Subject To clarify the operating results of Fiscal Year 2025

Attention President

The Stock Exchange of Thailand

Thai Stanley Electric Public Company Limited would like to clarify the operating results for the fiscal year 2025 as follows:

- Sales

In the fiscal year 2025 (April 1, 2025 - March 31, 2026), the company had total sales of 11,847.31 million baht, a decrease of 387.42 million baht or a decrease of 3.17% from the same period of the fiscal year 2024, which had sales of 12,234.73 million baht. This was due to the sluggish economic conditions both domestically and internationally, high household debt levels, stricter lending policies by financial institutions, and the increase in electric vehicles and imported cars, which directly affected the sales and production of combustion engine vehicles related to the company.

In 2025, the production of cars was 1,455,569 units, a decrease from 2024, which had a production of 1,468,997 units, representing a decrease of 0.91%. The number of exports was 935,750 units, down from 2024, which had 1,019,213 units, a decrease of 8.19%. Meanwhile, domestic sales were 621,166 units, an increase from 2024, which had 572,675 units, an increase of 8.47%. This increase was mainly due to electric vehicles (EVs), with battery electric vehicle (BEV) sales reaching 120,301 units, accounting for 19.37% of total car sales, an increase from the same period in 2024, which had 66,734 units, an increase of 80.27%.

In the motorcycle segment, the production volume in 2025 was 1,972,902 units, an increase from 2024, which had a production volume of 1,887,208 units, representing a 4.54% increase. Domestic sales amounted to 1,711,846 units, up from 2024, which had domestic sales of 1,683,239 units, representing a 1.70% increase.

- Net Profit

In the fiscal year 2025 (April 1, 2025 - March 31, 2026), the company reported a net profit of 1,924.85 million baht, an increase of 38.68% from the same period of the fiscal year 2024, which had a net profit of 1,387.95 million baht. This was due to the restructuring of production, continuous improvement in production efficiency (SNAP; Stanley New Approach for higher productivity), and effective management of raw material costs, resulting in a reduction in overall production costs. The company also focuses on quality control activities to achieve the goal of zero defects.

Submitted for your information.

Yours Faithfully,

(Mr. Apichart Lee-issaranukul)
