1/ Information of the Company's shareholders as of 5 May 2022 from www.set.or.th

2/ The shareholding proportion is calculated from the total issued and paid-up shares of the Company after entering into the Entire Business Transfer Transaction, excluding the number of shares issued to support the issuance and allocation of warrants to purchase shares of the Company No.1 (IIG-W1)

In this regard, the Entire Business Transfer Transaction above is considered an acquisition transaction of the Company in accordance with the Notification of the Capital Market Supervisory Board No. TorChor.

20/2551 (2008) Re: Rules on Entering into Material Transactions Deemed as Acquisition or Disposition of Assets, dated 31 August 2008 (including the amendments thereof) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition or Disposition of Assets, B.E. 2547 (2004), dated 29 October 2004 (including the amendments thereof) (the “**Notifications on Asset Acquisition or Disposition**”), with the transaction value of 45.07 percent calculated based on the total value of consideration, which is the calculation basis resulting in the highest transaction value by reference to the Company’s consolidated financial statements ended 31 March 2022 which has been reviewed by the Company’s certified public accountant. The Company, therefore, has a duty to comply with the Notifications on Asset Acquisition or Disposition, which is the following duties:

- 1) To disclose information in relation to the transaction to the SET according to Schedule (1) of the Notifications on Asset Acquisition or Disposition.
- 2) To serve a written notice on its shareholders within 21 days from the date of disclosure of information to the SET. The written notice must contain at least the information as specified in 1, 2, 3, 5 (3), 7 and 8 of Schedule (2) of the Notifications on Asset Acquisition or Disposition.

However, the entire business transfer transaction is in the nature of the purchase or acceptance of the transfer of the business of a private Company to a Company under Section 107(2)(b) of the Public Limited Companies Act B.E. must be approved by the shareholders' meeting of the Company with a vote of not less than three-fourths of the total votes of the shareholders attending the meeting and having the right to vote. Therefore, the Company will arrange a meeting of shareholders of the Company to approve the entering into the Entire Business Transfer Transaction.

In addition, entering into the Entire Business Transfer Transaction **is not considered** a connected transaction of the Company. According to the Notification of the Capital Market Supervisory Board No. TorJor. 21/2551 Re: Rules for Connected Transactions dated August 31, 2008 (and as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Acts of Listed Companies Concerning Connected Transactions, 2003 dated 19 November 2003 (and as amended) (“**Notification of Connected Transactions**”).

Therefore, the Company would like to inform the details of the acquisition of assets in relation to the transaction of the entire business transfer as specified in the Notification of Asset Acquisition as follows:

1. Date, Month, Year in which the Transaction Occurs

The Company expects that the Entire Business Transfer Transaction will be able to be completed within 3 months after the Extraordinary General Meeting of Shareholders No. 1/2022 has approved the Share Allocation Transaction in Consideration of The Entire Business Transfer including approval of the necessary and/or in connection with such transactions. 3.2 Type and size of Asset Acquisition Transaction

The Entire Business Transfer Transaction above is considered an acquisition transaction of the Company in accordance with the Notifications on Asset Acquisition or Disposition. When calculating the transaction size by referring to the consolidated financial statements of the Company ending 30 June 2022 that have been reviewed by the Company's certified public accountant, the calculation details are as follows:

Financial information of the Company and Lansing as of 30 June 2022 and as of 31 December 2021, respectively.

(Unit: million Baht)	iiG As of 30 June 2022	Lansing As of 31 December 2021
Total Assets	980.54	59.91
Intangible Assets	8.78	-
Deferred Income Tax Assets	3.99	-
Total Liabilities	413.65	19.72
Minority shareholders' equity	2.29	-
Net tangible assets (NTA)	551.83	40.09
Net profit (last 4 quarters)	47.26	17.51

The transaction value can be calculated based on each calculation basis, as follows:

Transaction Value Calculation Basis	Calculation Formula	Transaction Value
1. Value of net tangible assets (NTA)	$\frac{\text{NTA of the business acquired} \times \% \text{ acquired} \times 100}{\text{NTA of the Company}}$	$\frac{40.09 \times 0.51 \times 100}{551.83} = 3.70\%$
2. Net after-tax profit from the normal course of business operation	$\frac{\text{Net Profit of Assets Acquired} \times \% \text{ acquired} \times 100}{\text{The Company's net profit}}$	$\frac{17.51 \times 0.51 \times 100}{47.26} = 18.90\%$
3. Total value of consideration	$\frac{\text{Value of transaction received} \times 100}{\text{Total assets of the Company}}$	$\frac{358.46 \times 100}{980.54} = 36.55\%$
4. Value of securities issued by the listed Company in consideration of the assets to be acquired	$\frac{\text{No. of shares issued to settle assets} \times 100}{\text{No. of issued and paid-up shares of the Company}}$	$\frac{8,723,684 \times 100}{100,000,000} = 8.72\%$
The basis resulting in the highest value		36.55 percent

The calculated highest transaction value of the Entire Business Transfer Transaction, according to the calculation above, is 36.55 percent based on the total value of consideration, which is the calculation basis resulting in the highest transaction value by reference to the Company's consolidated financial statements ended 30 June 2022 which has been reviewed by the Company's certified public accountant. The transaction is categorised into Class 2 Transaction according to the Notifications on Asset Acquisition or Disposition. Therefore, the Company has a duty to comply with the Notifications on Asset Acquisition or Disposition, which includes the following duties:

- 1) To disclose information in relation to the transaction to the SET according to Schedule (1) to the Notifications on Asset Acquisition or Disposition.
- 2) To serve a written notice on its shareholders within 21 days from the date of disclosure of information to the SET. The written notice must contain at least the information as specified in 1, 2, 3, 5 (3), 7 and 8 of Schedule (2) to the Notifications on Asset Acquisition or Disposition.

5. Total value of consideration and the criteria used to determine the value

The Company and Lansing Holding agreed to negotiate a total consideration value for the Entire Business Transfer Transaction that the Company will have to pay to Lansing Holding a total amount of 331,449,992 Baht for the entire business transfer from Lansing Holding, including 510,000 ordinary shares of Lansing, or 51.00 percent of Lansing's registered and paid-up capital. The Company's consideration is based on the fair value valuation of Lansing's ordinary shares as assessed by Siam Alpha Capital Company Limited ("**Financial Advisor**") through various methods. The financial advisor has chosen the Discounted Cash Flow Approach (DCF), which is the most suitable method and reflects the profitability and generates future cash flows from Lansing's business as much as possible. The fair value of Lansing's shareholders' equity as of 30 June 2022 is 593.24–819.70 million Baht, or business value. 51.00 percent, equivalent to 302.55–418.05 million Baht. Therefore, it is considered that the fair price of the entire business transfer from Lansing Holding, with a total value of not more than 331.50 million Baht, is a reasonable price.

The financial advisor has considered Lansing's fair valuation by considering its ability to generate future cash flows based on Lansing's business as a service provider of IT services, which can be divided into 4 business lines: 1) Software Development 2). IT Consulting and Outsourcing 3) IT Staffing and 4) IT Security and Assessment. Lansing's main income comes from IT Staffing business, which is a business of providing employment services for IT personnel to become permanent employees of customers. In addition, Lansing has important customer groups, including hospitals, financial institutions, and communication companies. Moreover, the financial advisor is considering the cost of services and selling and administrative expenses incurred by discounting Free Cash Flow to Firm (FCFF) with Weighted Average Cost of Capital (WACC) at the rate of 8.87–9.87 per annum and the growth rate after the period estimated time (Terminal Growth Rate) at the rate of 0.98–1.98 percent per annum (based on compounded growth (CAGR) of headline inflation for 2007–2021 at 1.48 percent per year).

The result of the fair valuation of Lansing's shareholders' equity by the financial advisor can be summarized as follows:

Valuation Approach	Fair value of Lansing (million Baht)	Fair value of Lansing 51.00 percent (million Baht)
1) Book Value Approach	43.27	22.07
2) Adjusted Book Value Approach	38.85	19.81
3) Price to Book Value Approach Ratio: P/BV Ratio	100.20 – 129.22	51.10 – 65.90
4) Price to Earning Approach Ratio: P/E Ratio	654.17 – 1,086.34	333.63 – 554.03
5) Discounted Cash Flow Approach: DCF	564.46 – 714.65	253.91 – 364.71

The financial advisor has the following assumptions in the financial projection:

- **Revenue from sales and services**

- IT Staffing

The financial advisor estimates the number of projects and the average service fee per project. Based on labor market growth, the number of projects is expected to increase by 11.3 percent per year, based on an increase in IT job postings in the first quarter of 2021 versus the second half of 2020, which is 18.8 percent. However, the financial advisor estimates that the growth rate is 11.30 percent, or 60 percent of 18.8 percent per year, according to the principle of caution. (Conservative Basis)

- IT Consulting & Outsourcing

The financial advisor estimates the number of projects and the average service fee per project. The number of projects is set to grow at 10.5 percent per year, according to Business/Industry Trend Analysis 2021–2023: Digital Services and Software Businesses. The Krungsri Research Center predicts that revenues of digital services and software businesses are likely to grow steadily at an average rate of 10.5 percent per year due to the trend of purchasing power that has gradually recovered and the business sector's accelerating organizational restructuring that focuses on driving added value. with more digital technology.

- Software Development

The financial advisor estimates based on the number of projects and the average service fee per project, with revenue growth of 10.5 percent per year.

- IT Security & Assessment

The financial advisor estimates based on the number of projects and the average service fee per project, with revenue growth of 10.5 percent per year.

