinary shares of Baycoms to the Group of Shareholders in cash in the amount of 200,000,000 Baht and in payment of the consideration for the Acceptance of the Entire Business Transfer, the Company will make the payment for the entire business transfer in 26,050,420 newly issued ordinary shares of the Company, with a par value of 0.50 Baht per share, equivalent to 10.83 percent of the paid-up capital of the Company after the capital increase, at the price of 1,239,999,992 Baht per newly issued ordinary share, valued in total of 1,439,999,992 Baht to Holding.

The Purchase of Baycoms' Ordinary Shares above is considered the purchase or acceptance of the transfer of business of a private company by the company under section 107(2) of the Public Limited Company Act, B.E. 2535 (1992) (including the amendments thereof). In this regard, the Company is required to obtain approval from its shareholders' meeting with votes of not less than three-quarters of the total votes of shareholders attending the meeting and eligible to vote,

In addition, the Purchase of Baycoms' Ordinary Shares is deemed an asset acquisition transaction in accordance with the Notification of the Capital Market Supervisory Board No. TorChor. 20/2551 (2008) Re: Rules on Entering into Material Transactions Deemed as Acquisition or Disposition of Assets (including the amendments thereof) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition or Disposition of Assets, B.E. 2547 (2004) (including the amendments thereof) (the "Notifications on Asset Acquisition or Disposition") with a transaction value equivalent to 172.23 percent according to the total value of consideration criterion which is the criterion used for the calculation and results in the highest transaction value based on the Company's consolidated financial statements ended 30 June 2022 reviewed by the certified public accountant.

In addition to the Purchase of Baycoms' Ordinary Shares this time, the Company entered into acquisition of asset transactions during six months prior to the date on which the entering into the Purchase of Baycoms' Ordinary Shares has been agreed upon, excluding the transaction of the investment in ordinary shares of Extend IT Resource Company Limited, which has already been approved by the Extraordinary General Meeting of Shareholders No. 1/2022 on 7 July 2022 and therefore is exempted from being combined for the purpose of transaction size calculation in accordance with the Notifications on Asset Acquisition or Disposition, as follows:

1. The purchase of newly issued ordinary shares in Vanilla & Friends Company Limited (“**Vanilla**”), equivalent to 41-51 percent of the total number of issued and sold shares of Vanilla after Vanilla’s increase of registered capital, with the total value of the purchase of not exceeding 15,000,000 Baht, having the transaction value of 1.92 percent based on the total value of calculation.
2. The purchase of 533,334 ordinary shares in Techsauce Media Company Limited (“**Techsauce**”), equivalent to 20 percent of the registered capital of Techsauce, with the total value of the purchase of not exceeding 22,000,000 Baht, having the transaction value of 2.82 percent based on the total value of consideration.

Accordingly, the total transaction value is 176.97 percent based on the total value of consideration, and the Company, therefore, has a duty to comply with the Notifications on Asset Acquisition or Disposition, which includes the following duties:

- 1) To disclose information in relation to the transaction to the SET according to Schedule (1) annexed to the Notifications on Asset Acquisition or Disposition;
- 2) To appoint an independent financial advisor to perform related duties, including giving opinions as required by the Notifications on Asset Acquisition or Disposition, and to submit a report on opinions of the independent financial advisor to its shareholders for consideration, together with a letter of invitation to the shareholders’ meeting;
- 3) To hold the shareholders’ meeting to obtain approval on the entering into the transaction with votes of not less than three-quarters of the total votes of shareholders attending the meeting and eligible to vote, excluding the votes of interested shareholders.

