The Share Purchase Transaction of SGMP is regarded as an acquisition of assets pursuant to the Notification of the Capital Markets Supervisory Board No. TorJor. 20/2551 Re: Rules on Entering into

In addition, the above Share Purchase Transaction of SGMP and Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in SGMP are also regarded as a connected transaction of a listed company under the Notification of the Capital Market Supervisory Board No. TorJor. 21/2551 Re: Rules on Connected Transactions, dated August 31, 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions B.E. 2546 (2003), dated November 19, 2003 (as amended) (the “**Notifications on Connected Transactions**”). This is because Mr. Ho-Chih Huang, a chief executive officer and director of the Company, holds the shares in the Seller of SGMP Shares in the proportion of 100% of total shares in the Seller of SGMP Shares. The aforementioned connected transaction is an asset transaction with a value of 99.4% of the Company's net tangible assets calculated from the reviewed quarterly financial statements of the Company as of March 31, 2022. The Company has not

entered into any connected transaction or related persons and close relatives of such persons in the past 6 months. SGMP does not have any interest-bearing debt and it has THB 145.31 million in cash as of March 31, 2022. The crucial assumptions used for the financial project are as follows:

- (1) SGMP owns 14 manufacturing machines with total capacity of 9,360,000 boxes per year which each box contains 100 pieces of glove. In 2022, the utilization rate is expected to be 87 percent in the worst case and 95 percent in the best case. The utilization rate is expected to be gradually decreasing due to the decrease in demands as the pandemic is becoming less severe. In 2026, the utilization rate is expected to be 74 percent in the worst case and 77 percent in the best case.
- (2) In 2022, the net profit margin of SGMP is expected to be 32 percent of the total revenue of SGMP which will gradually decrease each year to 12 percent in 2026 as a result of the expected selling price to be lowered.
- (3) The Weighted Average Cost of Capital (WACC) used for this financial projection is 10.08 percent which is equal to its cost of equity as SGMP does not have any interest-bearing debt.
- (4) The terminal growth rate used for this financial projection is 0.50 percent due to the fact that the pandemic is becoming less severe and the expectation that the demand for rubber gloves will slow down and not rapidly grow.

When considering the offering price of the newly issued shares of the Company to be issued to the Seller of SGMP Shares at the offering price of THB 0.59 per share, this time compared to the market price of the Company's shares, which is calculated from the weighted average price of the Company's shares traded on the SET not less than 7 consecutive business days prior to the date of the Board of Directors' meeting, that is, between from May 5, 2022 to May 13, 2022 is equal to THB 0.54 per share (Source: SETSMART from www.setsmart.com). 1.1. Offering and Allocation Procedures

The Company shall allocate not exceeding 423,000,000 newly issued ordinary shares at a par value of THB 0.50 per share by way of private placement to the Seller of SGMP Shares at the offering price of THB 0.59 per share or a total value of THB 249,570,000 as consideration for the purchase of SGMP shares to the Seller of SGMP Shares. The Seller of SGMP Shares shall pay the purchase price with not exceeding 6,150,000 shares at a par value of THB 5 per share which is fully paid up or representing 30 percent of all issued and paid-up shares of SGMP to pay for the Company's newly issued ordinary shares instead of cash payment.

In this regard, the issuance and allocation of newly issued ordinary shares in consideration of the acquisition of shares in SGMP to the Seller of SGMP constitutes a private placement of newly issued ordinary shares, whereby the Shareholders' Meeting has resolved clearly determine the offering price at THB 0.59 per share, which is not lower than 90 percent of the market price of the Company's shares as required by the Notification of the Capital Market Supervisory Board No. TorJor. 72/2558 Re: Permission for Listed Companies to Offer Newly Issued Shares to Specific Investors dated October 28, 2015 (as amended) (the "**Notification No. TorJor. 72/2558**"). In this regard, the "market price" refers to the weighted average price of the Company's shares listed on the SET for the past period of the past 7 consecutive business days but no exceeding 15 consecutive business days prior to the date the Board of Directors' meeting passed its resolution to propose this matter to the Shareholder meeting to approve the capital increase and the allocation of newly issued share ,whereby the weighted average price of the Company's shares calculated for the past 7 consecutive days from May 5, 2022 to May 13, 2022 is equal to THB 0.54 per share (Sources from SETSMART at www.setsmart.com) for payment as compensation for the purchase and acceptance of transfer of shares from the Seller of SGMP Shares.