- **Costs of services and selling and administrative expenses**

The financial advisor estimates the cost of services and selling and administrative expenses based on historical financial data of Lansing in 2019–2021 and the six-month period ended 30 June 2022. According to interviews with Lansing executives, Lansing will terminate the service contract on computer programs from a

partner since Lansing can develop computer programs by itself. Thus, Lansing will have reduced service costs by approximately 10.00 million Baht per year.

From the assumptions given above, the financial advisor conducted a Sensitivity Analysis of Lansing's Fair Value by adjusting WACC value and Terminal Growth Rate after the projection period (Terminal Growth Rate), as the change in WACC and Terminal Growth Rate has a significant effect on the appraised fair value changes. The financial advisor, therefore, determines the appropriate volatility range. The results of the sensitivity analysis are detailed below.

		Discount Rate or WACC (%)		
		8.87	9.37	9.87
Terminal Growth Rate (%)	0.98	642.05	600.91	564.46
	1.48	675.90	630.11	589.85
	1.98	714.65	663.26	618.45

As a result of the sensitivity analysis, the fair value of Lansing is between 564.46 - 714.65 million Baht or the value of Lansing at 51 percent will be 253.91 - 364.71 million Baht.

6. Benefits Expected by the Company from the Transaction

- (1) The Company has the opportunity to receive dividends and a return on investment if Lansing has expected operating performance. The Company considers that Lansing's past performance has continued to grow. And there is also an opportunity to increase the customer base in the industries that Lansing is good at. Thus, Lansing's revenue has a clear opportunity to grow. In addition, the cost reduction of services from plans to cancel the use of computer software services from external service providers because Lansing has already developed its own computer programs. As a result, the cost of services will be reduced by approximately 10.00 million Baht per year from 2023 onwards, which will increase the profit rate of Lansing. And with an increased profit margin from cost savings, Lansing will continue to profit. This will benefit the Company's investment that will benefit both in the form of dividends and the value of Lansing's shares that will increase.
- (2) The Company has the opportunity to create a new business jointly with Lansing. The Company considers that the Company and Lansing have different strengths. The Company has expertise in enterprise resource planning (ERP), customer relationship management (CRM) systems, and customer experience management consulting for organizations. While Lansing specializes in providing IT consulting services to clients and developing customized computer programs in specific industries such as healthcare, it will enable the Company to expand vertically (Vertical Expansion) by offering business transitions to the digital economy (Digital Transformation) for customers such as Health Technology or E-Commerce, etc.
- (3) The Company has the opportunity to share resources to maximize efficiency. The Company believes that Lansing has expertise in recruiting IT personnel, which will create opportunities for companies to find IT personnel to support the services of companies that have a high demand for IT personnel.

Moreover, with the management of Lansing, the Company will be able to use knowledge, experience, and management systems in accordance with good corporate governance principles, including the Company's business network, to support Lansing's stable and sustainable development. It has a positive effect on the investment of the Company.

However, in entering into such transactions, the Company considers the disadvantages and risks of entering into the transaction due to the payment of Lansing shares with the Company's newly issued ordinary shares. The issuance and allocation of newly issued ordinary shares to specific investors (Private Placement) will result in Control Dilution, Price Dilution, and Earnings Dilution to the existing shareholders of the Company. And there is a risk that Lansing's performance is not as expected. This may cause the Company to receive a return on investment that is lower than expected. However, when considering the advantages, disadvantages, and risks of entering into the asset acquisition transaction this time, it is found that there is a good result from the Company's investment for business expansion in terms of providing IT services that are related to the current business nature of the Company and will generate good returns for the shareholders of the Company in the future. The Company therefore considers that doing so is appropriate

7. The Source of Funds for the Transaction

To enter into this transaction, the Company will pay compensation for the Entire Business Transfer Transaction to Lansing Holding in the total amount of 331,449,992 Baht with the Company's newly issued ordinary shares of not more than 8,723,684 shares, or equivalent to 8.024 percent of the total issued and paid-up shares of the Company (Calculated from the total issued and paid-up shares of the Company after entering into the Entire Business Transfer Transaction) at a par value of 0.50 Baht per share at an offering price of 38.00 Baht per share, representing a total value of 331,449,992 Baht instead of payment with cash.

8. Conditions of the transaction

The Entire Business Transfer Transaction and the Share Allocation Transaction in Consideration of The Entire Business Transfer will occur only when the conditions precedent as specified in the Entire Business Transfer Agreement between the Company and Lansing Holding ("**Entire Business Transfer Agreement**"), including all agreements and other contracts and other documents relating to such transaction have been completed. The key conditions can be summarized as follows:

- (1) The shareholders' meeting of the Company has resolved to approve the Entire Business Transfer Transaction and the Share Allocation Transaction in Consideration of the Entire Business Transfer, including approval of various matters necessary and/or related to such transaction.
- (2) The Office of the Securities and Exchange Commission ("**SEC**") approves the offering of newly-issued ordinary shares to Lansing Holding, which is a private placement.
- (3) The shareholders' meeting of Lansing Holding resolved to approve the entire business transfer including approval of any necessary matters and/or in connection with such transaction.

