Management Discussion and Analysis of operating results and financial position

Overview of the past results' operation

The Company operates in telecommunication business by providing telecommunication services through nationwide fiber optic network and providing installation of telecommunication infrastructure. On 8 May 2012, the Company obtained telecommunication license type 3 from National Broadcasting and Telecommunication Commission (NBTC) in which, allowed the Company to own the network and rendering service through the mentioned network. The period of license is 15 years. The Company has started to construct core fiber optic network since 2012 in which the fiber optic were installed along with telegraph poles that the Company has 30 years' right of way since 19 October 2012 from The State Railway of Thailand. The Company has also constructed the main trunk routes and sub-routes along with the road through the poles as to connect to customers. The Company has launched a service under the network called "Interlink Fiber Optic Network" in June 2013.

In 2014, the Company has entered into data center business by acquiring assets from Interlink Communication Public Company Limited ("ILINK") including building and equipment as to provide data center space services for companies and organizations according to their needs. The data center services have been operated in October 2014.

According to the policies of the government, Digital Economy and Thailand 4.0, they are to use information technology to apply to the economic and social activities, by focusing on the development of digital infrastructure and aiming to provide stability data connection in all areas with adequately supply for demand and could be access at a reasonable cost, as to lead to further development of the nation in both economic and social aspects in efficiency way. These policies are important to help promote the growth of information and communications technology industry (ICT) of Thailand and the Company as well.

For the three-month period ended 30 June 2019, the Company has total revenue of Baht 592.35 million or increasing by Baht 99.84 million or 20.27% comparing to the same period of prior year. In addition, the Company has net income of Baht 47.01 million or increasing by Baht 13.25 million or 39.25% comparing to the same periods of prior year as well.

It was higher than the prior year by 20.40% which was aligned with the increasing of revenue. The table below illustrated the components of costs of services and their gross profit margin.

Service Costs	30 June 2019		30 June 2018	
	Million Baht	GPM (%)	Million Baht	GPM (%)
Cost of network rendering	157.39	26.54	129.14	16.06
Cost of network installation service	297.44	14.83	250.52	20.03
Cost of data center space service	15.85	33.23	11.27	43.79
Total costs of services	470.68		390.93	

2.1.1. Cost of network rendering

For the three-month period ended 30 June 2019, the Company had cost of network rendering of Baht 157.39 million in which resulting to gross profit margin of network rendering service was at 26.54% which increased comparing to the prior year, mainly because of the revenue recognition of network rendering service of the increased projects. The major expenses are such as depreciation expenses, rental space to install the network expenses, repair and maintenance expenses, interconnection of network expenses, and employee benefit expenses which represented 29.04%, 20.28%, 15.44%, 15.32%, and 7.91% of total cost of network rendering for the three-month period ended 30 June 2019, respectively.

2.1.2. Cost of network installation service

For the three-month period ended 30 June 2019, the Company had cost of network installation service of Baht 297.44 million in which resulting to gross profit margin of installation service was at 14.83%. The gross profit margin of 2019 decreased comparing to prior year because of the project in contractor of communication system for DMS which gross profit margin is lower than 20%. Major costs of network installation service are such as material cost and installation cost.

2.1.3. Cost of data center space service

For the three-month period ended 30 June 2019, the Company had cost of data center space service of Baht 15.85 million in which resulting to gross profit margin of data center business was at 33.23%. The gross profit margin decreased due to increasing of electricity expense charge from MEA while service charge rate from the Company to the customer were fixed at contractual rate. Major costs of data center space service are such as depreciation expenses, utilities expenses, and employee benefit expenses.

The major of finance costs are interest expenses from loans that increasing in the line with loan principal amount. As of 30 June 2019, the Company had short-term loans from financial institutions amounted to Baht 1,629.23 million, long-term loans from financial institution amounted to Baht 1,572.03 million, and finance lease liabilities amounted to Baht 60.37 million (As of 30 June 2018: short-term loans from financial institutions amounted to Baht 477.48 million, long-term loans from financial institution amounted to Baht 1,821.32 million, and finance lease liabilities amounted to Baht 59.54 million).

2.3. Net profit and net profit margin

The Company's net profit for the three-month period ended 30 June 2019 was Baht 47.01 million and the net profit margin was at 7.94% in which they were higher than that in the same period in 2018 which net profit was Baht 33.76 million and the net profit margin was at 6.86%. The increase mainly because of growth of service income as described above.

2.4. Return on Equity (ROE)

ROE as of 30 June 2019 is 10.68%.

Financial Position

1. Assets

As at 30 June 2019, the Company had total assets of Baht 6,262.78 million or 15.65% of increasing compared to Baht 5,415.44 million at the end of 2018. Major assets are such as cash and cash equivalent, trade accounts receivable, accrued revenue from network installation service, and fixed assets and telecommunication networks which were presented as at 30 June 2019's figures by 2.88%, 6.93%, 20.51% and 62.79% of total assets, respectively. The significant accounts that were notable changed were such as

- 1) Trade and other receivables, net, increased because the Company paid down payment for equipment used in Project USO Phase 2;
- 2) Accrued revenue, increasing according to progress work that still to be billed; and
- 3) Fixed assets and telecommunication networks, increasing from expanding as to support sales and increase its coverage as well as its stability.

2. Liabilities

As at 30 June 2019, the Company had total liabilities of Baht 4,643.93 million or increased by 21.66% comparing to Baht 3,817.07 million at the end of 2018. Mainly, the increasing is from the proceeds from short-term loans from financial institutions by Baht 592.27 million and advance received from network installation service by Baht 173.06 million. However, the Company paid for long-term loans from financial institution by Baht 162.78 million in 2019.

Major liabilities are such as short-term and long-term loans from financial institutions and trade and other payables that they are approximately 68.93% and 23.60% of total liabilities as at 30 June 2019, respectively.

3. Equity

As at 30 June 2019, the Company had equities of Baht 1,618.85 million or increased by 1.28% comparing to Baht 1,598.37 million at the end of 2018. The shareholders' equity increased by Baht 85.92 million as a result of the six-month period operation results. The Company paid dividends by Baht 57.00 million. Moreover, the Company has adopted the new Thai Financial Reporting Standards (TFRS) no. 15, Revenue from contracts with customers from 1 January 2019 under the modified retrospective approach and the comparative figures have not been restated. The opening balance of retained earnings was decreased by Baht 8.44 million by the impacts of adoption of TFRS 15.

4. Capital Structure

The Company has debt to equity ratio at 2.87 times as at 30 June 2019 that is increased from 2.39 times of 2018. The significant increase is due to the proceeds from loans from financial institution to payment for purchases of fixed assets and telecommunication networks and investing in network installation service.

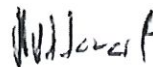

In addition, the Company has to comply to 2 conditions of debt covenant as follows:

- 1) Loans from financial institution to equities and loans from related party must not be greater than 2 times; and
- 2) DSCR must not be less than 1.2 times.

As at 30 June 2019, the Company has the above ratios at 2.01 times and 1.20 times, respectively. However, the financial institution will evaluate at the end of fiscal year. In addition, the financial institution just approved to increase the ratio of loans from financial institution to equities and loans from related party from 2 times to 2.5 times.

Please be informed accordingly.

Yours sincerely,

(Mr. Nuttanai Anuntarumporn)

Managing Director