Nevertheless, even though the Purchase of Baycoms’ Ordinary Shares has the highest transaction value at 172.23 percent calculated based on the total value of consideration, categorised as Class 4 Transaction or so called a backdoor listing with the SET, the Purchase of Baycoms’ Ordinary Shares falls into the criteria for exemption of a new listing application under Clause 24 of the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition or Disposition of Assets, B.E. 2547 (2004) (including the amendments thereof),

Additionally, the Purchase of Baycoms' Ordinary Shares is deemed a connected transaction as it is the entering into the transaction with Mr. Supachai Buristrakul or a company designated by the Natural Person Shareholders and Holding which are the juristic person whose major shareholder is to be appointed as the director of the Company have which is considered as a connected person according to the Notification of the Capital Market Supervisory Board No. TorChor. 21/2551 (2008) Re: Rules on Connected Transactions (including the amendments thereof) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions B.E. 2546 (2003) (including the amendments thereto) ("**Notifications on Connected Transactions**"). The size of the transaction will approximately equal to 1,239,999,992 Baht or 203.85 percent of the net tangible assets (NTA) calculated from the Company's consolidated financial statements ended 30 June 2022 reviewed by a certified public accountant. Therefore it is a transaction with a value of more than or equivalent to Baht 20 million or more than or equivalent to 3 percent of the NTA of the Company, whichever is higher.

The Company has not entered into any other connected transactions with Mr. Supachai Buristrakul or a company designated by the Natural Person Shareholders and Holding or any other related persons in the six months prior to the date of entering into the Purchase of Baycoms' Ordinary Shares.

Accordingly, the Company is required to comply with the Notifications on Connected Transactions which includes the following:

 - 3) Convene a shareholders' meeting in order to obtain the approval to enter into such transaction with a vote of no less than three – fourths of the total votes of shareholders who attend and are entitled to vote, excluding the votes of interested shareholders.
2. Approved and proposed to the Extraordinary General Meeting of Shareholders No. 2/2022 to consider and approve the increase of the Company's registered capital by 13,025,210 Baht from 107,297,187 Baht to 120,322,397 Baht by issuing newly issued ordinary shares of 26,050,420 shares with a par value 0.50 Baht to pay the consideration for Acceptance of the Entire Business

After such newly-issued shares are traded in the SET for 6 months, Holding and the Shareholders of Holding can sell up to 25 percent of the shares being prohibited to sell.

After such dissolution registration and during the liquidation of Holding, all existing assets at such time of Holding shall be transferred back to the shareholders of Holding and/or those whose names are listed as the shareholders of Holding as of the date of the liquidation completion in proportion to their shareholding percentages. Therefore, during the liquidation of Holding, the Company's newly issued ordinary shares issued and allocated to Holding as payment for the Purchase of Baycoms' Ordinary Shares shall be transferred back to the shareholders of Holding and/or those whose names are listed as shareholders of Holding as of the date of the liquidation completion in proportion to their shareholding percentages.

Therefore, it is considered a connected person according to the Notifications on Connected Transactions.

In this regard, although a shareholder of Holding who is Mr. Supachai Buristrakul will become one of the directors of the Company after entering into the Purchase of Baycoms' Ordinary Shares, total number of current directors are 9 directors. Please consider further details of the Purchase of Baycoms' Ordinary Shares in the Information Memorandum of Beryl8 Plus Public Company Limited on the Acquisition of Assets (Schedule 1) and the Connected Transaction ([Enclosure 1](#)).

1.2 The determination and rationale of the price of the newly-issued shares

The Company determines the offering price for the 26,050,420 newly-issued ordinary shares at 47.60 Baht per share. Such price is negotiated and agreed between the Company and Holding. The basis used for determining the prices is referenced to the market price.

In addition, the determining of the price of the newly-issued shares of the Company at 26,050,420 Baht per share is an offering of newly-issued ordinary shares at the price a discount not exceeding 10 percent of the market price as specified in the Notification No. TorChor. 72/2558.

Market Price refers to the weighted average price of the Company's share dating back 15 consecutive business days prior to the Board of Directors passed the resolution to propose the Extraordinary General Meeting of Shareholders No. 2/2022, covering the period from 19 July 2022 to 10 August 2022, which is equal to 52.87 Baht, (information from SETSMART (www.setsmart.com) of the Stock Exchange of Thailand).