- (4) Lansing Holding undertakes that the Board of Directors meeting and the shareholders' meeting of Lansing have a resolution to approve various transactions, as well as to register Lansing with the relevant regulatory agencies as follows:
 - (4.1) Amendment of the objectives of Lansing in accordance with the details specified by the Company.
 - (4.2) Establish the Articles of Association of Lansing in accordance with the details specified by the Company.
 - (4.3) Appoint persons designated by the Company to be directors of Lansing in accordance with the number and method specified by the Company; and
 - (4.4) Amendment and change the powers of directors of Lansing as specified by the Company.
- (5) On the date of the entire business transfer, there are no events or actions that may adversely affect the financial position and/or Lansing's business operations, including but not limited to significant property damage or destruction or significant impairment; having a major dispute, litigation, or legal action; as well as other events that cause or may cause a material adverse effect on Lansing's business; and there are no events that preclude the completion of the Entire Business Transfer Transaction and the Share Allocation Transaction in Consideration of the Entire Business Transfer.

9. Opinions of the Board of Directors regarding the transaction

The Board of Directors Meeting No. 3/2022 resolved to approve this transaction after considering the entire business transfer transaction from Lansing Holding with a total value of not more than Baht 331.50 million, with the payment of compensation by the Company's newly issued ordinary shares, which is more suitable than cash payment since the payment of compensation in cash can cause the Company to lose liquidity and may cause liquidity problems. In addition, from the current financial status of the Company as of 30 June 2022, it was found that the Company had cash and cash equivalents worth 59.02 million Baht, which was not sufficient to pay in cash for the transaction. The Company may have to borrow money from financial institutions. This will result in the Company's being obligated to pay debts borrowings, and finance costs, and causing increased financial risks. Moreover, the Board of Directors has considered the appropriateness, necessity, risks, and returns of entering into the transaction by focusing on operating in the best interests of the Company. The Board of Directors considers that the investment in Lansing is an investment to expand the business of providing IT services, which is related to the current business nature of the Company and will be able to create synergy for the group of companies. Lansing also has a strong customer base and has a tendency to grow continuously. If Lansing's performance is as expected under various key assumptions after the transaction, the Company, as a Lansing shareholder, also has the opportunity to recognize revenue and benefit from Lansing's operating results in the form of dividends in proportion to its shareholding.

Therefore, the Board of Directors is of the opinion that entering into the Entire Business Transfer Transaction by paying compensation with the newly issued ordinary shares of that Company is appropriate and for the maximum benefit to the Company and its shareholders. Moreover, the value of entering into such transaction is reasonable and is worthwhile in business. Therefore, the Board of Directors deems it appropriate to propose to the shareholders' meeting to consider and approve the agenda items related to entering into the Share Allocation Transaction in Consideration of the Entire Business Transfer to Lansing Holding for payment as compensation. Accepting the entire business transfer from Lansing Holding

In addition, the Board of Directors is of the opinion that the Company's newly issued ordinary shares of 8,723,684 shares, which will be used to pay compensation for the entire business transfer from Lansing Holding at this time, are set at the offering price of 38.00 Baht per share, representing a total value of 331,449,992 Baht, is the price arising from the negotiation between the Company and Lansing Holding by using the market price reference criteria, which is an offering of newly issued ordinary shares at a discount price of 7.52 percent of the market price and not more than 10 percent from the market price, and from the valuation of the fair value of Lansing's ordinary shares by Siam Alpha Capital Company Limited, a financial advisor approved by the SEC using the Discounted Cash Flow Approach (DCF), which reflects profitability and generates future cash flows from operating most of Lansing's business. Therefore, the above offer price is reasonable and reasonable.

2. Objectives of the issuance of shares and plans for the use of funds

The issuance of capital increase shares to be used as compensation for the entire business transfer (Entire Business Transfer) from Lansing Holding instead of cash (Payment in Kind) Consideration was given to the suitability of the Company's Capital Structure and actions to comply with the conditions under the Revenue Code in relation to the entire business transfer which has a total trading value of 331,499,992 million Baht. The Company expects to complete the transaction within 3 months after the Extraordinary General Meeting of Shareholders No. 1/2565 approve the share allocation transaction in return for the entire business transfer and approve matters necessary and/or related to the said transaction. Please consider the details of the business transfer transaction according to the Information Memorandum on Acquisition of Assets of I&I Group Public Company Limited (Enclosure 1).

