The Stock Exchange of Thailand

Executive Summary

Stella X Public Company Limited and its subsidiaries (“the Company”) would like to clarify the operating results for the three-month period ended 31 March 2026. The Company reported a net loss of Baht 152 million, compared to a net loss of Baht 231 million during the same period of the previous year. This represents a decrease in loss of Baht 79 million, or 34%.

For the three-month period ended 31 March 2026, the Company reported total revenue of Baht 166 million, a decrease of Baht 51 million or 23% from Baht 217 million in 2025. This decline was primarily driven by lower revenue from real estate sales and services, consistent with the economic climate and the impact of the Middle East conflict, as well as a decrease in dividend income. However, the Company experienced growth in medical service revenue, following its transition to full-scale management within this sector this year.

Overview of the Statement of Profit or Loss for the Period

The operating results of the Company for the three-month periods ended 31 March 2026 and 2025 had significant changes due to the following primary factors:

- Net loss for the three-month period ended 31 March 2026, amounted to Baht 152 million, representing a 34% decrease (2025: Net loss of Baht 231 million).
- Loss from operating activities for the three-month period ended 31 March 2026, amounted to Baht 72 million, representing a 31% decrease (2025: Operating loss of THB 104 million).

Revenue from real estate business amounted to Baht 38 million, a decrease of Baht 48 million or 56% from the previous year. This decline was due to a lower number of ownership transfers compared to the prior year, resulting from a reduction in available-for-sale units and internal personnel restructuring. Additionally, the overall economic downturn and the conflict in the Middle East have impacted the general cost of living, while the Company has not launched any new projects this year.

Rental and service income decreased by Baht 20 million, or 21% from the previous year. This was primarily due to the overall economic climate and the Middle East conflict, which directly affected the hotel business. Furthermore, the number of available rental rooms in the hotel segment decreased compared to the previous year following the expiration and termination of lease agreements.

Revenue from medical services increased by Baht 20 million, or 446% from the previous year, due to the transition to full-scale management this year. However, the conflict in the Middle East has impacted international customer groups, which represent a high proportion of the total customer base.

Dividend income: The Company did not receive any dividend income during the first quarter of 2026.

Gain from reversal of loss of buybacks: The Company recognized a gain from the cancellation of house and condominium unit buyback agreements, in accordance with the Company's policies and operational plans.

Cost of real estate sales decreased by Baht 24 million or 37% from the previous year. This is consistent with the decline in revenue. The Company had a gross loss due to accelerated sales of units in older projects to urgently increase corporate cash flow.

Cost of rentals and services decreased by Baht 21 million or 27% from the previous year. This is consistent with the decrease in revenue for this segment. However, the proportion of the cost decrease was greater than the revenue decrease, reflecting improved efficiency.

Cost of medical services increased by Baht 16 million or 248%, which is consistent with the growth in revenue.

Selling and distribution expenses decreased by Baht 5 million or 23%. The primary cause was a reduction in expenses related to ownership transfers, consistent with the decline in revenue.

Administrative expenses decreased by Baht 41 million or 29% from the previous year. This was because the Company did not recognize significant allowances this year, in accordance with expenditure management policies and operational plans.

Loss on impairment on financial assets decreased by Baht 8 million or 97%. This was due to the Company not recognizing significant allowances.

Share of profit from investments in joint ventures and associates: This year, the Company recorded a profit of Baht 12 million, compared to a loss of THB 46 million in the previous year. This improvement resulted from the recognition of profits from joint ventures and associates in the first quarter of 2026.

Financial Position

The Company would like to clarify the financial position as of 31 March 2026, which has significantly changed when compared with the financial position as of 31 December 2025 due to the following key factors:
