Management Discussion and Analysis of the Company's Performance

For the year ended December 31, 2022

## Liquidity and capital adequacy

As at 31 December 2022 and 31 December 2021, the current ratio of the Company and its subsidiaries were 0.75 times and 1.16 times, respectively, and the quick ratio were 0.61 times and 1.00 times, respectively. The main reason of the drop of those ratios was an arising of current liabilities. The major components of current liabilities are trade and other accounts payable, current portion from short-term loan and long-term loan form financial institution as described above. Nevertheless, the management is confident that the Company could collect debt from the major customers to repay the short-term liabilities based on the past experiences.

Moreover, the Debt to Equity ratio (D/E ratio) as at 31 December 2022 and 31 December 2021 were 1.85 times and 1.73 times, respectively, due to the increasing of trade and other accounts payable, especially creditors arising from the purchased of program rights and short-term loan from financial institution, including debentures issuance during the year as described above.