3. The impact on existing shareholders from the offering of newly issued shares

3.1 Price Dilution

After the issuance and offering of newly issued ordinary shares to the private placement is complete, there will be a price dilution of 0.60 percent, details are as follows:

$$= \frac{\text{Market price before offering} - \text{Market price after offering}}{\text{Market price before offering}}$$

$$= \frac{41.09 - 40.84}{41.09}$$

$$= 0.60 \text{ percent}$$

The market price means the weighted average price of the Company's shares for the retroactive 7 trading days, before the date of the Board of Directors' resolution to propose to the shareholders' meeting is between 2 - 10 August 2022, equal to 41.09 Baht per share (Information from SETSMART at www.setsmart.com of the Stock Exchange of Thailand). The market price after offering is calculated from:

$$\text{Market price after offering} = \frac{(\text{No. of paid-up shares} \times \text{market price before offering}) + (\text{No. of newly issued shares} \times \text{offering price})}{(\text{No. of paid-up shares} + \text{number of newly issued shares})}$$

$$= \frac{(100,000,000 \times 41.09) + (8,723,684 \times 38.00)}{100,000,000 + 8,723,684}$$

$$= 40.84 \text{ Baht per share}$$

3.2 Control Dilution

After the issuance and offering of newly issued ordinary shares to the private placement is complete, there will be an effect on the dilution of shareholding (Control Dilution) at the rate of 8.02 percent, details are as follows:

$$= \frac{\text{Number of newly issued shares to be offered to private placement}}{\text{Number of paid-up shares} + \text{number of newly issued shares to be offered to private placement}}$$

$$= \frac{8,723,684}{100,000,000 + 8,723,684}$$

$$= 8.02 \text{ percent}$$

3.3 Earnings per share dilution: EPS Dilution

After the issuance and offering of newly issued ordinary shares to the private placement is complete, there will be an effect on Earning per share dilution (EPS Dilution) at the rate of 8.02 percent, details are as follows:

$$= \frac{\text{Earnings per share before offering} - \text{Earnings per share after offering}}{\text{Earnings per share before offering}}$$

$$= \frac{1.0020 - 0.9216}{1.0020}$$

= 8.02 percent

where EPS before offering is

$$= \frac{\text{Net Profit}}{\text{Number of paid-up shares}}$$

$$= \frac{100.20 \text{ million Baht}}{100 \text{ million shares}}$$

$$= 1.0020 \text{ Baht per share}$$

And EPS after offering is

$$= \frac{\text{Net Profit}}{\text{Number of paid-up shares} + \text{number of newly issued shares}}$$

$$= \frac{100.20 \text{ million Baht}}{100 \text{ million shares} + 8.72 \text{ million shares}}$$

$$= 0.9216 \text{ Baht per share}$$

Note: Net Profit for the past 12 months from 1 July 2021 to 30 June 2022

3.4 Value received by shareholders compared to the impact on their share of profits or voting rights.

When comparing the benefits that shareholders will receive from the offering of PP shares to support the entire business transfer from Lansing Holding with the effect on the price dilution, control dilution, and earnings dilution as detailed above, the Board of Directors is of the opinion that the offering of the newly issued ordinary shares for the entire business transfer from Lansing Holding benefits the shareholders more than the impact as mentioned above since the entire business transfer from Lansing Holding will benefit the company and its shareholders as follows:

- 1) The Board of Directors considers Lansing to be a company with good growth prospects from itself with a strong customer base. The company considers that Lansing's past performance has continued to grow and there is also an opportunity to increase the customer base in the industries that Lansing aptitude. This affects the revenue of Lansing and can grow obviously. In addition, the cost reduction of the service from the plans to cancel the use of computer software services from external service providers because Lansing has already developed its own computer programs. As a result, the cost of services will be reduced by approximately 10.00 million Baht per year from 2023 onwards. This will help Lansing's profit margins increase. This will benefit the company's investment that will benefit both in the form of dividends and the value of Lansing's shares that will increase.
- 2) The Company has the opportunity to create a new business jointly with Lansing. The Company considers that the Company and Lansing have different strengths. The Company has expertise in enterprise resource planning (ERP), customer relationship management (CRM) systems, and customer experience management consulting for organizations. While Lansing specializes in providing IT

consulting services to clients and developing customized computer programs in specific industries such as healthcare, it will enable the Company to expand vertically (Vertical Expansion) by offering business transitions to the digital economy (Digital Transformation) for customers such as Health Technology or E-Commerce, etc.

- 3) The Company has the opportunity to share resources to maximize efficiency. The Company believes that Lansing has expertise in recruiting IT personnel, which will create opportunities for companies to find IT personnel to support the services of companies that have a high demand for IT personnel. Moreover, with the management of Lansing, the Company will be able to use knowledge, experience, and management systems in accordance with good corporate governance principles, including the Company's business network, to support Lansing's stable and sustainable development. It has a positive effect on the investment of the Company.

