#### 1. Overview of Operations

The spread of the COVID-19 virus over the past two years has affected the country's tourism sector and the economy, but in the 4<sup>nd</sup> quarter of 2022, the epidemic situation has begun to decline. The number of infected individuals are likely to continue to decrease. As a result, the country's economic outlook, including domestic tourism, is beginning to recover. This is a good trend for the future business operations of Mitsib Leasing PLC and its subsidiary companies ("the Group").

COVID-19 criteria to help alleviate their repayments via debt restructuring, refinancing, and installments grace periods, which also includes granting the right to suspend installment payments for debtors who are patients infected with COVID-19. However, the Group also is actively managing and reducing the number of debtors and/or contracts that has received these COVID-19 measures in order to gradually adjust them to their normal installment payments in 2023, which will be overall beneficial and help increase the cash inflow of the Group in the future.