Therefore, the Company has no obligation to adjust the exercise price and/or the exercise ratio according to the Warrants of the Company. In this regard, the issuance and offering of newly issued shares to the Investors is at the offering price of not lower than 90 percent of the market price of the ordinary shares of the Company as detailed above, therefore, it shall not give rise to the need for rights adjustment as specified in the terms and conditions governing rights and obligations of the warrant issuer and the warrant holders representing rights to purchase ordinary share for the warrants to purchase ordinary shares of the Company Series 4 (the "**Warrants of the Company**"). Therefore, the Company has no obligation to adjust the exercise price and/or the exercise ratio according to the Warrants of the Company. However, the terms and conditions governing rights and obligations of the warrant issuer and the warrant holders of the Warrants of the Company specify that "the Company shall adjust the exercise price and/or exercise ratio, throughout the term of the Warrant when the Company offers the newly issued ordinary shares to the existing shareholders and/or public and/or private placement at the average price per newly issued shares which is calculated lower than 90% of the "Market Price of the Company's ordinary Shares"". In this regard, the 'Market Price of the Company's ordinary Shares' means the weighted average price of the Company's shares listed on the SET for the past period of at least 7 consecutive business days prior to the first day of the offering of newly issued

ordinary shares to the specific person. Therefore, the Company shall consider the rights adjustment again on the first day of the offering of newly issued ordinary shares to the private placement in this occasion.

Moreover, if the offering price of the newly issued ordinary shares to the Seller of SGMP Shares is lower than 90 percent of the market price of the Company's shares before the first day of offering of the newly issued ordinary shares, the Company is obliged to prohibit the Seller of SGMP Shares from selling all of such newly issued ordinary shares within one year from the date on which the Company's newly issued ordinary shares start trading on the SET (Silent Period). Upon a lapse of six months after the Company's newly issued ordinary shares have started trading on the SET, the Seller of SGMP Shares may gradually sell up to 25 percent of such locked-up shares in accordance with the requirements set out in the Notification of the SET Re: Rules, Conditions and Procedures for Consideration of Application for Listing of Ordinary Shares or Preferred Shares for Capital Increase as Listed Securities B.E. 2558 (2015) dated May 11, 2015 (as amended).

- (2) To sign, amend, change, contact or report any information in the applications and evidence necessary for and in connection with the issuance, offering, allocation, subscription and delivery of such newly issued ordinary shares, including contact and filing of the applications, documents and evidence with the Ministry of Commerce, the SEC Office, the SET, government agencies, or other relevant authorities, and the listing of the Company's newly issued ordinary shares on the SET, and to have the authority to take any other actions as deemed necessary and appropriate to ensure the successful completion of the Company's issuance, offering and allocation of the newly issued ordinary shares by way of private placement.

According to the Notification No. TorJor. 72/2558, the Company shall complete the offering of shares within the period approved by the shareholders' meeting but not later than 3 months from the date on which the shareholders' meeting resolves to approve the offering of newly issued shares, or the Company must complete the offering of shares within 12 months from the date on which the shareholders' meeting has approved to offering the shares. In the event that the shareholders have clearly resolved that after the expiration of the 3 months' period, the Board of Directors or the person assigned by the Board of Directors shall determine the offering price according to the market price during the offering period.