4. Opinion of the Board of Directors

4.1 The origin of the offering price determination and the appropriateness of the price of the newly issued ordinary shares offered for sale

The determination of the offering price of 8,723,684 newly issued ordinary shares of the Company at the price of 38.00 baht per share is appropriate. This is the price agreed between the buyer and the seller. And use the rules to determine the reference price in relation to the market price, with discount 7.52 percent from market price and it not more than 10 percent from the market price ("market price" is the weighted average trading price of the company's ordinary shares on the stock exchange for the past 7 consecutive business days prior to the date of the Board's resolution. To be presented to the Extraordinary General Meeting of Shareholders No. 1/2022, which is from 2 -10 August 2022, which will be 41.09 Baht (information from SETSMART on www.setsmart.com of the Stock Exchange of Thailand)) The Board of Directors also considered the fair valuation by the financial advisor, Siam Alpha Capital Company Limited ("Financial Advisor"), whose appraisal price was in the range of 37.88–53.28 Baht per share. The offering price is in the range that the financial advisor assessed. The details of the appraisal are as follows:

Valuation Approach	Business value (million Baht)	value per share (Baht per share)
Book Value Approach	566.89	5.67
Price to Book Value Approach Ratio: P/BV Ratio	1,312.84 – 1,693.10	13.13 – 16.93
Price to Earning Approach Ratio: P/E Ratio	1,797.28 – 3,400.70	17.97 – 34.01
Market Value Approach	3,734.11 – 4,104.89	37.34 – 41.05
Sums of the parts	3,788.09 – 5,328.27	37.88 – 53.28

The financial advisor has assessed the fair value of the company by 5 approaches, which are the Book Value Approach, Price to Book Value Approach Ratio: P/BV Ratio, Price to Earning Approach Ratio: P/E Ratio,

Market Value Approach, and Sums of the parts, which combine the company's value. The financial advisor considers that the Sums of the Parts approach is the most appropriate since it considers the overall operation of each company at present, calculated according to the company's structure as follows:

The valuation of the Company and its subsidiaries is as follows:

Company	Valuation Approach	Investment Proportion (percent)	Fair Value (million Baht)
I&I Group Public Company Limited	Discounted Cash Flow Approach	100	1,704.55 – 2,538.45
ICE Consulting Company Limited	Discounted Cash Flow Approach	100	1,969.05 – 2,632.73
I&I Experience Company Limited	Discounted Cash Flow Approach	100	13.80 – 10.57
Diginative Company Limited	Discounted Cash Flow Approach	60	157.96 – 223.58
I&I Venture Company Limited	(Book Value Approach	50	18.28
Sums of the parts			3,788.09 – 5,328.27

From the valuation of the business (sums of the parts), the value is equal to 3,788.09-5,328.27 million Baht or 37.88-53.28 Baht per share using the discounted cash flow approach since the financial advisor believes that it is a way to take into account the business operation and profitability of the company in the future. The assessment is based on the present value of the expected future net cash flows. It can therefore reflect the real value better than other valuation methods by referring to past operations as well as considering the trend of future operations. The key assumptions are: The Weighted Average Cost of Capital (WACC) was between 6.59

– 7.46 percent, and the terminal growth rate was between 0.98 – 1.98 percent (based on compound annual growth (CAGR) of headline inflation in 2007-2021)

The financial advisor uses the fair valuation using the Discounted Cash Flow Approach method for all companies except I&I Venture Company Limited, since the company was registered on 11 June 2021 and has no income from service, there may be uncertain and discrepancies in operational capability in the future. Therefore, the book value approach is used and considered from the book value at any point in time to reflect the true value.

The fair value valuation is based on assumptions received from the company under the current economic and political situation. Therefore, any changes in the company's business plans and policies, or the changing economic conditions, or an unusual occurrence may result in a significant difference from the company's current business operations. or change from the estimates and variables set. It may cause the estimates established under the foregoing assumptions to change materially and may affect the company's value being assessed significantly as well.

In addition, the Board of Directors has considered and viewed that this allocation of ordinary shares is beneficial to the company and its shareholders and beneficial to the company's business in the future as it creates business alliances.

4.2 Reason and necessity for the capital increase

The Board of Directors has the opinion that the capital increase by issuing and allocating shares to Lansing in order to enter into the Entire Business Transfer Transaction of Lansing Holding, which has all assets, namely Lansing's existing ordinary shares, in this offering to Strategic investors are investors who are interested in becoming business partners with a company. This will allow the business of providing IT services to be competitive because Lansing has a strong customer base and a tendency to grow continuously. When considering the objectives of the issuance of shares, it is appropriate. Additional details in the Information Memorandum on Acquisition of Assets, List (1) of I&I Group Public Company Limited, Enclosure 1. In addition, the Board of Directors has considered the ability to raise funds in comparison with the issuance of capital increase shares to the public. The offering and allocation of newly issued ordinary shares to specific investors can quickly raise funds as needed since the offering of newly issued ordinary shares to the public has to comply with more rules. and takes longer, as well as having higher operating costs. There may be uncertainty that the company will be able to raise funds in full within the specified period. In addition, it is also seen that the use of borrowing resources will affect financial ratios such as the debt-to-equity ratio. This may affect the financial position of the company.

