On the other hand, as the transaction size of the Shares Issuance Transaction is lower than 15%, the Company is not required to comply with the Acquisition and Disposition Notifications.

**INFORMATION MEMORANDUM ON BUSINESS ACQUISITION BY
THAI PLASPAC PUBLIC COMPANY LIMITED (LIST 1)**

January 4, 2022

The Board of Directors' Meeting No. 8/2021 of Thai Plaspac Public Company Limited (the "**Company**") held on December 30, 2021 resolved to approve (i) the acquisition by TPAC Packaging India II Private Limited¹ (the "**Purchaser**") (an entity incorporated under the laws of India which is the wholly-owned subsidiary of TPAC Packaging India Private Limited ("**TPAC India**"), a wholly-owned subsidiary of the Company) of the business of M/s Skypet Polymers (the "**Seller**") and (ii) the issuance of new shares in the Purchaser to one of the owners of the Seller. The detail of which are as follows:

1. The Purchaser will acquire the business of the Seller, a partnership firm registered under the laws of India who engages in the business of manufacturing, processing and trading of pet preforms, pet bottles and other related products. Such business acquisition shall include assets, liabilities, books and records and all rights, title and interest therein and thereto (as detailed in item 4) (collectively, the "**Business Acquisition Transaction**"), with the total consideration of up to INR 1,030 million or approximately THB 484.1² million (the "**Maximum Acquisition Consideration**").

In this regard, the Purchaser has agreed to pay to the Seller on the Completion Date (as detailed in item 1) approximately INR 650 million or approximately THB 305.5 million, ("**Completion Date Purchase Consideration**"), being the Initial Purchase Price (as detailed in item 3.2) less an amount of INR 121.25 million or approximately THB 56.99 million (the "**Deferred Payment Amount**"). Such Deferred Payment Amount with the interest of 5.5% per annum compounded annually will be paid to the Seller on the date falling 2 years from the Completion Date (the "**Deferred Payment Date**"). However, the Initial Purchase Price is not the actual purchase price and both parties have agreed to adjust the Initial Purchase Price based on the Price Adjustment (as detailed in item 3.2) where such actual purchase price may be higher (but not more than the Maximum Acquisition Consideration) or lower than the amount of the Initial Purchase Price. Consequently, pursuant to the Price Adjustment, the Purchaser may be required to make an additional payment or receive a part of the consideration afterwards.

2. The Purchaser proposes to issue and allot 9,400,000 newly-issued equity shares equivalent to 20% of the post allotment of total paid-up shares capital in the Purchaser, with the face value of INR 10 or approximately THB 4.70, to Mr. S. Selvaraj as the strategic partner in the Purchaser for the smooth integration and operation of the Purchaser after the completion of the Business Acquisition Transaction.** Such issuance and allotment of shares

¹ The setting up of the Purchaser was approved by the Board of Directors' meeting No. 7/2021 held on December 10, 2021 and disclosed to the Stock Exchange of Thailand on the same day.

is subject to the conditions precedent which includes completion of the Business Acquisition Transaction and the approval of the Purchaser's lender (as detailed in item 3.1).

The Business Acquisition Transaction and the Shares Issuance Transaction are collectively called the "**Transactions**")

The Transactions do not constitute a connected transaction under the Notification of the Capital Market Supervisory Board No. TorChor. 21/2551 Re: Rules on Connected Transaction and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions B.E. 2546 (as amended) (the "**Connected Transaction Notifications**").

However, the Business Acquisition Transaction constitutes an acquisition of assets pursuant to the Notification of the Capital Market Supervisory Board No. TorChor. 20/2551 Re: Rules on Entering into Material Transactions Deemed as Acquisition or Disposal of Assets and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition and Disposition of Asset B.E. 2547 (as amended) (the "**Acquisition and Disposition Notifications**"). The transaction size calculated based on the latest reviewed financial statements of the Company ended September 30, 2021 and the audited financial statements of the Seller for the fiscal period ended March 31, 2021, and the net tangible asset (NTA) value criterion, which gives the highest transaction value, is equivalent to 20.97%. Moreover, the Company has had another acquisition transaction within the past six months, i.e., the setting up of the Purchaser as approved by the Board of Directors' meeting No. 7/2021 held on December 10, 2021 for the purpose of entering into the Business Acquisition Transaction, whose transaction size calculated based on the total value of consideration criterion was equivalent to 0.32%. Therefore, after computation with the transaction size of the Company's other acquisition transaction within the past six months, the highest transaction value pursuant to the net tangible asset (NTA) value criterion is 20.97%.

In addition, the Shares Issuance Transaction constitutes a disposal of assets pursuant to the Acquisition and Disposition Notifications. 3.2 Transaction Size

According to the ASB, the Seller and the Purchaser have agreed that the consideration for the Business Acquisition Transaction will be the initial purchase price (the “**Initial Purchase Price**”) as adjusted by the Price Adjustment (as defined below).