In addition, the above Share Purchase Transaction of SGMP and Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in SGMP are also regarded as a connected transaction of a listed company under the Notification of the Capital Market Supervisory Board No. TorJor. 21/2551 Re: Rules on Connected Transactions, dated August 31, 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the

Connected Transactions B.E. 2546 (2003), dated November 19, 2003 (as amended) (the “**Notifications on Connected Transactions**”). 3.3 Earnings per Share Dilution

The Company has net loss from operations. Therefore, there cannot be calculated.

4. The value that shareholders receive compared to the impact on their share of profits or their voting rights.

Upon comparison between the benefits from the offering of the newly issued ordinary shares for accommodate the acquisition of shares in SGMP and Price Dilution, and Control Dilution as described above, the Board of Directors is of the view that the offering of newly issued ordinary shares to accommodate the acquisition of shares in SGMP on this occasion is benefits to shareholders more than such impacts since the acquisition of shares in SGMP shall benefits to the Company and its shareholders as follows:

The Company foresees growth opportunities in growth of the rubber gloves which has stable income and continuous growth.

- (1) SGMP had revenue in 2018 amounting to THB 952.52 million, net profit of 2.06 THB million, in 2019 amounted to THB 591.07 million, net profit of THB 31.40 million, in 2020 with revenue of THB 481.50 million , net profit of THB 131.20 million and in 2021 has revenue of THB 1,741.46 million , net profit of THB 543.86 million, which demonstrates the potential to generate operating results for the Company and the investment in SGMP is likely to increase the Company's profit base significantly. The entering of the Share Purchase Transaction of SGMP will benefit the Company in expanding the scope of the Company's business to be more diversified in order to reduce the risk and to increase capacity and operating results for the Company in expanding its investment into the rubber glove business which is a business that the Company sees potential and growth opportunities that can generate good returns for the Company.

- (2) If the Company becomes a shareholder of SGMP by purchasing shares from the Seller of SGMP Shares who has been allocated new ordinary shares of the company in this time, the Company will receive dividends from profit of SGMP's operating is beneficial to the Company and its shareholders.
- (3) SGMP has a large customer base and business partners in various industries and have partners who can support or giving advice to the Company about the Company's business operations. This may have a positive effect on the Company in terms of increasing the Company's business opportunities. It can be helpful in introducing partners that are beneficial to the Company's business, which the investment will positively support, encourage, increase efficiency and extending the Company's business operations.
- (4) The company does not have to rely on the Company's cash flow or its working capital, and does not need to seek the source of large fund for investing in SGMP shares as the Company will issue and allocate newly issued ordinary shares of the Company in the amount of not exceeding 423,000,000 shares at a par value of THB 0.50 per share at the offering price of THB 0.59 per share, or equivalent to not exceeding THB 249,570,000 by the way of Private Placement as payment in kind for the acquisition of shares of SGMP instead of cash to the Seller of SGMP Shares. Therefore, this is the investment management of the Company which will not significantly affect the working capital of the Company, and does not create a burden for the Company to borrow a lot of money from financial institutions or any other person.

Nevertheless, the Company has considered the effects of issuing new shares to purchase SGMP as the transaction will have Control Dilution Effect on the existing shareholders as calculated above. However, the existing shareholders will not be affected by Price Dilution as the issuing price of the new shares is higher than the 7 – 15 days weighted average price of the Company shares on the day the Board of Directors had the resolution to call for the Extraordinary General Meeting. As such, the Company has compared the negative effect of Control Dilution against the benefits that the shareholders will receive in term of new asset, more stable cash flow, and future returns; The Company has estimated that the benefits that the shareholders will receive outweigh the negative effects of Control Dilution.