4.3 Possibility of funding plan from the shares offering

The Board of Directors has considered and believes that the company will be able to issue new ordinary shares to be used as compensation for the business transfer to Lansing under the Entire Business Transfer

Transaction, according to the plan, The Board of Directors expects that the entire business transfer process can be completed within 3 months after the Extraordinary General Meeting of Shareholders No. 1/2022 approved the share allocation transaction in consideration of the entire business transfer and approve matters necessary and/or related to such transactions.

4.4 Rationale of capital increase and the fund sufficiency if the capital increase does not cover the entire investment budget required for the operation of projects

The Board of Directors has considered the conditions for the offering and allocation of newly issued ordinary shares to a specific person (Private Placement) and considers that the issuance and allocation of such newly issued ordinary shares are reasonable and feasible. This is because it increases the company's competitiveness from the good growth prospects of Lansing, which has a strong customer base that includes the hospital group, financial institutions group, the communication group, and the continuous growth trend of the IT Services business group, by issuing shares at 38.00 Baht per share, which is not more than 10 percent lower than the market price. The market price means the weighted average price of the company's shares calculated over the past 7 consecutive business days from 2-10 August 2022 equal to 41.09 Baht per share (information from SET SMART at www.setsmart.com of the Stock Exchange of Thailand). When considering the reasonableness and benefits of the transaction, the Board of Directors believes that this capital increase is reasonable and will bring the greatest benefits to the company. If the company seeks capital to pay as compensation for the entire business transfer (Entire Business Transfer) from Lansing Holding by other means, such as borrowing money, it may cause the company to have a debt burden and increased interest if it is an increased in capital to the existing shareholders in proportion There may be uncertainty in the amount that will be received from the fundraising. It may be a burden on the existing shareholders to pay the capital increase and have a longer time frame for the operation than the capital increase for a private placement, etc.

4.5 Impacts on company's business, financial stability and its performance from the capital increase and the operation according to funding plan.

The Board of Directors is of the opinion that this issuance of PP capital increase shares will attract strong strategic investors, meaning investors who are interested in becoming business partners with the company will help strengthen its IT Services businesses and be able to operate according to important plans to promote business growth and increase competitiveness, which will benefit the company in the future. The Board of Directors is of the opinion that the issuance of newly issued ordinary shares to specific investors does not affect the change in nature and business policy of the company. The company will continue to operate its core business in accordance with its vision, mission, and normal business plans.

5. The Board of Directors' statement of certification

The Board of Directors of the Company hereby certifies that the Board of Directors performs the duty with good faith and protects the Company's benefit in respect of this capital increase. Nevertheless, if such

performance causes damages to the Company, the shareholder is entitled to exercise the right to claim compensation from such director on behalf of the Company pursuant to Section 85 of the Public Company Act B.E. 2535 (as amended) and if the result of such performance is that the director or any other person obtains undue benefits, shareholder may bring an action to claim for such benefits back from the director on behalf of the Company in accordance with the Section 89/18 of the Securities and Exchange Act B.E. 2535. Furthermore, the Board of Directors has considered and inspect information with care and are of the opinion that Lansing Holding Company Limited has a capability to make an investment and is capable of making an investment.

6. Opinions of the Audit Committee and/or Directors of the Company that are different from the opinions of the Board of Directors

2. Impacts from the issuance and allocation of the warrants

2.1 Price Dilution

- After the issuance and offering of IIG-W1 warrants: there will be price dilution approximately 1.05 percent with the following formula:

$$\begin{aligned} &= \frac{\text{Market price before offering} - \text{Market price after offering}}{\text{Market price before offering}} \\ &= \frac{41.09 - 40.66}{41.09} \\ &= 1.05 \text{ percent} \end{aligned}$$

Market price after the allocation of the newly issued ordinary shares to RO, equivalent to:

$$\begin{aligned} &= \frac{(\text{Market price before offering} \times \text{Paid-up shares}) + (\text{Exercise price for the IIG-W1} \\ &\quad \times \text{Number of accommodated share for the IIG-W1})}{\text{Paid-up shares} + \text{Number of accommodated share for the IIG-W1}} \\ &= \frac{(41.09 \times 100,000,000) + (32.00 \times 5,000,000)}{100,000,000 + 5,000,000} \\ &= 40.66 \text{ Baht per share} \end{aligned}$$

Remark: Market price before offering equals to the weighted average of the Company's shares trading for 7 consecutive trading days before the date of Board of Directors' meeting No. 3/2022, convened on 11 August 2022, which is between 2 – 10 August 2022) (Information from SETSMART of the SET) equivalent to 41.09 Baht per share

- After the issuance and offering of newly issued ordinary shares to a specific investor (Private Placement) is complete, there will be price dilution approximately of 0.60 percent, with the following formula:

$$\begin{aligned} &= \frac{\text{Market price before offering} - \text{Market price after offering}}{\text{Market price before offering}} \\ &= \frac{41.09 - 40.84}{41.09} \\ &= 0.60 \text{ percent} \end{aligned}$$