1.3 Determination of market price

Market Price refers to the weighted average price of the Company's share dating back 15 consecutive business days prior to the Board of Directors passed the resolution to propose the Extraordinary General Meeting of Shareholders No. 2/2022 to approve the Company to offer newly-issued ordinary shares, covering the period from 19 July 2022 to 10 August 2022, which is equal to 52.87 Baht, according to Company's stocks trading information as appeared on SETSMART (www.setsmart.com) of the Stock Exchange of Thailand (the "SET"). Such offering price is the offering of the newly-issued ordinary shares at the price with a discount not exceeding 10 percent of the market price as specified in the Notification No. TorChor. 72/2558.

If the offering price of the newly-issued ordinary shares is less than 90 percent of the market price dating back 7–15 days prior to the first date of offering the newly-issued ordinary shares to Holding, (after receiving the newly-issued ordinary shares of the Company from the EBT), Holding and the shareholders of Holding will not sell all of the newly-issued ordinary shares received within 1 year from the date that the shares of the Company start to be traded in the SET (Silent Period). After 6 months of the first trading day of such newly-issued shares in the SET, Holding and the shareholders of Holding will be able to sell up to 25 percent of the locked up shares.

2. Objective of the issuing of newly-issued ordinary shares, plan to utilize proceeds, and project detail:

2.1 Objective of the issuing of newly-issued ordinary shares and plan to utilize proceeds

The Company has an objective to issue the newly-issue shares to Holding as consideration payment for that Holding transfers 68,800 ordinary shares of Baycoms to the Company via EBT procedure and after the EBT, the shareholders of Holding to become the ally with the Company. The Company expects to collaborate with the shareholders of Holding to strengthen competitiveness in the industry from the capability and experiences of the shareholders of Holding.

In this regard, the fact that the Company is able to issue the ordinary shares of the Company instead of paying the consideration for the Acceptance of the Entire Business Transfer enables the Company to avoid spending cash in entering into the Purchase of Baycoms' Ordinary Shares all at once and it will not affect the working capital of the Company. Moreover, the offering price of the Company's shares is the price with a discount not exceeding 10 percent of the market price as of the date that the Board of Directors passed a resolution to propose the Extraordinary General Meeting of Shareholders No. 2/2022 to approve the offering of the newly-issued shares of the Company whereby the Company has considered that the entering into the Purchase of Baycoms' Ordinary Shares will expand the business growth of the Company and support main business of the Company and be a risk diversification from current main business operation in order to support the proficiency of the Company in building the

stability and stabilization for the business operation of the Company in a long run. In this regard, the Company expects to complete the transaction within 2022.

2.2 Details of the projects that the Company and/or the subsidiary will utilize proceeds from the capital increase

After the meeting of the shareholders of the Company resolves to approve such transaction, the Company will receive the entire business transfer, which is a part of the Purchase of Baycoms' Ordinary Shares. The details of which can be found in Item 4 of the Information Memorandum of Beryl8 Plus Public Company Limited on the Acquisition of Assets (Schedule 1) and the Connected Transaction ([Enclosure 1](#)).

The Company believes that the business of providing information technology security maintenance services will be the business which most organizations will need in the future and such business requires specific expertise. From entering into the Purchase of Baycoms' Ordinary Shares, the Company may face the risks in case where the income and performance of Baycoms may not be as expected, which can happen from numerous causes, such as economic situation, technological change, change of customers' behaviors etc. In this regard, the Board of Directors of the Company has comprehensively taken into account such risks and put an effort to manage such risks as follows:

1. Risk from unsteadiness of income

As income of Baycoms is project-based and depends on budget allocation of customers both private and government sectors, Baycoms' income might be irregular and project procurement is important.

Providing counsel on digital transformation is the service in the technology industrial sector which changes swiftly and currently, technology plays important roles in various businesses and in daily life. Therefore, if there is a change in relevant technology and Baycoms cannot adapt itself to the changed technologies, it may substantially affect the business operation of the Company.

