Independent Auditor's Report

To the Board of Directors of The Siam Commercial Bank Public Company Limited

Audit Report

Opinion

I have audited the interim consolidated and the Bank's financial statements of The Siam Commercial Bank Public Company Limited and its subsidiaries (the "Group") and of The Siam Commercial Bank Public Company Limited (the "Bank"), respectively, which comprise the consolidated and the Bank's statements of financial position as at 30 June 2026, the consolidated and the Bank's statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes, comprising a summary of material accounting policies and other explanatory information.

In my opinion, the accompanying interim consolidated and the Bank's financial statements present fairly, in all material respects, the financial position of the Group and the Bank, respectively, as at 30 June 2026 and their financial performance and cash flows for the six-month period then ended in accordance with Thai Financial Reporting Standards (TFRSs) and the regulations of the Bank of Thailand.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Interim Consolidated and the Bank's Financial Statements* section of my report. I am independent of the Group and the Bank in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to audits of the interim consolidated and the Bank's financial statements of public interest entities, and I have fulfilled my other ethical responsibilities. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the interim consolidated and the Bank's financial statements of the current period. These matters were addressed in the context of my audit of the interim consolidated and the Bank's financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Allowance for expected credit loss on loans to customers and accrued interest receivables	
Refer to notes 3.2.5, 4.1, 12 and 13.	
The key audit matter	How the matter was addressed in the audit
As at 30 June 2026, loans to customers and accrued interest receivables, recorded in the interim consolidated and the Bank's financial statements amounted to Baht 2,302 billion and Baht 2,301 billion, respectively (approximately 65.23% and 65.23% of total assets, respectively), against which allowance for expected credit loss on loans to customers and accrued interest receivables in the interim consolidated and the Bank's financial statements amounted to Baht 120 billion and Baht 119 billion, respectively, were provided. TFRS 9 and the related Bank of Thailand ("BoT") notifications requires the Group to recognise expected credit losses ("ECL") on certain types of financial instruments including loans to customers and accrued interest receivables. The Group has developed methods and models in determining the allowance for ECL which involves significant judgment and estimation on relevant assumptions and data. The areas where management applied significant judgment and estimation include, but are not limited to, the following: • Selection of criteria to assess whether the financial instruments have a significant increase in credit risk ("SICR"); • Development techniques to develop ECL model parameters, including the probability of default ("PD"), loss given default ("LGD") and exposure at default ("EAD"); • Determination of forward looking macroeconomic variables and probability-weighted scenarios; and • Qualitative adjustments including management overlays made to incorporate identified credit risks not captured in the ECL models such as the change in trends and risks in underlying portfolios. The carrying amount of allowance for expected credit loss on loans to customers and accrued interest receivables is considered a key audit matter due to the significance of the aforementioned judgments and estimates made.	My audit procedures included: • Performing a risk assessment by considering internal and external factors which could affect the performance of individual customers, industry sectors, customer segments, or which could influence the judgments and estimates. • Testing the design and/or operating effectiveness of relevant controls surrounding the credit and impairment process. The selected controls include but are not limited to the key controls over selection of criteria to assess SICR, ECL model risk management, determination of macroeconomics variables and the probability-weighted scenario and qualitative adjustments including the management overlay. • Testing a sample of credit reviews prepared by management for individual large exposures and loans to customers subject to restructuring and reschedule. I formed my own independent assessment based on the detailed review of the credit profile and other relevant information, which include but are not limited to the reasonableness of the assumptions over ability to repay and collateral valuation, the appropriateness and accuracy of internal credit ratings and ECL parameters assigned for those customers. • Assessing and testing the reasonableness of the SICR and staging criteria applied by the Group for different types of loans to customers in order to evaluate whether the criteria applied are consistent with the Group credit risk management practices, requirements under TFRS 9.

Allowance for expected credit loss on loans to customers and accrued interest receivables	
Refer to notes 3.2.5, 4.1, 12 and 13.	
The key audit matter	How the matter was addressed in the audit
	• Involving my own credit specialists to assess key data, assumptions, method, models and calculations used by management to derive ECL model parameters on significant loans to customers portfolios. They also perform the test for reasonableness of macroeconomic factors used and probability-weighted multiple scenarios including the back-testing and assess methodology and data used by the management in the identification and estimation of qualitative adjustments including the management overlay. • Involving my own IT specialists to test reconciliations of data including ECL parameters among the underlying systems. • Testing the mathematical accuracy of the ECL calculation including qualitative adjustment on a sample basis. • Considering the adequacy of disclosures in accordance with Thai Financial Reporting Standards and BoT notifications and guidelines.

Responsibilities of Management and Those Charged with Governance for the Interim Consolidated and the Bank's Financial Statements

Management is responsible for the preparation and fair presentation of the interim consolidated and the Bank's financial statements in accordance with TFRSs and the regulations of the Bank of Thailand, and for such internal control as management determines is necessary to enable the preparation of interim consolidated and the Bank's financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the interim consolidated and the Bank's financial statements, management is responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Interim Consolidated and the Bank's Financial Statements

My objectives are to obtain reasonable assurance about whether the interim consolidated and the Bank's financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these interim consolidated and the Bank's financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the interim consolidated and the Bank's financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Bank's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the interim consolidated and the Bank's financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the interim consolidated and the Bank's financial statements, including the disclosures, and whether the interim consolidated and the Bank's financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group as a basis for forming an opinion on the group interim consolidated financial statements. I am responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the interim consolidated and the Bank's financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Review Report

I have also reviewed the accompanying interim consolidated and the Bank's statements of profit or loss and other comprehensive income for the three-month period ended 30 June 2026 of the Group and the Bank, respectively. Management is responsible for the preparation and presentation of these interim consolidated and the Bank's statements of profit or loss and other comprehensive income in accordance with Thai Accounting Standard 34, "Interim Financial Reporting" and the regulations of the Bank of Thailand. My responsibility is to express a conclusion on these interim consolidated and the Bank's statements of profit or loss and other comprehensive income based on my review.

Scope of Review

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim consolidated and the Bank's statements of profit or loss and other comprehensive income for the three-month period ended 30 June 2026 are not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting" and the regulations of the Bank of Thailand.
