- The revenue from sales for the Q1/2026 amounted to 167.39 million Baht, showing a decrease of 10.89 million Baht or 6.11% from the same period of previous year. The decline was primarily attributable to the overall economic slowdown, coupled with rising oil prices, which led consumers as well as investors in coin-operated vending machine products to delay spending and investment decisions.
- The interest income for the Q1/2026 was 26.20 million Baht, a decrease of 18.44 million Baht or 41.31% from the same period of previous year. The decline was mainly attributable to a reduction in hire-purchase receivables and loan receivables, which consequently led to lower interest income.

Cost of Goods Sold

The Cost of Goods Sold for TSR group of companies for the Q1/2026, amounted to 68.49 million Baht. This represents an increase of 7.03 million Baht or 11.43% from the same period of previous year. The cost of goods sold as a percentage of sales revenue increase from 34.48% in the corresponding period of the previous year to 40.92%. This increase was mainly attributable to higher sales of coin-operated vending machines products, which carry a higher cost ratio compared to the water purifier product group.

Selling expenses

The selling expenses for TSR group of companies for the Q1/2026 amounted to 69.88 million Baht, decreasing from the same period of previous year's figure of 5.42 million Baht, representing a percentage decrease of 7.20%. This reduction was driven by lower sales volumes and improved expense management, including measures such as transitioning to electric vehicles (EVs) in place of fuel-powered vehicles.

Administrative expenses

Administrative expenses of the Group for Q1/2026 amounted to THB 70.53 million, representing an increase of THB 5.65 million, or 8.70%, compared to the same period of the previous year. The increase was primarily attributable to an additional allowance for impairment of assets held for sale (truck group).

For the Q1/2026, TSR group of companies incurred an expected credit loss of 39.62 million Baht, a decrease from the same period of previous year of 34.71 million Baht, representing a decrease of 46.70%. The improvement was driven by enhanced sales efficiency, process adjustments in debt collection, and the engagement of professional debt collection service providers.