In this regard, the Company and Baycoms are the allies with other platform service providers such as Salesforce, Google, Tableau and Mulesoft etc., which enables the Company and Baycoms to follow the news and information regarding the trend of technological change closely from business allies who are the leaders in global industry in one way, together with finding new business allies to support the Company and Baycoms to have more options in products. Besides, the Company has an agency which is responsible for following, studying and developing new products of the Company, along with continuously developing capacity of the staff to be equipped with knowledge and understandings in technological change in the other way.

3. Risk from the dependency of executive and personnel

The service providing business of Baycoms depends on knowledge and understandings in software, including the skills and experiences in providing services of installing the system to be able to connect with other systems to meet the needs of customers. The services also include the maintenance and coordination to provide support to the customers when there is a problem from the use of the system. Therefore, human resources are essential and there is a risk if such human resources leave.

Hence, the Company will implement the policy on human resource development and management of the Company on Baycoms, such as the succession plan policy for the high-level executives for the continuity of business, having a plan for staff capacity development, including paying reasonable remuneration which can compete in the market, so that the risk from losing human resources from the resignation can be reduced.

4. Risk from the change of customers' behaviors

Currently, businesses change rapidly, especially technological business which is always developed. If there is new release technology having features which can be popular among mass

users, there may be a popular trend which affect the behavior of the customers. As a result, in case where Baycoms cannot adjust itself in time, it may significantly affect the ability to operate business.

The Company is aware of the risk in this matter and prepares to respond by assigning the staffs to follow new technologies, together with popular trend of customers and study to understand the change of new technologies and present to the high-level executives to prepare for the adaptation of business strategies to accommodate the change of trend and promptly respond to the need of the Company's customers.

5. Risk from the impact of the spread of Coronavirus disease (COVID-19)

From 2020 to present, numerous business owners in various industries are affected by the spread of Coronavirus disease (COVID-19), which has significant negative impact on overall economic circumstance and business sector.

Nevertheless, the Company has prepared to respond to such problem efficiently and will implement such measure on Baycoms after the investment, such as doing more marketing with the group of customers who are not affected or are slightly affected by COVID-19, e.g., logistics industrial sector, industrial sector and E-Commerce, along with coordinating more closely with the customers and the preparation of system and working approach to accommodate more working via online system.

Furthermore, the Company regards the importance of preventing the spread of the disease by encouraging the staffs to have social responsibility and strictly comply with the rules and regulations of relevant government agencies. The Company also stipulates working measures such as allowing staff to work from home or having online meetings etc. In addition, the Company works through Cloud system which grants efficient access to the information and enables the Company to provide services to the customers continually.

However, if the Company fails to complete the project, the Company will have to bear the costs and expenses that the Company has incurred on the project such as due diligence costs, the fee of legal counsel, the fee of an independent financial advisor and other related expenses, etc., as of 11 August 2022, the Company has all project-related expenses, both occurred and expected to be occurred, of approximately 6.35 million Baht.

2.4 Total expected initial investment budget and total expected investment budget utilized for the projects to generate income to the Company

For the Purchase of Baycoms' Ordinary Shares, the Company will receive the transfer of 80,000 ordinary shares in Baycoms, or equivalent to 100 percent of the registered capital by receiving the

transfer from (1) Mr. Supachai Buristrakul, Miss Nida Tangwongsiri and Mr. Avirut Liangsiri (the “**Natural Person Shareholders**”) or a juristic person determined by the Natural Person Shareholders (collectively referred to as “**Group of Shareholders**”) in the total number of 11,200 shares according to the Share Purchase Agreement (the “**Purchase of Shares from Group of Shareholders**”) and (2) receive the transfer of 68,800 shares from Holding under the EBT procedure in the value of 1,239,999,992 Baht from Holding; totaling 1,439,999,992 Baht.

For the consideration payment for the Purchase of Shares from Group of Shareholders, the Company will make a payment for 11,200 ordinary shares of Baycoms in cash of 200,000,000 Baht to the Group of Shareholders. For the consideration payment for the Acceptance of the Entire Business Transfer, the Company will pay the entire business transfer consideration to Holding with 26,050,420 newly-issued ordinary shares of the Company, of which the par value of 0.50 Baht per share, or equivalent to 10.83 percent of the paid-up capital of the Company after the increase of the paid-up capital. The offering price of the newly-issued ordinary shares is determined at 47.60 Baht per share, or equivalent to 1,239,999,992 Baht in total and totaling 1,439,999,992 Baht.

In this regard, it is still not necessary for Baycoms to use additional source of fund from the Company in Baycoms’ current business operation as Baycoms expects that Baycoms will have sufficient operating cashflow for business operation and will be able to generate stable income and profits to the Company in the future.

The source of fund of 200,000,000 Baht is from the proceeds from the capital increase and the offer for sale of newly-issued shares to the public (IPO).

When considering the sources of fund of the Company for the investment in such project, there will be no substantial impact on the Company’s fund which will be used for the Company’s business operation.

3. Information in respect of expected effects from the capital increase or allocation of shares to specific investor (Private Placement)

The offering of shares as specified above may cause the following effects to the shareholders:

3.1 Price Dilution

$$= \frac{\text{Market price before offering} - \text{Market price after offering}}{\text{Market price before offering}}$$

$$= \frac{52.87 - 52.30}{52.87}$$

$$= 1.08 \text{ percent}$$

The market price before offering refers to the weighted average price of the Company's share in the SET dating back 15 consecutive business days prior to the Board of Directors passed the resolution to propose the Extraordinary General Meeting of Shareholders No. 2/2022 to approve the Company to offer newly-issued ordinary shares, covering the period from 19 July 2022 to 10 August 2022, which is equal to 52.87 Baht, according to Company's stocks trading information as appeared on SETSMART (www.setsmart.com) of the SET.

The market price after offering is calculated from

Market price after offering

$$\begin{aligned}
 &= \frac{(\text{No. of paid-up shares} \times \text{Market price before offering}) + (\text{No. of newly-issued shares} \times \text{offering price})}{(\text{No. of paid-up shares} + \text{No. of newly-issued shares})} \\
 &= \frac{(214,594,374.00 \times 52.87) + (26,050,420 \times 47.60)}{214,594,374.00 + 26,050,420} \\
 &= 52.30
 \end{aligned}$$

After the offering of newly-issued ordinary shares, there will be a Price Dilution of 1.08 percent.

3.2 Control Dilution

$$\begin{aligned}
 &= \frac{\text{No. of newly-issued shares}}{(\text{No. of paid-up shares} + \text{No. of newly-issued shares})} \\
 &= \frac{26,050,420}{214,594,374.00 + 26,050,420} \\
 &= 10.83 \text{ percent}
 \end{aligned}$$

After the offering of newly-issued ordinary shares transaction, there will be a Control dilution of 10.83 percent.

3.3 Earnings per Share Dilution

$$\begin{aligned}
 &= \frac{\text{Earnings Per Share before offering} - \text{Earnings Per Share after offering}}{\text{Earnings Per Share before offering}} \\
 &= \frac{0.45 - 0.40}{0.45} \\
 &= 10.83 \text{ percent}
 \end{aligned}$$

After weighing the benefits that the shareholders will receive from the offering of newly-issued ordinary shares to support the Purchase of Baycoms' Ordinary Shares and the Price Dilution, the Control Dilution and the Earnings per Share Dilution as stipulated above, the Board of Directors is of the opinion that the benefits from the offering of newly-issued ordinary shares to be paid as the consideration for the Acceptance of the Entire Business Transfer outweigh the unfavorable effects to the shareholders' right to vote because the entering into the Purchase of Baycoms' Ordinary Shares will benefit the Company and the shareholders of the Company as specified in 3.4 below.