The Company expects that the investment in SGMP will yield returns in the form of dividends from SGMP's operation. However, SGMP's dividend payments are still uncertain because SGMP currently does not have a clear dividend payment policy. Nevertheless, the Company will negotiate with two other shareholders of SGMP to determine a clear dividend payment policy so that every shareholder will benefit from the operating profit of SGMP. The Company expects the return on equity of the Company to increase if the

Company receives dividend payments from SGMP. The investment in SGMP, according to the financial model from Kingsford Securities Public Company Limited (referring to page 28 of Attachment 2), will likely generate net operating profit for the Company in the foreseeable future. Furthermore, SGMP currently does not have any plan to expand its production or invest in new projects; As such, the Company expects SGMP to be able to pay dividends to its shareholders consistently. Therefore, the Company sees the opportunity in investing in SGMP and concludes that the issuance of new shares to purchase SGMP is reasonable and will have more benefits to the shareholders than the drawbacks in term of Control Dilution. By investing in SGMP, the shareholders will receive long-term benefits from the growth potential of SGMP.

5. Opinion of the Board of Directors

5.1 Rationale and Necessity for Capital Increase

The Board of Directors of the Company considers that the increase of registered capital of the Company to be used as payment in kind for the Share Purchase Transaction of SGMP whereby the Seller of SGMP Shares will use 6,150,000 shares in SGMP at a par value of THB 5 per share as payment in kind, which the Board of Director has considered to compare raising funds for SGMP's Acquisition Transaction by a capital increase to the seller of SGMP shares. Thus, the Board of Directors considers that a capital increase to be used as payment in kind for the Share Purchase Transaction of SGMP as detailed below .The Company's capital increase to pay for the purchase of SGMP's shares is reasonable and will secure the best benefits for the Company's shareholders.

- 1) Loaning money may cause the Company to have more borrowing , interest burdens, and resulting in the Company have higher financial costs
- 2) The capital increase through the public offering (Public Offering), the Board of Directors is of the opinion that the fundraising by this method requires a longer period than the capital increase by offering to the existing shareholders in proportion to the hold shares and a private placement.
- 3) Issuance and offering of newly issued ordinary shares to the existing shareholders in proportion to their shareholding (Rights Offering). The Board of Directors is of the opinion that funding in this way is limited by the uncertainty of the amount of funds that will be received since the Company may not receive support from the existing shareholders in fully subscribing for the Company's newly issued ordinary shares and it may be a burden on the existing shareholders to pay the capital increase and have a longer time frame for the process than the capital increase to the private placement.

5.2 Feasibility of the Plan for Use of Proceeds and Sufficiency of Source of Funds

The Company shall use newly issued ordinary shares as payment in kind for the acquisition of shares in SGMP to the Seller of SGMP Shares. The Company anticipates that the Share Purchase Transaction of SGMP could be completed by July 2022 or any other day as mutually agreed between the Company and the Seller of SGMP Shares (subject to the fulfillment of the conditions precedent under the share purchase agreement).

5.3 Reasonability of the Capital Increase, Plan for Use of Proceeds and Sufficiency of the Source of Fund in case the Money from the Share Offering does not cover the Budget for the Plan

The Company's capital increase is reasonable and shall be the best beneficial to the Company. Where the Company secures its funds by other means instead of the capital increase, such as, taking out a loan, the Company may incur additional loan burdens. In addition, the Share Purchase Transaction of SGMP shall increase the Company share value and the return rate to the Company's shareholders. This is because SGMP have a good performance in the past and have a potential to grow in the future and also to expand the scope of the Company's business to be more diversified in order to reduce the risk and to increase capacity and operating results for the Company in expanding its investment into the rubber glove business which the Company sees potential and growth opportunities that can generate good returns for the Company.

5.4 Potential Impact on the Company's Business Operations, Financial Position and Overall Operating Results from the Capital Increase

After having considered the justifications and benefits from the Share Purchase Transaction of SGMP and Transaction involving the Share Allocation in Consideration of the Acquisition of Shares in SGMP above, the Board of Directors is of the opinion that the capital increase is reasonable and shall bring the best benefits to the Company, particularly the offering of newly issued ordinary shares at the offering price of THB 0.59, which is based on the market price, namely the weighted average price of the Company's shares for the previous 7 consecutive business days during the period from May 5, 2022 to May 13, 2022 is equal to THB 0.54 per share (Source: SETSMART from www.setsmart.com) as payment in kind for the Share Purchase Transaction of SGMP which generate a steady cash flow with a promising future. This will enable the Company to receive dividends from the profit SGMP receives from SGMP's business operations and benefit the Company and its shareholders in the long run. In this regard, the company may lose the opportunity to receive dividends from SGMP's profits, which generates long-term passive income for the Company.