Where the market price after the offering of newly issued ordinary shares in proportion to their shareholding is equal to

$$= \frac{(\text{Paid-up shares} \times \text{Market price before offering}) + (\text{Number of shares to be issued to PP} \times \text{PP offering price})}{\text{Paid-up shares} + \text{Number of shares to be issued to PP}}$$

Remark

The Board of Directors' Meeting No.3/2022 held on 11 August 2022 resolved to propose to the Extraordinary General Meeting of Shareholders No. 1/2565 as follows:

1. The Board of Directors Meeting resolved to approve and propose to the Extraordinary General Meeting of Shareholders to approve the capital increase of 8,723,684 newly issued ordinary shares with a par value of Baht 0.50 per share at the offering price of Baht 38.00 per share, totaling 331,499,992 Baht and offer to specific persons (Private Placement), namely Lansing Holding Company Limited ("Lansing Holding") who is not a connected person of the Company to pay as compensation for the entire business transfer of Lansing Holding, whose main assets are Ordinary shares in Lansing Business Systems Company Limited ("Lansing"). Whereby, the meeting of the shareholders resolved to clearly set the offering price at Baht 38.00 per share which is not less than 90 percent of the market price of the Company's shares in accordance with the Notification of the Capital Market Supervisory Board No. TorJor. 72/ ("Notification No. TorJor. 72/2558") and the resolution of the shareholders' meeting must be approved by three-quarters of the total votes cast by shareholders attending the meeting and entitled to vote, excluding the interest shareholders. In addition to the approval of the shareholders' meeting, the company must obtain authorization to offer the newly issued ordinary shares of the Company to the specific persons from The Securities and Exchange Commission, Thailand in accordance with the Notification No. TorJor. 72/2558 prior to the offering of such newly issued ordinary shares

In this regard, the offering price of the newly issued ordinary shares to the Lansing Holding has been calculated based on the weighted average price of the Company's shares listed on the Stock Exchange of Thailand ("SET") for at least 7 consecutive business days prior to the date of the Board of Directors' Meeting resolved to approve and propose the Extraordinary General Meeting of Shareholders to approve the offering of the newly issued ordinary shares for specific persons to Lansing Holding, during the period from 2 - 10 August 2022 is equal to 41.09 Baht (Source: SETSMART from SET www.setsmart.com)

In the event that the offering price of the newly issued ordinary shares to the Lansing Holding is less than 90 percent of the market price of the Company's shares, the Company is obliged to prohibit Lansing Holding from selling the newly issued ordinary shares within 1 year from the commencement date that the newly issued ordinary shares has been sold in the SET (Silent Period) and Lansing Holding shall be able to gradually sell the shares in the amount of 25 percent of the total shares prohibited at the expiration of 6 months after the commencement date that the newly issued ordinary shares have been sold in the SET according to the Stock Exchange of Thailand's Notification of the Stock Exchange of Thailand, Re: Rules, Conditions and Procedures Governing the Listing of Ordinary or Preferred Shares Issued for Capital Increase B.E. 2558 (2015) (as amended).

After the issuance and offering of the 8,723,684 Newly Issued Ordinary Shares to Lansing Holding and the registration of the change in paid-up capital, Lansing Holding shall be the Company's shareholder by

holding 8,723,684 shares or approximately 8.024 percent of the total shares sold of the Company. Therefore, Lansing Holding is not the controlling person of the Company in accordance with the Notifications of the Capital Market Supervisory Board No. TorJor. 21/2551 on Rules on Connected Transactions (including the amendments) and the announcement of the Stock Exchange of Thailand, subject: Disclosure of Information and Actions of Listed Companies in the Connected Transactions 2003 (including any amendments).

2. Consider the allocation not exceeding 5,000,000 newly issued ordinary shares par value 0.50 Baht for the exercise of the right to purchase newly issued ordinary shares under the IIG-W1 Warrants, which will be issued to existing shareholders of the Company at no cost (zero THB) in proportion to their respective shareholdings at the ratio of 20 existing ordinary shares to 1 unit of warrant (any fractions resulting from the calculation based on the allocation ratio set forth shall be rounded down), with a term of up to 2 years from the issuance date, having an exercise ratio of 1 unit of warrant per 1 newly issued ordinary share at an exercise price of Baht 32.00 per share.
3. In addition, the Board of Directors' meeting approved to propose to the shareholders' meeting to consider and assign to the Board of Directors have authorized to perform any tasks related to the allocation of newly issued ordinary shares, not limited to the following matters:
 - a. Allocating the newly issued ordinary shares of the Company for specific persons (Private Placement) on one or several occasions, determine the offering period, the payment method including such arrangements relating to the allocation of newly issued ordinary shares.