3.4 Benefits for the Company and the shareholders of the Company

Having the shareholders of Holding as the Company's new shareholders will provide benefits for the Company and the shareholders of the Company as follows:

1. The newly-issued ordinary shares of the Company which are issued and offered to the specific investor instead of the cash payment for shares are the investment management of the Company which will not affect the working capital of the Company. The Company expects that the Company will generate additional income from the Purchase of Baycoms' Ordinary Shares aside from the main business and there is an opportunity to obtain good returns from the investment in asset.
2. The person who will become a new director of the Company is a person with suitable qualification, knowledge and skills which will contribute to the best interest of all shareholders.

The entering into the Purchase of Baycoms' Ordinary Shares will provide benefits for the Company and the shareholders of the Company as follows:

1. The Company will gain a business partner that has business expertise as Baycoms has business experience for more than 25 years. Such experience will strengthen the Company and accommodate extensive services as well as readiness to support projects in the future.
2. The Company believes that the business of providing information technology security maintenance services will be the business which most organizations will need in the future and such business requires specific expertise. The investment in Baycoms will allow the Company to provide information technology security maintenance services without having to begin since the beginning which takes more time and large amount of investment.
3. As the Company and Baycoms have different products and services, this will increase chances to gain more income and appropriate rate of return and support various groups of customers as well as using benefits from existing customer base of the Company and Baycoms. Therefore, the Company will have stable financial status and increase cash flow from long term business operation of the Company.

4. Although the Company and Baycoms has different products and services, they are still in the same industry. After completing the transaction, this will cause economies of scale from reducing fixed costs from using human resources and cost of co-office management which cause better and long term rate of return.

4. Opinions of the Board of Directors regarding matters specified in the Notification of the Capital Market Supervisory Board No. Tor Jor. 73/2558, Re: List of Information in the Notice of the Shareholders' Meeting of a Listed Company for Seeking Approval of the Issuance and Offering of Securities

The Meeting of the Board of Directors of the Company resolved to propose the meeting of the shareholders consider and approve the Company to enter into the Purchase of Baycoms' Ordinary Shares for which a consideration for the Acceptance of the Entire Business Transfer will be paid by not more than 26,050,420 newly-issued ordinary shares at the offering price of 47.60 Baht per share as it is considered and viewed that the entering into such transaction will provide benefits for the Company since the Purchase of Baycoms' Ordinary Shares is beneficial to the Company and the shareholders of the Company as specified in Item 3.4 of this Information Memorandum. The transaction will benefit the business operation of the Company and subsidiary in the future and it will increase the stabilization of the competitive potential of the Company. In addition, the shareholders of Holding also have expertise and work track record which are beneficial to the future project and will increase the stabilization of the competitive potential of the Company.

4.1 Reference of the determination of the offering price and appropriateness of the offering price of the newly-issued ordinary shares

The determination of the consideration value in (1) cash of 200,000,000 Baht to the Group of Shareholders and (2) 26,050,420 newly-issued ordinary shares with a par value of 0.50 Baht per share at the offering price of 47.60 Baht per share to Holding which is the fair value of the Company prior to entering into the transaction. The Company sticks to the conservative basis in determining the price and the basis used in determining the consideration value is according to the negotiation and joint agreement between the parties under the Entire Business Transfer Agreement with reference to the financial position, performance and key financial figures of Baycoms. Moreover, the Company also takes into account the opportunity to build the growth of such business in the future. (Please see detail in [Enclosure 2](#)).

In addition, the criteria used by the Company to determine the ordinary share price of the Company to accommodate the entering into the Purchase of Baycoms' Ordinary Shares with a discount not exceeding 10 percent of the market price refers to the weighted average price of the Company's share dating back 15 consecutive business days prior to the Board of Directors passed the resolution to propose the Extraordinary General Meeting of Shareholders No. 2/2022 to approve the Company to

offer newly-issued ordinary shares, covering the period from 19 July 2022 to 10 August 2022, which is equal to 52.87 Baht, according to Company's stocks trading information as appeared on SETSMART (www.setsmart.com) of the SET.