5.5 Justifications of the Offering Price and Backgrounds for Determination of the Offering Price

The Company clearly specified the offering price for newly issued ordinary shares by the way of private placement at THB 0.59 per share, which is not lower than 90 percent of the weighted average price of the

Company's shares calculated for the past 7 consecutive business days prior to the date that the Board of Directors passed its resolution to propose this matter to the Shareholders' Meeting of the Company to approve the increase and the allocation of newly issued ordinary shares by the way of private placement during the period from May 5, 2022 to May 13, 2022 is equal to THB 0.54 per share (Source: SETSMART from www.setsmart.com).

In this regard, the Board of Directors viewed that the offering price by the way of private placement by determining the offering price above is a reasonable price when compared to the book value of the Company according to the separate quarterly financial statements for the Company ended March 31, 2022, which equal to THB 0.50 per share. The Company has taken into account the current condition in which the Company has accumulated losses under the current economic and capital market conditions. In addition, the use of such shares to pay for the acquisition of shares in SGMP, who is a company with good growth prospects, will result in the Company to receive dividends from SGMP's operating profits and benefit the Company and its shareholders without using the Company's working capital and do not need to find other sources of funding such as bank loans, etc.

In addition, the Board of Directors is of the opinion that the acquisition of shares in SGMP, which the Company will purchase from the Seller of SGMP Shares at the offering price at THB 60.439 per share, is appropriate and reasonable price for the Company to pay the Company's shares as compensation for the acquired of SGMP's shares purchased from Seller of SGMP Shares with the share swap ratio of 1 ordinary share of SGMP per 102.439 newly issued ordinary shares of the Company. Upon comparison between the fair value of SGMP, the purchased shares of SGMP from the Seller of SGMP shares is equal to THB 60.439 per share, totaling at the value of THB 371,700,000 by reference to the valuation of the ordinary share of SGMP conducted by Kingford Securities Public Company Limited who is a financial advisor approved by SEC Office referenced to the discounted cash flow method, which is the most suitable method and reflects the most profitable and generating future cash flows from SGMP's business operations. The fair valuation of SGMP's shareholders' equity as at May 17, 2022 is THB 60.439 per share, a base case price of THB 60.439 per share. Therefore, it is deemed that a fair price of SGMP shares trading at THB 60.439 per share is reasonable.

When considering the reasons, necessity and benefits that the Company will receive from the issuance and allocation of newly issued ordinary shares for sale to the private placement as mentioned above. The Board of Directors was, therefore, resolved to approve the issuance and allocation of newly issued ordinary shares for sale to the Seller of SGMP Shares and is of the opinion that the allocation of the newly issues shares by the way of private placement, the allocation conditions, offering price are appropriate and for the best interest of the shareholders.

5.6 Rationale and Justifications of the Offering of Newly Issued Shares by way of Private Placement

The Board of Directors is of the opinion that the offering of newly issued shares on this occasion is in consideration of the acquisition of shares in SGMP between the Company and the Seller of SGMP Shares as a payment in kind without having to pay compensation in cash in full. So, there has no significant impacts on the financial flexibility, and SGMP is a company with growth and development potential, which will provide the Company's opportunity to receive the dividend from profit of SGMP's operating for the benefit of the Company and its shareholders.

Moreover, it also reduces the financial burden of the Company if the Company proceeds to seek the source of funds such as, borrowing of loan, it may result in greater financial and interest burden, or if it is the capital increase to the existing shareholders of the Company, it may result uncertainty of the amount receiving from the fund raising and may be a burden on the existing shareholders to pay the capital increase and have a time frame for the operation which is more rigid than the capital increase by way of private placement. Therefore, the Board of Directors is of the opinion that this Private Placement transaction is necessary and reasonable.