The Initial Purchase Price is derived from the following formula:

(a) the Seller’s enterprise value of INR 970 million or approximately THB 455.9 million less (b) estimated net debt plus (c) initial net working capital less (d) initial target net working capital of INR 245 million or approximately THB 115.15 million, where items (b), (c), and (d) will be as estimated by the Sellers and agreed by the Purchaser before the Completion Date.

The Initial Purchase Price will be adjusted by the price adjustment under the terms and conditions of the ASB, comprising (a) the difference between the estimated net debt and the reviewed net debt as at the Completion Date and (b) the difference between (i) the initial net working capital minus the initial target net working capital and (ii) the reviewed net working capital minus the reviewed target net working capital of INR 245 million or approximately THB 115.15 million as at the Completion Date (the “**Price Adjustment**”).

In this regard, the Purchaser has agreed to pay to the Seller on the Completion Date the Completion Date Purchase Consideration of approximately INR 650 million or approximately THB 305.5 million, being the Initial Purchase Price less the Deferred Payment Amount of INR 121.25 million or approximately THB 56.99 million. Such Deferred Payment Amount with the interest of 5.5% per annum compounded annually will be paid to the Seller on the Deferred Payment Date. However, the Initial Purchase Price is not the actual purchase price and both parties have agreed to adjust the Initial Purchase Price based on the Price Adjustment where such actual purchase price may be higher (but not more than the Maximum Acquisition Consideration) or lower than the amount of the Initial Purchase Price. Consequently, pursuant to the Price Adjustment, the Purchaser may be required to make an additional payment or receive a part of the consideration afterwards.

Moreover, the Company has expected that the Maximum Acquisition Consideration would not exceed INR 1,030 million or approximately THB 484.1 million.

The Company has calculated the transaction size of the Business Acquisition Transaction under the Acquisition and Disposition Notifications based on the reviewed financial statements of the Company ended September 30, 2021 and the audited financial statements of the Seller for the fiscal period ended March 31, 2021, the details of which are as follows:

(1) Calculation under the net tangible asset (NTA) value criterion:

$$\begin{aligned}\text{Transaction size} &= \frac{(\text{NTA of Skypet } 100\%) \times 100}{\text{NTA of the Company}} \\ &= \frac{(\text{THB } 125.44 \text{ million} \times 100\%) \times 100}{\text{THB } 598.20 \text{ million}} \\ &= 20.97\%\end{aligned}$$

(2) Calculation under the net profit from operating results criterion:

$$\begin{aligned}\text{Transaction size} &= \frac{(\text{Net profit of Skypet } 100\%) \times 100}{\text{Net profit of the Company}} \\ &= \frac{(\text{THB } 10.20 \text{ million} \times 100\%) \times 100}{\text{THB } 144.45 \text{ million}} \\ &= 7.06\%\end{aligned}$$

(3) Calculation under the total value of consideration criterion:

$$\begin{aligned}\text{Transaction size} &= \frac{\text{Total value of consideration paid} \times 100}{\text{Total assets of the Company}} \\ &= \frac{\text{THB } 484.1 \text{ million} \times 100}{\text{THB } 7,253.10 \text{ million}} \\ &= 6.67\%\end{aligned}$$

Remark: The Company has used the Maximum Acquisition Consideration to calculate the total value of consideration paid.

(4) Calculation under the equity issued as consideration for the assets criterion:

This criterion is not applicable as no new share of the Purchaser will be issued as consideration.

Transaction Size Calculation Summary

Calculation Criteria	Transaction Sizes (%)
1. Net tangible asset (NTA) value	20.97%
2. Net profit from operating results	7.06%
3. Total value of consideration	6.67%
4. Value of equity issued as consideration for the assets	Not applicable

The transaction size calculated based on the latest reviewed financial statements of the Company ended September 30, 2021 and the audited financial statements of the Seller for the fiscal period ended March 31, 2021, and the net tangible asset (NTA) value criterion, which gives the highest transaction value, is equivalent to 20.97%. Moreover, the Company has had another acquisition transaction within the past six months, i.e., the setting up of the Purchaser as approved by the Board of Directors' meeting No. 7/2021 held on December 10, 2021 for the purpose of entering into the Business Acquisition Transaction, whose transaction size calculated based on the total value of consideration

criterion was equivalent to 0.32%. Therefore, after computation with the transaction size of the Company's other acquisition transaction within the past six months, the highest transaction value pursuant to the net tangible asset (NTA) value criterion is 20.97%.

The Business Acquisition Transaction is, therefore, deemed a Class 2 transaction, i.e. a transaction whose transaction size is equivalent to or more than 15%, but less than 50%, where the Company is required to disclose information on the Transaction to the SET, and send the circular letter containing required information to the Company's shareholders within 21 days after the date of information disclosure.