4.2 Reason and necessity for the capital increase and offering of newly-issued ordinary shares

The Board of Directors of the Company is of the opinion that the offering of newly-issued ordinary shares to specific investor is the offering of shares to Holding which eventually after the EBT the strategic investor i.e. shareholders of Holding will become the business ally with the Company. The experiences in the past of the shareholders of Holding will complement and strengthen the competitiveness of the Company in the industry which will benefit the Company in the future.

In addition, the Company can maintain cash flow to be used as working capital or used for the business operation of the Company and/or for debts repayment which will increase the liquidity of the Company. The ability to raise fund when comparing with the issuing of newly-issued shares to the public, the offering and allocation of newly-issued shares to specific investors is considered faster and the amount is in accordance with the need.

In this regard, the Board of Directors has considered other options for source of fund to pay the consideration for the Acceptance of the Entire Business Transfer such as the offering of newly-issued ordinary shares to the public or existing shareholders but has the opinion that such processes are required to follow more rules and consume more time including having higher cost of operation. In addition, the offering of newly-issued ordinary shares to the public or existing shareholders has an uncertainty that the Company will be able to raise fund in the full amount within the time required. Besides, the use of source of fund from loan to pay the consideration of the purchase of assets will have an impact on the financial ratio such as debt to equity ratio which may have an impact on financial status of the Company.

4.3 Possibility of funding plan from the shares offering

Since the objective of the offering of newly-issued shares of the Company is for the payment of consideration for the Acceptance of the Entire Business Transfer, please consider the condition of entering into the transaction specified in Item 11 of the Information Memorandum of Beryl8 Plus Public Company Limited on the Acquisition of Assets (Schedule 1) and the Connected Transaction ([Enclosure 2](#)).

4.4 Rationale of capital increase and the fund sufficiency if the capital increase does not cover the entire investment budget required for the operation of projects

The Board of Directors of the Company views that the Company has studied the necessity of the capital increase for specific investor by issuing newly-issued ordinary shares to pay for a consideration of the Purchase of Baycoms' Ordinary Shares in the amount of 1,239,999,992 and cash of 200,000,000 Baht,

totaling 1,439,999,992 Baht which is sufficient for entering into the Purchase of Baycoms' Ordinary Shares and it will not have any impact on the cashflow and liquidity of the Company in continuing the business operation.

In this regard, it is still not necessary for Baycoms to use additional source of fund from the Company in Baycoms' current business operation as Baycoms expects that Baycoms will have sufficient operating cashflow for business operation and will be able to generate stable income and profits to the Company in the future.

4.5 Impacts on company's business, financial stability and its performance from the capital increase and the operation according to funding plan.

The Board of Directors of the Company is of the opinion that this issuing if the newly-issued ordinary shares will make the Company become a business ally with shareholders of Holding, which has experiences and work track record which will benefit and improve the performance of the Company in the future.

The Board of Directors of the Company views that the issuance of the newly-issued ordinary shares to the specific investor as a payment of consideration for the Acceptance of the Entire Business Transfer does neither change nor have any impact on the characteristics and policy of business operation of the Company. The Company will further operate main business according to the vision, mission and normal business plan of the Company.

Furthermore, the entering into the Purchase of Baycoms' Ordinary Shares does not result in the transfer or change of controlling power in the Company and the Company does not change the management structure of the Company. Although Mr. Supachai Buristrakul will become one of the directors of the Company after entering into the Purchase of Baycoms' Ordinary Shares, there are 9 directors of the Company in total currently. Besides, the current management team of the Company, such as the Chief Executive Officer and Chief Financial Officer, is still the personnel of the Company and the current management team will continue to manage and control the business operation of the Company after entering into the Purchase of Baycoms' Ordinary Shares.

5. The Board of Directors' statement of certification

The Board of Directors of the Company hereby certifies that the Board of Directors performs the duty with good faith and protects the Company's benefit in respect of this capital increase.