6. Certification of the Board of Directors on Capital Increase

For the purposes of capital increase by way of private placement, the Board of Directors has carefully considered and verified the information of the Seller of SGMP Shares, whom are a private placement investors and connected persons of the Company. In this regard, Board of Directors is of the opinion that the Seller of SGMP Shares have the potential and ability to actually invest. In the event where any director of the Company fails to perform his/her functions with integrity and due care to protect the Company's interests during the course of in this capital increase, and such failure has caused damage to the Company, the shareholders may take legal actions to claim damages from such director on behalf of the Company pursuant to Section 85 of the Public Limited Companies Act B.E. 2535 (1992) (as amended). In the event where the failure to perform such functions has caused any directors or persons concerned to gain undue benefits, the shareholders may take legal actions to recover such benefits from the directors on behalf of the Company pursuant to Section 89/18 of the Securities and Exchange Act B.E. 2535 (1992) (as amended).

1. The Board of Directors' meeting resolved to propose to the Shareholders' Meeting to consider and approve the purchase of SGMP's shares in the amount of 6,150,000 shares with a par value of THB 5 per share, representing 30 percent of all shares in SGMP from the Seller of SGMP Shares at the purchase price of THB 60.439 per shares totaling of not exceeding THB 371,700,000, including the execution of the share purchase agreement, and other arrangements, contracts and documents relating to the acquisition and acceptance of shares in SGMP (the "Share Purchase Transaction of SGMP"). The details are as follows;

(1) The Company will pay for the consideration by issuance of newly issued ordinary shares of the Company by the way of a private placement offering as payment in kind for the acquisition of shares instead of cash. Upon comparison between the fair value of SGMP and that of the Company, the Board of Directors resolved to propose that the Shareholders' Meeting consider and approve the issuance and allocation of not exceeding 423,000,000 shares at a par value of THB 0.50 per share, with the offering price of THB 0.59 per share, totalling THB 249,570,000 to the Seller of SGMP Shares as payment in kind for the acquisition and acceptance of shares in SGMP from the Seller of SGMP Shares, representing 17.35% of all issued and paid-up shares of the Company (based on all issued and paid-up shares of the Company after the execution of share allocation in consideration of the Share Purchase Transaction of SGMP) with the shares swap ratio of 1 SGMP's shares per 102.439 newly

issued shares of the Company (fractions of shares will be discarded) (the “**Transaction involving the Share Allocation in Consideration of the Acquisition of Shares in SGMP**”).

(2) The Company will pay for the consideration in cash in the amount of THB 122,130,000.

Transaction involving the Share Allocation in Consideration of the Acquisition of Shares in SGMP constitutes an offering of newly issued ordinary shares by way of private placement, whereby the Shareholders’ Meeting of the Company shall pass a resolution to specifically determine the offering price at THB 0.59 per share, which is not lower than 90% of the market price of the Company’s shares pursuant to the requirements of the Notification of the Capital Market Supervisory Board No. TorJor. 72/2558 Re: Permission for Listed Companies to Offer Newly Issued Shares to Specific Investors dated October 28, 2015 (as amended) (the “**Notification No. TorJor. 72/2558**”). In this regard, the “market price” refers to the weighted average price of the Company’s shares listed on the SET for the past period of at least 7 consecutive business days, but not exceeding 15 consecutive business days prior to the date the Board of Directors passed its resolution to propose this matter to the Shareholders’ Meeting of the Company to approve the capital increase and the allocation of new shares, whereby the weighted average price of the Company’s shares calculated for the past 7 consecutive business days during the period from May 5, 2022 to May 13, 2022 is equal to THB 0.54 per share (Source: SETSMART from www.setsmart.com). The Company’s newly issued ordinary shares shall be used as payment in kind for the acquisition and acceptance of SGMP’s shares from the Seller of SGMP Shares.

The Share Purchase Transaction of SGMP is regarded as an acquisition of assets pursuant to the Notification of the Capital Markets Supervisory Board No. TorJor. 20/2551 Re: Rules on Entering into Material Transactions Deemed as Acquisition or Disposal of Assets dated August 31, 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Acquisition and Disposition of Assets B. E. 2547 (2004) dated October 29, 2004 (as amended) (the “**Notifications on Acquisition and Disposition of Assets**”). Upon the reviewing of the transaction size by various approaches under the Notifications on Acquisition and Disposition of Assets, the maximum value of the transaction is equal to 75 percent according to total value of consideration method calculated from the reviewed quarterly financial statements of the Company ended March 31, 2022. The Company has not entered into the acquisition of asset transaction in the past 6 months, which has not approved by the shareholders meeting. Therefore, such transaction is therefore classified as a “Class 1 Transaction” under the Notifications on Acquisition and Disposition of Assets, i.e. transaction, which has a transaction value equal to 50% or higher but lower 100%. The Company is, therefore, obliged to prepare a report and disclose the information in respect of the entry into the transaction to the SET immediately, whereby there must be an information memorandum comprising at least as many details as required in List (1) of the Notifications on Acquisition and Disposition of Assets, and convene the Shareholders’ Meeting to approve the entering into the transaction with affirmative votes of not less than three-fourths of the total number of votes of the shareholders who attend the meeting and are entitled to vote, discarding the interested persons including appoint an independent financial advisor (IFA) who is a financial advisor approved by the Securities and Exchange Commission (the “SEC Office”). In addition, the Company has proceeded for the directors who have conflict of interest and/or are connected person in execution of the transaction, namely Mr. Ho-Chih Huang shall neither be present nor be eligible to vote at the Board of Directors’ Meeting.

In addition, the above Share Purchase Transaction of SGMP and Transaction involving the Share Allocation in Consideration of an Acquisition of Shares in SGMP are also regarded as a connected transaction of a listed company under the Notification of the Capital Market Supervisory Board No. TorJor. 21/2551 Re: Rules on Connected Transactions, dated August 31, 2008 (as amended) and the Notification of the Board of Governors of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions B.E. 2546 (2003), dated November 19, 2003 (as amended) (the “**Notifications on Connected Transactions**”). This is because Mr. Ho-Chih Huang, a chief executive officer and director of the Company, holds the shares in the Seller of SGMP Shares in the proportion of 100% of total shares in the Seller of SGMP Shares. The aforementioned connected transaction is an asset transaction with a value of 67% of the Company's net tangible assets calculated from the reviewed quarterly financial statements of the Company as of March 31, 2022. The Company has not entered into any connected transaction or related persons and close relatives of such persons in the past 6 months. Such Transaction has the total transaction size more than 3 percent of the net tangible assets of the Company. Therefore, the Company is required to disclose information on the connected transactions to the SET, obtain approval for the transaction from the Board of Directors and the shareholders' meeting of the Company which must be approved by the Shareholders' meeting by affirmative votes of not less than three-fourths of the total number of votes of the shareholders who attend the meeting and are entitled to vote, discarding the interested persons including appoint an independent financial advisor (IFA) who is a financial advisor approved by SEC Office and in respect of which the directors who have conflict of interest and/or are connected person in execution of the Transaction, namely Mr. Ho-Chih Huang shall neither be present nor be eligible to vote at the Board of Directors' Meeting.

However, the Share Purchase Transaction of SGMP and the Transaction involving the Share Allocation in Consideration of the Acquisition of Shares in SGMP shall proceed only after the conditions precedent as specified in the Shares Purchase Agreement between the Company and the Seller of SGMP Shares (the “**Shares Purchase Agreement**”), have been fulfilled or waived. In this regard, the 'Market Price of the Company's ordinary Shares' means the weighted average price of the Company's shares listed on the SET for the past period of at least 7 consecutive business days prior to the first day of the offering of newly issued ordinary shares to the specific person.
